BECKWITH'S

Anti-Dyspeptic

PILLS!

THESE VALUABLE PILLS Are again offered to the Public.

Use the Preventive and you will not Need the Cure.

Are you suffering from disease of the Liver or Spleen?

Hon. BEVERLY TUCKER, late Law Professor of William & Mary College, says: "Fourteen years ago I was left by a most malignant fever, with a diseased liver, a disordered digestion, and a constitution in ruins. My physicians permitted me hope, that with care and prudence I might have a few years of precarious existence, and assured me that the least indiscretion would be fatal. Two years ago I met with your Anti-Dyspeptic Pills, and confiding in the accompanying certificates of responsible gentlemen, whom I happened to know, I took them according to directions. The result is, that I now eat what I please, sleep soundly, and enjoy life as much as any man living. For this, it gives me pleasure to say, you have my thanks, and to add the assurance of my high regard." *These Pills Contain no Mercury or other Mineral Substances, they are purely a Vegetable Compound.*

Price 35 cents per Box.

THE HERALD

SATURDAY, NOVEMBER 16, 1872.

GLOUCESTER C. H., VA.

The late election has resulted in a most disatrous defeat to the friends of Constitutional Government. We can only trust that a merciful Providence will avert the evils which may ensue. We are politically helpless, but it would be unmanly to repine as it would be degrading to abandon one principle for which we have contended.

In this county the result has been a great disappointment to us—but it is due to those who have conducted the canvass, to say that no effort was spared by them. To Major Thomas S. Taliaferro, County Canvasser, and his assistants, Messrs. Maryus Jones and Fielding L. Taylor, the hearty thanks and plaudits of our Conservative people are due, for their active exertions, and the able and eloquent speeches which were made by them in all parts of the county.

Continued from third page of last issue.

[Communicated.]

Mr. Editor:

You can obtain a list of the tongers, and the number of vessels from the inspector of oysters, in each district; you can obtain the amount of capital invested, by reference to the assessor's books; you can obtain the names of the riparian owners from the land books, in each county.

But how can these steps be be taken in each county? I propose that each county take the subject in hand, at once, and have an understanding, how to proceed, how many delegates; the basis of representation, &c. I think there are seventeen counties, interested in this question, and at the outside, there would not be over seventy delegates, and when the convention assembled, it could adopt such measures as would protect all interests and the questions would all be settled, as a matter of course, the majority in the convention would decide all questions, and would not be referred back to the people. Even if this convention did not exactly please all parties, it would be infinitely better than leave it to the members of the Legislature from the mountains. This is a plan that I have been thinking over for a long time, and I think it is the best way to settle the troublesome puzzle; the best way to cut "Gordion knot."

If this convention should assemble, and agree upon any plan, then the plan could be submitted to the committee, asking them to adopt the plan, as their report, to the Legislature.

I have mentioned this subject to very many persons, and, as yet, not one have objected to the plan I propose. Through your columns the people in the surrounding counties can read this letter, and if they approve of it, I hope something will be done to carry this plan into effect.

There are several newspapers in Eastern Virginia that could assist you in discussing this question, and bring it before the people, and of course, all of the papers could make many improvements on this plan proposed, or even recommend a different one. The Norfolk Press, the Richmond Press, the Tappahannock paper, the West Point paper and the Fredericksburg papers, all no doubt, would take an interest in this matter. Something should be done just at this time, and unite our people on this question, for at present, we have a law that is decidedly imperfect, and one that will be constantly contested in our county, and it should be amended in many particulars.

One of the committee appointed by the Governor is a citizen of this county, and I believe will be very glad to hear our people speak through a convention, and when that is done, he will most cheerfully carry out their wishes, for Col. George Wythe Munford *is one of us*, with excellant judgement, high character, fine legal attainments, and a Virginian of the highest type; his work will be done and well done, and his aim will be to take care of all interests. It is not my purpose in this letter to lay before your readers any paticular plan of taxation, for it would consume too much space in your paper, and moreover, the ideas I entertain might not be of benefit to anyone, and I leave that for abler minds; but this much I will say, that it is certain, that a tax will be fixed; it is impossible for the oysters to escape a tax; and if the convention should be called, the delegates should go for the purpose of recommending a liberal tax on every interest, and one that will bear equally on all.

I have written this at the solicitation of many persons, representing, in part, the tongers, the dredgers, the capitalists, the vessel owners, the planters and the riparian owners; and if you will discuss this question through your paper, I think that some good will result. If you are opposed to the suggestions I have made, say so, and give us your reasons, and let the whole subject come up. I am anxious to see this matter settled finally, and not at every election have our people divided about the question of tax on oysters.

Yours, &c.,

J. N. S.

A Remarkable Suit.

