

June 10, 1806

Sir

Washington June 10. 06

Knowing that your former studies & views were directed to the profession of the law, but uninformed whether it is your intention to enter again into that line, I have thought it my duty to avail the public of your services in it, should it meet your own intentions. one of the places of a judge of the Superior court of Orleans will be vacant by the resignation of Mr. Prevost who continues only until a successor shall be appointed. The salary is of 2000. D. The two remaining judges are Mr. Spring of Maryland, and Mr. Matthews of Georgia. should you be disposed to accept the vacant place, I shall be very happy in being able to fill it so satisfactorily for the public. I will ask the favor of an answer so soon as you may be determined on the question.

Accept my acknowledgements & assurances of my esteem & respect.

J. Jefferson

Mr. Mercer.

Mercer John. June 10. 06.

30

knowing that your former studies should not be
 to the professor of the law, but transformed them into
 intention to enter again into that line. I have thought of
 but to avoid the trouble of your leaving it, it is not
 your own intention, one of the objects of the law
 out of the law, it is not the object of the law
 the law is not intended to be a profession, it is
 not to be a profession, it is not to be a profession
 and not that kind of people, and it is not that kind
 the law is not intended to be a profession, it is
 to be a profession, it is not to be a profession
 to be a profession, it is not to be a profession
 to be a profession, it is not to be a profession

Yours truly
 John Mercer
