TOP TUNE

Stereo ... by WURLITZER

# Some "common" things about our highly uncommon phonographs

We like to chant and rave about our "new and different" features as much as anybody. But we also know that it pays to have some common things in our phonographs, too. "Common" in terms of interchangeability from one unit to the next.

For example, this year, instead of making two separate receiver units for our four new phonographs, we're making only one easy-to-interchange receiver . . .

which means simplified servicing, and less inventory costs for everyone concerned. The same thing goes for the full-dimensional speaker system, Mech-O-Matic changer, "money-counter," tone arm assembly . . . in fact, virtually every component

is interchangeable. How about that for top versatility!

It is this kind of design and engineering which has made it common knowledge that Rock-Ola is the big name for top profits!

See the new Rhapsody II and Capri II now at your Rock-Ola Distributor's.