Many people who have read Dickens' novel of Bleak House, and the pressure of chancery suits upon the minds of people who sought to right their wrongs through them, thought the pictures overdrawn; and yet Miss Flite who never became discouraged after repeated defeats, and never faltered until at last she had her case decided on the "Day of Judgment," and Richard, who sank into insanity and the grave, where hardly more pitiable victims of the friction and crosses that are incurred by litigation than is George W. Purdy, of Marlborough, N. Y. who for ten years has been in the constant [illegible] with one of his neighbors, Robert A. Kerr, who in 1859 leased a farm from Elisha Purdy, George's father, for a period of five years, with a covenant to convey the property if Kerr paid $10,000 and all arrearages of rent, at any time during the first three years of the term.

The next year Mr. Purdy died, leaving a widow and five children. Kerr purchased the interest of two of the children in 1861, and in 1862, on the last day of the three years, he offered to pay the other children and the widow all the back rents and their share of the $10,000, at the same time demanding a deed. He did not have the money, and they refused to convey unless compelled so. Kerr then commenced suit, and it has run through all possible forms and varieties, being decided and the decission appealed to from time and again, the last and recent conclusion being a refusal to compel a conveyance. The property has grown in value until it now involves as much as $60,000. Purdy's brain has been so affected by the long struggle that last summer he attempted to kill his mother and sisters and was sent to the insane assylum, from which he has just been released.—*Alexandria Gazette.*

BIG NAMES.—The horse disease with plenty of local habitations—one of them, we are sorry to say, in Baltimore—but no recognised scientific or popular name has been the cause of a number of verbal nomenclatures that are singularly rich, varied, and often quite original. Many papers have the good sense to call it simply an epidemic among horses. This does not suite the taste for sounding words that afflicts others Equine Epizootic has a sound that is emenently descriptive in the ears of some of our contemporaries, Hippo-Malaria has been coined from the imaginative brain of a reporter of another. One again is charmed with The Ephippic. and admits it even to its editorial columns. Equine Influenza has its votaries, and the Hippozymosis is not without at least one admirer To crown the whole, we have The Hippopathological Equine Epidemic, and the New York Herald with Hipporinhorrhea, which take ones breath away. Here is richness indeed.—*Balt. Gazette*

FACTS FOR FARMERS.—A series of experiments, instituted to test the average loss of weight by drying, shows that corn loses one-fifth and wheat one fourteenth by the process. From this statements is made that farmers will make more by selling unshelled corn in the fall at seventy-five cents than the following summer at one dollar a bushel, and that wheat at $1,32 in December is equal to $1,50 for the same wheat in June following. This estimate is made on the basis of interest at 7 per cent and takes no account of loss from vermin. These facts are worthy of consideration.

What is the difference between October and November? With October leaves fall, with November fall leaves.

A GEORGIA WEDDING.—The preacher was prevented from taking his part in the ceremony, and a newly created Justice of the Peace who chanced to be present was called upon to officiate in his place. The good man's knees began to tremble, for he had never tied the knot, and did not know where to begin. He had no "Georgia Justice," or any other book from which to read the marriage service. The company was arranged in a sem-circle, each one bearing a tallow candle. He thought over every thing he had ever learned, even to—

'Thirty days hath September,
April June and November.'

But all in vain he could recollect nothing that suited that occasion A suppressed titter all over the room admonished him that he must proceed with something, and in an agony of desperation he began—

'Know all men by these presents that I —' here he paused, and looked up to the ceiling while a voice in the corner of the room was heard to say—

'He is drawing a deed for a tract of land,' and they all laughed.

'In the name of God, amen!' he began again only to here another voice in a loud whisper, say,

'He is making his will; I thought he could not live long, he looks so powerfully bad.'

'Now I lay me down to sleep
I pray———'

was the next essay, when some erudic gentleman remarked—

'He is not dead, but sleepeth.'

'O yes! Oh yes!' continued the Squire A voice replied: 'Oh no! Oh no! don't let's.

Some person sung out, 'Come into Court!' and the laughter was general.

The bride was near fainting—the Squire was not far from it but being an indefatigable man, he began again—

'To all and singular, the sher—

'Let us run, he is going to levy on us said two or three at once.

Here a gleam of light flashed across the Squire's face; he ordered the bride and groom to hold up their hands, and [illegible]

'You, and each of you, do solemnly swear, in the presence of the present company, that you will preform towards each other, all and singular, the function of husband and wife, as the case may be to the best of your knowledge and ability, so help you God'

'Good as wheat!' exclaimed the father of the bride.

A GOOD BEGINNING.—Hon. Erastus Corning died not long since, at Albany, worth nearly ten millions. He came to the city in early boyhood, poor and friendless, seeking employment. Applying at a store for work of somekind, the merchant thought him two small and young for service.

