Summer Was A Busy Time

There has been a lot going on this summer.

Soon after commencement, Elder-hostelers moved into Project Plus quarters for a week-long program. They enjoyed themselves and plan to come back again next year.

The Shakespeare Festival banners were hung on the front of Phi Beta Kappa Memorial Hall in early July and the third season was applauded by audiences and critics who came to see the three plays presented, "As You Like It," "The Merchant of Venice," and "Comey of Errors."

Sports camps brought hundreds of youngsters to campus to improve their athletic skills. Despite temperatures that hovered near the 100 degree mark for several days, high school cheerleaders enthusiastically practiced their routines outside William and Mary Hall.

The Randolph Residences complex across from The Commons is nearing completion. Women from the five sorority court houses off Richmond Road are being housed in two buildings of the complex while renovations are underway at Sorority Court. It is anticipated that the sorority houses will be ready for occupancy around Christmas. When the first semester residents of Giles and Pleasants Halls move back to the Court, residents in the other sorority houses in the Richmond Road area will be temporarily housed in the Randolph complex while work on the remaining houses in Sorority Court is completed.

There are six buildings in the new complex. Giles, Pleasants, Harrison, Page, Tazewell and Cabell, all named for Virginia governors. Dedication ceremonies at the new complex are planned for Oct. 11.

A 1,120 square foot addition to the Student Health Center is under construction. The addition will include offices, an examining room and a pharmacy.

A lecture hall wing which was part of the original plans for Rogers Hall is now being added. This portion of the building was not built originally because of a lack of funds. Construction time is eight months and it is expected that the new wing will be ready by the end of January. This addition will include an 188-seat lecture hall.

Four physicians residences at Eastern State Hospital have been converted to student housing for graduate students over the summer.

The football field at Cary Field Stadium has been widened so it can now be used for both football and soccer. The playing area has been covered with a Bermuda sod, crowned

Moving In

These two freshmen, moving into DuPont were part of the giant "box brigade" this past weekend. Boxes of every size and description were used to move in belongings for the new school year.

to enhance drainage, and a sprinkler system installed.

The old Tartan track around the field has been replaced with a new all-weather rubber turf.

Also at Cary Field, the home and visiting team locker rooms have been renovated. The public bathrooms on both sides of the field have been renovated.

Work has been done at the Bridges House on Jamestown Road which is being used as a residence hall. A parking area for ten cars have been built adjacent to the house. An enlarged parking area is now available at Yates Residence Hall.

The new home of the campus police behind the power plant building is nearing completion.

Asbestos Work Gets Priority

One of the College's highest priorities during this busy summer of construction and renovation has been the removal of exposed asbestos from certain buildings on the campus.

A standard fire-proofing material, widely used in the construction industry in the late 1940's through the early 1970's (it was banned by the Environmental Protection Agency in 1973), asbestos is now a known cause of respiratory and gastrointestinal illnesses in asbestos workers.

Asbestos has been scraped from steel beams in the elevator shafts and in the mechanical rooms of Millington and Morton Halls. It is anticipated that work in the mechanical room in the attic of The Commons will be completed by September 7.

The work is being done by the Spinazzolo Spray Systems, Inc., of Newport News and is being carefully monitored by an industrial hygienist, Robert A. Jordan, hired by the College as a private consultant to insure that the work undertaken meets quality and safety standards. Jordan spent three years in the Army as an industrial hygienist and three years supervising enforcement of standards required by the Occupational Safety and Health Act (OSHA).

Workers wear protective clothing and special face masks while they are removing the asbestos. The asbestos removed is collected in special bags for disposal as toxic waste. Entrances to work areas have been sealed with several layers of overlapping plastic sheeting to assure no contamination of

Continued on P. 6

College-wide Meeting

A College-wide meeting of members of the Faculty and Administration of the College will be held on Tuesday, September 2, at 3:30 p.m., in Millington Hall Auditorium. On that occasion we shall be introducing new members of the faculty and administration for the 1980-81 academic year.

The Academic Deans will also take this opportunity to bring the faculties up to date on some of the important recognitions and accomplishments of individual faculty members that are of particular interest to the entire academic community, and Mr. Healy will highlight some of the major educational plans and developments for the coming academic year. Immediately following the session in Millington Hall, all in attendance at this meeting are cordially invited to an informal social hour and refreshments in Andrews Hall Foyer and Gallery.

