Sayre Professor of Government at Columbia University, will speak on "Public Policy and Urban Politics" at 8 p.m., Thursday, April 25, in the Campus-Center Ballroom. Mr. Hamilton's public lecture is part of his two-day stay at the College as a Phi Beta Kappa Visiting Scholar.

Mr. Hamilton has written several articles and books on the black experience in the United States, including *The Black Preacher in America*, *The Bench and the Ballot: Southern Federal Judges and Black Voters*, and *Black Power: The Politics of Liberation in America*, which he co-authored with Stokely Carmichael. The recipient of numerous awards and fellowships, Mr. Hamilton served as the vice-president of the American Political Science Association in 1972-73. He is a National Board member of the NAACP Legal Defense and Education Fund.

Jack D. Edwards, professor of government, who will succeed Harold L. Fowler as Dean of the Faculty of Arts and Sciences, July 1, will speak at the Spring Honors Convocation, Monday, April 29, at 8 p.m. in Phi Beta Kappa Hall. Because attendance at convocations has been dwindling for the past few years, James C. Livingston, Dean of the Undergraduate Program, has revamped the program to attract greater participation.

To avoid conflict with classes, the time of the program has been changed to the evening and for the greater comfort of those attending, the ceremonies have been moved from Blow Gym to Phi Beta Kappa Hall. Mr. Livingston said that the changes had been made after meetings with students. The list of athletic and academic awards will remain basically the same.

Special invitations to the convocation have been sent out to all faculty, representatives of student organizations and members of the Board of Visitors to bolster attendance within the College community.

A small reception, by invitation only, will be held in the Dodge Room immediately following the ceremonies honoring those who have received awards.

Law Day to be Observed April 30-May 1

Law Day 1974 will be observed on campus April 30-May 1 with the presentation of the Marshall-Wythe Medallion, naturalization ceremonies for approximately 100 Tidewater residents and a symposium on youth and the law.

The Medallion is given annually by the faculty of the Marshall-Wythe School of Law and honors Clark for significant contributions to the administration of justice.

The Honorable John A. MacKenzie, Federal District Judge for the Eastern District of Virginia, will preside over a special session of the District Court which will be convened for the naturalization ceremony which has become a traditional part of Law Day observance on campus.

Attorney Morris Fine of the Norfolk law firm of Fine, Fine, Legum and Fine, is coordinating a mock trial which will be held in the Moot Courtroom of the Law School at 3:30 p.m. following the program in Phi Beta Kappa Hall. Audience participation will be encouraged.

In line with this year's theme of Law Day, "Youth and the Law," a symposium on juvenile law will be held Tuesday, April 30, at 8 p.m. in the ballroom of the Campus Center.

Discussion will be centered around the topic, "The Present System of Juvenile Corrections: Is It Working or Is It the Road to Recidivism?" Panel members will include Judge Kermit Rooke of the Richmond Juvenile and Domestic

Relations Court; Larry Mason, director of the Beaumont School for Boys; Toni-ta Warren of Legal Aid in Newport News; Jim Elliott, director of the Green Acres Probation House in Williamsburg; and John Matish, assistant chief of probation in Newport News. Anthony Fitch, adjunct professor of law at the Marshall-Wythe School of Law, will moderate the discussion.

Continuing the Law Day theme into the community, students from the law school will visit area high schools and colleges on May 1.

Approximately 40 students, mostly from the first year class, will join Tidewater area attorneys in visits to schools throughout the Peninsula and Norfolk as well as Norfolk State College and Old Dominion University. They will discuss with students current legal issues including search and seizure, free press, abortion and the legal rights of young people.

The planning committee for Law Day 1974 includes three first year law students - Bill Bridges, John Ellis and Ellen Pirog - who hope that this year's program will win another national award for the Student Bar Association. For the past two years, Law Day programs on campus have been rated No. 1 in the nation.

Chemist Visits Campus

Henry A. Bent, professor of chemistry at North Carolina State University, spoke on "Science and Abstract Art," in Rogers Hall last Thursday.

Modern art and science are alike in many respects, Mr. Bent maintained. In the present century, particularly, both have moved from natural reality to abstract reality, from the particular to the universal, he feels. Modern art and science don't try to render the visible; rather, they try to make visible ideas. They simplify, deform, and distort, and make shockingly new demands of viewers. They are never wholly successful, Mr. Bent asserted. His lecture was illustrated with examples drawn from art and science, quotations, and several demonstrations.

Mr. Bent also met informally with members of the Chemistry Department last Friday to discuss current fads and trends in chemical education. In addition, he gave a technical talk on "Structural Chemistry and Localized Molecular Orbitals."

Official Memoranda

Maurice B. Rowe, secretary of Administration, Office of the Governor, sent the following memorandum, dated April 4, to heads of all State Agencies and Institutions:

"May we call your attention to the importance of continuing to evaluate carefully the travel requirements of the personnel of your agencies and institutions. The necessity for continuing to conserve both energy and financial resources is most prevalent, and we solicit your cooperation. The responsiveness of State Government in conserving energy resources, especially petroleum products, is of vital importance to motivate public recognition of the necessity for a statewide energy conservation program. We urge your continued interest in promoting car pooling, review of travel requirements and other appropriate actions.

"We are not seeking curtailment of essential programs which involve travel to provide services and to attend conferences, but rather we seek your leadership for conserving energy resources without unduly infringing upon the delivery of public programs.

"As you are aware, we continue to have the commitment on reduction of expenditures to reflect at the close of this biennium the agreed upon dollar savings to allow proper balancing of the budget. The budget office is monitoring this closely, and we know you recognize our total obligation and that only the most essential deviations will be authorized.

"The Governor has publicly stated his strong desire for improvements in the availability of both energy and budget resources. He does want to remind all of us that to economize in State governmental operations is a primary objective of administration. Your cooperation in these matters is appreciated.

Revised College Bus Schedules

The Vice President for Business Affairs has announced revised bus schedules which will become effective 7 a.m. April 29. The revision was recommended by the Board of Student Affairs in view of the energy crisis, the need for increased security measures and the emphasis on reduced operating costs. Both the Ludwell Apartments and the James Blair Terrace routes are affected.

Mr. Carter cited the thoroughness and sincerity with which the BSA conducted their survey that led to their resolutions. Excerpts of the resolutions that provided the impetus for the revised schedules are:

"Whereas the current energy crisis resulting in a twenty-five percent cutback in the College's fuel allotment, the rising cost of fuel, and a probable cutback in the College budget necessitate a cutback in the bus schedule.

"Whereas the Student Association Senate and Interhall have endorsed two new schedules which should resolve these problems.

"Whereas there is a security problem presently at the College, The Board of Student Affairs recommends to the Vice President for Business Affairs and to the Office of Buildings and Grounds that the Ludwell bus add a stop at the Library parking lot for all runs after dark.

"Whereas every bus stop adds to the wear and tear of the buses The Board of Student Affairs recommends to the Vice President for Business Affairs and the Office of Buildings and Grounds that the stop at Fraternity field and the stop at Old Dominion be deleted from the schedule."

Mr. Carter notes that the resolution has been incorporated in the new schedules in its entirety with the one exception of the deletion of the stop at Old Dominion. This stop is being retained to provide service mainly to the Old Lodge classroom areas and the Post Office. He also requests full cooperation in utilizing designated bus stops only, as this is a definite factor in attaining the anticipated savings. (Please note that the JBT Saturday and Sunday schedules differ from the JBT weekday schedules.) The new bus schedules and routes which will become effective at 7 a.m. on April 29 are as follows:
