

Baltimore 28th February 1855

Sir

I feel great pleasure in transmitting to you the enclosed Letter,
and a small Box containing Jerusalem wheat, which came to my care from a
Relation of mine in Dublin— it is said to be of a superior quality, producing
double the quantity of any other kind, and has very little bran; the Climate
& Soil of this Country, I hope will agree with it, in which case it will prove a source
of wealth to the Farmers

with sentiments of regard & esteem

I am Sir

respectfully yours

Robert Moore
