Permit No. 26

Three Professors To Give 'Last Lectures'

The Last Lectures Series this year will feature three faculty members who are a long way from actually giving their last lecture but who have chosen provocative titles for their presentations on Feb. 5, Feb. 12 and Feb. 19 at 7:30 p.m. in Millington Hall auditorium.

Each lecture will be followed by a reception in one of the residence halls.

Lawrence L. Wiseman, associate professor of biology, will begin the series Feb. 5 and has selected as his topic "Spherical Chickens from Ivory Towers." Wiseman says he plans to discuss his views on how the education of scientists fits into the general culture, the liberal arts tradition and the maintenance of standards in college classrooms.

Jean Wyer, assistant professor of business administration, has entitled her talk "The Essential Art of Quitting." She says she will not disclose details of her talk ahead of time only to say that her thoughts present a positive aspect of the issue.

Howard M. Fraser, associate professor of modern languages and literature, has been invited to make the final lecture in the series on Feb. 19 and will speak on "The Literature of Magic and

the Magic of Literature."

Wiseman, who holds degrees from Hiram College and Princeton University, joined the William and Mary faculty in 1971. Wiseman has received

fellowships from the National Institutes of Health and the National Cancer Institute. He is a member of the American Society of Zoologists, the American Association for the Advance-

ment of Science, Beta Beta Beta Biological Honor Society and the Society for Developmental Biology. His teaching assignments have included a layman's course about cancer.

Ms. Wyer joined the William and Mary faculty in 1977 and holds degrees from Vassar and the University of North Florida. A C.P.A., Ms. Wyer was a guest speaker for the November conference of the Women in Business Program and presented a program entitled "Woman and Money."

Fraser, whose teaching specialties include Spanish and Portuguese languages and Spanish American literature, says he selected his topic to include his interests in both the supernatural and literature. He plans to explore the relationship between the supernatural and magic as a discipline, theories of the supernatural in magic and what writers who include the supernatural in their works are attempting to do to the reader.

Fraser has published widely in his field and was associate editor of *Chasqui*, a review of Latin American literature from 1972-73. His published titles include "Witchcraft in Three Stories of Jose Donoso," for the *Latin American literary Review*.

Fraser holds degrees from Columbia University, the University of New Mexico and Harvard. He joined the faculty here in 1974.

No Date Set For Jackson

Plans for the campus visit of the Rev. Jesse Jackson are still incomplete, but he is expected to speak here this semester. Earlier plans were snafued because of scheduling difficulties.

Nineteen Named As Merit Scholars

The list of 1979-80 Merit Scholars includes a majority of science majors.

Of the nineteen students named as top undergraduate scholars, four listed economics as a major, four chemistry, four biology, one biology and chemistry, one chemistry and physics, one physics, one government, two history, one physical education, one interdisciplinary and French and one mathematics and computer science.

Seniors listed as top scholars include David C. Brown, Ruth C. Cupery, Sergio Galvis, Theresa C. Grant, Catherine E. Hartsog, David J. Johnson, Susan L. Rappe, David Schmidt, Catherine F. Welsh and Stephen W. Wood.

Juniors named include John M. Buchanan, Daniel J. Kenan, Mark Julish, Nancy K. Morse, Lynn Norenberg, Lee J. Richter, Andrew D. Smith, Ava S. Stevenson, and Ronald F. Wright.

Queen Victoria is the focal point of a photographic exhibit which opens February 5 in Swem Library (see story, p. 7).

Bredin Fellows Pursue Research

A biologist and a linguist at the College share the designation this semester of Bredin Fellows, on leave to do research.

Joseph L. Scott, associate professor of biology, and Gary A. Smith, associate professor of modern languages and literatures, have been designated as Bredin Fellows, funded by grants from the Bredin Foundation, headed by J. Bruce Bredin, an alumnus of the class of 1936. Bredin is president of the Bredin Realty Company of Newark, Del., and serves on the Board

of Visitors of the College and the College's National Development Council.

Scott will pursue his study of cell division in red algae and what it can reveal about the evolution of all plant life.

Smith is making a study of romantic currents in natural science through the nineteenth century, taking a look at the history of science from a different perspective than that of a scientist.

"Since there are very few people in the world who are involved in my

specific area of interest, I have decided that my time would be best spent here where I can take full advantage of the biology department's electron microscope facility and technicians," said Scott.

"The research I plan to do," he said, "involves studies of cell division in several different groups of red algae. The red algae are among the most abundant sea-weeds found along rocky shores, and lately much has been done to increase the harvesting of certain species to extract important cell wall

Newsmakers

Robert B. Bloom, associate professor of education, has been invited to address First Step-1980, an international conference on preschool handicapped children. Bloom's paper, "Working With Parents of Young Handicapped Children," identifies a crisis/bereavement cycle and its effect on the structure of the family. The conference will be hosted by the University of South Carolina in March.

Clifton F. Conrad, associate professor of education, and Jean C. Wyer, assistant professor of business administration, have completed a commissioned monograph, "Liberal Education in Transition." The work will be published by The American Association for Higher Education and the Educational Resources Information Center in their Higher Education Research Report series this year.

Victor Liguori, associate professor of sociology, attended the conference "Virginia Fisheries and the Environment" Dec. 8, in Williamsburg. Dr. Liguori, working through N. Bartlett Theberge, Conference Director, is in the process of drawing from the taped presentations salient social, cultural, historical, legal and economic variables which are crucial to understanding the problems of and prospects for commercial and recreational fisheries in Virginia. Others from the College are invited to make contributions toward the publication of the proceedings of the Conference.

Carl Dolmetsch, professor of English, was honored at the annual awards dinner of the Virginia Press Association in Richmond on Jan. 12. Dolmetsch's regular weekly column of musical reviews and opinions, "Soundings," was second-place winner in the state-wide competition of the VPA in column-writing. He has been staff music critic and columnist for the *Gazette* since January 1973.

At the annual meeting of The Modern Language Association of America in San Francisco on Dec. 27-30, Dolmetsch presented a paper to a special session on "Personas in Early American Literature."

Ruehlmann Gives Tips To Writers

Dr. William Ruehlmann, feature writer and theater critic for the Norfolk Ledger-Star newspaper, will talk informally and entertain questions about "How to Become a Professional Writer," Tuesday, Feb. 5, at 3 p.m. in Washington 112.

Writing students at all levels are particularly urged to attend but all are welcome -- from serious professional writers to the mildly curious.

