David Mathews

HEW Secretary To Speak At '76 Graduation

President Gerald Ford's youngest cabinet member and only member from the Deep South, David Mathews, 39, Secretary of Health, Education and Welfare, will give the address at the College's Bicentennial commencement in 1976.

Exercises will be held May 16 in front of the historic Sir Christopher Wren Building.

The invitation to Secretary Mathews was extended by R. Harvey Chappell, Jr., of Richmond, Rector of the Board of Visitors, with the prior endorsement of Senior Class President Nancy Turrentine of Nashville, Tenn.

Mathews was sworn in as the 11th Secretary of Health, Education and Welfare on Aug. 8, 1975. He came into the cabinet from the University of Alabama where he had been president since 1969.

As Secretary he heads a department of 129,000 employees responsible for more than 350 programs and an expenditure of about one third of the total federal budget.

At the beginning of his tenure, he established two major priorities: the dramatic improvement of federal-state relations, and assistance to the disadvantaged in becoming self-reliant. He has said he intends to work for the removal of statutory and regulatory barriers which inhibit state initiatives in the human

resources area, and to bring the states into close partnership with HEW in the administration of joint programs.

A native of Grove Hill, Ala., Mathews earned his undergraduate degree from the University of Alabama and went on to receive a doctorate in the history of American education from Columbia University.

At 33 he was the youngest president ever appointed at the University of Alabama. During his six-year tenure he was known as an innovator and an "apt people manipulator." During the turbulent years of campus unrest during the late 1960's Mathews was praised for his ability to bring together students, faculty, administrators, area citizens and government, then work with them all toward solutions, without public confrontations.

Continued on Page 3

Sunday Series Performance

Artists Alan Hacker and Richard Burnett will be featured at the second Sunday Series performance, Oct. 12, at 4 p.m. in the Campus Center Ballroom.

The British duo brings to Williamsburg a unique combination of instruments in a most unusual program. For many years, Burnett has pioneered the use of early pianos and has performed with great acclaim on the pre-iron frame instruments.

Mr. Hacker at nineteen joined the London Philharmonic Orchestra and two years later was appointed clarinet professor at the Royal Academy of Music. Many works have been written especially for him.

Instruments to be used in the Sunday performance include a reproduction of a baroque clarinet and a reproduction of a south German fortepiano by Adlam Burnett after Mathaeus Heilmann of Mainz, circa 1785.

Telemann, Mozart and Schubert are among the composers whose works are included in the program.

Campus Exhibitions

Andrews Gallery

GOYA'S LOS DESASTRES DE LA GUERRA--Sept. 27-Oct. 15. (Hours, 10 a.m. - 4 p.m., Monday through Friday.) Forty etchings from a series of eighty, recently purchased by the Virginia Museum for its permanent collection. The series is one of Goya's most famous and is one of the most outspoken protests by an artist against the inhumanity of war.

Botetourt Museum

WILLIAM MORRIS EXHIBIT--Oct. 1-Dec. 1. (Hours, 8 a.m. - 5 p.m., Monday through Friday; 9 a.m. - 1 p.m., Saturday.) Books, manuscripts and artifacts of William Morris, poet, artist, printer and socialist. The display is being held in conjunction with the meeting of the Victorian Institute in Williamsburg, Oct. 11.

Sunlight filters through the trees along the path to Crim Dell.

Full Weekend of Festivities Planned for 1975 Homecoming

The dedication of three campus facilities will be part of the 1975 Homecoming weekend, Oct. 10-11.

Rogers Hall, the new classroom building which houses the departments of chemistry and philosophy, will be dedicated at outdoor ceremonies to be held Friday afternoon, Oct. 10 at 3:30 p.m.

Following a welcome by President Graves, remarks will be made by Associate Professor of Philosophy Alan E. Fuchs, Associate Professor of Physical Education Mildred B. West, and by Professor of Chemistry Alfred R. Armstrong. R. Harvey Chappell, Jr., rector of the Board of Visitors, will also speak at the occasion.

Rogers Hall is named for William Barton Rogers, 1804-1882, an alumnus of the college and professor of natural philosophy and chemistry, who was the founder and first president of the Massachusetts Institute of Technology (MIT).

The \$2.3 million structure opened for classes in Septem-

ber. It was designed by Wright, Jones and Wilkerson of Richmond and constructed by Cochran Construction Company of Hampton.

The dedication ceremonies will also include the presentation by the Board of Visitors, alumni and friends of the College, of a sculptured plaque in honor of William G. Guy, a long-time member and former chairman of the department of chemistry.

The plaque was designed and executed by sculptor Carl Rosenberg, a member of the fine arts faculty.

Those at the dedication ceremonies will be invited at the close of the program to walk across the playing fields in front of the chemistry building to view the dedicatory plaque which has been placed at the intersection of Old Campus and Jamestown Roads at the boundary of the Barksdale Playing Fields.

The playing fields were named in honor of Martha Barksdale, '21, a teacher and

coach of physical education for women for forty-five years and a member of the first class admitting women.

Following the traditional homecoming parade Saturday morning, the newly refurbished Alumni House on Richmond Road will be dedicated to alumni and persons who have played an important role in the development of the College over the past 75 years of this century.

Homecoming this year includes the annual meeting of the Society of the Alumni, presentation of the Alumni Medallions for service and loyalty to the Society, and a sunset parade honoring deceased alumni. "A Child's World of Fantasy" has been selected as the theme for the homecoming parade before the football game between the William and Mary Indians and Ohio University.

Luncheon on the lawn will be served for returning alumni at Alumni House. A dance Saturday evening will cap the weekend program.

Campus Wrap-Up

English Department Discussion

All undergraduate and graduate students who are prospective teachers of English are invited to attend an open discussion on the issues and problems involved in grading student compositions. Sponsored by the Freshman Writing Committee of the English department, the discussion will be led by Martha Reid, a member of the department. It will be held at 4 p.m. on Thursday, Oct. 9, in Wren 310.

Physics Colloquium

Joe K. Alexander of the Goddard Space Flight Center will discuss "Radio Wave Emission from Plasmas in Planetary Magnetospheres" at a physics colloquium, Oct. 10 at 4:30 p.m. in Room 109 of Small Laboratory. Coffee will be served prior to the colloquium in the conference room.

RA Applications Sought

There will be two RA positions available for the spring semester, one for men in Yates, and one for women in the Madison-Stith basement. Applications are available in the Office of Residence Hall Life, James Blair 206B. They are due by 5 p.m. on Oct. 15.

Holiday Ski Trip to Canada

Students interested in a skiing trip to Mt. Treblant, Canada, during Christmas vacation should contact Mrs. Jackson, Adair 102, Ext. 360, by Oct. 21. The trip is available on either a physical education credit or non-credit basis. The fee of \$345 includes meals, transportation, lodging, ski lessons, use of ski lifts and a one night stopover in Montreal.

German House Invitation

Members of the College community are invited to join in the weekly activities of the German House. Schedules of films, conversation hours, folk dance meetings, fairy tale study group, music club, craft groups, a dinner club, and other activities are posted in the German House lobby and on the bulletin board outside Washington 106.

The German folk dance group encourages interested persons to attend its meetings every Tuesday evening at 7:30 at the house.

Intern Positions Available

Sea Pines Associates, an affiliate of Sea Pines Company of South Carolina, is seeking students interested in internship positions. The company renders professional services in the fields of land use, tourism and recreation, and community development. Contact the Placement Office, 104 Morton, Ext. 604, for information.

