In the News

MUSIC STUDENTS will present an American Composers Recital, Thursday, March 24, at 8:15 p.m. in the Ballroom of the Campus Center, Jamestown Road. Admission is free, and the public is invited to attend.

Sponsored by the College's Nu Sigma chapter of Phi Mu Alpha Sinfonia music fraternity, the recital will include both vocal and instrumental arrangements of works by American composers.

Among the variety of piano pieces to be performed are "Two Bagatelles" by Tcherpnin, "Nocturne" by Barber, and "Bamboula" by Gottschalk.

JUVENILE LAW SYMPOSIUM--"Children in Trouble" is the topic of a day-long symposium, Saturday, March 26 from 9:30 a.m. to 3:30 p.m. at the Marshall-Wythe School of Law.

Sponsored by the College's Black American Law Students Association, the symposium is open to the public.

Following registration at 9:30 a.m. in the lobby of the law school, there will be a panel discussion on "Problems Children Encounter" at 10:15 a.m. in the Moot Court Room.

Robert Smith, psychologist for the King William-West Point school systems and current president of the Virginia School Psychologist Association, is keynote speaker for the 11:45 a.m. luncheon in the Wren Building. Smith's talk on "Rights and Needs of Juvenile Delinquents" will be followed by a panel discussion by experts in the fields of law, psychology and mental health.

A workshop on applying to law school will conclude the day's events at 2:45 p.m.

Those who plan to attend the luncheon are asked to pre-register by sending their names and addresses to Beth Hopkins, P.O. Box 7117, College Station at William and Mary. Cost of the luncheon is \$4 per person, which may be paid in advance by mail, or at registration on the morning of the symposium.

CONCERT--The Broome Community College Choir will present a concert, Friday, March 25 at 7:30 p.m. in the Wren Chapel. The public is invited to attend, free of charge.

The Choir, which is comprised of students and faculty, will sing both classical and popular selections.

The concert is sponsored by the Student Activities committee.

Board Approves Tuition, Fee Increases

The cost of attending William and Mary will go up next year an average of 6.9 per cent for Virginia residents and an average of 8.5 per cent for out-of-state students.

Increases in tuition, fees, room and board approved by the Board of Visitors at its March 17-19 meeting will push costs up for Virginia students by an average of \$169 and for out-of-state students by an average of \$319.

See Board Actions, pp. 3-6

For in-state students, tuition, fees, room and board will total \$2607, compared to last year's cost of \$2438; for out-of-state students, the new total will be \$4055, compared to last year's \$3736.

In-state tuition will increase \$36.50 per semester, from \$479 to \$515.50. Out-of-state tuition will go up \$111.50 per semester, from \$1,128 to \$1,239.50.

Room rent will increase 8.1 per cent, from an average of \$357 to an average of \$386, and board will increase \$19 per semester, or 4.9 per cent, from \$383 to \$402.

Hourly tuition costs for part-time students go from \$32 to \$34 per hour; for non-Virginia hourly students, the cost increases from \$75 to \$83 per hour.

Included in the tuition and general fee increase is a \$14 boost in the athletic and recreational fee. All of the increase will go to support non-revenue sports at the College.

Budget reversions and inflation are pinpointed as the cause for the cost increases. Two budget reversions ordered by the State will cost the College 6 per cent of its originally-

allocated biennium budget, or \$1,343,960. The College must find another \$108,000 to cover one-half of the cost of living increases for its supporting staff. This was previously paid by the state.

In addition, inflation will add to the crunch. The outstanding example is utility and fuel costs, which will be 31 per cent higher than originally anticipated because of an increase in prices.

In an effort to curtail the projected budget deficit, the College has had a

moratorium on expenditures in effect since late January. President Thomas A. Graves Jr. is expected to issue a memorandum this week outlining the current status of the moratorium.

Following a comprehensive study of the College's food services, William and Mary officials announced that quotations for providing the food services would be invited from Crotty-Szabo, which currently is under contract to the College, as well as from other good service companies.

McDowell Schedule Given

Richmond Times-Dispatch reporter Charles McDowell will be speaking to a number of groups on campus this week as "Journalist in Residence," March 24-26. His itinerary is as follows:

Thursday

8 p.m. -- Address a combined group of students in various government classes, Morton 20. Members of the College community are invited to attend.

Friday

10 a.m. - Participate in Religion 268: Ecology and Religious Ethics, Associate Professor Hans O. Tiefel, Morton 201.

11 a.m. -- Participate in History 464: The New South, Assistant Professor H. Cam Walker, Morton 302.

noon--Lunch in the Wigwam with student leaders.

1 p.m. -- Participate in Religion 310: History of Religion in America, Assistant Professor Kenten Druyvesteyn, Morton 201.

3 p.m. -- Open House at Radio Station WCWM-FM, Phi Beta Kappa Hall.

4:15 p.m. -- Attend rap session at Ludwell Residence Hall.

Saturday

11:30 a.m. -- Attend rap session at Old Dominion Residence Hall.

1:30 p.m. -- Open House in Flat Hat Offices, Campus Center.

5:30 p.m. -- Reception and publications banquet in Wren Building.

McDowell's Thursday evening talk, the rap sessions and the open houses are open to the public. Those interested in attending the class sessions are asked to first contact the course instructor.

Under Summer NSF Geology Grant

Students To Investigate Fault Zone

The geology department has received a \$12,310 grant from the National Science Foundation for support of undergraduate research this summer.

The grant will provide funds for five undergraduate students in geology to undertake ten weeks of research. The common focus of the student projects will be to determine the nature and significance of a major lineament, tentatively referred to as the "Fredericksburg fault zone," which extends south-southwest across the Virginia Piedmont.

Although each student will choose and work with a certain emphasis on a particular area, free communication and exchange of ideas among all the students will be encouraged in order to keep attention focused on the major problem. Little work has been done on this particular geological phenomenon, according to Bruce K. Goodwin, professor of geology, who will be directing the summer work.

Library research, field work and laboratory investigations will be com-

bined in each project to give students a broad range of experience. The research accomplishments of the students will be presented in a formal

written report, and the students will also be encouraged to present their findings before the annual meeting of the Virginia Academy of Science.

Harvard Professor To Discuss Roots Of Black American Music

Eileen Southern, professor of music and Afro-American studies at Harvard University, will discuss "Folk Roots of Black American Music," Monday, March 28, at 8:15 p.m. in 100 Ewell Hall. The public is invited to attend.

An outstanding musician and a scholar, Southern is an expert on Black American music. She is visiting the campus under the auspices of the Visiting Scholars Program of the University Center in Virginia.