Why my little boy, said he, what can you do?

Can do what I am bid, sir! was the prompt rely.

That reply secured him a place, and that spirit made him a favorite with his employer, and assured steady promotion. Any young man who is ready for hard work and attends to his duties promptly and with thoroughness, may hope to succeed Idlers and shirkers, whose aim is to do as little as possible, have a hard road to travel.

A BRAVE WORK.—Our readers probably passed over a short paragraph in the Gazette, which announced that the timber encasing of a tunnel on the Truckee and Virginia railroad, Nevada, had taken fire and passenger train which went through narrowly escaped destruction. This passage was one of the most daring exploits of the many that have been performed by railroad engineers. John Bartholomew, said to be "one of the best engineers that ever mounted a locomotive," and we can well believe it, was the hero of the occasion. And he approached the tunnel he saw the deep red flames and the dense black smoke. It was too late to reverse his engine, and so with a quick, resolute jerk of the lever, he put on all steam, and rushed, as it appeared, into the very jaws of death. No thought of jumping off—only a stern sense of duty. Bartholomew at his post, through the smoke and flame, the train plunged. The women passengers screamed, and even the stout-hearted men quivered with sudden fear as they dashed through the fierce hot light, but in another instant the terrible gauntlet was passed, and they safely slowed down in the cool, gray morning day light beyond. It was bravely done.—*Baltimore Gazette.*

Here is a poetic personal, cut from a Western newspaper:

Wanted—A brave-hearted man, who has buffeted the storms of life and did not tremble for the issue when the troubles came; must be refined and respectable; middle-aged and discreet.

Wilt thou leave me in my anguish,
Groping on through life alone?
Shall I, weak and trembling, languish,
With no arm around me thrown?

The Duello.

The city of Atlanta hath been in a ferment. The chivalry hath vindicated its honor once more, and shown itself worthy of its glorious history. There has been a duel The "code of honor" has been revived, the "satisfaction due to a gentleman" has been accorded, a young man has been shot and a family thrown into consternation, all in due from and in accordance with the traditions of the duello. The courage, honor, gentlemantiness and chivalry appear clearly in the bare facts of the story, and Southern society is to be congratulated that it is still blessed with these noble qualities and their natural results.

It was at an "Episcopal bazaar." The brave men of Atlanta were being forced by the fair woman to invest their cash in baby cloaks, coach clothes and chances in a frosted cake. Mr. Wallace Haskell, whether in retaliation for this gimlet process, or playfulness of spirits, doth not appear, pinched the arm of a high-born maiden. Dire was the maidens wrath, and she would accept no apology. Her lover, Mr. Houston T. Force was informed of the atrocious deed, and the next day he sailed forth to meet the offender with a cane in one hand and a pistol in the other, and did then and there chastise the catiff wretch and chase him into an apothecary shop. The chastised youth took the matter under advisement and concluded that his honor had been trifled with in that caning process, and sent a challenge by his friend, Mr. Townsend. A vision of pistol arose before Mr. Force, and he concluded that Haskell was no gentleman and he would not fight him. Thereupon Mr. Townsend felt insulted and took up the challange. His honor was likewise in a damaged condition and there must be fighting. Force seems to have been forced by his friends to repair the injury he had done to that sensitive part of Mr. Townsend, and a hardly less sensitive part of Mr. Haskell, by agreeing to shoot the former with a double-barrel shot-gun. This was a good weapon because it would [illegible] as well as the courage of the combatants.

They met at a convenient spot, in front of a grave-yard at forty paces distance—having stimulated their courage by a liberal indulgence in brandy, and then and there Mr. Force did shoot Mr. Townsend with a double charge of buckshot, and immediately thereafter rushed up to him with every demonstration of reconciliation and the satisfaction of a gentleman.

Townsend's honor is all right now, but but his body is in a bad condition. The doctors think he may recover, and meantime Force gives a parting shot to Haskell by posting him in the papers as a coward and a poltroon.

All this is chivalrous and manly, and Atlanta rejoices and is proud of her noble sons.—*N. Y. Eaening Mail,*

The reign of the servant girls has commenced. A gentleman sent to the intelligence office to obtain a "young lady" to look on while his wife did the work. The fair creature who offered for the place, after asking some fifty questions about whether they had 'tubs set,' whether the 'kitchen was down stairs,' &c, asked how many evenings she could have 'out.' 'Wall,' said the gentleman, 'I don't see how we can let you have more than seven.' 'How many children have you?' said the handmaiden. 'Only one boy eight years old, but we will drown him if you think he would be in the road.

The supporters of M. Thiers, in the French Assembly, propose to make him President for life. It is announced that many of the members favor the proposition, and that it will receive the undivided support of 'the commercial community.' It is urged that in no other way can France so speedily free herself from the difficulties in which she is involved. That the indemnity cannot be paid, nor the Republic maintained if any change in the Administration is permitted.

