 Mr Bucktrout

U. S. Schooner Experiment
 Norfolk. 19th July 1833.

Dr George.

I have just time left to drop you a
 line to inform you it is entirely out of my power to come
 up in the morning as I intended, being compelled to remain
 here on business - I send you a beautiful Guard Ac-
 cused yesterday from New York, woven by the fair
 hands of our dear little Clara, as a token of her
 love and friendship for you - with her kindest re-
 gards & love for yourself and all the family - I trust
 my dearest Brother you will wear it for her sake,
 and when you can find time, it would be pleasing
 to her as well as gratifying to me, if you would
 acknowledge the receipt of it by a line or so to
 her - The President is to arrive at Old Point to-
 morrow - I send by Mr Bucktrout a bundle for
 Ma, in which I shall put your guard. Love
 to Cothe & all the family - All here desire to be
 remembered to you. In haste your ever affec-
 tionate Brother
 P. A. Southall