Southern has received numerous awards, including the National Association of Negro Musicians Award, Outstanding Educator in Music Award,

ASCAP-Deems Taylor Award, citation by the Voice of America, Distinguished Woman Award and a University of Chicago Alumni Association Achievement Award.

Southern co-founded and now edits "The Black Perspective in Music." She is also editor of "Readings in Black American Music."

Her published works include "Dictionary of Black Musicians," "Anonymous Chansons in a Manuscript at El Escorial," "The Music of Black Americans: A History" and "The Buxheim Organ Book."

Professor Sings 1800's Ballads In Concert Lecture

Songs "in vogue with the vulgar" in 1814 will be the subject of a special concert lecture Wednesday, March 30, at 8:15 p.m. in the Little Theatre of the Campus Center.

The public is invited to attend.

Arthur F. Schrader, visiting professor of music, will sing and discuss a number of songs that were current in the early 19th century.

The songs, Schrader explained, are among 300 broadside ballads purchased by Massachusetts printer Isaiah Thomas in 1814. Thomas bound the works "for preservation" and gave them to the American Antiquarian Society at Worcester "to shew what articles of this kind are in vogue with the vulgar. . . ."

Color slides of the original broadsides will accompany Schrader's performance.

Professor Schrader has been on leave from Old Sturbridge Village, Mass., where he has been a music associate and ballad singer for the past fifteen years, in order to teach at William and Mary under the Eminent Scholars program.

Schrader holds an A.B. in history and an Ed. M. from the University of Buffalo.

He has been a consultant in early American music to several historical associations, among them the Massachusetts and Connecticut Revolutionary Bicentennial Commissions, the Connecticut Historical Society, the New York State Historical Association and the Ohio Historical Society.

ORCHESIS PRESIDENT Maggie Kneip will perform in "Profile," a dance she choreographed for the upcoming Orchesis program, An Evening of Dance.

Orchesis Slates 'Evening Of Dance'

Members of William and Mary's modern dance group Orchesis will present "An Evening of Dance," Thursday, through Saturday, March 24-26, at 8:15 p.m. in Phi Beta Kappa Hall. The public is invited to attend free of charge.

The program consists solely of works created and danced by the dance students who comprise Orchesis. Faculty advisors are Shirley Roby and Carol Sherman.

"Whimsey," the opening number, sets a light hearted tone which appears in many of the dances on the evening's program. It was choreographed by senior Susan Glover of South Boston, Va., to Carl Orff's "Music for Children."

Cartoons in "The New Yorker" inspired the fanciful "Cartoons and other Galleries," created by Maggie Kneip, a senior from Philadelphia and president

In Campus Center Little Theatre

'Trial By Jury' Opens Thursday

One of the most cherished rights under English Common Law will have its day in court this week, when the Sinfonicron Opera Company presents the Gilbert and Sullivan comic operetta "Trial by Jury," March 24-26 at 8:15 p.m. in the Campus Center Little Theatre.

According to producer Kym Powell Mincks, the one-act operetta represents a satirical travesty of a breach of promise suit, mocking the right to trial by jury. It is considered, she said, one of the finest works by the talented musical duo.

The Sinfonicron Opera Company was formed by students in Delta Omicron and Phi Mu Alpha music fraternities. The company presents a Gilbert and Sullivan work each fall, and "Trial by Jury" represents the company's first spring venture.

Tom David, director of the fall

of Orchesis. Kneip has also choreographed "Profile," which she will perform as a solo dance.

A sense of humor brightens the age-old lovers dilemma that is the theme of "All's Fair," choreographed by Kathy Jones, a junior from Chevy Chase, Md.

Karen and Kathryn Simmons, sophomores from Manassas, Va., explore the idea of shapes breaking and going askew in their dance "Simulacrum." Shapes and movement play an equally important role in the dance "S+T+O+P," choreographed by sophomore Nancy Antle of Bay City, Mich. Dancers wearing costumes of white stripes on red create shapes based on the letters in the dance's title.

Images of flight become focal points for two lyric dances--"Autumn Swept," choreographed by Carrie Lukeman, a junior from Centerville, Va., and

production, "The Sorcerer," will also direct "Trial by Jury." Assisting him are Donna Wine Forbes with musical direction; Frank Hankey, piano; and David Forbes, technical direction. Production assistants are Cindy Shufflebarger, Elaine Logan and Barbara Nanzig.

The show will feature Jeff Mincks, a second year law student, as the Defendant; Andrew W. Stumb, a senior from Nashville, Tenn., as the Learned Judge; Ken Krantz, a third year law student, as the Counsel for the Plaintiff, and Beverly Tourdo, a sophomore from Bernardsville, N.J., as the Plaintiff.

Tickets for the production are available in advance at the Campus enter desk or by calling 229-6054 or 229-0528, and preceding the performance at the door. The cost is \$1.50 general admission and \$1 for students and children.

"Wing Whisper," created by Lynn Whitlock, a junior from Southampton, Pa.

Two people are caught in alien environments in "Sojourn," a duet choreographed by senior Diane Hull of Carmel, Cal.

Hull has also choreographed "For Dancers and Percussion" with music composed by Greg Johnson, a senior from Virginia Beach. Johnson will conduct a musical ensemble of students playing the piano, xylophone, bells and other percussion instruments for the dance.

The entire company of dancers will perform in the finale, "Currents," choreographed by Hull.

Crime In City Is Forum Topic

Experts on the court system, corrections and the police will discuss "Crime in the City" in a Project Plus Forum, Wednesday, March 30, at 7:30 p.m. in Millington Auditorium.

The public is invited to attend.

Panelists are Richard Williamson, professor and associate dean at the Marshall-Wythe School of Law; Anthony Guenther, associate professor of sociology; and Harvey Gunson, director of campus police.

Williamson specializes in teaching criminal law and procedure.

Guenther, who teaches a course at William and Mary in criminology, has more than a textbook knowledge of the field of corrections. He spent a year conducting field research for the Federal Bureau of Prisons and Penitentiaries and another year working with and studying the Metropolitan Police Department of Washington, D.C.

Harvey Gunson joined the William and Mary staff in 1974, following nearly two decades on the force of the New York City Police Department. He has worked in N.Y.P.D.'s divisions of investigations, patrol and corrections.

Senior Presents Voice Recital

Ruth Ann Curry will present her senior voice recital on Sunday, March 27, at 8:15 p.m. in Phi Beta Kappa Hall.

A student of Robin Roark, she is a member of Delta Omicron International Music Fraternity for women and plans to continue her vocal music education in graduate school. She has acted in several Sinfonicron Opera Company productions.

Miss Curry will sing works by Faure, Duparc, Gounod, Schubert, Scarlatti, and Dvorak.