A barbor in Titusville, while cutting the hair of rural customer ran his shears against some hard substance, which proved to be a wheatstone. The old farmer said he had missed that wheatstone ever since haying time last July and had looked all over a ten acre lot for it, but now remembered sticking it up over his ear.

An indulgent Kansas parent sold his cooking stove for $11 in order to take his thirteen children to the circus. He says that a circus only comes two or three times a year, and besides, he never had much to cook on the stove anyhow.

An exchange says that "Young men in England are forfeiting their marriage engagements in consequence of the high price of coal." They shouldn't stand back on that account. They ought to know that many a man's wife makes the house hot enough for him without the use of a pound coal.

A little volumn, seventy years old, entitled "The History of the Devil," was sold at auction in Washington the other day, and there seemed to be quite a demand among the filial population of that city.

Selected Poetry.

Two Roses.

BY G. H. F.

When winter winds were blowing
Upon the northern host,
And storms severe were snowing,
Along the eastern coast,
There came a courier, bringing
Away from southern lands,
Where merry birds were singing,
A gift from pretty hands.

May roses, I remember,
She found in open air,
That, in the late December,
Were blooming bright and fair;
May roses sweet, that linger
Full oft to summer time,
She plucked with dainty finger,
For me in frozen clime.

One bloomed in tender beauty,
To show the trust sustained;
The other rose was duty,
That for my life remained.
It was a budding flower,
With hope enshrined therein,
And symbolized the power
Of him who strives to win.

'Tween hallowed leaves I pressed them,
To save them from decay,
And oft my heart hath blessed them,
Since that eventful day;
When earthly scenes around me
Have naught of cheer to give,
And with their wiles confound me,
Till I disdain to live.

I bless the sweet confiding
The full-blown rose displays,
And hear the gentle chiding
For my unworthy ways;
While hope revives, inspiring,
Till I again begin,
And striving, never tiring,
The prize essay to win.

A BALTIMOREAN WITH THE EPIZOOTIC.—John Buskey, a driver in the employ of the City Passenger Railway Company, is reported as being confined to his house under symptoms so strongly resembling the disease now affecting the horses as to lead to the statement that he has contracted the epizootic. This is the first case among men.—*Baltimore Sun.*

The English papers call the steam whistle the "American devil." We know better. He is the youth that comes down stairs and asks for copy.

If any person has doubts whether advertisements are read or not, let him put something he doesn't wish seen in an obscure part of the paper.

The Cincinnati *Enquirer* has reduced itemizing to a science. Here is a late example: Henry Layman, shoemaker, Terre Haute—bed cord. Jealously.

A Pennsylvania farmer at an auction bought an old hearse because he'd "been wanting a rig of some kind to take Maria and the children to circuses and fairs, and haul potatoes in."

It requres more delicacy of touch, a better acquaintanee with the inner emotions of the heart, and grander pathos of sentiment to make a declaration of love than it does to put up a stove.

Blotting paper is made from soap weed in Colorado, which is in great profusion on the Western prairies.

IMPROVEMENT AND PROGRESS.

We gladly turn from the politcal arena and the strife and dim of the late political canvass to the far more hopeful theme of the material progress and improvement to our midst.

It is with much congratulation to our people and with a true pleasure to ourselves that we are able to notice in this issue the signs of new life about us, and to announce that changes have been made and improvements actively commenced at this, our county town, which will add materially to the wellfare of our community.

Mr. James M Nicolson, our esteemed fellow citizen and enterprising merchant has just purchased of Mr. Geo. Hughes the storehouse now occupied by Nicolson & Co., with one acre of land attached, which we have no doubt it is his purpose (now that the property is his,) greatly to improve and beautify. We have understood, that it is the intention of Mr. Hughes to add to the dwelling house row occupied by Mr. Williams and others, and convert the enlarged dwelling into an hotel to be fitted up in the best style.

We have also heard of the intention of this enterprising and public spirited gentleman to construct without delay, several handsome dwelling houses and offices for professional gentlemen in our village. But the principle and most important enterprise and improvement, which is not simply in contemplation, but which has been actually commenced, is the conversion of the large store and warehouse formerly occupied by Curtis, Jones & Co. Harwood & Rowe, and W. H. Rowe & Co., into a steam grist and flouring mill.