The Academic Deans, Mr. Healy, and I hope that many of you will be able to meet with us for this introduction, both as academic colleagues and socially, to the new College year.

On Sunday, August 31, Zoe and I will look forward to having you and your spouses come by the President's House for Brunch.

Thomas A. Graves, Jr.
President

Newsmakers

George W. Grayson, professor of government, has recently presented two talks at the Foreign Service Institute of the U.S. Department of State. His first presentation, "U.S.-Mexican Energy Relations," was given on June 25th; his second, "Energy Issues in Latin America," on August 14th. "An analysis of the U.S.-Mexican Natural Gas Negotiations," an article prepared under a grant from the Faculty Research Committee, has been accepted for publication in the fall issue of *Orbis*.

Kelly Shaver's book, *An Introduction to Attribution Processes*, is being translated into Japanese by Joji Ikuma and Nobuo Inamatsu, faculty members at the Sagami Institute of Technology and the Toho Medical University, respectively. Originally published in 1975 by Winthrop Publishers of Cambridge, Massachusetts, the *Attribution Processes* book has been used in this country and in Europe in graduate and advanced undergraduate courses in social perception and social psychology. The Japanese Edition will be published by Seishin Shobo, of Tokyo. Shaver is associate professor of psychology.

Carl Dolmetsch, professor of English, presented a paper on "Mencken as Editor: New Evidence and Further Reflections" at an invitational conference of scholars at The Newberry Library, in Chicago, May 8. The conference, sponsored by the Newberry under grants from the National Endowment for the Humanities and the Illinois Council on the Humanities, was held in observance of the centenary of H. L. Mencken (1880-1976), journalist, author, editor and linguist.

As a staff contributor to the magazine, *Opera Canada*, in Toronto, Dolmetsch's annual retrospective critique of the 1979-80 Virginia Opera Association season appeared in the June issue of that journal.

The May issue of *Choice* contains a review by Dolmetsch (pp. 166-67) of Elizabeth Evan's *Ring Lardner* (New York: Ungar, 1979).

Mario D. Zamora, professor of anthropology, was invited to serve as an external examiner for the Ph.D. degree in anthropology at Venkateswara University, Andhra Pradesh, India. He was recently the banquet speaker of the Philippine-American community in Tidewater at Omni International Hotel, Norfolk where he discussed "The Challenge of Government: Philippine Problems and Prospects," a paper to be published by the *Indian Journal of Public Administration*, New Delhi, India in a special issue devoted to the theme *Governments in Action: Challenge of the Decades*. Prof. Zamora was also invited by Indiana University to be Chairman, National Advisory Board on Archives in Philippine-American anthropology by the Philippine Heritage Endowment Foundation of Indiana University.

Edward A. Remler, professor of physics, has received a grant of \$5,250 from the National Science Foundation for "Studies in Reactor Theory."

The research program for which support is being provided involves the derivation and elaboration of a variety of Kinetic, Transport, Master, etc., equations starting from the equation of motion of the density operator. These are motivated by, and directly applicable to, current problems in heavy ion physics. Application also to high energy hadron production is envisaged.

Norma R. Chandler, director of purchases and stores attended a three day purchasing seminar in Richmond, Virginia on April 23-25 presented by the National Institute of Governmental Purchasing, Inc.; sponsored by the Virginia Association of Governmental Purchasing Chapter. She was awarded a certificate for completion of the course.

Nathan Altshuler, professor of anthropology, spent three weeks in the Iquitos and Pucallpa areas of the Amazon region of Peru where he conducted a preliminary survey of health programs and industrialization.

Gary Kreps, associate professor of sociology, attended the 5th annual National Natural Hazards Conference, July 20-23, in Boulder, Colo. While there he made an invited presentation on the role of hazards research for the Federal Emergency Management Agency's new Emergency Management Institute.

Dean Charles L. Quittmeyer and Associate Deans **Henry E. Mallue, Jr.**, and **Franklin E. Robeson** attended the "Managing the School of Business in the 1980's" seminar sponsored by Virginia Commonwealth University, with a grant from the Southern Business Administration Association, in Richmond August 7 and 8. Dr. Mallue served as chair of the "Roles of the Assistant Associate Deans" discussion group workshop, which concentrated on the "guidelines for the administrator involved with reform" suggested by Warren Bennis in *The Leaning Ivory Tower*.

