GENERAL NEWS

OPENING CONVOCATION

President Davis Y. Paschall will give his traditional address to the faculty and student body at the Opening Convocation, Friday, Sept. 27th at 11 a.m. in Blow Gymnasium.

New members of the faculty will be introduced by Harold L. Fowler, Dean of the Faculty of Arts & Sciences. Vice President W. Melville Jones will introduce new members of the administrative staff. The twelve students designated as President's Aides, will be introduced by J. Wilfred Lambert, Dean of Students.

Musical selections will be rendered by the choir under the direction of Prof. Carl A. Fehr.

Ten o'clock classes on Friday will be dismissed at 10:40 a.m. Twelve o'clock classes will be held as scheduled.

Dr. Frank B. Evans, III, of the Department of English, will serve as Chief Marshal for the first time at the Opening Convocation. He succeeds Dr. William F. Guy, Chairman of the Department of Chemistry, former Chief Marshal, who retired this summer.

COMMUNITY DAY

The College will be host to several hundred citizens of the Williamsburg - James City County - York County area at an Opera House in connection with the 275th Anniversary of the College, Sunday afternoon, September 29.

Guests for "Community Day" will assemble in Phi Beta Kappa Hall at 3 p.m. for a general meeting at which President Paschall will speak.

Following the general meeting guests will be invited to visit Andrews Hall, the John Millington Hall of Life Sciences, Small Physics Laboratory, Swem Library, Adair Gymnasium and DuPont Hall, all on the new campus.

ADMINISTRATIVE COUNCIL NAMED

An administrative council of 14 key administrative officials has been created to help in the development and carrying out of policy affecting the entire College.

President Paschall said the Council will advise him on administrative policy questions and assist in communicating policies to various segments of the College community. "The College," he said, "has grown in complexity of organization to the extent that such a step is desirable, particularly in the matter of communication."

Vice President W. Melville Jones serves as chairman of the body, while President Paschall is an ex-officio member.

Others who are members of the Council are the two newly appointed Assistant Vice Presidents, John H. Willis, Jr. and John E. Donaldson; Robert T. English, Jr., Bursar; James S. Kelly, Alumni Secretary and Director of Development; J. Wilfred Lambert, Dean of Students; John E. Selby, Acting Dean of Graduate Studies; and the Deans of the six separate faculties and schools at William and Mary -- Harold L. Fowler of Arts and Sciences; Joseph Curtis of the Law School; Richard B. Brooks of the School of Education; William J. Hargis of the School of Marine Science; Charles L. Quittmeyer of the School of Business Administration; and D. J. Herrmann of the School of Continuing Studies.

BUILDINGS GET NEW TITLES

The new Life Science building has been named the John Millington Hall of Life Sciences. Millington was a professor of natural science and medicine at the College from 1840 - 46.

The old library building which is now occupied by the Marshall Wythe School of Law will be renamed Marshall Wythe Hall.

The present Marshall Wythe Hall will be renamed James Blair Hall in honor of William and Mary's first president.

To avoid confusion during the opening of the new semester, the name changes will not become effective until Oct. 15.

BERGMAN FILM TRILOGY

The Ingmar Bergman "religious" trilogy will be shown without charge Sept. 26, Sept. 30, and Oct. 2 as the second event (following the freshman orientation seminars on Catch 22) in the College-wide Program of Readings and Lecturers, based on the theme "Man at the Mercy of Himself." A brief discussion will follow each of the evening performances, with faculty members in the role of discussion leader. The schedule is as follows:

Sept. 26	<u>Through a Glass Darkly</u>	Alan Ward, discussion leader
Sept. 30	<u>Winter Light</u>	Robert Fehrenbach, discussion leader
Oct. 2	<u>The Silence</u>	David Clay Jenkins, discussion leader

Afternoon performances will be at 4 p.m. in Andrews Hall, and the evening performance (with discussion) will begin at 7 p.m. in Phi Beta Kappa auditorium.

"We hope you will encourage your students to attend these outstanding films, and that you will also find it possible to attend them yourself," said Dr. J. Scott Donaldson, chairman of the Reading and Lectures program.

VOTING

A reminder from the League of Women Voters of Williamsburg -James City County:

Saturday, Oct. 5 is the last day on which you may register to vote in the November election. If you will have met the requirements by November 5th, you may register now. In Williamsburg register at Attorney Chester Baker's office above the theatre on Duke of Gloucester Street, 9-5:00 weekdays and 9-12 noon Saturdays. In James City County register at the Courthouse 8:30 to 4:30 weekdays and 9-4:00 Sat. Oct. 5. James City County will also have special evening hours, 7-9:00 p.m. on Wed. Oct. 2. In Bruton Dist., York County, call Mrs. Thomas Brummer, 229-1555, for an appointment.

FRENCH COURSES

The Alliance Française, for the third consecutive year is offering two complete courses: Elementary French and Intermediate French Conversation - to Peninsula residents. James Blair High School has offered the use of its classrooms on Thursday evenings.

Registration for these courses will be held on Thursday evening, October 3, at 7:30 p.m. These courses are free but a registration fee of \$5.00 must be paid at registration time.

The textbook is MAUGER, G., Alliance Francaise, Cours de langue et de Civilisation, Vol. 1 (Elementary) vol. II (Intermediate). These books are available at the William and Mary Bookstore, Jamestown Road.

FULLBRIGHT PROGRAMS

The final date for submitting completed applications on this campus for graduate study abroad in 1969-70 under the Fulbright-Hays Act (Fulbright Programs) is Friday, October 4.

On that date all applications, references and other supporting data must be in the hands of the W & M Fulbright Adviser, Prof. Carl Dolmetsch, Wren 312.

Seniors and Graduate students who have not already initiated application procedures but may still be interested in doing so, must contact Professor Dolmetsch immediately. Those who are now in the process of completing their applications are urged to make sure that all supporting materials reach Professor Dolmetsch on or before the deadline date.

Faculty members who are writing Fulbright recommendations are reminded to submit these statements to Professor Dolmetsch before 5 p.m., Oct. 4.

HISTORY ESSAY CONTEST

The Washington and Northern Virginia Company of the Jamestown Society will sponsor a Virginia History Essay Contest among history students at the College with prizes of \$50 and \$25 "to encourage interest in their work which had already been planned by the head of the History Department."

In a letter to Dr. Ludwell Johnson, Chairman of the History Department, Miss Cornelia Magruder Bowie, former Governor of the Washington and Northern Virginia Company and currently chairman of the Historical and Educational Committee of that organization, outlined plans for the contest here at William and Mary.

TUTORIAL SERVICE

The Williamsburg Area Tutorial Service which last year placed 167 volunteer tutors in the Williamsburg-James City County public schools has set up shop for the coming year and would like to solicit faculty assistance. Students who worked with the program in the various schools as tutors helped students in all grades from first through high school.

Further information concerning the program may be obtained from the Tutorial Service office in the Williamsburg Baptist Church- 229-0245.

LITERARY PRIZE

The William and Mary Review and the 275th Anniversary Committee are jointly sponsoring a prose fiction contest for students at the college. The best entry will receive the William and Mary Literary Prize of \$100.

All students who are enrolled for the fall semester are eligible to submit previously unpublished works of prose fiction of no more than 15,000 words. A \$100 prize will be awarded for the outstanding entry, to be chosen by a committee which will include a recognized author and representatives of the students and faculty of the college.

All entries should be submitted to the William and Mary Review and must be received no later than Nov. 1. Students may submit as many entries as they wish (no one entry exceeding the maximum length.)

COLONIAL ECHO PICTURES

Faculty members are urged to have their pictures made to be included in the 1969 Colonial Echo. A professional photographer will be in the Echo office on the second floor of the Campus Center Monday through Friday, September 27 through October 18, 9:00 a.m. until 6:00 p.m. (except 12:30 to 1:00). No appointment is needed, and there is no charge.

THEATRE PROGRAM

The William and Mary Theatre will continue its policy of offering two complimentary tickets to faculty members for each of the four productions of the 1968 - 1969 season. These complimentary tickets are not valid for performances of visiting artists due to limited seating and economics.

The season will open with the delightful musical "The Fantasticks" Oct. 23, 24, 25, 26.

Second production will be George Bernard Shaw's irreverent portrait of the American Revolutionary war, "The Devil's Disciple." (Dec. 12, 13, 14).

March 13, 14, 15 the Theatre will present the Broadway shocker. "The

Investigation" by Peter Weiss, author of "Marat/Sade". Final production of the year will be "Hamlet" on April 23,24,25,26.

On November 8 the first visiting professional will be Dr. Tyrone Guthrie called the greatest director of the English-speaking stage. Sir Tyrone is known for his work with the Stratford (Ont.) theatre. England's Old Vic and the theatre which bears his name in Minneapolis as well as his many Broadway productions.

The second visiting professional show will be the Oxford and Cambridge Shakesperean Company's production of "A Midsummer Night's Dream", on Jan. 13.

All performances are given in Phi Beta Kappa Hall, beginning at 8 p.m.

COLLEGIUM MUSICUM

Carl Dolmetsch, recorder, and Joseph Saxby, harpsichord, will open the William and Mary Music Calendar with a concert Oct. 6 in the Campus Center Ballroom at 4 p.m. under the sponsorship of the Collegium Musicum Series.

CONCERT SERIES

The William and Mary Concert Series this year includes five outstanding concerts by distinguished artists. The series opens Thursday, Oct. 17 with the Camerata Singers. The Orchestre de Paris will be here Nov. 7. On Jan. 10, James Oliver Buswell, IV, violin, will be the guest artist. Julian Bream, guitarist and lutenist, will appear in concert Feb. 15 and April 10, the series will conclude with a concert by the Eastman Quartet.

VISITING SCHOLAR LECTURES

The 1968-69 Visiting Scholar Lecture Series will get underway Oct. 22 with an address by Robert W. Corrigan, President of the California Institute of the Arts. He will speak on "After Absurdity: The American Theatre of the Sixties."

All lectures in the series are given in the Little Theatre at the Campus Center beginning at 8 p.m.

Other speakers during the first semester and their dates are as follows: Robert Bierstedt, Head, Department of Sociology and Anthropology, New York University, Oct. 30; Fred Hechinger, Education Editor, the New York Times, Nov. 18; Francis Story, Co-Editor, Buddhist Publication Society, Kandy, Ceylon, Nov. 19; Arthur Link, Edwards Professor of American History, Director of the Woodrow Wilson Papers, Princeton University, Nov. 20; and Harmon Bro, Psychotherapist, Dean of Divinity School, Professor of Psychology of Religion, Drake University, Dec. 10.

AUDOBON FILM SERIES

The Audubon Wildlife Films Series will be given again this year by the Clayton-Grimes Biology Club and the National Audubon Society. This is the 14th season for the series.

Family season tickets may be purchased for \$7.50. Individual season tickets are \$4.00. Single admissions are \$1.25.

For students, prices are as follows: season tickets, \$3.75; single admission, \$.75; child season ticket, \$1.50; child single admission \$.50

Tickets may be purchased by writing to the Department of Biology, College of William and Mary or at the door the night of the lecture. For further information call ext. 284

The program for this year is as follows:

Sunday Oct. 6 - William J. Jahoda, "Nature's Ways"

Monday Nov. 4 - William Ferguson, "Once Around the Sun".

Wednesday Dec. 4 - Kent Durden, "Death Valley-Land of Contrast."

Wednesday Feb. 19 - John Douglas Bulger, "Scandinavian Saga."

Thursday, March 27 - William A. Anderson, "Our Unique Water Wilderness-The Everglades".

All programs are held in the ballroom of the Campus Center beginning at 8 p.m.

FILM FESTIVAL

The Festival Film Society this semester is offering "An Autumn Pot-Pourri" which begins Wednesday, Oct. 9, with "Black Orpheus."

One of the highlights of the series will be NEW CINEMA, PROGRAM ONE, a selection of outstanding shorts to be shown as part of the 27th Anniversary Arts Festival on Oct. 29 and 30. This will be a bonus for Film Society season ticket holders. The program will be open to the public and an admission charged.

EDITOR'S NOTE

The first issue of Colleague for the new school year comes with a bonus package. Enclosed is a copy of the College Review folder with map and the Colonial Williamsburg Prelude booklet containing a copy of the speech by George F. Kannan "America After Vietnam" delivered at June 1, Prelude to Independence ceremonies at the Capitol. Our thanks to Colonial Williamsburg for their generosity in providing these handsome reprints.

Additional copies of the review folder may be obtained at the Information Office, Ewell Hall, second floor.

ADMINISTRATION

NEW APPOINTMENTS

Four administrative appointments from within the College were made over the summer, in addition to the changes effected by the reorganization of

the administration.

Dr. John E. Selby, Associate Professor History, was appointed Acting Dean of Graduate Studies, succeeding Dr. John H. Willis, Jr., one of the new assistant vice-presidents. Dr. Willis had held the acting dean position in addition to his other duties on a temporary basis since last September.

E. Leon Looney, Director of the Extension Division, was appointed Associate Dean of the School of Continuing Studies, in charge of extension and evening college programs.

Dr. Paul Clem, Professor of Education, was named director of Summer Sessions. Dr. Clem will also continue to teach in the School of Education.

S. Dean Olson, news director for the past year, was appointed administrative assistant to President Paschall, a position that had been vacant since the previous assistant, Jerry Van Voorhis, left in 1967 to study for his doctorate at Johns Hopkins.

FACULTY OF ARTS AND SCIENCE

Anthropology Department

Professor Altshuler spent seven weeks in Guyana reviewing mental health and general health facilities and programs.

He conducted an exploratory study among the Patamona Indians living along the Ireng River, a tributary of the Amazon.

CHEMISTRY DEPARTMENT

CHAIRMAN ATTENDS MEETINGS

Dr. S. Y. Tyree, Jr., Chairman of the Department of Chemistry, attended two meetings coincidental with the annual fall meeting of the American Chemical Society in Atlantic City, N.J. They were: (1) a meeting of the Consultants group of the Advisory Council on College Chemistry; (2) the dinner-business meeting of Inorganic Syntheses, Inc., which he now serves as secretary-treasurer.

Professor Tyree begins his first year as Chairman of the Department of Chemistry, succeeding Dr. William F. Guy, who retired this summer after 40 years of teaching service to the College.

Scottish Ties

A recent Associated Press story took note of Professor Tyree's ties with Scotland and recorded a unique ceremony.

ABERDEEN, Scotland (AP) -- Scottish authorities named a new housing scheme Saturday for a family of Scots emigrants who left for the United States more than 200 years ago. Their descendants were on hand for the ceremony.

A retired banker from Richmond, Va., Sheppard Young Tyree, unveiled a plaque naming the 22-house development "Tyrie" - the old spelling of the family name. He was accompanied by his son, Prof. Sheppard Young Tyree, Jr., head of the chemistry department

of William and Mary College. Carl Tyree Felter, a retired journalist from Webster Grove, Mo., and his wife also attended the unveiling. The two families met for the first time by chance four years ago in Scotland while they were tracing their family trees. Officials were so intrigued by the coincidental meeting that they decided to name the housing development after them.

ENGLISH DEPARTMENT

PROFESSOR SMITH SERVES AS READER

In June LeRoy Smith served as a reader of English Advanced Placement Examination for the Educational Testing Service. In August he served as a regional judge for the National Council of Teachers of English achievement awards program for 1968. On August 29 he conducted morning and afternoon workshops in composition for secondary English teachers of the Henrico County Public Schools. The topic for both sessions was "Pre-writing and Trends in Teaching English."

PUBLICATIONS NOTED

Michael Lieb, Assistant Professor had an article entitled "The Aesthetics of Nostalgia: The Three Worlds of Lamb's 'Dream Children' published in the spring issue of Xavier University Studies (1968).

Donald L. Ball, Assistant Professor, reviewed Richard Wright by Constance Webb for Richmond Times-Dispatch, July 21; and Ellen Terry by Roger Manvell for the same publication on August 11.

FINE ARTS DEPARTMENT

NEW SCULPTURE EXHIBITED

Carl A. Roseberg is exhibiting a new piece of sculpture in the Richmond Art Associations annual Fall Show at the Carillon in Richmond by invitation of the Richmond Art Association.

GEOLOGY DEPARTMENT

Dr. Stephen C. Clement had a paper entitled "Supergene Copper Concentration in Altered Plagioclase Feldspar, Copper Canyon, Nevada," published in ECONOMIC GEOLOGY, Vol. 63, No. 4, p. 401-408.

SUMMER RESEARCH

During the past summer Dr. Clement has been conducting research on the petrography and mineralogy of a metavolcanic unit west of Richmond.

SEMINAR PRESENTED

Dr. Bruce K. Goodwin presented a seminar before the faculty of the Mathematics-Science Center in Richmond in July. The seminar delved into the Geological History of Virginia.

During the summer, Dr. Goodwin has been continuing work on the geo-

logic mapping of the Midlothian quadrangle for the Virginia Division of Mineral Resources.

DOCTOR JOHNSON ELECTED

Dr. Gerald H. Johnson has been elected Chairman of the Geology Section of the Virginia Academy of Sciences.

Doctor Johnson spent the early part of the summer completing field work on the Geology of the Fort Wayne 1° x 2° quadrangle for the Indians and Michigan Geological Surveys. His primary work was with glacial deposits and included some mapping of economically important sandstones and shales.

GOVERNMENT DEPARTMENT

PANEL DISCUSSION HELD

Roger W. Smith was a discussant for the panel on "Identity, Image, and Selfhood" at the recent convention of the American Political Science Association in Washington.

HISTORY DEPARTMENT

PUBLICATIONS NOTED

Professor Philip J. Funigiello has been notified that his article, KILOWATTS FOR DEFENSE: THE NEW DEAL AND THE COMING OF THE SECOND WORLD WAR, has been accepted for publication in the Journal of American History.

Professor Thad W. Tate reviewed volumes 4 and 5 of the Papers of James Madison in the August issue of the Journal of Southern History.

MODERN LANGUAGES DEPARTMENT

PUBLICATION NOTED

Dr. John A. Moore's "A Note on Erasmus and Fray Luis De Granada" appears in "Romance Notes," Vol. IX, No. 2 (1968)

DOCTOR MARTEL SERVES AS INTERPRETER

Doctor Martel, for the fifth consecutive year, spent several weeks this past Summer working as an interpreter with the International Visitors Program of the Department of State.

MUSIC DEPARTMENT

NEW EVENING SCHOOL COURSE OFFERED

Dr. F. Donald Truesdell, head of the music department will offer the first course in appreciation of opera in the Evening College this fall. Music 315: opera, will deal with plots, music and background of selected masterpieces from the standard operatic repertoire. During the first semester Dr. Truesdell will take up the Italian bel canto and French Grand Opera.

Music Department Continued-PROFESSOR STEWART AT HOLLINS

Prof. Allan C. Stewart coached strings and played viola with the Feldman String Quartet in a faculty recital at the Roanoke Youth Symphony Workshop held at Hollins College, June 6-15.

PROFESSOR PALEDES FILLS VACANCY

Prof. Stephen P. Paledes filled the vacancy created by the resignation of Dr. Carl A. Fehr as director of music for the Common Glory during the summer.

SUMMER BAND SCHOOL

Prof. Charles R. Varner was again the director of the Summer Band School held on the campus.

WORKSHOP COORDINATOR

Professor Truesdell was the coordinator for a Piano Teachers workshop featuring the specialist in piano pedagogy, Robert Dunn, from Catholic University, July 14-15. He played a piano recital on June 30, and August 6 - 14, Professor Truesdell attended the workshop in piano at the University of Maryland.

PHYSICS DEPARTMENTPHYSICS COLLOQUIUM

A Physics Colloquium will be held Friday, Sept. 27 at 4:30 p.m. in Room 109 of the William Small Physical Laboratory. Coffee will be served at 4 p.m. in the Conference Room.

Speaker at the Colloquium will be R. G. Breene of Physical Studies, Inc., who will take as his subject "Spectral Line Broadening Theory and Its Application."

VISITING PHYSICISTS NAMED

Professor R. G. Winter, Chairman of the Physics Department and Professor R. T. Siegel, have been asked to serve as visiting physicists in the 1968-69 academic year, for the visiting scientist program sponsored by the American Association of Physics Teachers and the American Institute of Physics.

PUBLICATIONS NOTED

Faculty members co-authored two papers that were presented at the 17-19 June meeting of the American Physical Society at Los Alamos:

p-D Polarization and Elastic Scattering Near 550 MeV, by J.S. Vincent, E.T. Boschitz (N.A.S.A.), K.Gotow (V.P.I.), P.C. Gugelot (U. of Va.), C.F. Perdrisat and L.W. Swenson (W. and M.)

Physics Department continued

Nuclear Spin-Lattice Relaxation in Deuterated N_2H_4 H_2 PO_4
by J. F. Soest (W. and M.) and E. Fukushima (U. of
Washington).

The following paper was published:

Computer Experiments on Second Order Perturbation in a
Maxwellian Plasma, by G. Baumann, J.C. Braun, M.R. Feix (Nancy,
France) and F. R. Crownfield, Jr. Physics Letters 27A, 88 (1968)

SOCIOLOGY DEPARTMENTCHAIRMAN IS NAMED TO ADVISORY COMMITTEE

R. Wayne Kernodle, Chairman of the Department of Sociology has been named to the Advisory Committee of the Baccalaureate Manpower Commission for the State Dept. of Welfare and Institutions.

The "Baccalaureate Manpower Development Project" is being conducted in conjunction with a similar project of the Southern Regional Educational Board. In response to the serious social welfare personnel situation in the South, the SREB requested federal funds to study the nature and extent of the problem, and through six state projects to devise the best innovative methods of meeting manpower needs more adequately. Virginia's project is one of these six. Others are in Kentucky, Maryland, Tennessee, Texas and West Virginia. All are three years in duration. Virginia's project is under the direction of Miss Pauline W. Wert, Chief Bureau of Staff Development.

MEMBERS ATTEND MEETINGS

The following members of the Sociology Department Staff attended the annual meetings of the American Sociological Association held in Boston, Massachusetts in late August:

Larry Guenther, Satoshi Ito, Wayne Kernodle, Victor Liguori, Elaine Themo, and Marion Vanfossen.

NEW MEMBER COMPLETES DEGREE WORK

Lawrence S. Beckhouse, new sociology staff member, completed all requirements for the Ph.D. in Sociology at Vanderbilt University in August.

DOCTOR GRAY IS VISITING PROFESSOR

Professor David J. Gray spent the summer as visiting Professor of Sociology at the State University of New York at Courtland. His article entitled "Value-Free Sociology: A Doctrine of Hypocrisy and Irresponsibility" was published during the summer by The Sociological Quarterly.

SWEN LIBRARYNEW APPOINTMENTS

Swen Library announces the following appointments, effective September

Library - new appointments (continued)

1, 1968: Miss Kathryn J. Blue, 2nd Assistant Catalog Librarian; Burton Cesare, Circulation Librarian; Miss Rebecca McKilips, Assistant Circulation Librarian; Nolan T. Yelich, Public Service Librarian.

ATTEND CONFERENCE

Mrs. Ilse Webb, Catalog Librarian, Mrs. Mary Louise Cobb, Assistant Catalog Librarian, and William C. Pollard, Librarian, attended the Annual Conference of the American Library Association held in Kansas City, Missouri, in June.

MR. POLLARD APPOINTED

Mr. Pollard has been appointed by Governor Godwin to serve a three year term as a member of the State Board for the Certification of Librarians.

CURRENT EXHIBIT

An exhibit of famous autographs and bookplates from the Library's rare book collection is currently on display in the Library Museum. Numerous persons of note - from William Byrd to Rudolph Valentino - are represented. Museum hours are 8 a.m. to 5 p.m., Monday through Friday and 9 a.m. to 1 p.m. on Saturday.

SCHOOL OF BUSINESS ADMINISTRATIONNEW APPOINTMENTS

Several administrative appointments in the School of Business Administration have been announced by the College.

Dr. Algin B. King, formerly Assistant Dean of the School, was named Associate Dean; Dr. George D. Cole was designated Director of Conferences; Professor John S. Quinn was named Chairman of the Department of Accounting, and Dr. Wagih G. Dafashy was appointed Acting Chairman of the Department of Management.

Dr. King will continue to be in charge of the undergraduate program which involves about 180 juniors and senior majors, and 170 sophomores studying accounting.

Dr. Cole is assuming a newly-established position which Dean Charles L. Quittmeyer noted "recognizes the School's emerging services in supporting specialized conferences." This fall the School will co-sponsor conferences with the Virginia State Chamber of Commerce on industrial development and with the Research Institute of America on executive management.

The positions assumed by Professor Quinn and Dafashy are also new, reflecting the growth of the undergraduate program, Dean Quittmeyer said.

SCHOOL OF EDUCATIONDEAN IS NAMED ON BOARD

Dr. Richard B. Brooks, Dean of the School of Education, has been named to the Board of Visitors of the U.S. Army Transportation School, Fort Eustis.

PUBLICATION NOTED

Professor John F. Lavach has been informed by the Macmillan Publishing Company that his article concerning contemporary views of human intelligence is to be published in a 1969 book entitled, Modern Trends In Education.

MARSHALL-WYTHE SCHOOL OF LAWSTUDENT BAR ASSOCIATION WINS SECOND PLACE

The Student Bar Association of the Law School was awarded second place in a national competition among more than 100 student bar groups at the annual meeting of the American Bar Association in Philadelphia in August. First place went to the University of Wisconsin. Only first and second place were awarded.

SERVING ON COMMISSIONS

Four faculty members have been serving on state commissions studying various aspects of Virginia government this summer. Dean Joseph Curtis is a member of the commission on conflicts of interest; Dr. Thomas C. Atkeson Chancellor professor of taxation emeritus, is a member of the commission on revenue resources; Dr. William F. Swindler is general counsel for the commission on constitutional revision; and Associate Dean James P. Whyte is a consultant to the bill of rights sub-committee of the constitutional commission.

GIFT TO LAW SCHOOL

An heirloom dining table from the family of Chief Justice John Marshall was presented to the Law School this summer by Marshall descendants. Originally belonging to Marshall's niece and later to his granddaughter and her children and grandchildren, the table will be a central feature of the Law School lounge when the remodeling of the law building is completed this fall.

NAMED IN WHO'S WHO

Associate Dean J.P. Whyte has been notified that he has been named to Who's Who in America.

WEEKLY CALENDAR

COLLEAGUE

College of William and Mary Faculty Newsletter

October 3, 1968

Published by Information Office
Second Floor, Ewell
Ext. 225-226

GENERAL NEWS

BRANCH COLLEGE DAY

Members of the faculties of Christopher Newport and Richard Bland, branch colleges of the College of William and Mary, will be guests on the campus Saturday, Oct 5 for Branch College Day.

The program will get underway at 10 a.m. with a general meeting in Room 113 at Small Physics Laboratory. Vice President W. Melville Jones will open the meeting with an address of welcome to the visiting faculties. He will also introduce members of the W & M faculty. Members of the faculty of Christopher Newport College will be introduced by Dean of the Faculty W. Stephen Sanderlin, Jr.. Dean Margaret Heß will make introductions for the faculty of Richard Bland College.

Following the opening session the visitors will have an opportunity to meet with members of the William and Mary faculty for informal "shop talk" and tour the facilities of the campus.

Branch College Day is being coordinated by Assistant Vice President John H. Willis, Jr., in his capacity as liaison officer for the branch colleges, to inaugurate more communication between the various faculties.

GOVERNOR GODWIN TO SPEAK

Gov. Mills E. Godwin, Jr., will speak at Phi Beta Kappa Hall on Wednesday, Oct. 9 at 8 p.m. to urge support of the \$81,000,000 bond referendum for higher education and mental hospitals which will be voted on at the general election, Nov. 5.

All interested citizens are urged to attend the Wednesday meeting which is being sponsored jointly by the League of Women Voters of Williamsburg - James City County and the Kiwanis Club of Williamsburg.

The Governor will be introduced by Rep. Russell M. Carneal.

No tickets are needed for the meeting and members of the League are hoping for a capacity audience.

VOTING

A reminder from the League of Women Voters:- Saturday is the last day on which you may register to vote in the November election. If you have met the requirements by Nov. 5 you may register now. In Williamsburg register at Attorney Chester Baker's office above the theatre on Duke of Gloucester Street 9-5 weekdays and 9-12 noon on Saturdays. In James City County register at the Courthouse 8:30-4:30 p.m.

Voting (cont.)

daily, Monday - Friday and 9-4 p.m. on Saturday, Oct. 5. In Bruton District, York County, call Mrs. Thomas Brummer, 229-1555 for an appointment.

AMERICAN BAR ASSOCIATION PRESIDENT TO SPEAK

William T. Gossett of Detroit, president of the American Bar Association, will deliver the second annual G. B. Sherwell Lecture under the sponsorship of the Marshall-Wythe School of Law in the Ballroom of the Campus Center on Oct. 10 at 11 a.m. The title of his address will be "In the Keeping of Lawyers", based on a phrase used by the late Justice Felix Frankfurter.

Gossett, son-in-law of the late Chief Justice Charles Evans Hughes, was vice-president and general counsel of Ford Motor Co. from 1947 to 1962, and for five years thereafter served Presidents Kennedy and Johnson as Deputy Special Representative for Trade Negotiations, with the rank of Ambassador. Currently he is of counsel to a Detroit law firm. He had served as national board chairman of the Negro College Fund, received the 1958 Amity Award of the American Jewish Congress, and has been named "layman of the year" by the Detroit Council of Churches. He is a former president of the National Legal Aid and Defender Association.

The Sherwell Lecture memorializes the family which in the nineteenth century occupied the Williamsburg home of George Wythe. It is supported by a gift from Mrs. Maria Sherwell Baumert of Long Island.

ANGLO-AMERICAN SYMPOSIUM

The Anglo-American Symposium which will be held Oct. 8-10 will bring to the campus several outstanding speakers who will explore Anglo-American relationships chronologically from the past, through the present and with a look into the future.

The Symposium is being coordinated by Assistant Vice-President J. H. Willis, Jr. as part of the 275th Anniversary Committee's program for the year. It is open to the public. All sessions will be held in Phi Beta Kappa Hall.

Prof. Henry Steele Commager will open the program with an address Tuesday evening at 8 p.m. On Wednesday 3-5 p.m., Paul Scott Rankine, formerly with the British Embassy in Washington, will serve as a moderator of a panel discussion on "The Influence of the News Media on the Anglo-American Relations." Members of the panel will be Joseph C. Harsch, news commentator for the NBC-TV Washington; Peter Lisagor, Chief of the Chicago Daily News, Washington Bureau, Leonard Miall, BBC representative in the United States; and Louis Heron, Chief Correspondent United States and Associate Foreign Editor of the London Times, representing news media of the United States and England.

The final meeting will be Oct. 10 at 8 p.m. The Symposium will close with an address by Drew Middleton of the New York Times on the future of Anglo-American relations.

DANFORTH FELLOWSHIPS

Faculty members are asked to urge seniors interested in Danforth Graduate Fellowships toward careers in college teaching to contact the College's liaison officer for these fellowships, Dr. John A. Moore in Washington 312 as soon as possible.

Danforth fellowships (cont.)

All nominees must take the Graduate Record Examination Aptitude Tests in Verbal and Quantitative abilities which will be given Oct. 26. Oct. 8 is the final day application may be made for the Oct. 26 examination.

The fellowships are open to men and women who are seniors or recent graduates of accredited colleges in the United States, who have serious interest in college teaching as a career, and who plan to study for a Ph. D. (or an appropriate advanced terminal degree, i.e., the N.F.A. in the fine arts) in a field common to the undergraduate college. Applicants may be single or married, must be less than thirty years of age at the time of application, and may not have undertaken any graduate or professional study beyond the baccalaureate. The Fellowships are open to persons of any creed, race or citizenship.

The award is for the academic year or the calendar year, and is normally renewable for a total of four years. Fellowship stipends are based on individual needs but may not exceed:

	Single	Married
For the academic year....	\$1800.00	\$2200.00
For the calendar year....	\$2400.00	\$2950.00

plus dependency allowances for children and required tuition and fees.

Teaching or research assistantships or jobs may not be held during the first year of graduate study on a Danforth Fellowship.

Candidates for appointment to the Fellowships are restricted to those persons nominated by the Liaison Officer after screening by a committee of the faculty.

NOMINATING COMMITTEE REPORTS

The nominating committee has submitted the names of E. Rae Harcum, Professor of Psychology; and Satoshi Ito, Assistant Professor of Sociology for consideration of the faculty as new members of the committee to serve until October, 1971.

Elections will be held by secret ballot at the next meeting of the faculty, Oct. 8

GRANT APPLICATIONS

Applications for summer research grants for 1969 should be submitted in duplicate to the Chairman of the Committee on Faculty Research. Frank B. Evans, III, on or before Friday, Nov. 1. This applies to requests for research grants to cover subsistence and other essential expenditures in connection with the research project for the period after July 1, 1969.

Application forms may be obtained in the office of the Chairman in Wren 301.

LOST AND FOUND DEPARTMENT

The Department of Ancient Languages has a lost and found notice out for a missing Bell and Howell "Specialist" Film Strip and Slide Projector (Model 724A2) which belongs in Washington 304.

"If you should happen to see in any of your classrooms a friendly projector of this sort (in brown case) and it seems to be lost, will you please bring it to the office of the Department of Ancient Languages (Washington 305) or phone J.W. Jones at Ext. 296."

COLONIAL ECHO PICTURES

Faculty members are urged to have their pictures made to be included in the 1969 Colonial Echo. A professional photographer will be in the Echo office on the second floor of the Campus Center Monday - Friday, through October 18, 9:00 a.m. until 6:00 p.m. (except 12:30 to 1:00). No appointment is needed, and there is no charge.

SPECIAL MOVIE AT NEWMARKET

For one day only, October 8 "The Grand Tour", featuring countries in Europe including Poland, Hungary and Russia will be shown at the Newmarket Theatre in the Newmarket Shopping Center on Mercury Boulevard. A special rate of \$1.50 will be offered to students at the 1:30 p.m. showing. Tickets for faculty will be \$2.00.

M. B. A. ADMISSION TEST

The admission test for Graduate Study in Business (ATGSB) required of applicants to more than 190 graduate business schools throughout the country will be administered on campus Nov. 2. Applicants for the MBA program of studies at the College are required to take the test before acceptance to graduate study.

Registration forms may be obtained locally at the office of the School of Business Administration in Bryan Hall, Room 112. Registration deadline for the November 2 test is October 19.

BIOLOGY DEPARTMENT

Dr. Charlotte P. Mangum was invited to participate in the Bering Sea Expedition of the research vessel Alpha Helix belonging to Scripps Institution of Oceanography. She spent the month of July in Kitoi Bay, Alaska, with nine other scientists studying various aspects of the physiology and biochemistry of the king crab.

Dr. Mangum also attended the International Congress of Physiological Sciences, held in Washington in late August.

CHEMISTRY DEPARTMENT

Dr. R. L. Kiefer attended the Gordon Conference in Nuclear Chemistry in New London, New Hemisphere, June 17 to 21.

He also attended the Los Alamos Conference on Medium Energy Nuclear Chemistry in Los Alamos, New Mexico, August 14 to 22. He presented a brief report on the cyclotron and work in progress at the Space Radiation Effects Laboratory.

He presented the same report to the Nuclear Chemistry seminar at Brookhaven National Laboratory, September 5.

Dr. Alfred P. Armstrong attended the American Chemical Society's Annual Fall Meeting in Atlantic City September 5 to 12. While there he participated in a short course in Electroanalytical chemistry, and represented the Virginia Section of the Society in the Council deliberation.

ECONOMICS DEPARTMENT

The second Interim Report and Recommendations, a 110 page report by the Secretary's Task Force on Prescription Drugs, of which Prof. Leonard G. Schifrin has been a member, was released by the Department of Health, Education and Welfare in mid-September. Professor Schifrin, in addition to serving as a consultant to the project in general, co-authored the second of the seven volumes comprising the work of the Task Force, "The Drug Industry."

Professor Schifrin also has resumed his position as special consultant in the Tax Division of the Department of Justice.

ENGLISH DEPARTMENT

Prof. Cecil M. McCulley attended the inauguration of Luther Wesley White, III, as President of Randolph-Macon College in Ashland, Va., on Sept. 28 as a delegate representing his undergraduate institution, Southern Methodist University.

Prof. Scott Donaldson's book, The Suburban Myth, will be published later in the academic year by Columbia University Press. An article excerpted from the book, "City and Country: Marriage Proposals," is scheduled as the lead article in the Fall 1968 issue of American Quarterly. Another article taken partly from the same source, "Planning vs. Democracy," has been accepted for publication by Midcontinent American Studies Journal.

Donaldson's article on Appointment in Samarra, "Appointment with the Dentist: O'Hara's Naturalistic Novel," is scheduled to appear in the Winter 1968-69 issue of Modern Fiction Studies. His article, "Minding Emily Dickinson's Business", has been accepted by the New England Quarterly. Another article, "Love in Rock and Roll Lyrics," has been accepted by ETC.

Introduction to New Edition

Professor Donaldson has written an introduction for a new edition of Thomas Low Nichols, Forty Years of American Life: 1821-1861, which will appear as one of a new series in American Studies. These books will be published by Johnson Reprint Corp. in an effort to make important American books, now out of print, once more available to the reading public. He has contracted to write an introduction for another book in the series, William Douglas O'Connor's 1860 novel Harrington: A Tale of True Love. His review of Frederick Crew's The Patch Commission appeared in the Aug. 11 edition of the Minneapolis Sunday Tribune.

MUSIC DEPARTMENT

F. Donald Truesdell, head of the department of music attended planning sessions for the biennial Music Educators National Conference Southern Division Convention, in Mobile, Ala. Sept. 27-28. He will play a recital of contemporary American piano music at the Pack Memorial Public Library in Asheville North Carolina October 20. That same weekend he will preside at meetings of the Virginia Music Teachers Association annual convention at Radford College. He is first Vice-President of that organization.

SWEM LIBRARY

Henry D. Grunder, Curator of Rare Books, addressed the Williamsburg Chapter of the Daughters of the American Revolution at their meeting on October 1. His subject was "Rare Americana in the Earl Gregg Swem Library".

The State Council of Higher Education has appointed William C. Pollard, Librarian, chairman of its Library Advisory Committee.

SCHOOL OF EDUCATION

Dr. William Bullock, Jr., Associate Professor of Education, gave a speech before the faculty of the Franklin School system in Franklin in August. The speech dealt with major objectives in teaching.

Professor Bullock also presented a second speech in September to elementary principals of District D of the Virginia Education Association, delving into the rational for evaluating elementary schools.

MARSHALL-WYTHE SCHOOL OF LAW

Associate Dean James P. Whyte is one of a number of labor law specialists who will participate in a conference on problems of public employment to be held in New York October 14 - 16 on invitation of Governor Nelson A. Rockefeller.

Dr. William F. Swindler has been made a member of "Scribes", an honorary section of the American Bar Association open by invitation to members of the bar who have written one or more books on legal subjects. The invitation was sponsored by David J. Mays of Richmond, author of the Pulitzer Prize biography of Edmund Pendleton and more recently editor of the Pendleton Papers.

Dean Whyte has recently heard arbitration cases in Mobile, Ala., Chattanooga, Tenn., Joliet, Illinois and Fort Wayne, Ind. Two of his decisions have been published; one, involving the Weyerhouser Co. in 51 L.A. 192 and the other, involving the Mueller Co., in 68 - 2 ARB. 8143.

Publications noted

An article by Professor E. Blythe Stason, Jr. of the Marshall-Wythe School of Law, entitled "Swift to Erie/York, Hanna and Beyond: Proposed Solutions for a Major Problem of Diversity Jurisdiction" was recently published by the University of Michigan Law School in 1 Prospectus, A Journal of Law Reform 67-87 (1968).

Professor Stason's comparative review of Bogert & Oaks' Cases on the Law of Trusts, entitled "Interdisciplinary Versus Segregated Study in the Law of Trusts" also was published recently, in 35 University of Chicago Law Review 570-76 (1968).

Professor Stason has been elected first vice-president of Williamsburg Community Council.

GENERAL NEWS

ANGLO-AMERICAN SYMPOSIUM

The three day Anglo-American Symposium will wind up tonight with an address by Drew Middleton of the New York Times in Phi Beta Kappa Hall, at 8 p.m.

The Symposium opened Tuesday with a talk by Prof. Henry Steele Commager of the faculties of Amherst and Columbia University. On Wednesday a panel discussion on "The Influence of the News Media on Anglo-American Relations" was moderated by Paul Scott Rankine, formerly with the British Embassy in Washington. Panel members were Joseph C. Harsch, news commentator for the NEC-TV Washington; Peter Lisagor, Chief of the Chicago Daily News, Washington Bureau; Leonard Miall, BBC representative in the United States; and Louis Heren, Chief Correspondent United States and Associate Foreign Editor of the London Times.

The Symposium was planned by Assistant Vice-President J.H. Willis, Jr., as part of the 275th Anniversary Committee's program for the year!

PUBLICATION PARTY

Oct. 11-13 is Homecoming Weekend on the campus. This year the program includes a unique festivity, a publication party.

Friday afternoon at 4 p.m. the stage at Phi Beta Kappa will be the setting for a publication party honoring Miss Althea Hunt, Editor of the new book The William and Mary Theatre: A Chronicle which is a delightful collection of reminiscences about the campus theatre from 1926 to 1957, written by eighteen former students.

Not designed as a definitive history of the college theatre, the new book is a colorful, perceptive personal narrative. Anecdotes about personages, famous productions and sidelights on campus life make the book enjoyable reading for anyone with an interest in the theatre.

Contributors include William Morrow, Edward D. Fales, Jr., Alma Mae Clark Fontaine, Howard Scammon, Carl Buffington, Charles Stousland, Dyckman and Sara Jane Snyder Vermilye, Ronald King, James and Benjamin Bray, Clinton J. Atkinson, Christian Hollis Moe, Anne Helms Irons, Jeremy Clulow, Jean Shepard Weisz, Henry Woolf and Jeanne Tracy.

All profits realized on the sale of The William and Mary Theatre: A Chronicle will go to the Theatre's Scholarship Fund.

Miss Hunt, founder of the William and Mary Theatre served as its director

Publication Party (continued)

for many years and was the first director of Williamsburg's outdoor historical drama "The Common Glory". Upon her retirement in 1957, she was named Professor Emeritus of Fine Arts by the Board of Visitors. She continues to live in Williamsburg and maintains an enthusiastic interest in the theatre.

LAW SCHOOL SPONSORS COAST-TO-COAST CONFERENCES

Three conferences for lawyers and industries --one in Williamsburg, one in Phoenix, Ariz., and one in Cape Kennedy, Fla.--will be sponsored jointly by the Marshall-Mythe School of Law and Federal Publications, Inc. of Washington during the coming fall and winter. The conferences deal with practical legal problems of contracting and subcontracting between the government and private industries.

The first conference, the fifth in the past four years to be held at the Williamsburg Conference Center, will be December 9-13. The second will be in Arizona January 13-17, and the third in Florida March 10-14. Henry B. Keiser, president of Federal Publications, announced that again this year the course coordinators will include Dr. Paul H. Gantt, B.C.L. '42, while the administrator will be Dr. William F. Swindler, professor of law at the College.

The continuing association of the Law School with government contracts studies has made the William and Mary Law Review a medium for authoritative articles on these subjects. The forthcoming Fall issue of the quarterly will feature a symposium on government contracts. It will be the second time the Law Review has offered such a feature, the first having been published in the summer of 1967.

ARCHEOLOGICAL REPORT

Dr. Ben C. McCary and Dr. Norman Barka will present a report on their archeological study of the Chickahominy River at the annual meeting of the Archeological Society of Virginia to be held in Richmond, Oct. 12.

The research in the Chickahominy region is aimed at determining all the cultures which lived along the river, from the very early Paleo Indian up to the Chickahominy Tribe which was driven from the Peninsula area after the Indian massacre of 1644.

On the basis of work done by McCary and Barka in the area, the two professors received a \$38,500 grant from the National Science Foundation to fund the study for two years.

The report by Professors Barka and McCary will be given at the afternoon session of the conference in the Science Building Auditorium at Virginia Commonwealth University.

WILLIAM AND MARY TO HOST PHILOSOPHICAL MEETING

The Virginia Philosophical Association will hold its 28th annual meeting on the campus, Oct. 17-18. Prof. Elizabeth S. Reed of the Department of Philosophy is president of the Association this year.

The program will open Thursday afternoon with a paper "An Antinomy of Practical Reason?" by Prof. William H. Williams of Virginia Polytechnic Institute at 3 p.m. in Phi Beta Kappa Hall. Professor Williams is a former Woodrow Wilson Scholar and a graduate of William and Mary.

William & Mary To Host Philosophical Meeting (Continued)

Greetings to members of the Association will be delivered by Harold L. Fowler, Dean of the Faculty of Arts and Sciences.

A Symposium "Conceivability/Imaginability as a Criterion in Philosophical Argument" will be held Oct. 17 at 8 p.m. in Phi Beta Kappa Hall. Prof. James H. Hall of the University of Richmond will give a paper and Prof. David Jones of William and Mary and Mr. Raymond Moody of the University of Richmond will serve as commentators. Chairman will be Prof. George Van Sant, Mary Washington College.

At the final session of the meeting, Prof. A.D. Moozley of the University of Virginia will deliver a paper entitled "Legal Obligation." in Phi Beta Kappa Hall Friday at 9:30 a.m.

The public is invited to these sessions of the Association.

FEDERAL COMMUNITY SERVICE PROGRAM SUPPORT

Preliminary proposals are due for departments or schools wishing to take advantage of funds made available to colleges and universities under Title I (Community Service and Continuing Education) of the Higher Education Act.

The authorization under Title I coupled with matching money provided directly by the State makes it possible to undertake a program at no cost to the College.

Persons interested in the program should contact Warren Heeman, Director of Institutional Resources as soon as possible.

The State Agency for Title I, the University of Virginia, has determined that priority should be given to the following area of community service:

Community Leadership

Community and neighborhood leadership training programs to enhance the skills of adults whose development has been limited by economic and cultural disadvantages, thus preventing them from effectively fulfilling the functions of citizenship.

Workshops, seminars and courses in group effectiveness and in the group approach to community problems and development.

Health and Social Services

Conferences, workshops and courses to upgrade the performance of employees of social agencies and institutions where skills are scarce and employed personnel are not properly qualified.

Courses and workshops to refresh the training of people who have been idle from a needed profession for a time and who need to have skills up-dated prior to re-entering the profession.

Courses to provide training for aides to release professionals for more effective service, and to bring economically deprived individuals into more productive occupations.

Problems in Urbanization

Courses, workshops, and urban extension projects to concentrate on problems of home management, poor diets, consumer economics, lack of motivation among youths and lack of recreational and cultural programs among the culturally and economically deprived.

Courses to provide training to people presently working in the helping professions to assist them in more effectively aiding in the solution of problems arising out of the social changes caused by increasing urbanization.

Resource Conservation

Courses, workshops, seminars and conferences to increase understanding of the mounting problems of air and water pollution for public officials involved in the administration of programs relating to these resources.

Similar programs for business, industrial and other community leaders to promote understanding of conservation problems and support for remedial measures.

Government and Community Affairs

Seminars on "the role of the citizen group" to clarify the understanding of citizen participation in Community Action Agencies.

A statewide conference on inter-governmental approaches to urban problems for public officials and government employees.

Programs designed to improve understanding and cooperation between and among diverse ethnic groups.

NEW WEEKLY RADIO SERIES

Prof. Gerald Turbow of the Department of History is the first faculty member with a radio series and can be heard each Tuesday evening over the campus radio station WCHM as narrator of the program entitled "Music in Literature". Professor Turbow discusses a different author each week and uses musical examples to portray the personalities of these literary figures and show how music has influenced great men of letters.

BLOOD BANK NEEDS DONORS

Faculty members are asked to mark the following dates on their calendar. They are the dates when the Red Cross Bloodmobile will be in town: Oct. 10, Dec. 6, Feb. 5, April 16, June 27 and a date in August, yet to be announced.

The hours are usually 10 a.m. to 4 p.m. To schedule an appointment please call the local office of the Red Cross, 229-3341.

The local quota is 135 pints each visit to maintain the local hospital in good standing as a participator in the Red Cross Blood program.

SEMINAR IN MARINE SCIENCE

Virginia Institute of Marine Science, Gloucester Point, will sponsor a seminar to be held 8:00 p.m. Thursday, October 10, at the former Beach Club, Gloucester Point, with a discussion of: "A Photographic Presentation of Cruise 17 of R/V TEVEGA to the Galapagos Islands" by Miss Maxine Mc Ginty,

SEMINAR IN MARINE SCIENCE (continued)

Graduate Assistant, Virginia Institute of Marine Science, Gloucester Point. Institute faculty, staff, students, and interested scientists from neighboring institutions are invited to attend. Refreshments will be served. The Beach Club is at the foot of Route 1208 (underneath the York River Bridge).

AUDITOR ELECTED

Floyd Whitaker, internal auditor at the College for nine years, has been elected president of the Association of College and University Auditors, an international group representing the college auditing field.

Whitaker, who last year was vice president, succeeds J. D. Griggs of the University of Washington. He will serve one year.

HOMECOMING HOLIDAY

Administrative offices of the College will be closed on Saturday, October 12, in order that the staff may participate in Homecoming activities.

There will be no classes Saturday and members of the Faculties are cordially invited to participate in all events for Friday and Saturday of Homecoming Weekend.

DEPARTMENT OF ENGLISH

The current issue of "Early American Literature" contains a review by Prof. Carl Dolmetsch of A History of American Literature 1607-1783 by Moses Coit Tyler, abridged and edited by Archie H. Jones, University of Chicago Press, 1967.

Prof. Donald Ball attended a conference on the supervision of the English program sponsored by the Virginia Association of Teachers of English at the Chamberlin Hotel in Hampton, Oct. 4 and 5.

DEPARTMENT OF GOVERNMENT

Roger W. Smith's essay, "The Political Meaning of Unconscious Guilt", will be published in the Political Science Quarterly.

DEPARTMENT OF HISTORY

Richard Maxwell Brown, Professor of History, testified on "The History of Extralegal Violence in Support of Community Values" before the National Commission on the Causes and Prevention of Violence in Washington, D.C. on October 3. Professor Brown will contribute two articles to a volume to be published in 1969 by the History and Comparative Perspectives Task Force of the Commission.

DEPARTMENT OF MATHEMATICS

Dr. Thomas L. Reynolds, Chairman of the Department of Mathematics and Dr. B. R. Cato, Jr., attended the State Mathematical Conference held in Roanoke, Oct., 4-5. Professor Reynolds presided at the opening session. Professor Cato lectured on "Probability and the High School Teacher."

Department of Mathematics (continued)

Prof. William C. Turner attended a lecture series in modern analysis and its applications at George Washington University, Saturday, Oct. 5.

DEPARTMENT OF PHYSICS

Tuesday, October 15 at 4:30 p.m. in William Small Physical Laboratory, Room 109, Dr. H. C. Von Baeyer will be speaker at a seminar on "The Decay of π^0 etc."

The following paper was published: Solution of the Linearized Vlasov Equation for a Space-Time Dependent Distribution Function, by H. W. Bloomberg, The Physics of Fluids, 11 no. 5, p. 1023.

MARSHALL-WYTHE SCHOOL OF LAW

Dr. William F. Swindler has been advised by the Bobbs-Merrill Co. of New York that the first volume of his Court and Constitution in the 20th Century now scheduled for publication early in 1969, has been adopted by the Lawyers' Literary Club. Another book, a high school edition of Magna Carta, is to be published by Grosset & Dunlap this fall.

The current issue of the Indiana Law Journal carries a review by Dr. Swindler of Warren : The Man, the Court, the Era, by John Weaver, A.B. '32. Another review by Dr. Swindler, on Archibald Cox's The Warren Court, will appear in the fall issue of the William and Mary Law Review.

SCHOOL OF BUSINESS ADMINISTRATION

Gilbert C. Jones was awarded the earned degree Juris Doctor by the Marshall-Mythe School of Law at the August Commencement. He has been appointed a member of the Professional Development Committee of the Purchasing Management Association of Old Dominion, Inc. an affiliate of the National Association of Purchasing Management.

GENERAL NEWS

THEATRE SEASON OPENS

The William and Mary Theatre opens its season Oct. 23 with a delightful musical comedy, "The Fantasticks" based on "The Romantics" by Edmond Rostand.

Because of the popularity of this play, it will be given four nights instead of the customary three, Wednesday through Saturday. Curtain time is 8 p.m. sharp. Late arrivals to dramatic productions of the Theatre may not be seated immediately nor will late-comers necessarily be shown to the seats they reserved.

Roger Sherman, box office manager, has sent to the Faculties a note explaining the complimentary ticket policy of the Theatre. Enclosed was a form which was to be returned for a complimentary ticket booklet for the 1968-69 season.

Anyone not receiving the materials should contact Professor Sherman during box office hours by going to PEK between 3:30 and 5:30 p.m. Monday through Friday, Oct. 21-25. At that time also, Faculty members may reserve seats.

The Theatre gives two free tickets to Faculty members for each of its own four productions. These tickets are intended only for the personal use of the Faculty member.

Complimentary tickets for "The Fantasticks" are valid for the production on Wednesday and Thursday nights. They are not valid for Friday and Saturday nights because the Theatre must protect the interests of its Season Ticket patrons.

Prof. Howard Scammon, chairman of the Department of Theatre and Speech, is the musical's director. Prof. Stephen P. Paledes, of the Department of Music, is musical director. The Choreographer is John Shearin, sophomore Theatre concentrator. Lawrence Miller, a recent addition to the Theatre's faculty, is designer. Albert Haak is Technical Director. Front-of-the-house operations are handled by Professors Sherman and Catron.

Records Set

Many new records were set this year for Theatre season ticket sales. For the first time in its history The William and Mary Theatre has sold all of its available \$11.00 Season Tickets, which admitted Patrons to the Theatre's own four productions plus the two visiting professional shows. Since the \$11.00 ticket admits patrons to the professional shows, which play only one night in the 805 - seat Phi Beta Kappa auditorium, the number of available \$11.00 tickets

Theatre Season (cont.)

is restricted to 805. All of these tickets have been sold. More of both \$6.00 and \$11.00 Season Tickets have been sold than ever before, and more tickets sold to local residents than ever before.

PROGRAM OF READINGS AND LECTURES

Haig P. Manocgian, Associate Director of the Institute of Film and Television, New York University will show a program of student films Friday, Oct. 18 at 7:30 p.m. in Andrews Hall as part of the College-wide Program of Readings and Lectures.

Manocgian will show films made by students at New York University and give a commentary on each. There will be an opportunity during the program for questions from the audience.

The Institute of Film and Television at New York University is considered an outstanding Institute of its kind which provides a practical training ground for film makers and television directors of the future.

The College-Wide Program of Readings and Lectures will also sponsor several other outstanding speakers during the year. In the Spring three of the authors of books now under discussion in the program will be on campus. Joseph Heller, author of Catch-22 will be here Feb. 20-21; Glenn Gray, author of The Warriors will be here March 25-27; and Michael Harrington, author of The Other America will be here April 9 - 10.

The Arrogance Of Power by Senator J. William Fulbright and Science and Human Behavior by E. F. Skinner are also under consideration. Chairman Donaldson has said that he hopes plans can be worked out for a visit by Senator Fulbright to the campus.

The Executive Committee for the College-wide Program of Reading and Lectures includes students Judy Banks, Robert Irvin and Nancy Verser; Prof. Garnett R. Brooks, Department of Biology; Professors William C. Cobb, Jr., and Thomas K. Hearn, Jr., Department of Philosophy; Prof. Lewis W. Leadbeater, Department of Ancient Languages; Prof. Virgil V. McKenna, Department of Psychology; Assistant Vice-President John H. Willis, Jr., and Methodist Campus minister John Harwood.

CURRENT EXHIBITS

Three exhibits are currently on display on the campus, sponsored by the Fine Arts Department.

At the Andrews Hall Gallery there is now on display a collection of Contemporary American Sculpture and a selection of 23 prints, drawings and watercolors from the Virginia Museum of Fine Arts Collection .

The prints, drawings and watercolors on display are among the more than 175 entries in the Museum's 20th Artists Exhibition 1965. The Museum exhibition was selected by a three-member Jury consisting of Time Magazine cover artist Robert Vickrey, sculptor Mary Callery and Carl Weinhardt, director of the New Gallery of Modern Art in New York City. The artists represented come from all sections of Virginia and demonstrate a wide range of styles.

In the lobby of Phi Beta Kappa Hall there is a display of Contemporary Foster Art.

Current Exhibits (cont.)

Exhibits will be on view until Nov. 1.

All three exhibits are part of the Festival of Fine Arts schedule and will be followed later in the semester by a Gallery Exhibit of Oil Paintings by outstanding Virginia Artists.

VISITING SCHOLAR SERIES

Robert W. Corrigan, president of the California Institute of the Arts and author of many books on the theatre, will be guest speaker on October 22.

Dr. Corrigan, who will speak on "After Absurdity: The American Theatre of The Sixties" at 8 p.m. in the Campus Little Theatre, is the first speaker in the 1968-69 Visiting Scholar Lecture Series at the College, open to the public.

A former Dean of the School of the Arts, New York University and Head of the Drama School, Carnegie Institute of Technology, Corrigan's anthologies are highly regarded. He is well versed in the modern theatre and has spoken particularly to the role of the Educational Theatre.

He received his doctorate from the University of Minnesota and has been a member of the faculties of Tulane, Johns Hopkins and Carleton College. He was Director, critic's program, National Endowment for the Humanities, advisor in theater, State Department (Greece); and is a member of the American Educational Theatre Association and National Collegiate Players.

Corrigan has authored *The Modern Theatre, The Context and Craft of Drama, the New Theatre of Europe, Masters of the Modern Theatre, New American Players;* and translated Chekov: *Six Players*. He is also editor of the *Theater in the Twentieth Century*.

POST-DOCTORAL FELLOWSHIPS

The National Science Foundation will award approximately 130 postdoctoral fellowships on March 15, 1969 for study in the mathematical, physical, medical, biological, engineering, and social sciences, and the history and philosophy of science. Applicants must be U.S. citizens who will have earned by the beginning of their tenure a doctoral degree in one of the above fields or who have equivalent training and experience. The usual tenure of the NSF fellowships is 9 or 12 months beginning within one year after the award date.

The fellowships will be awarded for postdoctoral study at any appropriate nonprofit United States or foreign institution. The normal stipend for the NSF fellowships is \$6,500 per annum with a dependency allowance of \$500 per annum per dependent of married Fellows; a limited travel allowance is also provided.

Applications may be obtained from the Fellowship Office, National Research Council, 2101 Constitution Ave., N.W. Washington, D.C. 20418. A completed Application must be received by the Fellowship Office postmarked no later than December 9, 1968. For additional information contact the above office or Warren Heeman, Director, Office of Institutional Resources.

DR. ANDERSON TO SPEAK

On October 24th at 8:00 p.m. The Geology Department in cooperation with the Society of the Sigma Xi will present a lecture by Dr. Richard J. Anderson, Coordinator of Research in the Ocean Sciences and Marine Technology of the Battelle Memorial Institute. Dr. Anderson's talk will be on "The Edge of the Sea - A Source of Industrial Minerals" and should be of timely interest as man is forced to search out new sources of mineral wealth in order to keep pace with the demands of mankind.

His visit to William and Mary is being sponsored by the Distinguished Lecture Series of the American Institute of Mining, Metallurgical, and Petroleum Engineers.

The lecture will be given in Room 109, Small Physical Laboratory.

HOROWITZ CONCERT

For anyone wishing to attend the concert to be given in Washington's Constitutional Hall by Vladimir Horowitz, F. Donald Truesdell, head, Department of Music has the following information:

"I have been fortunate to be included in the advanced sale of tickets to a concert by pianist Vladimir Horowitz at Constitutional Hall, November 17, at 4:00, in Washington, D.C. I am informed by the managing director of the Washington Performing Arts Society, Mr. Patrick Hayes, that public sale of tickets will begin on October 21. They will be limited to two to a patron, and must be obtained in person at Campbell's, 1300 G St., NW, Washington, D. C. 20005. Prices range from \$2.50 to \$10.00."

TICKETS STILL AVAILABLE

The William and Mary Concert Series opens tonight with a performance by The Camerata Singers under the direction of Abraham Kaplan, in PBK Hall.

There are a limited number of single admission tickets left for tonight's performance. These may be purchased at the box office before the performance. The box office will be open shortly after 8 p.m.

VIRGINIA ASSOCIATED RESEARCH CENTER

Enrollment in graduate engineering programs offered at VARC has reached 42 for the fall term, up slightly from last fall. Dr. D. J. Herrmann, Dean of the School of Continuing Studies under which VARC is administered, said the students are enrolled in nine courses. VARC faculty are also supervising preparation of 21 master's theses and two doctoral dissertations.

INTERNATIONAL HOCKEY GAME

The Field Hockey Team of the College and the Tidewater Field Hockey Association will be hosts for the Tidewater visit of the Royal Netherlands Women's Field Hockey Touring Team which will begin a 7-state tour of the United States in Williamsburg, Oct. 20.

Wednesday, Oct. 23, the visiting team will play an exhibition game with a selected team of Tidewater College and Club players at 4 p.m. at the College

International Hockey (cont.)

of William and Mary field on Jamestown Road.

Tickets may be purchased from Miss Kay Barrett at Adair Gymnasium or at the gate prior to the game.

Three William and Mary students and a member of the Women's Physical Education Department have been chosen to play on the Tidewater team which will play in the exhibition game. Two seniors, D.D.Helfrich and Sherry Vetter and a sophomore, Cindy Hicks will be members of the exhibition team, Joy Archer, Assistant Professor of Physical Education, will serve as captain of the team.

Miss Carol Haussermann, Assistant Professor of Physical Education and a nationally rated official, will be one of the officials for the Wednesday game.

The Dutch team is considered one of the best in the world today, exemplifying the finest of the "continental play" in field hockey.

SOUTHERN LAW REVIEW CONFERENCE NOVEMBER 21-23

The editorial board of the William and Mary Law Review will serve as host to the 1968 meeting of the fifty-five law reviews in 12 Southern states, which will be held at the Cascades conference center November 21-23. Seminars in editorial planning, staff selection and business management of law school publications will feature the program, supplemented by a panel discussion of the usefulness of law reviews in judicial opinion-making.

Retired Justice Tom C. Clark of the Supreme Court of the United States will be the featured speaker at the November 22 evening dinner program, and either the president or president-elect of the American Bar Association will address one of the luncheon meetings. Glenn J. Sedam, Jr., law student from Houston, Tex. is in charge of local planning, and Dr. William F. Swindler of the law faculty, advisor to the William and Mary Law Review, will moderate the panel.

14th ANNUAL TAX CONFERENCE DECEMBER 7

The fourteenth annual Tax Conference of the Law School will be held at the Williamsburg Conference Center on December 7. Dr. Thomas C. Atkeson, Chancellor Professor of Law Emeritus, will once more be in general charge of the program together with Dean Joseph Curtis, Associate Professor Emeric Fischer and Assistant Vice-President John E. Donaldson.

Intended to keep lawyers and accountants up to date on latest developments in Federal and State tax administration, the Tax Conference annually attracts several hundred persons from Eastern Virginia. Details of the program will be announced at an early date.

FACULTY CLUB PARTY

The Faculty Club will hold its first event of the year, an Autumn Cocktail Party, Oct. 19 from 5:30 - 7:30 p.m. in the banquet room of the Statler-Hilton Inn, 1600 Richmond Road. Hosting the party is the board of directors of the faculty club.

Faculty Club Party (cont.)

As the principal purpose of the Saturday party is to welcome new members of the faculties, each new faculty member is invited to apply for a free ticket for himself and another for a guest. For others ticket prices are as follows: \$1.50 for each Club member and one guest; and \$2.50 for each non-member. Annual membership dues for the Faculty Club are \$3.00. E. Blythe Stason, Jr., secretary of the Club, in a recent letter to members of the faculties urged membership "which is well worth the while because several more events at advantageous rates for members are planned."

All tickets and memberships can be obtained from the Faculty Club Treasurer, Satoshi Ito, via his faculty mail box in James Blair Hall (formerly Marshall Wythe).

HOMECOMING NOTES

There is no official count yet on the number of persons who attended Homecoming activities over the weekend, but the perfect weather brought out large crowds.

As Homecoming attendance continues to grow there is increased interest in the Alumni Seminars which this year took as their theme "Man at the Mercy of Himself" as an extension of the College-wide Program of Readings and Lectures. Seminars were conducted by Prof. J. Scott Donaldson of the Department of English and chairman of the executive committee of the College-wide Program of Readings and Lectures; and Professors Jack Edwards, Roger Smith and Donald Baxter of the Department of Government.

Alumni Medallion Presented

The Alumni Medallion, given for "services and loyalty" was awarded to four outstanding alumni of the College at the 275th Anniversary Homecoming celebration. Presented by President Davis Y. Paschall, the award was made to John Wills Tuthill, '32, U.S. Ambassador to Brazil; Blake Tyler Newton, Jr. '35, President of the Institute of Life Insurance; Robert Harvey Chappell, Jr., '48, outstanding young Richmond lawyer, and Harry D. Wilkins, '24, retired businessman from Eastville, Va. Chappell, Newton and Wilkins are all members of the Board of Visitors of the College.

The presentations were made during the annual meeting of the Society of the Alumni Saturday morning.

Directors Named

Robert A. Duncan, '24 of Williamsburg, was renamed to the Board of Directors of the Society for 1968. Also re-elected were John E. Hocutt, '35, of Newark, Del., former Dean of Men of the College; and William E. Pullen '22, Flint Hill, Va. New members are Donald G. Griffin '42, Norfolk; and Jane Harden Hanson '42, Potomac, Md.

During the business meeting at which the results of the Board of Directors election was announced, contributions for scholarships, Summer Research Grants, the newly instituted Alumni Fellow Program, the Queen's Guard and other interpretive programs were noted.

Anniversary Medallion

Miss Althea Hunt, founder and first director of the William and Mary Theatre was honored as the "Grand Lady of the Theatre" by President Paschall who

Anniversary Medallion (cont.)

presented Miss Hunt with a 275th Anniversary Medallion at the meeting of the Society of the Alumni Saturday morning.

The William and Mary Theatre: A Chronicle, edited by Miss Hunt made its debut at an autograph party Friday afternoon on the stage at Phi Beta Kappa. Many former students, members of the faculty and community came to honor Miss Hunt on Friday for her many years of service to the theatre world.

The new book is a collection of reminiscences about the theatre from 1926-57 written by eighteen former students. Many of the authors attended the autograph party.

The William and Mary Theatre: A Chronicle is available at the College Book Store.

DEPARTMENT OF BIOLOGY

A seminar on the effects of temperature on acid-base balance in the blood of poikilotherms was conducted by Dr. Barbara Howell, Department of Physiology, State University of New York, Buffalo, on Monday October 14 in the John Millington Life Sciences Building.

DEPARTMENT OF ENGLISH

A review of the periodical, Creative Writing, by Prof. David C. Jenkins, is included in the summer issue of The Anglo-Welsh Review.

DEPARTMENT OF GOVERNMENT

Prof. Roger W. Smith's article, "Notes on the Sociology of Punishment", will appear in the October issue of Theoria.

DEPARTMENT OF MODERN LANGUAGES

Prof. James R. Beeler contributed the article "Genealogy in Historical Romance" to the honorary volume Renaissance and Other Studies presented to William Leon Wiley, recently published by The University of North Carolina Press. His paper "Racine and Coffee" has been accepted for publication in Romance Notes.

DEPARTMENT OF PHYSICS

Prof. J.L. McKnight attended the Philosophy of Science 1968 Biennial Meeting, which met in Pittsburgh, October 11-13.

Prof. L.D. Doverspike gave an invited lecture entitled Low Energy Charge Transfer Processes at the meeting of the Southeastern Section of the American Physical Society October 9, at the University of Georgia in Athens.

Seminar

Tuesday, October 22, at 4:30 p.m. in William Small Physical Laboratory, Room 109, Dr. Jon Soest will speak on "N.M.R. Studies of Molecular Motion in Solids"

DEPARTMENT OF RELIGION

David L. Holmes' article FATHERS AND BRETIENEN appears in CHURCH HISTORY, September, 1968, Vol. XXXVII, No. 3.

WOMEN'S PHYSICAL EDUCATION DEPARTMENT

Miss Caroline Haussermann has been elected President of the United States Women's Lacrosse Association.

Miss Joy Archer will serve as captain of the Tidewater Field Hockey Association team which will play the touring field hockey team representing the Netherlands October 23 at 4 p.m. on the women's athletic field.

OCTOBER 24, 1968

GENERAL NEWS

INDUSTRIAL DEVELOPMENT SEMINAR

The Virginia State Chamber of Commerce and the School of Business Administration will conduct the state's first seminar devoted entirely to financing industrial development.

The two-day seminar, expected to attract 65 participants, is scheduled for Monday and Tuesday (Oct. 28-29) at the Cascades Meeting Center here. It is called the Virginia Industrial Development Seminar and is billed as a unique program of instruction in financing and locating industry in Virginia.

Emphasis of the seminar will be on industrial development revenue bonds and their application in Virginia.

The program begins Monday with a keynote address on industrial financing by W. Wright Harrison, president of Virginia National Bank. Speakers discussing industrial revenue bonds include Marquette de Bary, president, Marquette de Bary Co. of New York, who will discuss the role of the underwriter; Harry Frazier III, Richmond attorney, who will look at revenue bond legislation in Virginia; W.T. Jolly, Salem lawyer, who will discuss local implementation of revenue bonds; and Robert F. Hartman, associate professor of the School of Business Administration here, who will direct a question and answer session following the presentations.

A "trading post" informal, roundtable discussion will be conducted for all participants Monday night.

Tuesday, the seminar will focus on the financing activities of local industrial development corporations. Jack S. Smith executive director of the Roanoke Valley Chamber of Commerce, will moderate a panel exploring availability of funding for local development authorities. Included on the panel are A.C. Bartlett, president of the American National Bank of Portsmouth; Robert C. deRosset, president, Virginia Industrial Development Corp. of Richmond; William D. Butler, vice president, Life Insurance Co. of Virginia, Richmond; and Thomas F. Regan, regional director, Small Business Administration, Richmond.

Walter W. Harper, president of Romeo Guest Associates of Greensboro, will present the role of private developer in assisting the development corporation in the financing and construction of plant facilities.

The Seminar will conclude with an awards luncheon on Tuesday. John W. Roper, chairman of the Chamber's Industrial Development Committee, will award certificates and participants will hear brief remarks from the honorary seminar chairmen, W.C. Daniel of Danville State Chamber president and Dr. Davis Y. Paschall, William and

Industrial Development Seminar (cont.)

Mary president.

Coordinators of the Seminar are C. Arthur Middleton Jr., director of the State Chamber's industrial development office and Charles L. Quittmeyer, Dean of School of Business Administration.

FESTIVAL FILM SOCIETY

The Festival Film Society will present "New Cinema" program 1, the Arcturus Collection, of internationally recognized short films as part of the 275th anniversary Festival of Fine Arts.

The film show will be presented Oct. 29 and 30 in Phi Beta Kappa Hall. Public tickets will be available at "the box office" before each performance. There will be three showings of the film program on Oct. 29 at 4 and 8 p.m. and Oct. 30 at 8 p.m. Regular subscribers to the Film Series "Autumn Pot Pourri" will be admitted without charge.

The two-hour program of nine short films will feature prize-winning works from the seven major European short film Festivals, presenting the significant trends of international cinema.

These programs of New Cinema had their world premiere in January, 1967, to a sell-out crowd at Lincoln Center's Philharmonic Hall. Since this premiere, these programs have toured as a first-run concert attraction to capacity audiences at the Ravinia Festival of Chicago, the Los Angeles County Museum and universities across the country.

The film program includes "Enter Hamlet" by Fred Mogubgub of the United States; "Renaissance" by Walerian Borowczyk of Poland; "Les Mistsons '67" by Francois Truffaut of France; "Running, Jumping and Standing Still Film" by Richard Lester of England, which once served to introduce Peter Sellers to American audiences via Ed Sullivan's TV show; "The Fat and the Lean" by Roman Polanski of Poland; "Two Castles" by Bruno Bozzetto of Italy; "Corrida Interdite" by Denys Colomb de Daunant of France; "Allures" by Jordan Delson of the U.S.A., and "La Jetee" by Chris Marker of France.

NATIONAL RESEARCH COUNCIL POST DOCTORAL RESEARCH ASSOCIATESHIPS

The National Research Council is offering Postdoctoral Research Associateships in the basic and applied sciences, including clinical, behavioral, biological, and physical sciences, mathematics, and oceanography. These appointments are open to U.S. citizens and carry a stipend of \$12,174, subject to income tax. Applications must be received by February 15, 1969; awards will be announced by participating laboratories about April 1, 1969. For additional information, write to the Office of Scientific Personnel, Room 604 C, National Research Council, 2101 Constitution Ave., N.W., Washington, D.C. 20418, or contact Warren Heeman, Director, Office of Institutional Resources.

NATIONAL INSTITUTES OF HEALTH - FELLOWSHIP PROGRAMS

The National Institute of Health awards about 1,000 fellowships annually for post-doctoral research training in health-related areas; among the many fields supported are anatomy, anthropology, behavioral sciences, biochemistry, biology, genetics, psychology, sociology, and zoology. To be eligible, applicants must be U.S. citizens, noncitizen nationals, or permanent residents of the U.S. who have received a doctor-

National Institute of Health -Fellowship Programs (cont)

ate or equivalent degree, and who have arranged for admission to an appropriate domestic or foreign institution which will supervise the research training. The stipends are \$6,000, \$6,500, or \$7,000 per year, depending upon prior education and experience. An allowance of \$500 per year per dependent, a limited travel allowance, and a \$1,000 supply allowance are also offered. The tenure of the fellowships varies from one to three years, depending upon individual need. The deadlines for receipt of applications are January 2, April 1, and October 1; results will be announced in June, September, and February, respectively.

In addition, the NIH awards approximately 600 Special Fellowships in health and health-related fields. These awards are open to U.S. Citizens, nationals, and permanent residents affiliated with an appropriate domestic or foreign institution who have received a doctorate or an equivalent degree plus at least three subsequent years of relevant requirements in a medical specialty, or who have otherwise demonstrated their competence for the proposed research. Stipends are determined on an individual basis. Applicants may request support for periods from several months to 1, 2, or 3 years. The deadlines for receipt of applications are the same as for the post-doctoral fellowships. An individual may not apply concurrently under the NIH Postdoctoral and Special Fellowship programs.

Faculty members should also be aware that NIH awards approximately 1,500 fellowships to support predoctoral research training in the above mentioned fields. Applicants must, again, be U.S. citizens, nationals, or permanent residents; visitors on temporary visas are not eligible. They must have received, as of the beginning date of the award, a bachelor's degree or equivalent, and must be affiliated with an appropriate United States institution. Applicants should request support for the duration of studies leading to their graduate degree. The basic stipend is \$2,400 for the first year of graduate work, \$2,600 for the intermediate years, and \$2,800 for the final year. Deadlines are the same as above. For information on all three NIH fellowships, write to the Career Development Review Branch, Division of Research Grants, National Institute of Health, Bethesda, Maryland 20014, or contact Warren Heemann, Director, Office of Institutional Resources for further information.

THEATRE TICKETS

Free tickets for faculty members are still available for tonight's performance, (Oct. 24) of the William and Mary Theatre production of "The Fantasticks".

Anyone who has not made arrangements for the complimentary ticket booklet offered to faculty members for the 1968-69 season may contact Prof. Roger Sherman during box office hours by going to Phi Eta Kappa between 3:30 and 5:30 p.m. today and tomorrow.

The Theatre offers two free tickets to each faculty member for each of the four William and Mary Theatre productions.

Complimentary faculty tickets for "The Fantasticks" are valid for tonight's performance but are not valid for Friday and Saturday nights because the Theatre must protect the interests of its Season Ticket patrons.

LECTURE TONIGHT

Prof. Yvonne Noble of the English Department of the University of Illinois will speak tonight, Oct. 24, at 8 p.m. in the Campus Center Theatre on "The Comic Muse Presents Herself in Song: The Beggar's Opera." This program has been planned by the Botetourt Bibliographical Society and the Committee on Arts and Lectures.

Professor Noble did her doctorate under the direction of Maynard Mack at Yale University, since which time she has been teaching at the University of Pennsylvania and now at the University of Illinois. Her edition of Gay's The Beggar's Opera, soon to be published by Princeton University Press, solves aesthetic and critical problems about the Opera by solving bibliographical and source problems in both music and drama of the eighteenth century. She is well known by students and peers for her wit and critical acumen.

RICHARD WILBUR TO VISIT CAMPUS

Richard Wilbur, major American poet and winner of the Pulitzer Prize, will give a poetry reading Nov. 1 in the Campus Center ballroom at 8 p.m.; Nov. 2, he will hold a question and answer session in the Dodge Room of Phi Beta Kappa at 11 a.m. His visit to the campus is part of the Festival of Fine Arts program.

Wilbur, who is currently on the faculty of Wesleyan University has received numerous awards during his career. He won the Harriet Monroe Prize for Poetry in 1948; the Oscar Blumenthal prize in 1950; the Edna St. Vincent Millay memorial award in 1957. He won the Pulitzer prize in 1957; also the National Book Award.

Professor Wilbur was a Guggenheim Fellow 1952-53, received the Prix de Rome in 1954 and was a Ford Fellow 1960-61. In 1963 he was co-recipient of the Bollingen Translation Prize.

He is a member of the American Academy of Arts and Sciences and the National Institute of Arts and Letters.

He is the author of The Beautiful Changes; Ceremony, 1950, a Bestiary; Moliere's Misanthrope (a translation); Things of This World; Poems; Candide (a comic opera with Lillian Hellman); Advice to a Prophet; and Tartuffe (translation from Moliere). He is also editor of Complete Poems of Poe.

REDLICH AND BAILIN, NOV. 1

Don Redlich will give a modern dance concert Nov. 1 at 8 p.m. at Phi Beta Kappa Hall with his partner Gladys Bailin as part of the Festival of Fine Arts program. This concert will be open to the public. There is no admission charge.

Don Redlich, who was trained in modern dance by Hanya Holm, excels in many different areas of the dance and is considered an exciting avant garde choreographer.

Critic Walter Terry of the New York World Journal Tribune is one of the many critics who have praised Redlich. "He is an experienced show business dancer; he has appeared in concerts, and he is by no means unfamiliar with the avant garde and the best is that he is expert in all these areas."

"In this day, when some of the avant-garde dancers can barely stand up, let alone dance, or when the "emotional" dancers rely more on exudations of feelings

Redlich and Bailin (cont.)

than on technique, it is a joy to watch Redlich's lean, lithe body respond to his every command."

Clive Barnes, New York critic, has also praised the "delightfully deft style" of Redlich and "the reserved eloquence" of Miss Bailin.

A Philadelphia critic wrote that a concert by Redlich and Bailin contains touches of Charlie Chaplin, Marcel Marceau, Dada, surrealism and real campy barber-shop comedy.

The November 1 concert by Redlich and Bailin will contain the numbers which have won them the acclaim of critics. The program, which is subject to change will include Passin' Through, Dance in Green, Couple, Alice and Henry, Dance for One Figure, Four Objects and Film Sequences, Reacher, Air Antique and Cahoots.

STATE TAX FUNDS FOR EDUCATION RISE

A study by the Chronicle of Higher Education, comparing the appropriations by states of tax funds for the maintenance and operations of higher educational institutions (excluding construction), shows that Virginia appropriations have risen from \$29.8 million to \$107.5 million between 1960-61 and 1968-69.

The increase--261%--is the 13th largest increase of the 50 states. The Virginia increase in the last two years, of 67.5%, is the fifth largest. However, in per capita spending of tax dollars for higher education Virginia ranks 33rd among the states based on current appropriations, higher than such states as Maryland, Massachusetts, New Jersey, Oklahoma, Ohio, Pennsylvania, Texas and all southern states but Georgia. The highest per capita spending is West of the Rocky Mountains, where everything is priced "slightly higher".

ROBERT BIERSTEDT TO SPEAK

Dr. Robert Bierstedt, head of the Department of Sociology and Anthropology at New York University will speak at 8 p.m. in the Little Theatre of the Campus Center on Oct. 30.

Doctor Bierstedt's lecture is a program in the current Visiting Scholars series. He will speak on "Sociology: Science or Profession?" A former member of the faculties of Columbia University, Bennington College, Bard College, Wellesley College and the College of the City of New York, Dr. Bierstedt was Fulbright lecturer at the University of Edinburgh in 1959-60, and has also been a lecturer at Stanford and Oxford Universities.

Dr. Bierstedt is a Fellow of the American Sociological Association and a member of the British Sociological Association and the Sociological Research Association.

He is the author of the Social Order, and the co-author of six other books.

LECTURE IN BOTETOURT AUDITORIUM

The Rev. Dr. George J. Cleaveland, Registrar of the Episcopal Diocese of Virginia and former Canon Librarian of the Washington Cathedral will speak Thursday, Oct. 31 at 12:30 p.m. in the Lord Botetourt auditorium of Swem Library. His topic will be "The Metamorphosis of the Anglican Church in Virginia."

Doctor Cleaveland is a graduate of Racine College and the Virginia Theological Seminary. He is the author of Reformation and Reunion and numerous articles on Virginia church history.

The visit of Doctor Cleaveland to the campus is sponsored by the Department of Religion.

Members of the faculty and the community are invited to attend the lecture.

DEPARTMENT OF BIOLOGY

In September, Dr. C. Richard Terman presided at a contributed paper session of the Animal Behavior Society meeting with the American Institute of Biological Sciences in Columbus, Ohio. At the same session, he presented a paper entitled: "The Results of Pairing Reproductively Inhibited Female Prairie Deermice From Asymptotic Population with Fertile Males".

Dr. J.R. Byrd, of the Department of Endocrinology, Medical College of Georgia, will speak on "Human Cytogenetics" at the Biology Department Seminar in Room 117, Life Sciences Building, Monday, Oct. 28 at 4 p.m.

DEPARTMENT OF MUSIC

Dr. F. Donald Truesdell, head of the Department of Music presented a concert of Contemporary American Piano Music Sunday afternoon in the Pack Memorial Public Library, Asheville, N.C. His concert was sponsored jointly by the Library and the Friends of the Library of Asheville. His program included America Prelude No. 12 and Sonata by Alberto Ginastera; Nocturne in E and Sonata No. 3 by Norman Dello Joio; and Nocturne and Sonata, Opus 26 by Samuel Barber.

Oct. 18 and 19 Dr. Truesdell attended the state convention of the Virginia Music Teachers Association at Radford College. He is currently serving as First Vice President and chairman of the credentials Committee for State Certification. On Tuesday he took several students to a Province Workshop at East Carolina University in Greenville, N.C.

DEPARTMENT OF PHYSICS

William Lankford of the University of South Carolina will be the speaker at the Physics Colloquium Friday afternoon at 4:30 p.m. in Room 109 of the William Small Physical Laboratory. His subject will be $40 \quad 3 \quad 41$
Ar (He ,D) K Reaction at 10 Mev

DEPARTMENT OF PHYSICAL EDUCATION FOR WOMEN

Miss Janet Tomlinson conducted a Synchronized Swimming Clinic for the Virginia Division for Girls' and Women's Sports of the National Association for Health, Physical Education, and Recreation at the University of Virginia, Oct. 19. Rep-

Physical Education (cont.)

representatives from thirteen Virginia colleges and several high schools attended the meeting. Miss Tomlinson was assisted by several women students from the College who demonstrated synchronized swimming techniques and aquatic choreography.

SCHOOL OF EDUCATION

Dr. Robert C. Jones, Associate Dean of the School of Education, served from October 13 to 17, on an accreditation committee of the Southern Association of Colleges and Schools which evaluated Columbus College, Columbus, Georgia. The committee was appointed to advise the Association regarding the eligibility of the college for accreditation as a four-year institution. Columbus College is accredited as a junior college but is currently in transition to senior status.

DAYLIGHT SAVING TIME ENDS

ELECTION DAY TUESDAY

Tuesday, Nov. 5 is Election Day and the League of Women Voters has urged all registered voters to cast their vote at the polls which will be open from 6 a.m. to 7 p.m.

Today (Thursday, Oct. 31) is the final day for voters who plan to be away on Election Day to submit their application for an absentee ballot.

Ballots may be issued to James City County voters by Mrs. Betty Winstead 229-6401; in Williamsburg from Chester Baker's office, phone 229-3721; and in Bruton District from Mrs. Thomas Brummer 229-1555.

Ballots must be completed and returned to the secretary of the electoral board by the time the polls close on Tuesday.

LOCATION OF POLLS

All residents of the City of Williamsburg will vote at the old Courthouse.

Polling places for James City County voters are as follows:

Jamestown District 1 - James-York Bank.

Jamestown District II - Rawls Byrd Elementary School

Berkeley District - Berkeley Junior High School.

Powhatan District - County Office Building, Toano.

Stonehouse District - Old Bank Building, Toano.

Bruton District of York County is divided for the first time, and residents will have two polling places for this election. The dividing line is the Colonial Parkway. Residents of the district residing south of the Colonial Parkway (Magruder precinct) will vote at Magruder School. Residents north of the Parkway (Bruton precinct) will vote at the Queens Lake Intermediate School.

ON THE BALLOT

There are six parties on the ballot with candidates for the offices of

LIBRARY
NOV 2 1968

WILLIAM & MARY

On The Ballot (cont.)

President and Vice President. They are: Democratic, Humphrey-Muskie; Republican, Nixon-Agnew; American Independent, Wallace-Griffin (Curtis LeMay entered the race too late to be on the ballot as a Vice-Presidential candidate); Socialist Labor, Dlcmen-Taylor; Prohibitionist, Munn-Fisher; and Peace and Freedom, Gregory-Spock.

Williamsburg and York County voters will vote on Controlled Mixed Beverages; James City County will not.

All Virginia localities will vote on the bond issue which includes \$67, 230,000 for Virginia higher education and \$13,770,000 for Virginia Mental Hospitals and institutions for a grand total of \$81,000,000. Voters must vote twice on the bond issue, for or against the two allocations. Included in the bond referendum is \$1,055,750 for needed facilities at Eastern State Hospital.

FOR THE COLLEGE OF WILLIAM AND MARY?

General Classroom Building and Equipment	\$1,510,000	
Physical Education Building and Equipment	500,000	
Completion of Conversion of Old Library to Law School and Equipment	260,000	
Completion of Life Science Building and Equipment	285,000	
Renovation to Rogers Hall	20,000	
Utilities and Site Work	339,000	\$2,914,000
		<hr/>

Other funds to be expended if bond referendum passes \$4,132,500 \$7,046,500

HOUSE OF REPRESENTATIVES

All area voters will also cast a vote for member of the House of Representatives from the First Congressional District. Incumbent Thomas Downing a Democrat is being opposed by Conservative candidate James S. Stafford and J. Cornelius Fauntleroy running as an independent.

James City and York County Voters will also elect three supervisors of the Colonial Soil and Water Conservation District. There are three names on the ballot, J. W. Black, T.R. Carmines and Albert L. White, III.

PRESIDENT TO HOST COFFEE

Dr. Davis Y. Paschall will be host at a coffee Saturday morning in the Pote-tourt Gallery of the Swem Library for about 250 persons, all residents of Williamsburg before 1930, who are expected to gather here for a reunion this weekend. There will also be a get-together for the group at the home of Dr. Janet Kimbrough, '21, the St. George Tucket house on Nicholson Street, and a dinner at the Williamsburg Conference Center on Friday.

ARTIST TO SPEAK

A. B. Jackson, Professor of Art at Old Dominion College and one of the outstanding painters of Virginia, will be guest speaker Nov. 12 as part of the College's Festival of Fine Arts.

Professor Jackson will give an informal lecture in the large lecture room of Andrews Hall at 8 p.m. Questions and discussion will be invited from the audience.

Paintings by Jackson are in the permanent collection of Yale University, Howard University, the University of Virginia, Virginia Museum, Norfolk Museum, Talledega College, Virginia National Bank, Norfolk, North Carolina National Bank, Old Dominion College, Wachovia Bank, North Carolina and the University of Massachusetts.

He is represented in the private collections of President and Mrs. Lyndon B. Johnson, Secretary and Mrs. Willard Wirtz, Secretary and Mrs. Dean Rusk and others.

Winner of the Purchase Award, First Annual James River Juried Show, 1967, Jackson has collected a number of awards for his paintings. He was awarded the In-State Fellowship given by the Virginia Museum in 1964-65 and again in 1965-66. He won the Purchase Award, and Best in Show at the Virginia Beach Boardwalk Show, Virginia Beach, 1966.

A feature article on the work of Jackson entitled "A. F. Jackson - His Porch People" appears in the February, 1968 issue of American Artist.

Professor Jackson received the B.F.A. Degree in Painting from Yale School of Art and Architecture and the M.F.A. Degree in Graphics Design from the same institution. He was formerly Chairman of the Department of Fine Arts at Norfolk Division, Virginia State College, and has taught at Southern University, Baton Rouge, La.

CHOIR IS CONVENTION BOUND

The William and Mary choir under the direction of Dr. Carl A. Fehr, has embarked on another busy concert season.

Tomorrow evening the Choir will be presented in concert by the State Lions Club at the Chamberlin Hotel in Hampton, in connection with the regional Lions Club convention.

During December the choir will prepare a Christmas TV program for national distribution. To date, twenty stations have already asked for the program. A similar one last year brought wide-spread praise to the college group. The Choir has been invited to present a concert Feb. 3 at the National Convention of the American Legion Auxiliary in Washington.

Recently the choir presented a concert in Richmond as part of the National Tobacco Festival celebration.

AUDUBON WILDLIFE SERIES

The second in the current Audubon Wildlife Film Series will be presented Monday, Nov. 4 at 8 p.m. in the ballroom of the Campus Center.

Audubon Wildlife Series (cont.)

Tickets may be obtained from the Department of Biology and will be on sale at the door the evening of the program.

Guest speaker will be William Ferguson of Omaha, Nebraska, who will show a film entitled "Once Around the Sun". The film encompasses a journey of 600 million miles through space showing the changes taking place in plants, birds and mammals during the seasons.

The film series is sponsored jointly by the Clayton-Grimes Biology Club and the National Audubon Society.

FACULTY RECITAL

Dr. F. Donald Truesdell, head of the Department of Music, will present a lecture-recital of Contemporary American Piano Music, Nov. 3 in the Campus Center Ballroom at 4 p.m.

This lecture-recital is part of the Festival of Arts program.

Truesdell will play American Prelude No. 12 and Sonata by Alberto Ginastera; Nocturne in E: Adagio, and Sonata No. 3 by Norman Dello Joio; and Nocturne (Homage to John Field, 1959), Opus 33 and Sonata, Opus 26, by Samuel Barber.

The program of the lecture-recital follows that presented by Dr. Truesdell recently at the Pack Memorial Public Library in Asheville, N.C., under the sponsorship of the Library and the Friends of the Library of Asheville.

TICKETS FOR DANCE PROGRAM

Tickets are now available at the desk in the lobby of the Student Center for the dance program Friday night at Phi Beta Kappa Hall featuring Don Redlich and Gladys Bailin.

There is no admission charge but tickets will guarantee seating.

NEW RECORD SET

A new attendance record was set by The William and Mary Theatre with its first production of the 1968-69 season. Slightly over 2400 people attended THE FAN-TASTICKS last weekend. The previous record was set with last year's production of KISS ME KATE (2200).

Statistics are not yet available, but the Theatre also has set records of Season Ticket sales for this 1968-69 season: for the first time in its history The William and Mary Theatre sold all available \$11.00 Season Tickets (which admitted patrons to the one-night visiting professional shows plus the Theatre's own four productions) and its sales of the \$6.00 Season Ticket appear to be higher than before.

The next production of The William and Mary Theatre will be George Bernard Shaw's THE DEVIL'S DISCIPLE, to be presented in December.

POET RICHARD WILBUR TO LECTURE NOV. 1

Richard Wilbur, major American poet and winner of the Pulitzer Prize in 1957, will give a poetry reading Friday evening, Nov. 1 in the Campus Center ballroom at 8 p.m. On Nov. 2 he will hold a question and answer session in the Dodge Room of Phi Beta Kappa at 11:00 a.m.

His visit to the campus is part of the 275th Anniversary Festival of Fine Arts program.

COLLEGE TO HOST NATIONAL HONOR SOCIETY MEETING

The College will play host Nov. 9 to representatives of 100 area High Schools at the first annual fall conference of the Southeastern District of the National Honor Society.

President Davis Y. Paschall will welcome the students at the opening session in Phi Beta Kappa Hall. The main address of the day will be given by Prof. Frank A. MacDonald, chairman of the Department of Philosophy who will take as his topic "The World of Ideas in the Knowledge Explosion".

A total of 11 seminars will be conducted by members of the faculties. Seminar leaders will be Richard K. Newman, Professor of Fine Arts; Robert Maccubbin, Assistant Professor of English; Alvin Z. Freeman, Associate Professor of History; Alan J. Ward, Assistant Professor of Government; Richard H. Prosl, Assistant Professor of Mathematics; Raymond W. Southworth, Professor of Mathematics; Peter L. Derks, Associate Professor of Psychology; John L. Lavach, Assistant Professor of Education; David L. Holmes, Assistant Professor of Religion; Thomas K. Hearn, Associate Professor of Philosophy; and Robert E. Welch, Professor of Physics. Each professor has selected one or two W&M students to participate in the Seminar sessions.

Prior to the seminars the visiting students will be entertained with productions by the William and Mary Theatre including numbers from "Kiss Me Kate" and "The Fantasticks".

A luncheon will be held in the Student Center Ballroom at 1:00 p.m.

Mrs. Mary L. Passage of Homer L. Ferguson High School, Newport News, is coordinator for the Southeastern District of the National Honor Society.

THE ORCHESTRE DE PARIS

The Orchestre de Paris will give a concert Nov. 7 in Phi Beta Kappa Hall, the second event on the current William and Mary Concert Series. A limited number of single admission tickets will be available.

The orchestra will be under the direction of conductor Jean-Pierre Jacquillat and will feature piano soloist Jean-Paul Sevilla.

The program will include Symphonie fantastique, opus 14a by Hector Berlioz and Daphis et Chloe, Suite no. 2 by Maurice Ravel.

Sevilla will play Concerto in G major for piano and orchestra by Ravel.

The Orchestra de Paris (cont.)

The 1968-69 season marks the first United States tour of the Orchestre de Paris which is under the auspices of the French Government and the City of Paris. The one-hundred-member organization, France's first "prestige" orchestra, was recruited from the finest material in all the former French orchestras.

Soloist Jean-Paul Sevilla is a young French pianist whose recitals have catapulted him to the attention of the public and the most exacting musicians in Europe, Africa and North America.

Composer Alberto Ginastera recognized Sevilla's talent when he heard him play in 1956 and predicted that he was destined for a brilliant career. "He has all qualities required for a virtuoso artist", said Ginastera. "The 1959 Geneva Prize, his first international success, is only the beginning, and I am convinced that before long his name will be known the world over."

Shirley Jo Anderson Memorial Book Fund

The Philosophy Department staff and one other student have contributed fifty dollars to the Shirley Jo Anderson Memorial Book Fund. I am hoping that publication of this fund will afford the opportunity to other faculty and students to make their donations. Some of them had indicated their intentions before the spring semester closed.

As you may know, Shirley would have been a senior this year. She was an English major and she was also girl Friday in the Philosophy Department, as well as my student secretary for the Committee on Arts and Lectures. Her fiance, who was with her at the time of her death, has submitted a list of books that he thought would be most appropriate. He did this at my request. My intention is to submit this list along with the money to the Head Librarian in order that he may direct acquisition of those books from the list most needed by the Library.

Lewis Foster
Associate Professor of Philosophy

(Miss Anderson was killed in an automobile accident last spring while enroute from Williamsburg to Washington, D.C.)

RECITAL POSTPONED

Robin L. Roark, tenor, who was to be heard in a faculty recital Nov. 19 in Phi Beta Kappa Hall, has postponed his recital due to illness.

Mr. Roark's recital will be rescheduled following the Christmas holidays.

NOTES AND QUERIES

Luis Marden, Foreign Editor of the National Geographic magazine would like historical or modern anecdotes concerning the International Dateline.

Information should be sent either to Mr. Marden at the Washington office of the National Geographic or Miss Nancy Farriss, Department of History.

DEPARTMENT OF CHEMISTRY

Prof. S.Y. Tyree, Chairman of the Department of Chemistry, addressed the annual meeting of the Appalachian Section of the American Association of Physics Teachers at Morris Harvey College in Charleston, W. Va., on the topic, a "Chemist looks at Physics Instruction".

Dr. David Thompson presented a seminar entitled "B-Diketonate Derivatives of the Group IV Elements" to the Chemistry Research group at NASA at Langley Field on October 18.

137m 137g
"Isomer Ratio of Ce to Ce Produced in Several Charged-Particle Reactions" by R.L. Kiefer and K. Street, Jr. was published in The Physical Review, volume 173, p. 1202, of September 20, 1968.

DEPARTMENT OF ECONOMICS

Martin Garrett has completed a report for the Nashville Metropolitan Council which is the governing body for the metropolitan area of Nashville, Tennessee. The major purpose of the report is to present a model for the future growth of the entire mid-state region.

DEPARTMENT OF ENGLISH

Profs. Leroy Smith and Donald Ball attended a planning session for the 1969 convention of the National Council of Teachers of English at the Sheraton Park Hotel in Washington last weekend. Both will serve as key members of a convention committee made up of teachers from Virginia, Maryland and the District of Columbia, who will be the hosts for the convention of some 6,000 English teachers from all over the United States.

DEPARTMENT OF PHILOSOPHY

Prof. Lewis Foster participated as a Lecturer and Panelist in the Fall Conference of the Edgar Cayce Foundation, held during the week of Oct. 21-26 at Virginia Beach. The theme of the conference was "Balance: Body, Mind, and Spirit", and it was developed within the fields of Religion, Philosophy, Psychological Research, and Physical Therapy.

Profs. William S. Cobb and H. Earl McLane attended the recent meeting of the Society for Phenomenology and Existential Philosophy at Yale University in New Haven, Connecticut.

DEPARTMENT OF SOCIOLOGY

A review of The Sociology of Industry by S. R. Parker, contributed by Victor A. Liguori, Assistant Professor of Sociology, appeared in the September, 1968 issue of Social Forces.

SCHOOL OF EDUCATION

Dr. S.S. Flanagan of the School of Education, President of the Richmond Council of Teachers of Mathematics, presided at the first meeting of the organization this year in Richmond, Oct. 23.

Over 200 teachers of mathematics attended the meeting held at the Mary Mumford School in Richmond. Guest speaker was Dr. Edward J. McShane of the Depart-

School of Education (cont.)

ment of Mathematics, University of Virginia who took as his topic "Many Faces of Mathematics." The membership of the Richmond Council includes teachers of all levels of mathematics from the first grade through college.

Next meeting of the Council will be held March 5.

LAW SCHOOL ANNOUNCES 3rd SUMMER COURSE IN ENGLAND

A six-week Program of Studies in Law in England for the summer of 1969 has been announced by the Marshall-Wythe School of Law. As for the summers of 1967 and 1968, the courses will be offered for American law students under sponsorship of the College law school, on the campus of the University of Exeter. Professor Emeric Fischer of the law faculty will be director of the 1969 session, which runs from July 7 to August 13.

The unique overseas study program is an outgrowth of the exchange of faculty members in 1966-67 between the law faculties of the two institutions. Students from more than thirty American law schools have enrolled the first two years.

VISITING SCHOLARS

The Visiting Scholar Lecture Series will present three speakers on campus Nov. 18, 19, 20 to conclude the first semester portion of this series.

On Nov. 18, Fred Hechinger, Education Editor of the New York Times will be on campus. His topic has not yet been announced.

Hechinger is the author of *An Adventure in Education*; the *Big Red Schoolhouse*; and co-author of *Teen-Age Tyranny*.

He is the recipient of many awards including the Education Writers Association Award, the George Polk Memorial Award and the Fairbanks Award. He is president of the Education Writers Association.

Francis Story, co-Editor of the Buddhist Publication Society, Kandy, Ceylon will lecture on "Case Evidence of Reincarnation in Southeast Asia", on Nov. 19.

Mr. Story is an Englishman, long resident of Southeast Asia and an author on Buddhism. He has made a special study of the Buddhist doctrine of rebirth and personally studied many cases of the reincarnation type in Southeast Asia. He is eminently qualified to discuss reincarnation both with regard to religious and philosophical concepts and to evidence suggesting reincarnation based on case studies.

Arthur Link, Edwards Professor of American History, and Director of the Woodrow Wilson Papers at Princeton University, will speak on "Wilson the Diplomatist in Retrospect," on Nov. 20.

A native of New Market, Dr. Link has lectured widely in the United States, Germany, France and Argentina. He has written many books, including a multi-volume biography of Woodrow Wilson.

LIBRARY
NOV 7 1968
WILLIAMSBURG, VA

Visiting Scholars (cont.)

-2-

He received his Ph.D. from the University of North Carolina and has received Litt. D. degrees from Bucknell University, University of North Carolina and Washington and Lee University.

All three lectures will be given in the Little Theatre of the Campus Center at 8 p.m.

THEATRE OPENS AUDITIONS TO FACULTY MEN

Faculty men are invited to audition for THE INVESTIGATION, by Peter Weiss (author of Marat/Sade), which The William and Mary Theatre will present in March.

Advance notification is given here to allow male faculty members an opportunity to consider auditioning.

Auditions will be held early in December with a few rehearsals the end of the first semester and full-scale rehearsals beginning with the second semester. Most rehearsals are held week-day evenings; few weekend rehearsals are likely. Due to the nature of this particular play it is quite possible that the majority of cast members will not be needed for rehearsals every evening, nor would they be needed all evening. Of course the whole cast will be needed the 10-14 days before performance.

Scripts of THE INVESTIGATION are in the Reserve Room of the library.

Further information can be obtained from Louis E. Catron (ext. 395) who will direct THE INVESTIGATION.

ORCHESTRE CONCERT TONIGHT

The Orchestre de Paris will give a concert tonight in Phi Beta Kappa Hall, the second concert in the current William and Mary concert series. A limited number of single admission tickets are available.

The Orchestre will be under the direction of conductor Jean-Pierre Jacquillat and will feature piano soloist Jean-Paul Sevilla.

SATURDAY CONFERENCE

Over 250 members of High School National Honor Societies in the Tidewater area are expected on campus Saturday, Nov. 9, for the first annual fall conference of the Southeastern District of the National Honor Society. Some 102 area High Schools will be represented. Main speaker at the meeting will be Prof. Frank A. MacDonald chairman of the Department of Philosophy who will take as his topic "The World of Ideas in the Knowledge Explosion."

Members of the faculties will serve as leaders for 11 seminars keyed to the overall theme of the conference "The Knowledge Explosion".

Mrs. Mary L. Passage, principal of Homer L. Ferguson High School, Newport News, is coordinator for the Southeastern District of the National Honor Society and has planned the conference program.

A Seminar on "Energetics and temperature regulation in neotropical bats" will be given by Dr. Brian Mc Nabb, Department of Zoology, University of Florida, Monday, Nov. 11 at 4 p.m. in Room 117 of the Life Sciences Building.

PHYSICS COLLOQUIUM

David Goodstein of California Institute of Technology will be the speaker at a Physics Colloquium "Ion Mobilities, Italian Style" (Ion Mobilities in Liquid Helium) to be held Friday, Nov. 8 at 4:30 p.m. in Room 109 of William Small Physical Laboratory. Coffee will be served in the conference room at 4 p.m.

MARINE SCIENCE SEMINAR

A seminar will be held tonight (Nov. 7) at 8 p.m. at the former Beach Club. Gloucester Point, with a discussion of "Fine Structure of a Jenkins Neck, Guinea Marsh Protist: *Labyrinthula* sp. by Dr. Frank O. Perkins, Associate Marine Scientist Virginia Institute of Marine Science, Gloucester Point.

Institute faculty, staff, students, and interested scientists from neighboring institutions are invited to attend. Refreshments will be served. The Beach Club is at the foot of Route 1208 (underneath the York River Bridge).

DEPARTMENT OF THE ARMY SPEAKERS PROGRAM

The Department of the Army has established a speakers program providing audiences an opportunity to hear firsthand reports from men recently returned from Vietnam. Major Lewis C. O'Rourke, a former Commander of the 8th Military History Detachment in Vietnam and now assigned to Headquarters, USCONARC. at Fort Monroe, is available through this program to speak to any interested group. Major O'Rourke may be contacted at 747-2450.

THE J. SHELTON HORSLEY RESEARCH AWARD FOR 1969

To the author of a highly meritorious research paper, the Virginia Academy of Science presents the J. Shelton Horsley Research Award. From papers submitted for consideration each year, the Research Committee may select an award winner. This award is the highest honor the Academy can bestow for original research, and its presentation is the highlight of the Academy Assembly at the annual meeting. An engraved certificate and an award of \$500 are presented to the winner.

Three copies of each competing paper should be submitted to the appropriate Section Secretary by February 28, 1969. Secretaries are requested to forward submitted papers to Dr. Horton H. Hobbs, Jr., Division of Crustacea, Smithsonian Institution, Washington, D.C. 20560, not later than March 4, 1969. Papers received after this date may not be considered by the Research Committee.

The author must present the paper in the appropriate section program at the annual meeting. The paper must represent original research carried out by the author while a member of the Academy.

A published paper to be eligible must have been published after May 1, 1968 - reprints of such papers may be submitted. If the entry has not been published, it is recommended that the paper submitted be suitable in length and content for publication in a scientific journal.

Outstanding scientists outside the state will be asked to aid in the evaluation of the papers. No person will be awarded the prize more than once.

The Department of Music will present the Baroque Ensemble of the Schola Cantorum Basiliensis with Robert Conant, guest harpsichordist, Thursday, Nov. 14, at 8:15 p.m. in the Campus Center Ballroom.

The concert is the second in the Collegium Musicum Series for 1968-69 and part of the 275th Anniversary Festival of Fine Arts.

The Schola Cantorum Basiliensis is an institute for research and teaching of early music in Basle, Switzerland. As the only institute of its kind, it was founded in 1934. Its teachers form different ensembles such as "The Consort of Violas," "The Chamber Orchestra" and "The Baroque Ensemble" for concert performances and recordings.

The copious collection of precious original instruments helps to achieve its aim; to perform all early masterpieces by means they are composed for and to give them living beauty and perfection.

The Baroque Ensemble will include in their Williamsburg concert Sonata in E minor for flute, viola da gamba and continuo, Opus 37, no. 2 by Bodin de Beismortier (1691-1755); Fantasia no. 3 in D minor for two viola da gamba and continuo by John Jenkins (1592-1678); Divisions on a ground in A minor for two viola da gamba and continuo by William Young (---1672); Sonata in D minor for recorder and continuo by Daniel Purcell (1660-1717); Sonata in D minor for two viola da gamba by Johann Christoph Schaffrath (1709-1763) and Quartet in G major no. 2 for flute, two viola da gamba and continuo by Georg Phillip Telemann (1681-1767).

Guest artist, Robert Conant, Harpsichordist, will play three pieces for harpsichord, Le Dodo, Les Bagatelles and Passecaille by Francois Couperin (1668-1733).

Robert Conant, who has been described as an artist-scholar of rare distinction, has toured nationally and internationally with the renowned Deller Trio, the Galliard Players, and the Baroque Festival Trio.

In 1959 he founded the Festival of Baroque Music which has gained international prominence - "among the world's finest" as Boston critic Michael Steinberg wrote in the Boston Globe, August, 1965.

Robert Conant is also known to television audiences from coast to coast for his distinguished programs on NBC - TV's Recital Hall and CBS-TV's Camera Three, among others.

Appointed to the faculty of the Yale School of Music in 1961, he has combined an outstanding academic achievement with a distinguished concert career. At Yale he also became Curator of the Yale University Collection of Musical Instruments.

Eugene Ely, a student at the College who recently finished a tour of enlistment in the U.S. Air Force will be one of the speakers at the Fall meeting of the Peninsula Chapter of the American Civil Liberties Union to be held Wednesday, Nov. 13 at 8 p.m. in the Hostess Training Room at the Colonial Williamsburg Information Center.

"Civil Liberties on the Peninsula" will be the topic for the fall meeting. Another speaker will be Richard Hudgins, Newport News, who will discuss his experience as a cooperating attorney with ACLU.

Albert Hill, Director of the James River Community Action Project of the Office of Economic Opportunity, will discuss civil liberties and the black community.

After a brief statement by each speaker, there will be an open discussion period. Prof. David Jones of the Department of Philosophy is chairman of the Peninsula ACLU; Prof. William S. Cobb, also of the Department of Philosophy, is secretary. The meeting is open to the public.

GERMAN CLUB SPEAKER

Dr. Alex Kallos of the Department of Modern Languages will present a program of films and slides entitled "An Introduction to Austria" at the next meeting of the German Club to be held Wednesday, Nov. 13 at 7 p.m. in Room D of the Campus Center. Members of the faculty are invited to attend.

SMLA MEETING IN FLORIDA

Prof. J. Worth Banner, chairman, and Profs. J. Rush Deeler and Alex Kallos of the Department of Modern Languages and Profs. Carl Dolmetsch and Donald Hall of the Department of English will attend the 38th annual meeting of the South Atlantic Modern Language Association to be held Nov. 14-16 in Jacksonville, Fla.

DEPARTMENTAL NEWS -DEPARTMENT OF BIOLOGY

Dr. C. Richard Terman was recently elected a "Fellow" of the American Association for Advancement of Science.

DEPARTMENT OF MUSIC

Dr. F. Donald Truesdell attended the College Section meeting and the general meeting of the Virginia Music Educators Association, held in conjunction with the Virginia Education Association, in Richmond, Friday, November 1.

The William and Mary choir under the direction of Prof. Carl A. Fehr, performed for the Regional Convention and the Lions Club at the Chamberlin Hotel at Fort Monroe, Friday, Nov. 1.

DEPARTMENT OF PHYSICS

A paper on Energy and Width Measurements of the Pionic 2p-1s Transition in

23 Na. G.H. Miller, M. Eckhause, W.W. Sapp and R.E. Welsh has been published in

Department of Physics (cont.)

Physics Letters 27D, 663 (1963).

DEPARTMENT OF RELIGION

Dr. James C. Livingston, chairman, attended the annual meeting of the American Academy of Religion in Dallas, Texas, October 17-20.

SWEM LIBRARY

Miss Lyn Thaxton, Assistant Reference Librarian, represented the Swem Library at the dedication of the Kelly Memorial Library at Emory and Henry College on October 30. Miss Thaxton is an alumna of Emory and Henry.

Mrs. Mary Louise Cobb, Assistant Cataloging Librarian, and William C. Pollard, Librarian, attended the Southeastern Library Association Conference held at Miami Beach, Oct. 30 - Nov. 2. Mr. Pollard represented Virginia on the SELA Executive Board.

Mrs. Ilse Webb, Cataloging Librarian, Miss Kathryn Blue, Assistant Cataloging Librarian, and Miss Kaye Gapen, Cataloging Assistant, attended the annual meeting of the Potomac Technical Processing Librarians held in Washington, D.C. on November 2.

Henry D. Grunder, Curator of Rare Books, addressed the Jamestown Chapter of the National Society Colonial Daughters of the Seventeenth Century at its meeting on October 31 in Hampton.

MARSHALL-WYTHE SCHOOL OF LAW:

Dr. William F. Swindler has completed the manuscript for his essay, "Government by the People: Theory and Reality in Virginia," which is to be published as part of the series commemorating the 350th anniversary of the first legislative assembly at Jamestown, 1619/1969. The anniversary commission had planned a series of topical essays as well as reprints of important legal materials of the colonial period, under the general editorship of William J. Van Schreeven, State Archivist.

Associate Professor, and Assistant Vice-President John E. Donaldson spoke October 30 to the Peninsula chapter, Virginia Association of Certified Public Accountants, at Newport News. His subject was, "Taxation of Non-Profit Organizations."

COLLEAGUE

College of William and Mary Faculty Newsletter

Published by Information Office
Second Floor, Ewell
Ext. 225-226

NOVEMBER 14, 1968

The Campus calendar this week is a full one. This evening, the Baroque Ensemble of the Schola Cantorum Basiliensis will present a concert as part of the Collegium Musicum Series at the Campus Center at 8:15 p.m.

The Sinfonicon Student Opera Company opens its annual Gilbert & Sullivan production tonight at 8 p.m. in Phi Beta Kappa Auditorium. The group is presenting "Yeomen of the Guard." Performances will also be given on Friday and Saturday nights.

- Football Game -

Saturday William and Mary plays the Citadel on home ground. This game is included in the program planned for Burgesses Day to which members of the General Assembly and State Officials have been invited by the College's Society of the Alumni. Game time is 1:30 p.m.

Halftime activities at the football game will include performances by the winning bands in the 8th annual band competition for high school musicians which will be held in Williamsburg Saturday morning.

More than 2,500 high schools musicians throughout Virginia are expected to participate in the Band Day activities which will get underway with a parade down Duke of Gloucester Street from Merchants Square to the football stadium beginning at 10:30 a.m.

Band Day is sponsored by the Williamsburg Kiwanis Club.

"A Dylan Thomas Festival" will be presented Sunday by the Festival Film Society in two showings in Andrews Auditorium at 4 and 8 p.m.

Monday marks the beginning of a series of lectures by important speakers on a diverse area of topics.

Monday afternoon Dr. G. S. Mahajani will lecture on "Indian Education in Transition" under the sponsorship of the Committee on Arts and Sciences in the Little Theatre at the Campus Center at 4 p.m.

Fred Hechinger, Education Editor for the New York Times will speak Nov. 18 at 8 p.m. The first of three speakers in the Visiting Scholars Lecture Series.

Francis Story, co-Editor of the Buddhist Publication Society, Kandy, Ceylon will lecture on "Case Evidence of Reincarnation in Southeast Asia" Nov. 19.

Arthur Link, noted historian and biographer of Woodrow Wilson will speak Nov. 20 on "Wilson the Diplomatist in Retrospect."

All three lectures will be given in the Little Theatre of the Campus Center at 8 p.m.

LIBRARY
NOV 14 1968
WILLIAM & MARY

FOUR PLAYS IN PHI BETA KAPPA NEXT WEEKEND

The William and Mary Theatre will serve as host to the Virginia Division Festival of the American College Theatre Festival next weekend.

The full-scale production of four full-length plays will highlight the event.

The schedule of plays is given below:

Friday, November 22:

2:00 p.m. Bus Stop, a comedy by William Inge
Lynchburg College

8:00 p.m. The Adding Machine, expressionism by Elmer Rice.
Hampton Institute

Saturday, November 23:

2:00 p.m. The Fantasticks, a musical-comedy by Jones and
Schmidt.
The College of William and Mary

8:00 p.m. The Queen and the Rebels, a political tragedy by
Ugo Betti.
Virginia Commonwealth University.

Special attention is drawn to the wide variety of dramatic genres. All four selections could hardly be more different but, strangely, there was no effort on the part of the Festival to coordinate the various plays. That the selected plays are so different illustrates the educational theatre's wide-ranging imagination.

The Festival at The College of William and Mary is one of a series held in the U.S. Ultimately ten productions will be selected for presentation in Washington the spring of 1969, under the sponsorship of the Friends of the John F. Kennedy Center for the Performing Arts, the Smithsonian Institute, and American Airlines.

General admission tickets at \$1.00 each will go on sale one hour before each production. A \$3.00 ticket for all four plays will be available. There will be no reserved seats. Late arrivals may not be seated immediately.

DELEGATES TO CONVENTION

Professors James Kornwolf of the Fine Arts Department and Frank MacDonald of the Philosophy Department were delegates to the Virginia Humanities Conference in Lexington on November 2.
Mr. MacDonald was elected Vice-President of the Conference.

FESTIVAL OF FINE ARTS CLOSES

Three performances of Gilbert and Sullivan's "Yeomen of the Guard" to be presented by the Sinfonicron Student Opera Company, Nov. 14, 15, and 16, in Phi Beta Kappa Hall, will conclude the program of the 275th anniversary Festival of Arts which has sponsored during the semester a distinguished series of events.

A concert by the Baroque Ensemble of the Schola Cantorum Basiliensis with guest Artist Robert Conant, harpsichord, Nov. 14 in the Campus Center Ballroom will also help ring down the curtain on the Festival program. Concert time is 8:15 p.m.

Tickets for the Sinfonicron production are \$1.50 for students, \$2 for all others. There is no admission charge for the concert by the Baroque Ensemble.

-Guest Artists-

Visiting artists such as Carl Dolmetsch, virtuoso of the recorder and Joseph Saxby, harpsichord; the Camerata Singers, Don Redlich and Gladys Bailin, modern dance team, and the Orchestre de Paris with pianist Jean Paul Sevilla have all appeared on campus as part of the Festival of Fine Arts program.

Gallery Exhibits of sculpture and paintings by the Department of Fine Arts, a faculty recital of Contemporary American piano music by F. Donald Truesdell and the William and Mary Theatre's production of "The Fantasticks" were also highlights of the Festival.

Guests speakers on the Festival program included Richard Wilbur, American Poet and winner of the Pulitzer Prize; Haig Manoogian, Associate Director of the Institute of Film and Television, New York University; and artist A. B. Jackson.

-Publication Party-

The Festival also spotlighted the publication of a new book, the William and Mary Theatre: A Chronicle at a party honoring Miss Althea Hunt, editor, on the stage at Phi Beta Kappa during Homecoming Weekend.

New Cinema I, a special program arranged by the Festival Film Society was also listed as part of the Festival of Fine Arts.

BOTANISTS MEET

Forty persons interested in the botany of Virginia met at the College Saturday November 2 to discuss current research. Virtually every College and university in Virginia as well as several out-of-state institutions were represented in the group meeting in the new John Millington Hall of Life Sciences.

The morning session of the meeting was devoted to reports on the taxonomy and ecology of the flora of Virginia. William and Mary faculty and students who delivered papers at this session were Dr. Stewart A. Ware, who spoke on "The Climax Forest of the Virginia Peninsula", and Mrs. Donna

Botanists Meet (c ont.)

M. Ware who presented a paper "Dimorphism in Valerianella", and Mrs. Allene C. Barans who spoke on "The Flora of the College Woods, James City County, Virginia."

The afternoon was devoted to an open meeting of the State Flora committee of the Virginia Academy of Science. This committee, headed by Dr. Alton M. Harvill of Longwood College, is engaged in producing several large works on the natural vegetation of Virginia. Over 3500 species and varieties of higher plants growing naturally in Virginia will be included, along with detailed information on their identification, preferred habitats, and distribution on a county by county basis through the state.

Dr. Gustav W. Hall of the department of Biology was local host for the meetings. The group will meet again in May at Mary Washington College, Eredericksburg, in conjunction with the annual meeting of the Virginia Academy of Science.

CHANGES IN NSF ACT AFFECT SOCIAL SCIENCES, COMPUTER
SCIENCE, APPLIED RESEARCH, AND SCIENTIFIC ACTIVITIES
RELATING TO INTERNATIONAL COOPERATION

After an extensive four year review by the House Committee on Science and Astronautics and the Senate Committee on Labor and Public Welfare, a bill to amend the National Science Foundation Act of 1950 was passed by both houses and signed into law by President Johnson on July 18, 1968. Several provisions of the law amending the NSF Act pertaining to the social sciences, computer science, applied research, and scientific activities relating to international cooperation will be of interest to the scholarly community.

The Foundation is now specifically directed to give support to the social sciences on a co-equal basis with other sciences. Heretofore, the authority for social science activity was based on the general language of the Act.

The Act authorizes support for applied research in addition to basic research at academic and non-profit institutions at the discretion of the Foundation. A new section has been added providing that NSF foster and support the development and use of computer and other scientific methods and technologies, primarily for research and education in the sciences.

NSF is now also authorized to undertake on its own initiative, or at the request of the Secretaries of State or Defense, the support of scientific activities relating to international cooperation. Any such activities done at the request of either Secretary must be financed by funds transferred by the requesting Secretary, must be unclassified, and must be identified as being supported as a result of such a request.

AN EXCERPT FROM COLLEGE AND UNIVERSITY REPORTS

HOWE: NEW FEDERAL EDUCATION PROGRAMS UNNECESSARY

"[Education's] pressing need now is not for another flood of new

Howe (cont.)

federal programs but greater resources and stronger tools with which to capitalize fully on the programs that already exist," Harold Howe II, Commissioner of Education, said.

"By and large," Howe told Rep. John Brademas' Conference on Major Tensions in American Education, held at Notre Dame, "we already have on the books the basic legislation we need to develop meaningful federal programs to meet the major education problems at every level."

The Commissioner proposed these priorities for the government's role in education:

"While major new federal funds have been made available, they are far from sufficient to solve the problems to which they are addressed," Howe said. He urged Congress to provide the necessary appropriations.

He proposed better coordination and more effective use of existing programs. "We need more emphasis on careful evaluation of what works and what does not, accompanied by a willingness to shift the focus of federal resources to those programs and practices which give reason to hope for breakthroughs on our persistent educational problems," he said.

Schools, colleges--and even students and parents--should have a hand in federal policy-making decisions, Howe added. "We must make sure that the practices and programs in our schools and colleges respond constructively to suggestions and complaints and do not instead feed frustration by ignoring or condemning it," he said.

SEMINARS IN MARINE SCIENCE

Dr. Charles Jenner, Professor of Zoology at the University of North Carolina, Chapel Hill, will speak on "Commensal Bivalve Mollusks" at a seminar to be held by the Virginia Institute of Marine Science, Gloucester Point, tonight at 7:30 p.m. at the former Beach Club, Gloucester Point.

Next Thursday, Nov. 21, Mr. Robert Huggett, formerly of Scripps Institution and now Assistant Marine Scientist at the Virginia Institute of Marine Science will speak on "Wind-Borne Sediment over the Oceans" at a Seminar scheduled for 7:30 p.m. at the former Beach Club.

Interested scientists from neighboring institutions are invited to attend. Refreshments will be served.

The Beach Club is at the foot of Route 1208 (underneath York River Bridge.)

INDIAN EDUCATOR TO SPEAK

Dr. G. S. Mahajani, president of the University of Udaipur, Udaipur Rajasthan, India, will lecture Monday afternoon at 4 p.m. in the Little Theatre of the Campus Center.

Dr. Mahajani will discuss "Indian Education in Transition". His visit to the campus is being sponsored by the Committee on Arts and Lectures.

Currently visiting the U.S.A. to study Land-Grant institutions on a Commission from the Ford Foundation, Dr. Mahajani is continuing a study started in 1965 when he was visiting in this country under the auspices of the Rockefeller Foundation.

Indian Educator to Speak (cont.)

A native of Poona, State of Bombay, Dr. Mahajani received his master's degree in mathematics from Poona University and another master's and a doctorate in mathematics from Cambridge University, England.

He has been Principal of Ferguson College, Poona, a member of the Legislature of the State of Bombay, President of University of Rajasthan, Jaipur, India and President of the University of Delhi. He assumed his present position as President of the University of Udaipur in 1963.

- DEPARTMENTAL NEWS -DEPARTMENT OF ANTHROPOLOGY

Dr. Norman Barka and Dr. Ben McCary (of Modern Languages) attended the Southeastern Archaeological Conference, held at the University of Tennessee, Knoxville, November 7-10. Dr. Barka presented a paper entitled "The Excavation of an 18th Century Kiln Waster Pit in Yorktown, Virginia."

Prof Norman Barka attended the annual meeting of the Eastern States Archaeological Federation at the University of Michigan, Ann Arbor, (Nov. 1 - 3), where he presented a paper on his and Dr. Ben McCary's Chickahominy River research and also participated in a symposium dealing with publication of research and editorial problems.

DEPARTMENT OF GEOLOGY

Dr. Gerald H. Johnson attended the 9th Annual Meeting of the Atlantic Coastal Plain Geological Association in Maryland on November 2 - 3. At the meeting he participated in a two day field trip studying the stratigraphy and paleontology of the Coastal Plain in Maryland.

The 10th Annual Meeting of the Atlantic Coastal Plain Geological Association will be sponsored by the Geology Department of the College of William and Mary. During that meeting geologists from all Coastal Plain States will converge on Williamsburg to study the geology of this area.

DEPARTMENT OF PSYCHOLOGY

A paper by Dr. Herbert Friedman "Magnitude of Experimental Effect and a Table for its Rapid Estimation" has been published in the October issue of Psychological Bulletin.

SCHOOL OF BUSINESS ADMINISTRATION

Deans C. L. Quittmeyer and A. B. King, and Drs. A. L. Sancetta and W. G. Dafashy represented the School of Business Administration at the recent annual meeting in Washington of the Southern Business Administration Association.

- VACATION SCHEDULE -

Thanksgiving vacation begins Wednesday, Nov. 27 at 1 p.m. Classes will resume Dec. 2.

The Colleague will be issued on Nov. 21 but not on Nov. 28. All item for submission in the Nov. 21 issue should be send to the office in Ewell Hall by 9 a.m. Nov. 20. There will be two issues of the Colleague before the Christmas holidays, Dec. 5 and 12.

Ext. 225-226

NOVEMBER 21, 1968

- LAW SCHOOL HOSTS CONFERENCE -

A dinner address Friday evening by former U. S. Supreme Court Justice Tom C. Clark will highlight the annual three-day session of the Southern Law Review Conference which opened on campus today.

The Marshall-Wythe School of Law is host to the approximately 75 law review editors and faculty advisors from 15 southern law schools attending the conference.

Through a series of student-led seminars, panel discussions and lectures, the conferees will explore various phases of law review operations, such as criteria for candidate selection, administration of editorial processes, stimulation of scholarly writing and business management. All events are being held at the "Cascades," a recently-opened conference center operated by Colonial Williamsburg, Inc. on the outskirts of the restored area.

Justice Clark, 69, who retired from the nation's highest bench in 1967, was appointed to the Court by President Harry S. Truman in 1949. A native of Dallas and a former law review staff member at the University of Texas Law School, he served a county prosecutor and as chief of the anti-trust and criminal prosecution divisions of the Justice Department before being appointed U. S. Attorney General in 1945. A former president of the Federal Bar Association, Justice Clark has engaged in extensive research into the problems of administration of the federal judiciary system since his retirement.

The conference begins today and will end with a Saturday business meeting and luncheon. Donald Larrabee, 22-year veteran of the Washington political scene, chief correspondent of the Griffin-Larrabee News Service and vice-chairman of the Board of Governors of the National Press Club, will also speak to the conference at a luncheon Friday. Mr. Larrabee will comment upon the impact of the recent election on the Supreme Court and other governmental institutions.

- PHI BETA KAPPA ELECTS -

Alpha of Virginia Chapter of Phi Beta Kappa has announced the names of 26 seniors as members-elect to be initiated at the annual meeting on Dec. 5 in the Apollo Room of the Raleigh Tavern. Phi Beta Kappa was founded in 1776 in Williamsburg on Dec. 5 by William and Mary students as the first Greek-letter fraternity in the United States.

Eighteen of the 26 tapped are girls. Distribution of majors is as follows: 5-physics; 4-history; 2-biology, sociology, Spanish, English

LIBRARY
SEP 30 1970
WILLIAM & MARY

Phi Beta Kappa Elects (cont.)

government, philosophy, and economics; and 1 - education, English and psychology. Seventeen are Virginians; three from Pennsylvania; three from Maryland and one each from South Carolina, New Jersey and the Canal Zone.

- Alumnus Initiate -

David Clarence Pulley of Greenville, S.C., chairman of the Department of Education at Furman University has been named an Alumnus Initiate of Alpha of Virginia, Phi Beta Kappa.

He received both his B.A. ('48) and M.A. ('49) degrees from the College of William and Mary and his PH.D. ('53) from Yale University. He was a graduate assistant in the Department of Education at the College from 1948-1949 and teacher of the 8th, 9th and 10th grades Social Studies and English at Matthew Whaley High School Williamsburg, from 1949-50.

He serves on many important committees and from May to June in 1958 he was a Ford Foundation consultant to the Government of Iraq on formation of a new university. In June, 1957 he was a Fulbright lecturer at the University of Chile.

- Columnist to Speak -

Charles McDowell, syndicated newspaper columnist, will speaker at the annual Phi Beta Kappa lecture to be given Dec. 5 at 8 p.m. in Phi Beta Kappa Memorial Hall. The poet will be John Hollander.

"WIT VS WITS"

Donald L. McConkey, Associate Professor of Theatre & Speech and Director of Debate at the College, predicts that the upcoming public debate between a team from William and Mary and debaters from the University of Strathclyde, Glasgow Scotland, will be an interesting one for spectators.

The debate, which is open to the public, will be held in the Campus Center ballroom at 8:30 p.m., Dec. 2.

The motion for debate is "that the sacrifice of individual freedom is an inevitable price of progress."

Debaters from Scotland will be Victor MacColl of Glasgow and James Hutchinson of Hamilton, who won the British Nation Debate Championship in June, 1968. The College team will be composed of Dean Hewes, a senior from Fredricksburg; and John Morello, a junior from Hampt on who won a spot in the National Championship tournament last year in N.Y. The team of Morello and Hewes have placed first or second in most of the tourneys they entered.

In the past, said McConkey, the debates between teams from the British Isles and the College have been very interesting because of the difference of style displayed by the two teams. The British, he says, rely heavily upon wit and stage presence and the American teams use more technical argument skills. The Americans are more or less cold and analytical - it's a battle of wit versus wits.

SUNDAY CONCERT

Ronald Marshall, Viola d'Amore and Gloria Whitehurst Philips, Piano, will be heard in concert Sunday afternoon at 4 p.m. in the Campus Center Ballroom.

Sunday's concert is the third in the current Collegium Musicum Series for 1968-69, sponsored by the Department of Music. The public is invited. There is no admission charge.

Both artists are long-time members of the Feldman Chamber Music Society in Norfolk. In recent years Mr. Marshall has served as the director. In addition he has been associated with the Norfolk and Peninsula Symphony orchestras.

Mr. Marshall will play both the viola d'Amore and the violin. The Viola d'Amore is distinguished from other members of the viol family by the addition of non-playing, sympathetically vibrating strings.

The program for Sunday's concert will include *Trois Fantaisies* by Louis Couperin (c. 1626-1661); *Concerto in D Minor, F. II, no. 2* by Antonio Vivaldi (1675-1741); *Sonata in D Major* by Giovanni Toeschi (d. 1801); *Sonata in E flat Major for violin and piano, K. 380* by W. A. Mozart (1756-1791); and *Kleine Sonate, Opus 25, no. 2* by Paul Hindemith (1895-1963).

FILM PROGRAMS DURING DECEMBER

In addition to its regularly scheduled showings on Friday, December 6 (a Robert Rossen double bill of *Lilith* and *Johnny O'Clock*) and Monday, December 16 (Tonio Kroger) the Festival Film Society will present two special programs during December with the cooperation of the Twentieth Century Gallery and the Virginia Museum of Fine Arts. Both special events are open to the College community without charge.

The first of the free programs, to be presented at 4 and 8 p.m. on Tuesday, December 10 in Andrews Hall Auditorium features a group of short films in the fine arts, including *A Trip with Currier and Ives*, a color film of Currier and Ives prints on ships, whaling, and railroads with musical accompaniment by the folk singer Tom Glazer; Norman McLaren's *A Chairy Tale*, a comic account of the struggle by a young man for mastery over a kitchen chair; the classic French film *The Red Balloon*; *Three East Coast Artists at Work*, a study of the American artists Jack Tworkov, Hans Hoffman, and Milton Avery; and *Images Medievaes*, an intimate picture of life in the Middle Ages as recorded by illuminated manuscripts of the 14th and 15th centuries with a sound track of medieval music played on authentic instruments. This program should have an appeal for children as well as adults, and the afternoon showing is especially intended to afford an opportunity for children to attend.

On the following night, Wednesday, December 11, at 8 P. M. in the Campus Center Little Theatre, Richard Griffith, former curator of the film library of the Museum of Modern Art, will give a lecture and illustrated film program entitled "A Primer of Film."

MENTAL HEALTH PROGRAM

Dr. Joseph Fletcher, Professor of Social Ethica at the Episcopal Theological School, Cambridge Mass., and outstanding author and lecturer, will be the main speaker at the 1968 Mental Health Seminar to be held Saturday, Nov. 23 at

Mental Health Program (cont.)

Kecoughtan High School auditorium, Woodland Road, Hampton. His topic will be "Ethics in a Changing World."

According to Who's Who Professor Fletcher has had a wide social experience as a coal miner, an auditor's assistant, rope factory worker, resident worker in a New York settlement house, and social research director for the Executive Council of the Episcopal Church.

He has contributed articles to many learned journals and periodicals and is the author of The Church and Industry (1930) Christianity and Property (1948) and Morals and Medicine, (1954). Some of his books have been translated into German, Japanese, and Spanish. His most recent volumes are a "duet" on the theory of ethical analysis and decision making, and on its application to medicine, fertility control, business management and social roles. They are Situation Ethics (1966) and Moral Responsibility (1967).

State Senator Herbert Bateman of Newport News; the Rev. Thomas Pugh, pastor of the Williamsburg Baptist Church and Dr. David Jones of the Department of Philosophy will serve as a panel of reactors following Dr. Fletcher's presentation. Dr. N. W. Coppinger of the Veterans Administration Hospital, Hampton, will serve as seminar chairman.

The Seminar opens at 9:30 a.m. for late registrations. It is being sponsored by the Chesapeake District, Virginia Congress PTA, Mental Health Committee; Christopher Newport College, Peninsula Association for Mental Health, Peninsula Family Service and Travelers Aid, and Peninsula Personnel and Guidance Association.

HOCKEY TOURNAMENT

Culminating the 1968 season, the Tidewater Field Hockey Association will hostess the Southeast Field Hockey Tournament at the College on Saturday, November 23, from 9:00 to 5:00, and Sunday, from 9:00-3:00.

Fourteen teams from the Baltimore, Washington, Blueridge, and Tidewater areas will be competing to be chosen to represent the southeast region in the National Tournament to be held during Thanksgiving at which time the United States First and Reserve Field Hockey Teams will be selected.

William and Mary is proud to have its entire varsity field hockey team on either the First or Second Tidewater All-College Team. In addition, Miss Joy Archer, of the William and Mary Faculty, is the Captain of the Tidewater Association First Team.

Tickets may be purchased for \$1.00 at the gate or at a reduced price prior to the Tournament. For information, contact Miss Patti Southworth, Chandler Dorm, room 100, ext. 363.

CURRENT ART EXHIBIT

There is currently on display at the gallery in Andrews Hall an exhibit entitled "Recent Oil Paintings by Virginia Artists," a traveling exhibition circulated by the Virginia museum.

Some of the artists represented include Alvin Hattorf of Richmond; Barclay Sheaks of Newport News; Ashlin Smith of Charlottesville; Carlton Abbott of Williamsburg; and Willie Ann Wright, a former student in the Fine Arts Department at the College.

Current Art Exhibit (cont.)

Three works in the exhibition, Helen Hattorf's "The Beach," Barclay Sheaks' "Watcher by the Rail," and Willie Ann Wright's "One Night at Jimmie's" have been purchased by the Virginia Museum for its permanent collection.

Most of the paintings in the exhibit were chosen by a three-man jury for the Biennial exhibition "Recent Oil Paintings by Virginia Artists." Judges were Paul J. Smith, director of the Museum of Contemporary Crafts, New York; Jack Youngerman, Painter; and Milton Hebal, sculptor.

The current exhibit is sponsored by the Festival of Fine Arts marking the college's 275th anniversary. The paintings will be on exhibit until Nov. 30.

PHYSICS COLLOQUIUM

Prof. Maurice Bazin of Rutgers University will be speaker at a Physics Colloquium to be held Friday Nov. 22 at 4:30 p.m. in the Room 109 of William Small Physical Laboratory. His topic will be "An Elementary Particle Example." Coffee will be served in the Conference room at 4 p.m.

