## Student Bar Observes 'Law Day'

Lt. Governor Henry Howell will be principal speaker, Tuesday, May 1, at Law Day ceremonies planned by the Marshall-Wythe School of Law's Student Bar Association.

Howell will speak at a naturalization ceremony on the lawn of the Wren Building, May 1 at 2:30 p.m., which has been planned by the Student Bar Association in conjunction with the Norfolk-Portsmouth Bar Association.

A special session of the Federal District Court will be convened to perform the ceremony. The Honorable John A. McKenzie, Federal District Judge for the Eastern District of Virginia, will preside.

A reception following the ceremony will be held by the Williamsburg Chapter, Daughters of the American Revolution. The colors will be presented by the Colonial Williamsburg Militia.

In case of inclement weather, the naturalization proceedings will be held in the Campus Center Ballroom.

As part of Law Day activities, law students have arranged to visit twelve Tidewater high schools and three area colleges to discuss Law Day and the American judicial system. Students will also hold an open house at the law school for undergraduates interested in a career in law.

All Law Day activities are keyed to the national theme, "Help Your Courts Assure Justice."

The two-day program also included a panel discussion on Monday, April 30.

Students from the Marshall-Wythe School of Law won the American Bar Association's award for the best Law Day program in the nation last year.

### Congratulations!

"The first full-scale study of anglophobia in the United States, it demonstrates that anti-British nationalism could not be solely attributed to Irish-American political agitation. Rather, it was the corollary of the pervasive economic nationalism that developed during the last decade of the nineteenth century, when the United States challenged Britain for economic and political hegemony in Latin America and the Pacific."---Greenwood Press catalog of Forthcoming Books

SA president-elect Christine Owens has plans for a greater student government next year.

Chris, a junior philosophy major, won the number one SA position over incumbent president Cornell Christianson in a close election last month.

The SA, she feels, has a two-fold purpose: First, it must be representative of student concerns and articulate these concerns at all levels of the decision-making process; secondly, it must become a strong and vital force within the College community itself. "As such," she commented, "the SA should sponsor activities which serve to promote a genuine feeling of community spirit. I would like to see the Senate play a much greater and more responsible role than it has in the past in all matters of College concern."

Chris states that she will "personally work to effect better relationships within all segments of the College community, leading the SA in building student solidarity and at the same time playing an integral role within the community."

The College, she says, has experienced a great deal of change during the past two years. "Liberalization of social policies has freed student government from the battles it had to fight four years ago. The relatively recent policies of self determination with regard to visitation and curfew indicate the willingness of the current College administration to recognize students as adults within the academic community.

"The administration has also fostered increased student involvement in academic reform and institutional decision-making, but the question of student rights is not dead," asserts Miss Owens. "Students must still push for even greater involvement in the workings of the institution. Such a push is not necessarily antithetical to the goal of the community."

Continuing, she said, "We must be careful that while we seek more student power, we do not lose sight of the rights and responsibilities of all members of the College community. We must seek to foster an atmosphere of community spirit within the classrooms, residence halls, administrative offices, etc. We must be creative and innovative, seeking the implementation of policies which are conducive to such an atmosphere. Above all, we cannot forget the special problems and concerns of all groups on campus, and must seek to alleviate as much as possible these problems."

Concluding, she stated, "The student government must also work to bring about substantive academic reform. Such reform partially includes greater flexibility in degree requirements, exam scheduling, etc. But the core of academics is the subject matter and presentation of such. We as students must realize the real challenge of education and seek to be as creative and imaginative as possible. We must be careful not to condemn the faculty for academic problems which we ourselves create by lack of enthusiasm and ambition.

"This is not to say that the blame is entirely ours, for certainly there are many improve-

ments which the faculty can make. But we as students must feel a greater sense of responsibility for our own educational development. Above all, we should remember that William and Mary is first and foremost a liberal arts college; we must insure that our education is reflective of same."

Chris is the daughter of Louis F. Owens of Whaleyville. She is a member of the BSA, the Status of Women Committee, College Self-Study Committee, and Mortar Board. She is also a swimming instructor for the Williamsburg Area Tutorial Service (WATS).

Aspiring to become a public defender working with minority affairs, she plans to enter law school in the fall of '74.
