James Atkinson to

Col. [Archibald] Woods

Folder 1075-

Sir: I wish you would take the shortest  
that I am putting in the mill as I must  
leave your plantation I wish to have every  
thing settled up the first of July and  
to know no difference between us I wish  
you would not make water with us for  
as much as you seem to do for  
I know so much will bring money as soon  
I think what thing and as for work of any  
as my other part as good as money as you  
kind I found it as good as money here so  
the rules and Statute of your part here so  
that as to make out all that I could  
I will come down and try and settle off  
before I move away in some but in some  
your Respectful friend James Thomson

To Genl Woods: 25<sup>th</sup> March 1819
