Tuesday, November 23, 1976

LENGTHENING SHADOWS and bare branches signal winter's approach in this view of the new campus, taken from atop Millington Hall.

## Leading Scholars Will Assemble Here For PBK's Bicentennial Celebration

Phi Beta Kappa, which was founded by students at the College on December 5, 1776, will attract several hundred of the nation's leading scholars back to Williamsburg for its Bicentennial celebration, Dec. 3-7.

One of the highlights of the five-day program will be presentation of the original oratorio "To Form a More Perfect Union," which has been composed by Martin Robbins of the Radcliffe Institute and James Yannatos of Harvard. The oratorio will be performed Dec. 4 and 6 in Phi Beta Kappa Memorial Hall.

The opening presentation of the Bicentennial theme at the conference will be given by Daniel Boorstin, Librarian of Congress, who will speak on "Liberal Studies and the Values of a Free Society," Sunday, Dec. 5. The banquet speaker that evening will be Edward H. Levi, Attorney General of the United States. Other speakers will include Philip Handler, president, National Academy of Sciences, and David Mathews, Secretary of Health, Education and Welfare.

The Williamsburg meeting, which constitutes the thirty-first triennial meeting of the Council of United Chapters of Phi Beta Kappa, will include presentation of the Phi Beta Kappa Award for Distinguished Service to the Humanities, a symposium on "Humane Learning and the Future of the United States," in which several Phi Beta Kappa Bicentennial Fellows will participate, and election of senators and officers.

President Thomas A. Graves, Jr. will hold a reception for delegates Friday evening, Dec. 3, at the Sir Christopher Wren Building. Delegates will also be given special tours of the Raleigh Tavern, the restored eighteenth century building on Duke of Gloucester Street where many early meetings of Phi Beta Kappa were held.

The College's Alpha of Virginia Chapter has named its chapter room in Phi Beta Kappa Memorial Hall "The Apollo Room," recalling the Apollo Room in the Raleigh Tavern where early students met to debate and discuss issues of the day over a mug of ale. Although tradition says the fraternity was founded in the Apollo Room of Raleigh Tavern, this is not proved or disproved by the surviving minutes. The minutes do say, however, that some meetings were held in the Apollo Room, including the anniversary celebrations, and that jollity and mirth prevailed.

A bronze tablet in the main entrance of Phi Beta Kappa Hall lists the fifty members elected to Phi Beta Kappa during the first four years of the history of the society. These "Founders," as they are called, included a Chief Justice and an Associate Justice of the Supreme Court, two members of the Continental Congress, five members of the United States Congress, two United States Senators, the first Librarian of Congress, eighteen men who served in the Virginia House of Delegates and three Virginia Senators.

At the top of the plaque are the names of the five men who organized the Society and whose activities are described in the early minutes. "On Thursday, the 5th of December, in the year of our Lord God one thousand seven hundred and seventy-six, and the first of the Commonwealth, a happy spirit and resolution of attaining the important ends of Society entering the minds of John Heath, Thomas Smith, Richard Booker, Armistead Smith, and John Jones, and afterwards seconded by others, prevailed and was accordingly ratified."

The new Society did not survive long at the place of its birth. Early in January, 1781, with Benedict Arnold and his British troops in Richmond, it became evident that regular college exercises could not be continued at William and Mary. Members entrusted the Papers of the Society to the College Steward "in sure and certain Hope that the Fraternity will one day rise to life everlasting and Glory immortal."

This, as it turned out, was the last meeting held by the Alpha Chapter for seven years. The future of the Society would have been dim indeed if the Virginia members had not, in the preceding year, sent charters to Harvard and Yale. From these roots grew the present Phi Beta Kappa Society with more than two hundred chapters and its national governing body, the United Chapters of Phi Beta Kappa.

Alpha of Virginia was briefly revived in 1851, only to be disrupted again in 1861 by the coming of the Civil War. After several unsuccessful attempts, the William and Mary chapter was reactivated on December 9, 1893, as a part of the celebration of the two hundredth anniversary of the founding of the College. Since then the Chapter has flourished and played a vital role in the academic life of the College.

## Rehnquist To Address Commencement

William Hubbs Rehnquist, Associate Justice of the Supreme Court of the United States, will give the address at the College's 1977 commencement, May 15.

The invitation to Justice Rehnquist was extended by John R.L. Johnson, Jr., of Chadds Ford, Pa., Rector of the Board of Visitors, with the prior endorsement of the Senior Class president, Margaret Rollins of Rockville, Va.

After receiving his law degree from Stanford University, LL.B., 1952, Rehnquist began his legal career as a law clerk for Justice Robert H. Jackson of the Supreme Court of the United States. He was engaged in private practice in Phoenix, Ariz., 1953-69, and engaged in a general practice of law with primary emphasis on civil litigation.

Rehnquist was appointed Assistant Attorney General, Office of Legal Council, by President Nixon in January, 1969. He was nominated for the Supreme Court in 1971 and sworn in as an Associate Justice on January 7, 1972.

Justice Rehnquist has contributed articles on legal subjects to various periodicals and is a member of the Order of the Coif.

## Professor To Help Governor Solve Financial Crunch

Leland E. Traywick, Chancellor Professor of Business Administration and Director of the Bureau of Business Research, has been tapped by Governor Godwin as an advisor to assist him with the difficulties the state is encountering in revenue collections to meet appropriation requirements.

In a letter to Traywick, the Governor said he felt it was vital to solicit the advice of those who participated last year as members of the Governor's Advisory Board on Revenue Estimates and other business leaders in seeking a solution to the current problem.

Traywick was not a member of the Revenue Estimates Board but was vice chairman of the Governor's Electricity Costs Commission from April to June, 1975, and gave projections on Virginia's economy in testimony before the finance committee of the House of Delegates in January, 1975 and 1976.

Traywick is editor of the Virginia Business Report, a monthly survey of economic trends within the state and the monthly Williamsburg Business Index.

Traywick says he will respond affirmatively to the Governor's request and will attend a special meeting which has been scheduled to meet today in the Old Senate Chamber of the State Capitol.

## Richmond Businessmen Head Campaign Committee

Two Richmond business leaders, George M. Walters, president of Reynolds Metals Company, and Raymond T. Waller, chairman of the board of Cecil, Waller & Sterling, Inc., investment securities, have been appointed to head the business and industry committee of the Campaign for the College.

Walters was named chairman and Waller vice chairman of the business and industry committee by J. Edward Zollinger, national chairman of the Campaign, at an executive committee meeting in Williamsburg, November 18.

Zollinger also announced at the meeting that gifts received through October 31 totaled \$3,984,428. This amount, contributed in capital gifts and pledges, testamentary commitments and annual giving, is 20 percent of the \$19 million goal of the three-year Campaign for the College begun in May of this year.

Walters, who has served as chief operating officer of Reynolds Metals Company since 1975, is a member of the executive committee of the Board of Directors of Reynolds Metals. He is also a director of the First and Merchants National Bank of Richmond. Walters is chairman of the Directors of the School of Business Administration Sponsors, Inc., at William and Mary and has been named chairman of the 1977 Annual Fund in Richmond. Before joining Reynolds Metals Company, Walters was a partner in the nationally known accounting firm of Ernst & Ernst, Cleveland, Ohio.

Waller, a William and Mary alumnus and a member of the Board of Visitors and Alumni Board, is also vice president of Virginia Traders Association. He is actively engaged in community service in Richmond.

## Official Memorandum

All members of the College community are urged to support the Governor in an effort to combat highway speeding in Virginia. It is his hope, and ours, that all state employees will serve as good examples on the highways. The following is a copy of the governor's memorandum:

I want to ask your full cooperation in having all of our State employees continue to set an example by observing the 55 mile speed limit across Virginia.

