Herrmann Appointed Director of Institutional Research

D. J. Herrmann, an administrator and faculty member at the College for more than 20 years, has been appointed the Director of Institutional Research.

The appointment, effective immediately, was announced by President Thomas A. Graves, Jr., who said the new institutional research program will play a vital role in decision-making processes in the future.

"The increased size of the College, and the increasingly complex procedures now required in all academic administration, make it imperative that responsible College officials have readily available to them adequate and trustworthy data upon which to make decisions and plan an orderly future," Dr. Graves said. "The need for an Office of Institutional Research is generally recognized and stressed by the Southern Association of Colleges and Schools."

The Office of Institutional Research will be responsible to the Executive Vice President as a College-wide function.

Mr. Herrmann, who was Dean of Continuing Studies from 1968 until that program was reorganized with Board of Visitors approval last week, has been a member of the School of Education faculty since 1951.

A native of Lee, Illinois, he holds degrees from Northern Illinois University and Michigan

State University. At William and Mary, he was promoted from assistant to associate professor in 1955, and to full professor in 1963. He became director of the Summer Session in 1956, was director of counseling in 1957-58, became director of extension in 1959 and served as coordinator of two-year colleges in 1962. He became director of the Evening College in 1965, and Dean of Continuing Studies in 1968 when that position was created to administer all continuing education activities.

He is a member of the American Personnel and Guidance Association and has been president of the Virginia unit of that association. He is also a member of several other organizations in the field of guidance, the American Council on Education, the Association for Higher Education, the National Education Association and Phi Delta Kappa.

The office which he heads will serve as a data coordinating center for reporting to outside agencies, and also will make studies and analyses in such areas as financial operations, student enrollment, teaching loads, space utilization and related fields. The office will have a direct relationship to long-range planning activities at William and Mary.

Applied Science Receives Grant

The Applied Science Program on campus has received a grant of \$98,400 from the National Aeronautics and Space Administration.

The third NASA grant to be awarded the Applied Science Program in the past two years, the new award will be step-funded over the next three years. In February, 1971, and February, 1972, NASA grants of \$100,000, similarly step-funded, were given to the program. Both grants of \$100,000 were awarded through the Washington Office of University Affairs while the newest one came from the Langley Research Center.

According to Arden Sher, director of the Applied Science Program, the bulk of the new grant will be used in support of research in the fields of computer science, atmospheric science and material science.

The Applied Science Program at the College is an interdisciplinary program which leads to an M.S. degree.

English Orients Carter to Campus

Robert English

The retiring Vice President for Business Affairs was honored Friday by the College's Board of Visitors.

Robert T. English, Jr. was cited for his "wisdom, energy and loyalty...and for his valuable guidance in complex budgetary and financial affairs," in a resolution adopted by the Board at its meeting here. He was also the guest of honor at a dinner, where he received several gifts in recognition of his retirement.

English will step down September 30 after 12 years as the College's chief business and financial officer. He will be succeeded by William J. Carter, formerly business manager and associate treasurer at Hollins College.

The resolution in honor of English said, in part:

"His years at the College have been of a character to challenge his talents as a topflight executive, a challenge which he has met in every respect. He has been responsible for executing the largest capital outlay program in the College's history, which has included the construction of an entire new campus.

"The growth in enrollment, staff and facilities during these years has been impressive, and Mr. English has applied his outstanding ability to stretch the always elusive dollars to maximum productivity. His colleagues in the financial offices at the

State Capitol and in other institutions hold him in great esteem, a relationship which reflects the calibre of his performance in building understanding and support for William and Mary's advancement."

William Carter

William J. Carter, the new Vice President for Business Affairs, comes to the College from Hollins where he has been business manager since 1963, and since 1970 associate treasurer as well.

He is a graduate of Hampton High School and holds the degree of bachelor of science in business administration from the University of Richmond and the master of science in business administration from New York University.

He also has the certificate from University of Kentucky's College of Business Management Institute.

Prior to joining Hollins, Mr. Carter spent eight years in management of retail department store operations. He is married to Virginia L. Carter, an alumna of Westhampton College who has been Director of Information and Publication at Hollins since 1965. Mrs. Carter is currently Editorial Consultant for the University of Richmond.

Mr. and Mrs. Carter have two daughters and make their home on Foxcroft Road.

DONALD HERRMANN

Reception for Juniors

President and Mrs. Thomas A. Graves, Jr., cordially invite all juniors to a reception at the President's House on Sunday, October 1 from four to six p.m.

Official Memoranda

STUDENT HEALTH SERVICE FEE

Last spring, notice was circulated among parents and students of an increase in the Student Health Service Fee from \$26 to \$50 per year, based upon our plans to employ fulltime physicians effective this September.

A committee established for the purpose of selecting the full-time physicians has been actively at work since last April, and is continuing interviews with candidates. Despite the efforts of that committee, however, it has not been possible to move to the fulltime program this fall. It is our hope that we will be successful in implementing the plans by the opening of the second semester.

The Board of Visitors, on recommendation of the administration, has reviewed the fee situation and at its meeting this week took into account the absence of fulltime service this first semester, and authorized a reduction in the second semester Student Health Service Fee from \$25 to \$10, making a total charge for the school year of \$35.

Student bills for the second semester will reflect this action.

Signed: J. W. Lambert
Vice President for
Student Affairs

Title Changes Announced for Hamilton, Reid and Tillotson

With admission to the College open equally to men and women, and with the Admissions Office increasingly assigning administrative responsibility without regard to the sex of the applicant, the Board of Visitors recommended that the present titles of "Director of Admissions for Men," and "Director of Admissions for Women," be changed to reflect changed and actual circumstances.

The title of Miss Harriet E. Reid, therefore, has been changed from "Director of Admissions for Women," to "Associate Dean of Admissions," and the title of Rex Tillotson has been changed from "Dean of Admissions for Men," to "Associate Dean of Admissions."

Both changes are effective immediately.

