Mrs. S

I am wholly unacquainted with the matter of the kind  
in question - My wish is that the subject may be enquired  
into by intelligent characters, and also that I may be  
enabled to withhold the youngest - the Son of Col:  
Bretty from going to law

I will on application

furnish Mr. Munroe the patents and every other paper  
within my power - I know nothing of the justice of  
the claim more than the papers, and the declaration  
of the de. Col: Bretty just before his death

- As a son. I am not concerned in the question of  
the. But promising to the children his share  
to take the step that has been taken on their  
part

I know not <sup>they</sup> but I was taking an  
improper course - you assure me however my  
sincerest respects & acknowledgments  
with grateful esteem

I am  
Yrs. Obedt.
