## In the News

**DISCLOSURE FORMS DUE --** All officers or employees of State agencies are required to file with the Attorney General and with their agency written disclosure of material financial interests which they have and which they believe, or have reason to believe, may be substantially affected by actions of the agency of which they are officers or employees.

Disclosure forms are available in the College Personnel Office, 201 James Blair Hall, or from the Office of the Attorney General in Richmond.

The statements must be filed, by law, during January each year.

**A GYMNASTICS EXHIBITION** and an indoor soccer match will highlight the 11th annual Physical Education Night program at William and Mary Hall, February 10. The Physical Education Majors Club needs 750 advance patron sales before Monday, January 31, to insure success of the program. Advance tickets may be purchased at the William and Mary Hall box office and the Campus Center desk for \$1. Tickets at the door will be \$2. Advance tickets may also be reserved by calling 229-3396.

**FINANCIAL AID SEMINARS** will be held Thursday, February 3, for undergraduates who wish to re-apply for financial assistance for 1977-78 and for those who wish to apply for the first time. Applications will be available and Student Aid Director E. Leon Looney will discuss deadlines and procedures for securing financial aid. Seminars will be held that morning at 9:30 and 11 a.m. and that afternoon at 2:30, 4, and 7 p.m. in Botetourt Auditorium of Swem Library.

Graduate and professional students who normally apply for the National Direct Student Loan (NDSL) may pick up the required forms during and after March. The application deadline for the NDSL is July 1, 1977.

**RESEARCH GRANTS--**Applications for minor grants for research are now available in the Office of the Vice President for Academic Affairs, Brafferton Room 6. All currently enrolled students, faculty, and staff are eligible to apply. The deadline is midnight, January 31. Applications should be sent to Franz Gross, chairman, committee for faculty research, physics department, Small Hall.

## Graves Orders Spending Moratorium To Avert 1977 Budget Deficit

Faced with a potential deficit by June 30, caused in part by the five per cent reversion of funds to the State, the College and the Board of Visitors moved quickly this weekend to forestall that possibility.

In a memorandum to the College community, President Graves directed a moratorium on expenditures "for all but the most absolutely essential items."

The text of his memorandum is printed in full below.

FROM: Thomas A. Graves, Jr.  
TO: The College Community  
SUBJECT: Moratorium on Expenditures

According to our tentative fiscal projections as of this date, based on currently-budgeted expenditures, the College faces a potential deficit by June 30, 1977 of as much as \$250,000. This potential deficit is caused in part by the 5% reversion for 1976-77 already mandated by Governor Godwin, which amounted to \$541,000. The reversion resulted in a 12-20% reduction in operating budgets, and currently a \$76,000 projected deficit.

It is anticipated that we may be required to absorb the entire cost of the regrading of classified positions, or \$108,000 more than was originally estimated. We must be prepared to respond to such a requirement if it becomes a reality.

We have generated unappropriated special fund revenues, and have included them in our current revenue projections, in an amount of \$66,000; there is a possibility because of the serious financial problems at the State level that they might not be appropriated.

Accordingly, our projected deficit is summarized as follows:

- \$ 76,000 - Result of 5% reversion
- 108,000 - Additional cost of classified employee salary regrading to be absorbed
- 66,000 - Potentially unappropriated special revenue

\$250,000 - Total projected deficit

In addition, not the least of our concerns is the uncertainty of the possibility of an additional 2-1/2%

reversion of funds, which would make the current picture even gloomier.

Since we are not permitted to incur any deficit without prior written authorization from the Governor, it is obvious that immediate steps must be taken to forestall the possibility.

Accordingly, effective immediately, I am imposing a moratorium on expenditures for all but the most absolutely essential items. This immediate action will allow the administration of the College to analyze the seriousness of the situation, and to get a more specific perspective of the fiscal potential for the remainder of the current budget year.

See Board Resolutions, page 2.

This moratorium will be implemented through the joint efforts of the Office of the Vice President for Business Affairs and the Office of the Vice President for Academic Affairs, working in conjunction with the offices of the various Deans and Directors.

Such a moratorium is imposed with the full realization on the part of the administration, and, hopefully, with the full understanding of the academic community and the College as a whole, that we do not intend to dislocate the processes essential to the ongoing educational program of the College of William and Mary.

However, all expenditures **must** be held to the essential minimum through the end of February, by which time we should be in a more knowledgeable position from which to assess the fiscal implications for the balance of the 1976-77 budget year and to take appropriate action.