Margaret L. Hamilton, professor of government and senior member of the department in term of service to the College, has been named John Marshall Professor of Citizenship and Government, by the Board of Visitors.

One of the conditions of the College's acceptance of the Cutler Trust in 1926 was that an appropriately qualified member of the faculty be designated "John Marshall Professor of Government and Citizenship." Until his retirement this year William Warner Moss held this chair which is now vacant. The appointment is effective immediately.

New Office to be Established

A new Office of Special Programs will be established to develop and carry out a variety of new and existing adult educational programs, many of them experimental and innovative.

Establishment of the new office, and creation of a new post of Director of Special Programs, was approved by the College's Board of Visitors.

The new venture will serve adults in the Tidewater area of Virginia and will incorporate non-credit seminars and short courses now offered by the College through its Virginia Associated Research Campus in Newport News, as well as those on the Williamsburg campus.

The Board, in its resolution creating the new program, said that "there is a further need for the initiation and administration of special educational programs for adults of a much greater variety and magnitude than can be presently provided. The new Office of Special Programs is being created to respond to this need and demand, and to allow the College of William and Mary to be of maximum service to the adult population of the Tidewater area of Virginia.

"It is anticipated that the courses, seminars and programs initiated and offered by the new Office will utilize the faculty of the College in a variety of innovative and experimental offerings of particular interest and appeal," the Board said.

In taking the action, the Board stipulated that the new office would be responsible to the Vice President for Academic Affairs, as are the Evening College and Summer School programs.

The continuing studies activities of the College were consolidated this year on the Williamsburg, VARC and Christopher Newport College campuses, and the Extension Division was phased out. This resulted in the disestablishment of the School of Continuing Studies as a separate administrative entity, a step also approved by the Board of Visitors today. The Office of Special Programs will allow the College to carry on and expand many of the services of the School of Continuing Studies.

Richard Bland President Sought

A six-member search committee has been appointed by the Board of Visitors of the College to help find a successor to James M. Carson as president of Richard Bland College.

Colonel Carson, who has been chief executive of the two-year Petersburg college since its establishment in 1960, announced last Wednesday that he would retire August 31, 1973.

The search committee will include James E. Kilbourne of Petersburg, a member of the Board; R. Harvey Chappell, Jr. of Richmond, rector of the Board; George R. Healy, Vice President for Academic Affairs at William and Mary; Cornelis Laban, associate professor of biology at Richard Bland; Kenneth Jefferson, president of Richard Bland's Student Government; and James C. Pattenon of Richmond, immediate past president of the Richard Bland College Alumni Association.

Colonel Carson, who had been professor of military science at William and Mary for four years prior to assuming directorship of Richard Bland, made his announcement to members of his faculty and later at a luncheon of Petersburg civic leaders and the press.

Dr. Thomas A. Graves, Jr., President of William and Mary and Mr. Healy were present for the occasion and spoke of the important contributions that Colonel Carson has made during his leadership of Richard Bland.

Holidays

In October there are two legal holidays for permanent classified State employees: Columbus Day and Veterans' Day.

In accordance with the holiday schedules as revised by the 1970 General Assembly, Columbus Day falls on Monday, October 9, and Veterans' Day on Monday, October 23.

According to I. H. Robitshek, director of personnel, these two holidays should be given, as far as practicable, to members of each department. "It is recognized that certain services must be maintained in the various departments, but these services should be furnished on the holiday by a minimum number of employees. The responsibility for determining the number of employees rests with the department head. It is not a decision to be made by the employees of the department," he stated.

A leave slip should be submitted to the Personnel Office for any permanent classified employee who takes leave on either of these two holidays. Permanent classified employees who are required to work on either of these holidays should take the compensatory leave earned as soon thereafter as possible in order to avoid leave accumulation. Hourly employees who work on either of these two holidays will be paid at their regular hourly rates, according to Mr. Robitshek.

Tuesdays

Philosophy Dept. Presents Film

The Philosophy Department will present Rossellini's "Socrates" this evening in Millington Auditorium at 3:30 and 8 o'clock. There is no admission charge.

The events in the film cover the period from the Spartan Conquest of Athens in 404 B.C. to the death of Socrates in 399 B.C.

President Graves Attends Meeting

President Graves is out of the city today attending the General Professional Advisory Committee meeting in Richmond. Tomorrow he will be back in town to have lunch with the City Council.

Tournament Date Changed

The date of the Second Annual Tennis Tournament has been changed from September 22, as reported in last week's paper, to September 29. A draw will be posted on Thursday, September 28, in the Adair Gym Lobby.

Students Affected by "Agnes"

The Office of Education announced that it has set aside \$3 million in college work-study and undergraduate scholarship grant funds to provide financial aid to students whose families were affected by tropical storm Agnes.

National Science Foundation

Support for Scientists, Engineers under Economic

Development Program - Under a special program funded by the Agency for International Development, the National Science Foundation will provide support for individual scientists and engineers to apply their experience to problems of development in 39 foreign countries.

Scientists and engineers from U.S. academic institutions with at least five years of postdoctoral experience in teaching or research are eligible for grants of up to \$15,000 under the program. Proposals will be considered in engineering, physical sciences, earth sciences, social sciences, biological sciences, and science education.

All proposals must be submitted by December 15, 1972.

The Fellowship Programme of the NATO Committee on the Challenges of Modern Society supports study of the problems of public policy in relation to natural and social environment. Competition open to any permanent resident or citizen of NATO member countries. Apply to: Fellowship Programme, Committee on the Challenges of Modern Society, NATO, 110 Brussels, Belgium.

NATO Sponsored Programs - NATO Fellowships in Science are open to nationals of all NATO member countries for studies outside their home country. The Division of Graduate Education in Science, National Science Foundation, Washington, D.C. 20550, administers two such programmes for citizens or nations of the U.S.: NATO Postdoctoral Fellowships in Science for early postdoctoral study and training - closing date, October 23, 1972; NATO Senior Fellowships in Science - travel and per diem for short terms (1-3 months) - closing date, January 31, 1973. For further information, contact Mrs. Neiman, ext. 519.