Mr. James Duncan has purchased of Mr. Hughes several acres, with a front on the street extending from Dr. Coullings to the lot occupied by Messrs. Puller & Williams; and with the energy and business talant that characterize him, is pushing rapidly forward on this property, the last mentioned work. It is also, we are told, the intention of himself and associates to connect with the steam power, a saw mill, sash, door, and blind factory, and plaining mill, and probably an iron foundry,

These are great changes from the past. the gentleman who are inaugurating them deserve not only the earnest cooperation, but also the hearty thanks of our people They have come among us, not as carpet-baggers, seeking, vampire like, to suck out our substance, and then flit away; but they have brought with them the business talant of their old world home, and the energy of the North and West, where they have resided their money, their capital, with which they hope to infuse new life into our people by giving them employment, and by affording a home market for their supplies.

To the agriculturalists will be afforded a market at home for their corn and wheat, certainly to a considerable extent, by which they will save the costs in the freight commissions and risk, and the many vexatious charges of sending it abroad, and retain that much money at home, that would otherwise be carried from us. They will find a market for staves, for barrels, for timber for sawing, and for vegetables and meats for the goodly gangs of operatives we hope to see connected with these experiments.

We hope the example of energy and enterprise set by our new citizens will be viewed in the right spirit and will be followed.

We must work—and labor is honorable as well as remunerative.

There has been a revolution which has changed many of the relations of society. We will never accede to the idea of social equality, but it is no disgrace to a white man or a gentleman to work; and the quicker and harder our people work the surer and quicker will be the amelioration of our present condition.

The Fire in Boston.

BOSTON, Nov. 10, 7 o'clock A, M.—The fire first broke out in the rear end of a large five-story granite building, Nos. 87, 89 and 91 Summer street, and fronting Kingston street.

BOUNDARY OF THE BURNT DISTRICT.

The burnt district bounded by Summer, Federal, Broad, Central, Wale, Washington and Bedford street.

The fire was got well under control a little after mid-day, and has not extended since. The following are the general boundaries of the conflagration: The whole length and both sides of Summer street across Federal and nearly down to Drake's wharf and thence in nearly a direct line to Fort Hill along Hamilton and Battery march to Kilby streets, as far as Lindad and Central streets and from Milk to Summer on Washington streets. Within these boundaries an area of nearly seventy acres, every building is consumed. Almost every wholesale shoe and leather and dry goods and wool establishment in Boston are burned.

THE ESTIMATED LOSS.

1:30 p. m—It is now confidently believed that the fire is under control. The loss if no more buildings are burned, will not fall short of $200,000,000 and will probably exceed that figure by $50,000,000.

LOSS BY THE BOSTON FIRE.—We regret to learn that Messrs. Prooscher & Bluford, of Norfolk, are sufferers to the amount of $6,000 by the Boston fire, having stored in the warehouse destroyed in the city, wool to the value of the above amount.

Sentenced to be Hanged.

William Jackson, colored, for the murder of his wife in Alexandria county, near Arlington, has been found guilty of murder in the first degree and will be sentenced to be hung.

Negro Lynched.

A few days since a negro raper was taken from the Blandville jail, Kentucky, and hanged.

HOME AFFAIRS.

OUR FRIENDS *will confer a favor upon us, and enhance the ability of the paper to interest its subscribers, if they will, as convenient, communicate to us any items of local news which they may judge to be of interest to the public.*

Equine Epizootic.

We would notice the appearance of the above disease among the horses of this village, and of the county. The horses belonging to the following gentlemen, at this place, have been attacked: Messrs. C. C. Field, W. D. Williams, S. D. Puller and A. P. Davis; in the immediate vicinity, those of Messrs. John Tabb and A. Shackelford, Perrin Kemp and Mrs. Elenora Taliaferro have been attacked, and in fact, we hear of it in all parts of the county.

Though there is much difference of opinion on this subject, the preponderance of evidence seems to be that the disease is neither contagious nor infectious, but epidemic in its nature.

The following seems to be the best mode of treatment, as gathered from the prescriptions of various veterinary phisicians published in the newspapers:

Keep the animal in a clean, warm stable and if the temperature of the body requires it, blanket and put stockings on his legs, feed on nutritious but degestible food, such as bran shorts and hominy, ground from corn and oats mixed; if swelling appears under the throat, rub with spirits of turpintine mixed with oil; fumigate with tar and feathers or tar and leather; no harsh medicines should be used, but should the horse be costive some mild laxitives may be administered.

The symptoms are cough, general langor followed by swelling under the throat.

TO THE LADIES OF GLOUCESTER!

The surviving soldiers of our late Confederate armies from this county have formed an association for the purpose of erecting a monument to the memory of those from among us who perished in the war, and I have been kindly designated by them, as the chairman of their association, to invite your co-operation in their pious work.

The memory of our fallen comrades, their sacrifices, hardships and patriotic devotion, their gallant and glorious achievements, and their heroic deaths, will ever remain green with us, and will be indelibly impressed upon our hearts, so long as one spark of soldierly feeling, one emotion of true manhood, or one patriotic impulse shall linger among us.