There is no admission charge for the recital.

College Women Host Emeriti Tea

The wives of retired faculty members will be guests of honor at the College Women's Club Emeriti Tea, Wednesday, March 23, at 3 p.m. at the Alumni House.

Carolyn Holmes, curator of Ash Lawn, will give a talk and slide presentation on "The Preservation of Ash Lawn." The former home of President James Monroe near Charlottesville, Ash Lawn was bequeathed to the College in 1974 in the will of Jay Winston Johns. William and Mary has undertaken a methodical program of restoration of Monroe's "cabin-castle" under the direction of Mrs. Holmes.

Babysitting reservations may be made by calling 220-0643.

International Circle Sets Gourmet Dinner, Dance Program

The International Circle at the College will hold its annual International Dinner with foods from around the world, Sunday evening, March 27, and will sponsor a dance program March 28.

The gourmet dinner, which has become a tradition on campus, begins at 7 p.m., March 27, in the Campus Center Ballroom. Selected native dishes from a variety of countries will be served. The menu will include roast pig, Chinese fried rice, Hong-Shao fish and Korean Bulgogi fire-beef.

The Circle will sponsor a performance of the Kim-Yung-Hee Korean dance group, Monday, March 28, at 8:15 p.m. in Phi Beta Kappa Memorial Hall. Tickets are \$3 and are available in advance at the Campus Center desk and the evening of the performance at the PBK box office. The dancers will also entertain following the dinner Sunday evening.

Tickets for the dinner are \$4 and are available by calling Bruce Herbert, 220-3778; or Pam Fuller at Asia House, 253-4464.

The public is invited to attend both the dinner and the dance program.

Neville Kanakarathne, Ambassador to the United States from Sri Lanka (formerly Ceylon), will be guest of honor at the dinner. Kanakarathne has long been a member of his country's diplomatic corps.

Since 1957 Kanakarathne has served in a wide range of capacities at the U.N., including legal advisor to the Secretary-General's Special Representative in the Congo in 1961-62, legal and political adviser to the commander of U.N. emergency forces in the Middle East in 1962-64, and as legal and political adviser to the Secretary-General's mediator in Cyprus and to the commander of the U.N. forces in Cyprus during 1964-65.

Last fall he chaired the Sri Lankan delegation to the 31st session of the U.N. General Assembly.

He was appointed to his present post in 1970.

Tuition And General Fee, And Other Fees For 1977-78

Requirements for the educational program and supporting services have been evaluated carefully by the President and his administrative officers for the year 1977-78. The requirement for reversion of General Fund appropriations amounting to more than \$694,000 in 1977-78, as well as continuing inflationary pressures on operating costs in certain areas, oblige the President to recommend an increase in the tuition and general fee, and selective increases in allocations to enable the College to maintain the calibre and scope of present programs.

RESOLVED, That the Board of Visitors of the College of William and Mary in Virginia hereby approves the attached Schedule of Tuition and General Fee, and Other Fees for 1977-78, its allocations and the revisions in charges detailed below for the session 1977-78.

Increase in tuition and general fee for in-state, full-time students by \$36.50 per semester, increasing this fee from \$479 to \$515.50 per semester, a total of \$1,031 for both semesters of the regular session.

Increase in tuition and general fee for out-of-state, full-time students by \$111.50 per semester, increasing this fee from \$1,128 to \$1,239.50 per semester, a total of \$2,479 for both semesters of the regular session.

Increase in board rate by \$19.00 per semester, increasing the board rate from \$383 to \$402 per semester, a total of \$804 for both semesters of the regular session.

Increase in room rent from a present range per semester of \$295 to \$395 to a range of \$320 to \$420 per semester, a total of \$640 to \$840 for both semesters of the regular session.

RESOLVED FURTHER, That the Board of Visitors of the College of William and Mary in Virginia hereby approves the following tuition for part-time students at both the undergraduate and graduate levels, effective September 1, 1977:

\$34 per semester hour for Virginia students

\$83 per semester hour for out-of-state students

Upon approval, these tuition rates will be applicable to part-time students in the Regular Session, the Evening College, and in the Summer Session.

Current part-time tuition rates are \$32 per hour for Virginia students and \$75 per hour for out-of-state students. These proposed revised rates represent a direct pro-ration of the full-time Tuition and General Fee for 1977-78 according to domiciliary status.

Faculty Promotions

The following members of the Faculties of the College have been recommended for promotion in rank by their department committees and chairmen, by the appropriate deans, and by the Vice President for Academic Affairs:

BE IT RESOLVED, That upon the recommendation of the President, the Board of Visitors of the College of William and Mary approves the promotion of the following members of the Faculties of the College of William and Mary; effective 1 September 1977, except as otherwise shown:

Associate Professor to Professor:

- William Bullock, Jr., School of Education.
- Stephen C. Clement, Department of Geology.
- R. Merritt Cox, Department of Modern Languages.
- Lewis A. Foster, Jr., Department of Philosophy.
- George W. Grayson, Department of Government.
- Gerald H. Johnson, Department of Geology.
- Edward A. Remler, Department of Physics.
- Thomas F. Sheppard, Department of History.
- Timothy J. Sullivan, Marshall-Wythe School of Law, effective 1 July 1977.
- Walter L. Williams, Jr., Marshall-Wythe School of Law.
- John H. Willis, Jr., Department of English.

Assistant Professor to Associate Professor:

- Eric L. Bradley, Department of Biology.
- Carl E. Carlson, Department of Physics.
- Miles L. Chappell, Department of Fine Arts.
- Carl P. Daw, Jr., Department of English.
- John B. Delos, Department of Physics.
- Pieter T. Elgers, School of Business Administration.
- Judith Ewell, Department of History.
- Howard M. Fraser, Department of Modern Languages.
- Margaret W. Freeman, Department of Music.
- William E. Garland, Jr., School of Education.
- Ronald N. Giese, School of Education.
- Paul Helfrich, Department of Fine Arts.
- Gary A. Kreps, Department of Sociology.
- Maria R. Palmaz, Department of Modern Languages.
- Kenneth C. Petzinger, Department of Physics.
- Paul K. Stockmeyer, Department of Mathematics.
- James J. Thompson, Jr., Department of History.
- Jack D. Van Horn, Department of Religion.
- H. Cam Walker, Department of History.
- Lawrence L. Wiseman, Department of Biology.

Instructor to Assistant Professor:

- Marlene K. Jack, Department of Fine Arts.