Ruehlmann, author of *Stalking the Feature Story* (Vintage, 1977), holds a B.A. from American University and an M.A. from the University of Arizona. He received his Ph.D. from the University of Cincinnati. He has worked for an engineering company, been a high school teacher, summer stock actor, film reviewer and faculty advisor for an award-winning college newspaper.

Ruehlmann recently moved to Norfolk from Boston where he was a journalism professor at Suffolk University.

Vickie Woodbury, lecturer of modern languages and literatures, is the author of a review of Sergei Orlov's *Kosty*, a collection of poems, to be published in *World Literature Today*.

Leonard Schifrin, professor of economics, presented a discussion paper on "The Effect of the Expiration of Drug Patents on the Market Position of Drugs" at a conference on Drugs and Health: Economic Issues and Policy Objectives, by the American Enterprise Institute, Washington, D.C., November 15-16.

Schifrin also presented a lecture on "The Market Mechanism and the Provision of Health Care" at a workshop on Dynamics of the Health Care Economy, for 4th year medical students, at the Medical College of Virginia on December 12.

Army ROTC Profs Receive Honors

Three members of the Army ROTC Department were recently recognized for meritorious achievement during ceremonies in Blow Hall. Assistant professor of Military Science Captain Don Pratt and Staff Sergeant Bruce A. Waters both received the Army Commendation Medal for outstanding performance in managing the administrative and personnel management activities of the Military Science Department. Their efforts have been so successful that the section achieved consecutive laudatory ratings during the last two Annual Formal Inspections despite increasing workload.

A primary responsibility is the critical job of maintaining and processing records and personnel actions of the 235 cadets enrolled in the College's ROTC program. This marks the second time Captain Pratt has received the Commendation Medal.

Senior drill instructor Master Sergeant Lowell Storer also received an Army Commendation Medal for meritorious service while assigned to the Berlin Brigade prior to coming to William and Mary. Among other duties Sergeant Storer is the coach of the College's highly successful rifle team.

Gulf Reston Corp. Donates Equipment

The Gulf Reston Corporation of Reston, Va., has given to the College several pieces of typesetting equipment that will help expand the production potential of the Publications Office.

The equipment consists of a Linocomp I typesetter, a tape reader, and a tape perforator. The Linocomp I typesetter has the potential to double the typesetting capabilities of the Publications Office, which has had a similar typesetter for the past four years. When the tape reader and perforator become operational the office will have the ability to store on tape detailed typesetting projects such as catalogs and handbooks.

The College received the equipment as a result of a contact made with Gulf Reston Comptroller Thomas M. Shannon by William J. Carter, vice president for business affairs. Gulf Reston is a subsidiary of the Gulf Oil Co.

Karen A. Emden, assistant professor of business administration, has been selected for the current issue of *Marquis' Who's Who in the South and Southwest*.

Boyd Coyner, professor of history, appeared on the program, "Virginia Today," WTVR, channel 6, Richmond, Jan. 15, to discuss the Iranian and Afghan crises.

Applebee Wins Award Of Merit

The Association for Intercollegiate Athletics for Women (IAAW) has selected Constance M. K. "The Apple" Applebee to receive its 1980 Award of Merit.

Miss Applebee taught hockey at William and Mary with the late Martha Barksdale. Now 106, she lives in the small village of Burley in Hampshire, England.

Affectionately known as "The Apple," Miss Applebee introduced the sport of field hockey in the United

States. Among the many trophies she treasures at her home, "The Withies," on the edge of the New Forest, is a set of Jefferson cups, each with a William and Mary coat of arms, which was a gift from friends of the College.

She demonstrated the game of field hockey at Harvard in 1901 and introduced field hockey at Vassar, Bryn Mawr, Smith, Mount Holyoke, Wellesley and Radcliffe. In 1922 she organized the United States Field Hockey Association.

PROJECT PLUS AND THE ARTS AND SCIENCES GRADUATE STUDENT ASSOCIATION PRESENT: "IMAGES OF MAN AND WOMAN IN CINEMA"

The series listed below was assembled by Ken Smith with assistance from the Office of the Dean of Graduate Studies.

The series theme is tied in with the

Project Plus theme for this year, "Man and Woman."

All showings are open to the general public without charge, Monday evenings at 8 p.m. in Millington auditorium. Admission free.

January 28

AFRICAN QUEEN (1952). Humphrey Bogart,* Katharine Hepburn. Directed by John Huston. 106 mins. Preceded by POPEYE in "Aladin and His Lamp."

February 4

HIGH NOON (1952). Gary Cooper,* Grace Kelly. 85 mins. Preceded by MIGHTY MOUSE in "Johnstown Flood."

February 11

BOB & CAROL & TED & ALICE (1979). Natalie Wood, Robert Culp, Dyan Cannon, Elliot Gould. 106 mins.

February 18

THE GOOD EARTH (1936). Paul Muni, Luise Rainer.* 138 mins.

February 25

THE BEST YEARS OF OUR LIVES* (1946). Fredric March,* Myrna Loy, Dana Andrews, Harold Russell.* Directed by William Wyler.* 172 mins.

March 10

SPLENDOR IN THE GRASS (1961). Warren Beatty, Natalie Wood. 124 mins. Preceded by BETTY BOOP in "Minnie the Moocher."

March 17

SUSPICION (1941). Joan Fontaine,* Cary Grant. Directed by Alfred Hitchcock. 99 mins. Preceded by MARCH OF TIME, "March of the Movies."

March 24

CAPTAIN BLOOD (1935). Errol Flynn, Olivia de Havilland. 119 mins. Preceded by MARCH OF TIME, "F.B.I."

March 31

ON THE WATERFRONT* (1954). Marlon Brando,* Eva Marie Saint,* Rod Steiger, Karl Malden, Lee J. Cobb. Directed by Elia Kazan.* 108 mins.

April 7

THE LITTLE FOXES (1941). Bette Davis, Herbert Marshall. Directed by William Wyler. 116 mins.

April 14

THE LAST HURRAH (1958). Spencer Tracy, Pat O'Brien, John Carradine, Basil Rathbone. Directed by John Ford. 121 mins.

April 21

IT HAPPENED ONE NIGHT* (1934). Clark Gable,* Claudette Colbert.* Directed by Frank Capra.* 110 mins. Preceded by DAFFY DUCK in "Hollywood Daffy."

*ACADEMY AWARD

College Gets Small Portrait From British Assay Office, Gift of Director Maughan

President Graves and professors Harland Schone and John McKnight prepare to hang the portrait of William Small on the wall of the Conference room of the building named for him, William Small Physical Laboratory. The portrait is a special photographic replication of a pencil sketch, drawn during Small's lifetime and was given to the College by the Assay Office of Birmingham, England, director of which is F.A.C. Maughan.