NATO Research Fellowships in the Humanities and Social Sciences for projects pertaining to historical, political, economic, and social problems, rather than to scientific questions, are available to candidates from all NATO member countries. Citizens of the United States apply to: Committee on International Exchange of Persons, Conference Board of Associated Research Councils, 2101 Constitution Avenue, Washington, D.C. 20418. Closing date - late fall.

500 New Graduate Fellowships for Spring, 1973 - The fellowships, available to citizens or nationals of the U.S. are awarded for full-time study leading to the master's or doctor's degree in science, including the social sciences, mathematics, or engineering. Deadline for applications - Nov. 27. Details and application materials can be obtained from Fellowship Office, National Research Council, 2101 Constitution Avenue, N.W., Washington, D.C. 20418.

Virginia Water Resources Research Center

Researchers at Virginia colleges and universities are reminded that proposals for matching grant funds to the Office of Water Resources Research must be in the hands of the Virginia Water Resources Research Center by October 10, 1972. Proposal format packages have been reproduced and are available on request to the Virginia Water Resources Research Center, 225 Norris Hall, Virginia Polytechnic Institute and State University, Blacksburg, Va. 24061. It should be re-emphasized that the October 10, 1972, deadline is absolute and cannot be extended under any circumstances.

National Aeronautics and Space Administration - Life Scientists Program

As many as five grants will be awarded to institutions for life scientists and their designated graduate students to conduct research relevant to NASA's interests and needs. The scientists and students will spend approximately one-third of their time at one of three NASA centers under initial three-year grants. NASA's work in the life sciences comprises research and technology development associated with medical, biological, behavioral and engineering sciences related to aeronautic and space operations. Detailed information may be obtained from Charles H. Carter, Code PY, Office of University Affairs, National Aeronautics and Space Administration, Washington, D.C. 20546.

National Endowment for the Humanities - Younger Humanists and Summer Stipend Awards

Fellowship applicants apply directly to the endowment, while applicants for summer stipends must be nominated by their employing institutions which may nominate two persons. The application deadline for both programs is Oct. 16. Application materials and additional information can be obtained from: Division of Fellowships, National Endowment for the Humanities, 806 15th St., N.W., Washington, D.C. 20506.

White House Fellowship - Special Call for Women!

President Nixon recently announced the opening of competition for 1973-74 White House Fellowships and an extra effort to find women applicants. The program was established in 1964 and annually selects a group of persons between the ages of 23 and 36 to receive first-hand, high-level experience in the Federal Government.

Applications for the next program will be accepted until December 15. Forms and additional information can be obtained from President's Commission on White House Fellows, The White House, Washington, D.C. 20500.

National Academy of Sciences - Science and Public Policy

The National Academy of Sciences has announced a new program of postdoctoral fellowships under a grant of \$250,000 from the Alfred P. Sloan Foundation. Approximately eight scientists each year will be selected to study aspects of science and public policy while participating in staff work of their choosing within the complex of the National Academy of Sciences, the National Academy of Engineering, the Institute of Medicine, and the National Research Council.

About four fellowships are to be awarded for the 1972-73 academic year and eight each year thereafter. Fellows will be chosen by a committee of the Academies upon recommendation by designated individuals.

Foreign Area Fellowship Program

The Foreign Area Fellowship Program is inviting applications for its fellowship competition for the 1973-74 academic year. The program provides support to advanced doctoral candidates at U.S. and Canadian universities for dissertation research in Africa and the Near East, East, South and Southeast Asia, Western Europe and Latin America and the Caribbean. Applications for doctoral dissertation research will be due by mid-November. Details may be obtained from Foreign Area Fellowship Program, 110 East 59th Street, New York, N.Y. 10022.

Faculty members desiring assistance with individual research proposals for federal support may contact Samuel Buckwalter, III, Director, Office of Grants and Contracts. For additional information on institutional proposals, please contact Stella Neiman, Director of Sponsored Programs.

Biology

Lawrence L. Wiseman published the following paper:
Lawrence L. Wiseman and Malcolm S. Steinberg (Princeton), "Experimental Modulation of Intercellular Cohesiveness: Reversal of Tissue Assembly Patterns," *Developmental Biology* 28:498-517.

Chemistry

C. Djordjevic, professor, presented a paper "Stereochemistry and Properties of Mixed-Ligand Complexes of Niobium and Tantalum" at the XIV International Conference of Coordination Chemistry which was held in Toronto, Canada, this summer. She also attended the conference on "Improving International Cooperation in Science," which was sponsored by NSF and WSU and held in Detroit, Michigan.

Government

Don Baxter attended the meeting of the American Political Science Association, September 6-7, in Washington, D.C., and acted as a participant (invited) in a Roundtable on Teaching Quantitative Methods in Political Science.

History

Philip J. Funigiello has signed a contract with the University of Pittsburgh Press to publish his manuscript, *Toward a National Power Policy: The New Deal and the Electric Utility Industry*.

Mathematics

P. V. O'Neil has had a book, *Fundamental Concepts of Topology*, published by Gordon and Breach, Science Publishers, Ltd., and a paper, "Generalized m-Series in Tree Enumeration," published in the *Journal of the Franklin Institute*, Vol. 294, No. 2, August, 1972.

Physics

John L. McKnight was a member of the Aspen Center for Physics from July 31 to September 5 in Aspen, Colo. At the Center, which brings together physicists from all over the country, each pursuing his own research, he continued research in the algebraic structure of the foundations of measurement in quantum theory.

E. A. Remler was a Visiting Scientist at Los Alamos, July 27 through July 30 and gave a talk on "Analysis of Intermediate Energy Proton-Deuteron Elastic Scattering Data." He attended the Aspen Institute of Physics during the month of August. He also attended the International Conference on Few-Particle Problems at U.C.L.A. and gave a paper.

The following papers have been published:

Reaction ${}^6\text{Li} (p, pd) {}^4\text{He}$ at 590 MeV and α -d Clustering in ${}^6\text{Li}$.