H. Lester Hooker, Jr., Director of William and Mary Hall, has been recognized for 15 years of service to the International Association of Auditorium Managers (IAAM).

In a special ceremony held during IAAM's 55th annual conference in Seattle, Wa., he received a certificate to mark the honor.

Shirley Roby and **Carole Sherman** of the dance faculty, and four students, all Orchesis members, participated in the American Dance Festival this summer at Duke University.

Wendy Fujimoto, Hilo, Hawaii '80, performed in Kei Takei's repertory work. John Taylor, Christchurch, '82, performed in repertory work by Sharon Kinney. Ms. Kinney was formerly with Paul Taylor and Twyla Tharp. Debra Williams, Alexandria, '81, president of Orchesis, was recipient of a cooperative scholarship at the Festival. Alicia Wollerton, Alexandria, '81, was a stage-craft apprentice.

Carole Sherman and Shirley Roby attended the "Dance Update," an intensive workshop to explore new trends in dance given for dance professionals, and a body therapy workshop, offered for the first time this year. Four established methods of muscular reeducation, relaxation and repatterning including the Alexander System, Bartenieff Fundamentals, the Feldenkrais Awareness Thought Movement and Todd Sweigard "Psychophysiology," "Ideokinesis," were discussed at the workshop. Specialists in cardiology, neurology, orthopedics, and physical therapy from the Duke Medical Center also participated as members of the workshop faculty.

This is the third year for the American Dance Festival at Duke. It was established originally at Bennington College in 1934 and since that time has been the scene for more than 200 premieres in modern dance.

Jack Kossler and **Kenneth Petzinger** of the physics faculty will direct research work in "Muon Precession in Solids," for which a grant of \$55,000 has been awarded by the

National Science Foundation. Kossler and Petzinger will continue research with the Muon Spin Rotation technique and carry out related theoretical studies on the behavior in solids of this light isotope of hydrogen.

Alumni Get New Assignments With University Advancement

Three William and Mary alumni have assumed new responsibilities in the office of university advancement.

James C. Rees '74 has resigned as director of public information to assume full-time duties as director for annual support, effective September 1. Rees will also serve as director of corporate relations for the College.

Jacquelin Crebbs '64 became assistant director for annual support this summer, replacing Marilyn Campbell, who resigned to move to Tennessee. Crebbs was formerly director for donor research in the development office.

Caroline Geddy Frechette '50 a Williamsburg native, has assumed the post of coordinator of development research. She had served as an administrative assistant to the Director of Communications, Ross Weeks, during 1976 to 1979.

S. Dean Olson, director of publications, will assume additional duties as the development office's foundations relations officer.

In announcing the changes in responsibilities among university advancement personnel, Dittman pointed to the familiarity of the staff with the College and their previous effectiveness.

"We all know that William and Mary is a very special place, and it's fortunate we have people who embrace this special quality, and who know how to communicate just how special it really is," said Dittman, a veteran in the university advancement field who assumed his post at the College July 1.

Three vacant positions in the university advancement division are still to be filled: director for estate planning, the position vacated last January by Michael Schoenenberger '65, currently associate dean at the Law School; director for capital support, the post from which William McGoldrick resigned this month to become director of development at R.P.I., and director of public information, the position vacated by Rees. All three positions are expected to be filled this fall.

School of Education Invites Comments on Textbooks

The School of Education currently has on display textbooks for both the elementary and secondary level which are being considered for adoption in the public schools for the six-year period beginning July 1, 1981.

The exhibit is located in the curriculum materials library, Jones Hall 209, which is open 8 a.m. - 5 p.m., Monday through Friday.

The School of Education has sent out a letter to all principals in the area inviting them and their staffs to visit the exhibit and to make their personal recommendations and comments. Members of the general public, especially parents, are also invited to look over the books and make their comments.

The exhibit at William and Mary is one of 10 established at colleges and universities across the state by the State Department of Education. Mary Stuart Mason, supervisor of school libraries and textbooks at the Department of Education in Richmond, said this is the third adoption process in which exhibits have been used to solicit feedback both from educators and parents.

Ms. Mason explained that the curriculum and instruction committee of the Department will meet in November to make tentative adoptions which will be finalized by the full Board at its meeting in December.

On display are textbooks in health and science for grades one - seven; dictionaries for use in grades four - seven; and books in mathematics for grades three - seven.