McKnight, when in England researching Small, came upon the portrait hanging in the Assay office and its director arranged for his staff to make the copy. It is the only existing portrait of Small and came to the Assay office in Birmingham as part of the family papers of Matthew Bolton who had worked with Small in the development of the steam engine. The original is not dated but, said McKnight, was made before Small's death in 1775.

Notebook

Helpers Needed

The Student Association is looking for individuals to distribute fliers and announcements on campus. These will be paid positions. All interested individuals should contact the SA Office at extension 4350 or call Chris Zvosec at extension 4504.

Psychology Club

The Psychology Club will meet tonight, Tuesday, Jan. 22 at 7:30 p.m. in Millington 232. Discussion will focus on future programs, party plans, mural ideas, and T-shirt slogans. Surprise games (with ramifications for social interaction) will be played.

The club is planning on developing a series of ongoing social functions for the young residents at Eastern State and also has information on the Bacon Street Hot Line and the training involved for people interested in becoming involved in this organization.

Mortar Board

Mortar Board, a national honor society of rising college seniors which recognizes in its membership the qualities of superior scholastic ability, outstanding and continual leadership, and dedicated service to the community, will be accepting applications for membership through February 15. If interested, please contact Dean Sadler's office or Bruce Hatrak (OD 119).

Busch Interviews

The Old Country, Busch Gardens, will be interviewing for weekend, weekday, part-time/full time, spring, summer/fall jobs Tuesday, Feb. 26, from 9 a.m. to 4 p.m. in the Campus Center.

Financial Assistance Seminars

Undergraduates who wish to apply or reapply for student financial assistance for the 1980-81 academic year should attend one of two seminars offered by the Office of Student Financial Aid, Thursday, Feb. 7, in the Campus Center Theatre at 3 p.m. and 7:30 p.m.

Information will include changes in programs, procedures to be followed, deadlines, and helpful hints. The financial aid form will be reviewed and distributed.

All undergraduates who anticipate applying for student financial assistance for 1980-81 are encouraged to attend one of these seminars.

New Hours

President Graves' schedule for meeting informally with students in his office has been changed since last week. He will be in his office tomorrow, Jan. 23 from 4 - 5 p.m. and again Feb. 6 from 4 - 5 p.m. He was originally scheduled to meet with students on Jan. 22 and Feb. 5.

No appointment is necessary.

Great Trophy

The team of Frances Bradley and David Pride won the junior varsity division of the George Mason University debate tournament this past weekend. Their trophy was a silver champagne bucket, complete with a bottle of bubbly.

No VELA For Summer

Student loans from the Virginia Education Loan Authority will not be available for the 1980 Summer Sessions.

The 1979-80 VELA loan processing will end March 15. Applications for the 1980-81 session will be accepted after April 15.

For additional information call the Office of Student Financial Aid.

Valentine Flowers

Yates Residence Hall Council will hold its third annual Valentine carnation sale this year.

Orders will be taken from January 23 through February at the Post Office and the Commons. Flowers will be delivered on campus, Sunday, Feb. 10. Flowers are \$1 each.

According to Council president Carolyn Finocchio, the council is hoping to top last year's sales of \$1600. White (for friendship), pink (for sweethearts) and red (for secret admirers) will be available.

Some of the funds raised this year will be used to provide a band and refreshments for a semi-formal dance the Council will hold on St. Valentine's Day in the Campus Center Ballroom.

Awareness Group

Miriam Cardi and Neill Watson of the Center for Psychological Services are leaders for an interpersonal awareness group which meets on Monday afternoons from 2 - 3:30 p.m.

The group hopes to assist members to grow in understanding of themselves and others with a small group of students who share many of the same feelings and concerns. Participants also

learn to communicate more clearly, listen more accurately and relate more easily by developing their capacity for awareness, empathy and expressiveness.

Call the Center for Psychological Services at ext. 4231 or 4388 or stop by the Center at 125 Richmond Road for further information or to sign up for the group.

Writers Workshops

Lynn Bloom of the English department will hold workshops on "Helping Anxious Writers," Saturday mornings, Feb. 2, 16, and March 22, from 9:30 to 11:30 a.m., in the Campus Center, room D.

Because of the large amount of individual attention these sessions will be limited to fifteen participants. Those wishing to register should contact Dr. Bloom at ext. 4436 or 229-2816. There is no fee for the workshops.

Interviewing Seminar

A representative from Milliken will conduct a seminar on How to Interview/Interviewing Techniques. He will demonstrate an actual interview, talk about what an interviewer wants to hear, what to avoid in an interview, and will answer questions, Thursday, January 31, at 9:30 a.m. and 3:30 p.m. in the Campus Center Little Theatre.

This seminar is open to all students, graduates and undergraduates.

Faculty Club Party

The William and Mary Faculty Club will hold its third cocktail party of the year on Friday, January 25, from 5:30 to 7:30 p.m. at the Alumni House.

All members of the faculty and administration are invited to attend and may pay at the door or pay in advance to Roy Pearson, treasurer (School of Business Administration), at the usual rates: Members \$2.50 per person (\$1.50 for non-drinkers) and non-members \$4.50 per person (\$3.00 for non-drinkers).

The Faculty Club plans two other cocktail parties during the spring semester. Dates and locations will be announced. Faculty Club dues are \$8.50 per year. Individuals who pay their annual dues between now and the day of the party or who pay at the door on January 25 will be required to pay no additional fee for this party.

Assertiveness Training

Miriam Cardi and Joy Livingston of the staff of the Center for Psychological Services will be leaders for an assertiveness training group for women which will hold its first meeting Thursday, Jan. 31, from 3-5 p.m. at the Center at 125 Richmond Road. The group will be limited to 10 students.

Those wishing to sign up for the group or learn more about the project are asked to call ext. 4231 or ext. 4388 or stop by the Center at 125 Richmond Road.

Foreign Study Deadlines

The Cambridge Summer Program (July 8 - Aug. 12) deadline for applicants is Jan. 25. The summer program at Christ's College is open to any student in good academic standing enrolled at the College. Approximate cost of \$1,300 includes tuition, room and board, Air fare, travel, personal expenses and books are extra.

Jan. 25 is also the deadline for applicants who wish to take the 32-day study tour of Germany under the guidance of George V. Strong, associate professor of history, entitled "A Study Tour of the Germany of Young Hitler," May 14 - June 16. Cost should be calculated at approximately \$1,970, including air fare.

