## College-Community Orchestra in Annual Concert March 13

The College-Community Orchestra will present its annual concert March 13 in Phi Beta Kappa Memorial Hall at 8:15 p.m. Composed of students and townspeople, the fifty-five member orchestra has grown both in size and quality over the past five years, according to Director Alan C. Stewart.

This year's program will feature two soloists and a Tidewater composer-conductor. Janet Kriner, cellist, will be the soloist in a composition by Ronald Marshall, a well-known musician of the Peninsula area. The second soloist will be Pravda Sikorski, pianist, who will play Beethoven's Concerto No. 3 in C minor. She has appeared as soloist with several orchestras and recently gave a Town Hall recital in New York City with Dora Short of Norfolk. In addition to conducting his cello composition, Ronald Marshall will conduct a composition entitled "4 Movements for Orchestra." The program will open with Brahms' Academic Festival Overture.

Mr. Stewart hopes that more people will support their local orchestra by attending the concert. Tickets will be available at the box office the night of the concert, at the College Campus Center, and at the Schmidt Music Shop.

Dora Short (left), violinist, and Pravda Sikorski, pianist, will appear in concert with the College-Community Orchestra, March 13. The two artists recently appeared in a Town Hall recital in New York City.

## Science Program

### Awarded \$50,000 Grant

The National Aeronautics and Space Administration has announced a grant of \$50,000 for the Applied Science Program, which is directed by Arden Sher, professor of physics.

The grant, said Mr. Sher, will be used to further develop the program and to support applied science research in the program in the areas of mathematics, chemistry and physics.

The major thrust of the educational program is in computer science. Atmospheric science, material science and applied mathematics are also included in the program.

The Applied Science Program is an interdisciplinary program which leads to a Master's degree. The program is offered cooperatively by participating faculty from the departments of chemistry, mathematics and physics and is intended for students who wish an education with a focus that crosses traditional departmental lines.

## Graves Visits British Alumni

President Graves will depart for England Thursday, March 8, to visit institutions that have exchange programs with William and Mary, meet with several prominent alumni and attend a dinner in his honor at the House of Commons, and meet with officials of the Drapers Company in London.

The trip will afford Mr. Graves an opportunity to meet with James C. Livingston and other William and Mary faculty who are in England on leave this year. Mr. Livingston, former chairman of the Department of Religion, will assume his new position as Dean of the Undergraduate College this fall.

The President will visit the campuses of the University of Exeter, St. Andrews, the University of Sussex, Cambridge and Oxford. In addition to officials of the institutions, he will visit with former William and Mary students, including Bill

Seibert, Kathy Coles and Karen Larson, all of whom are Drapers Scholars.

Jack Morpurgo, a 1938 graduate who now occupies the Chair of American Literature at the University of Leeds, is coordinating the Alumni dinner for President Graves at the House of Commons.

Mr. Graves' itinerary includes a brief visit to Geneva where he directed an international management institute for several years.

## Alumni House

### Renovation Scheduled

A Williamsburg company was recently contracted to do the \$104,000 renovation on the Alumni House. Scheduled to begin extensive refurbishing work within a month, Boyer and Henderson, Inc., will convert the former apartment-office facility into an alumni meeting center with conference and reception areas along with office quarters.

## New Budget System Initiated

A new internal budgeting system, to increase the ability to match resources to goals, is being established at the College.

The system places more responsibility on the department heads to develop well-justified budget requests and to control their budgets when approved, according to William J. Carter, Vice President for Business Affairs.

Department heads and other administrators are now in the process of preparing budget requests for the 1973-74 academic year, and also for the 1974-76 biennial budget. The biennial requests must be approved by the 1974 General Assembly but the Legislature has already made its appropriations for 1973-74.

Formerly, most departments were allocated annual budget increases in proportion to the overall increase in money available to the College. Under this incremental system of budgeting, department heads were not required to justify retention of their existing levels of allocation.

The new system assumes, in effect, that each department or other unit will justify--in terms of its objectives and goals--why, and to what level, it should be allocated funds for the next three fiscal years.

Once such information is submitted and approved at various administrative levels, it will become possible to determine which goals and objectives are in line with those developed as College-wide policy, and to allocate funds accordingly.

Development of the new system, which is computer oriented, was urged by President Thomas A. Graves, Jr. in his first President's Report issued last August. He set a high priority on establishing a "modern internal budgeting, control and costing system (which) will allow us to set effective budgets and continue to control costs at all levels of the College, with those responsible having authority for and being held accountable for the expenditure of funds budgeted."

The College Self-Study, now under way, assigned a committee to explore financial resources, and this new system is in accord with objectives expressed by this committee.

## Faculty News

### Biology

Stewart Ware, associate professor, authored a paper in the most recent issue of the journal, *Ecology* (vol. 53, p. 1195-1199): "Growth and Dormancy in Talinum Rhizomes."

### Physics

A colloquium will be held on March 9 at 4:30 p.m. in Room 109, William Small Laboratory. G. T. Garvey of Princeton University will talk on "Charge Dependent Interactions in Light Nuclei." Coffee will be served in the Conference Room at 4 p.m.

Franz L. Gross, associate professor, who is currently on leave with the United States Arms Control and Disarmament Agency in Washington, D.C., was a summer visitor at the Stanford Linear Accelerator Center and in August attended the International Conference on Few-Particle Problems in the Nuclear Interaction held at UCLA and also contributed a paper.