Bloodmobile Visit

Members of the College community will have an opportunity to donate blood when the Red Cross Bloodmobile is in the area on Thursday, Oct. 9, from 11 a.m. to 5 p.m. at the Williamsburg United Methodist Church, 514 Jamestown Road.

'Hollow Crown' Portrays Monarchs

The William and Mary Theatre will sponsor the Royal Shakespeare Company's production of "The Hollow Crown" in Phi Beta Kappa Memorial Hall at 8:15 p.m. on Sunday, Oct. 12. This group is the first professional company to appear under the aegis of the college theatre during the 1975-1976 season.

"The Hollow Crown" is an anthology devised and directed by John Barton with designs by Anna Steiner. The actors will present Kings and Queens of England in a unique dramatic mosaic of letters, poems, speeches, songs and music.

Alive with the wit of several centuries, the historical panorama reveals the vulnerable humanity of those who have worn the British crown, from William I to Queen Victoria.

Chroniclers of the 16th and 17th centuries give a humorously blunt description of King Richard I: "Big of stature, with

a merry countenance, fair and comely; bountiful to his friends, to strangers a grievous enemy; so that not without cause he obtained the surname of Cour de Lion"; and of Prince John who became his successor: "He was somewhat fat, of a sour and angry countenance. He was all by fits, intemperate in his best temper, but when distempered with sickness most intemperate of all."

The performance is billed as portraying "not the majestic Kings and Queens of England

At Annual Meeting of Victorians Institute

William Morris Is Program Focus

William Morris, a 19th century English writer and an early socialist, will be the focus of the Victorians Institute sixth annual meeting on Oct. 11 at William and Mary.

During the morning session, which will be held in the Botetourt Theatre of Swem Library, Margaret A. Lourie of the University of Michigan will discuss "The Defense of Guenevere and Other Poems." She will be followed by John Y. LeBourgeois of Clemson University discussing Morris and Marxism, and by William B. O'Neal of the University of Virginia, who will speak on Morris and design.

The main address will be given by W.E. Fredeman of the University of British Columbia at 2:30 p.m. His lecture is entitled "What may he not yet do" and will be given in the auditorium of William Small Physical Laboratory, room 113.

Public Invited

Those interested in attending

New Brochure On Ash Lawn Is Published

The College has recently published a folder for visitors to Ash Lawn, the home of James Monroe bequeathed last year to the College by the late Jay Winston Johns of Charlottesville.

The new brochure was published as an attempt to correct the record on what Ash Lawn really is. In addition to noting some of the history of Monroe and his "cabin-castle," the folder points out William and Mary's on-going work in researching and restoring the residence and adjoining gardens.

Ash Lawn, known as "Highlands" in Monroe's time, is open to the public, 9 a.m.-6 p.m. daily.

the sessions must complete registration Saturday morning, 8:30-9:30, in the Botetourt Gallery of Swem Library. The fee is \$6.50 and includes the cost of the luncheon, which will be held in the Campus Center.

An early socialist, Morris was very interested in bringing culture to the masses, according to Nathaniel Elliott, associate professor of English. Morris wanted to "bring art out of the museums and into the home of the average man," explained Elliott.

A creative man of great versatility, Morris pursued a number of activities during his lifetime in an attempt to carry out his beliefs. In addition to his literary talents, he founded a book press and an interior design company.

The Victorians Institute is a regional association of people interested in the study of all aspects of the Victorian Age. Elliott, Assistant Professor Terry L. Meyers and Professor Fraser Neiman, all of the English department, have organized the program for this year's meeting of the Institute.

Special Exhibit

To complement the program, Meyers and Margaret Cook, curator of manuscripts at Swem Library, have arranged for an exhibit of Morris' works to be on display in the Botetourt Museum.

Among the many items included are letters, autographed manuscripts, fabrics produced by Morris' interior design company, and books printed by the Kelmscott Press, which he founded.

A special feature of the exhibit is a slide show of

wallpaper, stained glass and furniture designed by Morris and his associates.

Items are on loan from Richmond's Valentine Museum, the rare book department of the University of Virginia Alderman Library, the Hollins College Library, Pierpont Morgan Library in New York, Mr. and Mrs. Harry A. Walton of Covington, Va., and Mr. and Mrs. John S. Mayfield of Bethesda, Md.

The exhibit will run through Dec. 1. Museum hours are 8 a.m.-5 p.m., Monday through Friday, and 9 a.m.-1 p.m., Saturday.

Emperor's Book On Display At Swem

Swem Library observed the visit of Emperor Hirohito of Japan to Williamsburg Sept. 30 and Oct. 1 by displaying "The Crabs of Sagami Bay," a book describing 340 species of crabs from the Emperor's collection.

The book contains 100 color plates and drawings of a number of species of crabs. Published in 1965, the book is edited by the biological laboratory of the Japanese Imperial Household.

"The Crabs of Sagami Bay" was donated to Swem Library by Dr. Robert J. Faulconer of Norfolk, a member of the Board of Visitors, in memory of his father-in-law, Dr. Donald Walton Davis, professor of biology from 1918-1950 at William and Mary.

The book will remain on display in the reference section of Swem Library for several weeks.

Courses Offered For Non-Credit

Non-credit courses offered by the Office of Special Programs and their registration dates are as follows:

Starting Your Own Business in Virginia, 8 weeks beginning today. Will be held at the Virginia Associated Research Campus. Fee \$45.

Open Education: Facts and Fiction, 5 weeks beginning today at VARC. Fee \$45.

Emergency First Aid, 8 weeks, beginning today in Williamsburg. Fee \$25.

Industrial and Plant Security, 7 weeks, Oct. 8 at VARC. Fee \$65.

Law for the Layman, 10 weeks, Oct. 8 in Williamsburg. Fee \$50.

Colonial and Revolutionary Virginia History, 7 weeks, Oct. 8 at VARC. Fee \$35.

Colonial Gardens, 3 weeks, Oct. 11 in Williamsburg. Fee \$30.

One day field trip to survey birds and plants of the Eastern Shore, Oct. 11. Fee \$35.

Anthropology and Contemporary Issues, 7 weeks, Oct. 13 at VARC. Fee \$45.

Intensive Group Experience, 9 weeks, Oct. 13 in Williamsburg. Fee \$45.

Family Systems, 6 weeks, Oct. 14 in Williamsburg. Fee \$35.

For detailed information concerning any of these courses and the field trip, contact the Office of Special Programs at VARC, 877-9231, Ext. 200.

W&M NEWS

Volume IV, No. 6

Oct. 7, 1975

Published weekly through the Office of Information Services by the College of William and Mary for faculty, staff and students. Produced by the College News Office, 125 Richmond Road. Inquiries should be directed to Marjorie N. Healy, Information Officer. Mailed to addresses of employees as on record at the Personnel Office. James Blair Hall, to which Office address changes should be directed.

Commencement Set For Wren Yard

James S. Kelly, assistant to the president and chairman of the commencement committee, announced last week that the College's administration has reversed its decision to move the spring commencement exercises to William and Mary Hall.

The initial decision to move the exercises to the Hall was made to alleviate the problems of traffic noise, poor visibility, limited seating, audio difficulties and weather considerations in the front yard of the Wren Building.

Student leaders--representing the senior class, the three graduate student associations and the student bar association--wrote to President Graves requesting "that the traditional location of the graduation exercises remain unchanged in 1976." They stated that students were willing to put up with the problems attendant to ceremonies in the Wren Yard for the sake of having graduation there.