Applications for the Junior Year in Exeter, the James Blair Fellow at St. Andrews University and the St. Andrews Exchange Scholarship is Feb. 8.

Applications are due Feb. 15 for the Junior Year in France, also the summer program in France.

All inquiries on these programs should be made to Joseph P. Healey, associate dean of the undergraduate program, office of extramural programs, JB 209, ext. 4354.

Bargello Course

The College Women's Club is offering a number of mini-courses in February including basic bargello (Florentine embroidery), Feb. 1; re-entry business skills for women, Feb. 7; colonial dancing for couples, Feb. 18; and watercolor for beginners, Feb. 28.

Registration for the first course is Feb. 1. The class is limited to 12, fee is \$3. Call Ruth Fraser, 228-4984, for registration. Class will be held from 7:30 - 9:30 p.m. at Schole-House for the Needle, Ltd., 704 Bypass Road.

For information about this and other courses, please call Ida Finifter, 220-3684.

John P. Mascotte

New Course Explores Big Business Ethics

How ethical is big business?

This is the question which will be discussed in a new course entitled "Business, Values and Religion," scheduled to be taught this semester by a member of the religion department and a visiting business executive.

John P. Mascotte, executive vice president of the Mutual Benefit Life Company in Kansas City, will be Business-Executive-in-Residence during March and will teach with Hans Tiefel, associate professor of religion.

Mascotte believes that American business plays a vital role in the lives of all Americans, says Tiefel, so business ethics are important to those inside and outside the corporate world.

The new course, Tiefel explained, is case-oriented and focuses on specific issues of corporate responsibility to employees, stock holders, competitors, consumers and society. As a supplement to selected readings, Mascotte has prepared a series of case studies on ethics and advertising, redlining, multi-nationals and on the interplay between politics and business relations. Class discussions will focus on the criteria which should be used in reaching business decisions as well as on the complex context in which this process frequently takes place.

Tiefel admits that despite his work in ethics, this inquiry into business ethics is a new venture for him.

Mascotte's residency is made possible through the American Council of Life Insurance, an organization which brings

together representatives of the life insurance business and the liberal arts community to exchange views and increase mutual awareness and understanding. His residency will also include additional lectures and discussions in the departments of sociology and philosophy and at the Marshall-Wythe School of Law. He will be provided with an office in the religion department so that he may be accessible to students. Each student enrolled in the course will be asked to write an ethics paper on a business issue of his or her choice.

Mascotte is a graduate of St. Joseph's College in Indiana and earned an LLB degree from the University of Virginia Law School in 1964. He is a certified public accountant and a chartered life underwriter with experience in tax law and corporate development.

Tiefel, whose teaching specialties include ethics, joined the William and Mary faculty in 1975. He holds a master's degree as well as a Ph.D. from Yale. He has written for the *New England Journal of Medicine* and was the author of "The Cost of Fetal Research: Ethical Considerations." Another article entitled "Holocaust Interpretations and Religious Assumptions" was published in 1976. His research interests also include the interplay between language and ethical responsibility in medical ethics and the rise of German national socialism and protestant churches.

THE WASHINGTON PROGRAM

Seminar To Examine American Media Roles

The next Washington Program will be held Feb. 4-6 and will focus on the media in American life.

Applications and faculty recommendations for this program are now available in the Office of Extramural Programs, James Blair 209. The deadline for applying for this program is January 24 at 4 p.m.

The program will examine the role of the press and television in the formation of public opinion, focus on the conflicts between a free press and rights to privacy, and what influences and judgments determine what news is reported and how it is reported.

Among the speakers who will meet with the program participants will be Roger Mudd, CBS News, who has been a Journalist in Residence at the College; Patricia Barrio, deputy press secretary at the White House; Julius Dusche, Washington Journalism Center; Richard Harwood, Deputy

managing editor, *The Washington Post*; press secretaries at the White House, editors from the *Washington Post* and the *Washington Star*; and Richard Scammon at the Elections Research Center.

Meetings are scheduled at several locations including the Brookings Institute and the White House.

In preparation for the seminar, students are asked to read *The Powers That Be*, by Richard Halberstam, and *Deciding What's News*, by Herbert Gans. Copies should soon be available from JB 209 and the reserve shelf at Swem Library.

Kit Helps Roommates Get Acquainted

Mary Ann Sagaria, assistant professor of education, is co-author of "The Roommate Starter Kit," which tackles one of the first hurdles of college life--getting to know a roommate.

Over 50,000 copies of the kit have been sold. Requests have come from large universities, small colleges and private schools. One request came from a prison.

The idea behind the kit is that when someone, in this case a student, is asked to share a relatively small amount of living space (a dormitory room) with someone who has been assigned rather than selected, there exists a need to get to know each other.

The kit attempts to go beyond the casual exchange of directory information and pleasantries. It offers a guide to personality traits, likes, dislikes, personal preferences, habits, characteristics and emotional styles that can become the basis for an atmosphere of give and take, and, perhaps, a deep friendship.

The Starter Kit suggests that roommates find a quiet spot and spend an uninterrupted hour going through four exercises. Each section includes topical sentences to get the conversation going and warns against skipping questions or turning the exercise into a meandering bull session.

The first section of the kit encourages roommates to discuss their backgrounds. Part II includes a long check list of personal preferences. Part III deals with emotional styles.

Finally, the kit asks students to talk about their reactions to each other, what differences and similarities they sense, and areas where compromises may have to be worked out.

Presumably, students at this point are on their way to establishing a basic channel for communication. The authors suggest that students use the format of the kit again in the future if, after living together, values, habits, likes and dislikes begin to change.

Ms. Sagaria developed the kit with Dr. D.J. Peterson of the mid-Coast Mental Health Center in Rockland, Me., and James E. Sellers of the University of Florida, while all were at State College in Pennsylvania.

It is a known fact, noted Ms. Sagaria, that the attrition rate among students is

highest during the freshman year. Only sixty percent of all students who enter college will graduate within four years and many drop out or choose not to continue to the end of the freshman year.

The kit is an aid, along with orientation programs and counseling services, to help the freshman make the adjustment to college as smoothly as possible.

Since publication of the Starter Kit in 1977, Ms. Sagaria has turned her attention to some other current issues facing administrators and faculty in higher education. She is particularly interested in the changing career patterns of administrators. In the past, most administrators and deans would come from the ranks of senior faculty. But now this pattern is changing, she explains. "We are beginning to see academic administrators with managerial and administrative training but with little or no professional experience in a discipline."

Ms. Sagaria is also interested in academic decision-making, particularly what happens when an administrator makes a decision in conflict with academic freedom and tenure policies.