In the meantime, I urge your cooperation in this concerted effort to help the College maintain a fiscal posture which will enable us to finish the fiscal year within the limits of appropriated funds, as required by law.

This decision to take this action on the moratorium has been reached by the administration in concert with the Board of Visitors at the Board meeting on January 22, 1977.

## Charles To Head College Campaign

Norfolk businessman Roy Randolph Charles has been named to head the College's three-year, \$19 million Campaign for the College.

Charles, a member of the class of 1932, succeeds the late J. Edward Zollinger, '27, who died in November. Zollinger was first chairman of the Campaign, announced in May, 1976, to increase private resources to provide more student financial aid, to support faculty professional development and to fund enrichment programs throughout the College.

A. Addison Roberts '35, of Rosemont, Pa., recently appointed by Governor Mills E. Godwin, Jr., to succeed Zollinger on the College's Board of Visitors, will serve as a national vice chairman of the Campaign's National Council.

Mrs. Jean Canoles Bruce '49, of Norfolk, who has been serving as interim chairman since Zollinger's death, will continue as a national vice chairman for the Campaign. She is currently president of the College's Society of the Alumni.

The appointments were announced at a meeting of the Council's executive committee in Williamsburg Thursday night.

Roy R. Charles

"We are especially pleased that Roy Charles, who has been so dedicated to the College for so many years, has agreed to assume the leadership of the Campaign," said President Thomas A. Graves, Jr. Warren Heemann, vice president for development, said that Charles "will ably build on the momentum already generated."

At last report, the Campaign for the College had reached 22 percent of its goal with gifts and pledges totaling more than \$4.1 million by last December.

Charles, president of Crestwood Company, is a former member of the Board of Visitors (1952-60) and currently serves on the board of trustees of the Endowment Association, the board of directors of the School of Business Administration Sponsors and the President's Council.

His work on behalf of the College earned him an alumni medallion in 1961, and in 1975 he received an honorary doctor of laws degree from William and Mary.

Charles has made many contributions to the College and last year was the major contributor to the early history of the College, "Their Majesties' Royall Colledge," written by J. E. Morpurgo at the University of Leeds, England, and published as part of the College's Bicentennial celebration.

For the Campaign for the College, Charles had made a gift of \$100,000 to establish the Roy R. Charles Fund, whose proceeds are unrestricted for meeting the College's most pressing needs.

## Board Actions, January 21-22

### Resolution On Financial Exigencies For 1976-77

The financial operating reports of the College of William and Mary, the Virginia Associated Research Campus, Christopher Newport College, and Richard Bland College indicate considerable cause for concern. The Commonwealth of Virginia is confronted with serious fiscal problems, in response to which the College and its branches have already returned 5% of General Fund appropriations for 1976-77. Further, we are expected to absorb 50% of the cost of classified salary regrade increases this year.

These two factors have created conditions that suggest the possibility of deficit positions by each of these institutions at the end of the current fiscal year. Any further reversion of appropriations, which is presently under study by the Governor, would force the College and its branches into a financial situation that could be addressed only by drastic and very undesirable measures.

Under such circumstances, it is necessary that appropriate steps be taken immediately by the administrations of the College of William and Mary and its branches, to ensure that expenditures remain consistent with realistic minimum anticipated revenues for 1976-77.

**RESOLVED**, That the Board of Visitors of the College of William and Mary in Virginia directs the administrations of the College of William and Mary, the Virginia Associated Research Campus, Christopher Newport College, and Richard Bland College to review carefully the current financial condition of these institutions, and to take whatever action which seems necessary and appropriate, no matter how drastic, to ensure responsible fiscal management of resources diminished as outlined above, and threatened by possible further reduction by Executive Order of the Governor.

### Report on Buildings and Grounds

#### CAMPUS LANDSCAPING:

**New Rogers Hall Area** - Landscaping complete; however, plant material that died during the summer months will be replaced under the warranty.

**Botetourt Residences** - Project is completed with the exception for plant material that has died. This will be replaced under the terms of the warranty.

**Crim Dell Area** - Planning for this area is being considered in the master landscaping plan along with a plan for a Wild Flower Refuge area, as available funds permit.

**Jamestown Road Parking Area** - Project complete with the exception of landscaping. Working drawings have been completed. Bids will be taken in February 1977 with planting scheduled for spring of 1977.