It will need no song or story, no tablet or stone to remind us of our *own*, our ever cherished dead, to recount their virtues, to justify their works, to glorify their memories,—but we feel that it is a holy and pious duty, a consoling pleasure and an enobling privilege to give expression to our emotions of gratitude to them as citizens, of affection for them as comrades, of honor to them as martys of our "Lost Cause," by handing down to their posterity and our own a more enduring testimonial than the simple tradition of their fame.

We desire to erect a monument at our county town, of granite; not costly, but enduring; not imposing, but broad and tall enough to have inscribed upon it the name of every hero from our county, whose life was given for his county and his native State; that their children and our children, and their children's children and our children's children may look up to it, and reverencing their names, seek the inspiration of their patriotism.

To you who bade them spring to the succour of their invaded Commonwealth; who cheered them by your plaudits and your blessings, who made their wearisome marches less weary, and their bleak bivouacs less bitter, who softened the wretchedness of their defeats, subdued the terrors of their prisons, and added fresh exultation to their cries of victory, by the ever present recollection of your sympathy, to you, who, when all has perished for which they died, it is not treason to say *have not yet surrendered*, I am asked to appeal for co-operation in our undertaking.

We would recall to your recollection the early days of the war, and the co-operative societies which then you formed. We will never forget your work, your manual work morning, noonday and night, week-day and holy-day, for ourselves and our comrades. You have, we know you have, now to work, and work hard for yourselves, but may we not ask the dedication of some little of your time, some little of your industry to this tribute to the memory of your fallen countymen.

Your Countyman,
WILLIAM B. TALIAFERRO.

Soldiers Monument Association.

At a meeting of the Executive Committee of this associotion on Saturday last, at this place, there were present Gen. Wm. B. Taliaferro, President, Col. W. K. Perrin, Col W. T. Robins, Capt J. B. Brown, Lieuts. Wm. ap W. Jones and Wm. V. Heywood, when we under stand the following members were added to the Executive Committee, viz: Major Peyton N. Page, Messrs. W. H. Martin, Wm. C Dutton, James Diggs and James C. Heywood.

We also learn that the organization was perfected by the election of Capt. James N. Stubbs as secretary and Capt. James M. Nicolson, treasurer of the association. Another meeting of the Committee will be held at this place on next Saturday, (the 23d ints.), at which time we hope there will be a full attendance and that the good work in which these patriotic gentlemen are engaged will be pushed bravely on.

Chapped Hands, face, rough, skin, pimples ringworm, salt-rheum, and other cutaneous affections cured, and the skin made soft and smooth, by using the Juniper Tar Soap, made by Caswell, Hazard & Co., New York. Be certain to get the Juniper Tar Soap, as there are many worthless imitations made with common tar.

The Purest and Sweetest Cod-Liver Oil is Hazard & Caswell's, made on the sea shore from fresh, selected livers, by Caswell, Hazard & Co., New York. It is absolutely pure and sweet. Patient, who have once taken it prefer it to all others. Physicians have decided it superior to any of the other oils in market.

DON'T

Be deceived, but for coughs, colds, sore throat, hoarseness and bronchial difficulties, use only

WELL'S CARBOLIC TABLETS.

Worthless Imitations are on the market but the only scientific preparation of Carbolic Acid for Lungs diseases is when chemically combined with other well known remedies, as in these tablets, and all parties are cautioned against using any other.

In all cases of irritation of the mucous membrane these Tablets should be freely used, their cleansing and healing properties are astonishing.

Be warned, never neglect a cold, it is easily cured in its incipient state, when it becomes chronic the cure is exceedingly difficult use Well's Carbolic Tablets as a specific.

THE GREAT SOUTH AMERICAN JURUBEBA BLOOD PURIFIER

It is not a physic which may give temporary relief to the sufferer for the first few doses, but which, from continued use brings piles and kindred diseases to aid in weakening the invalid, nor is it a doctored liquor, which, under the popular name of "Bitters" is so extensively palmed off on the public as sovereign remedies, but it is a *most powerful Tonic and Alterative*, pronounced so by the leading medical authorities of London and Paris, and has been long used by the regular physicians of other countries with wonderful remedial results.

DR. WELL'S EXTRACT OF JURUBEBA

retains all the medicinal virtues peculiar to the plant and must be taken as a permanent curative agent.

Is there want of action in your liver and spleen? Unless relieved at once, the blood become impure by deleterious secretions producing scrofulous or skin diseases, blotches fetions, pustules, canker, pimples, &c., &c.

Take **Jurubeba** to cleanse, purify and restore the vitiated blood to healthy action.

Have you a dyspeptic stomack? Unless digestion is promptly aided the system is debilitated with loss of vital force, poverty of the blood, dropsical tendency, general weakness or lassitude.