Ms. Sagaria was assistant director of housing at the University of Minnesota and later assistant dean of students at State University of New York at Geneseo and assistant director for development programs at Pennsylvania State University. She has accumulated significant practical experience in the field of student affairs and has written articles on student development, administrator mobility and women administrators.

Mary Ann Sagaria

Says Daniel Seymour

Public Should Heed Consumer Labels

On a scale of one to 10, how energy efficient is your family refrigerator?

Dr. Daniel T. Seymour, assistant professor of business administration, says a more important question might be, "who cares?"

Preliminary findings from Seymour's extensive research show that creating the rating process is not nearly as difficult as getting people to use it during everyday purchases.

"The technical problems of rating and then labeling energy-consuming products aren't that great. But we're dealing with cognitive psychology here or how people recognize, process and use the information given them," Seymour says.

"For example, we've had unit price labeling in grocery stores for some time now, but few people really use those little labels pasted to the shelves. It's just too many decisions to make to check the unit price of one product against the other, so people buy the familiar names," Seymour says.

On the other hand, Seymour says that people might be more attentive to labels when purchasing "high ticket" items like air conditioners and refrigerators. But, according to Seymour, credibility is then the problem.

"One thing my survey showed was that people would rate the federal government very low on a credibility scale if it were to become a product labeling agency. An independent bureau like Underwriter's Laboratory received better ratings. But the government did place higher than a salesman as a credible source," says Seymour.

The federal government, through the Environmental Protection Agency mileage rating on autos, has taken the

leading role in the energy labeling business. But auto makers imply that the public should not believe the mileage figures, explaining that "mileage may vary" due to driving habits.

So the question remains: what will make the public trust an energy efficiency label on a smaller product?

"The complexity of this question is much more than you might think. For instance, our survey showed that a friend is viewed as more trustworthy than the manufacturer, but the manufacturer is viewed as more of an expert than the friend. So, as a product becomes more complicated, a buyer will shift his trust from the friend to the manufacturer," says Seymour.

Other factors enter into the decision making process as well. Seymour's survey used four aspects of credibility: trustworthiness, expertness, objectivity and impartiality. He found that each came into play in varying amounts according to the type and cost of a product.

The problem goes beyond simply "to label or not to label." The problem is, if you label, how can you do it so that people will use the system?

"I don't know whether a one-to-10 scale or some kind of color code would be the best way to label energy-using products. It would take another study to get that information. But I do know that any labeling system would have to be simple to understand, because people won't bother with any complex formulas or other means of comparison," says Seymour.

The important thing, according to Seymour, is to provide information that is direct, easily understood and

accurate. That, he says, is what is most desired by consumers in the marketplace.

"A product may cost 50 or 100 dollars more initially because it is energy efficient. But it might mean a savings of several dollars per month on utility bills. It wouldn't take long to recoup the original difference, but people usually ignore that fact and buy based on the price tag alone," says Seymour.

Since most people expect their appliances to last for many years, energy efficiency takes on a twofold importance: cost and conservation.

"I believe that a labeling system could be a big help. You couldn't cross product lines, of course, by comparing toasters to, say, air conditioners. But you could compare toasters to toasters, and that would be worthwhile. But people would have to want to use, and be able to use, an energy efficiency label," concludes Seymour.

So far, he admits, no one knows for sure how to make that happen.

'Iolanthe Tickets' Go on Sale

Tickets for the Sinfonicron Opera Company presentation of Gilbert & Sullivan's "Iolanthe" will go on sale Monday, January 28, at the Phi Beta Kappa Memorial Hall box office which will be open Monday through Friday from 3 to 5:30 p.m. and also the nights of performance, Jan. 30 - Feb. 2, from 7 - 8:15 p.m. Curtain time is 8:15 p.m.

Japanese Music Lecture Topic

Asia House will present "Traditional Japanese Music," a lecture by William P. Malm, professor of musicology at the University of Michigan School of Music, Thursday, Jan. 24, at 7:30 p.m. at Asia House.

There will be a reception for the speaker at 9 p.m. All interested persons are invited to attend.

A faculty member at the University of Michigan since 1960, Malm is recognized as the foremost American specialist on Japanese music.

A native of Illinois, Malm was educated at Northwestern University and the University of California at Los Angeles, where he earned the Ph.D. in 1959. He has written four books and 45 articles and reviews on Asian music and served as president of the Society for Ethnomusicology and on the boards of several other scholarly organizations.

In addition to his teaching, Dr. Malm has lectured on Japanese music throughout the United States and in Asia, Europe and Australia.

For more information, please call Joy Montero, resident director of Asia House, at 229-5683.

Applications Due On February 1

Applications for the William Cross Ferguson Graduate Scholarship for the Radcliffe College Summer Course in Publishing Procedures are due Feb. 1.

The scholarship is awarded each year to one William and Mary senior or recent graduate. The scholarship is for \$1500 to be applied toward the cost of the course (\$2035 in 1980). Selection for the scholarship assures admission to the course. The scholarship is administered by the William and Mary Committee on Training in Publishing Procedures.

The Radcliffe Publishing Procedures Course is a six-week intensive professional program taught principally by eminent publishing executives. The course is generally recognized as the surest entrance to a career in book and magazine publishing as well as the most effective publishing training program now in existence. The course is held in Cambridge, Massachusetts, from June 23 to August 1.

The deadline for submitting completed applications to the Committee on Training in Publishing Procedures is Friday, Feb. 1, but interested students are encouraged to complete their applications as soon as possible. Applicants may be from any academic concentration, but should have a demonstrable and serious interest in a publishing career, whether in design, production, editing, or sales. Announcement of the award will be made by March 1.

Application forms may be obtained at the Office of Career Planning, James Blair 208. Information about the course is available at the office as well.

Franzini at XXC

A one-man show of prints, drawings and relief sculpture by Robert Franzini of the fine arts department is up at the Twentieth Century Gallery and will continue through February 2.

Franzini, who was born in Palo Alto, Calif., is a visiting instructor in print-making and drawing at the College. He holds a BA in Studio Art from Stanford University, California, and a MA and MFA from the University of Iowa, Iowa City.

He has exhibited widely in the Middle West, and recently in the National Student Graphic Art Exhibition in Washington, D.C. His prints are included in several permanent collections.

The Twentieth Century Gallery, a non-profit educational corporation located in Merchant's Square, is open daily, except Monday, from noon until 5 p.m.

Open House Sunday

Project Plus Announces Semester Forums

The Project Plus Forum will continue its theme "Man and Woman" in a series of open meetings scheduled during the semester.