Mr. Gross has given talks on "A New Approach to Calculating the Nuclear Force," at theoretical seminars at SLAC, the University of Maryland and MIT as well as seminars at Brooklyn College, Brown University and American University. He will conduct a colloquium on the same topic at Case Western Reserve University on March 15.

### History

The final examination for the Ph.D. of Robert W. Spoede will be held at 4 p.m. Friday, in the Blue Room of the Wren Building. By regulation the examination

will be a defense of his dissertation on "William Allason: Merchant in an Emerging Nation." The members of Spoede's committee are: R. M. Brown, chairman; J. E. Selby, T. W. Tate, Edward M. Riley, and from outside the department, Parke Rouse of the Jamestown Foundation.

The examination is open to all members of the faculty, but it is not open to graduate students.

### Sociology

John B. Stephenson, author of *Shiloh: A Study of a Mountain Community*, held a colloquium for graduate students and staff in sociology last Thursday. Mr. Stephenson is presently dean of undergraduate studies and associate professor of sociology at the University of Kentucky. He received his A.B. degree in sociology from William and Mary and his Ph.D. from the University of North Carolina. He discussed the methodological and substantive aspects of his research on mountain communities in Appalachia.

R. Wayne Kernodle's article "The Last of the Rugged Individualists," which originally appeared in *Harpers*, has been reprinted in the revised edition of *Themes and Writers*, edited by G. Robert Carlsen and published by McGraw Hill Book Company.

## CAMPUS PROFILE / *Jessie Harris*

Jessie Harris is a machinist but he's no slouch as a carpenter either.

His handiwork in wood can be seen in the new anthropology workshop which just a few months ago was a neglected greenhouse behind Washington Hall.

Mr. Harris came to the College last fall. He retired in 1965 from Fort Eustis after 22½ years of service as a machinist and was working part-time for the Model Machine and Tool Company of Newport News when he started on his greenhouse project.

A superstructure and new roof have been put on the old greenhouse, broken panes have been replaced, work benches installed and cabinets built to accommodate a variety of equipment.

"Making things is a hobby for me," said Mr. Harris. "I love to

create and see the end result. Work to me is an enjoyment."

When he is not busy in the greenhouse, Mr. Harris is putting the finishing touches on cabinets which he has made and installed in a recently refurbished classroom in the Anthropology Department.

Soon he will be at work on display cases which will be part of a permanent anthropology display on the ground floor of Washington Hall.

A native of Henderson, N.C., Mr. Harris has been in the Tidewater area since 1945 and a resident of Williamsburg since 1958. He is a World War II Navy veteran.

Mr. Harris and his wife, Bertha, have one son, Charles, district sales manager for Georgia Pacific Paper Products in Richmond, and a daughter Carolyn, a housewife in Grafton. The Harrises are members of Grace Baptist Church on Penniman Road.

## Staff Notes

### Swem Library

William C. Pollard, librarian, will attend an organizational meeting of directors of Southeastern academic libraries Friday, March 9, in Columbia, S.C. Purpose of the meeting will be to lay the groundwork for a computer network which will supply bibliographic data used in library acquisitions, cataloging, and serials activities of academic libraries.

Several staff members will visit the Library of Congress in Washington late in March for

an introduction to the activities of this library, particularly its Card Division, which supplies printed catalog cards to libraries throughout the United States. Staff members in the group making the visit are Sue Welch, assistant catalog librarian; Kathy Shirley, library assistant, acquisitions department; Leah Rae Miron, assistant catalog librarian; Jean Marie Peet, Hester Seldon, and Landola Stout, all clerk-typists in the cataloging department.

## Classical Studies Reunited with Greek Inscription

The Classical Studies Department has been reunited with its monumental Greek inscription.

The inscription, composed of two blocks of Egyptian limestone, remained behind in Washington Hall awaiting transportation after the department moved across campus to its new location in Jones Hall.

The rocks, which date from 200-212 A.D., were found in 1923 at Koptos, in lower Egypt, by the Boston Museum of Fine Arts. Loaned to the College in 1954, they required the efforts of the entire College work force to locate them in Washington Hall. For the move this time, several months of preparation were required.

The main problem, according to Ansel D. Rorer, landscape superintendent, was finding a day when the majority of men on the work force were free at the same time. The solution came on a morning when a period of heavy rains had made the grounds unsuitable for work, he said. Mr. Rorer called a work force of ten men together. "The rocks were moved without any problem," he said.

The two rocks, weighing about 825 and 1200 pounds, were first enclosed in crates with slides which moved over six stair treads at a time, preventing damage to the individual stairs. Unloaded from a truck at Jones Hall, they were placed on dollies and taken to the second floor via the

elevator. After 3½ hours, the rocks rested in the classics seminar room.

"Needless to say, everyone in the Classical Studies Department is very happy that the rocks are now in a secure place," said J. Ward Jones, department chairman. Their former position in the hallway in Washington Hall exposed them to possible defacement, he added. "The rocks help to make the Classics Museum a special room. Once completed, our intent is that it will be a very special place. The room, which will include a coin collection and a plaster of Paris frieze from the Parthenon, awaits professional arrangement of its contents," he added.