BIOLOGY DEPARTMENT SEMINAR

"Marine Resources and Malnutrition - Promise and Problems" will be the topic of an address by Dr. Jackson Davis of Virginia Institute of Marine Science, Nov. 25, at a seminar sponsored by the Department of Biology.

The Seminar will be held in Room 117 of the Life Sciences Building at 4 p.m.

DRAMA FESTIVAL

The William and Mary Theatre is host to the Virginia Division of the American College Theatre Festival, which is bringing four full-scale productions to the campus this weekend.

2:00 p.m. Friday, November 22: Bus Stop, by William Inge. Lynchburg College. Comedy.

8:00 p.m. Friday, November 22: The Adding Machine, by Elmer Rice. Hampton Institute. Expressionism.

2:00 p.m. Saturday, November 23: The Fantasticks, by Tom Jones and Harvey Schmidt. William and Mary. Musical.

8:00 p.m. Saturday, November 23: The Queen and the Rebels, by Ugo Betti. Virginia Commonwealth University. Tragedy.

The William and Mary Theatre's box office (in the foyer of PBK) will open one hour before each production. Individual admission is \$1.00; a combination ticket for all four plays costs \$3.00. Due to the nature of these events, there will be no reserved seats. Late arrivals may not be seated immediately.

There will be no complimentary tickets available for the Faculty.

AUDUBON SERIES

The next program in the current Audubon Wildlife Film Series will be held December 4 at 8 p.m. in the ballroom of the Campus Center.

Kent Durden will narrate a film show entitled "Death Valley -- Land of Contrast." Tickets may be obtained at the door the night of the program.

This series is sponsored by the Clayton Grimes Biology Club and the National Audubon Society.

NATO SENIOR FELLOWSHIPS IN SCIENCE

The North Atlantic Treaty Organization is sponsoring a program of NATO Senior Fellowships in Science designed to enable universities and nonprofit scientific research institutions to send senior staff members to study new scientific techniques and developments in other NATO nations. Approximately 20 awards will be made in the mathematical, physical, medical, biological, engineering and social sciences, and in the history and philosophy of science. An institution is expected to nominate a United States citizen who (a) has full professional standing in the field with which his award would be concerned, (b) has at least 5 years' experience in research, teaching or other relevant professional work, and (c) has the linguistic abilities necessary for profitable discussion with colleagues in the country he proposes to visit.

The requested tenure, including travel time, should range between 1 to 3 months. A Fellow will receive for each day of tenure a subsistence allowance of \$16 per day plus a travel allowance. Normally, a recipient of an award will be expected to carry out his scientific activities at one institution in a country that is a member of NATO. Applications may be obtained from the Division of Graduate Education in Science, National Science Foundation, Washington, D.C. 20550. Applications must be received by the Foundation not later than March 31, 1969; all applicants will be notified of the outcome within approximately 3 to 4 months of the date of submission. For further information contact Warren Heemann, Director, Office of Institutional Resources.

RESEARCH SUPPORT FROM THE
NATIONAL ENDOWMENT FOR THE HUMANITIES

The National Endowment for the Humanities makes funds available to stimulate and support research and writing which will contribute to the national welfare through the discovery and dissemination of knowledge in the humanities. The Endowment has a special interest in research and writing which has contemporary social relevance, particularly to urban and minority problems. The Endowment will attempt to strike a balance between proposals which are of intrinsic value to the development of scholarship and knowledge and those which are of value in relating humanistic scholarship to national life. Limited support will also be available for research related to the approaching Bicentennial of the American Revolution.

Approximately 40-50 grants, not exceeding \$10,000, can be made with available funds. Individuals associated with institutions must apply through their institutions; undergraduate and graduate students are not eligible. A very limited amount of funds will be available for major grants submitted by academic institutions, a consortium of such institutions, and professional or scholarly organizations. The deadline for individual projects scheduled to begin after June 15 is March 1; the deadline for major grants scheduled to begin after July 1, 1969 is also March 1. Inquiries should be addressed to Mr. J. Saunders Redding, Division of Research and Publications, National Endowment for the Humanities, 1800 G Street, N.W., Washington, D. C. 20506. Additional information on the programs of the Humanities Endowment can be obtained from Warren Heemann, Director, Office of Institutional Resources.

The following is a list of the names of the persons who have been appointed to the various positions in the office of the Secretary of the Board of Education, for the year 1918.

Secretary: [Name]

ACTION BY BOARD OF VISITORS

A program of escalation to the third and fourth year level at Christopher Newport College was approved Saturday by the Board of Visitors of the College.

The program, which goes to the State Council of Higher Education for approval, involves undergraduate degree programs in the fields of biology, English, government, history and psychology.

If approval is granted by the State Council, Christopher Newport College will be able to inaugurate upperclass work in these fields next fall.

Under a resolution approved in June, the William and Mary Board has approved escalating programs at CNC to the third-year level in 1969-70, and to the fourth-year level in 1970-71. The June resolution specified that the concentration programs in the four-year curriculum would need to be reviewed by William and Mary and also by the State Council, to assure adequate faculty and library strength and the promise of "justifiable registraion" for them.

The curriculum approved Saturday was developed and approved by the CNC Faculty in consultation with Dr. John H. Willis Jr., Assistant Vice President of William and Mary and its Branch College Liaison Officer. It was approved earlier by H. Westcott Cunningham, Provost of Christopher Newport, and submitted to Dr. Davis Y. Paschall, William and Mary President.

- GRADUATE PROGRAMS -

A series of graduate programs in the School of Education at the College of William and Mary, which will be aimed at training personnel for community colleges, was also approved by the Board of Visitors.

The programs will be submitted to the State Council of Higher Education for consideration.

A resolution approving the programs noted that "the establishment of community colleges in Virginia is tremendously increasing the demand for professional personnel in the areas of teaching, counseling, and administration, areas in which demand already greatly exceeds the supply of qualified persons."

If resourses permit, the School of Education will offer Doctor of Education degrees in two additional fields, two new advanced certificate courses, and two new master's degree courses. They would be inaugurated between September, 1969 and September, 1971.

- JD LAW DEGREE -

In other action, the William and Mary Board approved making the Juris Doctor degree now awarded law students retroactive, so that all past graduates of the law school may obtain this degree in place of their Bachelor of Civil Law degree. The BCL degree was replaced by the JD degree in May, 1967.

It also raised tuition fees for students taking graduate level work in the Extension Division, Evening College and Summer Session by \$2 per semester hour. The new fees will be \$20 per semester hour for graduate courses, and \$18 per semester hour for undergraduate courses. The fee for auditing courses (taking them without credit) will be increased to \$15, up five dollars from the present fee. The rates will apply to both resident and non-resident students.

SCHOLARSHIP FUND

A total of \$2,632 has been donated so far by faculty members and students for the Martin Luther King, Jr., memorial Scholarship. The Faculty Committee on Admissions is currently reviewing admission applications with the intention of allocating these funds who students who plan to matriculate September 1969.

The Martin Luther King, Jr., Memorial Scholarship Fund, established and supported by the Faculty of the College, was set up to provide annual awards, preferably to entering freshmen. Based upon merit and need the scholarship may carry a stipend up to \$1,300.

Faculty members wishing to contribute this year are requested to send their contribution to the office of Warren Heenan before Dec. 20. Checks should be made payable to "King Memorial Scholarships." Contributors will receive a receipt for tax purposes.

- DEPARTMENTAL NEWS -HISTORY

Professors Johnson, Brown, Tate, Sherman, Funigiello, Turbow, and Leary attended the annual meeting of the Southern Historical Association at New Orleans, November 6-9. Professor Sherman was chairman of a session on "Reform in the Populist-Progressive Era," and Professor Brown attended in his capacity as a member of the Program Committee for the 1969 meeting.

Representing the Institute of Early American History and Culture were Dr. Stephen G. Kurtz, who acted as chairman of a session on "Southern Federalists," Dr. Lester J. Cappon, Director of the Institute, and Drs. Sheehan, and Kim, Institute Fellows.

For the second consecutive year Professor Philip J. Funigiello has been invited to participate in the compilation of the American Studies Bibliography for the American Quarterly.

DEPARTMENT OF MUSIC

Dr. F. Donald Truesdell, Head of the Music Department, will attend the annual meeting of the National Association of Schools of Music, in Washington, November 25-27. Some 350 member schools will be represented by the administrative heads of music departments, colleges, and conservatories.

The NASM has been designated by the National Commission on Accrediting as the responsible agency for the accreditation of all music degree curricula in both professional and liberal arts programs. Its deliberations play an important part in music education trends in this country.

The Honorable Walter Washington, Mayor, will give the welcoming address. Additional distinguished speakers will include; The Honorable Roger Stevens, National Foundation for the Arts and Humanities; Dr. Harold Arberg, Music Consultant to the U.S. Office of Education; Dr. Donald Schetler, of the Eastman School of Music; and Dr. Paul Eichman, of the Eastman School of Music.

DEPARTMENT OF PHYSICS

Profs. Frederic R. Crownfield, Jr., T. Broaddus and Howard W. Bloomberg attended the Annual Meeting of the Division of Plasma Physics in Miami Beach,

9

Department of Physics (cont.)

Florida, which was held November 13-16. The following papers were presented at this meeting:

Numerical Calculation of Plasma Wave Echoes Using Fourier-Hermite Expansion of the Non-linear Vlasov Equation.

Frederic R. Crownfield, Jr. and T. Broaddus
Bull. Am. Phys. Soc. 13, 1515 (1968).

Oblique Incidence of an Electromagnetic Wave on a Collisionless Plasma Slab.

C. T. Swift and Frederic R. Crownfield, Jr.
Bull. Am. Phys. Soc. 13, 1553 (1968).

Nonlinear Plasma Oscillation: The Water Bag Model.

Marc R. Feix, Pierre Bertrand, and Frederic R. Crownfield, Jr.
Bull. Am. Phys. Soc. 13, 1541 (1968).

Propagation of Waves across Inhomogeneous Plasmas.

H. Bloomberg
Bull. Am. Phys. Soc. 13, 1536 (1968).

Swift and Broaddus are graduate students in Physics at the College. Professor Feix was a visiting professor at the College for several years. He is now at the Université de Nancy, where M. Bertrand is a student of his.

Dr. Jim B. Carroll spoke on "Some Recent Thoughts on Symmetry" at a Physics Department Seminar held Tuesday, Nov. 19 in William Small Physical Laboratory.

DEPARTMENT OF THEATRE AND SPEECH

INTERROGATION, a play by Dr. Louis E. Catron, playwright of The William and Mary Theatre, will be presented the first weekend in December at Southern Illinois University.

- SCHOOL OF EDUCATION -

Dr. Armand J. Galfo addressed a meeting of the Williamsburg-James City County teachers of English on the topic "Developing Objectives for Teaching in Terms of Desired Behavioral Outcomes."

Professor Galfo has recently completed a study of the effects on pupil achievement of various audio and visual presentation sequences. The research, supported by a grant from the U. S. Office of Education, was conducted in the Hampton, York County and Williamsburg-James City County school systems. The final report of the findings of the study will be published in December.

- AROUND CAMPUS -

J.F.K. IN RETROSPECT

Dr. Richard B. Sherman, Associate Professor of History, is one of the contributors to a special report "J.F.K. Five Years Later" which will appear in Friday's edition of the Richmond News Leader newspaper.

BOWL GAME SUNDAY

The battle between the Flat Hat and the Administration moves to another stage Sunday afternoon.

A dozen members of the Administration will challenge the Flat Hat's stamina on the football field. The game will begin at 1:30 p.m. on the practice field behind Cary Field. Administrators lined up for the contest include John H. Willis Jr., Carson Barnes Jr., John E. Donaldson, Dudley Jensen, Warren Heemann, James S. Kelly, Wallace Elliott, Sam Sadler, Rex Tillotson, Robert P. Hunt, Ross Weeks Jr. and S. Dean Olson.

DEAN ON TV

J. W. Lambert, Dean of Students, will appear next Tuesday on an hour-long program devoted to William and Mary on WRBL-TV, Columbus, Georgia. He'll discuss the history and current developments at the College. The program is the second in a five-part series being shown in Columbus on the Historic Triangle of Virginia. The station plans to make tapes of the programs available to stations around the nation.

BABES IN TOYLAND

We have been asked to call to the attention of the faculties and their families the production of "Babes in Toyland" which is being prepared by Studio One at Fort Eustis.

The show will be given Dec. 4 - 7 and Dec. 11 - 14, nightly at 8 p.m. There will be a special matinee for children on Dec. 7 at 2 p.m.

There is no admission charge but reservations should be made in advance by calling the Studio Theatre at Fort Eustis 873-2283.

A member of the cast is David Page, a student at the College who has been active in musical productions on campus.

DECEMBER 5, 1968

- PHI BETA KAPPA LECTURE -

Syndicated newspaper columnist Charles McDowell and poet John Hollander will be the featured speakers at the Phi Beta Kappa program to be presented tonight at 8 p.m. in Phi Beta Kappa Hall.

The public lecture commemorates the founding of Phi Beta Kappa in Williamsburg on Dec. 5, 1776 by a group of students at the college.

McDowell, who was educated at Washington and Lee University and Columbia University Graduate School of Journalism, has written on a variety of topics and at one time or another has been assigned to cover a police beat, the Virginia General Assembly, squirrels in Capitol Square, national political conventions, and Khrushchev's tour of the U.S. He has been a columnist since 1955 and Washington correspondent for the Richmond Times Dispatch newspaper since 1965.

His columns appear collectively in three volumes entitled One Thing After Another, What Did You Have in Mind? and Campaign Fever, the journal of a presidential campaign.

McDowell has also taught English in night school, conducted an ETV program, lectured, and written articles for the Atlantic and other magazines. He was made a member of Phi Beta Kappa, Gamma Chapter of Virginia in 1961.

- POET HOLLANDER -

Dr. Hollander, who is currently professor of English at Hunter College won the Yale Younger Poets Award in 1958, the Poetry Chapbook Award in 1962 and was Grantee - National Institute of Arts and Letters in 1963.

From 1954 - 57 Hollander was a Fellow, Society of Fellows, at Harvard University. He later became a lecturer at Connecticut College for Women, and was a member of the faculty of Yale University before going to Hunter College.

In 1965 Hollander was visiting professor at the Salzburg Seminar for American Studies, and for the first half of this year was Overseas Fellow at Churchill College, of Cambridge University.

Hollander is author of a major critical study, The Untuning of the Sky: Ideas of Music in English Poetry, 1500-1700 (1961); A Crackling of Thorns (1958) (poetry); Movie Going and Other Poems (1962); Various Owls (1963) and a forthcoming volume of verse Types of Shape to be published by Atheneun in Feb. 1969. He edited Selected Poems of Ben Jonson (1961); Poems of Our Moment (1968) Modern American Poetry: Essays in Criticism (Oxford, 1968) - and others.

Twenty-six seniors will be initiated into Alpha of Virginia Chapter during ceremonies today in the Raleigh Tavern where the society was founded in 1776.

FBK Meeting (Cont.)

The Alpha Chapter will also extend membership to David Clarence Pulley, chairman of the Department of Education at Furman University, selected as "Alumnus Initiate".

14TH ANNUAL TAX CONFERENCE SATURDAY

Eight experts in state and federal taxation will appear on the program of the 1968 Tax Conference of the Marshall-Wythe School of Law on Saturday. The program will be given at the Williamsburg Conference Center, under the direction of Dr. Thomas C. Atkeson, Chancellor professor of taxation, emeritus, assisted by Associate Professor John E. Donaldson, Assistant Vice-President of the College, and Associate Professor Emeric Fischer.

The conference is held each year to provide latest information on tax law for accountants and attorneys of Virginia. Among the speakers this year will be W. C. Andrews, Jr., Newport News Commissioner of Revenue; James P. Boyle, Richmond, district director, Internal Revenue Service; Stuart W. Connock, director of the sales and use tax division of the State Department of Taxation; George D. Fischer, Arlington County Commissioner of Revenue; Edwin L. Kahn, Washington attorney; William R. Moore, Norfolk Commissioner of Revenue; Carrington Williams, Fairfax attorney; and Laurence N. Woodworth, chief counsel, joint Congressional committee on internal revenue.

SUB-CONTRACTING CONFERENCE DECEMBER 9-13

Immediately following the Saturday Tax Conference, the Law School will join in sponsorship of the annual Conference on Government Sub-Contracting. This conference, jointly developed with Federal Publications, Inc. of Washington, will bring several hundred persons from industry and government to review details of sub-contracting relationships with the federal government. Paul H. Gantt, B. C. L. '42, chairman of the board of contract appeals of the Atomic Energy Commission, is director of the conference, and Professor William F. Swindler of the law faculty is the local coordinator.

RELIGION DEPARTMENT FORUM

Dr. James C. Livingston, chairman of the Department of Religion will outline the objectives of the teaching of Religion on the college level at an informal Forum for students this afternoon at 3:30 p.m. in the Campus Center Little Theatre.

Prof. David L. Holmes, of the Department of Religion will also participate in the forum aimed at informing students about course offering in the Department and new courses to be added in the Spring and next year.

Sponsor of the forum is Sigma Chi fraternity.

VISITING SCHOLAR LECTURE

Dr. Harmon Bro, psychotherapist, and former Dean of Divinity School and Professor of Psychology of Religion at Drake University, will lecture on "The Rediscovery of Dreams" in the Campus Center Theatre, Dec. 10 at 8 p.m. This lecture is one in the current Visiting Scholars Lecture Series.

COLLEGE-WIDE PROGRAM OF READINGS & LECTURES

W. N. Schoenfeld, professor of psychology at Queens College, City University of New York, will visit William and Mary next Spring as part of the College-Wide Program of Readings and Lectures.

Prof. Virgil V. McKenna, Associate Professor of Psychology and a member of the reading program's executive committee has announced that Professor Schoenfeld, who is a "disciple" of B. F. Skinner, author of Science and Human Behavior, will be on campus May 8 and 9. He will give a formal lecture May 8 in the Campus Center Ballroom and will meet for informal discussions with student groups May 9.

Co-author of Principles of Psychology and contributor of 70 articles to learned journals, Schoenfeld is vice-president of the Society for Experimental Analysis of Behavior and of the Pavlovian Society. He also serves on the board of editors of the Journal for the Experimental Analysis of Behavior and of two other journals. He works as clinical professor of psychology at Cornell Medical Center in addition to his appointment at Queens College.

Schoenfeld will be the fourth well-known author to visit the William and Mary campus as part of the current College-Wide Program of Readings and Lectures.

Joseph Heller, author of Catch-22 will be here Feb. 20-21; J. Glenn Gray, author of The Warriors, March 23-25; and Michael Harrington, author of The Other America, April 9-10.

Efforts are still being made to arrange for a visit from J. William Fulbright, Senator from Arkansas and author of The Arrogance of Power, sometime in the spring.

The committee which is developing the program includes three students, Judy Banks, Florence, S.C.; Bob Irvin, Roswell, Ga.; and Nancy Verser, Richmond; faculty members Thomas Hearn, Associate Professor of Philosophy; Lewis Leadbeater, Associate Professor of Ancient Languages; and Professor McKenna; also J. H. Willis, Jr., Assistant Vice President of the College and the Rev. John Harwood, campus minister.

General chairman of the program is Scott Donaldson, assistant professor of English.

THE CHOIR COAST TO COAST

Thirty of America's major television stations are including in their Christmas programming, the holiday program prepared by the William and Mary Choir under the direction of Dr. Carl A. Fehr.

The singers are currently taping their show and will spend most of Friday with TV cameramen in the Wren Courtyard preparing the visual portion of the program.

The following are the television stations which so far have indicated they will use the 1968 Christmas Holiday program:

Northeastern U. S.

WTOP-TV, Washington	WFIL-TV, Philadelphia
WQED-TV, Pittsburgh	WWNY-TV, Watertown, N.Y.
WICU-TV, Erie, Pa.	WPIX-TV, New York City
WGBH-TV, Boston, Mass.	

The Choir Coast to Coast (Cont.)Southern U.S.

 KCOP-TV, Los Angeles-Hollywood
 KPTV, Portland, Ore.

BIOLOGY SEMINAR

Dr. E. J. Boell of the Department of Biology, Yale University, will be guest speaker at a seminar on "Developmental changes in enzyme activities during tissue differentiation" Dec. 9 at 4 p.m. in the Life Science Building, Room 117.

This is the sixth in the current series of seminars sponsored by the Department of Biology. The next seminar will be held Jan. 6 when Dr. C. D. Cone from NASA will speak on "Observations of self-induced mitosis and autosynchrony in Sarcoma cell networks."

PHYSICS SEMINAR

Dr. L. D. Doverspike spoke on "Low Energy Charge Transfer Processes" at a Physics Department Seminar held Dec. 3 in the William Small Physical Laboratory.

EMBASSY SECRETARY TO SPEAK

Mr. Andre Gadaud, First Secretary at the French Embassy in Washington, will speak at the Little Theatre in the Campus Center Thursday, Dec. 12 under the sponsorship of the International Circle. His talk will begin at 4 p.m.

Mr. Gadaud is expected to deal with events in France during the Spring of 1968.

MOVIES ON CAMPUS

The film "Cry Of The Beloved Country" based on the novel dealing with apartheid in South Africa, by Allan Patton, will be shown at 7 p.m. this evening in the Campus Center Little Theatre.

Sigma Chi fraternity will sponsor a showing of "The Mouse That Roared", Dec. 11 in Andrews Auditorium at 4 and 7:30 p.m. Admission is 50 cents.

The film is being shown by the fraternity for the benefit of its scholarship fund.

"THE DEVIL'S DISCIPLE"

George Bernard Shaw's witty comedy about America of 1777 -- "The Devil's Disciple" -- will be presented December 12, 13, and 14 at 8 p.m. sharp by The William and Mary Theatre.

The Theatre's box office will be open the week of production (Dec. 9-13) between 3:30 and 5:30 p.m. All seats are reserved at \$2.00 each.

Faculty members with Complimentary Ticket Coupon Books are entitled to see this play any night they desire.

COLLEGIUM MUSICUM CONCERT

William Montgomery, flute, and Roy Hamlin Johnson, piano, both members of the faculty of the University of Maryland, will appear in concert on Sunday, Dec. 8 at 4 p.m. in the Campus Center Ballroom.

Sunday's concert is the fourth in the current Collegium Musicum series sponsored by the Department of Music.

Montgomery is leader of the Montgomery Chamber Ensemble which has delighted concert audiences on the Peninsula and the Washington area. The Chamber Ensemble was featured in a candlelight concert in the ballroom of the Governor's Palace, Oct. 20, 1966.

Dr. Johnson will be remembered for his brilliant performance of all twenty-seven Chopin Etudes on his last appearance at the College in the summer of 1966.

Both musicians have appeared separately and together in solo performances and chamber ensembles, eliciting high praise for their sensitive musicianship and impeccable technique.

The program for Sunday's concert includes Suite Modale (1956) by Ernest Bloch; Sonata, Opus 94 in D (1944) by Serge Prokofiev; "Joueurs de flute" Opus 27 (1924) by Albert Roussel; and Sonate (1958) by Andrew Jolivet.

AUDITIONS POSTPONED

Auditions for the William and Mary Theatre's production of "The Investigation" have been postponed until the first two days immediately following Christmas vacation.

Faculty men are invited to consider auditioning for the Peter Weiss play. Copies of "The Investigation" are in the Reserve Room of the library. Information concerning auditions may be obtained from Professor Catron, who will direct the play.

CHRISTMAS PARTY

The Faculty Club and the College Women's Club will again this year co-sponsor a Christmas party to be held Friday evening, Dec. 20 from 9 - 1 in the Campus Center Ballroom. Music during the evening will be provided by George Carroll's Band.

Tickets may be purchased from Faculty Club treasurer Satoshi Ito. Tickets are \$3.50 each if purchased by Monday, Dec. 16; \$4 each if purchased later.

BASKETBALL TICKETS

Mrs. Bettie S. Adams, ticket manager, has sent out a notice reminding faculty members that orders are now being taken for season basketball tickets. Faculty members are offered special rates for the 10-game area series or the six home games in Blow gym.

Faculty members may purchase a season ticket for all ten games for \$13.50 or a season ticket for the six games in Blow Gym for \$7.50.

The basketball schedule is as follows:

Dec. 11	East Carolina	Blow Gym
18	Wake Forest	Fort Eustis
Jan. 4	V.P.I.	Fort Eustis
6	West Virginia	Fort Eustis
9	The Citadel	Blow Gym
15	George Washington	Blow Gym
Feb. 8	Georgetown	Fort Eustis
11	Old Dominion	Blow Gym
15	V.M.I.	Blow Gym
22	Richmond	Blow Gym

- Away Games -

Dec. 2	West Virginia	
3	Pittsburgh	
20-21	Big Five Tournament - Virginia, VPI, Richmond, William & Mary, VMI.	Salem, Va.
26-27-28	Christmas Tournament - William and Mary, East Carolina, VPI, Virginia, Baylor, Cornell, Air Force, Delaware	Greenville, N.C.
Jan. 11	East Carolina	
13	VPI	
18	Richmond	
30	VMI	
Feb. 1	Furman	
3	Citadel	
5	Jacksonville	

- DEPARTMENTAL NEWS -

ADMINISTRATION

A program, reception and dinner for high school counselors in the Atlanta, Ga., area was sponsored Nov. 20 by the Georgia Chapter of the Society of the Alumni, reflecting the Chapter's interest in admissions.

Assistant Vice President J. H. Willis, Jr., and Assistant Dean of Admission, W. J. Sadler participated in the program, outlining the scope of Curricula, research projects and student activities on the campus.

DEPARTMENT OF ANCIENT LANGUAGES

Professors J. Ward Jones and Lewis W. Leadbeater attended a meeting of the Southern Section of the Classical Association of the Midwest and South, which met at Vanderbilt University in Nashville, Tenn. Nov. 7-9. Professor Jones is Secretary-Treasurer of the Southern Section. Professor Leadbeater read a paper entitled "Structural Design in Diogenes Laertius".

DEPARTMENT OF BIOLOGY

Dr. Bruce Grant presented a paper entitled "Selection on the escape behavior of Drosophila Melanogaster" at the November 1968 meeting of the Genetics Society of America in Boston.

DEPARTMENT OF ENGLISH

Prof. Carl Dolmetsch's review of Seven Wise Men of Colonial America, by Richard M. Gummere (Harvard Press, 1967), appears in the current issue (November 1968) of American Literature, the official quarterly of the American Literature Group of The Modern Language Association.

DEPARTMENT OF HISTORY

Prof. Ludwell Johnson commented at a session on "Civil War Strategy" at the annual meeting of the Southern Historical Association held during November in New Orleans. Professor Sherman was chairman of a session on "Reform in the Populist-Progressive Era" and Professor Brown attended in his capacity as a member of the program committee for the 1969 meeting. Also attending from the Department of History were Professors Tate, Funigiello, Turbow and Leary.

DEPARTMENT OF MATHEMATICS

Prof. W. C. Turner attended a lecture series on mathematical analysis on Saturday, Nov. 23 in Baltimore, Md.

Dr. Lionel Rintel attended the 21st annual meeting of the American Physical Society in Seattle, Wash., Nov. 25, 26, 27. On Nov. 28 Professor Rintel gave a lecture on "Penetrative Convective Instabilities" to the Department of Mechanical Engineering at the University of British Columbia in Vancouver, Canada.

DEPARTMENT OF THEATRE & SPEECH

Dr. Louis E. Catron, Playwright of The William and Mary Theatre, has recently learned that his play INTERROGATION is being scheduled for an off-off-Broadway production in New York City. The dates have not yet been set. The producing company is the "Dramarena Repertory Theatre," an intimate theatre.

INTERROGATION also is scheduled for presentation the first week in December by Southern Illinois University.

- SCHOOL OF BUSINESS ADMINISTRATION -

A grant to promote the quality of accounting education has been made to the College of William and Mary's School of Business Administration by the firm of Ernst & Ernst.

The grant, for \$500, will be used by the Department of Accounting for research projects, library and equipment acquisitions and professional development courses for accounting faculty, according to John S. Quinn, head of the department.

Ernst & Ernst, a national firm with headquarters in Cleveland and a Virginia branch in Richmond, regularly employs William and Mary accounting graduates in its offices around the country.

- MARSHALL-WYTHE SCHOOL OF LAW -

An article by Professor Thomas H. Jolls, "Can We Do Without Stock Certificates? -- A Look at the Future," published in the July issue of the Business Lawyer, has now been reprinted in the October-November issue of Investment Dealers Digest.

Three members of the law faculty will participate in the program of the Association of American Law Schools in New Orleans December 27-30. Professor William F. Swindler will serve as chairman of the biennial round table on legal history. Associate Professor E. Blythe Stason, Jr. will be chairman of the round table on equity, and Associate Professor Emeric Fischer will read one of the papers at this round table.

- SWEM LIBRARY -

Several members of the Swem Library staff attended the Annual Conference of the Virginia Library Association in Richmond, November 21 - 23. Mrs. Ilse B. Webb, Catalog Librarian, participated as a panel member in a discussion of cataloging. William C. Pollard, Librarian, presided over the conference and completed his term as President of the Association.

- BLOODMOBILE SCHEDULED -

Do your Christmas giving early; make it a gift of life" is the suggestion of Dennis K. Cogle, Campus Representative for the Red Cross Bloodmobile.

The next visit of the Bloodmobile is scheduled for Friday at the Fire House from 10 a.m. to 4 p.m.

Co-sponsors for Friday's visit are Sigma Chi fraternity and Circle K.

FACULTY NEWSLETTER

- CHRISTMAS ON CAMPUS -

'Tis the season, and the campus is getting into the holiday spirit with a number of festive activities.

The Faculty Club and the College Women's Club will co-sponsor a Christmas party in the Campus Center Ballroom, Friday, Dec. 20 at 9 p.m. Music for dancing will be provided by George Carroll's Band.

Tickets for the party may be obtained from Faculty Club treasurer Satoshi Ito.

- International Party -

The faculty is also invited to attend the informal dinner-dance being held by the International Circle in the Campus Center, Friday evening beginning at 7:30 p.m. Tickets are \$1.50 each. Call H. Rumbold, 229-0351.

Part of the program for the evening will include flute music and native dances by students on the campus from Taiwan.

The International Circle would also like to hear from faculty members who would like to have foreign students in their homes over the holidays, either as house guests or for a meal. Faculty members who would like to host students should contact either Miss Marilyn Hill, (Landrum Second Floor) Hospitality Secretary; or Henry Rumbold, 229-0351, President.

Prof. J. L. Martel, Associate Professor of Modern Languages serves as faculty adviser for the International Circle.

- Christmas Concert -

The traditional Christmas Concert by the William and Mary chorus and choir under the direction of Dr. C. A. Fehr will be given Dec. 16, 17 and 18 in Phi Beta Kappa Hall. Admission is \$1.00.

- Yule Log Ceremony -

The gay, festive Yule Log Ceremony by Omicron Delta Kappa and Mortar Board will be held this evening at 6:30 p.m. in the Wren Courtyard. For the first time this year, Colonial Williamsburg musicians will participate by playing old Christmas carols.

- Sorority Open House -

Pi Beta Phi sorority will hold its annual holiday Open House for members

LIBRARY

SEP 30 1970

WILLIAM & MARY

Sorority Open House (Cont.)

of the faculty, students and friends, Sunday afternoon, Dec. 15 from 2 - 4 p.m.

On Saturday the sorority will entertain at a party for children from Eastern State Hospital. This party is one of the many activities by fraternities and sororities on the campus which reflects student involvement in community affairs.

Sigma Chi started the season of good will a little early with a party in November for underprivileged children; Alpha Chi Omega plans to join with Kappa Sigma for a children's party Dec. 15 and another children's party Dec. 14 with Lambda Chi Alpha. Chi Omega is packing a Christmas basket for a needy family and will go carolling on campus.

Delta Delta Delta is collecting toys and food for distribution and plans a Spring party for needy children. Gamma Phi Beta is collecting food and will also give a surprise party for their cook.

Kappa Alpha Theta recently held a spaghetti supper to raise funds for a gift to an orphan in Vietnam. Kappa Delta is collecting toys. Kappa Kappa Gamma plans a puppet show for the Williamsburg Area Day Care Center. Phi Mu will serenade the community with carolling and will send money to an orphan in Hong Kong.

Kappa Alpha plans to go carolling at Eastern State Hospital; Lambda Chi Alpha is planning a party for needy children. Phi Kappa Tau is collecting food for baskets; Pi Kappa Alpha's "Flashlight Brigade" will be on the march again Tuesday night canvassing through the dorms for contributions to the TB Association. This year the fraternity has set itself a goal of \$250 and plans to go over the top with donations. The fraternity will hold a reception at the house Saturday evening from 8:30 - 12:30 for the Homecoming Court, and will also include in its holiday activities some carolling on campus.

Pi Lambda Phi plans an anonymous gift to charity. Sigma Nu plans to wind up their carolling at the President's House for punch, cookies and a reading of the Christmas Story by Dr. Davis Y. Paschall. Sigma Pi will go carolling and serenade the co-eds in formal tuxedos. Theta Delta Chi will make a \$50 donation for baskets for needy families.

- Day Care Center -

One of the appreciative recipients of student attention, especially during the holiday season, is the Williamsburg Area Day Care Center. Some 35 students go regularly to the Center to assist the director Mrs. Bryant with the children and during the Christmas season the students help with holiday events.

- A Colonial Holiday -

The Grand Illumination of the City, Dec. 19 opens the annual round of Christmas activities planned by Colonial Williamsburg to which the College community is invited. The traditional ceremony of white lighting with torchlight parade of the colonial militia and fifes and drums down Duke of Gloucester Street begins at 5:30 p.m.

Christmas Eve the Community Christmas Tree Ceremony is held in Market square at 5:30 p.m. Also on Christmas Eve a special Children's Holiday film is shown at the Information Center at 2, 4, 6 and 8 p.m. This film is also shown on Christmas Day at 11 a.m., 1, 3, 5 and 7 p.m.

A Colonial Holiday (Cont.)

The Yule Reception at the Wren Building, Dec. 29 at 7 p.m. and the Fireworks show Dec. 31 in Market Square are just a few of the events on the CW calendar. A complete list of all activities is included in the weekly activities pamphlet.

"DEVIL'S DISCIPLE" OPENS TONIGHT

The William and Mary Theatre will present G. B. Shaw's "The Devil's Disciple" tonight for a three night run. Faculty members with complimentary ticket coupon books are entitled to see this play any night they wish.

This play typifies the dry humor of Shaw's works. Time has softened the bite of his wit and some of his comments which were cuttingly sarcastic in an earlier time are hilariously funny on the modern stage. Shaw has built this play around a small New England community during the Revolutionary War.

Shaw's comedy puts the focus upon Dick Dudgeon, a revolutionary American Puritan who has grown up in the most narrow-minded of Puritan communities in New England.

Dudgeon has observed that those who stand for God are uncharitable, inhumane, and dedicated to causing misery. Since he believes passionately in human happiness, kindness, and love, Dudgeon sadly concludes he is himself a disciple of the Devil.

Shaw's satire is pointed against Puritanical New England, but he also pokes fun at the British soldiers who mistakenly arrest Dudgeon, thinking he is a minister who has been active in the Revolution.

Director of the Shaw special is Howard Scammon, Chairman of the Department of Theatre and Speech. Lawrence Miller is designer and Albert E. Haak is technical director. A senior Theatre concentrator, Linda Lee Schueler, is costume designer.

Theatre patrons are reminded that late arrivals to the William and Mary Theatre may not be seated immediately. Curtain time is 8 p.m.

AFRICAN TOUR

Brian Rose, Professor at the University of Witwatersrand currently Visiting Professor at Mount Holyoke, is exploring the possibility of organizing a non credit study tour of southern Africa for the Summer, 1969. He has contacted the School of Education regarding possible interest. The tour would last approximately three weeks and would include visits to Johannesburg, Kruger National Park, Swaziland, Mozambique, Lesotho, the Garden Route and Capetown.

It would be appreciated if faculty members would discuss the opportunity with their students. For further details contact Dr. Paul Unger Extension 434.

VISITING SCIENTISTS RESEARCH ASSOCIATESHIPS OFFERED
BY U. S. ARMY NATICK LABORATORIES IN
NATICK, MASSACHUSETTS

The National Research Council is offering a limited number of post-doctoral awards sponsored by the Natick Laboratories of the U.S. Army to support Visiting Scientists in the fields of biology, biophysics, food and nutrition, chemistry, organic materials, engineering, geography and climatology, mathematics (theoretical and applied), physics, anthropology and human engineering,

Visiting Scientists Research Associateships (Cont.)

and psychology. The Associateships are open to citizens of the United States and foreign nationals who have or will have a PH.D., Sc.D. or the equivalent. The regular Associateships will be open to individuals less than five years beyond the doctorate with preference given to the more recent graduates. The senior appointments are reserved for individuals with at least five years of professional experience beyond the doctorate who have secured recognition through their publications.

The Associateships are tenable only at the Natick Laboratories, Natick, Massachusetts and will usually take the form of an award for one year, subject to renewal by mutual agreement for a second year. The stipend for the regular Visiting Scientist will normally be at the rate of \$11,500 per annum. An appropriately higher stipend will be selected for the Senior Visiting Scientist. Deadlines for receipt of the completed applications in 1969 will be February 15, May 15, August 15, and October 31, with announcement of awards scheduled for April, July, October, and December. For additional information write to the Office of Scientific Personnel, JH 606, National Research Council, 2101 Constitution Avenue, N.W., Washington, D.C. 20418, or contact Mr. Warren Heemann, Director, Office of Institutional Resources.

SPEAKS THIS AFTERNOON

Monsieur André Gadaud, First Secretary at the French Embassy in Washington is on campus today and at the invitation of the International Circle will address students and faculty in the Little Theatre of the Campus Center at 4 p.m. His topic is "The Events of May 1968 and the Aftermath".

SEMINAR IN MARINE SCIENCE

A seminar will be held tonight at 7:30 p.m. at the former Beach Club, Gloucester Point with a discussion of "Marine Mineral Resources" by J. E. Flipse, President of Deepsea Ventures, Inc., Newport News.

The Seminar has been planned by the Virginia Institute of Marine Science at Gloucester Point. Interested scientists are invited to attend. Refreshments will be served. The Beach Club is at the foot of Route 1208 (underneath the York River Bridge).

PHYSICS COLLOQUIUM

Dr. R. A. Carrigan of the National Accelerator Laboratory will be guest speaker at the Physics Colloquium to be held Friday afternoon, Dec. 13 at 4:30 p.m. in Room 109, William Small Physical Laboratory. His topic will be "RHO Photoproduction with Polarized Photons." Coffee will be served in the Conference Room at 4 p.m.

THE CHOIR ON TV

The William and Mary Choir's Christmas program will be carried by many television stations across the country. Locally it will be carried by WVEC-TV Hampton and WTVR-TV Richmond. The Hampton station will carry the program Dec. 18 at 8:30 p.m. No definite time has been set by the Richmond station.

LECTURER IN MATHEMATICS

Dr. D. A. Nield, Senior Lecturer in Mathematics at the University of Auckland, New Zealand, will speak this afternoon at 3:30 p.m. in the Church, Room 202 on "The Flow of Fluids in Porous Media" at the invitation of the Department of Mathematics.

Dr. Nield's lecture is scheduled as part of the course in Fluid Mechanics in the graduate program in Mathematics at William and Mary.

LIBRARY ANNOUNCED HOLIDAY SCHEDULE

Swem library will operate on the following schedule during the Christmas recess:

Dec. 19 thru 21st 8 - 5 p.m.
 Dec. 22. Closed
 Dec. 23. 8 - 5 p.m.
 Dec. 24. 8 - 12 noon
 Dec. 25. Closed
 Dec. 26 thru 28. 8 - 5 p.m.
 Dec. 29. Closed
 Dec. 30 thru 31. 8 - 5 p.m.
 Jan. 1. Closed
 Jan. 2 thru 4. 8 - 5 p.m.
 Jan. 5. regular schedule resumes

VISITING PROFESSOR TO SPEAK

Sigma Xi will sponsor a lecture Dec. 17 by Dr. Ian Chester-Jones, Visiting Research Professor of Biology.

Dr. Chester-Jones will speak at 8 p.m. in the large lecture hall of John Millington Hall on "The Concern of Man and Other Animals with Stress and the Environment (A consideration of the glands within us)."

- DEPARTMENTAL NEWS -DEPARTMENT OF BIOLOGY

Dr. Carl Wm. Vermeulen and two graduate students, Miss Marie Anderson and Mr. Edward Helton, went to Hampden-Sydney and Longwood Colleges in Farmville. There the students presented seminars on their thesis research. Afterward they answered questions concerning graduate study in Biology at William and Mary.

DEPARTMENT OF ECONOMICS

Professors Martin A. Garrett, Jr., John Matthews, Taylor K. Cousins, and Leonard Schiffrin attended the annual meetings of the Southern Economic Association in Washington, D.C., November 6-8.

Leonard Schiffrin attended the Second Conference on the Economics of Health at Johns Hopkins University December 5-7.

A short commentary by Professor Schiffrin appears in the Winter Issue of the Antitrust Bulletin.

DEPARTMENT OF GEOLOGY

The Geological Department of Reynolds Metals Company, Richmond, has donated a collection of 4,000 reprints from the geological literature to the Geology Library. The bulk of the collection was originally owned by the late W.J. Mead of the University of Wisconsin and M.I.T., who was one of the most prominent North American Geologists.

Dr. Gerald H. Johnson spoke to the Senior Science Club of Oscar Frommel Smith High School in Chesapeake on December 5. Dr. Johnson spoke on an area of his current research, the geology of southeastern Virginia, under the auspices of the Virginia Academy of Science Visiting Scientist program.

Drs. Bick, Clement, and Goodwin led a field trip to the Harpers Ferry, West Virginia, area over the weekend of December 7-8. They only had one flat tire and ran out of gas once - everyone is invited for the next trip.

DEPARTMENT OF MATHEMATICS

Prof. W. C. Turner attended the Fall meeting of the Virginia-Maryland section of the Mathematics Association of America held at Goucher College in Baltimore, Maryland, Nov. 23.

- SCHOOL OF BUSINESS ADMINISTRATION -

The School of Business Administration has submitted an application under Title I of the Higher Education Act of 1965 for assistance in the development of a Conference and Seminar on Community Leadership and Group Effectiveness for Executives.

According to Dr. George D. Cole, Director of Conferences in the School, the preliminary application was forwarded with the assistance of Professor Warren Heemann, Director of Institutional Resources. This preliminary proposal has been accepted for further consideration by the State Agency for Title I, the School of General Studies at the University of Virginia. If finally approved, the conference will be conducted in the late spring, with a seminar following. Both will focus on the role of the business executive in community activity.

Since July of this year, there have already been three conferences sponsored by the School of Business Administration. In mid-summer, under the direction of Associate Dean A. B. King, members of the faculty of the School of Business Administration conducted a five-day Middle Management Seminar for personnel at Continental Army Command (Fort Monroe) with some invited participation from neighboring military installations. In October, the School joined with the Virginia Chamber of Commerce in sponsoring a two-day conference on Industrial Development. Professor Robert F. Hartman, Jr. was coordinator for this program. Just completed in early December was a three-day seminar on the "Modern Executive Approach" with eighteen top-level executives participating. Under the general coordination of Dean Charles L. Quittmeyer, this program was sponsored jointly with the Republic Industrial Education Institute and the Research Institute of America.

The School of Business Administration has taken note of this rising interest in conferences appropriate to the business community with the appointment of Dr. George D. Cole as Director of Conferences for the School. He will be assuming more active duties in this connection during the Spring Semester, according to Dean Quittmeyer.

- SCHOOL OF EDUCATION -

Dr. S. S. Flanagan, Assistant Professor of Education, has been selected to review and recommend manuscripts for publication in The Mathematics Teacher, official publication of the National Council of Teachers of Mathematics.

COMMISSION PRESENTATION IN GREAT HALL

Virginia's Commission on Constitutional Revision will formally present its Report of recommendations to Governor Mills E. Godwin, Jr. Saturday in the Great Hall of the Wren Building. The presentation will be made by former Governor Albertis S. Harrison, Jr., Commission Chairman.

The Commission, approved by the General Assembly and appointed early in 1968 by Governor Godwin to study Virginia's present Constitution, dating from 1902, includes 11 members. Their task was to recommend changes and revisions for consideration by the General Assembly and the electorate.

Commission members will gather at 11:30 a.m. Saturday for the presentation ceremony with a number of invited guests, among whom will be members of the College's Board of Visitors who will be in Williamsburg for the Board's regular meeting.

- President Paschall to Speak -

The President of the College, Dr. Davis Y. Paschall, who is a member of the Commission, will deliver brief remarks prior to the presentation.

Other members of the Commission are: Judge Albert V. Bryan, Jr., of Alexandria; George M. Cochran of Staunton; former Governor Colgate W. Darden, Jr., of Norfolk; Hardy C. Dillard of Charlottesville; Alexander M. Harman, Jr., of Pulaski; J. Sloan Kuykendall of Winchester; Lewis F. Powell, Jr., of Richmond; Oliver W. Hill of Richmond and Judge Ted Dalton of Radford.

Governor Godwin is an alumnus of William and Mary along with Judge Dalton and President Paschall on the Commission; former Governor Darden was Chancellor of William and Mary in 1946- 1947, and Powell holds an honorary Doctor of Laws degree conferred by the College.

LIBRARY PUBLICATION

The Swem Library takes pride in announcing the publication of THE LIBRARY OF THE COLLEGE OF WILLIAM AND MARY IN VIRGINIA, 1693-1793 by John Melville Jennings, Director of the Virginia Historical Society. The book represents a revision of Mr. Jennings' master's thesis written at American University. Its publication was made possible by a gift from

Dr. Frances Willoughby in memory of her brother, Edwin E. Willoughby, Professor of Library Science at the College from 1932 to 1935 and then Chief Bibliographer at the Folger Shakespeare Library until his death in 1959. The volume is being sold through the University Press of Virginia at a cost of five dollars per copy.

William C. Pollard
Librarian

FATHER CORRIGAN HERE TODAY

Father John Corrigan, of Washington, D.C., one of the dissident Roman Catholic priests leading the current revolt against Cardinal O'Boyle, will lecture on campus today.

He will be guest speaker at an honors seminar this afternoon and will give a public lecture tonight at 7:30 p.m. in the Campus Center Little Theatre.

One of the organizers of the Center for Christian Renewal in Washington which has been set up to help priests who have been removed from parish duties or who have left the church, find re-direction, Corrigan has been outspoken in his concern for the right of priests to organize and speak freely.

Father Corrigan's visit to the campus was arranged by Professor George W. Grayson of the Department of Government and is sponsored by the Honors program.

OFFICE OF EDUCATION FELLOWS PROGRAM

The U.S. Office of Education will select 22 Fellows to spend the 1969 - 1970 academic year in Washington D.C. as special assistants to Assistant or Associate Commissioners of the O.E. Educators and graduate students from institutions of higher learning and personnel of State departments of education are eligible. Final selection is based on a review of demonstrated accomplishments and potential, recommendations prepared by the candidate's associates and supervisors, and an interview. Successful candidates are appointed for a ten month period beginning in September, at an annual salary of approximately \$11,500 (current GS-11 rate). The Fellow will be on leave of absence from his sponsoring agency and will not be recruited by O.E. Travel costs to and from Washington will be paid by the government. Applications must be submitted to the Regional Assistant Commissioners no later than January 31, 1969. Regional nominees will be selected by February 20: final recipients will be notified by March 5, 1969.

For further information write to: OE Fellows Program, U.S. Office of Education, Washington, D.C. 20201 or contact Warren Heemann, Director, Office of Institutional Resources.

BROWN APPOINTED TO COLLEGE POST

Stanley E. Brown, life underwriter with Equitable Life Assurance Society of the U.S., has been appointed Assistant Director of Student Aid and Placement.

Brown, who has maintained an office in Williamsburg for the past five and a half years, is a graduate of Emory and Henry College and received a master's degree in Education from the University of Tennessee in Chattanooga.

He served nine years in public education and prior to coming to Williamsburg was principal of Portlock Elementary School in Chesapeake, Va. He has also taught Spanish and World History and coached football and track at Oscar Smith High School in Chesapeake and Petersburg High School, Petersburg. After graduation from Emory and Henry he started his teaching career at Chattanooga High School.

He served two years in the U.S. Army as a cryptographic technician.

Brown is a member of the Kiwanis Club, a lay reader in the Methodist Church, a member of the Board of the Williamsburg Area Memorial Community Center, the National and State Associations of Life Underwriters, and the Colonial Williamsburg dance team.

The appointment was effective January 1.

INTERN PROGRAM PLANNED FOR SPECIAL EDUCATION TEACHERS

Beginning in June, the Special Education program plans to initiate an internship program to prepare teachers of mentally retarded pupils.

The two-year project is designed to allow graduates of a Liberal Arts field to qualify for teacher certification and a Master of Education degree while being employed as a full-time teacher in a classroom in the Tidewater area.

The program is expected to attract graduates in the Sociology, Psychology and related fields. Enrollment is tentatively set at 25.

Interns will participate in two orientation sessions during a 10-week summer program before being launched into the classroom. The two orientation courses, which will coincide with the two Summer School sessions at the College, will be held at Matthew Whaley Elementary School in Williamsburg to give interns an actual school setting for their workshops and other programs. Background information and special teaching methods will be presented to equip the intern for a full-time position in September. The remaining requirements for the graduate degree can be completed in the School of Continuing Studies within a two-year period.

From the beginning of the orientation sessions throughout the two-years of on-the-job training, the College will maintain close contact with the interns serving them with both counselling and resource services.

Dr. Esther Mills, Associate Professor of Education, will be director of the intern program and will be assisted by Miss Grace Smith, Associate Professor of Education.

In outlining the program, Dr. Mills said that consultants from other colleges would be used as consultants during the orientation sessions. Twenty-one schools, said Dr. Mills, all within a 50-mile radius of William and Mary, have indicated their desire to cooperate with the program and have said they will provide positions for teachers of the mentally retarded trained under the intern program.

FRIDAY CONCERT

James Oliver Buswell, IV, outstanding young violinist, will be guest artist at the next William and Mary Concert Series program, Friday, Jan. 10.

The concert will begin at 8:30 p.m. in Phi Beta Kappa Hall. Individual general admission tickets for this concert are available and will be placed on sale at the box office in Phi Beta Kappa Hall the evening of the performance beginning at 8:15 p.m.

Buswell has chosen for his concert Sonatina in A minor opus 137, no. 2 by Franz Schubert; Sonata in A major for violin and piano by Cesar Franck; Sonata in A minor, no. 2 for solo violin, J. S. Bach; and First Rhapsody (1928) by Bela Bartok. He will be accompanied by David Garvey at the piano.

A talented young performer, James Oliver Buswell, IV, manages to balance two careers, one as a concert artist, the other as a student at Harvard University. In an interview with Hubert Saal in Newsweek magazine, Buswell lamented that his concert schedule did not permit him to attend all his college classes but added that he had no intention of slowing down. "I am naturally lazy," said Buswell "and I need the discipline of all this work at peak capacity. It's not exactly conducive to peace of mind or stomach - but I find life double rich, I could cut down on my concerts. But I won't. It's my earthly joy."

Buswell began his interest in music early and after studying the piano at age 3, switched to the violin at age 7. He was the youngest soloist to play a youth concert with Leonard Bernstein and the New York Philharmonic.

His career has been phenomenal for one so young. He has appeared as soloist with nearly every major orchestra in North America.

His repertoire consists of all the major concerti including Beethoven, Brahms, Tchaikovsky, Mendelssohn, Lalo, Sibelius, Stravinsky, Glazounov, Mozart; Barber and many others. The instrument which he plays is a 1720 Stradivarius known as L'Eveque. It is an instrument noted for sweetness of sound and for a remarkable homogeneity of tone throughout the range.

Young Buswell's success in the musical world continues the distinguished Buswell lineage. James I was president of Wheaton College in Illinois; James II was a Presbyterian missionary; and James III is a professor of Anthropology at St. Louis University.

FRIENDS OF MUSIC

Faculty members, faculty wives, students and residents of the community comprise the orchestra for the Chamber Music Concert to be presented by the Williamsburg Friends of Music, Jan. 12 at 8:30 p.m. in Phi Beta Kappa Hall.

Program for the concert is as follows:

Clarinet Quintet in A by Mozart

Elnore Andersen and Alan C. Stewart, Violin; Dr. Carl Andersen, Viola; Kenneth Slavitt, Cello; and Helen Rountree, Clarinet.

Williamsburg Madrigal Singers - Numbers to be announced

Mrs. Herbert Deppe, Herbert Deppe, Mrs. J. Ricks Wilson, Robin Roark and Mrs. James Kelly.

Friday Concert (Cont.)

Brandenburg Concerto No. 3

Bach

Violin -

Dora Marshall Short
Elnore Andersen
Ronald Marshall

Cello -

Janet Kriner
Kenneth Slavitt
Jeanne Frupp

Viola -

Alan C. Stewart
Carl Andersen
Ronnee Repka

Bass -

William Kachlic

Serenade for String Orchestra Op. 20

Elgar

Concerto No. 12 in A K. 414

Mozart

Jeffery Rockwell Piano

Members of the William and Mary Chamber Orchestra
(Alan C. Stewart - Director)

Violin -

John Turner, Alan Sice, Mrs. John Selby, Janet Wilson,
Joyce Meador, Judith March, Mrs. Akihiro Nishimura,
Douglas Chard, Donna Ireland, Billie Perham and Ann Miles.

Viola -

Ronnee Repka, Deborah Filkins and Robert Toye.

Cello -

Trudi Gunia, Mrs. Robert McCubbin, Mrs. Robert Siegel
and Mrs. James Haddon.

Horn -

Robert Campbell and Deene Hall.

Bass -

William Kachlic.

Oboe -

Robert Miller and Karen King.

Tickets are \$1.50 for adults, \$1 for students.

THEATRE PRESENTS DOUBLE BILL

The William and Mary Theatre will sponsor two shows the one night of Monday, 13 January. Both will be produced by the Oxford and Cambridge Shakespeare Company, now on tour of the United States and receiving excellent reviews.

The first production, beginning promptly at 8 p.m., will be William Shakespeare's comedy, A MIDSUMMER NIGHT'S DREAM. The ticket policy is complex due to the one-night stand. No tickets for DREAM will be sold to the public until after all the \$11.00 Season Ticket Patrons have been issued their reserved seats. However, the Theatre will keep a Waiting List and at 7:25 p.m., Monday, January 13, all remaining tickets will depend upon the number of Season Ticket patrons who elect not to attend.

A MIDSUMMER NIGHT'S DREAM will end around 10:30.

At 10:45 p.m. the troupe will present a satirical Revue called STRICTLY FOR KICKS. The show is expected to conclude around midnight. STRICTLY FOR KICKS is quite similar to the famed BEYOND THE FRINGE: the New York Times has praised

Theatre Presents double bill (Cont.)

the explosive fun of the revue. Tickets for STRICTLY FOR KICKS are available to the general public (the Season Tickets are not valid for this show).

The William and Mary Theatre Box Office will be open between 3:30 and 5:30 p.m. Wednesday-Friday, January 8-10, and Monday, January 13. It will also open at 7 p.m. the night of performance (January 13). Tickets, if available, for A MIDSUMMER NIGHT'S DREAM will be \$3.00. Admission for STRICTLY FOR KICKS will be \$1.50, and the Theatre anticipates having an adequate number of seats available for everyone.

Faculty complimentary tickets are not valid for visiting professional shows such as the Oxford-Cambridge Shakespearean Company.

ARTMOBILE TO VISIT

A major portion of the Virginia Museum's collection of Byzantine art will be on display on campus Jan. 20 - 24 in one of the Museum's Artmobiles.

The Artmobile will be located in the parking lot next to Phi Beta Kappa Memorial Hall on Jamestown Road and will be open Monday through Friday from 10 a.m. to noon and in the afternoons from 1 - 4 p.m. The Artmobile will also be open Tuesday and Thursday evenings from 7 - 9 p.m.

The exhibit contains more than 60 objects including stone sculptures, metalwork, textiles, coins, miscellaneous church items and bone and ivory carvings. The entire collection which numbers more than 100 pieces, eventually will be housed in the Virginia Museum's new south wing which is now under construction.

Illuminated boxes have been constructed especially for the Artmobile exhibit to show to best advantage the skill of design and workmanship in earrings, bracelets, brooches and rings made of gold and silver and decorated with jewels.

- Chrysler Collection -

The Chrysler Collection of Contemporary paintings, hung in the Gallery of Andrews Fine Arts Building, is open for viewing each afternoon from 2 - 4 p.m. Monday through Friday. A fine collection of Chinese sculpture is also on view in the gallery.

SMITHSONIAN ASTROPHYSICAL OBSERVATORY
VISITING RESEARCH ASSOCIATESHIPS

The National Research Council is offering a limited number of Postdoctoral Visiting Research Associateships sponsored by the Smithsonian Institution at the Astrophysical Observatory, Cambridge, Massachusetts. The Observatory pursues research in astrophysics and related space sciences, including five general classifications: Satellite Tracking, Geophysical Studies, Meteor Studies, Orbiting Observatories, and Theoretical Astrophysics. The stipend for the regular Associates will be at the rate of \$12,000 per annum; Senior Associates will receive a higher award. The normal tenure of the Associateships is one year. Deadlines for completed applications in 1969 are February 15, May 15, August 15, and October 31. For further information write to the Office of Scientific Personnel, JH 606, National Research Council, 2101 Constitution Avenue, N.W., Washington, D.C. or contact Warren Heemann, Director, Office of Institutional Resources.

FASHION SHOW TONIGHT

Students in the clothing construction classes of the Home Economics Department will hold a fashion show tonight in the ballroom of the campus Center to display their work of the semester. The show begins at 8 p.m.

A social hour will be held following the fashion show and refreshments will be served.

Members of the class in Interior Decorating were recently guests of Colonial Williamsburg for a tour of the Williamsburg Inn. Students were shown new decorating schemes being prepared for the main dining room at the Inn. Students also saw original creations designed to carry out the new decor which includes use of Chinese panels against a neutral background with accents of bright yellow.

PHYSICS COLLOQUIUM

R. Arnot of V.P.I. will be guest speaker at the Physics Colloquium to be held Friday, Jan. 10 at 4:30 p.m. in Room 109 of William Small Physical Laboratory. His subject will be "Energy Dependent Parametrizations for Partial Wave Representations of Strongly Interacting Systems."

Coffee will be served in the conference room at 4 p.m.

CAMPUS RADIO STATION

New program bulletins for the college radio station WCVM will be out soon.

Schedule of Sunday night opera broadcasts for the next few weeks is as follows: Jan. 12, Tristan und Isolde; Jan. 19, Lohengrin; Jan. 26, Barber of Seville; Feb. 2, Falstaff; Feb. 9, Madame Butterfly; and Feb. 16, Otello. Broadcasts begin at 7:15 p.m.

Contemporary music over WCVM can be heard daily starting with the early morning disc jockey shows each daily at 7 a.m. The afternoon music show of top hits continues to solicit most response from students - so much so that George Lott in the Department of Theatre and Speech who shares his extension with the station has to plan his telephone calls around the 3 - 5 p.m. program.

For the first quarter of programming during the 1968-69 year, the 123 hours a week air time was distributed as follows:

Middle-of the -Road Music,	60.2 percent.
Contemporary Music	14.6 percent.
Classical Music	12.8 percent.
News	4.7 percent.
Syndicated Educational	3.5 percent.
Other locally produced	2.8 percent.
Syndicated Informational	1.2 percent.
Drama	.2 percent.

BRITANNICA CONTRIBUTORS

Contributors to the 1968, 200th anniversary edition of the Encyclopedia Britannica include Richard Maxwell Brown, Professor of History; Ludwell H. Johnson, III, chairman of the Department of History; and Richard Lee Morton, Chancellor Professor Emeritus of History.

- DEPARTMENTAL NEWS -DEPARTMENT OF BIOLOGY

As evidence of the Biology Department's prolific productivity, the year of 1968 was a banner year. One third of the Department made major publications: Dr. Webb Van Winkle, Andrew Webster; Dr. Martin Mathes, Martin Todd; Dr. Ian Callard, David Jan; Dr. Carl Vermeulen, Susan Elaine; and lastly from the Population Laboratory came Dr. C. Richard Terman's Johathan Richard.

The resident epidemiologist thinks that this may all be due to a virus!

DEPARTMENT OF ENGLISH

Professors John Conlee, Carl Dolmetsch, Scott Donaldson, Michael Lieb and Fraser Neiman and Mr. Lewis Walker represented the Department of English at the annual meeting of the Modern Language Association, held in New York December 27-29.

Professor Carl Dolmetsch's review of H.L. Mencken's 'Smart Set' Criticism, ed. W. H. Nolte (Cornell University Press, 1968) appears in the December issue of Choice.

A review by Cecil McCulley of Arnold Hinchliffe's Harold Pinter appears in the December, 1968, issue of Choice.

On November 28-30, LeRoy Smith attended the annual meeting of the National Council of Teachers of English in Milwaukee, Wisc. He represented the English Department at planning sessions for the 1969 convention to be held in Washington, with a three-day pre-convention study group meeting in Williamsburg.

Mrs. Margaret Freeman and LeRoy Smith served as readers for the College Board Achievement Test in Composition in Atlantic City, December 11-15.

DEPARTMENT OF MUSIC

Stephen Paledes attended the 12th Annual Meeting of the Association of College and University and Concert Managers December 16-19, 1968 in New York City.

F. Donald Truesdell attended the Annual Meetings of the American Musicological Society and the College Music Society at Yale University December 26-29, 1968.

SWEM LIBRARY

In December Mrs. Ilse Webb, Catalog Librarian, attended a two-day workshop in Atlanta dealing with the Library of Congress' Machine Readable Cataloging Project.

Miss Suzanne Foley, Reference Librarian, has been appointed to membership on the American Library Association Committee for Reading Improvement for Adults.

SCHOOL OF EDUCATION

On December 13-14th, Dr. S. Stuart Flanagan met with a group of leaders in Mathematics education to plan a Regional meeting for Mathematics Teachers of the Southeastern United States.

The Conventions will be sponsored by the National Council of Teachers of Mathematics in Raleigh, during October 9-11, 1969.

MARSHALL WYTHE SCHOOL OF LAW

James P. Whyte, Associate Dean of the Marshall Wythe School of Law will attend a meeting of the National Academy of Arbitrators in Colorado Springs, Jan. 30 - Feb. 2.

- Conference Series -

The second in the current round of three conferences for lawyers and industries, sponsored jointly by the Marshall Wythe School of Law and Federal Publications, Inc., of Washington, will be held Jan. 13 - 17 in Phoenix, Ariz.

The first conference was held in Williamsburg at the Williamsburg Conference Center, Dec. 9 - 13. The final conference will be held in Cape Kennedy, Florida.

The conferences deal with practical legal problems of contracting and subcontracting between the government and private industries. Course coordinators include Dr. Paul H. Gantt, B.C.L. '42. Administrator is Dr. William E. Swindler.

- Professor Jolls is Speaker -

Prof. Thomas H. Jolls was speaker and discussion leader at a dinner meeting of the Corporation Law Committee of the Association of the Bar of the City of New York, Jan. 7. Professor Jolls spoke on "The Statutory and Functionary Problems in Changing Stock Ownership Procedures for Nationally Traded Corporate Stocks."

WEEKLY CALENDAR JAN. 9 - 18

<u>Jan. 9, Thursday</u>	- Home Economics Dept. Fashion Show	*CC Ballroom	8 p.m.
	Holy Communion	Wren Chapel	5 p.m.
	Festival Film Soc. "Death of a Cyclist"	Andrews Audit	4 & 8 p.m.

SPRING SEMESTER - COMINGS AND GOINGS

Three members of the Faculty of Arts and Sciences will be on leave during the Spring semester, undertaking research projects in a diversity of fields.

- Study in South America -

Dr. Nathan Altshuler, chairman of the Department of Anthropology, plans to spend the next six or seven months in Guyana, South America, studying health and nutrition among the Indian tribes in the Rupununi District of the interior.

This is Dr. Altshuler's second visit to this area. Last summer he conducted an exploratory study among the Patamona Indians living along the Ireng River, a tributary of the Amazon.

The field study is being funded under the College Science Improvement Program made possible by a grant to the College of \$245,600 by the National Science Foundation.

The major curriculum study and enrichment program in the departments of economics, government, psychology, sociology and anthropology will take three years to complete.

Field studies by three other members of the Department of Anthropology are planned in the future. Prof. Carol E. Ballingall plans to go to Southeast Asia; Dr. Norman F. Barka, to Norway; and Prof. Theodore B. Reinhart, to Mexico.

- Psychological Research -

Dr. Peter L. Derks, Associate Professor of Psychology, will also work on a project included in the College Science improvement Program.

During the Spring semester he will prepare a chapter dealing with "Human Thinking and Problem Solving" to be included in a book entitled "Experimental Psychology" edited by George Reynolds.

He also plans to continue research on the "registration of information in memory" started earlier this year under a grant from the U.S. Office of Education.

- Dr. Johnson on Leave -

Dr. Ludwell H. Johnson, chairman of the Department of History will be working both on campus and in Washington, D.C., during the semester on "The Influence of Party Politics and Pressure Groups on the Conduct of the Civil War."

His work is being conducted under a grant awarded by the American Council of Learned Societies.

- Visiting Professor -

Dr. Bernardo Berdichewski, of the University of Chile will be visiting professor in the Department of Anthropology during the Spring semester.

Dr. Berdichewski is currently in the United States as a visiting professor at Kalamazoo College in Michigan.

A noted anthropologist, he is a member of the Permanent Council of the Union Internationale de Sciences Prehistorique et Proto-historique (dependent of UNESCO) representing Chile; a correspondent member of the Argentine Society of Anthropology; founder member and general secretary of the Chilean Society of Anthropology; and an active member of the Chilean Society of Archeology.

He has authored many scholarly articles in publications in Chile, Argentina and Spain and is Editor of the Bulletin of the Chilean Society of Anthropology.

He has surveyed and made study travels in South America, Europe, the Mediterranean, Near East and North Africa.

- New Faculty members -

Mrs. Ellen Pennes Susman, a Ph.D. candidate at the University of Michigan, will be an acting instructor in psychology for the Spring semester.

Mrs. Carmen B. Grayson, will be a lecturer in the Department of Government for the second semester. Mrs. Grayson, wife of Prof. George W. Grayson, Jr., who joined the Department of Government last fall, is a candidate for the Ph.D. degree at the University of Virginia.

Editor's Note :

There will be no issue of the Colleague during the examination period. The next issue will be out Feb. 6. Deadline for contributions is 9 a.m. Feb. 5.

- CHARTER DAY '69 -

William and Mary will dedicate its new John Millington Hall of Life Sciences and hear the new Director of the National Institute of Health at the 276th Charter Day observance February 8.

The speaker for the traditional anniversary convocation will be Dr. Robert Q. Marston, a native of nearby Toano who moved up the ranks of medical education to become Dean of the School of Medicine at the University of Mississippi before his appointment to direct the NIH late last year.

The program is scheduled to begin at 10:45 a.m. in Blow Gymnasium.

Through the remainder of the day, the \$2,800,000 Millington building will have an open house offering guided tours of the facility. It houses the biology and psychology departments in separate three-story wings. Millington was a 19th century professor at William and Mary.

- Symposium Planned -

The dedication date will be preceded by a day-long symposium on "Psychobiology and Behavior," to be sponsored jointly by the two departments.

The symposium will begin at 9 a.m. in the Millington Hall auditorium with a paper on "Informal Interaction and Maturation," delivered by Dr. J. McV. Hunt, professor of psychology and education at the University of Illinois.

At 10:40 a.m., Dr. Jose Delgado, professor of physiology at the Yale University Medical School, will deliver a paper on "Trans-Dermal Communications with the Brain." At 2 p.m., Dr. N. E. Miller, professor of psychology at Rockefeller University, will talk on "Chemical Coding of Behavior in the Brain," and at 3:40 p.m., Dr. Ward Byrne, professor and chairman of the Department of Biochemistry at the University of Tennessee, will deliver a paper on "The Molecular Basis of Long-term Memory---A Progress Report."

The general public has been invited to attend the symposium, under the co-chairmanship of Drs. Richard Terman of the Biology Department and Peter Derks of the Psychology Department.

- Convocation Speaker -

The Charter Day Convocation speaker, Dr. Marston, was educated at Virginia Military Institute and the Medical College of Virginia. A Rhodes Scholar, he later taught at Medical College of Virginia, the University of Minnesota, and the University of Mississippi. He became medical dean at the latter in 1961, and was named the university's vice chancellor in 1965.

Dr. Marston has served in a number of leading positions in medical professional groups, and for the National Institute of Health and is the author of many articles in the field of medicine.

- SUMMER SCIENCE INSTITUTE -

Approximately 90 junior and senior high school teachers of science and mathematics are expected to attend the eleventh annual Summer Science Institute to be held here in June.

Supported by the National Science Foundation under a grant of \$112,940 to the College, the institute is designed to upgrade the backgrounds of teachers in mathematics, biology, chemistry, and physics.

Summer Science Institute (Cont.)

Fifty-two of the participants will be returning for further study, 28 of them for the third summer. Twenty are expected to complete requirements for a master's degree in the teaching of science. The first M.T.S. degree was offered at the College of William and Mary in 1962 and since that time 136 have been conferred. Sixteen were conferred in 1968.

- Curriculum and Staff -

The institute curriculum will cover upper and lower level courses in mathematics and physics and upper level courses in chemistry and biology. Participants are required to have at least two years of teaching experience and must currently be teaching in grades 7 - 12. Selection of applicants is made yearly.

Institute director, for the second year, will be Professor Benjamin Cato of the Department of Mathematics. Associate director will be Prof. R. H. Prosl, also of the Department of Mathematics.

Other staff members will include Dr. George W. Crawford and Dr. R. L. Champion, Department of Physics; Dr. T. L. Reynolds, chairman, Department of Mathematics; and Dr. A. R. Armstrong, Department of Chemistry.

Visiting professor on the staff of the Institute will be Dr. W. L. Mengebier, Professor of Biology, Bridgewater College, former head of the Department of Biology, Madison College.

The National Science Foundation will fund 428 Summer Institutes this year, most of them offering studies in a single field. The Institute at the College of William and Mary is one of 67 in the country offering a multiple field of study.

This is the 11th year William and Mary has held the Institute which will open June 16 and close August 8.

- IN-SERVICE PROGRAM FOR TEACHERS -

The National Science Foundation has approved funds for an in-service program developed by the College of William and Mary in cooperation with the local school division, for mathematics teachers in grades 5, 6, and 7.

"The Cooperative College-School Science Program" will be directed by Dr. S. Stuart Flanagan of the School of Education at William and Mary. A grant of \$8,686 will provide funds for the year-long program, which will be offered to 25 local teachers.

Evening classes will be held for 30 weeks during the 1969-1970 school year at Berkeley Junior High School beginning this fall.

- Curriculum Outlined -

Staff members of the College will teach classes in mathematics content and in curriculum and instruction. They will assist in lesson and unit planning, observe classes, teach demonstration lessons and will work with school system staff in a curriculum development project.

Dr. Flanagan, who is currently in charge of mathematics education at the College will have on his staff, Richard H. Prosl, Assistant Professor of Mathematics, and Thomas L. Reynolds, Professor of Mathematics and head of the Department of Mathematics.

Curriculum Outlined (Cont.)

Dr. Flanagan has described the program as a "meaningful alliance between the College of William and Mary and the Williamsburg-James City County School System." The proposal has been approved by the Superintendent of Schools and by the School Boards of Williamsburg and James City County.

- MARINE SCIENCE SEMINAR -

Virginia Institute of Marine Science, Gloucester Point, will sponsor a seminar to be held at 7:30 p.m. tonight (Thursday, Jan. 16) at the former Beach Club, Gloucester Point.

Guest speaker will be Dr. Arthur Cooper, Professor of Botany, North Carolina State University at Raleigh, who will take as his topic "Recent studies on salt marsh primary productivity and dune stabilization in North Carolina."

The Beach club is located at the foot of Route 1208 (underneath the York River Bridge).

Interested scientists are invited to attend. Refreshments will be served.

CONGRESS CONSIDERS NEW INSTITUTIONAL GRANTS PROGRAM

One of the first bills for higher education dropped in the hopper at the opening of Congress this session would establish a program designed to "promote the advancement of science and the education of scientists through a national program of institutional grants to the colleges and universities of the United States." This bill, which has been proposed during each of the last few sessions of Congress and now has the support of most major associations for higher education and is known as the "National Institutional Grants Program," would authorize the appropriation of the sum of \$400,000,000 for the fiscal year 1970, and, thereafter, for each fiscal year, a sum equal to 20 per centum of higher education for support of academic science throughout the United States. Under the terms of the program, colleges and universities would be free to utilize the funds received in ways they consider desirable.

- Funds Apportioned -

Funds authorized by the new bill would be apportioned in three ways. One-third of the funds would be allocated to institutions of higher education as a graduated percentage of the total sum of project awards received by them during the immediately preceding year from the NSF and other federal agencies which have made awards relative to academic science. One-third would be apportioned in proportion to the ratio that the full-time undergraduate students in each State's institutions of higher education in the preceding year bears to the total number of such students in the U.S. The final third of the funds would be allocated in proportion to the ratio that the total number of advanced degrees awarded during the immediately previous three years in the sciences bears to the total number of such degrees throughout the U.S.

The National Institutional Grants Program will be administered by the National Science Foundation, which will be advised by a newly established National Science Council. In recent days NSF has moved toward the type of Institutional Grant being proposed by broadening the base of the formula they use to make their own small Institutional Grant Program awards to include all federal agencies rather than just the National Science Foundation.

- GRADUATE FELLOWSHIPS -

A grant to the College from the U. S. Office of Education will provide two new graduate fellowships at the college, one in Physics and one in Marine Science.

A grant of \$33,600 given under the National Defense Education Act, will bring the total of graduate fellowships offered at the College under this program to seven. Four are now offered in Physics and one in History.

The graduate fellowships are offered to students accepted for the doctoral program and are three year awards, which include a stipend of \$2,000 increasing to \$2,400 in the third year, and dependency allowances.

- DEPARTMENTAL NEWS -

DEPARTMENT OF BIOLOGY

Dr. Mangum presented a paper entitled "The function of coelomic hemoglobin in the bloodworm Glycera dibranchiata" at the annual meeting of the American Society of Zoologists held in Dallas - December 26-31, 1968. The Paper was co-authored by Dr. Robert E. L. Black and Richard J. Hoffmann, '69.

Dr. Mangum also presided over a session of contributed papers presented to the Comparative Physiology Division of the society.

DEPARTMENT OF GEOLOGY

The Swem Library has been designated as a repository of maps by the United States Geological Survey. In the future all copies of new and revised topographic quadrangle maps of Delaware, Kentucky, Maryland, North Carolina, Tennessee, West Virginia and the District of Columbia, geologic maps in all series and all series of special topographic and base maps will be received and accessioned by the Swem Library. They will be maintained on file in the Department of Geology Library in the basement of Bryan Hall.

DEPARTMENT OF PHILOSOPHY

Professors Jones, Cobb, Mearn, McLane, Nyland, and MacDonald attended the Annual Meeting of the Eastern Division of the American Philosophical Association in Washington, D.C. on December 27, 28 and 29.

Professor David Jones' article on "Deliberation and Determinism" will appear in the Winter issue of The Southern Journal of Philosophy.

Professor MacDonald addressed the Newport News Chapter of the American Association of University Women on January 16 at Christopher Newport College on the topic: "Student Protests and Riots".

DEPARTMENT OF PHYSICS

On December 10, J. Soest gave a talk entitled "Nuclear Magnetic Resonance - A Clock and Meter Stick for Solid State Physics" to the members of Chi Beta Phi, science honorary, at Lynchburg College, Lynchburg, Virginia.

The following papers were published:

Department of Physics (Cont.)

Polarization in Proton - ^4He Scattering at 540 MeV

K. Gotow, E. T. Boschitz, W. K. Roberts, J. S. Vincent,
P. C. Gugelot, C. F. Perdrisat and L. W. Swenson
Phys. Rev. Letters 21, 1816 (1968).

Charge Transfer and Dissociative Charge Transfer between Rare-Gas Ions and Molecular Nitrogen.

R. L. Champion and L. D. Doverspike
The Jr. of Chem. Phys. 49, 4321-4329 (1968).

Elastic Scattering of 600-MeV Protons from He^3 .

E. T. Boschitz, W. K. Roberts, J. S. Vincent, M. Belcher,
K. Gotow, P. C. Gugelot, and C. F. Perdrisat
Bull. Am. Phys. Soc. 13, 1367 (1968).

M. Eckhause attended a meeting of the American Physical Society in San Diego, 18-20 December, and delivered a paper,

Energy and Width Measurements of the Pionic $2p-1s$ Transition in Na^{23} .

M. Eckhause, G. H. Miller, W. W. Sapp, and R. E. Welsh
Bull. Am. Phys. Soc. 13, 1653 (1968).

DEPARTMENT OF PSYCHOLOGY

Professor Virgil McKenna served on a panel to select papers on human motivation for the Southeastern Psychological Association which will meet in New Orleans, February 27 - March 1.

In the past year or so, Professor McKenna has reviewed the following in Choice: I. A. Berg, (Ed.), Response Sets in Personality Assessment (Aldine); J. S. Bruner, et al, Studies in Cognitive Growth (Wiley); R. Jessor and S. Feshbach, (Eds.), Cognition, Personality, and Clinical Psychology (Jossey - Bass); J. Piaget, On the Development of Memory and Identity (Barre); and J. Piaget, Six Psychological Studies (Random House).

- SCHOOL OF EDUCATION -

A paper by Dr. John F. Lavach, "Organization and Evaluation of an In-Service Program in the History of Science" has been accepted for publication in the Journal of Research In Science Teaching.

Schedule of NSF Programs for Education in the Sciences - Calendar Year 1969

This consolidated table presents important time-schedule information concerning NSF programs for education in the sciences. It is intended as a convenient reference for: (1) individuals applying for fellowships and (2) institutions submitting proposals for the conduct of all other listed programs and projects. Award announcement dates are approximate and on occasion may be somewhat later than the dates indicated.

February 6, 1969

- CHARTER DAY PROGRAM -

The College will honor the longtime head of its Department of Chemistry and the new Director of the National Institutes of Health by conferring honorary degrees on them at Charter Day ceremonies Saturday.

Dr. W. Melville Jones, vice president of the College and chairman of the 276th Charter Day observance announced that honorary Doctor of Science (D. Sc.) degrees will be conferred on Dr. William G. Guy of Williamsburg and Dr. Robert Q. Marston of Washington, a native of Toano.

Dr. Marston will deliver the Charter Day address. The convocation will be held in Blow Gymnasium beginning at 10:45 a.m.

Focus of this year's program will be on the \$2.8 million John Millington Hall of Life Sciences, being dedicated that day. The building houses the departments of biology and psychology, and was put into full use last summer. Millington was a 19th century professor of the sciences at William and Mary.

Also scheduled for the Charter Day program is conferral of the annual Thomas Jefferson Award to an outstanding member of the College community. The recipient is not announced until the ceremony. The Award carries a \$1,000 stipend, made possible by the Robert Earl McConnell Foundation.

The day before Charter Day, the biology and psychology departments will be host for a day-long symposium on Psychobiology. The afternoon of Charter Day, the Millington building will be open for guided tours of the new facilities.

- Drs. Guy and Marston -

Dr. Guy, who is now Chancellor Professor of Chemistry Emeritus, retired last June after a career at William and Mary of 43 years. He came to the College in 1925 as assistant professor of chemistry, was a full professor in 1930 and from 1946 until 1968, was head of the department.

A native of Newfoundland, Canada, he holds three bachelor's degrees, two from Mt. Allison College and one from Oxford University, earned under a Rhodes Scholarship. He holds the Ph.D. degree from the University of Chicago, earned as a duPont Fellow.

He is a Faculty Initiate member of William and Mary's Phi Beta Kappa chapter, holds the 1958 Distinguished Service Award of the Virginia Section, American Chemical Society; and the College's Thomas Jefferson and Algernon Sydney Sullivan Awards.

LIBRARY

WILLIAMSBURG

Charter Day Program (Cont.)

Dr. Marston, an alumnus of Virginia Military Institute, received his medical education at Medical College of Virginia. He also was a Rhodes Scholar. Dr. Marston taught at MCV, the University of Minnesota and the University of Mississippi, prior to becoming dean of Mississippi's Medical School in 1961. He became that university's vice chancellor in 1965, and accepted the directorship of the NIH in 1968.

DEAN CURTIS RESIGNS

The College Monday announced the resignation of Joseph Curtis as Dean of the Marshall-Wythe School of Law.

The resignation was attributed to "personal reasons" by Dean Curtis who will become Dean of the School of Law at the University of Baltimore when his resignation becomes effective this summer. No successor has been named.

Dean Curtis joined the law faculty at William and Mary in 1948 as an associate professor after practicing law in New York City and serving as the administrative assistant to the Dean of the New York University School of Law.

He was promoted to full professor in 1953 and assumed the acting deanship of the Marshall-Wythe School in 1962, succeeding Dudley Woodbridge. Curtis was appointed Dean in 1964.

ALUMNUS VIEWS WILLIAM AND MARY
FOR THE NATIONAL OBSERVER

Edwin A. Roberts, Jr., a senior editor with The National Observer features his alma mater in this week's edition of his newspaper in an article headlined "College of William and Mary Looks Ahead - Finally - Not Even in Jefferson's Day Were Prospects So Bright."

"The College of William and Mary is 276 years old this week," writes Mr. Roberts "but that's not the real news. The real news is that the nation's second-oldest college - only Harvard (1636) is older - doesn't look back quite so much any more. It doesn't have to.

"Since 1961, William and Mary has doubled faculty salaries, doubled student enrolment and erected new dormitories, classroom buildings, fraternity houses, laboratories and an ultramodern library. Together with other capital improvements, these cost a total of \$22,000,000 -- more than the college had spent on itself between its founding in 1693 and 1960.

"We have pretty much finished with the bricks-and-mortar part of the job," says Davis Y. Paschall, college president. "Our efforts now will be directed even more toward academic excellence."

"An ungracious spirit might reply that it's about time. But the story of the College of William and Mary in Virginia (its full and proper name) is unlike that of any college in America."

Retracing the history of the college and its struggle to survive Mr. Roberts reflects that "It's hardly a wonder then, that William and Mary has leaned hard on its memories, for those memories offer both enormous pride and the solace of a good explanation. Between the 1860's and the 1960's, the college wore its nostalgia like an old tweed coat. And it kept it warm."

- College Enrollment -

Turning to the college as it is today Roberts writes "The large majority of freshmen enrolled this year were in the top 10th of their graduating classes in high school. Co-educational since 1918, the school sets high standards for its female candidates. A few years ago the National Merit Scholarship Corp. completed a study that showed William and Mary to be the eighth most difficult college in the nation for women to get into.

"Of the 977 freshmen studies enrolled in September of 1968, 308 were male residents of Virginia, 205 were males from other states, 336 were females residents of Virginia, and 128 were women from out of state.

"Yet 2,000 out-of-state women applied for admission. The college attempts to keep the Virginia and out-of-state ratio at about 70 - 30 and the male-female ratio at about 60 - 40. On top of this, the applications of out-of-state women exceed any other category, including that of Virginia men. What all this adds up to is that only about 7 percent of out-of-state women applicants can be accepted.

"It was suggested to Cecil M. McCulley a popular professor of English, that William and Mary must have a remarkable collection of brainy girls. "The girls are not only brainy," says Professor McCulley, "they are brainy enough not to appear too brainy."

The student observes Roberts "provides a surprisingly provocative regional mix, and philosophies rooted in particular regions frequently clash in dormitory bull sessions. Student attitudes, though are far more homogeneous today than they were some years ago." While there are still only 20 Negro students among the undergraduates, Dr. Paschall is vehement about keeping racial bias out of the fraternity system that he wholeheartedly supports. . . .

"On the admission application for William and Mary there is no question about race. Moreover the admissions staff does not interview applicants in person. Acceptance criteria are mainly College Board exams and class standings in secondary school. Nor is a photograph of the candidate required.

"There are few Negroes at William and Mary because most qualified Negroes would probably prefer attending what they might consider a more liberal school in the North.

- Editor Sherman -

"The weekly student newspaper is called the Flat Hat. It is edited this year by Christopher B. Sherman, a senior from Cincinnati who changed its format from tabloid to full size and generally improved the whole publication. Mr. Sherman is a bright and grumpy young man (all good campus editors are bright and grumpy) who is majoring in history. . . .

"Mr. Sherman is severely critical of the college because, he believes, it is denying its great liberal heritage. No longer he notes, does William and Mary lead the way in social and political reform as it did in the Eighteenth Century when it provided schooling for Indians and helped mount the American Revolution.

"But, concludes Roberts "the college has made extraordinary strides in recent years, and there can be no doubt that it is embarked on a new era. Not even in the days of Jefferson were its prospects so bright.

"That's the real news. After, almost three centuries of ups and downs, the College of William and Mary can mark its 276th birthday with fond recollections of its heroic youth. But its mission is behind it no longer."

PROFESSOR WAYNE KERNOBLE PLANS TRIP TO BELGIUM

Dr. R. Wayne Kernoble, chairman of the Department of Sociology, will go to Belgium this summer to undertake research in the town of Geel which has a remarkable history of treating the mentally ill.

Since the 5th century the residents of this town have taken mentally ill people into their homes and treated them as members of their own families.

Kernoble hopes to bring back information on the residents of Geel and how they have made their town a front runner in the field of community involvement in the treatment of the mentally ill.

"This type of care avoids institutionalization which removes the patient from family and friends," explained Kernoble. "His total life has to be adapted to the institution and in time he loses the mechanism to adapt to the society that the hospital is getting him ready to return to."

During his association with Eastern State Hospital, Dr. Kernoble has been interested in the open hospital system and made a preliminary study of why patients leave the open hospital system under a faculty grant from the college. He was later awarded a major grant by the National Institutes of Health for further study in the field.

Dr. Kernoble's research this summer will be funded under the College Science Improvement Program, a major curriculum study and enrichment program in the departments of economics, government, psychology, sociology and anthropology. Mrs. Kernoble, a member of the faculty of Christopher Newport College, will assist her husband in his research project this summer.

PROF. DONALDSON TO PARTICIPATE
IN STUDENT BURGESSES MEETING

Dr. J. Scott Donaldson, assistant professor of English, will be a discussion leader at the 12th annual meeting of the Williamsburg Student Burgesses, an educational seminar which examines fundamental ideas and problems of the Democratic world.

Student leaders from all 50 states plus 36 foreign exchange students now studying in American high schools will come to Williamsburg for the meeting held under the sponsorship of Colonial Williamsburg.

"Patriot and Protestor: Can Youth be Both?" is the theme for the meeting which will focus on the changing roles of youth in contemporary society.

REUTTER AND McCULLOUGH TO BE HEARD IN CONCERT

Hermann Reutter, eminent German composer and pianist, and Oscar McCullough, baritone and associate professor of music at Hollins College, will give a lieder recital of works by Beethoven, Schubert, Wolf and Reutter, Sunday February 9.

The concert, part of the current Collegium Musicum series, will be held in the Campus Center Ballroom at 4 p.m.

Reutter, former director of the State School of Music in Stuttgart, Germany, is one of his country's leading composers.

Oscar McCullough is well-known for his performances in opera, Oratorio, chamber music and lieder recitals. This is the third year of performances with Reutter.

DR. ROSENWALD TO SPEAK

Dr. Hans Rosenwald, Director of the Albert Schweitzer Colleges, headquartered in Churwalden, Switzerland, will speak on the William and Mary campus, February 10.

Dr. Rosenwald, who is currently on a speaking tour in the United States will talk on "The Philosophy of Albert Sxhweitzer - Education for One World" in the Campus Center Ballroom at 8 p.m.. His lecture is open to the public.

A native of Germany, he holds a Ph.D degree from the University of Heidelberg and previously served as Dean of the Chicago Music College. Rosenwald has been a consultant for various educational institutions both in the United States and Europe. He is a Unitarian minister and lists as his interests, anthropology, religion, art, literature, and music.

Dr. Rosenwald's campus visit is sponsored jointly by the Honors Program and the campus ministers. He will speak to a joint supper meeting of collegiate church groups at Bruton Parish House, Sunday, Feb: 9 at 5 o'clock.

LAW STUDIES IN ENGLAND IN THIRD SUMMER

The now-established Summer Studies in Law in England under the auspices of the Marshall-Wythe School of Law on the campus of the University of Exeter will be given for the third consecutive summer, July 7 - August 13, 1969. Professor Emeric Fischer of the law faculty is director of the 1969 summer program and will be one of the teaching staff along with Professor E. Blythe Stason, Jr. and one or more Exeter law teachers.

- Special Flight -

Any students or faculty members of the College who wish to avail themselves of the charter flight rate of \$245 round trip from Dulles Airport to London may contact Professor Fischer. The flight will leave July 2 and return August 23.

PROGRAM TO HONOR WELSH BARD

On March 1, St. David's Day, the College will mark the bi-centennial anniversary of Goronwy Owen, noted Welsh bard, and a member of the faculty of the College during the 18th century.

Lectures, poetry readings, a program of Welsh music and the placing of a tablet in a poetry reading room in the College Library to be named in his honor, are all part of a two-day program of events, which will be open to the public.

The College program honoring Owen will bring to the campus a leading Welsh scholar and playwright, as well as the former head of the Celtic Section of the Modern Language Association, along with about 50 members of the St. David's Society of New York.

John Gwilym Jones, noted Welsh playwright and lecturer at the University College of North Wales at Bangor, will speak on "The Poetry of Goronwy Owen - What's Left out in Translation" Saturday, March 1 at 8 p.m. in the Botetourt Theatre of the Earl Gregg Swem Library.

Saturday morning at 11 a.m. there will be a reading of Owen's poetry, both in English and Welsh and in the afternoon at 2 p.m., a slide program will be presented depicting highlights of Owen's life. A recital of Welsh music will

Program to honor Welsh Bard (Cont.)

be given at 3 p.m. by Miss Marian Harding, of Williamsburg, harpist with the Peninsula Symphony Orchestra.

A plaque of Welsh slate will be placed in a poetry reading room in the library to be named for Owen in ceremonies beginning at 4 p.m., March 1. The plaque was formerly located in the old library.

On Friday, Feb. 28, the two-day anniversary program will get underway with a talk by Joseph P. Clancy, chairman of the Department of English at Marymount College, New York. Clancy, who is a former head of the Celtic Section of the Modern Language Association, will take as his topic "The Medieval Heritage of the Welsh Bards."

The tribute to Owen will also include a special book exhibit in the library and publication of his letters by the Botetourt Bibliographical Society.

Goronwy Owen, 1723-1769, was known as the "Black Bard of Anglesea". He was a clergyman, educated at Friars School and Jesus College. He obtained a position in Williamsburg through the Bishop of London in 1758.

Owen served as master of the Grammar School and Professor of Humanities at the College of William and Mary from 1758-1760. He lost his wife and child in a torturous sea voyage from England which he vividly describes in one of his letters from Spithead, written in 1759.

He is buried in Lawrenceville, Va. In 1957, the Poetry Society of Virginia placed a monument to his memory there.

GRANTS TO GEOLOGY DEPT.

A grant of \$4,200 from the National Science foundation to the College of William and Mary will fund research projects for three undergraduates in the Department of Geology this summer.

Three members of the Department of Geology will guide student research which will cover both field studies and laboratory work.

Dr. Bruce K. Goodwin, Associate Professor, and Dr. Stephen C. Clement, Assistant Professor, will guide student research into the granites in the area of Richmond and Petersburg.

Dr. Clement will be primarily interested in a mineralogical study of the granites which will be undertaken largely as a laboratory study of specimens collected.

Dr. Goodwin will guide research into the origins of granites in these areas and how they were formed. This work will require both field study and laboratory work.

A student researcher under the guidance of Dr. Gerald H. Johnson, Assistant Professor, will study the distribution of sediments and fossils in the Yorktown Formation on the York-James Peninsula. This study, it is hoped, will help interpret the environment during the time these deposits were forming, 10 - 15 million years ago.

DEPARTMENT HEADS NAMED AT VIMS

Dr. William J. Hargis, Jr., Director of the Virginia Institute of Marine Science, has named Dr. W. Jackson Davis to head the Department of Ichthyology and Dr. Wyman Harrison was named Head of the Department of Physical, Chemical and Geological Oceanography.

Department Heads Named at VIMS (Cont.)

Dr. Davis, associated with VIMS since June 1963, fills a vacancy created when Dr. Edwin B. Joseph, former head, became Assistant Director in charge of the Division of Biological and Physical Oceanography at VIMS.

The Ichthyology Department, staffed by 8 scientists and 18 technical personnel, is conducting studies designed to elucidate the fundamental biology of fishes and to further commercial and sport fishing in the state. Present investigations are centered around the biology of river herring and shad, population dynamics of striped bass and fisheries resources of the continental shelf. Dr. Davis's personal research interests are biology of menhaden-like and herring-like fishes and fishery resources of the continental shelf.

Dr. Harrison returns to VIMS after having been associated with the Environmental Science Services Administration as Director of the Atlantic Oceanography Laboratories' Land and Sea Interaction Laboratory in Norfolk, Virginia. In addition to serving as head of the Department, which involves chemical, geological and physical oceanography, he will be involved directly in Coastal Zone research.

The main thrust of the program will involve asking questions of the near-shore environment with remote sensors, analyzing data in shore-based computer centers, and then developing prediction techniques to allow us to forecast "water weather". Forecasting the buildup of possible harmful concentrations of pollutants will also be attempted.

Harrison hopes to develop an expanded program of research on inlets on Virginia's Eastern Shore in order that the State may be properly advised relative to developmental schemes involving planned recreational facilities and waterfront communities.

Existing departmental programs in continental shelf currents, estuarine circulation, mathematical and physical modelling and studies of the factors affecting erosion of Virginia shorelines will be expanded to meet needs of the state in these vital areas.

Dr. Harrison spent the last four years studying the response of beaches and the sea floor to waves, tides and currents. His research carried him to the Bahamas and India, where he has served as NSF consultant to the Indian National Institute of Oceanography.

MARSHALL - WYTHE SYMPOSIUM

The 1969 Marshall-Wythe Symposium will deal with HUNGER and the students will read *Famine 1975* by William and Paul Paddock, a book which argues that by 1975 - six years from now - Famine will become a major world issue for which we will be quite unprepared.

Lectures will deal with such topics as hunger as an experience of the individual, malnutrition, food resources, population growth and control, international cooperation and American policy on the problems of hunger.

The first lecture will be made Feb. 14 by Prof. Alan Epstein of the University of Pennsylvania. The second lecture will be given March 7 by a representative of the World Bank who will discuss economic development policies in relation to the population explosion.

On his return from Pakistan General William H. Draper of the Population Crisis Committee will speak on March 14. Prof. Jean Mayer of Harvard University will speak March 11 at 8 p.m. in Millington Hall.

The symposium is open to juniors and seniors and students may enroll

Marshall-Wythe Symposium (Cont.)

in the course during two years for a maximum of two points credit. The examination is set for 4 p.m. May 16.

Students and faculty members are welcome to attend the lectures whether they are registered or not.

JUNIOR YEAR ABROAD PROGRAM

Applications are now being received for the College's Junior Year Abroad Program at the University of Exeter. The University will accept up to 6 students from William and Mary (beginning in October, 1969) in addition to one exchange scholarship student. The deadline for applications and letters of recommendation is Friday, March 14th.

Application may be made by any sophomore (1) who is enrolled as a full time student at the College, (2) who will have attained junior status by June, 1969, and (3) who carries a cumulative grade point average of 1.5 as of the end of the third semester of his college work.

A more detailed description of the Program and application forms are available either in the office of the Dean of the Faculty of Arts & Sciences or from Professor Beyer whose office is at the Honors Center.

An Information Meeting will be held in Room A, Student Center on Tuesday, February 11th, at 4:00 p.m.

SEMINAR SPEAKER

Dr. L. E. Mettler of North Carolina State University will speak on "Introgression in Animal Populations" at a seminar to be given by the Department of Biology, Monday, Feb. 10 at 4 p.m. in Millington Hall, Room 117.

INCREASE IN STUDENT WAGE RATES

Effective February 1, 1969, students engaged in part-time work in the various departments of the College will be paid as follows:

Undergraduate students	-	\$1.30 per hour
Graduate students	-	\$1.50 per hour

Please note that this scale applies to work done after February 1. Any late time sheets for January and earlier must be at the old rate.

PHYSICS COLLOQUIUM

A Colloquium will be held Friday, February 7, at 4:30 p.m. (coffee at 4:00 p.m.) in William Small Physical Laboratory (coffee will be served in the conference room) The speaker will be Dr. D. Harrington, Rutgers University. His subject will be "D-Wave Effects in High Energy Scattering from Deuterons."

FESTIVAL FILM SOCIETY OFFERS
"A SPRING MISCELLANY OF FILMS"

The Festival Film Society, jointly sponsored by the Departments of Fine Arts and Theatre and Speech are offering a nine-film program of international attractions for the second semester. Tickets are \$5.00.

Films will be shown in the auditorium of Andrews Hall at 8 p.m. (previews at 4 p.m. in Botetourt Gallery Theatre)

The program is as follows:

- | | |
|--|---|
| Monday, February 17
American | BEAT THE DEVIL - Script by Truman Capote; directed by John Huston. Bogart, Lorre, Greenstreet and other tough guys in a spoof of sex, adventure, crime and intrigue. |
| Saturday, March 8
Germany | KAMERADSCHAFT - An early sound film by German director Pabst, set in a Franco-German mining village. Shorts: Marcel Marceau |
| Monday, March 17
Greece | YOUNG APHRODITES - A mood-piece based upon ancient Greek legends. Short: W. C. Fields in <u>The Barber Shop</u> . |
| Thursday, March 27
Italy | BICYCLE THIEF - Classic de Sica realism of the Italian city in the late 40's. Short: <u>Super Up</u> . |
| Sunday, April 13
Poland/U.S. | REPULSON - Roman Polanski (<u>Knife in the Water</u> , <u>Rosemary's Baby</u>) directed by Catherine Deneuve. Short: To be announced. |
| Thursday, April 24
U.S. Underground | PORTRAIT OF JASON - Shirley Clarke's independent film production: a long, subject-to-subject interview with Jason, a black hustler from the demi-monde. Short: Red Grooms' <u>Flat Feet</u> (tentative) |
| Tuesday, April 29
Varied | ABSTRACTION AND EXPERIMENTAL - A selection of short films, early and late, illustrating the development of experimental films. |
| Wednesday, May 7 | LE BONHEUR - A lushly photographed recent film directed by Agnes Varda; a Gallic hymn to life. Short: <u>The Violinist</u> |
| Saturday, May 17
Japan | WOMAN IN THE DUNES - Teshigahara's haunting allegory probing fundamental questions of existence and the meaning of freedom. Shorts by Lotte Reiniger and Jiri Traka. |

- DEPARTMENTAL NEWS -

ECONOMICS

Leonard G. Schifrin, chairman of the Department of Economics has been appointed consultant to the Research and Statistics Division of the Social Security Administration, in the Department of Health, Education and Welfare. In that capacity he has recently completed a background study and research design for a newly-formed 10 member unit studying the procurement of pharmaceuticals by the Federal government.

Professor Schifrin will be the guest speaker at the City University Seminar on the Economics of Health, in New York City on February 17. He also will discuss the paper "Patents, Compulsory Licensing, Prices and Innovation" at the First Seminar on the Economics of Pharmaceutical Innovation, sponsored by the American University, in April.

GOVERNMENT

An article by Dr. Alan J. Ward reviewing the Johnson administration in perspective appeared in the Richmond Times-Dispatch on Sunday January 19.

- SWEM LIBRARY -

Mrs. Ilse Webb and Mrs. Mary Louise Cobb, Catalogers, attended the Midwinter meeting of the American Library Association in Washington last week. Mrs. Cobb is a member of the Association of College and Research Libraries Committee on Library Services of ALA.

William C. Pollard, Librarian, and Henry D. Grunder, Curator of Rare Books, attended the annual meeting of the Bibliographical Society of America held at the New York Historical Society in New York City on January 24.

The Reference Department has produced A GUIDE TO HISTORICAL MATERIALS IN THE SWEM LIBRARY.

This selected bibliography of reference works, with particular emphasis on Virginia history, is available gratis to interested persons.

WEEKLY CALENDAR FEB. 6 - 15.

Feb. 6, Thursday - Registration for Evening Blow Gymnasium 7 - 9 p.m.
College classes

Feb. 7, Friday - Second semester classes begin.

College Women's Club Tea **PBK D dge Room 4 p.m.

Symposium on "Psycho-Biology and Behavior" Sponsored jointly by
Departments of Psychology and Biology.

9:00 a.m. Welcome - Dr. Mitchell A. Byrd, Chairman,
Biology Department

9:05 a.m. INFORMATIONAL INTERACTION AND MATURATION,
Dr. J. McV. Hunt, Professor of Psychology and Education,
Psychological Development Laboratory, Department of
Psychology, University of Illinois.

9:55 a.m. Discussion. Moderator: Dr. Stanley B. Williams,
Chairman, Psychology Department.

10:40 a.m. TRANSDERMAL COMMUNICATION WITH THE BRAIN,
Dr. Joe M. R. Delgado, Professor of Physiology (Psy-
chiatry), Yale University School of Medicine.

2:00 p.m..CHEMICAL CODING OF BEHAVIOR IN THE BRAIN,
Dr. Neal E. Miller, Professor of Psychology, The
Rockefeller University.

2:50 p.m. Discussion. Moderator: Dr. Stanley B.
Williams, Chairman, Psychology Department.

3:40 p.m. MOLECULAR BASIS OF LONG TERM MEMORY -
A PROGRESS REPORT, Dr. William L. Byrne, Professor
and Chairman, Department of Biochemistry, College
of Basic Medical Sciences, University of Tennessee.

4:30 p.m. Discussion. Moderator: Dr. Robert E. L.
Black, Professor, Biology Department.

Feb. 8, Saturday - 276th Charter Day Blow Gymnasium 10:45 a.m.
Convocation
Principal Speaker--Dr. Robert Q. Marston,
Director of the National Institutes of Health.

Feb. 9, Sunday - Collegium Musicum Concert CC Ballroom 4 p.m.
Herman Reutter, Composer-Pianist with Oscar
McCullough, Baritone.

Students for Liberal Action CC Room C 7 p.m.

- Feb. 10, Monday - Address - "The Philosophy of Albert Schweitzer - Education for One World." CC Ballroom 8 p.m.
 Dr. Hans Rosenthal of the Albert Schweitzer Colleges. Sponsored by Honors Program and Campus Ministers.
- AAUP PBK Dodge Room 8 p.m.
- Feb. 11, Tuesday - Christian Science Service Wren Chapel 6:15 p.m.
- Feb. 12, Wednesday - Circle K CC Room C 7 p.m.
 Anthropology Club CC Room A 7 p.m.
- Feb. 14, Friday - Benefit Concert. PBK 8 p.m.
 Soloist, Cleveland Francis,
 Composer-folk singer, graduate student at W & M.
- Feb. 15, Saturday - W & M Concert Series PBK 8:30 p.m.
 Presents Julian Bream, guitarist.
 Single admission tickets will be available
 at \$3.00 each:

**Phi Beta Kappa Hall

COLLEAGUE

College of William and Mary Faculty Newsletter

Published by Information Office
Second Floor, Ewell
Ext. 225-226

February 13, 1969

- DEAN FOWLER RECEIVES AWARD -

Dr. Harold Lees Fowler, Dean of the Faculty of Arts and Sciences received the 1969 Thomas Jefferson Award, at the 276th Charter Day convocation, held Saturday in Blow gymnasium.

Dr. Fowler, who has completed nearly 35 years of teaching and administrative work at the college was cited as the man who "exemplifies through his life, his character and his influence, the principles and ideals of Thomas Jefferson."

The award was presented by Walter Mason, rector of the Board of Visitors who praised Dr. Fowler's "deep devotion and loyalty to the College of William and Mary."

"He has worked tirelessly," said Mason "to strengthen the quality and scholarship of the faculty . . . encouraging good teaching and scholarly research.

"His careful surveillance over the curriculum and his interest in the development of each of the departments and his firm adherence to high standards have left their marks on the academic life of the college."

Dean Fowler joined the William and Mary faculty in 1934 as assistant professor of history. He became associate professor in 1938 and professor in 1946. He was made chairman of the department of history in 1959 and was appointed dean of the faculty in 1964.

- "The Hooder Behooded" -

Dr. William G. Guy Chancellor Professor emeritus and former chairman of the Department of Chemistry, has hooded more than 50 recipients of honorary degrees including presidents, governors, senators, scholars and educators during the past 25 years. Saturday Dr. Guy received the hood of an honorary doctor of science degree given him by the College of William and Mary.

As chief marshal and assistant marshal at all college convocations and ceremonies for more than two decades, Dr. Guy has helped place the doctoral hood over many distinguished heads. Saturday there was an air of excitement as Dr. Guy stepped forward to receive his degree. One faculty member remarked later "Today was a significant time. It was a time when the college recognized one of its own."

Although a senior professor for many years, entitled to pick his courses, Dr. Guy taught the introductory freshman chemistry class for more than four decades. Concerned that each student receive good instruction Dr. Guy maintained that this was especially true at the freshman level.

- Memorial Plaques -

It was announced at Charter Day ceremonies that two former professors will be remembered by the college with memorial plaques to be placed in the new John Millington Hall of Life Sciences.

The late Dr. Donald W. Davis, professor and head of the Department of Biology from 1916 to 1950 will be honored along with the late Grace Josephine Blank, who was professor of biology from 1931 until 1965.

The microbiology complex in the building will be named in memory of Prof. Blank and a plaque citing Dr. Davis' association with the college will be placed in the foyer of the building.

- Main Speaker -

Dr. Robert Q. Marston, Director of the National Institutes of Health was main speaker at the convocation and also attended dedication ceremonies at the life sciences building, John Millington Hall.

A native of Toano, Marston spoke of the role of the medical profession in the future and said that the new life sciences building would "be a doorway into all the health fields for those who seek to serve their fellow man in these professions."

Dr. Marston, an alumnus of Virginia Military Institute, received his medical education at the Medical College of Virginia. He received an honorary doctor of science degree from William and Mary at the Charter Day convocation.

CORRECTION

In the February 6 edition of COLLEAGUE the amount of the stipend for the Thomas Jefferson Award was indicated to be \$1,000. This is incorrect. The amount is \$500 which constitutes the annual income from the original gift of Robert Earl McConnell of \$10,000 in endowing the award.

BARKA AND SHERMAN APPOINTED
ACTING CHAIRMEN FOR SEMESTER

Harold L. Fowler, Dean of the Faculty of Arts and Sciences has announced the appointment of two Acting Department Chairmen for the Spring semester.

Professor Richard B. Sherman will be acting chairman of the Department of History and Professor Norman F. Barka will be acting chairman of the Department of Anthropology.

Professor Ludwell Johnson, chairman of the Department of History, is on leave this semester doing research both on campus and in Washington, D.C., on "The Influence of Party Politics and Pressure Groups on the Conduct of the Civil War." His work is being conducted under a grant awarded by the American Council of Learned Societies.

Dr. Nathan Altshuler, chairman of the Department of Anthropology left recently for Guyana, South America where he will spend six or seven months studying health and nutrition among the Indian tribes in the Rupununi District of the Interior.

This field study is being funded under the College Science Improvement Program made possible by a grant to the College of \$245,600 by the National Science Foundation. The major curriculum study and enrichment program in the departments

Barka and Sherman (Cont.)

of economics, government, psychology, sociology and anthropology will take three years to complete.

AUTHOR JOSEPH HELLER
ON CAMPUS FEB. 20-21

Author Joseph Heller will be on campus Feb. 20 and 21, as part of the College-Wide Program of Readings and Lectures.

Mr. Heller, author of Catch-22 and a new play called "We Bombed in New Haven" will read from his work, including excerpts from a new novel he is working on, at Phi Beta Kappa Hall at 7:30 p.m., Feb. 20. This is a change from the previously announced time of 7 p.m. This program is open to the public.

A reception will be held immediately following the program in the Dodge Room of Phi Beta Kappa.

There will be many opportunities for both students and faculty to meet with Mr. Heller during his visit here. He will be available to students Friday morning at an informal session to be held in the Wigwam from 9:30 to 11 a.m. He will visit classes in several disciplines and several upperclass students who participated in the orientation sessions last fall at the outset of the entire program will be invited to have dinner with the author. Heller will also meet socially with members of the faculty during his stay.

Scott Donaldson, assistant professor of English is general chairman of the College-Wide Program of Readings and Lectures which this semester will also bring to the campus three other distinguished authors. J. Glenn Gray, author of The Warriors; Michael Harrington, author of The Other America; and W. N. Schoenfeld, co-author of Principles of Psychology.

"SOUL FOLK IN OUR TIME"
IS THEME OF FRIDAY CONCERT

The Campus Ministers United will sponsor a concert Friday evening, "Soul Folk in Our Times" which will feature graduate students Cleveland Francis and David Gapp.

The concert will be held in Phi Beta Kappa Hall beginning at 8:30 p.m. and is open to the public, free of charge.

The concert will include a number of contemporary folk songs as well as a collection of soul-folk songs written by Francis, a singer and guitarist.

"The Willow Tree" and "It's Got To Get Better" two original works recently recorded by Francis, will be included on the program.

Cleveland and Gapp will be accompanied in some of their numbers by members of a group called "Soul-Folk" composed of Karen Ely and Steve Abramson, undergraduates at the College; Bill McConnell and Mary Morden, graduate students, and Dr. Bruce Grant, assistant professor in the Department of Biology.

Francis and Gapp who are both graduate students in the Department of Biology have appeared together in concerts in the community as well as over WAVY television. Friday's concert will be the final one for the two since Francis will be leaving in June to enter medical school and Gapp will remain at William and Mary to complete work on his master's degree for August graduation. Francis hopes to attend the Medical College of Virginia.

DR. FUNSTEN TO DIRECT
SUMMER RESEARCH PLAN

The Atomic Energy Commission has given a grant of \$10,088 to support research participation by faculty members at small colleges. Under the plan, which is being directed by Dr. H. O. Funsten of the Department of Physics, seven physicists who teach at institutions with limited research facilities will spend eight weeks here during the summer. They will be able to participate in research in the department in the general areas of atomic and molecular, nuclear, plasma, and solid state physics.

BIOLOGY SEMINAR

Professor Elsie Quarterman of the Department of General Biology of Vanderbilt University will present a seminar at 4 p.m., Monday, February 17, in the Millington Hall of Life Sciences. Dr. Quarterman, an authority on natural plant communities of the Southeast, will speak to faculty and students of the Department of Biology on "Natural Growth Inhibitors in Cedar Glade Plant Communities". All interested persons are invited to attend.

PHYSICS DEPARTMENT SCHEDULES
COLLOQUIUM AND SEMINAR

William J. Kossler, of Massachusetts Institute of Technology will be guest speaker at a Physics Colloquium to be held Friday, February 14 at 4:30 p.m. in Room 109 of William Small Laboratory. Coffee will be served in the conference room at 4 p.m.

Dr. Kossler will take as his topic "Gamma-Ray Transition Rates in the Nuclear f $7/2$ Shell."

* * * * *

"Computer Simulation of Landau Damping and Plasma Wave Echoes" will be the topic discussed by Tilghman Broadus at a Physics Department seminar scheduled for Tuesday, February 18 at 4:30 p.m. in Room 109 of William Small Physical Laboratory.

SORORITY AND FRATERNITY SPONSOR
SUCCESSFUL BLOODMOBILE VISIT

The donation of 148 pints of blood from the college Monday helped put the quota of the Red Cross Bloodmobile over the top.

The highly successful day was especially joyous for the Williamsburg-James City Red Cross for it marked the first time since last July that the current blood year quota was over the top. A quota of 135 pints is set for each of the bloodmobiles and Monday's turnout, 107 more than the single visit quota, gave the local chapter a head start for the first time this year.

The Bloodmobile Monday was sponsored by Kappa Sigma fraternity and the Gamma Phi Beta sorority. A total of 22 students joined with 22 local residents to work as volunteers during the day.

Sorority and Fraternity sponsor (Cont.)

Besides contributions from the college, the bloodmobile received 23 pints from Colonial Williamsburg and 22 from Dow Badische.

"WILLIAM & MARY THEATRE: A CHRONICLE"
SALES PROVIDE FUNDS FOR SCHOLARSHIP

Gifts and royalties amounting to over \$1,000 have been received for the special fund labelled "A Chronicle" which has been earmarked for scholarships in the William and Mary Theatre.

The fund has been set up to receive money from the sale of "The William and Mary Theatre - A Chronicle" edited by Miss Althea Hunt which was introduced at a publication party on the stage of Phi Beta Kappa Hall during homecoming festivities last year.

Miss Hunt, first director of the William and Mary Theatre who has retired from the faculty, has received many comments about the book which is made up of personal recollections of life in the college theatre by former students.

Some of the letters to the editor have contained the following comments:

" . . . I stayed up until 3 a.m. reading it . . . I love it, and will have to read an re-read.

" . . . It looks beautiful, it feels nice in the hands and it's fascinating to read.

"The printer has done an excellent job . . . The book looks as good as any I ever saw . . .

" . . . I offer a major criticism. Not nearly enough emphasis is placed on the backstage personnel: technical directors, lighting men, fly men, grips, carpenters, prop men, seamstresses et cetera. Without their contribution there would have been no theatre . . .

"Tell Mr. Scammon I thought his (chapter) was delightful done . . . Also tell Mr. Thorne that his little sketches were an inspired idea . . .

" . . . It is a fine book that makes fascinating reading for anyone who has ever been active in college theatre anywhere . . ."

ANNIVERSARY MEDALLION
MAY BE REPLACED

President Richard M. Nixon heads the list of VIPs who have received one of the special 275th Anniversary Medallions which during the past year have been presented to some 80 persons.

Nixon received the medallion during a campaign visit to Williamsburg in October when he spoke in the Wren Building.

The medallion, encased in plexiglass, was struck by a Boston, Mass., firm from an original designed by Carl Roseberg, professor of fine arts, at the request to the Society of the Alumni. It was presented to give a token remembrance of the college to distinguished speakers and to symbolize the college's gratitude to others who has made major contributions to William and Mary during the year and before.

With the close of the 275th anniversary year, the Society of the Alumni has under consideration having additional medallions made, but without the reference to the anniversary, for special presentations in future years.

JULIAN BREAM CONCERT SET FOR SATURDAY

Julian Bream, acknowledged today as one of the masters of the classical guitar and the unrivalled interpreter of the lute, will be heard here Saturday, February 15, as part of the current William and Mary Concert series.

The concert will be held in Phi Beta Kappa Memorial Hall beginning at 8:30 p.m. Individual tickets will be available at the box office at \$3.00 each.

Now 34, Bream is making his thirteenth tour of the United States. He was born in London in 1933 and showed a positive interest in the guitar at the age of eleven. Dr. Boris Perrot, President of the Society of Guitarists, was his teacher and during the next few years Bream also studied the piano, harmony and counterpoint at the Royal College of Music, London, where he was awarded a scholarship.

In 1945 Perrot brought his student to Andres Segovia who instructed him and greatly encouraged his career. Bream made his professional debut in 1947 in Cheltenham, England and two years later gave his first London recital at Cowdray Hall. In 1958 S. Hurok brought him to the United States where his Town Hall debut resulted in the first of many sold-out Transcontinental tours.

For his Williamsburg concert Bream has selected a collection of lute music from the sixteenth century including "Old Medley" by John Johnson; "Fantasia" by Robert Johnson; "Rockington Pound" and "The Woods so Wild" by Francis Cutting; "Fantasia" by Gregory Huet; "Pavan" by Thomas Morley; "Kemp's Jig", Anonymous; and "Mignarda" and "Fantasia" by John Dowland.

The second portion of his concert will be devoted to guitar music which will include Mauro Giuliani's "Overture in A, opus 61"; "Sonata in A" by Carl Kohaut; two Preludes, "La Fille aux cheveux de lin" and "Minstrels" by Claude Debussy; "Introduction and Allegro, opus 14" by Fernando Sor; "Impromptus" (1968) by Richard Rodney Bennett; and "Sarabande Lointaine" and "Fandango", two pieces by Joaquin Rodrigo.

BALCOMB GREENE TO DISCUSS
"THE EFFECT OF PUBLICITY ON ART"

Balcomb Greene, an artist and former professor at Carnegie Institute of Technology and Dartmouth, will give a public lecture at the College on Friday, February 21 as part of the current Visiting Scholars Lecture Series.

Greene, who will take as his topic "The Effect of Publicity on Art," will speak in the Campus Center Little Theatre at 8 p.m.

One-man shows by Greene have been held at the Pittsburgh Arts and Crafts Center, the Bertha Schaefer Gallery, American University, American Embassy in Paris, Whitney Museum, Saidenburg Gallery, Feingarten Galleries and others. He has paintings in the permanent collections of the Museum of Modern Art, the Whitney Museum, Guggenheim Museum and the Metropolitan Museum.

Greene's visit to the college has been arranged through the University Center in Virginia, which lists William and Mary as one of its 27 constituent institutions.

EXHIBITION OF GRAPHICS AT ANDREWS GALLERY

An exhibition of graphics by Robert O. Hodgell, Artist-in-Residence at Florida Presbyterian College, St. Petersburg, is on display in the Andrews Gallery.

Exhibition of Graphics (Cont.)

The artist, Hodgell, will be on campus, February 17 and 18 and will be in the gallery from 3:30 to 5 p.m., February 18. During his campus visit he will also visit classes in the Fine Arts Department.

One-man shows of Hodgell's work have been hung in many colleges and universities but he is better known through reproductions of his prints appearing in Motive magazine during the last 25 years. He works in a variety of media but has concentrated on lineoleum block prints.

He works are included in collections of the Library of Congress, Metropolitan Museum of Art, Des Moines Art Center, Joslyn Art Museum, University of Wisconsin, Kansas State College, and many others. Much of his work is satirical; most of it is related to religious and social concerns.

Hodgell was born of school teacher parents in Mankato, Kansas and began his interest in art following graduation from high school when he met John Steuart Curry who was painting the murals in the Kansas State Capitol building. Curry took him on as his apprentice. When Curry returned to Wisconsin University where he was Artist-in-Residence, Hodgell went along on an athletic scholarship, enrolled in art, and continued as Curry's studio and mural assistant until the latter's death in 1946.

He has also been a free-lance book and magazine illustrator and was in Pakistan under UNESCO as an "expert" in book illustrations.

PREVIEW OF CALENDAR EVENTS
WHAT'S AHEAD IN MARCH

March is a good month for the Welsh (St. David's Day is March 1) and for the Irish (St. Patrick's Day is March 17) - and everyone else judging from the variety of events which are coming up next month.

The bi-centennial of Goronwy Owen, the Black Bard of Anglesea, Feb. 28 and March 1 will include lectures by Welsh playwright and scholar John Gwilym Jones and Joseph P. Clancy, chairman of the Department of English at Marymount College, New York; Welsh harp music by Miss Marian Harding, poetry readings in Welsh and English; a slide program, a plaque placing, and book display.

The second meeting of the Marshall Wythe Symposium on Hunger will be held March 7, the lecture to be given by a representative of the World Bank.

Dr. John H. Hallowell, chairman of the political science department at Duke University will be on campus March 10 to lecture on "The Challenge of Existentialism" as part of the current Visiting Scholars Lecture Series.

March 13, James Sloss Ackerman, chairman of the Fine Arts Department at Harvard will lecture under the auspices of the same series on "The Demise of the Avant-Garde."

Dr. Jean Mayer, internationally known authority on nutrition will visit William and Mary March 10 and 11. He will lecture at the Marshall-Wythe Symposium on Hunger and at the Phi Beta Kappa Visiting Scholar program.

The William and Mary Theatre production of "The Investigation" is scheduled for March 13, 14 and 15.

A concert by the Norfolk Symphony Orchestra under the direction Russell Stanger is set for March 16 in Phi Beta Kappa Hall. The Wednesday Morning Music Club and Friends of the Library are sponsoring agents.

Dr. F. Donald Truesdell, chairman of the Department of Music will present a recital of piano music, March 18.

Preview of Calendar Events (Cont.)

The William and Mary Theatre will sponsor a lecture by the renowned theatrical producer Tyrone Guthrie on March 20.

J. Glenn Gray, author of *The Warriors* will be on campus March 23-25. He will be the second guest lecturer in the College-Wide Program of Readings and Lectures this semester. Michael Harrington, author of *The Other America* is expected April 9 - 10; and W. N. Schoenfeld, "disciple" of B. F. Skinner, author of *Science and Human Behavior* will be here May 8 and 9.

The Festival Film Society has programs planned for March 8, 17 and 27.

This list is by no means a complete calendar for March. It represents some of the outstanding events planned for the month, and is intended as a preview of things to come.

- DEPARTMENTAL NEWS -BIOLOGY

Dr. Stewart Ware has been named co-editor (with Dr. A. M. Harvill, Jr., Longwood College) of the Newsletter, a quarterly publication of the Flora Committee of the Virginia Academy of Science. The Newsletter, distributed mainly among the field botanists of Virginia, is a medium for short notes on the flora and vegetation of the state. The Newsletter begins its third year of publication with an expanded coverage and a new format. Dr. G. W. Hall, Department of Biology, is William & Mary's representative on the Flora Committee, which publishes the lithographed quarterly.

MATHEMATICS

On February 5, Professor Thomas L. Reynolds was an invited speaker at the winter meeting of the Tidewater Council of Teachers of Mathematics, held in Virginia Beach. The topic of his speech was "Fractions in a Modular System".

Professors O'Neil, Prosl and Reynolds attended the annual meeting of the American Mathematical Society, held in New Orleans, La., January 23-26.

PHYSICS

Numerous members of the Physics Department attended the annual meeting of the American Physical Society in New York February 3 - 6. The following talks were presented:

D(p, 2p) at 600 MeV.

C. F. Perdrisat (College of William and Mary), P. C. Gugelot (University of Virginia), L. W. Swenson (College of William and Mary), E. T. Boschitz, T. S. Vincent, and W. K. Roberts (NASA-Lewis Research Center).

Bull. Am. Phys. Soc. 14, 22 (1969).

Physics (Cont.)

Gamma Rays from π^- Reactions on C^{12} .

H. O. Funsten, B. J. Lieb (College of William and Mary),
and K. H. Kim (NASA Langley AFB)
Bull. Am. Phys. Soc. 14, 39 (1969).

A Model for Quantum-Mechanical Measurement.

John L. McKnight (College of William and Mary)
Bull. Am. Phys. Soc. 14, 59 (1969).

Knight Shifts in Cadmium Alloys.

H. E. Schone and R. S. Slocum (College of William and Mary)
Bull. Am. Phys. Soc. 14, 64 (1969).

RELIGION

James C. Livingston, Chairman of the Department of Religion is editing and writing the Introduction for a new edition of Matthew Arnold's Literature and Dogma. The book will be published later this year by Frederick Ungar in the "Milestones of Modern Thought" series.

SWEM LIBRARY

Mr. James H. Renz, Associate Librarian, whose long time areas of research concern both Richard Wagner and Hart Crane, has recently completed the following project:

Crane, Hart, 1899-1932.

Voyages I, II, III, IV, V, VI. Phonotape
Williamsburg, Va., 1969.

1 reel (7 in.) $7\frac{1}{2}$ in. per sec. stereophonic.

James Henry Renz, narrator; background music
by Richard Wagner.

Recorded at the College of William and Mary,
January 27, 1969. (Audio visual Dept. Tape No. 348)

This work will be sent to Dr. R.W. B. Lewis of Yale University and a number of other scholars. It is also being sent to WCMW for a future presentation. The work is on deposit and has been catalogued by the Earl Gregg Swem Library.

It is also being announced that the papers concerning the first production of RICHARD WAGNER AND THE MUSIC DRAMA, a series of five programs presented by WCMW during the Spring of 1967, have now been bound and catalogued and are in the Rare Book Room of the Library. Mr. Renz was faculty advisor for this production.

PHILOSOPHY

Professor John Post of Vanderbilt University will present a paper to a meeting of the Philosophy Club on Tuesday, February 18, at 8 p.m. in Seminar Room 2 in Swem Library.

The topic is "The Modal Liar as an Antinomy for Quine's Pragmatism, Popper's Rationality, and Pyrrhonism."

Coffee and informal discussion will follow. All are invited.

NORFOLK SYMPHONY COMING - TICKETS NOW ON SALE

Again this year, the Wednesday Morning Music Club and the Friends of the Library will sponsor a performance of the Norfolk Symphony Orchestra under the direction of Russell Stanger, Sunday March 16 in Phi Beta Kappa Hall at 8:30 p.m.

Tickets are \$3 each and may be obtained by calling Mrs. Frank McDonald, 229-8587. There are no reserved seats. Student tickets will available at \$2 each.

WEEKLY CALENDAR FEB. 12 - 21.

<u>Feb. 12 - 21,</u>	Graphics display - Andrews Gallery Robert O. Hodgell Artist-in-residence Florida Presbyterian College

COLLEAGUE

College of William and Mary Faculty Newsletter

Published by Information Office
Second Floor, Ewell
Ext. 225-226

February 20, 1969

SUMMER RESEARCH GRANTS

Summer Research grants have been awarded by the College and the Society of the Alumni to 18 members of the faculty.

Three grants have been funded by the Society of the Alumni. Recipients of these grants are Mitchell A. Byrd, chairman of the Department of Biology; George W. Grayson, Jr., Assistant Professor of Government; and James N. McCord, Jr., Assistant Professor of History.

Dr. Byrd will conduct research into the breeding ecology of colonial birds on the Eastern Shore of Virginia. Dr. Grayson will undertake an analysis of the Frei administration in Chile. Professor McCord has taken as his research topic, "Lord Holland and the politics of the Whig aristocracy."

Research grants from the College were awarded to 15 members of the faculty. Names and study projects of the recipients are as follows:

James R. Beeler, Associate Professor, Modern Languages - An edition of La Rhetorique Francoise.

Garnett R. Brooks, Associate Professor, Biology - Population ecology of an iguanid lizard.

William S. Cobb, Jr., Assistant Professor, Philosophy - A new interpretation of Plato's Doctrine of Recollection.

Nancy Farriss, Assistant Professor, History - Church wealth and economic reform in Yucatan, 1750-1810.

Philip J. Funigiello, Assistant Professor, History - An analysis of the New Deal's power policy, 1933-1941.

Bruce H. Goodwin, Associate Professor, Geology - Structural details and correlation of the hyls meta-volcanics.

Ludwell H. Johnson, Chairman, Department of History - The influence of pressure groups and party politics on the Civil War.

Chonghan Kim, Associate Professor, Government - The Korean question in the United Nations.

James D. Kornwolf, Assistant Professor, Fine Arts - American domestic architecture and the arts and crafts movement in England, 1880-1900.

Lewis W. Leadbeater, Associate Professor, Ancient Languages - Iamblichus' de Myseteriis: a commentary and translation.

Michael J. Lieb, Assistant Professor, English - A reading of Milton's Of Reformation.

Robert P. Maccubbin, Assistant Professor, English - Augustan portraits: painting and poetry.

Martin C. Mathes, Associate Professor, Biology - A study of the development potential of plant cells isolated from selected woody species.

Summer Research Grants (Cont.)

Melvyn D. Schiavelli, Assistant Professor, Chemistry - The solvolysis reaction of vinyl halides.

David W. Thompson, Assistant Professor, Chemistry - Preparation and structure of six coordinate silicon compounds.

JONES AND HEARN
ARE HUMANITIES FELLOWS

Dr. J. Ward Jones, chairman of the Department of Ancient Languages and Thomas K. Hearn, Associate Professor in the Department of Philosophy, will be on leave next year to conduct research under the Cooperative Program in the Humanities at Duke University and the University of North Carolina.

Dr. Jones hopes to complete work on a new critical edition of Bernard Silvestris' commentary on the Aeneid of Vergil.

Silvestris was a famous schoolmaster who taught at Tours during the 12th century and his commentary is the most famous allegorical commentary on Vergil to survive from the Middle Ages.

Dr. Jones has been at work on this project for the past ten years and his research has included trips to Paris and Cracow, Poland, which were financed in part by College grants. His text will be accompanied by an English translation.

Dr. Hearn's research will be concerned with a re-evaluation of the moral philosophy of David Hume. He will try to evaluate Hume's moral philosophy and relate it to contemporary thinking in that field. He hopes to vindicate positions by Hume which have been misunderstood and criticized.

Since the Cooperative Program in the Humanities was started in 1964, eight members of the faculty have been designated as Humanities Fellows: Leon Golden (1964-65); William Godshalk (1965-66); John Lachs (1965-66); Dietrich Orlow (1966-67); and David Jenkins and James Leach (1967-67).

AUTHOR HELLER HERE ON CAMPUS

Joseph Heller, author of Catch-22, will read from his novel and from a new novel-in-progress 7:30 p.m. Thursday, Feb. 20, in Phi Beta Kappa hall as the first visitor in the College-wide Reading Program. A reception in the Dodge room will follow the reading. On Friday morning, from 9:30 a.m. to 11 a.m., Mr. Heller will hold an informal coffee hour in the Wigwam. All members of the college community are invited to attend these occasions. Please tell your students. - Scott Donaldson, chairman, College-Wide Program of Readings and Lectures.

SEVEN STUDENTS WIN HONORS
IN WOODROW WILSON COMPETITION

Seven seniors have been named as Woodrow Wilson National Fellowship designates, the highest number ever recorded at William and Mary.

Seven Students Win Honors (Cont.)

According for Dr. Frank B. Evans, of the Department of English and Woodrow Wilson advisor on campus, the designates are included in the total of 1,100 students from across the country who won honors. Some 11,704 students entered the competition.

William and Mary designates and their majors are as follows: Judy E. Banks, Spanish; John E. Boswell, history; Arthur L. Bowling, Jr., physics; J. Barry Cammarata, physics; Joan L. Flynn, political science; Richard J. Hoffman, zoology; and Caroline E. Vaiden, medieval studies.

The Woodrow Wilson National Fellowship Foundation will send the names of all designates to all graduate student deans in the U.S. and Canada with the recommendation that the schools make fellowship awards to these students.

PHYSICS DEPARTMENT -
LECTURE, COLLOQUIUM

The first and third Thursday of each month during the Spring semester, a member of the Physics Department will conduct an informal lecture and discussion period on a topic of current interest to physics students.

At 7 p.m. tonight, Feb. 20, Prof. Hans von Baeyer will conduct a program on "The Hunting of The Quark: The Search for the Ultimate Constituents of Matter."

The meeting will be held in Room 109 of the William Small Physics Laboratory. All are invited to attend.

* * * *

Dr. J. Weneser of the Brookhaven National Laboratory will speak on "Nuclear Rotational Method" tomorrow at a Physics colloquium to be held at 4:30 p.m. in Room 109 of the Small Physics Building. Coffee will be served at 4 p.m. in the conference room.

CAMPUS MINISTERS PLAN
FACTUAL PROGRAMS ON DRUGS

The campus Ministers United have planned two programs on drugs and drug use which they are offering as strictly informational events. There will be no attempt to moralize or preach.

The Rev. Tom Mainor of the Campus Ministers United, has said that the programs are planned to inform and hopefully to serve as a basis for future informal discussions with groups of students on campus.

The first program will be held Thursday, February 27. A film on LSD will be shown in Millington Hall auditorium at 7:30 p.m. A commentary on the film will be given by Dr. George Bright of the Medical College of Virginia, Department of Pediatrics and Adolescent Medicine. Dr. Bright has been working extensively in the area of drugs and drug addiction and will be available for questions following the film.

* * * *

Campus Ministers Plan (Cont.)

A further discussion on drugs will be held in Millington Hall, March 6 at 7:30 p.m. when Dr. Russell P. Norman, director of the Counseling office and Dr. Glenn D. Shean, Assistant Professor of Psychology, and others, will take up the psychological dependency of drugs and the ramifications of drug use. Here again, said Mainor, the program is aimed at presenting basic hard facts about drug use and the legal aspects involved.

* * * *

Also coming up under sponsorship of the Campus Ministers United - "An Experience in Jazz" with the Howard Hanger trip in the Campus Center Ballroom, March 2 at 8 p.m.

FORMER FACULTY MEMBER
TO BE HONORED MARCH 1

Attractive programs have been printed for the two-day program which will mark the bicentennial of the Welsh Bard, Goronwy Owen, who was master of the Grammar School for two years beginning in 1758.

The celebration, which has been planned by David Clay Jenkins of the English Department, opens Friday, Feb. 28 with an address by Joseph P. Clancy, head of the English Department at Marymount Manhattan College on the "Poetry of the Welsh Bards." Professor Clancy was chairman of the Celtic Section of the Modern Languages Association last year. His talk will include readings of a few of his many translations from the Welsh.

Saturday, the installation of the Cymmrodorion Plaque in the new Goronwy Owen Poetry Reading Room in the library will be held at 4 p.m. A tea and reception will follow in the Botetourt Gallery.

The major address of the day will be given by John Gwilym Jones, distinguished Welsh scholar and playwright who will speak on "The Poetry of Goronwy Owen." Earlier in the day there will be a recital of Welsh music by Miss Marian Harding, harpist, and others at 3 p.m., a poetry reading at 11 a.m., and a program of slides and commentary on Goronwy Owen in Anglesea, England and Virginia at 2 p.m..

SUPPORT ASKED FOR
CAMPUS CHEST DRIVE

Faculty help is solicited to help raise the \$1,200 set for this year's Campus Chest Drive. The money will be used to buy a bus to be put at the disposal of the City of Williamsburg for use primarily in youth activities.

Faculty members may contribute by leaving an envelope in the student Association Box in James Blair or by sending a contribution to Linda Lotz or Anne Bradstreet in care of the Student Association Office.

NEW MESON CHANNEL
IS PUT TO USE AT SREL

A new million-dollar meson channel installed last fall at the National Aeronautics and Space Administration's Space Radiation Effects Laboratory here has been given preliminary tests and put to use in experiments.

The channel, a 40-ton unit of large magnets, is one of three of its type in the world, according to its designer, Dr. Herbert O. Funsten, assistant director of SREL and professor of physics at the College of William and Mary. The other two are in Geneva, Switzerland and at the University of Chicago.

The meson channel is built to efficiently transmit particles produced by a 600 million volt electron velt synchrocyclotron, through a protective shield, into an area where experimenters set up their equipment for nuclear research. The particles transmitted are electrically charged, and thus can be steered into a hollow pipe 11 inches in diameter and 30 feet long, within which complex magnetic guide fields create forces which direct the particles along their way. Twenty-seven magnets produce these fields, and at full operating level the magnets consume more than one megawatt of electrical power.

The particles transmitted are of two types, pions and muons. The pions are created when the proton beam inside the cyclotron strikes a carbon or metal target, somewhat in the way that light is produced when a stream of electrical current strikes the gas atoms inside a neon tube. (However, it takes a cyclotron or other powerful accelerator to make pions.)

The pions, once created, survive only a few hundred millionths of a second before they spontaneously change into other particles, including the muon, which then lives for two millionths of a second before decaying into still other particles. The channel thus conducts a mixed beam of pions and muons into the experimental apparatus.

The \$15,000,000 SREL facility regularly operates 24 hours a day, seven days a week, and receives more requests for use of the cyclotron and its other smaller accelerators than can be handled on this schedule. The new channel will permit running more than one experiment at a time, and will thus help meet the heavy demand.

"The channel is designed for as much flexibility as possible," Dr. Funsten said. "It is even possible to re-orient the entire channel by moving its support system so that it angles through the shield wall in a new direction. It would then transmit mesons of a different velocity than at present."

Dr. Funsten began designing the channel during the summer of 1964, under a NASA grant. He finished the design in the summer of 1967, and it then required a year to construct the unit.

A team of 13 physicists from William and Mary, Virginia Polytechnic Institute, University of Virginia and Hampton Institute, conducted the preliminary test of the meson unit under Dr. K. Gotow of VPI. They found that the beam produced by the channel was five times better than results of the University of Chicago's unit, and somewhat better than the one in Geneva, Switzerland.