#### REPAIRS AND RENOVATION:

**Alterations to Old Western Union Building** (now designated as 125 Richmond Road) - This project has been completed and all areas are occupied by the Center for Psychological Services.

**Alterations to Old Fraternity Lodges** - Renovation of these five buildings has been completed and they now house 30 students. Phase 2 will cover site improvements and landscaping, which will be started in the spring.

**Swem Library Masonry and Deck Repairs** - This project has been completed.

**William and Mary Hall** - A contract for the construction of crowd control barriers and ticket booths for the two lobby areas is complete. A contract for waterproofing the exterior foundation at the northeast corner of the auxiliary gymnasium is complete with the exception of painting the court markings on the floor. This work will be completed by January 30, 1977.

**Ceramic Studio in Old Heating Plant** - Space has been provided for the Ceramic Studio of the Fine Arts Department. Work is complete except for roof repairs and the installation of an electric kiln. A contract for the roof repairs has been awarded. A new kiln is in the process of being installed.

**Millington Hall - Physiology Laboratory** - A study of Room 24 was made to determine the acceptability of the space for use as an operating room. It was found not acceptable to use ether

as an anesthesia. It was decided to use a non-flammable anesthesia in the future and the space will be ventilated to eliminate any health hazard. Plans have been completed, and bids received. The project will be completed shortly.

**Survey to Provide Accessibility and Usability of Major Campus Facilities for the Handicapped:** This survey has been conducted and the report, including review to determine the schedule and cost of implementation, has been received. Plans are in progress for modifications to make student residence facilities on the first floor of Landrum Hall accessible and usable by the physically handicapped. A contract has been completed to make facilities usable in five lodge buildings as described above. Further planning for access by the handicapped to academic and administrative buildings is underway.

#### The Commons Dining Hall -

**Exterior Improvements:** Plans have been prepared for improvements of the plaza area in front of the Commons. The scope of work envisions a brick plaza, installation of benches and plantings. The work will be done as funds become available.

**Interior Improvements:** New chairs and some new two-person tables are on order for early spring delivery. Other phases to follow when funds are available include dining room salad bars, beverage stations, additional serving line equipment and floor treatment.

#### Small Hall -

**Planetarium Study:** Schematic plans and a cost study have been prepared to show the possibility of locating a planetarium and conference area on the present open first floor deck on the north side of the building. The possibility of seeking funds for this project is being considered.

#### Campus Center -

**Wigwam Terrace Study:** A schematic plan and cost estimate have been made to determine the feasibility of developing the open terrace adjacent to the Wigwam for expanded dining use.

#### CAPITAL OUTLAY PROJECTS - 1976-78

##### Renovation of Student Residences:

**Renovation of Jefferson Hall** - Latest progress report indicates that final completion of some phases will be delayed beyond the planned completion date in December which would have allowed occupancy before the beginning of second semester. Unforeseen conditions in the building have required additional work by the contractor and completion date has been extended to February 1977. Students have expressed a preference for remaining in their present dormitories until May 1977. This should not significantly delay completion of the final phase of the Dormitory Renovation Program as explained below.

**Renovation of Chandler Hall** - Preliminary plans and specifications are complete and working drawings are in progress. Bids will be received in April 1977 with construction to be started in May 1977. Completion is scheduled for May 1978.

**Renovation of Taliaferro Hall** - Preliminary plans and specifications are complete and working drawings are in progress. Bids will be received in April 1977 with construction to be started in May 1977. Completion is scheduled for May 1978.

**Utilities and Site Work for New Law School Building** - An appropriation of \$486,150 has been provided for site work and the installation of utility lines to the future building. This covers all work that can practicably be done prior to actual building construction. The scheduled completion date for this phase is January 1977. The second phase of this appropriation cannot be undertaken until the final phase of actual construction has been completed.

**Plans for New Law School Building** - The working drawing and specifications have been completed and approved by the Division of Engineering and Buildings and by the Art Commission. Funds for construction will be requested from the 1977 General Assembly for this project, which has the highest priority.

**Plans for Renovation of Physical Plant Services Complex and Parking Area** - The preliminary plans and specifications have been completed and approved by the Division of Engineering and Buildings. The working drawings phase was terminated by directive from the Governor's office due to shortage of funds. Remaining funds were reverted to the State. This is one of the highest priority projects and will be requested again for the 1978-80 biennium.