J. C. Alder, W. Dollhopf, W. Kossler, C. F. Perdrisat, W. C. Roberts, P. Kitching, G. A. Moss, W. C. Olsen, and J. R. Priest.
Phys. Rev. C 6, 18 (1972).

Elastic Scattering of 600 MeV Protons from H, D, ${}^3\text{He}$ and He.

E. T. Boschitz, W. K. Roberts, J. S. Vincent, M. Blecher, K. Gotow, P. C. Gugelot, C. F. Perdrisat, L. W. Swenson, and J. R. Priest.
Phys. Rev. C 6, 457 (1972).

C. F. Perdrisat spent from August 15 to September 2 at Los Alamos Meson Physics Facility, working on problems related to the monitoring of the proton beam for the High Resolution Spectrometer.

R. W. Shaw, Booz • Allen Applied Research, Bethesda, Maryland, will visit the Department and give a lecture series on "Relation Between Crystal Structure and Electronic and Optical Properties of Solids" Monday, October 2 through Thursday, October 5, 3 p.m., Room 126, William Small Physical Laboratory.

On October 5 the Department and the Applied Science Program will sponsor a lecture entitled "A Physicist goes to Washington" at 8 p.m. in Room 113, William Small Physical Laboratory.

Staff Notes

Swem Library -

Robert Stevick, assistant reference librarian, Charles Reeder, head, Audio-Visual Department, and Grace Swift, librarian, attended the Virginia Microfilm Association Second Annual Seminar in Fredericksburg. The seminar included lectures and exhibits, and some of the topics covered were "Archival and Film Permanence," "Micropublishing in the 70's" and "The Future of the Microfilm Industry and User Adaptation."

Book Dedicated to History Profs

Professor Robert F. Durden of Duke University, who held the James Pinckney Harrison Chair of History 1970-71, has dedicated his new prize winning book to members of the College faculty.

The Gray and the Black: The Confederate Debate on Emancipation, recently published by the Louisiana University Press carries the following dedication:

"This book is gratefully dedicated to my friends in the Department of History at the College of William and Mary, for my appointment there as the James Pinckney Harrison Visiting Professor of History in 1970-71 made possible the writing of *The Gray and The Black*."

Touch Football Set Oct. 1

The Bishop Madison Society, an old secret society of the College, has challenged the Administration to a touch football game Oct. 1 at 2:30 p.m. on the Phi Beta Kappa field. There will be no admission charge.

Coach S. Dean Olson, for the Administration, expects to field a "spirited" team. In view of the Administration's past record on the field against the Flat Hat, he said he felt the challenge from The Society could not be disregarded.

Leaving the "time and turf" at the discretion of its opponents, The Society reminded Coach Olson that The Society has not lost a game since 1812.

Both coaches expect October's game to become a classic. In response to a question regarding the propriety of a Sunday game for The Society, a spokesman for The Society said he had found precedence in an 1811 action of the Bishop when he excused a neighbor for filling his ice house on Sunday because there was no other available time for the task.

Rumor has it that the Bishop Madison Society was founded by General Winfield Scott and other of Bishop Madison's students. Bishop James Madison, 1777-1812, was eighth President of the College and first Bishop of Virginia.

The number of living members of the secret society is not allowed to exceed 22 - the number of years Madison served as Bishop of Virginia.

Society initiations are held by Madison's tomb in the crypt below the Wren Chapel. The Society is the custodian of the key to the steam tunnels that lead to the crypt.

Although the names of Society members remains closely guarded, black orchids at the wedding or funeral of a member serve as identification. A black bordered obituary with the picture of Bishop Madison inside also identifies all members of the Society whose obituaries appear in the Alumni Gazette.

Coming under attack in the late 60's as an "elitist" organization on campus, it went further underground and is emerging for the first time to play the Administration in touch football.

Society records indicate that it has never lost a football game. Its most recent victory was an 18-0 win in 1948 over the Meddie Bempsters of Bowdoin College.

Since many members of The Society are elderly, a number of non-member faculty will play for The Society on Oct. 1.

Mrs. Connelly's North Henry House

Mrs. Helen Connelly is busy evenings and nights getting an elaborate dollhouse ready for the Bruton Parish Church Biennial Christmas Bazaar to be held November 4. "Fantastic" is one way of describing the house.

What started out six years ago to be a simple dollhouse for her granddaughters, Billie, 9, and Bobbie, 7, has turned out to be a "child's dream come true" and something for everyone to see - regardless of age.

Mrs. Connelly has painstakingly built the house and most of its furniture with great love and affection. She recently "renovated" it by adding a left wing. The six-room house will be complete, when placed on display, down to the last detail. Included will be a chandelier with real wax candles, a quilt made from tiny calico patterned fabric purchased in Virginia Beach, bedspreads, a Bible, a grandfather clock that really works, an oriental rug purchased from a firm in New York, dressers with mirrors and drawers that open, and many, many other real-life articles.

The house will be decorated with a Christmas tree and wreaths at the window and holiday foods to denote the advent of the Christmas season. It will be wired for electricity in the near future.

The bathtub in the house has an unusual history. Mrs. Connelly found it in a souvenir shop in Virginia Beach. The tub, plus bikini-clad doll, was on sale as an ashtray. She dumped the doll and now has a footed, old fashioned tub, that fits in the decor of a cute little bathroom.

Several items in Mrs. Connelly's "North Henry House," a name chosen by Col. Warren Green for her "wonder" house, were discovered in an 1870 children's sewing practice book.

Friends from far and near are sending Helen Connelly all kinds of antiques to get her house ready for the bazaar. One friend did an oil portrait of the mistress of the house and promises to do fruit paintings for the dining room. Another gave her a small bowl brought from the Orient years ago.

Mrs. Connelly's family moved to Williamsburg from Mecklenburg County in 1928. She later left but returned to the city in 1942 to work for Colonial Williamsburg. Mrs. Connelly has been a member of the college staff since 1950. She is a member of Bruton Parish Church.