All Forum programs are held in Millington auditorium beginning at 7:30 p.m.

Dr. Martha Glenn Cox, a lecturer at Harvard University who specializes in affirmative action awareness for men and women, will be the speaker tomorrow, Jan. 23. Her topic will be "The Tale of 'O': the Business Consequence of Being Different."

Dr. Cox received her doctorate in psychology and social relations from Harvard where she was a Danforth Fellow. Currently she is collaborating with Rosabeth Moss Kanter on further application of the ideas in "Men and Women of the Corporation."

"Man and Woman: Stereotypes in the Law" will be the topic of the Jan. 30 Forum. Speakers will be two assistant professors of law on the faculty of the Marshall-Wythe School of Law, Lynda Butler and Ingrid Hillinger.

This forum will address various aspects of such topics as custody battles over children, divorce, employment and adoption.

Judith A. Bircher will address the topic "Middle Age and Retirement Developmental Crises," Feb. 6.

Mrs. Bircher received a master's degree in education with a certificate in gerontology from the University of Georgia in 1977. She is presently employed by New River Community College in Dublin, Va., where she serves as administrative assistant to the director of the office of continuing

education. She is the mother of four children, two in high school and two in college, including one in Project Plus.

"Women in Traditional Islam" will be discussed by Barbara Stowasser, assistant professor of Arabics at Georgetown University, Feb. 13. Dr. Stowasser is the author of "The Manners and Customs of Early Islamic Society" and a forthcoming book entitled "Women of Caliphs."

The Vittorio De Sica film "A Brief Vacation" will be shown as part of the Forum program Feb. 20. Commentator will be Franco Triolo, associate professor of modern languages and literatures.

Lt. Stella Lee, a recent ROTC graduate, and Capt. Donald Pratt, a member of the faculty of the William and Mary ROTC program, will present a picture of men and women in the military at the Forum scheduled for Feb. 27.

Three couples will give their views on dual career marriage during the Forum scheduled for April 2. Participants will include Willard F. and Karen A. Emden, Alvin Z. and Margaret W. Freeman, and Elman J. and Margo Schaefer.

"Title IX and Women's Athletics at William and Mary" will be the topic for the April 9 Forum, featuring Mildred West, professor of physical education for women and director of women's athletics.

The final Forum of the semester is scheduled April 16. The speaker will be Maurice Chamey, Distinguished Professor of English at Rutgers University, who will speak on "Literature and Sexuality: Blue Skies, Candy, and Lolita."

Project Plus has scheduled two "in house" Forums on March 12 and March 25, which are open to Project Plus students only. All other Forums are open to the general public without charge.

Career Workshop

Chart Your Own 'MAP'

"Discover Your Design," a career workshop, will be held Tuesday, January 29, in the Campus Center, room A, under the joint sponsorship of the Offices of Career Planning and Placement.

The workshops will be conducted by Arthur Miller and Ralph Mattson. Miller, president of People Management, Inc., of Simsbury, has chaired seminars for the American Management Association and is a well known speaker for personnel groups. He is a consultant for a large number of Fortune 500 companies. Mattson is founding headmaster of The Master's School, Simsbury, Ct.

Each person, workshop leaders contend, is endowed with certain gifts and the motivation to use those gifts. Satisfaction and success come, they contend, from an accurate reading of

those skills and motivational patterns (MAP), and a careful pairing of talents to an appropriate position, role or job which they fit.

One out of every two Americans is occupied in a job or role that doesn't fit, statistics have shown. Some surveys put the percentage of people in the wrong career situation as high as 80 percent.

There will be three sessions of the workshop, from 9 - 11:30 a.m. for faculty and staff; 2 - 5 p.m., for students; and 7 - 10 p.m. for the general public and any member of the College community who was not able to attend the earlier sessions.

There is no registration fee but those planning to attend are asked to call the Office of Career Planning, 253-4427 to reserve a place.

Scott, Smith Selected 1979-80 Bredin Fellows

Continued from P. 1

carbohydrates which are of economic value."

"Besides interest in the applied aspects of research on red algae, many other basic biological problems concerning this algal group have been thoroughly studied. However, some areas have only recently received any attention and, to date, only one paper of any great significance has been published on red algal cell division.

"In the last few years, my students and I, with much help from our departmental technicians, have been able to repeatedly obtain abundant excellent material to study with the electron microscope for details of cell division. The electron microscope is absolutely necessary to use in this research since no other technique or instrument allows the accurate examination of the extremely small cellular structures which are involved in the cell division process.

"As well as providing important new information about such a fundamental phenomenon as cell division, my studies could also contribute much to our understanding of the natural (phylogenetic) relationships of red algae with other plant groups. Many recent cell division studies on other plants and animals have revealed a pronounced diversity of structural features which have proved to be of considerable value in determining phylogenetic relationships, especially in the less advanced forms.

"Recent work in my laboratory on two very different red algal species has already disclosed information which is vital to knowing how distantly related red algal species are related to each other and our choice of algae for future work should clarify more problems which now exist. In addition, since red algae are one of the most primitive natural assemblages of organisms, I believe that this work will also aid in the interpretation of the evolution of all plant life. So far, some of the division features of certain red algal cells indicate that the spindle apparatus of red algae, that is, the cell's structural components which function in division of the nucleus, is of a type which is intermediate between more primitive single-celled organisms and the advanced green land plants.

"Hopefully, much can be done to gain insight into this fascinating area of cell biology during the next few months when I'm on leave from teaching, but several years will be necessary before a clear picture can be obtained."

"My research project," said Smith, "entitled 'Romantic Currents in Natural Science Through the 19th and 20th Centuries,' is an outgrowth of research into the history of science which I did for my dissertation on 'The Romantic View of Science in Novalis' Notes and Fragments.' (Novalis was a German Romantic poet who studied science at the Freiberg Mining School, and incorporated many of the scientific

theories of the day into his thought and poetry.)"

"In my dissertation research, I found that toward the end of the 18th century, a dichotomy developed in scientific thought between 'organic' or 'idealist' approaches and 'mechanistic' or 'materialist' principles. In my present project, I propose to pursue some of the former, 'Romantic' theories through the 19th and early 20th centuries to discover whether any of them can be seen as precursors to contemporary scientific theories.

"For example, quantum mechanics, which speaks in terms of energy levels, rather than electrons, surrounding an atomic nucleus, might be related to the Romantic tendency to think in terms of dynamic forces rather than mechanistic particles. Initially, I plan to concentrate my attention upon one German scientist, Wilhelm Ostwald (1853-1932), who may have been instrumental in transmitting these 'energetic' theories to the present. From this starting point, I hope to discover other, perhaps lesser known scientific figures in the 19th century who propounded such 'Romantic' theories.