There is convincing evidence that motorists are generally not observing the speed limit to the extent that they were several months ago, in spite of 166,000 speeding arrests by our State Police during the first nine months of this year.

During that time same period, 800 people have been killed on our highways. I am convinced that many lives would be saved during the balance of the year and beyond if the 55 mile limit were universally observed.

My request to you is that you use whatever means you think would be appropriate to remind our State employees that the example they set not only is watched carefully by other motorists, but serves as a reminder to the motoring public generally.

As you know, the Highway Safety Division has initiated a statewide public information campaign urging all Virginia drivers to adhere to the 55 mile speed limits. I am sure the Division would be glad to assist you in any way, but I think that its efforts should be augmented by a more personal appeal to as many State employees as we can reach.

Governor Mills E. Godwin, Jr.

Thank you for your cooperation.

Dennis K. Cogle, Assistant to the Vice-President for Business Affairs

## Criminal Law Expert Opens Wythe Series

Francis A. Allen, president of the Association of American Law Schools and a leading specialist in criminal law, will inaugurate the Marshall-Wythe School of Law's George Wythe Lecture Series on December 3.

Allen will speak on "The Prospects of University Law Training," at 8 p.m. in Millington auditorium. His lecture is open to the public.

Allen was dean of the University of Michigan Law School, 1966-71, and in 1971 was awarded a Guggenheim Fellowship for the preparation of a series of lectures on the concept of political crime. During the 1972-73 academic year he gave a series of lectures at Harvard University, where he was named to the prestigious Oliver Wendell Holmes Lectureship.

Currently Edson R. Sutherland Professor of Law at the University of Michigan, Allen is the author of many articles and reviews in legal and criminological periodicals, and has written extensively about constitutional law and family law topics. He is the author of the book, "The Borderland of Criminal Justice: Essays on Law and Criminology."

The George Wythe Lecture series, which honors a signer of the Declaration of Independence and holder of the first chair of law, also marks the beginning of the Marshall-Wythe School of Law's observance of its bicentennial in 1979.

George Wythe will be the subject of a luncheon talk on December 3, by E. M. Hutton, administrative assistant to Congressman Thomas N. Downing and a long time student of George Wythe's life.

### Mrs. Temple Dies

The College received word yesterday of the death on Saturday, November 20, 1976, of Polly Eugenia Daniel Temple, wife of Dr. T. Edward Temple, President of Virginia Commonwealth University and a former member of the Board of Visitors of the College of William and Mary. Mrs. Temple's funeral will be at 1 p.m. on Tuesday, Nov. 23, at the Reveille United Methodist Church, 4200 Cary Street Road, in Richmond.

Expressions of sympathy to the family may be sent to 1201 Loch Lomond Court, Richmond. Memorial donations may be sent to Virginia Commonwealth University, 828 West Franklin Street, Richmond.

### Notices

**CRAFTS FESTIVAL**--The first annual Campus Center Crafts Festival will be held Saturday, Dec. 4, in the lobby of the Campus Center from 10 a.m. to 5 p.m. If interested in displaying and selling any of your own creations, contact the Campus Center at Ext. 235 or 236 for entry forms and details. Deadline for entries is November 30.

**STUDY IN PHILIPPINES**--Anthropology professor Vinson Sutlive will give a slide presentation Tuesday, Nov. 30, at 3 p.m. in Rooms A and B of the Campus Center for all students interested in spending their junior year in the Philippines.

**SCHOLARSHIPS FOR GERMAN STUDY**--The Institute of European Studies is offering five \$500 scholarships for their Freiburg Program in Germany for the spring semester. The application deadline is December 1, 1976. For more information and application forms, come by Dean Deery's office, James Blair Hall 210, or call Ext. 581.

**WINTER CAMPING in the Adirondacks**--A course for one physical education credit is being offered over Spring Break. Included are snowshoeing, cross-country skiing, winter hiking and survival activities. Cost is \$130, all-inclusive. Places still available after pre-registration. Contact Sylvia Shirley, Ext. 360, during office hours, 9:30-10:30 a.m., Tuesday through Thursday, to secure place.

Published weekly by the Office of Information Services during the academic year, except when the College is in recess, and twice each month in June, July and August. **Marjorie N. Healy**, editor  
**Karen G. Detwiler**, calendar  
**Karen Ross**, classifieds  
**Publications Office**, production  
News, photographs and advertisements should be sent to the News Office, 308 Old Rogers Hall.

The deadline for all submissions is Wednesday at 5 p.m. for publication the following Tuesday.

**WATERSAFETY INSTRUCTOR RETRAINING PROGRAM**--All persons interested in retraining in the new advanced lifesaving materials, and who are currently certified watersafety instructors, are eligible to attend the retraining program at Adair Pool, from 4 p.m. to 7 p.m., Dec. 4 and 5.

### Employment

The following positions are open to all qualified individuals; however, current faculty and classified employees will receive first consideration. Except where noted, inquiries and applications should be made at the Personnel Office, 201 James Blair Hall, and not at the department where the opening exists. Call 229-JOBS (229-5627) for an updated listing and 24-hour service. An EEO/AA employer.

**CAMPUS POLICE OFFICER**--\$8784 per year, Campus Police Office, deadline Nov. 25.

**CARPENTER**--\$8040 per year Buildings and Grounds, deadline Nov. 25.

**CLERK TYPIST C**--\$6432 per year, Purchasing Office, deadline Nov. 28.

**CLERK TYPIST**--halftime unclassified, no State benefits, \$2.60 per hour, W&M Quarterly Office, deadline Nov. 29.

**CLERK STENOGRAPHER C**--half time, limited State benefits, \$3360 per year, Psychology department, deadline Nov. 29.

**COMPUTER PROGRAMMER A**--\$10,992 per year, Administrative Information Services, deadline Nov. 30.

**COMPUTER PROGRAMMER Temporary Position**--Salary range \$5.28 - 6.31 per hour depending upon qualifications, 10 weeks, Computer Center, deadline Nov. 30.

**WELDER MACHINIST**--\$5 per hour and up, depending on experience, no State benefits, unclassified, William Small Physical Lab Machine and Instrument Shop, deadline Dec. 1. Five years machine shop experience in research lab work essential, must be capable of Heli arc welding and hard soldering.

# Campus People, Events Star In New Student-Produced TV Show

The popular Sunday evening television program "60 Minutes" is the prototype for a lively new magazine-type television show called "Jazz," which is being produced by TV production students at the College.

Jazz covers life "on the campus for the campus" community.

Like the hour-long news magazine shown on CBS, "Jazz" is a feature-type program which highlights interesting people and events. A pioneer in its field, "Jazz" was created by students who wanted the opportunity for more practical experience in television.

The show is produced every other

week and is shown in the Campus Center. The "Jazz" staff hopes that as the show gains in popularity it can be shown at several other frequented locations around campus.

The current Jazz program features interviews with production crews working with musical groups that recently performed at William and Mary Hall, including The Greatful Dead, Bruce Springsteen and Jackson Browne; a visit to Mrs. Moseley's diner, a popular student eatery in Toano; and on-the-street interviews with students about how they pick their areas of study and how they intend to implement them after graduation.

Earlier programs have included a visit with Thomas A. Graves, Jr., president of the College, interviews with students about voting and the election, and a review of the College's successful football season.

Prime mover behind Jazz is Scott Wheeler, a senior from Richmond who plans to continue his interest in broadcasting after graduation. James Slate, chief engineer for television services on campus, a branch of the College's

audio-visual department, provides production guidance for the student group.