The channel is already in active use by experimenters, and early this spring additional tests will be performed in an attempt to boost its performance still higher, Dr. Funsten said.

BALCOMB GREENE LECTURE
RESET IN ANDREWS 101

Because of a conflict of events, the public lecture by Balcomb Greene on Friday, February 21, has been moved from the Campus Center Little Theatre to Andrews Fine Arts Building.

Greene, an artist and former professor at Carnegie Institute of Technology and Dartmouth, will lecture on "The Effects of Publicity on Art" in Room 101, Andrews Fine Arts Building, beginning at 8 p.m.

FACULTY RECITAL PLANNED
BY MRS. BETTY LYNNE CATRON

The Department of Music will present Betty Lynne Catron, piano, in a faculty recital Friday, February 21, at 8:15 p.m. in Phi Beta Kappa Memorial auditorium.

Mrs. Catron has selected for her concert Partita 1, B-Flat Major by Bach; Sonata, No. 13, Opus 27, No. 1 by Beethoven; Faschingseschaak aus Wien by Schumann and several pieces by Bela Bartok.

Mrs. Catron is a lecturer in the Department of Music teaching piano. She also teaches privately at home and serves as organist for Trinity Lutheran Church.

She earned a Bachelor of Music, magna cum laude, and a Master of Music from Millikin University, Decatur, Ill. Post graduate work followed at Southern Illinois University at Carbondale. She has taught piano, organ and music literature variously at Lincoln College, Lincoln, Ill., and Millikin. She has given recitals in Decatur and Carbondale.

Mrs. Catron is a member of two music fraternities: the national honorary Pi Kappa Lambda and the women's professional, Sigma Alpha Iota. She is also a member of two scholastic fraternities, the national honorary Phi Kappa Phi and the women's honorary Pi Mu Theta.

SEMINAR IN MARINE SCIENCE

Virginia Institute of Marine Science at Gloucester Point has announced that a seminar will be held 3:30 p.m. Friday, February 21, at the former Beach Club, Gloucester Point, with a discussion of: "Tidal Marsh Studies in Delaware" by Dr. Franklin Daiber, Director, Marine Laboratories, University of Delaware.

Refreshments will be served. The Beach Club is at the foot of Route 1208 (underneath the York River Bridge).

JAPANESE VIOLINIST TO GIVE CONCERT
IN PHI BETA KAPPA HALL, FEB. 27.

Takako Nishizaki, talented young Japanese violinist, will be heard in concert Thursday, February 27 at 8:15 p.m. in the Campus Center ballroom.

Miss Nishizaki's concert is part of the current Collegium Musicum series. For her concert Miss Nishizaki has chosen Sonata in A Major by Vivaldi;

Japanese Violinist to Give Concert (Cont.)

Adagio and Fuge from Sonata in G major by Bach; Havanaise by Saint-Saens; Sonata, Opus 30 in C Minor by Beethoven; Nigun by Bloch; and Polonaise Brilliante, No. 2 by Wieniawski. Piano accompanist will be Elizabeth Wright.

Miss Nishizaki was born in Nagoya, Japan and performed as a child prodigy in Tokyo. Her father was her first teacher, and since he was a Suzuki disciple, it was quite natural for Miss Nishizaki to become a Suzuki child violinist.

She later studied at the Toho School in Japan for two years and was the pupil of Joseph Fuchs at the Julliard School of Music. As one of the most gifted Julliard students her studies were made there under a complete scholarship. She won the Julliard's Kreisler Scholarship in 1966.

Petite and attractive, the young violinist has been praised by music critics for her excellent technique and splended musicianship.

DEBATE TEAMS ON THE ROADHEAD FOR ANNAPOLIS TOMORROW

A team of William and Mary debaters won five and lost three rounds at the Dartmouth College Tournament in Hanover, N. H., over the weekend.

The team included John Morello and Miss Kathy Shirley. Their record followed up a six wins - two losses record compiled at the Northwestern University Tournament in Evanston, Ill., the weekend before by Morello and Dean Hewes.

At Dartmouth, William and Mary won against teams from the City College of New York, the University of Virginia, Northern Illinois University, the University of Florida and Oberlin College, losing to teams from Marietta, Michigan State and Dartmouth.

This weekend (Feb. 21-23) debaters Nancy Lundquist and Kathy Shirley will take part in the eleventh Navy Invitational Tournament at Annapolis, Md. On future weekends, William and Mary will take part in tournaments at Notre Dame, the University of Pennsylvania, Hampton Institute, Morgan State College, American University, West Virginia University and Randolph Macon College. The debaters will also take part in the annual Tournament of Champions at Michigan State, April 3-5.

JAMES BIDDLE SCHEDULEDTO SPEAK HERE FEB. 25

The President of the National Trust for Historical Preservation, James Biddle, will lecture on the goals of the National Trust, February 25 at 8 p.m. in the Little Theatre of the Student Center.

Biddle is former curator of the American wing at the Metropolitan Museum of Art. He served with the United States Government from 1953-55. He is a graduate of Princeton University and a former president of the Drawing Society.

Biddle's visit to the campus is part of the current Visiting Scholars lecture series. Scheduled for lectures in March are John Hollowell, chairman of the Political Science Department at Duke University, March 10; and James Ackerman, Professor of Fine Arts at Harvard, March 13.

Hollowell will speak on "The Challenge of Existentialism" and Ackerman will discuss "The Demise of the Avant-Garde."

FACULTY IN THE NEWS OFF-CAMPUS

A coed from William and Mary, Miss Lorelei Bonck, an education major, has been elected a ruling elder for Trinity Presbyterian Church. Also serving as elders for the church are Dr. Paul Clem of the School of Education and Dr. Richard Curry of the Department of Government.

* * *

A 12-member board of directors has been named to form a non-profit housing corporation in Williamsburg. Endorsed by the City Council, it is expected to apply for federal funds to finance the construction of low cost housing units. Directors include Dr. Richard Curry, Department of Government, and Dr. Robert E. Welsh, Professor of Physics.

* * *

A "court observer" program is going into operation in Williamsburg under the aegis of the local Council on Human Relations, American Civil Liberties Union and National Association for the Advancement of Colored People.

The program is expected to begin on an organized basis within the next two weeks according to Dr. R.P. Norman, of the Department of Psychology, who is heading the project.

Norman has explained that he considers the program a community service which will also give the observers an opportunity to learn how the courts operate.

* * *

A report by Robert C. Walker, chairman of the Planning commission for the City of Williamsburg reported to City Council recently that representatives of the College as well as representatives of the Williamsburg-James City County Chamber of Commerce, City Council and James City County have agreed to back the Peninsula Transportation Study's proposals for stage one construction of a southern by-pass.

* * *

Prof. David Holmes of the Department of Religion addressed the Unitarian Fellowship of Williamsburg, Sunday in Lodge 3 on campus. Holmes spoke on "Michael Servetus, Father of Modern Unitarianism."

Future speakers will include Richard Mr. Brown, Professor of History on "Violence;" Hans Von Baeyer, Department of Physics, "The Unity of the Universe;" Louis E. Catron, department of Theatre and Speech, on the play "The Investigation;" David H. Jones, Department of Philosophy, on Joseph Fletcher's book, "Situation Ethics;" and Carl Dolmetch, Department of English on "Why I am not a Unitarian."

* * *

Representing parties friendly to college sports and particularly William and Mary, Athletic Director Les Hooker presented a contribution for the Fort Eustis Dependent Youth Association. The check for \$1,000 was accepted by Maj. Gen. W. N. Redling, commander at Fort Eustis.

- DEPARTMENTAL NEWS -BIOLOGY

A book entitled 'The Biology of Peromyscus' recently published as a special publication of the American Society of Mammalogists, contains a chapter entitled "Population Dynamics" written by Dr. C. Richard Terman.

ENGLISH

Reviews by Fraser Neiman of M.E. Devonshire, The English Novel in France, 1830-1870 and of Albert LeValley, Carlyle and the Idea of the Modern appear in recent issues of CHOICE.

Fraser Neiman's book Matthew Arnold in the Twayne Series of English Authors was released in January.

GOVERNMENT

Dr. George W. Grayson, F., Assistant Professor, has recently written several publications dealing with government affairs in South America.

"New Leadership for the O.A.S." by Grayson, was included in the January issue of Current History magazine. Dr. Grayson's book entitled El Partido Democratica Cristiano Chileno was published last fall by Editorial Francisco de Aguirre, Buenos Aires. An article, "Chile's Christian Democratic Party: Power, Factions, and Ideology" is scheduled to appear in the April issue of The Review of Politics published by Notre Dame University.

PHILOSOPHY

A paper entitled "Whitehead's Towfold Analysis of Experience," by William S. Cobb, Jr., has been accepted for publication in the March 1970 issue of The Modern Schoolman.

SCHOOL OF EDUCATION

Assistant Professor James D. Cowles attended the American Educational Research Association meeting in Los Angeles, Calif., Feb. 5-8. He presented a paper entitled "An Experimental Study of Visual Perceptual Training and Readiness Scores with certain First Grade Children."

WEEKLY CALENDAR FEB. 20 - MAR. 1

<u>Feb. 20, Thursday</u>	- Soc. for Adv. of Management Speaker: Mr. Louis Bilka	*CC Room A	7 p.m.
	College Wide Program of Readings & Lectures - Joseph Heller author of <u>Catch-22</u> Reception	**PBK	7:30 p.m.
	Holy Communion	Wren Chapel	5 p.m.
<u>Feb. 21, Friday</u>	- Visiting Scholars Lecture Balcomb Greene, artist "The Effect of Publicity on Art"	Andrews 101	8 p.m.
	Campus Chest Dance	CC Ballroom	9 p.m.
	Betty Lynne Catron - Pianist Faculty Recital	PBK	8:15 p.m.

COLLEAGUE

College of William and Mary Faculty Newsletter

Published by Information Office
Second Floor, Ewell
Ext. 225-226

February 27, 1969

A WELSH WEEK-END

St. David's Day, March 1, will be observed here this week with a bicentennial tribute to Wales's self-styled "Black Poet of Anglesea," Goronwy Owen.

Owen was Master of the Grammar School and Professor of Humanity at the College from 1758-1760. He died near here in the summer of 1769.

The two-day tribute to Owen will take place Friday and Saturday, cosponsored by the College and the American Council of Learned Societies. About 50 members of the St. David's Society of Washington will be among guests for the program.

Members of the planning committee for the program include W. Melville Jones, Vice President; J. H. Willis, Jr., Assistant Vice President; William C. Pollard, Librarian; Lewis A. Foster, Associate Professor of Philosophy; Thade W. Tate, Jr., Associate Professor of History; and David C. Jenkins, Professor of English.

- Program Highlights -

John Gwilym Jones, noted Welsh playwright and lecturer at the University College of North Wales at Bangor, and Joseph P. Clancy, chairman of the English Department at Marymount Manhattan College, New York City, will be featured speakers. Also on the program will be Prof. Raymond Hodges, Director of Drama at Virginia Commonwealth University in Richmond who will read poems of Goronwy Owen in translation.

One of the highlights of the program will be the installation of the "Cymmrodorion Plaque" in a new poetry reading room dedicated to Owen in the College library. The plaque had earlier been placed in the old College library which is now the Marshall Wythe School of Law. It is made of Welsh slate and was given to the College by the Cymmrodorion Society, a literary group that Goronwy Owen helped begin in London.

A slide program and a recital of Welsh music featuring Miss Marian Harding, harpist is also included in the bicentennial celebration. (For a complete program please see the event calendar)

- Owen and the Board of Visitors -

Owen's stay at the college began under somewhat of a cloud and he left after two years, following events which may have led to his dismissal had he stayed.

LIBRARY
APR 9 1969
WILLIAM & MARY

Owen and the Board of Visitors (Cont.)

Owen was delayed in his arrival at William and Mary due to wrangling over the dismissal of his predecessor, the Rev. Thomas Robinson. Owen and his family set sail on December 12, 1757 on a ship appropriately named "The Trial." When he landed he had lost his wife Elin and a child at sea.

The minutes of the April 25, 1769 meeting of the College Board of Visitors included in Goronwy Owen and the College of William and Mary by B. Bowen Thomas, shed some light on the events of that turbulent spring which closed out Owen's association with the College.

"Several matters were now objected against Mr. Rowe (Jacob Rowe, M.A. Cambridge University, Professor of Moral Philosophy) and Mr. Owen and one of the members also objected against the President of the College."

From the meeting of April 26: "That Mr. Rowe, one of the Professors of Philosophy and Mr. Owen, Professor of Humanity, have been often seen scandalously drunk in College and in the Public streets of Williamsburg and York. That the said Mr. Rowe and Mr. Owen frequently utter horrid oaths and execrations in their common conversations. . . Mr. Rowe is undermining the discipline of the President of the College and Mr. Owen has been guilty of the same behavior."

Through the influence of the president of the College, Thomas Dawson, who was also his brother in law, (Owen married Dawson's sister in 1758) Owen appeared to weather the spring storm over his conduct but his reprieve was short lived.

In August he was believed to have taken part with Mr. Rowe in leading "the boys against the Town Apprentices to a Pitched Battle with Pistols and other weapons instead of restraining and keeping them in as was the duty of his office to have done." Rowe was dismissed and Owen resigned on August 14, 1760.

- Owen the Poet -

Owen is known chiefly as a poet of the strict Welsh Meter and as a letter writer of great interest, power and persuasion. His reputation grew during the late eighteenth century and reached huge proportions in Wales in the nineteenth century when he had many admirers. One of the Welsh poets said that it was good that such as he did not know the whereabouts of the remains of Goronwy, otherwise he would go and worship his ashes.

Owen, who was born in Wales in 1723, died in 1769 and was buried in Lawrenceville, Va.

LAW MEDALLION AWARDED

A Harvard law professor, A. James Casner, has been named to receive the third annual bronze medallion of the Marshall-Wythe School of Law.

The bronze medal was created several years ago as a means of extending special recognition from the nation's first law school to nationally renowned leaders in law practice, the judiciary and legal education.

Presentation of the medallion will be made at the annual awards luncheon of the William and Mary Law School Association on April 27.

Previous awards have been made to Norris Darrell of New York, president of the American Law Institute, and to Roger J. Traynor of California, Chief Justice of that state's supreme court.

Law Medallion Awarded (Cont.)

Professor Casner is a nationally known authority on property law as well as estate and gift tax law. He is a native of Illinois. He received his A.B. and LL.B. degrees from the University of Illinois and his S.J.D. degree from Columbia University. He also holds an honorary Master of Laws from Harvard.

He has been on the Harvard law faculty since 1938, and associate dean of its law school since 1961. He previously taught at the law schools of the University of Illinois and the University of Maryland. From 1945 to 1958 he was also associated with a leading Boston law firm, and is chairman of the editorial board of Little, Brown and Company.

Casner is the author of a two-volume work on estate planning, and editor-in-chief of the eight-volume treatise, "The American Law of Property." He is the reporter (chief editorial coordinator) for the American Law Institute's project for a model estate and gift tax law. He has also made teaching films for the American Bar Association's committee on continuing legal education.

LAW SCHOOL NOW "TWO THIRDS" COMPLETE

With the installation of permanent classroom equipment in four classrooms, and the expansion into a series of faculty and student organization offices on the third floor, the Law School now occupies approximately two-thirds of the renovated former library. The third floor has a group of rooms for the use of the editors and staff of the William and Mary Law Review, an office for the Student Bar Association, a student lounge, and three faculty offices. The former stack area of the old library has been converted into two floors, the upper floor accommodating two large classrooms now in use. The only remaining facility to be completed is the moot court room, on the ground floor of the former stack area.

FOUR LAW SCHOOL CONFERENCES IN MARCH

Two student conferences will be held in Williamsburg this coming month under the sponsorship of the Marshall-Wythe School of Law, and two conferences for professional practitioners -- one in Williamsburg and one at Cape Canaveral, Fla. -- will have the Law School as co-sponsor. A five-state conclave of Phi Alpha Delta legal fraternity will meet here February 28 - March 2, with the local George Wythe chapter as hosts. This will be followed by a regional meeting of the student bar associations affiliated with the American Bar Association, March 6-8, with the William and Mary Student Bar Association as host. The following week the Law School will join with the Virginia Trial Lawyers Association in sponsoring a two-day conference on criminal trial techniques, as part of the program of continuing education of the Virginia bar. The fourth meeting will be the annual Concentrated Course in Government Contracts, to be held March 10-14 in Florida in cooperation with Federal Publications, Inc. of Washington, D.C.

AN EXPERIENCE IN JAZZ - MARCH 2

The Campus Ministers United and the Westminster Fellowship will co-sponsor a concert, "An Experience in Jazz" by the Howard Hanger Trio of Atlanta,

An Experience in Jazz (Cont.)

Ga., March 2 in the Campus Center Ballroom at 8 p.m.

Organized in the fall of 1965 within the context of the church, the Howard Hanger Trio has sought for creative forms of expression. The title of their first service "Sacred Music for Secular Man" soon became the general classification for all their music.

Recording through facilities of the Protestant Radio and Television Center, the Trio has made several tapes for the Armed Forces Chaplains' Board for use in institutionalized ministries. In December, 1967, the trio first presented their own adaptation of a major musical work. The presentation which they called "Secular Messiah" is based on G. F. Handel's Messiah. Consisting of the printed word, visual imagery, and the trio's own interpretations presented in a kind of collage setting, the performance has since become of the most widely received presentations.

Howard Hanger, a senior in the Candler School of Theology, is pianist for the trio. He played his first recital at the age of nine. He received a scholarship to study under Gerson Yessin at the Jacksonville Conservatory of Music. When not working with the Trio, much of his time is given to teaching music and piano in a children's home in Atlanta, where he is currently employed.

Mike Givens, bass, is a student of business administration at Georgia State College in Atlanta.

Paul Reeve, drums, is a pre-dental student at Georgia State College.

The March 2 concert is open to the public without charge.

As all three members of the trio are students most of their performances are given on weekends. Before coming to Williamsburg March 2 the group will play at Randolph Macon College in Ashland and at Trinity Methodist Church in Richmond.

MUSIC CONCERT TONIGHT

A concert of violin music by Miss Takako Nishizaki, talented young Japanese musician, will be given tonight at 8:15 p.m. in the Campus Center Ballroom.

Miss Nishizaki will play selections from Vivaldi, Bach, Saint-Saens, Beethoven, Bloch and Wieniawski. She will be accompanied by Elizabeth Wright at the piano.

Tonight's concert is part of the current Collegium Musicum series.

Next concert in this series will be given by the young Spanish pianist, Antonio Rodriguez-Baciero on May 4.

During March, the musical calendar will include a performance by the Norfolk Symphony Orchestra, sponsored by the Wednesday Morning Music Club and Friends of the Library on March 16, and a piano recital by F. Donald Truesdell, chairman of the Department of Music on March 18.

PHYSICS COLLOQUIUM FRIDAY

Archibald W. Hendry of the University of Illinois will be the speaker at a Physics Department colloquium to be held tomorrow, February 28 at 4:30 p.m. in Room 109 of the William Small Physical Laboratory. Coffee will be served in the conference room at 4 p.m.

Subject for the colloquium will be "A Shell Model for Elementary Particles?"

CAMPUS CHEST

The Campus Chest Drive is still short of its goal. To date, \$800 of the \$1,200 needed has been raised. Faculty members who would still like to contribute are invited to do so. Contributions be left in the Student Association box in James Blair or mailed to Linda Lotz or Anne Bradstreet in care of the Student Association Office.

The money will be used to purchase a bus which will be used by city and campus agencies and service groups for philanthropic events, primarily in the area of recreation and cultural events for underprivileged children in the area.

PHYSICS SEMINAR

"Knight Shifts in Pure Cd and Cd Alloys" will be the subject of a Physics Department seminar scheduled for Tuesday, March 4 at 4:30 p.m. in Room 109, William Samll Physical Laboratory. The speaker will be Robert R. Slocum.

- DEPARTMENTAL NEWS -ENGLISH

Prof. LeRoy W. Smith spoke to a meeting of the Henrico County secondary English teachers at Hermitage High School on the subject of the "post-writing" or "re-writing" stage of composition, on January 24.

On March 1 Dr. Smith and Donald L. Ball will attend the Tri-State Conference of the District of Columbia, Maryland, and Virginia Councils of Teachers of English. The meeting will be held in Washington, D.C., and will focus primarily on drawing up plans for the National Council of Teachers of English Convention scheduled to take place in Washington in November.

Dr. Smith will be a reader for the College Board Composition Test in Atlantic City, March 5 - 9.

GEOLOGY

Dr. Paul H. Ribbe, a mineralogist from V.P.I. visited the Geology Department under the sponsorship of the Visiting Scientist Program of The American Geological Institute. Dr. Ribbe spoke before geology students and the Departmental faculty on the topic "Alkali Feldspars".

Dr. Stephen C. Clement attended the annual meetings of the American Institute of Mining, Metallurgical, and Petroleum Engineers in Washington, D.C., February 18 - 19.

PHILOSOPHY

Prof. William S. Cobb, Jr., of the Philosophy Department will present a paper on "Religious Language and Religious Experience" at the meeting of the Southern Society for the Philosophy of Religion at Roanoke on March 1. Prof. Thomas K. Hearn and Prof. Elizabeth S. Reed will also attend.

March 7 and 8, Professor Hearn will attend The Conference on Authority at Clemson University where he will present a paper on "Toleration."

PHYSICS

Professor Rolf G. Winter, Chairman of the Department of Physics serve as a visiting lecturer at Furman University, Greenville, South Carolina, Thursday and Friday, February 20 and 21.

He visited under the auspices of the American Association of Physics Teachers and the American Institute of Physics as part of a broad, nationwide program to stimulate interest in physics. The program is now in its twelfth year and is supported by the National Science Foundation.

The American Association of Physics Teachers is one of the seven member societies of the American Institute of Physics. Other member societies are: The American Physical Society, Optical Society of America, Acoustical Society of America, the Society of Rheology, American Crystallographic Association, and the American Astronomical Society.

 The Physics of Fluids 11, 2738 (1968).

SCHOOL OF BUSINESS ADMINISTRATION

Last week Dr. George D. Cole, Director of Conferences for the School of Business Administration, gave the Keynote address at the "Management Night" dinner of the Virginia Credit Union League, Hampton Roads Chapter. The dinner was presided over by Mr. Eugene Johnson, head of the Hampton Institute Credit Union, and president of the chapter. Mr. Johnson is currently enrolled in the M.B.A. program of the School of Business Administration. Dr. Cole was introduced by Frank H. Beard, Assistant Personnel Manager of the Newport News shipyard and a William and Mary alumnus. The dinner was held at the Hotel Chamberlin, with about 250 representatives of credit unions and management in the Tidewater area.

MARSHALL-WYTHE SCHOOL OF LAW

Professor William F. Swindler has been named to an editorial committee which will revise the handbook, "The Improvement of the Administration of Justice," published by the Section on Judicial Administration of the American Bar Association.

COLLEAGUE

College of William and Mary Faculty Newsletter

Published by Information Office
Second Floor, Ewell
Ext. 225-226

March 6, 1969

JEAN MAYER TO SPEAK

Dr. Jean Mayer, one of the world's foremost authorities on nutrition, who contends that "obesity has become in our time a national problem" will lecture Tuesday, March 11 on "Nutrition and Civilization".

Dr. Mayer will speak in the auditorium of John Millington Hall, at 8 p.m. as a lecturer in the Phi Beta Kappa Visiting Scholar Program which was begun in 1965 to give undergraduates the opportunity to meet and talk with outstanding scholars who are also noted teachers. Dr. Mayer is Professor of Nutrition and lecturer on the history of public health at Harvard University and consultant in nutrition at the Children's Hospital in Boston.

Dr. Mayer will be on campus March 10-12 and during his stay will visit classes in the Government, Biology and Men's Physical Education departments. Plans have also been made for an open seminar entitled "Biafra and Hunger" in The Apollo Room of Phi Beta Kappa, Monday at 3 p.m.

His special interest is the relationship of nutrition and civilization, particularly heart disease and related problems in rich countries and the problems of malnutrition in under-developed countries. He has been associated with the Food and Agriculture Organization and World Health Organization of the United Nations since 1948, as a member of the International Committee on Calorie Requirements and on Protein Requirements, and as a participant in the advisory missions to Ghana, the Ivory Coast, and West Africa. Since 1961 he has been a member of the FAO-WHO Joint Expert Committee on Nutrition.

He has lectured widely in this country and abroad, and served as chairman of symposia at a number of international congresses. Dr. Mayer is a Fellow of the American Academy of Arts and Sciences (Physiology and Experimental Psychology section). A Knight of the Legion of Honor, he holds fourteen decorations, including the Croix de Guerre with Gold and Bronze Stars, for his services with the French Army and the Free French Forces during World War II.

PRESIDENT-ELECT OF ABA TO SPEAK HERE TOMORROW

Bernard G. Segal, president-elect of the American Bar Association, will be the main speaker at the 3-day Quint Circuit Conference of the Law Student Division of the American Bar Association which opens here today.

Gilbert A. Bartlett, a law student at the Marshall Wythe School of Law at the College of William and Mary, vice president of the Fourth Circuit, is chairman of the conference which is being co-sponsored by the college law school. It will take place at the Cascades Meeting Center.

LIBRARY

President-Elect (Cont.)

Segal will speak at a dinner meeting, Friday evening, at 8 p.m. He was installed as president-elect of the American Bar Association at its 91st annual meeting in his home city of Philadelphia in August and will become President of the 132,000 member Association at the close of its annual meeting in Dallas in August, 1969.

The Quint Circuit conference is expected to attract representatives from 40 law schools on the East Coast from Maine to Miami, Fla., and Puerto Rico. Approximately 80 delegates are expected, as well as officers from the national office in Chicago.

PHYSICS COLLOQUIUM

V. L. Telegdi of the University of Chicago, will be guest speaker at the Physics Colloquium to be held Friday, March 7 at 4:30 p.m. in Room 109 of William Small Physical Laboratory. Coffee will be served in the conference room at 4 p.m.

Dr. Telegdi will take as his subject "A New Approach to Muonium."

BIOLOGY SEMINAR

The Biology Department has announced a seminar to be held Monday, March 10 at 4 p.m. in Millington Hall, Room 117, on "Social Withdrawal and Identity Formation in Mice." Guest speaker will be Dr. John B. Calhoun of the National Institute of Mental Health who is director of the Unit for Research on behavioral systems.

ROMEO & JULIET FILM
TO BE SHOWN MONDAY

A special showing of the film of the Romeo and Juliet Ballet with the Bolshoi Corps de Ballet will be given Monday, March 10 at 8 p.m. in Andrew Auditorium.

The film has been brought to the campus by Robert J. Fehrenbach of the English Department in connection with course studies. He has extended an invitation to anyone who would like to see the film to attend.

ART LECTURE SCHEDULED
WEDNESDAY IN ANDREWS

A lecture on Byzantine Art (coordinated with the Virginia Museum Art-mobile Exhibit on Byzantine Art) will be given by Martin Ross, Wednesday, March 12 at 8:15 p.m. in Andrew Auditorium.

Mr. Ross is curator of the Meriweather Post Collection at Hillwood and Consultant to the Virginia Museum on Medieval and Byzantine Art.

This lecture is open to the public and is being co-sponsored by the Fine Arts Department of the College and the Twentieth Century Gallery.

THEATRE TO PRESENT "THE INVESTIGATION"

"The Investigation," a vivid work by Peter Weiss (also known as the author of "Marat/Sade") will be presented by The William and Mary Theatre and the Department of Theatre and Speech at 8 p.m. March 12, 13, 14, and 15, in Phi Beta Kappa Memorial Hall.

The play concerns the question of guilt in Nazi Germany during World War II. It places focus upon events in the Auschwitz Concentration Camp. It asks if those events might happen again, in that country or any other. Because of the nature of the play it is not recommended for children.

For The William and Mary Theatre, Lawrence Miller is designer, Albert E. Haak is technical director, and Louis E Catron is director.

- Faculty Tickets -

Faculty with Complimentary Ticket Booklets may present the appropriate coupons at the Box Office and receive reserved seats. (The Faculty is reminded that the coupons must be presented.)

Complimentary Tickets will be valid only March 12 or 13. Due to the style of this production seating in the balcony is not recommended. Therefore seating is limited.

The box office will be open next week, Monday-Friday, March 10-14, between 3:30 and 5:30 p.m. It is also open 7-8 p.m. the nights of production, Wednesday-Saturday, March 12-15.

Attention is drawn to the curtain time of all William and Mary Theatre productions: 8 p.m. sharp. Late arrivals to dramatic presentations may not be seated immediately, nor will late-comers necessarily be shown to the seats they had reserved.

FACULTY CLUBPLANNING PARTY

The Faculty Club is planning a Spring Cocktail party, Saturday March 15 at the Statler Hilton Inn, 1600 Richmond Road from 5-7 p.m..

Tickets are \$1.50 per person for Club members, each of whom has the privilege of buying one guest ticket for the same price. Additional guest tickets are \$2.50 each. Tickets may be procured from the club treasurer Satoshi Ito, via his faculty mailbox in James Blair Hall.

"MINI-VISTA" IS PLANNED
FOR SPRING VACATION

After being contacted by local residents interested in substandard housing in the area, a small group of students from this campus and other Virginia colleges drove through the snow Sunday to inspect a two-room house in James City County which is sadly in need of repair.

The house is without electricity and plumbing and is the home of a ninth grade girl who is being trained by the Welfare Department to keep house for her ailing aunt.

"Mini-Vista" (Cont.)

The college students plan to work on this and other similar houses during the spring break (March 29 - April 8) calling the project "Mini-Vista."

Letters are going out this week to former graduates of local high schools now away at college asking them to join in the work during their vacation. William and Mary students will be contacted this week through the Flat Hat and WCWM.

Any concerned member of the faculty or administration who has any suggestions, time or money to give to the project is urged to leave his name, mailing address, etc., in the W&M Review mailbox in James Blair Hall, or in a box labelled "Mini-Vista" at the Campus Center desk, no later than March 10.

Contributions should be mailed to "Mini-Vista" c/o Sonny Forbes, Forbes Candy shop, Williamsburg.

Any pressing questions regarding the project should be made by phone to Mrs. W.F. Egelhoff, 229-6066.

TWO VISITING SCHOLARS SCHEDULE
TALKS ON CAMPUS NEXT WEEK

Two speakers are scheduled for talks on campus next week as part of the current Visiting Scholars Program.

John H. Hallowell, chairman of the political Science Department at Duke University, will speak Monday evening, March 10. His topic will be "The Challenge of Existentialism."

Hallowell, who is a former editor of the Journal of Politics, is the author of The Decline of Liberalism as an Ideology; Main Currents in Modern Political Thought; and The Moral Foundation of Democracy.

* * * * *

James Sloss Ackerman, chairman of the Department of Fine Arts at Harvard, will speak on "The Demise of the Avant-Garde," Thursday, March 13.

Ackerman is the author of several books, the most recent of which are Palladio and Palladio's Villas.

Both speakers will be heard at 8 p.m.; Hallowell in the Campus Center Little theatre and Ackerman in Andrews 101.

ACLU FILM SCHEDULED
MARCH 13 IN CAMPUS CENTER

"The Seasons Change", a documentary film on the confrontation between Chicago police and anti-war demonstrators during the 1968 Democratic National Convention will be shown Thursday, March 13 at 7:30 p.m. in the Campus Center ballroom under the sponsorship of the Students for Liberal Action.

The film will be shown March 11 in the City council Chamber of the Hampton City Hall at 8 p.m. and on Monday, March 10 at 8 p.m., in the Hostess Training Room of the Colonial Williamsburg Information Center. All meetings are open to the public without charge.

"The Seasons Change" was produced by Documentary Interlock, Inc., on commission by the ACLU, the National Mobilization to End the War in Vietnam, and the Youth International Party.

CATRON PLAY WINS
AT DRAMA FESTIVAL

At the recent Peninsula Group 1-A District one-act play festival held in Phi Beta Kappa Hall, students from Hampton High School won the only superior rating of the festival for their performance of a new play "Where Have All the Lightning Bugs Gone," written by Louis Catron, playwright with the William and Mary Theatre.

This was the first performance of Catron's play which he wrote especially for teenagers, last summer. The performance was directed by David McClung. The Hampton High School players will now compete in the state scholastic one-act play festival to be held this spring in Charlottesville.

"MY FAIR LADY"
COMING IN MAY

The Board of Directors for the Backdrop Club has announced that its spring musical production for 1969 will be Alan Jay Lerner and Loewe's "My Fair Lady," to be given May 15, 16, 17 in Phi Beta Kappa Hall.

"My Fair Lady," often called one of the best musicals of the century, is the brilliant Broadway adaptation from George Bernard Shaw's "Pygmalion." Its grace and elegance, combined with its simple expression of realistic virtues, make it the most "lovely" love story the world has ever taken to its heart.

William and Mary's Backdrop Club is unique among theatrical organizations of its type. Indirectly connected with the historic William and Mary Theatre and totally operated and managed by students of the college vitally interested in the theatre arts, the Club produces but one major production during the academic year. The Club is governed by a selected Board of Directors representing all facets of the production, who collaborate in choosing a musical comedy for the current season. Most exciting of the recent ventures of the Backdrop Club was the 1968 production of an original musical "stop 13 - The College of William and Mary."

NORFOLK SYMPHONY COMING
TO PBK ON MARCH 16

Russell Stanger will conduct the Norfolk Symphony Orchestra in a concert March 16 in Phi Beta Kappa auditorium, sponsored by the Wednesday Morning Music Club, and the Friends of the Library.

The orchestra will play Mozart's Symphony No. 26 in A; "Don Juan" by Richard Strauss; and "Firebird Suite" by Stravinsky.

Tickets are \$3 each (\$2 for students) and may be obtained from Mrs. Frank MacDonald, 906 Jamestown road. Ticket reservations may be made by calling Mrs. MacDonald, 229-8587. (There will be no reserved seats for the concert.)

FACULTY IS INVITED TO
LANGLEY AIR FORCE BASE OPEN HOUSE

On Saturday, March 8, Langley Air Force Base will host a two-hour open house from 9 to 11 a.m. to afford the public an opportunity to view the aircraft and equipment of the Tactical Air Command inventory. Such aircraft as the famous swing-wing F-111 and the F-4 Phantom, the "MIG Killer" of Southeast Asia, will be among the vast array of TAC's aircraft arsenal.

Aircrews who man these aircraft, many of them veterans of Vietnam, will be on hand to explain the performance and mission of the planes.

This will be an opportunity for educators and students alike to view first-hand TAC's military hardware and to ask questions of the crews who fly them.

Langley's Air Force Band will also present a concert during the open house.

WINTER ISSUE OF LAW REVIEW
GOES TO GENERAL ASSEMBLY MEMBERS

The annual review of constitutional issues in the William and Mary Law Review has been timed this year to coincide with the special session of the General Assembly to consider proposals for the revision of the Virginia constitution.

The winter issue of the quarterly journal published by law students at the College of William and Mary features three studies on state constitutional development, plus a documentary supplement on the Virginia constitution.

Copies of the winter issue have been sent to all members of the General Assembly, which opened its special session in Richmond last Wednesday.

The documentary supplement, a new department appearing in the law review for the first time, contains statistical tables showing the development of the several constitutions and amending conventions in the history of the commonwealth, comparative columns on the content of the several constitutions, and a chronology showing the antecedents of each section of the present constitution.

Dr. Thomas G. Pullen, Jr., an alumnus of the college who is currently President of the University of Baltimore, is the author of one of the three state constitutional articles, entitled, "Why the Proposed Maryland Constitution Was Not Approved." Dr. Pullen was a delegate to the Maryland constitutional convention of 1967.

Dr. Richard I. Nunz, special New York state counsel and an assistant professor in the Graduate School of Public Affairs at Albany, N. Y., contributes an article, "New York State Constitutional Reform -- Past Political Battles in Constitutional Language," Professor John E. Bebout, director of urban studies

Winter Issue of Law Review (Cont.)

at Rutgers University, and Joseph Harrison, former deputy attorney general of New Jersey, are co-authors of "The Working of the New Jersey Constitution," completing the trilogy of state constitutional articles in the issue.

Four other articles complement the current constitutional studies. They include "Municipal Home Rule in the United States," by Professor Kenneth E. Vanlandingham of the University of Kentucky; "General Principles of Constitutional Adjudication: The Political Foundations of Constitutional Law," by Professor John A. Winters of the Cleveland-Marshall Law School; "Reception of English Common Law in the American Colonies," by Professor William B. Stoebuck of the University of Washington; and the 1968 Sherwell Lecture, "In the Keeping of Lawyers," delivered at the William and Mary law school last fall by William T. Gossett of Detroit, current president of the American Bar Association.

The William and Mary Law Review is published quarterly by a student board of editors. The current editor-in-chief is Charles E. Friend of Williamsburg. Gilbert A. Bartlett of Rockville, Md. is operations editor and Glenn J. Sedam of Houston, Texas is managing editor.

ENGLISH PROFESSOR PLANS
SUMMER TRIP TO EUROPE

Dr. Carl Dolmetsch, professor of English, will spend the coming summer in Central Europe lecturing and conducting research for a forthcoming book.

Dr. Dolmetsch has accepted appointment to the faculty of the annual Falkenstein Seminar in American Studies, to be held from July 20 to August 2 at Falkenstein (Tannus), near Frankfurt, Germany, under co-sponsorship of the Ministries of Culture of the eleven West German States and the U. S. Embassy in Bonn.

The subject of Dr. Dolmetsch's lectures at this summer's sessions will be "Dissent and Reformism in 20th Century American Literature."

Dr. Dolmetsch has also been invited to deliver several guest lectures in late June and early July on various aspects of American literature in nine German universities: Berlin (Free University), Erlangen, Frankfurt, Freiburg, Heidelberg, Mainz, Muenster, Tuebingen and Braunschweig.

After August 2, he will spend a month researching the rise and influence of the Ueberbrett'l Movement in early 20th century drama, under a grant from The American Philosophical Society. This research will become part of a projected critical biography of the American Drama critic, George Jean Nathan (1882-1958). For this research Dr. Dolmetsch will consult theatrical archives in Berlin, Munich, Vienna and Budapest.

NEW PROGRAM FOR TRANSPORTATION RESEARCH

As a result of a meeting sponsored by the State Council of Higher Education in December of 1968, an interdisciplinary team of professional personnel representing six Virginia colleges and universities have combined to form the Virginia Consortium for Research and Training in Urban Transportation. William and Mary was not apprised of this development until after a proposal was submitted to HUD and the Department of Transportation, but membership in the Consortium is open to any institution in the state with faculty interested in participating in

New Program for Transportation Research (Cont.)

its work. The purpose of the multi-disciplinary program is to coordinate into one comprehensive, unified, statewide effort all educational and research projects in the field of urban and interurban transportation, with due attention to social, economic, and cultural as well as to engineering factors. To minimize the duplication of funds and effort, the Council decided to promote a cooperative approach to research and training in the transportation field. Many fields of study have been incorporated into the program including law, sociology, psychology, physics, architecture and many others. The objectives of the program fall into three main categories, research, education and action; these objectives will be pursued in three phases; information collection and analysis, program planning, and program implementation.

Faculty members who are professionally interested in some aspect of urban and interurban transportation, and therefore believe it would be desirable for William and Mary to affiliate with the Consortium, should contact Mr. Warren Heemann, Director, Office of Institutional resources, as soon as possible.

FROM COLLEGE AND UNIVERSITY REPORTS:*- Its All in the Mind -*

The American Council on Education has been awarded a \$114,400 grant to study campus ferment and unrest. The money was provided by the National Institute on Mental Health.

* * * * *

- Draft to hit more Graduates -

Asking for a revision of the current oldest-first induction policy, Vice Admiral William Mack, Assistant Secretary of Defense, said he felt the number of college graduates drafted will practically double in the next year.

"We are . . . likely to reach a situation soon when the (Selective Service) System will tend to concentrate the draft unduly upon the college graduates." Mack told a news conference. "It is quite possible that 30 percent or more of draftee deliveries later this year will consist of college graduates."

The Admiral said about 16 percent of the current draftees are college graduates. He added many graduates were being reclassified and given physicals, and these men will increase the draft pool; many graduate students, whose induction has been postponed for one term will also be available when the quarter or semester ends.

* * * * *

- Higher Education Bill of Rights -

Another multi-billion dollar education support measure has been introduced in the House, this one called the Higher Education Bill of Rights of 1969.

The measure would authorize \$1.3 billion for scholarship grants in fiscal 1971 and would increase that amount by \$100 million a year to a total authority of \$1.9 billion in 1977. The grants may reach \$750 per student annually for the first two years of undergraduate study and \$1,000 per year thereafter.

Higher Education Bill of Rights (Cont.)

The money could be used to help support two years of graduate study.

. . . Those schools that make a special effort to train disadvantaged students under the scholarship program would receive extra funds, with authorizations running from \$1.7 billion in fiscal 1971 to \$3.9 billion in 1977.

The available funds for the work-study program would be increased from the presently authorized fiscal 1971 level of \$285 million to \$689 million, eventually raised to \$1.1 billion in 1977. The number of graduate fellowships under the National Defense Education Act would be doubled to 15,000 in 1971 and from that figure increased to 20,000 in 1977. The Higher Education Facilities Act loan program would be raised from \$350 million for 1971 to \$610 million for 1977.

BIOLOGY

Dr. C. Richard Terman has a paper entitled "Inhibition of Reproductive Maturation and Function in Laboratory Populations of Prairie Deer Mice: a test of Pheromone influence." in the journal *Ecology*, Vol. 49, pp. 1169-1172.

ENGLISH

John W. Conlee has written a note entitled "John Barth's Version of The Reeve's Tale" that has been accepted for publication in American Notes & Queries. The date of publication has not been announced.

Professor Conlee has just finished a review of F. Anne Payne's King Alfred and Boethius: An Analysis of the Old English Version of the "Consolation of Philosophy" for the Journal of English and Germanic Philology. The review will appear later this year.

HISTORY

Dr. Philip J. Funigiello recently attended the Seventh Annual Intercollegiate Conference on Urban Affairs. The conference, which was held in New York City from February 27 through March 2, dealt with the theme "The Urban Crisis: The University and the Community." The keynote address was given by Congresswoman Shirley Chisholm. A tour of a model city project and seminars on the political, economic, social, and cultural aspects of the urban crisis were included in the conference program.

Dr. Funigiello has received a grant from the National Endowment for the Humanities sponsored by the federal government. He will be on leave during the spring semester of 1970 and will conduct research for his upcoming manuscript on the power policies of the New Deal during the period 1933-1941.

- SCHOOL OF EDUCATION -

Professor Armand Galfo is serving as a research consultant to the Hampton

School of Education (Cont.)

School System which is currently conducting a study in reading. The long range study is supported by a grant from the United States Office of Education. Dr. Galfo, assisted by Professor Robert Smith, Mr. Robert Dawson of the Computer Center, and Mr. Peter Hoyle, recently developed the statistical model which was used to analyze test data collected at the end of the first year of study. Computer time for the analysis was made available by the College.

MARSHALL-WYTHE SCHOOL OF LAW

Professor E. Blythe Stason, Jr. of the Marshall-Wythe School of Law visited the University of Virginia Law School on Friday and Saturday of last week. While there, he attended a symposium on international law sponsored by that school's student international law group, the John Bassett Moore Society, and explored the possibility of forming a similar group at the Marshall-Wythe School of Law.

Professor Stason is Marshall-Wythe's Internationalist, teaching courses in admiralty, international business transactions and international law. He became involved early in the formation of the School's summer law program at Exeter, England, served on its faculty last summer and will do so again in 1969.

HARRISON CHAIR OF HISTORY

The College of William and Mary has announced the establishment of the James Pinckney Harrison Chair of History.

According to President Davis Y. Paschall, the new position is intended to strengthen the graduate and undergraduate programs in history and will be held each year by a distinguished visiting scholar.

The holder of the chair for the fall and spring semesters of 1969-1970, will be Professor David B. Quinn of the University of Liverpool, England.

The chair is established in memory of the late James Pinckney Harrison through the generosity of his widow and son. For years the chairman of the board of Universal Leaf Tobacco Company of Richmond, the late Mr. Harrison was a native of Danville but lived most of his life in Charles City County near his ancestral home, Berkeley. Mr. Harrison was awarded the Legion of Merit in 1946 and is remembered widely throughout the state for his many civic and philanthropic activities.

Professor Quinn's appointment brings to Williamsburg one of the world's leading authorities on the early Voyages of discovery to North America. Elected last year to the Council of the Institute of Early American History and Culture, which is co-sponsored by the College and Colonial Williamsburg, Quinn is already well-known in Virginia and will be the principal speaker at the Jamestown Day celebration on May 11.

A native of Belfast, Ireland, Quinn received his Ph.D. from the University of London in 1934. He has taught at the University of Southampton, Queens University in Belfast, and the University College of Swansea. He has been the Andrew Geddes and John Rankin Professor of Modern History at the University of Liverpool since 1957. He is vice-president of the Council of the Royal Historical Society, and also of the council of the Hakluyt Society, for which he has edited several volumes. He is the author of many works on English exploration during the reign of Elizabeth I, among them studies of Sir Humphrey Gilbert and Sir Walter Raleigh, the Roanoke Colony, the American drawings of John White, and the writings of Richard Hakluyt.

James Pinckney Harrison, Jr., co-founder of the chair, is also a historian, specializing in Asian history, and is at present assistant professor at Hunter College, New York. His mother, Mrs. Nellie A. Neade Harrison, who joined in sponsoring the memorial for her late husband, resides in Charles City County.

PROFESSOR STASON ELECTED TO MEMBERSHIP
IN AMERICAN LAW INSTITUTE

Professor E. Blythe Stason, Jr. of the Marshall-Wythe School of Law, author of various scholarly publications and a former research associate for the Administrative Conference of the United States, was elected a member of the American Law Institute at the Institute Council's recent membership meeting.

The American Law Institute is the national academy of law whose membership, chosen from among scholars and leading practitioners of law across the nation, has written the law restatements, model legal codes and other works in various areas of the law that have been so influential in the formation and guidance of law and legal policy in the United States since 1923.

The other Institute member in the Williamsburg area is Joseph Curtis, Dean of the Marshall-Wythe School of Law.

DR. TRUESDELL'S RECITAL
POSTPONED UNTIL FALL

The piano recital scheduled for Tuesday, March 18 by Prof. F. Donald Truesdell, Head of the Department of Music, is being postponed until early next fall.

The new date for the recital is Friday, Oct. 3.

DR. SUTER TO DISCUSS
PROBLEMS IN MODERN MEDICINE

Dr. Emanuel Suter of the University of Florida will give a public lecture at the College next Wednesday.

Dr. Suter, currently national lecturer for the Society of the Sigma Xi and its affiliated society, The Scientific Research Society of America, will speak on "Human Experimentation, Medical Progress and Society" in the large auditorium in John Millington Hall at 8 p.m.

He will deal in his talk with the dilemma between scientific, legal and moral issues which now faces the medical experimenter. Experimentation on humans has contributed heavily to medical progress but society through the instruments of law and public opinion has been and is demanding the safeguards of individual rights. In each instance of experimental manipulation of man, contents Suter, the latter have to be weighed against the potential advantages to be gained from the experiment for the individual involved and for medical progress in general.

A native of Basle, Switzerland, Dr. Suter has served as Dean of the College of Medicine at the University of Florida since 1965. He was an assistant at the Rockefeller Institute of Medical Research in New York from 1949-1952; Associate, Department of Bacteriology and Immunology, Harvard Medical School, 1952-53; Assistant Professor, Department of Bacteriology and Immunology, Harvard Medical School, 1953-56; and Professor of Microbiology and Head of the Department, College of Medicine, University of Florida, 1956-65.

Dr. Suter was a Markle Scholar in Medical Sciences 1954-59. He has

Dr. Suter (Cont.)

served on the editorial boards of the American Review of Pulmonary Diseases and the Journal of Infectious Diseases, and is currently a consultant for a Neurology project committee of the National Institutes of Health.

The visit of Dr. Suter to the campus is being sponsored by the William and Mary Sigma Xi Club and arrangements are being handled by the club secretary, Dr. Frederic R. Crownfield of the Physics Department.

PARENTS DAY, MAY 3

The College's fourth annual Parents Day program will be held May 3, under sponsorship of a committee of students headed by a student from Portsmouth.

Miss Carol Crute, a member of the Junior class, has been named chairman of Parents Day, which annually attracts about 1,200 parents and other relatives of William and Mary students.

President Davis Y. Paschall, in a letter to parents inviting them to attend, said the day provides an opportunity for the College to "better communicated the aims and goals as well as contemporary developments at William and Mary," in addition to enabling parents to visit with faculty and staff.

W. Samuel Sadler, assistant dean of admissions, is Parents Day coordinator.

PETER WEISS' "THE INVESTIGATION"
IS CURRENT THEATRE PRODUCTION

"The Investigation" opened last night at the Phi Beta Kappa auditorium and will be given tonight, Friday and Saturday.

Complimentary tickets offered to members of the faculty are valid for tonight's performance but will not be honored at performances on Friday and Saturday evenings.

All seats are reserved at \$2 each. The box office is open each today and Friday from 3:30 to 5:30 p.m., and each night of the performance at 7 p.m.

The style of the production is such that seating in the balcony is not recommended. Therefore, there are only a limited number of seats available.

Louis E. Catron, director, has suggested that children not be brought to "The Investigation" because of its focus upon events at the German Concentration Camp at Auschwitz.

Curtain time for "The Investigation" -- and all William and Mary Theatre productions -- is 8 p.m. sharp. Late arrivals may not be seated immediately, nor will they necessarily be shown to the seats they had reserved.

PHYSICS COLLOQUIUM

"Plasma Turbulence and Transport in the Etude Stellator" will be the subject of a physics colloquium to be held Friday at 4:30 p.m. in Room 109, William Small Physical Laboratory. The speaker will be K. Bol of Princeton University.

Coffee will be served at 4 p.m. in the Conference Room.

INSTITUTE BOOK MAY ADD
NEW LAURELS NEXT MONTH

"White Over Black: American Attitudes Toward the Negro, 1550-1812" by Winthrop D. Jordan, published in 1968 under the imprint of the Institute of Early American History and Culture, has captured three literary prizes and is being considered for two more, to be announced in April. It won the 1968 National Book Award for history and Biography; the 1968 Emerson Award of Phi Beta Kappa; and the Parkman Prize of the Society of American Historians.

MOVIE POSTPONED

The film version of the Romeo and Juliet ballet by the Bolshoi ballet will be shown Tuesday, March 18 at 8 p.m. in Andrews Auditorium.

The film was originally scheduled for March 10 but had to be postponed until a later date.

WORK OF ARMY ARTISTS
NOW ON DISPLAY AT ANDREWS

The current exhibit in the Gallery of Andrews Hall is a collection of prints, drawings and paintings done by servicemen.

The collection represents some of the winning pieces entered in an arts and crafts competition staged by the Fourth Army. Between 80 and 90,000 men participated in the competition.

A travelling exhibit was formed of the most portable winning pieces. The current exhibit includes one framed construction.

The gallery is open to the public daily, Monday through Friday from 2 - 4 p.m.

The present exhibit will be at the gallery until March 25.

"THE REAL JOHN WESLEY"
IS TOPIC OF WEDNESDAY LECTURE

The Lyon G. Tyler Historical Society will sponsor an address by Dr. Baker on Wednesday, at 8 p.m. in the Campus Center Little Theater. Dr. Baker's topic will be "The Real John Wesley".

A native of Hull, England, Dr. Baker is presently Associate Professor of English Church History at the Divinity School of Duke University. Dr. Baker received his B.A. from the University of London, his B.D. from the University of Manchester, and his Ph.D. from the University of Nottingham. For twenty-five years he was a minister of the United Kingdom Methodist Church after which he became the Assistant Master of Religious Education in Secondary Schools in England. In 1960 he joined the faculty of Duke.

Dr. Baker's fields of specialization deal with the life, thought, and writings of John and Charles Wesley, the history of British Methodism, and hymnology. His published works include: A Charge to Keep; An Introduction to the People Called Methodists; William Grimshaw, 1708-1763; and Representative Verse of Charles Wesley.

LAW SCHOOL HOST TO TRIAL LAWYERS

The annual seminar of the Virginia Trial Lawyers Association is being held at the Williamsburg Conference Center this weekend under the joint sponsorship of the Law School and the Virginia State Bar. Associate Dean James P. Whyte of the Law School is moderator for the panel on criminal law on Friday morning, and Dean Joseph Curtis will be the featured speaker at the Friday luncheon. Justice Tom Clark will be the Saturday banquet speaker.

JOSEPH KRAFT EXPECTED
ON CAMPUS MARCH 20

Joseph Kraft, syndicated columnist, will speak here next Thursday on current national issues.

Kraft, whose column is read in the Washington Star and Chicago Daily News among others, has been Washington correspondent for Harper's magazine, staff writer for the New York Times, and Editorial writer for the Washington Post.

He will speak Thursday at 8 p.m. in the Campus Center Little Theatre.

Mr. Kraft will be on campus throughout the day on Thursday and plans have been made for a faculty-student luncheon at which he is expected to speak on the role of the press in Washington.

Mr. Kraft's visit is being arranged by Dr. Richard Curry in the Government Department, as part of the visiting lecture series sponsored by the department with funds from the College Science Improvement Program. This program is supported by a grant to the College by the National Science Foundation for curriculum study and enrichment in the departments of economics, government, psychology, sociology and anthropology.

SIR TYRONE GUTHRIE TO LECTURE
AT PHI BETA KAPPA, MARCH 20

One of the world's foremost stage directors and theatre authorities will visit Williamsburg on Thursday when Sir Tyrone Guthrie comes to the stage of Phi Beta Kappa Memorial Hall for a lecture appearance in the course of his second annual coast-to-coast personal appearance tour.

Dr. Guthrie's visit is being sponsored by the William and Mary Theatre. Curtain time is 8 p.m. sharp.

Tickets may be obtained at the Theatre box office which is open weekdays between 3:30 and 5:30 p.m. and a 7 p.m. on the night of the performance. All seats are reserved at \$3 each.

Dr. Guthrie has produced plays, grand operas, musical comedies, and pageants that have won press and public accolades on both sides of the Atlantic. He was for many years director of the Old Vic theatre in London, and later of the Sadlers Wells Theatre, during these companies' periods of greatest theatrical triumphs.

Nearly a decade ago Dr. Guthrie served as artistic director of the Shakespeare Festival Theatre in Stratford, Ontario, and under his aegis the Festival became internationally-famous, featuring top stars of the London and Broadway stage in a dazzling array of Shakespeare plays and Gilbert and Sullivan

Sir Tyrone Guthrie (Cont.)

musical revivals. Two of his Gilbert and Sullivan productions -- "The Pirates of Penzance" and "H.M.S. Pinafore" -- toured the United States and Canada successfully in recent seasons, following triumphant New York engagements.

Six years ago Dr. Guthrie was invited to found a theatre in Minneapolis, Minnesota, and for three seasons thereafter served as its artistic director. The Tyrone Guthrie Theatre in Minneapolis boasts one of the finest repertory companies in North America today, and annually offers an imaginative season of classical and contemporary dramatic fare that attracts playgoers from all over the world.

MEN'S LACROSSE BEGINS
3RD SEASON, MARCH 15

Jim Carpenter, Lacrosse coach, has announced a 10-game schedule which opens Saturday in Richmond. Home games will be played on the women's athletic field on Jamestown Road.

Lacrosse Schedule

March 15 - Saturday	Richmond (Scrimmage)	Richmond
March 22 - Saturday	Ohio Wesleyan University	Home 1:30 p.m.
March 25 - Tuesday	Bucknell University	Home 3 p.m.
March 29 - April 8	-- SPRING VACATION	
April 12 - Saturday	Virginia Polytechnic Institute	Home 1:30 p.m.
April 16 - Wednesday	Virginia Military Institute	Home 3 p.m.
April 19 - Saturday	George Washington University	Home 1:30 p.m.
April 26 - Saturday	East Carolina University	Greenville, N.C.
May 3 - Saturday	Richmond Lacrosse Club	Home 1:30 p.m.
May 10 - Saturday	East Carolina University	Home 1:30 p.m.

MARTIN LUTHER KING, JR. AWARD
WINNERS AND ALTERNATES NAMED

Five state students have been chosen to receive the Martin Luther King, Jr., Award established in 1968 by faculty and students at the College as a means "by which the college community might contribute to the change in the hearts and mind of men toward which Martin Luther King worked."

The students chosen will receive \$500 for the first year of their college career. This is given independent of and in addition to any financial aid based on need which the Director of Student Aid may see fit to award.

Candidates for the award were chosen by a sub-committee of the Committee on Admissions chaired by Dr. Martin A. Garrett, Associate Professor of Economics. Other members of the committee are Dr. Kenneth F. Bick, Professor of Geology; Liz Ramsey, secretary of the Student Association; Dr. Carl Beyer, Director of the Honors Program; and Warren P. Heemann, Director of Institutional Resources. The selection committee was chosen by the committee on admissions of the College for this particular assignment.

Award winners and alternates have been invited to visit the college on Monday and will meet informally while here with members of the faculty and students to gain an insight into campus life at William and Mary.

- Recipients -

Harry Blizzard, son of Mr. and Mrs. Isaiah Blizzard, 3309 Chestnut Avenue, Newport News, is salutatorian of his senior class at Huntington High School.

He is the recipient also of one of 50 Shell Oil Company scholarships awarded through the 5th annual Achievement Scholarship Program for outstanding Negro students.

Blizzard is a member of the Dramatics Club, Senior Honor Society, and plans to major in mathematics.

Kermit Holmes Dance, son of Mr. and Mrs. N. A. Dance of 1008 Patterson Avenue, Petersburg, Va., is valedictorian of the senior class at Peabody High School, Petersburg. He is also president of the Student Council and the National Honor Society and active in several musical organizations at the school.

Dance, who also plans to major in mathematics at William and Mary, received the Optimist Academic Award.

Renee Elise Fleming, a senior at John Marshall High School in Richmond, is the daughter of Mr. and Mrs. J. E. Fleming of 3221 Woodrow Avenue, Richmond. She plans to major in psychology.

Miss Fleming plays the violin in the school orchestra, is assistant business manager for the school newspaper, vice president of the German Club and a member of the Future Homemakers Club.

Joshua Holloway, Jr., son of Mr. and Mrs. Joshua Holloway, 1828 Hoover Avenue, Chesapeake is an outstanding

Recipients (Cont.)

student and athlete at Carver High School, Chesapeake. He is one of the top three students in the senior class, vice president of the Student Council, President of the Choir, a member of the National Honor Society, president of the French Club and a member of Alpha Sigma Rho. He plans to major in physics.

Holloway is also a member of the all-metro, all-state football team and the Tidewater Scholastic Team. The latter is made up of outstanding players who also excel in academics.

Kathy O'Merle Bates, daughter of Mr. and Mrs. Harold E. Bates, 1020 E. 16th Street, Richmond, is a student under the ABC program at Waynflete School, Portland, Me. She plans to major in sociology.

Miss Bates is president of the Student Council, a member of the choir, active in dramatics, on the staff of the school newspaper and was 1967 winner of the Boston German Counsil Award. She is also active in sports.

The ABC program is a cooperative program called "A Better Chance - - Independent Schools Talent Search." This national program, established in 1963 places highly motivated and academically able students from across the nation in boarding schools for their final two to four years of secondary school education.

- Alternates -

Three alternates have been chosen for the award. They are Kenneth Oliver Haywood a senior at York High School, Doris Anette King of Huntington High School, and Viola Osborne, Northfield School in E. Northfield, Mass.

Haywood, is the son of Mr. and Mrs. John Francis Haywood 1024 Penniman Road. He is a member of the National Junior Honor Society, treasurer of the Science Club, vice president of the Usher Board, a member of the yearbook staff and a four-sport athlete. He plans to major in chemistry.

Doris King, daughter of Mr. and Mrs. J. M. King of 1445A Jefferson Avenue, Newport News, wants to major in history in preparation for a career in teaching.

She is a member of the Student Council, Future Teachers Club, English Club and won second place for biology in the Eastern District Math and Science Conference. She also won the Distinguished Participant Award at the Conference in Public Affairs. Miss King is vice president of the National Honor Society and a member of the debating society.

Viola Osborne, daughter of Mr. and Mrs. Clifton C. Osborne of 2300 N. 28th Street, Richmond, is Student Govt. secretary, student dormitory officer; member of the chanel choir, literary magazine staff, and active in sports.

CHEMISTRY

Miss Lesley Catherine Tarleton joined the faculty family March 1. She is the daughter of Mr. and Mrs. Jesse S. Tarleton.

GEOLOGY

Dr. Stephen C. Clement and Dr. Bruce K. Goodwin attended the Spring Meeting of the Virginia Section, American Association of Mining, Metallurgical, and Petroleum Engineers in Richmond, March 10. The main speaker of the Meeting was Miss Eva B. Adams, Former Director of the U.S. Mint, who spoke on the topic "Technical, Economic, and Political Aspects of Material Selection of Coinage."

MUSIC

Dr. Truesdell attended the biennial convention of Music Teacher's National Association in Cincinnati, March 10-12. This is an organization largely oriented to the interests of teachers primarily of piano. There are, however, sections on choral music, musicology, strings, theory etc. Truesdell is currently first Vice President of the state organization, Virginia Music Teacher's Association. He is President-elect expecting to take office at the State Convention in the fall.

PHYSICS

Dr. Robert T. Siegel, Director of the Space Radiation Effects Laboratory and professor of physics at the College of William and Mary will serve as a visiting lecturer at The Citadel, Charleston. S. C., next Monday and Tuesday.

He will visit under the auspices of the American Association of Physics Teachers and the American Institute of Physics as part of a broad, nationwide program to stimulate interest in physics. The program is now in its twelfth year and is supported by the National Science foundation.

LAW SCHOOL ASSISTS U. S. COURT STUDY

In cooperation with the Federal Judicial Center in Washington, the Marshall-Wythe School of Law is undertaking a fifty-state study of post-conviction remedies, upon which may be determined the future policy of federal District Courts in granting or denying petitions for habeas corpus from state courts. The Federal Judicial Center is a recently established government agency to conduct studies into the efficient operation of the federal judicial system, and is under the direction of retired Supreme Court Justice Tom Clark.

Where state law does not provide an adequate record for reviewing convictions of criminal defendants, the federal courts have been asked to grant habeas corpus writs to the defendants. The purpose of the present study is to gather all state laws and court rules in all the states, to determine what criteria should be applied by the federal courts in granting or denying habeas corpus. Ultimately, the Judicial Center plans a series of conferences with state judges to encourage adoption of adequate standards of state post-conviction review and remove the federal courts almost entirely from the proceeding.

SCHOOL OF BUSINESS ADMINISTRATION

On March 1, Prof. M.M. Stanley and Dr. George D. Cole were speakers at a Career Transition seminar held at the Strawberry Banks Motor Inn in Hampton. These seminars are conducted periodically for military officers anticipating separation from service and making a transition to civilian employment.

Professor E. C. Baxley of the School of Business Administration accompanied three students (Tom Bagby, Chandler Joyner, Robert Holmes) of the School to Atlanta, Georgia, to participate in the Intercollegiate Business Games at Emory University, March 6,7,8. The game is a computer simulation in which 40 schools participated.

SCHOOL OF EDUCATION

On March 5th, Dr. S. Stuart Flanagan presided at the Greater Richmond Council of Teachers of Mathematics annual meeting. He was elected the delegate to represent this organization at the National Council of Teachers of Mathematics annual meeting in Minneapolis, Minnesota in April. Dr. Flanagan has been appointed to the Executive Committee of the Virginia Education Association's Secondary - Collegiate Mathematics Department.

WHYTE NAMED ACTING DEAN OF LAW SCHOOL

James P. Whyte, Jr., professor of law at the College for more than 10 years, and its current Associate Dean, has been named Acting Dean of the Marshall-Wythe School of Law here, effective this summer.

Dr. W. Melville Jones, Vice President of the College, said Whyte would assume the Dean's post in an acting capacity when the resignation of the current Dean, Joseph Curtis, takes effect.

Dean Curtis earlier announced his resignation to become Dean of the Law School at the University of Baltimore. He attributed the move to "personal reasons."

Whyte's appointment was announced by Dr. Jones to the Law School's faculty at a meeting Tuesday afternoon.

Whyte, a native of Columbus, Miss., is an alumnus of Bucknell University and holds a master's degree from Syracuse University. He has his Juris Doctor degree from the University of Colorado. Bucknell recently named him an alumnus member of Phi Beta Kappa.

He practiced law in McAlester, Okla., and was prosecuting attorney for Pittsburg County, Okla., prior to becoming an attorney for a firm in Kansas City, Mo. He joined the William and Mary faculty in 1958 as a full professor, with teaching specialties in the areas of constitutional law, criminal law, labor law, and trial and appellate practice.

Whyte has served frequently as a "Judge," or arbitrator, in labor negotiations and is a member of arbitration panels of the Federal Mediation, and Conciliation Service, American Arbitration Association, and the Virginia Department of Labor and Industry.

A member of Sigma Tau Alpha and Tau Kappa Alpha, Whyte is also Secretary of the Saint Andrew's Society of Williamsburg.

KRAFT LECTURE POSTPONED

The visit of Joseph Kraft, newspaper columnist, to the College of William and Mary, scheduled for Thursday, March 20, has been cancelled.

Kraft, who is on assignment in the Near East, has been detained and will not be back in this country in time to make his lecture schedule.

Kraft will re-schedule his visit to William and Mary at a later date.

His visit to the campus was to have been sponsored by the Government Department as part of its visiting lecturer series, funded from the College Science Improvement Program. Arrangements for Kraft's visit were made by Dr. Richard Curry.

LIBRARY
MAY 1 1969
WILLIAM & MARY

MODERN DANCE RECITAL

Orchesis, composed of modern dance students at the College, will give its annual show Wednesday and Thursday evenings, March 26 and 27, in Phi Beta Kappa auditorium.

The program represents original choreography by students at the college. A special feature of this year's program is a lively finale in the style of a colorful medieval pageant.

Musical accompaniment for some of the numbers will be provided by Mrs. Betty Lynn Catron of the Music Department, piano; and students Mac Henderson, Nassawadox, Va., piano; and Alethia A. Morris, Richmond, Va., recorder.

Narration for some of the numbers will be provided by Paul Hilderbrand, Annandale, Va.; and Barbara Heroux, Lancaster, Pa.

Choreographers for the show are Dee Curwen, Fieldale, Va.; Margie Corvino, Fort Knox, Ky., Kathy Hilgert, Fairfax, Va.; Cher Zucker, North Caldwell, N. J.; Nancy Wester, Norfolk, Va.; Bonnie Bruce, Yorktown, Va.; Colleen Perkins, Richmond, Va.; Betsy Vail, Alexandria, Va.; and Sandra Kotarides, Norfolk, Va.

Special lighting has been designed by David and Cathy McCall of Williamsburg.

SEMINAR IN MARINE SCIENCE

A seminar will be held at 7:30 p.m. tonight, March 20 at the former Beach Club, Gloucester Point, with a discussion of "Sensing of Earth Resources," by D. G. Anderson, Research Hydrologist with the U. S. Geological Survey.

The seminar, sponsored by the Virginia Institute of Marine Science, Gloucester Point, is open to faculty, staff, students and interested scientists.

PHYSICS COLLOQUIUM

Dr. D. G. Ravenhall of the University of Illinois will speak on "Muonic X-Rays, Electron Scattering, and Nuclear Charge Distributions" at a Physic Department Colloquium to be held tomorrow afternoon at 4:30 p.m. in Room 109, William Small Physical Laboratory.

Coffee will be served in the conference room at 4 p.m.

W&M FROM THE AIR

The William and Mary campus, along with other state property in the area, is being photographed from the air this week by the State Highway Department.

This is part of a statewide survey being made for the engineering department of the governor's office, Manhole covers, valve boxes and utility valves on campus have been painted black and white so they can be easily identified from the air.

In addition to establishing boundary lines, the photographs will be used to bring up to date existing utility maps.

A series of maps showing topographic features will be compiled which can be used in the future to locate new building and eliminate the need for individual surveys.

J. GLENN GRAY TO VISIT CAMPUS
MARCH 25 - 27

J. Glenn Gray, Professor of Philosophy at Colorado College and author of "The Warriors," will visit the campus, Tuesday through Thursday, March 25-27, as the second distinguished guest in the College-wide Reading program.

Gray will present a public lecture at 7:30 p.m. Wednesday, March 26 in the Campus Center ballroom on the topic, "Unpersuaded Landscapes: On Understanding Violence Philosophically." This topic, and "The Warriors" concentration on the dehumanizing effects of war, are especially well suited to the theme of the Reading program, "Man at the Mercy of Himself."

In addition to his public lecture, Gray will be available to all who have read "The Warriors" in a question-and answer session at the Honors Center, 12:30 - 2 p.m. Wednesday, March 26. Other, more informal talks with students and faculty during his visit are being arranged by Prof. Roger Smith of the Government Department.

The recipient of fellowships from the Fulbright Commission and the Ford Foundation and chairman of the department at Colorado College, Gray is especially interested in the thought of the existentialist Martin Heidegger and in the Philosophy of education.

In a recent New York Times Sunday Book Review section, "The Warriors" was singled out for praise because of its relevance to current issues. "Again and again, in "The Warriors", which looks to the past," reviewer Evan S. Connell, Jr., writes, "A reader may discover the present and the future."

First published in 1959, the book is based on the diaries Gray kept as an Allied officer in Europe during World War II, and reflections on those diary entries suggested by a return to the site of battle and interviews with many of the "enemy" conducted ten years later.

Substantial financial support for the appearance of Gray and authors of other books in the program has come from student organizations. Joseph Heller, author of "Catch 22," appeared on campus in February; Michael Harrington, author of "The Other America," will come to William and Mary, April 9 - 10 and W. N. Schoenfeld, a behavioral psychologist and "disciple" of B. F. Skinner, who is the author of "Science and Human Behavior," is scheduled to visit the campus May 8 - 9. Sen. J. William Fulbright of Arkansas, author of "The Arrogance of Power," has indicated that he will be unable to make a campus visit.

ROBERT ALLEN TO LECTURE

Professor Robert Allen of the Department of English, University of Illinois, will give two public lectures at the College Monday and Tuesday, March 23 and 24.

Under the joint sponsorship of the College Committee on Arts and Lectures, and the Botetourt Bibliographical Society, Dr. Allen will lecture on Monday at 8 p.m. in the Botetourt Theatre of Swem Library. His topic will be "Words and Deeds in Shakespeare's Henry V."

The Botetourt Society will sponsor his lecture Sunday night at 8:30 p.m. in the Rare Book Room of the Library on "Erasmus Set to English Purpose." Dr. Allen has edited the Colloquies of Erasmus and will discuss the Protestant Reformation translations of Erasmus in which Erasmus was used as a vehicle for Protestant propaganda.

FOILS CHAMPIONSHIP
SET SATURDAY IN BLOW

The College will be host on Saturday to the 1969 Virginia Men and Women's Foil Championships, which will bring to Williamsburg as many as 60 experienced and amateur fencers for the competition.

The day-long event will begin at 9:30 a.m. in the Blow Gymnasium. It is being planned by Dr. J. H. Willis, Jr., assistant vice president of the College and fencing coach of the William and Mary fencing team.

The meet will be under sponsorship of the Virginia division of the Amateur Fencers League of America. The Virginia division of the AFLA is new, and held its first championships last year, which drew several nationally ranked fencers from Virginia and the District of Columbia area.

CO-OP TEACHER PROGRAM
APPROVED FOR CHRISTOPHER NEWPORT

A cooperative teacher certification program for Christopher Newport College in Newport News has been approved by the Board of Visitors of the parent institution, the College of William and Mary.

President Davis Y. Paschall said "This program will greatly assist in meeting the demands for wellprepared teachers for the public schools of Virginia."

Under the program, students at CNC who are juniors and seniors will be able to obtain professional-level credits in the field of education, and do practice teaching in area schools, in order to obtain certification by the State Department of Education for secondary school teaching.

The Newport News branch of William and Mary is scheduled to award its first four-year degrees in mid-1971. Currently, concentrations in five fields are being offered students there: biology, English, government, history and psychology.

In addition to "sustaining courses" in those disciplines, which are required for teacher certification by Virginia, prospective teachers must complete work in professional education courses.

The education courses will be taught at Christopher Newport College during its day sessions, by faculty from the School of Education of the parent College. School of Education faculty at William and Mary will also supervise the practice teaching program for CNC students. Currently, a number of students at William and Mary are in practice teaching in Peninsula area public schools, enabling William and Mary to supervise CNC practice teachers in collaboration with its own related program.

DEBATERS WIN BERTH
IN NATIONAL JOURNEY

College of William and Mary debaters have won their second berth in national competition.

For the second consecutive year the team of John Morello and Dean Hewes have won an invitaion to the National Debate Tournament by taking second place at the District VII elimination tournament held at St. Vincent's College in Latrobe, Pa., over the weekend. Earlier this year they won a berth at the

Debaters win Berth (Cont.)

Tournament of Champions to be held at Michigan State.

The college debaters won second place with a score of 13-3, close behind the winner, Rutgers, with a score of 14-2. Twenty-six teams participated.

Of the eight rounds of debate, Morello and Hewes won six, split one, and lost one. In this tournament there were two judges in each round, thus instead of counting the number of rounds won, the number of ballots won was counted. The team from George Washington placed third, and the University of Virginia was fourth. The William and Mary debaters were accompanied by debate coach Patrick Micken.

This coming weekend March 21-22 teams will travel to Washington, D. C., for the American University Tournament.

NEW PHYS. ED. CENTER
GETS SPRING GO-AHEAD

Site preparation is expected to begin in mid-April on the College's \$5 million men's physical education center and convocation hall, with completion tentatively scheduled for late 1970 or early 1971.

The building, a full city block in size, will be used for men's physical education classes, indoor athletic events and some intramurals, College convocations, concerts, plays, Commencement and other major academic and recreational activities.

A major feature of the new building will be its gymnasium-auditorium which will permit, for the first time in recent history, all of William and Mary's students to meet together under one roof. Currently, the College's largest auditorium, Phi Beta Kappa Hall, seats only 815 persons.

Hubert L. Jones, of the Richmond architectural firm of Wright, Jones and Wilkerson, which designed the structure, pointed out that the seating capacity of the gymnasium-auditorium can be varied to suit the event scheduled.

Permanent seating surrounds the gymnasium floor on three sides, so that it resembles a horseshoe in shape. One end is left almost entirely open, so that a folding concert shell and stage can be placed there.

Jones said that total capacity of the gymnasium-auditorium will be about 10,700 for basketball, convocations or concerts, but by using bleachers in the open end, and chairs on the gymnasium floor, capacity can be expanded to 13,500 for boxing, wrestling or theatre-in-the-round.

Permanent seating will include 1,180 upholstered seats on foldaway platforms near the gymnasium floor, and 7,710 fixed theatre chairs on 26 horseshoe-shaped rows of concrete risers extending upward and toward the walls.

Initially, because of limitations on funds for these fixed theatre chairs, only 3,320 will be installed on the concrete risers--although the risers themselves can be used as seats. Additional fixed chairs will be installed as funds become available.

The building will include more than 24 offices for the physical education department and faculty, the athletic department staff, and for management of the building. It will have medical suite, departmental library, seminar room, and five classrooms as well as two auxiliary gymnasiums, a gymnastics room, a wrestling room, and another room for other sports uses. The facility will house eight locker rooms with adjoining shower rooms, including two areas especially reserved for William and Mary faculty.

New Phys. Ed. Center (Cont.)

The building will rise to 96 feet above ground, and will sit on a total of 733 concrete foundation piles driven into the ground an average of 50 feet each. The character of the College's other buildings will be preserved by the use of brick panels laid in traditional Flemish bond fleck brick between the slender columns. Topping the building will be a ribbed black metal Mansard roof, designed to appear similar to the traditional slate roof construction elsewhere at William and Mary.

Parking facilities for the building are not included in the current construction plans, although the College plans to seek funds for parking and access routes in its Capital Outlay Budget request for 1970-72.

The basic construction contract, held by Southeastern Construction Co. of Charlotte, N. C., is for \$4,488,600. In addition, separate contracts will be let for the main gymnasium's Tartan floor covering, for special high temperature water service, the acoustical shell and platform for concerts, and the public address system. A total of \$302,000 has been allocated to purchase additional equipment for the building. In total, the facility will cost \$5,371,678 including construction, equipment, utilities and site improvement work, architect's fees and other items.

ROTEN GALLERIES EXHIBIT
AT ANDREWS GALLERY MONDAY

An exhibition of original prints by classic and contemporary artists will be presented by Ferdinand Roten Galleries of Baltimore, Maryland, at Andrews Hall.. Exhibition hours will be from 10 a.m. - 5 p.m. Monday, March 25.

Prices range from \$5 to \$1000 with the majority priced under \$100. The exhibition includes over 1000 original etchings, lithographs and woodcuts by such artists as Picasso, Chagall, Miro, Goya, Renoir, Baskin, Kollwitz and many others. Also on display will be a collection of outstanding Western and Oriental manuscript pages from works of the 13th - 20th centuries.

A representative of the Roten Galleries, Mr. Gregory Murphy, will be present at the exhibition to answer any questions the public may have regarding graphic art and printmaking.

Established in 1932, Roten Galleries has one of the largest collections of graphic art in the country. The firm operates its main gallery at 123 West Mulberry Street in Baltimore with other Roten Galleries in Cambridge, Massachusetts, and at Brentano's in Washington, D. C., Manhasset, N.Y., and White Plains, N.Y. Ferdinand Roten Galleries specializes in arranging exhibitions and sales of original graphic art at colleges, universities and museums throughout the country.

MINI-VISTA GETS
MAXI STUDENT AID

"Mini-Vista", the local vest-pocket poverty program established by students for Spring vacation is off to a good start.

Mini-Vista (Cont.)

Over 70 have signed up as volunteers. Saturday a work crew will take on the first job, a little ahead of schedule. First assignment - build a new outhouse for a county home.

"Mini-Vista" came into being when students, contacted by local residents concerned about sub-standard housing in the area, decided to try and help alleviate the situation.

William and Mary, Yale, University of Virginia, University of Richmond and Hampden Sydney are represented on the Mini-Vista rolls.

Donations of money, material and services have been received and more are expected. Hornsby Oil Co., has donated a truck for a Saturday, Colonial Williamsburg has offered supervisory assistance, and Williamsburg architect Wright Hougland, is working on plans for a Mini-Vista project. This is no ordinary assignment for Hougland because his plans must be detailed for execution by workmen whose major is not usually construction.

- Housing Needed -

About 15 William and Mary co-eds plan to spend their Spring vacation in town working with Mini-Vista. Housing, however, must be found for the girls as all dorms will be closed. Any faculty member who would be willing to provide housing during the vacation is asked to contact Douglas Chard, Monroe 300, Ext. 271.

Students plan full work days on the job during vacation but according to Chard, Cleveland Francis and Dave Gapp have donated their talent and guitars to the cause so Mini-Vista won't be all work and no play.

Comments and suggestions for "Mini-Vista" are still being solicited. Legal advice in securing exact information on property ownership is also needed. Donors are asked to use the William and Mary Review mailbox in James Blair Hall or a box labelled "Mini-Vista" at the Campus Center desk. Second-hand furniture is also needed.

Financial contributions should be mailed to "Mini-Vista" c/o Sonny Forbes, Forbes Candy Shop, Williamsburg.

TICKETS STILL AVAILABLE

Tickets are still available for the lecture by Sir Tyrone Guthrie tonight at 8 p.m. in Phi Beta Kappa Hall.

The Box Office will be open this afternoon from 3:30-5:30 p.m. and tonight at 7 p.m. All seats are reserved at \$3.00.

One of the world's foremost stage directors and theatre authorities, Dr. Guthrie has produced plays, grand operas, musical comedies and pageants on both sides of the Atlantic. He was for many years director of the Old Vic theatre in London.

The Tyrone Guthrie Theatre in Minneapolis which he founded six years ago, boasts one of the finest repertory companies in North America today.

SEVERAL FROM W&M ASSIST
NEW COMMUNITY SERVICE UNIT

Stanley E. Brown, Assistant Director in the Student Aid and Placement Office, has been elected president of the New Williamsburg Cooperative Ministries.

Dr. Stephen Kurtz of the Institute of Early American History has been named vice-president.

Officers of the new organization represent a dozen area churches working to provide community services in a group effort. Brown represents the Williamsburg Methodist Church; Kurtz, St. Martin's Episcopal Church.

Dudley Jensen, College Registrar; Dr. John Selby and Prof. Thomas C. Atkeson have also been working with plans to establish the new group.

- DEPARTMENTAL NEWS -

CHEMISTRY

William and Mary's Chemistry Club was one of sixty-two student affiliate chapters of the American Chemical Society recognized by the Council Committee on Chemical Education for the 1967-68 academic year. These chapters were selected from 500 as outstanding on the basis of their annual reports outlining the year's programs. Professor S. Y. Tyree, Jr. was the club's sponsor.

ENGLISH

Nathaniel Y. Elliott, Assistant Professor, has been informed that his article "Robert Louis Stevenson and Scottish Literature" has been accepted for publication in a forthcoming issue of English Literature in Transition.

MODERN LANGUAGES

Instructors Martha Bien and Carol Doliber and Professors J. Luke Martel and J. Worth Banner, attended the Virginia State Foreign Languages Conference held in Virginia Beach Feb. 28 - March 1.

PSYCHOLOGY

An article by Prof. E. Rae Harcum, and Edwin W. Coppage, a former graduate student here, has been accepted for publication in the Journal of Experimental Psychology. The title of the article is "An Explanation of Serial-learning Errors Within Deese-Kresse Categories."

SCHOOL OF CONTINUING STUDIES

Mr. Purcell and Mr. Looney met with approximately 150 Training and Education Officers at the Fleet Training Center, Naval Station, in Norfolk on March 13, Mr. Looney spoke of the development and mission of the School

School of Continuing Studies (Cont.)

of Continuing Studies. Specific attention was given to the availability of credit courses in the evening through the Extension Division and Evening College.

SCHOOL OF EDUCATION

Royce W. Chesser, Associate Professor of Education, has been named to a one-year term on a 15-member committee to advise the State Department of Education on teacher preparation programs and certification programs.

HIBBARD MEMORIAL CONCERT

A mix of both traditional and contemporary works for band will be featured in the 1969 Carl Hibbard Memorial Concert to be presented by the William and Mary Concert Band, Friday, April 18 at 8:15 p.m. in Phi Beta Kappa Hall.

Proceeds from the concert will go to the Carl Hibbard Band Scholarship Fund which was established in 1958 by Capt. and Mrs. R. C. Hibbard in memory of their son, a former student at the College and a former member of the College Band. The scholarship is awarded annually to a student who can qualify on the basis of musical ability, interest, character, need, and academic achievement.

The band will open their concert with the "Crown Imperial" by William Walton, a march written in 1937 to celebrate the coronation of George VI of England. Six folk tunes included in Lincolnshire Posy by Percy Grainger will be the band's second selection.

The program will also include "Elsa's Procession to the Cathedral" from "Lohengrin" by Richard Wagner; Overture to "Rienzi" also by Wagner; "A Festival Prelude" by Alfred Reed; "Perpetuum Mobile" by Johann Strauss; and "Percussion Espagnole" by Robert Prince.

Featured soloist with the band will be Jeffrey Rockwell, a student from Pacific Palisade, Calif., an accomplished pianist who will be playing concerto No. 1 in Eb for Piano by Franz Liszt. Transcription for band was made by Prof. C. R. Varner, band director. Rockwell, a sophomore at the college is studying piano with Prof. Stephen Paledes of the music department.

Tickets for the concert are \$1 each and may be obtained from band students and at the box office the night of the concert.

JOSEPH KRAFT TO VISIT THURSDAY, APRIL 17

Joseph Kraft, syndicated political columnist will lecture at the College Thursday, April 17.

Kraft will deliver a public lecture at 8 p.m. in the Little Theatre at the Campus Center. A coffee for Kraft will be held in the afternoon at 4 p.m. in the Dodge Room of Phi Beta Kappa Hall.

No topic has been announced for the evening lecture but it is expected that Kraft will discuss his concept of what he has termed "Middle America" or "the Silent Majority". He may also give some of his observations on the new administration.

Kraft was born in South Orange, N. J., and educated at Columbia College and Princeton University. After a year at the Institute for Advanced

Joseph Kraft (Cont.)

Study at Princeton, he joined the staff of the Washington Post as an editorial writer.

He then worked for the New York Times as a writer of the weekly News of the Week in Review section. In 1960 he was a speech writer on the campaign plane of John F. Kennedy. From 1960 through 1963 he was the Washington correspondent of Harper's Magazine. He is currently the author of a syndicated column that appears thrice-weekly, nationwide.

In 1958 his series on Algeria won the Overseas Press Club award for the Best Magazine Reporting from abroad. He is the author of three books, "The Struggle For Algeria" (1960); "The Grand Design: from Common Market to Atlantic Partnership" (1962); and "Profiles in Power" (1966).

His visit on campus is sponsored by the Government Department as part of its visiting lecturer series, funded from the College Science Improvement Program. The program is supported by a grant to the college by the National Science Foundation for curriculum study and enrichment in the departments of economics, government, psychology, sociology and anthropology.

Dr. Richard Curry of the Government Department is in charge of plans for Kraft's visit.

LEAGUE OF WOMEN VOTERS MEET TONIGHT

The League of Women Voters of Williamsburg-James City County will hold a public meeting tonight at 8 p.m. in the Hostess Training Room of the Information Center.

Principal speakers will be David N. Montague, 1st. Vice President of the Republican State Central Committee and Hampton City chairman; and Joseph T. Fitzpatrick, member of the Democratic State Central Committee and Chairman of the 2nd District.

Their topic will be the structure and function of the Virginia Democratic and Republican parties.

MERMETTES SHOW APRIL 15, 16, 17

"Bubbliglubbitypuddlepodge" is the whimsical name of the Mermettes water show which will be given at the Adair Pool April 15, 16, 17 at 8 p.m.

Miss Jan Tomlinson, faculty adviser to the aquatic art club, describes this year's program as a distinct departure from previous programs. There is no central theme this year. The program is a "pot pourri" of aquatic numbers highlighted by experimental use of unusual lighting and sound effects.

In a number entitled "Hysteria" swimmers will use lighted torches for special effects. In "Jellyfish" the girls will use umbrellas painted to look like the tops of jellyfish. Yards and yards of rope have been used to entangle swimmers in the number entitled "The Great Escape."

"Fireworks" is a special number in which the sounds of the water will be used to create unusual effects.

Members of the Mermettes Club have designed costumes, worked out routines and special staging for their show, part of which they will perform during Parent's Day weekend in May.

JOHN FERGUSON TO LECTURE TUESDAY

John Ferguson, noted classicist and currently Old Dominion Visiting Professor in Humanities at Hampton Institute will give a public lecture Tuesday, April 15 at 8 p.m. in the Botetourt Theatre in Swem Library. He will take as his topic, "The Classics in Nigeria."

Professor Ferguson is a native of England educated at Bishop's Stortford College and St. John's College, Cambridge. After serving on the faculties of several colleges including Bishop's Stortford College in England and King's College, Newcastle, Scotland, he became Professor of Classics at University College, Ibadan, Nigeria, from 1956-66. He was Hill Visiting Professor at the University of Minnesota from 1966-68, and has been appointed Dean of Faculty of Arts at the new Open University in Great Britain which will use new experimental electronic teaching methods.

Accomplished in several fields, Professor Ferguson has written several books and many articles on Latin authors including Cicero and Catullus; philosophy, religion, theology and literature. He holds a B.D. degree and was formerly Governor of Yorkshire United Theological College and of the London Missionary Society.

Interested also in music and drama, he has written several plays, one of which, "The Trial" will be presented by the Hampton Institute players this Spring. Professor Ferguson's lecture is sponsored by Eta Sigma Phi ancient languages fraternity.

LAW REVIEW DISCUSSES URBAN CRISIS

Introduced with a statement by former Vice-President Hubert Humphrey and leading off with an article by New York Mayor John V. Lindsay, the spring issue of the William and Mary Law Review devoted its first eight articles to a symposium on "The Urban Crisis." Two other articles discuss the use of computers in government procurement and the policies of the United Nations with reference to marine resources in international waters.

Mayor Lindsay's article discusses "Personal Freedom in a Time of Change." It is followed by an article, "The American Negro Today," by Oklahoma's Senator Fred Harris, derived from the theme of his book, Alarms and Hopes: A Personal Journey, A Personal View, written while he was a member of the President's Committee on Civil Disorders. Other members of the Committee who contributed articles include Congressman James C. Corman of California, "Law Enforcement in the Administration of Justice;" and Professor Lawrence M. Stone of the University of California, "Tax Incentives as a Solution to Urban Problems." A major "Study of Civil Disorder in Detroit" was contributed by Dr. Elliot D. Luby, professor of psychiatry and law at Wayne State University, and Dr. James Hedegard, University of Michigan psychologist. The Luby-Hedegard project was done under a grant from the National Institute of Mental Health. Mary M. Burnett, District of Columbia attorney, is the author of "Crisis in Narcotics -- Are Existing Federal Penalties Effective?" and Professor Maxwell Cohen of McGill University writes on "Civil Disobedience, Dissent and Violence -- A Canadian View."

The article on "Computer Programs in Government Procurement" is by Earl Levy, patent attorney with NASA's Goddard Space Flight Center. The article on "The United Nations and Marine Resources" is by David S. Browning, Houston attorney and former special counsel to the President's Commission on Marine Science, Engineering and Resources.

EASTMAN QUARTET TONIGHT

The William and Mary Concert series will close its thirty-third season with a concert by the Eastman Quartet, tonight, at 8:30 p.m. in Phi Beta Kappa Hall. The Eastman Quartet unites the artistry of Frank Glazer, pianist of international repute whose unique talents have brought him enviable success as a piano virtuoso; Maillard Taylor, concert-master of the Rochester Philharmonic; Francis Tursi, artist-violin teacher at the Eastman School of Music; and Ronald Leonard, first cellist with the Rochester Philharmonic.

The three string players, as the Eastman Trio, have formed the nucleus for highly successful chamber music activities during many years as artist-faculty at the Eastman School of Music. Frank Glazer is well known for his distinguished performances with leading chamber music groups throughout the country.

For their program at the College, the musicians will play Piano Quartet in G. minor, (k. 478) by Mozart; Piano Quartet in E-flat Major, op. 47 by Schumann; and Piano Quartet in C minor, op. 15, No. 1 by Faure.

A limited number of single admission tickets may be available at \$3.00 each.

The concert by the Eastman Quartet closes a series which included performances by the Camerata Singers, the Orchestre de Paris, James Oliver Buswell, IV, violinist, and Julian Bream, lutenist.

VIMS SEMINAR TOMORROW

The Virginia Institute of Marine Science, will hold a seminar tomorrow afternoon at 3:30 p.m. at the former Beach Club, Gloucester Point, with a discussion of "Advanced Research, Technology, and Evaluation of Aquatic Plant Control Methods."

Seminar speaker will be Dr. Ralph Scott, Environmental Resources Branch, Office of the Chief of Engineers, Washington, D.C.

Interested scientists from neighboring institutions are invited to attend.

Refreshments will be served.

The Beach Club is at the foot of Route 1208 (underneath the York River Bridge).

APRIL 11 IS DEADLINE FOR EXCHANGE SCHOLARSHIPS

Tomorrow is the deadline for applications for scholarships to the University of Exeter and the University of St. Andrews.

Under an exchange agreement with the University of Exeter and with St. Salvator's College of the University of St. Andrews, the College of William and Mary will send one of its outstanding students to each of these universities for a year's study (1969-70).

All college fees (registration, tuition, residence, rooms and meals) will be waived for the exchange student.

The Exeter University scholarship is open to students who are completing their sophomore year, or who are members of the graduating class.

The St. Andrews University Scholarship is open to students who are completing their sophomore year.

Exchange Scholarships (Cont.)

Applications for these scholarships should be made not later than tomorrow and addressed to: C. M. McCulley, chairman
Committee on Selection of Students
for Foreign Study.

The application should include a brief statement of the student's general intellectual interests; his proposed line of study for the year abroad; and why he wants to carry on his studies at St. Andrews or Exeter.

EDUCATION COLLOQUIUM

The second session of the Educational Research Colloquium will be held at 4 p.m., on Wednesday, April 23, in the Conference Room of Swem Library. Professor Galfo will present a paper entitled "A Study of the Effects on Pupil Achievement of Certain Audio and Visual Presentation Sequences." Professor Lavach will co-chair the meeting with Professor Schaver of the Psychology department.

The first session of the Colloquium series was held on March 5. Dr. Rae Harcum of the psychology department served as moderator.

CAMPUS FORUMS SLATED APRIL 16, 30

The Student Association and the Sophomore Class will jointly sponsor open forums concerning curriculum and calendar revision Wednesday April 16 and April 30 at 8 p.m. in the Campus Center ballroom. The entire College community is invited to attend and express their opinions on the various subjects to be discussed.

At the April 16 forum, Dr. John H. Willis, Assistant Vice President of the College will discuss various methods of changing the calendar. Dr. Frank B. Evans, of the Department of English, will be moderator for the open discussion to follow.

The second half of the forum will be given over to a discussion of distribution. Miss Marianne Mason will describe several methods of handling distribution and then the audience will be invited to offer opinions. Moderator will be Tim Marvin.

On April 30, Dr. Virgil McKenna of the psychology department will open the forum with a talk on grading systems, including pass-fail systems. Tim Marvin will be moderator for the discussion period to follow.

The second portion of the forum will be given over to concentration requirements. The main speaker will be Dr. Robert A. Johnston, Associate Dean of the Faculty of Arts and Sciences.

PLAY SCRIPTS IN LIBRARY

Faculty members who saw the William and Mary Theatre's well-executed and moving production of THE INVESTIGATION will be interested to know that Louis E. Catron has presented to Swem Library two copies of the script.

ANNUAL SCIENCE CONTEST HELD

The Twenty-first Annual Science Contest for Virginia high school junior and senior men was held at the College of William and Mary on March 22, 1969. Dr. George W. Crawford, Associate Professor of Physics, was in charge of the Contest. Awards are made on the basis of examinations given in the fields of biology, chemistry, mathematics and physics. First place winners in the Contest receive a \$500 scholarship which is renewable annually for four years upon matriculation at the College of William and Mary; second place winners receive a \$300 scholarship renewable annually upon matriculation.

Winners in the various fields are the following: Biology, first place, George Rivers, senior, West Springfield High School, Springfield, instructor, Mr. Richard Shelley; second place, John Parker, junior, York High School, Yorktown, instructor, Mr. Northstein.

Chemistry, first place, Thomas Harris, senior, West Springfield High School, Springfield, instructor, Mrs. Edythe G. Durie; second place, Don Parsons, junior, Princess Anne High School, Virginia Beach, instructor, Mrs. M. E. MacLean.

Mathematics, John M. Daniel III, junior, The Collegiate School, Richmond, instructor, Mr. Richard L. Towell; second place, Leon Harkleroad, junior, Annandale High School, Annandale, instructor Mrs. Frances Ramay.

Physics, first place, Richard Lynch, junior West Springfield High School, Springfield, instructor, Mr. Stuart MacCaffray; second place, Bruce Stevens, West Springfield High School, Springfield, instructor, Mr. Stuart MacCaffray.

It will be noted that three first place winners and a second place winner came from West Springfield High School in Springfield, Virginia. Also the remaining four students from this school ranked very high in their respective tests.

There were forty-nine schools represented. Thirty-two contestants were registered in Biology, thirty-two in Chemistry, fifty-one in Mathematics, and fifteen in Physics. A total of eighty-nine juniors and forty-one seniors, many of whom had taken the test in a different field the previous year, participated.

The Science Contest has three primary objectives: to encourage and assist capable students in the various fields of science and mathematics; to stimulate interest in the study of science and mathematics in the high schools; to attract well qualified students to the College of William and Mary.

Since the great majority of the participants in this Contest are juniors, a number of the students are being brought to the campus at a time when they are making a decision as to where they wish to go to college.

During the past a number of outstanding graduates from the College of William and Mary have been winners in this Contest.

ESSO EDUCATION FOUNDATION PROVIDES FUNDS FOR RESEARCH

The Esso Education Foundation sponsors a program called Support for Promoting the Utilization of Resources (SPUR). Its purpose is to underwrite experiments that promise to lead to more efficient and effective use of the instructional, administrative, and physical resources of colleges and universities. Support is limited to projects on the undergraduate level. The criteria for eligibility of a project are: innovation, increase of efficiency of the resource in question, increase of educational effectiveness, and ability to be duplicated on other campuses. Grant applications should be submitted under one of the following areas: instruction, administration, and/or physical facilities.

Esso Education Foundation (Cont.)

Grants made under the program are limited to \$75,000, but applicants may submit more than one proposal. Grants will be made directly to professional educational institutions either individually or as joint projects. Preference will be given to demonstrations which can be completed in a reasonable length of time, i.e., one or two years from the initiation of the project. To apply, an institution should submit a preliminary outline of the project it proposes.

Recipients are chosen semiannually; Institutions that apply by Feb. 1 will be notified by Aug. 1; those that apply by Aug. 1 will be notified by Feb. 1. Applicants whose projects are selected for further consideration will be asked to submit more detailed plans.

Examples of grants which have been awarded in the past are: New freshman year learning approach, creativity study and curricular experiment, group counseling for under achievers, simulation management planning model, computer-assisted instruction in science and mathematics, computer modeling in biology, and computer modeling for analyses of costs, space, scheduling, and faculty time.

RESEARCH SUPPORT AVAILABLE THROUGH
THE AGENCY FOR INTERNATIONAL DEVELOPMENT

The Agency for International Development of the U.S. Department of State supports a Central Research Program designed to create and supply new information which can be used to secure higher returns in financial and human resources expended in the A.I.D. program.

Because of its low research budget, the A.I.D. is primarily interested in research projects which are directed toward those areas where a modest investment can contribute significantly to a problem solution rather than toward broad general questions. To the extent possible, the projects should be planned with a view toward conducting much of the research activity in the overseas setting and involving less developed country institutions and/or personnel as participants in the research.

The scope of interest of the A.I.D. is quite wide and includes such fields as agriculture, population, health, economics, planning, education and manpower training, and institutional and social development. Following are just a few of the specific areas of interest mentioned by the agency.

Population studies are of prime importance to the foreign assistance program; problems of interest include the efficiency of alternative approaches to family planning services, techniques of measuring and estimating population statistics, analyses of population dynamics, and factors influencing changes in fertility levels.

In the area of health, the agency will support a limited amount of research on such problems as environmental health and the economics of health.

Projects in economics might include research in the areas of regional economic cooperation or intergration, export promotion and import substitution, problems of industrialization, international trade and payments, transfer of technology, aggregate and sectoral planning, foreign assistance, and population and economic growth.

In the field of education, research may include educational planning, the application and improvement of educational technology, innovation in administration and instructional methods and materials, and new techniques for organizing or administering and evaluating programs of manpower training and human resources development.

Research Support (Cont.)

Title IX of the Foreign Assistance Act draws the attention of A.I.D. to areas of social and political development. Hence, the agency will also support operationally useful research in the areas of attitude change, group formation, and institutional development. Studies of the institutional and social development of underdeveloped countries have the objective of advancing the social and political interest of the common man as a concomitant of economic development. Accordingly, the agency also finds useful research dealing with the role of special interest groups in economic development, studies of opinions and attitudes, and the examination of obstacles to development in those countries receiving U.S. assistance.

Two additional research objectives are achievement of greater understanding of individual response to the opportunities in part provided by U.S. aid to foreign countries and the study of those nascent or developing democratic institutions in both the public and private sector which may contribute to the improvement of the individual countries.

Any faculty member of the College is eligible to present to the A.I.D. a proposal for the support of a research project. A preliminary non-formal proposal may be submitted for comment and advice prior to the submission of a formal proposal. Additional information may be obtained by writing the A.I.D. Research and Institutional Grants Staff of the Office of the War on Hunger, Department of State, Washington, D.C. 20523, or by contacting Warren Heemann, Director, Office of Institutional Resources.

* * * * *

ESSO GRANTS

Additional information concerning Esso Education Foundation Funds for Research may be obtained by writing Frederick deW. Bolman, Associate Director, Esso Education Foundation, 49 West 49 Street, New York, N.Y., 100020 or by contacting Warren Heemann, Director, Office of Institutional Resources.

SIGMA XI LECTURE

Dr. Garnett R. Brooks will speak on "Inside Dominica: Flora and Fauna" Wednesday, April 16 at 8 p.m. in the large lecture room in John Millington Hall.

COLOR PRINTS RECEIVED

The Colleague office has a color slide and accompanying color prints of a lovely lady posing beside a 1-0-n-g Cadillac in front of a beautiful white frame home. These were processed by Triple Print Process.

The return address lists the college but no name. Owner please call Ext. 226 or stop by second floor, Ewell Hall.

VARSIY OUTDOOR TRACK

The Varsity track team will be host team for the Colonial Relays to be held here Friday and Saturday.

Schedule for the rest of the season includes the following meets:

April 19	Norfolk Relays	Norfolk
April 25-26	Drake Relays	Des Moines, Iowa
	North Carolina Relays	Chapel Hill, N.C.
	Penn Relays	Philadelphia
May 3	Virginia Intercollegiate	Williamsburg
May 9-10	Southern Conference	Ft. Eustis
May 17	Navy	Annapolis, Md.
May 31-June 1	IC4A	New Brunswick, N.J.
June 13-14	U.S.T.F.F.	Lexington, Ky.
June 19-20-21	N.C.A.A.	Knoxville, Tenn.

DEPARTMENTAL NEWSBIOLOGY

The November, 1968 American Orchid Society Bulletin contains the first paper by Tom Wieboldt '70 "A Dense Population of *Isotria verticillata* in Virginia" prepared in association with Dr. J. T. Baldwin, Jr.

GOVERNMENT

Roger W. Smith has signed a contract with W. W. Norton & Co. for a book on the politics of unconscious guilt.

HISTORY

Prof. Richard Maxwell Brown's article, "Pivot of American Virgilantism: The San Francisco Virgilance Committee of 1856," appears in Reflections of Western Historians, ed. John A. Carroll, a book published on March 15, 1969, by the University of Arizona Press.

MUSIC

F. Donald Truesdall attended a meeting of the Virginia Commission of the Arts and Humanities at Richmond, March 14 and 15. He was specialist in music serving on the panel of the subcommittee reviewing requests for matching grants from the National Foundation of the Arts and Humanities. Other specialists were those in drama, dance, poetry, and arts and crafts. All areas of Virginia were represented.

PHILOSOPHY

Thomas Hearn and Frank MacDonald attended the annual meeting of The Southern Society for Philosophy and Psychology in Miami on April 3 through 5. Mr. MacDonald chaired the session on Philosophy of Mind and Mr. Hearn was a commentator on the principal address in the joint session on Professors and Citizen Activism delivered by Paul Adams of the University of Florida.

PHYSICS

One physics senior, Mr. A. L. Bowling, Jr., has been awarded a National Science Foundation Graduate Fellowship. Three physics seniors, J. B. Cammarata, R. D. Gurney, and D. N. Chard, have been awarded Honorable Mention in the competition for these fellowships.

The following paper has been published:

High-Energy Scattering by Nuclei,
E. A. Remler
Phys. Rev. 176, 2108 (1968)

SOCIOLOGY

Five members of the Sociology faculty are participating in the program of the Southern Sociological Society annual meetings in New Orleans, April 9-12.

Wayne Kernodle will be chairman of a section of papers dealing with "Changing Sex Mores and the Future of the Family." He also will be a member of the Nomination Committee for the Society for next year.

Lawrence W. Beckhouse will present a paper on "Consequences of Changing Values on Familial Socialization."

Vernon Edmonds' paper will be "On the Relationship Between Conservatism and Marital Happiness." Professor Edmonds developed this paper with former honors major in sociology, Glenna Withers.

Elaine Themo will present a paper on "Authoritarianism As An Intermediate Development of Nationalism and Modernization in Latin America."

Marion G. Vanfossen will participate on special panel and the topic of his paper will be "The Public School and Reality Education: On the Structuring of the Former to Include More of the Latter."

* * * * *

Anthony L. Guenther represented the College and the Commonwealth of Virginia at a Symposium on "Crime in Urban America" held at Temple University, April 1-3. Mr. Guenther has been appointed a member of the Law Enforcement Planning Project. He will represent William and Mary and the State Council on Higher Education in studies that will serve to relate the Omnibus Crime Control and Safe Streets Act of 1968 to Virginia Communities.

Miss Themo has completed her degree requirements and will receive her Ph.D. degree from the School of International Service of American University in June.

SCHOOL OF EDUCATION

Dr. John F. Lavach has been selected as a participant in an NSF sponsored post-doctoral Summer Institute in Experimental Psychology at Williams College, Williamstown, Mass.

READING CENTER

Dr. Dawn Lazanas participated in a panel discussion Saturday, March 29, at Virginia Union University. The panelists discussed the implications of learning theory for teachers of reading, Kindergarten through college. Dr. Lazanas spoke about reading at the college level.

ADMIRALTY LAW CLASS TAKES FLAGSHIP CRUISE

The Law School's class in Admiralty Law, taught by Professor E. Blythe Stason, Jr., spent April 7 at sea -- and in style, aboard the U. S. S. Springfield, flagship of the Atlantic Fleet. Admiralty is maritime law, generally concerned with commercial shipping but significantly involving naval shipping as well. The cruise was from the main Portsmouth Naval Base to Yorktown.

WILLIAM & MARY THEATRE TO CLOSE
CURRENT SEASON WITH HAMLET

Hamlet will be presented by The William and Mary Theatre for six performances, April 23, 24, 25, and 26. All evening productions will begin promptly at 8 p.m. Matinees on April 23 and 26 will begin at 1:30 p.m. As always, late arrivals to William and Mary Theatre productions may not be seated immediately.

Prof. Howard Scammon, chairman of the Department of Theatre and Speech, will direct. The scene design is Lawrence Miller; technical direction is by Albert E. Haak.

Two William and Mary seniors will alternate in the title role. Cast as Hamlet are Paul Hildebrand and Robert Henninger. Each will play the part three times.

Concerning the double casting of Hamlet and other roles, Prof. Scammon says, "I hope the varying actors will be consistent in their interpretations but I hope and expect that each one will add something that is his--hence the interpretations should be interesting enough that a real Hamlet-addict might enjoy seeing two different performances."

WEEKLY CALENDAR APRIL 10 - 20

<u>April 10, Thursday</u> - Abelian Society	*CC Room C	8 p.m.
W & M Concert Series (final concert of season) "Eastman Quartet"	**PBK	8:30 p.m.
Holy Communion	Wren Chapel	5 p.m.
Sociology Film "A Time of Burning"	Andrews Audit	4 & 7 p.m.
<u>April 11, Friday</u> - College Women's Club	PBK	3:30 p.m.
VIMS Seminar Speaker - Dr. Ralph Scott	Gloucester Point	3:30 p.m.
<u>April 12, Saturday</u> - Law School Admission	Millington Audit	all day
Admissions Test to Grad. Students in Bus. Adm.	Wash. 200	all day
<u>April 13, Sunday</u> - Balfour-Hillel	CC A & B	11 a.m.
Students for Liberal Action	CC Room C	7 p.m.
Festival Film Society "Repulsion"	Botetourt Audit. Andrews	4 p.m. 8 p.m.
<u>April 14, Monday</u> - Asso. of Am. Univ. Dinner	CC Ballroom	7 p.m.
Asso. of Am. Univ.	Candlelight Tour of Wren Bldg.	9:15 p.m.
Chess Club	CC Room D	7 p.m.
<u>April 15, Tuesday</u> - Young Republicans	CC Theatre	7:30-9 p.m.
Christian Science	Wren Chapel	6:15 p.m.
Mermettes Water Show	Adair Pool	8 p.m.
Eta Sigma Phi Speaker: Dr. John Ferguson, Hampton Institute	Botetourt Theatre	8 p.m.
<u>April 16, Wednesday</u> - Tidewater Div. Supt. Mtg.	CC A & B	1:30 p.m.
Circle K.	CC Room C	7 p.m.
Sophomore Class Curriculum Com. Forum	CC Ballroom	8 p.m.

<u>April 16 (Cont.)</u> - Mermettes Water Show	Adair Pool	8 p.m.
<u>April 17, Thursday</u> - Dept. of Govt. sponsored visit of Joseph Kraft, Syndicated Columnist with Washington Post.		
Luncheon	CC A & B	12 noon
Coffee	PBK	4 p.m.
Lecture	CC Theatre	8 p.m.
Holy Communion	Wren Chapel	5 p.m.
Mermettes Water Show	Adair Pool	8 p.m.
<u>April 18, Friday</u> - Pi Delta Epsilon Publications Banquet	CC Ballroom	6:30 p.m.
Tidewater Supervisors	CC Theatre	1 p.m.
Hibbard Memorial Concert, W&M Band	PBK	8:15 p.m.
Prof. Wm. O'Neal "Architecture of Virginia"	Andrews Audit	8 p.m.
<u>April 19, Saturday</u> - Phi Mu Alpha Sinfonia Formal Dance	CC Theatre	8 p.m.
Freshman Class Party	Matoaka Shelter	1 p.m.
<u>April 20, Sunday</u> - SA Movie	CC Theatre	2 & 7:30 p.m.
Students for Liberal Action	CC Room C	7 p.m.

COLLEAGUE

College of William and Mary Faculty Newsletter

Published by Information Office
Second Floor, Ewell
Ext. 225-226

April 17, 1969

CURRENT EVENTS

Joseph Kraft, syndicated newspaper columnist, is on campus today and will give a public lecture tonight at 8 p.m. in the Ballroom of the Campus Center. Mr. Kraft is being entertained this afternoon at a coffee at 4 p.m. in the Dodge Room at Phi Beta Kappa Hall.

x x x x x

The Mermettes will swim their last swim tonight in a whimsical program of aquatic art entitled "Bubbleglubbitypuddlepodge" in Adair pool beginning at 8 p.m.

x x x x x

Friday evening the William and Mary Concert Band will present the 1969 Carl Hibbard Memorial Concert in Phi Beta Kappa Hall at 8:15 p.m. The director will be Charles Varner.

x x x x x

In Andrews auditorium, Prof. William O'Neal, founder and chairman of the Division of Architectural History of the School of Architecture at the University of Virginia will speak on "Architecture in Virginia" at 8 p.m. Friday evening.

x x x x x

The third annual awards dinner of the William and Mary Law Review will be held Friday at the Statler-Hilton Hotel. Dean Joseph Curtis, who will be leaving the Law School at the end of the current academic year, will be the featured speaker. Charles E. Friend, Jr., outgoing editor-in-chief, will announce the newly selected editor and awards and will be presented to the best staff work among the editorial members for the past year.

x x x x x

"Responsibility in Reporting" will be the topic of a speech by Jim Mays, Director of News and Public Affairs for WTAR Radio-TV in Norfolk at the annual Phi Delta Epsilon Publications Banquet to be held at 6:15 p.m. in the Campus Center Ballroom Friday.

LIBRARY
SEP 30 1970
WILLIAM & MARY

Current Events (Con't.)

Mr. May's speech at 8 p.m. is open to the public.

The Publications banquet is also the occasion at which the winner of the Miss William and Mary contest will be announced and the presentation made of the Virginia Gazette and Kays Gary-Charles McDowell journalism awards.

The Virginia Gazette Award for news writing will be awarded by John O. W. Gravely, III, publisher of the Virginia Gazette.

The Gary-McDowell award for talent in feature writing will be made by Dr. Alex Kallos, former chairman and long time member of the Publication Committee.

-Pulitzer Nominee-

Principal speaker, James Mays was nominated in 1960 for a Pulitzer prize in journalism for exposing a ring of illegal trappers of wild ducks which resulted in passage of new laws in both Congress and the Virginia General Assembly.

Mays entered the profession of journalism in 1947 as a staff photographer on the Norfolk Virginian-Pilot newspaper. For the next eight years he was active in state and national journalism circles, serving as secretary and president of the Virginia Press Photographers Association and as publicity chairman for the National Press Photographers Association.

In 1955 he was transferred to the reporting staff of the Virginian-Pilot and later became first full time outdoor columnist for that paper. In 1964 he undertook a one-year assignment as special assistant to the publisher of the newspaper and in 1965 returned to the newsroom to write a daily local column. He was later appointed Director of Public Relations for the Virginian-Pilot and Ledger-Star newspapers.

Mays left the newspaper field in 1967 to become Director of News and Public Affairs for WTAR. In that capacity he directs a news staff of 23 reporters, editors and photographers who produce 16 local radio newscasts and three TV news programs each day.

x x x x x

Dr. Bernardo Bernichewsky, Visiting Professor of Anthropology from the University of Chile, will present an illustrated talk on "Easter Island - Today and Yesterday" under the auspices of the Anthropology Club, tonight at 7 p.m. in the Campus Center, Room C.

SALARY INCREASES

President Paschall has announced that the raise in the tuition and general fee (\$28 for Virginia students and \$98 for out-of-state students) along with State funds appropriated for instructional purposes, was necessary to provide an approximate 7 percent average for faculty salaries College-wide. Practically all of the increase in the tuition and general fee was required to achieve this increase. A certain minimal amount is reserved for contingencies in items such as library acquisitions and equipment for various departments, all of which is a part of the Maintenance and Operation Budget rather than the capital Outlay Budget.

The President further explained that the overall faculty salary increase for this year (1968-69) over last (1967-68) approximated ten per cent, as compared with the approximate seven per cent increase for next year over the current year.

In summary, he stated that during the current two-year budget biennium period, the overall faculty salary average increase will total 17 percent -- which is a higher percentage increase for the 1968-70 biennium than the American Association of University Professors (AAUP) percentage increase in scale for the same period.

DRAPERS' COMPANY SCHOLARSHIPS

The Drapers' Company of London, England has increased from two to four the number of students who take part in the Exchange Scholarship program involving the College.

Announcement of the increase in the 17 year-old exchange arrangement was made by the Company at its annual meeting in London. Dr. W. Melville Jones, Vice President of William and Mary, represented the College at the function.

Awards amounting to about \$2,400 a year have been made for next year to Randolph Marshall Bell, a senior who will read history at Pembroke College of Cambridge University; and to Miss Caroline Elizabeth Vaiden who will read medieval history at the University of St. Andrews, Scotland.

Bell, from New Kensington, Pa., and Miss Vaiden, from Wayne, New Jersey, will have the Exchange Scholarships for two years.

In the United Kingdom scholarships to William and Mary have been awarded to Stephen A. Mackay, a student at Sherborne School, of Abbeylands, Sherborne, Dorset, who will study English; and William R. G. Bell, a student at Eton College, of London, who will study sociology.

The Drapers' Company also supports scholarships for British students attending Canadian, Australian and New Zealand universities.

EXETER SCHOLARS SELECTED

Six sophomores have been selected to take part in the 1969-70 Junior Year at Exeter program, going into its second year.

The students will spend next year studying at the University of Exeter in England. Currently, 15 William and Mary juniors are at Exeter but the number was reduced for next year because of British government quotas affecting foreign students at some of its universities.

Chosen by a faculty committee were Miss Lynn Emery Johnston of Canton, Ga.; Miss Beverly Ann Sauer of Baltimore; Miss Ivy Jane Akers of Roanoke Rapids, N. C.; William Scott Davis of Plattsmouth, Neb.; Julian Wayne Fore of Richmond; and Miss Diane Helen Laturup of Ledyard, Conn.

Named as alternates are Miss Kathleen Londergan of Wilmington, Del.; Bernard F. Keating of Norwalk, Conn.; Miss Patsy Lee Anderson of Petersburg, Va.; and Thomas Sinclair Rees of Hyattsville, Md.

DEAN LAMBERT VISITS ALUMNI

Dean J. Wilfred Lambert is meeting with alumni this week in New Orleans, Houston, and Dallas-Fort Worth.

Dean Lambert, whose work with students at his alma mater began nearly 40 years ago, will address the three alumni groups on current affairs at William and Mary.

On April 16, he spoke in Houston, at the home of Dr. Bromley Freeman, 202 Pine Hollow Lane. Dr. Henry D. Wilde is president of the Houston Chapter of the Society of the Alumni.

At Dallas-Fort Worth today, alumni will meet at the Prestonwood Country Club for a social hour and dinner. Posie J. Hundley is president of the chapter.

Tomorrow Dean Lambert will officially present a charter as a Chapter of the Society to alumni in New Orleans at a Cantonese-style dinner meeting at the Bali Hai at the Beach, Lakeshore Drive. John F. Morton, Jr., has served as charter president of the chapter since its establishment last year.

"ARCHITECTURE IN VIRGINIA"

William B. O'Neal, founder and chairman of the Division of Architectural History of the School of Architecture at the University of Virginia will give a public lecture April 18.

He will speak on "Architecture in Virginia" in Andrews Auditorium at 8 p.m. under the sponsorship of the college and the Twentieth Century Art Gallery.

O'Neal will use color and black and white slides to discuss the book "Architecture in Virginia: An Official Guide to Four Centuries of Building in the Old Dominion" recently published by the Virginia Museum. The book contains 223 buildings and sites located in all portions of the state.

He will also comment on the architecture of the Williamsburg area and the state in general, with particular emphasis on the 19th century, a period he feels deserves more attention in Virginia.

Author of "A Pictorial History of the University of Virginia" published last year, O'Neal is currently working on an illustrated bibliography of Jefferson as an architect.

HAMLET OPENS APRIL 23

The William and Mary Theatre's production of Shakespeare's Hamlet will be presented six times starting next Wednesday. There will be two matinees, each to begin at 2:00 p.m., on Wednesday, April 23; and Saturday, April 26. Evening performances, starting at 8:00, will be given April 23, 24, 25, and 26.

The Theatre has set the play in a Romanesque period, somewhat before 1000 A.D.

The William and Mary Theatre box office, in the foyer of Phi Beta Kappa Memorial Hall, will open next week. It is open between 3:30 and 5:30 p.m., April 21-25. It also opens one hour before each of the six performances.

Faculty members with complimentary ticket booklets may exchange coupons for reserved seats for any of the six performances except Saturday night.

Regular single admission is \$2.00. All seats are reserved.

Prof. Howard Scammon, director of Hamlet, has double cast some of the major roles. Two different actors will play Hamlet: Paul Hildebrand and Robert Henninger. Also, the role of Polonius will be rotated between Patrick Stoner and Edward Martin. Each performs three times. The "Hildebrand Hamlet" and the "Stoner Polonius" will be presented on Wednesday night, Friday night, and Saturday matinee, and the "Henninger Hamlet" with the "Martin Polonius" will be presented on Wednesday matinee, Thursday night, and Saturday night. A certain amount of difference of interpretation will exist, creating the possibility of two differing performances of interest to Hamlet buffs.

The William and Mary Theatre's first Hamlet was fifteen years ago, in 1954, directed by Miss Althea Hunt, with settings and lighting by Albert E. Haak. That production was staged in Blow Gym. Marion Reeder of Women's P.E. directed the fencing scenes. Howard Scammon played Claudius.

PLAYS IN LAB THEATRE

A series of five plays from the 17th and 18th centuries will be presented today and tomorrow in the Lab Theatre of Phi Beta Kappa Hall. The plays, produced entirely by students, will be performed in-the-round at 4:08 p.m. on each of the two days. There is no admission charge and everyone is invited to attend.

IN-SERVICE MATH INSTITUTE FUNDED

The College has been awarded a grant of approximately \$7,000 by the National Science Foundation to conduct an In-Service Institute in Mathematics for Secondary School teachers during the 1969-70 school year.

The Institute will be directed by Dr. Thomas L. Reynolds chairman of the Department of Mathematics and will be held in Hampton to accommodate teachers on the Peninsula who are interested in participating in the program. No exact site for the Institute has yet been chosen.

The Institute will have an enrollment of 30 to be selected by the College from secondary teachers and supervisors in the area. It is expected, said Dr. Reynolds, that participants will be math majors.

In the fall Dr. Reynolds will offer a course in College Geometry and in the spring, Prof. B. R. Cato of the Mathematics Department, will teach Basic Concepts of Modern Algebra. Courses will be related to material that teachers may be teaching in the classroom but will contain no pedagogy.

Six semester hours of credit will be given for the Institute. Graduate or undergraduate credit may be obtained by Institute participants. Support for participants will include travel allowance and free textbooks, and they pay no tuition or fees.

This Institute is not part of a sequential program but in awarding the grant to the College, the National Science Foundation stated that "while no commitment can be made at this time" it is the Foundation's intention to continue support of this project for two additional years provided available funds are adequate and the project is carried on essentially as originally planned or modified with NSF approval.

The grant to William and Mary is part of a \$3.5 million NSF program during 1969-70 for 13,000 teachers who participate while still carrying on their classroom duties. A typical institute meets once a week for three hours - late afternoons, evenings, or Saturdays - throughout the school year.

The college is currently conducting its 7th In-Service Institute for Junior High School Teachers of Mathematics and elementary teachers under NSF sponsorship.

BAND GOES ON TOUR

The William and Mary Concert Band will go on tour April 24 and will give three concerts before returning to the campus on Sunday, April 27.

The band will play a morning concert at James Monroe High School in Fredericksburg, April 24 and the next day will give an afternoon concert at Wayne Valley High School, Wayne Valley, N.J. At both concerts musicians will modify their formal concert program to include some lighter numbers for their student audiences. They will play portions from the 1969 Hibbard Memorial Concert program and add David Rose's "Holiday for Trombones," and the familiar "Flight of the Bumblebee," as well as some well known marches.

The band will give a formal concert Saturday evening at Memorial High School, West New York, N.J., returning to the school for an encore concert following last year's performance.

Between concerts members of the band are planning to take advantage of their proximity to the musical and theatrical offerings of New York City and attend plays and concerts.

Accompanying the band will be director Charles Varner, Dr. and Mrs. F. Donald Truesdell, and Miss Phoebe Green. They will get an early start Thursday morning. The band bus is scheduled to leave at 5 a.m.

MY FAIR LADY COMING

With opening night for the Backdrop Club's production of My Fair Lady fast approaching, rehearsals are now in full progress. This local adaptation and revival of My Fair Lady -- the musical which claims the honor of being Broadway's longest running musical performance -- is scheduled for production May 15, 16, 17 in Phi Beta Kappa Hall, with a cast of over 70.

Starring in the role of Eliza Doolittle is Janet McLellon of Virginia Beach, a junior concentrating in French. She is a relatively new face to the William and Mary stage, having appeared in the Backdrop Club's 1967 production of Damn Yankees. Theatre, however, is certainly no new experience for Jan, as she lists several credits with the Norfolk Little Theatre, as well as high school productions.

Also starring as the versatile Henry Higgins is Jeffrey Rockwell of Pacific Palisades, Calif. Rockwell is a sophomore majoring in Theatre and Speech. Jeff is a familiar face to theatre audiences at William and Mary. He has performed in Kiss Me Kate, The Fantasticks, The Devil's Disciple, and The Disappearing Sphere. He has appeared in the chorus of Sinfonicon's Ruddigore and Yeomen of the Guard. Before coming to William and Mary, he played several roles in community theatre productions.

Co-starring in the roles of Alfred P. Doolittle and Colonel Pickering are two freshmen -- Calvin Remsberg and Thomas Aldridge. Both are from Alexandria. Remsberg is probably best remembered for his magnificent performance as Bellomy in The Fantasticks earlier this year as well as Hanti in the recent production of The Investigation. He performed with the 1968 "American Youth Performs" Chorus at Constitution and Carnegie Halls under the direction of Leopold Stowkowski, and appeared in the 1967 National Symphony-Washington Ballet "Nutcracker" in two separate roles.

Tom Aldridge has a wide variety of acting and technical credits to his name. He was active with the Fort Hunt High School Drama Department in Alexandria, although the role of Pickering in My Fair Lady will be Tom's first major appearance on the stage here.

Tickets for My Fair Lady will be available by mail order, by telephone request, and in person at the ticket office announced Larry E. Streetman, Box Office Manager for the Backdrop Club. Ticket prices and mail order sales will be announced in approximately ten days, with box office hours of operation to be announced at a later date. All tickets will be sold on a reserved seat basis.

MINI-VISTA HAS MANY HELPERS

In the confusion of activity which surrounds the college-community Mini-Vista anti-poverty project it has been hard to assemble an honor roll of workers.

There is one however, a long one, for the anti-poverty program was successful due to the hard work of a company of volunteers that included a great grandmother, college students, faculty, teenagers, a Naval captain, neighbors and friends of the families being helped and a nine year old boy.

Whatever their profession or avocation, the volunteers who came to Mini-Vista during Spring break took on whatever task had to be done whether it was on the digging detail for a fresh garbage pit, on the construction crew for a new outhouse or on the whitewash line-up painting weatherbeaten boards.

Mini-Vista (Con't.)

Mini-Vista gave a helping hand to a Negro teen-ager and her ailing aunt by mending, re-decorating and adding to their small shack in James City County. Work should be completed this week. The house is still without water, electricity and many of the comforts of modern living, but it has been spruced up and bears little resemblance to the neglected dwelling it was.

When workers outnumbered the jobs to be done at the initial project, students directed their attention to an aged white man who was living alone and in need of some help with housekeeping.

Students on the project represented William and Mary, Thomas Nelson and Christopher Newport Colleges, Lees-McRea College, Mary Washington, Virginia Commonwealth University, Yale, University of Virginia and Hampden Sydney.

-Job Foremen-

Every important job needs a foreman and Mini-Vista had several. They included Dean Armstrong, of Williamsburg whose usual concern is the VEPCO nuclear power plant in Surry; Bob Longstreet a retired contractor; Mike Makulowich, a civilian employee at Fort Eustis; and Ernest G. Warren, a retired Associated Press reporter now living in White Stone. Harland Schone of the Physics Department, Ed Katz, chemistry, Robert Welsh, physics and David Jones, Philosophy helped out too.

Wright Hougland, lecturer in the Department of Fine Arts and Williamsburg architect, drew plans for the addition to the house. Before they were finally executed by Mini-Vista workers help was received from Lyman Peters and Donald Parker, both of Colonial Williamsburg.

Walter Miller of Miller's Camera Shop loaned a camera. Walsingham Academy provided bus service several days. Sue Donaldson, wife of Assistant Vice President John Donaldson pitched in to address envelopes. And Mrs. Ralph Cobb of Williamsburg spent a hectic day on the telephone for Mini-Vista trying to find a replacement for a missing bus driver.

-Catered Lunches-

Mrs. Dean Armstrong was "caterer" for Mini-Vista. She daily collected donated food and took it out to the workers in her stationwagon. Food was provided by area churches, Girl Scout Troops, the Williamsburg Junior Woman's Club and the Keyette Club of James Blair High School.

Charles H. Forbes, III has served by handling donations for the project. Mrs. William Egelhoof, wife of the rector of St. Martin's Episcopal Church and the Rev. Robert E. Kidd, Assistant pastor of the Williamsburg Baptist Church have been among the adults guiding the student project.

On campus, the man who encouraged volunteers to join and work with him was Douglas Chard.

-Special Stars for Service-

Jim Freeman of Freeman Materials, Inc., has a special star by his name. His help to Mini-Vista was costly but he never complained. Problems occurred while his workman was on the job with a cement mixer. They cost him a repair bill of \$78, overtime for his worker and an unplanned trip to Richmond for parts.

A special star for service to Mini-Vista is also due William Smith, Postmaster at Jamestown Island who gave up his own daily transportation to provide a truck.

Faculty members provided housing for co-eds who wanted to stay during the vacation but were without dorm space.

The City and County Welfare Departments and the James River Community Action Agency acted in advisory capacities in selecting projects for work,

Mini-Vista (Con't.)

Cleveland Francis, singer, guitarist and biology major did a lot of hard work on the job before picking up his instrument to serenade co-workers during the lunch break.

Students had many reasons for being involved in Mini-Vista, all of them serious, matter of fact reasons for wanting to help where help was needed. As one student explained it, "I wish we could help more people but it's nice to think we are doing something to help here."

Adults who worked with the students characterized them as a hard working bunch. "They are all self starters," said one foreman.

Said another adult, "This has been the most pleasant and enjoyable group I have ever worked with."

DEPARTMENTAL NEWS*-Ancient Languages-*

Prof. J. Ward Jones attended the annual meeting of the Classical Association of the Middle West and South, held at the University of Colorado, Boulder, Colo. April 10-12.

He delivered a paper entitled "The Trojan Horse: Timeo Danaos et Dona Ferentis" which will be published in a forthcoming issue of The Classical Journal.

-Biology-

Dr. Webb Van Winkle has been selected by Duke University Marine Laboratory as a NSF Postdoctoral Award winner in Marine Biology. The award provides for 12 weeks research at the Duke Marine Laboratory in Beaufort, North Carolina.

-Economics-

Prof. Kee Il Choi attended the Meeting of Economists Specializing in the Japanese Field sponsored by the Joint Committee on Japanese Studies of the Social Science Research Council, on March 15 and 16 in New York City.

-English-

Dr. Frank B. Evans and Dr. Michael J. Lieb attended the annual Southeastern Renaissance Conference, April 11-12, at Charlottesville. Dr. Evans read a paper entitled "The Concept of the Fall in Sidney's Apologie."

x x x x x

On April 11 Prof. Albert Labriola attended the Regional Conference of the National Association of Foreign Student Affairs at Hampton Institute in order to participate in a workshop and a panel discussion on principles and methods of teaching English as a foreign language. Incidentally, several members of the Washington Linguistics Club were present, as well as members of the faculty of the School of Languages and Linguistics at Georgetown.

-Government-

Prof. Chongham Kim was host April 11 to the Commandant of Japan's National Defense College, Hisao Ariyoshi, who is undergoing a three-week visit to the United States under State Department sponsorship. With the Commandant was Makoto Momoi, a professor at the Japanese military college, who is spending the year at the University of N.C. The two visitors met with President Paschall and Dr. John H. Willis Jr., assistant vice president.

Departmental News (Con't.)

-Math-

Dr. Rublein and Dr. O'Neal attended the regional meet of the American Mathematical Society in New York City April 3, 4, and 5. O'Neal presented a paper "Innumeration of Spanning Trees Ineracting with Subgraphs." Dr. Rublein presented "Obstructions to the Integration of Forms."

Present, Past Law Faculty Members Publish

Dr. Dominik Lasok, visiting professor of law from Exeter during the 1966-67 academic year, has recently published a volume on Polish Family Law in London. Dr. William F. Swindler, professor of Law, has been advised by the Bobbs-Merrill Co. that the first volume of his study, Court and Constitution in the 20th Century: The Old Legality, 1889-1932 will be published late in May. It has been adopted as the summer selection of the Lawyer's Literary Club. The manuscript for the second volume, subtitled, The New Legality, 1932-1968, has been delivered to the publishers for typesetting.

April 24, 1969

LAW SCHOOL RECEPTION AND OPEN HOUSE

Ceremonies marking the formal completion of the remodeling of the facilities for the Law School Building will be held Friday afternoon in the Moot Court Room of Marshall-Wythe Hall, the former general library building. The program will begin at 3:30 p.m. and will be followed by a reception and open house, from 4:15 p.m. to 5:00. Members of the College faculty and staff are invited to both the Moot Court Room ceremonies and the reception.

At 2:00 p.m. Friday the final arguments in the intramural moot court competition will be held in the Court Room, before the Hon. C. Vernon Spratley, retired Associate Justice of the Virginia Supreme Court of Appeals. Two other members of the bar, to be announced, will make up the three-judge bench for the argument.

Following adjournment of the moot court session at 3:00 p.m. members of the College and community, invited guests and law school alumni will assemble in the 170-seat Moot Court Room auditorium for the 3:30 ceremonies. President Davis Y. Paschall will officiate, with Congressman Thomas N. Downing as one of the visiting dignitaries. One of the features of the session will be presentation to the law school, for use in the Moot Court Room, of United States and Virginia flags which have flown over the national and state capitols respectively. These are being made available through purchases by the Student Bar Association. Certain other gifts for the new law school facility will also be announced at that time.

The reception will be held in the formal lounge off the first floor of the building, which has been furnished in period style with its central feature the heirloom table from a descendant of John Marshall which was given to the Law School last summer. Portraits of Jefferson, Wythe, and St. George Tucker, as well as three College alumni who served on the Supreme Court of the United States -- Philip Pendleton Barbour, John Blair and Bushrod Washington-- will be permanently displayed in this lounge.

-Alumni Meeting Completes Law Week April 26-

Following the ceremonies marking completion of the law building on April 25, the regular meeting of the William and Mary Law School Association will be held in the Moot Court Room on the morning of April 26, preceded by a coffee hour sponsored by the Student Bar Association. Paul H. Gantt, '42, chairman of the AEC Board of Contract Appeals, will preside.

The annual luncheon of the association, with senior law students as guests, will be held in the Ballroom of the Campus Center at 1:00 p.m. The highlight of this event will be the presentation of the 1969 Marshall-Wythe Medallion to Professor A. James Casner of Harvard Law School. The bronze medal is annually presented to a nationally recognized leader in practice, on the bench or in legal education.

LIBRARY

SCHOOL OF BUSINESS ADMINISTRATION
RECEIVES FEDERAL GRANT

The School of Business Administration has received a grant of \$5,536 for a community service project under Title I of the Higher Education Act of 1965.

The project will be directed by Dr. George D. Cole, Director of Conferences for the School and will focus on the theme: "The Role of the Business Executive in Urban Development and Community Relations."

Tentative plans for the project call for a preliminary consultative conference in June of invited representatives from Tidewater business and industrial concerns, as well as from local government and community agencies. The consultative conference will plan a larger conference for the fall, to be more generally representative of the business community in Tidewater. Some special seminars will be planned in conjunction with this for business leaders who want to pursue the topics of the conference in greater detail.

In addition to faculty members of the School of Business Administration who will assist in leadership, there will be Dr. Hans B. C. Spiegel, who is chairman, Division of Urban Planning in the Columbia University School of Architecture. Dr. Spiegel is editor of a recent book on Citizen Participation in Urban Development published by the NTL Institute for Applied Behavioral Science; Dr. Harold A. Edgerton, chairman of the board of Performance Research, Inc., Washington, D.C., and other industrial leaders still to be named.

CHOIR IS BUSY
WITH TOUR, CONCERTS

The William and Mary choir under the direction of Dr. Carl A. Fehr left to begin an extended tour April 23 and will give five concerts before returning home April 27.

April 23 the "W & M" choir gave a formal concert at Fort Hunt High School, Alexandria, where a William and Mary alumnus, George M. Gibbs, is principal.

Thursday evening, April 24, the choir will sing under the sponsorship of Episcopal Church, Succasunna, N.J.

Friday morning, April 25, the choir will present two assembly programs for the Roxbury High School students of Succasunna.

Saturday evening the choir will present a formal concert at Jericho High School, Jericho, Long Island, N.Y. under the sponsorship of the high school music department.

The choir will present an interesting and varied program on tour. The moving and difficult "Stabat Mater" by Poulenc will be featured in each of the formal concerts. The program will also include exciting folk songs, selections from "Porgy and Bess," the Coronation Scene from "Boris Godounov" by Moussorgsky, Speed Your Journey from "Nabucco" by Verdi, and Regina Coeli from "Cavalleria Rusticana" by Mascagni. The choir has in its repertoire a Patriotic Sequence, which has been arranged by Dr. Fehr. Several concert sponsors have asked that the choir present this as part of their program.

Mrs. Carl A. Fehr will accompany Dr. Fehr and the choir on tour.

- Spring Concerts on Campus -

Following its tour, the choir will join with the chorus for their combined Spring Concerts which will be given May 2 and 3 in Phi Beta Kappa Hall at 8:15 p.m.

The Saturday night concert has been reserved for visiting parents on campus for the annual Parents' Day program so local patrons are urged to attend the Friday evening performance.

HAMLET NOW PLAYING AT PHI BETA KAPPA HALL

The William and Mary Theatre production of Hamlet opened last night in Phi Beta Kappa Memorial Hall.