At the secondary levels, textbooks under consideration cover the following subjects: Algebra one (one and two-year sequence); algebra and trigonometry, consumer mathematics, dictionaries, geometry, health, mathematics, physics and trigonometry.

Flat Hat Wins Eight Awards

The Flat Hat garnered eight awards of excellence at the annual Virginia Intercollegiate Mass Communications Association convention held at Old Dominion University.

Jennifer McBride, a May graduate, won first place in newswriting for her story revealing CIA activities on campus in the early 1970's. Editor John Bloom received a second place award for editorial writing, and rising sophomore Mark Forde won third place in newswriting.

Photography editor Chad Jacobson procured two second-place awards in the personality portrait and sports photography categories along with a third place feature photo.

The paper was also awarded second place for overall excellence of make-up, and third in editorial page excellence.

Convention delegates attended workshops held by professional journalists from *The Virginian-Pilot*, *The Ledger-Star*, and both AP and UPI wire services.

Richard Cumbee

Lieutenant Richard Cumbee Promoted to Police Chief

Richard Sheridan Cumbee, 33, of Pembroke, Va., is the new Director of the Campus Police Department.

Cumbee, an alumnus, class of 1969, a member of the police department at the College since 1974, succeeds Harvey Gunson, a former New York detective who has been appointed chief of police at Florida International University in Miami.

Cumbee was a patrolman with the Williamsburg Police Department for two years and from 1971-74 served with the U.S. Army Military Intelligence. He is a graduate of the FBI National Academy at Quantico and served as President of the Virginia Campus Police Association in 1978 and 1979.

Cumbee says that his philosophy as chief will be consistent with that of Gunson and he plans to carry out current policies that have already proved successful.

His long range plans, he says, are basically to continue to work on the professionalism that the department has achieved.

Cumbee says the strength of the police department at the College lies with the people who work there. "We have good quality patrol officers and supervisors and that's what gives us strength."

Cumbee heads a force of 19, 12 of them patrolmen. The College will advertise for a successor to Cumbee.

Since joining the College police department Cumbee has completed a number of schools in a variety of in different aspects of law enforcement. In 1977 he attended a school for campus security administrators sponsored by the Institute for Criminal Justice Advancement at Dover, Del. In 1976 he attended a Civil Disturbance Orientation Course at Fort McClellan, Ala. and in 1970 attended the Arson Investigation school held on the William

Auditions

The William and Mary Theatre will hold auditions for the musical comedy "Company," in Phi Beta Kappa Memorial Hall, 7-11 p.m., Wednesday, Thursday, and Friday.

Freshman band members should report to Ewell Hall during free time today and Wednesday for section assignments and uniform and instrument check-out. Rehearsals begin at 4 p.m. on Friday, August 29.

Sign-up sheets for choir and chorus tryouts are posted on the door of Ewell 105.

and Mary campus. While serving with the U.S. Army, Cumbee was sent to the Defense Language Institute School in Monterey, Ca.

Cumbee has also completed short courses in hostage negotiation, explosive training, drugs and narcotics, evidence collection and traffic management and accident investigation. He has also acquired 16 hours in criminal justice courses at the University of Virginia as part of his continuing education in law enforcement.

Summer Camp Is Held in N.C.

Thirty-five William and Mary ROTC students were among the 3,355 students from east coast colleges and universities that successfully completed the ROTC Advanced Camp at Fort Bragg, N.C. this summer.

Students learned rifle marksmanship, land navigation, small unit tactics, first aid and many other military skills during the rigorous 6 week camp period. Much of the training was physically oriented and demanded individual stamina and perseverance.

William and Mary students placed in the upper 1/3 of all schools participating. Eleven cadets finished in the top ten of their 50-man platoon. Cadets Linda Richardson, Joe Crowley, and Herb Charity were among the Camp's top 10% to receive the Individual Physical Proficiency Award for highest score on the Physical Fitness Test. Cadets Charlie Strain, Steve Scott, Richard Shrank and Burt Thompson exemplified superior knowledge in military skills, land navigation, and rifle marksmanship by placing in the top 5% of all cadets and earning the Individual Military Proficiency Award.

A visit in June by President Graves highlighted the mid-camp activities. During one afternoon Dr. Graves was escorted by LTC Larry Beyer, Professor of Military Science at William and Mary, who commanded a cadet company during Advanced Camp. They visited a field bivouac site which exposed cadets to living in a "tent city" and other facets of a field environment. Other members of the Department of Military Science who attended camp were Major Dave Pastor, Captain (P) Steve Rose, and Sergeant Major Frank Cullen.