Scott said planners shied away from a straight newscast because of the time element. They felt it would be almost impossible for students to maintain an up-to-the-minute news schedule around their classes. They opted for the feature approach and find it working well. Students spend many hours filming, editing and producing the show but enjoy the work and admit openly on the air that they are working toward improving their techniques.

"Jazz" got a very positive reaction recently from members of the Association of Student Unions International. Kenneth Smith, Dean of Student Activities and Organizations, took one of the "Jazz" shows to an ASU-I meeting in Hampton, and the program was well received. It is, Smith believes, one of the very few, if not the only, TV program of its kind on area campuses.

The staff of "Jazz" includes Stan Rockwell, Keysville, Va.; Beth Rutgers, Bon Air, Va.; Bob Reddersen, Potomac, Md.; and Tom Pearce and Dave Davold, both of Williamsburg.

# Conference Focuses On Reading

The School of Education will sponsor a conference on reading diagnoses and techniques for the learning disabled in the classroom, Dec. 3 and 4, in the Little Theatre of the Campus Center.

The conference for teachers, reading specialists, school diagnosticians and school administrators will focus upon reading and language related disorders at the secondary level. Robert Bloom, associate professor of education, will serve as conference coordinator.

The conference leader will be Dr. Lois Bader, associate professor at Michigan State University. She has been very active in the innovation of reading programs and is internationally recognized as an authority on reading. Bader has created several individualized learning centers and comprehensive reading programs throughout the United States, Europe, Japan and the Philippine Islands.

Information regarding registration and program schedules should be addressed to Bloom at the School of Education.

## Mountain Range Is Film Topic

The legendary Chiricahua Mountains of southeastern Arizona and the unexcelled variety of wildlife they support will be featured in an Audubon Wildlife Film-lecture in the Campus Center ballroom, at 7:45 p.m., Monday, November 29.

Entitled "Sky Island: Arizona's Chiricahua Mountain Range", the film will be narrated personally by veteran naturalist Robert E. Fultz, who now makes his home in the area.

A native of Pennsylvania, Fultz has served variously as a ranger or chief naturalist at eight national parks, including the Shenandoah, before leaving the National Park Service for full-time lecturing. A previous film on the Chiricahuas, "Island in the Sky", won him a special service award from the Park Service.

Tickets to the program, which is sponsored by the Biology Club and the National Audubon Society, will be available at the door.

## MBA Alumni Choose Association's First Officers

Robert Brown, industrial real estate broker with Westview Builders, Virginia Beach, and a 1972 graduate of the Master of Business Administration program, has been named president of the newly organized MBA Alumni Association.

Other officers of the alumni association are as follows: Sharon Maloney '74, Williamsburg, treasurer of the Williamsburg Pottery, vice president; James Trask '72, Williamsburg, U.S. Air Force retired, secretary; and Deborah Diffendal '76, Norfolk, IBM systems engineer, treasurer.

Committee chairmen include Jerry Epperson '71, assistant vice president of Wheat, First Securities Inc., Richmond, placement; Rodney Armstrong '74, marketing officer with United Virginia Bank Shares, Richmond, communications; Joseph Patterson Jr. '73, U.S. Navy retired, Williamsburg, funding; Bruce Fowler '70, digital computer systems administrator for NASA-Langley, Newport News, membership; and Vernon Quarstein '75, retired Army colonel, Hampton, program.

The MBA Alumni Association held its organizational meeting on Saturday, Nov. 6, in conjunction with the annual Sponsors Day program organized by the School of Business Administration. Highlight of the program was the presentation of the first Business School Medallion to Thomas J. Watson Jr., chairman of the executive committee of the board of directors of International Business Machines Corporation (IBM).

# Archaeologists Begin Preliminary Study Towards Developing Television Series

Historical archaeology is now making history itself with a new research project underway at the College in cooperation with WCVE-TV in Richmond.

The project will bring together the leading archaeological authorities in the United States and Canada with the television media to research ways to make Americans aware of their heritage and how this historical past is validated.

Specifically, the project involves the department of anthropology at the College and WCVE-TV, Richmond's Public Television station, which together will research the potential for a television series on historical archaeology. This group, which includes invited archaeological authorities from the far reaches of the North American continent, will determine whether their discipline can be presented in an informative and interesting way to the average American television viewer.

The primary group for this project includes Norman Barka, President, Virginia State Archaeologists and associate professor of anthropology at the College; Shirley E. Ayres and Arthur G. Barnes, historians at Southside Historical sites; Walter L. McGhee, development and public broadcast director at WCVE-TV; and Judy D. Branham, assistant to the development and public broadcast director at WCVE-TV. Among the consultants on the project are Ivor Noel Hume, chief archaeologist for Colonial Williamsburg; John L. Cotter, editor of *Archaeology Magazine*, Philadelphia; Ed McMannus, Smithsonian, Washington, D.C.; Mike Hoffman, egyptologist, University of Virginia; and William Kelso, state commissioner of archaeology.

Working under this preliminary grant from the Media Program of the National Endowment for the Humanities, the historical archaeologists will determine the goal and direction of the series as well as the program's content. The media representatives will contribute their knowledge of the technical alternatives in the presentation of archaeology.

At the outset, the Endowment has

set only general guidelines that include that the series should be historical archaeology as seen through the eyes of the historical archaeologist, and that the program should deal with the substance of archaeology in a way that will be interesting and informative to the

general adult television viewer.

Following the completion of this study, the project will move to a development phase, then a pilot program phase, and then the final phase for the production of the entire television series.

WILLIAM AND Mary archaeologists at work.

# Actions of the Board of Visitors, November 18-20, 1976

## Reports Discuss Programs Of Energy Conservation and Movable Property Control Currently In Progress

During last weekend's meeting at the College, the Board of Visitors heard reports on the energy conservation programs and the movable property control programs in progress on campus and at the Virginia Associated Research Campus in Newport News.

Ervin D. Farmer, director of buildings and grounds, reported that the College entered into a leasing agreement last May with the Honeywell Corporation of Richmond for the installation of an energy management system called BOSS. To date, the system has been installed in 11 air-conditioned buildings: Andrews Hall, the Campus Center, the Commons Dining Hall, Hugh Jones Hall, Millington Hall, Morton Hall, Phi Beta Kappa Hall, Rogers Hall, William Small Hall, Swem Library and William and Mary Hall.

The energy management system is comprised of temperature and relative humidity sensors located in selected spaces of the buildings and electrical relays connected to the starting and stopping controls of the machinery. The machines are called air handlers and they circulate the hot or cold air in each building.

The sensors and relays are connected by telephone circuits that link each building to a data gathering panel in the Honeywell office in Richmond. There, an operator is on duty 24-hours a day, year-around, to receive the incoming signals of temperature and relative humidity in buildings, to compare them to predetermined limits, and to start or stop machinery for the building to be heated or cooled according to needs. To date, all 11 buildings have had the sensors and relays installed and they can now be controlled by this operator as soon as operating use and temperature limits are determined.

In early November, a meeting was held with each department chairperson or director located in each of the 11 buildings. The purpose of the meeting was to learn the actual hours of building use and special temperature and relative humidity needs of each department. This information will then become the basis for devising a schedule for the starting and stopping of chillers and air handlers by the BOSS operator as the building is in use or when it is closed. It is expected that all 11 buildings will be under BOSS control by mid-November.

Farmer also reported that the College expects to save more than \$30,000 in energy costs this year by closing all College buildings from December 24 through January 3. He gave a progress report on the recording and tagging of movable property in College buildings, noting that 67 percent of all buildings have been completed during the two years of the identification program.