The presentation is of interest not only because of Shakespeare's great play but also because it marks the 100th Anniversary for Technical Director Albert E. Haak. By the estimates of the Theatre staff, this is the 100th play Prof. Haak has worked at William and Mary since he started at the College in 1947. Interestingly Prof. Haak did settings and lighting for the first William and Mary Theatre production of Hamlet in 1954, produced in Blow Gym. Staff and students have saluted him for his dedication to the Theatre.

Hamlet is scheduled for four more productions: matinee (curtain time 2:00) Saturday, April 26; and evening productions (8:00 curtain) April 24, 25, and 26.

All seats are reserved at \$2.00 each.

Faculty members with complimentary ticket booklets may exchange coupons for reserved seats any night of their choice, except Saturday. The box office is open one hour before curtain time.

As always, late arrivals may not be seated immediately.

PHYSICS COLLOQUIUMS FRIDAY, SATURDAY

Prof. L. Schiff, of Stanford University will be guest speaker at a Physics Colloquium to be held Saturday, April 26 at 10 a.m. in Room 109 of the William Small Physical Laboratory.

Prof. Schiff will take as his topic "Experimental Aspects of General Relativity."

Coffee will be served in the Conference Room at 9:30 a.m.

"Physics and Photosynthesis" will be the topic of a colloquium to be held Friday afternoon, April 25 at 4:30 p.m. in Room 109 of the William Small Physical Laboratory.

Guest speaker will be Prof. R. S. Knox, University of Rochester.

Coffee will be served in the Conference Room at 4 p.m.

ADDITIONS TO STUDENTS FOR JUNIOR YEAR IN EXETER

Committee A, National Exchange Scholarships and Foreign Exchange Scholarships, announces the award of the University of Exeter Scholarship and the University of St. Andrews Scholarship for 1969-70:

Exeter: Miss Lyonn Emery Johnston
Canton, Georgia, a future concentrator in psychology.

St. Andrews: Mr. Julian Wayne Fore
Richmond, Virginia, a future concentrator in government.

Since both Miss Johnston and Mr. Fore were originally chosen for the Junior Year at Exeter program by the committee, they will be replaced in the Junior Year program by the following students: Miss Kathleen Londergan, Wilmington, Delaware, a future concentrator in biology; Mr. Bernard F. Keating, Norwalk, Connecticut, a future concentrator in English.

ARTMOBILE DUE APRIL 28

The premiere showing of many of the Virginia Museum's recently acquired art treasures from Japan will be displayed on campus Monday April 28 through Friday, May 2.

The exhibition entitled "Japanese Art," will be on a Virginia Museum Artmobile. The gallery-on-wheels will be stationed in the parking lot beside Phi Beta Kappa Hall. It will be open to the public Monday through Friday from 10 - 12 noon and 1 - 4 p.m., also 7 - 9 p.m. Tuesday and Thursday evenings.

The 32 articles in the exhibition range in age from the 9th to the 20th centuries A.D. The oldest is a large wood statue of Bodhisattva, a Buddhist saint.

Also in the display are two album leaves from "Tale of Genji," thought to be the world's first novel, three rare scrolls, and a number of other objects recently acquired in Japan for the Museum by art authority Alan Priest.

Priest, who formerly was associated with the Metropolitan museum in New York and now lives in retirement in Japan, is the Museum's advisor on Oriental art. He purchased the objects with income from a special acquisition fund and other private sources.

Among the most unique objects in "Japanese Art" are eight rare sword guards from the 16th, 17th, and 18th centuries. The guards, made of bronze and iron, contain stylized military scenes with gold and silver inlays.

From its permanent collection of Oriental art, the Museum has also included a number of 19th century woodcut prints by such noted artists as Hiroshige and Yeizan, innovators who had a formative influence on Western art and architecture.

Among the other objects are a robe from the No Theatre of the 17th century, 20th century ceramic bowls, and a set of rare screens by the famous 19th century artist Ikkei.

ACADEMY OF MANAGEMENT CONFERENCE
TO BE HELD IN WILLIAMSBURG IN 1971

The School of Business Administration will host the 1971 annual conference of the Eastern Division of the Academy of Management on May 14, 15, and 16. Over 100 participants are expected.

The Eastern Division is one of the four regional organizations within the National Academy of Management, comprised of teachers or graduate students of administration in a college or university and working executives who have made contributions to management practice or theory or are directly interested in management education.

Both the national and regional academies provide a forum for presentation and discussion of management problems at annual meetings and special conferences. Particular emphasis is placed on theoretical frameworks, methodological problems involved in theory and research, substantive research, teaching methodology, curriculum design and other areas directly affecting the development of the area of management knowledge. Strong emphasis is placed on publication of papers, monographs and books contributing to the field.

Dean Charles Quittmeyer and Prof. Marvin Stanely of the School of Business attended the March 28 - 29 Eastern Academy annual conference in Washington, D.C. It was at that conference that the President-elect and his Board of Directors considered and approved holding the 1971 conference in Williamsburg, hosted by William and Mary. The 1970 conference will be held in Boston, Mass.

Prof. Stanley is in charge of arrangements for the 1971 meeting in Williamsburg.

COLLEGE-WIDE READING PROGRAM
CONCLUDES, PLANS FOR NEXT YEAR

A two-part program is scheduled early in May to acquaint the college community with the controversial ideas of the behavioral psychologist, B. F. Skinner.

Skinner's book, "Science and Human Behavior," has been on the reading list for this year's College-Wide Reading Program.

Kathleen Griebe will speak on her experience at the "Utopia" of Twin Oaks, Va., an experimental community begun in 1967 and modelled along the lines that Skinner outlines in his book "Walden Two," May 2 at 3:30 p.m. in John Millington Hall.

She will discuss, among other others, how life is organized at Twin Oaks which is located on a farm near Luisa in central Virginia; how codes of behavior and community property work; how labor credits are awarded; and how one can join or visit the community.

Her visit is co-sponsored by the Department of Psychology and the College-Wide Reading program which has taken as its theme this year "Man at the Mercy of Himself."

Visiting the campus for a talk at 7:30 p.m., Thursday, May 8 in the Campus Center Ballroom, will be W. W. Schoenfeld, professor of psychology at Queen College, City University of New York. The author of some 70 articles and co-author of the textbook "Principles of Psychology, Schoenfeld is vice president of the society for experimental analysis of behavior, vice president of the Pavlovian Society, and on the board of editors of three distinguished journals, including "Journal of the Experimental Analysis of Behavior."

Schoenfeld, an articulate and distinguished disciple of Skinner will further discuss and explain his ideas about the possibility and desirability of programming human behavior.

His visit will be the last in the first year's reading program at the College most of whose expenses have been paid by student organizations.

Other visitors have been Joseph Heller, author of "Catch-22;" J. Glenn Gray, author of "The Warriors;" and Michael Harrington, author of "The Other America."

-Program for Next Year-

In a letter to faculty members this week, Prof. William S. Cobb, Jr., outlined plans for the second College-Wide Reading Program next year.

The topic for next year will be "The Academic Revolution." Four books have been selected for study. They are George Kennan's "Democracy and the Student Left;" Charles Frankel's "Education and The Barricades;" and W. B. Martin's "Alternative to Irrelevance." The authors of the last three will be visiting the campus during the Fall semester.

Faculty members are being asked to volunteer to assist with seminars for freshmen during orientation week next fall. These will involve a discussion of George Kennan's "Democracy and the Student Left" with about 15 students for an hour.

*Daylight Saving Time will
 become effective at 2 a.m.
 Sunday, April 27.*

MAIL ORDER TICKETS
FOR MY FAIR LADY

Reserved seat tickets for the Backdrop Club's production of My Fair Lady are available for purchase by mail order beginning today. Performances are scheduled for May 15, 16, 17 (Thursday, Friday, Saturday) in Phi Beta Kappa Memorial Hall.

All seats are sold on a reserved seat basis, and are \$1.50 each. Seating is available in both the orchestra and balcony of the theatre, with a maximum of 805 seats sold for each performance (no standing room). Patrons purchasing tickets by mail will be afforded the best choice of seats, as all mail orders received prior to the opening of the ticket office on May 9th will receive priority over all other forms of ticket requests.

Patrons desiring to order tickets by mail should include their name and full address, number of seats desired, performance date, and approximate desired location of seating (subject to availability). Full payment must accompany orders by mail (checks should be made payable to "Backdrop Club"). Prepaid tickets will be held in the purchaser's name at the box office, and may be claimed during box office hours of operation in the afternoons, or the evening of the performance. Prepaid tickets are guaranteed seats and are never released for resale. If a self-addressed, stamped envelope is included with the order, tickets will be forwarded to the purchaser by return mail. It is the policy of the ticket office to allow refunds on prepaid mail order tickets only if cancellation is received by the ticket office prior to 7:00 p.m. the evening of the performance for which the tickets are valid.

All mail orders should be addressed to: Ticket Office, Backdrop Club, P.O. Drawer KA, Williamsburg, Virginia 23185.

The box office for My Fair Lady will open May 9th in the foyer of Phi Beta Kappa Memorial Hall. Thereafter, the box office will be open daily (except Sunday) 3:00 to 5:30 p.m. It will also open at 7:00 p.m. the evenings of performance. After May 9th, ticket reservations may be made also by telephone, and in person at the box office.

MARSHALL PAPERS EXHIBIT

A two-week exhibition of manuscripts and books from the career of Chief Justice John Marshall will be displayed beginning May 1 in the Library.

The display, which commemorates the 150th anniversary of the delivery of the opinions in McCulloch vs. Maryland and Dartmouth College vs. Woodward, two landmarks in American jurisprudence, is presented by the Institute of Early American History and Culture, William and Mary, and the Association for the Preservation of Virginia Antiquities.

Among interesting items which will be on display are Marshall's military scabbard, a Hepplewhite mahogany Pembroke table formerly owned by him, his carved ivory letter opener, his folding silver fruit knife, a candlestick formerly owned by him, his judicial robe, and dozens of pieces of correspondence and other memorabilia from Marshall's career.

Volumes and court decisions, along with a number of portraits of Marshall and his colleagues, will be included in the exhibition. In all, the display -- in the Library's Museum -- will have 98 items.

Herbert A. Johnson, associate editor of the Institute, said the display will also include exhibits of archeological and historical research that is currently under way under sponsorship of the APVA, leading toward a projected reconstruction of Marshall's Richmond law office.

Marshall Exhibit (con't.)

"It is entirely fitting that the 150th anniversary of the delivery of these significant opinions should coincide with the 350th anniversary of the meeting of the first legislative assembly in America at Jamestown," Johnson said. "The future Chief Justice was privileged to serve his political apprenticeship in the Virginia House of Delegates during the years from 1782 to 1796. Also appropriate is the connection between this 150th anniversary and the close of the second academic year dedicated to the commemoration of the founding of the College of William and Mary in 1693. Here at the College, John Marshall was trained in the law that was to become his life's work.

"As a mark of its continuing esteem for its distinguished alumnus, the College is co-sponsoring the publication of a multi-volume edition of the Papers of John Marshall," he added. The first volumes in this edition are expected to appear in 1971, under Johnson's editorship.

Sources for material in the display include the Swem Library, the John Marshall House in Richmond, the Virginia State Library, and other libraries throughout the nation. A number of court libraries have also been cited as sources for photocopies of original documents in the display.

The Institute of Early American History and Culture, with its headquarters in the Swem Library, is jointly sponsored by the College and Colonial Williamsburg.

ORNITHOLOGICAL SOCIETIES
TO MEET MAY 1 - 4

Some 300 persons are expected to attend the fiftieth international annual meeting of the Wilson Ornithological Society to be held here May 1 - 4.

The meeting will be a joint session with the Virginia Society of Ornithology and will be sponsored by that organization and the College. Dr. Mitchell A. Byrd, head of the Biology Department, heads the host committee.

Papers will be presented at four sessions of the conference at 9 a.m. and 1:30 p.m. Friday and Saturday. One of the special features of the sessions will be a preview of the "next decade of ornithology" arranged by Dr. Harrison B. Torduff, of the Museum of Vertebrate Zoology at the University of Michigan.

Another highlight of the meeting will be the showing of a spectacular color film "The Birds of Africa and Asia," produced by Dr. M. P. Kahl of the National Geographic Society. The film will be shown at the annual banquet Saturday night at the Statler Hilton Hotel, following an address by Dr. P. Lewis Batts, Jr., of the Department of Biology, Kalamazoo College, Michigan, president of the Society.

Tours and field trips to points of interest in the area are included on the conference program.

Members of the host committee include Mrs. Alfred A. Armstrong, Mr. and Mrs. Paul S. Baker, Mrs. S. M. Beck, Mrs. Mitchell A. Byrd, Dr. and Mrs. G. W. Fall, Dr. and Mrs. John H. Grey, Charles Reeder and Mr. and Mrs. Sydney Mitchell.

The Wilson Ornithological Society was founded in 1888 and honors Alexander Wilson, the first American ornithologist and an early American naturalist. This is the first time the Society has met in Virginia.

CHESS ANYONE?

Anyone interested in playing in the 1st annual Faculty-Student Chess melee contact Peter O'Neil Extension 233.

MISS WILLIAM AND MARY CHOSEN,
JOURNALISM AWARDS MADE

Miss Grace Roselli, a junior from West Orange, New Jersey, was named the 1969 Miss William and Mary Friday night at the annual campus Publications Banquet.

Don Roberts, editor of the Colonial Echo yearbook, announced her selection, which was made from a field of four nominees. Motion picture star Steve MacQueen chose Miss Roselli, following a longstanding tradition of asking celebrities to make the selection.

Last fall's Miss Southern Conference, Miss Roselli is a Spanish major, pianist and band majorette at the College.

The editor-elect of the Colonial Echo, Miss Mary Shorter of Blacksburg, Va., was named 1969 recipient of the Virginia Gazette Award for feature writing in the past year. She has served as associate editor of the College's yearbook staff. The award was presented on behalf of the local weekly newspaper by Dr. Cecil M. McCulley, professor of English.

Miss Virginia Kyle Warren, a junior from Alexandria, was presented the 1969 Kays Gary-Charles McDowell Award. She has served as campus editor of the Flat Hat, the weekly college newspaper. The award is funded by receipts from the sale of "Private Homes in Williamsburg Today," a book published several years ago by the Flat Hat and sold in area shops.

The Publications Banquet is sponsored by Pi Delta Epsilon, college journalism honorary whose president, Al Littlejohn of Charlotte, N. C., was in charge of the program. Dr. Alex Kallos served as master of ceremonies.

James Mays, director of news and public affairs for WTAR Radio-Television Corp. of Norfolk, spoke to the student journalists and guests on "Responsibility in Reporting."

NATIONAL SCIENCE FOUNDATION SEEKS
\$10,000,000 FOR SOCIAL RESEARCH

The National Science Foundation is asking Congress for a ten million dollar appropriation for interdisciplinary research into social problems during fiscal 1970.

According to a statement submitted to the Subcommittee on Science Research and Development of the House Committee on Science and Astronautics by Associate NSF Director Randal M. Robertson, "The principal difference between these efforts and more customary modes of scientific research is that here the dominating criteria guiding the research will arise from the chosen and societal problems themselves, rather than from the methods and techniques of an existing scientific discipline."

Designed to augment and strengthen existing programs, the new projects would include research in the following areas: cultural and social consequences of changes in technology; structure of the urban environment; environment quality in modern society; national manpower needs and incentives; economic and social consequences of peace and war; technology and economic development; and social implications of modern information handling techniques.

The above categories are only general areas. No hard and fast designations have been set. Although the basic purpose of the program is to set up interdisciplinary groups and centers, the National Science Foundation will also support individual projects aimed at special aspects of special questions.

July 1 is the deadline for submitting proposals from universities that seek funds for 1970 summer institutes for secondary school and college teachers of sciences and mathematics.

A copy of guidelines for these institutes is available from the Operations Unit, Office of Assoc. Director (Education) National Science Foundation, Wash. D.C.

THREE RECEIVE LECTURER AWARD

Dr. Leonard G. Schifrin of the Economics Department; Dr. Thomas Hearn, Philosophy Department; and Dr. Virgil McKenna, Psychology Department, have been chosen to receive the Distinguished Faculty Lecturer Award. The three will give lectures on Saturday, May 3 as part of the annual Parents' Day program.

GERMAN CLUB SPEAKER

"German Universities" will be the topic of a talk to be given by Dr. Carl Dolmetsch of the English Department, Wednesday, April 30 at 7 p.m. in the Campus Center Little Theatre at the meeting of the German Club.

DEPARTMENTAL NEWS-Biology-

Dr. Martin C. Mathes visited the Botany Department at Ohio University and presented a seminar entitled "Plant Tissue Cultures." This visit was sponsored by the Visiting Biologists Program of the American Institute of Biological Sciences.

-English-

Dr. Carl Dolmetsch is a contributing editor of The Bibliography of Southern Literature, published on April 15th by The Louisiana State University Press under the general editorship of Louis Rubin, Jr., of the University of North Carolina. He contributed a special section of "Colonial Southern Poets." This work, a cooperative effort involving nearly 100 American literature scholars throughout the country and abroad, is expected to become the standard reference tool for the study of the literature of the American South and it will be kept current in the Spring issue of the Mississippi Quarterly each year and revised every decade. Royalties from this volume will be used to endow the newly-founded Society for the Study of Southern Literature, a professional research organization.

-Geology-

Dr. Bruce K. Goodwin participated in a Science Symposium sponsored by the National Science Teachers Association in Richmond on April 19. In this symposium he spoke on the topic of "Available Resources for Teachers of Earth Science."

-Government-

The Government Department has initiated a series of department colloquia. In March Professor Roger Smith spoke on "Notes on the Sociology of Punishment." The April meeting was addressed by Professor Scott Donaldson of the English Department who spoke on his book, "The Suburban Myth" published this month by Columbia University Press.

-Mathematics-

Professor T. L. Reynolds attended a state-wide Mathematics Conference in Lynchburg, Saturday, April 19. The main purpose of the conference was to discuss mutual problems (in the area of mathematics) related to the two year and four year colleges in Virginia.

On April 25 - 26, Professor T. L. Reynolds is attending a meeting of directors of NSF In-Service Institutes for Secondary School mathematics teachers in Washington, D.C.

Departmental News (con't.)-History-

Bruce McCully reviewed Gerald S. Graham's Great Britain in the Indian Ocean A Study of Maritime Enterprise, 1810-1850 in the February issue of the American Historical Review.

Professors Cranol, Turbow, and Benson and Scott Donaldson of the English Department, attended a meeting of the Organization of American Historians in Philadelphia recently.

-Music-

F. Donald Truesdell recently attended the Southern Division Convention of Music Educators National Conference in Mobile, Alabama, April 17 - 19. He was a member of the Piano Planning Committee and presided in the piano sessions.

The three days included sessions on instructional technology, audio visual aids, humanities, music education research, contemporary music, and music programs covering the various school levels. Meeting in conjunction with MENC were the American Choral Directors Association, American String Teachers Association, College Band Directors National Association, National Association of College Wind and Percussion Instructors, National Band Association, and National School Orchestra Association.

The feature guest speaker was the eminent American composer, author, educator, Gunther Schuller, who spoke on the tonic "The Changing Language of Music." There were over 3,000 in attendance.

-Psychology-

The Eastern Psychological Association Convention was held April 10 - 12, 1969, in Philadelphia, Pa., at the Sheraton Hotel.

Dr. Kelly G. Shaver presented a paper entitled "Pedress and conscientiousness in the attribution of responsibility for accidents." An expanded version of the paper has been accepted for publication in the Journal of Experimental Social Psychology.

Dr. Peter L. Derks presented a paper entitled "Information processing and verbal labels: The Stroop color-word test."

* * * * *

The convention was also attended by Dr. E. Pae Marcum, Dr. Herbert Friedman, and the following Psychology graduate students: Miss Winifred L. Angelo, Mrs. Margaret Satterfield, and Mr. Bernard Klein.

Professor Virgil McKenna's paper, "Stylistic factors in learning and retention," was co-winner of the Junior Award in psychology at the meetings of the Southern Society for Philosophy and Psychology in Miami, April 3 - 5, 1969. The Junior Awards are made for the papers of greatest excellence in philosophy and psychology written by persons who have not had their Ph. D. for more than five years. Professor McKenna's paper was based on his doctoral dissertation which has been published by Educational Testing Service of Princeton, New Jersey, as Research Bulletin 68-28.

-Sociology-

Professors Gray, Liguori, Beckhouse and Themo attended the annual meeting of the Eastern Sociological Society held in New York City.

Departmental News (con't.)*-Theatre and Speech-*

Two plays by Dr. Louis E. Catron, Playwright of the William and Mary Theatre, will be presented by the Virginia Players at the University of Virginia.

Where Have All the Lightning Bugs Gone? will be given starting April 27, and Interrogation starts May 4.

Interrogation is also scheduled for production soon by a professional off-Broadway theatre called "Dramarena." A performance of the play in Washington, scheduled for May, has been postponed until mid-October.

-School of Business Administration-

Prof. John S. Quinn and Tom Frantz, a junior accounting major, will address a meeting of The Virginia Society of Certified Public Accountants, Richmond Chapter, this evening. Guests of the chapter will be high school guidance counsellors from the Richmond area. Messrs. Quinn and Frantz will outline the accounting curriculum at William and Mary and discuss the type of students the accounting profession is seeking.

Dr. Algin B. King, Associate Dean of the School of Business Administration, was one of five judges who met on April 15 in Richmond to select the Virginia Retailer of the Year. The award, to be announced on May 19th in Richmond, is sponsored by the Virginia State Retail Merchants Association.

In addition to Dr. King, the judges included Miss Louise Bernard, formerly State Supervisor of Distributive Education of the Virginia Department of Education; Mr. Peyton Winfree, Director of Public Relations and Advertising for the Norfolk & Western Railroad; Mr. Frank Raflo, owner of Raflo's in Leesburg and a former Virginia Retailer of the Year; and Mrs. Ulrich Troubetzkoy, member of the faculty of Virginia Commonwealth University and president of the National Federation of Press Women.

-School of Continuing Studies-

On March 28th, the School of Continuing Studies sponsored a meeting of the Deans and Directors of Evening Colleges in Virginia institutions. The group discussed matters of mutual concern.

Dr. D. J. Herrmann and Mr. E. L. Looney attended the annual Spring Conference of Region V of the Association of University Evening Colleges at the University of Maryland on April 11. Dean Herrmann completed his term as President of the organization at this meeting. The previous afternoon was spent in conference with officials of the Evening College (formerly McCoy College) of the Johns Hopkins University.

-School of Education-

The U. S. Office of Education has announced acceptance of Professor Galfo's report of "A Study of the Effects on Pupil Achievement of Certain Audio and Visual Presentation Sequences."

Copies of the report will be made available on microfiche and in regular hard copy through the Educational Research Information Center (ERIC) at Stanford University, Calif.

Dr. John F. Lavach addressed faculty members from eight Tidewater schools of nursing on Thursday, April 17th. The topic of his speech was "Principles of Learning" and it was part of a one day workshop conducted at the Louise Obici School of Nursing, Suffolk, Va.

Paul Clem, Don Herrmann and Curt O'Shell attended the annual conference of the Virginia Personnel and Guidance Association in Staunton, April 18-19. Dr. Herrmann was one of the organization's past presidents honored at the Friday night banquet.

WEEKLY CALENDAR APRIL 24 - MAY 4

<u>April 24, Thursday:</u> Spring Convocation	Blow Gym	11 am
General Honors Program Dinner	CC* Rooms A & B	6:30 pm
Women's Recreational Association: Bridge Intramurals	CC Theatre	6:30 pm

College of William and Mary Faculty Newsletter

May 1, 1969

Published by Information Office
Second Floor, Ewell
Ext. 225-226

PARENTS' DAY

NBC newsmen Peter Hackes and Congressman William D. Hathaway from Maine, will headline the Parents' Day program this week.

Hackes, a veteran of 14 years of news reporting with NBC, will speak on "The Space Program - What's In It for Me," Friday evening at 8:15 p.m. in the Campus Center Ballroom. Hackes specializes in coverage of space flights and will be on campus just one week ahead of the next projected Apollo flight.

Hathaway, a member of the House Education and Labor Committee will speak at the Lake Matoaka Amphitheatre, Saturday morning at 11:15 a.m. He will discuss higher education today. The congressman, now in his second term, has served on a special subcommittee to investigate the causes of campus violence.

Following the address by Hackes Friday evening, the Student Association will hold a reception in the Great Hall of the Wren Building beginning at 9:30 p.m.

Saturday morning following registration, faculty are invited to join parents at a Continental breakfast to be served in Andrews Hall from 9:30 to 11 a.m.

The three faculty lectures will begin at 10 a.m. Thomas Hearn of the Philosophy Department will speak on "Tolerance" in Andrews Hall. Virgil McKenna, Psychology Department, will speak on "Action Research as a Technique for the Teaching and Learning of Psychology," in Room 109, Small Physics Building.

Dr. Leonard Schifrin, chairman of the Economics Department will speak on "Institutional Economics and 1969" in Room 113, Small Physics Building.

Lunch will be served in the Lake Matoaka picnic area and parents will be serenaded by the William and Mary band.

After lunch the rest of the day's schedule is as follows:

Spring Sports Program:

Lacrosse: W & M vs Richmond	Women's Athletic Field	1:30
Football: Scrimmage & Clinic	Cary Field	2:00
Baseball: W & M vs Davidson	Cary Field Diamond	3:00

Tour of Academic Facilities 3:00

Forum: "Current Issues at W & M"

"In Loco Parentis"	CC* Little Theatre	3:30
"Social Life and the Greek System"	CC Sit N Bull	3:30
"Student Freedoms in the Academic Community"	CC Ballroom	3:30
"Change and Dissent"	CC Rooms A & B	3:30

*CC - Campus Center

LIBRARY
MAY 1 1969
WILLIAM & MARY

Parents' Day (con't.)

Variety Program Mermettes W & M Gymnastics Team The Cottingham Trio	Adair Gymnasium	8:00
Concert by the W & M Choir (Advance reservations only)	Phi Beta Kappa Hall	8:15

There will be displays of student art in the Campus Center and the Lobby of the Andrews Hall of Fine Arts. In addition, the College's Chrysler Collection of Contemporary Art will be available for viewing and the Museum of the Swem Library will feature a display honoring one of William and Mary's distinguished alumni, John Marshall.

*Classes are cancelled for Saturday,
May 3 so that students may
attend Parents' Day
with their
parents.*

RAFT DEBATE TONIGHT

Prof. Alan J. Ward, Government department, will serve as moderator for the annual Raft Debate to be held tonight in the Campus Center Ballroom. Prof. David Jones, Philosophy department will be the Devil's Advocate. Debate begins at 8 p.m.

On the raft will be Robert Welsh, physics, representing the natural sciences; Russell Norman, psychology, representing the social sciences; and Alexander MacGregor, Ancient Languages, humanities.

The three scholars, each the sole surviving representative of his discipline, are on a one-man raft. Which one should remain on the raft so that the knowledge he possesses shall survive?

Students will choose the winner!

INSTITUTE OF EARLY AMERICAN HISTORY & CULTURE,
ANNUAL MEETING MAY 2 - 3

The Council of the Institute of Early American History and Culture will hold its annual meeting in Williamsburg on Friday and Saturday.

The Council, composed of 16 leading historical scholars, is the advisory body of the Institute, which is a research and publishing organization sponsored jointly by the College and Colonial Williamsburg. The Institute's headquarters are in the Earl Gregg Swem Library.

At a business meeting Friday morning, the Council will hear reports from Lester J. Cappon, director; Stephen G. Kurtz, editor of publications and of the Papers of John Marshall; Thad W. Tate, editor of the William and Mary Quarterly; Herbert A. Johnson, associate editor of the Papers of John Marshall; Bernard W. Sheehan and Sung Bok Kim, fellows of the Institute.

That afternoon, members will separate into committee sessions on the Quarterly and on other publications.

President and Mrs. Carlisle H. Humelsine of Colonial Williamsburg will entertain the Council at functions, as well the Institute itself.

Since its founding in 1943 the Institute has published 60 books under joint imprint with the University of North Carolina Press. One of the Institute's most recent publications, Winthrop D. Jordan's White Over Black, won the Emerson Award for 1968 of Phi Beta Kappa, the Parkman Prize of the Society of American Historians, the 1968 National Book Award, Columbia University's Bancroft Prize, and is one of two remaining volumes under consideration for the Pulitzer Prize in the field of history and biography.

The Institute has also published the Virginia Gazette Index and is the publisher of the leading magazine of early American history, The William and Mary Quarterly, now in the 26th year of its Third Series, with subscribers throughout the nation and in 32 foreign countries. Twenty Institute book titles are in paperback reprints.

The Council includes: C. Waller Barrett, Charlottesville, Va.; George A. Billias, Clark University; Richard S. Dunn, University of Pa.; Lawrence A. Harper, University of California at Berkeley; George L. Haskins, University of Pa. Law School; Cecilia Kenyon, Smith College; W. Kaye Lamb, Ottawa, Canada; Bruce T. McCully, College of William and Mary; Jackson T. Main, State University of New York at Stony Brook; Andrew Oliver, New York City; Bradford Perkins, University of Michigan; David B. Quinn, University of Liverpool; Edward M. Riley, Colonial Williamsburg; Clinton Rossiter, Cornell University; Clifford K. Shipton, Shirley Center, Mass.; Clarence L. Ver Steeg, Northwestern University; and ex officio, Carlisle H. Humelsine, President of Colonial Williamsburg, and President Davis Y. Paschall.

COLLEGE HOSTS NIMH WORKSHOP

The College and the Department of Psychology is currently hosting a high level Workshop on Recent Advances in the Psychobiology of the Depressive Illnesses, sponsored by the National Institute of Mental Health of the Department of Health, Education and Welfare.

Designed to provide a forum for summarizing and discussing recent advances in the understanding of the basic biology of the depressive illnesses, the workshop has drawn important research psychologists and psychiatrists from Universities and Hospitals across the country.

NIMH Workshop (con't.)

The format of the workshop which has been arranged by Dr. James Asa Shield, Jr., and Dr. Thomas A. Williams of NIMH, has been designed to maximize opportunities for discussion of such issues as: What is now known about the abnormal body mechanisms of the various depressive illnesses?; To what extent is the present fund of knowledge limited by technological constraints imposed by the necessity of studying psychiatric patients?; To what extent is the fund of knowledge limited by gaps in the understanding of normal mammalian biology?

The workshop will also explore what avenues of future research appear most promising or of critical importance at this time. The workshop is being undertaken at this time as part of NIMH's continuing attitude of promoting research on mental illnesses and particularly depressive illness with a future goal of aiding patients through this research.

Dr. Seymour S. Kety, of the Department of Psychiatry, Harvard University, and Massachusetts General Hospital will be chairman of the final panel discussion Friday morning which will discuss projections for future research.

Comments will be offered by Dr. Eugene L. Bliss, chairman of the Department of Psychiatry, University of Utah College of Medicine; Dr. Charles Shagass, Eastern Pennsylvania Psychiatric Institute; Philadelphia; Dr. David A. Hamburg, chairman of the Department of Psychiatry, Stanford University School of Medicine, Palo Alto, Calif; Dr. Eli Robins, chairman, Department of Psychiatry, Washington University School of Medicine, St. Louis, Mo.; and Dr. Roy R. Grinker, Sr., of Michael Reese Hospital, Chicago.

The workshop opened Wednesday with an afternoon workshop on biochemistry chaired by Dr. Bliss. That evening Dr. Robins spoke at a banquet at the Conference center on "The Contributions of the clinician to the problem of Nosology in depression

Thursday morning's panel on Physiology was chaired by Dr. Shagass. A participant on the panel on Sleep Research was Dr. David R. Pawkins, chairman of the Department of Psychiatry, University of Virginia School of Medicine, Charlottesville.

Friday morning's session will be given over to a panel discussion of endocrinology chaired by Dr. Hamburg, to be followed by the concluding session and closing remarks by Dr. Williams and Dr. Martin Katz of NIMH.

OVERSEAS STUDY GRANTS

The Institute of International Education officially opened its competition today for grants for graduate study or research abroad, and for professional training in the creative and performing arts during the academic year 1970-71.

Candidates who wish to apply for an award must be U.S. citizens at time of application, have a bachelor's degree or its equivalent before the beginning date of the grant and, in most cases, be proficient in the language of the host country. Selections are made on the basis of academic and/or professional record, the feasibility of the applicant's proposed study plan, language preparation and personal qualifications.

Application forms and information for students currently enrolled in William and Mary may be obtained from the campus Fulbright Advisor, Prof. Carl Dolmetsch, in Wren 312 (Ext. 359). The deadline for filing applications is October 15. Rising seniors are advised to initiate application procedures before the end of this semester.

DOCUMENTS, PORTRAITS GIVEN TO LAW SCHOOL

Among the gifts announced at the ceremonies for the past Law Weekend were a set of historic telegrams presented by William D. Geiger of Williamsburg, and several sets of portraits presented by alumni and local law firms. All of the gifts marked the special session in the new Moot Courtroom of the Law School recognizing the completion of its new facilities.

The Geiger gift consists of eight telegraphic communications between U.S. Attorney General Richard Olney and U.S. Attorney Thomas Milchrist of Chicago, in connection with the great Pullman railroad strike of 1894. Attorney Milchrist, who was Geiger's great-grandfather, was in charge of government legal maneuvers which led to the famous injection against Eugene V. Debs, union leader in the strike. The gift was especially significant, as President Davis Y. Paschall pointed out in accepting it for the Law School, because it represents the starting point for a documentary collection of great constitutional cases which will be assembled and maintained by the Law Library. The labor injunction which developed out of the Pullman strike became an issue in constitutional history which was not disposed of until the enactment of the Norris-LaGuardia Anti-Injunction Act of 1932.

A set of matched portraits of the fourteen Chief Justices of the United States, from John Jay to Earl Warren, was presented by a group of alumni for display in the new Moot Courtroom. Another set of matched portraits of the Chief Justices of Virginia, from colonial times to the present, is being given to the Law School by the Williamsburg law firm of Carneal, Smith and Athey in appreciation of the professional contributions of Joseph Curtis, Professor of Law since 1948 and Dean of the School since 1964.

The William and Mary Law School Association at its meeting Saturday approved a proposal to appropriate funds toward the purchase of a private law collection to furnish the new Faculty Library in the Law School.

CHOIR TO SING IN WASHINGTON

The William and Mary Choir has accepted an invitation to perform at the 20th annual tribute dinner of the Freedoms Foundation in Washington, May 8, honoring five leading Americans as "Real Heroes of America."

The \$50-a-plate event at the Mayflower Hotel, will be under chairmanship of Howard H. Callaway, who heads the Foundation's Board of Trustees.

The foundation, with headquarters in Valley Forge, Pa., was founded in 1949 to "create and build a better understanding of the spirit and philosophy of the U.S. Constitution and Bill of Rights."

To be honored this year are Senator Albert W. Hawkes, former Senate Chaplain Dr. Frederick Brown Harris, Admiral Arthur W. Radford, Admiral Arleigh A. Burke and General Bruce C. Clarke.

A 42-member traveling contingent, selected from the Choir's total of 80 members, will make the trip to Washington.

Dr. Carl A. Fehr, the Choir's director for a quarter of a century, will direct.

During the past year, the choristers have performed at conventions of the American Legion and Lions' International, along with their traditional Williamsburg concerts and the nationally televised Christmas performance.

MARINE SCIENCE SEMINAR

Capt. W. F. Searle, Jr., Department of the Navy, Washington, D.C., will be guest speaker at seminar to be held tonight at 7:45 at the former Beach Club, Gloucester Point, sponsored by the Virginia Institute of Marine Science.

Capt. Seale will speak on "Ocean Engineering and Salvage."
Interested scientists are invited to attend.

MCKENNA WINS TRIPLE HONORS

Virgil McKenna in the psychology department set a record in April by winning three awards within one month.

His paper "Stylistic factors in learning and retention" was co-winner of the Junior Award in psychology at the meetings of the Southern Society for Philosophy and Psychology in Miami April 3 - 5.

The Junior Awards are made for the papers of the greatest excellence in philosophy and psychology written by persons who have not had their Ph.D. for more than five years.

Dr. McKenna has been chosen as one of the three Parents' Day speakers and will speak on "Action Research as a Technique for the Teaching and Learning of Psychology" at 10 a.m., Saturday morning in Small Physics Building, room 109.

At the spring Honors Convocation McKenna received the Distinguished Faculty Award from Tim Marvin, retiring president of the Student Association who cited McKenna's unflagging energy in meeting his numerous campus committee assignments.

HEW SUPPORTS RESEARCH ON ALCOHOLISM

The U.S. Department of Health, Education, and Welfare is accepting applications for Research Scientist and Research Scientist Development Awards on behalf of candidates who propose to engage in research on problem drinking and other aspects of alcoholism. Research may focus on the biological, sociological, psychological, epidemiological, or other relevant aspects of alcoholism. Examples of problems which might be researched are: effects of ethanol on the brain and other organ systems, myocardial pathology and anemia, studies of variations in drinking practices, patterns of alcohol consumption by alcoholics, and the efficacy of different methods of treatment. For additional information, application kits, and instructions write to: Research Scientist Development Section, Behavioral Sciences Training Branch, National Institute of Mental Health, 5454 Wisconsin Avenue, Chevy Chase, Maryland, 20015, or contact Warren Heemann, Director, Office of Institutional Resources.

FROM THE TRACK & FIELD HONOR ROLL

The program for the recent Colonial Relays track and field meet credited a William and Mary athlete with a record that probably will go unchallenged for quite a while:

3000 Mile Steeplechase --
Terry Donnelly, 1968 NCAA
All-American

Actually not too many were entered in this division.

NSF ANNOUNCES RESEARCH PRIORITIES FOR 1970

Dr. Leland Haworth, Director of the National Science Foundation recently announced the NSF research priorities for the fiscal year 1970. The following new and continued areas of emphasis in the Foundation's research program were identified: oceanography, chemistry, atmospheric sciences, social sciences, elementary particle physics, plasma dynamics, heat transfer, solid state compounds, polymers, the effects of environmental pollution on biological systems, and molecular structure of biological systems.

In addition, the NSF will increase its research support in those areas of the social sciences such as economics, sociology, and social psychology, which underlie or are relevant to current social problems. The Foundation also wishes to emphasize "interdisciplinary research relevant to problems of our society . . . designed to bring together and support within the universities the multidisciplinary scientific teams needed to grapple with very broad problems of society."

The College has been encouraged by the Association of American Colleges to recommend that faculty members whose professional interests coincide with the above research areas and who are not now receiving support from NSF explore the possibility of applying for support from the Foundation next year. For additional information, contact Warren Heemann, Director, Office of Institutional Resources.

NATIONAL LAW REVIEW MEET HERE IN 1971

The William and Mary Law Review will serve as host to the 1971 meeting of the National Conference of Law Reviews, it was announced this week at the 1969 conference in Boston. The prestigious work session, bringing together more than 200 of the law school journals of the United States and Canada, is annually sought by a large number of schools. Williamsburg was chosen largely on the success of the Southern Conference of Law Reviews meeting held here early in March.

SUMPOSIUM ON CAMPUS UNREST

The Graduate Student Association will sponsor a symposium on the topic, "American Campus Revolts: Reaction or Renewal?", on Wednesday evening, May 7, at 7:30 in Millington Hall.

Four members of the faculty--Jeremy C. Jackson, history; James Livingston, religion; Russell Norman, psychology; and Roger Smith, government--will begin the discussion with initial statements. It is hoped that a general exchange of views, among panel members as well as with the audience, will follow.

A PROBLEM PROJOUW

From a notice to all classes:

"Kathleen Griebe, a representative from Twin Oaks, an experimental community patterned after B. F. Skinner's Malden Two, will speak in the auditorium of Andrews Hall (please note the change from Millington) at 3:30 on Friday, May 2. His visit is jointly sponsored by the Psychology Department and the College-Wide Reading Program."

SUNDAY CONCEPT

The Music Department will conclude its 1968-69 Collegium Musicum concert series Sunday with a performance by Antonio Rodriguez-Baciero, pianist, at 4 p.m. in the Campus Center Ballroom.

Choosing "Four Centuries of Spanish Keyboard Music" from his repertoire of Spanish Polyphonic music for keyboard instruments, Senor Baciero will play pieces by sixteenth and seventeenth century composers Antonio de Cabezon, Correa de Arauxo; P. Miguel Lopez and Joan Cabanilles.

He will play three short one-movement sonatas by eighteenth century composers Mateo Albeniz, Freixanet and Padre Antonio Soler and will conclude his concert with three pieces by nineteenth and twentieth century composers Isaac Albeniz, Joaquin Rodrigo and Manuel de Falla.

Baciero has been praised by critics as a "thoughtful and sensitive artist with a flair for reproducing on the piano the sound of a clavichord."

Coming events on the College musical calendar include a senior recital, May 11; a performance by the College-Community Orchestra, May 19; and a concert by Robin Roark, tenor, May 20.

PARTY FOR FACULTY CHILDREN

Kappa Kappa Gamma sorority will entertain children of the faculty at a Lollipop Party in the garden of the sorority house, 1 Richmond Road, Sunday afternoon, May 4 from 2 - 4 p.m.

DEPARTMENTAL NEWS*-Anthropology-*

Dr. Theodore Reinhart and Dr. Bernardo Berdichewski of the University of Chile, visiting professor in the Department of Anthropology for the Spring semester, will attend the annual meeting of the Society for American Archeologists in Milwaukee May 1 - 3. Dr. Berdichewski will present a paper entitled "The pre-history of the Araucanian Indians of Chile."

-Chemistry-

Richard Kiefer attended the national meeting of the American Chemical Society in Minneapolis, Minn., from April 13 - 18. He presented two papers at the meeting: "The production of P32 and P33 from various targets with 550 MeV protons" and "The 600 MeV proton synchrocyclotron at the Space Radiation Effects Laboratory in Virginia."

While in attendance at the annual meeting of the American Chemical Society in Minneapolis, April 13 - 18, Malka Bilinski presented a paper: "Complex formation and oxygenation of manganese(II) in pyrophosphate solutions." The work was done at Cal Tech in Pasadena under the direction of Prof. J. Morgan.

-Economics-

Taylor Cousins and Martin Garrett attended the Southeastern Regional Science Association Meetings at the University of North Carolina, April 17 - 18. Professor Garrett was a panelist on Urban and Regional Development and discussed a paper concerning the regional development of the Piney Point, Maryland area.

Departmental News (con't.)*-English-*

"The Suburban Myth" by Scott Donaldson, published by the Columbia University Press, will be released June 11. Advanced copies of the book will be in the College Bookstore, however, in mid-May.

One excerpt from it will appear in the June/July issue of Interplay magazine.

In his book, developed from a doctoral thesis in American Studies at the University of Minnesota, Professor Donaldson attacks the false image of the suburbs which he feels got its start in the 1950's.

With his first book off the press Donaldson is already at work on a second one on Winfield Townley Scott, an American poet who died in 1968. He plans to study Scott's papers this summer at Brown University Library.

Prof. Carl Dolmetsch's brief review of Dovisch in the Wilderness and Other Stories (Bobbs-Merrill, 1968), a collection of short fiction by Herbert Wilnew, appears in the current issue (April) of Choice.

-Government-

May 1st is the publication date in London for a book by Alan J. Ward, Assistant Professor of Government. The book, Ireland and Anglo-American Relations, 1899-1921, is published jointly by Wiedenfeld and Nicolson and the London School of Economics and Political Science. The North American rights have been purchased by the University of Toronto Press which will publish the book in the United States and Canada in June. In the course of his research Dr. Ward crossed the Atlantic several times and visited Ireland on three occasions. He did extensive work in archives in Washington, New York, New Haven, Boston, London, Oxford and Dublin. The project was underwritten by a number of grants, most notably a Rockefeller fellowship awarded by the British Association for American Studies, and grants from the British Council, the London School of Economics and Political Science and the University of Adelaide, South Australia.

On April 19th, Dr. Ward read a paper, "Problems of parliamentary democracies the case of the Irish Republic," to the Political Science section of the Virginia Social Science Association.

Dr. Ward will be on leave for the fall semester 1969. Supported by a grant from the College Science Improvement Program, he will be a member of the Institute for United States Studies at the University of London.

-History-

On April 24th Prof. Richard Maxwell Brown lectured at Oberlin College, Oberlin, Ohio, on "Violence in American History" in the 1968-69 Oberlin Visiting Lecturers in American History series.

Brown will participate in a conference on "Violence in American History" to be held at Case Western Reserve University, Cleveland, Ohio, May 13 - 17. On May 16 he will read a paper on "Vigilantism in America," and on May 17 he will participate in a panel discussion on "Violence in American History."

-Philosophy-

Prof. Foster's Article, "The Causal Objection to Precognition," has been accepted for publication in a forthcoming issue of The Personalist. This journal is an international review of Philosophy and related areas and is published by the University of Southern California at Los Angeles.

-School of Education-

Dr. James D. Cowles spoke on "Some Aspects of Early Childhood Education" at the annual meeting of the Tidewater Supervisors of Instruction April 18 in Williamsburg

S.O.S. ASKS HELP FROM FACULTY

Student Opportunities Service is an attempt at communication between college students and an underprivileged community, an attempt at education in the real world which has succeeded for the past four years and will be realized again this summer. Six William and Mary students will spend six weeks this summer in Eureka Hollow, West Virginia.

Following the pattern established in previous S.O.S. projects in Bolivia, Puerto Rico, the Philippines, Oklahoma, and West Virginia, they will set up programs which will give the team a means of entering into and understanding the community life in hopes that a reciprocal understanding will evolve.

-Eureka Chosen-

William and Mary's S.O.S. team contacted the Council of Southern Mountains in December to explain purpose and plans. They suggested Eureka Hollow as a potential project site. Over semester break, students visited Eureka, a community of approximately fifty families where most of the men are on welfare. The high school drop-out rate is phenomenal.

With members of the community, they discussed the community's reaction to our plan for summer, and talked over their suggestions for recreational, arts and crafts, and sewing programs, essentially geared to the children living there.

-S.O.S. on Campus-

"S.O.S.'s function on campus has been to channel volunteer work to such places as the Day Care Center and Eastern State Hospital and, primarily, to raise money for this summer. By selling hot dogs, sponsoring a dance, and speaking to interested groups, we have managed to raise the minimum amount needed for the project.

We now need money to buy bats and balls, supplies for arts and crafts, material, thread, patterns. We are reaching out to you, as teachers, for help in this educational experience. You can help us by donating suggestions, money and expressions of interest. Big checks, little checks, suggestions, whatever you want to give may be addressed to Student Opportunities

JAMESTOWN DAY CELEBRATION

Dr. David B. Quinn, author, scholar and historian and the first holder of the James Pinckney Harrison Chair of History at the College, will deliver the address at the annual Jamestown Day celebration on Sunday, May 11.

Activities begin at 3 p.m. to commemorate the 362nd anniversary of the first permanent English settlement in America and the 350th anniversary of the first representative assembly in America at Jamestown 12 years later.

Dr. Quinn who is professor of modern history at the University of Liverpool has been a frequent visitor to the United States since his association in 1948 with the Institute of Early American History and Culture.

He is currently compiling and editing early documents for the first volume of "The Documentary History of the United States" as well as writing a history of America from 1615 for the New American Nation Series. Both works will be published by Harper and Row.

Each year, as part of the Sunday's Jamestown Day program, the Association for the Preservation of Virginia Antiquities grounds, the Colonial National Historical Park facilities and Jamestown Island are open to the public after 2 p.m. free of charge.

MISS ARLEDGE WINS AT VOCAL AUDITIONS

Miss Patricia Arledge, a junior, placed first in recent state vocal audition at Shenandoah Conservatory in Winchester. She is the daughter of Mr. and Mrs. Lee Arledge, 514 Lilac Drive, Portsmouth, Va.

Miss Arledge studies with Robin L. Roark of the Music Department. She will be presented in concert May 19 by the Williamsburg Friends of Music who will sponsor the first public concert by the College of William and Mary-Community Symphony Orchestra under the direction of Prof. Alan C. Stewart. The concert will be held in Phi Beta Kappa auditorium on campus. She will sing three arias from grand opera, "Verdrai carino" and "Non mi Dir" from Don Giovanni and "Vissi D'Arte" from Tosca.

*The W & M Stage Band and Chorus will give an
outdoor concert Wed. May 14 at 7 p.m.
in the rear Wren Courtyard.*

WILLIAM & MARY

DOCTOR KURTZ IS NEW DIRECTOR,
INSTITUTE OF EARLY AMERICAN HISTORY AND CULTURE

Dr. Lester J. Cappon, director of the Institute of Early American History and Culture since 1955, will retire July 1 to be succeeded by Dr. Stephen G. Kurtz, the Institute's editor of publications.

Announcement of the change was made at a dinner Saturday night honoring the outgoing director, held as part of the annual meeting of the Institute's advisory council of historians.

The Institute, sponsored jointly by the College and Colonial Williamsburg, is a research and publishing organization interested primarily in the era of American history prior to 1815.

One of its most recent publications, which Dr. Kurtz edited, has received four of the nation's most prestigious awards in the field of history and biography, and is one of two volumes still under consideration for the Pulitzer Prize in that field. It is "White over Black," by Winthrop D. Jordan, a former Institute fellow.

Dr. Cappon has accepted the appointment as Senior Fellow of the Newberry Library in Chicago for the next academic year. At the dinner in his honor, a portrait of him painted by David Silvette was unveiled by Dr. Cappon's daughter, Mrs. William Yarbrough of Atlanta. Dr. Cappon, in turn, presented the portrait to Dr. Clifford K. Shipton, outgoing chairman of the Institute's Council, who accepted it for the Institute. The dinner was attended by members of the Council and Institute staff and their wives, and by several former members.

A native of Milwaukee, Dr. Cappon holds degrees from the University of Wisconsin and Harvard University. He has taught at the University of Virginia and served as an archivist in its library, and in 1936-37 was director of the Virginia Historical Records Survey. He joined the Institute in 1945 as editor of publications, simultaneously becoming archivist for Colonial Williamsburg until 1952. He has served twice as editor of the William and Mary Quarterly, and is the author of several books including bibliographies of Virginia historical materials. For 23 years, he has been a lecturer in history at William and Mary.

Dr. Kurtz became editor of publications at the Institute in September, 1966 and also Editor of the Papers of John Marshall. He will continue to serve as Editor of the Papers after becoming the Institute's director. Dr. Kurtz is also a lecturer in history at William and Mary.

A native of Buffalo, he holds degrees from Princeton University and the University of Pennsylvania. Dr. Kurtz has taught at Pennsylvania, the Kent School, Athens College in Greece as a Fulbright Professor, and at Wabash College. At the latter institution, he served variously as acting chairman of the history department, Dean of Students, Assistant to the President and Dean of the College prior to joining the Institute.

The author of "The Presidency of John Adams: The Collapse of Federalism 1795-1800," Dr. Kurtz has published several articles including several on Adams, John Quincy Adams, Washington Fisher Ames, and Charles Pinckney for encyclopedias. He is currently completing "The Statecraft of John Adams," a study of the political science of Adams as it related to his political and diplomatic career.

VIRGINIA INSTITUTE OF MARINE SCIENCE SEMINAR

Dr. Paul M. Maughan, Bureau of Commercial Fisheries, Wash., D.C., will discuss "Spacecraft Oceanography" at a seminar presented by the Virginia Institute of Marine Science, Thursday, May 8 at 7:30 p.m. at the former Beach Club, Gloucester Point

Interested scientists from neighboring institutions are invited to attend.

READING PROGRAM LECTURE TONIGHT

W. N. Schoenfeld, professor of psychology at Queens College, City University of New York and a disciple of the behavioral psychologist B. F. Skinner, will speak on campus tonight at 7:30 p.m. in the Campus Center Ballroom.

He is the final guest lecturer in the current College-Wide Reading program which has taken as its theme throughout the year, "Man at the Mercy of Himself."

The author of some 70 articles and co-author of the textbook "Principles of Psychology," Schoenfeld is vice president of the Society for Experimental Analysis of Behavior, vice president of the Pavlovian Society and one of the board of editors of three distinguished journals, including the Journal of the Experimental Analysis of Behavior.

Schoenfeld will discuss and explain Skinner's ideas about the possibility and desirability of programming human behavior.

Other guest lecturers on this year's program have been Joseph Heller, author of "Catch-22," J. Glenn Gray, author of "The Warriors" and Michael Harrington, author of "The Other America."

"The Academic Revolution" has been chosen as the theme for the second College-wide Reading Program and the four books selected for study are George Kennan's "Democracy and the Student Left," Jacques Barzun's "House of Intellect," Charles Frankel's "Education and the Barricades," and W. B. Martin's "Alternative to Irrelevance." The authors of the last three will be visiting the campus during the fall semester.

SENIOR RECITALS SUNDAY

Four seniors will be heard in recital Sunday afternoon at 4 p.m. in the Campus Center Ballroom.

Mrs. Nancy Hottel Fleischman, of Mt. Crawford, Va., pianist, will play Rhapsody in G Minor, Op. 79, No. 2 by Brahms; and Sonata in D Major, Op. 10, No. 3 by Beethoven.

William Thomas Booner, of Hot Springs, Va., baritone will sing several selections by Hugo Wolf, also "Come Away, Death" by Thomas Arne, "Villanelle" by Berlioz, and "Danse Macabre" by Saint-Saens. He will be accompanied by Steven Shrader of Winchester, Va., at the piano.

Sue Fletcher Miller, pianist from Norfolk, Va., will play Sonata in D Minor, Op. 31, No. 2 by Beethoven and will also be accompanist for Robert F. Miller, Falls Church, Va., Oboe, who will play Sonata No. 1 in G Minor by Handel, "The Winter's Passed" by Barlow, and the first movement from the Sonata for Oboe and Piano by Hindemith.

Sunday's Concert has been arranged as partial fulfillment of degree requirements.

SPRING FASHION SHOW COMING

Students in the sewing and tailoring classes in the Home Economics Department will hold a Spring Fashion Show, May 15 at 7 p.m. in the Campus Center Ballroom.

Fashions will feature high styling with the accent on good workmanship.

A social hour will follow the show.

LAW SCHOOL FEATURED IN MAGAZINE ARTICLE

"Pioneers at Home and Abroad--William and Mary, Old School With New Ideas" is the title of an article on the Marshall-Wythe School of Law which appears in the May issue of the Student Lawyer Journal, an auxiliary publication of the American Bar Association. The article was written originally by Paul Holtzmuller, a mid-year graduate, and Andrew D. Parker, retiring president of the Student Bar Association and a June candidate for a law degree. The article reviews the school's past history and its recent educational activities including its program of Summer Studies in Law in England.

THIRD SUMMER LAW PROGRAM SET

The 1969 version of the annual Summer Studies in Law in England, sponsored for the past three years by the Marshall-Whythe School of Law, will be held on the campus of the University of Exeter for approximately fifty students from more than thirty American law schools, according to information from Professor Emeric Fischer, who will serve again this summer as director of the program. He and Professor E. Blythe Stason, Jr. will be the faculty members from the Law School who will participate.

U.S.-JAPAN COOPERATIVE RESEARCH PROGRAM

The National Science Foundation has issued information on the U.S.-Japan Cooperative Science Program which supports cooperative research projects, scientific seminars, and visits to Japan by American scientists.

Designed to foster collaboration between scientists of the two nations, the program supports scientific activities which contribute to international understanding and peace. Although proposals in any area of the natural sciences will be considered, the following categories have been suggested: education in the sciences; scientific and technical communication; earth, planetary and astronomical sciences (including atmospheric sciences); biological, agricultural and medical sciences; mathematical, physical, and chemical sciences; engineering sciences; and special problems related to the natural sciences.

The NSF will support three types of projects. The first, cooperative research, requires two proposals: one from an American and one from a Japanese scientist. The second type of project involves small groups of American and Japanese scientists meeting in Japan or the U.S. to exchange ideas on any fundamental scientific subject. The third area of support encourages postdoctoral and established American scientists to apply to conduct research projects in Japanese laboratories for a period of six months to a year.

For further information, interested faculty members should write to the U.S.-Japan Cooperative Science Program, Office of International Science Activities, National Science Foundation, Washington, D.C. 20550, or contact Warren Heemann, Director, Office of Institutional Resources on campus.

PHYSICS DEPARTMENT COLLOQUIUM

A colloquium of the Department of Physics to be held in the William Small Physics Lab, room 109, May 9, 4:30 p.m. will feature S. Harris, College of Engineering, SUNY at Stony Brook who will speak on "The Structure of Boltzmann's H Function."

BOTETOURT SOCIETY LISTS NEW
PUBLICATION, FINAL MEETING

The Botetourt Bibliographical Society has announced that its second annual publication will honor the bicentennial of Goronwy Owen, Welsh poet and former faculty member at the College of William and Mary.

"Goronwy Owen's Virginian Adventure" contains the lecture given recently at the College by John Gwilym Jones, noted Welsh playwright and critic and Reader in Welsh at the University College of North Wales at Bangor. It also contains three letters by Owen describing his voyage and life in colonial Virginia, which have been translated by Professor Jones; also an appendix and "an Inventory and Appraisal of the Estate of the Reverend Mr. Goronwy Owen" including full bibliographical details of his library.

Jones was one of the principal speakers at the Goronwy Owen Bicentennial program held at the College on St. David's Day in March. A poetry reading room, named for Owen, was dedicated in the College's Earl Gregg Swem library at that time.

Publication date of the new book is May 27. Pre-publication copies may be ordered from Prof. Robert P. Maccubbin of the English Department at the College.

It is the intention of the Society to make available over a period of several years, full inventories of selected colonial Virginia libraries; the inventories will be accompanied by relevant historical and literary commentary.

-Final Meeting-

The Society will hold its final meeting for the 1968-69 year in the Rare Book Room of Swem Library, Wednesday, May 14th at 7 p.m.

Speaker for the evening will be Dr. Stephen G. Kurtz, former editor of publications and new director of the Institute of Early American History and Culture.

Dr. Kurtz will discuss editing the John Marshall papers which the Institute is currently undertaking.

An exhibition of manuscripts and books from the career of Chief Justice Marshall is currently on display in the library.

COSMOS CLUB HONORS ALUMNUS

Robert DeBlois Calkins, an alumnus of the College and currently Vice Chancellor of the University of California at Santa Cruz, has been chosen to receive the sixth Cosmos Club Award at ceremonies in Washington, May 19.

He has been cited for his work as an economist, educator and administrator. He served as President of the Brookings Institution from 1952 to 1967 when he accepted the position of Vice Chancellor for the Social Sciences at the University of California.

His interest in urban problems led him to serve from 1959 to 1967 as a director of the Washington Center for Metropolitan Studies.

In recognition of his achievements, Dr. Calkins has received numerous honors. Among them are the Henry Lee Memorial Fellowship, Harvard; University Fellowship, Stanford; Alumni Medallion, College of William and Mary; election as a Fellow, Academy of Arts and Sciences; honorary degrees of LL.D. from William and Mary, Emory, Lehigh, Pittsburgh, Tulane, Brown, George Washington and the University of California.

Dr. Calkins gave the commencement address at 1967 exercises here at the College. He received his B.S. degree from William and Mary in 1925 and his graduate degrees from Stanford University.

TICKETS ON SALE FOR BACKDROP SHOW

Reserved seat tickets for the Backdrop Club's production of Lerner and Loewe's My Fair Lady will be available to the general public for purchase at the ticket office in the foyer of Phi Beta Kappa Memorial Hall beginning Friday. This revival of Broadway's record-breaking and highly successful musical comedy is scheduled for presentation Thursday, Friday, and Saturday, May 15, 16, and 17.

The box office opens for "over-the-counter" sales and telephone reservations 3:00 to 5:30 p.m. daily (except Sunday) May 9 - 17; it also opens 7:00 to 9:00 p.m. the evenings of the performances. All seats are reserved and specifically assigned in advance at \$1:50 each. Seating is available in both the orchestra and balcony of the theatre, with a maximum of 805 seats sold for each performance. Patrons desiring to make reservations by telephone should call the ticket office at Extension 272 during hours of operation.

Patrons who find it more convenient to order tickets by mail may do so by including their name and full address, number of seats desired, performance date, and approximate location of seating (subject to availability). Full payment (made payable to "Backdrop Club") must accompany orders by mail. Prepaid tickets will be held in the purchaser's name at the box office and may be claimed during box office hours of operation in the afternoons, or the evening of the performance. Prepaid tickets are guaranteed seats and are never released for resale. All mail orders should be addressed to: Ticket Office, Backdrop Club, P.O. Drawer KA, Williamsburg.

"Patrons are advised to ignore any rumors of 'sell-outs' for any performances of My Fair Lady," commented Larry E. Streetman, Box Office Manager for the Backdrop Club. "We know, from past experiences, that we are potentially able to accommodate all persons desiring to attend our production. Chances are, if patrons would simply telephone the ticket office, they will find choice seats available for all performances of My Fair Lady."

GERMAN CLUB TO SPONSOR FILM

The German Club meeting, May 14 at 7 p.m. will feature a film, "Wir Wunderkinder," to be held at the Library Theatre. Subtitled in English, the film is a satire on German history up to the present.

DEPARTMENTAL NEWS*-Scammon and Willis Visit Morris Harvey College-*

Assistant Vice President J. H. Willis, Jr., and Prof. Howard Scammon visited Morris Harvey College in Charlestown, W. Va., recently serving as consultants; Willis for the Humanities and Honors program, and Scammon for the Theatre and Speech Division.

-Mathematics-

Richard L. Prosl, has been appointed a member of the national committee of examiners for advanced placement in mathematics.

Dr. Prosl's name has been associated with advanced placement in mathematics for two years since he made a series of TV tapes which prepare high school students for advanced placement in mathematics when they enter college.

In the summer of 1967 he worked as consultant to Hampton City Schools on a Title III grant as instructor on the series of TV tapes currently being shown on the peninsula and in Miama, and scheduled for showing in the Shenandoah Valley area and other locations next year. This summer Dr. Prosl will be associate director of an NSF summer institute for high school mathematics and science teachers.

Departmental News (con't.)*-Philosophy-*

William S. Cobb, Jr., attended the convention of the American Association of University Professors in Minneapolis, Minn., May 2 - 3 and will make a report on the convention at the next meeting of the local AAUP chapter.

-Physics-

Several members of the Physics Department attended the April 28 - May 1 meeting of the American Physical Society in Washington, D.C. The following papers were presented:

Absolute Yield, Energy, and Width Measurements of Pionic and Muonic X Rays in Liquid He⁴: R. J. Wetmore, D. C. Buckle, J. R. Kane, and R. T. Siegel; Bull. Am. Phys. Soc. 14, 501 (1969).

Muonic and Pionic X Rays in He³: Betty Orrick, J. R. Kane, and R. J. Wetmore; Bull. Am. Phys. Soc. 14, 526 (1969).

Energy and Width Measurements of the Pionic 2P-1S Transition in ²⁴Mg.: G. H. Miller, M. Eckhause, J. R. Kane, W. W. Sapp, and R. E. Welsh; Bull. Am. Phys. Soc. 14, 526 (1969).

-School of Law-

Dr. William F. Swindler has been advised that his high school version of Magna Carta, published last winter by Grosset and Dunlap, has been placed on the officially recommended lists for high school purchases by departments of public education in a number of states, including Virginia. His essay, Government by the People: Theory and Reality in Virginia, is part of the Jamestown Series on Representation which will go on sale about the time of Jamestown Day, as one of the publications in observance of the 350th anniversary of the New World's first legislative assembly in 1619.

NEW ORCHESTRA SETS DEBUT

The College of William and Mary-Community Symphony Orchestra will give its debut concert Monday at 8:30 p.m. in Phi Beta Kappa Hall.

Composed of students at the College, members of the community and augmented by guest artists from the Norfolk Symphony Orchestra, the new organization provides the first full orchestra for the Williamsburg Community. Director is Prof. Alan C. Stewart of the Music Department.

The orchestra will open Monday's concert with Overture and Allegro by Couperin-Milhaud. They will also play Schubert's Unfinished Symphony No. 8 in B minor; and the Masquerade Suite by Khatchaturian.

Featured soloist with the orchestra will be a junior at the College, Miss Patricia Arledge of Portsmouth, daughter of Mr. and Mrs. Lee Arledge who recently placed first in the state vocal audition at the Shenandoah Conservatory in Winchester. Miss Arledge won in the intermediate class reserved for students with two years of voice training in college. She will go on to compete in the national level auditions to be held in the Fall. The winner of this competition receives a \$1,000 scholarship.

Miss Arledge will sing three arias from grand opera, "Verdrai carino" and "Non mi Dir" from Don Giovanni and "Vissi D'Arte" from Tosca.

Tickets for the concert are \$2 for adults and \$1 for students and may be obtained at the door the evening of the performance.

The concert is sponsored by the Williamsburg Friends of Music.

FINAL EDITION

LIBRARY
MAY 15 1969

FACULTY RECITAL TUESDAY AT PBK

Robin L. Roark, tenor, lecturer in voice at the College and director of bands and chorus at Queens Lake Intermediate School, will give a recital Tuesday, May 20 at 8:30 p.m. in Phi Beta Kappa Hall, sponsored by the Music Department.

Roark will sing four early French songs from Canzone Scordate, an anthology of early songs by Arne Dorumsgaard; a selection of songs by Philip Emanuel Bach (1714-1788); "Amor ti vieta" from Federa by Umberto Giordano; "Nessum dorma" from Tuandot by Puccini; and four songs by David Diamond "Brigid's Song," "The Epitaph," "To Lucasta, On Going to the Wars," and "David Mourns for Absalom."

Active as a soloist and performer in several singing groups in the area, Roark serves as Director of the Children's Choirs at Bruton Parish Church where he is also a tenor soloist with the adult choir.

He will be accompanied in his recital by Donald E. Golden, pianist. Golden is organist, and choirmaster at Trinity Lutheran Church, Newport News and accompanist for the Peninsula Choral Society. He is also director of music for the Trinity Lutheran Day School.

HISTORY MAJOR WINS BOOK PRIZE

Miss Branda Seglynski, a junior has been chosen first recipient of the Columbia University Teachers College Book Prize.

Miss Seglynski was selected by a faculty committee headed by Dean Richard B. Brooks of the School of Education at the College. The prize is awarded to "the member of the Junior Class expressing the most constructive intellectual interest in educational issues," at several undergraduate colleges.

President Davis Y. Paschall presented the prize, an especially inscribed copy of Jacques Barzun's book "The American University."

A daughter of Mr. and Mrs. Ed Seglynski of 1908 Hampshire Ave., Covington, Va., she is a 1966 graduate of Covington High School. Miss Seglynski is a history major and plans to teach history at the high school level. She is secretary-treasurer of the Student Education Association and a member of the Young Republicans and the International Circle. She will undertake her practice teaching this summer in Williamsburg.

TALL KAPPA SIGS MODEL FOR SEVENTEEN

A group of brothers of Kappa Sigma and four members of the William and Mary football team found themselves serving as models for Seventeen Magazine on Tues.

The magazine sent a team of photographers and models to the campus to film for its August "fall fashion" issue. The group arrived Monday and left early Thursday, but did most of its work on Tuesday. Miss Taki Aghazadian of Seventeen supervised the four professional models and Didiere Dorot handled the photography.

The Kappa Sigs became involved when Miss Aghazadian began seeking tall men to pose as escorts for the young models, wearing men's fashions coordinated with the clothing displayed by the models. Those who served as escorts were Jerry Hemmelgarn '70, Kappa Sigma president; Ray Barger '69; Bob Kelly '69; Larry Smith '71 and Gary Newman '70. The photographs were taken in color at various points on the old and new campuses.

For a football game setting, four Indians posed with a model and Hemmelgarn at Cary Field. The Indians, in full uniform were Joe Pilch '71, John Feurriegel '71,

Models for Seventeen (con't.)

Jim Green '70 and Steve Howard '70.

The Seventeen group filmed additional shots on Wednesday morning, without male escorts, and toured Colonial Williamsburg that afternoon before preparing to return to New York the next morning.

The campus was selected as the setting for back-to-college fashions to be displayed in the August issue.

HOUSING SOUGHT FOR
FOREIGN LAW STUDENTS

Law students are looking for 10 area lawyers willing to take foreign law students into their homes this summer.

The Student Bar Association, working with the Experiment in International Living, will host the group of law students from abroad in cooperation with the American Bar Association's law student division.

Up to five foreign law students will be involved in the program. During July, the visiting students will live with lawyers and their families in Richmond and Newport News. In early August, they will reside with families in Williamsburg while attending classes and special lectures at the Marshall-Wythe School of Law.

The Experiment in International Living, with headquarters in Putney, Vt., has reported that law groups in Denmark, Belgium, Germany and Switzerland have shown interest in sending students to the United States for the Williamsburg program.

The idea of the visit by foreign law students originated with the ABA law student division's international program committee, headed by Glen Sedam, a Marshall-Wythe Law School student. Chairman of the Student Bar Association's committee on the project is Michael M. Collins, assisted by George Stetler, Frederick L. Shreves II, William R. Bland and H. Duncan Garnett.

Families interested in the program have been asked to call the Student Bar Association's office at the law school.

THE SEX STARVED REPTILIAN BEAST
ON THE BOARDS TONIGHT

Playgoers who are tired of the same old plots and want something a little different in the way of theatre are invited to the Free Theatre production of "The Sex Starved Reptilian Beast" which opens tonight at 8 p.m. in the Little Theatre of the Campus Center. It will also be given Friday and Saturday evenings and Saturday afternoon at 2 p.m.

"The Sex Starved Reptilian Beast is a play about the South. It is being written by the cast in improvised rehearsals.

The final script will be merely a scenario, and each performance will be different from the others, depending on the mood of the actors and audience. The play includes a live band playing original music.

The audience is requested to wear black.

QUOTE OF THE WEEK

This is the first time in the educational history of this country when it is the adults more than the students who yearn for the end of the school year and the beginning of the summer holidays. -Eric Sevareid, CBS Evening News, May 8.

CHOIR IS HIT AT WASHINGTON FUNCTION

The William and Mary Choir chose a series of patriotic and military tunes for its performance Thursday night at the 20th anniversary tribute dinner of the Freedoms Foundation in Washington.

A 42-member contingent of the Choir had been invited to perform for guests at the \$50-a-plate dinner. Honored at the event were Sen. Albert W. Hawkes, former Senate Chaplain Dr. Frederick Brown Harris, Admiral Authur W. Radford, Admiral Arleigh A. Burke and General Bruce C. Clarke.

The Choir's performance began with the Revolutionary War favorite, "Chester continued with the official songs of each of the armed services; "The Stars and Strip Forever;" and concluded with a special sequence of five patriotic songs including "This is My Country," "God Bless America," and "America, The Beautiful."

Dr. Carl A. Fehr directed the choir in the performance, in the Mayflower Hotel's ballroom.

The choir performance proved to be a highlight of the evening's proceedings and the VIP sprinkled audience gave the students a standing ovation at the end of the show.

MBA STUDENTS HEAR COCKSHOTT

John V. Cockshott spoke this afternoon to students of the School of Business Administration. He addressed the class in Risk Management in Room 213 of the Law School. Course instructor is Gilbert C. Jones. Risk Managment is part of the MBA program.

Cockshott is a Section Head with the Risk Management Division of Standard Oil Company (New Jersey) in New York City. Mr. Cockshott has spent all his working life in insurance and risk management. Starting in his family insurance broker business in England, he specialized in fire and marine cargo insurance. He became a fellow of the Corporation of Insurance Brokers by examination in 1949. During World War II Mr. Cockshott served with the Royal Air Force as a Squadron Leader Pilot with bomber command in Europe. In 1952 he went to South Africa as General Manager of the Maritime and General Insurance Company and in 1955 became President of Standard Vacuum Oil Company's insurance company in Capetown. In 1959 he came to New York as Corporate Risk Manager for the international headquarters of that company. He subsequently became Insurance Manager for Esso Standard Eastern Inc. and in 1966 assumed his current position.

Mr. Cockshott has traveled extensively in Africa, the Far East and Europe. He is Chairman of the International Cooperative Committee of American Society of Insurance Management.

He is an associate of the Chartered Insurance Institute of London.

NORFOLK OFFICIAL SPEAKS

Thomas Maxwell, City Manager of Norfolk, spoke to the Government Department Class Wednesday noon in the Childress Room of the Library. His visit was part of a course on local and state politics, and was arranged by Prof. Clyde C. House.

BACKDROP CLUB OPENS LERNER
AND LOEWE'S MY FAIR LADY

The Backdrop Club of the College of William and Mary opens its production of Alan Jay Lerner and Frederick Loewe's musical comedy My Fair Lady this evening. This local revival of Broadway's "longest running musical" will also be given Friday and Saturday evenings. All performances are promptly at 8 p.m. in Phi Beta Kappa Hall.

Starring in the roles of Eliza Doolittle and Henry Higgins are William and Mary junior Jan McLellon of Virginia Beach and sophomore Jeffrey Rockwell of Pacific Palisades, California. For both Miss McLellon and Mr. Rockwell, this is their first appearance in a major role in Williamsburg, but both have had previous experience in community and college theatre.

Also starring as Alfred P. Doolittle and Colonel Pickering are two William and Mary freshmen--Calvin Remsberg and Thomas Aldridge--both from Alexandria. Before coming to the William and Mary stage, both had worked together in the Drama Department of Fort Hunt High School in Alexandria. My Fair Lady is Aldridge's first major theatrical appearance at William and Mary. Remsberg, however, is probably best remembered for his magnificent performance as Bellomy in The Fantasticks with the William and Mary Theatre in October, 1968.

My Fair Lady is directed by William and Mary senior Quentin Van Meter of Washington, D.C. Van Meter, although a pre-medical Chemistry major, has been active with all theatrical productions at William and Mary for the past three years, and highlights his theatrical career with a masterful interpretation of the Alan Jay Lerner script.

Coordinating Van Meter's direction with the actual creation of the stage performance is the balance of the production staff including: Mary Ellen Newman, Producer; Marcia Ricketts, Assistant Director; Ralph Manna, Jr., Musical Director; Karen Hunsberger, Choreographer; Ann Chancellor, Set Designer; R. David McCall, Technical Director; Carson Phillips, Lighting Designer; Professor Stephen P. Paledes, Conductor; Charlotte Harper, Costume Designer; and Larry E. Streetman, Public Relations Manager.

The box office is open daily 3 to 5:30 p.m. It is also open 7 to 9 p.m. the evenings of performance. All seats are reserved and specifically assigned in advance at \$1.50 each. Reservations may be obtained by telephoning 229-3000 Extension 272 during box office hours of operation.

Patrons are reminded that curtain time for all performances is promptly at 8 p.m. Late arrivals may not be seated immediately, nor may they be necessarily shown to the seats they have reserved.

FACULTY CLUB PLANS PICNIC

The Faculty Club will close its season with a picnic at the Matoaka Lake Shelter, Saturday, May 24 from 4 to 8 p.m.

Tickets will be \$1.20 per person for members, their spouses or one guest, and children. Additional guests, \$3.00 each. Tickets can be purchased through the Faculty Club Treasurer, Satoshi Ito.

The picnic lunch, prepared by Miss Tinker, will include fried chicken, sandwiches, salad, etc.; and plenty of soft drinks and draft beer will be available.

All faculty members are invited to attend.

DEPARTMENTAL NEWS*-Administration-*

Assistant Vice President J. H. Willis, Jr., will be commencement speaker at Christopher Newport College, Newport News, at exercises to be held June 6 at 5 p.m. His topic has not been announced.

-English

- "The Suburban Myth" by Scott Donaldson, a new book which is now on sale at the College Bookstore is one of several publications by Professor Donaldson during 1968-69. Others include the following:
- Essays: "City and Country: Marriage Proposals," American Quarterly, XX (Fall 1968), 547-566.
- "Love in Rock and Roll Lyrics," ETC., XXV (September 1968), 354-358.
- "Minding Emily Dickinson's Business," New England Quarterly, XLI (December 1968), 574-582.
- "Appointment with the Dentist: O'Hara's Naturalistic Novel," Modern Fiction Studies, XIV (Winter 1968-69), 435-442.
- Reviews: The Insurrection of Hippolytus Brandenberg, by Roy Friedman (Oct. 6, 1968)
- Eden Prairie, by Frederick Manfred (Dec. 1, 1968)
- Portnoy's Complaint, by Philip Roth (Feb. 23, 1969)
- The above reviews all appeared in the Minneapolis Sunday Tribune.
- Forthcoming publications include the following:
- Essays: On E. A. Robinson's poems of New York City, for a book to be published this fall by University of Georgia Press.
- "Philip Roth: The Meanings of Letting Go," Contemporary Literature Abstract of Dickinson article, American Literature Abstracts
- Introductions: In reprint edition of Thomas Low Nichols, Forty Years of American Life: 1821-1861, Johnson Reprint Corp.
- In reprint edition of William Douglas O'Connor, Harrington, Johnson Reprint Corp.

Prof. Carl Dolmetsch's article, "The Writer in Modern America: The Strange Case of 'S. S. Van Dine'," appears as a chapter in Festschrift fur Prof. Hans Galinsky, published this week in Heidelberg (Germany) by Carl Winter Universitaetsverlag. His essay is the first biographical-critical study of the double career of Willard Huntington Wright (1888-1939), whose brilliant achievements as a critic, author and magazine editor went unappreciated by the American public, but who became a best-selling novelist under the pseudonym "S. S. Van Dine," the creator of a new type of detective fiction. The Festschrift honors the Director of American Studies at the University of Mainz on his 65th birthday. It contains essays by the leading American literature scholars of Germany as well as by three other Americans: Prof. C. Hugh Holman and Lewis Leary, of the University of North Carolina, and Professor-Emeritus Robert.E. Spiller, of the University of Pennsylvania.

-Geology-

Dr. Kenneth F. Bick, Dr. Stephen C. Clement, Dr. Bruce K. Goodwin, and Dr. Gerald H. Johnson attended the annual meeting of the Virginia Academy of Science in Fredericksburg on May 9. Several papers were presented by the faculty and students of the Geology Department before the Section of Geology at this meeting. These papers are as follow:

Departmental News (con't.)Geology (con't.)

Dr. Stephen C. Clement: "Petrogenesis of an Amygdaloidal Diabase Dike, Rawlings Quarry, Virginia."

Dr. Bruce K. Goodwin: "The Typical (?) Petersburg Granite."

Dr. Gerald H. Johnson: "Late Miocene Paleogeography of Southeastern Virginia."

Burt A. Waite and Christopher D. Condit (sponsored by Gerald Johnson): "Leaching and Cementation of Coquina of the Yorktown Formation (Miocene), Yorktown, Virginia."

Bruce Ripy (sponsored by Kenneth Bick): "Mechanical Analysis of Estuarine Beach Sediments."

William H. Huber and Gerald Johnson: "Biostratigraphy of the St. Mary's and Yorktown Formations (Miocene) on the South Bank of the James River."

Dr. Gerald Johnson was the Chairman for the meetings of the Section of Geology of the Virginia Academy of Science, and Dr. Goodwin was elected Vice Chairman of the Section of Geology for the coming year.

Dr. Bruce Goodwin served as a judge for papers presented in the Earth Science Section of the Virginia Junior Academy of Science in Fredericksburg on May 8.

Dr. Stephen Clement and Dr. Bruce Goodwin attended the field trip of the Virginia Academy of Science in Fredericksburg on May 10.

Dr. Gerald Johnson led a field trip for twenty high school teachers of earth science April 26. The teachers spent the day studying the Geological Evolution of the Atlantic Coastal Plain of Southeastern Virginia and were aided in their task by a guidebook prepared by Dr. Johnson.

Dr. Bruce Goodwin presented a talk before the members of the Richmond Gem and Mineral Society on the evening of May 14. His chat was entitled "The Petersburg Granite; Don't Take It for Granite."

-History-

Professor Gilbert McArthur of the Department of History attended the Midwest Conference of the American Association for the Advancement of Slavic Studies, Lincoln, Nebraska, in April (11 - 13) and presented a paper entitled: "Catherine the Great and the Masonic Circle of N. I. Novikov."

Dr. Richard Maxwell Brown has been named as a new member of the Council of the Institute of Early American History and Culture, for a term to expire in May, 1972. Also named to the board is Dr. Lawrence W. Towner of The Newberry Library, Chicago, former editor of the William and Mary Quarterly. Retiring from the Council this year is Dr. Bruce T. McGully.

Dr. Davis Y. Paschall serves as an ex officio member of the Council.

-Mathematics-

William C. Turner attended the Spring meeting of the Virginia-Maryland Section of the Mathematics Association of America at the University of Maryland, April 26.

Departmental News (con't.)*-Physics-*

During the May 7 - 10 meeting in Fredericksburg, Virginia of the Virginia Academy of Science, the following papers were presented by physics students and faculty:

- 196 ReV Level in F^{19} Excited by Stopped Pions: R. Blomquist and R. E. Welsh.
 Atomic Pion Capture in a Metal Alloy: D. Luckey and R. E. Welsh.
 Relative Intensities of K series Muonic X-rays in Al^{27} : W. D. Morris and R. E. Welsh.
 A Method of Measuring Particle Beam Phase Space and Its Application to Space Radiation Effects Meson Facilities: H. O. Funsten, M. D. Holt, and D. B. Raiford
 (Virginia Associated Research Center).

-Psychology-

Dr. Kelly Shaver is a co-author, with L. Wheeler, R. A. Jones, G. R. Goethals, J. Cooper, J. E. Robinson, C. L. Gruder, and K. W. Butzine of "Factors Determining Choice of a Comparison Other," published in the April, 1969 issue of the Journal of Experimental Social Psychology.

-School of Education-

Mr. John W. Sykes, Assistant Professor will be teaching this summer at the Oregon College of Education in Monmouth, Oregon. Mr. Sykes is exchanging positions with Dr. Charles Gengler who will teach Mr. Sykes' courses here at William and Mary. Dr. Gengler will teach ten weeks here and Mr. Sykes will teach eight weeks in Oregon.

WEEKLY CALENDAR MAY 15 - 25

<u>May 15, Thursday:</u>	Holy Communion	Wren Chapel	5 pm
	Home Economics Department Fashion Show	CC Ballroom	7 pm
	Backdrop Club: "My Fair Lady" (also May 16 and 17)	PBK Audit.	1 pm

COLLEAGUE

College of William and Mary Faculty Newsletter

Published by Information Office
Second Floor, Ewell
Ext. 225-226

September 18, 1969

OPENING CONVOCATION

New members of the faculty will be formally presented by Dr. Harold L. Fowler, Dean of the Faculty of Arts and Sciences at the Opening Convocation to be held Friday, September 19 at 11 a.m. in Blou Gymnasium.

The roster of new faculty at the college this year includes two visiting professors, one in the Department of English and one in History.

Dr. David Quinn, professor of Modern History at the University of Liverpool, is the first holder of the James Pinckney Harrison Chair of History at the College.

Dr. Richard N. Parkinson, professor of English at the University of Exeter will teach courses in Shakespeare and the Modern Novel in the Department of English.

Dr. Cecil M. McCulley, of the William and Mary Faculty is in Exeter for the fall semester and will take over Dr. Parkinson's duties there.

This is the second exchange of professors between the two universities. The first involved Arthur W. Phelps of the faculty of the Law School and Dr. Dominic Lask of the Exeter Law faculty in 1966.

President Paschall will speak and J. Wilfred Lambert, Dean of Students, will present students who have been designated as President's Aides for the year.

The Rev. Thomas E. Pugh, pastor of the Williamsburg Baptist Church, will give the invocation and benediction.

The William and Mary Choir under the direction of Dr. Carl A. Fehr will lead the processional and will sing "Glory to God in the Highest" as part of the morning's program.

Vice President W. Melville Jones will preside.

* * * *

The Bearer of the Mace

The William and Mary Mace, traditional symbol of office, for the Student Association President, will be carried in the processional Friday by a co-ed, Miss Nancy Terrill, of Vienna, Va., the first girl to hold that office.

The Mace was presented to the College by its alumni and students in 1923. It is made of silver, is four feet long, and contains twelve sections each bearing symbols and names pertinent to the history and singularity of the College.

LIBRARY
SEP 20 1969
WILLIAM & MARY

SEMINARS OPEN READING PROGRAM

The College-Wide Reading program got off to a good start with seminars for incoming freshmen during orientation week.

This year's theme, "The Academic Revolution," will be explored through the four books selected for the program, George Kenan's Democracy and the Student Left, Jacques Barzun's House of Intellect, Charles Frankel's Education and the Barricades, and W. B. Martin's Alternatives to Irrelevance. Authors of the last three books will be on campus during the fall semester.

Charles Frankel will give a public lecture October 10 as part of a two-day visit to the campus. W. B. Martin will be here Oct. 27-29 with a lecture planned for October 28; and Jacques Barzun will visit here Nov. 19-20 and give a public lecture Nov. 19.

According to William S. Cobb, Jr., chairman of the planning committee for this year's program, a number of other activities are planned including various student organized discussions, an off-campus retreat in the Spring, other speakers, video-taping class sessions for discussion of teaching techniques, films, and seminars for alumni during Homecoming Weekend October 17 - 19.

Orientation Seminars

Participants in Reading Program Freshman Orientation Seminars were:

Jean Andrews, Don Ball, Carl Beyer, Martha Bien, Taylor Cousins, Ed Crapol, Dorothy Riddle, William Davis, Jr., Elsa Diduk, Carol Doliber, Scott Donaldson, Jack Edwards, Wallace Elliott, Lewis Foster, A.Z. Freeman, Martin Garrett, Ken Green, Bruce Guernsey, Bruce Nyland, Jeremy Jackson, Gerald Johnson, David Jones, Alex Kallos, James Livingston, Robert Maccubbin, Frank McDonald, Martha McDonald Boelt, Stephen Maloney, Jim McCord, John McKnight, Earl McLane, Leslie O'Neil, Peter O'Neil, Sam Sadler, Harlan Schone, Robert Scholnick, Kelly Shaver, George Rublein, Richard Sherman, Leroy Smith, Thad Tate, Hans von Baeyer, J. Lewis Walker, John E. Morgan and E. Morgan Kelley.

WILLIAM AND MARY THEATER

The William and Mary Theater's 1969-70 season will consist of four plays to be presented by The Theater itself; three visiting professional productions; and one concert.

Faculty members have been sent details concerning Complimentary Tickets; and any who did not receive that information or who might have misplaced it, are invited to contact Professor Roger Sherman at ext. 395.

The 1969-70 Season

THE FOURTH WALL (Visiting Professional Production), Oct. 1.
 THE UNKNOWN SOLDIER AND HIS WIFE
 (William & Mary), Oct. 29-Nov. 1.
 MANDRAGOLA (William and Mary), Dec. 10-13.

William & Mary Theater cont'd.

KING LEAR (Visiting Professional Production), Feb. 3.
 THE LADY'S NOT FOR BURNING (Visiting Professional Production), Feb. 4.
 OF THESE I SING (William & Mary), Feb. 25-28
 PHAEDRA (William & Mary), April 15-18
 A CONCERT BY ANN ROWE, May 16.

PHYSICS COLLOQUIUM

H. Kastrup of the University of Munich, will speak on "Bremsstrahlung Model for Nucleon-Nucleon Collisions at High Energy," at a Physics Colloquium to be held Friday, Sept. 19 at 4:30 p.m. in room 109 of William Small Physical Laboratory. Coffee will be served at 4 p.m. in the Conference Room.

SHEAN HEADS CENTER

Dr. Glenn D. Shean has been named acting Director of the Psychological Counseling Center for the 1969-70 session.

A graduate of Louisiana State in New Orleans and the University of Arizona, Professor Shean joined the faculty of the college in 1966. He served as psychology intern at Palo Alto, California V.A. Hospital from 1965-66. His teaching interests and specializations include clinical and physiological Psychology and Psychopathology.

The services of the Center are available to faculty members, students, administrators and others in the college community. The Center is located in room 110, Rogers Hall, and is open daily 8:30 - 12 a.m. and 1 - 5 p.m.

COLONIAL ECHO PICTURES

Individual portraits to be used in the 1970 COLONIAL ECHO are now being taken and special days have been set aside for the convenience of faculty members.

Portraits are now being taken on a Monday through Friday schedule from 9 a.m. to 1 p.m. and 2 p.m. to 6 p.m. until October 17.

Faculty Days, with no student appointments scheduled, have been designated as Tuesday, September 23, and Wednesday, September 24. If any member of the faculty is unable to be photographed on a Faculty Day, he may come for his picture at his convenience. There is no charge.

LAW SCHOOL DIRECTS STATE COURT STUDY

A comprehensive research project into the entire court system of the Commonwealth of Virginia is being conducted this fall under the direction of Dr. William F. Swindler, Professor of Law. The project is being carried out for the Virginia Court System Study Commission, one of the several study groups established by the 1968 General Assembly. It is being administered by an agency of the State Council of Higher Education known as the Virginia Consortium on Law Enforcement and Crime Prevention, which has designated the Marshall Wythe School of Law as the headquarters for the project.

State Court Study cont'd.

Under Dr. Swindler as Project Director and General Counsel, five research projects in the state appellate system are being conducted. Faculty members from each of the four law schools in the state are serving as project counsel. Other William and Mary personnel involved in the studies are J. R. Zepkin, Williamsburg attorney and lecturer in the Law School, and J. Rodney Johnson, on leave this year for graduate study at New York University, who is the project liaison with N.Y.U.'s renowned Institute of Judicial Administration.

THIRD SUMMER LAW SCHOOL IN ENGLAND COMPLETED

For the third consecutive year, the Marshall Wythe School of Law has sponsored a program of summer studies in law on the campus of the University of Exeter in England. Fifty-six students from more than thirty American law schools were enrolled, according to Professor Emeric Fischer, director of the 1969 session. In addition to resident work on the Exeter campus, professional visits were made to the Inns of Court and the Royal Courts of Justice in London, as well as to Oxford University where the students were the guests of Professor Arthur L. Goodhart and his wife. Associate Professor E. Blythe Stason, Jr., was another Law School participant in the 1969 program.

FOREIGN STUDENTS WELCOMED

Prof. Albert C. Labriola, Foreign Student Advisor, reports that several new foreign students (from England, Wales, Hong Kong, India and Taiwan) have enrolled at the College this fall. The students were welcomed on their arrival in Williamsburg by student members of the International Circle and by the Foreign Student Advisor.

Several Williamsburg families volunteered to provide interim accommodations for the students until dormitory facilities became available to the undergraduates and until off-campus housing was located for graduate students. These families also assisted in introducing the new foreign students to the Williamsburg community.

Colonial Williamsburg generously provided welcome packets and information brochures, as well as complimentary passes to the exhibition buildings, for the students.

Washington trip planned

On September 30 the foreign students will visit Washington, D.C., and will tour the White House, the State Department, and the Justice Department. Dinner is scheduled for the Rayburn Banquet Room, and Congressman Robert Taft, Jr., will deliver an after-dinner speech.

In the late afternoon the students will be special guests at a buffet and party in the Washington residence of U.S. Ambassador Jefferson Patterson (ret.), and where they will meet foreign students from George Washington University. Earlier this month the students were special guests at a dinner in the Campus Center sponsored by the Baptist Student Center. Bilingual editions of the Bible were presented to them.

-DEPARTMENTAL NEWS-

ANCIENT LANGUAGES

Professor J. Ward Jones, chairman of the Department of Ancient Languages will be on leave this year to participate in the Program in Humanities at the University of North Carolina at Chapel Hill.

This summer Dr. Jones was in Italy with the Mediterranean Society of America's Summer Study-Travel program directed by Professor Talbot R. Selby, former head of the Department of Ancient Languages at the College and presently chairman of that department at the University of Richmond. One of Dr. Jones's summer projects was to follow the route of the poet Horace and Vergil and the Emperor Augustus from Rome to Brindisi on the southern Adriatic Coast of Italy.

ANTHROPOLOGY

Chairman Nathan Altshuler is back from a trip of several months to the interior of Guyana. Norman Barka has been busy all summer with a team of student archeologists digging along the Chickahominy river. Miss Carol Ballingall left last month for Thailand to study village markets in that country. Theodore Reinhart spent some time in archeological research in the southwest this summer.

Visiting lecturer in Anthropology this year will be Terence McCann, a native of the United Kingdom but more recently from the University of Guyana. He will teach a course in cultural patterns and technological change.

BIOLOGY

Dr. G.W. Hall delivered a paper on the biosystematics of North American Bidens species before the Appalachian Flora Symposium at Virginia Polytechnic Institute June 27. The symposium was attended by Botanists from throughout the eastern states.

The latter part of the summer the Halls took an 8000 mile "field trip" to the Chiricahua mountains of southern Arizona and the California redwood forests.

Recent publication: C. Richard Terman. Pregnancy failure in female prairie deermice related to parity and social environment. *An Behav.* 17:104-109.

The following staff, graduate students, and undergraduates attended the Biology Section of the Virginia Academy of Science in May, at Mary Washington College: Drs. C.P. Mangum, I.P. Callard, S.A. Ware, R.I. Black, C.R. Terman, G.W. Hall, M.C. Mathes, and G.R. Brooks; M. Sebetich, M. Anderson, C. Francis and V. Proud; C. Sassaman, R. Hoffman, R. Graham, J. Tichy, and C. Casey. Dr. Brooks served as chairman for this year's paper session of the Biology Section and was elected to serve as Council member from the Biology Section for the next three years. Dr. Ware was elected to serve as editor of the Section for the next three years.

BIOLOGY con't

The following papers were presented:

Further investigation of the feeding response in the polychaete Diopatra cuprea. E.A. Graham and C.P. Mangum, College of William and Mary.

On the function of blood in the Chesapeake Bay bloodworm. E.C. Hoffmann and C.P. Mangum, College of William and Mary.

Effects of changes in oxygen and carbon dioxide concentrations on ventilation rhythms in polychaetous annelids. J.C. Tichy, C.P. Mangum and E.P. Dales, college of William and Mary, Bedford College, University of London.

Effects of temperature on metabolism and behavior of an intertidal anemone. C. Sassamann and C.P. Mangum, College of William and Mary.

The pattern of RNA synthesis during development of statoblasts of the bryozoan, Pectinatella magnifica. Virginia K. Proud and R.E. Black, College of William and Mary.

Pituitary cytology in female Sceloporus cyanogenys. Marie E. Anderson and I.P. Callard, College of William and Mary.

The effect of hypothalamic steroid implants on adrenal and gonad function in Sceloporus cyanogenys. I.P. Callard, Edgar Willard III and W.F. McConnell, College of William and Mary.

The weights of selected organs of prairie deer mice (Peromyscus maniculatus bairdii) from asymptotic laboratory populations. C.R. Terman, College of William and Mary.

Effect of parietectomy on oxygen consumption and heart rate in the lizard, Sceloporus occidentalis. C. Francis and G.R. Brooks, College of William and Mary.

Spatial distribution and intra-populational movement in the bullfrog, Rana catesbeiana. M. Sebetich and G.R. Brooks, College of William and Mary.

Experimental home range studies in the lizard, Sceloporus undulatus. G.R. Brooks, College of William and Mary.

Effects of interspecific competition and soil type on the distribution of Talium (Portulacaceae). S.A. Ware, College of William and Mary.

In late June and early July, Prof. Dolmetsch delivered guest lectures in 7 universities and 2 teachers' colleges in Germany. He lectured on "Mark Twain's Pessimism" at the Free University of Berlin and the University of Freiburg "American Augustan Poetry" at the University of Mainz, on "Camp and Black Humor in Recent American Fiction" at the universities of Heidelberg, Frankfurt, Erlangen, and Tuebingen and at the Studienreferendare Seminar in Rottweil, and he spoke on "Some Recent Developments in the Teaching of English in the U.S.A." to the Paedagogische Hochschule in Berlin. In late July he gave a course of eight lectures on "Dissent and Reformism in American Literature" at the Falkenstein Seminar in American Studies, in the Taunus Mountains near Frankfurt-am-Main. In early August he pursued research in Munich, Vienna and Budapest on the "Ueberbrett'l" Movement in the early twentieth century German theatre as it relates to the work of the American drama critic, George Jean Nathan.

* * * *

William Empson, by J.H. Willis, Jr., was published in July by the Columbia University Press.

It is one in a series under the general title "Columbia Essay on Modern Writers" and it is a critical study of Empson's literary criticism and poetry.

The series which includes critical studies of English, Continental and other writers whose works are of contemporary artistic and intellectual significance, is edited by William York Tindall.

* * * *

This fall a new course entitled "Descriptive Linguistics" will be taught at the College by Professor Albert C. Labriola. The course is designated English 403-Anthropology 430 because it is cross-referenced in both departments and because it carries credit toward concentrations both in English and in Anthropology. The course will examine certain concepts of contemporary linguistic theory and will apply these concepts in analyzing and contrasting the underlying structure of diverse languages, including some American Indian, Far Eastern, and African languages.

Prof. Maccubbin spent part of the summer in Europe collecting background material for a study on poetry about music 1660-1780.

He took over 500 slides of paintings of musical subjects in various European museums during his travels.

Prof. David C. Jenkins spent some time overseas this summer and reports that this year's Bistedford (visited by Prince Charles after the investiture) had a Coronwy Owen exhibit.

GEOLOGY

Dr. Kenneth F. Bick co-authored a Report of Investigation for the Virginia Division of Mineral Resources. This publication, entitled "Geology of the Williamsburg, Hog Island, and Bacons Castle Quadrangles, Virginia," contains the first modern geologic maps of this area and a description of our local geology.

Dr. Bruce K. Goodwin served on a grant evaluation panel for the National Science Foundation in Washington on September 4-6. The panel reviewed and judged proposals which had been submitted under the Cooperative College-School Science Programs of the National Science Foundation.

Dr. Gerald T. Johnson attended the Paleontological Conference in Chicago on Sept. 4-6.

Dr. Bruce K. Goodwin and Dr. Stephen C. Clement sailed their boat to a 2nd place victory in the North American Championship races of the Skipjack Class.

HISTORY

Dr. David Quinn, professor of modern history at the University of Liverpool is on campus, the first holder of the James Pinckney Harrison Chair of History at the College. This chair was established as a memorial to the late chairman of the board of the Universal Leaf Tobacco Company of Richmond who died early in 1968, through a gift by Mr. Harrison's widow, Mrs. Nellie A. Meade Harrison of Charles City County and their son, James Pinckney Harrison, Jr., a specialist in Asian history on the faculty of Hunter College, New York City.

Miss Susan Hillier, a student of Dr. Quinn's will enroll this year as a graduate assistant in the master's program in history.

Associate Professor Boyd Coyner who has just returned from a leave of absence after a year at the University of North Carolina on a Humanities grant, will teach a new course offered by the history department this year "Old South," social and institutional history of the south from its colonial origins to Secession. Major topics will include the structure of society, the economy, slavery and the southern mind. Dr. Coyner was formerly on the faculty of Hampden Sydney College.

A graduate of William and Mary, Miss Helen C. Campbell, currently a Ph.D. candidate at Yale, studying under Dr. C Vann Woodward, will teach in the Honor's program and will offer a course in "the Negro in the United States since 1861," during the second semester.

Gilbert H. McArthur spent the summer touring and doing research in Finland and Russia.

James N. McCord, Jr., was doing research in England this summer and Professor Funigiello's research took him to New York and the state of Washington. Department chairman Ludwell Johnson did research in both Washington, D.C., and Chapel Hill, N.C., during the summer.

* * * *

Dr. Richard Maxwell Brown and Dr. Richard Sherman both completed manuscripts for books contracted by Prentice Hall for inclusion in the Spectrum Series.

Dr. Sherman's book is entitled "The Negro in the City." Dr. Brown is editor of "American Violence: from the Colonial Period to the present," a book of historical documents to be published in December.

In June Dr. Brown's two studies, "Historical Patterns of Violence in America" and "The American Vigilante Tradition", were published in Violence in America: Historical and Comparative Perspectives: A Report to the National Commission on the Causes and Prevention of Violence, edited by Hugh D. Graham and Ted R. Gurr (U.S. Government Printing Office, June, 1969). Violence in America has been reprinted in mass circulation editions by Pantam Books and Signet Books® and in hard cover trade edition by Frederick A. Praeger. It will be reprinted in a revised hard cover text edition this winter by Van Nostrand.

* * * *

HISTORY con't

Dr. Thomas Sheppard a new member of the department, will teach a course in French History.

Mr. Benson, a member of the department last year has joined the faculty of the University of the South at Sevanee.

Peter Pudner, a student in the Ph.D. Program has received several honors enroute to his degree. He was awarded one of four scholarship grants given nationwide by the National Society of the Colonial Dames of America. He is also the recipient of an award by the Order of the Cincinnati. He has received the Weaver Fellowship given by the Intercollegiate Studies Institute at Bryn Mawr and a department grant. The Weaver Fellowship honors Richard M. Weaver, author and former member of the English faculty at the University of Chicago.

INSTITUTE OF EARLY AMERICAN HISTORY AND CULTURE

There have been two new appointments to the history department faculty through the Institute of Early American History and Culture.

James H. Hutson is Editor of Publications at the Institute and lecturer in history. Prior to July 1, 1969, when he came here, he was lecturer in history at Yale University, Assistant Editor of the Papers of Benjamin Franklin and Fellow of Jonathan Edwards College. His research in progress is on topics in early American history. He received his B.A. in 1959 and his Ph.D. in 1964, both from Yale.

Norman S. Fiering is a Fellow at the Institute and lecturer in history. His former position was instructor in history at Stanford University. His research in progress is on moral philosophy in Britain and America in the colonial period. He received his B.A. from Dartmouth College and his M.A. and Ph.D. from Columbia University.

MARSHALL WYTHE SCHOOL OF LAW

Described by one reviewer as "monumental and authoritative," the first volume of a two-volume study on Court and Constitution in the 20th Century, by Dr. William F. Swindler, was released in July. Subtitled, The Old Legality: 1889-1932 the study will be completed by the second volume, The New Legality: 1932-1968, to be released early in 1970. The work will be rounded out by a third volume to be entitled, The Constitution of the United States: A 20th Century Interpretation, to be published late next year.

Professor Thomas H. Jolls attended the national convention of the American Bar Association in August in Dallas. Professor Jolls is a member of the committee on the Uniform Commercial Code of the ABA Section on Corporation, Banking and Business Law. He is also the author of "Fictitious Registration of Stock Ownership--Hartford v. Walston Examined," which appeared in the July issue of The Business Lawyer.

MARSHALL WYTHE SCHOOL OF LAW con't

Acting Dean James P. Whyte represented the Law School at the Southeastern Conference of Law Schools in New Orleans in August. He recently contributed an editorial, "Reflections of an Arbitrator," in Issue 342 of the professional journal, Discipline and Grievances. Among his recent arbitration opinions which have been published are: Nashville Bridge, 69-2 ARB 3123; American Sugar Company, 69-2 ARB 8691, 52 LA 1228; and United Telephone of Florida, 69-2 ARB 3822.

MATH

The math department has moved into its new quarters in the new classroom building on the new campus next to the physics building. According to chairman Thomas L. Reynolds the move is complete and everything operable with just a few "little odds and ends" to be added to make the move complete.

Peter O'Neill and his wife Leslie, who teaches in the Modern Languages department, returned from a nine-week extended tour of Europe.

Harriet Hancock Farrier, an instructor in the department last year, was married during the summer and is now residing in Blacksburg, the wife of a VPI professor.

John J. Avioli has returned to graduate studies toward a Ph.D. at the University of Delaware. Also in graduate school is Wayne E. Carter at the University of South Carolina.

MODERN LANGUAGES

Dr. Alexander Kallos has just returned from a most interesting trip that took him through seven European countries.

He is happy to report that he found almost no anti-American sentiment anywhere, except a few APO's (German equivalent to SDS).

The Marshall Plan, said Dr. Kallos proved to be a lasting success and the Europeans are truly grateful and very self-reliant at the present time. Two countries he pointed out as particularly hospitable, and relaxed, Holland and Scotland.

Dr. Kallos met a goodly number of present and former members of the William and Mary Community all of whom enjoyed Europe. He visited Professor and Mrs. Charles Nickerson at Oxford and Edinburgh; Dr. and Mrs. Robert MacCubbin and E. Lewis Walker of the English Department in Edinburgh; senior Bill Weiss and former students Mr. and Mrs. Bob Kaplan at Munich; and Professor and Mrs. Hyland in Brussels.

He also renewed friendships in Freiburg, Heidelberg and Wurzburg, and brought back special regards to all Williamsburg friends from former students

MODERN LANGUAGES con't

Rutledge, Bell and Seibert whom he met twice, first at Oxford and again at Heidelberg. He added that it was a pleasure also to attend Dr. Carl Dolmetsch's lecture on Mark Twain at Freiburg University.

"In summa," said Dr. Kallos "the trip was most rewarding from both a professional and personal point of view."

Professor Rush Beeler has resigned to join the faculty of the University of North Carolina at Wilmington.

SCHOOL OF BUSINESS ADMINISTRATION

Dean C. L. Quittmeyer gave the Commencement address at Walsingham Academy in June. The address topic was "To The Year 2003".

Dr. George D. Cole, Director of Conferences for the School of Business Administration, spoke at two conferences himself this summer. During the last week of July he was on the faculty of a workshop for Project TRANSITION administrators and counselors, held for Department of Defence personnel at the National War College, Fort McNair, in Washington. This workshop was conducted by Performance Research, Inc. On August 15, he addressed the school administrators and teachers of Union County, South Carolina on Interpersonal Factors in School Integration.

Dean Quittmeyer attended the annual meeting of the Academy of Management in Cincinnati, Ohio, August 25-26.

Professor John S. Quinn attended the annual meeting of the American Accounting Association at the University of Notre Dame late in August.

SCHOOL OF EDUCATION

Dr. John Lavach, Assistant Professor in the School of Education, was a participant in a six week National Science Foundation sponsored summer institute in experimental psychology at Williams College, Williamstown, Mass.

Dr. Roger Ries and Dr. Lavach attended the American Psychological Association Convention in Washington, D.C. August 31 - Sept. 4.

Mr. John Sykes, School of Education, spent the summer at Oregon College of Education, Monmouth, Oregon, as visiting Professor in Education. Dr. Charles Gengler of Oregon College of Education visited the College of William and Mary campus and taught Mr. Sykes' classes.

SOCIOLOGY

Department chairman Wayne Kernodle spent the summer in Europe, particularly in Belgium, studying community oriented psychiatry. He also visited in England

SOCIOLOGY con't

Holland and Demark. Mrs. Kernodle accompanied her husband and assisted with his research.

Dr. Phyne has been engaged in research during the summer on Social Movements, during work on campus under the College Science Improvement program made possible by a grant to the college by the National Science Foundation.

Professor Anthony Guenther, as chairman of a special curriculum committee of the department has been studying the departments offerings in the 201-202 general course, comparing similar courses at other schools and together with committee members Beckhouse, Ito and Edmonds will make proposals for modification and improvements which the department will take under advisement.

Professors Ito, Edmonds, Beckhouse and Beck were all members of the Summer School faculty. Professor Beck has left the department to take a position on the faculty of Western Kentucky University.

Victor A. Liquori who has a joint appointment with the department of Sociology and the Virginia Institute of Marine Science undertook summer research in Big Island and Gloucester.

* * * *

"The Sociology of Welfare Institutions, a course which the department has scheduled but not offered before, will be taught by Dr. Robert Miller who joined the faculty from VCU. This course was not taught before because the department did not have a staff member in that particular specialty.

Also new in the department this year are Craig Humphrey a Ph.D. candidate at Brown University; and Jon Kerner a Ph.D. candidate at Indiana University.

THEATER AND SPEECH

Sixty-six years of work with The Common Glory were completed last summer by three members of The Department of Theater and Speech who have been active in the annual outdoor drama by Paul Green since it first started. Professor Roger Sherman served as Executive Vice-President of the Jamestown Corporation, producer of Glory during its twenty-two seasons. Professor Howard Scammon was Director for the eighteenth time. Professor Al Haak was Technical Director.

Professor Howard Scammon, Chairman of the Department of Theater and Speech attended the annual convention of the American Educational Theater Association. It was held in Detroit.

Professor Louis E. Catron, playwright of The William and Mary Theater, had approximately a dozen productions of his various plays during the summer.

Professor Lawrence Miller, Designer of The William and Mary Theater, worked at the Wedgewood Dinner Theater as Designer during the summer.

SWEM LIBRARY

Swem Library is pleased to announce the following staff appointments: Miss Susan Stevick, Assistant Catalog Librarian. Miss Stevick is a graduate of Vassar College and holds a Master's degree in Library Science from Columbia University.

Miss Diane Terry, Assistant Circulation Librarian. Miss Terry was graduated from Gettysburg College and earned her graduate library degree from the University of North Carolina.

Mr. N. Lynn Barber, Assistant Law Librarian. Mr. Barber is a graduate of the University of Texas and holds Master's degrees in History and Library Science from the University of Houston and the University of Denver, respectively.

* * * *

The Library announces with regret the resignation of James Henry Renz due to illness. Mr. Renz served the Library as Acquisitions Librarian from 1960-63, as Assistant Librarian from 1964-66, as Acting Librarian from March-September 1966, as Associate Librarian from September 1966 through July 1969.

* * * *

Library Hours

Effective with the opening of the 1969-70 academic year, Swem Library will observe the following hours: Monday through Friday, 8 a.m. until midnight; Saturday, 8 a.m. until 5 p.m.; Sunday, 2 p.m. until midnight.

Festival Film Program

The Festival Film Society has announced its fall program and is soliciting subscriptions for the eight-film series.

Series tickets are \$5 and may be obtained by sending a check to the Festival Film Society, Williamsburg. Under a new policy, the series ticket will entitle the holder to two additional single guest admissions. No phone calls for tickets please. The number of tickets is limited so early reservations are urged.

The first film The End of August at the Hotel Ozone will be shown in Phi Beta Kappa Hall, Friday Sept. 25 at 4 & 8 p.m.; Sept. 26, 8 p.m.

Hotel Ozone is an experiment in recently produced releases never run on the commercial circuits.

In order to encourage a large attendance at this film, the Festival Film Society is offering single admission tickets at \$1.50 each to non-subscribers.

The rest of the fall program follows. Films will be shown on scheduled dates at 8 p.m. in Andrews auditorium. Previews will be held at 4 p.m. in the Botetourt Theatre, in Swem Library.

Sunday Oct. 5	Chaplin's <u>THE GOLD PUSH</u> . (USA)
Monday Oct. 13	<u>ALPHAVILLE</u> directed by Jean-Luc Godard (French) Short: <u>The Hat</u>
Tuesday Oct. 21	<u>THE WAGES OF FEAR</u> (French)
Wednesday Oct. 29	<u>LA RONDE</u> (French)
Tuesday Nov. 18	<u>AMERICAN UNDERGROUND FILMS</u> Stan Brankhage's "Dog Star Man" and others.
Wednesday Dec 10	CINE-THEATER-- <u>The Frig</u> , and <u>The San Francisco Mime Troupe</u> .
Wednesday Jan. 7	<u>SANJURO</u> (Japanese)

1969 SHERWELL LECTURE

One of the most scholarly and colorful members of the District of Columbia Bar--Frederick Bernays Wiener--will deliver the 1969 Sherwell Lecture at the Marshall Wythe School of Law, Friday, October 3 at 11 a.m.

The lecture, which will be given in the ceremonial courtroom of the Law School, is entitled "The Human Comedy in Legal History."

A former Guggenheim Fellow, Wiener is internationally known as a lawyer, author, historian and lecturer. He received his undergraduate degree from Brown University and his LL. B. from Harvard Law School. In 1965 he was one of the distinguished alumni to receive a commemorative medallion on Brown's two hundredth anniversary. From 1951 to 1956 Wiener was professorial lecturer at the George Washington University Law School.

The Sherwell Lectures were inaugurated in 1967 through a gift of Mrs. Maria Estaire Baumert of Long Island, New York. The gift is a memorial to members of her family, and particularly her brother, the late G.B. Sherwell. The family for a number of years occupied the George Wythe house in Williamsburg, and an ancestor, William Sherwell, was a student at the College of William and Mary in the nineteenth century.

Previous speakers in the lecture series have included Professor Walter Gellhorn of Columbia University and William T. Gossett, president of the American Bar Association.

Wiener, who is considered one of the most colorful advocates in the District of Columbia, is a member of state and national law and historical societies, as well as a member of the council of the Selden Society, distinguished British academy of legal historians. In 1962 Wiener delivered the Society's annual lecture at Lincoln's Inn in London. He is a Fellow of the International Academy of Trial Lawyers.

Wiener is the author of three authoritative books in professional subjects: "Effective Appellate Advocacy," "Briefing and Arguing Federal Appeals," and "Civilians Under Military Justice".

VISITORS AT THE WREN

More than a quarter of a million tourists have visited the Wren Building since portions of it were opened for regular interpretation on July 1, 1968. Between July 1, 1968 and June 30, 1969, visitation totaled 184,088. In July, 1969, a total of 37,889 tourists visited the building, and in August of this year, 41,802 visited.

In the summer of 1966, under the former informal guide program, there were 12,586 visitors for the two months. For 1967, summer visitation totaled 19,535.

Summer visitation increased by about 630% as the result of the new program.

LIBRARY

PROFESSORS ON LEAVE

Several members of the faculty have been granted leaves of absence for part or the whole of the 1969-70 academic year.

Dr. Kee Il Choi, associate professor of economics, will conduct research at Harvard University; Miss Patricia B. Crowe, assistant professor of physical education will take work toward her doctorate at the University of North Carolina-Greensboro; Dr. Thomas K. Hearn, Jr., associate professor of philosophy, will take part in the Cooperative Program in the Humanities sponsored by Duke University and the University of North Carolina; Dr. J. Ward Jones, professor of ancient languages, also to take part in the Cooperative Program in the Humanities and Dr. Ying-Yeung Yam, assistant professor, will hold a visiting appointment at Ching Wah University in Taiwan.

Leaves of absence have been approved for Carol E. Ballingall, assistant professor of anthropology; Richard C. Curry, associate professor of government; Anthony L. Guenther, assistant professor of sociology; Virgil V. McKenna, associate professor of psychology, and Alan J. Ward, associate professor of government.

Drs. Ballingall, Guenther, McKenna, and Ward will be on leave through January 31, 1970. Their research is supported by a National Science Foundation College Science Improvement Program (COSIP) grant. Dr. Curry will be on leave for the full year. He has been selected by the American Political Science Association as a representative to the Republican National Committee:

Dr. Ballingall will spend her leave of absence doing field research in Thailand. Dr. Guenther will do research at the Atlanta Penitentiary of the U.S. Bureau of Prisons. Dr. McKenna will spend the semester preparing various papers for publication. Dr. Ward will continue research in England and Ireland on the parliamentary government of the Irish Republic, a subject on which he has published a book

COLLEGE FOOTBALL CENTENNIAL

The year 1969 makes the one hundredth anniversary of the first intercollegiate football game between Rutgers and Princeton, inaugurating a sports competition that has become a part of academic life.

Calling attention to football development, the National Collegiate Athletic Association will observe the coming season as College Football Centennial Year.

Good Seats Available

Faculty members who have not obtained their regular season ticket for home games and would like to take advantage of the special price offered to faculty, may still do so at the ticket office.

Some good seats are still available, a few on the 35 yard line and a call to the ticket office 229-3389 will reserve seats in time for the first home game with Virginia, October 4.

The ticket office will hold seats for faculty until September 29.

The regular season ticket price is \$30 but the Athletic Department offers tickets to faculty members and their immediate family (only) for \$15.00.

Home Games

This season's home games include the homecoming game with Davidson, Oct. 18; the Burgesses Day game with VMI, Oct. 25; the Dad's Day game with West Virginia, Nov. 8; and the pre-Thanksgiving tilt with Richmond in the Jaycee Bowl, Nov. 22.

GEOLOGY DEPARTMENT HOSTS CONFERENCE

On Saturday, over 100 Geologists from all over Virginia will converge at the Geology Department of the College of William and Mary to attend the first Virginia Geological Field Conference. The purpose of this Conference is to bring together geologists from all walks of the profession in order to let them become acquainted with the details and problems of the geology in a particular geographic area. Geologists attending the conference will include faculty and students from Geology Departments of most of the Colleges and Universities in the State, industrial geologists from several mineral and civil engineering companies, members of the United States Geological Survey, members of several State agencies such as the Virginia Division of Mineral Resources, the Virginia Department of Highways, and the Virginia Division of Water Resources. Several earth science educators from the public schools will also attend.

The main function of the Conference will be a two day field trip to study the geology of the York-James Peninsula and the south bank of the James River. The trips will be led by Dr. Gerald H. Johnson of the William and Mary Geology Department. Dr. Johnson has prepared a detailed, illustrated guidebook to accompany and explain the field trip.

This conference, which hopefully will become an annual event, was initiated by the Geology Section of the Virginia Academy of Science. Dr. Bruce K. Goodwin, Vice-Chairman of the Geology Section, Virginia Academy of Science, and a member of the Geology Department at William and Mary has been responsible for planning and organizing the field conference.

PHYSICS COLLOQUIUM

T. S. Brown of the Max-Planck Institut fuer Physik und Astrophysik will speak on "Strong Turbulent Theory in Plasma" at the Friday colloquium to be held in Room 109 of William Small Physical Laboratory at 4:30 p.m.

Coffee will be served in the Conference Room at 4 p.m.

COMMEMORATIVE BOOKLETS AVAILABLE

A limited quantity of the special Commemorative Booklet for the 275th Anniversary, issued in June and distributed in faculty mailboxes, remain at the Public Information Office.

Persons wishing to have a copy of this may obtain one by written request.

FRENCH COURSES

The Peninsula Chapter of the "Alliance Francaise" will resume its French courses tonight, at 7:30 p.m. - James Elair High School. These courses will be given, thereafter, every Thursday from 7:30 to 9:30 p.m.

There will be two levels: elementary and intermediate (conversation). The registration fee is \$10.00 per student.

Any resident of the area served by the Peninsula Chapter (James City, York, West Point, Newport News, Williamsburg) is entitled to attend these courses.

AUDUBON WILDLIFE FILMS

The Clayton-Grimes Biology Club and the National Audubon Society will again offer a series of wildlife films this year.

The program opens Wednesday October 15, with "Our Unique Water Wilderness--The Everglades," narrated by William A. Anderson.

Other programs in the current series include "Four Seasons," with Wilfred E. Gray, Dec. 1; "Galapagos--Wild Eden," with Roger Troy Peterson, Jan. 13; "A Place in the Sun" with Doris Eoyd, Feb. 17; and "Sweden," with John Douglas Pulger, April 22.

All films in the series are shown on the scheduled date at 8 p.m. in the ballroom of the Campus Center.

Season tickets are \$4.00. Family season tickets are available at \$7.50 each and single admission is \$1.25. Student and children's rates are also available.

Tickets may be obtained from the Audubon Wildlife Films, Department of Biology, Ext. 284 and at the door.

VISITING LECTURERS

The Committee on Arts and Lectures has announced an eight-lecture series for the 1969-70 series which will bring to the campus outstanding speakers on a variety of topics.

Schedule for the year is as follows:

- | | |
|----------|---|
| Oct. 2 | <u>Boris Goldovsky</u> , Founder-director, New England Conservatory of Music and director, Goldovsky Opera Institute. |
| Oct. 17 | <u>Trevor Evans</u> , Professor of Mathematics and Chairman, Department of Mathematics, Emory University. |
| Oct. 27 | <u>Richard B. Sewall</u> , Professor of English and Master of Ezra Stiles College, Yale University. |
| Nov. 3 | <u>James M. Gustafson</u> , Professor of Christian Ethics, Divinity School, Yale University. |
| Dec. 3 | <u>Raymond B. Cattell</u> , Research Professor of Psychology, University of Illinois. |
| Feb. 18 | <u>Walter Terry</u> , Dance Critic, Saturday Review. Dance Critic, Boston Herald, New York Herald Tribune. |
| Mar. 6 | <u>William Frankena</u> , Professor of Philosophy, University of Michigan. |
| April 6. | <u>Kai T. Erikson</u> , Associate Professor of Sociology, Yale University |

All Events are scheduled for 8 p.m. in the Campus Center. Additional events will be added as they are scheduled. Specific Inquiries regarding the program should be directed to Prof. Lewis Foster, Department of Philosophy, Ext. 484 All lectures are open to the public without charge.

SPECIAL EDUCATION INTERN PROGRAM COMPLETES FIRST PHASE

The Special Education division of the School of Education completed the first phase of the Special Education Intern Program on August 22. During the two summer sessions of the College of William and Mary, twenty-three selected interns attended the ten week orientation course. This program was made possible by the cooperation of the State Department of Education, the Department of Health, Education and Welfare, and the Public Schools of the Tidewater area.

An active program was conducted at the Mathew Whaley Elementary School from 9:30 A.M. to 12:30 P.M. daily, throughout the summer. During the three hour period interns participated in activities designed to prepare them for assuming teaching positions in classrooms for mentally retarded pupils in the public schools. Because of the space available to the program it was possible to provide several instructional experiences each day. Within the setting, arrangements were made for lectures, audio-visual presentations, discussion groups, and provision for exploring and producing instructional materials.

Observations were arranged in summer programs for the mentally retarded in Hampton, Newport News, and at the Sarah Fowell Hudgins Regional Center. Specialists in the area of Music, Art, and Physical Education for the mentally retarded pupils were active consultants. When bringing the consultant to the campus was not possible, use of the telelecture was arranged.

Contracts Finalized

Contracts for teaching positions for all interns were finalized early in the program to enable each to apply planning and preparation to the level of his projected teaching assignment. Placement of teacher-interns in the classrooms for mentally retarded pupils have been effected in the public school divisions of Newport News, Williamsburg-James City County, Hampton, New Kent County, York County, Middlesex-Essex, King William County, Portsmouth, Suffolk, Popewell, Chesapeake City, and Franklin City Schools. The interns will be enrolled in the School of Continuing Studies for the next two years as they work toward completion of their Master of Education degree, certification, and endorsement in the area of Special Education.

IM PROVISATIONAL THEATER Oct. 1

The Visiting Professional Company called "The Fourth Wall" will open the William and Mary Theater season with a performance in Phi Beta Kappa Hall auditorium, Wednesday evening October 1 at 8:15 p.m.

The \$12 season ticket will be honored for this performance but not the \$7. Single admission tickets are \$3. The box office will be open Monday through Wednesday from 3-5:30 p.m. and the night of the performance beginning at 7 p.m.

There are still \$12 and \$7 season tickets available. For further information please call Mr. Roger Sherman, Extension 395.

DEPARTMENTAL NEWS

BIOLOGY

Dr. Ian P. Callard, attended the 5th Conference of European Comparative Endocrinologists in Utrecht, Holland, August 24-29. Presented three papers in collaboration with students:

with Wm. F. McConnell "The effects of hypothalamic steroid implants upon ovulation in the lizard Sceloporus cyanogenys".

with V. Lance "Ovarian steroid histochemistry in the ovoviviparous elasmobranch, Squalus acanthias".

with Edgar Willard III "The effects of hypothalamic steroid implants upon adrenal function in male Sceloporus cyanogenys".

All three papers will appear as abstracts in "General and Comparative Endocrinology".

Afer the conference in Utrecht, Dr. Callard attended a conference held at the University of Sheffield in England on "Hormones and the Environment". The conference was sponsored by the British Society for Endocrinology and was held from September 1-6.

Dr. Mangum was recently elected to membership in the Corporation of the Marine Biological Laboratory, Woods Hole, Mass., where she serves in the instructional staff in Experimental Invertebrate Zoology during the summer.

Recent publications:

Mangum, C.P., S.L. Santos and W.R. Rhodes. 1968. Distribution and feeding in the onuphid polychaete Diopatra cuprea (Bosc). Marine Biology 2: 33-40.

Mangum, C.P. 1969. Low temperature blockage of the feeding response in boreal and temperate zone polychaetes. Chesapeake Science 10: 64-68.

Mangum, C.P. and C. Sassaman. 1969. Temperature sensitivity of active and resting metabolism in a polychaetous annelid. Comparative Biochemistry and Physiology 30: 111-116.

Papers presented orally: C. Richard Terman.

The influence of stranger males on the growth of prairie deer mouse embryos. Presented at the August meeting at the American Institute of Biological Sciences (Abstract) American Zoologist, 9:569.

CHEMISTRY

Professor David Thompson had two papers published this month: A New β -Diketonate Complex of Silicon (IV)", Inorganic Chemistry, 8, 2015 (1969) and "The Relation of Ring-Proton Chemical Shifts to Structure in Six-Coordinate 2,4-Pentanedionate Complexes", Journal of Magnetic Resonance, 1, 606 (1969).

At the past Virginia Academy of Science meeting Pamela Bowen, who is working with Dr. Thompson, presented a paper entitled "Organosilicon Derivatives of β -Diketones" and professor Thompson presented "Hydrogen Isotope Effects in 2,4-Pentanedione".

ENGLISH

In recent months three studies by Robert J. Fehrenbach have been accepted for publication; all will be published in the coming year. His article, "The Printing of Shirley's The Politician (1655)" will appear in Studies in Bibliography. XXIV, and the June, 1970, issue of Notes and Queries will carry his note, "Performance Dates of The Tempest in the 1677-78 Theatrical Season." His essay, a descriptive bibliography of the last fifty years of scholarship on Thomas Nashe (1567-1601), will be included in a collection of similar essays on the Elizabethan dramatists, Recent Studies in Renaissance Drama: The Predecessors of Shakespeare. The book will be published by the University of Nebraska Press

In addition, during the past year, Professor Fehrenbach contributed questions on English literature to the Educational Testing Service at Princeton for the College-Level Examination Program, a new activity of the College Entrance Examination Board.

HISTORY

Professor Philip J. Funigiello's review of James T. Patterson's Congressional Conservatism and The New Deal appeared in the July issue of the New York Historical Society Quarterly.

MATHEMATICS

Free tutoring by graduate students will be available this semester to students in Math 103, 105, 201 and 202.

Graduate assistants will be available in Room 131 of the new Math building during the following hours: 9-12 a.m. Monday through Friday; 1-4 p.m. Monday and Wednesday.

PHYSICS

The following papers have been published by members of the department:

Reviews of: C.S. Smith and J.G. Burke, Atoms, Blacksmiths, and Crystals
and of R. Hahn, Laplace as a Newtonian Scientist.

R.G. Winter

(both) Los Angeles: William Andrews Clark Memorial Library, 1967,
in Seventeenth Century News, Vol. XXVII, Spring, 1969, p. 19.

Polynomial Bases and Wigner Coefficients for $SU(3) \supset R_3$.

R.T. Sharp, Hans C. von Baeyer, and S.C. Pieper
Nuclear Physics A127, 513-524 (1969).

On the Reaction $He^+ + Ar \rightarrow (Ar^+)^* + He$.

R. L. Champion and L.D. Doverspike

Vith International Conference on Electronic and Atomic Collisions, Boston,
Massachusetts, August 1969.

M. I. T. Press, Cambridge, Massachusetts, 1969.

Wave-Wave Interaction in a One-Dimensional Vlasov Plasma Calculated Using
a Truncated Fourier-Hermite Expansion,

F.R. Crownfield, Jr.

IXth International Conference on Phenomena in Ionized Gases, Bucharest,
Romania, September 1-6, 1969.

Phenomena in Ionized Gases, 1969 Contributed Papers, p. 533.

Editura Academiei Republicii Socialiste România, Bucharest, 1969.

The following papers were presented at conferences:

Investigation of the Nucleon-Deuteron System.

E.A. Remler

IIIrd International Conference on High Energy Physics and Nuclear
Structure, Columbia University, September 1969.

Gamma Rays from Pion Reaction on C^{12} .

H.O. Funsten and B.J. Lieb.

New York IUPAP Conference.

Drs. H.O. Funsten and R.T. Siegel spoke on "Design and Performance of
SREL Mason Channel" at the Los Alamos Mason Facility Users Conference.

SCHOOL OF BUSINESS ADMINISTRATION

Students in last spring's Principles of Accounting course at the College of William and Mary placed second in a national achievement test administered by the American Institute of Certified Public Accountants.

Results of the test were made available by the CPA institute. The notification did not indicate the college whose students placed first.

A total of 2,674 students from 42 colleges took part in the program. It was the fifth consecutive year in which William and Mary accounting students placed either second or first. In 1965-66, its first place position was shared with two others.

Dr. J.S. Quinn, professor of accounting in the School of Business Administration at William and Mary, noted that about two-thirds of his accounting graduates accept positions in public accounting with large international CPA firms, most of whom have regional offices in Virginia. In August, eight William and Mary graduates were among those who successfully completed the state CPA examination.

SWIMMING CLASSES FOR FACULTY CHILDREN

The College Women's Club will again sponsor swimming lessons at Adair pool for children of faculty families.

Classes begin Saturday, October 4. Registration at the Adair Pool will be held from 9 - 12 noon.

Children should bring suits, caps and towels as they can swim after they have registered.

The College of William and Mary

Alumni Seminars

The 1969 Alumni Seminars will be based on the College-Wide Reading Program. The seminars will discuss two of the four required readings for the program theme, "The Academic Revolution." The books are important and readable, of general interest, and should provide the basis for interesting discussion. Seminar discussion groups will be led by members of the faculty and the student body.

The books are DEMOCRACY AND THE STUDENT LEFT, by George Kennan, and EDUCATION AND THE BARRICADES, by Charles Frankel. These books are all in paperback editions, and if not available locally may be obtained from the College Bookstore. All reading should be done in advance in order that the discussions may be meaningful explorations.

The aim of the seminars is to involve the alumni in stimulating and serious discussion on aspects of important and controversial contemporary issues. The College has recognized for some time the desirability of involving her alumni in revitalizing and challenging experiences related to its primary role as an educational institution which should affect the intellectual life of its graduates as well as undergraduates.

The seminars will meet Friday afternoon from 2:00 until 4:00 and advance registration is requested. Please check the registration area in Phi Beta Kappa Hall for seminar locations.

RESERVATIONS

Because demand for Class Dinner and Dinner Dance accommodations has been exceeding space availability, it will be necessary again this year to accept ONLY PREPAID RESERVATIONS for those two occasions in order of receipt.

Please pick up tickets at Phi Beta Kappa Hall upon registration.

There will be space available at the Dinner Dance for those who wish to attend the dance only, at the conclusion of dining.

The dance is a B.Y.O.L. with set-ups furnished.

Tickets for the Big Top Luncheon will be sold at the luncheon.

The Alumni office will forward your name and address for room reservations to the motel and they will confirm directly.

Please make 1969 Homecoming reservations for me at the class

Motel _____ Other _____ (specify)

ON CAMPUS THIS WEEK

Boris Goldovsky, Founder and Director of the New England Conservatory of Music will open the current Visiting Scholars Lecture Series tonight with a lecture on "The Language of Music" in the Campus Center Ballroom beginning at 8 p.m.

* * *

Frederick Bernays Wiener, of the District of Columbia Bar, will give the 1969 Sherwell Lecture at 11 a.m. Friday morning in the ceremonial courtroom of the Law School. His topic will be "The Human Comedy in Legal History."

* * *

Dr. N. Rostoker of Cornell University, will be guest speaker at the Physics Colloquium to be held tomorrow afternoon at 4:30 p.m. in Room 109 of William Small Physical Laboratory. His topic will be "Application of Intense MeV Electron Beams. Coffee will be served in the Conference Room at 4 p.m.

* * *

After a one win one loss record, the William and Mary football team plays its first home game Saturday against the University of Virginia.

* * *

Professor David C. Jenkins reports all subscriptions to the current Festival Film Society series sold out. The Chaplin classic "The Gold Rush" will be shown Sunday at 4 and 8 p.m. in Andrews Hall. Single admissions of \$1 will be available for the 4 p.m. showing only.

* * *

The program of "An Occasion for the Arts" on Sunday includes something for everybody. The highlight of the afternoon's program will be an outdoor performance by the Norfolk Symphony Orchestra in the Wren Courtyard at 3:30 p.m. Guest artist will be Bob Keeshan (TV's Captain Kangaroo) who will narrate a Children's Suite written by the Norfolk Symphony's conductor, Russell Stanger. There is no admission charge to this concert and the many other events on the program which begins at noon in Merchants Square.

LIBRARY
SEP 30 1970
WILLIAM & MARY

MISS ARLEDGE TO GIVE RECITAL

Miss Patricia Arledge, soprano, and voice student of Fobin Roark, will give her first full length recital Tuesday evening in Phi Beta Kappa Hall beginning at 8:15 p.m.

Miss Arledge was a winner in the state vocal auditions held at Shenandoah Conservatory in Winchester and in November will compete in the regional competition to be held in Columbia, S.C. If she is successful in this competition she will compete in the 15th annual Artist Award Auditions to be held in Cleveland, Ohio under the auspices of the National Association of Teachers of singing, in December.

Tuesday evening she has chosen for her recital four seventeenth century songs "Dido's Lament" by Purcell; "se tu m'ami" by Perglisi; "Tu lo sai" by Torelli; and "Star Vicino" by Rosa; four nineteenth century German Lieder songs "Sappische Ode" by Brahms; and "Morgen" "Cacilie" and "Zueignung" by Richard Strauss.

She will also sing "Mandoline" and "Beau Soir" by Debussy; "Après un Reve" by Faure; and "Les Filles de Cadix" by Delibes.

Four contemporasy songs, poems of Tennyson set to music by Ned Rorem, will conclude her program.

Miss Arledge is an English major and the daughter of Mr. and Mrs. Lee Arledge of 514 Lilac Drive, Portsmouth. Her accompanist will be Mrs. Nancy Fleischman, a 1969 graduate of William and Mary who is presently working in the special education field at Warwick High School.

Tuesday's night recital is being presented by the Department of Music.

INTERNATIONAL CIRCLE

The International Circle will hold its first general meeting of the semester on Monday, October 13 at 7:30 p.m. in the Little Theater at the Campus Center.

President of the Circle, Sylvain Carlo, has issued invitations to all foreign students interested in the activities of the Circle to attend the meeting and learn more about the program for the year.

Participation by the faculty is welcomed. Several faculty members have in the past expressed the desire to invite foreign students into their homes on weekends and at Thanksgiving. Faculty members are invited to extend this tradition for students on campus this semester.

from EDUCATIONAL ABSTRACTS:

"Statistic of the month" in August-September American Education deals with colleges, universities, professional schools, and two year institutions - 2,483 of them, up from 1,950 a decade ago. Of these, 390 enroll over 5,000 students; 893, between 1,000 and 4,999. University of California's 123,275 enrollment is in a class by itself; University of Minnesota and Wisconsin are in the 60,000's; Indiana University and University of Illinois enroll over 50,000 each; and 20 others have in excess of 30,000 students. The figures are for 1968-69.

NATIONAL ASSOCIATION OF BROADCASTERS INVITES
RESEARCH PROPOSALS

The National Association of Broadcasters has opened its 1970 program of research grants for academic personnel. Individual grants provide up to \$1,000 for research into the social, cultural, political, and economic aspects of American Commercial Broadcasting, particularly radio. The deadline for application is Dec. 1. Forms can be obtained from John Dimling, Jr., Vice-President for research, National Association of Broadcasters, 1771 N Street, N.W., Washington, D.C. 20036.

NSF OFFERS FELLOWSHIPS IN SCIENCE

The National Science Foundation will award approximately 50 Fellowships for fulltime research at the postdoctoral academic level in Mathematical, Physical, Medical, Biological, Engineering, and social sciences and in the History and Philosophy of Science. Citizens or nationals of the United States who have held a Doctoral Degree in one of the basic fields of science, math or engineering for at least five years and who have achieved recognized stature in their profession are eligible.

Stipends will be based on the Fellow's salaried income for the 1969-70 academic year, minus the amount of support from other sources. The total award by the NSF will not exceed \$1250 per month or \$15,000 Per Annum. The usual tenure is 9 or 12 months; however tenures for 3 to 24 months are available upon adequate justification. A travel allowance and a special allowance of \$400 for a 9 to 12 month period are available also. A Fellow may undertake his research project at any appropriate nonprofit United States or Foreign institution.

Application materials may be obtained from the Senior Fellowship Program, Division of Graduate Education in Science, National Science Foundation, Washington, D.C. 20550.