Memorial Service At Noon Wednesday Herbert Lawrence Ganter '27 Dies in Williamsburg Hospital

Herbert Lawrence Ganter, 76, retired Archivist at the College, died late Wednesday, August 20, in Williamsburg Community Hospital, following a brief illness.

A native of Galveston, Tex., Mr. Ganter received an A.B. degree from the College in 1927 and a bachelor of laws degree from William and Mary's Marshall-Wythe School of law in 1930. He did additional graduate work at the New School of Social Research in New York City and at Georgetown University.

Mr. Ganter was an expert historical researcher and did much work in the 1930s and 1940s for his alma mater, providing many major contributions to the Second Series of the William and Mary Quarterly, one of the nation's best known historical periodicals. He also handled personal research assignments for Dr. Earl Gregg Swem, the late librarian at the College.

At the request of Dr. Swem, Mr. Ganter returned to the College in 1948 as Archivist, a post he held until his retirement in 1974. He was a specialist on Virginia genealogy and William and Mary alumni.

Mr. Ganter was considered one of the foremost authorities on William and Mary historical personalists and in

Virginia 18th century and colonial American history. A rare book authority, he also concentrated much effort on legal research and the history involving the arts.

Mr. Ganter was elected to Phi Beta Kappa, Omicron Delta Kappa and the F.H.C. Society and also was a member of Kappa Alpha Fraternity. In 1968 he was named a recipient of the Society of the Alumni's Medallion for service and loyalty to his alma mater.

He is survived by several cousins, Bishop B. J. Ganter, Jr., Beaumont, Tex.; Mrs. B. J. Ganter, Sr., Galveston, Tex.; Paul Ganter, Hitchcock, Tex.; Mrs. Donald Warren, Merkel, Tex. and Mrs. Ronald Swann, Hutchinson, Ka.

A rosary was said for him at Malloy and Son Funeral Home in Galveston, Texas at 7:30 p.m. Sunday. A Mass was held at 10 a.m. Monday at St. Patrick's Catholic Church in Galveston, with burial following.

A memorial service will be held at noon on Wednesday, August 27, in the Wren Chapel on the campus of the College of William and Mary.

Memorial contributions may be made to Alpha of Virginia Chapter, Phi Beta Kappa, at the College of William and Mary.

Official Memorandum

From: George R. Healy
Vice President for Academic Affairs

To: Students of the College

Subject: Notification Concerning the Family Educational Rights and Privacy Act of 1974

Under the terms of the Family Educational Rights and Privacy Act of 1974, the College is to inform enrolled students annually of their rights under the law. The Act does not apply to students admitted to the College who have not officially enrolled.

The College hereby affirms that its policies and procedures are in full compliance with the Family Educational Rights and Privacy Act of 1974, whereby each student's right to the privacy of his or her official College records and access to the same is assured.

Enrolled students shall have the following rights under the law:

1. The right of access to his or her official College records. Under the terms of the Act the College is not required to make available to students the following materials:
 - a. Confidential letters of recommendation placed in student's files before January 1, 1975, and those letters for which the student has signed a waiver of his or her right of access.
 - b. Parents' confidential financial statements.
 - c. Medical, psychiatric, or similar records "which are created, maintained, or used only in connection with the provision of treatment to the student and are not available to anyone other than persons providing such treatment; provided, however, that such records can be personally reviewed by a physician or other appropriate professional of the student's choice."
 - d. Personal files and records of members of faculty or administrative personnel, "which are in the sole possession of the maker thereof and which are not accessible or revealed to any person except a substitute."
 - e. Records of the Admissions Office concerning students admitted but not yet enrolled at the College. Letters of recommendation are removed from the Admissions files before the files are forwarded to the Registrar's Office.
2. The right to inspect and review his or her official College records.
3. The right to a response from the College to reasonable requests for explanations and interpretations of his or her official records.
4. The right to an opportunity for a hearing to challenge the accuracy or appropriateness or his or her official records.
5. The right to have disclosure of his or her official records limited to College officials or other persons authorized under the act, for legitimate purposes, unless permission for release of such information to other parties is given in writing.