TUITION AND GENERAL FEE, AND OTHER FEES ACTUAL FOR 1976-77 AND PROPOSED FOR 1977-78

	ACTUAL 1976-77		PROPOSED 1977-78		INCR/(DECR) OVER 1976-77	
	Virginia	Out-of-State	Virginia	Out-of-State	Virginia	Out-of-State
TUITION AND GENERAL FEE (TOTAL):	\$ 958	\$ 2,256	\$ 1,031	\$ 2,479	\$ 73	\$ 223
This total Tuition and General Fee is allocated as follows:						
Tuition	634	1,932	699	2,147	65	215
Student Activities	20	20	28*	28*	8	8
Intercollegiate Athletics	122	122	128	128	6	6
Student Health Service	72	72	72	72	-0-	-0-
General Auxiliary Enterprise Services	30	30	22	22	(8)	(8)
Bus Service	17	17	19	19	2	2
Debt Service	63	63	63	63	-0-	-0-
OTHER FEES (TOTAL):	\$ 1,480	\$ 1,480	\$ 1,576	\$ 1,576	\$ 96	\$ 96
Board	\$ 766	\$ 766	\$ 804	\$ 804	\$ 38	\$ 38
Room (Average)	714	714	722	722	58	58
TOTAL FEES: TUITION AND GENERAL, AND OTHER	\$ 2,438	\$ 3,736	\$ 2,607	\$ 4,055	\$ 169	\$ 319

Does not include Law School Activities Allocation of \$8.00, which is applicable to students of the Marshall-Wythe School of Law for the funding of the non-social activities and services coordinated through the Student Bar Association and the Director of Student Activities.

*For 1977-78, Student Activities include student recreation and intramural sports. The \$8 increase results from a transfer to this allocation from Intercollegiate Athletics (formerly Athletic and Recreational Activities).

Revision of By-Laws

Article I, Section 1, of the By-laws of the Board of Visitors states that "The Board of Visitors shall meet in regular session five times each year, in January, March, May, September, and November; the meeting in May being designated the regular annual meeting." The By-laws also call for special meetings of the Board to be called by the Rector and indicates that the Executive Committee shall exercise the powers and transact the business of the Board between meeting of the Board.

The administration of the College has recommended that the above-quoted sentence of Article I, Section 1, be revised in a manner that will meet the interests of both the Board and the administration by reducing the number of regular Board meetings from five to four each year on a schedule of meetings approximating October 15, December 10, February 20, and April 25, with the April meeting the annual meeting of the Board.

Therefore, Be it Resolved, That the Board of Visitors approve a revision of the By-laws of the Board as follows:

Article I, Section 1, Meetings. The Board of Visitors shall meet in regular session four times each year, generally in October, December, February and April; the meeting in April being designated the regular annual meeting.

Be it Further Resolved, That the President be directed to take appropriate actions to implement these revised By-laws which become effective as of July 1, 1977.

Requested Capital Outlay Projects For 1978-84, Revised

Capital Outlay requests for the 1978-84 biennium and projections for the succeeding two biennia must be filed with the Governor's Office by March 15, 1977.

The Board of Visitors, at its meeting on January 20-22, 1977, approved the projects, listed by priority and estimated costs, which were recommended by the President and his administrative officers. Final revisions of the cost estimates for these projects for 1978-84 have now been completed and are listed in the attached schedule.

Projects for 1978-80 were listed by priority on the assumption that the 1977 General Assembly would approve appropriations for the construction of the new Law School Building. Because of insufficient funds, the General Assembly was obliged to include that project within the "Commonwealth of Virginia Educational Institutions Bond Act of 1977," a General Obligation Bond issue of the State, which is scheduled for a referendum on November 8, 1977. It is hoped that this referendum will be successful. However, in the event that it is not, this revision to our earlier stated priorities reiterates the highest priority for the Law School Building and ensures that the project will be presented for consideration by the 1978 General Assembly. The difference in the amount requested from the 1977 General Assembly, \$5,105,900, and the revised amount \$5,419,076, is \$313,176, which is due solely to inflation for the one-year delay in construction from July 1977 to July 1978. Authorization to begin construction earlier would of course reduce the cost proportionate to the number of months elapsed at a projected inflation rate of about 6% per year, or 0.5% per month.

The second assumption on which the earlier listing of projects for 1978-80 was based was that the 1977 General Assembly would approve a new \$3,500,000 Student Residence Complex to house 270-300 students within a new Revenue Bond issue, \$3,000,000 of which would be funded by bonds and \$500,000 to be funded by renovation and replacement funds of the College. This project was approved by the 1977 General Assembly. Preliminary planning has been approved to begin at once, with construction to be completed by June 1980.

Final cost estimates for Project Priorities 2, 2A, 3 and 4 for 1978-80 reflect revisions made to the prior tentative cost estimates in accordance with the conditions approved in Resolution W-1(R) of the January 1977 Board meeting.

Final cost estimates have been made similarly for two projects scheduled for 1980-82. The installation of ten tennis courts, rather than eight, has been

found to be feasible for the site for \$250,000; Completion of the Athletic Field is projected to cost \$60,000, rather than \$50,000, as estimated at the January Board of Visitors meeting.

The only revision recommended for 1982-84 projects reflects the need to change the source of

funds from Other Funds to General Fund for Priority 3, Improvement of Jamestown Road Parking Area.

RESOLVED, That the Board of Visitors hereby approves the final recommendations of the President for institutional capital outlays for 1978-84, as revised in the attached schedule.

REQUESTED CAPITAL OUTLAY PROJECTS For the Period 1978-80				
Priority	Project	Total Est. Cost	From Gen. Fund	Other Funds
1.	New Law School Building, Phase 2, and Equipment	\$5,605,039	\$5,419,076*	-
2.	Renovation of Physical Plant Services Complex and Equipment	663,516	650,500*	-
2A.	Utilities and Site Work for Renovation of Physical Plant Services Complex	278,250	278,250	-
3.	Renovation of Old Rogers Hall for School of Business Administration and Equipment	1,717,825	1,668,325*	-
3A.	Utilities and Site Work for Renovation of Old Rogers Hall	36,000	36,000	-
4.	Completion of Rogers Hall (New Chemistry Building) for Demonstration Laboratory - Lecture and Equipment	327,800	327,800	-
TOTALS FOR 1978-80		\$ 8,628,430	\$ 8,379,951	-

*The difference between the total estimated costs and amounts presently requested from the General Fund are accounted for as follows:

Item #1 - \$185,963 was provided by the 1974 General Assembly for the plans covering this project. (Additional Note: Funds for Phase 1, Utilities and Site Work were appropriated by the 1976 General Assembly in the amount of \$486,150.)

Item #2 - \$13,016 was provided by the 1974 General Assembly for the plans covering this project

Item #3 - \$ 24,750 was provided by the 1973 General Assembly for preliminary plans

24,750 was provided by the 1974 General Assembly toward completion of working drawings

\$49,500 Total already provided for Item #3

Report On Buildings And Grounds

CAMPUS AND BUILDINGS IMPROVEMENTS (Including Space Reassignment Projects) AND CAPITAL OUTLAY PROJECTS

Campus Landscaping:

New Rogers Hall Area - Landscaping completed.
Botetourt Residences - Project is completed.
Crim Dell Area - Planning for this area is being considered in the master landscaping plan along with a plan for a Wild Flower Refuge area, as available funds permit, subject to appropriate clearance with the Board of Visitors and Governor's Offices.
Jamestown Road Parking Area - Project completed with the exception of landscaping. Working drawings have been completed and approved by Governor's Offices. However, project has been deferred because of funding problems.

Repairs and Renovation:

Alterations to Old Fraternity Lodges - Renovation of these eleven buildings has been completed and they now house 66 students. Phase 2 will cover site improvements and landscaping, which is scheduled to begin, provided there is sufficient funding.
Swem Library Masonry and Deck Repairs - This project has been completed.
William and Mary Hall - A contract for the construction of crowd control barriers and ticket booths for the two lobby areas is complete. A contract for waterproofing the exterior foundation at the north-

east corner of the auxiliary gymnasium is still in process since the earlier work performed by the contractor did not solve the leak problem.
Ceramic Studio in Old Heating Plant - Space has been provided for the Ceramics Studio of the Fine Arts Department and the work is now complete.
Millington Hall - Physiology Laboratory - A study of Room 24 was made to determine the acceptability of the space for use as an operating room. It was found not acceptable to use either as an anesthesia. It was decided to use a non-flammable anesthesia in the future and the space will be ventilated to eliminate any health hazard. Plans have been completed, bids received and the contract awarded. The project will be completed shortly.
Survey to Provide Accessibility and Usability of Major Campus Facilities for the Handicapped - This survey has been conducted and the report, including review to determine the schedule and cost of implementation, has been received. Plans are in progress for modifications to make student residence facilities on the first floor of Landrum Hall accessible and usable by the physically handicapped. A contract has been completed to make facilities usable in five lodge buildings as described above. Further planning for access by the handicapped to academic and administrative buildings is underway.

The Commons Dining Hall -

Exterior Improvements: Plans have been prepared for improvements of the plaza area in front of the Commons. The scope of work envisions a brick plaza, installation of benches and plantings. The work will be done as funds become available.

Interior Improvements - New chairs and some new two-person tables are on order for early spring delivery. Other phases to follow when funds are available include dining room salad bars, beverage stations, additional serving line equipment and floor treatment.

Small Hall -

Planetarium Study: Schematic plans and a cost study have been prepared to show the possibility of locating a planetarium and conference area on the present open first floor deck on the north side of the building. The possibility of seeking funds for this project is being considered by the Physics Department and the Vice President for College Development.

Campus Center -

Wigwam Terrace Study: A schematic plan and cost estimate have been made to determine the feasibility

Continued on page 5

Continued from page 4

of developing the open terrace adjacent to the Wigwam for expanded dining use, further planning to proceed as funds are available.

Necessary Projects Awaiting Availability of Funds:

The following projects have been identified as essential to the proper maintenance, functioning and repair of the physical plant of the College but are delayed at this time, due to funding restrictions.

The projects are: Renovation of five roofs on Phi Beta Kappa Hall and Andrews Hall at an estimated cost of \$60,000; Masonry repairs to Phi Beta Kappa Hall and Andrews Hall - \$34,000; Roof repairs to the lower roof section of William and Mary Hall - \$6,500; Acoustical treatment of several classrooms in Old Rogers Hall - \$4,200, and the ballroom of the Campus Center - \$16,000; Acoustical treatment to the walls of the Director of Athletics Office in William and Mary Hall - \$1,800; Correction of storm water runoff from the Barksdale Memorial Athletic Field to the walkways and entrance areas of Phi Beta Kappa Hall and Andrews Hall - \$10,000.

CAPITAL OUTLAY PROJECTS - 1976-78

Renovation of Student Residences:

Renovation of Jefferson Hall - Latest progress report indicated that final completion of some phases will be delayed beyond the planned completion date in December which would have allowed occupancy before the beginning of second semester. Unforeseen conditions in the buildings have required additional work by the Contractor and completion date has been extended to April 1977. Students have expressed a preference for remaining in their present dormitories through the end of the second semester. This should not significantly delay completion of the final phase of the Dormitory Renovation Program, as explained below.

Renovation of Chandler Hall - Working drawings and specifications are complete. Bids will be received in April 1977 with construction to be started in May 1977. Completion is scheduled for May 1978.

Renovation of Taliaferro Hall - Preliminary plans and specifications are complete and working drawings are in progress. Bids will be received in April 1977 with construction to be started in May 1977. Completion is scheduled for May 1978.

Utilities and Site Work for New Law School Building - An appropriation of \$486,150 has been provided for site work and the installation of utility lines to the future building. This covers all work that can practicably be done prior to actual building construction. Completion has been delayed approximately 90 days due to weather conditions. The second phase of this appropriation cannot be undertaken until the final phase of actual construction has been completed.

Plans for New Law School Building - The working drawings and specifications have been completed and approved by the Division of Engineering and Buildings and by the Art Commission. Funds for construction, \$5,105,900, have been included by the 1977 General Assembly for this project in a General Obligation Bond referendum for November 1977.

Plans for Renovation of Physical Plant Services Complex and Parking Area - The preliminary plans and specifications have been completed and approved by the Division of Engineering and Buildings. The working drawings phase was terminated by directive from the Governor's office due to shortage of funds. Remaining funds were reverted to the State. This is one of the highest priority projects and will be requested again for the 1978-80 biennium.

Planning for Renovation of Old Rogers Hall for the School of Business and other Academic Uses - Preliminary plans and outline specifications are complete and have been completed within the limited appropriation. This is one of the College's highest priority projects and will be requested again for the 1978-80 biennium.

Installation of Storm Drainage System, Final Phase - Plans and specifications for this project have been completed. This appropriation of \$96,600 will provide for the connection of remaining storm drainage collection lines into the recently completed storm drainage system. This construction of a basin to be

located in the area behind Swem Library will collect debris before the storm water flows into Lake Matoaka. Detailed planning is being undertaken so that a contract may be awarded in the near future.

Replacement of Aged Steam and Condensate Lines - Colonial Campus - Funding authorization for this project has been received. The work will be performed by a welding contractor working under the supervision of College personnel. The College will supply all piping, valves and traps for the welding contractor to install as a replacement of the present pipelines, which have exceeded their expected life usage and have been in almost constant need of repair. The piping, valves and traps have been put on order.