"Although the debt to Romanticism has been generally recognized in other disciplines, it has been peremptorily denied in natural science. As an outsider, looking at the history of science from a different perspective than that of a scientist, I hope to be able to show that Romanticism was an influential force in this discipline as well."

Display Presents Facets Of 'Victoria's World'

The elegance, opulence, despair and poverty, all of which were part of the cultural fabric of the Victorian era, will be shown in a photographic exhibit in the J. Edward Zollinger Museum in Swem Library entitled "Victoria's World."

The exhibit opens Feb. 4 and will be on display through March 28, daily from 8 a.m. to 4:45 p.m. and Saturdays from 9 a.m. to 12:45 p.m.

Photographs in the exhibit are from the Gemsheim Collection at the Humanities Research Center, University of Texas at Austin, and include 200 views of Victorian England and the Empire during the 19th century.

The royal family, Crystal Palace, eminent Victorians, people and costumes, life in London, sports and pastimes, the Empire and the Crimean and Boer Wars are subjects covered in the exhibit which represents work from 43 well-known photographers of the era and several anonymous photographers. Some of those included are Julia Margaret Cameron, Lewis Carroll, Philip Delamotte, P.H. Emerson, Roger Fenton, D.O. Hill, Paul Martin, Gustave Rejlander and G.W. Wilson.

Terry L. Meyers, associate professor of English, who is coordinating the exhibit with Margaret Cook, curator of manuscripts, says the exhibit is a "vivid portrayal of life in Victorian England."

"It shows extremes from abject poverty to some of the triumphs of the British Empire," says Meyers. He adds, "Many of the pictures also have aesthetic appeal of their own, apart from their historical significance. The exhibit is a rich, visual introduction into an age which was instrumental in forming our own."

"This is the past made real," says Warren Roberts, director of the Humanities Research Center, which houses the pictures. "These photographs show, more clearly than any series of essays, how the Victorians saw themselves and the world in which they lived. We too see them with more understanding, which in turn can lead to a surer knowledge of ourselves and the world we have in common."

Support and encouragement for the exhibit comes from the Committee on Lectures, Jack Edwards, Dean of the Faculty of Arts and Sciences, Clifford Currie, Librarian of Swem Library, and the departments of history, English and fine arts.

KKG Offers Scholarships

Kappa Kappa Gamma Fraternity provides scholarships and fellowships for undergraduate and graduate study. The application deadline is February 15 and application forms may be secured from the Office of Student Financial Aid for the following:

Undergraduate Rehabilitation Scholarship \$300 - \$400

This aid is available to any woman student who has completed two years of undergraduate work. Those studying in related fields of rehabilitation, such as physical therapy, occupational therapy, speech and hearing therapy, and mental health are eligible.

Graduate Rehabilitation Scholarship \$300 - \$1,000

Available to any woman student of high academic standing who plans to continue her studies toward a master's or doctoral degree in any field of rehabilitation and has completed two years of undergraduate work.

Kansas City, Mo. Alumnae Association Award \$1,000

This is for approximately eight weeks study in the Speech Pathology Services at the Institute of Rehabilitation Medicine of New York University Medical Center, New York, New York. The IRM, directed by Howard A. Rusk, MD, is one of the world's largest training and rehabilitation centers specializing in patient care and research.

London street urchins.

SA Film Series

Seating, Projectors Improved

New projectors and a better seating arrangement are two of the improvements that Bennet Palmer Gamel, director of the Student Association Film Series, feels offer patrons a "first quality" movie experience this semester.

Two new Eili projectors were purchased last fall to replace aging equipment that was being used.

"Not only are the projectors of the highest quality," said Gamel, "But they are fully modular. This means immediate repairs are practical in event of breakdown."

Another improvement, this time in quality of sound, was made by getting the amplification system fully serviced earlier in the fall.

"The amplifier and speakers never had been serviced in the preceding five years," Gamel said, "and, servicing resulted in better quality sound even before the new projectors were acquired."

"Also, by consulting with the system designer, we were able to locate optimum placement," Gamel said. The system consists of an Altec 150-watt

amplifier and two mammoth Altec speakers, which now are capable of clear audio reproduction for up to 4,000 people at William and Mary Hall.

"We've been able to provide more comfortable floor seating through better placement of chairs especially for viewing our movies. We've set the chairs in 'arena-style' instead of straight block sections," said Gamel.

Gamel has also revised the short features selected this semester and has ordered movies to fit the screen. Some cinemascope films had been ordered which could not be shown on the hall's small-size screen without distortion, he explained.

Reviewing the improvements to the series, Gamel said, "Now it's fun to go to the movies at William and Mary Hall."

Passes for the series at \$6 per person are on sale at the SA office and at the door the evening of the show to students, faculty, administrators and staff.

Some substitutions have been made in the schedule which follows.

All movie programs begin at 7:30 p.m. in William & Mary Hall

Jan. 26 Saturday	Unmarried Woman Last Tango in Paris (Rated X)
Feb. 1 Friday	The Cheap Detective Harold & Maude
Feb. 9 Saturday	Hooper Pardon Mon Affaire
Feb. 15 Friday	House Calls Every Which Way But Loose
Feb. 24 Sunday	Magic Strangers on a Train (Alfred Hitchcock)
March 14 Friday	Midnight Express Capricorn I
March 22 Saturday	Coming Home Foul Play
March 29 Saturday	The Turning Point The Wind and the Lion
April 4 Friday	Godspell Jesus Christ Superstar
April 11 Friday	Animal House The China Syndrome
April 18 Friday	Metropolis The Phantom of the Opera (Lon Chaney)

Calendar

TUESDAY, JANUARY 22

Res. Concern Com., CC Room C, 4 p.m.
SAC, CC Theatre, 4:30 p.m.
Film, "Confessions of Aman," Botetourt Theatre, Swem Library, 7 p.m.
Ebony Expressions, CC Theatre, 6:30 p.m. (rehearsal)
Circle K, CC Ballroom, 6:30 p.m.
NTSA, Swem, G-2, 6:30 p.m.
Christian Campus Wide Prayer Meeting, Swem G-2, 7 p.m.
CSA, Wren Chapel, 7:15 p.m.
College Civitans, CC Rooms A&B, 7:30 p.m.
Debate Team, PBK Studio 2, 7:30 p.m.
Tertulia, Spanish House, 8 p.m.
Chess Club, CC Room D, 8 p.m.