VARC also reported on its "simple but effective management" of movable property and described measures the campus has taken to "conserve energy in all areas of its operation."

## Report on Buildings and Grounds; Campus, Buildings Improvements;

(Including Space Reassignment Projects)

## And Capital Outlay Projects

### Campus Landscaping:

**New Rogers Hall Area** - Landscaping complete; however, plant material that died during the summer months will be replaced under the warranty by November 30.

**Botetourt Residences** - Contract awarded on August 27, 1976; project to be completed by November 30.

**Crim Dell Area** - Planning for this area is being considered in the master landscaping plan along with a plan for a Wild Flower Refuge area, as available funds permit.

**Jamestown Road Parking Area** - Project complete with the exception of landscaping. Preliminary plans for landscaping have been completed and working drawings are

in progress. Bids will be taken in December 1976 with planting scheduled for spring of 1977.

### Repairs and Renovation:

**Alterations to Old Western Union Building** - This project has been completed and all areas are occupied by the Center for Psychological Services.

**Alterations to Old Fraternity Lodges** - Renovation of these five buildings has been completed and they now house 30 students. Phase 2 will cover site improvements and landscaping, which will be started in the spring.

**Swem Library Masonry and Deck Repairs** - This work is in progress and is scheduled for completion by November 30.

**William and Mary Hall** - A contract for the construction of crowd control barriers and ticket booths for the two lobby areas is approximately 95% complete. A contract for waterproofing the exterior foundation at the northeast corner of the building is complete. Relaying and re-finishing of the floor in the auxiliary gymnasium is in progress; expected completion date is November 30.

**Ceramic Studio in Old Heating Plant** - Space has been provided for the ceramics studio of the Fine Arts Department. Work is in progress, with expected completion by November 30.

**Millington Hall - Physiology Laboratory** - A study of Room 24 was made to determine the acceptability of the space for use as an operating room. It was found not acceptable to use ether as an anesthesia. It was decided to use a non-flammable anesthesia in the future and the space will be ventilated to eliminate any health hazard. Plans have been completed and the project will be completed as funds permit.

**Survey to Provide Accessibility and Usability of Major Campus Facilities for the Handicapped** - This survey has been conducted and the report, including review to determine the schedule and cost of implementation, has been received. Plans are in progress for modifications to make student residence facilities on the first floor of Landrum Hall accessible and usable by the physically handicapped. A contract has been completed to make facilities usable in five lodge buildings as described above.

### The Commons Dining Hall -

**Exterior Improvements:** Plans have been prepared for improvements of the plaza area in front of the Commons. The scope of work envisions a brick plaza, installation of benches and plantings. The work will be done as funds become available.

**Interior Improvements:** New chairs and some new two-person tables are on order for early spring delivery. Other phases to follow when funds are available include dining room salad bars, beverage stations, additional serving line equipment and floor treatment.

### CAPITAL OUTLAY PROJECTS - 1974-76

#### Renovation of Student Residences:

**Renovation of Jefferson Hall** - Latest progress report indicates that final completion of some phases will be delayed beyond the planned completion date in December which would have allowed occupancy before the beginning of second semester. Consultations with the contractor are now underway to determine a realistic date of occupancy.

**Renovation of Chandler Hall** - Preliminary plans and specifications are complete. Other phases to be coordinated with completion of Jefferson Hall. Planned completion date is expected to take one year beyond the completion of Jefferson Hall.

**Renovation of Taliaferro Hall** - Planning is in progress. Other phases to be coordinated with completion of Jefferson Hall. Planned completion date is expected to take one year beyond the completion of Jefferson Hall.

**Plans for New Law School Building** - The working drawings and specifications have been completed and approved by the Division of Engineering and Buildings and by the Art Commission. Funds for construction will be requested from the 1977 General Assembly for this project which has the highest priority.

**Plans for Renovation of Physical Plant Services Complex and Parking Area** - The preliminary plans and specifications have been completed and approved by the Division of Engineering and Buildings. The working drawings phase was terminated by directive from the Governor's office due to shortage of funds. Remaining funds were reverted to the State. This is one of the highest

priority projects and will be requested again for the 1978-80 biennium.

**Planning for Renovation of Rogers Hall for the School of Business** - Preliminary plans and outline specifications are complete and have been approved by the Division of Engineering and Buildings. Working drawings have been completed within the limited appropriation. This is one of the College's highest priority projects and will be requested for the 1978-80 biennium.

**Special Project - National Center for State Courts Headquarters Building** - Project under construction. Completion scheduled for January 8, 1978.

### CAPITAL OUTLAY PROJECTS - 1976-78:

**Utilities and Site Work for New Law School Building** - An appropriation of \$486,150 provided for site work and the installation of utility lines to the future building. This covers all work that can practicably be done prior to actual building construction. The scheduled completion date for this phase is January 1977. The second phase of this appropriation cannot be undertaken until the final phase of actual construction has been completed.

**Installation of Storm Drainage System, Final Phase** - Plans and specifications for this project are now being prepared by a consulting engineer. This appropriation of \$96,600 will provide for the connection of remaining storm drainage collection lines into the recently completed storm drainage system. The construction of a basin to be located in the area behind Swem Library will collect debris before the storm water flows into Lake Matoaka. Detailed planning is being undertaken so that a contract may be awarded in the near future.

**Placement of Aged Steam and Condensate Lines - Colonial Campus** - Funding authorization for this project has been received. The work will be performed by a welding contractor working under the supervision of College personnel. The College will supply all piping, valves and traps for the welding contractor to install as a replacement of the present pipelines, which have exceeded their expected life usage and have been in almost constant need of repair.

### OTHER CAPITAL OUTLAY PROJECTS:

**Installation of Additional Tennis Courts** - A \$150,000 gift from the Anheuser-Busch Foundation has made it possible to plan the construction of eight tennis courts which will be located in the area behind William and Mary Hall designated on the master plan for physical education facility development. Provision for installation of lights in the future has been made but the available funds are not sufficient to include \$30,000 in lighting at this time. The Governor's offices have approved acceptance of this gift and have authorized the preparation of working drawings. These tennis courts should be completed by spring. The site will accommodate six additional courts and a multi-purpose playing field as funds become available. Further development of the Adair site for additional tennis courts will await the availability of additional funds.

## Administration of Data Processing And Reporting Services

From: George R. Healy

To: Faculty and Administration of the College

Automated data processing, and related services such as institutional research, affect almost every instructional, research, and administrative activity in a modern university. Effective administration of such services, therefore, must be conceived broadly, so that the many different needs for data processing can be seen and addressed in terms of general institutional priorities. It is important also that the basic administrative responsibility for the diverse groups, offices, and machines that comprise a modern information system be placed clearly in one office, so that all requirements for automated data services can be coherently related to each other, and the most efficient and effective overall system can be developed and sustained.

Data-related services at William and Mary are presently not so coordinated through one office of administration. The Director of the Computer Center, the Director of Administrative Information Services, and the Office of Institutional Research all report separately to the Vice President for Academic Affairs. The Business Affairs and College Development Offices have established within them specialized data systems for their administrative requirements. The Computer Center Advisory Committee, which currently stands without a chairman, has been and remains uncertain about the appropriate limits of its responsibility. The information systems task force, established last summer with a broad charge to recommend an integrated administrative data information system for the College, for a number of reasons may not be able to work as originally planned.

The many difficulties notwithstanding, data requirements at the College are being met with reasonable dispatch and efficiency. But the administrative structures are cumbersome at best, and they present a potential for serious difficulty in the future. It is neither possible nor desirable completely to centralize day-to-day operational control of something as complex as a data processing system; the various units of the system can and must operate within delegated authority that is broadly, appropriately, and freely given. It is entirely consistent with such operational principles, however, to establish one office as responsible for the overall supervision and administration of the system; and it has become increasingly apparent that the identification of such a person and office at William and Mary is necessary.