Take it to assist digestion without reaction, it will impart youthful vigor to the weary sufferer.

Have you weakness of the intestines? You are in danger of chronic diarrhœa or the dreadful inflammation of the bowels.

Take it to allay irritation and ward off tendency to inflammations.

Have you weakness of the uterine or urinary organs? You must procure instant relief or you are liable to suffering worse than death.

Take it to strengthen organic weakness or life becomes a burden.

Finally it should be frequently taken to keep the system in perfect health or you are otherwise in great danger of malarial, miasmatic or contagious diseases.

MANHOOD:

How Lost. How Restored.

Just published a new edition of Dr. CULVERWELL'S CELEBRATED ESSAY on the radical cure (without medicine) of Spermathrrhœa or Seminal weakness, Involuntary Seminal Losses, Importency, Mental and Physical incapacity, Impediments to Marriage, etc: also, Consumption, Epilepsy and Fits induced by self indulgence or sexual extravagance.

☞ Price, in a sealed envelope, only 6 cents.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife: pointing out a mode of cure at once simple certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

☞ This Lecture should be in the hands of every youth and every man in the land.

Sent under seal, in a plain envelope, to any address, postpaid on receipt of six cents, or two postage stamps.

Anti-Dyspeptic
PILLS!

THESE VALUABLE PILLS
Are again offered to the Public.

Use the Preventive and you will not Need the Cure.

Are you suffering from disease of the Liver or Spleen?

Hon. BEVERLY TUCKER, late Law Professor of William & Mary College, says: "Fourteen years ago I was left by a most malignant fever, with a diseased liver, a disordered digestion, and a constitution in ruins. My physicians permitted me hope, that with care and prudence I might have a few years of precarious existence, and assured me that the least indiscretion would be fatal. Two years ago I met with your Anti-Dyspeptic Pills, and confiding in the accompanying certificates of responsible gentlemen, whom I happened to know, I took them according to directions. The result is, that I now eat what I please, sleep soundly, and enjoy life as much as any man living. For this, it gives me pleasure to say, you have my thanks, and to add the assurance of my high regard."

These Pills Contain no Mercury or other Mineral Substances, they are purely a Vegetable Compound.

THE

Gloucester Herald!

A FIRST-CLASS

FAMILY NEWSPAPER!

Devoted to the material interests of Tidewater Virginia, and the cause of Conservative Reform in the politics of the Country.

THE HERALD.

after an experience of two years as a newspaper, is now, it may be hoped, an institution of this section of the State, and, profiting by that experience, it bids fair to be even more efficient in the future than in the past.

ITS EDITORIALS,

while breathing the spirit of courtesy toward all, will be uncompromisingly Conservative and thoroughly Virginian, and will deal unsparingly with all offenders against its tenets of political truth.

ITS LOCAL NEWS

we hope to make a most interesting feature of the paper. With efficient correspondents at every important point in this section, we expect to more than rival the city papers in giving those items which are of special interest to our people.

ITS LITERARY DEPARTMENT

will be carefully guarded from the intrusion of anything that is not of first-class literary merit, and we hope the articles in this department will always be found worthy of the most attentive perusal.

ITS NEWS SUMMARY,

we shall endeavor to make in the future a special recommendation of the Herald. Whilst the numerous Weeklies, made up from the city Dailies, contain only certain articles culled from a large mass of material, we hope, by careful editing, to give the cream of all the news of the week—giving "much in little," instead of little in much.

AS AN ADVERTISING MEDIUM

our paper offers decided advantages. To give the city merchants some idea of the advantages of advertising in the *Herald*, we will state that in the county of Gloucester alone there are about 60 stores, which average annually the sale of about $160,000 worth of dry goods, $60,000 worth of hardware and farming utensils, $68,000 worth of liquors, and other goods in proportion. This is in Gloucester only—how much more can be done in adjoining counties. The *Herald* goes regularly to more than 100 stores.

'WAVERLEY'

For Sale
AT PUBLIC AUCTION!

PURSUANT to the directions of a decree of the District Court of the United States, for the Eastern District of Virginia, pronounced in the matter of bankruptcy of Walter F. Jones, bankrupt, the subscriber, as Assignee in Bankruptcy of the said Walter F. Jones, will sell on

Monday, the 2d day of December 1872,

at PUBLIC AUCTION, at Gloucester Court house, at 12 o'clock M., that VALUABLE ESTATE, situated on North river, in the county of Gloucester, called

WAVERLEY,

whereon Dr. Walter F. Jones now resides, containing about

1059 Acres,

and also all INTEREST of the said Walter F. Jones in another piece of LAND adjoining the Waverley Tract, called the

MEADOW,

lying on the public road and containing about

Thirty Acres.