Installation of Additional Tennis Courts - A \$150,000 gift from the Anheuser-Busch Foundation has made it possible to plan the construction of eight tennis courts which will be located in the area behind William and Mary Hall designated on the master plan for physical education facility development. The site will accommodate ten additional courts and a multi-purpose playing field as funds become available. Further development of the Adair site for additional tennis courts will await the availability of additional funds.

Bids were received on the eight tennis courts on January 6, 1977. A contract has been awarded and construction will begin as soon as weather permits. The low bid was under the estimated cost; this may make it possible to install lighting for at least six of the eight courts with provisions for future installation of the ten courts being planned for this site in the future. Plans and specifications are now being planned for this site in the future. Plans and specifications are now being prepared for this work. The courts are scheduled for completion by July 14, 1977. Installation of lighting may justify extension of that date.

OTHER CAPITAL OUTLAY PROJECTS:

Special Project - National Center for State Courts Headquarters Building - Project under construction. Completion scheduled for January 8, 1978.

President Recommends Fee Allocation Changes

From: Thomas A. Graves, Jr., President
 To: The Board of Visitors of the College of William and Mary in Virginia
 Subject: Athletic and Recreation Allocation of Tuition and General Fee for 1977-78

1. Recommendation

The allocation for 1976-77 is \$122 per student. For 1977-78 I am recommending that \$8 of that allocation be transferred to the allocation for Student Activities, thus raising the Student Activities allocation from \$20 to \$28 per student. The items transferred out of the Athletic and Recreation allocation include \$6 for men's and women's intramural sports and \$2 for student recreation. These funds will be administered by the Associate Dean for Student Activities and Organizations, under the overall direction of the Dean of Students, as is currently being done. This transfer is an effort to concentrate funds designated for student activities into one overall budget.

As a result of this recommended transfer, the existing allocation for Athletic and Recreational Activities would be designated more properly as Allocation for Intercollegiate Athletics, and the \$122 amount would be reduced to \$114.

I am recommending that for 1977-78 the allocation be \$128 per student, or an increase of \$14, or 12%.

The preliminary budget requests submitted by the Men's Athletic Association and the Women's Athletic Association called for a total allocation of \$134 in 1977-78, an increase of \$20, or 17%.

The recommendation of the Athletic Policy Committee was for an increase of \$11, or 9%, for a total allocation of \$125.

A more detailed comparative picture of the above is as follows: (See Chart)

2. Policy, Program and Financing

The Athletic Policy of the College calls for a strong, broad, competitive intercollegiate athletic program for men and women. We have such a program now, in both the revenue sports for men and in the non-revenue sports for men and women.

	1976-77 Breakdown	AA Budget Requests	Ath. Pol. Comm. Recommendation	President's Recommendation
Men's Revenue Sports	\$ 36	\$ 36	\$ 30	\$ 36
Men's Non-Revenue Sports	26	35	35	32
Supporting Activities for Men's Athletics:				
Revenue Sports	11	11	11	11
Non-Revenue Sports	13	13	13	13
Intramural and Recreational Sports:				
Men	3	-0-	-0-	-0-
Women	3	-0-	-0-	-0-
Women's Non-Revenue Sports	26	37	34	34
Student Recreation	2	-0-	-0-	-0-
State Overhead	2	2	2	2
	<u>\$122</u>	<u>\$134</u>	<u>\$125</u>	<u>\$128</u>

For comparative purposes, \$8 should be deducted from the 1976-77 breakdown, making the total of that column \$114 instead of \$122, as noted earlier.

The projected budgets from the Men's Athletic Association and the Women's Athletic Association, the recommendations of the Athletic Policy Committee, and my recommendation are all in support of this policy and of this program. There is no suggestion of de-emphasis in any of the approaches to the question of allocations for 1977-78. I believe that all who have been involved in the studies and discussions leading to the three alternative approaches to allocations are sincerely doing their best to support the present policy and program of the College.

The difference are ones of judgment, as to 1) how best to tighten our belts, in athletics as in all other aspects of the College, in the coming year, without any loss of momentum or real quality; 2)

how best to prepare for the termination of the transition period in July 1979, while protecting the continuing strength, viability and high quality of the present policy and program at that time; and 3) what are reasonable expectations as to the financing of the athletic policy and program of the College by its several constituencies in the coming year and thereafter. The problems which we face and the questions which must be answered are ones of financing, not of policy and program. They are, however, of very substantial magnitude, and if we do not address them wisely the present policy and program will be in danger.

Continued on following page

Continued from previous page

There is no need for me here to reiterate or reaffirm the basic tenets of the College's athletic policy. They are well known to all of you; and there are very close, complex and essential relationships among them, if the total policy and program is to remain viable.

The fundamental problem and challenge facing us for the coming year and thereafter is the very substantial expense of operating, at a strong, competitive, high quality level, the men's athletic program in the revenue sports of basketball and football. The total budgets of the athletic program of the College under the purview of the Men's Athletic Association and the Women's Athletic Association, comprising some twenty-seven different sports in as broad an athletic offering of high quality as any in the country, would amount in my recommendations to about \$1,370,000 in 1977-78. The budgets for football and basketball would total \$832,660, not including the allocation of general administrative expenses to these two sports. The two revenue sports thus would account for over 60% of the College's total projected athletic budget, in their direct expenses.

The College of William and Mary, unlike many State institutions in other states, may utilize no State funds in support of the athletic program under the purview of the Men's and Women's Athletic Associations. A relatively small student body of high quality and diverse educational interests can provide only relatively limited financial support to the College's athletic program, especially with its total tuition and fees already being relatively very high and rising. An inadequate football stadium, in terms of both relative size and relative quality, is a further complicating factor.

The only possible way, therefore, that a college such as William and Mary can operate football and basketball programs of high, competitive and continuing quality, as called for in the College's policy, is through support, at the highest level, by the College's alumni and friends. *The Statement of Athletic Policy* speaks to this point, in part, as follows:

Revenue-producing sports, particularly football and basketball, which have the highest spectator appeal, are supported by gate receipts, advertising, stadium concessions, and the contributions of interested alumni and friends of the College.

The *Implementation Guidelines* for the *Statement of Athletic Policy* state in part:

A substantial increase in annual funding for the revenue-producing intercollegiate sports will be necessary to place them on a self-sufficient and financially stable basis in meeting the anticipated annual expense of the program envisioned by this policy.