**Planning for Renovation of Old Rogers Hall for the School of Business and other Academic Uses** - Preliminary plans and outline specifications are complete and have been approved by the Division of Engineering and Buildings. Working drawings have been completed within the limited appropriation. This is one of the College's highest priority projects and will be requested for the 1978-80 biennium.

**Installation of Storm Drainage System, Final Phase** - Plans and specifications for this project are now being prepared by a consulting engineer. This appropriation of \$96,600 will provide for the connection of remaining storm drainage collection lines into the recently completed storm drainage system. This construction of a basin to be located in the area behind Swem Library will collect debris before the storm water flows into Lake Matoaka. Detailed planning is being undertaken so that a contract may be awarded in the near future.

**Replacement of Aged Steam and Condensate Lines - Colonial Campus** - Funding authorization for this project has been received. The work will be performed by a welding contractor working under the supervision of College personnel. The College will supply all piping, valves and traps for the welding contractor to install as a replacement of the present pipelines, which have exceeded their expected life usage and have been in almost constant need of repair. The piping, valves and traps have been put on order.

**Installation of Additional Tennis Courts** - A \$150,000 gift from the Anheuser-Busch Foundation has made it possible to plan the construction of eight tennis courts which will be located in the area behind William and Mary designated on the master plan for physical education facility development. The site will accommodate ten additional courts and a multi-purpose playing field as funds become available. Further development of the Adair site for additional tennis courts will await the availability of additional funds. Bids were received on the eight tennis courts on January 6, 1977. The low bid was under the estimated cost; this may make it possible to install two additional courts north of the present site. Provision for future installation of lighting will be incorporated into the plans so that this phase may be added as additional funds become available. A prompt award of the contract for construction of the ten courts will be made; completion will be in the late spring.

#### OTHER CAPITAL OUTLAY PROJECTS:

**Special Project - National Center for State Courts Headquarters Building** - Project under construction. Completion scheduled for January 8, 1978.

## Official Memo

From: William J. Carter  
Vice President for Business Affairs  
To: The College Community  
Subject: **Emergency Energy Conservation Measures**

Governor Godwin has sent a telegram to all State agencies in which he points out the critical energy and fuel supply situation due to the extremely cold weather.

The Governor has directed that thermostats be lowered to 65 degrees, and that any operation involving the use of electricity, natural gas, or fuel oil be curtailed. He requested that these conservation measures be extended to such things as recreational activities and voluntary gatherings.

These procedures will not apply to patient and treatment areas within the Student Health Center, or in laboratory areas which require a constant temperature for scientific research.

Accordingly, we are obliged to take the follow-

## Employment

The following positions are open to all qualified individuals; however, current faculty and classified employees will receive first consideration. Except where noted, inquiries and applications should be made at the Personnel Office, 201 James Blair Hall, and not at the department where the opening exists. Call 229-JOBS (229-5627) for an updated listing and 24-hour service. An EEO/AA employer.

CAMPUS POLICE OFFICER--\$8784, Campus Police Office, deadline January 26.  
 CAMPUS POLICE LIEUTENANT--\$11,472, Campus Police Office, deadline January 27.  
 CLERK TYPIST C--\$6432, Physics department, deadline January 29.  
 PRESS OPERATOR--unclassified, no State benefits, \$2.71 per hour, Publications Office, deadline January 27. Qualifications: experienced in operating offset duplicating presses and fast copy machine.

## Opportunities For Study Abroad

February 11 is the application deadline for several College-sponsored exchange programs for study in the British Isles or Germany next year.

Both sophomores and seniors may apply for the exchange scholarship at the University of Exeter in England, which pays tuition and room and board and allows any feasible academic courses. In addition, up to ten sophomores will be accepted in the Junior Year at Exeter program, for which the student pays a moderate cost. Although there is no limit on concentration, students accepted should take three English courses and two electives chosen from government, history, philosophy, psychology, sociology, religion and economics.

At St. Andrews University in Scotland an exchange scholarship is open to sophomores only. One student of religion will also be accepted by St. Mary's College, the divinity school, at the same cost as that of the Junior Year at Exeter.

Applicants for these programs should see Cecil McCulley of the English Department in Old Rogers 208; prior to February 11. Application forms are also available in Dean Deery's office, James Blair 208, and at Project Plus.

Students are invited to an information meeting to be held in Room C of the Campus Center at 8 p.m. on Wednesday, February 3.