Following discussions by the Commencement Committee and a review of the student request

by the President's Advisory Council at its regular meeting last week, President Graves accepted Kelly's recommenda-

tion that the Wren Yard tradition continue for the May 1976 Commencement.

Graves Is New Officer

President Graves has been elected Vice Chairman of the Council of Presidents of State-Supported Colleges and Universities for a one-year term.

The Council meets monthly to discuss problems common to higher education in Virginia.

The newly elected President is Dr. Ronald Carrier, Madison College. Dr. Graves succeeded Lyman Brooks of Norfolk State College, and Dr. Carrier succeeded Dr. Henry Willett, Longwood College.

COMMENCEMENT SPEAKER

Continued from First Page

Mathews is the third generation of his family to hold office. His great grandfather was elected to the Alabama State Legislature for the first time in the 1890's. His grandfather, D.C. Mathews, now 89, served three terms in the Alabama House of Representatives.

Mathews is married to the former Mary Chapman of Grove Hill. They have two daughters.

Todd House Included In Tour

The Mallory Todd House, owned by religion professor David Holmes and his wife, Carolyn, is one of several included in the Smithfield Library Association's annual tour of homes.

The older part of the 18th century residence was built by Nicholas Parker, cabinet maker, in 1753 and was acquired by Captain Mallory Todd a few years later.

A native of Bermuda, Capt. Todd ran away to sea at an early age and eventually became the owner of sailing vessels that carried on trade between America and the West Indies. He was the founder of the ham curing and packing industry in Smithfield, and is said to have started the business in the basement of his home.

The Holmes purchased Todd House in 1973 and are now in the process of restoring it.

For information on the Oct. 15 tour, contact Mrs. R.E. Clay, Jr., at 357-4601.

Jack Edwards, dean of the faculty of arts and sciences, gives a winners smile after his all star team defeated the women's varsity team in a match to kick off the campus United Fund Drive.

Tennis Winners Pledge \$815 of \$9,600 goal

Campus U.F. Drive Gets A Boost

A tennis competition reminiscent of the famous Billie Jean King-Bobby Riggs match served to focus attention on William and Mary's annual United Fund drive last week.

Nine members of the faculty and administration designated as the "Faculty All-Stars" eked out a narrow 5-4 victory over the women's varsity tennis team, proving that age and experience may still be able to overcome youth and vitality.

The Monday afternoon competition was staged to kick-off this year's drive to reach William and Mary's United Fund goal of \$9,600. Associate Dean of the Faculty of Arts and Sciences David Kranbuehl reported that the all-male faculty team pledged \$815 for "the privilege of playing the women's varsity." He also admitted that there was some question as to whether the varsity "let up" in the final tie-breaking set, knowing that happy winners would donate more than discouraged losers.

The women's squad won four of the six singles matches but found the bulls-eye aim of the faculty men too much to handle in the doubles competition.

Jack Edwards, dean of the faculty of arts and sciences and captain of the all-stars, organized the event with varsity coach Millie West to help make the College Community more aware that the fund drive had started. Members of the faculty team included Scott Donaldson, Alan Fuchs, John Conlee, Ron Brown, Bob Welsh, Jim Livingston and Larry Ventis.

Informed sources report that members of the all-star team were chosen according to two criteria. "First, a player must be willing to show up, and

second, his I.Q. divided by his age must be 1.5 or higher -- on the assumption that older players must use intelligence rather than power." The source noted that one or two players did not satisfy the second criterion but that their strengths compensated for this lack.

William and Mary employees were given their first opportunity to make pledges to the United Fund last week when they received their bi-weekly paychecks. The College offers three ways to contribute, including an installment plan that deducts a specified amount from the employee's paycheck over a span of ten pay periods, beginning Dec. 15. Employees may also be billed directly by the United Fund or make contributions by check to the Greater Williamsburg United Fund.

Members of the College's United Fund drive committee explained in a letter to faculty and staff that the drive is a combined appeal in behalf of 16 community services. They cited several agencies and fund goals of particular concern to many in the College community, including Bacon Street (\$13,000), Williamsburg Area Day Care Center (\$15,000), Williamsburg Pre-School for Special Children (\$12,500), and Circle K (\$1,000), a William and Mary organization for children.

William and Mary's United Fund goal this year is \$9,600. The College's committee members, concerned that William and Mary has not reached its United Fund Goal for the past three years, point out that, "While it is difficult to ask people to increase their giving during a period of inflation and

unemployment, we hope you will remember how much more present economic conditions hurt those who need the services of these community agencies."

Members of the committee include David Kranbuehl, associate dean of the faculty of arts and sciences; Esterine Moyler, Campus Post Office; Rita

Quick, office of the dean of the undergraduate program; Linda Collins Reilly, classical studies; That Tate, Institute of Early American History and Culture; and Jack Willis, English.

All pledge cards and contributions should be returned to David Kranbuehl, James Blair 112, or to the payroll office.

Pulitzer Winner To Give Reading

W.D. Snodgrass, one of America's foremost poets, will present a public reading from his works on Thursday, Oct. 9, at 8:15 p.m. in Millington Auditorium.

The reading is sponsored by the English department and is open to the public free of charge.

Snodgrass is the author of two collections of his own verse, "Heart's Needle" (1960), and "After Experience" (1967), a book of translations of the German poet Christian Morgenstern, and a collection of essays entitled "In Radical Pursuit" (1975). His poetry appears regularly in most of the leading literary magazines.

He has been the recipient of numerous prizes and awards for his poetry, including the Pulitzer Prize for his first volume of collected verse and the Guinness Poetry Award in Great Britain.

A graduate of the State University of Iowa program in creative writing, Snodgrass has given readings and lectured widely in universities and at writers' conferences throughout the United States and Canada. He has toured with readings under U.S. State Department auspices in Bulgaria, Romania, Hungary, Germany, Portugal, Belgium and Scotland.

Snodgrass is at present a member of the English and Speech Departments at Syracuse University, having previously been on the faculties of Cornell,

Rochester and Wayne State Universities. He was Phi Beta Kappa poet at William and Mary in 1967.

W.D. Snodgrass

Faculty/Staff News

ANTHROPOLOGY

Visiting Professor **Mario D. Zamora** is author of a review of Carol and Melvin Ember's *Cultural Anthropology*, Appleton-Century Crofts, in the latest issue of the *Anthropological Journal of Canada*, Anthropological Association of Canada bulletin, Ontario, Canada.

Fehrenbach's essay on a work by a black American playwright, "William Edgar Easton's *Dessalines: A Nineteenth-Century Drama of Black Pride*," appears in the September, 1975, issue of *CLA Journal*, the official publication of the College Language Association.

conjecture for tournaments is false," Aug. 18-22 in Kalamazoo, Mich.

RELIGION

Associate Professor **David Holmes**, on leave this year, has written a pamphlet concerning "The Episcopal Church and the Revolutionary War." It is one of ten being published by the Bicentennial Committee of the national Episcopal Church.

FINE ARTS

Carl Andersson Roseberg, professor, is participating in the James River Artists exhibit of paintings, sculpture and pottery featuring faculty members of the College of William and Mary, Virginia State College and Virginia Commonwealth University. Roseberg is showing 15 pieces of sculpture, including works in stone, wood, welded metal, plastics and cast bronze. The exhibition opens Oct. 5 and will be on exhibit through the end of the month at Harold Decker's Arts International, Ltd. gallery in Norfolk.

Paul Helfrich and **Miles Chappell** recently judged an art exhibition sponsored by the Junior Women's Club in Williamsburg.