### Reading Program Holds Retreat This Weekend

The College-Wide Reading Program will sponsor a retreat for faculty, students, and administrators this weekend at Camp Hanover, near Richmond. The weekend's theme is "creative education." The retreat will provide an opportunity for relaxation and the exchange of ideas on an equal basis. Those attending will leave from Law Circle at 9 a.m., Saturday, and return at 3 p.m., Sunday. Each person must provide his own bedding and a Saturday lunch. Applications must be submitted, with a \$6.25 fee, at the Campus Center today.

# Periodicals Librarian is Collector of Over 600 Volumes of Cookbooks

Cookbooks are good reading for cooks, gourmets - and historians.

Volumes of cookery reveal the intriguing role food has played in history and provide an insight into changing lifestyles through the years.

The Romans believed that eating asparagus would ward off respiratory diseases.

Thomas Jefferson once sent a diplomatic courier to Naples to learn the secrets of making spaghetti.

An embargo on tea during the War of 1812 made a nation of coffee drinkers out of Americans because tea was hard to come by.

"No virtues apparently will avail for happiness if the righteous art of cooking be neglected by the national conscience," wrote Joseph Conrad in the preface to his wife's work, "A Handbook of Cookery for a Small House."

A collector of these and many other interesting facts contained in cookbooks is Miss Sarah Gray, periodicals librarian at Swem Library.

Miss Gray is a second generation cookbook authority. Her mother, the late Mrs. Virginia Gray, a librarian at Duke University, had a collection of several hundred cookbooks, many of which are now housed in the Swem Library.

Miss Gray used over 6,000 cookbooks while collecting research for a thesis entitled "A History of the Publication of Cookbooks in the United States from 1796-1896."

It is perhaps appropriate that there is an authority on American cookbooks in Williamsburg since the first American publication of a cookbook appeared here in 1742 by William Parks. He printed one of the most popular English manuals, *The Compleat Housewife: or, Accomplish'd Gentlewoman's Companion*, by E. Smith whose identity remains somewhat vague.

It was not until 1796 that a cookbook of American authorship appeared. Amelia Simmon's *American Cookery* was printed by Hudson and Goodwin of Hartford, Connecticut.

In the early days of the new colony in America, explains Miss Gray, women brought treasured recipes with them from England and handed them down in manuscript form from mother to daughter. Housewives adapted these recipes to new surroundings and new foods.

One of the most famous English cookbooks, *The Art of Cookery*, compiled by Mrs. Hannah Glass in 1747, was very popular in the colonies. It continued in publication for almost one hundred years.

"First printed anonymously," notes Miss Gray, "it prompted the great Samuel Johnson to argue that a woman could not be its author because chemistry was mentioned in its pages."

"Cookbooks written in the new republic retained what was practical from the Old World," explained Miss Gray, "but added knowledge gained by experience in the New World."

Amelia Simmons recognized the importance of corn and her cookbook contained for the first time, five original recipes for the use of cornmeal. She also recommended the use of a chemical leaven "pearlash" which was to later revolutionize the cooking world as baking powder.

The second edition of her book, Miss Gray points out, reflected a rising nationalism in the country. Recipes were included for "Election Cake" (beginning with thirty quarts of flour), "Independence Cake," and "Federal Pan Cake." Mrs. Simmons also Americanized some of the ingredients in cooking, points out Miss Gray. "Molasses took the place of 'treacle' and shortening was called for instead of fats." She was also the first to introduce the words "cooky" and "slaw."

With the publication of *The Virginia Housewife*, by Mary Randolph in 1824, cookbooks, said Miss Gray, undertook to introduce the theme of household management. Luxury recipes that called for lavish ingredients, popular in earlier books, gave way to plainer foods as families drained by war sought to economize.

"The influence of French cookery in America was incorporated in Mrs. Randolph's book," said Miss Gray. "Sectionalism," she added, "had entered American life by this time and Mrs. Randolph put into print for the first time recipes for such typically Southern dishes as catfish, field peas, "Apoquinimic Cakes" (beaten biscuits) and turnip tops. She even added the first directions for cooking 'tomatas.'"

"Mary Randolph was a product of Tidewater, Virginia. She was born at "Tuckahoe," the estate of her father, Thomas Mann Randolph I, on the James River near Richmond. At 62 she published her first edition, a most likely presumption being that she was in search of additional income," said Miss Gray. "Considering her social class and the period, her achievement was remarkable."

"Paradoxically," points out Miss Gray, "Mary Randolph, the Virginia aristocrat who was called 'The Queen,' was the first to note in her cookbook a trend which later nineteenth-century feminists were to develop into a widespread movement for the improvement of the culinary lot of the American woman. This particular betterment was part of a great wave of reform which included such controversial subjects as health nutrition, the education of women, their rights, and the abolishment of slavery, which were to bring problems and change to American society."

In 1829 Lydia Child's *The Frugal Housewife* contained enough recipes to be classified as a cookbook but also included home remedies, maxims for health, advice on the education of daughters and hints on how to endure poverty. Miss Gray points out that the theme of household management which Mrs. Child strongly advocated was presented later with greater success by Fannie Farmer.

*The Cottage Kitchen*, published in 1880, came along with the nation's return to more opulence.