MRS. CONNELLY

SA News

Five members of the Student Association who make up the Liaison Committee to the Board of Visitors met with the Board during its meeting in Williamsburg this past weekend. Cornell Christianson, Andy Purdy, Bob Ranson, Dan Gepford, and liaison chairman Randy Gould each concentrated on a particular aspect of student life that they wished to have the Board of Visitors consider.

Gepford, who served as head Group Leader for freshmen, discussed Orientation and Registration procedures. Ranson, current chairman of the Board of Student Affairs, covered visitation policies, while Purdy, an editor of the Student Course Evaluation presented the case for the new "No Credit" grading system. SA President Cornell Christianson talked about both campus housing conditions and the prospects for a 4-4-2 academic calendar system. Christianson said that he was "hopeful" that this calendar could be implemented in some form for the 1973-74 academic year.

Ex-Board Member Festival Chairman

W. Brooks George, former Rector of the Board of Visitors, is chairman of this year's annual National Tobacco Festival.

For the first time this year, the festival parade will be telecast over WVEC-TV in Richmond, Friday, Oct. 27 at 7 p.m. The theme of this, the 24th annual Festival, will be "The World Around Us."

On Saturday, October 28, William and Mary meets V.P.I. at the Richmond City Stadium in the 24th annual National Tobacco Bowl. Game time is 1:30 p.m.

Regular tickets on the William and Mary side are on sale now at William and Mary Hall at \$7 each. Special tickets are available for all William and Mary students at \$3.50. According to Mrs. Betty Adams in the ticket office (229-3396) there are still plenty of good seats left.

A 1932 Phi Beta Kappa graduate of the College, Mr. George is Chairman of the Board of The House of Edgeworth. He is active in civic activities in the Richmond area and serves on the boards of the Richmond Symphony, the United Givers Fund, the Eye Hospital of Richmond and the Big Brothers. Mr. George received an honorary Doctor of Humane Letters degree from the College at June commencement.

MASTER BEDROOM

New Law Deans

Anthony J. Santoro, left, and Richard A. Williamson are new associate deans of the Marshall-Wythe School of Law. Mr. Santoro is the associate dean of administration and Mr.

Williamson is dean for admissions. Former associate dean John E. Donaldson has returned, at his own request, to full-time teaching.

Five to Receive Alumni Medallions

A former governor of the State is among the five persons slated to receive the coveted Alumni Medallion on the eve of the big Homecoming tilt with Vanderbilt. The announcement was made recently by the Society of the Alumni.

Mills E. Godwin and four other illustrious alumni will be presented the Medallion Friday, October 13, by President Graves at a banquet in the Virginia Room of the Williamsburg Lodge. The event is the highlight of the Annual Meeting of the Alumni Society.

The former Governor attended William and Mary with the class of 1935. He left, however, to attend law school prior to completing the requirements for the bachelor's degree. Governor Godwin holds an honorary doctor of laws degree from the College and has been honored by many organizations for his civic and political leadership. From 1966 to 1970 he served as Virginia's 66th Governor.

Jack Morpurgo, the first Englishman in modern times (1938) to graduate from the College, has also been selected to receive the Medallion. Mr. Morpurgo, a professor at the University of Leeds, in England, is the author of some 20 books and is currently working on a history of the College.

A Medallion will also be presented to A. F. Chestnut, '41, director of the Institute of Marine Sciences, University of North Carolina, and a former

president of the Society of the Alumni (1966); Dr. Elizabeth Burger Jackson, '34, professor of natural sciences, Longwood College, who is well-known as a Farmville area civic leader; and Thomas G. McCasky, '35, a long-time staff member of Colonial Williamsburg (a vice president since 1961).

Other homecoming activities for Friday include: a golf tournament for alumni and spouses, Golden Horseshoe, 10 a.m.; campus re-orientation program, Alumni House, 11 a.m., followed by a brief tour of the new campus; Junior Varsity versus U.S. Military Academy Prep, Cary Field, 2:30 p.m.; Sunset Parade with Queen's Guard and Colonial Militia, Sunken Garden, 5 p.m.; class reunion social hour (cash bar), Williamsburg Lodge, 6:15 p.m.; Alumni Annual Banquet, Williamsburg Lodge, 7:45 p.m.; and Annual Meeting of the Alumni Society, Williamsburg Lodge.

Saturday's events include: President's Reception and Continental Breakfast, President's House, 8:30 a.m.; homecoming parade, Duke of Gloucester Street, 10 a.m.; Luncheon on the Lawn, Alumni House, 11:30 to kick-off time; football game, Cary Field, 2 p.m.; Fifth Quarter-Post-Game Social Hour (cash bar), Williamsburg Lodge, 4:30 p.m.; and Alumni Dinner Dance, Virginia Room, Williamsburg Lodge, 7:30 p.m.

Dolmetsch-Saxby Concert Sunday

The Department of Music opens its Collegium Musicum Series Sunday, October 1. Guest artists will be Carl Dolmetsch, recorder, and Joseph Saxby, harpsichord.

This duo, which has delighted Williamsburg audiences many times over the years, will give the series an auspicious opening with their wit and charm in addition to their virtuosity and musicianship.

Other First Semester dates include:

October 15 - Charles Bath, piano, an associate professor at East Carolina University. Mr. Bath has given recitals with success over the past several years on the Eastern Seaboard. His major training was at the University of Michigan School of Music.

October 29 - James S. Darling, harpsichord, well known to local audiences for his performances at the Palace, as choirmaster and organist for Bruton Parish Church, music consultant to Colonial Williamsburg and lecturer in the Department of Music instructing in organ. He received the A.B. and B.M. degrees from Yale University and the M.M. degree from the University of Michigan.

November 5 - Donna Curry, lute and songs to the lute. Mrs. Curry enraptures her audiences with her mastery of the lute and her fresh sounding soprano voice. Her instruments are Renaissance and Baroque lutes by Sandro, Zanetti, Switzerland.

November 19 - James Schwabacher, tenor, assisted by Robin Roark, tenor, and a string ensemble. Mr. Schwabacher sings with the San Francisco Opera Company and has been leading tenor of the Carmel Bach Festival for fifteen years. He is well known to local audiences as a member of the Bruton Parish Choir and the Williamsburg Madrigal Singers. He received his B.M. degree with honors from the Warren M. Angel School of Fine Arts and the M.M. degree from the University of Southern California. He is a teacher at Queen's Lake Intermediate School and instructs in voice at the College as a lecturer in music.

Second semester dates are: March 4, Nejmi Succari, violin; March 18, The Elizabethan Consort of Viols; April 15, Gerard Errante, clarinet; and May 6, The Alard String Quartet.

The programs are offered to public and campus community, without charge, as cultural and educational enrichment. The 1972-73 series, without exception, is scheduled for Sundays at 4 p.m. in the Campus Center Ballroom.

On Stage

Katha Austin (left) an employee in the Circulation Department of Swem Library, John Witman, a third-year law student, and Joy Dickinson Barnes, an Editor at the Institute of Early American History and Culture, are shown helping construct the set of "Any Wednesday" for the Williamsburg Players.

Performances will be each Thursday, Friday and Saturday, through October 21. Curtain is at 8:30 p.m. Reservations may be made by calling 229-1679.

'Jacques Brel' to be Presented Saturday

"Jacques Brel is Alive and Well and Living in Paris," the first of two professional shows to be sponsored by The William and Mary Theatre, will be presented in Phi Beta Kappa Memorial Hall at 8:15 p.m. (sharp) Saturday.

Earlier this month, The William and Mary Theatre sent to all faculty and staff a flyer describing the 1972-73 season, along with Season Ticket Order Forms. Any member of the college community who did not receive these forms but who wishes to become a Theatre patron should contact The Theatre's general office in Phi Beta Kappa, ext. 395.

A Season Ticket for all six productions, including the two visiting professional shows, is priced at \$12. For the four William and Mary productions, the season ticket is \$7.

Patrons wishing to attend the Jacques Brel musical have first choice of reserved seats and should order their tickets early: the box office, in the foyer of Phi Beta Kappa, is open Monday-Friday, Sept. 25-29, between 3 and 5:30 p.m. (During those hours Patrons' telephone reservations are accepted at 229-3000, ext. 272.) General public sales begin Thursday; season ticket patrons receive first choice of seating. Admission for non-Patrons is \$3; all seats are reserved.

Homecoming Plans Set

Homecoming plans are being finalized by the SA for the October 14-15 weekend. Planned for Friday night is the first dance to be held in William and Mary Hall. Bill Deal and the Rhondells, a band with a long history of performances at William and Mary, will provide the entertainment. Singer Isaac Hayes will perform in concert on Saturday night, and Sunday the film "Love Story" will be shown.

Series passes to any of the SA films can be purchased at the door. Price is \$2.

A Voice Heard Through the Years

Mrs. Mary Andrews, head switchboard operator, has been answering and placing calls for members of the college community for the past 20 years.

Mrs. Andrews recalls that when she first arrived on campus, all calls had to be placed through the switchboard. There was no individual dialing and only three operators. Presently, there are three full-time and two part-time operators.

A native of High Point, N.C., Mrs. Andrews is a member of Jamestown Presbyterian Church. Her hobbies are "playing bridge with friends," knitting, and reading.

Twenty-Sixth Year at College

This school year will mark 26 years of service at the College for Thomas E. Lee, Sr., a 1939 graduate of Bruton Heights School. Lee started his employment at the College as a janitor, later becoming a bus driver. He is presently supervisor of floors in William and Mary Hall.

His wife, Vivian, is manager of a popular local band, The Pacesetters, and three of his twelve children are members of the group.

Mr. Lee is owner of the T. E. Lee Transfer Company, a two-truck operation well known throughout the peninsula and college community. Fishing and hunting are his hobbies.

Osprey in News

Lead story and cover picture in a recent issue of *The Baltimore Sun's* Sunday magazine featured the plight of the osprey and the work being done by the North American Osprey Committee which has "nominal headquarters in Millington Hall."

The story cites the contributions of Mitchell A. Byrd, chairman of the biology department and president of the Virginia Society of Ornithology, who serves as unofficial coordinator of the Osprey Committee.

Profile Class of '76

The class of 1976 is making modern college history.

The class, which will graduate exactly 200 years after the American Revolution began, will probably be the largest in College history - 1,134.

These students were chosen from 5,826 applicants, about ten percent higher than a year ago.

The profile of the '76 class shows that 549 are men and 585 are women. There are 767 Virginians and 367 out-of-state freshmen.

The class shows a major upward shift from previous years in terms of secondary school class rank. About 74 percent were in the upper tenth of their graduating classes; in recent years the percentage has been about 65 percent. The mean scores on College Entrance Examination Board tests rose several points from the previous year also.

Out-of-state applications to the College continue to outnumber those from within the state. More than 3,400 applications came from non-residents, and not quite 2,400 from Virginians. The long-standing Board of Visitors policy to maintain undergraduate enrollment at 70 percent in-state students was continued.

More alumni children were enrolled this fall than last year, not only in terms of numbers but in percentages. There were about 62 alumni children enrolled in the Class of 1975; in the Class of 1976 there are about 90.

All but a few of this year's entering class took part in secondary school extracurricular activities. Many held leadership positions in various organizations and athletic teams. There were 100 editors of their newspapers; 24 student body presidents; 21 senior class presidents; 161 valedictorians and salutatorians; 97 yearbook editors; 33 magazine editors; and 159 varsity team captains.

Bernard Rosser New Bell Ringer

When Arthur Hill retired, he turned over the chores of bell ringing to Bernard Rosser.

Mr. Rosser, who handles the custodial chores on the third floor of the Wren Building, wonders how Mr. Hill kept his schedule of ringing the bell and did the other duties of the day. He says he is not yet used to the unusual schedule he must keep to combine his cleaning chores with the demands of the class bell.