THE TERMS OF SALE will be one-fourth of the purchase money, cash one-fourth on six, one-fourth on twelve and one-fourth on eighteen months credit. For the deferred payments bonds are to be executed with personal security in equal sums with interest from the day of sale, payable to the undersigned, as assignee, and title will be retained until the whole of the purchase money shall have been paid—but the purchaser may anticipate any or all of the deferred payments at his option by the payment of cash at any time before the bonds fall due.

WAVERLEY is well known to be one of the most desirable and valuable farms in Gloucester county. The improvements are of the best description: the

DWELLING HOUSE

is a Large, Handsome and Commodious Brick Mansion, in good repair.

The LAND is higly improved and productive, and the neighborhood one of the best in Eastern Virginia, and in addition to the attractions of society, the county abounds in game, and the waters of North river with choicest productions of the sea.

THE GREAT SOUTH AMERICAN JURUBEBA BLOOD PURIFIER

It is not a physic which may give temporary relief to the sufferer for the first few doses, but which, from continued use brings piles and kindred diseases to aid in weakening the invalid, nor is it a doctored liquor, which, under the popular name of "Bitters" is so extensively palmed off on the public as sovereign remedies, but it is a *most powerful Tonic and Alterative,* pronounced so by the leading medical authorities of London and Paris, and has been long used by the regular physicians of other countries with wonderful remedial results.

DR. WELL'S EXTRACT OF JURUBEBA

retains all the medicinal virtues peculiar to the plant and must be taken as a permanent curative agent.

Is there want of action in your liver and spleen? Unless relieved at once, the blood becomes impure by deleterious secretions producing scrofulous or skin diseases, blotches felons, pustules, canker, pimples, &c., &c

Take **Jurubeba** to cleanse, purify and restore the vitiated blood to healthy action.

Have you a dyspeptic stomack? Unless digestion is promptly aided the system is debilitated with loss of vital force, poverty of the blood, dropsical tendency, general weakness or lassitude.

Take it to assist digestion without reaction, it will impart youthful vigor to the weary sufferer.

Have you weakness of the intestines? You are in danger of chronic diarrhœa or the dreadful inflammation of the bowels.

Take it to allay irritation and ward off tendency to inflammations.

Have you weakness of the uterine or urinary organs? You must procure instant relief or you are liable to suffering worse than death.

Take it to strengthen organic weakness or life becomes a burden.

Finally it should be frequently taken to keep the system in perfect health or you are otherwise in great danger of malarial, miasmatic or contagious diseases.

THE

Gloucester Herald!

A FIRST-CLASS

FAMILY NEWSPAPER!

Devoted to the material interests of Tidewater Virginia, and the cause of Conservative Reform in the politics of the Country.

THE HERALD,

after an experience of two years as a newspaper, is now, it may be hoped, an institution of this section of the State, and, profiting by that experience, it bids fair to be even more efficient in the future than in the past.

ITS EDITORIALS,

while breathing the spirit of courtesy toward all, will be uncompromisingly Conservative and thoroughly Virginian, and will deal unsparingly with all offenders against its tenets of political truth.

ITS LOCAL NEWS

we hope to make a most interesting feature of the paper. With efficient correspondents at every important point in this section, we expect to more than rival the city papers in giving those items which are of special interest to our people.

ITS LITERARY DEPARTMENT

will be carefully guarded from the intrusion of anything that is not of first-class literary merit, and we hope the articles in this department will always be found worthy of the most attentive perusal.

ITS NEWS SUMMARY,

we shall endeavor to make in the future a special recommendation of the Herald. Whilst the numerous Weeklies, made up from the city Dailies, contain only certain articles culled from a large mass of material, we hope, by careful editing, to give the cream of all the news of the week—giving "much in little," instead of little in much.

AS AN ADVERTISING MEDIUM

our paper offers decided advantages. To give the city merchants some idea of the advantages of advertising in the *Herald,* we will state that in the county of Gloucester alone there are about 60 stores, which average annually the sale of about $160,000 worth of dry goods, $60,000 worth of hardware and farming utensils, $68,000 worth of liquors, and other goods in proportion. This is in Gloucester only—how much more can be done in adjoining counties. The *Herald* goes regularly to more than 100 stores.

A CERTAIN CURE FOR CHILLS AND FEVER.

The receipt by which these Pills are made, was obtained from a gentleman who resided in the vicinity of Tampa, Florida, where the malaria of Chills and fever prevails at all seasons. The peculiar efficacy of the

Florida Ague Pills

as a certain cure in all cases of ague, intermittent fever or dum chill, has been fully tested in this locality by numbers of responsible persons who have used them, and in no instance have they failed to arrest and prevent the recurrence of the malady.