This volume, points out Miss Gray, was written for the family that could afford a house in the country for rest and relaxation.

Fannie Farmer, writing in 1896, says Miss Gray, is credited with the start of modern fool-proof cookery. She introduced the standard measures to cooking. Up until that time cooks approximated the amounts in recipes with their own special cup or favorite spoon.

The introduction of new utensils, packaged, frozen and dried foods, the expanded interest in international cuisine, diets, special meals and outdoor cooking are a few of the changes in lifestyles which have been chronicled in cookbooks.

Attention to food continues to take a prominent place in national affairs today. Prime time on television has been given to programs on gourmet cooking. Bookstores devote large sections to cookbooks. The variety of recipes available in paperbacks and magazines is almost limitless.

The market for cookbooks remains active, says Miss Gray. Color plates lure readers and cooks to try new recipes. Collectors welcome new publications as additions to their hoards. As a gift, the cookbook is ideal. There is no problem of size or color and everyone is concerned with food - either as a cook or a consumer - or both.

# OFFICIAL MEMORANDA

## Revised College Housing Regulations

On March 4, 1970, the Administrative Council unanimously approved the Faculty and Staff Housing Report as submitted by a special faculty committee. Included in the recommendations was the appointment by the Executive Vice President of a Committee to serve with the Vice President for Business Affairs as an advisory and fact finding board in dealing with complaints concerning the allocation of housing and other pertinent matters.

Since April, 1970, the College Housing Advisory Committee has worked closely with the Vice President for Business Affairs in considering complaints and determining the most effective ways to assign College housing in the best interests of the entire College community. Regulations governing the assignment of College housing have been defined and formulated; these regulations were distributed to the College community in July, 1970.

The Committee's Chairman is Dr. Bruce K. Goodwin and the members this year are: Dr. Wagih Dafashy, Dr. Robert C. Jones, Dr. John E. Selby and Dr. Walter L. Williams. This Committee has met twice this academic year to consider complaints or revisions in the regulations. At its February 23 meeting the Committee recommended the following Revised Regulations for College Housing which have been approved by President Graves.

### REVISED COLLEGE HOUSING REGULATIONS

1. As long as the number of available units remains small relative to the size of the faculty, the underlying philosophy in the administration of College housing shall be to afford temporary assistance for new faculty members upon arrival in Williamsburg rather than to provide fringe benefits for the faculty as a whole.
2. Barring extreme necessity, no tenant shall be allowed to occupy College housing for more than three years. Each tenant shall be given an initial lease with a termination date of the following June 30. This lease shall be renewable for one year on the following July 1. If the initial lease commences after December 1, this initial period will not be counted within the allowed three years.
3. Excepted from the foregoing rules are:
  - a. Current tenants who have five years or fewer until retirement at the time these regulations went into effect (July, 1970).
  - b. Tenants who are permitted to exceed the three-year limit by the express written direction of the President of the College, because their responsibilities require them to live near the campus.
4. Priority among employees shall be in reverse order of seniority in the employ of the College with the exceptions that:
  - a. Faculty members and administrative officials shall have priority.
  - b. Visiting faculty shall have priority among faculty and administrative officials.
  - c. Third priority shall be given to other full time employees of the College.
  - d. Among persons commencing employment in the same academic year, priority shall be according to the date of contract.
5. Exceptions to the foregoing regulations may be granted under extraordinary circumstances by the President of the College after consultation with the College Housing Advisory Committee.
6. Each new College employee shall be given written notice of the availability of College housing and his initial position on the waiting list. The waiting list shall be available for examination by applicants upon request.
7. A follow-up letter will be sent each year at the time leases are prepared to ALL persons remaining on the waiting list, inquiring as to whether or not the recipient is still interested in College housing. This letter shall include a specific date as a deadline for reply, and the lack of a reply by that specified date will be interpreted to indicate no further interest and a desire to be removed from the listing.

William J. Carter  
Vice President  
Business Affairs

# Office of Development

National Institute for Mental Health Teacher Education Program

The NIMH is looking for organizations interested in developing the methodology to evaluate the techniques employed in their Child Mental Health film series and the drug abuse film series. The project requires experience in the evaluation of child mental health, drug abuse information, education, and audiovisual media. All information should be submitted to the Contracting Officer, National Institute of Mental Health, Grants and Contracts Management Branch, Parklawn Building, Room 7C-26, 5600 Fishers Lane, Rockville, Md., 20852. Refer to notice SS-NIMH-OPPE-73-17.

### National Science Foundation

NSF has established a new Public Sector office within its Experimental Research and Development Incentives Program. This office will provide grants for studies and experiments to test Federal incentives potentially helpful to state and local governments in bringing technology into their operations. The office will also investigate supportive roles of academic, nonprofit, and industry research institutions as well as Federal laboratories. Elisha Freedman, former city manager of Hartford, Conn., will head the office.

### Fund for the Improvement of Post-Secondary Education, HEW

The Fund lists five broad areas within which it will be interested in receiving proposals: (1) New Approaches to Teaching and Learning, (2) Implementing Equal Educational Opportunities, (3) Revitalizing Institutional Missions, (4) New Educational Missions, (5) Encouraging an Open System. However, the Fund will also welcome any imaginative proposal related to the reform, innovation and improvement of post-secondary education.

Detailed information should be available in Mrs. Neiman's office within a week.