Mr. Rosser depends on his watch, which he checks daily with the official time to keep him on time for the class bell which he rings two or three minutes--ten minutes before class starts and at the beginning of each class.

After he finishes his job at the Wren Building, Mr. Rosser serves as a night supervisor for janitors at Colonial Williamsburg.

No one would know it but during the day Mr. Rosser is also working on another job - he's planning a Sunday sermon.

As assistant minister at the Beulah Baptist Church in Yorktown, he takes his text from the Bible and gathers his thoughts for the pulpit as he goes about his daily job.

Mr. Rosser, however, isn't the only busy one in the Rosser household, his wife, Sally Kay, does a lot of cooking and sewing for her four grandchildren, Bernard III, Arleen, "Punkin'" and Chuck, who live with Mr. and Mrs. Rosser at their home in Carver Gardens.

The Rossers have two children, Bernard, case work supervisor with the James City County Department of Social Services, and a daughter, Arleen, who works in New York City.

Mr. Rosser is a native of Lynchburg and has lived in Williamsburg for the past 19 years. He began working for the College six years ago and before taking up his new duties in the Wren Building, worked in Washington Hall.

The College's Penthouse

Research at the College's "penthouse" greenhouse atop John Millington Hall continues to expand. Biology professors who spend a significant part of their time in the greenhouse have been joined this year by graduate students working on similar projects.

Printed information sheets are available for self-guided tours during the daytime. The College Woman's Club will include a January tour of the greenhouse in their annual program.

Included in the continually expanding plant collection this year is an unusual aspen tree. Test-tube grown from a group of cells, it is one of the few such "tissue culture" trees in the country.

The greenhouse itself is unique in several ways, featuring an unusual architectural design, special glass, and automated control systems.

The greenhouse was designed by architects Wright, Jones, and Wilkerson, of Richmond, with features which are aesthetically pleasing without sacrificing function.

Sloping "A" roofs, formed of glass panes in the shape of unequilateral triangles, contribute to the striking appearance of the greenhouse. The sloped sides of these roofs have a double purpose. They allow condensation which forms on the inside wall to run off without dripping, and protect the outer greenhouse surface from the elements, according to Martin C. Mathes, associate professor of biology, and a member of the departmental greenhouse committee.

The laminated double-strength glass which protects the greenhouse plants is made of Solex, which is normally manufactured for use in buses. It is being used as greenhouse glass for the first time at William and Mary. The glass keeps out excessive heat, making unnecessary the whitewash or shielding often seen on greenhouses in the summertime, and yet not blocking out beneficial light. This safety glass remains watertight in the case of glass crackage.

In addition to the shelter provided by the glass, the greenhouse provides for its plants three automatic "watch-dog" devices, which are pneumatically and electrically interlocked to assure their operation at the correct times. In the event of bad weather, an automatic weather indicator, which is sensitive to wind and rain, closes the glass vents. In hot weather, an automatic temperature-sensitive device turns on an evaporator cooler; in cold weather, it cuts on radiator heat. A section of the greenhouse lighting is controlled by two automatic time clocks, which make it possible to extend the length of the day inside the greenhouse.

"This option is especially helpful on short winter days, when more daylight is needed," says Mr. Mathes.

The neon-like glow of the greenhouse, an unusual sight in Williamsburg, is not a conventional fluorescent light, but "gro-lux," which makes the plants grow luxuriously while at the same time protecting them from excessive heat. The light, which appears purple to human eyes, combines both the red and blue wavelengths of light, which are necessary for plant photosynthesis.

A penthouse location is always popular, but biologists whose plants require a large amount of sunlight have special reason to praise the location of the present greenhouse. Stewart Ware, assistant professor of biology, is one research scientist who found that, in the older ground-level greenhouse, his plant experiments were hampered by shade from surrounding trees.

Since the greenhouse is now situated on top of the biology building, the shade problem has been eliminated, believes Mr. Mathes, who added, with a smile, "unless a skyscraper is built nearby." A skyscraper in Williamsburg is not considered to be a likely possibility in the near future.

Despite water hosing and humid air, the ceilings of the rooms on the floor beneath the greenhouse remain completely dry. Credit for this goes to the waterproofed greenhouse floor, which is covered with many layers of a plastic-like waterproofing substance.

With its automatic devices and expanded amount of usable space for plants, the greenhouse is an aide to classroom work, and makes possible more biology experiments and laboratory work.

Included among the unusual plants in the greenhouse are "babytoes," baseball plants, "living rocks," and "tiger jaws," all of which names are descriptive of the appearances of the plants. The greenhouse also boasts a night-blooming cereus, a Venus flytrap, and various poisonous plants. Gustav W. Hall, associate Professor of biology, has added to his collection of ferns for classroom use.

Rocks, which provide a moist habitat for plants such as lichens, contribute to the waterfall in the tropical room, which is one of the two special rooms enclosed within the larger area of the greenhouse. Continuing the idea of combining the useful with the beautiful, the waterfall, which empties into a pool, provides aeration for the water by flowing over a series of cascades. In this tropical room are controls which provide high humidity for the growth of plants such as orchids and bromeliads, a type of pineapple-related plant. The other special room is the terrarium, which provides a natural environment for the use of small animals, including snakes, turtles, and frogs.

"A tour of the greenhouse provides a total educational experience," says Mr. Mathes.

Common Glory 7 Attendance

Attendance at "The Common Glory," this year was about the same as last, despite heavy rains in June and July which threatened to drown out the outdoor drama.

A total of 45,164 persons saw "The Common Glory," which completed its 25th season this summer.

Wet weather forced "The Common Glory" indoors 12 times. On such evenings the play was moved from the Matoaka Lake Amphitheatre to Phi Beta Kappa Hall. Rain interrupted two outdoor performances during early August.

"It was the last three weeks in August which pulled us through," reported Dave Rutledge, general manager of the Jamestown Corporation, the non-profit organization which produces the outdoor drama of Virginia during the American Revolution.

