

Mont^o. Sep. 6. 26.

I am very sensible, gentlemen, of the ~~favor~~^{favor} done me
in proposing to make me an honorary member of the
Franklin society of Brown University in Providence. I
accept the honor with thankfulness, and as a mark of
your good will, altho' conscious that at my age and
distance I can add nothing to the treasures of science
of which it will be the depository. prayers for it's success
can be my only contribution; these will be sincerely offered
with assurances of my respectful consideration to the
society and to yourselves.