The NSF will also award approximately 200 Science Faculty Fellowships for the purpose of enhancing the effectiveness of college-level science teachers. Awards will be made for full-time study in the areas mentioned above for the Senior Postdoctoral Fellowships.

To be eligible for the Science Faculty Fellowships, an applicant must hold a Baccalaureate or the equivalent, have 3 or more academic years' experience in teaching science, math, or engineering at the collegiate level, and intend to continue teaching.

Stipends will be based on the Fellow's salaried income as explained above. The tenure is 9 or 12 months, but periods of from 3 months to a maximum of 15 months are available. A travel allowance and a special allowance of \$150 are offered. Study may be undertaken at any Appropriate nonprofit United States or foreign institution.

NSF OFFERS FELLOWSHIPS IN SCIENCE con't

Application materials may be obtained from the Division of Graduate Education in Science, National Science Foundation, Washington, D.C. 20550. Applications must be postmarked no later than October 6, 1969 for both programs. Awards will be announced on December 8, 1969.

For further information on the above programs, contact Warren Heemann, Director, Office of Institutional Resources.

WOODROW WILSON FELLOWSHIPS

Nominations of seniors for the Woodrow Wilson National Fellowship program must be made by October 20. Any member of the faculty may nominate a candidate by sending his name, college, current mailing address, and proposed field of graduate study to the regional chairman:

Dean I. B. Cauthen, Jr.
College of Arts and Sciences
University of Virginia
Box 3742, University Station
Charlottesville, Virginia 22903

Brochures describing the Woodrow Wilson program have been distributed to chairmen of departments in the appropriate fields. Faculty members should talk with a student about his plans before nominating him and nominate only those students who are considering academic careers. Dr. Frank E. Evans (Wren 313, Ext. 370) will be glad to answer questions about the program.

DRAPERS' COMPANY EXCHANGE SCHOLARSHIP

This scholarship, which will cover the cost of attendance for two years at a British University of the recipient's choice, is open to men and women of the College of William and Mary who will graduate in June, 1970. It may be that two scholarships will be offered instead of one.

Seniors wishing to be considered for this scholarships are asked to make contact with Mr. Beyer (Honors Center) as early as possible and to submit the required application no later than Wednesday, October 15, 1969.

MARSHALL SCHOLARSHIPS

These scholarships, which also cover the cost of attendance for two years at a British University, are open to men and women on a national competitive basis. Candidates require college endorsement. Students wishing to be considered for these scholarships are asked to make contact with Mr. Beyer (Honors Center) as soon as possible and no later than October 15th.

BRANCH COLLEGE DAY, OCTOBER 11

Members of the faculties of Christopher Newport and Richard Bland branch colleges of the College of William and Mary, will be guests on campus Saturday, October 11 for the second annual Branch College Day.

The program will get underway at 10 a.m. in the main auditorium of John Millington Hall. Vice President W. Melville Jones will open the meeting with an address of welcome to the visiting faculties. The faculties of the branch colleges will be accompanied by their presidents, H. Westcott Cunningham of Christopher Newport and Col. James M. Carson of Richard Bland.

After the introductions, the visiting faculty members will meet for informal discussions and mutual professional interests with their academic counterparts on the William and Mary faculties.

After the morning meetings there will be a luncheon in the Campus Center ballroom for the guests and their hosts at 12:30 p.m.

There will also be an opportunity during the day for the visitors to tour the campus.

Branch College Day is being coordinated by Assistant Vice President John H. Willis, Jr., in his capacity as liaison officer for the branch colleges, to provide an opportunity for more communication between the various faculties.

HELP PRESERVE GOOD MUSIC

FM Radio Station WRVC in Norfolk, which has been broadcasting classical music at 103 MHz for almost fifteen years, will shortly change its programming because of financial difficulties. Its present owners are thus planning to organize a non-profit educational station which will broadcast classical music from a new transmitter, which will be powerful enough to reach Williamsburg with a high-quality signal. (At present the reception to Williamsburg is marginal). Since the Richmond classical music station (WFMTV) is also being sold, the new Norfolk station will be the only source of continuous classical music in this area. About 3000 subscriptions at \$10.00 per year will be required to support the new station. Those interested in joining the effort to preserve one good music station are invited to write for information to The Cultural Foundation, P. O. Box 6314, Norfolk, Virginia 23508.

STUDENTS TRY TO STRETCH EDUCATION DOLLAR

The College student today is in the same boat as most of the population--trying to stretch his dollar to cover costs in an inflationary economy.

The student's situation is complicated further by the current governmental taxing of loan money and the reluctance of banks to make student loans at lower than prime interest rate.

Students try to stretch education dollar con't

As an older college, William and Mary has been building up an endowment fund over the years and, therefore, is not feeling the current squeeze as sharply as newer institutions, according to one official.

"I am beginning to feel that we are approaching the point where we can take care of all the students who need aid," said Warren Heemann, director of the Office of Institutional Resources, in assessing the current situation. He added, however, that the present cutbacks do place his office further from that point.

As well as scholarship aid, the college is able to offer part-time employment to students. Last year approximately 1,000 students earned money from part time employment on campus and in the local area.

This year over 200 persons already have been placed in jobs by the Student Aid and Placement Office and that number is expected to reach last year's figure by the time all job-seekers are placed.

John C. Bright, director of the Student Aid and Placement Office, said he cannot see that the tighter money has had any effect on students coming to the College. His office has received a slight increase in inquiries concerning part-time employment but no substantial rise over last year.

In order to coordinate work and study, the college has vested control of student employment in the Committee in Scholarships and Student Employment. This supervision applies to positions both on campus and in the community. Through the cooperation of Colonial Williamsburg and other business concerns, a plan synchronizing part-time employment with study has been developed.

To maintain a proper balance between each, the college requires that student employment be assigned by the director of student aid. Students are cautioned not to undertake more outside work than their academic schedule will safely permit.

The normal work load is 15 hours per week and no student may work more than 20 hours per week. Ten hours per week is advised for freshmen.

Employment demands may be expected to pick up as the cutback in loans under the National Defense Education Act continue to be felt.

If the student turns to banks for a loan under the Federal Guaranteed Loan Program administered by the Virginia Education Assistance Authority he will find a loan hard to come by. With prime interest rates at eight per cent, financial institutions can make greater profits from shorter term loans.

The Admissions Office has no clear cut set of statistics on how many students do not come to William and Mary because of financial difficulties or the number who choose another college because of greater aid opportunities.

At Admissions interviews students are concerned only with being admitted; how to stay in college and how to pay for it comes later. It is believed however, that in the future, if the current trends continue, students will turn away from high tuition at private colleges and look toward state universities and lower fees.

DEPARTMENTAL NEWS

ENGLISH

During the summer LeRoy Smith read AP exams in English for the College Board, served as a Consultant for the English segment of the Portsmouth School System's Able and Ambitious Program, and served as a judge for the NCTE Writing Achievement Awards Program

MUSIC

Two newcomers to the Music Department this year are Mrs. Vera Zathurecky Lendvay and Mr. Thomas Ward Forrest. Mrs. Lendvay has been appointed Lecturer in Music to instruct in piano. She is a graduate of the Franz Liszt Academy of Music in Budapest from which she received the performing artist diploma. She taught in schools and conservatories in Hungary before coming with her husband to the faculty of Indiana University School of Music. She has been a member of the faculty Mary Louis Academy, New York College of Music and New York City University.

Mr. Thomas Ward Forrest will assist Mr. Roark in voice instruction. Mr. Forrest earned his B.S. degree in music education (voice) from Carson-Newman College, Jefferson City, Tennessee and his M.A. degree in music education (voice) from Appalachian State University, Boone, North Carolina. He teaches voice, theory and conducts the various choral organizations at Ferguson High School in Newport News. He also serves as Director of Music at Liberty Baptist Church in Hampton. He is a member of National Association of Teachers of Singing, Virginia Music Educators Association and Phi Mu Alpha Sinfonia professional music fraternity. He is District VIII representative to the Choral Directors Board of the VMEA.

The Department of Music was host to the annual fall meeting of the Virginia Band and Orchestra Directors Association, September 5-6. About fifty members were present for the business and score reading sessions. Nearly one hundred high school students were in the band September 6, reading through newly published band compositions and arrangements. William and Mary Band Director Charles R. Varner was the coordinator for the event.

Attending the annual meeting of the American Matthey Association, F. Donald Truesdell was at the University of Maryland August 9-12. The Mozart specialist and authority, Lili Kraus was featured in master classes and concerts. Miss Kraus has performed the complete piano sonatas and concerti in New York City to high critical acclaim. She was featured on educational television recently performing Mozart.

SCHOOL OF EDUCATION

Dr. Armand Galfo's proposed "Study of Sex Characteristics of Culturally Disadvantaged Children Relative to Selected Environmental and Mental Factors" has been placed on an approved list by the Department of Health, Education and Welfare.

Although funds for the research are not as yet available, Dr. Galfo will begin evaluation of the data this month. The data, originally collected for another project by the city of Baltimore under a Ford Foundation grant, has been made available to Dr. Galfo in the form of a "Pupil Data Bank" coded for IBM processing.

The material, obtained from random samples of several hundred culturally disadvantaged children and their families, consists of: (1) a personal history and experience inventory; (2) the findings of a comprehensive pediatric examination; (3) a health history inventory; (4) a design recognition test; (5) a figure-ground test; (6) a verbal maturity test; (7) a mental maturity test; and (8) a climate of learning inventory.

Preliminary tests of several items demonstrated statistically significant differences between the sexes on several items which might affect the ways in which children respond to their initial formal educational experiences. Professor Galfo plans to analyze all inventory items and test results for other possible significant differences in terms of the sex of the children.

Dr. John Lavach, of the School of Education, College of William and Mary, and Dr. Orlando F. Furno, Director of Research, Baltimore City Public Schools, will serve as consultants for the study. Mr. Robert Dawson of the Computer Center of the College of William and Mary is preparing the IBM program for the research.

NEW ASSISTANT VICE PRESIDENT NAMED

Warren Heemann, Director of Institutional Resources at the College since 1967, has been appointed assistant vice-president for sponsored programs and director of the Virginia Associated Research Campus at Newport News, effective October 16.

Approved at a meeting of the Executive Committee of the Board of Visitors over the weekend, the appointment was announced by President Davis Y. Paschall. He is the third person to be appointed to the rank of assistant vice-president at William and Mary.

The appointment follows action in July by Governor Mills E. Godwin Jr. in designating VARC as "an integral part of the campus of the College of William and Mary" and charging the College with responsibility for instruction at VARC in disciplines at the graduate level other than engineering.

In response to the Governor's directive, the College now offers for the first time the full graduate degree-granting program in physics at the VARC location, while Old Dominion University offers the graduate degree program at VARC in engineering. A total of 350 students are enrolled in these programs as well as the college's evening courses in business and education there.

President Paschall said that while Heemann will coordinate matters affecting the offering of graduate programs and the Space Radiation Effects Laboratory of VARC, Dr. Robert T. Siegel, Director of SREL, will continue to report directly to the President of the College on policy matters involving the Laboratory.

"This is necessary," Dr. Paschall said, "because of the contractual relationship with NASA-Langley for the Laboratory, and because the Scientific Advisory Committee, consisting of outstanding scientists from across the nation, makes its annual report of inspection of the Laboratory jointly to the President of the College and to the Director of NASA-Langley."

Advisory Committee

In addition to Heemann's appointment, the Executive Committee of the Board of Visitors directed the President of the College to appoint an Advisory Committee to the Director of VARC. The Committee will consist of the Bursar of the College, the Dean of the School of Continuing Studies, the Dean of Graduate Studies of the Faculty of Arts and Sciences, and two additional members, at least one of whom must come from the faculty of one of the natural sciences departments.

Branch College Day is Saturday, October 11. Welcome Christopher Newport and Richard Eland Faculty Members.

LIBRARY
SEP 30 1970

WILLIAM & MARY

Advisory committee con't.

"This is an internal College committee," Dr. Paschall explained, "for the purpose of coordinating the VARC programs with those of the Williamsburg campus. This will make not only for the desired communication, but, more importantly, for an understanding whereby the VARC campus becomes increasingly an integral part of William and Mary as intended under the most recent reorganization by the Governor."

In addition to his duties as Director of VARC, Heemann will continue to be in charge of grant and research contracts at the Williamsburg campus. He will report to the Vice-President of the College, Dr. W. Melville Jones.

Former English Instructor

Heemann first came to William and Mary in 1962 as an instructor in English. In 1965, he was appointed Coordinator of Research, a position that was upgraded to Director of Institutional Resources in 1967.

Heemann received his A.B. and M.A. degrees from the University of North Carolina. He has completed all of his course work toward his Ph.D. at the University of Maryland.

He is a member of the National Council of University Research Administrators, the American Council of Learned Societies, and the American Association of University Professors. An active community booster, he has served as vice-president of the Parent-Teacher Association, and as a member of the Board of Directors of the Peninsula Association for Retarded Children.

RESOLUTION ON FACULTY HOUSING

The following resolution will be presented for the consideration of the faculty at its meeting on Tuesday, October 14, 1969:

WHEREAS it is unclear what policy is being pursued with regard to priorities, specific assignments, and length of stay in faculty housing, and

WHEREAS there appears to be no established procedure for faculty to bring grievances and for housing assignments to be generally reviewed,

BE IT RESOLVED that the Faculty Affairs committee is instructed to appoint a committee composed of a balanced number of tenured and untenured faculty to investigate and make recommendations on the issue of faculty housing, and that that committee report to the Faculty of Arts and Sciences no later than its January, 1970, meeting.

Joint sponsors of the resolution are Carlyle Beyer, Edward Crapol, William Cobb and Dorothy Riddle.

MATH FILMS TONIGHT

Two films on Fluid Dynamics will be shown today, October 9 at 7 p.m. in the Mathematics Building Room 301, as part of the course in Fluid Dynamics, Math 555.

The films are "Deformation and Continuous Media," by J. L. Lumley of Penn State University, and "Flow Visualization" by S.J. Kline, Stanford University.

Anyone interested in the subject is cordially invited to attend.

PROFESSOR CHARLES FRANKEL IS COLLEGE READING PROGRAM SPEAKER

Dr. Charles Frankel, Professor of Philosophy and International Affairs at Columbia University and author of Education and the Barricades, will be on campus October 10th and 11th. He will speak in Phi Beta Kappa Memorial Hall at 7:30 on October 10th on the general topic of the aims of contemporary reform movements in higher education. His address will be followed by a question and answer period. He will also be available for informal discussion in the Honors Center on Friday afternoon and will speak to the Philosophy 201 course in Millington Auditorium on Saturday morning at 9:00. This session will also be followed by a discussion period. All meetings are open to all interested persons.

Dr. Frankel was Assistant Secretary of State for Educational and Cultural Affairs from 1965-1968. He was for five years a member of the board of directors of the New York State Civil Liberties Union. He has been a Guggenheim Fellow and a Fulbright Professor at the University of Paris. He is the author of several books, including The Case for Modern Man, The Democratic Prospect, The Love of Anxiety and Other Essays, The Neglected Aspect of Foreign Affairs, and Issues in University Education.

For further information contact William S. Cobb, Jr. in the Philosophy Department, Ext. #484.

WATS NEEDS DRIVERS

WATS, the Williamsburg Area Tutorial Service, organized and directed by students, needs help with transportation in an enlarged and expanded program

This year some 90 students are involved with the program which has been greatly expanded over the last year and now includes the areas of pre-school and basic adult education.

While WATS will welcome assistance from all interested in the program, they have an immediate need for transportation.

According to Director Mike Mense, students in the program need transportation to and from public schools as well as individual homes.

"We need people able to spend one or two hours a week driving our tutors to and from their sessions. The distances are short -- seldom over five miles round trip."

Persons who think they may be able to help are asked to call 229-7366 weekdays between 11 a.m. and 5 p.m. for further information.

WATS has moved

The Tutorial Service is in a new location this year at 204 South Boundary Street, the first cottage beyond the College infirmary. The new quarters were arranged for the students by Vice President W. Melville Jones and Associate Dean of

WATS con't

the Faculty of Arts and Sciences, R. A. Johnston. Mrs. John McKnight of the Government Department serves as sponsor.

Dorothy I. Riddle Assistant Professor of Psychology; and Dr. Kevin E. Geoffroy, Associate Professor of Education, are providing an 18 - hour training course for tutors. At present they are working with students already in the program, teaching them to become trainers of new members.

SMILE PLEASE

Individual faculty portraits to be used in the 1970 Colonial Echo are now being taken Monday through Friday from 9 a.m. to 1 p.m. and 2 p.m. to 6 p.m. on the second floor of the Campus Center.

There seem to be a number of faculty pictures still to be taken; the deadline is October 17. There is no fee for faculty members.

USOE SEEKS RESEARCH PROPOSALS

The U.S. Office of Education is seeking proposals for interpretive reports on research and development findings that have potential for improving educational practice. Dissemination of such reports is carried out by USOE in cooperation with State Education agencies under its targeted communications program.

Proposals for preparation of the interpretive reports may be submitted in virtually all areas of education and must be received by the USOE at least 12 weeks before the proposed starting date of the project.

The final submission date for all proposals is Dec. 1. For further information, write to the Research Utilization Branch, Division of Information Technology and Dissemination, Bureau of Research, U.S. Office of Education, Washington, D.C. 20202, or contact Warren Heemann, Director, Office of Institutional Resources.

DEBATERS TAKE TO THE ROAD

William and Mary debaters will begin their 1969-70 season this weekend by taking part in the Washington & Lee Novice Tournament at Lexington.

The tournament, designed primarily for the Virginia colleges, will include two four-man teams from William and Mary, all freshmen. The participants will include Bill Harpine of Fairfax, Jeff Mabe of Franklin, Sheldon Karasick of New York, Nancy Dunbar of Lithia, Susan Linch of McLean, John Pagan of Little Rock, Ark., Glen Clatterbuck of Harrisonburg and Dan Gepford of Ranwood, N. J.

Varsity debaters begin their work the following weekend when John Morello of Hampton, a senior, and Miss Kathy Shirley of Overland Park, Kans., a junior will take part in the Land of Lincoln Debate Tournament at Eastern Illinois University, Charleston, Ill.

Other contests this fall include meets at Rosemont, Wake Forest, Madison and Towson State for novice and tournaments at LaSalle, Emory, Wake Forest, Ohio State, Georgetown and St. Joseph's.

LAW STUDENTS PLAN WASHINGTON TRIP

Nearly 100 law students will make a professional field trip to Washington, D.C. October 23 - 24 to visit important legal centers in the national capital. The two-day program is being sponsored by the Thomas Jefferson chapter of Phi Delta Phi legal fraternity.

Principal officers in executive, judicial legislative and administrative branches of government will hold briefing sessions with the law students. At the Department of Justice a morning session on October 23 is scheduled with Deputy Attorney General George Revercombe, while in the afternoon, following attendance at a formal session of the Supreme Court, the group is tentatively scheduled to meet with Chief Justice Warren E. Burger.

Alumni of the college's Marshall-Wythe School of Law in the Washington area will join the students at a reception that evening at the National Lawyers Club, where a chapter of the law alumni will officially get under way. Phi Delta Phi representatives in the District area are also invited guests of the reception.

A special session of the United States Court of Claims will be held for the William and Mary group on the morning of October 24. The noon hour will find the students guests of senator William B. Spong in the Senate wing of the capital, where Senators Harry F. Bryd, Mike Mansfield and Edmund Muskie are expected to make informal talks. The program will conclude that afternoon with a conference with board members and the general counsel of the National Labor Relations Board.

COLLEGIUM MUSICUM SERIES OPENS OCTOBER 12

The instrumental combination of harp and violoncello, represented by Helga and Klaus Storck of Germany, will open the Collegium Musicum series for 1969-70.

Mr. and Mrs. Storck will be heard in concert, Sunday afternoon, October 12, at 4 p.m. in the Camous Center Ballroom. The concert is open to the public without charge.

The discovery of original classical and preclassical works led to the formation of this duet partnerships about a decade ago and it has since toured the world.

Recently appointed harpist at the renowned Hamburg State Opera, Mrs. Helga Storck has many recordings and makes guest appearances on radio and television. Following the Storck Duo's 1968 premier tour of the United States, Mrs. Storck again crossed the nation as solo harpist with the Munich Philharmonic, under the direction of conductor Rafael Kubelick.

Klaus Storck is considered among the best cellists of his generation. He has received critical acclaim and awards for both his virtuosity and musicianship. His amazing repertoire includes over 30 cello concertos running the complete gamut of musical style. He is presently professor at the Academy of Music in Cologne.

He has been active in the premier of many ultramodern works, some written especially for him, as well as in the revival of many exceptionally charming early and forgotten works.

For their concert Sunday afternoon the Storcks will play "Elegie for Cello and Harp" by Faure; Harp Sonata by Paul Hindemith; Sonata for Cello and Harp (composed for Storck Duo) by Harold Genzmer; Sonata in C for Cello Solo by Bach; and Sonata Concertante in A-Flat Major for Harp and Cello by Ludwig Spohr.

The music calendar at the College this fall will include a concert October 21 by Oliver Colbentson, violin and Cary McMurrin, piano; Gary Graffman, pianist, October 23, guest artist on the William and Mary Concert Series; James Houlik, saxophone, November 9; a student production of "Goldoliers," by Gilbert and Sullivan, November 13-15; the Norman Walker Dance Company, November 20; and the college chorus, choir and orchestra presentation of "The Messiah," December 16-18.

REPUBLICAN CANDIDATE TO SPEAK

Richard D. Obenshain, Republican candidate for Attorney General of Virginia, will speak in the Moot Courtroom of the Marshall-Wythe School of Law, Tuesday, Oct. 14 at 7:30 p.m.

The event is sponsored by the George Wythe Chapter of Phi Alpha Delta law fraternity and is open to the public.

Obenshain, a partner in the Richmond Law firm of McGuire, Woods & Battle, has served as chairman of the Young Republicans Federation of Virginia and as vice chairman of the Third District Republican Committee.

He is a graduate of Bridgewater College and New York University School of Law.

PHYSICS COLLOQUIUM

R.W. Childers, University of Tennessee, will be this week's guest speaker at the Friday afternoon Physics Colloquium. He will take as his topic "Duality in High Energy Physics."

The Colloquium is held in Room 109, William Small Physics Laboratory, beginning at 4:30 p.m.

Coffee will be served in the Conference Room at 4 p.m.

FTC SEMINAR HELD AT LAW SCHOOL

Representatives of the Federal Trade Commission held a two-day seminar and interviewing session at the Marshall-Wythe School of Law this week. Wednesday was taken up with a graphic portrayal of the work and career opportunities in the FTC, and Thursday was devoted to interviews with interested law students. The program was part of a series of interviews with government agencies and private law firms being conducted during October by the Student Bar Association.

DR. PROSL SPEAKS IN RICHMOND

Dr. R.H. Prosl, of the Mathematics Department, spoke on "Distinguishing Features of the two Advance Placement Mathematics Programs" at the most recent meeting of the Greater Richmond Council of Teachers of Mathematics.

GIRL SWIMMERS ANNOUNCE SCHEDULE

The women's swimming team has announced a schedule of nine meets for this year. This is the sixth year of competition for the team which to date has only lost one meet. The team bowed to East Carolina's mermaids last year.

Nov. 5 Old Dominion College - home - 4 p.m.

Nov. 11 Westhampton College - home - 4:30 p.m.

con't

Girl swimmers announce schedule con't

Nov. 14 Madison College - home - 4 p.m.
Nov. 21 Longwood College - away
Dec. 2 Mary Washington College - away
Dec. 4 Roanoke College - home - 8 p.m.
Dec. 8 Old Dominion College - away - 4:30 p.m.
Dec. 13 State Meet at Mary Washington College
Dec. 16 Lynchburg College - home - 4:30 p.m.

Mrs. Christina W. Jackson, new coach of the team is enthusiastic about her team's chances for another good year in competition.

There are seven girls returning who hold William and Mary records and one holds a pool record. In addition, there are several promising freshmen. Kathy Love swam with the Philadelphia Aquatic Club and is strong in the butterfly and the individual medley. Kathy Gibson is a freestyler.

Noel Kehrberg, captain, holds individual school records in freestyle and Individual Medley and a pool record in freestyle.

Kathy Love has already broken a pool record in practice this fall but will have to repeat her time in regular competition before it can be officially recorded as a record. She swam the 50-yard butterfly in 29.1 seconds, bettering the pool record of 31 seconds and the school record of 32. A record board is being put up for the women's swim team.

The 20 girls on the swim team, excluding divers, practice four times a week and will step up their training to five practices a week once the season gets underway. The girls swim a mile or a mile and a half each practice - most of that distance in sprints.

The home meets are all held at Adair gymnasium pool and spectators are welcome.

PROFESSOR BRUBACHER TO VISIT

Professor John S. Brubacher, until this year of the Center of the Study of Higher Education at the University of Michigan and now at the University of Bridgeport, will address a meeting of the Philosophy Club at 8 p.m., Thursday, October 16th, in the Childress Room in Swem Library.

Professor Brubacher will discuss the epistemological assumptions behind different views of the university and the influence of fideism, rationalism and contemporary sensualism on the changing views of the university through modern history.

His visit is jointly sponsored by the Campus-Wide Reading Program.

FOR SOCCER FANS

The next home game of the Soccer team is Saturday. The team meets Eastern Mennonite College at James Blair Terrace at 2 p.m.

So far the team has a 1-2 record, winning from VMI and losing to Roanoke and Randolph Macon.

Games scheduled for the rest of the month are as follows:

Oct. 15	University of Virginia	Away	3:00 pm
17	Old Dominion	Away	3:00 pm
21	American University	Away	3:00 pm
25	U. of South Florida	Home	10:00 am
28	Madison College	Home	3:00 pm

All games are played on the James Blair Terrace Field.

FULL PROGRAM PLANNED FOR HOMECOMING

Several thousand alumni are expected in Williamsburg this weekend for Homecoming.

The traditional, familiar events of homecoming weekend, the Saturday morning parade, the afternoon football game and the coronation of the homecoming queen, will be included in the two-day program together with some new innovations.

The program opens Friday with a golf tournament for alumni and their wives on the Golden Horseshoe course. A bus tour of the campus will begin at 11:30 a.m. and Friday afternoon a freshman football game is scheduled at 2:30 p.m. in Cary field between William and Mary and the University of Richmond.

Members of the faculty and the student body will conduct seminars for alumni on two of the four books chosen for this year's College-Wide Reading Program, "Democracy and the Student Left," by George Kennan, and "Education and the Barricades," by Charles Frankel, Friday afternoon from 2 to 4 p.m.

The Sunset Parade, honoring past alumni will be held in the Sunken Garden with the Queens Guard and the Colonial Militia at 5 p.m.

A Rock Music Concert Friday evening in Blow Gymnasium featuring Martha Reeves and the Vandellas and Rhinoceros will begin at 8 p.m.

Saturday Parade

The Homecoming Parade begins at 9:30 a.m. and will proceed along Duke of Gloucester Street from the staging area on Jamestown Road and return via the same route.

The annual meeting of the Society of the Alumni at which new Directors of the Society will be presented and Alumni Medallions awarded, will be held at 10:45 a.m. in Phi Beta Kappa Hall.

Luncheon under the Big Top on the lawn of Phi Beta Kappa will precede the afternoon football game with Davidson which begins at 1:30 p.m. in Cary Field.

Alumni Band

The William and Mary Alumni Band makes its debut at the football game Saturday.

Over 60 former band members will take up their instruments again for a special pre-game and half-time show with the current William and Mary Marching Band.

Dressed in green and white striped blazers and white straw hats, the Alumni Band will be featured in a program which band director Charles R. Varner describes as "something old and something new - something borrowed and something blue."

The Alumni Band will join their contemporaries in a pre-game salute to the old timers football team. They will also join in the playing of the National Anthem and bringing the team onto the field.

LIBRARY
SEP 30 1970
WILLIAM & MARY

Alumni con't

During halftime the Alumni Band will take to the field first and will play a William and Mary School song of the 40's. The Marching Band will respond with a modern tune entitled "The Horse."

Following through the program theme, both bands will "borrow" "America the Beautiful" and the current band will wind up the show with something blue - "The Basin Street Blues."

Both bands will also assist in the coronation ceremonies for the Homecoming Queen.

Drum Major for the Alumni Band will be Jim Anthony '52, of Williamsburg and Band Director will be Robert Miller '69 of Fairfax. Among local alumni will be Lyle Briggs, Joe Healey, Bonnie and Bob Lent and Tom Llanso.

Sanders Wyatt of Richmond is drum major for the Marching Band and featured in the half-time routines will be twirling specialist Kathy Metzley of Laura, Ohio.

While some members of the Alumni Band are still in the music field, many of them are engaged in a variety of vocations and professions.

For one member, however, the program Saturday will be a bus man's holiday. Robert W. Conkey who will play the snare drums in the Alumni Band, plays regularly with the Boston Symphony Orchestra.

Getting a marching band ready for a performance entails many hours of practicing and marching. Band Director Varner is currently rehearsing three days a week, and expects to put in some extra work sessions to get everything done.

Rehearsal time will be limited for the Alumni Band band but Varner has sent out instructions for a rehearsal Saturday morning in the band room following the Homecoming parade which will include an outdoor session on the Jamestown Road drill field.

The Marching Band sets a pace of 120 to 180 beats per minute depending on the mood of the music and the occasion. This is a cadence faster than most military outfits use.

Many in the Alumni Band will probably be happy to know they will not have to keep up with the March Band's snappy cadance. The two bands will not march together and the Alumni Band will pick its own cadance on the field.

Dinner Dance

An Alumni Dinner Dance that evening at the Williamsburg Lodge will wind up the major portion of the Homecoming program.

A continental breakfast will be served for alumni Sunday morning from 9:30 to 11 a.m. in Phi Beta Kappa Hall to conclude the weekend activities.

* * *

There will be no classes on Homecoming Day, Saturday, October 18. Members of the Faculties are cordially invited to participate in all the events scheduled for Friday and Saturday of Homecoming Weekend.

* * *

at the "ALUMNI BOUTIQUE"

"Jewelry for fun handcrafted in the moonlight
out of sterling silver and 14k gold. . . ."

This is the way Mike Stousland '41 describes his unusual
modern jewelry which will be on display and for sale at the "boutique"
of Alumni work in the Dodge Room at Phi Beta Kappa during Homecoming.

Stousland will donate a portion of all sales to the Alumni Fund.

Currently Professor of Architecture and Chairman of the Department
at Miami University, Stousland received his bachelor's degree in
architecture from Yale in 1947 and his master's at Rice in 1949.
He studied sculpture and metalsmithing at Cranbrook Academy of Art.

In addition to his teaching he has practiced architecture and
has had a design studio doing small sculpture, prints and jewelry.
At the present time the jewelry takes most of his non-teaching time.

Here are a few samples of his work.

AMBASSADOR WILLIAMS TO SPEAK

The Government Department will sponsor a talk by Ambassador Murat W. Williams on Friday, October 17, at 3:30 p.m., Room 202 in the New Math Building.

A former Rhodes Scholar, Mr. Williams held a number of important diplomatic posts in Europe, the Middle East and Latin America before retiring from the Foreign Service in 1965. As President Kennedy's first diplomatic appointment, he served as Ambassador to El Savadore from 1961 to 1965.

The subject of Ambassador Williams' talk will be "U.S. Policy Toward Latin America." All interested students and faculty members are invited to attend.

PROFESSOR GRAYSON TO DISCUSS "LATIN AMERICA & REVOLUTION"

Each month the Department of Government hold a Colloquium which is open to faculty members and interested students. The next meeting is Monday, October 20 at 4 in room 201, Math Building.

George Grayson will speak on "Latin America and Revolution". W. Warner Moser discussed the Northern Ireland situation at the September meeting.

PROFESSOR EVANS STATES TALK

Trevor Evans, Professor of Mathematics and Chairman of the Department of Mathematics at Emory University, will speak Friday on "Latin Squares and Finite Planes" in Room 109 of the Physics Bldg. at 11 a.m. His visit is part of the current Visiting Scholar Lecture Series arranged by the Committee on Arts and Lectures.

A visiting lecturer for the Mathematics Association of America and the Society of Industrial and Applied Mathematics, Dr. Evans is a member of the Institute for Advanced Study, Princeton University, the Examination Committee for Achievement Tests; College Entrance Examination Board; and author of two textbooks on pure mathematics.

VISITORS FROM FRANCE

In connection with the Yorktown Memorial ceremonies of October 19th, the Peninsula Chapter of the "Alliance Francaise" is pleased to announce that a unit of the French Navy has been dispatched to Yorktown for the purpose of representing the Government and the people of France at the ceremonies.

The ship "Balny" a destroyer, with a crew of 150 officers and men, will be in our area for two or three days. Most of the crew will be visiting Williamsburg. The peninsula Chapter asks that members of the "U" and "M" community reserve a most cordial welcome to these sailors from the land of Lafayette. Most of them have no or little knowledge of our tongue and if - with the bits of French remembered from High School or College days - a helping hand or a friendly greeting is offered, it will be most appreciated.

COLBENTSON-McMURRAN CONCERT

Oliver Colbentson, violinist, assisted by Cary McMurran at the piano, will present the second concert in the current Collegium Musicum series.

The concert will be given at 8:15 p.m. Tuesday, October 21 in the ballroom of the Campus Center.

Colbentson became associate concertmaster of the Metropolitan Opera Orchestra in 1954 and for the following four years alternated between the Metropolitan season and annual tours in Europe with concerts and broadcasts in Scandinavia, Holland, Austria, Germany. Since 1958 he has been living, concertizing and teaching in Europe. He has made recordings for Musical Masterpiece Society, Concert Hall Society, MGM, Colosseum and Tempo.

Cary McMurran is familiar to local audiences as the conductor of the Peninsula Symphony Orchestra. In 1958, 1964 and 1966 he did two-piano recitals with Mme. Aline van Barentzen in Paris, Bern, Lugano, Brussels and Basel.

Since 1965 he has conducted the Candlelight Concerts given each spring, fall and Christmas seasons at the Governor's Palace.

Tuesday night's concert will include Sonata No. 2 in A major by Bach; Sonata in F major ("Spring") Op. 24 by Beethoven; Patita No. 3 in E major for solo Violin by Bach; and Sonata in B flat major, K. 378 by Mozart.

DR. MARSH HONORED AT WOFFORD

Dr. and Mrs. Charles F. Marsh have returned to Williamsburg following dedication ceremonies for a building at Wofford College which was named after Dr. Marsh.

Dr. Marsh was president of the Spartansburg, S.C. college for a decade, retiring in August, 1968. Currently, he is a member of the faculty of the School of Business Administration.

The building named Charles F. Marsh Hall is a 184-bed dormitory. It was dedicated last week.

Dr. Marsh was professor of economics at William and Mary and Dean of the Faculty from 1952 until 1958, when he became Wofford's seventh president.

ANTHENEUM TO PUBLISH INSTITUTE BOOKS

Books published under the imprint of the Institute of Early American History and Culture will be issued by Atheneum Publishers of New York beginning next January.

The Institute has published all of its earlier books through the University of North Carolina Press, Chapel Hill.

The first volume to be issued under a three-year agreement with Atheneum will be "The Great Awakening, Documents on the Revival of Religion, 1740-1745." edited by Richard L. Bushman.

Atheneum to publish Institute books con't

However, under prior contractual agreements, the long-term project at the Institute of editing and publishing The John Marshall Papers, will be handled through the University of North Carolina Press. Also to be issued through that press will be a three-volume work, The Papers of George Mason, scheduled for publication next May.

The agreement with Atheneum was signed after the Institute received competitive bids from several publishing houses. The agreement, according to Mr. Steven A. Kurtz, Institute director, "promises excellent royalty terms for future Institute authors as well as outstanding marketing and paperback outlets."

"By retaining its own editorial freedom and responsibility," he said, "the Institute hopes to offer the advantages of both commercial and university presses to scholars working in the colonial and early national periods of American history."

PIANIST GRAFFMAN TO OPEN CONCERT SERIES OCTOBER-23

Gary Graffman, internationally known pianist, will open the 1969-70 William and Mary Concert series with a performance Thursday evening (October 23) at 8:15 p.m. in Phi Beta Kappa auditorium.

Gary Graffman has had an outstanding career ever since his debut, at the age of 18, with Eugene Ormandy and the Philadelphia Orchestra. He has toured six continents, and in over twenty European tours during the past decade has played over two dozen orchestral engagements in London alone. In his own country, the American pianist's annual tours include regular appearances in distinguished recital series and as soloist with the major orchestras.

In New York City during the past three years Mr. Graffman has been heard as soloist with the New York Philharmonic under Leonard Bernstein, the Philadelphia Orchestra under Mr. Ormandy, the Boston Symphony under Erich Leinsdorf, and the Cleveland Orchestra under George Szell.

This season, in addition to another appearance at New York's Philharmonic Hall, his U.S. tour includes engagements in such music centers as Boston, Washington, San Francisco and Los Angeles as well as summer concerts at Tanglewood and Cleveland's Blossom Festival.

Abroad he will tour the U.S.S.R. for the second time, South America, and Japan.

Thursday night's concert will include Sonata in G minor, opus 22 by Schumann; Sonata in B minor by Liszt; Sonata in G major by Haydn; and variations on a theme of Paganini, opus 35 by Brahms.

Subscription tickets are still available for all five programs in the current Concert Series at \$12.50 each, \$10 for students and faculty and may be obtained by writing to Concerts, College of William and Mary.

Single admission tickets will be available at the box office prior to the performance and are \$3.

Singer Teresa Stich-Randall will be the next performer on the Concert program. She will appear here in concert November 20. The New York Pro Musica will be here Feb. 12; the Cologne Chamber Orchestra on March 12; and the Charlie Byrd Quintet, April 9.

SCHOOL OF EDUCATION SPONSORS SAPES CONFERENCE

The School of Education is sponsoring on October 17 and 18 the 1969 Annual Meeting of the South Atlantic Philosophy of Education Society (SAPES). The meeting will begin Friday afternoon. The theme for the meeting is "The Relevance of Higher Education in Contemporary America." Dr. John S. Brubacher, Professor Emeritus for the Center for the Study of Higher Education, University of Michigan and, presently, Visiting Professor of Education, University of Bridgeport, will keynote the conference with the presentation of a paper titled "The Theory of Higher Education with Special Reference to the University." The Paper will be delivered Friday evening following the conference banquet.

In addition to Dr. Brubacher's presentation, four papers will be read on topics appropriate to the theme:

- | | |
|---|---|
| (1) "Student Unrest" | Mr Charles H. Witten, Assistant Professor Education and Vice President for Student Affairs, University of South Carolina. |
| (2) "The Disadvantaged Student: New Instructional Approaches Needed:" | Dr. John E. Poueche, Director, Junior College Division Regional Education Laboratory for the Carolinas and Virginia. |
| (3) "Tolerance" | Dr. Thomas K. Hearn, Jr., Associate Professor of Philosophy, College of William and Mary. |
| (4) "Mandarins All" | Dr. P. Glen Martin, Assistant Professor of Education, University of South Carolina. |

Serving as discussants during the conference are Dr. John E. Lavach, Dr. Daniel R. Gerber, and Roger P. Ries, of the School of Education faculty, and Professor Frank A. Mac Donald, Chairman of the Department of Philosophy.

Persons interested in obtaining copies should contact Dr. Robert C. Jones, Associate Dean of the School of Education who is serving as Chairman of the Program Committee for the conference or Dr. Paul Unger who is a member of the Committee.

DEBATERS WIN AWARDS

Freshman debaters compiled a record of 12 wins and 4 losses, and won seven awards, at the Washington & Lee University Novice Tournament in Lexington last week-end. It was the first effort for the local college debaters.

The team of Susan Linch of McLean and John Pagan of Little Rock, Ark., won the first place affirmative award, while the team of Bill Harpine of Fairfax and Jebb Mabe of Franklin took a third place affirmative award.

Debaters win awards con't

Other awards included a second place certificate to the team of Harpine, Mabe, Glen Clatterbuck of Harrisonburg and Dan Gepford of Fanwood, N.J., in four-man competition.

Next weekend, the two of freshmen will take part in the Rosemont Invitational Debate Tournament in Philadelphia, while varsity debaters will send a team to the Land of Lincoln Tournament at Eastern Illinois University, Charleston. The debaters will be guests of the university in recognition of their performance in national competition last year, according to Donald L. McConkey, director of forensics.

INTERNATIONAL READING ASS'N SETS SECOND MEETING

The Williamsburg-James City County-York Council of the International Reading Association will hold its second meeting on Wednesday, October 22, at 8:00 p.m. in the Reading Center. At this meeting the nominating committee will submit a slate of officers. Nominations from the floor will also be accepted.

The council is a professional organization for individuals genuinely concerned with the improvement of reading programs and teaching procedures. Membership in the council is open to all persons engaged in teaching or supervision of reading at any school level, to parents, and to all others interested in the purposes of the council.

A survey was conducted at the first meeting and suggestions for monthly meetings were submitted. Some of the suggestions were to invite to the meetings outstanding speakers in the field of reading, to acquaint members with current reading materials, and to permit an exchange of ideas.

Additional information prior to the meeting may be obtained from Dawn Lazanas, temporary chairman, or the following members of the publicity committee: Mrs. Penny Kidd, Mrs. Jean Lindsey, and Mrs. Nancye Smithers.

EDUCATION RESEARCH COLLOQUIUM

The first 1969-70 session of the Educational Research Colloquium will be held Thursday, October 23, at 3:30 p.m. in the conference room of Swen Library.

Dr. John Lavach will present a research proposal on "The Effects of Arousal on Long and Short Term Retention of Continuously Presented Information." All faculty members and graduate students are invited to attend.

RECEPTION FOR DAWBARN PLANNED FOR WEDNESDAY

The Young Republicans on campus will host an administration-faculty reception for the Republican candidate for lieutenant governor, H.D. (Puz) Dawbarn, on Wednesday, October 22, at GOP headquarters, at 213 North Boundary Street.

The reception will round out a full day of activities in the Williamsburg area for the Republican candidate. His official visit to the college begins after a noon-time speech to the Williamsburg Kiwanis Club.

Reception for Dawbarn con't

The YR's will take Mr. Dawbarn on a walking tour of the campus before his scheduled speech at 2:30 in the Great Hall of the Vren Building.

According to Gil Cooke, YR vice-president and coordinator of the visit, Mr. Dawbarn is very eager to speak with the members of the faculty and the administration. The YR's hope that the faculty and administration will take advantage of this opportunity to speak personally with the candidate.

Ladies Feted

Wives of the three Republican candidates, Mrs. Holton, Mrs. Dawbarn and Mrs. Obenshain will be feted at a tea to be held in the ballroom of the Campus Center, Tuesday afternoon from 2 - 4 p.m.

DR. SWENBERG GUEST SPEAKER

Dr. C. E. Swenberg of New York University, will be guest speaker at the Friday afternoon Physics colloquium to be held at 4:30 p.m. in Room 109 of the William Small Physical Laboratory.

His topic will be "Exciton Fission and Fusion in Crystalline Tetracene."
Coffee will be served in the Conference Room at 4 p.m.

NRS POSTDOCTORAL RESEARCH ASSOCIATESHIPS

The National Research Council is offering postdoctoral research associateships in basic and applied natural sciences for the development of creative abilities and the advanced education of young investigators of unusual promise.

Among the many areas of research included in the program are Mathematics, Physics, Chemistry, Biochemistry, Marine Geology, Oceanography, Atmospheric and Space Science, Psychology, and the Biological and Geological Sciences.

The stipend, subject to income tax, is \$13,389. The final date for receipt of completed applications is February 6, 1970; awards will be announced about April 1, 1970.

For additional information and application materials, write, stating field of specialization, to the Associateship office, Office of Scientific Personnel, National Research Council, 2101 Constitution Avenue, N.W., Washington, D.C. 20418, or contact Warren Heemann, Director, Office of Institutional Resources.

CURRICULUM COMMITTEE REPORTS

A special committee of faculty, administrators and students has proposed that the College calendar be revised on a "four-one-four" plan to allow a one-month period of experimental, innovative projects for the undergraduate academic community.

The committee, established last spring to propose ways to revitalize the 30-year-old curriculum and calendar of the College, suggested that the fall and spring semesters be shortened to four months. The experimental January Term, four weeks long, would intervene.

During the January Term, the committee suggested, "sociologists might explore Appalachia, art students tour the museums of Washington, historians trace the route of Lee's retreat, archaeologists dig in Naples, government students visit Congress, theater students take a performance on tour.

"Some faculty members might wish to offer courses more narrow and intensive in scope than would be appropriate on the regular semester, or perhaps a course in a subject which is their hobby rather than their professional specialty. Some students might spend their time in concentrated research whether in connection with honors work or another form of independent study."

During the regular fall and spring semester, the student's required load would be reduced to four courses, according to the committee's proposal. Currently, five courses is a normal load for undergraduates. The January Term would constitute a separate course with only a passing or failing grade.

Among its suggestions, which go to various faculty committees for consideration, are establishment of more responsibility and authority for freshman and sophomore advisors, together with fewer mandatory subjects and more options within general scholarly areas of their intended concentration; and the elimination of "D" as a grade.

The committee suggested ways to minimize the number of courses which any student takes in "technical" or "pre-professional" areas. It proposed the creation of "interdisciplinary concentrations" which cross departmental lines, when students with special interests wish to undertake them. Students would be permitted also to choose one course each semester to be graded on a simple pass-fail basis.

Under the four-one-four plan, the fall semester would begin soon after Labor Day and be completed by the Christmas holiday. The spring semester would conclude with Commencement in late May or Early June, as it does now.

Faculty would teach one less course per semester, which would allow them to "redesign some existing courses, to experiment with new approaches to teaching and to create new types of courses."

The committee's recommendations were contained in a 55-page document distributed to faculty and administrators this week.

DEPARTMENTAL NEWS

BIOLOGY

Publications by Stewart Ware during the past year include:

On the Ecology of Talinum mengesii (Portulacaceae). Bull. Torrey Botan. Club 96:4-10.

Seed Germination in Ceder Glade Talinum. Ecology 50:137-140. with Elsie Quarterman.

Ecological Role of Talinum in Ceder Glade Vegetation. Bull. Torrey Botan. Club 96:163-175.

ENGLISH

Donald Ball attended the annual meeting of the North Carolina--Virginia College English Association at East Carolina University in Greenville, N.C. on Saturday, October 11. Professor Ball, who recently completed a four year term as treasurer, was elected to the Board of Advisors of the Association at the Saturday meeting.

PHYSICS

The following talk was given at the Third International Conference on High Energy Physics and Nuclear Structure, Columbia University in September, and will be published in the Conference Proceedings:

Quasi Elastic Reaction with 600 MeV Proton
C. F. Perdrisat, L.W. Swenson, P.C. Gugelot,
E.T. Boschitz, W. K. Roberts, J.S. Vincent
and J.R. Priest.

Dr. C.F. Perdrisat was invited to the Summer School of Swiss Institute for Nuclear Physics (SIN) in Leysin, Switzerland to give a lecture on "Quasi-elastic and Elastic Scattering of Nucleons on Nuclei". This will be published in the School Proceedings.

Dr. Perdisat was also invited to give a talk at CERN, Geneva Switzerland (October 3, 1969) on "Quasi-elastic Scattering on Light Nuclei".

PSYCHOLOGY

The following articles by Professor E. Rae Harcum have been published by the respective journals:

"Perceptual Serial-Position Curves With A Frequently Isolated Element",
The American Journal of Psychology, Sept. 1968, Vol. 81, pp. 334-346.

Departmental News, con't

Psychology con't

"Cognitive Anchoring of Different Errors in Continuous Serial Learning", Psychological Reports, 1969, Vol. 25, pp. 79-82.

"Explanation of Serial-learning Errors Within Deese-Kresse Categories", Journal of Experimental Psychology, 1969, 81, 489-496

Articles by Dr. Marcum which have been accepted for publication include:

"Perceptibility Gradients for Tachistoscopic Patterns: Sensitivity or Saliency", Psychological Review, (in press).

"Defining Shape for Perceptual Element-Position Curves," Psychological Bulletin, (in press).

THEATRE AND SPEECH

Dr. Louis E. Catron's play, Where Have All The Lightning Bugs Gone?, is scheduled for various productions this month, including a 15-production touring show by Edinboro College and then another production by Notre Dame College (Baltimore). The play has been presented by community theaters, colleges, high schools' semi-professional theaters, and by William and Mary's directing class last year, as well as being a contest winner.

SCHOOL OF EDUCATION

On October 1, S. Stuart Flanagan presided at the general session of the fall meeting of the Greater Richmond Council of Teachers of Mathematics.

Professor Flanagan spoke Oct. 10 at the name-of-site meeting of the National Council of Teachers of Mathematics in Raleigh. The topic was "Mathematical Induction in Junior High". He spoke on Oct. 14th at the Lee Hall PTA meeting. The topic was "Are Children Learning Mathematics?".

Dr. Flanagan's article entitled, "The Effects of SMSG Texts on Students' Achievement in Calculus", has been scheduled for publication in the December 1969 issue of SCHOOL SCIENCE AND MATHEMATICS.

Dr. John F. Lavach, Assistant Professor of Education, addressed the annual meeting of District A of the Virginia Education Association on Friday October 10th at Mary Washington College. Dr. Lavach spoke on "Current Trends in Industrial Psychology."

COLLEAGUE

College of William and Mary Faculty Newsletter

October 23, 1969

Published by Information Office
Second Floor, Ewell
Ext. 225-226

DUDLEY WARNER WOODBRIDGE

1896 - 1969

Dudley Warner Woodbridge, Dean Emeritus of the Marshall-Wythe School of Law and Chancellor Professor of Law, died Monday in the Williamsburg Community Hospital. He was 73.

An authority on the law of property, contracts, torts and negotiable instruments, Woodbridge is credited with reviving the law school and building it into a nationally recognized institution.

"Dean Woodbridge was a great teacher, humanitarian and a friend," said Dr. Davis Y. Paschall, President of the College.

"He exemplified the best in the William and Mary tradition. I fear we shall not see his like again."

Professor Woodbridge began teaching law at the College in 1927 and served as Dean of the law school from 1950-62. He continued, however, to teach following his retirement as Dean in 1962.

He was honored on several occasions by the college for his service and was the first recipient of the Thomas Jefferson Award in 1962.

The citation called him "a faithful and effective teacher, a man whom Jefferson would readily have ranked alongside William Small and George Wythe and a man who continues brilliantly in the present to carry forward the college ideal of inspired and inspiring leadership.

He also received the Sullivan Award and was honored on his 25th anniversary at William and Mary by the George Wythe Law Club and by Phi Alpha Delta Law Fraternity during Law Week in 1966.

In 1950 Life magazine listed him as one of the eight outstanding professors in the United States.

Although admitted to the bar in Virginia in 1929, he did not practice law, explaining that it would take too much of his time from teaching. He often spent 12 - 16 hours a day at work on campus.

He also took an active interest in the community and its young people. Over the years he taught many of them to ride a bicycle and ice skate.

A native of Bellaire, Ohio, Woodbridge received his bachelor's degree and J.D. from the University of Illinois.

Except for five summers Woodbridge's entire teaching career was at William and Mary. He was a visiting professor at summer sessions at the universities of Florida and Illinois.

During his teaching career he was well known in the state for his "Virginia Bar Notes," which he edited for more than 30 years.

Dean Woodbridge published law review notes and articles in the Illinois Law Review, the Pennsylvania Bar News and the William and Mary Law Review.

LIBRARY
OF THE
WILLIAM & MARY

Dr. Woodbridge con't

He did his thesis on "The Acquisition of One Carrier by Another Under the Transportation Act of 1920."

He was a member of the American Bar Association, the Virginia Bar Association, American Judicature Society, American Law Institute, Phi Beta Kappa, Phi Alpha Delta, Loyal Order of Moose, Tau Kappa Delta, Order of Coif, Omicron Delta Kappa, Virginia Social Science Association, the Kings Daughters and Sons, and the American Association of University Professors.

-Funeral Services-

Funeral services were held Wednesday at the Williamsburg Presbyterian Church with the pastor, the Rev. John H. Grey, officiating. Burial was in Ceder Grove Cemetery.

Pallbearers, many of them former students, were I.D. Hall, Norfolk; John Hollis, Norfolk; William Prince, Norfolk; Harvey Chappell, Richmond; Russell Collins, Newport News; Ernest Goodrich, Surry; Cecil C. Harper, Richmond; Garland Clarke, Kilmarnock; Judge Dixon L. Foster, Irvington; and Harry E. Atkinson, Newport News.

Members of the faculty of the Marshall Wythe School served as honorary pallbearers.

The family requested that in lieu of the flowers contributions be made to the Dudley Woodbridge Endowment Fund at the College or the William and Mary Law Library.

CONCERT SERIES OPENS TONIGHT WITH GRAFFMAN

Gary Graffman, pianist, opens the 1969-70 Concert Series with a concert this evening in Phi Beta Kappa Hall beginning at 8:15 p.m.

Single admission tickets will be available at the box office prior to the concert at \$3 each. Subscription tickets for the entire 5-concert series are also available at \$10 each for faculty and students, \$12.50 to the general public.

Mr. Graffman will play Sonata in G minor, opus 22 by Schumann; Sonata in B minor by Liszt; Sonata in G Major (1784) by Haydn; and Variations on a Theme of Paganini, opus 35 (recorder for Columbia Records).

An artist of international stature, Graffman has recorded with the orchestras of New York, Philadelphia, Cleveland, Boston, Chicago, and San Francisco. Just released on the Columbia label (with George Szell conducting the Cleveland Orchestra) is his interpretation of the Tchaikovsky Concerto No. 1 in B-flat minor. Other Graffman orchestral albums currently available include the Tchaikovsky Concertos No. 2 and 3 as well as concertos by Prokofieff, Rachmaninoff, Beethoven, Brahms, Mendelssohn and Chopin.

W & M THEATER OPENS ITS SEASON OCTOBER 29

The Unknown Soldier and His Wife--a two-act modern play by Peter Ustinov-- will be presented by The William and Mary Theatre five times next week: 8:15 p.m. Wednesday-Saturday (Oct. 29-Nov. 1) and 2 p.m. Saturday, (Nov. 1).

The Theatre's box office (in the lobby of Phi Beta Kappa Memorial Hall) will be open between 3 and 5:30 Monday-Friday and at 7 p.m. the nights of production. All seats are reserved at \$2.00.

Faculty members who have The Theatre's "Complimentary Ticket" card may obtain seats for the production Wednesday, Thursday, or Friday, or for the high school matinee Saturday, for which there will be no reserved seats. (Complimentary tickets are not valid for Saturday night productions.)

During box office hours telephone reservations will be presented-when picking up tickets.

Director of The Unknown Soldier and His Wife is Louis E. Catron; Designer, Lawrence Miller; Technical Director, Albert E. Paak.

LECTURE ON AMERICAN ART

Dr. Harold E. Dickson, Professor Emeritus of Art History at Penn State University, will visit campus under the joint sponsorship of the Fine Arts Department and the Twentieth Century Gallery.

Dr. Dickson, an authority on American Art, will present an illustrated lecture on the collection of American art owned by Randolph Macon Women's College in Lynchburg, in Andrews Auditorium, October 25 at 8 p.m.

The lecture was arranged by the Virginia Museum as one of the programs of its Artmobile Lecture Series. A selection of paintings from the Randolph-Macon Collection is now touring the state aboard one of the Museum's four artmobiles and will be in Williamsburg October 25-31.

A graduate of Penn State, Dr. Dickson received his master's degree there in 1927 and his DEA from Harvard in 1941. He was a member of the faculty at Penn State from 1923 until his retirement in 1964 and was Visiting Professor of Art History at the University of North Carolina from 1965-67.

He is the author of "Arts of the Young Republic," "John Wesley Jarvis--American Painter," "A Hundred Pennsylvania Buildings," and "Pennsylvania Painters."

BOTETOURT SOCIETY TO HEAR PARKINSON

Tonight, Richard Parkinson, Visiting Professor of English from Exeter University, will address the Botetourt Bibliographical Society on "Formal Perfection in the Life of Edward Gibbon": 8:15 in the Rare Books Room, Swem Library.

Those unfamiliar with the Society are especially invited to hear Professor Parkinson.

DEBATERS WIN FIRST PLACE

William and Mary debaters won first place over the weekend in the 33rd annual Land of Lincoln Debate Tournament at Eastern Illinois University, Charleston, Ill.

The honor was won by a varsity team of John Morello and Kathy Shirley. Morello is a senior, of Hampton and Miss Shirley is a junior from Overland Park, Kansas.

Morello also was named top speaker in the tournament, and Miss Shirley was judged third best speaker.

The William and Mary team beat entries from Wisconsin State, University of Michigan, Southeast Missouri State and Northern Illinois University. They lost to teams from Bradley, which took third place, and Butler, which William and Mary later went on to beat in the final round. In the semi-finals, they beat a team from Southern Illinois University.

Patrick Micken, debate coach, accompanied the team.

Two novice teams meanwhile took part in a tournament at Rosemont College, Philadelphia. One team beat groups from LaSalle, American University and Scranton, losing to Catholic University; the other team beat Middlebury College, losing to George Washington, Navy and New York University.

This weekend William and Mary will be represented at the seventh annual LaSalle College Invitational Tournament in Philadelphia.

CONCERNING FACULTY HOUSING

As a result of last Tuesday's faculty meeting a committee has been created to study the matter of faculty housing.

Members of that committee have requested members of the faculties to submit any information, opinions, etc., that they have on the matter. Information concerning the policy of making housing assignments, length of residence, physical conditions, maintenance, etc., would be very helpful in the development of a clearer perspective of the housing situation as it now exists.

Information for the committee should be directed to Bruce Goodwin, Bryan 110, as soon as possible.

AACTE INTERNS VISIT CAMPUS

The School of Education was host on Wednesday, October 15, to a group of 18 college administrators from foreign countries who visited Williamsburg under the auspices of the Administrative Internship Program of the American Association of Colleges for Teacher Education in which the College of William and Mary hold membership. Interns in the program are placed for one year in colleges in the United States and periodically take various tours as a group.

The visitors met in the Botetourt Theatre with Assistant Vice Presidents Donaldson, Willis, and Heemann; Assistant Dean of Admissions Sadler; and professors Unger, Lavach, Ries of the School of Education. Following a slide presentation about the history and programs of the College by Mr. Sadler, Mr. Donaldson and Mr. Unger moderated an informal discussion.

DR. WARREN B. MARTIN TO VISIT OCTOBER 27 - 29

Dr. Warren Bryan Martin, author of Alternative to Irrelevance, will be on campus October 27-29 as the second visitor under the College-Wide Reading Program. Professor Martin is a research educator at the Center for Research and Development in Higher Education, University of California, Berkeley. Since 1967 he has been the Co-ordinator of one of the Center's two major research programs entitled, "The Viability of Institutional Structures and Functions for the Future of Higher Education.

Prior to coming to Berkeley, Dr. Martin was for four years Provost of Raymond College, the first "cluster college" to be developed within the general structure of the University of the Pacific, Stockton, California. He is a member of the Committee on Undergraduate Education of the American Association of Higher Education and of the California State Board of Education Accreditation Committee.

Dr. Martin will give a public lecture on the topic "Should Students Rule?" on Tuesday, October 28, at 7:30 p.m., in the Campus Center Ballroom. He will also be in the Honors Center on Tuesday afternoon, October 28, from 1 to 3 p.m. for informal discussion. All interested persons are encouraged to attend.

In addition, Dr. Martin is available to sit in on any classes or other groups which would enjoy discussing his book or the theme of this program, The Academic Revolution, on Monday or Tuesday, Oct. 27 and 28.

Arrangements for such visits can be made with Mr. William S. Cobb of the Philosophy Department, ext. 484.

PHYSICS COLLOQUIUM

Dr. N.S. Wall of the University of Maryland, will be the guest speaker at this Friday afternoon's Physics Colloquium to be held in Room 109 William Small Physics Laboratory beginning at 4:30 p.m. His topic will be "A Potpourri of High Energy Nuclear Reaction Studies."

Coffee will be served in the Conference room at 4 p.m.

ALUMNI SOCIETY DIRECTORS NAMED

Four incumbents and one new member have been elected by alumni Saturday to serve on the board of directors of the Society of the Alumni.

Re-elected to their second three-year terms were Mrs. Pam Pauly Chinnis '46 of Alexandria, editor of the Mortar Board Quarterly magazine; Hugh S. Haynie '50, syndicated editorial cartoonist with the Louisville Courier-Journal; Howard H. Hyle '48, of Atlanta, Coca-Cola Co. sales executive; and Mrs. Betty Hicks Wagner '51, of Richmond. The newly elected member is C. Randolph Davis '50, of Suffolk, a manufacturing executive.

Results of the annual election were announced during the annual Home-coming program.

ESSO EDUCATION FOUNDATION PROVIDES GRANTS TO PROMOTE UTILIZATION OF EDUCATIONAL RESOURCES

The Esso Education Foundation's grant program, Support for Promoting The Utilization Of Resources (SPUR), is designed to underwrite experiments that promise to lead to more efficient and effective use of the instructional, administrative and physical resources of colleges and universities on the undergraduate level.

Grants of up to \$75,000 will be made directly to institutions or associations for projects in one or more of the following areas: (1) Instruction - methodology: the curriculum and related programs: (2) Administration - academic and related administrative activities: methods of securing and administering revenue: (3) Physical Facilities - use or design of academic structures and equipment: utilization of land.

To be eligible for a SPUR grant, a project must demonstrate all of the following: innovative qualities, potential to increase the efficiency of the resource in question, potential to increase educational effectiveness, and ability to be duplicated on other campuses. In addition, the institution should assure continuance of a successful project after the termination of its grant from the Esso Education Foundation. Preference will be given to projects that can be completed in a reasonable period of time; i.e., one or two years from the time of initiation of the project to the preliminary evaluation.

To apply, an institution should submit a preliminary outline of the project it proposes. An applicant may submit more than one proposal. Examples of programs which have been accepted in the past include: new freshman year learning approach; cooperative teaching between a university and liberal arts colleges; student-to-student counseling; group counseling for underachievers; computer-assisted instruction in science and mathematics; preparation of graduate teaching assistants; computer modeling in biology; training nursery-school teachers and child-development specialists; training sequence in programmed instruction for faculty; and computer-based instruction in government.

Grant recipients will be selected semiannually by the foundation with the advice of a committee of leading educators. Institutions that apply by February 1 will receive final notification by August 1. Those that apply by August will be notified by February 1. Projects selected for support should begin within six to eight months of notification. For further information, write to Frederick D. Bolman, Associate Director, Esso Education Foundation, 49 West 49 Street, New York, New York, 10020, or contact Warren Heemann, Director, Office of Institutional Resources.

DAYLIGHT SAVINGS TIME ENDS

Please note that Daylight Saving Time ends at 2 a.m. on Sunday, October 26. Clocks should be set back one hour to conform with the winter time schedule.

* * * * *

INTERNATIONAL CIRCLE GETS NEW HOME - PLANS SATURDAY PUMPKIN SALE

The International Circle has a new home at 206 South Boundary Street.

The administration has made a cottage available to the Circle which is now busy soliciting donations of household items.

Members of the faculty and their wives are being asked to make a tour of their basements, attics and garages for any discarded items the Circle could use. The Circle needs furniture, draperies, curtains, lamps, carpetings, etc., and would also like a second hand refrigerator and stove.

The cottage on Boundary Street will be open Saturday afternoon from 2-5 p.m. to receive contributions. Donors wishing to have items picked up from their homes are asked to leave a note to that effect in the International Circle mailbox in James Blair Hall stating time and date they would like things picked up.

In making an appeal to faculty members International Circle President Sylvain Carlo and Faculty Advisor J. Luke Martel join in stating that all contributions will be greatly appreciated.

Pumpkin Sale

The International Circle will hold a pumpkin sale Saturday from 10 a.m. to 3 p.m. in Ewell Circle and on Duke of Gloucester Street, to raise funds for the organization's program.

About a hundred and fifty pumpkins will be provided by a Norge pumpkin-grower, Mr. Walter J. Scruggs, and will range in price from 75 cents to \$3 depending on size.

One of the major concerns of the group is to raise funds to send an international student delegation to the model UN session to be held in St. Louis, Mo., in the spring.

The Circle has so far organized a number of socials, a picnic and a sightseeing trip to Washington, D.C. Future plans include a Christmas party and a Spring picnic.

DR. SEWALL TO LECTURE ON EMILY DICKINSON

Dr. Richard B. Sewall, Professor of English at Yale University, will lecture here next week.

Dr. Sewall, whose campus visit is part of the current Visiting Scholars Lecture series, will speak Monday, October 27 at 8 p.m. in the Campus Center Ballroom on "Emily Dickinson."

Dr. Sewall helped establish and for 12 years directed, Yale's Scholars of the House Program which each year admits a small group of seniors who are excused from all formal class requirements for independent work under a faculty adviser. His book "The Lyman Letters: New Light on Emily Dickinson and Her Family" was published in 1966. He is now working on a biography of Emily Dickinson.

The current Visiting Scholars Lecture series, arranged by the Committee on Arts and Lectures, is conducted under the auspices of the University Center in Virginia.

DEPARTMENTAL NEWS

ENGLISH

"Huck Finn, Hank Morgan and The American Literary Tradition," a critical essay by Lt. Michael A. Inman (Class of '68), has been accepted for publication in a forthcoming issue of The Mark Twain Journal. This paper, which shows the relationship of two of Mark Twain's novels (Adventures of Huckleberry Finn and A Connecticut Yankee in King Arthur's Court) to the "Adamic" tradition in American fiction, was produced in Professor Dolmetsch's Senior Seminar (English 475) in Spring semester 1968. Lt. Inman, the author, is now serving in the U.S. Army in Korea.

HISTORY

Professor David B. Quinn, Harrison Professor of History, presented a paper at the recent Conference of the Society for the History of Discoveries, held in Minneapolis from October 9-12. He was also asked to discuss his scholarly interests at the first meeting of the departmental seminar held in the Institute of Early American History for members of the department of History and interested graduate students.

MATHEMATICS

On Friday, October 17, Dr. Trevor Evans spoke on "Latin Squares and Finite Planes," in Room 109 of the Physics Building. His lecture was part of the current Visiting Scholars Lecture Series.

MUSIC

Dr. F. Donald Truesdell, Head of the Department of Music, conducted a workshop for the Roanoke Music Teachers Association, and the Roanoke Valley Chapter of Virginia Music Teachers Association on October 14. Forty-eight piano teachers, both private and college connected were in attendance. Topics discussed at the workshop, included musicianship, technique, and pedagogy; criteria for the evaluation of graded courses; review of selected graded courses; and other recommended teaching materials. Dr. Truesdell is First Vice President (President-Elect) of VMTA.

Four officers of Nu Sigma Chapter of Phi Mu Alpha Sinfonia, attended a southern division convention, October 20-21, at Columbia, South Carolina. They were accompanied by their faculty advisor, Dr. Truesdell. Phi Mu Alpha Sinfonia is the professional fraternity for music. Nu Sigma has been a strong and active chapter since its establishment in 1965. It was the recipient of the Province Merit Award in 1967. This is given each year to the outstanding chapter in the province.

Departmental News con't

PHILOSOPHY

Professor Thomas K. Hearn read a paper entitled "Tolerance" on October 18th at the meeting of the South Atlantic Philosophy of Education Society in Williamsburg. Frank MacDonald served as discussant of the paper.

Professor David Jones read a paper entitled "Casual Discourse" on October 17th at the annual meeting of the Virginia Philosophical Association which was held at Bridgewater College. Professor Fuchs, Nyland and McLane also attended the meeting.

SCHOOL OF EDUCATION

From October 12 - 14, Robert C. Jones, Associate Dean of the School of Education, served as a member of a five-man committee which evaluated new graduate programs at the University of West Florida, Pensacola. The visiting committee was appointed by the College Delegate Assembly of the Southern Association of Colleges and Schools and was charged with the responsibility of reviewing the newly inaugurated Master of Arts degree programs in Mathematics, English, Biology, and Elementary Education.

Dr. John E. Richardson, Dean of the Graduate School, Memphis State University served as chairman. Other members of the committee were Dr. William B. Stallcerp, Chairman, Department of Biology, Southern Methodist University, Dr. John Lewis, Dean, School of Business Administration, Birmingham-Southern University, and Dr. Allan Williams, Dean of Students, University of Virginia.

* * *

Correction

The topic of Dr. John F. Lavach's address to the District A, VEA Meeting was "Current Trends in Instructional Psychology", not "Current Trends in Industrial Psychology" as reported in last week's colleague.

SCHOOL OF CONTINUING STUDIES PLANS SHORT COURSE NOV. 3-7

The School of Continuing Studies will offer a short course in industrial instrumentation and control Nov. 3 - 7.

Sponsored by the Richard-Hopewell and Tidewater chapters of the Instrument Society of America, the course is being held for engineers and technicians working with and responsible for industrial instrumentation and control who desire instruction in fundamentals of this field.

The main objective of the course is to utilize highly qualified instructors from industry to teach a comprehensive course in basic principles, methods, and techniques of industrial instrumentation and control.

The course will be directed toward personnel in industry who are concerned with selection, installation, operation, and maintenance of instruments and controls.

Faculty for the short course will include John C. Willis, The Foxboro Company; B.R. Marin, Honeywell, Incorporated; J.D. Warnock, Moore Products Company; and John Canon, Fisher Governor Company.

The program opens Monday, November 3 in the Campus Center with an address of welcome from Vice President W. Melville Jones.

Instructional sessions will be held each morning and afternoon of the five-day course.

Approximately 75 representatives of 30 organizations are expected to attend.

"THE UNKNOWN SOLDIER AND HIS WIFE"

The William and Mary Theatre opened its 1969-70 season last night with the first performance of "The Unknown Soldier and His Wife" by actor-director-playwright Peter Ustinov.

Performances will be given tonight, Friday, and Saturday evenings beginning at 8:15 p.m. in Phi Beta Kappa Hall. There will be a high school matinee, of course open to the college community as well, Nov. 1, at 2:00 p.m.

Ustinov enjoys poking barbs into aspects of organized religion, man's behavior over the centuries, and those who lead the wars. His play starts in modern times, then flips back to the Roman era and progresses, by jumps, into modern times again. In each time period the consistent characters are a General and an Enemy Leader with their followers, an Inventor, the Archbishop, and of course The Unknown Soldier and His Wife.

What changes are visible throughout man's increasingly "civilized" world? Ustinov allows the audience to draw its own conclusion.

LIBRARY
NOV 4 1969
WILLIAM & MARY

The Unknown Soldier and His Wife con't

The William and Mary Theatre suggests the play might make for interesting discussions. (A recent lively half-hour special on 'AVY-TV proved that, with members of the cast and a representative from "organized religion" discussing aspects of the play.)

The Theatre's box office is open weekly between 3:00 and 5:30 p.m. It is also open the four nights of production at 7:00 p.m. During box office hours of operation the telephone will be manned; it is ext. 272. Saturday the box office will open at 1 p.m.

DR. GUSTAFSON TO LECTURE HERE NOVEMBER 3.

The Rev. James M. Gustafson, professor of Christian Ethics at Yale University, will lecture November 3 at 8 p.m. in the Campus Center Ballroom.

Dr. Gustafson will take as his topic, "Christian Reflections on Taking Human Life; Abortion, Suicide, Prolonging Life."

Before his appointment to the Yale faculty in 1955, Dr. Gustafson was minister at Northford Connecticut Congregational Church. The recipient of two Guggenheim Fellowships, he was, in 1954-55, assistant director of a study of theological education in America sponsored by the American Association of Theological Schools and the Carnegie Corporation. His latest book "Christ and Moral Life," was published in 1968. He is also the author of "Treasures in Earthen Vessels: The Church as a Human Community."

Dr. Gustafson's campus visit marks the fourth in the current Visiting Scholar Lecture Series, arranged by the Committee on Arts and Lectures under the auspices of the University Center in Virginia.

Future speakers will include Raymond B. Cattell, Research Professor of Psychology, University of Illinois, December 3; Walter Terry, Drama critic Saturday Review, Feb. 18; William Frankena, Professor of Philosophy, University of Michigan, March 6; and Kai T. Erikson, Associate Professor of Sociology, Yale University, April 6.

WORK BY CARLTON ABBOTT ON DISPLAY AT PBK

An exhibition of paintings and constructions by Carlton S. Abbott is now on display in Phi Beta Kappa Memorial Hall. The exhibition, sponsored by The William and Mary Theatre, can be seen in the front, side, and balcony lobbies of PBK.

Mr. Abbott is a professional architect whose scope ranges from a seaside residence in Rhode Island to a multi-facet plan for revitalizing Richmond's James River Waterfront.

He has been called one of Virginia's most dynamic artists.

The Theatre invites faculty and staff to see the Abbott collection and to bring the exhibition to the attention of students,

The exhibition is in connection with the current production of The Unknown Soldier and His Wife.

BUSINESS INDEX CHARTS ECONOMY

Despite signs of "cooling off," business in Virginia during the first nine months of 1969 has been "excellent with but few exceptions," according to the current Virginia Business Index, compiled by Dr. Leland E. Traywick, editor of the Index and professor of business administration. Dr. Traywick, pointed especially to the state's unemployment rate, only 2.4 per cent in September. The national rate rose to 4.0 per cent.

"If the economy is beginning to 'cool down,' as many analysts seem to think, it just might be that Virginia will accomplish this without a great increase in unemployment," he suggested.

An increase in bank debits (the volume of checks drawn against demand deposits) was up 24 per cent for the first nine months compared with a year ago, he reported. However, price inflation--worse in 1969 than in 1968--accounts for much of the increase.

Nine-month electrical consumption is up 13.8 per cent, newspaper advertising lineage is up 5.1 per cent, and postal receipts are up 4.5 per cent. Building permits are down 24.2 per cent, non-agricultural employment is up only 2.1 per cent, and retail sales are up only 3.9 per cent.

"Thus, when the general inflation is accounted for and it is seen that prices are rising some five and six per cent (faster than they did in 1968), there are indicators that are not keeping up," he said.

For the month of September alone, he said, considerable gains were made in bank debits, retail sales and even building permits. Motor vehicle titles are up nine per cent. Off slightly, he found, are newspaper advertising lineage and water consumption.

The Botetourt Bibliographical Society
presents

"FORMAL PERFECTION IN THE LIFE OF EDWARD GIBBON"

by Richard Parkinson,

Visiting Professor of English

Rare Books Room: Thursday, October 30, at 8:15 p.m.

Prospective members and others unacquainted with the Botetourt Bibliographical Society are especially invited to hear Professor Parkinson.

- - - - -

FRIDAY PHYSICS COLLOQUIUM

Dr. R. E. Prange, of the University of Maryland, will be guest speaker at the Friday afternoon Physics Colloquium to be held in Room 109 of the William Small Physical Laboratory at 4:30 p.m., October 31.

His topic will be "Magnetic Surface - levels or the Quantum Mechanics of the Bouncing Ball."

Coffee will be served at 4 p.m. in the Conference Room.

NSF GRADUATE FELLOWSHIPS

The National Science Foundation Plans to award approximately 2,400 graduate fellowships for the 1970-71 academic year.

The NSF graduate fellowships will be awarded for study or work leading to master's or doctoral degrees in the mathematical, physical, medical, biological, engineering, and social sciences, and in the history and philosophy of science. Approximately one-half of the grants will be new awards; the remainder will consist of renewals of previous grants.

To be eligible for an NSF grant, an applicant must be a citizen of the United States who has demonstrated ability and special aptitude for advanced training in the sciences and who has been admitted to graduate status by the institution of his choice.

Study may be undertaken at any nonprofit United States or foreign institute of higher education.

An applicant may request a tenure consisting of 9 or 12 months. The basic 12-month stipend for graduate fellows will be from \$2,400 to \$2,800. The annual stipend will be reduced to nine-twelfths of the annual rate for those who prefer the nine-month tenure. In addition, a yearly allowance of \$500 for each dependent spouse and each dependent child and a small travel allowance will be available.

The availability of the second year of a two year award is contingent upon certification of satisfactory academic progress and adequacy of funds.

The deadline for filing applications for the graduate fellowships is December 5. Applicants will be notified by letter of the status of their applications on March 15, 1970.

Application materials may be obtained from the Fellowship Office, National Research Council, 2101 Constitution Avenue, N.W., Washington, D. C. 20418.

For further information, contact Warren Keemann, Assistant Vice-President For Sponsored Programs.

NIH GRADUATE RESEARCH FELLOWSHIPS

The National Institute of Health awards fellowships to approximately 2,000 individuals annually to support postdoctoral and predoctoral research training in health and health-related areas.

Among the many disciplines and fields supported are: Anatomy, Anthropology, Biology, Behavioral Sciences, Biochemistry, environmental Sciences, Genetics, Microbiology, Physiology, Psychology, Sociology, and Zoology.

An applicant for the predoctoral fellowships must have received, as of the beginning date of the proposed fellowship, a baccalaureate degree or the equivalent experience. Prior to formal application, he must arrange for admission to an appropriate U.S. graduate degree-granting institution, and have arranged a training program with a sponsor who will supervise his training.

NSE postdoctoral fellowships con't

Research may be undertaken at any appropriate nonprofit United States or foreign institution.

Applicants must be citizens or nationals of the United States and must submit an acceptable plan of study or research at the postdoctoral level. Only limited teaching responsibilities may be undertaken by successful applicants.

The deadline for filing applications is December 3. Awards will be announced on March 15, 1970.

Apply to: The Fellowship Office, National Research Council
Constitution Avenue, N.W., Washington, D.C. 20418.

For further information, contact Warren Heemann, Assistant Vice-President for Sponsored Programs.

WHITE HOUSE FELLOWS

Young Virginia artists and others eligible to become White House Fellows are being urged to file an application for these by the Virginia Commission of the Arts and Humanities. Application forms for these fellowships are now available through the Commission office, Room 932-Ninth Street Office Building, Richmond, Virginia 23219.

The deadline for the filing of applications for one year's fellowships is December 24, 1969 in Washington.

President Nixon's Commission on the White House Fellows has enlisted the aid of the National Council on the Arts to increase interest in the program among those interested in the Arts. In turn, the Council requested the Virginia Commission to promote fellowships in the Old Dominion.

Although a search is under way for entrants in the Arts, fellowships are not limited to this category. Since the program was initiated in 1964, 86 persons have been chosen as Fellows, in such professions as Architecture, Engineering Law, Science, Social Work, Business and Public Administration.

Applicants must be between the ages of 23 and 35 and leadership, intellectual and professional ability and a commitment to community and nation are the broad criteria employed in the selection process.

Those accepted are placed in appropriate positions in the U.S. government with special assignments and receive substantial financial assistance. Each recipient of a fellowship will receive one year's training beginning September 1, 1970 and ending September 1, 1971.

Donald J. Gonzales, Chairman, Virginia Commission of the Arts and Humanities stated: "Since the program began, Virginia has been fortunate in having two of its promising young people selected to participate as White House Fellows. The Commission hopes applications will be received from many eligible Virginians and it will do all it can to assist any applicant."

For further information contact Warren Heemann, Assistant Vice President for Sponsored Programs or write directly to or telephone:

Virginia Commission of the Arts and Humanities
Donald J. Gonzales, Chairman
Room 932-Ninth Street Office Building
Richmond, Virginia 23219
Telephone: 770-4492

NIH graduate research fellowships con't

Applications for postdoctoral fellowships may be submitted by individuals having a Ph.D., M.D., D.D.S., D.V.M., or other equivalent domestic or foreign degree. Prior to formal application, an applicant must arrange for admission to an appropriate institution and for acceptance by a sponsor who will supervise his training.

The basic stipend for the predoctoral fellowship is \$2,400 for the first year of graduate work, \$2,600 for the intermediate years, and \$2,800 for the terminal year. An additional \$500 per annum is provided for each dependent, as well as a small travel allowance. Although fellowships are only awarded for 12-month periods, applicants should request support to the completion of the graduate degree.

Stipends for postdoctoral research are \$6,000, \$6,500, and \$7,000 per year, depending upon prior education and experience. A dependency allowance and a travel allowance at the same rate as above are also available. In addition, actual costs of tuition and appropriate fees and a \$1,000 supply allowance per annum is made available to a nonfederal institution on behalf of the fellow. Applicants may request support for 1, 2, or 3 years, depending upon individual need.

Application material for both NIH programs may be obtained from the Career Development Review Branch, Division of Research Grants, National Institutes of Health, Bethesda, Maryland 20014.

Deadlines for receipt of applications are January 2, April 1, and October 1.

Results are announced in June, September, and February.

For further information, contact Warren Peemann, Assistant Vice-President for Sponsored Programs.

NSF POSTDOCTORAL FELLOWSHIPS

The National Science Foundation is offering approximately 130 postdoctoral fellowships to young scientists who have demonstrated special aptitude for advanced training.

Awards will be made for study or work in mathematics, physical, medical, and biological, engineering, and social sciences, and in the history and philosophy of science. Applied and empirical studies in the field of law which employ the methodology of the social sciences or which interrelate with research in the natural or social sciences may also be proposed.

The usual tenure for the postdoctoral fellowships is 9 to 12 months. Tenures of from 6 to 24 months are available upon adequate justification, however.

The normal stipend rate is \$6,500 per annum. A dependency allowance at the rate of \$500 per annum per dependent, as well as a travel allowance and a special allowance, are available upon request.

CHARLOTTE ATWATER TO PLAY IN RICHMOND

Charlotte Atwater, of Lancaster, Pa., an outstanding tennis player at the College, has been selected to play with some of the top ranking women tennis players of the world in Richmond this weekend.

She has been invited to participate in the Richmond Invitational Women's Championship to be held at the Westwood Club in Richmond, October 31 - November 2.

Her opponent in the opening round of play will be Darlene Hart of England, former doubles and singles world champion.

Other top players expected to participate include Peaches Barkowicz, of Michigan; Nancy Richey, San Antonio, Texas., ranked No. 1 in the United States, and among the top five in the world; Raymonde Jones, ranked No. 1 in Virginia and the Middle Atlantic States; and Linda Tuero, New Orleans, ranked No. 8 in the U.S.

Charlotte won an invitation to the Richmond Championship as a result of her long list of achievements in tennis.

This summer she was a member of the U.S. Junior Wightman Cup team and traveled extensively playing tournaments and exhibitions.

A top ranked player in the Middle States, Charlotte was runner-up in the National 16 and under girls indoor championships in 1964. She teamed with Carolyn Clark to win the National 18 and under girls doubles indoor championships in 1965, and in 1968 ranked No. 35 in the United States for players 18 and under.

In 1969 Charlotte ranked No. 5 in the Middle States Women's tennis. While remaining undefeated in singles herself, she helped the William and Mary team post an impressive 10 - 0 winning season last year. The College team is coached by Mrs. Mildred Barrett West.

She reached the quarter finals in the Florida State Intercollegiate Invitational and also participated in the final rounds of the Middle Atlantic Collegiate and the Middle States Clay Court Women's Championship.

It was Charlotte's fine performance in the National Collegiate tournament held at Carleton College in Northfield, Minn., that caught the eye of Wightman team scouts.

Tennis has been a part of Charlotte's life ever since she could hold a racket. She comes from a tennis family. Her father and mother, both graduates of William and Mary were active in tennis and her father Howe Atwater has been ranked nationally in the sport. A top sectional player now, Mr. Atwater was a member of the outstanding 1950 William & Mary tennis team. Her fourteen year old brother Pierce, a Junior High School student is already making a mark for himself in tennis competition.

Charlotte is known as a steady, consistent player whose most effective offense comes with a strong backhand stroke. She also has sharp concentration and a good ability to cover court.

She plans to play with the college team again this year and in preparation for the season will play in the Florida State Intercollegiate Invitational Championship in March.

Charlotte is a junior at William and Mary., majoring in sociology. She plans to work in her field after graduation but will continue to keep tennis a part of her life.

PRE-SCHOOL PROGRAM AT WATS

This semester, about twenty students are making themselves available to give pre-school tutoring to children from neighboring areas.

The Pre-School Group, the only surviving project of the 1968 "Free College" experiment, and now officially a part of the Williamsburg Area Tutorial Service, gives free tuition to fifteen children, but it is hoped that further recruiting will increase numbers.

Marti Hunt, a senior English major from Alexandria, Virginia, organized the group last year, taking over from its founder Clift Postock, who transferred to Georgia State University. She described the specific things done by the group, as essentially "a readiness program for the first grade."

"We want to give these children the preparation for school that they are not getting in the home. We teach things that most other children already know, like cutting with scissors and basic numbers. Most of the children have never been away from their neighborhood. It is good for them to be with other children in a group situation."

Last year's children came mainly from the Ironbound Road area, the neighborhood where the project began. There were five weekly classes, accommodating about fifteen children between the ages of three and five. Each child had an hour of tuition per week, as well as regular outings - Norfolk Zoo was visited, a picnic was organized at Lake Matoaka, and the children were taken to play in the woods and to watch the Christmas parade.

Of these children, seven are still in the group being tutored for a further year. The others are at school. "We get more information about some than about others," Marti said. "We know of at least two children who are doing very well, but we know of one who is not. It is better if we can get them for two years before they go to school."

Marti is resigning the directorship of the group because of work pressures, but she has outlined plans for this year. She said the group is very much in need of both money and offers of transportation.

The recent affiliation with WATS has helped solve a number of problems, since initially the students had to provide all the equipment at their own expense; and it also means that the group can use the College-owned cottage used by WATS for its meetings. Originally, classes were held in James Blair Terrace. If transportation were available, more widespread recruiting could be carried out.

"We know the kids are out there," Marti said, "but meanwhile we will try to find neighborhoods that we can reach without transportation." There are also plans to send students to help with the Peter Pan Kindergarten in Williamsburg.

REVIEW

The William and Mary Review will accept manuscripts for submission until November 1. While the Review is a student publication, faculty writings and artwork have been printed in recent years (e.g., Drs. Evans & Norman); especially welcome are items relevant to the university community as a whole--curriculum revision, apathy, involvement, Black Studies, or what-have-you along similar lines.

Even if you yourself cannot submit anything at this time, your reminding your classes of November 1 deadline would be much appreciated by the Review staff.

MRS. DELAUNE OF
EDUCATION 321

by Zoe Fairbairns*

One of the many talents of Mrs. Richard K. Delaune is reading aloud to college students.

This is a necessary part of her job as a teacher, and she can always be sure of a spellbound and amused audience for her renderings of such works as "The Duchess Bakes a Cake" and "Henry Huggins."

Her audience sits attentively as she reads the story; strains to see the pictures when she holds up the book. But this is not a First Grade class, though it is hard to imagine the stories being better received if it were. This is Education 321, Children's Literature, "Kiddie-Lit" which Mrs. Delaune has been teaching for the past three and a half years.

It is a popular course, always over-subscribed, and although it is compulsory for Education Majors, these do not number any more than half the class. The aim of the course, as outlined in the Catalogue, is to deal with "the examination of books and other materials suitable for the child of elementary school age," and to give "practice in evaluating materials."

Mrs. Delaune likes "to make people realize that literature for children is important; it's not just a matter of picking up a ten-cent book in a grocery store. Some people think that as childhood lasts such a short time, it doesn't matter what is read . . . but it is more important for children to have good books than for adults."

In teaching and planning the courses, Mrs. Delaune, herself a mother of three, regards her students not only as future teachers but also as potential parents. She recalls once having a grandmother in the class; she had enrolled simply because she wanted guidance in choosing books for her family.

Mrs. Delaune thinks that the prescribed reading could have something to do with the popularity of the course. It is easy to spot the Education 321 people in the library in the evenings. Surrounded by anguished learners of the Law of Thermo-Dynamics and desperate translators of Beowulf, they pour peacefully over "Cinderella" and "Sam, Bangs and Moonshine" and "My First Book of Caves."

It is not a particularly light course, as students have to read and report about 25 books during the semester, but this reading could hardly be described as arduous, it includes "Gap Fillers" - classics that the student may have missed the first time around, and one book personally selected by the teacher for the individual student, on the basis of his or her written autobiography.

Mrs. Delaune, dark-haired and petite, was born and educated in Louisiana. She has wide experience in library work and teaching. With her husband Richard, she travelled and worked in Georgia, and Delaware and overseas in Japan before coming to Williamsburg six years ago. Her husband was studying for his master's degree at William and Mary when the offer of a teaching position came "like a bolt from the blue," the result of over-registration and insufficient staff to meet the course demand.

Mrs. Delaune con't

She was encouraged by her family to accept the part-time position; and now she says, "I love it. It is something I believe in, and people respond to it with enthusiasm; it opens a new world they have never thought about." Mrs. Delaune also enjoys her contact with the students.

Nevertheless, she is adamant that her family - eight year old Jonathan, twelve year old Linden, and fourteen year old Richard - come first. This is very important says Mrs. Delaune.

"I arrange my teaching hours to be in when the children get back from school. I would take only part-time work, though it sometimes works out as pretty full time . . . but if I felt it interfered with the children, I would not hesitate to stop."

"At the moment, however, the children seem to find that there are advantages to having a mother teaching Children's Literature, because it means that they are never short of new books, and their opinions on them are frequently sought and highly valued."

When Mrs. Delaune is not teaching at William and Mary, or writing books (she has five published and is now working on an article on Children's Literature for World Book Encyclopedia) or exercising her functions at home as "chief cook, ironer, and gardener," or drawing portraits, or doing brick-work, or housework, she works with her family making Crewel embroidery kits.

This venture into "cottage industry" began in a small way six years ago, but now the whole family is involved, and advertising has been placed in a national magazine. Richard Delaune, a retired Lt. Colonel who is now an education specialist in Civil Service at Fort Monroe, after watching his wife's method of winding and measuring wool, decided there must be an easier way. He invented an ingenious lazy susan table which proved very successful. He also helps with the silk screen printing, a two-man job, where at least one pair of ink free hands is needed to touch the clean linen.

The children help assemble kits, folding the linen or putting together the right combination of wool, all closely classified by numbers. An advertisement in Better Homes and Gardens is expected to bring in Christmas orders, though the Delaunes aren't sure whether to plan for fifty or fifty thousand. In the meantime they are working very hard on the kits trying to make as many as possible in advance of the deluge.

Some work is mechanical and can be done while chatting or watching television; but a lot needs full attention.

"We are never at a loss for something to do in our spare time," said Mr. Delaune.

* Miss Fairbairns is an exchange student from the University of St. Andrews in Scotland.

DEPARTMENTAL NEWSANCIENT LANGUAGES

On October 13, Professor J. W. Jones presented an illustrated lecture entitled "Catullus, Vergil, Horace, and Ovid: Four Poets in Landscape," to Area II teachers of Latin in Hampton.

Friday Professor Jones will read his paper "The Trojan Horse: Timeo Danaos et Dona Ferentis," before the Classical Association of Virginia in Richmond. He will read the same paper at the annual meeting of the Classical Association of North Carolina at Chapel Hill on Saturday, November 1.

-Classics Club Forms-

The Department would like to announce the formation of a Classics Club, open to all students and faculty interested in Greek and Roman civilization. The club hopes to give its members a chance to explore sides of the civilization that tend to get short shrift in class; moreover, its tentative plans for the year emphasize the reenactment of ancient drama, ritual, law, etc, rather than mere discussion. Thus, the first program (volunteers are welcome) will consist of a Dionysiac orgy. Subsequent programs will include a Roman courtroom scene, excerpts from Roman comedy, and recitations from Homer and Vergil; a Homeric read-in is planned, with some books read in the original, some in various modern translations.

Initial tryouts for the Dionysiac orgy, "a chaste rite, drunk on milk and not on wine," as Euripides puts it, were held yesterday. Members from GkLt 205, Classical Mythology, will participate as Bacchantes and priests. Casting for a suitable victim continues.

All faculty members who would be interested in this reenactment, or who would like to contribute their own ideas on other possibilities, are urged to contact Dr. Lewis Leadbeater or Mr. Alexander MacGregor, of the department, ext. 257 or 286.

BIOLOGY

Dr. Stewart A. Ware and Dr. Donna Eggers Ware appeared before the Council of the Virginia Academy of Science in Lexington Saturday, October 25, to petition for the establishment of a Botany Section in the Academy.

The petition was presented on behalf of botanists throughout the state who felt that there was a need for a section where they could participate freely.

The council of the Academy voted to allow establishment of the new section, and the first paper session for the new group will be held at the Academy's 48th annual meeting in May.

Dr. Stewart Ware is acting chairman of the new group, and Dr. Leonard O. Morrow, Randolph-Macon College, is the acting secretary.

Departmental News con'tENGLISH

Prof. Michael Lieb's book, The Dialectics of Creation: Patterns of Birth and Regeneration in Paradise Lost, has been accepted by the University of Massachusetts Press and is scheduled for publication in November, 1969.

His article, "Milton and the Kenotic Christology: Its Literary Bearing," has been accepted by ELH; and his article, Paradise Lost and the Twentieth-Century Reader, has been accepted by Cithara and will be published in November, 1969, issue.

Professor Lieb has been asked to join the staff of Seventeenth-Century News in order to write abstracts and reviews. Since his appointment, over fifty of his abstracts have appeared in the Winter, Spring, and Summer issues, and more are scheduled to appear shortly.

He has also been commissioned to write the following articles for a forthcoming Milton Encyclopedia, scheduled for publication in 1971: Caedmon; children, inspiration; inspiration, seasonal; Hobson poems' "At a Vacation Exercise"; marriages; Minshull, Elizabeth; "On the New Forcers of Conscience"; Woodcock, Katherine; talents. For the purpose of discussing the Encyclopedia with the Board of Editors, he, along with other prospective contributors, has been invited to attend the Seminar for Scholars, to be held at the MLA conference in Denver, Colorado.

Professor John T. Shawcross of the University of Wisconsin and Professor Lieb are editing a projected book tentatively entitled "Achievements of the Left Hand: Essays on the Prose of John Milton." In addition to contributions by the editors, the book will include original essays by Miltonists throughout the country.

GOVERNMENT

Two members of the Government Department recently lectured at the Foreign Service Institute of the Department of State.

On August 13, Dr. Chonghan Kim spoke on "Student and Politics in Korea." Dr. George Grayson gave a talk entitled "Christian Democracy and Revolutionary Potential in Chile," on October 21.

An article on Chilean politics written by Dr. Grayson, "The Frei Administration and the 1969 Parliamentary Elections," appears in the fall number of Inter-American Economic Affairs. This piece is based on summer research facilitated by an Alumni Research Grant.

HISTORY

Prof. Gilbert McArthur attended the Southern Slavic Conference held October 16-18 at the University of Tennessee, Knoxville, Tenn.

Prof. M. Boyd Coyner attended the annual convention of the Association of the Study of Negro Life and History during October. The conference was held in Birmingham, Ala.

Prof. Richard Maxwell Brown attended a Conference on Colonial Social History at State University of New York, Stony Brook Campus, Stony Brook, L. I., New York October 24-25. Mr. Michael Nicholls and Mr. Frederick Schmidt, advanced graduate students in history, also attended the conference.

Departmental News con'tINSTITUTE OF EARLY AMERICAN HISTORY AND CULTURE

Professors Thad V. Tate, Stephen G. Kurtz, and James H. Hutson of the Institute of Early American History and Culture talked to the graduate students of Cornell University about the problems of publishing, both articles and books, current trends in publishing and, in passing, historiography. The invitation to address the students of Cornell is the most recent of many such "road show" trips in the past years, which has taken the Institute editors and director to Harvard, Louisiana State and Johns Hopkins Universities, among others.

Professors Stephen G. Kurtz, Thad V. Tate, James H. Hutson and Sung Rok Kim attended the 25th Conference in Early American History sponsored by the State University of New York at Stony Brook, New York where Professor Kim read a paper entitled "A New Look at the Great Landlords of Eighteenth-Century New York."

MATHEMATICS

Dr. Norman E. Gibbs, Assistant Professor of Mathematics, has a paper entitled "A Cycle Generation Algorithm for Finite Undirected Linear Graphs" published in the October issue of the Journal of the Association for Computing Machinery.

MUSIC

Both men and women music fraternities on campus have received recognition recently. Delta Tau Chapter of Delta Omicron, the International Womens Music Fraternity, has received honorable mention for the Achievement Award for the academic year 1968-69. The Achievement Award is the highest honor given a Chapter by the Fraternity. Delta Tau has also received honorable mention for the Music Award and has been recognized for Efficiency during the same year.

The public presentation will be made by Chapter Advisor F. Donald Truesdell on the opening night of the Gilbert and Sullivan operetta "Gondoliers" November 13. Delta Tau sponsors with Nu Sigma Chapter of Phi Mu Alpha Sinfonia this all-student production. It is the second time in recent years the local chapter has received national recognition.

Nu Sigma Chapter will send a delegate to the triennial National Delegates Assembly next summer. Mark Poland, a junior music concentrator, was elected from among three candidates representing five chapters in Province 20 (Virginia and North Carolina) at the recent Phi Mu Alpha Atlantic Coast States Convention held in Columbia, South Carolina. He is Program Chairman for the local chapter.

PHILOSOPHY

Professor Lewis Foster has been made a Fellow of the American Society of Psychical Research. The ASPR was founded by William James, John Myerson and others and is dedicated to the disciplined investigation and analysis of so-called paranormal phenomena. The Society sponsors research, seminars and a quarterly scholarly journal.

Departmental News con'tSOCIOLOGY

Professor Wayne Kernodle gave a lecture to the Residents in Training in Psychiatry at Eastern State Hospital on Tuesday, October 21. His subject was Family Placement and Psychiatric Therapy in Belgium and Holland.

PROFESSOR ANDRÉ BOURDE TO SPEAK

LIBRARY

Professor André Bourde of the Faculty of Letters of the University of Aix-Marseille, France, will speak on Friday, November 14, at 8 p.m. in the Botetourt Theatre of the Earl Gregg Swem Library. The topic of Professor Bourde's talk will be "Enlightened Dilettantism: P. L. Bertin Comptroller-General of Finance and Minister of Louis XV." A reception in the Gallery will follow Professor Bourde's talk.

Professor Bourde is presently Visiting Professor of Modern European History at The Johns Hopkins University in Baltimore. He has been a visiting professor at Cambridge University and Manchester University, England, and at the University of Buffalo. He is presently Professor of History and Director of the Center for Cultural Exchanges at the University of Aix-Marseille, France.

Professor Bourde is an authority in the social and economic history of the eighteenth century. Among his publications are a three volume work Agronomie et Agronomes en France au XVIII^e siècle and The Influence of England on the French Agronomes, 1750-1789.

The visit of Professor Bourde to the campus is sponsored by the Department of History and has been arranged by Professor Thomas F. Sheppard.

CIRCLE K ANNOUNCES "WELFARE WEEK"

In order to acquaint the college community with the poverty in the Williamsburg area, the Circle K Club is sponsoring a "Welfare Week" from Nov. 6-13.

The program begins tonight with a slide program on sub-standard housing in the area to be shown at 7 p.m. in the ballroom of the Campus Center.

At this time Circle K will be recruiting interested students to help in their efforts to canvass the area on behalf of a public housing referendum to be held Dec. 2.

With the cooperation of Miss Tinker, Circle K is also sponsoring four days of meals which are equivalent to those a person living on welfare might receive. These meals, which will be served in the Old Wig, will begin on Nov. 10. All participants will be asked to pledge to eat only these meals during the four days.

Circle K has issued a special invitation to the faculty to participate in the activities of "Welfare Week."

"We would greatly appreciate receiving your endorsement. We would also hope that you take the time to inform your classes of this opportunity. Hopefully it will result in a really meaningful endeavor on the part of the student body."

Circle K on campus is sponsored by the Kivans Club.

SUMMER FLIGHTS TO EUROPE

The Marshall Wythe School of Law and the International Circle have combined summer travel plans and are proposing two group flights to Europe which are available to students, faculty members and their wives. Faculty members at Christopher Newport and Richard Bland Colleges have also been invited to take advantage of the economy fares because of their affiliation with William and Mary.

The first flight will leave Kennedy Airport, New York, June 15 for London and return August 31 - an approximate 10 week stay in Europe.

The second flight leaves Kennedy July 2 and returns August 15 - an approximate stay of 6 weeks in Europe.

The price for either flight is \$245, round trip.

Professor J. Luke Martel, advisor to the International Circle, who is planning the summer trips, requests that persons interested contact him for application forms. A \$50 deposit should be made upon application and received before Christmas vacation.

For those interested Dr. Martel is willing to organize a group-rate flight to Paris from London on July 19.

PUBLIC MEETING ON HOUSING AUTHORITY

A public meeting on the proposed Housing Authority for the City of Williamsburg which will be put to the voters in a referendum on Dec. 2, will be held Nov. 13 at 8 p.m. at the Williamsburg Methodist Church.

The Williamsburg-James City County League of Women Voters will sponsor the meeting.

Main speakers will be Jack Shiver, President of the Virginia Association of Housing Authorities and Mrs. Stella Neiman, member of the Williamsburg City Council. Mrs. Neiman has entitled her talk "The 1969 Challenge to Williamsburg." A discussion period will be a part of the evening's program.

COLLEGIUM MUSICUM CONCERT SUNDAY

James Houlik, among the very few pioneer musicians who perform serious music exclusively on the saxophone, will be guest artist for the next Collegium Musicum concert.

Houlik will give a concert Sunday afternoon, November 9, at 4 p.m. in the ballroom of the Campus Center.

Although still in his early twenties, Houlik has an impressive performing background, including appearances in college and university artist series and in major American concert halls. He has dedicated his career to the uplifting of the role of the saxophone in music.

His musical activities cover a much wider range than his concert appearances. Since 1966 he has been a member of the artist faculty at East Carolina University where he has established a vital program for the serious study of the saxophone.

Collegium Musicum con't

Houlick's program will include "Musette" by Jean Marie Leclair; "Phaeton," by Jean-Baptiste Lully; "Sonata in G minor" by Vivaldi; "Beau Soir," by Debussy; "Two Studies on English Folk Songs" by Vaughan-Williams; "Sonatina" by William Schmit; "Poem" by Walter Hartley; "Mini-Variations," by George Kosteck; "Cypress Song," by Leon Karel; "Allegro," by Burnet Cowin Tuthill; and "Sonata" by James DiPasquale.

Piano accompaniment for Houlick will be played by Charles Stevens.

Other musical events on campus during November will include the Sinfonicron Opera Company's production of Gilbert and Sullivan's "Gondoliers," Nov. 13-15; and a performance by soprano Theresa Stich-Pandell on Nov. 20 which is part of the current William and Mary Concert series.

GILBERT AND SULLIVAN BY SINFONICRON

"Gondoliers" by Gilbert and Sullivan will be presented by Sinfonicron on November 13, 14 and 15 in Phi Beta Kappa Hall beginning at 8:15 p.m.

Tickets are \$2, \$1.50 for students.

Advance tickets may be obtained by writing to Sinfonicron, Box KA, Williamsburg. The box office at Phi Beta Kappa will be open the week of production, 3 - 5:30 p.m., also one hour before each performance.

The cast of 26 will be directed by Arthur Roach and Larry Raiken. The orchestra will be under the direction of Steve Shrader.

The Gilbert and Sullivan production is the main money-making project of Sinfonicron. Funds will be used to finance next year's show, to sponsor social events of the organization and musical events including a Cantata to be given in the Spring, and recitals by members.

NATIONAL HUMANITIES ENDOWMENT OFFERS RESEARCH SUPPORT AND OTHER AWARDS

The National Endowment for the Humanities has announced its 1969-1970 grant program with awards to be made available in three major program areas: education, public, and research. The term "Humanities" as defined by the endowment, includes but is not limited to the study of modern and classical languages, linguistics, literature, history, jurisprudence, philosophy, archaeology, the history, criticism, theory, and practice of the arts, and those aspects of the social sciences which have humanistic content and employ humanistic methods.

In the area of education, funds will be distributed either for project grants or planning and development grants, with primary emphasis on experiments in humanities education, curricular and teaching improvement efforts and cooperative efforts between educational systems. The deadlines are November 17, 1969 and April 27, 1970.

National Humanities Endowment con't

The Endowment's public program will give awards for projects which attempt to make humanistic knowledge and insight more available to general public audiences. A special emphasis is to be placed on humanities projects dealing with contemporary issues and problems. Proposals should be submitted by November 17 or April 27.

Under the Endowment's research program, two general types of awards will be made, those to individual researchers and those to academic institutions or professional, scholarly and research organizations. Project support will be balanced between work related to contemporary social problems and work of importance for the development of humanistic scholarship and understanding in general. November 10, February 2, and July 13 have been established as deadlines.

Additional information on the Endowment's activities is contained in a brochure entitled "Program Information for Applicants: 1969-1970". For a copy, contact The Public Information Office, National Endowment for the Humanities, 1800 G Street N.W., Washington, D.C. 20506. Research grant proposal forms can be obtained from Warren Keemann, Assistant Vice-President for Sponsored Programs.

NATIONAL LAW INSTITUTE SUPPORTS RESEARCH

The Department of Justice's National Institute of Law Enforcement and Criminal Justice expects to receive a research budget of about \$7.5 million in fiscal year 1970 and has indicated that it will rely heavily on "unsolicited proposals" to identify research recipients during the coming year.

The institute is composed of 8 separate centers and divisions, three of which are of particular interest to educators. These include: (1) The Special Projects Division, Headed by Jim Swain, which administers the fellowship program and the Small Grants Projects; (2) The Crime Prevention and Rehabilitation Research Center, headed by John Conrad, which finances both basic and applied research, primarily in the social sciences; and (3) The Law and Justice Center, Headed by Paul Neljelski, which supports basic and applied research with a primary interest in work by legal institutions and organizations.

The Institute plans to continue its predoctoral fellowship program started in 1969 and hopes to reopen the Small Grants Program in November. The above programs are research awards of \$5,000 or less. The Institute encourages potential applicants to submit abstracts for preliminary comment before completing final application forms. Formal research programs may be submitted at any time, although fellowship applications are usually due in May.

Applications, a description of institute programs, and information on the Fellowship awards may be obtained by writing to: National Institute of Law Enforcement and Criminal Justice, Law Enforcement Assistance Administration, 633 Indiana Avenue N.W., Washington, D.C. 20530. For further assistance or information, contact Warren Keemann, Assistant Vice-President for Sponsored Programs.

ON THE WASHINGTON SCENE

Private lenders will receive an allowance of 2 per cent on the federally insured student loans they made between Aug. 1 and Sept. 30.

The allowance is in addition to the 7 per cent interest lenders may charge on the loans. The allowance was established by Robert M. Finch, Secretary of Health, Education, and Welfare. Mr. Finch will establish an allowance for the quarter ending Dec. 31 and each subsequent quarter.

President Nixon on October 22 signed the "emergency" bill permitting the government to make the payments. The bill is designed to allow lenders to break even on the loans in the wake of an increase in the prime lending rate to 8.5 per cent earlier this year.

- - -

Sen. Abraham A. Ribicoff (D-Conn.) has introduced a bill to provide a maximum of \$325 in tax credits on the first \$1,500 of tuition, fees, and other expenses of attending college or an accredited post-secondary school.

The measure may wind up as an amendment to the tax-reform bill now pending before the Senate Finance Committee. The Senate passes a similar Ribicoff measure two years ago, but it was dropped in conference with the House.

- - -

Following is a summary of bills of interest to higher education that have been introduced in Congress. Copies of the bills may be obtained from Senators or Representatives.

House of Representatives

- HR 14418 -- MARINE RESEARCH. To establish a comprehensive, long-range national program of research, development, technical services, exploration, and utilization concerning marine and atmospheric environments. By Representative Tunney.
- HR 14477 -- PUBLIC HEALTH SCHOOLS. To extend authority for making formula grants to schools of public health. By Representative Eckhardt.
- HR 14479 -- DRUG RESEARCH. To authorize appropriation of increased annual amounts for research by the division of drug addiction and drug abuse, National Institute of Mental Health. By Representative Hanna and 24 others. A similar bill was introduced by Representative Hanna and seven others.
- H RES 970 -- CONTINUING APPROPRIATIONS. To make continuing appropriations for fiscal 1970 for education programs at the level approved by the House of Representatives in its 1970 appropriations bill. By Representative Cohelan and five others.

On the Washington scene con't

Senate

- S 3055 -- *BINATIONAL EDUCATION.* To authorize use of excess government-owned foreign currencies to finance the establishment abroad of binational foundations for educational and scientific purposes. By Senator Fulbright.
- S 3058 -- *PUBLIC HEALTH SCHOOLS.* To extend authority for making formula grants to schools of public health. By Senator Dominick.

SMITHSONIAN TO OFFER FACULTY, STUDENT RESEARCH FELLOWSHIPS

The Smithsonian Institution has announced that it will award a variety of fellowships in fiscal year 1970 to faculty members and graduate students interested in pursuing research using the institutions's facilities and resources.

Applications may be submitted from any discipline represented in the institutions's holdings, including History, Art, and the life, physical and social sciences.

Faculty members may receive appointments as visiting postdoctoral research associates. Ph.D. candidates can apply for a visiting research associate award. The deadline for both programs for academic year 1970-71 is January 1, 1970.

Undergraduate student awards and work-study positions are available for next summer. The application deadline for students is February 1.

As all of the Smithsonian awards involve considerable negotiation, interested persons are encouraged to write for material well in advance of deadlines. Write to: Office of Academic Programs, Smithsonian Institution, The Mall, Washington, D.C. 20560. For further assistance, contact Warren Heeman, Assistant Vice-President for Sponsored Programs.

THIS WEEK IN SPORTS

Friday, Nov. 7

Soccer: William and Mary vs Virginia Wesleyan. James Blair Terrace. 3 p.m.

Saturday, Nov. 8

Football: William and Mary vs West Virginia. Cary Field. 1:30 p.m. (Dad's Day game)

Cross Country: Virginia High School League Championships.

Sponsored by William and Mary. Long Hill Road extended. 10 a.m.

Monday, Nov. 10

Cross Country: Southern Conference Meet. James Blair Terrace Field (outside Bldg. 43). 11 a.m.

Tuesday, Nov. 11

Women's Swimming. William and Mary vs Westhampton. Adair Pool. 4:30 p.m.

COMING NEXT ON THE CONCERT SERIES PROGRAM:-

TERESA STICH - RANDALL

The only American to have ever earned the enviable title of Kammersangerin (Singer to the Royal Court) at the Vienna State Opera, Teresa Stich-Randall also finds time from her busy European schedule to return home to America for one or two tours each season.

Connecticut born Teresa Stich-Randall has come a long way since her discovery by and debut with Arturo Toscanini, the great conductor who hailed her as the "find of the century." With this great distinction, Miss Stich-Randall was an immediate sensation in Europe where she has concentrated her career ever since. She has become a leading soprano of every leading European opera house, and her several seasons at New York's Metropolitan Opera House were heralded with unprecedented acclaim. Her return to America at the Met was noted by the New York Times: "There were times at the Metropolitan Opera House when one might have thought a small volcano had erupted. Actually, the incandescence was provided by Teresa Stich-Randall. From the moment she entered, hurling imprecations at George London's Don Giovanni, drawing with superb intelligence on the whole spectrum of vocal devices, it was clear that a major triumph was in formation.

When Handel's Rodelinda was revived in Carnegie Hall in 1966, Miles Kasten-dieck stated that "In the title role, Teresa Stich-Randall had all the purity of tone and agility of voice necessary." One of her superb Westminster records resulted from the success of this performance.

More recently, with the San Francisco Symphony under the direction of Josef Krips, the San Francisco Examiner praised her "dazzlingly clean technique . . . (she) treated her listeners to one of the best-controlled pianissimos going. Her singing in the lyric passages had considerably greater warmth of tone than she's sometimes credited with."

After appearances with the orchestras of St. Paul and Dallas, Miss Stich-Randall will fill out her 1969-1970 season with a recital tour, performances with the Buffalo, N.Y. Philharmonic Orchestra, and a return engagement to Dallas where she will appear with the Dallas Civic Opera singing the role of Donna Anna in Mozart's Don Giovanni.

Miss Stich-Randall's latest recording for Westminster Records is a group of Italian Operatic Arias. Her forthcoming release on the same label will be an album of lieder favorites performed with her American accompanist, the British-born Robert Jones, as her partner.

Miss Stich will give a concert November 20 at 8:15 p.m. in Phi Beta Kappa Hall.

Single admissions will be available for the concert and will be placed on sale at 8 p.m., the evening of the performance at the RBW box office.

Students may still save money by purchasing a subscription series ticket for this and the remaining three concerts in the series at \$10 each.

The remaining concerts will be the New York Pro Musica Feb. 12; the Cologne Chamber Orchestra, March 12; and the Charlie Byrd Quintet, April 9.

DEPARTMENTAL NEWS

ENGLISH

Donald L. Fall will be chairman of a Discussion Circle on Advanced Writing at the South Atlantic Modern Language Association Convention in Atlanta this weekend. Several members of the department are attending the meetings including Profs. Stephen P. Maloney, John W. Conlee, Leland E. Warren and John L. Walker.

HISTORY

A number of the members of the Department of History attended the Southern Historical Association Conference in Washington, D.C., October 29 - November 1 as well as members and Fellows of the Institute of Early American History and Culture.

Those taking an active part in the Conference from the History Department were:

Professor Richard Maxwell Brown, member of the Committee on Program. Mr. Brown also read the paper scheduled to be presented by Professor Eugene D. Genovese of the University of Rochester. Mr. Genovese had been "socked in" by the weather.

Professor Thad W. Tate was Chairman of the discussion of NEW APPROACHES TO THE EARLY AMERICAN SOUTH, and Professor Edward M. Crapol presented a paper on "America for Americans: Economic Nationalism and Anglophobia, 1880-1900" under the discussion of SOME ASPECTS OF DIPLOMATIC HISTORY.

Members of the department attending but not actively engaged in the discussions were: Professors Harold L. Fowler, Philip Funigiello, Ludwell H. Johnson, William Leary, John E. Selby, Richard B. Sherman, and George V. Strong. Advanced graduate students in history at the College in attendance were: Arthur Barnes, Marcia Hendrix, Timothy Morgan, Michael Nicholls, Frederick Schmidt, and Robert Spode.

Professors Carlyle Beyer and Hans von Baeyer attended a national conference sponsored by the National Collegiate Honors Council in New Orleans October 31st and November 1st. The theme of the Conference was the Honors Programs and the Student Revolt.

N. M. Farris will be participating in the third Conference of Mexican-United States Historians (held every ten years) in Oaxtepec, Mexico, Nov. 3-7, commenting in the session "Historiography of Mexico, 1750-1810."

INSTITUTE OF EARLY AMERICAN HISTORY AND CULTURE

Profs. James H. Hutson, Sung Bok Kim, Stephen G. Kurtz, Herbert A. Johnson, John E. Selby and Thad W. Tate attended the annual meeting of the Southern Historical Association in Washington, D.C., where Professor Tate acted as chairman of a Friday morning session entitled "New Approaches to the Early American South."

Professor Johnson read a paper at the Convention; the subject was "A Statistical Analysis of the Marshall Court."

Departmental News, con't

MODERN LANGUAGES

Profs. Pierre C. Oustinoff, Luke Martel and Lewis Hoffman attended the meeting of the Modern Foreign Language Association in Richmond on November 1.

Pierre Oustinoff was elected president of the MFLAV for 1970.

Professor John A. Moore, will give a paper "Alfonso Sastre, Dramatist and Critic," at a Section Meeting on Spanish II at the South Atlantic Modern Language Association Convention this weekend in Atlanta Ga. Others from the department attending the meetings will include Profs. J. Worth Banner, Alex Kallos, William Goff, Gary Smith and Jerry Smith.

PSYCHOLOGY

Dr. Eugene Winograd, Emory University, Atlanta, Georgia presented a colloquium to the Department of Psychology on Friday, October 24. The title of his talk was "Interference Effects in Cued Recall: Storage or Retrieval?"

Dr. Randall Chambers of (NASA) Langley Research Center will give a colloquium on Friday, November 7th at 3:30 p.m. in Mill. 211. His talk will be entitled "Problems in Modern Human Factors Research".

SCHOOL OF EDUCATION

Dr. James D. Cowles served as a consultant to the Early Childhood Education Division of the Kingstree (Williamsburg County), South Carolina Public Schools on October 17th.

Dr. James D. Cowles has reviewed two books for CHOICE:

The Nursery Years: The Mind of the Child from Birth to Six Years by Susan Isaacs (published by Schocken Books of New York)

Susan Isaacs: The First Biography by D. E. M. Gardner (published by Methuen Educational Ltd. of London)

DR. BARZUN ON CAMPUS NEXT WEEK

Dr. Jacques Barzun, author of The House of Intellect, will be on campus Wednesday and Thursday, November 19 and 20, as the third visitor in the College-Wide Reading Program. Dr. Barzun is widely known as a scholar, teacher and author and currently holds the rank of University Professor at Columbia University. He has at various times been Dean of the Graduate Faculties and Provost of Columbia. In 1961 he was appointed as Extraordinary Fellow at Churchill College, University of Cambridge. Dr. Barzun's field of special interest is the cultural history of the modern period. His many publications include several works relevant to the theme of this year's Reading Program, particularly Teacher in America, The House of Intellect, and The American University.

Dr. Barzun will give a public lecture on Wednesday, November 19, at 7:30 p.m. in the Campus Center Ballroom. His topic is "Higher Education: When Will the Bubble Burst?" He will be available for informal conversation in the Honors Center from 10:00-12:00 on Thursday morning, November 20.

Dr. Barzun is the third guest speaker to be brought to the campus by the program's planning committee. Earlier this semester, W. B. Martin, author of "Alternatives to Irrelevance", gave a public lecture and met with students.

Theme of this year's program is "The Academic Revolution".

EDUCATIONAL RESEARCH COLLOQUIUM

Dr. Peter Derks, Associate Professor of Psychology will discuss his recent research on "Registration of Information in Immediate Memory" at the second Educational Research Colloquium.

The meeting will be held in the Swem Library conference room at 3:30 p.m., Thursday, November 20.

Faculty members and their graduate students are invited to attend.

LECTURE FRIDAY BY PROFESSOR BOURDE

The History Department will sponsor a lecture by Professor André Bourde of the Faculty of Letters of the University of Aix-Marseille, France.

Professor Bourde will speak Friday, November 14 at 8 p.m. in the Botetourt Theatre. His topic will be "Enlightened Dilettantism: H. L. Bertin, Comptroller-General of Finance and Minister of Louis XV." A reception in the Gallery will follow the lecture.

Professor Bourde is presently Visiting Professor of Modern European History at The Johns Hopkins University in Baltimore. He has been a visiting professor at Cambridge University and Manchester University in England, and at the University of Buffalo. He is presently Professor of History and Director of the Center for Cultural Exchanges at the University of Aix-Marseille.

An authority on the social and economic history of the eighteenth century, he has many publications including a three volume work "Agronomie et Agronomes en France au XVIII^e siecle" and "The Influence of England on the French Agronomes, 1750-1789."

MRS. DOLMETSCH TO DISCUSS HOGARTH PRINTS

At the next meeting of the Botetourt Bibliographical Society, Mrs. Joan Dolmetsch, Assistant Curator of Maps and Prints at Colonial Williamsburg, will speak on "Hogarth's Satiric Prints: their Status and Context".

The next meeting of the Society is planned for Monday, November 17 at 8:15 p.m. in the Botetourt Theatre.

USTINOV COMEDY PROVES SUCCESSFUL

A large audience gave a standing ovation to the entire cast of The Unknown Soldier and His Wife at the final production of the Peter Ustinov play Saturday night. The William and Mary Theatre presented the play Oct. 29-Nov. 1.

Approximately 1920 people saw the play, one of the largest non-musical audiences The Theatre has enjoyed, with the exception of Hamlet last year.

Ustinov Comedy Proves Successful - con't

A matinee Saturday afternoon drew about 300 high school students from all over the state. They came for The Theatre's annual "open house", during which time they were greeted by Vice President Jones and Dean of Admissions Hunt. Theatre students took them on tours of Phi Beta Kappa before the production of Unknown Soldier.

PROFESSOR MacDONALD NAMED CHAIRMAN

Professors Scott Donaldson, James Livingston, Thomas Reynolds, Morgan Kelley, Richard Newman, and Frank MacDonal represented the College at the meeting of the Virginia Humanities Conference at Hampton Institute on November 1. Mr. MacDonal was elected Chairman of the Conference.

CLASSICS CLUB REHEARSING "BACCHAE"

The Classics Club has begun work on a production, in Greek, of Euripides' "Bacchae".

The group meets weekly on Thursday night at 7 in room 214, Washington Hall.

Any faculty members or students interested in learning Greek the easy way by participating in the project are cordially invited to attend.

For further information phone Prof. Lewis Leadbeater of the Department of Ancient Languages, ext. 296.

TILLOTSON TAPPED BY ACPA

Appointments of the State Membership Chairmen for the American College Personnel Association were announced today from the Association's headquarters in Washington, D. C. Mr. Rex Tillotson, Dean of Admissions for Men is the state's representative on ACPA's National Membership Committee and is responsible for the planning and conduct of all Association membership procurement activities within the state.

Tillotson Tapped by ACPA - con't

The American College Personnel Association is a national professional organization comprised of men and women college educators and administrators who are concerned with the professional advancement of college personnel and guidance within all levels and phases of American higher education. Numbering over 8,000 members, the ACPA is a division of the 30,000 member American Personnel and Guidance Association and is also the largest national professional student personnel association in the United States.

SOPRANO NEXT CONCERT SERIES GUEST

Miss Teresa Stich-Randall, soprano with the Metropolitan Opera Association and the Vienna State Opera, will be the guest artist at the next William and Mary Concert Series performance.

Miss Stich-Randall will give a concert Thursday, Nov. 20 at 8:15 p.m. in Phi Beta Kappa Hall. Single admissions will be available at \$3 each and will be placed on sale at 8 p.m. on the night of the concert, at the Phi Beta Kappa box office.

For her concert here, Nov. 20 Miss Stich-Randall will sing both independent songs and excerpted arias from the operas of Mozart including "Voi che sapete," Cherubino's aria from "Le Nozze di Figaro, and "Alleluja" from "Motet Exsultate, jubilate. K. 165."

She will also sing six art songs by Schubert and conclude with three operatic arias, Musetta's Waltz from "La Boheme" by Puccini "Vissi d'Arte," from Tosca; and "Qual guardo il cavaliere," Norina's aria from "Don Pasquale by Donizetti."

NSF SPECIAL RESEARCH FELLOWSHIPS

The National Institutes of Health Awards Special Fellowships to approximately 600 individuals annually to support research training in health and health-related areas. Among the disciplines and fields supported are: Anatomy, Anthropology, Behavioral Sciences, Biochemistry, Biology, Entomology, Environmental Sciences, Genetics, Laboratory Animal Science and Medicine, Microbiology, Physiology, Psychology, Sociology, and Zoology.

Special fellowships offer opportunities for scientists, clinicians, and professional nurses to broaden their scientific background, undertake basic and applied studies which will strengthen research skills, or enlarge their command of an allied research

NSF Special Research Fellowships - con't

field through interdisciplinary studies.

Applicants must be citizens, noncitizen nationals, or permanent residents of the United States who have a doctorate or equivalent degree and at least 3 subsequent years of relevant research or professional experience, or have completed residency requirements in a medical specialty. An applicant must arrange for admission to an appropriate institution and acceptance by a sponsor who will supervise his training.

Stipends for Special Fellows are determined on an individual basis according to previous training and experience and other factors. A travel allowance and other special allowances are provided. Applicants may request support for periods ranging from 6 months to 3 years.

Applications are available from The Career Development Review Branch, Division of Research Grants, National Institutes of Health, Bethesda, Md. 20014. Applications are due on January 2, April 1, and October 1, and results will be announced the following June, September, and February.

For further information, contact Warren Heemann, Assistant Vice-President for Sponsored Programs.

SWIMMERS MAKE A BIG SPLASH

The William and Mary Women's Swimming Team began the new season with an impressive victory over Old Dominion on Wednesday, November 5.

At this first meet of the year, which was held at the pool in the Adair Gymnasium, four separate records were broken. The blue-and-white costumed Old Dominion swimmers broke the pool record for the 50 yards Butterfly, while the William and Mary team set new standards in the 50 yards Free Style, the 50 yards Breast Stroke and the 200 yards Free Style Relay.

The team celebrated its triumph by hurling its fully clothed coach, Mrs. Johnson, into the pool.

Earlier, the Women's Captain, Noelle Kehrberg, a sophomore from St. Paul, Minnesota, had talked with enthusiasm about her team's

Swimmers Make a Big Splash - con't

chances for the year. They were unbeaten in Virginia last year, and when asked about their prospects for this year, she replied with the same single word - "Unbeaten" She herself has a fine record, having participated in the Nationals while still at High School. But she does not think any of the present team have national or Olympic ambitions.

There are 20 girls in the team, including a strong contingent of freshmen. There is no formal selection procedure: "If students are interested and keen enough to turn out and practice, they select themselves. The Coach chooses who will participate in each particular race. Her choice will depend on who is available, the standard of the opponents, and so on. New members are always welcome, particularly divers." The diving at the Old Dominion Meet was convincingly won by Jane Harden.

Future meets will be with Longwood, Madison, Mary Washington, Lynchburg and Roanoke. On December 13 the State Meet will be held, but its location has not yet been decided. The 1968 State Meet was held at William and Mary, and the home team was undefeated.

MEN'S TEAM

The Men's Team, coached by Dudley Jensen, also has a good record and high hopes. Last season they won 8 Meets and lost 2, and came second in both the State Meet and the Southern Conference. The Men's Captain, George Collins, of San Rafael, Calif., a Business major in his Senior year, said, "I think things look real good for this year; we have the best team ever, and should at least equal last year's record, possibly even go beyond it. The team has come a long way since last year." The men's team is also looking for good divers, but, apart from this, the team is complete.

The men face 10 Meets this year, the first being against V.M.I. on Saturday December 6. In addition, they will participate in the Southern Conference Championships on March 5 - 7, and hope to send a team of 4 or 5 to the Easterns later in March, at which all the Eastern states of the U.S.A. will compete.

Both the men and the women face strenuous training, having practices or workouts most days.

Aside from the competitive aspects, swimming is taken seriously, as a course, as a recreation, and as an art. Proficiency in

Swimmers Make a Big Splash - con't

swimming is a prerequisite for a degree, and the Departments of Physical Education provide courses in techniques, in Waterfront Leadership and in Advanced Swimming and Rhythmics. There are facilities for students to take the American Red Cross Instructor courses. For those students who enjoy swimming without wanting to take it up seriously, both the Blow and the Adair pools are open for recreational swimming at specified hours each day.

THE MERMETTES

The Mermettes, a synchronized swimming group of about 20, gives performances in water-ballet. They are led by Shelley Walls, Scarsdale, N. Y., and Nell Wrather, Alexandria, Va., and coached by Miss J. Tomlinson. They practice every week, planning for the demonstration they will give during the second semester.

They try to work out the interpretation of an emotion, a simple story or a skit by synchronized movement in the water. For the performance itself, the Mermettes will be in appropriate costumes and the pool will be lighted from underneath. But even without these additions, they make a beautiful and graceful spectacle while going about their practicing.

PHYSICS COLLOQUIUM

TIME: Friday, November 14, 1969, 4:30 p.m. (Coffee at 4:00)
PLACE: William Small Physical Laboratory
Coffee in Conference Room - Colloquium in Room 109
SPEAKER: M. Zuckerman, McGill University
SUBJECT: Localized Spin Fluctuations in Dilute Magnetic Alloys

M. Zuckerman of McGill University will be guest speaker at the Friday afternoon Physics Colloquium to be held tomorrow afternoon, November 14 at 4:30 p.m. in Room 109, William Small Physical Laboratory.

His topic will be "Localized Spin Fluctuations in Dilute Magnetic Alloys."

Coffee will be served in the Conference Room at 4 p.m.

HUMAN RELATIONS COUNCIL

Mrs. A. D. Strong, President of Home, Inc., will speak on the Redevelopment and Housing Authority at the next meeting of the Williamsburg Area Council on Human Relations to be held Monday, Nov. 17 at 7:30 p.m. in the Wesley Foundation Building (next to the Methodist Church on Jamestown Road).

DEPARTMENTAL NEWS

Ancient Languages

Professors Leadbeater, Reilly, and Wooten attended the fall meeting of the Classical Association of Virginia in Richmond on Oct. 31. The group heard two excellent papers - one dealing with the origins and development of the Trojan horse episode in Vergil and the other dealing with the origins and contributions of the Etruscans. The first paper was delivered by Prof. J. Ward Jones, Jr. of William and Mary.

Biology

Dr. Mangum has organized a symposium on "Physiology of Annelids" to convene at the annual meeting of the American Society of Zoologists in Boston on Dec. 29 - 29. Fourteen leading scholars in the field will travel from various regions of the U. S., Canada, Denmark, France, England, Scotland and Australia in order to participate. The National Science Foundation has recommended support for the symposium, which is sponsored by the Divisions of Comparative Physiology and Invertebrate Zoology.

Chemistry

On Monday and Tuesday, 3 and 4 Nov. 1969, Prof. S. Y. Tyree, Jr. gave a departmental seminar entitled "Equilibrium, Steady State, or just Longlived?" and a divisional seminar entitled "The Behavior of Simple Salts and Their Importance in Geological and Biological Systems", both at Furman University, Greenville, S. C.

Professor Thompson presented a seminar entitled "Some Chemistry of Titanium (IV) Complexes" to the Chemistry and Physics branch of NASA at Langley Field on Oct. 23,

Departmental News - Chemistry - con't

The following papers by members of the Chemistry Department were presented at the Southeastern Regional Meeting of the American Chemical Society held in Richmond, November 5-8:

"Formation Cross Sections for RB^{86} and RE^{87} and SR^{87} with Intermediate Energy Protons"

"The Production of P^{32} and P^{33} from Various Targets with 550 MeV Protons"

"The 600 MeV Proton Synchrocyclotron at the Space Radiation Effects Laboratory in Virginia"

"Some β_- Diketonate Complexes of Silicon and Germanium"

"Titanium (IV) Complexes with the 3-Methyl-2,4-Pentanedionate Anion"

"Preparation and Studies of some Nb(V) Oxopentaisothiocyanato Complexes"

In addition, Professor Alfred R. Armstrong was chairman of one of the Analytical Chemistry sessions.

Geology

Dr. Bruce K. Goodwin attended the 70th Annual Convention of The Society of the Sigma Xi as the delegate from the William and Mary Club of that Society. The Convention was held from Oct. 31 to Nov. 3 in Palm Springs, Calif. Sigma Xi is a national society of scientists dedicated to the advancement and encouragement of research, and the meetings at the convention centered around this theme.

Several outstanding speakers addressed the delegated and included: Dr. Lee DuBridge, Science Advisor to President Nixon; Dr. Dean Rusk; Dr. William Hayward Pickering, Director, Jet Propulsion Laboratory; and Dr. Don L. Lind, Astronaut-Scientist from NASA.

Physics

E. A. Remler gave an invited paper, Intermediate Energy Elastic Proton-Deuteron Scattering, at the November 6 - 8 meeting of the Southeastern Section of the American Physical Society in Gainesville, Florida.

Psychology

Dr. Glenn D. Shean of the Psychology Department and Counseling Center delivered a paper entitled "Neo-Fruedian Interpretations of Autonomic Functioning in Musca domestica" at the 12th annual meeting of the Virginia Society for Entomological Psychiatry, which met in Blacksburg, October 24 - 25.

Women's Physical Education

At the invitation of Mrs. Mildred B. West, Miss Darlene Hard of Los Angeles, former No. 1 U. S. Women's Tennis Player, gave a clinic for tennis classes and team members on Tuesday, Nov. 4.

Miss Hard, who is teaching tennis in Los Angeles was the top women's tennis player in the country from 1960-64 and during that time won 122 consecutive doubles matches with Maria Bueno to earn the top ranking in the world as a women's doubles player.

She played against Charlotte Atwater, member of the William and Mary tennis team in the opening round of the Richmond Invitational Tournament held Oct. 31 - Nov. 2.

PHYSICS COLLOQUIA

M. W. Muller, Professor of Electrical Engineering at Washington University, and A. Bernstein, of M.I.T., will be guest speakers at two colloquia scheduled by the Physics Department for Friday, November 21.

Dr. Muller will speak at 2 p.m. on "Micromagnetics". Dr. Bernstein will take as his topic, "The Determination of Neutron and Proton Contributions to Nuclear Structure", at 4:30 p.m.

Both colloquia will be held in Room 109 of William Small Physical Laboratory.

Coffee will be served at 4 p.m. in the Conference Room.

CONCERT TONIGHT

A final reminder that the William and Mary Concert Series Program with Miss Teresa Stich-Randall, soprano, begins tonight at 8:15 p.m. in Phi Beta Kappa auditorium.

Single admission tickets for \$3 will be available for this performance and will go on sale at the box office at 8 p.m.

DINNER GUESTS FOR THANKSGIVING

Members of the faculty who are interested in entertaining foreign students at their homes for Thanksgiving Day dinner are asked to contact Prof. Albert Labriola, ext. 436.

KAPPA KAPPA GAMMA CENTENNIAL GRANTS

The College of William and Mary is among 94 colleges and universities across the country that will participate in Kappa Kappa Gamma's Centennial scholarship program.

LIBRARY
NOV 24 1969
WILLIAM & MARY

Kappa Kappa Gamma Centennial Grants - con't

Kappa Kappa Gamma, a national, collegiate social fraternity for women, founded at Monmouth College, Monmouth, Ill., on October 13, 1870, will celebrate its Centennial year by offering a fellowship on each of the 94 college campuses where there is an active chapter of the fraternity.

This fellowship of \$3,000 will be awarded for the academic year 1970-71 to a woman working on a degree program in some field of rehabilitation - physical therapy, occupational therapy, speech therapy, speech pathology, rehabilitation medicine, social work, medical research, or education for the exceptional child.

On campuses which have no graduate work in any of these fields, a \$1,000 scholarship will be awarded to a senior woman.

At the College of William and Mary, the only College in Virginia which has a chapter of Kappa Kappa Gamma, the grant will be made for graduate study leading to the Master of Education in Special Education. This work may be done either in the area of the mentally retarded or that of the emotionally disturbed.

Application blanks may be secured from the Director of Student Aid. Deadline for applications is Feb. 15.

SIGMA XI ANNOUNCES ITS SCHEDULE

The William and Mary Club of the Society of Sigma Xi opened its schedule of programs with a talk Wednesday night by Dr. Gerald Johnson entitled "Geological Evolution of Virginia".

Future speakers and their topics are as follows: Dr. Norman Barka, "Archeology of the Chickahominy River", Dec. 9; Dr. Morris Brehmer, "People and Pollution", Feb. 23; and Dr. Robert Welsh, "Mesic Atoms", March 18.

All meetings are held in Millington Hall Auditorium beginning at 8 p. m.

Although the programs are scientific in content, the subject matter is of broad general interest. All members of the faculty and community are cordially invited to attend, regardless of Society affiliation.

Local officers for the current year are: Dr. Bruce Goodwin, President; Dr. Richard Kiefer, Vice President; Dr. Harris Burns, Secretary; and Dr. Sydney Lawrence, Treasurer.

Sigma Xi Announces Its Schedule - con't

The Society of Sigma Xi is an international organization of some 100,000 members, dedicated to furthering scientific research.

*SEMINAR IN MARINE SCIENCE
AT GLOUCESTER POINT*

A seminar will be held at 3:15 pm, Tuesday, November 25 in the lecture hall of Byrd Hall (first floor of the new building), with a discussion of "Aspects of Nutrient Cycling and Secondary Production in the Marine Ecosystem", by Dr. Robert E. Johannes, Associate Professor, Department of Zoology, University of Georgia at Athens.

Interested scientists from neighboring institutions are invited to attend.

A STUDENT VIEWS "WELFARE WEEK"

Some 140 students deserted the Cafeteria and their favorite downtown eatery this past week, in a planned walkout.

Not in protest, however, but as part of a four-day inquiry into the eating habits of the poor.

"Welfare Week" on campus, sponsored by Circle K, sought to bring home sharply to students the kind of existence they would expect to have if they were on a budget of 23 cents per meal as a welfare recipient.

