The College of

The first honorary degree from the College, a Master of Arts, was conferred upon Benjamin Franklin on April 2, 1756.

William & Mary

Four Presidents of the United States benefited from educational programs offered by the College: George Washington, Thomas Jefferson, James Monroe and John Tyler.

Chartered in 1693, the College was founded nearly four decades before Georgia, the last of the original 13 American colonies, was chartered by King George II in 1732.

When the capitol of Virginia was moved from Jamestown to Williamsburg in 1699, the Wren Building served as temporary headquarters of the colonial government from 1700 until 1704.

The Sunken Gardens' design was based on the gardens behind Chelsea Hospital in London, England. During the Revolutionary War, Patrick Henry selected the site as a place for the encampment of militia destined to join Washington's Continental Army in the North and later served as a bivouac area for many soldiers preparing to fight the British at Yorktown.

The "F.H.C." society was formed at the College on November 11, 1750. This was the first student secret society in America and the forerunner of the American fraternity system.

The Crim Dell was a gift from the class of 1964 to preserve the natural beauty of the area and is a memorial to John W.H. Crim, a nationally known attorney who was a benefactor to the College of William and Mary.

Constructed between 1695 and 1699, the Wren Building is the oldest academic building in the United States. The building was originally designed to be the whole college, including a dining hall, dorm rooms and classrooms.