Accordingly, on 19 November 1976, the Board of Visitors of the College of William and Mary approved the President's recommendation that the following changes of administrative responsibilities, titles, and reporting arrangements be made effective 1 December 1976:

Henry C. Johnson, presently Registrar of the College and Director of Administrative Information Services, is assigned the overall responsibility for development and administration of automated data processing services. His responsibilities include the development and management of College data processing facilities and systems development; policy establishment of usage priorities and their implementation; personnel management; and budget development and supervision. He will be supported in these tasks by the staff of the Computer Center, through its Director. To reflect accurately the larger responsibilities assigned him, Mr. Johnson's title will be changed to Registrar of the College and Director of Automated Data Processing. In both capacities he will continue to report to the Vice President for Academic Affairs.

Raymond W. Southworth, Director of the Computer Center, will remain in that position, and will continue to have responsibility for the daily operations of the Computer Center. He will be responsible to and will report to Mr. Johnson, and will assist him on systems development, personnel management, and budgetary recommendations.

Charles R. Toomajian, Jr. will become Director of Institutional Research, which responsibility is added to his continuing duties as Director of Registration and Student Records. In both administrative capacities he will report to Mr. Johnson. Mr. Toomajian will be supported in his duties as Director of Institutional Research by Jean C. Keating, Assistant Director of Institutional Research, and Willa B. Chambers, Statistician.

The Computer Center Advisory Committee will be disestablished, and a new Automated Data Processing Advisory Committee will be appointed from the faculties and the administration, and chaired by a faculty member. The new committee will work with and advise Mr. Johnson, who will serve as an *ex officio* member, on all policy matters relating to automated data management. It will report in writing regularly, at least annually, to the President and the Vice President for Academic Affairs.

The task force, which as noted above has been unable so far to begin its work, will be disestablished; as will the *ad hoc* Information Systems Task Force Advisory Committee.

There are details, some of them of substantial significance, that remain to be worked out; and under the best of circumstances the transition to effective implementation of this new administrative organization will not be easy for everyone. But the goal is certainly worth the effort. The faculty and administration of the College require, and have every right to expect automated data services that are responsive to all reasonable need, and at minimum cost consistent with services given. It is hoped that this reorganization will advance us further toward that goal, and everyone's cooperation and contributions are appreciated.

## Concentration in Computer Science

At the November 2 meeting, the Faculty of Arts and Sciences approved a request from the Department of Mathematics that its name be changed to the Department of Mathematics and Computer Science. In addition, the Faculty approved the department's request to offer a concentration in computer science as well as a concentration in mathematics.

Currently the Mathematics Department program includes two tracks: (1) a concentration in mathematics, and (2) a concentration in mathematics with a computer science option. The change to a concentration in computer science from a concentration in mathematics with a computer science option in a point of clarification only. It represents no change in the course of study or the administration of the department. The department's course offerings and the concentration requirements in computer science would not be changed as a result of this proposal. The proposed change would have no effect on the staffing or financial needs of the department, or on its internal administration. The change merely describes more accurately that the concentration requirements in computer science are distinct from those in mathematics. Published reports on computer science curricula substantiate the department's claim that it offers a strong program in computer science which is comparable to programs at other outstanding universities. Last year 28 of the 61 students who declared a concentration in the department chose the computer science option.

The change from a concentration in mathematics with a computer science option to a concentration in computer science technically involves the establishment of a new concentration. It requires approval by the State Council of Higher Education and as such it requires the consent of the College's Board of Visitors.

RESOLVED, That the Board of Visitors approves the establishment of a baccalaureate concentration in computer science within the Department of Mathematics and Computer Science, effective 1977-78, as recommended by the Faculty of Arts and Sciences and the President.

## Resolution On Presidential Debate

On Friday, October 22, 1976, the College of William and Mary was honored to be the host for the third in the series of Presidential Debates which were sponsored by the League of Women Voters. The occasion was a fitting reminder of the long tradition of free and open discussion at William and Mary.

On this occasion, as well, the College had as its guests President Gerald R. Ford and members of his family; and Governor Jimmy Carter of Georgia, and members of his family. Both President Ford and Governor Carter accepted the College's invitation to address the College community, townspeople and guests attending a special program at William and Mary Hall. Their appearances, within moments of each other following the Debate, were without recent precedent on a college campus.

The hospitality shown the Presidential candidates, their families and their associates, was exemplary. The activities of hundreds of people within the College community, in preparation for the Debate and the arrival of the Presidential candidates, were a special credit to the College at a time when the eyes of the nation were focused on it.

In all aspects, the preparations and the events of October 22 were rewarding educational experiences for the students. Events of this nature are clearly appropriate for an institution with the history and modern stature of the College of William and Mary, and they should be encouraged into the future as one way of developing an understanding of contemporary political and public affairs.

BE IT RESOLVED, that the Board of Visitors expresses its admiration of and appreciation for the hundreds of individuals who contributed to the success of the events of October 22; the Society of the Alumni; and the Colonial Williamsburg Foundation; and

FURTHER, that the Board encourages the College to invite the major candidates, in both Presidential and Virginia Statewide elections, to address the College community as one means of fostering a broader awareness of public issues.

## Newsmakers

**S. Stuart Flanagan**, associate professor of education, moderated a panel discussion on "The Effects of Calculus in High School on College Calculus Performance" at a recent meeting of the National Council of Teachers of Mathematics in Norfolk. He also delivered a paper entitled "The Effects of Computer Augmented Instruction on Algebra II-Trigonometry."

**William F. Swindler**, John Marshall Professor of Law, is the author of "The Rights of Man: A Bicentennial Perspective," in a booklength collection of essays, *Issues and Ideas in America*, published by the University of Oklahoma Press. **Emeric Fischer**, another professor of Law, will discuss the new tax reform law with members of the Virginia State Bar at a meeting in Jamaica this week.

**Vinson Sutlive**, associate professor of anthropology, has edited a memorial issue of the *Borneo Research Bulletin* honoring Tom Harrisson. Harrisson, long-time curator of the Sarawak Museum,

received international recognition for his contributions to zoology, and was largely responsible for excavation of the Niah Caves, occupation site of early Homo sapiens sapiens.

**Curtis H. O'Shell**, associate professor of education, will serve as a member of the state evaluation committee for Manor High School in Portsmouth, Nov. 9-12, 1976.

**Robert Bloom**, associate professor of education, has initiated and will edit a new feature in *Together*, a semi-annual magazine of the Association for Specialists in Group Work, members of the American Personnel and Guidance Association who specialize in group therapy. Bloom's column, entitled "Group Leaders Forum", will explore specific experiences that counselors could encounter when working with groups and will suggest potential solutions. His initial article, appearing in the Fall, 1976 edition, discussed "The Potentially Psychotic Group Member". Recently Bloom was appointed to

the State Advisory Council on Special Education to represent the areas of higher education and the education of handicapped children and their teachers.

**Miles Chappell**, assistant professor of fine arts, recently presented a paper on the Florentine painter Cristofano Allori and his contributions to Baroque Art at the Southeastern College Art Conference in Charleston, S.C.

**Lynn D. Doverspike**, associate professor of physics, recently co-authored a paper entitled "On the Electron Detachment of Ionized Chlorine by Argon," published in the *Journal of Chemical Physics*. "Neutron Resonance Spectroscopy in Natural Copper," a paper co-authored by **M.S. Pandey**, research associate in the physics department, was published by *Nuclear Science and Engineering*, while Associate Professor **S. Peter Gary's** "Ion Acoustic Waves at a Plasma Sheath" was published in *The Physics of Fluids*.