CHEMISTRY

Professor **S. Y. Tyree** presented an invited paper at the 1975 Annual Meeting of the Association for Preservation Technology which was held in Williamsburg Sept. 25-27. The paper was entitled "A Chemist's View: The Preservation of Mortars."

At the request of the College Chemistry Consultants Service, Professor Tyree visited Monmouth College, West Long Branch, N.J., on Oct. 2-3, for the purpose of advising with faculty and administration on the chemistry program at Monmouth.

ECONOMICS

Assistant Professor **Allen Sanderson** has been accepted for the N.S.F. Chautaugau-type Short Course Program in Economic History to be held in October and March at Clark College in Atlanta. Professor Sanderson's review of *Agriculture in the Postbellum South: The Economics of Production and Supply* by Stephen DeCanio will appear in the winter 1975 issue of the *Business History Review*.

ENGLISH

An article by **Robert Fehrenbach**, associate professor, "The Characterization of the King in *1 Henry IV*," will appear in a forthcoming issue of *Shakespeare Quarterly*, the journal of Shakespearean studies published by the Folger Shakespeare Library.

MATHEMATICS

Assistant Professor **Robert W. Miller** has had a paper entitled "Factors of Cofinitely Generated Injective Modules" accepted for publication in the *Communications In Algebra*. The paper was co-authored by Darrell R. Turnidge of Kent State University. Miller's research was supported by a William and Mary Summer Research Grant.

Associate Professor **George T. Rublein** attended a symposium on Calculus of Variations and Control Theory, Sept. 22-24 in Madison, Wisc.

Paul K. Stockmeyer, assistant professor, attended the annual summer meeting of the American Mathematical Society, where he presented a paper entitled "The reconstruction

On Sept. 25, Associate Professor **Stuart Flanagan** directed a one day NSF conference for 40 teachers from central and northern Virginia. The purpose of the conference was to assist teachers in problems of implementing a computer augmented course in Algebra II-Trigonometry. Stu Katzke, formerly a member of the Department of Mathematics, along with the math supervisors for Chesterfield, Henrico, Fairfax and city of Richmond schools participated.

SCHOOL OF EDUCATION

INVITATION EXTENDED

An invitation has been extended to the college community to an open house Sunday, Oct. 12 from 2-5 p.m. at Flowerdew Hundred as part of the Prince George Day celebration in Prince George County.

Visitors will be able to see several archaeological sites as well as archaeological exhibits being prepared especially for the event by Southside Historical Sites, Inc.; English millwright Derek Ogden constructing a windmill, and a collection of millstones.

Flowerdew Hundred, one of the oldest plantations on the James, was the 17th century home of Governor George Yeardley and was the site of the first windmill in America.

Flowerdew Hundred on the south side of the James River is about an hour's drive from Williamsburg via Route 5. It is located 8-10 miles east of the Benjamin Harrison Bridge near Garysville, just off state Route 10.

Maps will be available at the anthropology department office and at the College switchboard in James Blair.

Daniel Callahan

Talk On Death Slated

Daniel Callahan, director of the Institute of Society, Ethics and Life Sciences, Hastings on Hudson, N.Y., will discuss "Can There be Death with Dignity?" at 8 p.m., Oct. 15, in the Campus Center Little Theatre.

Callahan is a consultant on medical ethics for the American Medical Association and was a consultant for the Commission on Population Growth and the American Future and the National Research Council. He is a former executive editor of the magazine "Commonweal."

In addition to written essays and articles, he has written several full-length books, including "The Tyranny of Survival," "Ethics and Population Limitation," "Abortion: Law, Choice and Morality," and "The Mind of the Catholic Layman."

EXHIBIT SLATED

An exhibit and sale of original graphics from the Ferdinand Roten Galleries will be held Wednesday, Oct. 8, in Andrews Hall from 10 a.m. to 5 p.m.

Campus Security Log

The following items have been reported stolen and are under further investigation:

Sept. 1/11:40 a.m.

White refrigerator (4x4x3) with wood grain formica top, from Tyler Conservatory.

Sept. 2/10:10 a.m.

Tan leather wallet with \$20 and ID cards, from room in Sigma Pi fraternity house.

Sept. 3/11:30 a.m.

Brown leather wallet with \$10, from room in Kappa Sigma fraternity.

Sept. 6/4:30 p.m.

Purple Free Spirit 10-speed bicycle, from James Blair Terrace #42.

Sept. 8/7:45 p.m.

Men's Vista brown 10-speed bicycle, from Old Dominion Hall.

Sept. 9/7 p.m.

White Whirlpool refrigerator, from Old Dominion Hall.

Sept. 13/11:05 a.m.

Chair cushions, from lounge in Brown Hall.

Sept. 15/8:30 a.m.

Ten pounds of frozen meat, from freezer in Pi Beta Phi sorority house.

Sept. 15/8:55 a.m.

Two Seth wall clocks, 10" in diameter, from the Law School.

Sept. 15/4 p.m.

Sears electric slide rule calculator in black case, from carrel in Swem Library.

Sept. 15/5:30 p.m.

Black wooden clarinet in brown alligator case, from coat rack in Commons.

Sept. 17/2 p.m.

Coronet electric typewriter with 12" carriage, from storage room in Landrum attic.

Public Service Notice

The Williamsburg Pre-school for Special Children is trying to identify all special children in James City County, York County, Poquoson and Williamsburg. The pre-school serves special children, from birth through seven years of age, and their parents either in a center based program at the school or in a Home Help Program.

Who is the special child that may need the pre-school services? The special child may have trouble sitting, standing, walking, talking, seeing, hearing. He may have seizures, be hyperactive or very quiet. He doesn't learn or may be slow to learn. If a special child gets help early--as early as a few months after birth to 3 or 5 years old--the child has a better chance to develop and to do his or her best.

We know that there are more mentally retarded, cerebral palsied children, children with speech, hearing and behavior problems in our area than the pre-school has found and is serving. Do you have a special child? Do you know someone who does? Williamsburg Pre-school for Special Children services are available to anyone in the community, free of charge. All referrals are confidential. Please call 229-5909 or 229-8626, or write post office Box 774, Williamsburg, Virginia, 23185 for further information.

Visiting Scholar Is Expert On Education, Bargaining

Myron Lieberman, director of the Office of Program Development, the Office of Teacher Education, and the Teacher Leadership Program under grants from the Ford Foundation and the U.S. Office of Education, will speak here Thursday, Oct. 9, at 8 p.m. in the Campus Center Little Theatre.

His lecture is part of the Visiting Scholars Program.

Lieberman has formerly served on the faculties of the University of Illinois, University of Oklahoma, Yeshiva University, and Rhode Island College. Additionally, he was research analyst with the War Department, director of basic research for the Educational Research Council of Greater Cleveland, editorial consultant for Rand McNally Company, and director of the Office of Program Development of the Office of Teacher Education.

His vast field experience includes negotiating and consulting on collective negotiations to a wide variety of school boards, school board organizations and teacher organizations including the U.S. Department of Justice.

He has been author or co-author of numerous works on the field of education, and two of his books were selected by the Enoch Pratt Free Library as outstanding educational books.

"Education as a Profession" received the honor in 1956 and "The Future of Public Education" in 1960.

Lieberman will participate in informal class discussions with students Oct. 10 before leaving for Richmond. His visit here will culminate a week-long lecture series at several Virginia colleges.

Campus hosts will include Phi Delta Kappa education honorary; the School of Education and the Graduate Student Association of the School of Education.

The School of Education last year held 12 conferences for teachers, which were attended by over 2,500 teachers from across the state.

This year already the School has sponsored two conferences, one for English teachers and the other with the department of history for social studies teachers.

Mark Gulesian was organizer for a conference held recently at Fort Magruder Inn for English teachers who were W&M alumni. Principal speaker at the opening session was Trudier Harris, assistant professor of English who spoke on Black literature and concluded her remarks by reading one of her

own short stories. Workshop sessions the next day provided an opportunity for alumni in education to get together and compare notes and discuss new teaching techniques.

"Revolution in American History," a conference workshop sponsored jointly by the history department and the School of Education, attracted over 100 teachers from across the state last Saturday.

Dean James M. Yankovich of the School of Education gave the welcoming remarks to the opening session in the Wren Great Hall. "Revolution as an Idea in American Life," was presented as the opening address by Edward P. Crapol, associate professor of history.

Workshop sessions were included in the one-day conference.

Personnel Bulletin

The following positions at the College are or will be vacant. Those denoted with an asterisk (*) are available to any qualified individual. The remainder are open only to permanent classified employees or faculty of the College. To apply, contact the Personnel Office, James Blair Hall, Room 201. The College of William and Mary is an equal opportunity employer. Accordingly, women and minority employees are encouraged to apply for those positions for which they feel they are qualified.

Inquiries about vacancies should be directed to the Personnel Office and not to the department where the opening exists.

Call 229-JOBS (229-5627) for an updated listing of job vacancies and 24-hour service.

*CLERK STENOGRAPHER C: \$6144, Development Office, 10-11-75.

*CLERK TYPIST C: \$5880, Law School, 10-8-75.

*CLERK TYPIST C: \$5880, Treasurer's Office, 10-11-75.

*DIRECTOR OF AUXILIARY ENTERPRISES: \$12,000-16,400, Business Office, 10-19-75. Qualifications: College degree and 4 years of business management and housing experience.

Sadler Love

Physics Student 'Hooked' On Space Colonies

Sadler Love, a graduate student in physics, is a volunteer with a fascinating job—he answers mail for one of the leading space scientists in the world, Dr. Gerard O'Neill of Princeton University.

Love, from Charlotte, N.C., is one of a team of "correspondents" who have volunteered to handle the inquiries O'Neill receives about colonies in space with clean air, pure water and unlimited energy.

O'Neill gets more than 50 letters a day from people of all ages and walks of life who are fascinated by his concept of life in space within the next decade.

Space colony for 10,000

Recently a report of a summer study sponsored by the National Aeronautics and Space Administration and the American Society of Engineering Education at NASA's Research Center in Mountain View, Cal., reported that a self-sufficient space colony for 10,000 persons with shops, schools, industry and agriculture could be built in an orbit 240,000 miles from earth.

The team recommended that the United States move toward setting up such a colony as a "basic step in expanding habitation of the universe." The cost would be about \$100 billion, two to three times the cost of the Apollo project, or one sixth the cost of Project Independence, a federal program to make the U.S. independent of foreign energy sources.

O'Neill drew national attention with an article on space colonization in the September 1974 issue of "Physics Today."

William and Mary was one of the first colleges to invite O'Neill to speak following publication of his fascinating concept, and when O'Neill came to campus, Sadler Love was sitting in the front row center with his tape recorder.

"Listening to him I was hooked," said Love.

"The idea of space colonization is a new and exciting idea. It is important to remember that it is an idea that is new for a good reason. It is not something that people have ignored before or something that has

been dreamed up in desperation. It is something that we could only think of until recently because it has only been in the last few years that space exploration has provided much of the knowledge that was needed for the space colonization project."

O'Neill's concept of life in space, while revolutionary, is carefully founded on technology already learned from space exploration and materials now available.

High quality living space

When he spoke in Williamsburg, O'Neill told his audience that he saw space colonization as an answer to ending poverty and hunger and finding high-quality living space for a world population which will double again in the next 35 years.

"In case you think I'm crazy," he said, "I didn't take this idea seriously either, at first, until the numbers started coming out right and three facts became clear—materials in space are plentiful, energy supplies are so great, and a design exists for a habitat more attractive than most of the earth, and far better able to support industry without damage. With these resources we could free every individual from poverty and hunger within the next century."

No tin can

Each space colony would consist of a contra-rotating pair of sealed cylinders. The first model would provide space for about 10,000 people, but subsequent models could be constructed to house 100,000 to 1 million inhabitants each. The cylinders would rotate to give an earth-like gravity and their axes would be pointed toward the sun to utilize solar energy.

Although he is excited about space living, Love admits that it will take time to convince people that life in space is an attractive prospect. "Some people think it would be like living inside a tin can. Then after a while they talk about living on the curve of a large cylinder. One friend of mine said he would not like to live in space because he wanted to be able to go skiing in the Alps. I told him that by the time the space colony was

built, travel from there to the Alps would be nearly as easy as travel from Virginia to the Alps."

Life in space, as O'Neill envisions it, would not be confining. Colonies would be big enough to provide scenic vistas for the inhabitants. The interior of the colony would be large enough to accommodate two jumbo jets or two super tankers and would have more land area than the state of Rhode Island.

In testimony prepared for a congressional hearing this summer, O'Neill said that "our present American leadership in space technology gives us a unique opportunity to play a central role if we act with decision and speed. . . . Studies beginning in 1969 have so far confirmed the possibility that large-scale earthlike human communities could be built in space."

Nearly all the materials for these communities and for their manufactured products would be transported from the low-gravity surface of the moon by an automated materials launcher. No life-rockets more advanced than the space shuttle and a simple derivative of it would be required. Construction could begin as early as 1981.

O'Neill asserts that eleven to fifteen years after the start of construction of the first colony, energy beamed from space to earth by orbiting solar power stations built solely by space colonies, would reach and exceed the peak capacity of the Alaska pipeline, opening the possibility of synthetic fuel production and permanent energy independence for earth without strip-mining or the proliferation of nuclear power.

With the progressive growth of space colonies, O'Neill sees the lessening of stress on the earth's resources providing a second chance for earth which may in the future become a vacation spot for space dwellers.

Anyone interested in knowing more about the space colonization program should address inquiries to Dr. O'Neill at Princeton. Replies will be filtered back through O'Neill's volunteer respondents, perhaps postmarked from Williamsburg.

THE JUDICIAL SYSTEMS COMMITTEE

To the College Community

It has been many years since the College has undertaken a major review of its student judicial systems. Yet I believe we all would agree that during this period the role of the student as an individual, in his or her relationship to the College, and in his or her relation to peers and parents, has been undergoing a dramatic change.

This change has come about for a variety of reasons and because of a variety of influences. Some of these include a new emphasis on the values of privacy, the implications deriving from the rights of the majority, sex discrimination regulations, the law as it affects matters such as confidentiality of records, the broadening of rules of residential self-governance, extensions of due process, evolving definitions of the educational responsibilities of students and of the College's responsibility to students, and revised social outlooks in general.

Both the academic and non-academic life of the College have been affected. Certainly the Honor System is involved. In addition, there are a whole complex of issues relating to matters of judicial policy and structure.

After careful deliberation and based on the recommendation I have received from this year's Honor Council, I believe that the time is now ripe for us to move ahead with a comprehensive review of our judicial systems, including the Honor System, which was founded at this College in 1779 and remains one of our most treasured traditions.

Although the most recent suggestion for a study of our judicial systems has come from this year's Honor Council, the impetus for such a study comes from several directions. In 1972 the Report of Self-Study (pages 279-284) recommended the need to review a number of issues relating to the improved effectiveness of our judicial systems. The Dean of the Undergraduate Program and the Student Affairs Staff subsequently have urged such a review and the importance especially of interrelating the study of our judicial and honor systems to one another.