### National Endowment for the Humanities - Projects dealing with the American Revolution

Research grants are available to individuals or groups with projects in this area or which "foster a better understanding of the founding of the nation and its institutions." Grants are usually on a cost-sharing basis and for the amount of approximately \$15,000. Applications may be made at any time but the deadline for proposals to be acted upon by November, 1973 is May 8, 1973. Information and forms from: Director of Research Grants, NEH, Washington, D.C., 20506.

### Research Grants for Postdoctoral Study

The American Philosophical Society will assist postdoctoral scholars to pay for scientific material and travel costs necessary to research projects. Grants are a maximum of \$5000 but usually for considerably less. Applications will be reviewed by a committee in early April, June, October, December and should be received by the Society eight weeks ahead of time. Inquiries to: Committee on Research, American Philosophical Society, 104 South Fifty St., Philadelphia, Pa., 19106.

### Research Career Development Awards - National Institutes of Health

The NIH will award grants to qualified young scientists for health-related research. Applicant must be a U.S. citizen under forty years of age with at least three years of related post-doctoral experience. Applicant is to be nominated by his institution. Grants are a maximum of \$25,000 and are intended to be for salary only. Deadline: May 1. Forms from: Career Development Review Branch, Division of Research Grants, NIH, Bethesda, Md., 20014.

### STUDENTS --- Exploration Scholarship Program

The U.S. Office of Education, in cooperation with two private organizations, is offering scholarships for students aged 15-21 for participation in summer expeditions of from one to eight weeks, led by prominent scientists, to research sites in Africa, the Middle East, Europe, Asia, South and Central America and the U.S. Scholarships will be awarded in the fields of astronomy, archaeology, anthropology, ecology, marine biology, and geology.

Candidates must show demonstrated competence and be of good health and strength.

Applications are available from the HEW Regional Office. For this region: Dept. of HEW, Region 3, 401 North Broad St., Philadelphia, Pa., 19108. Telephone: 215-597-9050. Applications may be requested by phone. Deadline is March 16; winners will be announced by April 16.

The Office of College Development has phoned for applications. For information call Mrs. Neiman, Ext. 518 or 591.

## Personnel Bulletin

### Job Openings

The following positions are open at the College. For information about these positions, apply at the Personnel Office in person, Room 201, James Blair Hall:

Clerk D (typing required)

Clerk D with postal experience

Clerk-Typist B

Individuals who are currently employed by the College will be considered for these positions provided that they have first advised their immediate supervisors in writing of their interest in being considered for other positions. A copy of this correspondence and an acknowledgement by the employee's supervisor must be received in the Personnel Office before the applicant will be considered.

### Business Administration Offers Summer Travel Seminar

Under the Summer Session, the School of Business Administration is offering a travel seminar in Scandinavia during the first term of summer school, with the potential of six semester hours of academic credit for undergraduates.

George D. Cole, Jr. will conduct the five week travel/study session, offering Business 316, Behavioral Science and the Business Organization, and Business 315, Industrial Relations. Travel and living arrangements will be handled through the Lislé Fellowship, Inc., an international institute of human relations with headquarters in Rockville, Md.

The program is open to juniors and seniors in the summer session. The group will fly from New York on or about June 18. Tentative itinerary includes stops in Oslo, Norway, and Gothenburg, Sweden, before arriving at the new experimental college in Thy, Denmark. The group will spend three weeks at

Thy and have a visit to Copenhagen before returning home about July 23. The stops in Norway and Sweden will involve visits with labor and industrial leaders, and to some of the plants in the Gothenburg area.

Seniors in business administration will also have the option of working on a thesis under Business 430 if they so desire.

Anyone desiring additional information should contact Mr. Cole at Ext. 489 or 229-7883.

### Wanted-Resident Administrator

Wanted - resident administrator as of September 1, to counsel students in social and organizational matters as well as to carry general administrative responsibilities for the residence. Should have a college degree, or at least academic progress close to that of a degree.

For further details, contact Carl Beyer, director of Honors and Experimental Programs, at Ext. 417 or 549.

APL/360, no prerequisites; Pete Hoyle, instructor; April 3, 10, 17, and 24, 7:30 - 9 p.m.

Statistical Package for the Social Sciences, for students with an elementary knowledge of social statistics; J. Robert Dawson, Jr., instructor; March 6, 13, and 20, 7 p.m.

### British Lacrosse Team on Campus April 24-27

The Women's Physical Education Department will be host to the Great Britain International Touring Team (GBITT) of women lacrosse players April 24-27.

While they are here, the international visitors will play a lacrosse game against a representative U.S. lacrosse team at 4 p.m., April 26 in the stadium. The international team is composed of players who are teachers, secretaries, and housewives when they are at home in England, Scotland and Wales.

Miss Joy Archer, acting chairman of Women's Physical Education, is seeking families who

### Concert Hall Humor to be Presented Thursday in Phi Beta Kappa

Schickele (left) & Ferrante

The Concert Series will present the "Intimate PDQ Bach," an irreverent and hilarious musical spoof in the tradition of concert hall humor, on Thursday at 8:15 p.m. in Phi Beta Kappa Hall.

A limited number of single admission tickets are available at the Campus Center desk.