**Arden Sher**, professor of physics, recently traveled to Palo Alto, Ca., to present a seminar to the Xerox Palo Alto Research Laboratory entitled "A Theory of Amorphous Metal Alloys."

**Kent Druyvesteyn**, **Thomas N. Finn**, **James C. Livingston**, and **Hans O. Tiefel** of the department of religion attended the annual meeting of the American Academy of Religion in St. Louis, October 28-31. Livingston delivered a paper on "The Functions of Criticism at the Present Time: Matthew Arnold, the Bible, and Humanistic Education" to the Society of Biblical Literature at the meeting and was elected to the Steering Committee of the 19th Century Theology Group; he will also serve as editor of the 19th Century Newsletter.

**David L. Holmes**, associate professor of religion, currently on leave to continue his research in preparation for a biography of Bishop William Meade, has written the chapter on "The Decline and Revival of the Church of Virginia" for the new book "Up From Independence: The Episcopal Church in Virginia."

Beginning with the establishment of the Church of Virginia and its growth during the Colonial period, the book deals mainly with the effect of the American Revolution upon the established church, its official disestablishment and its near dissolution. It tells how, as part of the post-war Protestant Episcopal Church, the church of Virginia continued to decline until Richard Channing Moore, and particularly William Meade, brought it new vitality. The new book is edited and published by the Interdiocesan Bicentennial Committee of the Virginias.

At the annual convention of the South Atlantic Modern Language Association in Atlanta this month, **John Conlee**, served as a discussant in an Old English program on *Beowulf*. **Carl Dolmetsch**, professor of English, presented a paper entitled "Mencken, Nathan, and God (Knopf, that is): Some Observations on the Politics of American Publishing in the 1920's." Other English department members

attending were **Ann Massa**, **Elaine Sproat**, **Elsa Nettels**, **Donald Ball**, and **Jack Willis**. Professor Ball has also published an article, "Richardson's Resourceful Wordmaking," in the November issue of *The South Atlantic Bulletin*. This article is the first study to appear on the innovative vocabulary of Samuel Richardson, a major early English novelist.

Several members of the physics department attended the 43rd meeting of the Southeastern Section of the American Physical Society in Virginia Beach last week. **Hans von Baeyer**, professor of physics, became chairman of COSEPP (Southeastern Ph.D.-granting Physics Departments). He also gave an invited paper entitled "The Transits of Venus in the 18th Century". Professor **John McKnight** gave an invited paper entitled "Some 18th Century Electrostatic Experiments". A contributed paper by H.C. Hwang, R.A. Breckenridge and **Arden Sher** was entitled "Off-Diagonal Disorder in Dilute Metal Alloys".

A paper by Associate Professor **Donald J. Messmer** entitled "Forecasting Rail Freight Traffic Movement Through Bi-Proportional Projection" has been accepted for presentation at the 1977 Southeast AIDS Conference to be held February 23-26, in Birmingham, Ala. The paper will be published in the proceedings. Messmer will also present a paper entitled "Measuring the Effect of an Experiential Exercise" at the 1977 ABSEL meeting to be held in Wichita on April 13-15, 1977.

**Alan J. Ward**, professor of government, lectured to the Foreign Service Institute of the U.S. State Department on November 9. His subject was "Society and Politics in the United Kingdom." His review of Richard Rose's *Northern Ireland: Time of Choice*, was published in the October 8 issue of *Perspective*.

**Julia Oxrieder**, a member of the Marshall-Wythe library staff, attended the annual meeting of the American Folklore Society, in Philadelphia in mid-November. She presented a paper entitled "The Slumber Party: Transition into Adolescence."

"The Advanced Placement Program in Mathematics" was the title of a talk by **Richard Prosl**, associate professor of mathematics, at the "Name the Site" meeting of the National Council of Teachers of Mathematics held in Norfolk this month. **Thomas A. Reynolds**, professor of mathematics and computer science, also served on a committee which assembled materials to be used as aids to mathematics teachers in the classroom.

**William H. Warren**, associate professor of business administration, recently authored an article entitled "Albemarle V. Moody: Where It All Began," in the October issue of the *Labor Law Journal*. Warren also presented an original case, "Wabash Oil Company, A, B, and C," to the International Case Clearing House Workshop, sponsored by Harvard University at the Indiana University School of Business Administration.

In the School of Business Administration, Professor **John S. Quinn** presented a paper discussing the Accounting Internship Program of the College at the annual meeting of Virginia Accounting Educators and the Committee on Education of the Virginia State Society of Certified Public Accountants in Richmond on Nov. 5.

## Development Office Grants

### U.S. OFFICE OF EDUCATION

*Undergraduate International Studies Program.* Grants to develop new course offerings. Programs must utilize new teaching methods, be comparative and interdisciplinary in nature and must provide instruction on two or more of the following world regions: Africa, Canada, East Asia, East Europe, Latin America, Middle East, Southeast Asia, Soviet Union, and Western Europe. Between 12 and 16 grants not to exceed \$45,000 each will be awarded for 1977-78. Contact: Centers Program, International Studies Branch, Division of International Education, U.S.O.E., Washington, D.C. 20202, 202/245-9588. Deadline: December 1.

### INSTITUTE ON HUMAN VALUES IN MEDICINE

*Fellowships* for the interdisciplinary study of the role of the humanities in medical education. Applicants should have an earned doctorate in the humanities and two years teaching experience. Humanists seeking experience in a medical setting are especially invited to apply. Fellowships average \$3,000 and are usually limited to six months in length. Contact: Institute of Human Values in Medicine, 723 Witherspoon Building, Philadelphia, Pennsylvania, 19107, 215/735-1551. Deadline: 15 February 1977.

### FOOD AND NUTRITION SERVICE, DEPT. OF AGRICULTURE

*Grants for nutritional education and training projects.* \$450,000 is available in FY 1977 for programs in the following areas: 1) evaluation of breakfast programs to determine the dietary benefit being provided students; 2) determination of the profile of organized day care centers and residential institutions for children; 3) determination of the costs of producing a school lunch and breakfast in FY 1977. Contact: Contracting Officer, Management Services, FNS, Room 790, U.S. Dept. of Agriculture, Washington, D.C. 20250. 202/447-8739. Deadline: 7 March 1977.

### NATIONAL ENDOWMENT FOR THE HUMANITIES

*General Research Program*, supports both individual scholarship and collaborative, interdisciplinary research projects within the humanistic disciplines with emphasis upon state and local history. Deadline: December 1.

*Humanities Consultants Grants*, provide funds to bring consultants to campuses to advise institutions on how to build a successful humanities program. Deadline: January 2.

*Education Program Grants*, which provide support for a group of related courses or a program of studies in the humanities focusing on a particular area. Deadline: January 2.

*Development Grants*, support a basic reorganization of an institution's entire humanities curriculum. Deadline: January 2.

For application information contact: National Endowment for the Humanities, Washington, D.C. 20506.

### ADMINISTRATION ON AGING

*Grants* for the development of an AOA strategy for policy research entitled "Aging: Physical/Mental health and the Elderly." Contact: Division of Research and Analysis, Office of Research, Demonstrations and Manpower Resources, AOA, 330 Independence Avenue, S.W., Washington, D.C. 20201. Deadline: November 30.

### U.S. ARMY RESEARCH OFFICE

*Research Grants* for basic research in the sciences. Grants available for projects in atmospheric and terrestrial sciences, biology, chemistry, electronics, mathematics, mechanics and aeronautics and physics. A detailed descriptive brochure can be examined in the Grants Office. Contact Dennis Waller.