Therefore, I am pleased to announce to the College community the appointment of an all-college panel to evaluate the student judicial systems of the College and how to improve them. The Committee will consist of student, faculty, administration, and alumni representation. In addition to student and faculty representatives, the Schools, as well as the undergraduate and graduate programs, will be represented. The Committee will be constituted as follows, with Professor John Selby serving as Chairman.

Faculty:

Lynn D. Doverspike, Associate Professor of Physics
Frank A. MacDonald, Professor of Philosophy
Alan E. Fuchs, Associate Professor of Philosophy
William F. Losito, Assistant Professor of Education

Administration:

W. Samuel Sadler, Dean of Students
John E. Selby, Graduate Dean and Professor of History

Students:

David Nagle, Student Ombudsman
Douglas Pinter, Graduate Student, School of Law
Jane Tylus, Member, Honor Council
Mark Weinstein, Graduate Student, School of Business Administration
Gayle Yamada, Chairman, Honor Council

Alumni:

Tom L. Bosserman, Former Chairman of the Men's Honor Council, Class of 1963

Several individuals have agreed to act in a consultative role to the Committee. These persons include Professor Ronald C. Brown of the Law School, Dr. Jay Chambers, Professor of Psychology and Director of the Psychological Counseling Center, and Mr. Harvey Gunson, Director of Safety and Security.

I am asking the Committee to look at the broad range of issues concerning new regulations and policies, within and without the College, that have altered areas of both practice and procedures affecting personal and group, academic and non-academic, conduct at the College.

On the basis of the recommendations of the Self-Study, the Student Affairs Staff and the Honor Council, I am asking the Committee to direct its primary attention to questions of how to make our judicial systems, including the Honor System, more effective.

Since recent issues confronting judicial and honor codes at other institutions are a subject of considerable state and national attention, our study must naturally occur within the framework of the larger environment

in which we live. It should consider carefully and weigh the importance of the major questions being raised as part of this environment. The College's study must, of necessity, therefore, explore the value of honor and judicial systems in their present forms. It must deal with the implications of changes in these systems on the future of our judicial systems, and specifically, how developments elsewhere appear to bear on the need to relate the honor and judicial systems of the College more successfully to each other. As much as possible, these explorations should be made in the context of the College's total judicial governance structure.

The Committee, in undertaking its assignment, is asked to address itself to the following issues, among others:

- (1) Whether there should be a single honor and judicial system for the College or whether each school should maintain its own system.
- (2) What kind of Honor Code and disciplinary regulations are needed? Is the present code sufficient for our needs? Are there areas of behavior not currently covered by the disciplinary code that should be and are there areas of behavior covered by the disciplinary code that are not appropriate? What matters should lie in the domain of the Honor System and judicial system, and the law? Should the College have regulations paralleling statutory concerns? If so, which areas should be covered in College regulations? Should the College, as a rule, pursue action on its own if the courts convict and sentence a student? What role should the residents of College housing play in determining their own regulations?
- (3) Are there any aspects of the honor or judicial systems which should apply equally to all members of the College community, i. e., disruptive conduct?
- (4) At the present time regulations apply to individuals. Are there any instances where College regulations should be applicable to group behavior?
- (5) What structures and procedures would best insure prompt enforcement of regulations and due regard for individual rights for the Honor System and the Disciplinary Code? Should there be hearing examiners? Is a jury system preferable to a committee structure? Who should sit on the council, board, or jury; students (graduate and undergraduate students) and/or faculty and/or administrators? How is evidence to be gathered and introduced? What appeals process is best? How do residence hall councils fit into the structure? Where does original jurisdiction for cases lie? Should students have access to both formal and informal procedures? How should administrative responsibility for disciplinary procedures be assigned?
- (6) What are appropriate Honor Code and disciplinary penalties? Are there effective alternatives to academically-related penalties for non-academic offenses (fines, work, for example)? What about current penalties?

I am asking the Committee to report to me its findings and recommendations by March 1, 1976.

The College community, I am sure, joins me in expressing gratitude to the Committee members for their willingness to assume the important job which lies ahead of them. In order that the Committee may be assured of the full support it needs, I am asking it to call upon the assistance of others within the College community who are in a position to lend their counsel and expertise to its deliberations.

October 7, 1975

Thomas A. Graves, Jr.
President

Official Memorandum

From: William J. Carter
Vice President for Business Affairs
To: The College Community
Subject: Reduction in number of commercial gasoline purchases and limitation on vehicle repairs

The College has received a memorandum from Douglas B. Fugate, chairman of the Central Garage Car Pool Committee, with regard to a reduction in the costs of operating State vehicles. He urges us to purchase gasoline and services only from Highway Shops whenever possible.

Mr. Fugate states further that purchases of high-test gasoline and abuse of the white (commercial) credit card by pool car operators "must be eliminated except in the cases of a real emergency." This item will be monitored closely and unjustified purchases will be billed to the individual agency involved. Continued misuse may result in termination of pool car assignments.

We urge your careful attention to these matters.

COLLEGE DEVELOPMENT

Graphic Communications Fellowship Competition

Graduate fellowships for 1976-77 academic year in mathematics, chemistry, physics, and business technology when the area of study has potential application in the printing, publishing, and packaging industries. Brochures describing the program are available in the departments noted above and in the Sponsored Programs office.

Fellowship Guide for Western Europe

This guide, published by the Council for European Studies, is available in the Sponsored Programs office.

Virginia Foundation for the Humanities and Public Policy

Institutions of higher education and other non-profit organizations may submit applications to this organization for programs focusing on the humanities and on issues of public policy related to the state theme, "Values Revalued: The Individual and Community in a Changing Commonwealth." Programs should include humanities teachers as participants, be designed primarily for adults, and provide for open discussion between humanists and citizens.

Deadlines: Dec. 5, 1975; March 5, 1976. Preliminary discussion with the Foundation is encouraged.

National Science Foundation

NATO Postdoctoral Fellowships in Science - Deadline: Nov. 10.

NATO Senior Fellowships in Science - Deadline: Nov. 15.

Student-Originated Studies - Deadline: Nov. 10.

Graduate Fellowships - Deadline: Dec. 1.

Research Initiation and Support Program

A new NSF program for strengthening programs of training and research for young scientists at the graduate and postgraduate levels at educational institutions. Includes support for the following: "exploratory research by young scientists: acquisition of scientific equipment, instruments, and research and training facilities; and for other activities aimed at meeting departmental, interdepartmental, and institution-wide training and research needs." Awards will be on a competitive basis for not more than four years.

Cooperative Science Program

Japan - in any aspect of the natural sciences. Three types of projects: cooperative research; scientific seminars; visits to Japan.

Italy - seminars, visits, research.

India - senior scientists for short-term visits.

Bulgaria, Czechoslovakia, Hungary, and Romania - seminars, visits, research.

Ethical and Human Value Implications of Science and Technology - supports research, education, and public understanding projects. 1976 priorities are: in-depth case studies of specific issues; experimental summer workshops by national organizations; national conferences or workshops on critical issues in research or teaching. *Deadlines:* Jan. 15, 1976 for case study proposals; Feb. 15, 1976 for all other proposals.

Graduate and Postdoctoral Energy-Related Fellowships

Graduate fellowships: \$3900 for 12 months; deadline-Dec. 1. Postdoctoral: \$12,000 per year for study or research for students who have recently received doctorate.