The Old Wigwam behind the Campus Center was opened to enable the volunteers to live for four days on welfare-type food. Participants were also asked to sign a pledge not to eat anything but the three meals a day prepared for the program.

It was further pointed out to those who participated that they should take into consideration the fact that welfare families do not have the services of a dietitian such as prepared their meals and many do not have electricity or running water to help with food preparation. Students were also reminded that while their visit into poverty world was fleeting, those in the real poverty world cannot switch to a more affluent environment after a few days.

Zoe Fairbairns, an exchange student from St. Andrews and roving reporter on campus for the Information Office, gives one view of "Welfare Week."

First day Monday. We think we know what to expect. Wear martyred little smiles and think of bread and water. But it's scrambled eggs and grits. Filling enough. More than what a lot of us eat normally for breakfast. Hard luck, though, on the ones who just did it to get a change from Caf food.

Monday lunch. Bologna and macaroni. A bit hard on the eye, but the stomach doesn't object too much.

Monday dinner. A meat-burger of some kind, only it's half potato. And pale green cabbage. And milk. And the realization that there's nothing more until seven tomorrow morning.

It's not hunger, exactly; just a feeling of not having eaten as well as usual. Probably it's all in the mind. Probably people who don't know about vitamins don't miss them.

A Student Views "Welfare Week" con't

Will Circle K have spies at all the vending machines on campus to make sure no-one weakens and sneaks out for peanut-butter cups?

A limit of 25 cents for snack food has been recommended. That's 25 cents for the four days, not per day. For some, perhaps, a sudden realization of how much they usually spend. Twenty-five cents isn't much. It's two ice creams. A couple of "Hostess" cakes. Two and a half Wigwam coffees, or two to take away.

It's not bad food. (They didn't tell us until we'd eaten it that the cornmeal mush had been fermenting for three days; it wasn't till afterwards that they darkly hinted that we just might have been eating dog-meat.)

It was well cooked, if a little stridently colored at times, and one night there was cream on the chocolate pudding.

You never got up from the meal feeling empty. On one occasion - thick soup, peanut butter sandwiches and cookies - it was almost too filling. But this kind of food doesn't seem to stay in the stomach long.

They put out ash-trays, but the lighting of a cigarette draws a baleful glare from one of the serving ladies. Is she thinking, people on welfare can't afford cigarettes? Perhaps she just doesn't approve of smoking, in Welfare Week or any other week. Perhaps she's just run out and she's jealous.

Someone takes his plate up for more. Oliver Twist himself couldn't have made the request more pathetically. It takes courage. But he is refused. Regretfully. The lady consults her instructions to see if she can get around them and feed the famished youth. But it says "One Serving Only. Give Generous Portions". Of course, it depends on what you mean by "Generous". But he doesn't get his second helping.

Thursday dinner. Last Day. And they hand out a hand-out suggesting that if we're really hungry we follow the example of numerous poverty-stricken pregnant women in the area, and get ourselves a packet of laundry starch to silence our stomachs until morning. A makeshift notice on the door invites us to an "Eat-in". Its effect is both tempting and sickening.

A Student Views "Welfare Week" con't

There's a box where you are supposed to donate the money you have saved on food for Circle K's welfare work. Their handout suggests that we take part in their work, now that we have some idea what it's like to be in a position that needs it.

Friday morning and a return to normalcy. There's fruit and toast at breakfast. Lots of it.

Much hard work obviously went into Welfare Week, and its organizers deserve congratulations, and Circle K deserves plenty of new volunteers.

The primary object of the week was not fund-raising. There was a collection box, but there are obviously easier ways of just raising money.

The object was to prove that it would not be pleasant to be under-privileged and under-nourished.

If that was its object, it was successful, because it did prove that.

But then most of us could have guessed it anyway.

METEOROLOGICAL RESEARCH PROGRAM

A document describing the Federal Government's plans for Meteorological Research in fiscal year 1970 has been issued by the U. S. Department of Commerce's Environmental Science Services Administration. Entitled The Federal Plan For Meteorological Services And Supporting Research: FY 1970, The document lists the current research emphasis of nine federal departments. A copy of this booklet is available by writing to: Federal Coordinator For Meteorological Services and Supporting Research, Essa, Department of Commerce, Washington, D. C.

NATO FELLOWSHIPS AVAILABLE

Faculty members in the Humanities and Social Sciences wish-
ing to apply for a 1970-71 Research Fellowship in one of the
North Atlantic Treaty Organization countries must submit their
proposal by December 1, 1969. Awards will be limited to fellows

Nato Fellowships Available - con't

working on projects of direct interest to NATO or to The Atlantic Community as a whole. Projects should pertain to Historical, Political, Economic, and Social Problems. It is expected that the amount of each grant will be approximately \$460 per month and that stipends will be requested for a period of two to four months. In special cases, stipends will be made available for six months. NATO will pay the cost of travel for the fellow. Application forms may be requested from: Committee on International Exchange of Persons, 2101 Constitution Avenue, Washington, D. C. 20418. For further assistance, contact Warren Heemann, Assistant Vice-President for Sponsored Programs.

NIH CAREER DEVELOPMENT AWARDS

The National Institute of Health has selected December 1 as the next application deadline for its Career Development Awards. These funds are distributed to institutions in behalf of a qualified individual for a five-year period and may be renewed. Support may reach a maximum of \$25,000 a year. The applications involve joint cooperation by the institution and the specific individual nominated for the award and must include details on plans for research and other professional activities. Two other application deadlines have also been announced. These are May 1 and September 1. Proposals may be submitted from individuals in any discipline involved in research relating to the National Institutes of Health. For additional details write to: Career Development Review Branch, Division of Research Grants, National Institute of Health, Bethesda, Md. 20014. For further assistance, contact Warren Heemann, Assistant Vice-President For Sponsored Programs.

TECHNICAL AID GRANTS OFFERED BY EDA

The Department of Commerce's Economic Development Administration has issued a new brochure describing the Agency's Technical Assistant Program. Technical Assistance provides information, data, training and consulting in evaluating and/or shaping specific projects and programs in economic development. Its basic emphasis is on activities that will either increase the income level and/or level of employment in disadvantaged areas. Special attention is given to urban needs.

Applications to provide or receive technical assistance can be submitted from both designated and non-designated areas and may include local governments, educational institutions, private firms and other types of agencies or organizations.

Technical Aid Grants Offered by EDA - con't

EDA has three types of TA Awards of particular interest to educators. These include: (1) Purchase Order Grants of \$2500 or less which may be used primarily to round out a budget for feasibility studies, research related to a proposed EDA project or other related activities; (2) Institutional Assistance Awards, ranging from \$50,000 to \$250,000 to establish (usually on a matching basis) University Centers serving as regional technical assistance or training resources; and (3) Organizational Awards which may go to a consortium of institutions, professional associations, or other such groups to carry out some aspect of technical assistance which is regional or national in scope.

A copy of the brochure entitled EDA Assistance: What It Is And How To Apply and other information may be obtained by writing to: Office of Technical Assistance, Economic Development Administration, U. S. Department of Commerce, Washington, D. C. 20230. For further assistance, contact Warren Heemann, Assistant Vice-President For Sponsored Programs.

OFFICE OF JUVENILE DELINQUENCY SETS PROJECT

DEADLINES

The Social and Rehabilitation Service's Office of Juvenile Delinquency and Youth Development now has available a package of material outlining its fiscal year 1970 program.

Under the Agency's Title III Authority, grants and contracts will be made for projects leading to the development of improved techniques and practices in the field of Juvenile Delinquency. Awards may include technical assistance efforts, either at state or local levels.

The application deadlines for Title III are January 9 and April 10, 1970. Interested persons are invited to add their names to the mailing list for a new periodical in this field entitled Juvenile Delinquency Reporter.

For additional information write to: Office of Juvenile Delinquency and Youth Development, Social and Rehabilitation Service, 330 Independence Ave. S. W., Washington, D. C. 20201, or contact Warren Heemann, Assistant Vice-President For Sponsored Programs.

DR. ROY P. BASLER SPEAKER
PHI BETA KAPPA MEETING

Roy P. Basler, Lincoln Scholar and director of the reference department for the Library of Congress, will be the speaker at the open meeting of Alpha of Virginia Chapter of Phi Beta Kappa, Dec. 5 at 8:15 p.m. in Phi Beta Kappa Hall.

The Phi Beta Kappa poet this year is James Wright.

Dr. Basler has chosen as his topic for the evening, "A Literary Enthusiasm."

A teacher, writer and librarian, Dr. Basler received his under-graduate degree from Central College, Fayette, Mo., and his A.M. and Ph.D. degrees from Duke University. He also holds an honorary Lit. D. from Blackburn University.

He has been head of the Departments of English at Bowling College, Sarasota, Fla., and George Peabody College.

From 1946-50 he was Chief of the Division of General Reference and Bibliography for the Library of Congress. He became Director of the Reference Department in 1958.

A Lincoln scholar, Dr. Basler was editor of The Abraham Lincoln Quarterly from 1947-52. Abraham Lincoln: His Speeches and Writings, 1946; The Collected Works of Abraham Lincoln, 1953; and a Short History of the American Civil War, 1967.

Phi Beta Kappa Poet, James Wright, was born in Martin's Ferry, Ohio.

He has taught at the University of Minnesota, Macalaster College, and he is currently teaching at Hunter College of the City College of New York.

During the summer he taught at the New York State University at Buffalo in a program led by a number of contemporary writers.

He is the recipient of Kenyon, Fulbright and Guggenheim Fellowships.

He is the author of the following books of poetry: The Green Wall, Saint Judas, The Branch Will Not Break, and Shall We Gather at the River.

DEPARTMENTAL NEWS

Anthropology

Dr. Norman F. Barka attended the annual meeting of the Eastern States Archaeological Federation in Morgantown, West Virginia, November 7-9, where he served as chairman of a workshop on "Ceramics of the Colonial Period".

Economics

Prof. Martin Garrett, Clyde Haulman, and Leonard Schifrin attended the meetings of the Southern Economic Association in St. Louis, Nov. 13-15.

Professors Garrett and Schifrin appeared on the program as invited discussants. Prof. Garrett discussed papers in the section on Urban and Regional Development, and Prof. Schifrin discussed the papers presented in the section on Professional Manpower and Human Resources.

Geology

Drs. Kenneth Bick, Stephen Clement, Bruce Goodwin, and Gerald Johnson attended the annual meeting of the Geological Society of America in Atlantic City, New Jersey from November 10-12. Dr. Johnson then attended a field trip sponsored by the Society in order to study the paleontology and stratigraphy of the Coastal Plain of New Jersey.

Government

Professors James Roberty (Chairman), Warner Moss, and Richard Brown attended the annual meeting of the Southern Political Science Association, Nov. 6-8, at Miami Beach.

History

Professor Gilbert H. McArthur attended the foundation meeting of the Virginia Council on Slavic Studies, held at Mary Washington College, Fredericksburg, Saturday, November 15. Mr. McArthur has been chosen to be a member of the Executive Committee.

School of Business Administration

Prof. J. S. Quinn and William McCormick attended a seminar "Trends in the Education of Accountants" at Virginia Polytechnic Institute on Nov. 13 & 14.

Departmental News - con't

Music

On October 31, Dr. F. Donald Truesdell, Head of the Department of Music, attended the annual convention of Virginia Music Educators Association in Richmond.

November 14 and 15, he attended the annual state convention of Virginia Music Teachers Association, also in Richmond, where he was elected President for the biennium 1969-71. This organization is affiliated with Music Teachers National Association, the oldest professional music organization in the United States.

November 24-26, Dr. Truesdell will attend the annual meetings of the National Association of Schools of Music in Los Angeles, where one of the meetings will be of particular pertinence. Problems pertaining to small music departments in relatively small liberal arts state supported institutions will be discussed.

Physics

The following papers were presented at the 12-15 November meeting in Los Angeles of the Division of Plasma Physics of the American Physical Society:

Quasi-Linear Theory of Well-Correlated Disturbances by H. W. Bloomberg

Numerical Calculations of Wave-Wave Interaction in a Vlasov Plasma by F. R. Crownfield, Jr.

Mr. Crownfield participated in a workshop on numerical treatment of the Vlasov equation in Gaithersburg, Maryland, on October 15. Participation was at the invitation of the National Bureau of Standards.

Swem Library

Mrs. Ilse B. Webb, Mrs. Mary Louise Cobb, Miss Kathryn Blue and Miss Susan Stevick of the Cataloging Department; Miss C. Diane Terry, Assistant Circulation Librarian; and William C. Pollard, Librarian, attended the annual conference of the Virginia Library Association held at Roanoke, Virginia, October 23 - 25.

The Potomac Technical Processing Librarians (Maryland, Washington, D. C., and Virginia) met in Williamsburg on Saturday,

Departmental News
Swem Library - Con't

November 15. From 10 a.m. until noon the Swem Library staff were hosts to the group at a coffee held in the Botetourt Gallery. Mrs. Ilse E. Webb, Cataloging Librarian, was in charge of local arrangements for the annual meeting.

School of Education

Dr. Kevin E. Geoffroy presented a paper entitled "Psychological and Sociological Characteristics Of The Culturally Disadvantaged" in Durham, Nov. 7-8. The Conference was sponsored by Duke University and North Carolina Central University.

Dr. Esther Mills, Associate Professor of Education, Special Education Division, will conduct workshops over a seven-week period for teachers of educable mentally handicapped students in the Norfolk, Va. Public Schools.

PHI BETA KAPPA
ANNUAL MEETING TOMORROW

Roy P. Basler who holds the Chair of American History at the Library of Congress and poet James Wright, will be featured speakers at the annual Phi Beta Kappa program to be presented Friday, Dec. 5 at 8:15 p.m., in Phi Beta Kappa Hall by Alpha Chapter of Virginia at William and Mary.

The annual open meeting commemorates the founding of Phi Beta Kappa in Williamsburg on Dec. 5, 1776 by a group of students from the college.

Dr. Basler who is Chief of the Manuscript Division at the Library of Congress, has chosen as his topic, "A Literary Enthusiasm."

A Lincoln scholar, Dr. Basler has published several books on Lincoln including an eight volume work entitled "The Collected Works of Abraham Lincoln," published by Rutgers University Press in 1953. He is also author of "The Lincoln Legend," Houghton Mifflin, 1935; "Lincoln," Grove Press, 1962; and Walt Whitman's Memoranda during the War and Death of Abraham Lincoln," Indiana University Press, 1962. His latest publication was "A Short History of the American Civil War," published by Basic Books in 1967.

Dr. Basler has been Executive Secretary and Editor-in-Chief of the Abraham Lincoln Association, Springfield, Ill. He received his graduate degrees from Duke University and also holds an honorary D. Litt., from Blackburn College. He has been head of the Departments of English at Ringling College, Sarasota, Fla.; and George Peabody College. His major teaching fields include American literature, American history and nineteenth century English literature.

Poet James Wright was born in Martin's Ferry, Ohio. He received his B.A. from Kenyon College; an M.A. from the University of Vienna and a Ph.D. from the University of Washington.

His first book of poems, "The Green Wall," won the Yale series of Younger Poets competition in 1956. He has also published "Saint Judas," "The Branch Will Not Break," and "Shall We Gather at the River."

Dr. Wright has taught at the University of Minnesota and was lecturer in English at Macalaster College in 1964-65 and a Guggenheim Fellow in 1965-66. He is currently on the faculty of Hunter College of the City College of New York.

WILLIAM & MARY

Phi Beta Kappa Annual Meeting - con't

He has received Kenyon, Fulbright and Guggenheim Fellowships and last summer taught at the New York State University at Buffalo in a program led by a number of contemporary writers.

Thirty-one members in course will be initiated into Phi Beta Kappa in afternoon ceremonies on Dec. 5 at the Raleigh Tavern. Twenty-nine are members of the senior class and two are members of the class of 1969.

A dinner for members, initiates and guests will be held in the ballroom of the Student Center following initiation ceremonies.

PHYSICS COLLOQUIUM

TIME: Friday, December 5, at 4:30 p. m. (Coffee at 4:00)

PLACE: William Small Physical Laboratory
Coffee in Conference Room
Colloquium in Room 109

SPEAKER: J. Cushing, Hampton and Notre Dame

SUBJECT: "Mass Formulas from S-Matrix Theory"

PROFESSOR'S PARENTS
HONORED BY LONGWOOD

Mr. and Mrs. Martin Boyd Coyner of Farnville, parents of M. Boyd Coyner, Jr., Associate Professor of History, were honored recently by Longwood College.

A new \$337,000 home economics building, now under construction, for Mr. and Mrs. Coyner.

Mr. and Mrs. Coyner, both of whom retired from active association some time ago, represent a combined total of 65 years of professional service to the college.

LACHS RECEIVES CHANCELLOR'S CUP

Dr. John Lachs, formerly of the William and Mary faculty and now professor of philosophy at Vanderbilt University, has been named 1960 recipient of the Chancellor's Cup, one of the university's highest teaching awards.

DEAN FOWLER ON HENRY VIII

The Panhellenic Council has issued an invitation to the campus community to attend Dean Harold Fowler's classic lecture on Henry VIII.

Dr. Fowler, Dean of the Faculty of the College of Arts and Sciences will present his lecture tonight at 8 p.m. in the Campus Center ballroom.

For many years, part of Dr. Fowler's Survey of European History course, his lecture is now given annually and last year was given for the Lyon G. Tyler Historical Society.

TAX CONFERENCE SATURDAY

The Fifteenth Annual Tax Conference under the direction of the Marshall-Wythe School of Law of the College of William and Mary, will be held in the Conference Center of the Williamsburg Lodge on Saturday, Dec. 6.

Morning and afternoon sessions will focus on such topics as current federal tax legislation, tax cases and tax rulings, recent developments in the audit of federal tax returns, legislative proposals for revenue sharing, tax titles in Virginia and property assessment standards in Virginia.

Dr. James P. Whyte, Acting Dean of the Marshall-Wythe School of Law will head the list of Conference Directors. He will be assisted by Thomas C. Atkeson, Chancellor Professor of Taxation, Emeritus; John E. Donaldson, Associate Professor of Law; and Emeric Fischer, Professor of Law.

The Conference is designed to make available to students, accountants, attorneys, corporate and state and local tax officials and other professional and business groups, timely and important factual material relating to Federal and State tax returns, tax procedures and tax policies.

Program participants will include Marvin C. Bowling, Jr., Associate Counsel, Lawyers Title Insurance Corporation; James F. Dring, Director, Legislation and Regulations Division, Office of the Chief

Tax Conference - con't

Counsel, Internal Revenue Service; F. C. Forberg, Director, Division of Real Estate Appraisal and Mapping, Department of Taxation, and Past President of the Virginia Association of Assessing Officers; John Shannon, Assistant Director, Advisory Commission on Intergovernmental Relations; and Singleton B. Wolfe, Director, Audit Division, National Office, Internal Revenue Service.

Two faculty members of the Marshall-Wythe School of Law will also participate as program speakers. They are John H. Davies, formerly attorney for Neighborhood Legal Assistance Center in Chicago; and Don W. Llewellyn, former Trust Office, Farmers Bank and Trust Company, Carlisle, Pa., and advisor to Oregon State Bar Committee on Taxation.

DR. QUINN: TO SPEAK

The Botetourt Bibliographical Society will meet on Monday, December 8, at 8:15 in the Botetourt Theatre.

Dr. David Quinn, Professor of history at the University of Liverpool, will speak on "The Elizabethan Literature of the Sea."

All prospective members are urged to attend.

NEXT WEEK, MANDRAGOLA

MANDRAGOLA, by Niccolo Machiavelli, will be presented next weekend by The William and Mary Theatre, commemorating the 500th anniversary year of the Italian writer's birth. Curtain time is 8:15 p.m. Wednesday-Saturday, December 10-13.

Those interested in background information concerning the play might appreciate the following quotation from John Gassner's Masters of the Drama:

"MANDRAGOLA is written in sharp and precise prose, with generally mordant verses between the acts. The comedy, written about 1514, probably owes its mood to Machiavelli's state of mind at the time of its completion. He had retired to his farm near San Casciano after losing political influence with the restoration of the Medici and being treated to "four turns of the rack" before he was released by a papal amnesty. He was in the proper frame of mind for dividing the world into fools and rogues.

"Those who like to picture the Renaissance as sipping blissfully at the innocent flower of pagan beauty will find no comfort in MANDRAGOLA. The age did experience a notable release from the

cathedral gloom of medievalism, but the new freedom proved a very mixed blessing. It unleashed much conscienceless rapacity and allowed individualism to run riot at the expense of humanity. Tyrants established petty dictatorships and sought to secure and extend them by means of perfidy, force, and poisonings. The middle class developed a voracious appetite for profit which was to become cumulative in the next four centuries. It is no wonder that Machiavelli called his Italy "the corruption of the world." Its artist exhibited the flowers of the Renaissance. Machiavelli and Aretino photographed the weeds."

The production of MANDRAGOLA is directed by Howard Scammon; scenery and costumes by Lawrence Miller; original music by Stephen P. Paledes; and technical direction by Albert Haak.

Box office hours for MANDRAGOLA: 3 to 5:30 p.m. Dec. 8-12 and 7 to 8:15 p.m. the four nights of production. All seats are reserved.

FORMER ATTORNEY GENERAL ACLUV SPEAKER

Former Attorney General Ramsey Clark will speak at a Bill of Rights Day Banquet, December 15 at the John Marshall Hotel in Richmond sponsored by the American Civil Liberties Union of Virginia. The public is invited.

A reception will be held at 5:30 p.m., before the banquet at 6:30 p.m.

Tickets are \$8 each and may be obtained directly from ACLUVA, 105 West Main Street, Richmond, Va., 23220. For further information contact William S. Cobb, Ext. 484.

COUNSELING CENTER READING ROOM

The Counseling Center now has a reading room with materials concerning drugs, draft laws, sex information, and other subjects.

It is open 9-12 noon and 1-5 p.m., Monday-Friday, and 7-12 midnight on Tuesday nights. It is located in Rogers Hall, Room 110 (or 113).

UNDERGRADUATE SEMINARS IN SOCIOLOGY

Under a College Science Improvement Program grant from the National Science Foundation the Department of Sociology will offer, during the Spring semester, the first two in a series of special undergraduate seminars. During the next two years the Department expects to develop approximately six such seminars which will become

Undergraduate Seminars in Sociology - con't

a part of the regular offering of the Department. Each seminar will be limited to a maximum of 20 students. A student may enroll in only one of these any given semester and in a total of two seminars overall. Ultimately each sociology major who chooses to do so should have the opportunity to participate in at least one such seminar.

SPRING SEMESTER SEMINARS

Sociology 330. The Sociology of Mental Illness will be taught by Professor Kernodle.

This seminar will include a study of several basic research publications on relationships between society and mental illness, a series of sessions which turn on the specific research into community psychiatric therapy facilities and programs in England, Belgium, Holland and Denmark being conducted by Professor Kernodle who spent the past summer in Europe on the initial phases of this research. Other sessions will be conducted in mental hospital or clinical milieu.

Sociology 440. Special Problems in Sociology: Theory and Method in a Study of Penitentiary Correctional Officers will be offered by Professor Guenther. Students may not take 440 and 322 concurrently during 1969-70 session.

During the first semester Professor Guenther has been on leave of absence to undertake research on the occupational status of correctional officers in the Federal Penitentiary in Atlanta, Georgia. His seminar will be based on the general theory and substantive materials of criminology as they are applied to his specific participant-observer research activity.

The seminar will offer a selected number of students the opportunity to examine and become conversant with recently-gathered and un-analyzed research data.

This course will be composed of three parts: (1) the sociology of occupations and professions, with a concentration on lesser-prestige, client-centered roles; there will be some interest in comparing the role of correctional officer with those of psychiatric aide and police patrolman; (2) issues in the methodology of direct observation, formal interviewing and the use of unobtrusive measures such as serial recording and archival data; and (3) analysis of field notes, interview schedules and non-reactive data gathered in a study of the correctional officer in a maximum-security penitentiary.

Members of the seminar will be expected to "work through" the entire research project. There will be numerous readings of selected

journal articles and chapters of books made available in Xerox form and circulated among class members. Two substantial papers will be required, both being critical, innovative treatments of the literature, or field research.

"THE ANNIHILATION OF HISTORY:
TOPIC OF HEXTER LECTURE

Professor Hack H. Hexter of Yale University will give a public lecture Tuesday, December 9 at 8 p.m. in the Campus Center Ballroom on "The Annihilation of History."

His lecture is part of a two-day visit to the campus sponsored jointly by the United Chapters of Phi Beta Kappa and by the Alpha of Virginia Chapter of Phi Beta Kappa at the College of William and Mary under the national Phi Beta Kappa Visiting Scholar Program.

He will meet informally with students on Monday at 3:30 p.m. and on Tuesday at 2 p.m. in the conference room on the second floor of Swem Library.

A noted authority in English history of the 16th and 17th centuries, Professor Hexter has been Professor of History at Yale since 1964.

He has held Guggenheim, Fulbright and Ford Foundation Fellowships and in 1966-67 was a fellow of the Center for Advanced Study in the Behavioral Sciences. Professor Hexter is currently Director of the Yale Parliamentary Diary Project.

Professor Hexter is known among historians for his challenging essays in historical interpretation. His book "Reappraisals in History" has been acclaimed as one of the most searching works of recent years in the field of historiography. He also has written authoritative studies of Sir Thomas More's "Utopia" and of the early history of the Long Parliament in England.

TWO VISITING SPEAKERS TO DISCUSS
MACHIAVELLI

Two public lectures next week will mark the 500th anniversary of the birth of the Italian statesman, political philosopher and author Niccolo Machiavelli.

On Thursday, December 11, Professor Gene Adrian of the Modern Languages Department of the University of Richmond will speak on "The Sentimental Life of Machiavelli," in the Botetourt Theatre

Two Visiting Speakers - Machiavelli - con't

of the Swem Library at 4:30 p.m.

Professor Adrian's visit is being sponsored by the Department of Modern Languages and has been arranged by Professor James Coke.

"Machiavelli's Thoughts on the Psyche and Society" will be the topic of a public lecture on Friday, December 12 by Professor Dante Germino of the Department of Government at the University of Virginia, in the Childress Room of the library at 4 p.m.

Author of two books on Italian politics and "Beyond Ideology: the Revival of Political Theory," Professor Germino teaches courses in political philosophy. His visit here is sponsored by the Department of Government and has been arranged by Professor Roger Smith.

Next week's lectures are part of the overall observance of the Machiavellian anniversary which will be highlighted by the performance of "Mandragola" by the William and Mary Theatre, December 10 - 13. The director is Howard Scammon.

CHRISTMAS MUSICAL PROGRAM

The Choir and Chorus of the College of William and Mary and the College of William and Mary-Community Symphony Orchestra will combine their talents for a Christmas musical program at Phi Beta Kappa Hall, December 16, 17 and 18.

The program will be given nightly at 8:15 p.m. Tickets are \$1 each. There are no reserved seats.

Music from "The Messiah" by Handel will be the theme of the program and choruses and solos from various sections of the work will be performed.

The chorus and choir of 185 voices will be under the direction of Professor Carl A. Fehr of the Department of Music and the orchestra will be conducted by Professor Alan Stewart. A total of 225 musicians and singers will participate in the program.

Soloists will be Susan Wheldon, Grafton, Va.; JoAnne Todd, Falls Church, Va.; Suzanne McSmith, Hampton, Va.; Jane Smith, Virginia Beach, Va.; Lyndal Andrews, Richmond, Va., and Calvin Rensberg, Alexandria, Va.

NEW CAREERS OF INTEREST TO USOE

A list of research and development "Interests" has been identified by the career opportunities branch of the U. S. Office of Education's National Center for Educational Research and Development leading to the development of "New Careers" for paraprofessional personnel in education, health, social service, recreation, administration of justice and other expanding human and public service activities. Funds for the program are being made available under Part C, Section 132 of the Vocational Education Amendments of 1969.

For additional details write to: Bernard Yabroff, Chief, Career Opportunities Branch, Division of Comprehensive and Vocational Education Research, National Center for Educational Research and Development, USOE, 400 Maryland Avenue S. W., Washington, D. C. 20202.

NATIONAL INSTITUTES OF HEALTH-RESEARCH
FELLOWSHIPS AVAILABLE

The National Institute of Health has revised its Form PHS-416 for applications under the Predoctoral, Postdoctoral and Special Fellowship Programs and set January 2 as the next proposal deadline. Two other deadlines have also been established - April 1 and October 1. The Pre-Doctoral Fellowships are limited to U. S. Citizens or those holding immigration visas, and include a stipend for up to three years of work. Applications can come from any health or health-related discipline. The Postdoctoral Research Fellowships are awarded for full-time research training and require admission to an appropriate institution and acceptance by a sponsor to supervise the program prior to submission. The fellowship can be renewed for up to three years. The Special Research Fellowships provide scientists and clinicians an opportunity to broaden their scientific background, undertake basic and applied studies to strengthen research skills, or enlarge their command of an allied research field through interdisciplinary studies. Renewals are also available for these awards. Application forms may be requested from: Career Development Review Branch, Division of Research Grants, National Institutes of Health, Bethesda, Md. 20014. For further assistance, Contact Warren Heemann, Assistant Vice-President for Sponsored Programs.

VISITING SCIENTISTS RESEARCH ASSOCIATESHIPS

The National Research Council is offering a limited number of awards sponsored by the Natick Laboratories of the U.S. Army to support resident research by visiting scientists in the fields described below. These associateships are tenable only at the Natick Laboratories, Natick, Massachusetts. Natick Laboratories occupy a 100-acre area adjacent to Lake Cochituate in Natick, Massachusetts, a suburban town 18 miles west of Boston.

Visiting Scientists Research Associateships-20n't

The areas of investigation of interest to the Natick Laboratories include: Biology, Biophysics, Chemistry, Applied Mathematics, Physics, Psychology (Physiological and Experimental) and Anthropology and Human Engineering.

The regular resident research associateships will be open to individuals less than five years beyond the doctorate with preference given to the more recent graduates. The senior appointments are reserved for individuals with at least five years of professional experience beyond the doctorate who have secured recognition through their publications.

The stipend for the regular visiting scientist will normally be at the rate of \$12,500 per annum. An appropriately higher stipend will be selected for the senior visiting scientist. An appropriate travel grant will be determined for each awardee. Awards are normally for a period of one year.

Deadlines for receipt of completed applications in 1970 will be February 6, May 15, August 15, and October 31, with announcement of awards in April, July, October and December. Requests for additional information should be addressed to the Office of Scientific Personnel, JH 606, National Research Council, 2101 Constitution Avenue, N. W., Washington, D. C. 20418. For further assistance, contact Warren Heemann, Assistant Vice-President for Sponsored Programs.

AIR FORCE OFFICE OF SCIENTIFIC RESEARCH SUPPORTS POSTDOCTORAL
RESEARCH PROGRAM

The National Research Council will again administer a program of postdoctoral research awards in 1970-71 with the support of the Air Force Office of Scientific Research. Awards are offered for advanced study and fundamental research in various branches of the natural and applied sciences of particular importance to the Air Force. Included are general Physics (Atomic and Molecular Physics, Low-Temperature Physics, Solid-State Physics, Field Physics, Physics of Fluids, Theoretical Physics), Nuclear Physics, Chemistry, Mathematical Sciences, Electronics, Mechanical Sciences, Energy Conversion, Astronomy and Astrophysics, Biological and Medical Sciences, and Behavioral and Social Sciences.

Young investigators of superior ability who are recent recipients of the doctoral degree are eligible. Each applicant must be nominated by a scientist of high professional standing. The awards are tenable at appropriate educational institutions and research laboratories in the United States and abroad, although funds for foreign study are limited.

AIR FORCE OFFICE OF SCIENTIFIC RESEARCH - Con't

The basic stipend for these one year appointments will be at the rate of \$9,000 per annum. An additional allowance of \$600 is made for a married fellow, plus an increment of \$600 a child, to a maximum of \$10,800 annually. An amount of \$1,000 will be provided to the institution on behalf of the fellow.

Applications for the academic year 1970-71 must be filed on or before January 15, 1970. Awards will be announced on or about March 15. Requests for application blanks or for additional information should be addressed to: The Fellowship Office, National Research Council, 2101 Constitution Avenue, N. W., Washington, D. C. 20418. For further assistance or information, contact Warren Heemann, Assistant Vice-President for sponsored programs.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION OFFERS POSTDOCTORAL
RESIDENT RESEARCH ASSOCIATESHIPS AT NASA FACILITIES

Resident Research Associateships supported by The National Aeronautics and Space Administration and administered by The National Research Council are designed to provide investigators of unusual ability and promise an opportunity for basic research in the various areas of the Physical, Space, and Life Sciences which play a significant role in the space program. Investigations may be either theoretical or experimental.

These postdoctoral and senior postdoctoral associateships are tenable only at one of seven NASA Research Facilities throughout the nation. These facilities are: Ames Research Center, Moffett Field, California; Electronics Research Center, Cambridge, Massachusetts; Goddard Space Flight Center, Greenbelt, Maryland; Goddard Institute for Space Studies, New York City; Jet Propulsion Laboratory, Pasadena, California; Langley Research Center, Hampton, Virginia; Manned Spacecraft Center, Houston, Texas; and Marshall Space Flight Center, Huntsville, Alabama. Each center has specialized research interests.

U. S. Citizens and Foreign Nationals who have demonstrated superior ability for creative research are eligible for these associateships. The regular resident research associateships will be open to individuals less than five years beyond the Doctorate with preference given to the more recent graduates. The senior appointments are reserved for individuals with at least five years of professional experience beyond the Doctorate who have secured recognition through their publications and other accomplishments.

Regular resident research associates are appointed for one year at a normal stipend rate of \$13,000 per annum, subject to income tax.

National Aeronautics and Space Administration - con't

Senior research associates will be awarded an appropriately higher stipend. A suitable travel grant will be determined for each awardee.

Application forms and additional information may be obtained from the office of Scientific Personnel, JM 606, National Research Council, 2101 Constitution Avenue, N. W., Washington, D. C. 20418. Deadlines for receipt of completed applications in 1970 will be February 6, May 15, August 15, and October 31 with announcement of awards in April, July, October, and December.

For further assistance and information, contact Warren Heemann, Assistant Vice-President for Sponsored Programs.

DEPARTMENTAL NEWS

Biology

Dr. Garnett Brooks attended the planning meeting for the 4th annual Conference of Biologists in Virginia at Hampden-Sydney College, November 15. He will serve as a coordinator for a discussion section on "Environmental Science in a Freshman Biology Course" when the conference meets next spring.

A recent publication is:

Blood Physiology of a Tropical Frog, Leptodactylus fallax.
Comp. Biochem. and Physiol. 30: 1019-1028, 1969, by Robert
Gatten and Garnett Brooks.

Chemistry

Richard L. Kiefer presented a paper "The 600 MeV Proton Synchrotron at the Soace Radiation Effects Laboratory in Virginia," at the Southeastern Regional Meeting of the American Chemical Society in Richmond, Nov. 5.

English

LeRoy Smith served as local arrangements chairman for a National Council of Teachers of English pre-convention conference in Williamsburg, Nov. 23-26. Don Ball served as assistant chairman. The theme of the conference was "Backgrounds to American Literature" and approximately 150 high school and college teachers of English attended.

Margaret Freeman delivered a paper entitled "A Comment on Time in Anthony and Cleopatra: Shakespeare and Barber." as part of a panel on Shakespeare in the classroom for college level students at the NCTE Convention in Washington, Nov. 27-29.

History

Professor D.B. Quinn spoke to the Colonial Society of Massachusetts in Boston on November 20 on "Early English Visitors to New England". On November 21 he lectured to the History Department at Harvard University on "The English Contribution to the Discovery of America in the Fifteenth Century".

Departmental News - con't

Mathematics

Professor T. L. Reynolds attended the Regional meeting of the National Council of Teachers of Mathematics in Cleveland, Ohio, on November 13-15.

On November 20-22, Professor T. L. Reynolds represented the department of Mathematics at a conference in Chicago sponsored by the Committee on Undergraduate Program in Mathematics, a committee of the Mathematical Association of America. The CUPM Conference addressed itself to the questions of curricula, and qualifications for a College faculty of Mathematics.

Lionel Rintel attended the Annual Meeting of the Division of Fluid Dynamics of the American Physical Society in Norman, Oklahoma, 24-26 Nov. 1969. On November 24 he spoke in the section Instability-Transition on Three-Dimensional Instability of Laminar Boundary Layers along a Concave Wall. A summary of this has been published in the Bulletin American Physical Society, 14, 1092, 1969.

Theatre & Speech

Louis E. Catron's Centaur, Centaur! will be produced by the Corner Theatre, in Baltimore, in February. The full-length play was given its premiere production by The William and Mary Theatre in 1966.

Dr. Catron has recently been told that his Interrogation will receive its third off-off Broadway production sometime in the near future although no specific dates are known yet. During November his play, Where Have All The Lightning Bugs Gone?, was produced by three colleges.

Marshall-Wythe School of Law

Dr. William F. Swindler, on leave of absence this fall to direct the Virginia Court System Research Project, submitted the tentative draft of the project report to the Virginia Court System Study Commission in Richmond on November 11, and gathered additional research data in New York on November 12, at the Institute of Judicial Administration at New York University.

School of Education

Dr. S. Stuart Flanagan recently had a manuscript accepted for publication in the Journal of Research in Mathematics Education. The manuscript is entitled: "The Effects of MSG on Students Achievement in College Calculus."

FATHER & SON ARE BOTH
STUDENTS ON CAMPUS

Philip Payne, a freshman, is in the unusual position of having his father at college with him as a fellow student.

Both Paynes entered the college in September, Philip as an under-graduate, his father, Ernest Payne, as a student in the Master's program in the School of Education.

Both Paynes find the arrangement is working out very well. Mr. Payne said that it means he and his son can see more of each other than in the case for most families with a son in college. It also means that the father can run a two-way messenger service between his son in Williamsburg and Mrs. Payne in Colonial Heights. He takes home Phil's laundry and brings back cakes and other gifts from home. Mr. Payne started the semester living in Williamsburg, but is now back at his home commuting four days a week.

Mr. Payne likes the contacts he makes with students through being at college with his son, and the greater opportunities he has to follow Phil's progress and share his interests. He wondered if Phil felt he was in some way "restricted" by having his father there to check up on him, but Phil has no complaints.

Both Paynes made satisfactory mid-term grades. Phil's included two B's and one A; Mr. Payne was less specific, he just said that they were "good enough to stay in graduate school."

Mr. Payne received his B.S. degree from Western Kentucky University, and has done graduate work at Western University, the University of Virginia and the University of Wisconsin. He hopes to finish his work at William and Mary next summer.

When he has completed his work at William and Mary, for which he was granted study leave and a full scholarship, he plans to return to his old position which was that of assistant dean of the School of Assets Management at the U. S. Army Management Center at Fort Lee.

RECEPTION FOR FOREIGN STUDENTS

Foreign students on campus will be honored at a reception Sunday afternoon given by the College in the Botetourt Gallery of Swem Library.

Dr. Albert Labriola, of the Department of English, is serving as adviser to foreign students this year and is being assisted by Mrs. Carter H. Harrison, wife of the Rev. Carter H. Harrison, of Norge.

THE CHRISTMAS BLOODMOBILE

One of the many holiday traditions on campus is the sponsorship of the Christmas bloodmobile by Gamma Phi Beta sorority and Kappa Sigma fraternity.

The Red Cross this year collected 203 pints at the Tuesday visit which gives the local chapter a good boost towards overcoming its present deficit.

The August bloodmobile visit lacked 13 of making its quota and the October visit was in debt 100 pints so Tuesday's collection, while it doesn't put the Chapter out of debt, helped considerably.

Robin Owens, of South Boston, Va., from Gamma Phi Beta and Gerry Hemmelgarn of Celina, Ohio, from Kappa Sigma headed up the planning committee for the bloodmobile, handling everything from advance publicity to door prizes for donors.

A long list of prizes were donated by local merchants and Colonial Williamsburg. Prizewinners were to be announced later today.

Mrs. Jackie Lorensen, one of the co-chairmen of the Red Cross Blood Program, in expressing her thanks to the collegians for their help, said the planning for the visit was excellent and students did a good job in soliciting donors. Co-chairmen with Mrs. Lorensen are the Rev. Robert Kidd and the Rev. Tom Mainor.

PHYSICS COLLOQUIUM

There will be a Physics Colloquium on Friday, December 12, 4:30 p.m. (Coffee at 4:00) at the William Small Physical Laboratory. Coffee will be in Conference Room, and Colloquium in Room 109. C. V. Ramanathan, Courant Institute, will speak on "2 Particle Correlations in Non-equilibrium Statistical Mechanics."

CAMPUS VISITORS

Visitors on campus this week included a delegation of Chinese Army Officers who are touring in the area. They spent some time Wednesday morning visiting here and went on to Colonial Williamsburg in the afternoon.

CHRISTMAS MUSIC

Dr. Carl A. Fehr will conduct the William and Mary choir and chorus and Prof. Alan Stewart will direct the William and Mary - Community Orchestra in a Christmas concert, Tuesday, Wednesday and Thursday evenings, December 16, 17 and 18 at 8:15 p.m. in Phi Beta Kappa Hall.

Tickets are \$1 each. There are no reserved seats.

The program will be made up of choruses, solos and sections of "The Messiah" by Handel.

A total of 225 musicians, singers and instrumentalists, will take part in the program.

MACHIAVELLIAN ANNIVERSARY

The Theatre and Departments of Modern Languages and Government have arranged a special program commemorating the 500th anniversary of the birth of Niccolo Machiavelli.

"Mandragola" by Machiavelli, staged by the William and Mary Theatre, opened a four-day run Wednesday night. There will be performances tonight, Friday and Saturday evenings at 8:15 p.m. at Phi Beta Kappa Hall. The director is Howard Scammon.

Professor Gene Adrian of the University of Richmond, will speak on "The Sentimental Life of Machiavelli," this afternoon at 4:30 p.m. in the Botetourt Theatre of Swem Library, sponsored by the Department of Foreign Languages.

The Department of Government will sponsor a lecture on "Machiavelli's Thoughts on the Psyche and Society," Friday afternoon at 4 p.m. in the Childress Room of the Swem Library by Professor Dante Germino of the University of Virginia.

ACLU FILM TUESDAY

The American Civil Liberties Union Student Sub-chapter is sponsoring the showing of a film "Storm Over The Supreme Court" on Tuesday evening December 16 at 8 p.m. in the Campus Center, Rooms A and B.

Following the film, produced by CBS Report, there will be a discussion session led by Prof. Herbert Johnson of the Institute of Early American History and Culture Studies and Prof. Jack Edwards of the Department of Government.

ALUMNI BOARD HOLDS SEMI-ANNUAL MEETING
ALUMNI FELLOWS ARE RECOGNIZED

The Board of Directors of the Society of the Alumni held meetings in Williamsburg on Friday and Saturday, in the Blue Room of the Wren Building.

At a luncheon Friday, the following members of the faculty, designated as Alumni Fellows for 1969-70 were recognized by the board and received from Judge Dixon Foster, President of the board, the stipend which is a part of this designation: Thomas Hearn, Associate Professor of Philosophy; Richard Sherman, Associate Professor of History; Richard Terman, Professor of Biology; Richard Kiefer, Associate Professor of Chemistry; and Martin Garrett, Associate Professor of Economics.

Officers of the senior class were also guests at the luncheon. The business meetings of the board this weekend included establishment of the Society's 1970 budget, appointment of committee members, and election of officers.

New member of the board is C. Randolph Davis, '50 a farm machinery manufacturer from Suffolk, Va. Other members of the board include Pamela Pauly Chinnis, '46, Alexandria; Garrett Dalton '25, Radford; Guy W. Daugherty, '34, Rochester, Minn.; Chester F. Giermak, '50, Erie, Pa.; Donald G. Griffin, '42, Norfolk; Jane Harden Hanson, '42, Potomac, Md.; Hugh S. Haynie '50, Louisville, Ky.; John E. Hocutt, '35, Newark, Del.; Howard H. Hyle, '48, Atlanta, Ga.; Paul K. Lapolla '41, La Jolla, Calif.; Allen C. Tanner, '46, Newport News; Betty Hicks Wagner, '51, Richmond, Va.; and Robert A. Duncan, '24, Williamsburg.

New board officers are: - Mrs. Pamela Chinnis, President, and first woman to hold that office; John E. Hocutt, Vice President; and Allen C. Tanner, Secretary-Treasurer.

LAW SCHOOL SUBCONTRACTING
CONFERENCE DECEMBER 15-19

The third annual conference on legal problems of subcontracting, jointly sponsored by the Marshall-Wythe School of Law and Federal Publications, Inc. of Washington, will be held in the Williamsburg Conference Center the week beginning December 15.

The December conference will be followed January 5-9 with the second annual course in construction contracts, under the same sponsorship, and February 23-27 with the sixth annual course in basic government contract law.

Law School Subcontracting - Con't.

Dr. Paul H. Gantt, '42, chairman of the Board of Contract Appeals, Atomic Energy Commission, is the course director and Dr. William F. Swindler of the Law School faculty the local administrator for all of these conferences.

PREMIERE THEATRE TO OPEN SUNDAY

"The Premiere Theatre" will begin operations with a production of four student-written and student-directed original plays at 8 p.m. Sunday, Dec. 14.

The plays were written by William and Mary students enrolled in Theatre 317, Playwriting. The first plays are "Reunion," by Bill Suber, directed by Linda Sullivan; "100 Words for Snow," by Larry Raiken, directed by Richard Bruno; "The Dragon's Teeth," by Dale Ramsey, directed by Harvey Credle; and "The Triumvirate," by Jan McMahon, directed by Larry Raiken. Guner Gery is producer.

"The Premiere Theatre" is a new theatre organization in the Department of Theatre and Speech. One of its goals is to present original plays written by William and Mary students (not limited only to those enrolled in the Playwriting class). It also opens many positions of responsibility to the students, and it seeks to encourage participation by students who may not have had theatrical experience.

A series of student-written, student-directed plays will be presented during the year. The plays will be presented in the Lab Theatre in Phi Beta Kappa Memorial Hall.

Dr. Louis E. Catron, Advisor of "The Premiere Theatre," noted that student enthusiasm for the new theatre is quite high:

"The first meeting brought almost sixty students --that on a most wet evening--and many more are contacting us to say they would like to participate in the coming presentations. The way these people are showing creativity and responsibility is beautiful; already we feel we can promise evenings of good experimental theatre."

INITIAL MEETING

At a meeting in Phi Beta Kappa Hall on Wednesday November 19, the Premiere Theatre was inaugurated. Dr. Catron talked to the audience on the origins and the aims of the project and introduced the directors of the first four plays. Interested students were invited to sign on for those aspects of theatre that interested them, and try-outs were held for potential actors.

The Theatre will provide opportunities for student playwrights to get their work performed, and for other students, whose theatrical ambitions have been hampered by lack of knowledge or confidence, to experiment in an informal atmosphere. All kinds of theatrical jobs will be available on a small scale.

Dr. Catron stressed the informality of the Premiere Theatre. "What we are trying to do is start something without form. It can take changes of direction; it will be free to experiment. We are not going to worry about Box Office takings and critical acclaim." Props, like all technical details, will be kept to a minimum. Dr. Catron remarked that he "wants guns and rocket launchers. But we may shrink this to a pop-pistol." He said he had been planning a project such as this for three years. There are still problems to be overcome, such as lack of money, but he is optimistic about the Theatre's future.

EIGHTEENTH CENTURY PLAYERS

Completely informal, and in its infancy, the Premiere Theatre is a complete antithesis of another theatre group at William and Mary, the Eighteenth Century Players. Founded in 1949 by Professor H. M. Scammon of the Department of Theatre and Speech, this group presents eighteenth century drama under the patronage of Colonial Williamsburg. The actors, all students are paid by CW, and try to reconstruct the plays as they were presented in colonial times.

This year's play is "The Country Girl" by David Garrick. It had a Fall run on Fridays in September and October, and will be presented again in March, April and May in the new auditorium near the Conference Center. The play has a cast of eight, and reflects the moral standards and mores of the society Garrick knew. The cast is now complete, but Professor Scammon will be asking at the end of the next semester for actors for the following year.

Further information on the following grants may be obtained from Warren Heemann, Assistant Vice-President for Sponsored Programs:

*NATIONAL SCIENCE FOUNDATION REQUESTS PROPOSALS
FOR IMPROVING PRE-COLLEGE SCIENCE AND MATH
INSTRUCTION*

The National Science Foundation will accept proposals at anytime during fiscal year 1970 for support under two unusual programs: Special projects in pre-college education and the course content improvement program. Both programs are designed to allow maximum flexibility to applicants and both may be utilized by a variety of educational groups.

Special projects in pre-college education awards may be utilized by universities and colleges, associations of professional scientists or non-profit research organizations for unusual experimental projects that show promise of producing new knowledge of, or high quality improvement in, pre-college science or mathematics education. Support may be given for educational research involving the substance of science as well as teaching, for elements of course content improvement, student activities, teacher education or other approaches.

The course content improvement program is based on the promise that improvement of education in the sciences requires continuing re-evaluation and development of the substantive content and organization of courses and curricula. NSF will welcome any promising approach, including development of new curricula or new methods of presentation, model courses or small-scale experimental projects aimed at improving science teaching, committee and conference studies, development of curriculum specialists and planning and coordination projects.

Applications may be submitted by universities, colleges, educational organizations or other public or private non-profit groups. For information on either program write: Division of Pre-College Education in Science, National Science Foundation, 1800 G Street, N. W., Washington, D. C. 20550.

*PROPOSALS DUE FOR RESEARCH SUPPORT FROM OFFICE OF EDUCATION'S
BUREAU OF EDUCATION FOR THE HANDICAPPED*

Those faculty members wishing to apply for 1970 research related support from the U. S. Office of Education's Bureau of Education for the handicapped should submit proposals by January 1. Grants may be requested by state or local educational agencies, public and non-profit private institutions of higher learning and other public or non-profit research agencies and organizations. Applications may be submitted for construction grants, research and development center awards, programmatic grants, departmental research development funds, research or demonstration grants,

Proposals Due For Research Support - con't.

media project and program awards, curriculum development and evaluation or research training stipends. Write to the Division of Research, Bureau of Education for the Handicapped, U. S. Office of Education, Seventh and D Streets S. W., Washington, D. C. 20202.

GOVERNMENT SUPPORT AVAILABLE FOR BASIC EDUCATIONAL
RESEARCH

The U. S. Office of Education and The National Research Council have announced January deadlines for their programs of support for basic research in education. Proposals to USOE must be submitted by January 17. Applications to The National Research Council are due January 15. The two programs offer support to the Biological, Behavioral, and Social Sciences for "Research that will contribute to fundamental knowledge and will deepen insight into critical problems in educational theory, policy, and practice." Examples of eligible projects range from historical studies of student organization and student collective behavior to research on the molecular, biochemical and physiological bases of memory. Write: Research Analysis and Allocation Staff, Center for Educational Research and Development, U. S. Office of Education, 400 Maryland Avenue S. W., Washington, D. C. 20202 or The Committee on Basic Research in Education Division of Behavioral Sciences, National Research Council, 2101 Constitution Avenue, Washington, D. C. 20418.

MISS SHRYER WINS
REX SMITH AWARD

Miss Molly Shryer, a junior, has been chosen recipient of the 1969 Rex Smith Scholarship Award.

Miss Shryer, a government major from West St. Paul, Minn., is managing editor of the Flat Hat. She was chosen for the award by a committee of the faculty.

The award was established in 1960 by friends of the late Rex Smith, an alumnus who was an author and director of public relations for American Airlines. Donors include Bob Considine of the Hearst Headline Service, Walter Cronkite of CBS, Ben Wright, president of This Week Magazine, Miss Kay Hansen, secretary, American Airlines and Senator Harry F. Byrd, Jr., of Virginia.

Miss Shryer is a member of the Honors Program, has been active in a student-sponsored Tutorial Service for local children and is president of Delta Delta Delta social sorority. She is listed in Who's Who in American Colleges and Universities.

GYMNASTICS TEAM TAKES ON O.D. AND U. VA.

IN BLOW GYM SATURDAY

The gymnastic team opened its season last week with in intersquad meet at Blow Gymnasium, and takes on its first opponent Saturday, Dec. 13. The team faces Old Dominion and the University of Virginia at 2 p.m.

This season the William and Mary gymnastics team isn't going to "set the world on fire," but it is a fair, if not outstanding team, and should do moderately well, according to its coach, Chris Patterson.

"We lost our best man last year when he graduated," said Patterson. "That was Bob Morris. He was an all-round gymnast, which is essential to go to the Olympics. This year our highest single scorer is John Crowe, a Junior, who specializes on the Still Rings and the Parallel Bars. Bill Sordill is our outstanding freshman. His best events are the Side Horse and the Long Horse." Team Captain this year is Chris Condit, a senior from Falls Church, Va.

While Patterson has eighteen on the team, four of these students are girls who practice but do not compete with the boys. The first women's meet is set for January 10 when the William and Mary girls will meet Longwood College girls.

The gymnastics team works out daily from 4 - 6 p.m. in Blow Gymnasium perfecting their skills at the six events of each meet: the Still Rings, which the William and Mary gymnasts reckon is their strongest event; the Parallel Bars, in which skills of strength, swing and vaulting are displayed; the Side Horse, in which movements are done in swing time without stops or holding position; Long Horse Vaulting; High Bar, in which giant swings predominate; and Floor exercises in which movements are made in an area 40 feet by 40 feet, combining the elements of balance, agility, strength, flexibility and tumbling presented in rhythm and harmony.

Scores are evaluated by three or four judges who take into consideration form and execution; the difficulty of the event; and combination and requirements of each event. Each exercise has to end with an effective dismount, and the essential parts must be connected with elegance and without additional swings.

Coach Patterson comes from Silver Spring, Md., and has been at William and Mary just over two years. He graduated from the University of Maryland in 1966, and in 1967 received his Master's degree in Physical Education from the University of Southern Illinois.

The gymnastics team had already been in operation for three years before Patterson took over. In his first year, the team had five victories and two losses; last year's record was 1 win and five losses.

Gymnastic Team - con't.

The William and Mary gymnasts have four home meets scheduled: Saturday, Dec. 13 with Old Dominion and the University of Virginia; Saturday, January 10 with Longwood College (Girls Meet); Friday, February 27 with the University of Virginia, Virginia Tech and Old Dominion; and a Home Show, Saturday, March 21.

Friday meets begin at 8 p.m., Saturday meets at 2 p.m. All events are held in Blow Gymnasium.

As a finale to their year's schedule, the William and Mary gymnasts will compete in the National Collegiate Athletic Association Championships at Temple April 3 - 4.

Gymnasts are: Richard Betton, Petersburg, Va.; Michael Berbert, Silver Spring, Md.; Michael Kearney, Richmond, Va.; Robert Millious, Vienna, Va.; Michael Mosteller, Falls Church, Va.; William Sordill, Upper Montclair, N. J.; John Bryant, Greenville, Va.; Thomas Buchler, Cherry Hill, N. J.; John Crowe, Falls Church, Va.; Ray Hill, Martinsville, Va.; Chris Layne, Richmond, Va.; Pete Tyree, Williamsburg, Va.; Jeff Wren, Closter, N. J.; Chris Condit, Falls Church, Va.; Patricia Berger, Williamsburg; Cindy Cave, Luray, Va.; Marilyn Martinko, Chagrin Falls, Ohio; and Elizabeth Roberts, Cranford, N. J.

AMERICAN SOCIETY FOR LEGAL HISTORY ELECTS OFFICERS
HERBERT JOHNSON NAMED EXECUTIVE ASSISTANT

The American Society for Legal History has announced the results of recent elections of officers for the next two years. Professor Miller B. Zobel of the Boston College School of Law, Professor William Schulz, Jr. of the University of Pittsburgh Law School, and Professor John P. Reid of New York University School of Law; they will occupy the offices of Vice-President, Secretary and Treasurer. In addition Professor Haskins has appointed Herbert A. Johnson, Associate Editor of the Papers of John Marshall, at the Institute of Early American History and Culture to be Executive Assistant to the President.

Professor Haskins is known in scholarly circles for his outstanding work in English and American legal history. In the past he has written on English constitutional development and the legal history of colonial Massachusetts. His published works include The Statute of York and the Interest of the Commons (1935), The Growth of English Representative Government (1948), and Law and Authority in Early Massachusetts (1960). He is overseas representative for Pennsylvania of the Selden Society, an organization of English legal historians, and serves as a member of the American Committee of the International Commission on the History of Representative and Parliamentary Institutions. He is also a member of the

American Society for Legal History - con't.

Virginia Historical Society and a member of the Council of the Institute of Early American History and Culture.

Professor Haskins is currently writing a study of the Supreme Court from 1801 to 1815 under the auspices of the Committee on the Oliver Wendell Holmes Devise.

Mr. Johnson was actively engaged in the study of New York legal history before he came to Williamsburg to work on the Papers of John Marshall. His monograph, The Law Merchant and Negotiable Instruments in Colonial New York: 1664-1730 appeared in 1963, and he is the author of several articles on early New York legal history. A member of the Selden Society, he teaches American legal and constitutional history at the College of William and Mary. He is also a member of the John Marshall House Committee of the Association for the Preservation of Virginia Antiquities. As Professor Haskins' assistant, he will carry out many of the administrative duties of the President's office and assist the officers in carrying out the purposes of the Society.

Professor Haskins noted that the American Society for Legal History was formed nearly fifteen years ago to promote the study of legal history in the United States. Its purposes are broad and include the study of foreign legal systems as well as those of England and the United States. One of his goals as President will be to establish foreign contacts for the Society; he expressed the hope that this association with British and continental scholars would encourage American legal historians to broaden their own research interests. At the same time he emphasized the importance of the Society's program to encourage the preservation of American court records. If this vital source of legal history is destroyed, it will become impossible to write the history of law in the United States. Because of the need to preserve these archives, Professor Haskins intends to appoint a committee of distinguished scholars and lawyers to guide the Society's national efforts in this field.

Since 1957 the Society has sponsored the publication of the American Journal of Legal History, and in the near future it expects to commence the publication of annual volumes containing lengthy monographs and documentary sources. A committee on publications, headed by John D. Cushing, Librarian of the Massachusetts Historical Society, will report on this expanded publication program shortly after Professor Haskins takes office at the beginning of next year.

The Society also announced the election of nine new directors. They are Brendan F. Brown, Loyola University of New Orleans; Morris Forkosch of Brooklyn Law School, Jerome Hall of Indiana University, Lawrence A. Harper of the University of California, Leonard W. Levy of Brandeis University, Richard G. Maxwell of the University of California at Los Angeles, Daniel J. Meador of the University of Virginia, Erwin C. Surrency of Temple University, and Ralph A. Newman of Hastings College of Law.

DEPARTMENTAL NEWS

BIOLOGY

Dr. Charlotte Mangum spoke to the Biology Seminar at Georgetown University on Friday, November 21. Her subject was "The Function of Hemoglobin in the Chesapeake Bay Bloodworm".

Dr. Bruce Grant has recently published a paper entitled: Disruptive and stabilizing selection on the "escape" behavior of Drosophila melanogaster. GENETICS 62: 625-637, 1969 by Bruce Grant and L. E. Hettler.

GOVERNMENT

George Grayson, Assistant Professor of Government, has been invited to lecture at the Foreign Service Institute of the Department of State on December 16. The topic of Dr. Grayson's talk will be "Revolutionary Potential in Latin America."

Prof. James M. Roherty addressed the Department of Government colloquium, Monday, Nov. 24. He discussed the Department of Defense.

SCHOOL OF EDUCATION

Douglas Prillaman, Associate Professor of Education, Division of Special Education, has had his manuscript "Diagnostic Teaching - A Modest Proposal," accepted for publication in The Elementary School Journal, University of Chicago Press.

Professor Prillaman co-authored the paper with Robert W. Prouty, of George Washington University.

Dr. S. Stuart Flanagan spoke on "The Role of Discovery in Teaching Mathematics," at the October 24 meeting of the Tidewater Supervisors Association.

PHYSICS

EXECUTIVE VICE PRESIDENT APPOINTED

Carter O. Lowance, chief aide to six Virginia Governors and current Commissioner of Administration, will become Executive Vice President of the College of William and Mary late next month, President Davis Y. Paschall announced Tuesday. Mr. Lowance's appointment is the first step in a major top-level reorganization of the College, aimed at expanding its administrative strength to meet the demands of its recently expanded size, mission and scope of service, Dr. Paschall said.

Under a plan approved September 6 by the Board of Visitors, intended to take effect by February 1, 1970, Vice Presidents will also be appointed for Academic Affairs, Student Affairs and Business Affairs, all responsible to Mr. Lowance, who will report to the President.

This plan will enable the President to devote more time to external affairs of the College, such as relationships with State agencies, with federal and private organizations which grant funds to the College, and national and regional educational organizations and conferences. He also will become more deeply involved in the planning of the College's building program, which has reached considerable proportions in the last decade.

Dr. Paschall told the College's Administrative Council today that Dr. W. Melville Jones, Vice-President of the College, when offered the position of Executive Vice President, explained to the Executive Committee of the Board of Visitors that he had only a brief time before retirement, and felt it best for the College that he not be considered for the position for such a brief period. The Executive Committee concurred in this explanation, and then urged Dr. Jones to accept the position of Vice President for Academic Affairs which he agreed to do.

In commenting on the appointment, Dr. Paschall said that "There has probably never been a time in the history of higher education when colleges more desperately need able and effective administration than now. The College of William and Mary is most fortunate to obtain the services of such an experienced administrator as Mr. Carter Lowance."

"In addition to his prior service as Assistant President of the Medical College of Virginia, his role as Commissioner of Administration in State government has enabled him to develop a broad understanding of the problems of the publicly supported institutions of higher learning in Virginia. This knowledge, together with the fine qualities he exemplifies to all who know him, will mean so much in the exercise of his challenging duties at William and Mary, and we look forward to his coming with us," Dr. Paschall said.

Mr. Lowance, in a letter accepting the appointment, told Dr. Paschall that "the opportunity of working with you, the members of the Board of Visitors, the faculty and staff, is a most welcome one, and I pledge to all of you my best efforts as a new member of the team. I hope you will convey to the Board my gratitude for the confidence evidenced by the appointment and my sense of pride in being identified with this distinguished institution and its leadership."

Mr. Lowance, 59, was educated in Virginia public schools and is a 1931 honor graduate of Roanoke College. He served for six years as a reporter for the Roanoke Times, and was a reporter-editor for the Associated Press, Richmond from 1936 until 1942, and again from 1945 until 1947, serving in the Army during World War II.

He became Executive Secretary to Governor William M. Tuck in 1947, and served in the same position under Governors John S. Battle, Thomas B. Stanley, J. Lindsay Almond and Albertis S. Harrison, Jr., except for a three-year period when he was Assistant President of the Medical College of Virginia. He became Commissioner of Administration under Governor Godwin in 1966.

He holds the 1967 Roanoke College alumni award for distinguished achievement, and was the 1968 recipient of the Virginia Distinguished Service Medal. He is a member of the American Society for Public Administration, the Torch Club, Virginia Historical Society, National Guard Associations of the United States and Virginia, St. James' Episcopal Church, and the Board of Directors of the North American Assurance Society of Virginia. A former Kiwanian, he is also a retired Lieutenant Colonel of the State staff, Virginia National Guard.

He and his wife, the former Elizabeth Austin of Roanoke, plan to relocate in Williamsburg after he assumes the appointment.

The Board of Visitors, in its resolution last September approving the reorganization, called attention to the growth of the College since 1960 into a "small, but complex university," but emphasized that it would always bear its present name under the Royal Charter.

It cited development of 26 graduate programs, including four at the doctorate level, and two new programs approved for inauguration. It noted that federally funded research has grown in eight years from \$100,000 annually to more than \$1,000,000. It referred to the development of two branch colleges, one now being escalated to a four-year institution; the administration of the Virginia Associated Research Campus and the \$14,000,000 Space Radiation Effects Laboratory in Newport News; and the enlargement of the extension, evening college and summer session programs.

CHRISTMAS ON CAMPUS

Brownies to Vietnam - a visit to the Waxworks museum for a group of underprivileged children - a gift to a Korean orphan named Kang - all marked Merry Christmas from the campus of William and Mary.

These holiday activities and many more have been undertaken by fraternities and sororities as well as parties and dances for chapter members.

Alpha Chi Omega and Kappa Sigma teamed up to give a party for underprivileged children. John Yonushonis, of Falls Church, largest man in the fraternity, played Santa Claus.

Girls from Alpha Chi Omega have also been busy baking brownies to send to a company of soldiers in Vietnam.

Delta Delta Delta gave a party for community children at the house last weekend and followed it with the traditional chapter Pine Party Monday evening.

Kappa Alpha Theta members have been giving time each day during the holiday season to help children at the Day Care Center make tree ornaments for their home Christmas trees.

Gamma Phi Beta and Kappa Sigma received hearty thanks from the local Red Cross chapter for the successful bloodmobile they sponsored earlier this month. A total of 203 pints were collected.

The girls also continue to support their adopted orphan Kang in Korea. Kappa Delta members donated to the "Penny Pitch Fund" for needy families developed by radio station WGH.

Members of Phi Mu went carolling on campus and had a holiday dance last Saturday. Kappa Kappa Gamma held a Christmas party for members and a dance in the Campus Center.

Pi Beta Phi held its traditional open house for friends and faculty. The chapter has adopted a needy family in the community and have planned outings for the children each week. Last week the children were invited to the chapter house for a party.

Pi Lambda Phi fraternity and Chi Omega gave a party for retarded children, and Kappa Alpha went carolling at the children's ward at Eastern State Hospital.

The homecoming court was invited to a special Christmas party at Pi Kappa Alpha and Sigma Chi held a car wash to raise funds for the mentally retarded at Wallace Village. The brothers also sold light bulbs to establish a scholarship fund on campus.

Christmas on Campus - con't

Sigma Nu continued its traditional visit to the President's House and Sigma Phi Epsilon rounded out a semester of projects which included assistance to the S.P.C.A., Heart Fund and Eastern State Hospital.

Chapter parties were held at most sororities and fraternities including Sigma Alpha Epsilon, Theta Delta Chi and Phi Kappa Tau.

Elsewhere on campus the community spirit has been echoes on the work of Wats, the tutorial service which has over 60 students involved with helping area children in the public schools; Mini Vista which is continuing its study of poverty pockets in the area; and Circle K which has put its gold and blue bus to good use this semester to bring recreation to children in outlying areas. The Circle topped off its activities with a Christmas party for children held at the Williamsburg Methodist Church. The party was a cooperative affair. King dormitory donated \$80 to be used to buy presents for the children. Theta Alpha Phi, theatre honorary, provided the entertainment for the party and the Presbyterian Youth Group, pitched in too.

Foreign students were feted at a holiday reception given by the College in the Botetourt Gallery of the library Sunday afternoon. Photographer Thomas L. Williams took the posed "portrait" of all students and then re-focused for a special picture of An-Ban Chen, a graduate student in physics from the Republic of China and Miss Mayurase Tuntirutanout, a graduate student from Thailand who will be married in Williamsburg during the Christmas holiday. A dinner honoring the couple will be held following the ceremony by Mrs. Carter H. Harrison of Norge who works closely with the adviser to foreign students Prof. Albert Labriola.

ENGLISH MAJOR RAISES HUSKIES
TO FINANCE COLLEGE EDUCATION

Students find many jobs to finance their college educations but a senior English major has one of the most unusual to date - she raises Siberian Huskies.

Carol Carpenter and her husband raise dogs at their home in Petersburg and find it a profitable and enjoyable job.

There are no complaints from neighbors because the Husky is a barkless canine. He howls occasionally, but only when deeply depressed says Carol.

Special housing is not needed for the Husky. He is eager to stay out in the wintery winds when the temperature drops below freezing and is comfortable during the warm summer days if given adequate shade and lots of cool fresh water.

Raised as work and guard dogs, the Husky makes a wonderful companion for children and a gentle playmate. The Carters have a cart in the summer and a sled in the winter for Yori their male husky to pull and he gives the Carpenter's son the most unique transportation of any youngster in Petersburg.

The Carpenters have pups for sale right now, two males and a female born November 15 and are AKC registered. For more information call 229-5469 or Petersburg 732-0518.

Mrs. Carpenter hopes to teach next fall in Prince George County. Her husband is currently manager of Shoney's in Petersburg. He will enter college this fall as the Carpenters complete a see-saw of campus visits arranged to give each a college degree.

The Carpenters plan to continue raising dogs even after all college fees are paid.

Yori and his mate, Shawn, will be joined by another female Husky in the spring as the Carpenters continue to enjoy a project tailor-made for dog lovers who need extra cash.

ON RESERVE

Two copies of the Report of the Special Committee on ROTC to the Secretary of Defense have been reserved for faculty use at the Swem Library.

RICHARD MAXWELL BROWN
NAMED TO OATC COMMITTEE

Richard Maxwell Brown, Professor of History, has been nominated to a position on the Nominating Committee of the Organization of American Historians. The election for the position will be in the spring of 1970. The Organization of American Historians is the leading scholarly organization devoted entirely to the study of American history and has approximately 8,000 members.

REGISTRARS TAP DEAN HUNT

Robert P. Hunt, Dean of Admissions, was elected President-elect of the Virginia Association of Collegiate Registrars and Admissions Officers at their annual meeting which was held in Williamsburg, December 8 - 10. Dean Hunt will serve as President of this organization for the 1970-71 year.

PROFESSOR FUNIGIELLO CONTRIBUTOR
FOR AMERICAN QUARTERLY

Professor Philip J. Funigiello has been asked to contribute to the American Studies Bibliography for the AMERICAN QUARTERLY. This is the third consecutive year that Mr. Funigiello has been a contributor.

LEAVES OF ABSENCE

Five faculty members have requested leaves of absence for the second semester for research projects.

Norman F. Barka, Assistant Professor of Anthropology, will conduct archeological research in Europe under the National Science Foundation's College Science Improvement Program grant.

J. Scott Donaldson, Associate Professor of English, will not teach during the second semester in order to continue work on a biography of the American poet, Winfield Townley Scott, 1910-1968.

Herbert Friedman, Associate Professor of Psychology, will engage in research during the second semester under a COSIP grant.

Philip J. Funigiello, Assistant Professor of History, has been awarded a fellowship by the National Endowment for the Humanities to permit him to continue his study of Public Power Policy under the New Deal.

Victor Liguori, Assistant Professor of Sociology, will conduct field research under a COSIP grant in connection with his study entitled "Isolation, Contact and Control."

Returning to teaching for the second semester will be Mrs. Maria A. Robredo Palmaz of the Modern Languages Department and Professor Virgil McKenna, Psychology, who have both been on leave of absence for the first semester; also Dr. J. Alan Ward who has been in England and Ireland for the past several months doing further research on the Parliamentary government of the Irish Republic on which he has published a book. Miss Carol Ballingall, Department of Anthropology, has been doing field research in S. E. Asia for the past semester and will return to teaching for the second semester. Anthony L. Guenther, Assistant Professor of Sociology, is returning to the campus after a semester doing research at the Atlanta Penitentiary of the U. S. Bureau of Prisons.

Dr. Richard N. Parkinson, who has been Visiting Professor in the Department of English, will return to the University of Exeter for the second semester and Dr. Cecil McCulley, who has been in England, will return to William and Mary, completing another Exeter faculty exchange.

LIBRARY
SEP 30 1970
WILLIAM & MARY

LEAVE OF ABSENCE - con't.

Several members of the faculty will remain on leave for the second semester.

Dr. Richard C. Curry of the Department of Government, was selected by the American Political Science Association as a representative to the Republican National Committee for the entire academic year.

Dr. J. Ward Jones, chairman of the Department of Ancient Languages, and Dr. Thomas Hearn, Department of Philosophy, were chosen to participate in the Cooperative Program in the Humanities at the University of North Carolina and Duke for the 69-70 academic year.

Also on leave are Dr. Kee Il Choi, Department of Economics, currently at the University of Miami; Dr. Anthony J. Esler, Department of History, at the University of Michigan, Ann Arbor; Dr. Ying-Yeung Yam, Physics, at Tsing-Hua University, Hsin-Chu, Taiwan; and Miss Patricia Crowe, Physical Education for Women, who is working for her doctorate at the University of North Carolina at Greensboro.

BOTETOURT SOCIETY TO MEET FRIDAY

Members are reminded of the final meeting of the semester for the Botetourt Bibliographical Society on Friday, January 9, at 8:30, #3 College Apartments.

Dr. R. P. Maccubbin will present a display of 18th-century literary satire. Members are also asked to bring "ephemera" and thus follow in the tradition of all good bibliophiles.

NORFOLK SYMPHONY TO GIVE
BEETHOVEN CONCERT FEB. 1

Advance tickets are now available for the February 1st concert of Beethoven music by the Norfolk Symphony to be given in Phi Beta Kappa Hall, 8:30 p.m.

Tickets are \$3 for adults and \$2 for students, and may be obtained by calling Mrs. Frank MacDonald, 229-8587.

The Orchestra under the direction of Russell Stanger, will play Beethoven's Symphony No. 6 in F. Major, opus 68 and the Concerto for violin, cello, piano and orchestra, opus 56.

Soloists will include Doris Short, violin; Janet Kriner, cello; and Gloria Philips, piano.

NEW DEPARTMENT HEADS

A new system of rotating department chairmanships in the Faculty of Arts and Sciences will take effect next September, with four new chairmen being appointed.

President Davis Y. Paschall has announced the appointments of Carl R. Dolmetsch as head of the English department; Richard K. Newman as chairman of the department of Fine Arts; Bruce K. Goodwin as Geology chairman and Edwin H. Rhyne as head of the Sociology department. All are for three-year terms, instead of the indefinite appointments formerly made.

In each of the departments, the incumbent chairmen voluntarily relinquished their positions effective next fall. Suggestions of faculty in each of the departments were sought by Dr. Harold L. Fowler, Dean of Faculty of Arts and Sciences, who, along with Vice-president W. Melville Jones, then recommended the new chairmen to President Paschall.

Stepping down to resume full-time teaching will be Fraser Neiman, English; Thomas E. Thorne, Fine Arts; Kenneth L. Bick, Geology and Wayne Kernodle, Sociology.

Dr. Paschall also announced that Mrs. Thelma M. Miller will become head of the Home Economics department upon the retirement in June of Miss Alma Wilkin.

All other department heads in the Faculty of Arts and Sciences were reappointed for three-year terms, effective in September.

Under the new policy, department heads will serve three-year terms, and except in unusual circumstances, will serve no more than two such consecutive terms. They must also discontinue the chairmanship after reaching their 65th birthday.

The new policy originated last year in the Faculty of Arts and Sciences, which appointed a committee to draft a plan for rotating department heads. President Paschall said, "The rotation plan has decided advantages in providing opportunities for departmental administration for more members of a department, and also allows for all faculty members to have a voice in suggesting their chairmen periodically."

The plan does not affect the schools of law, education, business administration and marine science.

- CHAIRMEN REAPPOINTED -

Department heads who will be reappointed to their present posts, but for their first three-year terms, are:

J. Ward Jones, Ancient Languages; Nathan Altshuler, Anthropology; Mitchell A. Byrd, Biology; S. Y. Tyree Jr., Chemistry; Leonard G. Schiffrin, Economics; James M. Roherty, Government; Ludwell H. Johnson III, History; Thomas L. Reynolds, Mathematics; Col. John Hodges, Military Science; J. Worth Banner, Modern Languages; F. Donald Truesdell, Music; Frank A. MacDonald, Philosophy; Rolf G. Winter, Physics; Stanley B. Williams, Psychology; James C. Livingston, Religion and Howard M. Scammon, Theatre and Speech. Mrs. Mildred B. West will become chairman of the women's physical education department, of which she has been acting chairman. Howard H. Smith is expected to continue as head of the men's physical education department, with the possibility of a realignment of duties because of anticipated increased responsibilities when the new men's physical education complex is completed next year.

- FORMER CHAIRMEN -

Neiman has been department head since 1963, and has been on the William and Mary faculty since 1938. Dolmetsch, one of the nation's leading experts on the late H. L. Mencken, is the author of several books and articles. He joined the faculty in 1959 and was on leave two years as a Fulbright Professor in Germany.

Thorne has been department head since 1945, having joined the faculty in 1940. Newman joined the faculty in 1946 and became full professor in 1966.

Bick has been head of the Geology department since its establishment in 1961. Goodwin joined the faculty in 1963 and now holds the rank of associate professor. He has conducted extensive research in central Virginia, and has been studying the relationship between geology and highway construction.

Kernodle, department head since 1951 and member of the faculty since 1948, was named a Heritage Professor in 1968. Rhyne joined the College in 1954 and holds the rank of professor. His teaching interest centers on social structure, political sociology and the sociology and history of the South.

Miss Wilkin has taught Home Economics here since 1928 and is currently - with Dr. W. Melville Jones, Vice-president - the senior member of the Faculty of Arts and Sciences in point of service. Mrs. Miller, a widow, began teaching here in 1954 and is in the process of completing research in home economics.

DR. REID TO BE VISITING PROFESSOR
IN DEPARTMENT OF GOVERNMENT

A leading Australian authority in comparative government and the role of Britain's commonwealth countries will begin a year as a visiting professor of government with the second semester.

Dr. Gordon Reid, professor of politics at the University of Western Australia, will hold the post under the Senior Foreign Scientist Fellowship program of the National Science Foundation. He is currently president of the Australian Political Studies Association, representing political scientists in Australia and New Zealand.

The NSF has awarded 50 such fellowships to American universities for 1970. This past academia year, the College was one of 25 to have a foreign scientist on its faculty for one year, Dr. Ian Chester-Jones, head of the department of zoology at the University of Sheffield, England.

Dr. Reid will teach undergraduate and graduate courses in the areas of his specialties and also will study operations of the United States Congress, doing so by arrangement between William and Mary and the Brookings Institution of Washington.

Dr. James Roherty, chairman of the Government Department, said the designation of Dr. Reid for an NSF fellowship is one of the first such grants to a political scientist under the program. The program is designed to enrich teaching and research at selected American universities. Only about 100 institutions were eligible to take part in the program for 1969-70, the NSF said. The universities themselves propose the candidates for appointment to fellowships.

Dr. Reid, a native of Sydney, Australia, joined the staff of the Australian House of Representatives following World War II service. He rose to become Sergeant of Arms of the House before leaving to begin an academic career as senior lecturer in public administration and comparative government at the University of Adelaide, South Australia, in 1958. Since 1966, he has held his present academic post at the University of Western Australia.

He holds degrees from the University of Melbourne and the London School of Economics and Politics. His doctoral dissertation at London was awarded the Hutcheson medal for excellence in research. In 1963-64, he received major awards from the Nuffield and Rockefeller Foundations to conduct research in Britain, West Africa, and the United States.

He is the author of one book, "The Politics of Financial Control: The Role of the House of Commons."

JOHNSON NAMED CO-EDITOR
THE PAPERS OF JOHN MARSHALL

Herbert A. Johnson has been named co-editor of The Papers of John Marshall after serving since mid-1967 as associate editor.

The appointment was announced Wednesday by Stephen G. Kurtz, director of the Institute of Early American History and Culture. The Institute is a cooperative venture between the College and Colonial Williamsburg. Kurtz has been editor of the project since 1966.

The Papers of John Marshall is one of the major editorial projects honoring principal founders of the United States. It is sponsored jointly by the College and the Institute, and has financial support from the Commonwealth of Virginia and the federal National Historical Publications Commission. Involved are the editing and publishing of Marshall papers, over at least a decade.

Kurtz said, in announcing the appointment, "I take particular pleasure in announcing Dr. Johnson's promotion to the post of co-editor of this important historical research project. As associate editor during the past two years, he has won the respect of American historians who recognize what a demanding task it is to comprehend and reconstruct Virginia's early legal history. Only a man of unusual attainments and training could hope to master it. I am confident that our goal of collecting, editing and publishing the Papers will be achieved, and without the efforts of a first-rate legal historian like Herbert Johnson, this would be impossible."

Dr. Johnson, who has his law degree from New York Law School and his doctorate from Columbia University, is the author of the prize winning study, "The Law Merchant and Negotiable Instruments in Colonial New York." As a member of the Institute staff, he is a lecturer in American constitutional history at the College and has recently been named executive assistant to the president of the American Society for Legal History.

COMING ATTRACTIONS

February promises to be an active month for the William and Mary Theatre.

"King Lear" will be presented February 3 and "The Lady's Not For Burning," February 4, both by visiting professional companies.

The Pulitzer Prize musical "Of Thee I Sing," will be presented by the Theatre, February 25, 26, 27, 28.

* Season Ticket Patrons will have their choice of attending either "King Lear" or "The Lady's Not for Burning".

U. S. OFFICE OF EDUCATION INVITES LEADING
EDUCATORS TO SPEND YEAR IN WASHINGTON, D.C.

The U. S. Office of Education Fellows Program was established in 1965 to provide educational leadership training through experience in educational realities on a national scale and at the federal level. The Fellows Program brings together 20 educators from every section of the country and from all sectors of education to spend an academic year at the Office of Education in Washington, D. C.

Although not actually employees of the Office of Education, Fellows are given an opportunity for direct participation in the work of OE. Among other assignments, they study, evaluate and help to coordinate federal programs, assist in the development of new programs, help to draft legislation, and conduct research.

Educators between the ages of 25 and 35 from institutions of higher learning or state departments of education may apply. Fellows are appointed at an annual stipend ranging from \$11,000 to \$14,000 and may continue in their positions for 9 to 12 months. Funds are administered through the Fellow's Sponsor Institution.

Application forms must be submitted to the Regional Assistant Commissioner of Education before January 31. The Regional Assistant Commissioner for the Virginia region is Dr. Carl E. Seifert, 220 Seventh St., N. E. Charlottesville, Va. 22901. For further information and assistance, contact Warren Heemann, Assistant Vice-president for Sponsored Programs.

WILDLIFE FILM - AUDUBON SERIES

"Galapagos - Wild Eden," will be the title of the wildlife film program to be presented Tuesday, Jan. 13 at 8 p.m. in the Campus Center ballroom. Narrator will be Roger Tory Peterson.

A famed ornithologist, Peterson guides viewers through the fantastic Galapagos Islands where Charles Darwin conceived his theory of evolution.

Giant tortoises, sea-going iguanas, flightless cormorants and the beautiful fork-tailed gulls are shown in their natural environments, as well as the little black finches that gave Darwin his most important clue.

CLASSES CANCELLED

Classes in the Evening College and Extension Division were cancelled Tuesday evening as the area received its first real snowfall of the season.

OUTLOOK FOR 70 IS GOOD

With only December business and economic indicators yet to be counted, 1969 has turned out in the state to be "basically a good year." according to the College of William and Mary's Bureau of Business Research.

Dr. Leland E. Traywick, professor of business administration and the Bureau's director, drew the conclusion after surveying eleven-month compilations of statistics from across Virginia.

For eleven months, bank debits were up 23.2 per cent; compared with the same period a year ago. Electrical consumption was up 11.4 per cent; newspaper advertising lineage was up 5 per cent; non-agricultural employment was up 2.2 per cent; postal receipts up 5.3 per cent; retail sales up 4 per cent and water consumption was up 2.6 per cent.

On the other hand, building permits were down 18.9 per cent, reflecting the tight mortgage money market.

Looking ahead, Dr. Traywick said 1970 is expected to show a general continuing slowdown in the economy, at least until mid-year, and a brighter picture thereafter. For the coming decade, he said, the emphasis in the economy will be on "distribution, the human values, and the qualitative aspects."

"The emphasis," he said of the 1970s, "will be on the quality of growth and the quality of full employment. The outlook is good."

SOCIOLOGY SEMINARS

Two new seminars in sociology, one concerning mental illness and the other a study of penitentiary correctional officers, will be offered in the spring.

Dr. Wayne Kernodle, head of the department, said the seminars were developed with funds from the National Science Foundation. The NSF in 1968 granted \$245,600 to the College for a curriculum improvement program in several areas of science.

Dr. Kernodle said the two new seminars are the first of six which will be developed during the next two years as part of the regular sociology department offering. All will be for undergraduate students.

The department head will teach the seminar, "Sociology of Mental Illness," in the spring. Dr. Anthony L. Guenther will teach the other seminar, "Special Problems in Sociology: Theory and Method in a Study of Penitentiary Correctional Officers."

SOCIOLOGY SEMINARS - con't.

Dr. Kernodle developed the seminar in mental illness after research undertaken last summer in England, Belgium, Holland and Denmark. The course will include a study of several basic research publications on relationships between society and mental illness, as well as of community psychiatric therapy facilities and programs in the nations he visited. Some sessions of the seminar will be conducted in mental hospital or clinical settings.

Dr. Guenther is currently ending a semester's leave to research the occupational status of correctional officers in the Federal Penitentiary at Atlanta. His seminar will be based on the general theory and substantive materials of criminology as they are applied to his current research. Students will have the opportunity to examine recently-gathered and un-analyzed research data, working through the entire research project. Attention will be focused on the sociology of occupations and professions, the methodology of research and analysis of field notes, interview schedules and other data.

Each seminar will be limited to 20 participants, selected from among applicants by the professor in charge.

Other departments benefiting from the NSF grant, known as the College Science Improvement Program, include economics, government, psychology, and anthropology.

PASCHALLS IN CALIFORNIA

President and Mrs. Paschall are in the Los Angeles-San Diego area while Dr. Paschall addresses alumni chapters in both cities. He will also make calls on several of the 600 William and Mary alumni who live in that section.

West Coast alumni have sought a formal visit by Dr. Paschall for several years, but he has been prevented from accepting the invitations due to the press of campus affairs.

THIS WEEK ON CAMPUS

- Jan. 10 - Basketball - W & M vs VPI. Hampton Roads Coliseum 8 p.m.
Gymnastics - Girls Meet - W & M vs Longwood. Blow Gym 2 p.m.
- Jan. 14 - Young Democrats Meeting. Campus Center Theatre 7:30 p.m.

AUTHOR OF TWO NOVELS

Miss Zoe Fairbairns is a 21-year old co-ed who admits she cannot drive a car, cook or bowl. She hates sewing.

"I can't do any of these practical things. I don't have a favorite hobby. I just write," she said recently.

She writes so well that she has had two novels--"Live as Family" and "Down"--published by the Macmillian Co. She also has had short stories published in England, Sweden, and South Africa.

"There is a lot of discipline connected with writing, much more than people imagine," she said. "People tend to think that a writer just sits down and a cloud descends from heaven and he picks up his pen and that is it.

"You read so many writers' biographies, however, and they all say the same thing--that writing is a matter of discipline, and inspiration that comes occasionally."

"Occasionally you do get carried away and you don't notice the time because you are having a good time writing. In my case this is very much the exception. Writing is hard work."

The young author is here this year as an exchange student from the University of St. Andrew in Scotland. She is taking several English courses and is particularly interested in instruction in creative writing.

Sometimes she is asked why, as the author of two published novels and several short stories, she is taking composition courses here.

"Well, just because you can write novels it definitely doesn't follow that you can write articles well, description, argument or reviewing," she explained.

She likes the composition course because it makes her attempt different kinds of writing.

Miss Fairbanks' first novel, "Live as Family," was "written for fun" and is the story of a girl hired by a family and her adventures with that family. In "Down," the author is trying to say that "a lot of people, particularly people my age, and perhaps people who have no religion, no ideology to organize their lives by...try to find some other resource or philosophy."

AUTHOR OF TWO NOVELS - con't.

Miss Fairbairns' father is a chartered surveyor in London. She has an older sister studying psychology at Oxford and a younger sister at home.

She began her literary career as a child, by writing a "completely incomprehensible story" on the fly leaf of a book in her family's library. At 16, she won a prize in a children's literary contest with a "sombre poem, all about the end of the world and nuclear war."

She is not sure what she will do after finishing her studies at St. Andrew's. "I see myself primarily as a writer but I can't just write because there isn't enough money in it to live on," she said. Teaching, publishing and social work are possibilities she is considering.

Meanwhile, she is trying to do a third novel. "I have started it over and over again. I know roughly what the story is about but I can't latch onto the right form for it. I must have written thousands of words already but it is not working out."

VALC REPORTS ON RETIREMENT SYSTEM

An increase in benefits and cost-of-living adjustments were recommended for the Virginia Supplemental Retirement System after a two-year study of the system by the Virginia Advisory Legislative Council.

The VSRS, which covers William and Mary faculty and staff, could make the improvements without additional contributions by state employees, the Council said.

The VALC said it considered, but did not adopt, a proposal that professional personnel at state institutions of higher learning be given an optional retirement program provided through the Teachers Insurance and Annuity Association and the College Retirement Equities Fund. College presidents had asked for the optional TIAA-CREF coverage.

The General Assembly has the VALC make studies of a variety of proposals, but the Council's recommendations are only advisory.

A SPORTS SHORT

William and Mary's Juris Luzins placed third in the 1,000 yard run at San Francisco's All-American Track and Field Games Jan. 3 in a time of 2:08.8 only half a second off his career best for the event. Mark Winzenreid of Wisconsin won in a meet record 2:08.1 with Jufef Plachy of Czechoslovakia second in 2:08.5.

OF INTEREST TO FACULTY FAMILIES
WITH PRE-SCHOOLERS

The Williamsburg Parent Cooperative Preschool has opened school registration for the school year 1970-71.

A child who is four years of age by Oct. 1, 1970 will be eligible for the Nursery School held from 9:00 to 11:15 a.m. on Monday, Wednesday and Friday. A child who is five years of age by Oct. 1, 1970 will be eligible for the Kindergarten held from 9:00 a. m. to 12:00 p. m. every weekday.

Applications may be received through the mail by calling Mrs. Annette Vosteen, #564 3775, Registrar for the Nursery School, or Mrs. Edward Crapol, 229 7835, Registrar for the Kindergarten. Registration fee is \$10 and non-refundable. There are a few openings in the Kindergarten and one in the Nursery School for the remaining school year (Spring 1970). Please contact the class registrar for more information.

A cooperative preschool is one organized and administered by the parents and operated by them under the direction of trained teachers. It is a non-profit, non-denominational enterprise mainly interested in the adjustment and individual development of the child in school. The parents employ the teachers, equip the school, maintain maximum membership, and meet the monthly budget. Each mother is called upon approximately once a month to assist the teacher at school. Heavy equipment is built or refurbished by the fathers who are also called upon for advice of either financial, artistic, or scientific nature.

The Williamsburg Parent Cooperative Preschool is licensed and inspected by the City of Williamsburg Health Department. Classes are held at the United Methodist Church, 514 Jamestown Road. Parents are invited to attend and observe classes. Please call the class registrar to be sure there is no school holiday or field trip planned for the day you choose to visit the school.

LAW SCHOOL SPONSORS
CONTRACT CONFERENCES

The second of three scheduled conferences on various phases of government contracting is being offered this week at the Conference Center, under the joint sponsorship of the Marshall-Wythe School of Law and Federal Publications, Inc. in Washington. The first conference was given in mid-December and the third will be given February 23-27. The conferences are part of an annual series offered for attorneys and management personnel engaged in supply and construction contract work with state and federal government agencies.

In mid-May a fourth conference by the same co-sponsors will be held in Hollywood, Fla.

DEPARTMENTAL NEWS

MODERN LANGUAGES

Dr. Pierre C. Oustinoff attended the convention of the Modern Language Association of America in Denver, Colo. Dec. 27-30, where he served as Chairman of the Nominating Committee of French 5: French Literature of the Eighteenth Century.

PHYSICS

The following paper was published:

3d-2p Pionic transition in Ni⁵⁸ and Ni⁶⁰.
D. A. Jenkins and R. J. Powers (Virginia Polytechnic Institute) and
G. H. Miller (William and Mary).
Phys. rev. 185, 1508 (1969).

PHYSICAL EDUCATION FOR WOMEN

Carol Wallace, Assistant Professor, has been invited to guest teach in the Modern Dance Department of the North Carolina School of Arts in Winston-Salem for two weeks of the end of January.

On February 7 she will go to Montevallo, Ala. to conduct the Alabama State College Dance Symposium.

SCHOOL OF BUSINESS ADMINISTRATION

Gilbert C. Jones, Assistant Professor of Business Administration, will speak to The Virginia Chapter of The American Society of Insurance Management at the Conference Center on January 8th. Mr. Jones' subject will be "Teaching Risk Management to Graduate Students". Jones teaches Risk Management in the graduate program of The School of Business Administration.

On January 9th Jones will speak to the Purchasing Management Association of The Old Dominion, Inc. (National Association of Purchasing Agents) on the subject of "The Position of the Purchasing Agent in the Organization". Jones is a member of the Professional Development Committee of the Association, and teaches Procurement Management in the graduate program of The School of Business Administration.

MARSHALL WYTHE SCHOOL OF LAW

Acting Dean James P. Whyte, Professor Emeric Fischer and Associate Professor E. Blythe Stason attended the annual meeting of the Association of American Law Schools in San Francisco December 27-30. Professor Stason was appointed to membership on the Association's councils on comparative law and foreign law teachers.

MARSHALL WYTHE SCHOOL OF LAW - con't.

The Fall issue of The Colonial Lawyer, semi-annual magazine of the Student Bar Association, has just been published. Among faculty contributions in the current issue are "Court Practice for Law Students: Next Step in Clinical Education," by Professor William F. Swindler, and "Revised Grading Systems: Some Observations," by Visiting Instructor Robert E. Scott.

A combination of practical experience for students in television and law was offered in December for the first year course in Legal Method under Professor John Davies of the Law School. Television cameras were set up in the Moot Court Room for the oral arguments by law students, and following the faculty critiques presented at the end of each "case," the video tape was then played back to the participants through a TV set in the Law School seminar room.

Please use this sheet to send in news for the next issue of the
Colleague on January 15. Deadline for copy is Tuesday, January 13.

We are interested in papers presented, publications, meetings attended,
research projects in progress, etc.

COLLEGE RECEIVES ENDOWMENT
FROM JAY W. JOHNS

A \$300,000 endowment to build a collection of colonial history materials has been presented to the College by Jay Winston Johns of Charlottesville.

The gift was made in the form of corporation stocks to be earmarked for library acquisitions to the college's program in early American history.

Johns, 81, a retired Pittsburgh coal company president, said he hopes that adding historical references to the other restoration efforts in Williamsburg "will be helpful to Americans, and to Virginia, to have the greatest collection of colonial history in all form focused in one spot."

President Davis Y. Paschall in accepting the gift said, "This generous endowment will assure a collection of library resource material as well as make the college a mecca for scholars in the field of Early American History.

"Such a gift is characteristic of the philanthropy of Mr. Jones, which is so widely recognized in preserving the heritage of this nation."

A devoted preservationist of historical landmarks and original documents for many years, Johns said in a letter to Dr. Paschall that he hopes "at some later date to increase this fund, at least to a total of \$400,000."

"Religion and government are the two most important aspects of man's life," said Johns.

"One of the primary reasons I am so interested in this area of history is that the American people ought to have a thorough knowledge of the colonial history period in order to better know our origins and how our country has evolved today."

Dr. Paschall said that Johns interest in this field is evidenced "not only in what he has done for the Lee and Jackson shrines but also in his deep appreciation of men such as Jefferson, Monroe, and others whose early years at William and Mary formed the concepts that they translated into the great documents undergirding this republic."

WILLIAM & MARY

COLLEGE RECEIVES ENDOWMENT
FROM JAY W. JOHNS - con't.

Johns is a native of Pennsylvania but professes a great love for Virginia because of "the state's predominant role in founding, the influencing, the development of the United States."

Johns is president of the Stonewall Jackson Memorial, Inc., a director of the Virginia Electric and Power Co. He recently chartered the Virginia Trust for Historic Preservation to stimulate interest and education in Virginia history from the state's earliest times to the present.

Johns said he considers the endowment for William and Mary a further continuation of his interest in preserving and fostering historical interest in the state.

Johns, who has been blind for the past 17 years, was awarded an honorary doctor of laws degree by William and Mary several years ago.

- More than 50 books produced -

The Institute of Early American History and Culture, housed in the Earl Gregg Swem Library, has produced under its auspices more than 50 books in early American history, and is now in the process of editing the papers of John Marshall.

The Johns gift, according to College officials is one of the largest to William and Mary in recent years, surpassed only by one in the early 1950's from the estate of Mrs. Lettie Pate Evans.

EVENING COLLEGE, EXTENSION DIVISION

The School of Continuing Studies will offer over 200 courses in extension division and evening college classes for the second semester, Leon Looney, director, has announced.

Registration for the second semester of evening college will be held in Blow gym, February 2 from 7 - 9 p.m.

Religion 209: The Eastern Religions, will be offered for the first time as an Evening College course. The course includes an induction to the beginnings, major developments and current beliefs and practices of the living religions of India and the Far East. It concentrates on Hinduism and Buddhism but also studies Taoism, Confucianism, Shinto and the contemporary popular religions of Japan.

CHARTER DAY

Charter Day 1970 will be observed February 7 with the dedication of a new classroom building and the conferral of two honorary degrees.

The building to be dedicated, which has not yet been named, is the \$1,800,000 mathematics-general classroom building on the new campus. It was opened last summer, and houses the mathematics department, the School of Business Administration, the college's regional computer center, and the departments of government and philosophy.

Honorary degrees will be conferred on Jack E. Morpurgo of London, England, a 1938 alumnus of William and Mary who is prominent in British literary and academic circles; and Robert Farll McConnell, a retired mining executive whose foundation has established Thomas Jefferson Awards at William and Mary and a number of other academic institutions across the country.

Speaker for the Charter Day Convocation, to be held at 11 a.m. in Phi Beta Kappa Auditorium, will be Prof. Arthur L. Goodhart, former Master of University College, Oxford, England. A legal scholar, Professor Goodhart is the only American ever to have been Master of an Oxford college.

The Marshall-Wythe School of Law will recognize Professor Goodhart by conferring on him the Marshall-Wythe Medallion, awarded periodically by the law faculty to a person who has distinguished himself in the field of law. It is the 190th anniversary of the establishment at William and Mary of the nation's first professorship of law.

Professor Goodhart, who is editor of the British Law Quarterly Review, is expected to discuss an aspect of the life of the late Winston Churchill, prime minister of England. The British scholar has visited William and Mary on other occasions, most recently to take part in the 1954 Marshall-Wythe-Blackstone commoration and the 1968 Charter Day observance on the College's 275th Anniversary.

Also scheduled as part of the Convocation is the announcement of the 1970 Thomas Jefferson Award to a member of the campus community whose work and life exemplify the concepts for which Jefferson is remembered.

The Charter Day program annually observes the granting of the College's charter on February 8, 1693, by King William III and Queen Mary II. As part of the program, Dr. Harold L. Fowler, Dean of the Faculty of Arts and Sciences, will read from the Royal Charter and James P. Whyte, Jr., Acting Dean of the Marshall-Wythe School of Law, will read from the proclamation issued to promulgate the charter.

CHARTER DAY - con't.

- To Receive Degrees -

Morpurgo, a member of Phi Beta Kappa, has served as editor of several publishing organizations including Penguin Books and Pelican Series Histories. He was Director-General of the National Book League in England from 1955 until recently, when he accepted the chairs of American literature at the Universities of Leeds, England and Geneva, Switzerland. He is the author of a history of the United States and three other volumes, and is editor of four works.

He was the first Britisher to receive a bachelor's degree from William and Mary in this century, and since his graduation he has contributed valuable manuscript gifts to the College library. He is currently engaged in outlining plans for writing a history of William and Mary's first 100 years. In 1957, he was instrumental in establishing in London a chapter of the William and Mary Society of the Alumni.

Morpurgo will receive the honorary Doctor of Humane Letters degree.

McConnell, who will be awarded the degree of Doctor of Laws, is an alumnus of Columbia University. He held executive positions with a number of mining firms and served during part of World War II as chairman of the board and president of the General Aniline and Film Corp. when the government seized the firm from its German ownership. Later he served the government in a consulting role. He currently resides at Hobe Sound, Fla.

The Robert Earll McConnell Foundation, of which he is a director, established the Thomas Jefferson Award at William and Mary in 1961. It has also supported lecture series at the College and has extended grants to other academic institutions, in the form of Jefferson Award endowments and other means.

Professor Goodhart is a native of New York and was educated at Yale and Oxford's Trinity College. He became professor of jurisprudence at Oxford in 1931. In 1943, he became the second American to be appointed King's Counsel, now Queen's Counsel. In 1948, he was created an Honorary Knight Commander of the British Empire.

SPEAKER AT VARC ON MONDAY

Rear Admiral Thomas B. Owen, Chief of the Office of Naval Research, will visit the Peninsula on Monday 26 and will speak to a group of invited guests at the Virginia Associated Research Campus at 3:30 p.m. on "Changing National Attitudes Toward Research and Development."

Faculty members and students of the College are invited to attend.

HUMANITIES RESEARCH
APPLICATIONS DUE

A deadline of February 2 has been announced for the research program of the National Endowment for the Humanities, with notification of awards expected late in May. Two types of grants are available. Individual scholars may request up to \$10,000 for support of travel, research assistance, other costs of research, and summer salary support; and institutions or professional, scholarly, or research organizations may apply for a limited number of larger grants ranging from \$25,000 to \$250,000. The Endowment has noted that within the distribution of its funds, it hopes to "strike a balance between support for work that is related to contemporary social problems, and work of importance for the development of humanistic scholarship and understanding in general." Write: Mr. William R. Emerson, Director, Division of Research and Publication, National Endowment for the Humanities, 18th and F Streets N. W., Washington, D. C. 20506.

NSF ISSUES PROGRAM ANNOUNCEMENT
ON NEW INTERDISCIPLINARY RESEARCH

The National Science Foundation has issued a formal call for proposal submission under the agency's new program of "Interdisciplinary Research Relevant to Problems of Our Society." The program, which is headed by Dr. Joel A. Snow, will have a FY 1970 budget of approximately \$6 million. The program announcement stressed that grants will normally go to projects involving a group of scientists "having diverse professional backgrounds, who are drawn together by a common interest in increasing the fund of knowledge needed to resolve an important problem of society." Industry and nonprofit organizations will be encouraged to submit cooperative proposals with educational institutions. Projects will commonly be expected to (a) provide a structure for systematic interdisciplinary analysis of societal problems, (b) fill gaps in the broad array of related scientific knowledge, or (c) synthesize and integrate research results that affect the strategies available for solving societal problems. NSF Director William McElroy also noted that the funds might be used for work in the areas of technological assessment outlined in his November speech. The announcement stressed that NSF will not support social action programs, the widespread application of technological devices, or research that would duplicate the mission-oriented research of other federal agencies (except for topics that extend beyond the special interests of such agencies). Areas illustrative of eligible support fields include poverty, population control, the urban environment and environmental quality. A copy of the program announcement and other information may be obtained by writing Dr. Snow at the Office of Interdisciplinary Research, National Science Foundation, 1800 G Street N. W. Washington, D. C. 20550.

MISS SHRYER IS CHOSEN
FOR REX SMITH AWARD

Miss Molly Shryer, a junior, has been chosen recipient of the 1969 Rex Smith Scholarship Award.

Miss Shryer, a government major from West St. Paul, Minn., is managing editor of the Flat Hat. She was chosen for the award by a committee of the faculty.

The award was established in 1961 by friends of the late Rex Smith, an alumnus who was an author and director of public relations for American Airlines. Donors include Bob Considine of the Hearst Headline Service, Walter Cronkite of CBS, Ben Wright, president of This Week Magazine, Miss Kay Hansen, secretary, American Airlines and Senator Harry F. Byrd, Jr., of Virginia.

Miss Shryer is a member of the Honors Program, has been active in a student-sponsored Tutorial Service for local children and is president of Delta Delta Delta social sorority. She is listed in Who's Who in American Colleges and Universities.

NATIONAL PLAYERS COMING FEB. 3, 4

The William and Mary Theatre suggests theatre-going faculty members make a note on their calendars for February 3 and 4--Tuesday and Wednesday of the first week of second semester classes--for what promises to be two nights of exciting theatre in Phi Beta Kappa Memorial Hall.

Tuesday, February 3, the National Players will present Shakespeare's titanic tragedy, King Lear.

Wednesday, February 4, the same company will present Christopher Fry's delightful poetic comedy, The Lady's Not For Burning.

Curtain time is 8:15 p.m.

Tickets will be released to the general public at 5:00 p. m. Tuesday, Feb. 3. The box office will be open until 8:15 p.m. Tuesday. It will be open Wednesday, Feb. 4, 3:00 to 5:30 and 7:00 to 8:15 p.m. Prior to that time Season Ticket Patrons have first choice of tickets. All seats are reserved at \$3.00 each. (There are no faculty complimentary tickets for visiting professional companies such as this.)

The National Players come to William and Mary with excellent credentials. Now on their Twenty-First Touring Season--oldest and most experienced in the country--The Players should be able to present some of the most vital theatre experiences available.

NATIONAL PLAYERS - con't

Opportunities to see King Lear and The Lady's Not For Burning are rare. Even more rare is the opportunity to see such plays presented by a repertory company. The William and Mary Theatre suggests that theatre-goers will especially enjoy seeing both plays performed by one company.

SENATOR SPONG TO VISIT FEB. 9

Senator William B. Spong, Jr., will be the principal speaker at a public seminar on the problems of pollution to be held February 9 at 7:30 p. m. in the Millington Hall auditorium.

Title of the Seminar will be "What Can the College Community Best Do to Better the Environment." Senator Spong, a member of the senate subcommittee on air and water pollution will be assisted by several aides from the subcommittee.

The seminar will be sponsored jointly by the biology, chemistry, geology and physics department at the College, Williamsburg Restoration, Inc., Sigma Xi, the Williamsburg Committee for Quality Environment and the Williamsburg-James City County League of Women Voters. The League will also sponsor a reception for the visiting speakers following the seminar.

Plans for the seminar were formulated last semester and planned as part of a senior biology seminar on the problems of human environment but scheduling difficulties forced delay.

MEMBERS OF THE COLLEGE COMMUNITY
GIVE TALENTS TO "CANDIDA"

The cast of the Williamsburg Players' current production "Candida" by George Bernard Shaw, is almost, but not quite - 100 percent from the college community.

"Candida" is played by Mrs. Lettie Cash, secretary to Dr. Thomas L. Reynolds, chairman of the Mathematics Department. David Weston, '58, who has worked with The Common Glory, plays the role of the Rev. James Mayor Morrell. Also in the cast is Dottie Cobb, a senior and an education major from Portsmouth, Va.; and William Bonner, '69.

"Candida" will play Thursdays, Fridays and Saturdays through Jan. 21. Reservations may be made by calling 229-1679.

VISITING FACULTY

Dr. Gordon Reid, who will begin a year as Visiting Professor of Government with the second semester, joins two other visiting professors from other countries who are already on campus.

Dr. David Quinn of the University of Liverpool has been here since September as the first holder of the James Pinckney Harrison Chair of History. Visiting lecturer in Anthropology this year is Terence McCann, of the University of Guyana.

Dr. Quinn is professor of history at the University of Liverpool. Of Irish descent, Dr. Quinn was educated at the Universities of Belfast and London and taught at the Universities of Southampton, Belfast and Wales before taking up his position at the University of Liverpool in 1957. He is a member of the Royal Irish Academy and holds an honorary degree from the Memorial University of Newfoundland.

His main field of interest is American History of the period until 1625. He has been associated since 1948 with the Institute of Early American History and Culture, which is co-sponsored by Colonial Williamsburg and the College of William and Mary. He is also on the editorial board of the William and Mary Quarterly, a journal on the colonial period of American history.

Dr. Quinn is currently working on two books. The first, volume one of a documentary history of the United States, is almost complete and will be published by Harper and Row later this year. It is intended, says its author, for students at the undergraduate level and consists of documents linked by a commentary. The other book, also for a Harper and Row series, will be straight history.

He is particularly interested in the similarities between the colonization movement in America and in Ireland, which were simultaneous. He finds similarities in the attitudes of the English colonizers to the Irish and to the American Indians.

"They regarded both groups as savages they had to deal with," opines Dr. Quinn "and they transferred ideas that they held about the Irish to the Indians."

"The idea of building up big land estates in Ireland for penniless but aspiring English gentlemen was transferred to America." said Dr. Quinn who cites as an example, Ralph Lande, a gentleman who tried to set up a colony in County Kerry in 1585. He was asked to become governor of the first colony in America, and returned to Ireland when it failed.

VISITING FACULTY - con't.

Dr. Quinn hopes to do some research in the Eastern part of the country before returning home in Liverpool in October. He finds William and Mary students "serious" and "hard-working." but finds it difficult to make valid comparisons between them and British students because of the differing approaches to education and the more specialized nature of a British first degree course. He does not think that either system is necessarily the more valuable; it all depends what the student wants. The English student has at least one problem which his American counterpart does not have to face; that of choosing his major field - often irrevocably- at the age of 18, on entering college.

"The M.A. in America is like the last year of a first degree course in England," explained Dr. Quinn. American students start college at a slightly lower level, but they continue longer. The main difference is one of time spent studying."

- Tutorial System -

Dr. Quinn likes the British tutorial system - whereby each student gets to have regular meetings with his lecturers, alone or with one or two other students - but he recognizes that due to the increasing number of students makes this more and more difficult. If too much pressure is put on university teaching staff they lose the chance to read and think and keep up with their subjects, and the students are no better off.

Terence McCann, of the University of Guyana in South America, began an eighteen month stay at the College in September.

McCann graduated from the University of Durham in England in 1964 and obtained his Master's Degree from Oxford University in 1966. While teaching and researching in Guyana for his doctoral thesis on the beliefs and social organization of the Wapisiana, a tribe of American Indians of Guyana, he met Professor Nathan Altshuler, chairman of the Department of Anthropology at William and Mary, who was also doing field research. An invitation to Williamsburg resulted.

McCann welcomed the invitation because he felt that as a social scientist a visit to the United States was mandatory. So many other countries of the world, he explained, look to the patterns of life in the United States and some follow both good and bad aspects with a kind of resignation that as America goes so will their country.

- Applied Anthropology -

Interested in applied anthropology, McCann is glad to see more attention being given to the ethics of the anthropologist's neutrality. He is opposed

VISITING FACULTY - con't.

to what he terms "intellectual imperialism," though he admits that he, in common with fellow scientists, has been guilty of it.

"Professionals go into these underdeveloped communities," he explained "and collect information, and even the simple question of making the information available to the community is rarely attended to."

He feels that this is the reason why anthropologists are no longer welcome in many communities; there is often positive hostility. The problems of the underdeveloped communities are so great, he feels, that the anthropologist can no longer be objective. Something must be done to help.

With regard to his teaching duties, McCann hopes that, as there are differences in methodology and approach between American and European anthropologists, students will benefit from being taught by someone from a different background.

Dr. Richard N. Parkinson, who has been Visiting Professor of English for the first semester will return to the University of Exeter for the second semester.

Dr. Parkinson has been teaching courses in Shakespeare and the Modern Novel. In 1961 he was Visiting Professor at Antioch College.

Dr. Cecil McCulley who has been at the University of Exeter for the fall semester, will return to his teaching duties in Williamsburg, completing a faculty exchange between William and Mary and Exeter University.

EXHIBITIONS ON CAMPUS

The current exhibit in Phi Beta Kappa Hall is entitled "Phenomena" by Jean DuBuffet. It will be on display through February 8 and can be seen Monday through Friday, 8 a. m. to 5 p. m.

The Andrews Fine Arts Building is open daily from 8 to 4:30 p.m. for those interested in the current exhibit there, a display of drawings by Mitchell Jamieson. This exhibit will be hung through January 27.

Correction

Dr. Rolf G. Winter, chairman of the Department of Physics, has been reappointed to his present post for a two-year term, at his request.

Last week's Colleague incorrectly stated that Dr. Winter would begin a three-year term as chairman of the department in September under the new system of rotating chairmanships in the Faculty of Arts and Sciences.

DEPARTMENTAL NEWS

ANCIENT LANGUAGES

Professors Linda Reilley and Julian Ward Jones, Jr., attended the annual meetings of the American Philological Association and the Archaeological Institute of America in San Francisco, Dec. 28 - 30, 1969.

BIOLOGY

Mrs. Gloria V. Callard will join the faculty of the Biology Department as a lecturer during the second semester.

SCHOOL OF EDUCATION

Mrs. Jewel Delaune has been notified that she will be included in the next edition of the Directory of British and American Writers.

Mrs. Delaune contributed the article on children's literature which is contained in the current review of the year which is published annually as a supplement to World Book Encyclopedia.

SCHOOL OF EDUCATION

Prof. Armand Galfo is serving as a research consultant to the Hampton City Public School System.

A revised second edition of Dr. Galfo's text, Interpreting Education Research, has been published by the W. C. Brown Co., Dubuque, Iowa.

SWEM LIBRARY

Mrs. Ilse B. Webb a member of the Cataloging staff since 1966 and head of the department since March 1968 has submitted her resignation effective immediately.

Mrs. Mary Louise Cobb will now serve as acting head of Cataloging.

Please use this sheet to send in news for the next issue of the Colleague on January 22. Deadline for copy is Tuesday, January 20.

We are interested in meetings attended, publications, papers presented, research projects in progress, etc.

SCIENTIFIC APPRENTICESHIP PROGRAM

The College of William and Mary will participate in a sophisticated scientific apprenticeship program involving nearly 3,150 top undergraduate students across the country, funded through the National Science Foundation.

Grants have been made to 260 colleges, universities and non-profit institutions for 432 projects totalling \$3,985,060. Institutions in 48 states received the awards, through which undergraduate students will be enabled to conduct essentially independent research under the guidance of established scientists.

Grants totalling over \$19,000 have been made to the College of William & Mary under this program.

Dr. Mitchell Pyrd will be director of the project in the Department of Biology which has received \$6,000. Dr. S. Y. Yyree will direct the program in chemistry which has received \$8,400 in NSF funds. Dr. Bruce Goodwin will be project director in Geology with a budget of \$4,790.

Grants in the Undergraduate Research Participation Program provide students doing summer research with stipends of \$40 per week. The institutions receive allowances for operational costs.

Aimed at preparing students for more advanced work in the biological, engineering, mathematical, physical and social sciences, the program offers practical experience in research in addition to expanding the students' knowledge.

Other grants in Virginia have been made to Hampden-Sydney, Hollins, Old Dominion University, the University of Virginia, VMI and VPI.

* * *

The College will be host to approximately 250 debaters from colleges and universities across the country at the sixteenth annual Marshall Mythe Invitational Debate Tournament Jan. 29-31.

This tournament is one of 18 in the country, selected from over 600 as a qualifying tournament, for the prestigious national Tournament of Champions. Prof. Donald L. McConkey will be director.

MARTEL NAMED TO HEAD
PROGRAM IN FRANCE

Dr. J. Luke Martel, associate professor of French, has been appointed Professor-in-charge of the 1970-71 Sweet Briar Junior Year in France. His appointment is announced by President Anne Pannell of Sweet Briar College, which has administered this pioneer foreign study program since 1948.

Mme. Edmonde Bissiere, formerly instructor in French at Wheaton College, Norton, Mass., will continue as assistant professor-in-charge for the second year.

Dr. Martel holds a Licence-es-Lettres from the University of Montpellier, where he also taught for a year, and he completed his doctorate at the University of Aix-Marseille. His B. A. is from the University of Arizona. He has taught at Cornell, State University of New York at Potsdam, University of Illinois, Georgetown University, and at three colleges in France, 1954-57, while working for his doctorate. Before going to William and Mary in 1963, Dr. Martel taught French at the Pentagon for two years under the auspices of the University of Maryland. During World War II he served in the Army Signal Corps., 1942-45.

Dr. Martel was named Chevalier des Palmes Academiques, a recognition conferred by the French government, in 1964. He is the founder of the Peninsula Chapter of the Alliance Francaise.

Mme. Bissiere is a graduate of the University of Bordeaux, France. She also holds a special teaching certificate and taught English at several lycees in France before her appointment at Wheaton College in 1966.

This year 99 men and women from 45 American Colleges and universities are enrolled in the Sweet Briar program, directed by Dr. R. John Matthew. The total enrollment since 1948 now exceeds 2,000, with 198 American institutions represented.

* * *

Tickets are still available for the concert February 1 by the Norfolk Symphony Orchestra in Phi Beta Kappa Hall at 8:30 p.m. Tickets are \$3 for adults, \$2 for students and may be obtained from Mrs. Frank MacDonald, 229-8587 or at the box office the evening of the performance.

- - -

Holders of William and Mary Theatre season tickets are reminded that reservations for either "King Lear" (Feb. 3) or "The Lady's Not For Burning" (Feb. 4) should be made at the Phi Beta Kappa box office Monday, Feb. 2 from 2 - 5:30 p.m. Tickets will be released to the general public at 5 p. m. Tuesday, Feb. 3.

SCHOOL OF BUSINESS ADMINISTRATION
GETS ADVISORY COUNCIL

A 15-member Advisory Council to the School of Business Administration, which includes top-level executives in a variety of management fields, will be established February 6.

Announcement of the plan was made Saturday by President Davis Y. Paschall, and Dr. Charles L. Quittmeyer, Dean of the School of Business Administration.

Its aim will be to lend advice and support in planning, development and support of the two-year-old school. It will be similar to advisory committees or councils of other schools of business administration, Dean Quittmeyer said.

Charter members are L. C. Ackerman, President of the Newport News Shipbuilding & Drydock Co.; August A. Busch III, Vice President and General Manager of Anheuser-Busch, Inc. of St. Louis; Arthur L. Clark, Senior Vice President of the Virginia Electric & Power Co.; and Duncan M. Cooke, Senior Vice President of Colonial Williamsburg, Inc.

Also, Frederick Deane, Jr., President of Virginia Commonwealth Bankshares, Inc. and Vice Chairman of the Board of the Bank of Virginia; Jerry T. Faubion, President of the Dow-Radische Co. of Williamsburg; W. Brooks George, Chairman of the Board of Larus and Brothers Tobacco Co., Inc. of Richmond; I. L. Griffin, Vice President of the General Electric Co., Inc., Hampton; and Thomas Roy Jones of Gloucester, Va., former Chairman of the Board and now consultant to Schlumberger, Limited and Treasurer of the Committee on Economic Development.

Also, Daniel C. Lewis, Vice President-Administration of The Chesapeake Corporation of Virginia, West Point; Raymond A. Mason, Chairman of the Board of Mason & Co., Inc., Washington, stockbroker; Walter G. Mason, Chairman of the Board of Mason & Lee, Inc., Lynchburg stockbroker; B. M. Millner, Partner in Marshall, Blalock, Garner and Millner of Newport News, also Vice Mayor of that city; Colin Park, Partner in Haskins & Sells of New York, and Major Gen. Howard F. Schiltz, Commanding General of the U. S. Army Transportation School.

The new Council will hold its first meeting at 2 p. m. on February 6 in the School of Business Administration's recently opened facilities in the college's mathematics and general classroom building. The building will be dedicated the following day at William and Mary's traditional Charter Day observance.

Millner, who with Raymond A. Mason was active in helping develop the Council, will act as temporary chairman. The group will elect a permanent chairman next month and determine how the Council will be perpetuated. It

SCHOOL OF BUSINESS ADMINISTRATION - con't.

is expected to meet at William and Mary twice a year.

Dr. Quittmeyer said the Council has four specific purposes:

1) To provide a go-between on points of view of executives and those in academic circles, as they relate to business, business education and business research.

2) To advise the Dean of the School on certain activities such as collection of instructional materials, organizing conferences, adult education and research;

3) To promote understanding and cooperation between the business community and the School through guest lecturers from industry, contact with students on the part of business executives, and through direct faculty involvement in management in consulting relationships; and

4) To promote the objectives of the School through fund raising activities and through advice on the use of such funds.

The School was established in February, 1968 after it had been a department for a number of years. In 1966, its faculty began to offer the Master of Business Administration degree which is available to both full and part time students.

It now has 160 upperclassmen concentrating in the field and 174 graduate students working toward the M.E.A. Plans call for expanding graduate enrollment by 30% next fall.

Aside from undergraduate and graduate academic programs, the School sponsors the Bureau of Business Research, which publishes a monthly analysis of Virginia economic trends known as the Virginia Business Index. It is edited by Dr. Leland E. Traywick, professor of business administration. The Bureau also published a separate monthly analysis of Williamsburg's economy and from time to time, issues special reports and studies on business and the economy.

Next Thursday, January 29, the varsity basketball team will play the University of Virginia in the Hampton Roads Coliseum beginning at 8 p. m. Frosh game with Apprentice School begins at 6 p. m.

FLAT HAT OFFERS JOURNALISM COURSE

Under sponsorship of the Flat Hat, a one--our non-credit course in basic journalism will be offered in the Spring Semester. Will Molineux, manager of the Williamsburg Bureau of the Newport News Daily Press, has been employed by the newspaper's editors to direct the course.

Registration will be open to all students interested in learning the fundamentals of journalism. A series of visiting speakers in various facets of journalism is being arranged to supplement class discussions and exercises.

Molineux, a 1956 graduate of William and Mary, has served as managing editor of the Virginia Gazette, and was a State Capitol reporter for the Richmond News Leader prior to becoming manager of the local Daily Press Bureau. He also served as managing editor of the Alumni Gazette at one time.

Carl Nelson, assistant editor, and Molly Shryer, managing editor, are co-directors of the program.

RETREAT - WORKSHOP SLATED FEB. 21-22
AT CAMP HANOVER, NEAR RICHMOND

The College-Wide Reading program will sponsor a retreat for students, faculty, and administration to discuss educational goals at the College, Feb. 21-22.

According to the information sheet circulated by the planning committee, the retreat will offer "opportunities for small group discussions of what education is all about, the curriculum, who should take responsibility for what, and what specific changes would be necessary to make the educational process more meaningful and involving."

The retreat will be limited to 120 people because of limited physical facilities and a \$6 registration fee will be necessary to help cover board and room. Those interested are being asked to register and indicate whether they would be willing to act as a group leader and or provide transportation. Participants are also being asked to list topics they would like to have discussed at the retreat-workshop. The retreat will be held at Camp Hanover, Presbyterian Church camp facility, east of Mechanicsville.

Further information concerning the retreat may be obtained from Pat Carroll, ext. 207; Prof. William Cobb, ext. 484; Winn Legerton, ext. 355; and Prof. Dorothy Riddle, ext. 231.

- - -

William and Mary basketball team will meet Furman in Blow Gymnasium Monday night, Jan. 26 at 8 p.m. The frosh game with East Carolina will begin at 6 p.m.

SYMPOSIUM OF SCHOLARS
PLANNED AT USC IN MARCH

Herbert A. Johnson, co-editor of the Papers of John Marshall, Institute of Early American History and Culture, will participate in a symposium of scholars entitled "The Place of the Southern Colonies in the Atlantic World," in Columbia, S. C., March 19-21.

The symposium is part of the program arranged by the South Carolina Tricentennial Commission at the University of South Carolina.

Dr. Johnson will be a discussant for a session on "The Legal Institutions in the Southern Colonies."

Colonial Williamsburg archeologist Ivor Noel Hume will also take part in the program as a discussant for the session on "Recent Archeological Work: South Carolina and Jamaica."

The morning and afternoon sessions of the symposium will be followed by a banquet on the University of South Carolina Campus. Principal speaker will be J. Steven Watson, The Principal, University of St. Andrews, Scotland.

NEW FESTIVAL FILM SERIES
PROGRAM STARTS FEB. 10

A new Festival Film Society program is being planned for the second semester.

According to Dr. David C. Jenkins the first film on the list will be The Salesmen. Showing is tentatively set for Feb. 10 at 4 and 8 p.m. in Phi Beta Kappa Hall.

The new series will include "Forbidden Games," "Lemonade Joe," (a Czech parody of an American Western) and a Laurel and Hardy film. The complete program will include a selection of 8 outstanding international films.

Advanced tickets for the new series may be obtained by mailing \$5 to Thad Tate, Festival Film Society, College of William and Mary.

Tickets will be available at the first performance.

- - -

The track team will be in Philadelphia Jan. 23. The William and Mary wrestlers will take part in a quadrangular meet at Virginia Military Institute Jan. 31.

DR. ROBERT O. NELSON
WALTER SPENCER ROBERTSON, SR.

Death came to two outstanding members of the College Community recently

Dr. Robert O. Nelson, former superintendent of Newport News Schools and a member of the faculty of the School of Education, died January 16 at Riverside Hospital. Walter Spencer Robertson, Sr., an Assistant Secretary of State for Far Eastern Affairs in the Eisenhower Administration and a member of the Board of Visitors, died in Richmond, January 19.

Dr. Nelson, 70, was superintendent of Newport News School for 19 years. He came to Newport News in 1946 to take charge of a school system that included 11 schools and had an annual budget of less than \$1 million. When he retired the system, as a result of the consolidation of Newport News and Warwick, had 32 schools and a \$10 million budget.

He joined the faculty of the School of Education at the College in September 1965 and remained on the faculty until ill health curtailed his activities.

In an editorial January 19, the Newport News Daily Press spoke of the highlights of Dr. Nelson's career in education and his lifelong love affair with kids in the classroom and teachers.

"It was back in 1958. He had been an educator for 40 years, and he faced two major crises that came upon his beloved school system, almost simultaneously. He had to preside over the merger of Warwick and Newport News schools when the two cities consolidated, and he was determined to keep the schools open at a time when patrons and politicians were urging classrooms be closed rather than have their students integrated."

"His widely acknowledged grasp of administrative and curriculum complexities aided the easy merger of two systems with disparate educational philosophies. His approach to the false sentiment of suspending education rather than integrate was of such a high plane and accomplished with such expertise, that Newport News schools were ending segregation without a ripple of concern from patrons."

"It was as if Dr. Nelson drew upon the eager enthusiasm of youngsters for his own never-flagging, keen interest in the working levels of teaching. If he had a love affair with his profession, he had a courtship with the kids, drawing out their tender thoughts, sharing their enlivening spirits, and in turn, suggesting, guiding, opening the way for pupils and teachers alike. Surely a great part of his own character, forged in the Ozark mountains, was shaped from the pressure of dialogue in his beloved classrooms."

-Walter S. Robertson-

Considered one of the chief architects of a pro-Nationalist China policy, Mr. Robertson served in the State Department from 1953 to 1959 when he retired.

He was a vigorous supporter of the Chinese Nationalist cause and a close friend of Generalissimo Chiang Kai-shek, and helped shape the American policy of nonrecognition of the People's Republic of China after the Communists had ousted the Nationalist forces in 1949.

In a Charter Day speech at the College in 1960, Robertson told his audience "to oppose by every feasible means the spread of Communist influence and power" demands that the United States continue to support and strengthen the anti-Communist Republic of China. He called Free China "firmly oriented in the Free World as an alternate focus of Chinese loyalty to the aggressive, threatening International Communist regime."

He received an honorary Doctor of Laws degree from the College at the Charter Day convocation and was cited as a "symbol of the devoted public servant." His current term as a member of the Board of Visitors would have expired in March.

Robertson's diplomatic career began when he became chief of the lend-lease mission to Australia in 1943-44. He was minister at the U. S. Embassy in Chungking, China and later charge d'affaires there. In 1946 he was commissioner and chairman of the Marshall Truce Commission in Peking.

He resigned from the Foreign Service in 1946 and went back to banking. He was appointed to the State Department by President Eisenhower and his first job was to persuade President Syngman Rhee of South Korea to accept the Korean armistice terms. After 16 days in consultations in Seoul during 1953 he won Mr. Rhee's acceptance and the three-year conflict was ended.

Robertson was born in Nottoway County and after studying at Hoge Military Academy, he attended William and Mary and Davidson Colleges, dropping out in 1912 to enter the banking business. He was active in the brokerage firm of Scott and Stringellow in Richmond until his death.

While his career included assignments in the Roosevelt, Truman and Eisenhower administrations, his interests were also wide and varied. He was interested in the historical society and the museum of fine arts in Richmond and was one of the founders of the Richmond Mission Hospital.

NEW VICE PRESIDENTS ARE NAMED

Vice Presidents for student and business affairs and a new Dean of Students have been appointed by the Board of Visitors.

The appointments were part of a major administrative reorganization announced in December, in which Carter O. Lowance has become Executive Vice President of the College. At that time, it was explained that Dr. W. Melville Jones, Vice President of the College, would become Vice President for Academic Affairs. He had earlier been offered the position of Executive Vice President, but declined because he will reach mandatory retirement age in 1971.

The Board appointed the following persons to complete the higher administrative organization:

--J. Wilfred Lambert, formerly Dean of Students, to the post of Vice President for Student Affairs.

--Robert T. English, Jr., formerly Bursar of the College, to the post of Vice President for Business Affairs.

--Carson H. Barnes, Jr., formerly Dean of Men, to the position of Dean of Students, previously held by Lambert. (con't. Page 2)

277th ANNIVERSARY

Charter Day convocation will be held at 11 a. m. in Phi Beta Kappa Hall. Principal speaker will be Prof. Arthur L. Goodhart, former Master of University College, Oxford. A legal scholar, Professor Goodhart is the only American ever to have been Master of an Oxford College. His subject is expected to be some aspect of life of Winston Churchill. Honorary degrees will be conferred upon Jack E. Morpurgo of London, a 1938 alumnus who is prominent in British literary and academic circles; and Robert Earl McConnell, a retired mining executive whose foundation has established the Thomas Jefferson Award. Professor Goodhart will receive the Marshall-Wythe Medallion. Announcement of the Thomas Jefferson Award to a member of the campus community whose work and life exemplify the concepts for which Jefferson is remembered will also be made at the convocation ceremonies.

WILLIAM & MARY

NEW VICE PRESIDENTS ARE NAMED - con't.

Under the reorganization, which the Board had said was dictated by the administrative workload caused by the College's recent growth and diversity, the three Vice Presidents will report to Lowance. The new Executive Vice President will be responsible primarily for internal affairs at the College, reporting to Dr. Davis Y. Paschall, President, thus freeing Dr. Paschall for greater involvement in external matters, and the College's major building program.

The appointments were made at the Board's regular January meeting, the first to be attended by the new Executive Vice President. It was explained that further steps in the reorganization, including filling the vacancy created by Barnes' promotion, will be considered at a later date.

Lowance had served as Executive Secretary to six Governors of Virginia and since 1966, had been Commissioner of Administration at the Capitol. He relinquished the position on January 17, when Governor Mills E. Godwin, Jr., left office, although he had been invited to continue in the Polton administration.

Dr. Jones, a native of Homestead, Pa., holds degrees from Allegheny College, Ohio State University and Harvard University. He taught English at William and Mary from 1928 until 1958, when he became Vice President of the College. Between September, 1956 and January, 1958, he served as program director of the 350th Anniversary of the Jamestown settlement. In 1966, the College honored him by conferring on him the coveted Thomas Jefferson Award.

Lambert is a 1927 alumnus of William and Mary and took graduate work at Johns Hopkins University. He has taught psychology at the College since 1931, while also serving successively as Dean of Freshmen, Dean of Men, Registrar and Dean of Students. He has been in charge of student affairs since 1946. A member of Phi Beta Kappa, he is a native of Ryan, Va.

English, a native of Richmond, studied at Virginia Mechanics Institute and the University of Richmond. He was business manager at the former Richmond Professional Institute from 1952 until 1960, when he became Bursar at William and Mary. Prior to entering the field of college business management, he had been in the advertising profession.

Barnes is an alumnus of Randolph-Macon College and holds a master's degree from the University of Virginia. A native of Bloxom, Va., he taught history and coached football and baseball at Parksley High School until becoming Assistant to the Dean at Ferrum College in 1956. He became Dean of Men at William and Mary in 1958, responsible for the housing of men and their academic and social affairs, as well as serving as chief fraternity officer.

NEW BUILDING TO BE NAMED
FOR PROFESSOR HUGH JONES

The College's new mathematics-general classroom building will be named Hugh Jones Hall.

Dedication ceremonies will be held at Charter Day, Saturday honoring an 18th century professor of natural philosophy and mathematics. Completed last summer, the building serves as the home of the departments of mathematics and philosophy, the computer center, the school of business administration and temporarily, the department of government.

Professor Jones was an Englishman, educated at Oxford. After taking his orders as a clergyman and applying for a parish in Virginia, he was appointed by the Bishop of London to the chair of natural philosophy and mathematics at the College of William and Mary in 1717.

Jones served in that position until 1721 when he went to England. He returned to the colonies in 1725 and after serving six years in the ministry in eastern Virginia and southern Maryland, became rector of St. Stephen's Church in Cecil County, Maryland, in 1731 where he served until his death in 1760.

A scholar of many talents, Jones was appointed in 1732 as chief mathematician for Maryland to serve Governor Ogle in the boundary dispute between Pennsylvania and Maryland.

He wrote "The Present State of Virginia," published in 1724 which was an extensive treatise on the history and development of the people, institutions, government, commerce, customs and countryside of Virginia.

The book also contained several significant recommendations for improving the College of William and Mary. Among these suggestions were three-year fellowships, one to be granted for study at Oxford or Cambridge, a chair of history, a chair of languages, and town masters for fencing, dancing and music.

Professor Jones is also credited with writing the first English grammar book written in America. "An Accidence to the English Language" was published in London in 1724.

According to Dr. Richard Morton, professor of history, emeritus, Jones' long study of mathematics after leaving Oxford made him one of the most capable and original authorities on mathematics in America.

"His suggestions for securing a natural, integrated and universal system of weights and measures place Hugh Jones among the leading scientific men of his day," said Dr. Morton.

NEW BUILDING TO BE NAMED FOR
PROFESSOR HUGH JONES - con't.

Dr. Morton, who has made an extensive study of Jones life, noted "from long study of Hugh Jones, I am confident that no name could better grace the handsome new home of our mathematics and philosophers than that of Hugh Jones, a many-sided scholar, sometime professor of mathematics and philosophy at the College of William and Mary."

COLLEGIUM MUSICUM CONCERT SUNDAY TO
FEATURE PIANIST RUDNYTSKY

Roman Rudnytsky, pianist, will give the fourth in the current series of Collegium Musicum concerts, Sunday afternoon in the ballroom of the Campus Center at 4 p.m.

Rudnytsky was born in 1942 into a musical family. His father is a pianist-composer-conductor and his mother was formerly a distinguished opera singer. He began the study of piano with his father at age four. At 13, he became the youngest student of Egon Petri in California. He graduated from the Juilliard School of Music where he was a scholarship student of Mme. Rosina Lhevinne. He also studied with Wilhelm Kempff in his Beethoven Masterclass in Positano, Italy and with Friedrich Wührer at the Mozarteum in Salzburg. He prepared for his Doctorate with Leon Fleisher at the Peabody Conservatory in Baltimore.

His concert here Sunday will include Sonata in E Flat Major, Opus 81a by Beethoven; Variations on a Simple Theme, Opus 38, Anton Rudnytsky; Gaspard de la Nuit, Ravel; and three scenes from "Petrouchka" by Stravinsky.

Mr. Rudnytsky gave his first recital at the age of seven and since then has been concertizing continually in the U. S., Canada and Europe including the Soviet Ukraine.

H. W. CUNNINGHAM RESIGNES
CHRISTOPHER NEWPORT POST

H. Westcott Cunningham, President of Christopher Newport College in Newport News since it was founded in 1960, will resign that post June 30 to become Headmaster of the Pingry School in Hillside, N. J.

The announcement was made simultaneously by President Davis Y. Paschall and in Hillside by William M. Bristol, President of the Board of Trustees of the Pingry School, a 109-year-old boys' preparatory school.

Dr. Paschall said that appropriate steps would be taken in the near future to choose a successor to Mr. Cunningham.

In a statement, Dr. Paschall said: "Not only the College, but the entire Peninsula community, will miss greatly the services of Mr. Cunningham. No person has given of himself more diligently in the development of Christopher Newport College to a four-year degree granting level than Scotty Cunningham. Its stature today is a tribute to his leadership, and we wish him every success in his new undertaking."

Walter G. Mason of Lynchburg, Rector of the William and Mary Board, said: "During my years of service on the Board of Visitors, I have come to know Mr. Cunningham quite well. I feel that he has given able leadership to the development of Christopher Newport College, and he has certainly cooperated admirably with the Board of Visitors and the Administration at William and Mary. I know my colleagues on the Board and the Administration share my keen regret in the loss of Mr. Cunningham's services. It will be difficult to replace so able an individual, but we will certainly devote our best efforts to finding a worthy successor."