In my statement to the Board of Visitors on November 26, 1974, proposing the current policy, I said: "[This policy] offers the opportunity for the revenue-producing intercollegiate sports to move, at last, to a position of quality and strength, to become self-supporting with the help of alumni and friends. . . . The quality and success and the long-term financial viability of the program as it pertains to the revenue-producing sports are absolutely dependent upon those in the broader College community who are prepared to support them through substantial contributions and loyal attendance. The policy and program that I am recommending is a direct and major challenge to these individuals, for they must take responsibility for its financial success and continuity."

Over the past 2-1/2 years the alumni and friends of the College have seized that opportunity and have accepted that challenge. Gate receipts are up in football and are substantially up in basketball. Contributions, through the Athletic Educational Foundation, have increased very substantially; and the fund-raising goal of the Foundation for 1977-78 is \$300,000, with a commitment to the College for 1977-78 of \$230,000. I have expressed to the officers of the Foundation, both privately and publicly, my gratitude and that of the Board of Visitors for the dedication, generosity and hard work of the members of the Foundation. The progress which has been made, by friends and alumni, is a remarkable achievement, in a brief period; and it provides hope and promise that the policy and program will become financially stable and viable.

Unfortunately, however, costs for the revenue sports have escalated far more than any of us did anticipate or could have anticipated. For 1977-78 the projected revenues in my preliminary budget recommendations, from gate receipts for football and basketball and from the Athletic Educational Foundation and from miscellaneous sources, total \$648,160. As stated earlier, the direct expenses for football and basketball are projected at \$832,660. The gap of \$184,500 in the recommended preliminary budget of the Men's Athletic Association for 1977-78 would be closed through the mandatory student ticket allocation of \$36 per student. Through the appropriation of a \$79,906 anticipated balance in the Men's Athletic Budget at the end of the 1976-77 fiscal year, and by withdrawing \$15,000 of the \$30,000 that the revenue sports contributed to the men's non-revenue sports in 1976-77 (through which the revenue sports financed in part, in accordance with policy, a substantial portion of the grants-in-aid in the non-revenue men's sports), the projected budget of the Men's Athletic Association would show a fund balance of \$17,105 at June 30, 1978. This balance would not be available for operational use in 1978-79, because it would be transferred to a fund for the renovation of Cary Field.

I am concerned about the problems which we face in 1979 at the end of the transition period in regard to the funding of grants-in-aid for the men's and women's non-revenue sports and in regard to the mandatory student ticket allocation. But of more immediate concern is the fact that my preliminary budget recommendations leaves no fund balance at the end of 1977-78 on which to draw for the 1978-79 year, and is reducing the contribution which the men's revenue sports have made in the past to the non-revenue sports.

The Athletic Policy Committee, as you know, is making a five-year study of the financing of the College's athletic program under the current policy and will have five-year fiscal projections in the spring of 1977, and policy and program recommendations for our consideration in the fall of 1977.

But in the meanwhile, in addressing the question of how to finance the athletic program in 1977-78, I believe we must face now directly the short-term and longer-term need for the support for the revenue sports from friends and alumni to be increased very substantially above and beyond even the exceptional effort and accomplishment that is already very evident. This need does not address the policy considerations at the end of the transition period.

For 1978-79 it seems clear to me that there must be an increase in contributions and gate receipts over 1977-78 of at least \$100,000, in total. If the end of the transition period is to be approached with some hope of success under the present policy, at least an additional \$100,000 (over 1978-79) must be forthcoming in 1979-80, under the best of circumstances. Given attendance limitations at Cary Field and even in William and Mary Hall, it seems evident that most of these contributions must come, on a continuing annual basis, through the Athletic Educational Foundation, which has already done so much so well. I see a minimum need to the College of between \$350,000 and \$400,000 annually by 1979-80, instead of the projected level of \$230,000 for 1977-78 (even without really considering some of the major policy questions arriving at the end of the transition period.)

Given where I believe we must go in regard to contributions and gate receipts and the urgency of our need to get there; given the fact that the end of the transition period in 1979 is fast approaching and the importance of our at least acknowledging now to some degree that fact; given the desirability of our asking all parts of the College to tighten their belts, without sacrificing quality, during this period of financial stress; and given what I believe is the still untapped potential to support this policy and make it viable, I have made by recommended allocations for 1977-78.

3. Significance of Recommendation

This recommendation of an increase in the Intercollegiate Athletics allocation per student from \$114 to \$128 recognizes, to some extent, the concerns and expectations reflected in recommendations of the Athletic Policy Committee. It recognizes also, to some extent, the financial problems faced by the Men's Athletic Association

in fielding high quality, competitive teams in football and in basketball, and the problems we face in raising funds for grants-in-aid and in selling season tickets. My recommendation calls for belt-tightening in the revenue sports, as in every other aspect of the College. It tries to recognize that the end of the transition period is fast approaching and that we must acknowledge and prepare for that eventuality.

More specifically, in regard to the Women's Athletic Association budget, my recommendation provides for an increase in the allocation from \$26 to \$34, for a total increase of \$8. \$5 of the \$8 reflects and increase in operating costs (excluding grants-in-aid) for 1977-78. \$3 of the \$8 helps to guarantee at least \$15,000 in grants-in-aid for 1977-78. This is less than the \$29,000 guarantee that was requested originally by the Women's Athletic Association, which called for a total increase in allocation of \$11, or \$3 additional. But a \$15.00 guarantee is a step in the direction indicated by HEW Title IX guidelines, and it has the support of the Director of the Women's Athletic Association as well as the Athletic Policy Committee. It is my expectation that the \$15,000 guarantee will be significantly augmented toward the \$29,000 figure for grants-in-aid contained in the original budget request from the Women's Athletic Association by designated contributions and a special fund-raising effort by the Athletic Educational Foundation. The \$3 increase in allocation and the \$15,000 guarantee represent a compromise in financing, but not in quality, program or policy.

The allocation for the Men's Athletic Association for 1977-78 needs to be approached in the same spirit of compromise if the present policy and program are to be strong and viable.

More specifically, my recommendation provides for an increase in allocation from \$26 to \$32 for the men's non-revenue sports, or an increase of \$6. \$3 of this \$6 reflects an increase in the operating costs (exclusive of grants-in-aid) for the non-revenue sports in 1977-78. The other \$3 reflects the need to compensate for the withdrawal of \$15,000 of support from the revenue sports for the non-revenue men's sports for 1977-78 (in order to balance the revenue sports budget). This \$15,000 withdrawal is in contrast to the \$30,000 envisioned in the preliminary budget request from the Men's Athletic Association, which would have required a total increase in the men's non-revenue allocation of \$9 (\$3 plus \$6 rather than \$3 plus \$3) for 1977-78. I am concerned, as is the Athletic Policy Committee, that there should be any decrease, in 1977-78 in the support from revenue sports for the non-revenue men's sports for that support provides funding for grants-in-aid in the non-revenue sports; but a realistic assessment of the financing of the revenue sports in 1977-78 leads me reluctantly to conclude that some compromise is necessary. (It is my expectation that funds for the grants-in-aid for the non-revenue men's sports may be increased in 1977-78 through larger designated gifts through the Athletic Educational Foundation, that is important in order to accommodate to proposed increases in tuition as well as to provide more equitable distribution of grants-in-aid to and among the non-revenue men's sports.)