Application materials from Fellowship Office, National Research Council, 2101 Constitution Ave., N.W. Washington, D.C. 20418.

Virginia Office on Aging

This office is requesting proposals for training to persons providing services to the elderly. Information concerning the program is available. Deadline: Oct. 17.

Title I - Community Service and Continuing Education proposals in preliminary form are due: Oct. 13.

National Endowment for the Arts - Work Experience Internship

This program, designed to acquaint participants with the policies, procedures, and operations of NEA and to give them an overview of arts activities in the country, will run from Feb. 9 through May 6, 1976. Interns will work as members of the NEA staff and, in addition, will participate in a series of seminars with artists, journalists, arts administrators, and others.

Applicants must be sponsored by a state arts agency, university, or service organization. Stipend: \$1950 plus travel. Deadline: Nov. 21. Future programs: summer June 1 through Sept. 3, 1976, deadline March 19, 1976; fall Sept. 20 through Dec. 17, 1976, deadline July 16, 1976. Application forms may be obtained from Kathleen Bannon, Work Experience Internship Program, NEA, Washington, D.C. 20506. Tel: (202) 634-6380.

U.S. Office of Education

Environmental Education Projects - Applications are being accepted from institutions of higher education from now until Dec. 1, 1975. Processing will be subject to the availability of funds. Information and forms may be obtained from Bureau of School Systems, Office of Environmental Education, FOB6, 400 Maryland Ave. S.W., Washington, D.C. 20202.

Group Projects Abroad, Faculty Research Abroad, Foreign Curriculum Consultants - Deadline: Nov. 7, 1975.

Teacher Exchange Program - College instructors and assistant professors may submit applications for the 1976-77 teacher exchange program from September 1 to November 1, 1975. Grants will be available to teach abroad or attend a seminar during the summer of 1977. Teaching positions will be open in a number of countries in Europe, the Middle East, the Far East, and Africa. Application forms may be obtained from: Teacher Exchange Section, Division of International Education, DHEW, Washington, D.C. 20202.

Graduate Studies in Japan - Fellowships

The Government of Japan is offering scholarships to students who wish to pursue graduate-level studies in Japan. Details concerning fields of study, qualifications, funding etc., are available in the Sponsored Programs office.

Danforth Foundation - Associate Program; Nominations for 1975-76

"This program seeks to recognize and encourage effective teaching and to foster activities which humanize learning . . . offers distinctive opportunities for inter-disciplinary and inter-institutional activities among faculty . . ."

Nominations are solicited from students, faculty, administrators, and other Associates. There are annually about 300 Associates. The nomination of women and minorities is particularly encouraged.

Appointment is for a 6-year term. Each Associate attends three conferences during that period, funded by the Foundation.

For further information and nomination forms: Danforth Associates Program, The Danforth Foundation, 222 South Central Ave., St. Louis, Missouri, 63105.

U.S. Department of Transportation - Program of University Research

Research funded may be interdisciplinary and may span a wide variety of fields in the sciences and social sciences. Student participation is encouraged. Request for instructions should be addressed to: Office of the Secretary, DOT, Office of University Research (TST-60), 400 7th St., S.W., Washington, D.C. 20590. Deadline: Dec. 1, 1975.

Classified Advertisements

FOR SALE

Baby crib and mattress, good condition. \$20. 220-2836. (10/21)

King size bed set: metal frames, 2 boxsprings, inner spring mattress. \$85 for all. 229-7883. (10/21)

4 burner stove with pull-open oven, natural gas. Good condition-\$65. Call 229-0953 after 6:30 p.m. (10/21)

1971 Mercury Cougar. Power. Air. low mileage, recently inspected. \$1850. Call 229-2332 after 5. (10/7)

Modestly priced component stereo system. Lafayette #25 amplifier, 2 tinette speakers, Lafayette pre-amp and BSR 310 turntable. \$125. Call 229-9319 (10/7)

1970, 12'x54' two BR mobile home. \$4,000. Avail. in Nov. Call 229-3086, early morning or late evening. (10/14)

'72 Jeep Wagoneer. 4 wheel drive. 360 engine, power steering and brakes, heavy-duty equipment. \$2300. 229-3325 (10/14).

FOR RENT

3 BR mobile home near campus. \$150/mo. Please call 1-353-2609 evenings and weekends. (10/21)

WANTED

Apt. or room near campus for single female. Willing to share. Call 220-2883 after 5 p.m. or contact Sarah at Anthro. Dept. (10/21)

All members of the College community may place personal advertisements in the W&M NEWS.

The deadline for submitting advertisements is 4 p.m. on the Wednesday preceding publication. For a \$2 fee, each ad is run in three

consecutive issues. Payment must be received before the ad can be printed. Individual advertisements should be limited to not more than 40 words.

Advertisements for non-commercial

1963-67 VW convertible in good condition. Call 229-4510. (10/14)

LOST

Light-brown suede jacket lost in Commons. \$5 reward. Call Chris at Ext. 208 (Cam 239). (10/14)

announcements of goods, rentals and real estate, either offered or sought, and for lost and found items will be accepted. Ads for profit-making business ventures, such as guitar lessons and babysitting services, will not be accepted.

OCTOBER CALENDAR

Events of interest to the College community are listed as scheduled on the Campus Calendar, Campus Center, Ext. 557.

8

WEDNESDAY

Placement Office Interviews: American Security & Trust Co., Morton 104.
Wednesday Lunch Group, CC Room C, 12 noon.
Residence Hall Life Advisors Lunch, CC Gold Room, 12 noon.
Development Office, CC Gold Room, 2 p.m.
Foreign Studies Committee, CC Rooms A and B, 3 p.m.
Residence Hall Life RA Mtg., CC Room C, 4 p.m.
Panhellenic Council Mtg., CC Room C, 6:45 p.m.
Circle K, Circle K Cottage on Boundary St., 7 p.m.
W&M Bridge Club, CC Rooms A and B, 7 p.m.
Chemistry Club, Chem. 109, 7:30 p.m.
S.I.M.S., CC Gold Room, 7:30 p.m.
Project PLUS Forum presents Thomas M. Finn: "The Medieval University," Wren Great Hall, 7:30 p.m.
Biology Club Audubon Wildlife Film: "Florida's Cypress Sanctuary: Fisheating Creek," CC Ballroom, 7:45 p.m.
Modern Languages Lecturer Germaine Bree: "Status of Women as Writers," Millington Auditorium, 8 p.m.
"Church," Hoi Polloi, 8:30 p.m.

9

THURSDAY

Placement Office Interviews: Babcock Graduate School of Management; Dickinson School of Law, Morton 104.
Steering Committee of Eastern Shore Mental Health Project, CC Rooms A and B, 10 a.m. - 4 p.m.
Women's Golf: W&M vs. Madison, Kingsmill Course, 1 p.m.
Foreign Studies Committee, Swem Conference Room, 3:30 p.m.
Christian Science Organization, CC Green Room, 4:30 p.m.
Episcopal Holy Communion, Wren Chapel, 5 p.m.
Order of the White Jacket reception, CC Rooms A and B, 6 p.m.; dinner, CC Ballroom, 7 p.m.
College Republicans, Swem G-1, 7 p.m.
S.I.M.S., Morton 220, 7:30 p.m.
Fellowship of Christian Athletes, CC Gold Room, 7:30 p.m.
Visiting Scholar: Myron Lieberman, CC Theatre, 8 p.m.
English Dept. Poetry Reading by W.D. Snodgrass, Millington Auditorium, 8:15 p.m.
W&M Theatre Performance: "Godspell," PBK, 8:15 p.m.
"Church," Hoi Polloi, 8:30 p.m.