In his letter of resignation, given to Dr. Paschall on Monday, Mr. Cunningham said he accepted the Pingry School's offer after "much soul searching." He continued:

"Certainly, William and Mary has long been a way of life for me and my family, and we spent many happy years in Williamsburg when I was Dean of Admissions and Student Aid at the ancient college. I have appreciated with humility the charge given me by the Board of Visitors in September 1960 to organize and head Christopher Newport."

"This young institution is now a healthy one with a devoted faculty, a solid student body and a fine physical plant. These have been accumulated through the help of an outstanding mother college and through the unceasing efforts of the Board of Visitors, the members of the General Assembly of Virginia, the City of Newport News, and thousands of interested citizens."

"I believe that Christopher Newport's future is assured as it can take its place proudly among the Commonwealth's senior institutions of higher learning," Mr. Cunningham wrote.

"I believe that Christopher Newport's future is assured as it can take its place proudly among the Commonwealth's senior institutions of higher learning," Mr. Cunningham wrote.

H. W. CUNNINGHAM RESIGNES
CHRISTOPHER NEWPORT POST - con't.

- *William & Mary Alumnus* -

Mr. Cunningham is an alumnus of the Pingry School and of the College of William and Mary in 1943. His wife, the former Cecil Cary Waddell, is also an alumna of William and Mary, of the Class of 1946. Mr. Cunningham completed course work for a master's degree from the College in 1949, and then pursued a doctoral program in 1950 at the University of Michigan. While an undergraduate at William and Mary, he served in a number of leadership posts including president of the Student Association governing body.

APPLICATIONS DUE FOR EXETER, JUNIOR YEAR

ABROAD PROGRAM

Applications for the Junior Year Abroad Program at the University of Exeter, Exeter, England, and for exchange scholarships at the University of Exeter and the University of St. Andrews, Scotland, will be accepted until March 13.

Students completing their sophomore years with a grade point average of 1.5 or more may apply for any of these places; seniors are eligible for the Exeter exchange scholarship only. Openings for science concentrators are limited, but students with interests in any of the following fields are encouraged: archaeology, classics, economics, English, geography, government, history, mathematics, modern languages, music, philosophy, sociology, or theology.

Minimum requirements for applicants include full-time enrollment and a cumulative grade point average of 1.5.

In announcing the programs, Dr. Cecil McCulley estimated the approximate cost of tuition, lodging, and board for the Junior Year Abroad students to be \$1200 for the year, without transportation, books, laundry, and living expenses during the long Christmas and Easter vacations. The two exchange scholarships cover tuition, lodging, and board, but not the other costs.

McCulley announced an information meeting for all students interested in the opportunities on Thursday, February 12, at 4 p.m. in MEETING ROOM D, at the Campus Center. Susan Lohwasser, who spent her junior year at Exeter in 1968-69, will show slides of the University, and all types of questions may be asked.

Application forms are available in the office of the Dean of the Faculty of Arts and Sciences or from Professor Mc Culley in Wren 312.

*SEMINAR ON POLLUTION PROBLEMS
SLATED MONDAY IN MILLINGTON AUDITORIUM*

Representatives of state agencies, and officials from neighboring communities and military installations on the peninsula are expected to attend the public seminar on pollution problems to be held Monday night, February 9 at 7:30 p.m. in Millington Hall auditorium.

According to Prof. Carl Vermeulen of the Biology Department, Robert Kirby, Acting Director of the State Planning Commission; Richard Arey, Executive Secretary of the State Air Pollution Board and Alan Passler, Executive Secretary of the State Water Control Board have all indicated that they will attend Monday night. Delegate Russell M. Carneal is also expected.

Senator William B. Spong, Jr., a member of the senate subcommittee on air and water pollution will be the principal speaker and will speak to the theme of the seminar "What Can the College Community Best Do to Better the Environment." He will be accompanied by aides from the senate committee.

The seminar is being sponsored jointly by the biology, chemistry, geology and physics departments at the College, Williamsburg Restoration, Inc., the Society of Sigma Xi, the Williamsburg Committee for Quality Environment and the Williamsburg-James City County League of Women Voters.

The League will sponsor a reception following the seminar.

*RESEARCH CENTER REPRESENTATIVES
ON CAMPUS FEB. 9 - 10*

On Monday and Tuesday, February 9 and 10, representatives of the North Carolina Science and Technology Research Center will be at William and Mary to explain their program to provide assistance to graduate students conducting literature searches in support of their thesis investigations.

The Center has a computer-based file of 400,000 documents which NASA has indexed and abstracted since 1962 in the areas of physics, chemistry, mathematics, psychology, and some areas of education.

Their plan is to hold a general meeting for interested faculty and students on Monday morning to explain the system. Representatives of the Center will then meet personally with individuals interested in designing a literature search on Monday afternoon and on Tuesday, as necessary.

The general meeting will be held in the small auditorium in the Swem Library at 10:00 a.m. on February 9.

NAVY TEAM WINS TOP HONORS AT
MARSHALL WYTHE DEBATE TOURNEY

A team of debaters from the Naval Academy took top honors at the annual Marshall-Wythe Debate Tournament held over the weekend.

Ohio Northern University placed second and the two other semi-finalist teams were Emory University and Southern Colorado State College.

Two William and Mary debaters were among the top speakers in the tournament. John Morello of Hampton placed second with a point score of 204 out of a possible 240 points. Kathy Shirley of Overland Park, Kans., won 200 points.

The William and Mary team ranked second at the time of seeding the rounds. As hosts for the tournament, however, the team withdrew from the competition for the trophies and certificates. Following the final round of debate Saturday night, trophies of silvere Revere howls were presented to the first and second place winners, the semi-finalists and four schools in the quarterfinals.

Framed certificates, designed as copies of colonial broadsides were awarded to eight schools.

The three-day tournament was planned under the direction of Donald L. McConkey, director of debate.

DONALD BAXTER NAMED
TO NEW POST ON CAMPUS

Donald J. Baxter, assistant professor of government, since 1967, has been appointed to the new part-time position of director of grant and research contract administration.

Baxter will be responsible to Warren Heeman, who last fall was named an assistant vice president of the College and Director of the Virginia Associated Research Campus. He formerly served as director of institutional resources in charge of federal grant programs.

Baxter holds degrees from Sacramento State College and Syracuse University and will continue to teach a course in the government department. He will be responsible for internal administration of research grants and will assist in developing proposals for new grants for submission to appropriate agencies.

* * *

The Library is currently displaying in the Museum recent acquisitions by the Manuscripts and Rare Books Departments.

MARSHALL-WYTHE SYMPOSIUM
OPENS TOMORROW AT 4 P.M.

The annual Marshall-Wythe Symposium will take as its topic this year "Divided Nations."

Problems of violence, civil war and separatism in various parts of the world which plague the local inhabitants and may become of international concern, will be discussed in the symposium which opens tomorrow, Feb. 6.

Economics, political, social and cultural problems in such countries as Belgium, Germany, Ireland, Vietnam, Canada, South Africa, Indonesia, Nigeria, Korea, Palestine, China and Guyana will be discussed in the weekly meetings.

Speakers for the symposium will be drawn from public life and other universities and have special competence in their areas. Members of the faculty of the College will also be symposium speakers.

The symposium carries a one hour credit and students will be required to read "Political Unification" by A. Etzioni. Additional readings will be suggested. The course ends with an examination.

Students not taking the course are welcome as auditors for particular lectures.

Dr. Warner Moss of the Government Department will give the introductory lecture and will also lecture on the Republic of Ireland and Ulster. Professor Chonghan Kim, also of the Government Department, will lecture on North and South Korea.

Last year the symposium dealt with Hunger and the previous year the topic was Violence.

Lectures begin at 4 p.m. on Fridays and are held in Millington auditorium.

ECONOMIST GOES MOD
SEES "MINI" RECESSION

A national "mini-recession" at the end of 1969 had its effects on Virginia's economy, an analysis of the year's business and economic indicators shows.

Dr. Leland E. Traywick, director of the Bureau of Business Research drew the conclusion after reviewing year-end figures.

"As a whole, 1969 was a year of good business and high levels of employment (in Virginia). Only toward the end of the year do the signs reflect conditons of slower growth and development," Dr. Traywick wrote in the January Virginia Business Index.

CAMPUS CHEST
SETS GOAL AT \$1,000

Undaunted by the aura of doom usually associated with Friday the 13th, students have chosen that day to open what they hope will be a successful campus chest drive to raise \$1,000.

Virginia Vogel, the daughter of a Navy family, who calls Norfolk home, will head this year's drive which will involve the campus in a week-long fund raising program.

The students are out to raise money to build a playground for children in a rural area near Toano. They would like to buy property, lay a hard top play area and basketball court and erect a building to house equipment.

The idea of the playground is a continuation of a community involvement program which has been underway for some time on campus. Last year the Campus Chest funds were used to purchase a bus to bring children from outlying areas into Williamsburg for recreational, educational and cultural opportunities. Part of this year's Chest will be used to continue maintenance on the bus.

Miss Vogel worked closely with Jeffy Shy, of Birmingham, Mich., who had directed Circle K activities with community youth groups and the Rev. Junius H. Moody, pastor of the Chickahominy Baptist Church in setting up the Campus Chest playground project.

The Campus Chest drive will open with a campus-wide heart sale as a prelude to St. Valentine's Day. Sue Cunningham of Richmond has been appointed chairman of this division of the drive. Friday evening Cindy Goodrich of Surry, will be in charge of "The Campus Trivia Bowl" in the Campus Center Little Theatre, a fun program designed to add money to the Chest.

Les Zimmerman of Demarest, N. J., and Mark Wilson of Richmond, will head the hot dog concession at the February 14th basketball game in Blow gymnasium against VMI.

Fraternities and sororities on campus will select entrants for the Miss Irresistible and Mr. Snowman contest which has become a traditional part of the Chest drive.

Contributions from faculty, community and campus organizations will be sought in the course of the week-long drive. A display of pictures and information concerning the Chest Drive project and plans for the future will be set up in the Campus Center during the drive by Luann Ackermann of Arnold, Md. Drive workers also include Linda Reeder, Richmond, Va., and Robin Owens, South Boston.

NEW YORK PRO MUSICA
HERE FEBRUARY 12

The College of William and Mary Concert Series will present the New York Pro Musica, Thursday evening, February 12 at 8:15 p.m. in Phi Beta Kappa Hall.

The box office will open at 8 p.m. on the night of the performance and single admission tickets will be available at that time at \$3 each.

A group of singers and instrumentalists, the ensemble has been highly praised for its rare combination of high artistic imagination and scholarship in the presentation of medieval music. One music critic referred to the ensemble as "The Loving Spoonful of the mediæval set."

In an attempt to keep scoring as close as possible to the performance practice contemporary with the composition, the Pro Musica ensemble uses a variety of unusual instruments. These include the Rauschpfeife, a loud wind instrument; the harpsichord, the Krummhorn, a soft wind instrument; the organetto, sackbut, the early trombone; the vielle, the medieval fiddle; as well as recorders and the lute.

The instrumentalists form one half of the ensemble and the singers the other. There are ten in the Concert ensemble.

For their concert here, the Pro Musica will present a program of Renaissance Music of England 1300-1600.

The busy schedule of the ensemble includes concert appearances, recording sessions and seminars at college and universities. Recordings for Decca include "Petrucci, First Printer of Music:" "The Kynge's Musicke," instrumental music of the Tudor court, including the debut of the New York Pro Musica's Consort of Viols; and "Music for a Medieval Day."

The New York Pro Musica also maintains one of the largest practical instrument collections in the world, and has a music library which is widely used by academic and professional researchers.

PHYSICS COLLOQUIUM

Dr. Min-yi Chen of Columbia University will speak on "Nuclear Polarization in Muonic Atoms" at the Physics Colloquium Friday afternoon, Feb. 6 at 4:30 p.m. in Room 109 of William Small Physical Laboratory. Coffee will be served in the Conference Room at 4 p.m.

* * *

The first film in the new Festival Film Society series will be "The Salesmen," to be shown Tuesday February 10 at 4 and 8 p.m. in Phi Beta Kappa Hall. Season tickets will be available at the first performance.

ENVIRONMENTAL CONTROL ADMINISTRATION
OFFERS GRANT PROGRAMS

The Environmental Control Administration of the Consumer Protection and Environmental Health Service is the focal point within the Public Health Service, U. S. Department of Health, Education, and Welfare, for an accelerated national attack on high-priority human hazards and stresses in the environments of community, work, school, recreation and home. The mission of the Environmental Control Administration is to preserve and improve the physical environment in order to promote the health and welfare of man through programs designed to reduce levels of exposure of people to the hazards of improper housing and use of space, noise, rodent and insect vectors, occupational and community accidents, waterborne disease, radiation, and waste accumulation. The Administration's major efforts are focused on the problems of solid wastes, occupational health and safety hazards, human injuries, and the safety of electronic products.

Universities, hospitals, research foundations and other nonprofit organizations can contribute to these efforts through the Environmental Control Administration's grant mechanisms utilizing the skills of their physicians, engineers, physicists, chemists, biologists, statisticians, and other specialists.

The environmental Control Administration administers grant programs for the support of research, research training, training, demonstration, survey and planning grants, and fellowships.

LUDWIG VAN BEETHOVEN 1770-1827

The bicentennial anniversary of Beethoven's birth will be celebrated around the world this year. The local celebration opened with the Norfolk Symphony Orchestra's Beethoven concert, Feb. 1 at Phi Beta Kappa Hall with Russell Stanger conducting.

Sunday, February 8, at 4 p.m. in the Campus Center ballroom, Roman Rudnytsky will play Beethoven's Sonata in E-flat Major, Opus 81a (The Farewell),

March 8, F. Donald Truesdell will include the Sonata in D Major, Opus 10, No. 3 in his recital. Dr. Fehr plans to include some of the composer's choral works in his spring concerts in April.

The commemoration will climax locally during the actual week of Beethoven's birth (Dec. 16) with special concerts of his music on the Collegium Musicum Series and an exhibit at the Earl Gregg Swem Library of a large collection of first editions from the archives of Broadcast Music, Inc. of New York City.

ECONOMIST GOES MOD - con't.

Despite Virginia's economic success in 1969, gains were marred not only by slower growth due to tight money and fiscal policies, but by the rate of price inflation.

For example, he said, personal incomes in Virginia increased nine per cent in 1969, compared to the national 8.2 per cent average. But with inflation, the real gain for Virginia was only 2.7 per cent, he added.

For the entire year, Dr. Traywick and his staff computed these gains across the state:

Bank debits were up 23.7 per cent; electrical consumption was up 11.4 per cent; newspaper advertising lineage was up 4.5 per cent; non-agricultural employment rose by 2.1 per cent; postal receipts were up 5.2 per cent; retail sales rose by 4.3 per cent and water consumption was up 1.5 per cent. The only economic indicator that showed a decline from 1968 was building permits, which were down 3.4 per cent--a drop attributed to tight money and high borrowing rates.

DEPARTMENTAL NEWS

BIOLOGY

Bruce S. Grant in the Biology Department has suggested that members of the faculty might be interested in the Monday, February 9 Johnny Carson Show on NBC TV (circa, 11:30 p.m.).

This is a re-run of an earlier broadcast which featured a one-hour interview with Dr. Paul Ehrlich. Dr. Ehrlich is a prominent population geneticist from Stanford University and is an outstanding speaker and conversationalist. His discussion focused on the population explosion, a subject he has vividly considered in his most recent book The Population Bomb.

GOVERNMENT

Dr. George Grayson, Assistant Professor of Government, addressed the Richmond Educational Foundation January 20. The topic of his talk was "Recent Voting Patterns in the Third Congressional District."

MATHEMATICS

Professors T. L. Reynolds and P. V. O'Neil attended the annual joint meeting of the American Mathematical Society and the Mathematical Association of America in San Antonio, Texas, January 22-26.

"Ulam's Conjecture and Graph Reconstructions" by Dr. Peter V. O'Neill appears in the January issue of the American Mathematical Monthly.

DEPARTMENTAL NEWS - con't.

MUSIC

Stephen P. Paledes attended the annual meeting of the Association of College and University Concert Managers in New York during December.

On December 27, the Department of Music was host to a meeting of the officers, committee chairmen, and district representatives of the Virginia Music Teachers Association. Department Dead, F. Donald Truesdell is the newly elected president.

Truesdell attended a meeting in Richmond January 17 with other music department representatives from around the state to organize the Virginia College Music Society. A constitution and by-laws were formulated, officers were elected and it was voted affirmatively to request recognition and affiliation with the national College Music Society.

There is a date error on the recently issued spring music calendar. The Senior Music Student Recital is April 2, not 1.

PSYCHOLOGY

Drs. E. Rae Harcum and Peter L. Derks have been invited to participate in a symposium on Human Short-Term Memory, scheduled by the Southeastern Psychological Association for its annual meeting to be held in Louisville, Kentucky, April 24-26.

Dr. Harcum will present a paper entitled "Subject Strategies in Differential Short-Term Memory." Dr. Derks will be a discussant.

THEATRE AND SPEECH

Prof. Louis E. Catron's play, "Interrogation," is now being presented off-off Broadway. It opened Dec. 13.

Dr. Catron has been recently informed that another of his plays will be presented at the Southeastern Theatre Conference, in Mobile, in early March, on a special invitation basis. One was presented to the same conference last year.

SWEM LIBRARY

Mrs. Mary Louise Cobb, Acting Cataloging Librarian, attended the Mid-Winter Conference of the American Library Association in Chicago last week. Mrs. Cobb is a member of the Association of College and Research Libraries Committee on Library Services of the American Library Association.

Please use this sheet to send in news for the next issue of the Colleague on February 12. Deadline for copy is Tuesday, February 10.

We are interested in the meetings you have attended, the papers you have presented, publications, research projects in progress, etc.

THOMAS JEFFERSON AWARDS PRESENTED

Two members of the Faculty of Arts and Science were honored with Thomas Jefferson Awards at Charter Day ceremonies on Saturday.

Dr. Cecil M. McCulley of the English Department received the Thomas Jefferson award given to a member of the campus community whose work and life exemplify the concepts for which Jefferson, an alumnus of the College, is remembered.

Dr. Thomas K. Hearn, Jr., of the Philosophy Department, is the first recipient of the newly established Jefferson Teaching award.

Both awards are made possible by a grant from the Robert Earl McConnell Foundation whose founder received an honorary doctor of laws degree at Charter Day ceremonies. Also recipient of an honorary Doctor of Humane Letters degree was Jack E. Morpurgo, of London, England, a 1938 alumnus who is prominent in British Literary and academic circles.

Speaker for the Charter Day program was Professor Arthur L. Goodhart, former Master of University College, Oxford University, England, the only American ever to have been Master of an Oxford College.

The award to Dr. McCulley comes after 22 years of teaching at the College of William and Mary. A native of Dallas, Texas, he received his A.B. and M.A. degrees from Southern Methodist University and a Ph.D. degree from Columbia University.

The 1968 Colonial Echo was dedicated to Dr. McCulley for his "outstanding qualities as a teacher coupled with his numerous efforts on the students' behalf as a member of the Student Publication Committee and the Student Activities Fee Committee as well as other groups, which have won him the esteem of students and faculty alike."

The Thomas Jefferson Award citation noted his "deep and encompassing devotion to the teaching of English and American literature for the past twenty two years which has gained Dr. McCulley the respect of generations of students and the admiration of his colleagues. Whether it is a course in English drama, Shakespeare, or the literature of the eighteenth century, to name a few of his specialties, the same careful and painstaking preparation, the love of teaching, the sound scholarship is always present. To him teaching has always been a serious business, and for him teaching has extended beyond the classroom."

FEB 16 1970
WILLIAM & MARY

THOMAS JEFFERSON AWARDS - con't.

Professor McCulley recently returned from England where he was Visiting Professor of English at the University of Exeter. He is the seventh recipient of the Thomas Jefferson Award.

Dr. Hearn, who is currently on leave to conduct research under the Cooperative Program in the Humanities at Duke University and the University of North Carolina, received the new Jefferson Teaching Award established as a tribute to the several members of the faculty of the College who influenced and encouraged the young Thomas Jefferson. The award will be made annually on Charter Day to a teaching member of the College Community.

- PROFESSOR HEARN -

Dr. Hearn, a native of Alabama, received his bachelor's degree from Birmingham Southern College in 1959 and spent the following year in Scotland studying theology in the University of Glasgow on a Rotary Club Fellowship. He studied at Vanderbilt University as a National Defense Education Act Fellow and received his Ph.D. in 1965. He is a member of Phi Beta Kappa.

"In his five years at William and Mary," read his citation "Professor Hearn has distinguished himself as a teacher and scholar while finding time to take an active part in the community life of Williamsburg and to work devotedly for the general welfare of the College.

In last year's student evaluation of the Faculty he was chosen as one of "The Top Ten Professors at William and Mary."

Professor Hearn's research interests have centered on problems of ethics and meta-ethics with special reference to the philosophy of David Hume. He is the editor of Studies in Utilitarianism, shortly to be published by Appleton-Century-Crofts, and he is currently engaged in a major study of the relation between ethics and theory of knowledge in Hume's philosophy.

- Professor Goodhart on Churchill -

In an interesting and entertaining talk about Winston Churchill and his ties with America and Virginia, Professor Goodhart drew from his own acquaintance with the former prime minister.

"It is not surprising that to a man like Churchill who always thought in such historical terms," said Professor Goodhart, "the history of Virginia, and especially of Williamsburg should have had a special appeal. So much of the American Constitution stems from the English political philosophers such as Sir Edward Coke and John Locke, that Churchill, who was a sound Whig at heart, felt at home when discussing some of the problems which Great Britain and The United States have had to face under modern circumstances." (con't. 4)

ADVISORY COUNCIL ELECTS ACKERMAN

L. C. Ackerman, president of the Newport News Shipbuilding and Drydock Co., has been elected chairman of the Advisory Council to the School of Business Administration.

The 15-member Council took the action at its first meeting over the weekend in conjunction with the College's 277th anniversary Charter Day program.

Elected vice chairman was Frederick Deane Jr., president of Virginia Commonwealth Bankshares, Inc. of Richmond. Deane is also vice chairman of the board of the Bank of Virginia.

Dr. Charles L. Quittmeyer, Dean of the School of Business Administration, was named secretary-treasurer of the Council. Assistant secretary-treasurer will be Marvin M. Stanley, professor of business administration.

The Council was formed to advise and assist the two-year-old school in its activities and programs, including development of financial support.

The group voted to hold meetings twice a year, in April and October. Its next meeting is scheduled April 17.

Ackerman also named four committees to work on specific phases of Council activities. Raymond A. Mason of Washington was named chairman of the finance committee, which includes Deane, August A. Busch III, and Walter G. Mason of Lynchburg. Duncan M. Cocke of Williamsburg was appointed chairman of the research and consulting committee, with Maj. Gen. Howard F. Schiltz of Fort Eustis and Dr. Colin Park of New York as members. W. Brooks George of Richmond will head the institutional liaison committee, which includes Arthur L. Clark of Richmond and Jerry T. Faubion of Williamsburg. The professional standards committee will be headed by Daniel C. Lewis of West Point, assisted by I. L. Griffin of Hampton and Thomas Roy Jones of Gloucester.

The executive committee will include Ackerman, Jones, Deane, and Raymond Mason and B. M. Millner of Newport News.

PHYSICS COLLOQUIUM

On Friday, February 13, at 4:30 p.m. (coffee at 4:00) in the William Small Physical Laboratory (coffee in Conference Room - Colloquium in Room 109) J. Glenn McComas, Illinois Institute of Technology, will speak on the following subject:

"Bubble Chamber Study of Low Momentum K^- - He^4 Scattering".

THOMAS JEFFERSON AWARDS - con't. (PROF. GOODHART ON CHURCHILL)

"Perhaps the Virginian he most admired was General Marshall. When it came time to appoint a Commander-in-Chief in Europe for all the Allied Armies Churchill was in favor of Marshall who had been promised the post. President Roosevelt, however, wished General Eisenhower to be appointed, as he felt that he needed General Marshall as his Chief of Staff in Washington. General Marshall said that if the President needed him in Washington he must go there. Churchill, who always wanted to be where the direct fighting was, regarded this as the supreme sacrifice.

Sprinkling his talk generously with humorous Churchillian anecdotes Professor Goodhart concluded, "I feel that it was right to emphasize in such detail Churchill's affection for Virginia because of him it has been said that he was wholly British and also half American."

- Charter Day Footnotes -

While the usual preparations for Charter Day were being made to assure proper seating, placement of regalia and order of procession, preparations were also quietly made to insure that the recipients of the Thomas Jefferson Awards were on hand to receive their honors.

Professor Hearn on leave this year was asked to return to Williamsburg with his family for a special "curriculum meeting" called by Philosophy Department chairman Frank MacDonald.

Professor McCulley, who likes to spend a leisurely Saturday morning, had to be tricked into an early start so his daughters and his family could dress for the occasion without giving away the secret.

BACKDROP CLUB TO DO "SELLOUT"

The Backdrop Club has announced that it will produce a student musical "Sellout" May 7, 8 and 9 in Phi Beta Kappa Auditorium.

Co-authors are Larry Raiken and Bill Brooke, both collaborators on the highly successful "Stop 13" given in 1968.

Backdrop Club producer is Melinda Garrett. Ralph Mann will serve as musical director and Karen Hunsberger, choreographer. Assistant producer is Harvey Credle.

Exhibits on Campus. Cartoons by Pat Oliphant. Thru March 1 in Phi Beta Kappa Hall. Contemporary Paintings from the Museum Collection. Thru February 24, Andrews Hall.

*FOREIGN SERVICE OFFICERS
TO VISIT FEB. 16 - 18*

The Political Science Forum in conjunction with the Department of Government will be host to four senior Foreign Service Officers February 16-17-18, members of the Department of State's Senior Seminar in Foreign Policy.

This is the most advanced program of studies in international affairs and foreign policy in the United States Government and is open to senior foreign service officers who have returned from posts abroad.

The seminar devotes sixty percent of its time to domestic issues in the United States in order to better prepare its Members to represent this country abroad.

An important objective of the seminar is to acquaint its members with the concerns of university students in this country and, in turn, to provide an opportunity for exchanges of views. Visits to campuses throughout the country are part of the assignment of a Foreign Service Officer in the Senior Seminar.

Ambassador Delmar R. Carlson will head the delegation visiting the campus. Prior to his assignment to the Senior Seminar in Foreign Policy, Ambassador Carlson was United States Ambassador to Guyana in South America. Accompanying Ambassador Carlson will be Elizabeth Ann Brown, previously Director, Office of United Nations Affairs, Department of State; Darrell I. Drucker, Jr., previously with the Voice of America, United States Information Agency; and Clifford R. Nelson, most recently, Coordinator, Viet-Nam Training Center, Foreign Service Institute.

The Group hopes to meet informally with students, for the most part, but will be available to discuss special topics in their respective fields of knowledge and experience.

Ernest Cote, Student President of the Political Science Forum; Professor Chonghan Kim, Faculty Moderator; Professor James M. Roherty, Chairman, Department of Government; and Professor Nathan Altshuler, Chairman, Department of Anthropology make up the Local Arrangements Committee.

WHO To take for WHAT, Volume II

A second edition of the Student Association's Course Evaluation Guidebook is now in the mill. It will cover the 1969 fall semester and will probably be out the first part of May.

Rob Jolly is chairman of the SA Academic Affairs Committee which has already distributed evaluation sheets throughout the dorms.

JUNIOR YEAR ABROAD
EXCHANGE SCHOLARSHIPS

An information meeting will be held this afternoon in Room D in the basement of the Campus Center at 4 p.m. for those interested in the Junior Year Abroad Program at the University of Exeter in England and the Exchange Scholarships at the University of Exeter and the University of St. Andrews in Scotland.

Applications are now being received for the College's Junior Year Abroad Program at the University of Exeter and its exchange scholarships at the University of Exeter and the University of St. Andrews in Scotland.

Six students will be chosen for the Junior Year Abroad Program, and one for each of the exchange scholarships. All these programs of study begin in October, 1970, and run throughout the academic year 1970-71.

The deadline for applications and letters of recommendation is Friday, March 13th.

Any sophomore may apply for any of these places, provided he is enrolled as a full-time student at the College, will attain junior status by June, 1970, and by the end of the third semester of his college work has a cumulative grade point average of 1.5 or more.

Any senior who is a full-time student, will graduate by August, 1970, and has a grade point average of 1.5 or more may apply for the University of Exeter exchange scholarship.

A more detailed description of the program and application forms are available either in the office of the Dean of the Faculty of Arts and Sciences or from Professor Cecil McCulley in Wren 312.

LECTURE SERIES SPONSORED
BY PHYSICS DEPARTMENT

During the week of February 9 through 13, L. M. Falicov of California, Berkeley, visited the Department and gave a series of lectures on:

Electron-Electron Correlations in Molecules and Solids.
(All lectures were held in William Small Physical Laboratory).

1. The two-electron homopolar molecule: the lessons we learn from it.
2. Spin-and charge-density waves in cyclic hydrocarbons.
3. Insulator to metal transitions.
4. The many phases of chromium I.
5. The many phases of chromium II.

NEW YORK PRO MUSICA TONIGHT

Individual tickets are still available for tonight's performance of the New York Pro Musica in Phi Beta Kappa Hall at 8:15 p.m. Single admission is \$3. The box office will be open tonight at 8 p.m.

This unusual group of singers and instrumentalists have been highly praised for their presentation of Medieval music which one reviewer from the Washington Star called "a fascinating performance with bold and imaginative strokes - a musical tumble in the hay."

"Pro-Musica is lusty and devoid of a certain preciousness which can creep in unless the director is on guard," said another reviewer.

The concert ensemble has appeared in concert both here and abroad, has made several records for Decca including "Music for a Medieval Day," appeared on TV and directed seminars in several colleges and universities.

WALTER TERRY TO SPEAK FEB. 18

Walter Terry, dance critic and editor for the Saturday Review, will give a lecture on Wednesday, February 18 at 8 p.m. in the Campus Center Little Theatre.

Currently making a lecture tour of six Virginia colleges and universities under the sponsorship of the University Center in Virginia, he will speak on "The Dance of Social Comment."

Terry, who has a weekly radio show "Invitation to Dance," has served as dance consultant for many national television shows. Among his books are The Ballet Companion, Isadora Duncan: Her Life, Her Art, Her Legacy, The Dance in America and On Pointe! The Story of Dancing and Dancers on Toe.

A native of New York, Terry received a Bachelor of Arts degree from the University of North Carolina and was active with the Carolina Playmakers. He received a Doctor of Fine Arts degree in 1968. He was dance editor for a recently revised edition of the Encyclopedia Britannica and has served as dance consultant for many national television shows.

He also served as dance critic and editor for the Boston Herald, the New York Herald Tribune and the World Journal Tribune before assuming his present post with the Saturday Review in 1967.

Debaters Win-Loss Scoreboard - College debaters came home from a weekend of debating at the University of Richmond and Northwestern University with a 3-3 win-loss record from Richmond and a 3-5 record from Illinois. This weekend the debaters will compete at the U. S. Naval Academy and Old Dominion University.

PARIS ATELIER

The University Center, of which William and Mary is a member, maintains a studio in Paris for the use of faculty members and graduate students of Center institutions.

Fully furnished and air conditioned, the studios are equipped appropriately for occupancy by painters, musicians or sculptors. Each has a separate sleeping alcove, small kitchen, bath and telephone, and will accommodate one or two people. Sheets, blankets, eating and cooking utensils and maid service are provided. There is a small monthly fee for these provisions and services.

The Center's permanently assigned atelier, equipped for the study of music, is located on the top floor of the main building of ateliers in the Cite Internationale des Arts, and has a balcony which overlooks the Seine. Painters or sculptors would be assigned to another atelier properly equipped for study in their particular field.

Application for use of the atelier may be made by letter to the president of the University Center, stating the applicant's field of study. Applications should be supported by the chairman of the department and the president of his institution.

Requests for summer and fall occupancy should be made by March 15.

Application forms may be obtained from Dr. J. H. Willis or Professor Thomas Thorne.

THE TELEPHONE by MENOTTI

Three students, Lois Beckwith, soprano; Matt Spady, bass; and John Gerhart, piano, will perform Menotti's comic opera "The Telephone" Sunday morning at 11 a.m. in Room 100 of Ewell Hall for the Unitarian Fellowship of Williamsburg.

The students recently performed for the Experimental Lab Theatre in Phi Beta Kappa.

LIBRARY EXHIBIT

During February the Library is displaying in the museum recent acquisitions by the Manuscripts and Rare Books Department.

GLEN E. McCASKEY APPOINTED
BOARD OF DIRECTORS - ALUMNI

A 1963 alumnus of the College of William and Mary has been appointed to serve an unexpired term on the Board of Directors of the College's Society of Alumni.

He is Glen E. McCaskey, a native of Williamsburg, who succeeds William E. Pullen '22. Pullen, former chairman of the board of the U. S. Fidelity and Guaranty Insurance Co., resigned his term which expires in December, 1971.

McCaskey is currently assistant to the vice president of marketing and public relations for Rock Resorts, Inc. of New York. Early in April, he will become executive director of the Institute of Environmental and Leisure Studies at Sea Pines Plantation, Hilton Head, South Carolina. Formerly, he was on the public affairs staff of the Franklin Institute, Philadelphia.

McCaskey, the son of Mr. and Mrs. Thomas G. McCaskey of Williamsburg, is a member of Lambda Chi Alpha social fraternity and served on the staffs of all three student publications and the radio station. A member of the Young Democrats and Canterbury Club, he was also a member of the Political Science Club, Tau Kappa Alpha, forensics honorary, Pi Delta Epsilon journalism honorary and was a fine arts major.

His appointment was made by Mrs. Pamela Pauly Chinnis of Alexandria, the Society's current president.

McCaskey will be the 15-member Board's youngest member. The next youngest members are Hugh S. Haynie and Chester F. Giermak, both class of 1950.

FESTIVAL FILM THURSDAY

The second film in the current Festival Film Series, "La Guerre Est Finie" will be shown Thursday, February 19 at 4 p.m. in the Botetourt Theatre, Swem Library, and at 8 p.m. in Andrews Hall.

This is a French film made in 1966 co-starring Yves Montand and Ingrid Thulin. It tells the story of a disillusioned revolutionist in Franco's Spain.

Series tickets for the entire semester program are \$5 each.

Sports This Week

- Monday, Feb. 16 Basketball, W & M vs Old Dominion, Hampton Roads Coliseum
Wrestling, W & M vs Old Dominion, Blow gym.
Wednesday, Feb. 17 Basketball, W & M vs East Carolina, Blow gym.

COLLEGE-WIDE READING PROGRAM RETREAT

Students, faculty and administrators who are interested in participating in the retreat on February 21-22 sponsored by the College-wide Reading Program may obtain registration blanks from the secretary in the counseling center or from students Pat Carroll or Winn Legerton or Professors Dorothy Riddle or William Cobb.

Participants in the retreat will leave campus Saturday morning and return early Sunday afternoon. The six dollar fee for housing and meals must be paid by Friday, February 13.

ALUMNUS PREPARE[^] EXHIBIT FOR
RICHARD BLAND COLLEGE

Dividends from a U. S. Army stimulated hobby are on display this month at Richard Bland College Library.

Sea shells, some 65 varieties, from all parts of the world include such exotics as the venus comb, cameo helmet, angel wing and murex. They represent travels to Hawaii, Panama and Europe taken during a 27 - year military service for the John R. C. Oberseider family of Petersburg.

The case was prepared by Miss Nancy Oberseider during a semester break from the University of Maryland where she is a doctoral candidate in the field of United States and Latin America history. She earned a master's at the College of William and Mary and has taught both at Madison College and Richard Bland.

SWIMMING CHAMPIONSHIPS AT ADAIR

The second annual Virginia Collegiate Swimming Championships will be held at Adair pool February 19 - 21.

Swimming coach Dudley M. Jensen has announced that teams from W & M, Old Dominion University, Hampton Institute, Virginia Tech, Virginia Military Institute, Washington & Lee and Raldolph-Macon College will compete.

For interested spectators the schedule is as follows: -

Thursday, time finals 8 p. m.

Friday, preliminaries and 1 meter diving 11 a. m. finals, 7 p. m.

Saturday, preliminaries 10 a.m. Finals, 4 p. m.

HISTORICAL SOCIETY SPEAKER

The Lyon G. Tyler Historical Society will hold a meeting Wednesday, February 18 at 7:30 p.m. in the Botetourt Theatre in Swem Library. Speaker for the evening will be Leon Valkon of Newsweek magazine who will speak on contemporary Russia.

SENATOR SPONG SPEAKS AT SEMINAR ON POLLUTION

Millington Hall was packed Monday night for the public seminar on pollution entitled "What Can the College Community Best Do to Better Environment."

Principal speaker was Senator William B. Spong, Jr., a member of the Senate subcommittee on air and water pollution. He was introduced by Professor Grayson in the Government Department. Dr. Carl Vermeulen, of the Biology Department, who has been serving as coordinator for the program, opened the meeting.

Senator Spong urged a crusade against pollution by an informed citizenry.

"Our colleges and universities are a storehouse of analytic skills and knowledge and therefore have a special obligation and capacity to enlighten the public," said Spong. He added that while the problems of environmental pollution had been growing to alarming proportions, it was not until very recently that any widespread concern had been shown by the public."

Spong said he was "disappointed" in President Nixon's budget request for \$800 million in fiscal year 1970-71 to fight pollution. He commended Nixon's "expressions of concern" but said he felt the President's "actual proposals" thus far appear to be inadequate.

"It is important," he said "to keep in mind as we seek solutions to the problems that time may not be on our side." America's and the world's population explosion are accelerating the broad range of environmental problems, including depletion of natural resources and environmental pollution.

Spong was accompanied by two aides from his senate subcommittee who shared the platform with him to answer questions during the discussion period following his talk.

Monday night's seminar was sponsored by the departments of biology, chemistry, geology and physics, Williamsburg Restoration, Inc., the Society of Sigma Xi, the Williamsburg Committee for Quality Environment and the Williamsburg-James City County League of Women Voters.

As well as members of the college community, representatives of state agencies, officials from neighborhood communities and military installations on the peninsula attended the seminar.

A reception following the seminar was sponsored by the League of Women Voters.

STUDENT BURGESSES OPENS MONDAY

Dr. John F. Lavach of the School of Education will serve this year as a discussion leader at the Colonial Williamsburg Student Burgesses Conference which is expected to attract more than 80 teenagers from 47 states and 36 foreign countries. The conference will be held Feb. 15-18.

The keynote address will be given by George C. McGhee, former American ambassador to Turkey. Other speakers will be Dr. Frank P. Davidson, president of the Institute for the Future, and Ambassador Soedjatmoka of Indonesia.

Concert at Walsingham - The Winter Consort will perform at Walsingham Academy, March 2 at 8:30 p.m. under the sponsorship of the Twentieth Century Gallery. Tickets are \$3 for adults, \$1.50 for students, and may be purchased either from Mrs. William Pollard, 229-3327 or at Parlett Plaks on Prince George Street. This concert is part of the Virginia Museum Arts System program.

The Campus Chest Drive opens tomorrow, Friday the 13th and a box for faculty contributions will be placed in the mailroom. Contributions may also be directed to Linda Reeder of the Campus Chest committee who is in charge of faculty contributions. The Chest goal this year is \$1,000 to help set up a community playground in a poverty area. Virginia Vogel of Norfolk is Campus Chest chairman.

More on Pollution Problems. Carlisle Humelsine, president of Colonial Williamsburg will address a public meeting on pollution problems at the Williamsburg Methodist Church on Jamestown Road, Feb. 19 at 8 p. m., sponsored by the Williamsburg-James City County League of Women Voters.

February 23 Dr. Morris Brehmer of the Virginia Institute of Marine Science Gloucester Point will speak in Millington Hall, 8 p.m. on "People and Pollution," at a meeting of the Society of Sigma Xi.

February 26 the League of Women Voters and the American Association of University Women will sponsor a program of pollution at the Methodist Church at 8 p.m. Speaker will be Mr. Ault of the Federal Water Pollution Control Agency.

April 22 has been set aside as a National Day of Concern about problems of pollution and an educational program will be held on campus that day.

BIOLOGY

Dr. Ian P. Callard has recently published the following article:

Biochemical changes in the oviduct of the snake, Matrix sipedon pictiventris.

In Comparative Biochemistry and Physiology, 1970, 17-22, by Ian P. Callard and James H. Leatham.

CHEMISTRY

Dr. Melvyn D. Schiavelli presented a seminar at NASA, Langley Research Center, on January 14, entitled "Vinyl Cations Derived from Solvolysis Reactions."

Dr. Robert A. Orwoll recently had published (with Dr. W. H. Stockmayer) the article "Stochastic Models for Chain Dynamics" (in Stochastic Processes in Chemical Physics, ed. by K. E. Shuler; New York: Interscience, 1969).

FINE ART DEPT.

Carl Roseberg has completed a new sculpture - "NIKE III" made of welded steel and polyester resin. It is on exhibit in the left foyer of Phi Beta Kappa Hall.

GOVERNMENT

Roger W. Smith of the Department of Government will discuss "The Fool and Politics" at the Departmental Colloquium on February 16 at 4 p.m. in the Math Building, Room 201.

On Monday, February 9, Dr. George Grayson, Assistant Professor of Government, presented two lectures at the Foreign Service Institute of the Department of State. These talks were entitled: "Revolution in Latin America: Theory and Practice" and "New Trends in Latin American Militaries: The Peruvian Case."

Dr. Chonghan Kim participated as a discussant for a panel on "Asia after Vietnam" at the Southeastern Regional Conference of the Association for Asian Studies held at St. Andrews College, Laurinburg, N. C., in January.

In December Dr. Kim attended and participated in a conference on divided nations sponsored by the Institute of International Studies at the University of South Carolina. He will also be one of the speakers in the current Marshall-Mythe Symposium which has taken as its theme for 1970, "Divided Nations."

SOCIOLOGY

A book review of Ralph H. Kolstoe's Introduction to Statistics for the Behavioral Sciences by Dr. Satoshi Ito appeared in the December, 1969, issue of the American Sociological Review.

SCHOOL OF EDUCATION

Dr. John F. Lavach's proposal "Effect of Emotional Arousal on short versus long-term retention of continuously presented information" has been approved and funded by the Department of Health, Education and Welfare commencing February, 1970 and terminating in February, 1971. Dr. Roger Tardy of Williams College, Williamstown, Mass. and Dr. Jerry Waters of Maryville College, Maryville, Tenn. will serve as consultants to the project.

DEPARTMENTAL NEWS - con't.

School of Education

Previous research suggests that for certain kinds of learning, emotional arousal during the acquisition phase results in poor immediate recall, but is characterized by better long term memory. Low arousal results in better immediate recall with poor long-term retention. In this study taped information will be presented to college students. The taped information will be preceded by a stimulus word of high or low emotional arousal. Subsequent retention of the factual material on the tape will be tested.

Knowledge of techniques for manipulating such an arousal variable, possibly through an instructor's choice of words in a learning situation, would be beneficial to the educator and would contribute to our understanding acquisition and retention of information in a realistic setting.

We would appreciate it if you would use this sheet to send in news for the next issue of the Colleague on February 19. Deadline for copy is Tuesday, February 17.

We are interested in the papers you have presented, publications, meetings attended, research projects in progress, etc.

WHYTE NEW DEAN OF LAW SCHOOL

James P. Whyte, Jr. has been named as the new Dean of the Marshall-Whyte School of Law.

Dean Whyte, a 12-year member of the law school's faculty, had served as acting dean following the resignation a year ago of Joseph Curtis. Dean Curtis now heads the law school at the University of Baltimore.

The appointment of Dean Whyte was approved Tuesday by the executive committee of the College's Board of Visitors. It followed an extensive effort by a special law school selection committee to nominate the best qualified person for the post, according to Dr. W. Melville Jones, Vice President for Academic Affairs.

Dr. Jones, who was chairman of the special committee, said it had held several meetings the last 10 months both in Williamsburg and Richmond. It included representatives from the law faculty, the law school alumni organization, Student Bar Association representatives and members of the William and Mary Board.

Dr. Davis Y. Paschall, College President, said in announcing Dean Whyte's appointment that the new dean "has rendered outstanding service to the Marshall-Whyte School of Law. His efforts have been largely responsible for the improved facilities, larger enrollment, and increased resources, especially in library capability. He has served on commissions, and is highly regarded by those in the legal profession, particularly in the field of labor relations.

"I do not know of anyone who more deeply appreciates the progress that has been made in the law school, and who has a more practical vision for its future improvement, than Dean Whyte," Dr. Paschall said.

Dean Whyte, who is well known as a judge or arbitrator in the field of labor law, is also a specialist in constitutional and criminal law as well as appellate practice. He is a member of the American Bar Association, the Virginia State Bar Association and the Virginia State Bar.

A native of Columbus, Miss., he is an alumnus of Bucknell University and the University of Colorado law school. He also holds a master of arts degree from Syracuse University. Dean Whyte practiced law and served as county prosecuting attorney in McAlester, Okla., from 1951-57,

WHYTE NEW DEAN OF LAW SCHOOL - con't.

and later served as attorney for the Great Lakes Pipeline Co. in Kansas City, Mo., before coming to Williamsburg.

A World War II naval commander, he was a certified trial and defense counsel for general courts-martial. He continues to serve as a judge for labor arbitration panels of the Federal Mediation and Conciliation Service, the American Arbitration Association and the Virginia Department of Labor and Industry.

Dean Whyte has published articles in several law reviews and is on the editorial advisory committee for the Papers of John Marshall project at the Institute of Early American History and Culture, Williamsburg.

BOARD OF VISITORS EXPANDS
RICHARD BLAND COLLEGE

The Board of Visitors, in a special meeting Monday, gave approval of the escalation of Richard Bland College in Petersburg to a four-year undergraduate degree-granting level.

The third year level program leading to the degree will be instituted in 1971-72 and a fourth-year program to be offered in 1972-73, thereby anticipating the first conferral of degrees at the end of the academic session 1972-73, "all being subject to availability of adequate resources."

Richard Bland has an overall enrollment of approximately 700 students. President of the College is Col. James M. Carson.

"OF THEE I SING" TICKETS ON SALE

The box office at Phi Beta Kappa will be open Monday from 3 - 5:30 p.m. for season ticket holders only to reserve their seats for the musical "Of Thee I Sing" which the Theatre will present Thursday through Saturday.

The box office will also be open Tuesday through Saturday from 3 - 5:30 p.m. and nights of performance from 7 - 8:15 p.m. for general admission tickets.

THE BOTETOURT BIBLIOGRAPHICAL SOCIETY WILL VISIT THE WILLIAM BYRD PRESS IN RICHMOND Friday, February 27, leaving here at 12:30 p.m. Those who plan to go are asked to notify either Christian Vinyard or Dr. R. Maccubbin by Tuesday, February 24. Non-members are invited to attend.

SMITHSONIAN SETS MARCH 1 DEADLINE FOR FOREIGN CURRENCY
AWARDS IN ANTHROPOLOGICAL AND BIOLOGICAL SCIENCES

Individuals and institutions wishing to carry out research overseas utilizing the Smithsonian Institution's Foreign Currency Program must submit an application by March 1 for awards to be announced after May.

The agency has been allocated funds of \$2.3 million for this program in 1970. Research is limited to the so-called "excess" currency countries, in which the U. S. government owns foreign currencies derived from sales of surplus agricultural commodities. Currently, the list includes: Burma, Ceylon, Egypt, Guinea, India, Israel, Morocco, Pakistan, Poland, Tunisia, and Yugoslavia (list is subject to change).

Primary emphasis is placed on research in archeology and other of the anthropological sciences and in systematic and environmental biology.

For additional information, write: David Challinor, Acting Director, Office of International Activities, Smithsonian Institution, Washington, D. C. 20560.

LAW ENFORCEMENT INSTITUTE PUBLISHES BOOKLET
OUTLINING ITS 1970 RESEARCH PROGRAM

The Department of Justice's National Institute of Law Enforcement and Criminal Justice has issued a publication outlining its research program for 1970. The Institute has a research budget of approximately \$7.5 million, which is channeled mainly through its five major research centers and distributed primarily for unsolicited proposals. Priority will be given for studies in the following areas: "white collar" crime (research in areas such as fraud, restitution for victims, alternatives to the criminal process); civil disorders; street crime; burglary; control of narcotic traffic and addicts; and organized crime. Applications and a copy of the booklet entitled Program and Project Plan for FY 1970 may be requested by writing to: Dr. Henry Ruth, Director, National Institute of Law Enforcement and Criminal Justice, U. S. Department of Justice, 633 Indiana Avenue, N. W., Washington, D. C. 20530.

For further assistance on the above grants, contact Warren Heemann, Assistant Vice-President for Sponsored Programs.

PEOPLE AND POLLUTION. A lecture by Dr. Morris Brehmer of the Virginia Institute of Marine Science, Gloucester Point will be given Monday night at 8 p.m. in Millington Hall, sponsored by the Society of Sigma Xi.

FENCING MEET SATURDAY
IN CAMPUS CENTER BALLROOM

The first intercollegiate fencing meet in recent years at the College will be held here Saturday.

The meet will match a William and Mary team against a team from the University of Virginia. It is scheduled at 2 p.m. in the Campus Center Ballroom.

William and Mary has had a fencing team for three years, but this is the first year that it has competed with other universities. William and Mary, the University of Virginia and Virginia Military Institute are the only Virginia campuses with fencing teams.

The William and Mary fencers had already defeated the University of Virginia in a prior meet. That took place in December, at Duke University, when the score was 14-13. The William and Mary team lost to Duke, 17-10, following its defeat of the University of Virginia.

Dr. John H. Willis, Jr., assistant vice president of the College, is co-captain of the team with the Rev. Joseph Trimble, curate of Bruton Parish Church and Ned Handley of Langley Air Force Base. The team has about 20 members, although only nine will compete on Saturday. Captain of the all-man team is Roger Lee, a member of the senior class at William and Mary.

Dr. Willis said the William and Mary team, which has been helped along with funds from the College's physical education budget, hopes this year to attain full varsity status.

"We have good potential here," Dr. Willis said of current and prospective team members. Most of the current team members are freshmen and sophomores. The team practices four days a week from late October until early April.

As a member of the Amateur Fencers League of America, the William and Mary team last year played host to the state AFLA foil championship meet which is open to all fencers, whether or not they belong to a team. The same tournament will be held here again this year, on March 14.

FESTIVAL FILM TONIGHT - "La Guerre Est Finie". Andrews Hall auditorium
8 p.m. Preview, Botetourt Theatre 4 p.m.

INTERNATIONAL HOUSE IS OPEN

The second white cottage beyond the infirmary on South Boundary Street has been spruced up and has some lively new occupants.

The International Circle has refurnished the inside of 206 Boundary Street and it is now a pleasant meeting house which the Circle hopes to develop into a place for foreign and American students to meet informally and get better acquainted.

At a reception Sunday afternoon members of the International Circle formally opened their new house which is now open daily Monday through Fridays from 3-6 p.m. and 7-10 p.m.; Saturdays from 3 p.m. and Sundays from 2 p.m. to midnight.

With the house open, the Circle now has embarked on a program of projects aimed at raising money for three specific uses.

First the Circle wants to help pay the cost of sending a delegation to the model United Nations which will be held at the Hotel Plaza in New York, April 29 - May 3. Plans are now for four members to go and each will pay a portion of the bill but because most foreign students are on scholarships, they will need help for the entire amount, and the Circle hopes to fill in the gap.

More furniture and household items are needed for the International House.

Members would like to have subscriptions to a number of foreign magazines to set up a reading center for Circle members and other students on campus.

The Circle is planning to sponsor an "International Weekend" April 11 as their major fund raising project. Program for the weekend includes an automobile rally, a picnic and a dance.

The Circle would also like to stage an international dinner as a fund raising project with dishes from the many countries represented by their membership. There's one hitch, however. The International House has no stove or refrigerator so the idea of a dinner will have to take second place to other fund raising projects such as dances and bake sales.

This year will make the first time the organization has attempted to send a delegation to the national model of the U.N.

Some 1,200 college students from throughout the country will meet for this year's session. The William and Mary delegation will represent Spain. Sylvan Carolo of Paris, France, president of the International Circle, will be one of the delegates. Rhys Williams of Wales, an Exeter

INTERNATIONAL HOUSE IS OPEN (con't.)

exchange student, will serve as chairman of the delegation. Two other members have yet to be chosen. Dr. Albert Labriola of the English Department, advisor to foreign students, will accompany the delegation to New York.

The spring calendar for the International Circle, contains a lot of fun as well as a lot of work. The Norge Women's Community Club will entertain foreign students. They will be the guests at a barbecue dinner at the home of Dr. J. Luke Martel, associate professor of foreign languages and former advisor to foreign students, who will serve next year as professor-in-charge of Sweet Briar College's junior year abroad program in France.

Visitors are welcome at International House any time during open hours.

Several members of the Administration and the Faculty came to the Open House Sunday at the invitation of the International Circle: Vice-President Carter Lowance, Vice-President Melville Jones, Dean and Mrs. Harold Fowler, Assistant-Vice-President John Willis, Professor and Mrs. Cecil McCulley (English Department), Professor Albert Labriola, Foreign Student Advisor and Mrs. Labriola, Prof. Luke Martel, Faculty Advisor to the International Circle and Mrs. Mrs. Martel, Prof. Blythe Stason, Law School and Mrs. Stason.

Several members of the local clergy and of the Williamsburg community also came to express their best wishes for continued success to the International Circle.

JOHN MORELLO TOP SPEAKER
DEBATE TOURNAMENT

John Morello, of Hampton, a senior, was named top speaker in the U. S. Naval Academy Debate Tournament held over the weekend in Annapolis.

Morello, accumulated 188 out of a possible 200 speaker points. He was awarded a pewter mug with the Academy seal.

The team of Morello and Kathy Shirley of Overland Park, Kans., represented the College at the tournament and placed seventh in a field of 60, and qualified in the octa-final round.

At the Sweetheart Debate Tournament held at Old Dominion University this weekend the team of Glen Clatterbuck, a freshman from Harrisonburg, and Dan Gepford, a freshman from Fanwood, N. J., posted a 5-1 record.

This coming weekend the team of Morello and Shirley will travel to Hanover, N. H., for the Dartmouth Debate Tournament. Teams who qualify for the semi-final elimination rounds will receive a bid to the Tournament of Champions to be held late in March.

FROM COLLEGE AND UNIVERSITY REPORTS: -

"President Nixon has sent to Congress his fiscal 1971 budget, the largest ever for this nation. The 1970 estimate in outlays comes to a whopping \$200.8 billion with an expected \$202.1 billion for receipts and \$1.3 billion as surplus.

In his budget message, the President said that research and development in education will be given priority, along with the education of disadvantaged children and aid to college students.

The President pointed out that experimental school programs to discover what activities increase student achievement will be stressed, and emphasis on improved education for the disadvantaged and educational opportunities after high school will be continued.

The budget provides increases in funds for student aid programs, the President said, and decreases in direct aid for the construction of higher education facilities. Both student aid and construction programs will rely more on private capital, he said.

Lower priority programs, including annual grants to land-grant colleges, funds for international studies, and fellowships for college teachers, will be reduced or eliminated in fiscal 1971, President Nixon pointed out.

Environmental programs related to clean water, clean air, and open space rank high on the list of the President's 1971 goals. Research concerned with the environment and other national problems will be encouraged, the President said."

PHYSICS COLLOQUIUM

Friday, February 20, 1970, 4:30 p.m. (Coffee at 4:00)

William Small Physical Laboratory
Coffee in Conference Room
Colloquium in Room L09

SPEAKER: W. E. Spicer, Stanford University

SUBJECT: "Amorphous and Crystalline Ge: Photoemission and Optical Studies"

COMMONWEALTH INTERN PROGRAM
IN VIRGINIA STATE GOVERNMENT

Applications are now being received for the Commonwealth Intern Program, aimed at interesting college graduates in an eventual career in government administration.

Interns receive one or more assignments of several months duration in central staff and line agencies. Intern positions are available in such agencies as the Division of Personnel, the Division of State Planning and Community Affairs, the Division of the Budget, and many others.

Individual assignments, which cover varied aspects of management analysis and operations, are designed for maximum utilization of the intern's prior training and education. Every attempt is made to tailor the program to the specific needs and interests of the intern. Interns will be urged to participate actively in the department's operation, and take part in the decision-making processes necessary to that department's operation. There will be many opportunities for discussion, consultation and evaluation with administrators and technicians both within the agency to which the intern is assigned and other agencies.

Minimum Qualifications and Salary

Bachelor's degree or completion by June 1970	\$6,800
Bachelor's degree and at least 15 semester hours of graduate study or equivalent	\$7,500
Bachelor's degree and at least 30 semester hours of graduate study or equivalent	\$8,000

Further information concerning the Intern Program may be obtained at the Student Aid Office on campus. Deadline for applications is March 7.

Final selection of five interns will be made by a committee on the basis of the application, college record, and an oral interview.

* * * * *

Seminars at CW

Some 20 advanced graduate students in history tried out the weaponry of the 18th century recently under the supervision of Master gunsmith Wallace Gusler of Colonial Williamsburg.

The students participated in a five-day seminar one of several in depth study programs sponsored throughout the year by Colonial Williamsburg. The seminars stress research, activity in archeology, architecture, furnishings and crafts.

PAT HUMME PENS POEMS FOR CYCLES

Miss Patricia Humme of Newport News, a sophomore, is an engaging young woman who is the author of most of the poems published in the booklet "Cycles," a sensitive combination of black and white photogtaphs and poetry.

Pat has been writing poetry since she was 13 but the poems in "Cycles" represent her first published work and the first step toward her dream of having an entire book of poetry published.

The idea for "Cycles," explained Pat started in the photographic studio of Tom Wessells in Hilton Village. Wessells had the photographs and when he asked one day "Does anyone write poetry" Pat responded from the back of the room and got the job. This was last summer when Pat and her twin sister Pamela worked in the photographer's studio.

The assignment was a little different from Pat's usual view of poetry since the inspiration was being supplied and she was being asked to make her poetry fit the mood of the photographs.

For Pat poetry is "almost a way of life." "Sometimes I'll sit down and really work at a poem. And then other times, I just scribble down thoughts or word pictures of what I see or feel," she explained.

"I really believe that poetry is the adventure of life and the poet is just the explorer." "er poems cover a full range of emotions but are usually on the serious side.

Some of her poetry has centered on subjects such as love, nature, God, and "perhaps what you can only call life."

"Students today are concern^{ed} with life," she said "I don't think I feel that same way many of the protestors do. I think they're looking for some meaning. But in their search I don't like to see them turn to drugs or other way out things."

"Why not just turn to the source of everything, to where life started, with God? But you know, this is one thing a lot of people won't even talk about, maybe because it's embarrassing to them. I hope it's something I'll be able to write more about because I like to think this is what can help me understand people and feelings and why things are the way they are."

Although poetry is an important part of Pat's life, she is looking ahead after graduation to a career in teaching, perhaps in English or drama.

PAT HUMME PENS POEMS FOR CYCLES (con't.)

She has had small roles in some college theatre productions and has enjoyed them as part of the "growing up" Pat feels she is doing at college.

Pat and her sister are the daughters of Lt. Col. and Mrs. Carl T. Humme of Newport News. As an Air Force family the Hummes have lived in a number of different places both here and overseas. The family is contemplating a move to Georgia this summer but Pat and her sister will continue to attend William and Mary.

February 16, 1970

Dear faculty member:

Among traditions at William and Mary is the Campus Chest Drive, sponsored by the Student Association each February. This year's drive, begun last Friday, has made a good start toward the \$1,000 goal. The money raised will build a playground in a rural area near Toano.

We, the members of the Campus Chest Drive committee, on behalf of the William and Mary students, invite the faculty to join us in our project. In past years we have received great help from members of the faculty.

The rest of this week there will be a box in the mail room to receive your contribution.

Thank you very much for your attention.

Sincerely,

Linda Reeder

Linda Reeder

Member, SA Campus Chest Committee

SPORTS THIS WEEK

BIOLOGY

On February 4th C. Richard Terman presented a paper entitled "Problems of Population and Behavior" as part of a symposium on "Social and Ethical Implications of the Biological Revolution" sponsored by Spring Arbor College, Spring Arbor, Michigan.

COMPUTER CENTER

Dr. Norman E. Gibbs, assistant professor of mathematics, was co-author of a paper contributed at the January meetings of the American Mathematical Society held in San Antonio, Texas. His co-author was Professor Pobert R. Korfhage of Purdue University and the title of the paper was:

The Bandwidth of Cubic Graphs.

ENGLISH

Mr. Neiman represented the Department of English at a meeting of the School and College Conference on English, at Barnard College, N. Y.

Brief reviews by Mr. Neiman of the following books appear in recent issues of CHOICE: Patricia Merivale, Pan the Goat God (Harvard) John O. Hayden, The Romantic Reviewers (Chicago), The Letters of Francis Thompson (Hawthorn). Reviews of E. J. Lovell, ed., Lady Blessington's Conversations of Lord Byron (Princeton) and Thomas McFarland, Coleridge and the Pantheist Tradition (Clarendon) will appear in issues forthcoming soon.

Prof. Scott Donaldson reports the following articles and reviews:-

Abstract, "'Finding Emily Dickinson's Business," American Literature Abstracts, Vol. II (June 1969), pp. 260-261.

"Suburbia: Last Frontiersville," INTERPLAY, Vol. 3 (June/July, 1960), pp. 36-38.

Introduction, Thomas Low Nichols, Forty Years of American Life: 1821-1861 (Johnson Reprint Corp.: New York and London, 1969), pp. v-xxii.

Review, "a dirty hand": The Literary Notebooks of Winfield Townley Scott, Minneapolis Sunday Tribune (2 November 1960).

Review, Desmond Morris, The Human Zoo, Minneapolis Sunday Tribune (9 November 1969).

Dr. Donaldson was Chairman of a seminar on "The Poetic Voice of Edwin Arlington Robinson," Modern Language Association meeting, Denver, in December.

DEPARTMENTAL NEWS (con't.)
ENGLISH DEPARTMENT

"The Book of Scattered Lives," in Edwin Arlington Robinson Centenary Essays, ed Ellsworth Barnard (University of Georgia Press: Athens, 1969), pp. 43-53.

"Philip Roth: The Meanings of Letting Go." Contemporary Literature, Vol. 11 (Winter 1970), pp. 21-35.

FINE ARTS

Carl A. Roseberg has designed and executed a memorial plaque dedicated to the memory of Dr. Donald W. Davis, former Chairman of the Biology department and founder of the Virginia Institute of Marine Science. The plaque shows a portrait of Dr. Davis, as well as background details of the many varied interests that Dr. Davis concerned himself with in his field of study. The bronze plaque was commissioned by Dr. and Mrs. Robert J. Faulconer of Norfolk and is being installed in the new Life Science building, Millington Hall.

GEOLOGY

Dr. Bruce K. Goodwin attended a project directors meeting on Undergraduate Education in Science held by the National Science Foundation in Washington on Feb. 11, 12, 13. About 1100 scientists and mathematicians participated in this meeting.

GOVERNMENT

"Peru's Military Government," the lead article in the February issue of Current History was written by Dr. George Grayson, Assistant Professor of Government.

Associate Professor Richard E. Brown's article, "Miracle of the Invisible Hand: A Fable?", was published in the February issue of Personnel Journal. The paper is a satirical account of recruitment for the public service and is based on Professor Brown's personal experiences in government employment.

HISTORY

Richard Maxwell Brown's article, "The History of Extralegal Violence in Support of Community Values," has just been published in Thomas Rose, ed., Violence in America: A Historical and Contemporary Reader (Random House hard cover and Vintage paperback editions).

SOCIOLOGY

Anthony L. Guenther spoke to the Exchange Club of Williamsburg on Wednesday on "The Logical Development of a Criminal Career."

He traced the career pattern of a criminal from childhood violations to more serious crimes as an adult.

"We know," he said "that the younger a child is when he commits his first law violation, the higher the probability that he will commit subsequent crimes, and that they will be of an increasingly serious nature."

In the search, or the causes of crime, sociologists have developed three areas of interest: The social distribution of criminal acts (e.g., suburban rates appear to be increasing faster than urban rates) bank robbery is one of the fastest growing crimes--up 45% last year over the previous year, and up 278% since 1960; two other vulnerable businesses are gas or service stations--up 123%, and chain stores--up 156% since 1960.

"The treatment of criminal offenders by social control agencies: the police, courts, and correctional systems," said Guenther "has been criticized because it has failed to deter crime, or modify the offender in socially approved directions...

"Regardless of the validity or invalidity of these allegations, much research has been stimulated to better understand the agencies' responsibility for following up acts of crime."

Guenther concluded his talk with a demonstration of contraband or penitentiary artifacts. He explained that prisoners develop "institutional" careers and spend much of their time "conning" or "beating" the staff, obtaining illicit goods or services or "getting a little racket going."

Professor Guenther was on leave last semester doing research at the Atlanta Penitentiary of the U. S. Bureau of Prisons.

DEPARTMENTAL NEWS (con't.)

MARSHALL-WYTHE SCHOOL OF LAW

An article on "The Warren Court: Completion of a Constitutional Revolution," by Professor William F. Swindler of the Law School will appear in the March issue of the Vanderbilt Law Review.

SCHOOL OF BUSINESS ADMINISTRATION

Dr. C. F. Marsh will speak at the February 22-23 meeting at Lake Junaluska, N. C., of the Commission on Ecumenical Affairs, Western North Carolina Conference, the United Methodist Church, on "The Consultation on Church Union (COCU) and its Plan of Union". Dr. Marsh was a member of COCU from its founding in 1962 through 1968.

We would appreciate it if you would use this sheet to send in news

for the next issue of the Colleague on February 26. Deadline for copy

is Tuesday, February 24.

We are interested in your publications, the meetings you have attended,
papers you have presented and research projects in progress, etc.

THE STATUS OF WOMEN

Today the Mortar Board in cooperation with the College-Wide Reading Program, will open a two-day program on the status of women.

Dr. Kathryn Clarenbach from the University of Wisconsin, and a specialist at the Center for Women's and Family Living Education there, will speak on "Human Status for Women: Implications for Their Education" tonight at 8 p.m. in the Campus Center Ballroom.

A reception for Dr. Clarenbach will be given following her lecture.

Friday evening, a panel will continue a discussion of the role of women and the changing role of the woman college graduate and is expected to take up some of the main points outlined by Dr. Clarenbach in her Thursday evening speech. The discussion will be held in the Campus Center Little Theatre beginning at 7:30 p.m.

Members of the panel will be Dr. Clarenbach, Dr. Sarah Forbes, a gynecologist from Newport News, Dr. Dorothy Riddle of the Counseling Center at the College and a member of the faculty of the Department of Psychology; Dr. Beth E. Vanfossen, a sociologist specializing in social stratification and race relations, and wife of Dr. Marion Vanfossen of the College's sociology department; and Miss Nancy Terrill, William and Mary's first woman president of the Student Association.

WILLIAM & MARY

POETRY READINGS
BOTETOURT THEATRE

Poetry readings by a member of the faculty of Hampton Institute, and two members of the Armed Forces on the Peninsula today and Sunday.

Julia F. Lawrence of the English Department at Hampton Institute, who writes under the pen name of Julia Fields, will give a reading of her poetry tonight at 8 p.m. in the Botetourt Theatre of Swem Library.

Lawrence Moffi, an enlisted man at Fort Eustis, and David J. Smith stationed with the Air Force at Langley Field will give readings Sunday evening at 8 p.m. in the Botetourt Theatre.

The Poetry Forum has organized the poetry readings on the anniversary of the opening of the Goronwy Owen Poetry Room in the College Library to gain new momentum for this facility on campus. Goronwy Owen was a noted Welsh poet who was Master of the Grammar School at William and Mary during the 18th century.

Mrs. Lawrence was born in Uniontown, Ala., and graduated from Knoxville College in 1961. She has studied summers at the Bread Loaf School of English and at the University of Edinburgh, Scotland.

She has published a volume of poetry and has won a National Endowment for the Arts Fellowship and a Woodrow Wilson Fellowship. She has held poetry readings at many colleges including Miles, Tuskegee Institute, the University of North Carolina and East Carolina University.

Her poems and stories appear in the following publications: Beyond the Blues, New Negro Poets, Massachusetts Review, Black Fire, Negro Digest and Kaleidoscope.

Moffi was a graduate student at Ball State University before entering service. He has a B.A. from Southern Connecticut and has studied at the University of Colorado under James Dickey. He has published poems in the University of Colorado Magazine, Michigan State Review, the New England Review and an anthology entitled Generation.

Smith is currently engaged in putting out the first issue of his own magazine Backdoor which is scheduled to appear in March and will contain poetry by X. J. Kennedy and others.

The information library at the Psychological Counseling Center in Rogers Hall (Room 110) is open daily 8:30 a.m. to 5 p.m. Monday - Friday and 7 p.m. to midnight, Tuesday evenings.

MUSICAL "OF THEE I SING"
NOW AT PHI BETA KAPPA

"Of Thee I Sing," a Gershwin-Kaufman satirical musical comedy - which won the Pulitzer prize, is now playing at Phi Beta Kappa Memorial Hall.

It opened last night and performances will be given tonight, Friday and Saturday evenings. Curtain time is 8:15 p.m. sharp.

The Theatre box office is open during the run of the show each afternoon from 3-5:30 p.m. and again from 7-8:15 p.m. During these hours, telephone reservations will be accepted at 229-3000, ext. 272. All seats are reserved.

The directing team of Howard Scammon, professor of theatre, and Stephen P. Paledes, professor of music is directing the show. The Scammond-Paledes team has in the past produced such musical comedies as "The Fanasticks," "Kiss Me Kate," "How to Succeed in Business Without Really Trying," and "Three-Penny Opera."

"Of Thee I Sing" has music by George Gershwin, lyrics by Ira Gershwin, and book by George S. Kaufman and Morrie Ryskind.

Some of the songs include "Wintergreen for President," "Love is Sweeping the Country," "She's the Illegitimate Daughter of an Illegitimate Son of an Illegitimate Nephew of Napoleon," and the title song, "Of Thee I Sing, Baby."

Both song and story combine to present a satirical view of the American political world, with no holds barred in the fun.

Beginning with this show, The William and Mary Theatre initiated a "First Nighter's Club." Following Wednesday's opening, a coffee-reception was held to permit audience and production personnel to meet and informally talk about the play.

Graz Center Director Here

Prof. Joseph L. Stevens, Political Sciences, Virginia Wesleyan College, will be on campus this afternoon at 4:00 p.m., Botetourt Room, Swem Library.

Prof. Stevens directs the "Graz Center of East European Studies", Graz, Austria, and will speak about the various programs of the Graz Center which might be of great interest to students of German (and Slavic languages), Government, Economics, History...whether or not they have contemplated to study abroad.

COLLEGIUM MUSICUM SERIES
TO BE HELD MARCH 1.

The Department of Music will present in concert, Christine Van Acker, mezzo soprano and Michel Podolski, lute as part of the current Collegium Musicum Series.

The concert will be held Sunday afternoon, March 1, at 4 p.m. in the Campus Center ballroom, and is open to the public without charge.

Since the foundation of their Duo in 1956, in Brussels, Christiane Van Acker and Michel Podolski have concertized all over Europe and have made thirteen concert and lecture tours in North America.

Podolski, who is considered as the leading lutenist of our time, is very active in musicological research, communications, editions, publications and recordings. His personal library of transcriptions and realizations of original manuscripts amounts to about four thousand works.

Their program Sunday will be a varied one. It will include French ballets and court songs, Elizabethan ballads and lute music, Shakespearian Love Songs, a 17th century Masterpiece for the lute, "Passacaglia," Hispano American Ballads and Italian dances.

This year's Collegium Musicum series at the College will include two more concerts this spring. Bedford Watkins, harpsichord will be heard in concert April 12 and the Philadelphia Composers Forum scheduled May 3 will conclude the series.

Winter Consort at Walsingham Academy

Tickets are now on sale for the performance of the Winter Consort to be given at Walsingham Academy, Monday evening, March 2 at 8:30 p.m.

Tickets are \$3 for adults, \$1.50 for students, and may be obtained at Parlett Plaks, Stair and Company, and from Mrs. W. C. Pöllard, 229-3327.

Styled after the Renaissance consort, the group uses contemporary instruments and modern music in a blending of symphonic orchestration, folk music and improvisation. Including music from jazz and classical composers, the Consort also includes in its repertoire folk songs collected while touring in 26 countries.

WATERCOLORS BY THEODORE TURNER are currently on display in Andrews Hall and will remain on exhibit through March 26. The gallery is open to visitors daily, Monday through Friday from 8 a.m. to 4:30 p.m.

SIR DEVENDRA P. VARMA
VISITING PROFESSOR TO LECTURE

Sir Devendra P. Varma, Professor of English at Dalhousie University, Canada, and presently visiting Professor of English at the University of Kentucky, will lecture Tuesday, March 3.

The Botetourt Bibliographical Society will sponsor his lecture Tuesday at 8:15 p.m. in the Botetourt Theatre of Swem Library on "The Influence of the Gothic Tradition on Romantic Sensibility."

He will speak Wednesday morning, March 4 at 9 a.m. in Lodge 12 on "Ann Radcliffe and Salvator Rosa: The cult of the picturesque, terrible and sublime."

Dr. Varma, author of a widely acclaimed study "The Gothic Flame," has devoted many years to assiduous investigation and research in the field of the Gothic novel, and finally succeeded in tracking down copies of the first editions of the seven works that feature in Jane Austen's Northanger Abbey. From these copies, an edition has been printed with the addition in each case, of a scholarly and biographical introduction written by Dr. Varma.

The reprinting of the seven "Horris Novels" has earned Dr. Varma praise from both American and European scholars and editors.

Born in 1923 and educated in India and England, Dr. Varma is a Canadian National. He received his graduate degrees from Leeds University, England and is also the holder of the Knight Grand Cross of the Imperial Order. He has taught at Universities in Cairo, Syria, Nepal, India and England as well as the United States and Canada.

PHYSICS COLLOQUIUM

To be held Friday, 4:30 p.m. (coffee at 4:00) in the William Small Physical Laboratory - Coffee in Conference Room - Colloquium in Room 109.

SPEAKER: John Skalyo, Brookhaven National Laboratory, Upton, L.I. New York.

SUBJECT: "Neutron Scattering in One-and Two-Dimensional Magnetic Systems."

THREE LETTERS written by George Washington are currently on loan from the manuscript collection in the Earl Gregg Swem Library to Richard Bland College in Petersburg. They are part of a library display which will be on exhibit through March 1.

DR. WILLIAM FRANKENA
PROFESSOR OF PHILOSOPHY

Dr. William Frankena, professor of philosophy at the University of Michigan, will lecture here Friday, March 6.

Dr. Frankena will speak on "Morality and Moral Education" in the Campus Center Theatre at 8 p.m.

A member of the Michigan faculty for 32 years, Dr. Frankena has been chairman of the department of philosophy since 1947. During the 1968-69 academic year he was a Fellow at the Center for Advanced Study in the Behavioral Sciences.

Among his books are: Ethics, Three Historical Philosophies of Education and Some Beliefs About Justice.

He has been a visiting professor at Columbia, Princeton, Harvard, Washington and Tokyo universities and a Guggenheim and Rickefeller Fellow. Dr. Frankena is a member of the American Philosophical Association, the National Academy of Education and the Philosophy of Education Society.

His lecture at William and Mary is arranged by the Committee on Arts and Lectures through the University Center in Virginia.

Virginia Experiences Good Business Month

Despite some slowing down of the nation's economy during January, Virginia experienced a "Good business month," according to the January issue of the Virginia Business Index.

Dr. Leland E. Traywick, director of the College's Bureau of Business Research and editor of the Index, said all business indicators were up during January except new car registrations and postal receipts.

Bank debits rose 21.6 per cent over January, 1969; electrical consumption was up 9.5 per cent; newspaper advertising lineage was up 1.7 per cent; non-agricultural employment rose 2.5 per cent; retail sales were up 6.9 per cent and water consumption was up 5.4 per cent. New car registrations declined 9.7 per cent, and postal receipts were off one-half of one per cent.

Building permits, Dr. Traywick reported, were up 40.9 per cent across the state for January. "With all of the tight money and high cost of construction, it is surprising that building permits were as high as they were," he commented. Areas with heaviest construction increases were Winchester, Staunton, Williamsburg, Newport News-Hampton and Roanoke.

DR. DAVID B. QUINN
TO LECTURE ON CAMPUS

Dr. David B. Quinn, first holder of the James Pinckney Harrison Chair of History at the College will give two lectures on campus this spring, the first on March 5 and the second on April 9.

The first lecture on March 5 will be given in the Botetourt Theatre of Swem Library at 8 p.m. Dr. Quinn will take as his topic, "The Artist's View of Early America." This will be an illustrated lecture which will include the work of Huguenot artist Jacques LeMoine who accompanied the French expedition to Florida and some of the American drawings of John White.

Acknowledged as one of the world's leading authorities on the early voyages of discovery to North America, Professor Quinn was elected last year to the Council of the Institute of Early American History and Culture which is co-sponsored by the College and Colonial Williamsburg. He has been associated with the Institute since 1948. He was the principal speaker last year at the annual Jamestown Day Celebration.

A native of Belfast, Ireland, Professor Quinn received his Ph.D., from the University of London in 1934. He has taught at the University College of Swansea. He has been the Andrew Geddes and John Rankin Professor of Modern History at the University of Liverpool since 1957.

He is vice-president of the Council of the Royal Historical Society, and also of the council of the Hakluyt Society, for which he has edited several volumes. He is the author of many works on English exploration during the reign of Elizabeth I, among them studies of Sir Humphrey Gilbert and Sir Walter Raleigh, the Roanoke Colony, the American drawings of John White, and the writings of Richard Hakluyt.

Professor Quinn is currently compiling and editing early documents for the first volume of "The Documentary History of the United States," as well as writing a history of America from 1615 for the New American Nation Series. Both works will be published by Harper and Row.

His second lecture, to be given April 9, will take as its title, "Current Views on the Discovery of America." and will be given in the Campus Center Little Theatre at 8 p.m.

* * * * *

A SMALL EXHIBITION OF NEW PAINTINGS AND SCULPTURE is being exhibited in the left lounge of Phi Beta Kappa Hall by Prof. Carl A. Roseberg of the Fine Arts Department.

A carving in Italian carrara marble is included in the exhibition which was completed as a project of a summer research grant. This is the first time the piece has been placed on exhibition.

THE FOLLOWING ARE RECENT ANNOUNCEMENTS FROM THE OFFICE OF FEDERAL RELATIONS BULLETIN. FOR FURTHER INFORMATION AND ASSISTANCE, CONTACT WARREN HEEMANN, ASSISTANT VICE-PRESIDENT FOR SPONSORED PROGRAMS:

NATIONAL INSTITUTES OF HEALTH FELLOWSHIP APPLICATIONS DUE

April 1 is the last application deadline for individuals wishing to apply in Fiscal Year 1970 for predoctoral, postdoctoral or special research fellowships from the National Institutes of Health. Awards will be announced by next September. Additional information and application forms may be requested from: Career Development Review Branch, Division of Research Grants, National Institutes of Health, Bethesda, Md. 20014.

PROPOSALS FOR EDUCATION OF THE HANDICAPPED DUE IN APRIL

Applications for research and related activities sponsored by the U.S. Office of Education for the Handicapped are being accepted now for an April review. This will be the last review period in Fiscal Year 1970. Proposals may be submitted by state or local educational agencies, public or nonprofit private institutions or higher education and other public organizations. Proposals may be submitted for construction grants, research and development center grants, programmatic grants, departmental project awards, media project and program grants, curriculum development and evaluation, and research training. For additional information write: James W. Moss, Chief, Division of Research, Bureau of Education for the Handicapped, U. S. Office of Education, Seventh and D Streets S. W., Washington, D. C. 20202.

HUMANITIES ENDOWMENT SETS FINAL DEADLINE FOR EDUCATION AND PUBLIC PROGRAM

The National Endowment for the Humanities will accept proposals under its education and public programs until April 27 for the last round of awards to be announced in Fiscal Year 1970. The education program is aimed at helping educational institutions improve their instruction and to make more effective use of resources in the humanities. Funds may be used for project grants, or for planning and development grants. The public program supports efforts to make humanistic knowledge and insights more available to general public audiences. Applications may be submitted from museums, historical associations, libraries, educational television stations, colleges and universities, among others. For additional information, write: National Endowment for the Humanities, 1800 F Street N. W., Washington, D. C. 20506.

DEPARTMENT OF LABOR GIVES DETAILS ON MANPOWER RESEARCH AND THESIS SUPPORT

The U. S. Department of Labor has established April 1 as the next application deadline for individuals wishing to apply for research project grants or doctoral dissertation grants under the Manpower Development and Training Act. The research project grants are intended to support studies

MANPOWER RESEARCH & THESIS SUPPORT (Con'd.)

on significant manpower problems and are limited to \$5,000 for a one-year period. Applications may be submitted by public and private nonprofit academic institutions and research organizations. The doctoral dissertation awards are requested by higher education institutions on behalf of a specific Ph.D. candidate who is completing a thesis in a manpower-related field. Support is limited to \$10,000 per year and may be renewed for up to three years. For further information, write to: Howard Rosen, Director, Office of Manpower Research, Manpower Administration, U. S. Department of Labor, Washington, D. C. 20210.

JUVENILE DELINQUENCY PROPOSALS DUE ON MARCH 13

The Office of Juvenile Delinquency and Youth Development has set March 13 as the last application deadline in Fiscal Year 1970 for proposals to be submitted under Title I of the Juvenile Delinquency Prevention and Control Act of 1968. Title I funds may be used for planning activities and for implementing programs of prevention and rehabilitation. Additional information is available from: Raymond Manella, Acting Chief, Title I Programs, Office of Juvenile Delinquency and Youth Development, Social and Rehabilitation Service, U. S. Department of Health, Education and Welfare, 330 Independence Avenue S. W., Washington, D. C. 20201.

NSF OPENS ADVANCED TRAINING TO LAW FIELDS AND WILL ACCEPT APPLICATIONS FOR FELLOWSHIPS AND SPECIAL TRAINING PROJECTS

The National Science Foundation has officially implemented its legislative authority to finance certain types of law-related projects by awarding a training project for law school faculty to the University of Denver Law School. The award was made under the foundation's program of Advanced Training Projects, formerly called Advanced Science Seminar Projects. NSF received authority some time ago to support "applied and empirical studies in the field of law which employ the methodology of the social sciences or which interrelate with research in the natural or social sciences." The Foundation has indicated it will use this description to judge applications for fellowships and traineeships from individuals in law schools, and will welcome proposals for additional law-related projects under other agency programs, such as the Advanced Training Projects or new Interdisciplinary Research Program. New announcements on both of these programs are expected from the Foundation within the next few weeks.

DEADLINE SET FOR CHILD WELFARE RESEARCH AND DEMONSTRATION GRANTS PROGRAM

The Community Services Administration has announced March 1 as the next application deadline for the Child Welfare Research and Demonstration Grants Program. These funds are awarded to public or private nonprofit institutions and organizations for special research or demonstration projects in the field of child welfare which are of regional or

CHILD WELFARE RESEARCH PROGRAM - (Con'd.)

national significance, and special projects for the demonstration of new methods or facilities which show promise of substantial contribution to the advancement of child welfare services. Proposals submitted next month will be reviewed in June and projects may anticipate starting dates after July 1. For additional information, write to: Dr. Ann F. Neel, Acting Chief, Child Welfare Research and Demonstration Grants, Community Services Administration, Social and Rehabilitation Service, U. S. Department of Health, Education and Welfare, 330 Independence Avenue, S. W., Washington, D. C. 20201.

CAMPUS SERVICE UNITS
PLAN COMMUNITY PROJECT

Mini Vista plus Circle K plus student and faculty brain and brawn will combine during Spring vacation in a poverty pocket project in James City County adjacent to the Chickahominy Baptist Church.

Circle K president Jeff Shy has already made a headstart on the project. His organization has a day care center in operation at the Chickahominy Baptist Church with students tending the children. Collegians now read stories, play games and provide the staff of the center. Once the Center is firmly established, the students anticipate turning the operation of it over to mothers in the community.

During the spring break students plan to erect a building to house the Day Care Center plus a playground for children in the community.

First order of business for Mini-Vista says president Kevin Crowe, is to burn down (with the help of the Fire Department) the old decaying school building on the property. Then the land will be graded.

A cement basketball court is also in the plans. All the work will not be completed during the vacation period but work teams will be organized during the rest of the school year to get the job done.

Recruitment of labor will begin soon. Lists will be posed and volunteers invited to bring their skills. No experience is necessary, says Crowe, and all those willing to work will be found a job.

Last spring a similar project to rebuild a house for a family in James City County was highly successful and involved many sectors of the community before it was completed. This year's project schedule looks just as promising.

No word has yet been received on the amount of money received from the Campus Chest but funds from this drive, plus funds from Mini-Vista, Circle K and other contributions will be used to finance the project.

ON THE SPORTS FRONT

Athletes Bring Home New Laurels

William and Mary athletes made the headlines last weekend and added two more crowns to their list of accomplishments as winners in the state swimming and track meets.

"Powerful William and Mary racked up first places like they were going out of style here (Lexington) Saturday night and romped to its fourth State Collegiate Indoor Track and Field Championship in five years" reported sports writer Hank Maloney.

"The Indians of William and Mary capped an exciting three days of swimming with a record-breaking effort of 3.22.0 in the final event, the 400 yard freestyle relay, to easily outdistance Washington and Lee to win the second annual Virginia Intercollegiate Championships here (Adair Pool) Saturday.

"William and Mary finished with a total of 514 points to put them far out in front." reported Pete Loomis in the Newport News Daily Press.

- Fencing Saturday -

The Fencing Match with William and Mary and Virginia Military Institute will be held in the Campus Center Ballroom Saturday beginning at 10 a.m. This is a time-change from the 2 p.m. schedule previously announced.

- Physical Fitness Tests -

Half-time ceremonies at a recent home basketball game honored high ranking point winners for 1969-70 AAHPER National Physical Fitness Test Program which provides national norms for physical performance, and is part of the overall offering of the Men's Physical Education.

The test is comprised of seven items--pull-ups, shuttle run, standing broad jump, 50-yard dash, softball throw, and a 600-yard run-walk, designed to measure arm strength, abdominal strength, speed and agility, leg power, speed, arm power, and endurance. In addition to the items on the specific test, all students are timed for the 40-yard swim and the 12-foot rope climb.

For those who would like to take a crack at the high point trophy and medallions here are the current record times for the various AAHPER events at W & M: pull-ups, 40; sit-ups (1 min) 61; standing broad jump 10' 1-1/2"; shuttle run, 0:7.8; 50 yard dash, 0.5.3; 600-yard run 1:12.1; push ups, 97; softball throw 327; rope climb 0:06.6; and 40-yard swim, 0:18.0.

DR. MORTON IS BIOGRAPHER OF JONES

Dr. Richard Lee Morton, Chancellor Professor of History, Emeritus, as a biographer of Hugh Jones, is well acquainted with the 18th century gentleman for whom the new classroom building was named on Charter Day.

We asked Dr. Morton for works by and about Jones and he kindly submitted the following notes: -

Works by Hugh Jones

The Present State of Virginia (London 1724) edited by Richard L. Morton with an introduction giving an account of the author and notes (Chapel Hill, 1956). It includes an interesting account of Williamsburg and of the College of William and Mary.

An Accidence (fundamentals) to Christianity. No copy known to exist.

"An Accidence to the English Tongue (London, 1724), a combination of grammar and rhetoric. The Swem Library has a photostat copy of the only surviving printed copy, which is in the British Museum. See Grace Warren Landrum, "The First Colonial Grammar in English," William and Mary Quarterly, 2nd Series, 272-285.

"An Accidence to the Mathematicks, especially to arithmetick, in all its parts and applications, algebra, geometry, surveying of land, and navigation." No copy known to exist.

Jones stated in 1724 that the three Accidences were written for the use of his Virginia students.

Article in the Gentleman's Magazine, XV (July 1745), 377.

For correspondence and other references, see Present State of Virginia 1956 edition.

The most ingenious of Hugh Jones' writings is The Pancronometer... (London, 1753). There is a copy of this book listed in the British Museum Catalogue under "J., H." and a presentation copy signed by Hugh Jones is at the Library Company of Philadelphia. Our Swem Library has a photostat copy of a manuscript copy in the British Museum, which I have not compared with the printed copy. It consisted of three parts, or essays: first, a plan for a perpetual calendar; second, elaborate arguments for its adoption in order to combat the strong prejudice on religious grounds against a change in the calendar; and third and most ingenious of all, "The Reasons, Rules, and Uses of OCTAVE Computation, or Natural Arithmetrick." After providing elaborate reasons and rules for changing to the octave system

DR. MORTON IS BIOGRAPHER OF JONES (Con'd)

of computation, he proposed "some uses, of natural arithmetick by pointing out methods for dividing our coin, measures, and weights in an octave proportion..."to be adopted by all nations!" His system of securing standard units of weights and measures resembles those of the present metric system adopted some years later. Although Jones proposed his reformed calendar in 1745, it was not published until a year after the British parliament adopted its new style calendar.

Works about Hugh Jones by Richard L. Morton -

Editor's Introduction to Hugh Jones, The Present State of Virginia (Chapel Hill, 1956)

"The Reverend Hugh Jones: Lord Baltimore's Mathematician," William and Mary Quarterly, 3rd. Series, VII, 107-115 (January, 1950).

"Some Notes on Hugh Jones, Colonial Enigma," Maryland Historical Magazine, XLII, 354-355 (December 1952).

DEPARTMENTAL NEWS

BIOLOGY

The following articles have been published:

The Effects of Intrahypothalamic Betamethazone Implants on Adrenal Function in Male Sceloporus cyanogenys by Ian P. Callard and Edgar Willard 111. General and Comparative Endocrinology 13,460-467 (1969).

The Effects of Intrahypothalamic Estrogen Implants on Ovulation in Sceloporus cyanogenys by Ian P. Callard and William F. McConnell. General and Comparative Endocrinology, 13,496 (1969) (abstract).

CHEMISTRY

Prof. S. Y. Tyree, Jr. will deliver an invited paper at a symposium on "Non-equilibrium chemical systems and processes in natural water" sponsored by the Division of Water, Air and Waste Chemistry of the American Chemical Society at Houston, Texas on Wednesday, 25 February 1970 during the 159th National Meeting of the ACS. The title of the paper is "Studies on the Kinetics of Hydrolysis of Hafnium in 1-M NaCl".

On February 19, Richard Kiefer presented a seminar entitled "Intermediate Energy Nuclear Chemistry" to the Chemistry Department of Old Dominion University.

ENGLISH

The James Street Theatre at the Old Tennis-Court by David Clay Jenkins, appeared in Theatre Notebook, vol. XXIII, no. 4, Autumn, 1969. His essay "The Dylan Thomas Notebooks at Buffalo," will be published in the summer issue of the Anglo-Welsh Review.

Book reviews by Professor Jenkins include The Eighteenth Century Playhouse in America, Brooks McNamara in the winter issue of Virginia Magazine of History and Biography; and forthcoming book review section of the Richmond Times-Dispatch, Herman Hesse's Rosshalde.

GEOLOGY

Dr. Gerald H. Johnson was designated as "Scientist of the Week" by the Mathematics-Science Center in Richmond for the week of February 16th. In receiving this honor, Dr. Johnson presented two talks before groups from the Richmond Public School System on the topic of "Hoaxes in Geology."

HISTORY

Prof. Thad Tate's review of Grace Steel Woodward's Pocahontas (Norman, Okla., 1969) was published in the January issue of The Virginia Magazine of History and Biography.

Prof. Philip J. Funigiello has been commissioned by McGraw-Hill to contribute biographical articles of James Curley, Al Smith, and Huey Long to its Encyclopedia of World Biography.

PHYSICS

The following papers have been published:

On the Reaction $He^{\pm} \pm Ar \rightarrow He^{\pm} (Ar^{\pm})^*$ at Low Energies.

R. L. Champion and L. D. Doverspike

J. Phys. B (Atom. Molec. Phys.) 2, 1353 (1969).

Versatile Liquid Helium Scintillation Counter of Large Volume Design.

D. C. Buckle, J. R. Kane, B. D. Orrick, R. T. Siegel, and R. J. Wetmore. Nuc. Instr. and Meth. 77, 249 (1970).

(p,2p) Reactions at 600 MeV on Deuterium and Helium-4.

C. F. Perdrisat, L. W. Swenson (William and Mary), P. C. Gugelot (University of Virginia), E. T. Boschitz, W. K. Roberts, and J. S. Vincent (NASA), and J. R. Priest (Miami University)

Phys. Rev. 187, 1201 (1969).

SCHOOL OF EDUCATION

Prof. Richard B. Brooks was presented a special recognition certificate by the American Association of Colleges for Teacher Education at the Association of Colleges for Teacher Education at the Association's annual meeting Tuesday.

Each year the Association pays tribute to the men and women who have served as AACTE committee members and state liaison representatives. Forty certificates were presented on Tuesday.

Professor Brooks, Dean of the School of Education, finishes a term as the Virginia Liaison Representative.

Dr. John F. Lavach and Dr. Roger R. Ries will present a paper at the Eastern Psychological Association Convention, Atlantic City, N.J., April 2-4. The paper is Entitled, "The Effect of Linguistic Associative Similarity and Social Preference on Semantic Overlap."

We would appreciate it if you would use this sheet to send in news for the next issue of the Colleague on March 5. Deadline for copy is Tuesday, March 3.

We are interested in your publications, papers you have presented, the meetings you have attended, and research projects in progress, etc.

THE PAPERS OF GEORGE MASON

More than six years of work in researching, collecting and editing the papers of one of Virginia's most illustrious colonial figures will bear fruit this spring with the publication of "The Papers of George Mason," edited by Dr. Robert A. Rutland.

Publication in May of the three-volume work was announced today by James H. Hutson, editor of publications for the Institute of Early American History and Culture.

The project was funded by the National Society of the Colonial Dames of America and the Board of Regents of Gunston Hall, Mason's restored home near Lorton.

Assisting in development of the project are two committees--administrative and editorial--composed of distinguished historians and philanthropers. Lester J. Cappon, retired director of the Institute, is chairman of the administrative committee and James Morton Smith, former editor of publications of the Institute, headed the editorial committee.

Administrative committee members include William W. Abbot, Mrs. Lamont du Pont Copeland, Mrs. George H. Johnson and Louis B. Wright; editorial committee members are Bernard Bailyn, Noble E. Cunningham Jr., Stephen G. Kurtz, David J. Mays, Clinton Rossiter, Page Smith and William J. Van Schreeven.

Dr. Rutland, formerly on the faculty of the University of California at Los Angeles, now is coordinator of the American Revolution Bicentennial Program at the Library of Congress. "The Papers of George Mason" is the first in an expected surge of publications of the decade in which the nation observes the 200th anniversary of its independence.

Mason was the author of the Virginia Declaration of Rights, which formed the basis for the U. S. Bill of Rights. The oldest of a brilliant group of Virginia gentlemen who helped set the intellectual pace of the fight for independence, Mason was close to Washington, Jefferson, and Madison. He broke with Washington, however, when Mason opposed adoption of a federal constitution without a bill of rights.

Jefferson called him "a man of the first argument, learned in the love of our former constitution, and earnest for the republican change on democratic principles."

LIBRARY

THE PAPERS OF GEORGE MASON - Con'd.

Because of Mason's unpopular antifederalist position, his writings were largely neglected until a two-volume work appeared in 1892 on the "Life of George Mason." The new set of volumes is the result of additional research and collection of Mason material.

The "Papers of George Mason" will be issued under an arrangement by the Institute with the University of North Carolina Press.

The Institute is currently at work on another project of a similar nature. It is the Papers of John Marshall, funded by the College and the U. S. National Historical Publications Commission, now in the third year of a projected ten-year schedule of work.

SENATOR MUSKIE TO BE
COMMENCEMENT SPEAKER

United States Senator Edmund S. Muskie of Maine, the 1968 Democratic Vice Presidential candidate, will deliver the 1970 Commencement Address at the College.

Commencement is scheduled for Sunday, May 31, when some 850 undergraduate and graduate degrees will be conferred in the traditional ceremony in the Wren Courtyard.

Dr. W. Melville Jones, vice president for academic affairs said in making the announcement that Senator Muskie accepted the invitation of a special Commencement committee of the senior class.

Last year, the 1969 seniors had voted against having a Commencement speaker in order to shorten the program and still permit individual conferring of degrees. This year's graduating class chose to eliminate individual conferrals in order to have a speaker.

Senator Muskie is a native of Rumford, Maine. He is a Phi Beta Kappa graduate of Bates College and the Cornell University Law School. He currently serves on the Bates board of trustees and the Cornell Law School Association's board.

He served as Maine's governor in 1955-59, and since then has represented that state in the Senate.

* * * * *

The local AAUP Chapter will meet Monday, March 9 at 8 p.m. in the Dodge Room at Phi Beta Kappa Hall.

* * * * *

TRUESDELL RECITAL

Dr. F. Donald Truesdell, Chairman of the Department of Music at the College of William and Mary, will give a piano recital, Sunday, at 8:15 p.m. in Phi Beta Kappa Hall.

In commemoration of the bicentennial anniversary of the birth of Beethoven, Dr. Truesdell will play Beethoven's Sonata No. 7 in D. Major, Op. 10, No. 3, and Ecossaisen.

His program will also include Prelude No. 1 by Benjamin Lees; and Prelude, Chorale and Fugue by Cesar Franck.

Dr. Truesdell received his music degrees from the University of Michigan and the Eastmen School of Music of the University of Rochester.

He is currently president of the Virginia Music Teachers Association, and a member of several professional musical organizations including Phi Mu Alpha fraternity and Pi Kappa Lambda, honorary music fraternity.

DR. CATTELL TO SPEAK

Dr. Raymond B. Cattell, developer of the Cattell Group Intelligence Tests, will lecture at the College Wednesday, March 11 at 8 p.m. in the Campus Center Little Theatre.

Dr. Cattell will take as the topic of his lecture, "Beyondism - An End to Duality of Science and Ethics."

A native of England, Dr. Cattell was director of child guidance for the city of Leicester, England before coming to the United States in 1937. He has written many publications dealing with temperament, character and personality; problems of social psychology, problems concerning intelligence testing; heredity and genetic psychology, physiological psychology and applied and general psychology.

He is a member of the British Psychological Society, American Psychological Association, American Association for Study of Human Heredity; and a Fellow of the New York Academy of Sciences.

* * * * *

Dr. Quinn Lectures Tonight

Dr. David B. Quinn, Harrison Professor of History for the 1969-70 session, will lecture this evening at 8 p.m. in the Botetourt Theatre of Swem Library on "The Artist's View of Early America."

"RELIGION IN CONTEMPORARY AMERICA"
TO DRAW DISTINGUISHED SPEAKERS

The Department of Religion will present next week a lecture series on "Religion in Contemporary America," by noted guest lecturers.

The lectures will focus on three important and changing aspects of the American religious scene: Southern religion, Black religion, and Roman Catholicism.

Dr. Samuel S. Hill, chairman of the Department of Religion at the University of North Carolina and author of many studies of Southern religion, will speak Tuesday, March 10 at 8 p.m. in the Campus Center Little Theatre. Author of several studies of Southern religion, including Southern Churches in Crisis and the forthcoming Major Forms and Forces in American Religion, Dr. Hill will speak on "American Civil Religion in the South."

On Thursday, March 12, Dr. James H. Cone of Union Theological Seminary, New York, will speak on "The Black Revolution and Black Theology." His lecture will be given at 7:30 p.m. in the Campus Center Little Theatre. A member of the National Committee of Black Churchmen, Professor Cone has lectured widely in recent years on the subject of Black power and Black theology. He is the author of the widely-read Black Theology and Black Power.

Dr. Joseph H. Fichter, Charles Chauncey Stillman Professor of Roman Catholic Studies at Harvard University and the author of numerous books including the recent America's Forgotten Priests, will conclude the lecture series Friday evening, March 13 with an address on "Roman Catholics Catholicism in Ferment," and his lecture will be given in the Campus Center Little Theatre beginning at 8 p.m.

PHYSICS COLLOQUIUM

Friday, March 6, 1970, 4:30 p.m. (Coffee at 4:00)

William Small Physical Laboratory
Coffee in Conference Room
Colloquium in Room 109

Speaker: H. S. Jarrett, DuPont, Central Research Division

Subject: "Itinerant Ferromagnetism"

Premiere Theatre - Part Two

Premiere Theatre II will present three one-act plays and a prize-winning film as its second program of the year in the Laboratory Theatre, Saturday and Sunday evenings.

The two performances will be given at 8:15 p.m. each night and all are welcome. There is no admission charge. The Laboratory Theatre is located in Phi Beta Kappa Memorial Hall, to the right of the main lobby.

Sue Wood of Basset, Va., is the author of "And Everyone Played," to be directed by Bill Suber of Greenwood, S. C.

John Shearin (Mr. Vice-President in "Of Thee I Sing") has written "The Block," which will be directed by Richard Bruno of Lexington, Mass.

Arthur Roach, of Richmond, another featured actor in "Of Thee I Sing," has written "Flight of Angels," which will be directed by Ron Payne of Purcellville.

The film "Moments Ago" was made by Dale Ramsey, of Newport News and received an award for excellence from Eastman Kodak.

Producer in charge of the entire program is Ann Quindslan, of Freeport, Me.

All three of the plays to be given this weekend were written by students in Prof. Louis E. Catron's playwriting course. The Premiere Theatre, however, is not restricted to theatre majors, in fact it was conceived by Professor Catron to give all students another form of participation on campus.

Anyone can submit a script and another Premiere performance, Premiere III, is planned before the end of the year.

"It just happens that there isn't much play writing going on elsewhere on campus," said Catron commenting on the list of playwrights.

For those who hesitate at participation in a full-scale performance of a William and Mary Theatre production in Phi Beta Kappa, the Premiere Theatre offers a chance to participate in all facets of the theatre on a small scale. There's just one rule said Professor Catron and that concerns casting-"Stars Need Not Apply." "We discourage students who have had leading roles in big productions," he explained "because we want to encourage new talent." This is the first year for Premiere Theatre and its record so far is enviable. Premiere I played to a standing room only audience. No date has been set yet for Premiere III.

* * * *

Dr. William Frankena, Professor of Philosophy at the University of Michigan will speak on "Morality and Moral Education," Friday at 8 p.m. in the Campus Center Little Theatre.

WOODROW WILSON DESIGNATES

Four students at the College have been designated as winners in the annual Woodrow Wilson National Fellowship competition.

Viola L. Hamilton, of Richmond, a psychology major; Mary J. Monk, of McLean, also a psychology major; William M. Resler, Sarasota, Fla., German; and Robert J. Wagner, Norfolk, English, are among the more than 1,000 future college teachers from the United States and Canada known as Woodrow Wilson Designates.

Anthony F. Cole, Hamilton, Ohio, History; George E. Gedda, Wood Ridge, N. J., English; John A. Gallo, Richfield Spring, N. Y., History; Josephine A. Roberts, Richmond, English; and James G. Samson, Newport News, History, are included on the honorable mention list for 1970-71 for Region V.

Approximately 12,000 outstanding graduating seniors were nominated for Woodrow Wilson honors by more than 800 colleges.

A list of the Designates will be sent to all graduate school deans in both countries with recommendation that the schools provide winners with graduate fellowships. The names of the 1,152 students who received honorable mention will also be circulated among the graduate deans.

In past years, a majority of Wilson Designates secured grants from their chosen graduate schools. The Foundation backs up its recommendations by reserving 150 Woodrow Wilson fellowships for those Designates who fail to receive funds from schools of their choice. The top 100 Designates will also receive independent study awards from the Wilson Foundation for approved research, travel or study during the summer immediately preceding or following their first year of graduate school. These awards will be announced later this spring.

Funds for Wilson fellowships and study awards have been provided by the Ford Foundation, the Charles E. Merrill Trust, and the Avalon and Old Dominion Foundations.

Response to Students

WOODROW WILSON NATIONAL FELLOWSHIP FOUNDATION'S selection committees picked the Designates as "the most intellectually promising" 1970 graduates planning careers as college teachers, Foundation president Hans Rosenhaupt explained.

"Today's disaffected youth complain that a factory atmosphere pervades our country's educational institutions," Dr. Rosenhaupt stated. "The student-teacher encounter lacks the human qualities young men and women seek.

"The Designate Program is our response to their plight. Taking scholarly excellence for granted in our nominees, we look further for those human qualities that make good, even great, teachers."

COLOGNE CHAMBER ORCHESTRA
HERE FOR CONCERT MARCH 12

The Cologne Chamber Orchestra, making an encore tour of the United States, will give a concert here Thursday March 12 as part of the current College of William and Mary Concert Series.

The concert will be held in Phi Beta Kappa Hall beginning at 8:15 p.m. A limited number of single admission tickets will be available at the box office the night of the performance at \$3 each.

The orchestra will be conducted by Helmut Mueller-Bruhl who founded the Cologne Chamber orchestra in 1960 in order to present concerts in the famed Augustusburg-Bruhl Castle near Cologne. Built between 1725 and 1770, the castle is one of the outstanding examples of the Baroque period in architecture. It was created by Clemens August who had an exceptional sensitivity and appreciation of the arts.

After two seasons of concerts with various ensembles at the castle, Mr. Mueller-Bruhl founded the Cologne Chamber Orchestra. The success of the new orchestra was overwhelming and led to the establishment of a series of 25 concerts each season within the Castle. The orchestra has since toured Europe extensively and has traveled to the Far East for concerts. Recordings by the Cologne Chamber orchestra have been awarded the Grand Prix du Disque and the Grand Prix du Discophiles.

For their Williamsburg concert, the orchestra will play Divertimento in B Major (K.137) by Mozart; Concerto in D minor for violin and strings by Mendelssohn; Concerto in C Major for cello and strings by Haydn; and Serenade in G Major, "Eine kleine Nachtmusik" (K.525) by Mozart.

Solists will be Tomotado Soh, violin; and Esther Hyffenegger, cello.

DEBATE TOURNAMENTS

College debaters posted winning records and placed in elimination competition in tournaments at the University of Pennsylvania and the Citadel over the week-end.

The team of freshmen Glen Clatterbuck of Harrisonburg, and Dan Gepfort of Fanwood, N. J., led the William and Mary contingent by posting a flawless 6-0 record and qualifying for the quarter finals at the Citadel. They defeated Georgia, Tennessee, West Georgia, Randolph Macon, and two teams from Stetson College before losing to Southern Illinois in the quarter-finals. The other freshman team from W & M in the tournament, John Vile of Stanley, Va., and Bill Witting, of Alexandria, had a 4-2 record and were victorious over teams from Pfeiffer, Mercer, the Univ. of N.C.

at Greensboro, and Wingate College. They lost to teams from Georgia and West Georgia.

Two teams compiled identical 4-3 records in competition at the Liberty Bell Invitational Debate Tournament at the University of Pennsylvania. Louis Lobenhofer, of Denver, a sophomore, and Nancy Dunbar, of Lithia, Va., a freshman beat teams from Boston University, Delaware, Seton Hall and Pennsylvania, while losing to Mt. Holyoke, Massachusetts and Georgetown. Freshmen Bill Harpine of Fairfax, and Chuck Kennedy, of Williamsburg also competed in the tourney, winning over teams from Massachusetts, Providence, Brandeis and Bowdoin and losing to Washington and Jefferson, LaSalle, and Miami.

The William and Mary debaters will spend next weekend at home in preparation for district championships which will be held at Rutgers, March 13-14.

THE EVE OF THE IDES OF MARCH PARTY

The Faculty Club will sponsor a Cocktail party Saturday, March 14 from 7:30 to 9:30 p.m. at Holiday Inn East 814 Capitol Landing Road.

Tickets are \$3 per person for non-members, \$1.50 for a member and guest. Anyone who would like to pay belated membership dues is invited to at any time - \$3 per person.

Money for tickets should be sent to Jon Soest or put in his mail box in James Blair Hall.

Payment will be accepted at the door the night of the party but advance sales are preferred.

* * * * *

LEGAL AID OFFERED

Students enrolled in a Legal Aid course at the Law School offer their services to members of the college community each Tuesday afternoon from 2:30 to 5 p.m. in the Counseling Office in Rogers Hall.

The Information library at the Center is open daily from 8:30 - 5 p.m. Monday - Friday and 7 p.m. to midnight on Tuesdays.

RESEARCH GRANTS PROGRAM OF THE ENVIRONMENTAL CONTROL
ADMINISTRATION'S BUREAU OF OCCUPATIONAL SAFETY & HEALTH

The Environmental Control Administration conducts a program of research grants for support of research and research training on problems related to its areas of responsibility. The Bureau of Occupational Safety and Health has the responsibility for improving and protecting the health and safety of the working population. The Bureau carries out its mission through conduct agencies, aimed at maintaining and improving the occupational environment through control of disease, and conditions harmful to the worker.

The Research Grants Program of the Bureau permits enlistment of research capabilities at universities, state and local agencies, and other non-profit institutions in the definition, assessment, elucidation and control of occupational health problems through funding of approved research projects and training programs. Proposals should be submitted by eligible institutions on behalf of named investigators.

Among the categories for possible research are:

1. Laboratory, clinical and epidemiologic studies and development of diagnostic, preventive, therapeutic, mechanistic and interpretive aspects of diseases, pathologic changes, physiologic and psychologic alterations presumed to arise out of an occupational causation.
2. Studies of psychological and motivational factors and relationships in occupational situations and the impact on mental health and job performance.
3. The development and application of methods for evaluating the varying capacity of workers to withstand stresses imposed on them in their work environment.
4. Studies of the inter-relationship between conditions of employment and the development and course of chronic diseases.
5. Studies of the cause and nature of fatigue and its relation to the individual's increased susceptibility to accidents and occupational disease.
6. Studies of the socioeconomic factors relating to or arising out of disease associated with occupation.
7. Six other categories in the field of occupational health and safety.

For further information and assistance, contact -

Warren Heeman, Assistant Vice President for Sponsored Programs.

DEPARTMENTAL NOTES

BIOLOGY

Dr. Bruce Grant's review of GENETICS by H. W. Strickberger (Macmillan) appeared in the latest issue of The Quarterly Review Of Biology, 44: 411, 1969.

Dr. Carl W. Vermeulen of the Biology Department was guest speaker Tuesday at a public meeting in Yorktown on environmental problems. His topic was "Another Apple Problem." He was accompanied by Dr. Gerald W. Johnson of the Geology Department and two students, Martin Oakes and James Simpson who were members of the planning committee for the meeting on environmental meeting held on campus recently with Senator Spong.

CHEMISTRY

The American Chemical Society has named Dr. Melvyn Schiavelli the recipient of a \$12,000 grant from the Petroleum Research Fund. This award which is granted for fundamental research at the undergraduate level will be made over a period of two years for a study entitled The Chemistry of Allenes: A Mechanistic Examination of the Hydration Reaction of Allenes.

ENGLISH

Prof. Donald Ball attended the fifth annual convention of the South-eastern Conference on English in the Two-Year College held in Washington, Feb. 26-28. Professor Ball participated as a respondent to a presentation on generative rhetoric by Francis Christensen, author of a new rhetoric program to be used in the public schools.

DEPARTMENTAL NOTES - Con'd.

GOVERNMENT

Roger W. Smith is editor and co-author of a book entitled GUILT: MAN AND SOCIETY. The book will be published by Doubleday as an Anchor Original in 1971. The expectation is that the volume will be of interest to the general reader as well as to students in a number of fields, such as political science, sociology, psychology, and the history of ideas.

HISTORY

Prof. Bruce T. McCully's biographical article on Francis Nicholson appeared in the Dictionary of Canadian Biography/Dictionnaire biographique du Canada, Volume II, published November 1969 by the University of Toronto Press and Les Presses de L'Universite' Laval respectively. The concluding chapter of his book English Education and the Origins of Indian Nationalism has been reprinted in Protest, Reform and Revolt: A Reader in Social Movements, Joseph P. Gusfield (editor), published by John Wiley in Feb.1970.

PHILOSOPHY

Prof. William S. Cobb, Jr. served as a commentator for a paper dealing with the distinction between descriptive and normative statements at the recent meeting of the Southern Society for Philosophy of Religion in Tallahassee, Florida. Professor Cobb argued that many statements about human behavior are both normative and descriptive, being objectively decidable and yet entailing normative obligations. He cited as an example the descriptive statement "Jones promised to pay Smith \$5.00," which entails "Jones ought to pay Smith \$5.00." The key claim is that some descriptive statements are about human institutions, which are constituted by rules governing behavior.

SCHOOL OF EDUCATION

Dr. James D. Cowles was an invited participant in a Regional Early Childhood Education Planning Conference held in Chapel Hill, North Carolina during February 21-24. Representatives from Kentucky, North Carolina, South Carolina and Virginia attended the Conference.

MARSHALL-"MYTHE SCHOOL OF LAW"

1969 Tax Conference Proceedings

Copies of the Fifteenth Annual Tax Conference sponsored by the Marshall-Mythe School of Law have just been received from the printer. They contain the principal papers delivered at the conference held December 6, 1969. Two of the law faculty papers included are "1969 Leading Federal Tax Cases," by Professor John W. Davies, and "1969 Federal Tax Pulings," by Professor Don W. Llewellyn.

CLASSIFIEDS

April 1 is the deadline for contributions of fiction, poetry or art to the William and Mary Review.

* * * * *

There will be no issue of THE COLLEAGUE on March 16 or 29. Please use the attached sheet for information to be included in the April 2 issue.

CONFERENCE ON INFLATION SCHEDULED

An effort to shed some fresh light on the pressing problem of inflation will be made here later this month in a special conference assembled in a unique way.

The conference, sponsored by the Robert Earl McConnell Foundation, will be held March 20-21 at the Williamsburg Conference Center. It is co-sponsored by the College.

Respected faculty members from eight major campuses, along with selected federal officials, will set forth and discuss their proposals for ending inflation in the United States. The campus delegates will bring with them ideas generated from among their more outstanding colleagues.

The Foundation has, for nearly a decade, endowed Thomas Jefferson Awards to be made annually to outstanding faculty and staff members on a dozen campuses. The Williamsburg conference on inflation will be the result of discussions among past Thomas Jefferson Award recipients on the eight participating campuses. The conference has had the encouragement of Cabinet-level officials in Washington, who plan to send observers to listen and to take part in the discussions.

The eight participating campuses are the University of Florida, Emory University, Vanderbilt University, Davidson College, the University of North Carolina, the University of Virginia, the College of William and Mary and the University of Colorado.

On some of these campuses, Thomas Jefferson Award recipients of past years have met informally in recent weeks to discuss ways to end inflation. On others, full-fledged campus conferences on the subject have been held, involving not only Thomas Jefferson Award recipients but leading economists and others with specialized knowledge of the subject.

From each of these discussions has emerged a paper, representing the combined thinking of those who took part. The papers will be presented in Williamsburg in written form, and compressed for oral presentation and discussion.

The Robert Earl McConnell Foundation has underwritten expenses of the Williamsburg conference as well as provided honoraria for persons on participating campuses who were involved in the project.

The Williamsburg conference schedule calls for presentations and discussions to begin at 1:30 p.m. Friday, March 20, with informal further discussions to take place following a dinner. The next morning, participants will offer further thoughts and critique on the conference itself.

CONFERENCE ON INFLATION - Con'd.

The Foundation sponsoring the conference is headed by retired mining executive Robert Earll McConnell of Hobe Sound, Fla., a consultant to the government under the administrations of Presidents Roosevelt, Truman and Eisenhower, who received an honorary degree at Charter Day ceremonies. From 1921 until 1936, he headed Foster and Mc Connell, a member of the New York Stock Exchange. When the firm was dissolved in 1936, a large share of its holdings were used to establish the Robert Earll McConnell Foundation for charitable and philanthropic purposes. During World War II, he was Assistant to the Secretary of the Treasury and headed the General Aniline and Film Co. when it was seized from the German government.

FOIL CHAMPIONSHIPS
HERE SATURDAY

The second annual State Foil Championship tournament for men and women will take place on campus on Saturday.

The amateur fencing tournament is scheduled to start at 9:30 a.m. in Blow Gymnasium and continue through the day. The College of William and Mary's fencing team is host for the event, which is sponsored by the Virginia Division of the Amateur Fencers League of America.

The tournament is open to all amateur fencers, and last year the event attracted about 40 contestants from around Virginia, including several college fencers.

Other championships scheduled by the league include the state amateur sabre championship at the University of Richmond and the state amateur epee event at the University of Virginia.

Circle to Explore College's International Role

The International Circle is inviting faculty members and students to attend a discussion session Monday, March 16 at 7:30 p.m. at the International Center, 206 North Boundary Street to explore the role of the foreign student and the host college.

Should an American university open its doors to foreign students? How many foreign students should or could William and Mary admit every year? What could or should be done to attract foreign students to the campus? What is the College's commitment in the field of foreign study? Should the College facilitate and recognize programs of study outside the United States that would permit our American students to fulfill part of their four-year degree requirements in foreign universities? - these and similar questions will be up for discussion Monday night.

SCHOLARSHIP FUND LAGGING

The Admissions Office has nominated ten entering freshmen for the Martin Luther King, Jr., Memorial Scholarship.

It is hoped that five of these students will be selected as recipients and five as alternates. At present, however, there is only money enough in the Scholarship Fund for four awards. Eight or nine more qualified students could be added to the list of nominees - if funds permitted.

The Martin Luther King, Jr., Memorial Scholarship was established in the spring of 1968 by the Faculty of Arts and Sciences. Annual awards are made, preferably to freshmen, on the basis of merit and need.

Last year \$500 awards were made to four entering Negro freshmen. The fund presently stands at \$1,792.73. This amount includes a contribution of \$147.66 by an alumni group in Philadelphia and a donation of \$100 from Gamma Phi sorority which voted to make the money available for the King Scholarship rather than build a homecoming float.

Contributions are needed. Anyone wishing to make a donation to the scholarship fund is asked to send a check to the "King Memorial Scholarship" to Warren Heeman by campus mail.

Gregory To Speak Here April 27

The Junior Class is sponsoring a talk by entertainer Dick Gregory April 27 at 8 p.m. in Blow gymnasium for the benefit of the Martin Luther King Scholarship Fund. A reception will follow in the Campus Center Ballroom. Tickets will go on sale in April and will be \$1 each.

PHYSICS COLLOQUIUM

Friday, March 13, 4:30 p.m. (coffee at 4:00)

*William Small Physical Laboratory
Coffee in Conference Room
Colloquium in Room 109*

SPEAKER: H. Bertini, Neutron Physics Division Oak Ridge National Laboratory

SUBJECT: "Intr-Nuclear Cascade Calculations in the Energy Range from 100-3000 MeV"

AN EVENING OF DANCE

The Orchesis modern dance club will give its annual concert in Phi Beta Kappa Hall, Wednesday and Thursday, March 18 and 19 at 8 p.m.

Entitled "An Evening of Dance," the program will be as varied as the musical accompaniment which will range from Gregorian Chant, Bach, and Khatchaturian to an original sound track and Rod McKuen.

Original choreography for the numbers has been designed by students in the modern dance classes at the College.

Dances and choreographers include "Fugue" by Mary Ann Stuckmeyer of Springfield, Va.; "Detours," by Hada deVarona of Marion, Va.; "Lament" by Dee Curwen of Fieldale, Va.; "Arcs and Lines," by Judy March of Millis, Mass.; "Counter Clockwise," by Janet Watkins, Arlington, Va.; "Soliloquies," by Kathy Metzley, Laura, Ohio; "Waiting," by Kerri Bagler, Arlington, Va.; "Interlude," by Hannah Lindsay, Manhasset, N. Y.; "Coronack," by Cheryl Zucker, North Caldwell, N. J.; and "Tapestry," by Betsy Vail, Alexandria, Va., president of Orchesis.

The program will also include a duet by Miss Vail and Chris Patterson, coach of gymnastics team entitled "Solitary Dialogue."

Singer Wins First Place Honors

Kathy Powell of Clinton, Md., who entered her first singing competition last weekend, placed first in the freshman division in the annual voice auditions held at Old Dominion University by the Virginia Chapter of the National Association of Teachers of Singing.

As a result of her standing, Miss Powell is now eligible to compete in regional auditions to be held later this year in Atlanta, Ga. She sang "Ein Swan," by Grieg and "Year's at the Spring," by Beach. Her accompanist was Judy Sisson, Montross, Va.

Suzanne McSmith of Hampton, placed third in the Sophomore division. Her accompanist was John Gearhart of Hampton.

Pat Garst of Roanoke, Va.; Janet Gaskins of Weston, Mass., and JoAnne Todd of Falls Church, also competed in the sophomore division. Sue Auerbach of Charlotte, N. C., was an accompanist. The divisions of the competitions were made up according to the amount of college music training received by the students, not according to class standings.

All competitors are voice students of Robin Roark of the Music Department faculty. Two of Roark's private students, Linda Poinsett and Susan Daniel won top honors in the senior and junior divisions respectively.

Weekend Winners

Two weeks ago William and Mary Athletes won the State Collegiate Indoor Track and Field Championship. Saturday in Lexington, they won the Southern Conference Indoor track and field championships for the fifth straight year.

Howell Michael, a junior from Charlotte, N. C. won two first, in the mile and the 1,000 yard run, to help W & M amass a team score of 106. Second place Furman earned 48 points.

At Blow gymnasium Saturday night, W & M wrestlers won their third straight Southern Conference wrestling title. In gaining the championship the wrestlers won six individual championships, 118 lbs - Lonnie Parker of Portsmouth; 134 lbs. John Kaila, Triangle, Va.; 150 lbs. Greg Giordano, Easton, Pa.; 167 lbs., Bob Hobson, Annandale; 177 lbs., Scott Moyer, Millmont, Pa.; and heavyweight class, Doug Freiberger, Riverdale, N. J.

Swimmers head north

As a result of their recent championship win, the William and Mary swim team have been invited to participate in the Eastern Collegiate championships to be held this weekend in Hanover, N. H., at Dartmouth.

Vacation Hours at the Library

During Spring Break Swem Library will be open on the following schedule:-

March 21 - 28	-	8 - 5 p.m.
March 22	-	2 - 5 p.m.
March 29	-	Closed

The Library will resume its regular schedule on March 30.

WORK STARTED ON NEW BUILDING

Work has begun on the construction of a new \$1.5 million social sciences classroom building on campus.

Bryhn and Henderson, Inc. of Williamsburg, began this week to clear the site for the project, following the award of a \$1,516,500 construction contract by Governor Linwood Holton. The firm was low bidder last month when the bids were opened.

The four-story building will house the departments of history, government, economics and sociology and also the Marshall-Wythe Institute, an interdisciplinary research agency.

The construction contract calls for completion of the facility by October, 1971.

To be erected in a "y" shape, with three adjoining wings, the classroom building will be located just west of Phi Beta Kappa Memorial Hall off Jamestown Road.

Construction of the building is financed by an appropriation made in 1968 by the General Assembly from funds borrowed by the State as part of the \$81 million general obligation bond approved by Virginia voters in a referendum that year.

Also currently under construction is the \$5.3 million men's physical education building and convocation center, and a botanical research facility atop the John Willington Hall of Life Sciences. Next to go out for bids is a nine-unit women's residence complex to house Greek-letter sororities, to be constructed with revenue bonds.

CAMPUS SIGNS - automotive prose

". . . body is in sad shape. Engine runs reluctantly. Transmission is in need of a little attention (perhaps even a lot). . . Well! what did you expect for \$125?

The object of this colorful description is a 1958 Volkswagen. The ad writer is Lenny Starr, Marshall Wythe School of Law.

DEPARTMENTAL NEWS

CHEMISTRY

The following paper appeared recently:

Melvyn D. Schiavelli, Sharon C. Hixon and H. Wayne Moran, "The Solvolysis of Triarylhaloallenes", J. Am. Chem. Soc., 92, 1082 (1970).

ECONOMICS

Prof. Leonard G. Schiffrin has been appointed chairman of a newly formed advisory committee to the Department of Health, Education and Welfare. The other members of the three-member committee are Professors Sidney Suffrin of the University of Michigan and William Commanor of Stanford University. The main function of the advisory committee is to plan and guide research studies on the Medicare Program in the Office of Research and Statistics of the Social Security Administration.

GOVERNMENT

Prof. Chonghan Kim is a recipient of a travel grant from the Palm Foundation, Ann Arbor, Michigan, in connection with his participation in an international conference on the "Problem of Korean Unification" in which he has been invited to participate.

The conference will be held from August 20, 1970 to August 27, under the auspices of the Asiatic Research Center of Korea University, Seoul, Korea.

Some forty scholars from the United States, Germany, Japan, China, India, Vietnam, Laos, and several other Southeast Asian countries are expected to partake in the conference, which will consider six major aspects relating to the problem of Korean unification. Prof. Kim will present a paper on "Korean Unification Plans in the United Nations: Problems and Prospects."

- - -

Dr. George Grayson, assistant professor of Government, recently delivered two lectures on Virginia politics at the Hampton Institute. On March 10, he spoke on "Virginia's Changing Political Culture" and on March 12, his topic was "Coalition Building: Theory and Practice."

- - -

Dr. Richard Brown, associate professor of government at the College of William and Mary, has been selected for inclusion in the 1970 edition of "Outstanding Young Men of America."

Dr. Brown is a 1959 graduate of Hope College and is one of eight Hope alumni to be selected for the honor.

Departmental News - Con'd.

Dr. Carl A. Fehr, Director of the William and Mary Choir and Chorus, attended the biennial national convention in Chicago March 5-9 of the Music Educators National Conference and the affiliated American Choral Directors Association, of which he is a charter member.

Dr. F. Donald Truesdell, Head of the Department, will attend two committee meetings as President of Virginia Music Teachers Association; the Certification Committee in Blacksburg March 14 and the Finance Committee in Farmeville March 15. On March 20 and 21 he will again serve as a member of the Sub-committee of the Virginia Commission of the Arts and Humanities to assist in processing applications for federal assistance from the National Endowment for the Arts in meetings to be held in Richmond.

Professor Charles R. Varner, Director of the William and Mary Band was an adjudicator for the District V Band and Orchestra Festival in Charlottesville March 7. On March 14 he will adjudicate for the District IV-B Band and Orchestra Festival in Falls Church.

PHYSICS

Prof. Rolf G. Winter, Chairman of the Department of Physics will serve as a visiting lecturer at Eastern Kentucky University, Richmond, Kentucky, Wednesday and Thursday.

He will visit under the auspices of the American Association of Physics Teachers and the American Institute of Physics as part of a broad, nationwide program to stimulate interest in physics. The program is now in its thirteenth year and is supported by the National Science Foundation.

PHYSICS DEPARTMENT IS AWARDED
\$610,000 NSF DEVELOPMENT GRANT

The physics department of the College will undergo major strengthening over the next three years as part of an effort to make it one of the nation's leading research and educational centers in the field.

The development will take place with the support of a new \$610,000 grant from the National Science Foundation under its departmental science development program. The \$610,000 grant is the largest ever to be received by William and Mary from the federal government, except for construction funds.

"The welfare of the nation," the NSF said in making the grant, "requires the development of additional academic centers capable of high quality research and education in the sciences."

The NSF said similar departmental support grants were made to science departments at eleven other institutions, although no others were awarded to physics departments. The others are at Colorado State, Boston University, University of New Hampshire, State University of New York at Binghamton, Kent State University, Oregon State, Southern Methodist University, Brandeis, Northwestern and State University of New York at Stony Brook.

Dr. Rolf G. Winter, chairman of the Physics Department, said the grant is "a genuine tribute to all elements of the College. None of this would have been possible without the help of undergraduate, graduate students, faculty and administration. The grant is of course closely connected to graduate work, but the undergraduate aspect is very important too. The NSF visitors were impressed by the quality of our undergraduates and their enthusiastic involvement in their research projects."

The three-year program will involve purchase of more than \$250,000 in additional equipment, funds for visiting faculty, postdoctoral associates, summer salaries, graduate and undergraduate assistance and added technical help. It provides for consultants, additional library resources, symposia and conferences, and guest speakers.

Dr. Winter said the development plan does not involve the introduction of specialties in which the department does not currently have competence.

PHYSICS DEPARTMENT AWARDED GRANT (Con'd.)

We seek simply to move forward from our present position in the most obvious ways in order to increase the strength of our research areas," he said.

These areas include atmospheric physics, atomic and molecular physics, elementary particles and fields, nuclear physics, plasma physics, and solid state physics.

The department currently has 25 faculty members and three research associates. About 400 students are enrolled in its introductory courses. It has about 35 upperclassmen concentrating in the field, and about three-fourths of its seniors go on to do graduate work. There are currently 37 full-time and 19 part-time graduate students in the department.

The department is housed in the six-year-old William Small Physical Laboratory, a part of the William and Mary's new campus. In addition, staff members use the Space Radiation Effects Laboratory in Newport News, operated by William and Mary physicists for the National Aeronautics and Space Administration.

The department first began offering graduate work in 1959 with a Master's degree program. In 1964, it was authorized to begin offering work toward the Ph.D. degree and the first such degree was conferred in June, 1967. Eight physics Ph.D.'s have been conferred so far.

Dateline London

AMERICAN TO BE FREEMAN OF DRAPERS' COMPANY

"For the first time in its 600 years of history the Drapers' Company, one of the senior Livery Companies, presented the Freedom of the Company to a civilian foreigner.

The only other foreigners ever to receive the honour were Prince William of Orange (later William III) in 1670 and Prince Charles of Denmark (later King Haakon of Norway) in 1896.

The civilian is Dr. William Melville Jones, Vice President of William and Mary College, Virginia, USA. The presentation, in recognition of Dr. Jones's services in restoring the connection between the Commonwealth of Virginia and the Drapers' Company and in establishing and maintaining the Exchange Studentship Scheme between William and Mary College and this country, was conferred at a special meeting of the Court of Wardens held immediately before the Livery Dinner in honour of the Lord Mayor and Sheriffs of London at Drapers' Hall on Wednesday, March 25.

Dr. Melville Jones's family, on his father's side, came to America from North Wales in the late 19th century. After obtaining his Master of Arts at Ohio State University, he joined William and Mary College, Virginia (founded in 1653) as Professor English in 1928.

Forty years later he was still Professor English but also Vice President of the College, having previously held the posts of Dean of Faculty and Dean of the College."

Dr. Jones has been instrumental in working with the Drapers' Company since the mid-1950s on a scholarship program under which British students attend William and Mary, and William and Mary students attend British universities. He has also developed an exchange program with Exeter University, under which one student and one faculty member from each institution exchange places for a year. Two years ago, Dr. Jones began a junior year abroad program at Exeter for William and Mary students. In addition, he arranged for an annual student exchange with St. Andrews University in Scotland.

The College honored the Drapers' Company in 1968, during the 275th anniversary year of the granting of William and Mary's royal charter. It conferred on Farmar the honorary Doctor of Laws degree.

AMERICAN TO BE FREEMAN OF DRAPERS' COMPANY
(Con'd.)

The College's charter was granted by King William III, the first non-British honorary member of the Drapers' Company and his joint sovereign, Queen Mary II, in 1693.

The Drapers' Company, existing since the 12th century but formally chartered by King Edward III in 1364, is one of a number of the Guilds which were organized in London during the Middle Ages. While limited at first to merchants in the woolen cloth trade, it developed considerable wealth and now exists as trustee of a number of charities including schools, almshouses, pension funds and other programs. In addition, through its own endowment, it funds such programs as the William and Mary - British exchange program.

DR. QUINN TO LECTURE
APRIL 9 IN CAMPUS CENTER

Dr. David B. Quinn, James Pinckney Harrison Visiting Professor of History, will give a public lecture, Thursday, April 9 at 8 p.m. in the Campus Center Little Theatre.

Dr. Quinn will take as his topic, "Current Views on the Discovery of America."

A native of Belfast, Ireland, Professor Quinn received his Ph.D. from the University of London in 1934. He has taught at the University College of Swansea and has been the Andrew Geddes and John Rankin Professor of Modern History at the University of Liverpool since 1957.

Coffee in Conference Room
Colloquium in Room 109*

SPEAKER: F. Gross, University of California, Santa Barbara

SUBJECT: The Nuclear Force - Where do we stand after 35 years of work?

STANFORD PSYCHIATRIST
TO LECTURE ON SLEEP

The William and Mary Club of the Society of Sigma Xi, a national society dedicated to the advancement of scientific research, will sponsor a public lecture Thursday, April 9 by Dr. William C. Dement, Professor of Psychiatry at Stanford University School of Medicine.

Dr. Dement's lecture entitled "Sleep" will be given at 4 p.m. in the large auditorium in John Willington Hall.

Dr. Dement was born in Wenatchee, Washington. He received a B. S. degree from the University of Washington, cum laude, in Basic Medical Science, an M.D. degree with honors from the University of Chicago, and PhD degree from the same university, Department of Physiology, where he was a USPHS post-doctoral Research Fellow. Following internship at Mt. Sinai Hospital, New York, he served as a Research Fellow in the Department of Psychiatry at the same hospital.

Dr. Dement has been associated with Stanford University since 1963. He is the recipient of numerous honors, including the Harry Ginsburg Memorial Prize, University of Chicago, in 1955, and the Hofheimer Prize of the American Psychiatric Association in 1964. Dr. Dement is noted for his work in the field of physiology of sleep and dreams. He is presently working, under a grant from the National Institute of Mental Health, on the "Combined Physiological - Neuropharmacological and Biochemical Investigation of the Basic Mechanism of REM Sleep." He is the co-founder of the Association for the Psycho-physiological Study of Sleep, and is the author of more than 80 scientific papers on the subject of sleep and dreams.

* * * * *

CHARLIE BYRD QUINTET
TO GIVE CONCERT APRIL 9

The William and Mary Concert Series will close out its season with a concert by the Charlie Byrd Quintet, April 9 at Phi Beta Kappa Hall, at 8:15 p.m.

A limited number of single admission tickets will be available at the box office the evening of the concert at \$3 each.

Charlie Byrd has become known internationally as a virtuoso of the guitar. He works with equal ease in the idioms of both classical music and jazz. He has won virtually every award given to a guitarist and holds a highly respected position among contemporary American musical artists.

*Society of Sigma Xi Establishes
Undergraduate Science Award*

The William and Mary Club of The Society of the Sigma Xi has recently established a Sigma Xi Undergraduate Research Award. This award is to be presented each year to the undergraduate student who has submitted the best paper on a research project in science or mathematics. The paper must be presented as a manuscript ready for publication and should not be merely an unaltered copy of the student's senior research project. In this way the student is forced to critically evaluate his work in order to separate the most pertinent facts from the extraneous information. All papers will be judged by a Sigma Xi Special Committee to be composed of one member from each field of study in which a paper is submitted. The award will be a suitably enscribed book in the student's field of study selected by the student's research advisor. Hopefully, this book will serve as a valuable reference and aid during the student's subsequent career.

Sigma Xi is a National honorary research society with a membership of more than 200,000. One of its major activities is to maintain a large scale program of grants in aid of research for college students and practicing scientists. William and Mary formed a Sigma Xi Club in 1966. The Club is presently endeavoring to attain Chapter Status with the National Organization. During the current year it has conducted an active program of speakers at William and Mary. It provides a medium for communication and cooperation between the various scientific disciplines. This new Undergraduate Research Award is an attempt to help achieve the goals of Sigma Xi at the College of William and Mary.

Exhibit of Modern Art
Opens Sunday Afternoon

Paintings and Sculpture from the collection of Mr. and Mrs. Sydney Lewis of Richmond will be on display in the Botetourt Gallery and Museum in Swem Library April 5 through 19.

A special opening reception for the general public will be held Sunday, April 5 from 4-6 p.m. Beginning April 6, the exhibit will be open for viewing from 9-5 p.m. daily. The exhibition is being sponsored by the Twentieth Century Gallery and a catalogue of the show has been prepared by the directors of the gallery.