### Muenster Exchange

Up to three William and Mary students can be accepted for the ex-

In Harrison Lecture Series, Beginning February 1

## Gutman To Focus On Slave Family

Historian Herbert G. Gutman, author of a major new work in Afro-American history, "The Black Family in Slavery and Freedom, 1750-1925," published in 1976, will give the first of three Harrison Lectures, February 1.

Gutman, 1976-77 James Pinckney Harrison Professor of History, will speak on "The Slave Soldier as Husband and Father," at 8 p.m. in Andrews Hall auditorium. The public is invited to attend.

The lecture deals with one aspect of the general title of the series, "The Slave and Ex-Slave Family During the Civil War and Reconstruction."

The second lecture in the series will be given February 8 and will deal with "Reconstructing Broken Slave Families." The final lecture, February 15, will be entitled "Slave and Ex-Slave Parents and Their Children: Attitudes Toward Work and Education." All lectures will be given in Andrews Hall, beginning at 8 p.m.

Gutman has been one of the busiest visiting scholars to date. He has received innumerable requests for lectures and interviews and has already spoken at Duke, Emory and Atlanta Universities. He has appeared on the NBC "Today" show and written a series of articles for the "Op Ed" page of the New York Times.

His most recent book has generated a great deal of general as well as scholarly interest. It has been featured in both Time and Newsweek and is also an alternate selection for the Book-of-the-Month Club.

The explanation for this widespread interest lies in Gutman's challenge to much of the conventional wisdom about Afro-American family structure and culture. In particular, he rebuts the notion popularized by the Moynihan Report in 1965 that slavery destroyed the black family and left subsequent generations of black Americans mired in "a tangle of

pathology." He also contends that the slave culture was more autonomous than many historians have been willing to admit.

When Gutman came to William and Mary in September, he was on leave from the City College of New York to serve as a Fellow at the Shelby Cullom Davis Center for Historical Studies at Princeton University. He also held a National Endowment for the Humanities Faculty Fellowship.

Gutman is a graduate of Queens College. He received his master's degree from Columbia University and his doctorate from the University of Wisconsin.

The James Pinckney Harrison Chair of History was established at William and Mary in 1969 as a memorial to the late chairman of the board of the Universal Leaf Tobacco Company of Richmond.

CHIEF JUSTICE Howell T. Heflin of the Alabama Supreme Court taught his first class last Friday as Tazewell Taylor Visiting Professor of Law for the spring semester. Chief Justice Heflin, a member of the Board of Directors of the National Center for State Courts as well as chairman of the National Conference of Chief Justices, is teaching a seminar on Judicial Administration with Alexander B. Aikman, regional director for the National Center. Although most of the students in the seminar are from the Marshall-Wythe School of Law, a few undergraduate and graduate government students are also enrolled.

## Official Memorandum

From: George R. Healy  
 Vice President for Academic Affairs  
 To: Faculty and Administration of the College  
 Subject: Information Systems Advisory Committee

On 19 November 1976, I circulated a memorandum on "Administration of Data Processing and Reporting Services," which outlined a number of changes to be made effective 1 December 1976 regarding the administration of our automated data processing services. (See *Board of Visitors, William and Mary News, November 23,*

1976.) Among them was a notice that the Computer Center Advisory Committee, and the *ad hoc* Information Systems Task Force Advisory Committee, would be disestablished, and a new committee would be formed from the faculties and administration, and chaired by a faculty member. This committee has been named, charged, and staffed by the President, as follows:

**Information Systems Advisory Committee.** This committee advises the Director of Automated Data Processing, who serves on the committee in an *ex officio* capacity, and the President on all matters concerning the automated data processing facilities and systems of the College. As may be timely and appropriate, the committee will work with and advise the Director of Automated Data Processing on computer hardware and software acquisition, personnel staffing, systems development, allocation of computer and time and priority usage assignments, budgets, and planning to ensure that the needs of the College and of all computer users therein are compatibly advanced. The committee will report in writing at least annually to the President.

Leonard G. Schifrin, Professor of Economics, has agreed to serve the committee as chairman. Other members are: Dennis K. Cogle, Assistant to the Vice President for Business Affairs; Robert J. Fehrenbach, Professor of English; Armand J. Galfo, Professor of Education; Anthony L. Guenther, Associate Professor of Sociology; William J. Maddocks, Associate Professor of Business Administration; Virgil V. McKenna, Professor of Psychology; William G. Poole, Associate Professor of Mathematics; Arden Sher, Professor of Physics; Jeffery R. Shy, Coordinator for Development Services; Henry C. Johnson, Registrar and Director of ADP, *ex officio*.