For the past decade annual attendance has been averaging about 45,000.

NEWS

All items for publication in the William and Mary News must be submitted to the News Office, 125 Richmond Road, by 5 p.m. on the Wednesday preceding publication.

The Calendar

TUESDAY, SEPTEMBER 26

Philosophy Department: "Socrates," Millington Aud., 3:30 and 8 p.m.

Chess Club: CC, Sit 'N Bull Room, 7 p.m.

Fellowship of Christian Athletes: CC, Gold Room, 7:30 p.m.

WEDNESDAY, SEPTEMBER 27

Phi Alpha Delta: Faculty-Student Smoker, CC, Sit 'N Bull Room, 7 p.m.

Circle K: CC, Room C, 7 p.m.

International Reading Association (School of Education): CC, Rooms A&B, 7:30 p.m.

Alpha Chi Omega: Open House for Freshmen Men, ACO House, 7:30 p.m.

THURSDAY, SEPTEMBER 28

Board of Student Affairs: CC, Room C, 4 p.m.

Holy Communion: Wren Chapel, 5 p.m.

Christian Science: Wren Chapel, 6:15 p.m.

Student Chapter, Association for Computing Machinery: Jones 202, 7:30 p.m.

CW: Candlelight Concert, Governor's Palace, 8:45 p.m., \$1.75

Williamsburg Players: (opening night) "Any Wednesday," 610 York St., 8:30 p.m., \$2.50

FRIDAY, SEPTEMBER 29

Football: JV, W&M vs. Fork Union, Cary Field, 3 p.m.

W&M Christian Fellowship: CC, Sit 'N Bull Room, 6:30 p.m.

Visiting Scholars: H. Igor Ansoff, Vanderbilt University, CC, Little Theatre, 8 p.m.

CW: Eighteenth Century Comedy, Williamsburg Lodge, 8 p.m. (students - \$1; adults - \$2)

SA Film: "Catch 22," PBK, 8 and 10 p.m. (season ticket holders only)

Williamsburg Players: "Any Wednesday," 610 York St., 8:30 p.m., \$2.50

SATURDAY, SEPTEMBER 30

Organ Recital: Wren Chapel, 11 a.m.

Football: W&M vs. Citadel, Cary Field, 1:30 p.m.

W&M Theatre: (visiting professional musical) "Jacques Brel is Alive and Well and Living in Paris," PBK, 8:15 p.m. \$3

Williamsburg Players: "Any Wednesday," 610 York St., 8:30 p.m., \$2.50

SUNDAY, OCTOBER 1

Touch Football: Administration vs. Bishop Madison Society, PBK Field, 2:30 p.m. (no admission charge)

Bahai Association: CC, Green Room, 3 p.m.

Biology Department Staff and Faculty Picnic: Matoaka Shelter, 3 p.m.

President's Reception for Juniors: President's House, 4 - 6 p.m.

Collegium Musicum: Carl Dolmetsch, Recorders and Viols; John Saxby, Harpsicord, CC, Ballroom, 4 p.m.

Alpha Phi Omega Smoker: CC, Rooms A&B, 7 p.m.

MONDAY, OCTOBER 2

Orientation Sessions on Placement for Students: CC, Room C, 10 a.m. - 2 p.m.

Colonial Echo Pictures: CC, Gold Room, all day

W&M Amateur Radio Club: CC, Green Room, 8 p.m.

TUESDAY, OCTOBER 3

Orientation Sessions on Placement for Students: CC, Room C, 10 a.m. - 2 p.m.

Colonial Echo Pictures: CC, Gold Room, all day

Fellowship of Christian Athletes: CC, Room D, 7:30 p.m.

WEDNESDAY, OCTOBER 4

Orientation Sessions on Placement for Students: CC, Room C, 10 a.m. - 2 p.m.

Colonial Echo Pictures: CC, Gold Room, all day

Classical Studies Literature Lecture: CC, Rooms A&B, 1 p.m.

English 208 Film: Andrews Aud., 4 p.m.

Civilization Film Series: "The Great Thaw," Millington Aud., 4 p.m.

Circle K: CC, Room C, 7 p.m.

Lyon G. Tyler Historical Society: CC, Rooms A&B, 7:30 p.m.

Marshall-Wythe Law Wives: CC, Theatre, 7:30 p.m.

Panhellenic Council Fashion Show: PBK, 8 p.m., 50¢

THURSDAY, OCTOBER 5

Orientation Sessions on Placement for Students: CC, Room C, 10 a.m. - 2 p.m.

Shakespeare Players, Henderson, N.C., "Shades of Shakespeare," W&M Hall, 10:30 a.m. (children - 50¢; adults - \$1); 8 p.m. (children - \$1; adults - \$2).

Colonial Echo Pictures: CC, Gold Room, all day

Board of Student Affairs: CC, Room C, 4 p.m.

FOR SALE

Used furniture in very good condition: Early American sofa & chair (pine, Scotchgard); Modern sofa & chair, imitation leather, black; end tables & coffee table; Danish modern dining room table & 6 chairs; dinette set & 4 chairs; two early Am. lamps. 229-8622 evenings & weekends.

3/4 mattress and box springs 46 X 74. In good condition. \$30. Call Mrs. Furey 229-6099.

VW "Bug" '60; '64 engine. Many new parts, newly inspected. \$285. Phone 229-6521.

One upright Dial-A-Matic Hoover vacuum cleaner with all the accessory tools, 1970 model. Price: \$54.20-Half price. Cleaner has had good care and little use. Must sell during September. Hoover Company permits us to sell appliances or return them when new models are put on the market. If interested, call Thelma M. Miller, Department of Home Economics, ext. 496. Cleaner may be examined daily 10 A.M.-6 P.M. in 302 Washington Hall.

FOR RENT

Three-room apt. Air-conditioner, rural, 2 miles to campus. No pets, no children. Immediate occupancy. Phone 229-1929 or contact Mr. Stone.