The "Intimate PDQ Bach" program follows in the tradition of "An Evening with PDQ Bach," which has enjoyed great success with major symphony orchestras for the past seven seasons.

### Jazz Artist to Lecture March 12

John Joyce of Tulane University, a student and artist of jazz, will give a public lecture March 12 at 8:30 p.m. in the Dodge Room of Phi Beta Kappa Hall.

Mr. Joyce, a member of the Music Department at Newcomb College, has entitled his illustrated talk, "New Orleans Jazz, A Musical Gumbo." His campus visit is being sponsored by the Botetourt Bibliographical Society of the College.

Mr. Joyce will discuss the various separate nineteenth-century musical idioms that

Peter Schickele of "Intimate PDQ Bach" has been described as "the most original and satisfying expert at musical parody." Others in the group include John Ferrante, tenor, and David Obi, pianist. The stage manager, who will be responsible for the unusual sound effects and film portions of the program, will be William Walters.

The final concert of the current season will feature James Kreger, cellist, in a concert April 5.

blended together to form the first jazz style and illustrate his lecture with taped recordings of selections from the Tulane Jazz Archive.

Mr. Joyce received a B.M. degree from Loyola University, a B.A. in history from Columbia University, and an M.A. from Tulane University. He is presently engaged in working towards a Ph.D. degree in musicology from Tulane.

### Drug Action to Host Nine Inmates

The Drug Action Center will host "The Messengers from the Inside," nine inmates from Patrick Henry Correctional Unit, at the Community Awareness Session for March. "The Messengers," sponsored by the Four Times Seven Jaycees at their unit, travel throughout the state, speaking on their experiences with drugs. The session, presenting still another approach to the drug problem, will be held Wednesday, March 7 at 8 p.m. in Bruton Parish House.

The deadline for Project PLUS applications has been extended until Friday, March 9, (rising sophomores, juniors and seniors).

### Computer Center Short Courses Offered

The Computer Center staff will offer a series of noncredit short courses this spring. These courses are open to faculty, students and staff from William and Mary and other institutions which use the central computer. No course will be taught to fewer than six people and if six people request any additional course it will be offered.

Interested persons may register for these courses by calling Erika Stein at the Computer Center, Ext. 477. For additional information contact the course instructor, as listed below, or N. E. Gibbs at Ext. 477.

Courses and their descriptions are as follows: Intermediate job control language, designed for people who have done some programming and are interested in using more of the facilities of the operating system; Geri M. Ellis, instructor; April 4, 11, and 18, 3:30 - 4:30 p.m.

Fortran, designed for people who have had no previous programming experience. Participants will have the opportunity to use the computer. Merle M. Powell, instructor; March 5, 12, 19 and April 2, 7:30 - 9 p.m.

## David Shields is ITT International Fellow

David Shields

David S. Shields, of Gaithersburg, Md., a senior English major, is one of the first 30 people in the United States to be awarded the International Telephone & Telegraph Corp. International Fellowship.

This award, first instituted in November, 1972, will enable Mr. Shields to study for one year at Trinity College, Dublin, Ireland. He will research Irish realistic drama of the early 20th century. His study will focus on a group of writers called "The

Cork Realists," who worked from 1908-1924 at the Abbey Theatre in Dublin. According to Mr. Shields, "Very little is known outside Ireland of these naturalistic playwrights, yet they were very influential, affecting the work of Sean O'Casey and the entire direction of Irish drama after 1908."

During the summer of 1972, as a Virginia English-Speaking Union Scholar, Mr. Shields was engaged in related research into Irish drama at Oxford University, under Richard Ellman and W. D. Davies. He was the first William and Mary student to earn this distinction. At present he is a resident associate at Project PLUS and fiction editor of the *William and Mary Review* literary magazine.

The ITT International Fellowship enables American scholars to undertake a research project in a foreign country for one year. The objective of this award is to promote scholarship while promoting international goodwill. The fellowship of \$4,000 covers the projected expenses of a year of study in a foreign university on a specific research topic. Mr. Shields was selected for this award from among this year's Fulbright award finalists.

## Applied Chemistry Seminar Features Leading Scientists

A. D. F. Toy, chief scientist for the Stauffer Chemical Company, will deliver two lectures as part of the current seminar in Applied Chemistry being held on campus.

Mr. Toy will speak on "Phosphorous Chemistry in Modern Living," Monday, March 12 at 8 p.m. in Room 113 of the William Small Physical Laboratory.

His second talk, Tuesday, March 13 at 8 p.m. will be of a more scientific nature and will be entitled "The Chemistry of Chloromethylphosphonic Dichloride."

Both lectures are open to the general public but the lecture Monday evening is of a non-technical nature and is directed to the general public.

Mr. Toy has published 23 technical papers and holds 60 U.S. patents on phosphorus chemistry. He is chairman-elect of the New York section of the American Chemical Society.

The current series of lectures by outstanding people from industrial and government laboratories take up the role of chemistry in industry and government and its relation to economics, business and society.

Other speakers will include J. D. Hoffman, director, Institute for Materials Research, National Bureau of Standards, April 3-4; Warren Kaeding, Mobil Chemical Company, April 9-10; Leon Rosenberg, chairman, Department of Human Genetics, Yale

University, April 16-17; W. P. Slichter, executive director, Research, Materials Science and Engineering, Bell Telephone Laboratories, April 30-May 1; and Karl Folkers, director, Institute for Biomedical Research, University of Texas, May 7-8.