Within the above charge, the Committee will begin its work immediately.

## Official Memorandum

Continued from previous page

ing measures in compliance with Governor Godwin's directive:

- All thermostats presently are being lowered to 65 degrees in classrooms, offices, and dormitories.
- The use of lights will be reduced in all areas of the campus to the greatest extent possible. However, adequate lighting will be maintained in specific areas to assure safety in hallways, on stairways, in parking areas, and in other similar locations.
- Activities will be curtailed in the Campus Center, where only The Wigwam, administrative offices, and classrooms will continue to be used in normal fashion.

- In William and Mary Hall, Blow Gym, and Adair Gym, similar measures will be taken.

We are asking your cooperation in the following:

- In order to hold heat loss to a minimum, window coverings (blinds, drapes, etc.) should be

kept closed at night and on weekends.

- Naturally, outside doors and all windows should be left closed.

These measures will remain in effect throughout the existing energy emergency. At the same time, we wish to assure you that they are undertaken with the full awareness that the basic educational mission of the College must not be adversely affected.

We would call to your attention that the recently-installed computerized system for the regulation of electricity and heat in eleven of the newest College buildings makes more precise control possible. However, the older buildings on campus have an antiquated steam system which does not lend itself to such precise regulation. In these buildings we are striving to achieve the highest degree of control possible under the circumstances.

During this critical period we seek your understanding cooperation.

And in the meantime--DRESS WARMLY!

# Calendar

To schedule an event, contact the Campus Center Office, Ext. 235 or 236.

When a special program is planned for a meeting on campus, the William and Mary News welcomes further information about speakers, discussion topics, tickets and other details. Contact the News Office, 308 Old Rogers Hall, ext. 331 or 371.

## TUESDAY, JANUARY 25

Placement Interviews: Prince William County Public Schools, Morton 104, 10 a.m. By appointment.

Law School Seminar, CC Room C, 1 p.m.

SEMINAR on Death and Dying, Stephen Henderson, Co-director, Counseling Services Associates, "Emotional Reactions to Dying," CC Theatre, 4:30 p.m.

Interhall Meeting, CC Room A and B, 4 p.m.

Women's Basketball, Adair Gym, 4:30 p.m.

WRA Basketball, Adair Gym, 7 p.m.

14 through 28, gallery hours 10 a.m. to 4 p.m.

SCULPTURE AND WATERCOLORS by Janice Orr are on exhibit through February 4 in the gallery of Robert Andrews Hall of Fine Arts. Orr is assistant professor of art at Hampton Institute, where she teaches drawing and sculpture. The watercolors exhibited at Andrews Gallery are very recent works, connected in form and color to the several yarn works also on exhibit. The sculpture, made of fiberglass, or gesso paste with acrylic paint and glazes, is part of a series begun two years ago.

Janice Orr has exhibited widely in Virginia as well as in regional and national exhibits. Her works are included in numerous private collections, among them the University of South Carolina and the Virginia National Bank permanent collections. A graduate of Northwestern University, Orr has studied at the Ringling School of Art, and she holds an M.S. degree from the Art University of Wisconsin at Madison and an M.F.A. degree from the Cranbrook Academy of Art.

Andrews Gallery hours are 10 a.m. to 4 p.m. weekdays.

## Notices

CAREER PLANNING SEMINARS begin this week. Designed to help students inventory interests, skill and values and integrate them into a realistic career direction, the seminars are two hours long and meet for six successive weeks. To join, register in the Office of Career Counseling by January 27. For information, call Ext. 427.

ODK AND MORTAR BOARD applications are available at the Campus Center desk through Wednesday, January 26.

CAMPING IN THE ADIRONDACKS, March 5-14--Students who have signed up for this course over spring break should attend an important preparatory meeting Thursday, January 27, at 8 p.m. in Adair Gym. for a course introduction, briefing and films. The \$50 deposit is due at that time. Students may sign up on the waiting list by contacting the Women's P.E. Department.

NATIONAL TEACHER EXAMS--The NTE will be given on campus Friday 19 in Rooms 101 and 141 of Morton Hall. Prospective teachers who plan to take the NTE are reminded that registrations are due at the Educational Testing Service no later than January 27. Forms are available from John Sykes, director of Educational Placement in the School of Education.