10

FRIDAY

Placement Office Interviews: Price Waterhouse; National Service Industries, Inc., Morton 104.
School of Education Faculty Mtg., CC Room C, 1 p.m.
Men's Soccer: W&M vs. Alumni, Intramural Field (or JBT), 3 p.m.
Admissions Mtg., CC Rooms A and B, 4 p.m.
Sunset Parade, Sunken Garden, 5 p.m.
WMCF, CC Theatre, 6 p.m.
Hillel, Temple Beth El, 7:30 p.m.
English Dept. Social for Victorian Institute, Wren Great Hall, 7:30 p.m.
David Crosby and Graham Nash in concert at W&M Hall, 8 p.m. (Tickets: \$6, \$5)
W&M Theatre Performance: "Godspell," PBK, 8:15 p.m.

11

SATURDAY

Homecoming.
English Dept. Victorian Institute, Swem Library, CC, all day.
Law School Admission Test, Millington Auditorium, 8 a.m.-3 p.m.
CPA Preparation Program, Jones, 302, 8 a.m.-5 p.m.
Graduate Studies Foreign Language Test, Rogers 100, 9 a.m.-1 p.m.
Circle K Tutoring Program, Washington Hall, 9 a.m.
College Women's Club Swim Lessons, Adair Pool, 9:30 a.m.
Circle K Swim Program, Blow Pool, 10 a.m.
Quadrangular Cross-Country Meet, W&M, U. of Richmond, Richmond Track and Field Club, Peninsula Track Club, Dunbar course behind Eastern State, 11 a.m.
Law School Association Luncheon, CC Ballroom, 12 noon; reception following game.
Football: W&M vs. Ohio U., Cary Field, 2 p.m.
English Dept. Conference, Small 113, 2 p.m.
Current World Affairs Seminar: Gerald Johnson, "Energy and World Crisis," International Cottage, Boundary St., 7 p.m.
Language House Film Series: Leni Riefenstahl's "Triumph of the Will," German House Lobby, 8 p.m.
SA Senior Class Dance, W&M Hall, 8 p.m.
W&M Theatre Performance: "Godspell," PBK, 8:15 p.m.
BSO Dance, CC Ballroom, 9 p.m.

12

SUNDAY

Men's Rugby: W&M vs. Norfolk Irish, behind W&M Hall, 1 p.m.
Sunday Series: Richard Burnett, fortepiano and Alan Hacker, clarinet, CC Ballroom, 4 p.m.
Baptist Student Union Dinner and Program, 244 S. Boundary, 5 p.m.
Wesley Foundation Dinner and Program, 526 Jamestown Rd., 5:30 p.m.
SA Films: "The Great Gatsby," Millington Auditorium, 7:30 p.m.; "It Happened One Night," 9:30 p.m.
Royal Shakespeare Company Performance: "Hollow Crown," PBK, 8:15 p.m.

13

MONDAY

Placement Office Interviews: Arthur Young & Co.; Drew University Graduate School, Morton 104.
Men's Soccer: W&M vs. Randolph Macon, Intramural Field, 3 p.m.
Undergraduate Program Committee, Swem Conference Room, 3:30 p.m.
Phi Mu Alpha Pledge Mtg., PBK Dodge Room, 7 p.m.
Science Fiction Club, CC Rooms A and B, 7 p.m.
S.I.M.S., CC Gold Room, 7:30 p.m.
18th Century Dance Instruction, PBK Dodge Room, 8 p.m.
"Jefferson Starship" in concert at W&M Hall, 8 p.m. (Tickets: \$6, \$5)

14

TUESDAY

Residence Hall Life Mtg. with Area Coordinators, CC Gold Room, 9:30 a.m.
Placement Office Federal Career Seminar, CC Theatre, 2 p.m.
Special Education Conference, PBK Dodge Room, 3:30 p.m.
Women's Tennis: W&M vs. Mary Baldwin, Adair Courts, 3:30 p.m.
Physics dept. Ascent of Man Film: "The Starry Messenger," Millington Auditorium, 5 and 8 p.m.
SA Senate, CC Theatre, 7 p.m.
Catholic Mass, Wren Chapel, 7 p.m.

15

WEDNESDAY

Placement Office Interviews: J.C. Penney Co., Inc., Morton 104.
Wednesday Lunch Group, CC Room C, 12 noon.
Residence Hall Life Advisors Lunch, CC Gold Room, 12 noon.
Coffee Hour, French House, 3:30 p.m.
Graduate Studies Mtg., Swem Conference Room, 4 p.m.
Circle K, Circle K Cottage on Boundary St., 7 p.m.
W&M Bridge Club, CC Rooms A and B, 7 p.m.
Visiting Scholar: Daniel Callahan, CC Theatre, 8 p.m.

16

THURSDAY

Placement Office Interviews: Harvard Graduate School of Business; Bond, Beebe, Barton & Muckelbauer, Morton 104; Burroughs-Wellcome, Morton 220, 3:30 p.m.
Mary and William Society Speaker Mr. Cliff Richie, CC Rooms A and B, 12 noon.
Christian Science Organization, CC Green Room, 4:30 p.m.
Episcopal Holy Communion, Wren Chapel, 5 p.m.
Fellowship of Christian Athletes, CC Gold Room, 7:30 p.m.
W&M Concert Series: Guarneri String Quartet, PBK, 8:15 p.m.

17

FRIDAY

Placement Office Interviews: Touche, Ross & Co.; Hercules Incorporated, Morton 104.
WMCF, CC Theatre, 6 p.m.
Hillel, Temple Beth El, 7:30 p.m.
SA Films: W&M Hall, 7:30 and 9:30 p.m.

18

SATURDAY

CPA Preparation Program, Jones 302, 8 a.m.-5 p.m.
Graduate Records Exam, Millington Auditorium, 8 a.m.-6 p.m.
Circle K Tutoring Program, Washington Hall, 9 a.m.
College Women's Club Swim Program, Adair Pool, 9:30 a.m.
Circle K Swim Program, Blow Pool, 10 a.m.
Intradojo Karate Tournament, Blow Gym, 10 a.m.-5 p.m.
Organ Recital, Wren Chapel, 11 a.m.
Current World Affairs Seminar: Dr. Vinson H. Sutlive, Jr., "The Philippines: Recent Research," International Cottage, Boundary St., 7 p.m.
Language Houses Film Series: "Os Fuzis," (Brazilian, 1963) German House Lobby, 8 p.m.

19

SUNDAY

Baptist Student Union Dinner and Program, 244 S. Boundary, 5 p.m.
Wesley Foundation Dinner and Program, 526 Jamestown Rd., 5:30 p.m.
Physics Dept., Small 109, 7 p.m.
SA Film, Millington Auditorium, 7:30 p.m.

20

MONDAY

Phi Mu Alpha Pledge Mtg., PBK Dodge Room, 7 p.m.
18th Century Dance Instruction, PBK Dodge Room, 8 p.m.

21

TUESDAY

Residence Hall Life Mtg., with Area Coordinators, CC Gold Room, 9:30 a.m.
Career Planning-Placement: Speaker from Emory U., CC Rooms A and B, 12:30 p.m.
Women's Field Hockey: W&M vs. Bridgewater, Martha Barksdale Field, 3 p.m.
Coffee Hour, French House, 3:30 p.m.
Interhall, CC Theatre, 4 p.m.