## Honor Society Offers Two \$150 Scholarships

Alpha Xi Chapter of Kappa Delta Pi, honor society in education, is awarding two \$150 scholarships for the fall semester 1973 to students involved in the field of education. One is to be awarded to a graduate student in education. The second is to be given to an undergraduate student with at least six semester hours in education courses by the end of second semester, 1972-73.

Applications may be obtained from Mr. Sykes in the Office of Teacher Placement and Scholarships, School of Education, Washington 214. Application forms must be returned to Washington 214 by Friday, March 16. Applicant should make certain to note on application form that he/she is applying for the Kappa Delta Pi Scholarship.

Scholarships are to be awarded on the basis of both financial need and academic achievement as well as a sincere professional interest in the field of education, according to Suzanne Savedge, president, Alpha Xi.

## King Scholarship Campaign to Begin

The appointment of a faculty chairman and student co-chairmen of the Martin Luther King, Jr. Memorial Scholarship for the current year was recently announced by Warren Heemann, vice president for college development.

Named were Gerald H. Johnson, associate professor of geology; Alma B. Winborne, a sophomore psychology major from Portsmouth; and Daniel N. Gepford, a senior philosophy major from Fanwood, N.J.

Miss Winborne is a member of the Black Students Organization and the Housing Committee, and Mr.

Gepford is a member of the Student Aid and Placement Committee and the debate team.

The scholarship was established in 1968 by the Faculty of Arts and Sciences to provide annual awards to minority students, preferably entering freshmen. Based on merit and need, the scholarships usually carry a stipend of \$500.

In this year's campaign, greater efforts will be made to personally solicit as many contributions as possible to bring the scholarship fund to a record high, commented Mr. Heemann.

## W&M Aids in Pre-School Program for Special Children

The Williamsburg Pre-School for Special Children has received assistance from many willing hands on campus.

Several Special Education intern teachers have participated in the program and received credit for their work. These positions are salaried and the school anticipates having two such interns during the 1973-74 academic year.

Susan Williamson of Williamsburg, a graduate student in education, helps in speech therapy, while members of Sigma Chi Fraternity have assisted in the construction and maintenance of equipment in the building. Sigma Chi members also sponsor birthday and holiday parties for the children.

Ronald R. Risdon, '74, of Arlington, is on the Board of Directors.

Established in 1965 with only four students, the school has grown to accommodate 18 children with retardation and developmental difficulties. It is funded by Chapter 10 Mental Health and Mental Retardation Services Board (through the Commonwealth of Virginia), the United Fund, local school board contributions, and private donations.

The school is currently undertaking its annual fund drive. Anyone desiring to assist in the program in any way should contact Mrs. Corine Garland, director of the school, at P.O. Box 774, Williamsburg, or telephone 229-6472.

## WCWM Station Manager Honored

Sue Billingsley

Sue Ann Billingsley, of Atlanta, Ga., a junior, has been chosen for the Rex Smith Scholarship Award for excellence in journalism.

Station manager for the College radio station, WCWM, she is the first junior to receive this award. Past recipients have been senior class members. She was cited for her outstanding leadership in expanding the facilities of WCWM, making the station more widely known, recruiting a good staff, and fostering a number of special programs. She has a record of high academic achievement and plans to pursue a career in

educational television after graduation.

In addition to receiving a cash award, Miss Billingsley will visit the donors of the award in New York this spring. Donors are Bob Considine, Hearst Headline Service; Walter Cronkite, CBS commentator; Ben Wright, president of *This Week* magazine; Miss Kay Hansen, secretary for American Airlines; and the Honorable Harry F. Byrd, Jr., U.S. senator.

The Rex Smith Scholarship was endowed in 1961 by journalistic friends of Rex Smith, late alumnus of the College who was exceptionally successful in the field of public relations.

# On the Sports Scene . . .

The basketball team took part in the Southern Conference tournament, March 1 - 3, in Richmond at the City Coliseum. Entering the tournament with a S-C standing of 5th place, the team won the opening game against Citadel, 97-72, but lost to Davidson in the semi-finals, 79-76. Mike Arizin, outstanding freshman forward, received another honor last week when he headed the Southern Conference second team, the only W&M player to make the team.

The fencing team won the last match of the season against Georgetown U., 24-3, Saturday. Having won the last three matches, the team finished with an overall record of 4 wins and 6 losses. Saturday's match was the first match in which W&M's women's team fenced, losing 4-5.

The men's swim team finished its season, Feb. 16 and 17, at the State Intercollegiate meet in Charlottesville, coming in second behind UVa. W&M presented their best performance of the season at the meet; they won four events, set five state records, and broke eight W&M records. Outstanding at this meet were Joe Ackerman and Rusty Bruni.

Women's swim team travelled to the state meet at Randolph Macon Woman's College, Feb. 24, and placed second behind VCU, 249-233. Eleven schools entered the meet. W&M took five first places: Peg Lawlor, 50 and 100 yd. butterfly; Kagy Richter, 50 yd. freestyle; Hossie Gibson, 50 yd. backstroke; and Hossie Gibson, Robin Morrison, Kagy Richter, and Lynn Adams, freestyle relay.

W&M easily won the State Collegiate Indoor track meet Wednesday night in Lexington against thirteen other schools, with 96 points. With some team members running in races other than their specialties, W&M still won seven of the 18 events: the high jump, the two-mile relay, the mile run, the 60 yd. high hurdles, the 1000 yd. run, the 880, and the 60 yd. low hurdles. Saturday and Sunday, the team was in Princeton, N.J., for the IC4A meet. Here, W&M made their best performance as a team, with a tie for fourth. Charles Dobson, sophomore, became W&M's first individual IC4A indoor track champion by winning the 60 yd. high hurdles in 7.2 seconds. Other outstanding performances included Reggie Clark, runner-up in the 1000; Al Sharrett, Charles Duckworth, Ron Martin, and Mac Collins, fourth in the distance medley; and Bill Louv, sixth in the two-mile run. Dobson, Clark, Collins, and the distance medley relay will probably travel to Detroit for the NCAA meet, March 9.

The gymnastics team met ODU and Citadel Saturday in a tri-meet which marked W&M's best performance of the season, coming in behind ODU, 98-95. The team's overall record for the season is three wins and five losses. Several members of the team will participate in the Virginia Invitational meet at Charlottesville, March 17; these include Martin Rich, Don Fergusson, Glen Willsey, Bob Lamberson, and Jim Harbert.

## House to Rent Needed for '73-74

Professor Don E. Fehrenbacher of Stanford University, who will be James Pinckney Harrison Professor of History for 1973-74, would like to rent a furnished house for the academic year for himself and Mrs. Fehrenbacher (no children, no pets). If you know of such a house, please call Ludwell H. Johnson, Ext. 313.

## Faculty Club Sponsors Cocktail Party

The Faculty Club will sponsor its fourth cocktail party of the year Friday from 5:30 - 7:30 p.m. in the Little Theatre of the Campus Center.

Tickets for the event may be purchased from Richard Prosl at the following rates: members, \$1.50 per person; non-drinking members, 50¢ per person; and non-members, \$3 per person.

## Advertisements

All copy must be typed or printed and delivered in person to the News Office (old Western Union office) before the Wednesday 5 p.m. deadline. To help defray the cost of publication, there is a charge of \$1 for three insertions of an advertisement. This is a flat fee and will not be determined by the number of words in the advertisement. No charge will be made for public service announcements in this section.

# Orchesis Club in Recital

"An Evening of Dance" will be presented by the Orchesis modern dance group March 21 and 22 at 8:15 p.m. in Phi Beta Kappa Hall.

A selection of nine dances, choreographed by members of Orchesis will represent a variety of moods from serious to whimsical. The show will also include a "revival" of a popular number from last year's program entitled "Windshield Wipers and Drips," arranged by Cathy Zimmerman.

Marnie Montgomery will be pianist for a number with a cyclical theme, "They Became as They Beheld," arranged by Lin Johnson.

Tom David is experimenting with special lighting and back-drop material for a dance he has choreographed entitled "Glimring."

"Bugged Bach" will have a background of music by the master but the dancers will draw on the antics of the insect world for the tempo of this dance. Choreographer is Kathy Zimmerman.

"Momente," a duet by Lisa Heeschen and Tom David and "Encounters," choreographed by Lisa Heeschen, are two lyrical numbers.

The program will open with "Encounters," a group dance choreographed by Miss Heeschen.

In the lyrical mood will be a dance entitled "Windsung," choreographed by Margaret Papodopolos.

Three paintings by Van Gogh, "Wheat Field," "Wind" and "Cypress," are used as the inspirational theme for "Landscape III" which is choreographed by Joan Wolbier.

"Equipose," by Cindy Stern, will create a sense of mobile shapes in space.

The finale, "Machinations," will include the entire company of dancers and has been choreographed by Joan Wolbier and Kathy Zimmerman.

Special lighting for the program has been designed by Margaret Ruhlmann.

Members of the Orchesis who will participate in the program include the following:

Lisa Heeschen, president, Charlottesville; Joan Wolbier, vice-president, Alexandria; Kathy Zimmerman, secretary, Leesburg; Margaret Papodopolos, McLean; and Mary Brent Whipple, Richmond, costume mistresses.

Also Meg Bartenstein, Warrenton; Debbie Clemmer, Souderton, Pa.; Sherry Crane, Timberville; Tom David, Abingdon; Bruce Falk, Staunton; Linda Foster, Farmville; Linda Hart, Richmond; Chris Holben, Falls Church; Lin Johnson, Beacon, N.Y.; Jenna Liles, Virginia Beach; Mark Martino, Indianapolis, Ind.; Lynn Melzer, Lake Forest, Ill.; Bobbi Miller, Falls Church; Nancy Nasworthy, Annandale; Jan Rivero, Reston; Debbie Seaver, Fayetteville, N.C.; Jim Schillinger, Arlington; Cindy Stern, Levittown, N.Y.; Jane Taylor, Virginia Beach; and Don Zuckerman, Winchester.

## BSO Publication Comes Off Press This Week

Ruby Hunter and Charles Dobson smile as they take a break from posing for the cover of the newly expanded BSO brochure which will be published this week. The Information Services Office cooperated with the BSO and Mrs. Juanita Wallace of Admissions in publishing it.