WEDNESDAY, JANUARY 23

Interviews: Best Products (Bus), Computer Co. (Math & Com. Sci), Landmark Com (all), Hospital Data (all), contact Office of Placement, Morton 104.
Resume & Letter Writing, Career Placement, CC Room C, 10 a.m.
Inter. Fraternity Council, CC Ballroom, 11 a.m.
Res. Advisory Council, CC Room C, noon.
Canterbury, Wren Chapel, noon.
Open House, French House Lobby, 3:30 p.m., coffee and conversation.
Sociology Club, Morton 237, 4 p.m.
Navigators, CC Gold Room, 7 p.m.
LDSSA, Morton 202, 7:30 p.m.
Project Plus Forum, Mill. Aud., 7:30 p.m.
Dr. Cox, "A Tale of 'O': the Business Consequence of Being Different."
WCWM general meeting, PBK 2nd floor, 7:30 p.m.
Study Skills Workshop, Botetourt Theatre, Swem Library, 7:30 p.m. (Student Development)
Lambda Alliance, Special Program, "Gay Male--Lesbian Relationships," United Campus Ministries, 526 Jamestown Rd., 8 p.m.
Sophomore Board, Swem, G-2, 9 p.m.
Hoi Polloi, "Slapwater," 9:30 p.m. \$1 cover.
Underworld Adventure Society, CC Room D, 7:30 p.m.
Yates Third Annual Valentine Camation Sale. Orders taken Jan. 23 thru Feb. 5 at Post Office and Commons. Flowers delivered Sun. Feb. 10. \$1 each.

THURSDAY, JANUARY 24

Richmond City Schools--interviews for prospective teachers. Register for appointments in the Office of Educational Placement, MO-140.
Interviews: Computer Co. (Math & Comp. Sci), CONOCO Cont. Pipeline CC Room D, 10:30 a.m., Chase Manhattan Bank (All Majors), Sit 'n Bull Room, 7:00 p.m.
Canterbury, Wren Chapel, 12 noon.
Sobremesa (Coffee Hour), Spanish House, 3:00 p.m.
Intro. to Career Decision Making, Career Planning, JBH 310, 3:30 p.m.
Christian Science, CC Gold Room, 5 p.m.
Canterbury & CSA, Wren Chapel, 5:30 p.m.
NTSA, Swem, G-2, 6:30 p.m.
FCA, CC Theatre, 7 p.m.
Christian Campus Wide Prayer Meeting, Swem, G-2, 7 p.m.
Parachute Club, CC Room C, 7:30 p.m.
Basketball v. Temple, W&M Hall, 7:30 p.m.
Asia House Lecture, "Traditional Japanese Music," William P. Malm, Univ. Michigan, 7:30 p.m., Asia House.
Film, "Marius," French House Lobby, 8 p.m. French dialogue with English subtitles. All welcome.
Lecture, "Why Study Medieval Art?" Andrews Hall, 201, 8 p.m. Reception to follow. Public invited.

FRIDAY, JANUARY 25

Canterbury, Wren Chapel, noon.
Hoi Polloi, "Prime Time," 4 p.m., 25¢ cover, 30¢ draft.
Physics Colloquium, Dr. Jim Griffin, Univ. of Maryland, "Heavy Ion Physics," (3:30 Coffee in Conference Room). Colloquium in Room 109, Small Physical Laboratory.

WMCF, Mill. Aud., 6 p.m.
Navigators, CC Sit 'n Bull, 6 p.m.
Temple Beth El, Jamestown Rd., 7:30 p.m.
Concert, SA, W&M Hall, "Avatar" & "Grand Hotel," 9 p.m.

SATURDAY, JANUARY 26

Graduate Medical Admissions Exam, Mill. Aud., 8 a.m.
Circle K, Washington 200, 304, 305, 8 a.m. for faculty and staff; 2-5 p.m. for students; and 7-10 p.m. for the public and others of the college community. Reserve a place by calling 253-4427. Sponsored by career planning and placement offices.
Interviews: Mobil Oil (MBA, Acct), Bell System (Acct, BBA, MBA, Com. Sci, Econ, Math, Physics, Psych and Lib Arts w/ strong math), contact Office of Placement.
Intro. to Career Decision Making, CC Room D, 10:30 a.m. Office of Career Planning.
BSA, CC Room C, 1:30 p.m.
SAC Meeting, CC Theatre, 4:30 p.m.
Ebony Expressions, CC Theatre, 6:30 p.m.
NTSA, Swem, G-2, 6:30 p.m.

TUESDAY, JANUARY 29

Canterbury, Wren Chapel, noon.
Workshop, "Discover Your Design," conducted by Arthur Miller and Ralph Mattson, CC Rooms A&B, 9-11:30 a.m.

College Seeks V.P.

The College is advertising nationally to fill the position of Vice President for Development. However, nominations and applications from the campus are also being sought. Letters of nomination and applications with supporting materials should be sent to James S. Kelly, assistant to the President, Ewell Hall. Deadline for applications is Feb. 15 (The advertisement below appeared in the Jan. 17 issue of The Chronicle of Higher Education).

VICE PRESIDENT FOR DEVELOPMENT THE COLLEGE OF WILLIAM AND MARY IN VIRGINIA

The College of William and Mary, Williamsburg, Virginia, invites applications for the position of Vice President for Development from individuals who have experience in providing leadership in development programs. The successful applicant is expected to have a demonstrated ability to manage and coordinate effectively the development functions and personnel that fall within or relate to the Development Office of William and Mary, to gain confidence of and work well with all elements of the College and its several constituencies and affiliated organizations. A major expectation will be to maintain the momentum developed as the result of a three-year comprehensive Campaign which recently exceeded its \$19 million goal and to lead a \$2 million program now starting as the result of a National Endowment for the Humanities challenge grant. Significant prior experience in higher educational advancement, preferably for a public university would be advantageous.

The Vice President will direct a staff in Annual Giving, Special Gifts, Estate Planning, Foundation and Corporate Relations, Development Services (including a computer center), and Donor Research and will report directly to the President. The Vice President will have faculty rank, an annual contract, state benefits and a salary determined by experience and qualifications.

Deadline for applications is February 15, 1980, with a decision anticipated in mid-spring. Applications and supporting materials should be submitted to James S. Kelly, Assistant to the President, The College of William and Mary, Williamsburg, Virginia 23185.

The College is an Equal Employment, Affirmative Action Employer

VW CAMPER 1973, excellent condition. Moderate mileage. Asking \$2400. Call 229-0541 after five or see Cliff Conrad in Education. (1/29)