The Lewis' collection is one of the most outstanding in the country. The exhibition will feature the work of established leaders of contemporary art including Franz Kline, Willem deKooning, Claes Oldenburg, Andy Warhol, Tom Wesselman, Robert Rauschenberg, and Roy Lichtenstein.

Current Lecture Series
Concludes April 6 with
Lecture By Dr. Erikson

Dr. Kai T. Erikson, associate professor of sociology at Yale University, will lecture at the College April 6 on "Reflections on American Culture."

His lecture, arranged by the Committee on Arts and Lectures, will be given at 8 p.m. in the Campus Center Little Theatre.

In 1967 Dr. Erikson received the Robert M. MacIver award of the American Sociological Association. The award, which is the highest research honor that can be awarded to any sociologist, was for his book "The Wayward Puritans: A Study in the Sociology of Deviance."

A native of Austria, Dr. Erikson is a specialist on deviant behavior and the history of social change. He received a B.A. degree from Reed College and an M.A. and Ph.D. degree from the University of Chicago. He has taught at the University of Pittsburgh and Emory University and was appointed to his present position at Yale in 1966.

Dr. Erikson's lecture concludes the 1969-70 Visiting Scholar Lecture series.

NUTRITION - Speaker on Campus
Forum in Richmond

"The Development and Use of Vitamin B₁₂ in Human Nutrition," will be the topic of a lecture to be given on campus April 9 by Dr. G. Watson James, III, Professor of Medicine, Medical College of Virginia, in Millington auditorium at 8 p.m.

"Bridging the Nutrition Gap" is the theme of the fourteenth annual Nutrition Forum to be held April 27-28 in the fifth floor auditorium of Thalhimers in Richmond. Senator William B. Spong, Jr., will give the opening address Monday evening. He will take as his topic "Bridging the Nutrition Gap."

Dr. Margaret Markham, executive director of Vitamin Information Bureau, New York, will speak on "Interpretation of Nutrition Studies by the Mass Media," at the Tuesday morning session. Other speakers will be Dr. Ruth M. Leverton, assistant deputy administrator, Agricultural Research Service, United States Department of Agriculture; Mrs. Elizabeth L. Aydlett, state nutrition consultant; Mrs. Louis B. Tune, extension agent, Halifax, Va.; and Mrs. Ann Vaughn, executive director, The Dairy Council of Roanoke. The public is invited to attend the forum, sponsored by the Nutrition Committee of the Virginia Council on Health and Medical Care and Thalhimers.

THREE PSYCHOLOGISTS
TO STUDY NOISE EFFECTS

A study of the effects of noise and other hostile sensory environments on man's ability to perform complex tasks will be made by three psychologists from the College.

The study will be undertaken at the Virginia Associated Research Campus under agreements with NASA's Langley Research Center. The research will be supported through task orders issued by NASA totaling \$21,273.

Dr. E. Rae Harcum, director of the project, and Dr. Virgil McKenna and Samuel Bauer, all members of the psychology department, will establish a laboratory at VARC to perform their studies.

In addition to the three psychologists, the research group includes two research assistants and a graduate student. Under-graduate psychology majors at the College will serve as subjects in the experiments.

The work relates to the research of Dr. Randall Chambers and others at Langley Research Center, who are studying the acoustical problems associated with supersonic flight and the construction of a reusable space-shuttle.

Noise has recently been described as one of the more pollutants of the nation's environment, contributing to chronic fatigue, neurasthenia, increased blood pressure, and decreased working and mental efficiency, according to the psychologists.

The World Health Organization has reported that United States business loses an estimated \$4 million a day through the inefficiency induced by noise pollution.

Little is known, however, about the effects of noise on the ability of man to mentally process complex information. The Harcum group will investigate problems related to selective distribution of effort under auditory stress in the perception of stimuli at various locations in the visual field; configurations of stimulus elements, human cognitive "controls," as in shifts from reliance on vestibular to visual cues when the former are disturbed by, for example, the rotation of the body in flight; and response feedback.

Harcum is a senior member of the psychology department. He has received extensive support for the last 10 years from the National Institutes of Health for his pioneering studies on psychological aspects of vision. McKenna has received NASA support previously for his studies of the effects of stressors on man's ability to process information.

INDEX SHOWS SLOWDOWN
IN VIRGINIA ECONOMY

More evidence of a slowdown in Virginia's economy has been reported in the current Virginia Business Index, reflecting February business and economic indicators.

Dr. Leland E. Traywick, director of the Bureau of Business Research, forecast that the slowdown will continue "for the next few months" but "by summer or early fall, things should be better."

"The long run is good," Dr. Traywick added.

The Virginia economic slowdown is a reflection of a similar cutback on the national level, he pointed out.

Even bank debits, a figure which had been holding its own in recent months despite indications of what he called a "mini-recession," are affected. For February, he said, they are "up a mere 14.5 per cent on a year-to-year basis."

Dr. Traywick also found evidence of the slowdown in newspaper advertising--down 0.8 per cent--and new car registrations--down 21.1 per cent.

At the same time, non-agricultural employment, retail sales, postal receipts, water consumption and electrical consumption continued to show favorable increases, according to the February review of statistics.

Building permits continued their decline in most major cities among the 17 which are part of the Index analysis.

In addition, five of the 17 communities showed declines in their City Index computations, a weighted arithmetic mean of all components in the survey except building permits.

The decline in Williamsburg, reported for December and January, continued in February at about the same level--off 4.1 per cent. Franklin showed a 3.0 per cent decline, Winchester a 2.9 per cent decline, Staunton a 2.3 per cent decline and Danville a 1.2 per cent decline.

* * *

TUITION AND FEES at the College will go up next fall by \$132 to \$660 a year for Virginia students and \$236 to \$1,594 for out-of-state students effective September 1. President Paschall said in a letter to parents, that the increases were due to the growing needs of the College in the face of budgetary restrictions imposed by the 1970 General Assembly. The College had sought about \$20 million. Its appropriation was slightly less than \$13 million.

PROFESSOR CATE TO HEAD
12th SUMMER SCIENCE INSTITUTE

Approximately 80 teachers of junior and senior high school mathematics and sciences will attend the twelfth annual Summer Science Institute at the College beginning in June.

Supported by the National Science Foundation under a grant of \$91,315, the Institute is designed to upgrade the backgrounds of teachers in mathematics, chemistry and physics.

Fifty of the participants will be returning for further study and approximately 20 are expected to complete requirements for a master's degree in the teaching of science. The first M.T.S. degree was offered at the College of William and Mary in 1962 and since that time over 150 have been conferred.

The Institute curriculum will include courses in the principles of physics and chemistry; two courses in algebra and courses in calculus and probability and statistics. The physics and chemistry courses will carry eight hours of credit each and the mathematics courses, four hours of credit.

Participants are required to have had at least two years of teaching experience and must currently be teaching in grades 7-12. Selection of applicants is made yearly.

Institute director for the third year will be Prof. Benjamin R. Cato of the Department of Mathematics at William and Mary. Associate director will be Prof. R. H. Prosl, also of the Mathematics Department.

Other staff members will include Dr. George W. Crawford, Physics; Dr. T. L. Reynolds, chairman, Department of Mathematics; and Dr. A. R. Armstrong, Chemistry.

Visiting lecturers will augment the resident staff during the eight weeks of the program.

The Institute will open June 22 and close August 14.

COLLEGE RECEIVES NSF GRANT
FOR GRADUATE TRAINEESHIPS

The National Science Foundation has awarded a grant of \$43,268 to the College of William and Mary for continuation of the graduate traineeship program at the College.

The NSF grant will provide support during the 1970-71 academic year for a total of seven graduate students in the fields of physics, marine science and biology.

STANLEY IS NAMED
TO POST AT VARC

Henry C. Stanley has been appointed Assistant Director for Business Affairs of the Virginia Associated Research Campus of the College of William and Mary.

Warren Heemann, VARC Director, announced the appointment to the newly created position, retroactive to March 1. Formerly, business affairs at the agency were directed by Col. J. C. Tredennick, director of business affairs, who resigned February 28.

Stanley has been on the VARC staff since it was opened in 1964, serving as an accountant.

Stanley is a retired Army sergeant major, and has served as personnel officer of a number of Army units. From 1946 until retiring in 1958, he was administrative and finance officer in the Army Attache Offices of the United States embassies in Turkey, The Netherlands and El Salvador. He joined the Commonwealth of Virginia service in 1961 as employment interviewer supervisor in the Newport News office of the Virginia Employment Commission.

A native of Wise, Virginia, he is married to the former Margaret Ellen Englebert of Hampton. They have one child, Edwin Clyde Stanley, who is married and resides in Hampton.

Summer Law School in England Marks 4th Year

The fourth annual William and Mary Summer School of Law in England is attracting wider interest than ever among students in law schools throughout the United States, reports Professor Emeric Fischer, director of the program which is held on the campus of the University of Exeter. The main emphasis in the summer courses is upon a comparative study of common law subjects in both American and British practice, and this year the study will be enhanced by having a member of the William and Mary law faculty and a member of the Exeter law faculty participate jointly in the discussions. Local faculty members who are scheduled to teach in England this summer include Professors Fischer and William F. Swindler, and Associate Professor E. Blythe Stason, Jr.

Attorney for New Jersey to Speak Here Wednesday

Frederick B. Lacey, United States Attorney for New Jersey will speak on the Mafia and organized crime, at the Marshall-Wythe School of Law, Wednesday, April 8 at 8:15 p.m. The college community and the public are invited to attend.

FEDERAL GRANT RECEIVED
FOR DAY CARE CENTER PROGRAM

Involvement of students and faculty in the program of the Williamsburg Day Care Center will be extended next September under a federal grant.

Dr. James D. Cowles of the School of Education, Dr. Virgil McKenna and Dr. Glen Shean, both members of the psychology department, will supervise the new project as part of the grant.

Dr. Cowles said the project will directly involve students and faculty of the College in problems of providing appropriate education for culturally disadvantaged children and their families.

"Graduate and undergraduate students in education and psychology will obtain first-hand experience in problems of applying principles from their courses to actual programs for stimulation of cognitive growth," he said.

A community liaison person will be employed with the primary responsibility of coordinating the number of community resources available, such as social workers, and to coordinate home visitations and education.

Aims of the program include:

--Development in pre-school disadvantaged children of those cognitive and interpersonal skills necessary for successful academic achievement in the primary schools.

--An increase in awareness and expertise of parents and college students concerning techniques available for the stimulation of cognitive and social growth.

--An increase in the probability that future teachers will be prepared to deal effectively with problems presented by pre-school education and cultural disadvantage.

Dr. Cowles will have prime responsibility in the area of curriculum development and application of principles of early education. Dr. McKenna's primary responsibility will be in the area of educational and psychological assessment of participants in the program. Dr. Shean's role will be in the application of techniques of behavior modification in the training of program participants.

* * * * *

April Bloodmobile

The April Bloodmobile will be Wednesday, April 15th from 10 - 4 p.m.
The Bloodmobile will be held at the Williamsburg Fire Station.

Schedule of NSF Programs for Education in the Sciences—Calendar Year 1970

This consolidated table presents important time-schedule information concerning NSF programs for education in the sciences. It is intended as a convenient reference for: (1) individuals applying for fellowships and (2) institutions submitting proposals for the conduct of all other listed programs and projects. Award announcement dates are approximate and on occasion may be somewhat later than the dates indicated.

INFORMATION FOR FELLOWSHIP APPLICANTS AND INSTITUTIONS

JEANNE GREALISH, JANE SNOW
TO GIVE CONCERT AT RICHARD BLAND

Jeanne Grealish, mezzo-soprano, and Jane Snow, pianist, from New Mexico, will be presented at an afternoon concert at 3:30 p.m. Sunday, April 5, in the Campus Center of Richard Bland College.

Open to the public without charge, the program will feature numbers by Mozart, Franz Schubert and Hugo Wolf as well as a collection of French selections. There will be four operatic scenes narrated and sung in costume, from Carmen, Orfeo, Werther and Cavalleria Rusticana. Leonard Bernstein's "What a Movie," from Trouble in Tahiti will conclude the program.

Miss Grealish has been soloist with such groups as the Vienna and Paris Jeunesse Musicale, Vienna Chamber Orchestra, Chautauqua Festival Orchestra, to list a few. Her background includes the New England Conservatory, the Vienna Academy of Music and the Vienna State Opera.

At the age of 18 Miss Snow appeared as a pianist playing Saint-Saens' G Minor Concerto with the Cincinnati Symphony Orchestra. Later she made her debut as a singer in New York's Town Hall. Her training at the Cincinnati College-Conservatory and the Juilliard School of Music was supplemented with extensive studies in Europe. While a regular member of the NBC Staff she did solo work with both Toscanini and Dr. Frank Black.

Clean-Up Weeks in Virginia April 6-18

The period April 6-18, 1970, falling as it does just prior to Historic Garden Week has been designated "Clean-Up Weeks in Virginia." I solicit the support of all citizens, industries, businesses, and organizations of the Commonwealth in this State-wide crusade to rid our highways, streets, and streams of the ever-growing volume of litter. Cities, towns, and counties are urged to inaugurate vigorous clean-up campaigns in cooperation with citizen groups to preserve the natural beauty of Virginia.

Virginia pioneered in the anti-litter movement through Keep Virginia Beautiful, Inc., and our voluntary efforts against littering have brought us national renown. Litter prevention is everybody's business, and I call upon every citizen to assume a personal feeling of pride and responsibility for the State's beauty and cleanliness.

"Clean-Up Weeks in Virginia" afford everyone an opportunity to do his part to make our state more attractive to industry and tourism, and more pleasing to all Virginians.

Signed/Linwood Holton
Governor

DEPARTMENTAL NEWS

HISTORY

On March 19-20, Richard Maxwell Brown attended a Symposium of Scholars on "The Place of the Southern Colonies in the Atlantic World" sponsored by the South Carolina Tricentennial Commission and held at the University of South Carolina, Columbia, S. C.

Dr. Brown delivered the luncheon address on "Dissent and Violence-- Perspectives on America" at the conference on Man and Society held at Richmond on March 21 and sponsored by the State Department of Education for secondary school teachers of the social studies in Virginia.

PHILOSOPHY

Elizabeth Reed, Earl McLane, William Cobb, and Thomas Hearn attended the meeting of the Southern Society for Philosophy and Psychology in Durham, N. C., during the Spring vacation. The Society is one of the few which actively seeks to encourage communication between different disciplines at a professional level. The major symposium had philosophers and psychologists discussing the phenomenon of anger (in human beings).

PSYCHOLOGY

Professor E. Rae Harcum has been asked to give an invited address to the Psychology Section of The Virginia Academy of Science at the Academy's annual meeting, to be held this year in Richmond, May 7-8. The title of the address is "Some stressful effects of Acoustical Pollution".

Paper published

Shaver, K. G. Defensive attribution: Effects of severity and relevance on the responsibility assigned for an accident. Journal of Personality and Social Psychology, 1970, 14, 101-113.

INFORMATION & EDUCATION DEPARTMENT, VIMS

Dr. Jay D. Andrews was co-author with Sewell H. Hopkins of Texas A & M University of a paper in Science in February 1970 on "Rangia cunezta on the East Coast: Thousand Mill range extension or resurgence."

Dr. Marvin L. Wass was awarded the State Conservationist of the Year plaque by Lt. Governor J. Sargent Reynolds at the Annual Meeting of the Virginia Wildlife Federation in Richmond, Virginia, March 7, 1970

Departmental News - Con'd.

SCHOOL OF EDUCATION

John Sykes will serve as chairman of the Accreditation Program for four schools in the city of Harrisonburg, Va. Visitation committees will visit the Harrisonburg Schools May 3, 4, 5. The schools are seeking accreditation from the Southern Association of Colleges and Schools.

MARSHALL-WYTHE SCHOOL OF LAW

Dr. William F. Swindler has been commissioned to prepare four articles for the next edition of the Encyclopedia Americana -- on Sir William Gascoigne and Ranulf de Glanvill, early English jurists, and on the subjects of freehold tenures and sumptuary laws. He has written articles on Sir Edward Coke, Sir Matthew Hale and Sir John Fortescue for earlier editions of the Americana.

Dr. Swindler was notified this week of his election to membership in the American Law Institute, a select academy of jurists, practicing attorneys and legal scholars in the United States. The Institute sponsors an influential continuing study of changes in American Law known as the Restatement of the Law, and also drafts model statutes for adoption by Congress and state legislatures.

Dean James P. Whyte of the Law School is ex officio a member of the Institute, and a third Institute member from the Law School is Associate Professor E. Blythe Stason, Jr.

Professor Stason served as a judge for the regional round of the Philip C. Jessup Moot Court competition in international law, held March 13-14 at the University of Virginia.

Professor John E. Donaldson spoke on "Tax Developments Affecting Non-Profit Organizations" at a conference in Washington February 5-6. The conference was sponsored by Tax Barometer, a professional information service of Federal Publications, Inc.

We would appreciate it if you would use this sheet to send in news for the next issue of the Colleague on April 9. Deadline for copy is Tuesday, April 7.

We are interested in any papers you have presented, publications, research projects in progress, meetings you have attended, etc.

INSTITUTE BOOK WINS
COVETED BANCROFT AWARD

For the second successive year, a book published under the imprint of the Institute of Early American History and Culture, has won the coveted Bancroft Award, considered by historians to be the pinnacle of prizes.

The book, "The Creation of the American Republic 1776-1787," by Gordon S. Wood, former Fellow of the Institute and assistant professor of history at the College of William and Mary, has won the Bancroft Prize for 1969.

Wood was in Williamsburg from 1964-66 and is currently professor of history at Brown. He graduated summa cum laude from Tufts in 1955 and received his A.M. and Ph.D. degrees from Harvard. He was formerly a member of the faculty of the University of Michigan.

The Bancroft Prize, awarded by the Edgar A. and Frederic Bancroft Foundation through an endowment at Columbia University, recognizes outstanding work in the field of American history and carries a cash award of \$4,000 for the author.

Wood will be honored at a dinner in New York tonight by the President of Columbia University and Friends of Columbia Libraries. Dr. Stephen G. Kurtz, editor of the Wood book as editor of publications for the Institute, and now Director, will attend the awards banquet.

The Bancroft Prize for 1968 was won by "White Over Black: American Attitudes Toward the Negro, 1550-1812," by Winthrop D. Jordan, also a former Fellow of the Institute and assistant professor of history at the College. This book also won the Emerson Award for 1968 of Phi Beta Kappa; the Parkman Prize of the Society of American Historians; and the 1968 National Book Award for history and biography.

In "The Creation of the American Republic 1776-1787," Wood discusses the meanings of republicanism for the Revolutionaries, explains why republicanism was a revolutionary ideology and analyzes the process by which the classical idea of democracy was converted into a modern one.

Historians have often based their analyses of the new nation on the assumption that at any given time the founding fathers knew what they wanted and expressed their desires in terms then fully understood. The author

INSTITUTE BOOK WINS AWARD - Con'd.

explains that this is not the case--instead he shows men groping their way to the establishment of a new political and social organization.

John R. Howe, Jr., reviewing the book in the Journal of Southern History, says "This is a volume of massive scholarship, profound insight, and enormous implication. As the first major work of a still young historian, its achievement becomes even more dazzling.

The Institute of Early American History and Culture is co-sponsored by the College and Colonial Williamsburg. "The Creation of the American Republic 1776-1787," was printed by the University of North Carolina Press.

LAW REVIEW EXPLORES WELFARE LAW

A faculty article and a student note combine to give a comprehensive survey of welfare law and administration in the United States, in the current issue of the William and Mary Law Review. Robert E. Scott, '68, visiting instructor on the law faculty this year, is the author of "The Welfare Hearing Process--the Law and Administrative Regulations Re-examined," and Michael E. Kris, '71, a member of the Law Review editorial staff, supplements this article with a note, "Durational Residency Requirements and the Mass Migration Theory: Getting to the Heart of the Current Welfare Dilemma."

Scott, a former editor of the Law Review, developed his article from his graduate work at the University of Michigan last year. Another alumnus who has contributed an article to the current issue is Robert R. Boyd, '49, who writes on "A Hearing Examiner Comments on the [Administrative Procedure Act] and the Rule Making or Adjudication Controversy." Other articles include, "The Supreme Court and Libel," by Jerome L. Merin, and the 1969 Sherwell Lecture, "The Human Comedy in Legal History," delivered at the Law School last fall by Frederick Bernays Wiener. The issue also has a portrait and valedictory tribute to the late Dean Dudley W. Woodbridge written by Ernest W. Goodrich, member of the Board of Visitors.

TONIGHT ON CAMPUS

Current Views on the Discovery of America." Dr. David B. Quinn, James Pinckney Harrison Visiting Professor of History for 1969-70. Campus Center Little Theatre. 8 p.m.

"The Development and Use of Vitamin B₁₂ in Human Nutrition." Dr. G. Watson James, III, Professor of Medicine, Medical College of Virginia. Millington Auditorium. 8 p. m.

The Charlie Byrd Quintet. Final in the current William and Mary Concert Series. Phi Beta Kappa Hall. 8:15 p.m.

THEATRE TO PRESENT
"PHAEDRA" APRIL 15-18

The William and Mary Theatre's final production of the current school year will open next Wednesday (April 15) for a four-night run.

"Phaedra," by Jean Racine, will be presented Wednesday through Saturday in Phi Beta Kappa Memorial Hall on the William and Mary campus. Curtain time is 8:15 p.m. sharp each night.

The production of "Phaedra" marks the first time in its long history that The William and Mary Theatre has presented a tragedy written during the French neo-classic period.

The box office will be open weekdays between 3:00 and 5:30 p.m., Monday-Friday, April 13-17, to sell reserved seat tickets at \$2.00 each. Box Office operations Monday are reserved for Season Ticket Patrons only. The box office also is open at 7 p.m. the four nights of performance. During box office hours telephone reservations will be accepted at ext. 272.

ACCOUNTING STUDENTS PLACE
FIRST IN AICPA TESTING

Accounting seniors at the College of William and Mary placed first among representatives of 18 universities examined by the American Institute of Certified Public Accountants during the mid-year testing program according to an announcement made in New York by the Testing Project Office of AICPA. This is the fifth time since 1963 that William and Mary seniors have achieved first place standing.

In the test which took place in January, 453 seniors from throughout the country participated. The percentile norms are based on scores of 6,256 students from 1960 through 1968.

William and Mary will award degrees to 20 accounting concentrators in June.

* * * * *

SONIA MALKINE, celebrated French "chanteuse", at the invitation of the Alliance Francaise of the Peninsula and of Norfolk, will give a recital of her songs at Old Dominion University (Technical Institute Auditorium) Tuesday, April 14, at 8:30 p.m. Admission is \$2.00 and tickets may be obtained from Prof. J. Luke Martel ext. 446 or 229-5560.

SCHOOL OF BUSINESS ADMINISTRATION
SETS SEMINAR APRIL 9 - 10

As part of a continuing series of seminars on "The Role of the Business Executive in Urban Development and Community Relations," the School of Business Administration will conduct a workshop seminar Thursday and Friday afternoons, April 9 and 10 on "Group Processes and Community Development."

The sessions will be held on the third floor of the Hugh Jones Hall and are open to any interested business and community leaders, as well as faculty and students of the College, who are concerned with the more effective development of group-oriented projects in the local community.

Leaders of the seminars are Dr. and Mrs. DeWitt C. Baldwin, International Directors of The Lisle Fellowship, Inc., an international institute of human relations. Chairman will be Dr. George D. Cole, Director of Conferences in the School of Business Administration.

* * * * *

COLLEGIUM MUSICUM CONCERT
TO FEATURE DR. WATKINS

The sixth program in the Collegium Musicum Series will feature R. Bedford Watkins, harpsichord.

Dr. Watkins will give a concert in the Campus Center Ballroom, Sunday afternoon, April 12, at 4 p.m.

He has selected for his concert variations on "Loth to Depart" by Giles Farnaby; "Tombeau sur la mort de Monsieur Blancheroche," by Froberger; three sonatas by Scarlatti; Bach's Italian Concerto, BWV.971; "Les Folies Francaises" by Couperin; "Gavotte avec Doubles," by Rameau; "Two Pieces for a Musical Clock," by Haydn; and "Perpetual Motion," by Lessard.

Dr. Watkins is Professor of Piano and Harpsichord at Illinois Wesleyan University. He received his doctorate from the University of Iowa where he taught harpsichord as a graduate assistant and served as harpsichordist for the Collegium Musicum.

A native of Arkansas, Dr. Watkins has played many college recitals and has made two tours of southern states. In 1967 he was a guest artist in the Fine Arts Festival at West Georgia College.

The instrument to be used in Sunday's concert is Dr. Watkins two-manual harpsichord, made in 1963 by Walter Merzdorf of Grotzinger, Germany.

SREL IS BUSY FACILITY

The \$15 million Space Radiation Effects Laboratory in Newport News has become the most extensively used facility of its type in the United States.

The SREL facility, built by the National Aeronautics and Space Administration and operated by the College under contract, was opened in 1965 as part of the former Virginia Associated Research Center.

Dr. Robert T. Siegel, SREL director, commented that "We have more experimenters, more use and more papers published by its experimenters than any other facility of its size." Dr. Siegel assumed the position in 1967 when William and Mary assumed responsibility for SREL after the Governor reorganized VARC. He continues to have the rank of professor of physics at William and Mary and a number of his staff continue to teach part-time in Williamsburg. During a recent week, he noted, prime users of the giant laboratory on one day were a joint group of researchers from the University of Texas, Rice University and the University of Houston. Meanwhile, a secondary group using the laboratory at the same time included scientists from Los Alamos, New Mexico and the Idaho Nuclear Corp. of Idaho Falls. The next day, a group from the Brookhaven National Laboratory on Long Island arrived for a four-hour run followed by another four-hour run by members of the chemistry department at Carnegie-Mellon University in Pittsburgh.

In all during 1969, the SREL installation attracted research teams from 27 major universities, four NASA centers and an uncounted number of federal contractors. At the end of the year there were 61 active experiments on the SREL cyclotron and 28 on the facility's electron accelerators.

Total time in 1969 in which the cyclotron was in use was 11,508 hours compared with 5,926 in 1968. During part of 1968, Dr. Siegel noted, the facility was shut down to permit installation of a \$1,000,000 meson channel. During prior years, use averaged between 6,000 and 7,000 hours a year.

At the same time, "parasite" groups--using the facility simultaneously with prime research groups--expended 4,200 hours as compared to 232 in 1968.

A total of 17 articles arising out of experiments at SREL were published in scientific periodicals last year and 37 papers were presented at scientific meetings.

Dr. Siegel said operations at SREL compare favorably with the CERN facility Switzerland, serving all of western Europe.

The Space Radiation Effects Laboratory is the largest such installation in the Southeastern United States.

After the 1967 reorganization, a Scientific Advisory Committee was established to meet annually to review SREL operations.

SREL IS BUSY FACILITY -(Con'd.)

Currently, members are Dr. Henry G. Blosser of Michigan State University, Dr. W. L. Brown, head of the Radiation Physics Research Department at Bell Telephone Laboratories in New Jersey; Dr. John E. Duberg, associate director of the NASA-Langley Research Center; Dr. Vernon W. Hughes of the Sloane Physical Laboratory at Yale University; Dr. Hermann H. Kurzweg, director of the research division, NASA's Office of Advance Research and Technology; Dr. C. C. Lushbaugh of Oak Ridge Associate Universities, Oak Ridge, Tennessee; and Dr. Lincoln Wolfenstein of Carnegie-Mellon University, Pittsburgh.

A second committee, known as the SREL Users Advisory Committee, meets monthly to discuss scheduling and long-term policy. It includes representatives from William and Mary, Langley Research Center, the University of Virginia, Virginia Polytechnic Institute, the Medical College of Virginia, Rice University and Florida State University.

"HIGH SCHOOL" TO BE SHOWN
ON CAMPUS THIS WEEKEND

The College-Wide Reading Program is sponsoring a series of showings of the highly regarded film "High School" this weekend. The film is a cinema verite study of the academic experience as it really is in a not untypical public school and graphically illustrates why there is an academic revolution going on. It has been widely acclaimed as one of the best documentaries of recent years. Each showing will be followed by discussion. Faculty members are particularly encouraged to attend showings in the dormitories. Presentations at:

Bryan - Friday, April 10, 7:30 p.m.
DuPont - Saturday, April 11, 8:00 p.m.
CC Little Theater- Sunday, April 12, 4:00 p.m.
A Fraternity House- Sunday, April 12, 7:30 p.m.
Barrett - Monday, April 13, 8:00 p.m.
Andrews- Tuesday, April 14, 7:00 p.m.

OPERATION TURBO ON RAPPAHANNOCK RIVER...A fleet of small vessels is at work in the Rappahannock River near Tappahannock and will remain there until April 15. According to Dr. William J. Hargis, Jr., Director, scientists from the Virginia Institute of Marine Science, Gloucester Point, are aboard these vessels, probing the river waters to learn why unusually high concentrations of silt occur in this river, and the other coastal rivers, where the fresh water first meets the saltwater wedge intruding up-river from the ocean.

DR. PASCHALL RECEIVES
HONORARY DEGREE AT LOYOLA

An honorary doctor of humane letters was conferred Wednesday on President Paschall by Loyola University, a private co-educational institution celebrating its Centennial anniversary.

The honor was conferred on Dr. Paschall at a special Centennial Convocation in the Madonna della Strada Chapel. Loyola noted that the honor was "particularly appropriate" because of Dr. Paschall's "outstanding administration of the College of William and Mary, the oldest university in the area of the Southern Accrediting Association."

Since President Paschall took office in 1960, more than \$30 million in construction and renovation has been realized at William and Mary, more than during the entire preceding 267 years of the College's history. In addition, faculty salaries have more than doubled, the curriculum has been strengthened, and the decade has brought 14 new graduate programs, four on the doctoral level.

Loyola has two campuses in Chicago. In addition to its College of Arts and Sciences, the university has Schools of Business, Nursing, Dentistry, Law, Medicine, Social Work, and an Institute of Industrial Relations.

Enrollment at Loyola is approximately 13,000 with some 9,000 on the undergraduate level. A Jesuit institution, its president is the Very Reverend James F. Maguire, S. J.

PHYSICS COLLOQUIUM

Friday, April 10, 4:30 p.m. (Coffee at 4:00)

William Small Physical Laboratory
Coffee in Conference Room
Colloquium in Room 109

SPEAKER: K. K. Thornber, Bell Telephone Laboratories, New Jersey

SU BJECT: "Experimental Evidence for a Fundamental Transition in the Nature of the Electronic State of Crystalline Band Gap Material."

*THE MOON - PAST, PRESENT & FUTURE
TO BE EXPLORED BY MERMETTES*

The Women's Synchronized Swimming Club at the College of William and Mary, the Mermettes, will present its annual show April 15 - 17 in the pool at Adair gymnasium.

The program, entitled "U.F.O - unidentified floating objects," will be presented nightly at 8 p.m. There is no admission charge. The public is invited.

Taking a cue from the current interest in space travel, the Mermettes have developed their program around the moon, past, present and future. Each number in the show has been choreographed and directed by members of the Mermettes.

Bee Traywick, of Williamsburg, is choreographer of a number entitled "Comet's Journey." Miss Traywick will also swim in the opening number "Winkin', Blinkin' and Nod."

Pete Tyree, a member of the men's swim team at the College will perform in his own interpretation of "Anti-Gravity". He will also be featured in the number "Unidentified Object."

* * * * *

*CHEMISTS TO MEET APRIL 18
TWO-PART PROGRAM IS PLANNED*

The annual meeting of the Virginia and Hampton Roads sections of the American Chemical Society will be held Saturday, April 18 in the Campus Center.

Principal speaker will be Dr. H. A. Flashka, of the Georgia Institute of Technology, who will speak on "Masking: Present Status and New Developments," at 4:30 p.m. in the Campus Center Theatre.

A program of "Chemical Magic," will be presented by Dr. Thomas A. Gosink and Alvin M. Olsen of Old Dominion University at 8 p.m.

Chemistry Seminar

There will be a Chemistry Seminar on Thursday, April 16 at 4:15 p.m. in Rogers Hall - Room 300. The speaker will be Prof. Frank Carey from the University of Virginia and his topic will be: "Reactions of Carbonium Ions With Organo Silicon Hydrides."

- All Welcome to Attend Seminar -

SCIENCE WINNERS
ARE ANNOUNCED

Scholarships valued at \$500 and \$300 have been given to high school juniors and seniors who placed either first or second in competition among approximately 270 students in physics, chemistry, biology and mathematics at the 22nd annual state-wide Science Contest, sponsored by William and Mary.

The scholarships are renewable yearly but the students must matriculate at William and Mary to receive them.

First place winners were Ellen Shepherd, 306 Holly Port Road, Richmond, a senior at Douglas Freeman High School, biology; Allen Howe, 198 Cambridge Road, Alexandria, a senior at T. C. Williams High School, Chemistry; Rebecca Gilman, 4007 Vacation Lane, Arlington, a senior at Washington and Lee High School, Mathematics; and Frank Delk, 6145 F arver Road, McLean, a junior at Langley High School, Physics.

Second place winners were Robyn M. Kensey, 5638 Club Lane, S. W., Roanoke, a senior at Andrew Lewis High School, Biology; Patsy Barry, 3116 Grove Avenue, Richmond, a senior at Thomas Jefferson High School, Chemistry; Michael Ingrassia, 3306 - 18th Street, North Arlington, a junior at Bishop Dennis J. O'Connel High School, Mathematics, and Rudolph Taylor, Route 3, Staunton, a junior at Fort Defiance High School, Physics.

The contest was conducted under the direction of Dr. George W. Crawford, associate professor of Physics at William and Mary.

Organized to encourage and assist capable students in the various fields of science and mathematics, the contest is also aimed at stimulating interest in the study of these courses in high schools.

SEMINAR - DEPARTMENT OF BIOLOGY

Date - April 13th

Subject - "Plant Physiology and Development".

Speaker - Dr. John Rier, Department of Botany, Rutgers University

Place: Room 117, John Millington Hall

Time - 4:00 p.m.

NSF REORGANIZES INSTITUTIONAL DEVELOPMENT
PROGRAMS: SOCIAL SCIENCE DEPARTMENT AWARDS PLANNED

The National Science Foundation indicated earlier this month that it was reorganizing its institutional development programs and would regroup the University Science Development, Departmental Science Development and Graduate Science Facilities Programs into a single Science Development Program (SDP). Included in the announcement was the news that NSF would launch a special departmental program for the social sciences that would be open to all institutions, including those departments heretofore ineligible. A limited number of awards under the new departmental program will be made in fiscal year 1971, with grants expected to average approximately \$600,000 for a three-year period. In addition to the new social science awards, NSF indicated that SDP funds would be used to emphasize the strengthening of existing, and "when appropriate, new centers, institutes or areas of science and engineering that contribute more directly to the solution of problems of national and social importance." The SDP awards in this field will be administered separately from the existing interdisciplinary research relevant to problems of our social program (IRPOS), but represent another indication of NSF's intent to begin emphasizing interdisciplinary research and training in fields such as environment, assessment of technology, poverty, population control, and the "optimal development of the nation's human and economic resources." The wording of the announcement on the SDP was sufficiently vague to allow discussion of a number of different types of grant, but NSF did note that construction requests should normally be limited to renovation of existing facilities, that universities would be encouraged to request planning grants to "allow them to consider more systematically their moves into areas of education and research related to societal problems," and that support for consortia or other cooperative arrangements between institutions would be allowed.

FOOD AND DRUG ADMINISTRATION TO FINANCE
PESTICIDE RESEARCH

The Food and Drug Administration has announced plans to undertake a \$2.2 million program of contract research in fiscal year 1971 to test the effects of 22 pesticides through animal feeding studies. FDA will attempt to determine the physical and mental impacts of specific pesticides when absorbed in large quantities over a two-year period. For additional information, write to: Director, Bureau of Science, Food and Drug Administration, U. S. Department of Health, Education and Welfare, 200 C St. S. W., Washington, D. C. 20204; or contact Warren Heemann, Assistant Vice President for Sponsored Programs.

WORK FROM LEWIS COLLECTION
ON EXHIBIT IN BOTETOURT GALLERY

Sixty-two contemporary paintings and sculpture from the collection of Mr. and Mrs. Sydney Lewis of Richmond, Va. are currently on exhibit in the Botetourt Gallery of the Library.

The exhibition is sponsored by the Twentieth Century Gallery of Williamsburg as a part of their program of monthly art shows and cultural events.

Included in the Lewis exhibition are works by leaders and creators of current trends in American art. Franz Kline, Jules Olitski, Robert Rauschenberg, Roy Lichtenstein and Claes Oldenburg are among the artists represented. Also of special interest are paintings by Wilhelm DeKonnig, a founder of the abstract expressionism movement in American painting.

Eight Virginia artists and sculptors are in the show including Dick Cossit, Arthur Biehl, Richard Porter, Victor Pickett, Jack Sosomon, John Curran, Walter Thrift, and David Wurtzel.

Many of the artists are very young. Of the 42 represented, over 50% are under 40 and six are under 30. The youngest is 24-year-old Richard Kalime, a painter currently having an exhibition at the O. K. Harris Gallery in New York City.

The Lewis' have especially sought for their collection the work of young artists many of whom are beginning their careers. However, the nucleus of the collection is made up of established, famous artists whose work is in the leading museums of the country.

The Lewis' and the Twentieth Century Gallery hope to encourage, through the exhibit, further interest in contemporary art and collecting.

A catalogue of the collection has been produced by the board of directors of the Gallery. This marks the first showing of works from the Lewis' private collection which has been accompanied by a catalogue.

Mr. and Mrs. Lewis will come to Williamsburg themselves Saturday, April 18 at 9 p.m. to talk informally about their collection. The public is invited to join Twentieth Century Gallery members at this discussion in the Botetourt gallery.

The exhibition will continue through Sunday, April 19th. The hours are Monday through Friday 8 a.m. to 5 p.m., Saturday 9 a.m. to 5 p.m. and Sunday from 2 p.m. to 5 p.m.

STARBUCK TO READ HIS POETRY
TUESDAY IN CC LITTLE THEATRE

George Starbuck, director of the University of Iowa Writers Workshop, will give a reading of his poetry at 8:15 p.m. in the Campus Center Little Theatre on Tuesday, April 14, under the sponsorship of the English Department.

He is the author of two books of poetry, Bone Thoughts (Yale University Press, 1960) and White Paper (Atlantic Monthly Press-Little, Brown, 1966) and of many poems published in The New Yorker, Harper's Atlantic Monthly, New Republic, Poetry (Chicago), Yale Review, Paris Review and other magazines.

Starbuck has given poetry readings at major universities across the country. He has won the Prix de Rome of the American Academy of Arts and Letters, a Guggenheim Fellowship and several lesser awards. Before going to the University of Iowa, he taught at the State University of New York at Buffalo and worked as a fiction editor for Houghton Mifflin Company in Boston. He has also been a Military Policeman, an OEO functionary, a rat and mouse breeder, a migrant agricultural laborer; but he is not (it must be noted to save bibliographic confusion) Mrs. Georgie Starbuck Galbraith-- a charming lady who has been publishing light verse in good magazines for three decades.

Poems by George Starbuck can be found in anthologies and textbooks published by Doubleday, Dutton, Holt, Houghton Mifflin, Macmillan, McGraw-Hill, Meridian, Modern Library, Viking, World, and other publishers.

TEN SENIORS have been tapped for membership to the Alpha of Virginia chapter of Phi Beta Kappa national honorary fraternity. They will be initiated at ceremonies to be held May 5 in Phi Beta Kappa Hall, followed by a reception and dinner at the Campus Center.

Newly elected members are Robert Bland Belshe (Chemistry), Williamsburg; Richard Carlton Cook (English), Williamsburg; Keith Walter Dayton (History), Alexandria; Phillip Jay Frank (Psychology), Norfolk; George Emil Gadda (English), Wood Ridge, N. J.; Serge Vladimir Gregory (English), Wyckoff, N. J.; Gary Kent Hudson (Psychology), Halifax; Mary Blake Stites (Government), Falls Church; Barbara Butler Waeche (Sociology), Richmond; and Nell Stark Wrather (Spanish), Alexandria.

DEPARTMENTAL NEWS

BIOLOGY

Dr. Ian P. Callard recently presented seminars at the Department of Zoology, Rutgers University, and the Department of Biology, Boston University. The seminars were entitled "Hypothalamic control of the reptilian adrenal gland" and "Recent studies on the control of the reptilian gonad". A recent publication entitled "Pregnancy maintenance in protein deficient rats" by Ian P. Callard and James H. Leathem, appeared in *Acta Endocrinologica*, volume 63, 539, 1970.

CHEMISTRY

During the period 9-11 (inclusive) April, Prof. Tyree will be at the Virginia Military Institute serving as a member of a Committee of Visiting Consultants to the VMI Department of Chemistry.

On March 11, F. G. R. Gimblett, Visiting Research Associate Professor, delivered a lecture to the Naval Research Laboratory in Washington, D. C. It was entitled "Solution Chemistry of Polymer Metal Hydroxides".

ENGLISH

The following lectures were given to English classes at Hampton Institute by Professors Scott Donaldson and William F. Davis, Jr.

"Robert Frost as Terrifying Poet" - Professor Scott Donaldson

"A Spiritual History of Emily Dickinson" - Professor William F. Davis, Jr.

Prof. Robert Scholnick is working on a critical study of the life and work of Edmund Clarence Stedman (1833-1908), American poet, critic, anthologist, and stockbroker. The book will be published by Twayne Publishers as part of the Twayne's United States Authors Series.

Prof. Donald Ball's review of William Luther White's The Image of Man in C. S. Lewis appeared in April 5 Richmond Times-Dispatch. His Article "ETS's English Composition Test: A Lesson for Composition Teachers" will appear in the May issue of the Virginia English Bulletin.

FINE ARTS

Carl A. Roseberg has been invited to participate in a 12 Virginia Sculptors Exhibit of Sculpture at the Norfolk Museum of Arts and Science and will show 8 recent pieces of sculpture in various media including marble, wood, bronze and several types of plastics materials.

Mrs. Rolf Winter will also exhibit ten pieces of sculpture in the same exhibit. The exhibit will open to the public on April 12th and continue through May 3.

DEPARTMENTAL NEWS Con'd.
GOVERNMENT

Prof. George W. Grayson will present a paper, "The 1969 Democratic Primary: The Howell Coalition." at the 43rd annual meeting of the Virginia Social Science Association to be held April 17, 18 at the Americano Hotel in Virginia Beach.

HISTORY

Michael L. Nicholls, of Poquoson, a doctoral candidate in history, will present a paper "Origins of the Virginia Southside, 1703-1760: A Quantitative Study," at the 43rd annual meeting of the Virginia Social Science Association.

MATHEMATICS

On April 2, 3 and 4, Thomas L. Reynolds attended the Annual Meeting of the National Council of Teachers of Mathematics, held in Washington, D. C., and presided at one of the sessions.

Dr. Richard H. Prosl has been reappointed to the Advanced Placement Examining Committee in Mathematics by the College Entrance Examination Board.

Dr. Peter V. O'Neil and Dr. David P. Stanford attended a topology conference at Emory University on March 20 and 21.

MUSIC

Dr. F. Donald Truesdell attended College Section Meetings of the Virginia Music Educators Association in the State Convention at Norfolk, April 3-4.

PHYSICS

The Aspen Center for Physics, Aspen, Colorado, has invited Prof. John L. McKnight to spend five weeks this summer as a member of the Center. The Center emphasizes individual research and informal interchange of ideas with an occasional seminar.

SCHOOL OF EDUCATION

Prof. Kevin E. Geoffroy attended the annual meeting of the American Personnel and Guidance Association in New Orleans during Spring Vacation.

DEPARTMENTAL NEWS - Con'd.

THEATRE

Three plays by Louis E. Catron will be presented by the North Carolina School of the Arts the end of this month. Where Have All The Lightning Bugs Gone?, Touch the Bluebird's Song, and At a Beetle's Pace.

The latter two, written recently, have never been presented. The first were premiered several years ago by the same director who will direct the entire program at NCSA, David McClung.

Another play by Dr. Catron--Interrogation--was presented by the University of Virginia Players the end of March. (That play recently closed its second off-off-Broadway run.)

EARTH DAY

A Seminar on Conservation, Pollution and Population

April 21

THE VALUE OF THE WILDERNESS

Dr. Will Siri, research physicist, Univ. of California, past president of the Sierra Club. 8 p.m. Millington Hall.

April 22

DEATH OF A LAKE

Conducted hike around Lake Matoaka with Prof. Gerald Johnson, geologist. Hike begins from Phi Beta Kappa Hall, 10 a.m. (In case of rain, slide lecture in Botetourt Theatre.)

JONATHAN SWIFT'S "A MODEST PROPOSAL"

A reading by Howard Scammon, director, William and Mary Theatre, 12 noon, Campus Center steps. (In case of rain, Campus Center Ballroom.)

POLLUTION PANEL

1 - 2:30 p.m.

Campus Center Ballroom

Eugene Jensen, Federal Water Pollution Control Administration; Prof. William J. Hargis, Jr., VIMS; Elbert Cox, Virginia Commission of Outdoor Recreation; Authur Plummer, Chesapeake Corporation.

POPULATION PANEL

3 - 4:30 p.m.

Campus Center Ballroom

Prof. Richard Terman, biologist; Prof. Dorothy Riddle, psychologist, Prof. Dwight Bunce, economist; Dr. Richard Krickus, consultant and writer on Urban Affairs, Washington.

RECEPTION

4:45 - 6 p.m.

Campus Center, Rooms A & B

LIBRARY
SEP 30 1970
WILLIAM & MARY

The two-day seminar will conclude with the showing of the Audubon Wildlife film, "Sweden," with commentator John Douglas Bulger in the Campus Center ballroom at 8 p.m. Tickets are \$1.25 for adults, 75 cents for students. This is the final film in the current series which is sponsored jointly by the Clayton-Grimes Biology Club and the National Audubon Society.

Planned in connection with the national "Day of Concern," for ecological problems, set for April 22, the local program on campus is being organized by a faculty-student committee headed by Prof. Robert Macubb in the English department and Reginald Bedell, a student from Richmond, with support from local churches and the Williamsburg-James City County League of Women Voters. The seminar has been planned as a college-community activity. The public is invited to attend all events.

Dr. Will Siri, who will open the program with a talk on "The Value of the Wilderness," Tuesday evening at 8 p.m. in Millington Hall, is working in the field of biological and medical physics at the Donner Laboratory of the University of California. As past president and currently chairman of the financial advisory committee of the Sierra Club, he is well acquainted with the problems facing conservationists across the country.

He is also well acquainted with sections of the country's wilderness. An expert mountain climber, he has climbed in the Sierra Nevada, Pacific Northwest, the Wind River Range in Wyoming, the Canadian Rockies as well as the Alps, Himalayas and the Antarctic. He was field leader of the International Physiological Antarctic expedition in 1957-58; and the deputy leader and director of scientific programs for the 1963 American Mount Everest Expedition.

During the hike Wednesday morning, Dr. Johnson of the geology department is expected to discuss the problem of silt in Matoaka Lake. Dr. Johnson and Thomas G. McCaskey recently presented a report to the City Planning Commission on siltation and erosion. The planners asked the City Attorney to prepare amendments to the city's site plan review ordinance to take care of the problems. The amendments, the planners noted, probably will be proposed to City Council as "stop gap" measures until a detailed ordinance can be prepared with the advice of geologists and other experts.

"PHAEDRA"
NOW AT THEATRE

The William and Mary Theatre is currently presenting "Phaedra," a tragedy by Jean Racine, nightly at 8:15 p.m. in Phi Beta Kappa Hall, through Saturday. The box office is open each night at 7 p.m.

Theatre critic Eric Bentley has said that "Phaedra" is perhaps the most civilized great tragedy ever written. The play depicts titanic passions with elegance of expression.

It is the story of the Greek myth of Phaedra, wife of Theseus, hero and king of Athens. She is the daughter of Minos and Pasiphae, rulers of Crete. Pasiphae bears a Minotaur, half bull and half man who is slain by Theseus in the maze at Crete. Phaedra falls in love with her steps on Hippolytus. He rejects her and she falsely accuses him of trying to assault her. Theseus prays to Poseidon, the sea god, to destroy Hippolytus. Hippolytus is destroyed. Phaedra confesses and kills herself.

TAX EXECUTIVES COURSE JUNE 14-26

A two week course of intensive study in current tax problems will be conducted by the Marshall-Wythe School of Law in cooperation with the Tax Executives Institute June 14-26. Fifty carefully selected junior tax executives will be enrolled in the program upon recommendation of the Institute, a professional academy of the nation's leading tax experts.

Associate Professor John E. Donaldson will be in general charge of the local program, which is the third TEI-sponsored course in cooperation with law schools. The other courses are offered by Georgetown and Arizona State law schools. Other Law School participants include Professors Emeric Fischer, John E. Davies, and Don W. Llewellyn.

GRANT AWARDED FOR MATH INSTITUTE

The College has been awarded a \$7,482 grant by the National Science Foundation to conduct an in-service institute in mathematics for secondary school teachers.

The institute planned for the 1970-71 school year, will be directed by Dr. Thomas L. Reynolds, chairman of the Department of Mathematics. It is a continuation for the second year of an institute which is currently being held at Indian River High School in Chesapeake, a central location for teachers in the Norfolk area.

The 30-member enrollment will be selected by the College from secondary teachers and supervisors in the area. Dr. Reynolds said participants probably will be math majors. In the fall, Dr. Reynolds will offer a course in college geometry and in the spring Professor B. R. Cato of the Mathematics Department will teach basic concepts of modern algebra. Six semester hours of credit will be given for the institute and graduate or undergraduate credit may be obtained by institute participants. Support for participants will include travel allowance and free textbooks. Participants pay no tuition or fees.

The grant to William and Mary is part of a \$4.5 million NSF program which will support 337 in-service institutes, conducted by universities and colleges in 48 states, the District of Columbia and Puerto Rico. William and Mary is currently conducting its eighth in-service institute for junior high school teachers of mathematics and elementary teachers, under NSF sponsorship.

MR. & MRS. LEWIS HERE SATURDAY

Mr. and Mrs. Sydney Lewis, owners of the collection of modern paintings and sculpture currently on display in the Botetourt Gallery, will be in Williamsburg on Saturday, April 18 at 9:00 p.m. to talk informally about their collection. The public is invited to join Twentieth Century Gallery members at this discussion in the Botetourt Gallery.

The current exhibition is being sponsored by the Twentieth Century Gallery as part of a program of monthly art shows and cultural events. The exhibition is open daily Monday through Friday from 8 a.m. to 5 p.m., Saturday 9-5 p.m. and Sunday from 2-5 p.m. and will continue through Sunday April 19.

JUNIOR YEAR ABROAD

A faculty committee has selected Miss Lynn Ann Mullin of Rockville, Md., as next year's exchange student with Exeter University in England. Frederick Burton of Ridgewood, N.J., will attend St. Andrews University in Scotland under a similar exchange program. Both are now sophomores.

The committee also selected seven sophomores to take part in a junior-year-abroad program at Exeter University, which does not involve an exchange.

The students are Miss Aleta M. Ahlstrom of Montgomery, Alabama; Frank W. Bell of Birdnest; Miss Deborah L. Edwards of Amsterdam, Ohio; David K. McNeel of Decatur, Ga.; Miss Louanna Ockerman of Arnold, Md.; Miss Elizabeth H. Percy of Lynchburg; and Miss Beverly Peterson of Fairfax. James R. Weidman of Westfield, N.J., was chosen as an alternate under the program.

DEBATERS BRING HOME TROPHIES

William and Mary debaters returned this weekend from a very successful tournament at West Virginia University in Morgantown, with two speaker's awards and two team trophies.

In the Championship Division, John Morello, a senior from Hampton, was named top speaker. Morello teamed with Kathy Shirley, a junior from Overland Park, Kansas, to win a semi-finalist trophy.

In the Senior Division, Dan Gepford, a freshman from Fanwood, N. J., tied for top speaker. Gepford and Chuck Kennedy, of Williamsburg, also a freshman, brought home a second place trophy.

This weekend the debaters will participate in the Randolph-Macon Novice Debate Tournament in Ashland. Last year the William and Mary debaters took second place in this tournament.

Debate Coach Patrick Micken, who accompanied the teams to West Virginia, will serve as a guest judge at the National Invitational Debate Tournament to be held in Houston, Texas, this weekend.

BAND-CHOIR ON TOUR

The 42-voice Touring Choir will go on tour this week (April 15-18) and will give three concerts in Chatham, Va., Salisbury N.C., and Atlanta, Ga.

Wednesday evening the choir, under the direction of Dr. Carl A. Fehr, will give a concert at the Chatham Educational and Cultural Center. Thursday evening the choir will sing at Catawba College and Saturday evening at the Walter Hill Auditorium of the Museum of Art in Atlanta.

The band, under the direction of Charles Varner, will be on tour this week, playing in Warrenton and Kinnelon, N.J. The band will present the 1970 Carl Hibbard Memorial Concert, April 30 in Phi Beta Kappa Hall at 8:15 p.m. This is a change of date from May 1, made to avoid conflict with other campus activities.

KOREAN AMBASSADOR TO SPEAK TUESDAY

The Political Science Forum will sponsor a campus visit by the Korean Ambassador to the United Nations on April 21.

Yong Shik Kim, Ambassador Extraordinary and Plenipotentiary, presently the Republic of Korea's permanent observer to the United Nations, will speak on "Conditions for Asian Security in the 70's," April 21 at 8 p.m. in the Botetourt Theatre, Swem Library. The public is invited.

Ambassador Kim is the senior member of the Korean foreign service. He has held ambassadorial posts in the Philippines, Denmark, Norway, Sweden and the United Kingdom. He has also served as the Chief of Korean Missions in Tokyo, Paris and Geneva.

He joined the Korean foreign service in 1948. In 1960 he was appointed vice minister of foreign affairs and in 1963 became Minister of Foreign Affairs. He was appointed to his post with the United Nations in 1964. Shortly before the appointment he held the post of Minister without Portfolio.

In 1953 Ambassador Kim was a Korean delegate to the bi-lateral conference which led to the conclusion of the U.S.-Korean mutual defense pact. He holds Korea's distinguished diplomatic service medal and has lectured on college campuses both in the United States and abroad, including Columbia University in New York and Oxford University in England.

SUNDAY ART SHOW

Sunday afternoon, from 3 - 6 p.m. a collection of recent art pieces by Miss Lucy Wall will be shown in the lobby of Dupont Hall.

Miss Wall's interest in art is life long: she has a Master's Degree in Fine Arts from Columbia University and has taught Interior Design in several colleges. She has studied in Europe as well as with Mr. Archer Lowry. Miss Wall is presently serving on the staff of the Dean of Women at the college, and attending the classes of Professor Carl A. Roseberg.

Miss Wall's work has been shown in the Virginia Museum at Richmond, in Roanoke, Radcliffe and Craft House at Tolliver House in Big Stone Gap.

PHYSICS COLLOQUIUM

Friday, April 17, at 4:30 p.m. (Coffee at 4:00) William Small Physical Laboratory. Coffee in the Conference Room. Colloquium in Room 109. Speaker will be M. T. Marron, Theoretical Chemistry Institute, University of Wisconsin, on "Classical Models of Reactive Scattering."

*SIGMA CHI CHAPTER WINS
NEW LAURELS*

The *Zeta Upsilon* chapter of *Sigma Chi* social fraternity has received the highest honor that the national *Sigma Chi* organization can bestow on an undergraduate chapter.

The local chapter has been declared a winner of the Peterson Significant Chapter Award for the 1968-69 academic year, according to an announcement by William T. Bringham, the national organization's executive director.

The award recognizes "those chapters whose performance each year is above average and significant in all areas of major endeavor," Bringham said.

Zeta Upsilon chapter was chartered in 1967 after Keplar, a local fraternity, petitioned for membership in *Sigma Chi*.

- Variety of Activities -

The chapter has engaged in a variety of activities on campus to win the award including car washes to raise money for Wallace Village, a rehabilitation center for brain-damaged children in Bloomfield, Colo.; a light-bulb sale for scholarship funds for fraternity members; a reception for members of the faculty and administration of the College; and have undertaken sponsorship of a Bloodmobile visit for the Red Cross.

During the football season chapter members took a group of orphans to a football game. They support a Korean war orphan and during the year have made and packaged ditty bags for servicemen in Vietnam.

There have been plenty of parties and recreational activities sprinkled in with the service projects during the year and members are planning a gala weekend to name this year's Sweetheart of *Sigma Chi* later in the Spring.

Future plans also call for a chapter weekend retreat at a near-by Boy Scout camp. There will be discussion of the current chapter program, plans made for next year and as a finale members will undertake to clean up the campsite for the Scouts.

Studies are not neglected by *Zeta Upsilon* despite the active program. The chapter has maintained its place as one of the two top chapters. The chapter has one of the highest academic ratings on campus, a rating it has steadily maintained.

One of the chapter's claim to fame, however, is its ability to run a house dining room and wind up the year with a surplus.

Last year members were able to buy a color TV for the lodge living room and built a recreational room in the basement with surplus funds. This year

SIGMA CHI CHAPTER - Con'd.

they are already \$200 ahead and there have been no complaints from the brothers about the menus.

- *Prexy Feels Generation Gap* -

President of *Zeta Upsilon* is Joseph Mayes, a senior from Portsmouth, Va.

Mayes has discovered that for him there is a generation gap on campus - between the seniors and the freshmen which may affect the future of fraternity life.

He feels that the incoming freshman is a different breed from the ones that wore duc caps four years ago. This change in attitudes he believes may cause fraternities to make a self appraisal. Too many says Mayes are burdened by a social image which excludes them from the mainstream of campus life.

"It's the generation gap," explained Mayes. "The incoming freshman is more individually minded than he used to be. He does not want to be identified with a group or group activities. He wants to be able to do his own thing."

"Fraternities have got to overcome the image of life enclosed in a stereotyped mold which will not allow for an individual to maintain his own slant on life."

"In some cases it is a case of fraternities not engaging in a full social and service program; in others it is a case of a good program which has not been fully explained to the rest of the campus," said Mayes.

The fraternity president feels that the incoming freshman used to look toward a fraternity for parties and social activities that he had not experienced before. Today, he says, the fraternity cannot longer rely on its unique social aspect to support it; freshmen coming to college today are looking for more than just a round of parties.

"Fraternities have to get the idea across that fraternity life is more than just the party on Saturday night for which you pay a fee each month," continued Mayes.

Mayes believes in diversity of membership which will bring in a diversity of talents and a well planned program patterned after the ideals set up by fraternities.

Mayes has been using his theory at William and Mary and so far it has brought great success to the youngest fraternity chapter on campus.

WATER SHOW

"U.F.O. - unidentified floating object," the Mermettes water show, will be given tonight and tomorrow evening in Adiar Pool at 8 p.m. Admission is free.

PLANNED PARENTHOOD LECTURE

The Biology Senior Seminar will sponsor a lecture by speakers from the Virginia League of Planned Parenthood, April 23 at 8 p.m. in Millington Hall.

The lecture concerns planned parenthood and population problems. Speakers will be Mrs. Walsh and Mrs. Snodgrass.

DRUGS - LECTURE - MOVIES

Dr. John Buckman, associate professor of psychiatry at the University of Virginia, will lecture on hallucinogenic drugs, Tuesday evening, April 21 at 8 p.m. in the Campus Center Ballroom. This lecture is being sponsored by the Psychological Counseling Center and the Campus Ministers.

- - -

The Psychological Counseling Center will sponsor two films on drugs.

"The Spring Grove Experiment," a film on LSD, will be shown at noon and 8 p.m. in Millington Auditorium tonight, April 16.

"The Circle," a film on heroin will be shown at noon and 8 p.m., also in Millington Auditorium, April 23.

Biology Seminar

"The biology and behavior of the royal tern"

by

Dr. Paul Buckley, Department of Biology
Hofstra University

Monday, April 20 4 p.m. Millington Hall
Room 117

DEPARTMENTAL NEWS

BIOLOGY

Mr. Clay Sassaman ('70) has been awarded a National Science Foundation Predoctoral Fellowship for 1970-71. The fellowship, which includes tuition and a stipend for living expenses, is renewable for a second year. Mr. Sassaman plans to attend Stanford University.

Dr. Charlotte Mangum addressed the Biology Seminar at Virginia State College in Petersburg recently. Her title was "Biology of feeding in the polychaete Diopatra cuprea".

ENGLISH

Professor Carl Dolmetsch's review of Mencken, a recent biography by Carl Bode, appears in the current issue of The Cabellian: A Journal of the Second American Renaissance (Spring 1970). In this review, Prof. Dolmetsch concentrates upon the book's treatment of the literary friendship of H. L. Mencken and James Branch Cabell. He had previously reviewed the same work, focussing upon other aspects of it, for The Saturday Review and Choice.

FINE ARTS

Carl A. Roseberg has had two works of art accepted in the Peninsula Arts Association's Eighth Annual Competition and Exhibit held at Christopher Newport College. Included is an oil painting collage and a pen, ink, and wash drawing. The exhibit will be open until April 30.

GOVERNMENT

Prof. Chonghan Kim organized a panel on "Divided Korea: Problems and Prospects" for the Twenty-second Annual Meeting of the Association for Asian Studies to consider various aspects of the problem of divided Korea. The annual meeting was held in San Francisco, April 3-5, and Professor Kim chaired the Korean panel at the meeting.

George W. Grayson and Roger W. Smith testified as expert witnesses in the case of Buehler vs. College of William and Mary. The case was heard on April 3 in the Federal District Court in Norfolk, Judge John A. MacKenzie presiding.

MARSHALL-WHYTE SCHOOL OF LAW

Prof. E. Blythe Stason, Jr. has been nominated to membership in the Council of Foreign Relations by a group of sponsors including Professor John N. Hazard of Columbia University, Morris Darrell, president of the American Law Institute, and Sir Arthur L. Goodhart of Oxford University, an honoree at the College's Charter Day ceremonies in February. The nomination is based upon Professor Stason's participation in the Summer School of Law in England now annually conducted by the Law School, his development of a sequence of courses in international law, and his service on committees and round tables of the Association of American Law Schools concerned with international and comparative law and foreign faculty-student exchanges.

The Council on Foreign Relations is a select body of persons interested in American foreign relations and international affairs. It is best known for its sponsorship of the authoritative quarterly, Foreign Affairs.

DEPARTMENTAL NEWS, Con'd.

SCHOOL OF BUSINESS ADMINISTRATION

Dr. Algin B. King, Associate Dean of the School of Business Administration and Dr. Wagih Defashy, chairman of the Department of Management in the School of Business Administration, will be panel speakers at a seminar for "Management Development for Women" to be held at Richard Bland College in Petersburg April 15-16 and May 13-14.

Director and coordinator of the seminar will be Ernest L. Barnett, Director of Adult Education at Richard Bland.

SCHOOL OF EDUCATION

Dr. Kevin E. Geoffrey has published an article titled "Elementary School Group Counseling." The Journal of the Professional Counselor's Association March - April, 1970.

HONORS CONVOCATION

The annual Spring Honors Convocation will be held at 11 a.m., Friday, April 17, in Blow Gymnasium.

Classes will be dismissed at 10:40 a.m. Twelve o'clock classes will be held as usual.

Information to be included in the next issue of the Colleague should be sent to the Information Office, Ewell Hall by Tuesday, April 21.

The Colleague is interested in coming events, awards, grants, projected summer research or any other items of news which would be of interest to the college community.

HIBBARD CONCERT

The 1970 Carl Hibbard Memorial Concert will be presented by the Concert Band, April 30 at 8:15 p.m. in Phi Beta Kappa Hall.

Proceeds from the concert will go to the Carl Hibbard Band Scholarship Fund which was established in 1958 by Capt. and Mrs. R. C. Hibbard in memory of their son, a former student at the College and a former member of the College Band. The scholarship is awarded annually to a student who can qualify on the basis of musical ability, interest, character, need, and academic achievement.

The band will begin its concert with "Military March," by Beethoven. Variations on "America" by Charles Ives-William Schuman and the overture from Wagner's Tannhauser will also be performed by the band.

The program will include three dance episodes from "Spartacus," by Aram Khachaturian; "Cole Porter, a Symphonic Portrait," by Porter-Robinson; "Adelita" arranged by Jerry Fielding; and "America, The Beautiful," by Ward-Dragon.

Featured soloist with the band this year is Brett Stamps, who will play a trombone solo, "Csardes," by Monti-Gray. Stamps, son of Mr. and Mrs. J. Fred Stamps of Falls Church, is a senior music major. He began his musical education as a member of a fifth grade band in Falls Church and played with the George C. Marshall High School band there for four years.

He has been accepted as a graduate student in music at the University of Miami. He hopes to pursue a career as a music teacher. He is also a member of the stage band at the College and has written musical arrangements for the band.

This year's band concert, originally scheduled for May 1, was rescheduled for April 30 to avoid conflict with other campus events planned for that date.

Daylight Saving Time will become effective at 2 a.m., Sunday, April 26.

WILLIAM & MARY

PHYSICS COLLOQUIUM

Friday, April 24, 4:30 p.m. (Coffee at 4:00). William Small Physical Laboratory. Coffee in Conference Room. Colloquium in Room 108. Speaker will be Lee Grodzins, M.I.T. on "The Limits of Nuclear Stability".

ROTC CEREMONY

The Annual ROTC Spring Awards Ceremony will be held in the Sunken Garden at 2:00 p.m. on Wednesday, 13 May. All are invited to attend this colorful event which will include the Queen's Guard in full dress uniform.

VISITING LECTURESHIP AWARDED

An Oxford don has been awarded a visiting lectureship at the College by the Draper's Company, one of London's major livery companies.

He is 27-year-old Robin Briggs of All Souls College, Oxford, who has been nominated by Hertford College where he is lecturer in modern history. Briggs will lecture on English and European history from the 17th century to the present time during July and August this year.

Briggs is author of the newly published work, "The Scientific Revolution of the Seventeenth Century" and is currently working on a second book on popular religion in France during the 17th and 18th centuries.

THE ANNUAL RAFT DEBATE, sponsored by the Philosophy Club, will be held tonight at 8:30 p.m. in the Campus Center Ballroom.

Robert Welsh, physics, will serve as moderator. Raft riders will be Miss Dorothy Riddle, for the social sciences; Hans C. Von Baeyer, for the physical sciences; Mrs. Elsa Diduck for the humanities. The Devil's Advocate will be Leonard Schifrin.

"THE GREEN BERET CASE AND LT. JAMES DUFFY: Military Justice or Military Injustice," will be the topic of a talk by Henry B. Rothblatt, prominent criminal attorney and counsel for the Green Berets and Lt. Duffy, tonight at 8 p.m. in the Moot Court Room of the Marshall-Wythe School of Law. This is a change of meeting time for this program which was originally scheduled for 2:15 p.m. Friday, April 24.

GREGORY HERE MONDAY

The Junior Class is sponsoring a talk by Dick Gregory Monday, April 27 at 8 p.m. in Blow Gymnasium. The evening will also include a dinner before the lecture, a press conference, and a reception in the Campus Center Ballroom following the lecture. Tickets are \$1 each. A portion of the proceeds will be used to defray expenses, and the rest will be donated to the Martin Luther King Scholarship Fund.

ATTORNEY GENERAL ASKS LAW SCHOOL INVOLVEMENT

Virginia Attorney General Andrew P. Miller, the featured speaker at the annual awards banquet of the William and Mary Law Review last Friday evening, urged that the state utilize, and law schools provide, the research resources of their students and faculty in attacking the problems of the improvement of the administration of justice in the Commonwealth. Pointing with approval to the effective participation of the Marshall-Wythe School of Law in the current Virginia Court System Research Project, Miller suggested that a variety of similar research opportunities, of the highest practical value to the state, should be undertaken as a joint effort by all of the law schools in the state.

The fourth annual awards banquet, attended by more than 100 persons, featured recognition of outstanding editorial work by new student candidates for the Law Review staff and accomplishments of outgoing editors. Charles F. Midkiff, retiring editor-in-chief, was presented with a desk pen set by his fellow staff members, and a handbound copy of the current issues of the journal was presented to the Attorney General.

OSCAR L. SHEWMAKE PORTRAIT UNVEILED

A portrait of the late Judge Oscar L. Shewmake, twice a member of the Board of Visitors, onetime Rector of the Board and the first law teacher in the twentieth-century revival of the Law School, was formally unveiled in the Moot Court Room of the Law School at the annual meeting of the William and Mary Law School Association last Saturday. The portrait, painted by artists of the Royal Academy in London, joins a portrait of the late Dudley W. Woodbridge as the second in a gallery of former deans of the modern Law School.

Judge Shewmake was a member of the law faculty of the College from 1922 to 1925.

GRANTS IN PHYSICS

The Gulf Oil Corporation has renewed its grant of a Gulf Oil Corporation Graduate Fellowship. This Fellowship provides an academic year stipend of \$2500 for the Fellow plus his tuition and fees, and a supplemental grant of \$1000 to the Department of Physics. The present holder of the Fellowship is M. C. Phenneger, who is doing dissertation research in the area of inelastic electron scattering. His advisor and the institutional sponsor of the Fellowship is R. G. Winter.

A. Sher has received two research grants from N.A.S.A. One, for \$6,034.84, is for a three-months study entitled Precise Measurement of Charged Defects in III-V Compounds. The other, for \$21,043, is for a one-year study entitled Temperature Variation of the Resistivity of Metallic Strain-Gauge Materials.

BOTETOURT BIBLIOGRAPHIC SOCIETY TO MEET FRIDAY IN LIBRARY

Professor Glenn Negley, professor of philosophy at Duke University, will be guest speaker for the next meeting of the Botetourt Bibliographical Society, Friday at 8:15 p.m. in the Rare Books Room of Swem Library.

Dr. Negley will speak on "Utopias in Western Literature."

Glenn Negley has been Professor of Philosophy at Duke since 1946, serving as chairman from 1950-56, and has taught at Chicago, Illinois, Oklahoma, Texas, and San Jose State. He has been a Rockefeller Research Fellow and the recipient of a grant from the Ford Foundation for study in Austria and Germany. His articles have appeared in many publications, and he has contributed chapters to a number of books on political philosophy. He is the co-editor (with Max Patrick) of The Quest for Utopia: An Anthology of Imaginary Societies and is the author of The Organization of Knowledge, Political Authority and Moral Judgment, and (with T. V. Smith) Democracy vs. Dictatorship. Professor Negley has, over a period of many years, formed an extensive collection of Utopian tracts and imaginative literature and has built up the fine Duke collection of such materials. He will address himself to these collections, which because of Professor Negley's generosity are becoming one, and to their use and interpretation.

SENIOR STUDENTS IN RECITAL

The Department of Music will present a program Sunday afternoon at 4 p.m. in the Campus Center Ballroom featuring senior students in recital.

Durwood Adams, of Newport News will play two trumpet solos, "Sonata for Trumpet" by Henry Purcell; and "Concertino for Trumpet, opus 29," by Knudage Riisager. Adams will be accompanied by Steven Shrader, Winchester, Va., at the piano.

Deene Hall, also of Newport News, will play "Concerto for Horn, opus 11," by Richard Strauss on the french horn. Accompanist will be Barbara Massie, Crozet, Va., pianist.

David Stamps, Falls Church, trombone, will play "Sonata in C" by Johann Fasch, and "Spanish Caprice," by Leonard Smith. His accompanist will be Steven Shrader.

All three soloists are appearing in concert in partial fulfillment of degree requirements.

Concert ushers will be members of Delta Tau Chapter, Delta Omicron and Nu Sigma chapter, Phi Mu Alpha Sinfonia.

Currently on exhibit in Andrews Hall is an exhibition of sculpture by Virginia artists.

COUNCIL OF INSTITUTE TO MEET

A group of noted American, Canadian, and British scholars will gather in Williamsburg for the annual meeting of the Council of the Institute of Early American History and Culture on May 1 and 2.

The Council is the advisory body of the Institute of Early American History and Culture, a center for historical study and publication sponsored jointly by the College of William and Mary and Colonial Williamsburg.

At the business meeting Friday morning the Council will hear reports from Stephen G. Kurtz, director; James H. Hutson, editor of publications; and Thad W. Tate, editor of The William and Mary Quarterly; Herbert A. Johnson, co-editor of The Papers of John Marshall; Sung Bok Him and Norman S. Fiering, resident scholars and Fellows of the Institute.

The Council will be entertained by President and Mrs. Davis Y. Paschall at Carter's Grove Plantation by courtesy of Colonial Williamsburg, as well as by the Institute of Early American History and Culture during the course of the weekend meeting.

Since its founding in 1943 the Institute has published 63 books which, over the years, have won the Emerson Award of Phi Beta Kappa, the Parkman Prize of the Society of American Historians, the Bancroft Prize of Columbia University, and the National Book Award. Gordon S. Wood's Creation of the American Republic has won this year's Bancroft Prize in the field of history.

The Institute is also the publisher of the leading magazine of early American history, The William and Mary Quarterly, now in the 27th year of its Third Series, with subscribers throughout the nation and in 32 foreign countries, and is sponsoring the publication of the papers of Chief Justice John Marshall.

Members of the Council are: George A. Billias, Clarke University; Richard M. Brown, College of William and Mary; Lyman H. Butterfield, Massachusetts Historical Society; Jack P. Greene, The Johns Hopkins University; Lawrence A. Harper, University of California at Berkeley; George L. Haskins, University of Pennsylvania Law School; Cecelia Kenyon, Smith College; W. Kaye Lamb, Ottawa, Canada; Edmund S. Morgan, Yale University; Andrew Oliver, New York City; Bradford Perkins, University of Michigan; David B. Quinn, University of Liverpool; Edward M. Riley, Colonial Williamsburg; Clinton Rossiter, Cornell University; Lawrence W. Towner, The Newberry Library; Clarence L. Ver Steeg, Northwestern University; and ex officio, Carlisle H. Humelsine, President of Colonial Williamsburg and President Davis Y. Paschall.

SPORTS THIS WEEK

Gymnastics Home Show - Blow gym, 8 p.m. Friday, April 24

Baseball - W&M vs East Carolina, 2 p.m. Saturday, April 25

W&M vs Citadel, 2 p.m. Monday, April 27

Men's Lacrosse - W&M vs VMI, 2 p.m. Saturday, April 25

Women's Lacrosse - W&M vs Sweet Briar, 4 p.m. Wednesday, April 29

PLAQUE HONORS DR. DAVIS

A commemorative plaque, honoring Dr. Donald W. Davis, William and Mary professor and chairman of the Department of Biology from 1916-50, will be dedicated Friday in John Millington Hall.

The bronze plaque, designed and executed by Carl Roseberg of the Fine Arts Department, has been placed in the foyer of the large auditorium on the first floor of the building and is a gift to the College from Mrs. Robert J. Faulconer, Dr. Davis' daughter, and Dr. Faulconer, of Norfolk.

During his years on the faculty of the college, Dr. Davis was active in research in the fields of genetics and marine biology, and it was largely at his instigation that the Virginia Institute of Marine Science at Gloucester was established in 1940. Dr. Davis was one of the founders of the Virginia Academy of Science in 1923 and served as its fifth president.

A luncheon following the dedication, will be held in the Dodge Room of Phi Beta Kappa Hall.

DEBATERS WIN NEW AWARDS

College debaters spent a winning weekend in Ashland, taking eight awards in the Randolph-Macon Novice tournament with assistance from freshmen debaters.

The freshman team of Chuck Kennedy, Williamsburg, and Bill Harpine, Fairfax, topped the negative entries with a flawless 4-0 record, and finished first and second, respectively, in the speaker competition.

The affirmative team of freshmen Dan Gepford, Fanwood, N.J., and Glen Clatterback, Harrisonburg, also placed high with a 3-1 record. Gepford also placed fourth in affirmative speaker competition.

The four-man unit of Kennedy, Harpine, Gepford and Clatterback combined to place first, with eleven schools competing.

In the same tournament, freshmen John Vile, Stanley, and Nancy Dunbar, Lithia, won second place in negative debating with a 3-1 record. Rick Leobold, a junior from Vienna, and freshman Bill Witting, Alexandria, placed third in the affirmative competition.

John Morello, of Hampton, and Kathy Shirley of Overland Park, Kans., student debaters who have won many honors throughout the year, were acting debate coaches for the Ashland tournament.

The weekend of April 24-25, the college debaters will be in action in Salisbury, N.C., for the Catawba College Debate tournament.

DEPARTMENTAL NEWS

ANCIENT LANGUAGES

Professor J.W. Jones attended the annual meeting of the Classical Association of the Middle West and South in Louisville, Ky., March 26-28.

Professor Jones' article, "The Trojan Horse: TIMEO DANAOS ET DONA FERENTIS," appeared in the April issue of the Classical Journal

An article by Cecil Wooten entitled "The Conditional Nature of IIPIN Clauses in Attic Prose of the Fifth and Fourth Centuries," has been accepted by the German publication Glotta for publication in the forthcoming issue.

ENGLISH

John Conlee attended the annual meeting of the Mediaeval Academy of America, which was held at Cambridge, Mass., April 17-18.

Professor Conlee's article, "Verse Composition in the Meters of Boethius," will appear in the fall issue of Neuphilologische Mitteilungen.

GOVERNMENT

Roger W. Smith has been asked to serve as an external examiner of Honors candidates at the University of Virginia. He will set and read the examination in political theory, evaluate several honors essays, and conduct with others a number of oral examinations.

HISTORY

Nancy Farris has received a grant from the American Philosophical Society for research in Yucatan and Lampeche, Mexico on the social and economic role of the church during the 18th century.

Richard B. Sherman's The Negro and the City has just been published by Prentice-Hall, Inc. The book contains documents, with introduction by the editor, on various aspects of the urbanization of American blacks since the 1890's.

Recently Professor A. Z. Freeman lectured to some Hampton Institute English classes. His topic was, "the Quest for the Historical Becket: Henry II and his Archbishop."

MATHEMATICS

Professors Peter O'Neil and J.C. Sanwal attended the International Mathematical Conference In Several Complex Variables, held at the University of Maryland, College Park, Maryland, on Thursday, April 16, 1970.

PHYSICS

The following paper has been published: Theory of a Ball Rolling on a 1/r Surface of Revolution. C. M. Andersen and Hans C. von Baeyer Am. J. Phys. 38, 140 (1970).

PSYCHOLOGY

At the Eastern Psychological Association meeting held in Atlantic City, April 2-4, Dr. Kelly G. Shaver read a paper entitled "Effects of severity and sex of perpetrator in the attribution of responsibility."

A colloquium was given by Dr. Peter Suedfeld, Associate Professor of Psychology, Rutgers University, on Friday, April 10th to the Department of Psychology. The title of Dr. Suedfeld's talk was "The delectable 'D' and the Ubiquitous 'U' ".

SOCIOLOGY

The following members of the Department of Sociology attended the Annual Meeting of the Southern Sociological Society in Atlanta, Ga., April 9-11, 1970. For persons giving papers, the title and panel follows; the same is true of any organizational activity or responsibility.

Satoshi Ito - "Some Correlates of Uncodeable Responses." Methodology Panel

Vernon H. Edmonds - "A Tentative Theory of the Formation and Acceptance of Rightest Ideology," Political Behavior Panel

Lawrence S. Beckhouse - "Behavioral Resolutions of Role Incongruity: An Interactional Approach" (Joint paper with Eugene A. Weinstein of State University of New York, Stony Brook). Panel on Role Analysis and Theory

Jon S. Kerner - "Rational and Legal Authority Within Hierarchical and Autonomous Bureaucratic Structures". Panel on Complex Organizations

R. Wayne Kernodle - Nominating Committee

Marion G. Vanfossen - Membership Committee

Elaine Themo

Robert Miller

Anthony L. Guenther

Noelie Herzog

MARSHALL-WYTHE SCHOOL OF LAW

An article by Dr. William F. Swindler, "Rejected Supreme Court Nominees: The Politics of 'Advise and Consent,'" will appear in the June issue of the American Bar Association Journal. The article discusses the recent Senate actions on Judges Haynsworth and Carswell in the context of a succession of Senate rejections throughout American judicial history.

FOR SALE

Three bedroom brick ranchstyle home located in quite subdivision (Greensprings) in York County. Convenient to new elementary school, shopping center, and restored area. Includes fireplace, air conditioning, Youngstown kitchen, large screened porch, two storage rooms, and large landscaped lot. Monthly payments \$114 including taxes and insurance, on 5 3/4% loan. \$21,500 on loan assumption. Call Ext. 231 or 229-2971.

WANTED

Used men's English bicycle, reasonably priced. Please contact Ext. 379 or Wren 305.

Information for inclusion in the next issue of The Colleague should be received in the Information office by Tuesday, April 28.

NATIONAL FIGURES WRITE ON "CAMPUS CRISIS"

A symposium on "The Campus Crisis" features in the spring issue of the William and Mary Law Review, just published last week, with a foreword by Robert H. Finch, Secretary of Health, Education and Welfare, and articles by former Vice-President Hubert H. Humphrey and Oregon Congresswoman Edith Green.

Humphrey's article, "Student Confrontations: Are They Inevitable?" and the article by Representative Green, "The University and Society," are complemented by "The Usable Past: A Study of the Harvard College Rebellion of 1834," by Dr. Robert A. McCaughey, assistant professor of history at Barnard College, and "Campus Unrest: Illusion and Reality," by Francis B. Smith of NASA's administration for university affairs.

Two other articles in the current issue are "The Medical, Legal and Ethical Considerations of Human Organ Transplantations," by Dr. Carl E. Wasmuth, adjunct professor of law in the Cleveland-Marshall School of Law; and "Responsibility in the Juvenil Court," by Professor Sanford J. Fox of the Boston College School of Law.

CRIMINOLOGY SPECIALIST TO SPEAK

A visiting lecturer and consultant from the U.S. Penitentiary will be on campus May 4-6 to meet with classes in Criminology and a new seminar on the study of prison systems. Sponsored by the National Science Foundation's College Science Improvement Program (COSIP), Arthur R. Groth, a Correctional Supervisor at the Federal Penitentiary, will discuss problems encountered in the administration of prisons, and will serve as consultant to a project done at the Atlanta institution by Anthony L. Guenther, Department of Sociology, last Fall semester. Mr. Groth is in his twenty-fourth year of service with the Federal Prison System, and has been on the custodial staff at McNeil Island (Washington) Penitentiary, Chillicothe (Ohio), Tallahassee (Florida) and Lompoc (California) Reformatories, before assignment to the Atlanta Penitentiary in 1968.

LIBRARY
SEP 30 1970
WILLIAM & MARY

"WHOLLY COMMUNION," an unusual film about a poetry reading, made in London, will be shown in the Botetourt Theatre, May 6 at 7 p.m., sponsored by the English Department.

ALUMNUS ESTABLISHES GEOLOGY RESEARCH AWARD

A new undergraduate research award has been established for students majoring in Geology at the College. This award, the ASTON ECONOMIC GEOLOGY AWARD, has been established by Mr. R. Lee Aston, an alumnus of The College of William and Mary, Class of 1948. Although no Department of Geology existed at William and Mary at that time, Mr. Aston then attended the Missouri School of Mines and has subsequently played an active role in the mineral industry. He has engaged in consulting work related to mineral exploration and development, and currently operates quarries which produce dimension stone for building and monumental purposes. His quarry in Rapidan, Virginia produces stone known as "Buena Black granite" which is extensively utilized as a monumental stone.

Any junior or senior major student in the Department of Geology at The College of William and Mary is eligible to submit a paper in competition for this award. The length of the paper is not specified and will be determined by the nature of the student's research. Although it is not necessary that the paper be entirely focused on a problem of economic geology, the paper must be on a topic which has some economic implications. The paper must be written in a manner which emphasizes the economic or applied aspects of the student's research. Hopefully, this award will provide an incentive for geology majors at William and Mary to obtain some understanding of the role of geology in industry and the development of our mineral resources. Mr. Aston has also made available a modest fund which can be used to help defray the field expenses of students engaged in their research projects. The award itself is to consist of a Brunton Compass and carrying case. This is a specially designed compass which is a basic tool of the field geologist.

CHEMISTRY SEMINAR

May 7, 4:15 P. M. - Rogers Hall, Room 300.

Professor C. S. Patterson, Director, Division of Science and Mathematics, Furman University, will present a talk entitled "The Problem of Temperature in Structure-Reactivity Correlations."

STUDENT WINS GERMAN AWARD FOR OVERSEAS STUDY

Michael Resler, a senior from Sarasota, Fla., has been awarded a year's graduate study in Germany during 1970-71, according to Dr. Carl R. Dolmetsch, campus Fulbright adviser.

Mike, an Honors student in German here, is one of 30 American recipients this year of a grant from the West German government-sponsored Deutscher Akademischer Austauschdienst (German Academic Exchange Service) for all academic and living expenses at a German university and a Fulbright Travel Grant for all travel costs. He will study German literature at the new University of the Ruhr, at Bochum, West Germany.

A 1969 initiate of Phi Beta Kappa at William and Mary as well as a Woodrow Wilson Designate, Mike was selected for a study award by the Institute for International Education, in New York, which administers the student Fulbright-Hays program, and the German exchange program, from among several hundred qualified applicants. Following his year in Germany, he plans to continue his graduate studies at an American university in preparation for a college teaching career.

DIRECTOR FEHR HONORED ON 25th

On the occasion of his 25th anniversary as director of the William and Mary choir, Dr. Carl H. Fehr was honored by members of the choir at a reception in the Dodge Room at Phi Beta Kappa following the Saturday concert. Silver goblets were presented to Dr. and Mrs. Fehr and congratulations extended by President Davis Y. Paschall, Dr. F. Donald Truesdell, chairman of the Music Department, and Steven Shrader, choir president.

Dr. Fehr was also cited for his musical achievements at the Wednesday night's choir banquet in the Campus Center Ballroom and formal presentation was made of the Freedoms Foundation Award. Banquet speakers included Dr. Paschall and Dr. Truesdell.

MUSICAL SUNDAYS

For those who like music - all kinds - a Sunday in May seems to be the day.

Sunday, May 3 the Collegium Musicum will present the Lyric Theatre in the Campus Center Little Theatre at 4 p.m. In the Wren courtyard, members of several church groups are sponsoring a Spring Folk Concert at 4:30 p.m.

Soulfolk singer Cleveland Francis will give a concert Sunday, May 10 in Blow gym at 7:30 p.m. That same day Scott Hershey and David Lamb will give a flute and piano recital in the Campus Center Ballroom at 4 p.m. A recital by voice students of Robin Roark will be held at 2:30 p.m. in Ewell 100.

ECONOMY SIGNS ARE GOOD

Signs which may look ahead to a brightening of Virginia's slowed economy were detected in the March analysis of business indicators published by the School of Business Administration.

Dr. Leland E. Traywick, director of the school's Bureau of Business Research, said that while some indicators show a continuing slowdown in the state's economy, others "are looking ahead to things to come and see a much brighter picture beyond the valley."

The economist said in the monthly published report that such mixed signals are typical of turning points in the business cycle and "perhaps this is no exception and Virginians can look forward to better economic conditions."

Among the economic indicators portending the upturn are bank debts, which had been down in February but bounced back in March to a 22.3 per cent increase over a year ago.

Building permits, lagging for many months, also made a substantial resurgence in the Old Dominion during March. Dr. Traywick said the issuance of these permits, which precede the actual construction work, constitute a "forerunner of things to come."

DELANEY LECTURE MAY 6

Thomas Delaney, broker at the Williamsburg office of Mason & Company, will give a lecture entitled "Profits from Pollution," Wednesday, May 6 at 4 p.m. in Millington Hall, room 211, under the sponsorship of Biology Senior Seminar 420A.

He will discuss which companies are the major manufacturers of pollution-control devices, how these companies are weathering the current downward trend in the stock exchanges, and other pertinent financial and economic matters.

Delaney, a native of Gloucester, N.J., attended the University of Virginia and the College of William and Mary, as well as the New York Institute of Finance. He has been with Mason & Company since 1964.

SUMMER LAW SCHOOL IN ENGLAND TO SET RECORD

A record number of nearly 70 students have enrolled for the fourth annual William and Mary Summer School of Law in England, which will be offered for six weeks beginning July 6. Four members of the Marshall-Wythe School of Law -- Professors Emeric Fischer, Bolling Powell, E. Blythe Stason, Jr. and William F. Swindler -- will teach the courses in cooperation with four Exeter faculty members -- Professors John Bridge Peter English, Dominik Lasok and Christina Sachs. In most courses, both an English and an American professor will participate, providing a maximum degree of "expertise" for the comparative treatment of the subjects.

FRIENDS OF MUSIC CONCERT

An early English opera and works for full orchestra by Handel, Beethoven, Ives, and Shostokovich, will be presented in the Spring concert of the Williamsburg Friends of Music to be given May 11 at 8 p. m. in Phi Beta Kappa Hall.

A concert version of Purcell's opera in the three acts, "Dido and Aeneas," written about 1689, will be performed by a special chorus of 24 singers and the William and Mary Chamber orchestra and John Gearhart of Hampton, at the harpsichord.

The title roles of Dido and Aeneas will be sung by Miss Patricia Arledge, of Portsmouth, a senior at the College who has won several awards in vocal competitions, and Matt Spady a student from Chuckatuck, Va., who has participated in many college productions including "The Condoliers," and "Of Thee I Sing."

Other soloists, all students, will be Lois Beckwith, Farlyville, Va.; Calvin Remsberg, Alexandria; Arthur Roach, Richmond; Gary Pinion, Virginia Beach; Mary Ann Zillotti, McLean, Va.; and Ginger Smith, Atlanta, Ga.

The second portion of the program will feature the William and Mary-Community Symphony Orchestra with 38 student players, 7 community players, and augmented by guest musicians from Newport News and Norfolk.

The symphony orchestra made its debut last year in a spring concert sponsored by the Friends of Music. The orchestra is under the direction of Prof. Alan Stewart of the music department at William and Mary and provides the Williamsburg community with its first full orchestra.

The orchestra will play the Egmont overture opus 87 by Beethoven, Handel's Water Music; "The Unanswered Question" by Ives; and the Festival Overture by Shostokovich.

Tickets for the concert are \$2 for adults and \$1 for students and are available from Mrs. Frank MacDonald, 906 Jamestown Road, and will be on sale at the box office the evening of the concert.

FACULTY CLUB PARTY

Faculty Club will hold its final cocktail party of the year on Friday May 15th, 5:30-7:30, at Holiday Inn East. Tickets are \$3.00 per person for non-members and \$1.50 per person for members and their quests. They may be obtained from Jon Soest, Treasurer (make checks payable to him) or at the door, if necessary.

FINAL IN FILM SERIES MAY 4

The final offering in the current Festival Film Society series will be Roman Polanski's suspense classic, "Knife in the Water," to be shown May 4 at 4 p.m. in the Botetourt Theatre and 8 p.m. in Andrews Auditorium.

SINGER CLEVELAND FRANCIS
TO GIVE CONCERT MAY 10

Soufolk singer and former William and Mary student Cleveland Francis, will give a concert in Blow gymnasium May 10 at 7:30 p.m. for the benefit of the Martin Luther King, Jr., Memorial Scholarship Fund.

Currently vice president of the freshman class at the Medical College of Virginia, Francis received a master of arts degree in biology at William and Mary last year.

Francis will sing and play some of his own songs at the May 10 concerts, songs which are included in his first album "Follow Me..." produced by Victor Liguori, Brenda and Daniel Grubaugh and Francis, at the Studio Center, Norfolk.

When Francis was 13, he began playing the guitar and singing with his mother and sisters in church gospel music groups in Jennings, La., where he spent his youth.

In his sophomore year at Southern University in Baton Rouge, he gained the enthusiastic support of Dr. Huel Perkins, the head of the University music department, who arranged his first concert before music majors and members of the faculty. During his senior year he began writing his own songs, some of which are included in his first album.

At William and Mary he found an eager response to the transition in his musical style from rock to soulfolk. He has played at the Forge and in February of last year teamed with fellow graduate student Dave Gapp for a concert at Phi Beta Kappa Hall. There was a full house 30 minutes before the performance.

Professor Liguori said he hopes to have copies of Francis' album available at the concert. Tickets are \$1 each.

MAY 13 OUTDOOR CONCERT

W&M stage band, chorus. Wren Porch 7 p.m. (In the event of rain the concert will be cancelled.)

PHYSICS COLLOQUIUM

Friday, May 1, 4:30 p.m. (Coffee at 4:00)

William Small Physical Laboratory
Coffee in Conference Room
Colloquium in Room 109

SPEAKER: S. Peter Gary, University College of North Wales

SUBJECT: "Shock Waves in Collisionless Plasmas."

NEW PROGRAM AT VARC

Dr. Arden Sher, associate professor of Physics since 1967, has been named director of a new graduate program in Applied Science to be offered at the College and its Virginia Associate Research Campus in Newport News.

The new degree program, which will begin in June, is inter-disciplinary and is offered cooperatively by the Departments of Chemistry, Mathematics, and Physics. The program contains four specializations: Computer Science, Applied Mathematics, Plasmas and Atmospheric Processes, and Solids and Liquids.

The State Council of Higher Education has approved conferral of the Master of Science degree in Applied Science for the program. Other applied specializations can be added in the future with State Council permission as the needs of the region dictate and resources permit.

Assistant Vice President Warren Heemann, Director of the VARC campus, said the new program is designed to help fulfill desires in the Peninsula area for "a scientific education which cuts across traditional science or Mathematics Department offerings and is more specialized."

He said the Applied Science program is the result of two years of study at William and Mary among faculty and administration. Depending on enrollment demand, he said, the program will encompass 72 possible courses of instruction.

The Applied Science program will have at its disposal all the facilities of the Chemistry, Mathematics, and Physics Departments on the Williamsburg campus as well as the VARC classrooms and laboratories. VARC adjoins the \$15 million Space Radiation Effects Laboratory, built by the National Aeronautics and Space Administration and administered by William and Mary through VARC. The VARC campus is connected by telephone line to the William and Mary Computer Center on the main campus, which serves as Virginia's southeastern regional computer center. The VARC library has a strong collection of reference books and periodicals in Physics and Mathematics, and is continually being expanded.

Dr. Sher, whose position will be a part-time one, was a physicist on the staff of the Central Research Laboratory of Varian Associates for six years prior to joining William and Mary. He holds his degrees from Washington University, St. Louis, and was a post-doctoral fellow at Saclay, France.

Dr. Sher's research and teaching specialization is in the area of theoretical and experimental solid state physics. He recently was awarded grants from NASA totalling more than \$27,000 to study the temperature variation of the resistivity of metallic strain-gauge materials, and precise measurement of charged defects in certain compounds.

COLLEGIUM MUSICUM
PRESENTS LYRIC THEATRE

The seventh and final program in the current Collegium Musicum series, will be a presentation of "Lyric Theatre," which combines many art forms for a new mode of expression.

Lyric Theatre will be presented Sunday afternoon, May 3 at 4 p.m. in the Campus Center Ballroom.

The program will open with Centering II by David Gilbert for clarinet, bassoon, trumpet, trombone, percussion, violin and string bass.

"L'Histoire du Soldat," by Igor Stravinsky will be performed by musicians, actors and dancers. The libretto is by C. F. Ramuz; the English version by Michael Flanders and Kitty Black. Jack Davidson, who recently appeared in the Circle in the Square production of "Moon for the Misbegotten," will be the narrator. The Soldier will be played by Jim May, who has been a member of the American Ballet Company. Rex Bickmore, Assistant Director of Lyric Theatre will take the part of the Devil. The Princess will be portrayed by Marjorie Mussman, who joined the Lyric Theatre after a successful tour with the First Chamber Dance Quartet in 1968.

DEPARTMENTAL NEWS

ANCIENT LANGUAGES

Professor J. W. Jones delivered the Annual Greek Week lecture at King College on May 1. He spoke on the legend of the sack of Troy as found in Homer and Vergil.

CHEMISTRY

The following paper has been published:

"Dipole Moments of 1,2-Disubstituted Ethanes and Their Homologs: An Experiment for Physical Chemistry," C. L. Braun, W. H. Stockmayer, R. A. Orwoll, J. Chem.Ed. 47, 287(1970)

On April 22, Richard Kiefer gave a talk on environment to the combined 4th, 5th, and 6th grades of the Norge Elementary School.

ENGLISH

Margaret W. Freeman has just returned from Chicago, where she acted as a table leader for a reading that is part of the National Assessment of Educational Progress, a project of the Education Commission of the states. Funded by the Carnegie Corporation of New York City, the U. S. Office of Education, and Ford Foundation, the National Assessment has as its two major aims "to make available the first census-like data on the educational attainments of young Americans, and to measure any growth or decline which takes place in the educational attainments of young Americans in certain subject areas." The areas being explored this year include writing and extensive samples have been taken of four age groups: nine-year olds, 13,17 year olds, and 25-35 year olds. The April 23-26 reading was for 30,000 samples of free-response essays by nine-year olds.

Mrs. Freeman has acted as table leader twice this year for readings of the English Composition Test section of the English Achievement Test, part of the CEEB tests administered by Educational Testing Service. From May 21-23 she will help with a reassessment of the Undergraduate Program Literature Examination, also administered by Educational Testing Service. This reading will be held in New Hope, Pennsylvania, and will consider the possibility of an alternate free-response two-hour form of the present test. Mrs. Freeman will read ETS Advanced Placement exams in English at Rider College in New Jersey, June 12-17.

GEOLOGY

Dr. Stephen C. Clement has been selected as one of a group of 30 geologists to participate in a three week summer field trip sponsored by the National Science Foundation. The purpose of the trip is to update the participants in recent developments in the study of the origin and chemistry of volcanic rocks. Areas to be visited will include the Absaroka Range, the Yellowstone Plateau, and the Snake River Plain.

HISTORY

Professor D. B. Quinn, Harrison Visiting Professor of History, spoke to the Columbia University Seminar on the Renaissance on April 21 on "The Discovery of America - The Present State of the Question."

Richard Maxwell Brown has been elected to a two-year term on the Nominating Committee of the Organization of American Historians, an organization of 12,000 members devoted to the study of American history.

Professor Brown participated in the Salem College Symposium on "Violence as Human Expression" held on April 13-15. Other participants in the Symposium were Benjamin Spock, Albert J. Reiss, Jr., Bruno Bettelheim, and James S. Kunen. Brown spoke on "American Violence: Past and Present" and participated in seminar and panel discussions with students and faculty.

American Violence, a book of historical documents edited by Professor Brown, has just been published in hard cover trade and soft cover text editions by Prentice-Hall, Inc. in its "Spectrum Book" series.

MATHEMATICS

Professor T. L. Reynolds, Chairman of the Mathematics Department, gave two talks to groups of Geometry and Math Club students at Denhigh High School on Thursday afternoon, April 23. The topic of his talks was "Classifications of Some Geometries with a Closer Look at Projective Geometry."

On Saturday, April 25, Professors Reynolds, W. L. Bynum, B. R. Cato, Jr., H. B. Easler, L. T. Conner, Jr., S. H. Lawrence, P. V. O'Neil, R. H. Prosl, D. P. Stanford and W. C. Turner attended the spring meeting of the Maryland-D. C. Virginia section of the Mathematical Association of America. The meeting was held at the University of Richmond.

MUSIC

Dr. F. Donald Truesdell, attended the National Convention of the Music Teachers National Association in Miami Beach, April 13-16 where as President of the Virginia Music Teachers Association, he was required to meet with members of the Southern Division Board. In addition there were sessions in various areas of music including piano, choral, voice, strings wind instruments, theory, musicology, opera and audio visual. There were also a number of concerts and recitals featuring internationally known artists.

The Music Teachers National Association is the oldest professional music organization in the country. Organized in 1896, it is the counterpart in professional music organizations primarily for the private teacher to the Music Teachers Educational Conference, which is primarily for classroom teachers.

SCHOOL OF BUSINESS ADMINISTRATION

Messrs. J. S. Quinn, William Mc Cormick and Wagih Dafashy of the Department of Accounting attended the regional meeting of the American Accounting Association at VPI on April 23-25.

SOCIOLOGY

Professors Beckhouse, Ligouri, Van Fossen and Themo attended the Eastern Sociological Society meeting in New York, April 17, 18, 19. Professor Ligouri participated in a seminar on maritime sociology.

MARSHALL WYTHE SCHOOL OF LAW

Professor E. Blythe Stason, Jr., is developing materials for a course comparing United States antitrust laws with those of other major industrial nations and of the European Common Market. In this connection, he attended a symposium on corporate conglomerate and other mergers presented by the American Bar Association National Institute in New York City last October.

Professor Stason was elected president of the Williamsburg Community Council last Thursday after having served in past years as the Council's parliamentarian and first vice-president. Registrar Dudley M. Jensen is the last College affiliated person to have held this post.

VIMS

Some 165 scientists from the Atlantic Seaboard were guests of the Virginia Institute of Marine Science and the School of Marine Science at the Holiday Inn in Hampton for the two-day meeting of the Atlantic Estuarine Research Society meeting, April 24-25.

Twenty papers were presented. Dr. Robert Schmidt of VIMS presented two papers. "Distribution of Cholesterol in Chrysaora and Aurelia" and "Investigation of the Non-Polar Lipid Classes of Jelly Fish from Lower Chesapeake Bay."

Donald F. Boesch, a graduate student reported on "Distribution in Structure of Benthic Communities in the Hampton Roads area, Virginia."

FOR SALE

Three bedroom brick ranchstyle home located in quiet subdivision (Greensprings) in York County. Convenient to new elementary school, shopping center, and restored area. Includes fireplace, air conditioning, Youngstown kitchen, large screened porch, two storage rooms, and large landscaped lot. Monthly payments \$114 including taxes and insurance, on 5 3/4% loan. \$21,500 on loan assumption. Call Ext. 231 or 229-2971

The next issue of the Colleague will be the last until September. Please send all items for inclusion to the Information Office before Tuesday May 5.

SUMMER RESEARCH GRANTS

Research grants totalling an approximately \$26,000 have been awarded by the College and the Society of the Alumni for summer research by members of the Faculty of Arts and Sciences.

Three grants have been funded by the Society of the Alumni. Recipients of these grants are Alexander P. MacGregor, assistant professor of Ancient Languages; Edward P. Crapol, assistant professor of History; and Ellen R. Bauer, assistant professor of Psychology.

Dr. MacGregor will undertake a first hand examination of hitherto neglected manuscripts of Seneca's Tragedies, to include *Laur*, and a critical edition of Seneca's "Phaedre," employing these manuscripts. This research will include travel to the European cities of Florence, Teubingen, Paris, Cambridge, Eton and London. Dr. Crapol will do research in the area of late 19th Century Anglo-American relations which will take him to the English cities of London, Birmingham and Oxford. He has also received a research grant from the College in addition to his grant from the Society of the Alumni to finance this work. Mrs. Bauer will study Amygdaloid-Hypothalamic interrelations in food regulation.

Research grants from the College have been awarded to 14 other members of the faculty. Names and study projects of the recipients are as follows:

Thomas K. Hearn, Jr., associate professor, Philosophy - The moral philosophy of David Hume: A metaethical analysis.

Melvyn D. Schiavelli, assistant professor, Chemistry - The solvolysis reaction of Haloallenes.

James Newell McCord, Jr., associate professor, History - Lord Holland, the politics of the Whig aristocracy.

Richard Maxwell Brown, professor, History - American Vigilantism: legal and behavioral aspects.

Ian P. Callard, associate professor, Biology - Inhibitory actions of Progesterone in reptilian egg production.

Kenneth F. Bick, professor, Geology - Structural complexity of the Shenandoah Valley, Virginia.

LIBRARY
MAY 13 1970
1000 000000

David Wallace Thompson, assistant professor, Chemistry - Titanium complexes of interest to the catalytic synthesis of Polymers.

Bradner W. Coursen, professor, Biology-Studies in the processes of cellular aging in synchronous cell populations.

J. Scott Donaldson, associate professor, English - A biography of Winfield Townley Scott, American poet, 1910-1968.

Jarid A. Simons, assistant professor, Biology - Serotonin in developing chick brain.

Martin C. Mathes, associate professor, Biology - The control of tissue differentiation using cells isolated from woody plants.

Robert J. Scholnick, assistant professor, English - Edmund Clarence Stedman: a critical biography.

Robert J. Fehrenbach, associate professor, English - A study of the drama by American Negro playwrights, 1858-1945.

James C. Livingston, associate professor, Religion - A study of the Warrants of religious belief in late Victorian England.

FIRST MEETING FOR NEW MEMBERS
OF BOARD OF VISITORS MAY 15-16

The Board of Visitors, with seven new members, recently appointed by Governor Linwood Holton, will hold its next meeting May 15-16 in Williamsburg.

New members of the board include Richmond banker Frederick Deane, Jr., Roger H. Hull, 27-year old New York lawyer; Dr. Garrett Dalton, Radford; Mrs. George Bischel Falck, McLean; John Rochelle Lee Johnson, Jr., Chadds Ford, Pa.; George D. Sands, Williamsburg; and Harry L. Snyder, Virginia Beach.

Reappointed to the board were Russell B. Gill, Petersburg; Mrs. Marion Moncure Duncan, Alexandria; and Blake T. Newton, Jr., Greenwich, Conn.

Dr. Dalton is a graduate of William and Mary and the Medical College of Virginia. Deane, a native of Boston, is a graduate of Harvard College and the Harvard Business School. He is a former assistant to the deputy director of the Central Intelligence Agency. He was made chairman of the board of the Bank of Virginia in 1967 and also serves as president of Virginia Commonwealth Bankshares.

Mrs. Falck is a William and Mary graduate, a member of the board of directors of the Northern Virginia Mental Health Association and area chairman of the United Givers campaign.

Hull is a graduate of Dartmouth College and the Yale University Law School and is a member of the law firm of White & Case in New York City.

Johnson, a native of Franklin and a William and Mary graduate, is also a graduate of the Harvard Law School. He is vice president of Hercules, Inc., in Wilmington, Del. Sands is a graduate and former chemistry professor at William and Mary and is an aero-space technologist with NASA.

Snyder is president of United Sales Corporation in Virginia Beach and is a graduate of Cornell University.

Both Sands and Johnson have served as president of the Board of Directors of the Society of the Alumni and Dr. Dalton is presently a member of the board.

Other members of the Board of Visitors include W. H. Bowditch, Yorktown; R. Harvey Chappell, Jr., Richmond; Frank W. Cox, Virginia Beach; Ernest Goodrich, Surry; Thomas B. Stanley, Stanleytown, Va.; John C. Swanson, Danville, Va.; and Harry D. Wilkins, Eastville, Va.

FRIENDS OF MUSIC CONCERT

College singers will be featured in the concert version of Purcell's opera "Dido and Aeneas" which will be given as part of the Spring Concert of the Williamsburg Friends of Music, Monday evening, May 11 at 8 p.m. in Phi Beta Kappa Hall. Augmenting the singers will be the William and Mary Chamber Orchestra and John Gearhart, of Hampton, at the harpsichord.

The concert will also feature the William and Mary-Community Symphony Orchestra under the direction of Prof. Alan Stewart of the Music Department. The orchestra, the Williamsburg community's first full orchestra, will play works by Handel, Beethoven, Ives and Shostokovich.

Tickets for the concert are \$2 for adults and \$1 for students and are available from Mrs. Frank MacDonald, 906 Jamestown Road, and will be on sale at the box office the evening of the performance.

CLEVELAND FRANCIS IN BENEFIT CONCERT

Cleveland Francis, guitarist and soulfolk singer, will give a concert Sunday, May 10 at 7:30 p.m. in Blow gym for the benefit of the Martin Luther King, Jr., Memorial Scholarship Fund. Francis was a graduate student at the College and is currently vice-president of the freshman class at the Medical College of Virginia. His first album "Follow Me" will be on sale the night of the concert.

JOB OFFERS BRIGHT FOR GRADUATES

Graduating students, holding job offers as high as \$16,000 to start, appear to be escaping a national trend of declining job opportunities.

John C. Bright, director of placement, said that only one or two firms had cancelled their interviews with graduating students here and that starting salaries more than held their own this year.

The \$16,000 figure was the offer made to a prospective graduate of the Law School which offers the Juris Doctor law degree. Other top salaries offered to those in the 1970 group include \$13,000 for a potential recipient of the Master of Business Administration degree; \$10,500 for an undergraduate accounting major; \$10,300 for bachelor's degree recipients from the fields of physics, chemistry and mathematics; \$8,400 from the undergraduate departments of the humanities and social sciences and \$8,000 from other undergraduate programs.

BRITISH POET TO SPEAK
FRIDAY AT CAMPUS CENTER

Anthony Thwaite, literary editor of the New Statesman, Britain's leading political and cultural weekly, will read some of his own poetry and comment on the current British literary scene, Friday night at 7 p.m. in meeting rooms A and B of the Campus Center.

Thwaite is known chiefly as a poet, and has published three books "Home Truths" (1957); "The Owl in the Tree," (1963); and "The Stones of Emptiness," (1967), which won the Richard Hillary Memorial Prize. His poems have appeared in a wide range of periodicals and anthologies including "The New Yorker," "New Poets of England and America," and the "Penguin Book of Contemporary Verse." A large selection of his poems will be published in the "Penguin Modern Poets" series this year.

His other publications include a short critical book "Contemporary English Poetry: an introduction," the text for "Japan in Colour," and a book on Libya, "The Deserts of Hesperides." He was joint editor, with Geoffrey Bownas, of the Penguin Book of Japanese Verse.

He received a BA degree from Christ Church, Oxford and spent two years in Japan as visiting lecturer in English literature at Tokyo University. In 1957 he joined the British Broadcasting Corporation and produced documentaries and literary programs. From 1965-67, he was assistant professor of English at the University of Libya in Benghazi.

His wife, Ann Thwaite, has published many children's books and is a regular reviewer in the Times and the Times Literary Supplement.

LEAGUE OF WOMEN VOTERS MEETING

The League of Women Voters will sponsor a public meeting Thursday, May 14 at 8 p.m. at the Williamsburg United Methodist Church in the Scout room.

Guest speaker will be Albert D. Castano, health planning director of the Peninsula Planning District Commission, who will speak on "The Personal Meanings and Effects of the Partnership for Health Act."

In his talk, Mr. Castano will touch on air and water pollution, the population explosion, use of pesticides, and rising medical costs.

CITY COUNCIL CANDIDATES TO MEET THE PRESS

The Williamsburg Democratic Committee will hold a "Meet the Press" meeting tonight in the Williamsburg-James City County Courthouse at 8 p.m., designed especially to give the public an opportunity to become better acquainted with those running for city office.

Representatives of local newspapers and the radio station will interview candidates in the June election. All interested individuals --whether Democrats, Republicans, or Independents -- are invited to attend.

NEW PROGRAM CLARIFIED

Warren Heemann, Assistant Vice President at the College and Director of the Virginia Associated Research Campus (VARC), has asked the Colleague to run the following statement concerning the new interdisciplinary Applied Science Program.

"Contrary to the impressions given by the mangled reports which appeared in local newspapers, the Masters degree program in Applied Science is not a VARC program. A total of approximately eight courses from the four specializations in the program will be taught afternoons each semester at the VARC site for the convenience of persons living and working on the Peninsula. All other courses, of the 72 available to persons in the program, will be taught on a regular basis at William and Mary in Williamsburg.

"Eighty percent of the courses in the program are now being routinely taught by the departments of chemistry, mathematics, and physics. The new courses in the interdisciplinary program will almost all be in the area of computer science, courses which we have been anxious to initiate at the College for some time.

"Dr. Arden Sher, the newly appointed Director of the program, will be advised by a committee composed of Drs. Reynolds, Tyree, Winter and Southworth. He is responsible to the Dean of the Faculty of Arts and Sciences, the Graduate Dean of Arts and Sciences, and the Graduate Committee. There is no direct academic relationship between Dr. Sher and me as Director of VARC or between Dr. Sher and the Dean of the School of Continuing Studies and none is contemplated."

NOTES ON THE GENERAL HONORS PROGRAM

Dr. John Portz, director of Honors Program at the University of Maryland, and four of his students, spent Saturday, April 23, with Dr. R. C. Beyer, director of the William and Mary Honors Program, and honors students, exchanging ideas.

On display in the Honors Center are paintings and sculpture by students who were enrolled in Dr. Thomas E. Thorne's experimental colloquium "Art in the Age of Crisis." This colloquium combined reading, discussion and studio approaches.

The national conference of the National Collegiate Honors Council (the association of Honors Programs) will be held in Williamsburg in 1973 with the College of William and Mary and its Honors Program serving as host.

RICHARD BLAND COMMENCEMENT

Senator Harry F. Byrd, Jr., Virginia's ranking elected official in Washington D.C., will address Richard Bland College's eighth graduating class June 5.

A record listing of 89 tentative graduates has been announced by Registrar Sylvia McIvor. Last year's class of 54 was the highest previous figure since the first graduation in 1963 with 16. Classes end May 21. Exams will be held May 23-30.

MITCHELL JAMIESON
 HERE FRIDAY NIGHT

Mitchell Jamieson, an innovator in the field of projected media, will give a special demonstration of his unusual art form Friday, May 8.

He will speak on "Light as a Creative Medium," at 8:15 p.m. in the Botetourt Gallery of Swem Library. The program is being sponsored jointly by the Fine Arts Department of the College and the Twentieth Century Art Gallery.

Jamieson, an accomplished artist and well known art educator, will demonstrate some of the methods which he has developed in recent years, "as an extension of painting and drawing." With the use of projectors, slides, films, original drawings and other objects, Jamieson will hint at the scope of the exciting projects he has conceived in the Washington, D. C. area. One of these was the highly experimental "Making Light of It," produced in 1968 at the Lisner Auditorium of George Washington University. Jamieson's "Pacifiamerica," was sponsored by the National Gallery of Art; and "Epoxylips '69 RPM," was conducted as part of the Maryland University Summer Arts Festival in 1960.

An associate professor of Art at the University of Maryland, Jamieson studied at the Corcoran School of Art, in Mexico at the Escuela de Bellas Artes; with fresco painter Olle Nordmark in Washington; and in Italy and France. He won Guggenheim Foundation Fellowships for Creative painting in 1947 and 1948, following service as a U. S. Navy artist in World War II.

He has received many commissions during his career, including a series of water-colors for President and Mrs. Franklin D. Roosevelt; paintings and drawings for the National Aeronautics and Space Administration; murals for the Department of the Interior and the General Accounting Office in Washington and murals for several post offices. He received the gold medal award from the Art Directors Club of Washington last year and has his work in the collections of many leading museums.

Friday's program has been arranged by the Virginia Museums.

PHYSICS COLLOQUIUM

Friday, May 8, 4:30 p.m. (Coffee at 4 p.m.)
 William Small Physical Laboratory
 Coffee in Conference Room
 Colloquim in Room 109

Speaker: Neil Heiman, The Johns Hopkins University

Subject: "Radiofrequency Perturbations to Mossbauer Effects Systems."

INSTITUTE ADVISORY COUNCIL
ELECTS NEW OFFICERS

Clarence L. VerSteege, professor of history at Northwestern University has been elected chairman of the Advisory Council of the Institute of Early American History and Culture, the research and publication organization sponsored jointly by the College and Colonial Williamsburg.

Director Stephen G. Kurtz also announced that Dr. Edward M. Riley of Colonial Williamsburg, Inc. and Professor Jack P. Greene of the Johns Hopkins University will serve as vice chairman and secretary, respectively. The Institute's annual meeting was Friday.

New members elected to the Institute Council for three-year terms are: Mr. C. Waller Barrett, Charlottesville; Dr. Whitfield J. Bell, American Philosophical Society; H. G. Jones, North Carolina Commission of Archives; Leonard Levy, Claremont Graduate School; and Piers Mackesy, Oxford University.

Professor VerSteege will serve as chairman of the Council's executive committee, along with Dr. Lyman H. Butterfield, Jack P. Greene, Edmund S. Morgan and Bradford Perkins. Carlisle H. Humelsine, President of Colonial Williamsburg, Inc. and President Davis Y. Paschall, will serve ex officio.

DR. BALDWIN REPORTS
IMPORTANT GIFT TO COLLEGE

The most important collection of plants ever acquired by the College of William and Mary, according to Professor J. T. Baldwin, Jr., was established on the grounds during the last week of April. The plants are gifts from the renowned Longwood Gardens in Pennsylvania and from Robert T. Sessions, M. D., alumnus of the College in Marietta, Georgia. Henry J. Hohman, well-known plantsman at Kingsville, Maryland, supplied most of the plants.

Especially well represented are spruces (twenty-seven kinds) and firs (fifteen types). The spruces are in front of Phi Beta Kappa Memorial Hall; the firs, north of Barrett Hall. A weeping white pine from Longwood Gardens planted near Millington Hall deserves notice.

These trees will add to the beauty of William and Mary and contribute to the education of visitors and students for many years.

TWO STUDENT HONORS EXHIBITS
NOW ON DISPLAY AT ANDREW

Currently featured in the Fine Art Building exhibition gallery are two exhibits. Two senior student Honors exhibits of sculpture and paintings by Nancy Shea, Virginia Beach and George Anne Devilbiss, Falls Church, on display. Also featured in the gallery is a collection of Contemporary Japanese Prints from the Virginia Museum of Art. The gallery is now open every afternoon until 5:00.

A SALUTE TO MISS TINKER

When a group of British barristers were being entertained in Phi Beta Kappa Hall one afternoon, one remarked that the tea was the finest he had tasted in America.

"Where did you learn to make tea like this?" he inquired of Miss Rebecca Tinker, who supervises food services on campus.

"I received instructions from a Lady-in-Waiting to the Queen," she answered.

Serving high tea to European royalty, banquets to campus groups and visiting VIPs, box lunches to returning alumni at Homecoming, an Oriental dinner, a picnic supper for 1,600 and an Hawaiian luau are part of a year's work for Miss Tinker, who has been looking after the "inner man" on campus since 1952.

She has served Queen Elizabeth II and Prince Philip high tea; luncheon for a Queen Mother in the College's historic Wren Building; and high tea for the visit of King Paul and Queen Fredericka of Greece during their visit to the campus.

"I've got to admit you don't get training in school for those sort of things," she remarked.

It was during the visit of the reigning British Queen that she received instructions for tea-making-- a teaspoon of tea for each cup, freshly boiled water, a pre-heated china pot and the tea strained through a cheesecloth into a warmed serving pot.

As general manager for Crotty Brothers, Inc. in Williamsburg, the firm which contracts for William and Mary dining services, Miss Tinker supervises meals for the campus community and caters special banquets and dinners with a staff of 175 employees including 30 students. Her managers include Mrs. Walter Martin, Wigwam; Mrs. Gladys Mason, the Commons; and Frank Crump, main dining room. Fred Polash is assistant to Miss Tinker and her "right hand arm in the office" is Mrs. Alma Schell.

In an attempt to sustain interest in cafeteria food, she has instituted several special meals which have special appeal. This week, supper will be served in old-fashioned picnic baskets. Beneath a colored napkin on top will be fried chicken, ham and cheese sandwiches, pickles, olives, a brownie and an apple, plus beverage. Over 2,000 baskets have been made-to-order in Franklin, Va., for the occasion.

Beef Teriyaki and Shrimp Tempura were featured on a recent Oriental Night in the dining halls. Special door prizes were given and each student received chopsticks as favors.

Miss Tinker wore a Western outfit and kerchief for a Frontier Day dinner; servers wore cowboy hats and the dining halls were decorated with cider barrels and bales hay.

-Welfare Week-

Over a hundred students took part in a special "Welfare Week" menu in November to emphasize the plight of families living on welfare funds. Miss Tinker obtained menus from the U. S. Department of Agriculture and the Extension Division and for four days fed students in the Old Wigwam the kind of fare poverty families might eat.

A typical day's menu during that week included tomato juice, grits, one egg and coffee for breakfast. Lunch was split pea and ham soup, crackers, french bread and butter, cinnamon bread pudding and a beverage. Dinner consisted of a meat and potato burger, steamed cabbage, bread and butter, scalloped apples and milk.

As one participant put it, "It is not hunger exactly; just a feeling of not having eaten as well as usual. Probably it's all in the mind."

Asked about the extra work involved in special meal planning Miss Tinker is quick to reply, "What am I here for?" Obviously someone who enjoys her chosen career in foods, Miss Tinker works with a student-administration committee to effect changes in campus meals and greater flexibility in dining schedules to better suit the needs of the students. She has no illusions, however, about the odds on pleasing all the people all the time.

She recalled watching a student scan the ten sandwich varieties offered for lunch one day. He shrugged his shoulders after a few minutes sighed about the lack of choice and moved on.

-New Hampshire Graduate-

A graduate of the University of New Hampshire with a degree in Institutional Economics and Deitetics, Miss Tinker began working her first job in Framingham, Mass. at the reformatory for women. After that she worked at Bates College and left there to join the Women's Army Corps. At Fort DesMoines, Iowa she helped train cooks and bakers.

"Some of the girls would come in in the morning having never been in a kitchen in their life. By night they were cooking for 350," recalled Miss Tinker.

Back to graduate school after service, Miss Tinker earned an MBA at the University of Chicago in restaurant administration. Her first assignment with Crotty Brothers was at Fort Devons, a post war affiliate of the University of Massachusetts, where she cooked for 1600 ex-soldiers. Before coming to William and Mary she worked at Stetson University in Deland, Fla., and Wofford College in Spartanburg, S. C.

Miss Tinker is an active member of the Soroptomist Club and after work hours she finds great satisfaction in her doll collection. She has collected over 150 dolls made clothes for many, repaired some and is currently furnishing a doll house for a grand niece who is expected back from Hawaii soon.

VARSIITY BEATS ALUMNI

At the annual varsity-alumni football game held May 2 at Todd Stadium, the varsity scored a clear-cut victory over the alumni 36-13.

The varsity scored three touchdowns in the first quarter and two in the fourth, and failed to be ruffled by a surprising substitution call by the alumni at the outset of the game.

CIRCLE K WINDS UP YEAR
OF SERVICE AT PICNICS

Williamsburg:-- Members of Circle K at the College of William and Mary will wind up their community projects for the current school year with picnics at the Peninsula Boy Scout camp for all who have been involved with the Chickahominy and Mooretown child-care and recreational programs.

College students and the children and their parents from the Chickahominy area have been invited to a picnic Saturday afternoon. On May 10 volunteers and the children and families of the Mooretown area will be feted.

Over 200 students from the campus have been working with the two community projects, part of Circle K's "Higher Achievement Program."

In the Chickahominy area, Circle K has organized the staffing of a day care center for area children in the Masonic Hall adjacent to the Chickahominy Baptist Church. A Saturday morning program of tutoring for school age children has been carried out most of the year as well as a Saturday afternoon recreational program.

Mini-Vista, another campus service organization, is currently building a permanent home and playground for the day care center across from the Chickahominy church. Students cleared the land and put in the foundations of the building during spring vacation.

In Mooretown, an afternoon child-care center has been set up in Frazier's Shop, the meeting place of the community. A Sunday recreational program has been started here and Circle K members and volunteers have used the bus, bought with Campus Chest funds, to take children on trips to Yorktown and Jamestown and bring them into the campus for games on the playing fields.

Several donations from local residents have been made to Circle K and food for children at the child-care centers has been given by the James River Community Action Agency. Local churches have provided lunches for students who have worked a full day on Saturdays, tutoring in the morning and participating in the recreational program in the afternoon.

Jeff Shy, Birmingham, Mich., is president of Circle K on campus and was recently elected District Governor of Circle K. The club is sponsored locally by the Williamsburg Kiwanis Club.

HARRIERS BRING HOME
FIFTH CONSECUTIVE CROWN

William and Mary romped to its fifth straight Southern Conference track title Saturday at Fort Eustis.

The Indians won 13 first places in 18 events and a record-shattering total of 116 points to 53 1/2 for runner-up Furman. East Carolina was third with 52 1/2.

"Most outstanding athlete" award went to Howell Michael who won the mile in an impressive 4:05.2 after capturing the 3,000 meter steeplechase on Friday's opening-day program.

ANCIENT LANGUAGES

Professor J. W. Jones has been appointed managing editor of The Classical Journal.

Dr. Lewis Leadbeater was a member of a panel on "Is There a Crisis in College Foreign Language Requirements?" at the ninth annual Foreign Language Conference held at the Chamberlin Hotel, April 24-25, and sponsored by the Foreign Language Service of the State Department of Education, Division of Secondary Education.

BIOLOGY

Dr. Jarid A Simons has received a small grant from the Research Corporation to support his research on the induction of ϵ -Aminolevulinic acid synthetase in developing chick liver.

The funds will provide a summer fellowship for Robert Cusworth, a senior Honors student, who plans to attend medical school at the University of Rochester in September.

Working with 13-day old chick embryos, Dr. Simons is studying biochemical changes in the brain in the disease porphyria. By inducing chemical changes in the liver of the chick embryo, Dr. Simons is mimicking the disease in order to determine the relationship of an excess of enzyme in the liver to disturbances in the metabolism of the brain. He expects to conclude this work this summer.

Recent publication:

C. P. Mangum and M. R. Rhodes (1970) The taxonomic status of quill worms genus Hyalinoecia Malmgren (Polychaeta: Onuphidae) from the North American continental slope. Yale Peabody Museum Postilla No. 144. 13 p.

Mr. Rhodes, a member of the class of 1968, is presently a graduate student at the University of Wisconsin.

Dr. Donna Eggers Ware, curator of William and Mary's herbarium, has been awarded a National Science Foundation summer post-doctoral fellowship through Highlands Biological Station, Highlands, North Carolina, to study the flora of Thompson River Gorge in the Southern Appalachian Mountains. This will be the second summer Dr. Ware has participated in the Biological Station's large-scale study of the biota of the Southern Highlands, the home of many rare and unusual plants and animals. The plant specimens Dr. Ware collects this summer will be deposited in the William and Mary herbarium.

CHEMISTRY

F. G. R. Gimblett, Visiting Research associate Professor of Chemistry, visited Purdue University, Lafayette, Indiana on April 16th where he gave a seminar to graduate students in Inorganic Chemistry on his current research in the solution chemistry of polymeric hydroxides.

During the last week in May Professor Gimblett will be attending the joint meeting of the American Chemical Society and Canadian Institute of Chemistry in Toronto, Canada and will also visit and give seminars at the University of New York at Buffalo and at McGill University in Montreal.

Professor Gimblett will be returning to his post at the Department of Chemistry, Brunel University, London, England at the end of June.

ENGLISH

Dr. Frank B. Evans' article "The Concept of The Fall in Sidney's Apologie" has appeared in Renaissance Papers 1969, published by the Southeastern Renaissance Conference.

Albert Labriola's article "The Doctrine of Charity and the Use of Homiletic Figures in the Man of Law's Tale" will be published in the spring issue of Texas Studies in Literature and Language. Another article, "Divine Urgency as a Motive for Conduct in Samson Agonistes," will appear in a forthcoming issue of Philological Quarterly.

In October 1969 Professor Labriola was named to the staff of Seventeenth-Century News, which is a quarterly journal sponsored cooperatively by New York University, the University of Rochester, and Pennsylvania State University. SCN is the journal of the Milton Society of America and the Milton Section of the Modern Language Association; it publishes short articles, notes and queries, book reviews, and abstracts of published work.

At the past meeting of the Modern Language Association in Denver, Professor Labriola was commissioned by the Board of Editors of the forthcoming Milton Encyclopedia to write essays for that projected publication. In his essays he will discuss the possible influence of certain Italian Neoplatonists, such as Baldassare Castiglione and Pietro Bembo, on Milton's conception of Neoplatonism and his use of Neoplatonism, particularly in formulating a doctrine of love. Professor Labriola will also write on Milton's "An Epitaph on the Admirable Dramatic Poet W. Shakespeare," which first appeared in the Second Folio of Shakespeare's Plays (1632). The Milton Encyclopedia will be published by the University of Wisconsin Press, probably in 1972.

SHELLED FLESH, a chapbook of Bruce Guernsey's poetry published by The Back Door Press, is now on sale in the College Bookstore.

Scott Donaldson has been awarded a Fulbright-Mays grant to lecture in American literature next year (1970-71) at Turku, Finland. Professor Donaldson will divide his time between two universities there: Turku University (Finnish) and Abo Akademi (Swedish).

FINE ARTS

Carl A. Roseberg attended the three-day Sixth National Sculpture Conference held at the University of Kansas last week. Approximately eight hundred serious sculptors and sculpture students from all parts of the United States and Canada attended the Conference.

GEOLOGY

Dr. Bruce K. Goodwin has been appointed by the State Board of Education to serve as an evaluator of textbooks in Earth-Space Science for the Textbook and Curriculum Committee of the State Board.

Dr. Theodore R. Reinhart, will undertake archeological research problems in the Southeastern section of the United States and Guatemala this summer and during the fall semester.

Dr. Reinhart will be on the staff of the School of American Research in Santa Fe, New Mexico, this summer. The school, a private anthropological research organization, has received a grant of \$26,000 from the National Geographic Society, with additional money from the National Park Service and the Grand Canyon National History Association, to undertake its fourth and final year of archeological excavations in the Grand Canyon and on its north rim.

Last summer he supervised the excavation of a large Indian ruin, dating from about A. D. 1100, on the north rim. This year he will concentrate on earlier pre-historic sites in the same area. These sites, about 2000 years old, were discovered only last summer and represent the earliest known occupation of the north rim of the canyon by man.

Professor Reinhart will also be on leave of absence during the fall semester and will be studying in Mexico and Guatemala under the college science improvement program, made possible by a grant to the College by the National Science Foundation. His major interest is concerned with the relationship of archeology and nationalism in these countries. Reinhart sees many parallels between the restoration of Colonial Williamsburg and the restoration of the great Mesoamerican pre-Columbian ruins in relation to their respective national cultures.

HISTORY

Richard Maxwell Brown delivered the banquet address at the 40th annual meeting of the South Carolina Historical Association in Charleston, South Carolina, on April 24, 1970. The subject of his address was "White and Black in Eighteenth Century South Carolina."

Richard Maxwell Brown's article, "Violence in American History," appeared in Violence, edited by Warner Moss, the published edition of the lectures delivered in the Marshall-Mythe Symposium, 1968.

MODERN LANGUAGES

Dr. Luke Martel spoke on "Explaining the French in the American Classroom," at the ninth annual Foreign Language Conference held at the Chamberlin Hotel, April 24-25 and sponsored by the Foreign Language Service of the State Department of Education, Division of Secondary Education.

PHYSICS

Several members of the Physics Department attended the meetings of the American Physical Society in Washington, D. C., 27 - 30 April. The following papers were presented by faculty and graduate students of the department:

Strong Interaction Broadening of the 2P Levels in Pionic Li⁶, Be, C, and O.

W. W. Sapp, M. Eckhause, G. H. Miller, and R. E. Welsh
Bull. A. Phys. Soc. 15, 559 (1970).

Gamma Rays from C¹¹ and B¹¹ from π^- scattering on C¹²

B. J. Lieb, H. O. Funsten (College of William and Mary), and W. F. Lankford (George Mason College)
Bull. Am. Phys. Soc. 15, 596 (1970).

Nuclear De-excitation γ -rays from ¹⁴N Following π^- Capture on ¹⁶O.

W. J. Kossler, H. O. Funsten (College of William and Mary), and
B. A. Macdonald (Virginia Polytechnic Institute)
Bull. Am. Phys. Soc. 15, 596 (1970).

Absence of Motional Narrowing in the Proton NMR in K₂PO₄ at High Temperatures.

J. Y. Nicholson, III, and J. F. Soest
Bull. Am. Phys. Soc. 15, 606 (1970).

Muonic X Rays in Ce¹⁴⁰.

P. Martin, G. H. Miller, P. E. Welsh (College of William and Mary),
D. A. Jenkins, R. J. Powers (Virginia Polytechnic Institute), and
R. Kunselman (University of Wyoming)
Bull. Am. Phys. Soc. 15, 559 (1970).

Muonic X Rays in Pb²⁰⁸.

D. A. Jenkins, R. J. Powers (Virginia Polytechnic Institute), and
P. Martin, G. H. Miller, P. E. Welsh (College of William and Mary)
Bull. Am. Phys. Soc. 15, 560 (1970).

H. O. Funsten presided over the session on "Medium Energy Nuclear Physics."

PSYCHOLOGY

Professors Peter L. Derks, E. Rae Harcum, Virgil V. McKenna, Glenn D. Shean, and Larry Ventis attended the meetings of the Southeastern Psychological Association in Louisville, Kentucky, April 24-26.

Professors Derks and Harcum participated in a symposium on "Human Short-term Memory". Professor Harcum spoke on "Subject Strategies in Differential Short-Term Memory," and Professor Derks served as discussant for the symposium.

Professor McKenna presented a paper on "Studies of Purpose-in-Life" in the personality section.

Professor Shean presented a paper on "Applications of Group Reinforcement Contingencies with Chronic Psychotics" in the section on Behavior Modification. Co-author of this paper was Zeena Zeidberg, an M. A. Graduate of the College now at the Atlanta Regional Hospital.

SOCIOLOGY

Criminal Behavior and Social Systems: Contributions of American Sociology, edited by ALG of the Department of Sociology, has just been published by Pand McNally.

A collection of papers on criminology, the volume covers such traditional topics as criminal statistics, the differential association theory of crime, and correctional systems, in addition to newly-emerging topics like law enforcement, criminal behavior systems, and the sociology of law.

SCHOOL OF EDUCATION

On April 25, Dr. S. Stuart Flanagan spoke at the Spring meeting of the Tidewater Councils of Teachers of Mathematics. His talk was entitled, "Mathematical Induction But You Choose the Axiom".

On April 21, Dr. S. Stuart Flanagan presided at the Spring meeting of the Greater Richmond Council of Teachers of Mathematics. This completed a two year term as president of that organization.

Dr. James D. Cowles attended the Southeastern Conference of the Society for Research in Child Development held in Athens, Georgia April 22-25. He presented a paper entitled "Phase II: An Experimental Study in Visual Perception Training with Certain First Grade Children".

MARSHALL WYTHE SCHOOL OF LAW

Professor E. Blythe Stason, Jr. attended the annual meeting of the American Society of International Law in New York April 22-24.

Professor Stason also is organizing and has obtained sponsorship of the American Society of International Law for a regional symposium of Problems of International Antitrust Law, to be presented at the Marshall-Wythe School of Law next autumn.

Professor William F. Swindler has been advised by his publishers, The Bobbs-Merrill Co., that the second volume of his Court and Constitution in the 20th Century will be published by mid-summer. It is subtitled, The New Legality, 1932-1968. The manuscript for the third and final volume, The Constitution of the United States: A 20th Century Interpretation, will go to the publishers this fall.

Professors Stason and Swindler will attend the annual meeting of the American Law Institute in Washington May 18-21. Professor Stason will attend the luncheon of the National Conference of Judicial Councils, to which he was recently elected, Chief Justice Warren E. Burger being the luncheon host.

An article by Professor Stason, on international aspects of anti-trust law, is scheduled to appear in the October issue of the George Washington Law Review.

Four members of the Law School faculty will deliver papers at the two-week Summer Tax Course being sponsored jointly by the Law School and the Tax Executives Institute June 14-26. Professors John E. Davies and Don W. Llewellyn will conduct a session on "Capital Gains;" Professor John E. Donaldson will discuss "Researching a Federal Tax Problem -- How to Find the Law;" and Professor Emeric Fischer will discuss "Tax Accounting Techniques."

Professor Thomas H. Jolls was one of five panelists at a New York seminar May 1 sponsored by the national accounting firm of Lybrand, Ross Bros. & Montgomery. His topic for a participating group of eighty attorneys was "The Uniform Commercial Code and the Certificateless Society."

Professor Jolls is chairman of a subcommittee of the American Bar Association on the Uniform Commercial Code, which reported on important 1969 judicial interpretations of Article 8 of the Code, in the April issue of The Business Lawyer.

BIOLOGY DEPARTMENT ADD

C. Richard Terman presented a paper on April 21 on "The Sociobiology of Population Control," as part of Population Day in Earth Week at the University of Virginia. On April 27 and 28 Dr. Terman gave three lectures at Wheaton College, Norton, Mass., on different aspects of population ecology.

CLASSIFIED AD

*Married graduate student desires small
apartment for summer or year-round rental.
Please call Mrs. Bland Hoke 229-7404*