The 1977-78 budget for the non-revenue men's sports is not to be reduced below my recommendation in any way.

The Director of Intercollegiate Athletics for Men may be able to reduce non-essential expenditures (belt tightening) in football and basketball to offset potential reduction in revenues. This would alleviate the financial problem faced by the revenue sports. (It is essential that the men's revenue sports budget be in balance for 1977-78, and that there be no deficit between revenue sports revenues and revenue sports expenditures.)

The revenues for football and basketball may be increased, through higher gate receipts and/or higher non-designated contributions through the Athletic Educational Foundation than those budgeted in the preliminary recommended Men's Athletic Association budget. That budget calls for the employment of a well-qualified individual to promote season ticket sales for football and basketball, and to publicize the revenue sports, as urged by the Athletic Educational Foundation. The expectation is that these efforts should have

Continued on following page

President Recommends Changes In Fee Allocations

Continued from previous page

a significant effect upon attendance on a regular basis. The Athletic Educational Foundation has met the challenge in the past and my expectation is that it will meet this one.

I am confident that the Director of Intercollegiate Athletics for Men, through a combination of belt-tightening in the revenue sports, an increase in season ticket sales and an increase in non-designated contributions from the Athletic Educational Foundation, will move the revenue sports toward the self-sufficiency called for by the Athletic Policy. I am confident, also, that the friends and alumni of the College will be prepared to support this effort through even more substantial contributions and even more loyal and regular attendance. The long-term financial

viability of the revenue sports program is indeed dependent upon their support. In the short run this approach will, for 1977-78, allow the College to maintain a strong and competitive revenue sports program.

My recommendations to the Board of Visitors on allocations for 1977-78 is obviously a compromise. Compromises are not always entirely satisfying to anyone. But I believe that compromise is called for, this year especially, while the Athletic Policy Committee conducts its long-run study of the financial viability of the present policy and program. If students, alumni, friends and faculty of the College accept this compromise recommendation in the spirit in which it is offered, I believe that we can realistically be hopeful that the study now under way will lead to a resolution of the long-run financial questions in a manner that will allow us to maintain the present policy and program beyond the end of the transition period.

Employment

COLLEGE HOSTESS C (RESIDENT ADMINISTRATOR for Project Plus): Nine month appointment beginning late August 1977; \$463.25 per month, plus apartment and utilities; Project Plus; deadline March 31.

A full-time position carrying a variety of responsibilities including counseling students, carrying out administrative responsibilities in the residence hall, and helping facilitate the full development of residential aspects of the live-learn program. The Project Plus theme for 1977-78 is "Revolution."

Qualifications: Completion of high school. Applicants should have experience involving public contact and work with young people, preferably in group activities, knowledge of principles of student counseling and of the practices of good housekeeping. Administrator is required to live in residence. Married or single individuals are invited to apply, as living arrangements will accommodate either.

COLLEGE HOSTESS C (RESIDENT ADMINISTRATOR for Asia House): Salary and qualifications same as above, Asia House, deadline April 20.

Fulbright Alumni Organize

Professor of English Scott Donaldson has been named to the board of directors of the newly formed Fulbright Alumni Association.

Former Fulbright recipients met in Philadelphia February 27 to organize

State Asks Help To Save Power

Philip R. Brooks, director of the State's Department of Purchases and Supplies, is asking State employees to cooperate in saving some 500 kilowatts of power per day throughout the State.

In a memorandum to the College, Brooks recommended that no copiers or duplicators be activated until the staff is actually prepared to make copies at the beginning of the day, and turned off toward the end of the work day when copy requirements are low.

the association and elect officers. Arthur P. Dudden, chairman of the history department at Bryn Mawr College, will serve as the association's first president.

The alumni group was formed, organizers said, to further international educational and cultural exchange, and to involve former Fulbright scholars in that effort.

Membership is open to all former recipients of Fulbright grants. The organizing group invites former grantees who have studied, lectured, done research or engaged in other activities such as composing music, painting, sculpting and writing outside of the United States to join. Annual dues are \$10. Interested Fulbright alumni should send their names and addresses to the Association at P.O. Box 1042, Bryn Mawr, Pa. 19010.

Notices

STUDENT TEACHER REGISTRATION--All rising seniors who plan to student teach in 1977-78 for either Fall or Spring semester must register in the Office of Educational Placement, Morton Hall, Room 140. This must be done in addition to preregistering for

the appropriate courses through the Registrar's Office. Student teaching in the areas of foreign languages (including Latin), mathematics, and science may only be done in the Spring semester. Deadline for receipt of all student teaching applications is April 1, 1977.

HISTORICAL SOCIETY PROGRAM--President Thomas A. Graves, Jr., will speak at the next meeting of the Lyon G. Tyler Historical Society Tuesday, March 22 in Lodge 2 at 7:30 p.m. Graves' topic will be the history of the College and current issues concerning higher education in Virginia. The public is invited to attend. Refreshments will be served.

BLOODMOBILE VISIT--The Red Cross Bloodmobile will be at the United Methodist Church, Jamestown Road, on Friday, April 1, from 2-8 p.m. At the Bloodmobile's previous visit in January, William and Mary students donated 110 pints and faculty, 21 pints. Donald Ball, professor of English, and Martha Muntean, supervisor of the payroll office reached the two gallon mark, while Kristine Aulenbach, assistant dean of admissions, reached the one gallon mark.

CANOES AVAILABLE--Faculty, staff and students may check out canoes at the Matoaka boathouse from 4-6 p.m., Monday through Friday, and from 1-5 p.m. on Saturdays and Sundays.

CHRISTIAN RETREAT--Campus Ministries United is coordinating a spring retreat for the Virginia Campus Ministry Consultation, to be held at Camp Makemie Woods, from 6 p.m. Friday, March 25 through the lunch hour on Sunday, March 27. Donald G. Dawe, professor of theology at Union Theological Seminary, will be the speaker for the retreat, which will focus on the theme "Christ and the Human Future."

Students and employees are invited to attend. For information, call the Campus Ministries at 229-6832 or 229-9811. There is a charge of \$10 for meals and lodging and a registration fee of \$10.