# Ash Lawn, Home of President James Monroe, Soon To Be "Great American Homes" Feature

Spruced up and painted, the modest home of President James Monroe at Ash Lawn, just outside Charlottesville, will soon be seen on national television as one of the country's "Great American Homes."

Monroe called the modest, rather simple home atop of Carter's Mountain his "cabin castle"—the rooms were small and the furnishings, though elegant, were necessarily practical.

James Monroe's Ash Lawn, owned and operated by the College, seems incongruous to the image of our fifth president. Monroe was a gentleman extremely versed in European high society, and his wife Elizabeth reigned as one of America's first fashion-setters.

Why, then, is his home in Albemarle County so small, so simple, so provincial? The answer is money, or Monroe's constant lack of it, which forced him to build a home "just adequate" for his family and the shipload of furnishings he would bring with him from France.

Thousands of tourists annually visit Ash Lawn to see how Monroe fashioned a practical, inexpensive home amidst the Virginia countryside. The quaint appeal of the home offers a stark contrast to Monroe's next home—The White House—as well as to Monticello, the unique abode of his next door neighbor, Thomas Jefferson.

The rustic appeal of Ash Lawn is unmistakable and college officials were not surprised when Sears, Roebuck and Company asked if they could feature Ash Lawn in their "Great American Homes" series.

Carolyn Holmes, resident manager of the estate for the College, estimates well over 100,000 visitors will tour Ash Lawn in 1976, a significant increase

over the 80,000 who saw the estate in 1975. She says it's partially because the College has tried to restore the "feeling" of a working country home by bringing in local spinners, a blacksmith and other craftsmen to work on the estate and demonstrate colonial skills to visitors.

Ash Lawn has come alive with peacocks, sheep and goats, further enhancing the image of a modest home and working farm, rather than a static museum.

The new coat of paint Sears applied both inside and out also helps to liven up the home, as well as add to the historic legitimacy of Ash Lawn. Research conducted by Milton L. Grigg, a Charlottesville preservation architect, reveals that the exterior of the home was originally painted gold and brown. So the Sears painters, now known to their family and friends as "stars" of the "Great American Homes" television commercials, took great care to reproduce the original colors as closely as possible.

The crew began work on the home four weeks before the three 30-second commercials were taped in mid-October to be televised early in 1977. Officials from Sears anticipate that the Ash Lawn spots will make three billion "impressions." An impression in advertising terms means "one pair of eyes seeing a commercial one time."

Sears had long wanted to film Ash Lawn as part of their award-winning commercial series, particularly since the College was bequeathed the home in 1974 and undertook a methodical restoration of the residence and its adjoining gardens.

"The basic premise of our choice of Ash Lawn is that we have a name that is instantly recognizable said David

TELEVISION CREW films a portion of the commercial which will feature Ash Lawn as a "Great American Home" next spring.

Cloud, producer of the series, "and you just can't get a more prestigious name than that of a former president."

Yet the home, even with some elegant furniture, does not impress one as being "presidential." Only the mountaintop view is one that might be termed as similar to that of a "castle."

The house itself includes a living room, dining room, nursery, study, two bedrooms, withdrawing room, and basement kitchen.

Monroe described Ash Lawn in a letter to James Madison as a "warm chamber," and promised to make the visiting Madisons "as comfortable as we can make you." Monroe once called the home a "mere lodge," but throughout his ownership he maintained an optimism about the future of his home in Albemarle County. The land was considered excellent for farming, though it too never fulfilled Monroe's expectations.

After the Revolutionary War, Monroe and his family returned to America from France where the young diplomat had served as ambassador. He, and to a greater extreme his wife, had acquired a taste for European manners, food and furnishings. He had also acquired a considerable debt while serving his country, a debt that was to grow to nearly \$75,000 by the time he retired from the presidency in 1825.

When he arrived in the United States, Monroe borrowed enough capital to join his friend Jefferson in Albemarle County, and had high hopes of turning Ash Lawn, then known as Highlands, into a profitable plantation. The Monroes moved into the almost-completed home in 1799.

But Monroe was again called to serve in Europe from 1803-1807 on a series of diplomatic missions, and without his strong management the farm virtually fell apart. In 1808, Monroe became Secretary of State, and in 1817, President. The property never had the able direction it needed, and Monroe was forced to sell the home and property in 1826 to abolish a large portion of his debt.

Today the house has a two-story addition built by the Rev. John Massey, who owned the home during the latter part of the nineteenth century. It is open daily to visitors from 9 a.m. to 6 p.m.

MASTER BEDROOM at Ash Lawn with mahogany tester bed, formerly at Monroe's home at Oak Hill.

# Calendar

**TUESDAY, NOVEMBER 23**  
 Residence Hall Life, CC Gold Room, 10:30 a.m.  
 Students Affairs Staff Meeting, CC Room C, 10:30 a.m.  
 Interhall Meeting, CC Theatre, 4 p.m.  
 Basketball (w) Adair Gym, 4:30 p.m.  
 Juggling (beginning) Lambda Chi, 6 p.m.  
 Volleyball (w) Adair Gym, 7 p.m.  
 Law Wives Bridge, CC Room D, 7:30 p.m.  
 Chess Club, CC Room C, 7:30 p.m.  
 Hoi Polloi presents Sandcastle, 9 p.m.  
 OD Study Break, OD 1st floor lounge, 10:30 p.m.

**WEDNESDAY, NOVEMBER 24**  
 Residence Hall Lunch, CC Room C, 12 noon.  
 Circle K, Circle K House, 7 p.m.  
 Newsreels: German House, 8 p.m.

**THURSDAY, NOVEMBER 25**  
 Thanksgiving Day.

**FRIDAY, NOVEMBER 26**  
 No events scheduled.

**SATURDAY, NOVEMBER 27**  
 Organ Recital, Wren Chapel, 11 a.m.

**SUNDAY, NOVEMBER 28**  
 S.A. Senate Committee, Swem Seminar G-1, 6 p.m.

**MONDAY, NOVEMBER 29**  
 BSA Housing Committee, Swem Seminar G-3, 2:15 p.m.  
 Coed Badminton, Adair Courts, 7 p.m.  
 Guitar, Bryan Basement. Taught by Robert Demanche, 7 p.m.  
 S.A. Senate, Swem Seminar G-1, 7:30 p.m.  
 Audubon Wildlife Film, "Sky Island; Arizona's Chiricahua Mountain Range," CC Ballroom, 7:45 p.m.  
 Basketball vs Christopher Newport, W&M Hall, 8 p.m.  
 Residence Hall Life, CC Gold Room, 9 a.m.

**TUESDAY, NOVEMBER 30**  
 Gideon's Bibles Distribution: Sunken Gardens, areas between Andrews Hall, Library, Commons, CC Lobby, 7:30 a.m. to 5 p.m.  
 W&M Soccer Team vs Maiwand Lions (from England), Intramural Field, 2 p.m.  
 Interhall Meeting, CC Theatre, 4 p.m.

BARITONE Simon Estes will perform in the Concert Series, Tuesday, Nov. 30, at 8:15 p.m. in Phi Beta Kappa Hall. His program will include such works as Beethoven's "Gottes Macht und Vorsehung" and Verdi's "Ella giammai m'amo" from Dan Carlo, as well as works by Tchaikovsky, Rachmaninoff and others. Tickets for W&M students and employees are \$3 at the door.

