

Alexandria 19th Octor 1801

Dear Sir

I observe it is stated in the
Public Prints, that you have communicated
to Doct^r Waterhouse the success of the Vaccine
Matter in your family, and having been
applied to by my Medical friends of Ken-
=tucky and Tennessee for information on
this subject, and for a supply of the infec-
=tion, I would be gratified in being in-
=formed whether you could any of those
persons, ^{who} were inoculated with this matter
to be exposed to the Variolous infection
and the success of the experiment. Also
where a supply of the first mentioned
infection can be had. With very assurance
of the highest respect & esteem I am Your
obt^d very Hum^d Serv^t Henry Prose

Rose Henry, Alex^a. Oct. 19, 1861.

rec^d. Oct. 21.
