Foreword

The following list, provisional and incomplete, has been compiled from many sources. It is published now solely as a request for corrections and additional information. For the names of students after 1827 we have used the matriculation book which each student signed. Therefore, our list of students from 1827 to 1888 is indisputable, with the exception of a few names which appear partly illegible. No printed catalogs of the college before 1829 have been found. No matriculation book before 1827 exists. For the names before 1827, we have used every source now available, including minutes of the faculty, 1729-1784 and 1817-1827; bursars' books; class books of professors; letters of professors and students; and newspapers. The general catalog first printed in 1859, revised in 1870 and again in 1874 has been referred to frequently, but with great caution. The compiler of that catalog undoubtedly had access to a matriculation book from about 1780 to 1827, now lost. In that catalog the arrangement is not consistent. The year under which a student's name appears may be the first, second, or third year of his attendance. There are also inaccuracies in the spelling of the names. Indispensable as it is for its suggestions, it cannot be depended upon.

The term "alumnus" as used in this list means any student who attended the college even for a year or part of a year.

This list extends only to 1888, because on that date a new era of the college began. Records after that date are abundant, and lists of students after 1888 have been printed in 1923 and 1932.

No complete list of the grammar school students, before or after 1827, exists. We have printed separately in this publication the names of those students whom we have record of attendance in the grammar school only. When a student attended the grammar school and later the college, his name is in the college list, with inclusive dates for both grammar school and college attendance.

Some names that have appeared in other published lists have been eliminated. If sufficient evidence of attendance can be found, they will be restored.

New names have been added to the list of members of the faculty, of the bursars, and of members of the Board of Visitors.

It is planned to prepare a full history of the College of William and Mary, and it is with the hope of uncovering new information about our alumni and about the college that we issue this list. If the reader can contribute any data about an alumnus, it may be helpful in compiling a biographical sketch of him. Then, too, if he has any manuscripts which relate to the College of William and Mary, they will be helpful to us, and we would like to know of them.

You are invited to correspond with the librarian of the college, E. G. Swem, if you would like to be of assistance in this project.

*Most of these names are taken from the History of the College published in 1874 containing a general catalogue. The compiler of that catalogue used records that are now lost. The names are printed therefore without complete verification. The records of the Board of Visitors exist today in sequence only from 1860 to date. Minutes of a few meetings only before that date are preserved as separate manuscripts; these have been found among family papers.