Basketball (w) Adair Gym, 4:30 p.m.  
 Juggling (beginning) Lambda Chi, 6 p.m.  
 Volleyball (w) Adair Gym, 7 p.m.  
 S.A. Senate, CC Theatre, 7 p.m.  
 Law Wives Bridge, CC Room D, 7:30 p.m.  
 Chess Club, CC Room C, 7:30 p.m.  
 Residence Hall Life, CC Gold Room, 7:30 p.m.

FILM: German House presents "Strohfuhrer", German House, 8 p.m.  
 CONCERT SERIES: Simon Estes, Baritone, PBK Hall, 8:15 p.m.  
 OD Study Break, OD 1st floor lounge, 10:30 p.m.

**WEDNESDAY, DECEMBER 1**  
 Placement Interviews: Allied Chemical, New York City, New Jersey. By appointment, Office of Placement.  
 Williamsburg-James City County Schools. By appointment, Office of Educational Placement.  
 Swimming (w) vs University of Maryland, Adair Pool, 4 p.m.  
 Basketball (w) vs Christopher Newport, Adair Gym, 6 p.m.  
 Basketball (w) vs Christopher Newport, Adair Gym, 7 p.m.  
 Spanish House, "Tertulias" (coffee house), Lobby Botetourt Unit 9, Dr. Jose Peman will speak on "Coming Elections in Spain," 7:30 p.m.  
 Basketball vs. Hampden-Sydney, W&M Hall, 8 p.m.  
 Poetry Reading by Hale Chatfield, CC Theatre, 8 p.m.  
 Hoi Polloi presents "Just Us," 9 p.m.

CHRISTIAN SCIENCE organization, Thursdays, Campus Center Green Room, 4:30 p.m.  
 EPISCOPAL HOLY Communion, Thursdays, Wren Chapel, 5:30 p.m.  
 EPISCOPAL - St. Martin's Episcopal Church provides transportation for students to attend the 10 a.m. Sunday services. Call 229-1100 weekdays.  
 EPISCOPAL - Candelit Evensong, Sundays, 5:30, at Bruton Parish Church. Service is followed by a Canterbury Dinner, 6:30 p.m., at the Bruton Parish House, Duke of Gloucester St. Admission to dinner is \$1.25, \$1 for those holding cafeteria cards. The service and dinner will be held every Sunday that William and Mary is in session.  
 HILLEL SHABBOT Services, Fridays, Temple Beth El, 6:30 p.m.  
 MORMON Student Association. Wednesday, CC-Room D, 8:30 p.m.  
 WMCF, Fridays, Campus Center Sit 'n Bull Room, 6 p.m.

## Exhibits

NUDES/WATERCOLOR by David Buckles, Andrews Hall Gallery, November 29 through December 17.  
 CERAMIC by students, Andrews Hall Glass Foyer, November 29 through December 17.  
 ORANGE CRATE LABELS, Andrews Hall, Upper Foyer, November 29 through December 13.  
 INTERNATIONAL PRINT COLLECTION, Andrews Hall, Lower Foyer, November 29 through December 13.  
 Pugs, People and the Peter Chapin Collection. Pug figurines and graphics. Zollinger Museum, Swem Library. Gallery hours; 8 a.m.-5 p.m., Monday through Friday, and 9 a.m.-1 p.m. on Saturday. October 20-December 1.  
 COLLEGE SUNDIAL--on exhibit in Zollinger Museum of Swem Library, beginning Dec. 5.

## Notices

SWEM LIBRARY will observe the following schedule during the Thanksgiving holidays:  
 Wednesday, Nov. 24, 8 a.m.-5 p.m.  
 Thursday, Nov. 25, CLOSED.  
 Friday, Nov. 26, 8 a.m.-5 p.m.  
 Saturday, Nov. 27, 9 a.m.-6 p.m.  
 The regular schedule resumes Sunday, Nov. 28, and continues until Dec. 21, with the exception of Saturday, Dec. 11, when the Library will remain open until midnight for the benefit of students preparing for semester exams.  
 THE CAMPUS CENTER and WIGWAM will observe the following schedule during the Thanksgiving holidays:  
 Wednesday, Nov. 24, Wigwam closes at 2 p.m., Campus Center closes at 5 p.m. On Monday, Nov. 29, Campus Center and Wigwam reopen at 7 a.m.  
 P.E. PROFICIENCY TESTS--Women's Physical Education Proficiency Tests will be given Nov. 30 and Dec. 1 at Adair Gym from 7:30-9 p.m.

## Classifieds

### FOR SALE

MINI-BIKE, \$125 (orig. \$239) used less than 2 mo., excellent cond., Sears 5 h.p. Craftsman engine. Call 229-3963. (11/23)  
 '67 MGB Hardtop, very good cond., engine & transmission have 50,000 miles, AM-FM cassette stereo, wire wheels, new steel radials, \$1250 or best offer; Call 220-2431 or 229-5171. (11/23)  
 BABY ITEMS, good cond., Hedstrom combination carriage/stroller, \$15; GM infant love seat, \$15; Cosco playpen, \$5; crib bumper pad, unused crib sheets and blankets. Also custom-made drapes, 324"x85", 100% Belgian linen, natural color, casement weave, \$85. Call 229-8005. (11/30)  
 TYPEWRITER, Royal manual office model, italic type, exc. cond., \$40. Call 220-0177 after 7 p.m. (11/30)  
 HIDE-A-BED, queen size, modern, off white, plaid throw pillows 4 mo. old, \$400 or best offer. Call 229-9721 after 5 p.m. or 229-2775 before 5 p.m. (11/30)  
 TIRES, two 40,000 mile Goodyear tires, DR 78-14, less than 4,000 mi. wear. Cost \$144 - sell for \$70 for the pair. 229-5555. (11/30)  
 RCA 18" B&W TV, good reception in Williamsburg on rabbit ears only, \$50. 229-7646 after 5 p.m. (11/30)  
 SANSUI 2000X receiver-amp, Sony TC-366 reel-to-reel deck, (2) Akai SW-125 speakers, Realistic turntable. Call 229-0591. (11/30)  
 BIKES, Sears Boy's 20" Spyder and Girl's 20" - \$25, boys excellent cond., \$15, girls

good cond. Call 229-4817 after 5 p.m. weekdays, anytime weekends. (11/30)  
 1969 Chevelle w/V-8 engine, PS, AT; needs some work, \$375 or best offer. 229-0166 after 5 p.m. (12/7)  
 LARGE DESK, twin size bed, and chest of drawers. Reasonably Priced. Call 229-9349. (12/7)

### WANTED

HOUSE TO RENT, two girls looking for a house close to campus. Can move in after Dec. 15. Call Vicki or Laurel 220-3789. (11/30)  
 FEMALE roommate, grad., or law student. \$107.50/plus utilities. Call 229-6889 before 10 a.m. or between 5 and 7 p.m. or after 11 p.m. (12/7)  
 ROOMMATE--2 BR Apt. at the Village of Woodshire. Total rent \$230/mo. Please call 229-2837 after 11 p.m. or before 9 a.m. (12/7)

### LOST

CAR COAT, men's tan corduroy. Call 229-8005. (11/30)  
 RING, York High School Class of 1976 ring. If found, please contact Meo Curtis at 229-3000, Ext. 259. (11/30)

### MISCELLANEOUS

DOG--must give away. Small, 20 lb, male, part English Terrier. Housetrained. Call 229-9607 after 6 p.m. (12/7)

## Religious

BAPTIST - Smith Memorial Baptist Church provides bus transportation for students for Sunday School at 9:45 a.m., and worship services at 11 a.m. and 7:45 p.m. each Sunday. For information, call 229-2998.  
 CATHOLIC MASS, Tuesdays, Wren Chapel, 7 p.m.  
 CATHOLIC - Mass, Fridays, 7:15 a.m., on campus.