The College has designated the following information as "Directory Information" which may be released to the public:

1. Student's name, address (permanent and local), telephone number (permanent and local).
2. Student's birthdate.
3. Dates of attendance at the College, field of concentration, current classification, current enrollment status (full or part time), degrees awarded.
4. Previous schools attended and degrees awarded.
5. Honors or special recognition.
6. Height and weight of members of athletic teams.

A student who does not want the above information made public must first file notice in writing of this request in the Registrar's Office, James Blair, by September 12, 1980.

A student wishing to review his or her College records must consult the directory of official student records in the Registrar's Office. The directory lists the offices where official student records are maintained and the name of the official responsible for the maintenance and release of each type of record, and to whom requests for access should be made.

Gifts To College Collection on Display in Swem

Twenty-four watercolors by Robert Keyser, of an ancient Persian bowl, new additions to the College Art Collection, are currently being exhibited in the J. Edward Zollinger museum in Swem Library.

The paintings and the bowl, which is believed to date 700-800 A.D. are contained in the exhibit which will be on display until September 19. The Gallery is open daily from 9 a.m. to 4:45 p.m., and on Saturdays from 9 a.m. to 12:45 p.m. The Gallery is not open on Sundays.

The paintings, the bowl and seven oil paintings also by Keyser were recently donated to the College by Dr. and Mrs. Fred Olsen of Guilford, Conn., following their visit to campus last year.

Olsen, who was born in Newcastle-on-Tyne, in Scotland, of Norwegian parents, retired from business as Vice President for Research for Olin Corporation.

More than half a century ago when abstract and contemporary painting in the United States were in their infancy, Dr. Olsen found a close parallel between the creative stimuli that actuated the inventive in the scientific field and in the arts.

In the 1950's to support a further study of this creative process, he established the Fred and Florence Olsen Foundation incorporating their numerous collections of contemporary paintings, Persian art, ukiyoes, plus ancient Peruvian, African and Arawak artifacts. These collections were loaned continuously to colleges and universities.

Recently the bulk of this collection has been given to leading educational institutions. Both Dr. and Mrs. Olsen believe that creativity is sparked by exposure to new ideas and particularly among the nation's youth. The Olsens feel that a good work of art is wasted if it is stored unseen in vaults or hung in the unoccupied rooms of a collector.

Three of the oil paintings given by Dr. and Mrs. Olsen are on display in the foyer of Ewell Hall which houses the President's Office and Admissions.

In describing his paintings of the bowl, the artist, Robert Keyser, explains that some of the variations are clearly abstracted from the bowl while others are more complete paintings. "My relationship to the bowl kept changing; hence the watercolors do not progress from illustration through abstraction to the non-figurative. I was not trying to solve or reduce the bowl's elements. Most assuredly, the true work of art is the actual bowl," says Keyser.

Keyser was born in Philadelphia in 1924. His formal art training was during the period 1949-51 when he studied with Ferdinand Leger in Paris. Here Keyser had his first one-man show at Galerie Huit in 1951. Back in the United States, he worked in New York for 12 years before returning to Philadelphia.

In 1963 Keyser joined the faculty of the Philadelphia College of Art. Since then, he has exhibited at the Marian Locks Gallery in Philadelphia, and is exhibited by Paul Rosenberg and Company in New York City. In recent years, Keyser has also taught art and exhibited his work at the Rome campus of Temple University. Currently he is living and working in Bucks County, Pa.

The bowl is of terra cotta decorated by sgraffito to give a linear design on the main body, comprising a series of complex unfolding leaf forms. The band of sgraffito is pierced with numerous dots giving a translucency in an otherwise opaque wall. After the cream colored glaze had cooled, freely applied "splashes" of cobalt blue color were added. This gives the pot a modern look, even suggesting the work of the New York School of Action Painting in the 1950's which delighted in accidentals.

The Persian bowl, inspiration for Keyser's paintings, is displayed along with the artist's work.

'Our Future In The Cosmos' Alex Haley of 'Roots' is Next Speaker On College/NASA Lecture Series, Oct. 16

Alex Haley, who gained international fame and a Pulitzer prize for "Roots," the story of his family back to its beginnings in Africa, will be the next speaker on the College of William and Mary-NASA Langley Research Center lecture series "Our Future in the Cosmos."

Haley will speak on "A Saga of Black History - The Future of the Family," at 8 p.m., Thursday, Oct. 16 in Hampton Coliseum.

Admission is free but tickets are available by phoning the Office of Special Programs in Newport News, 877-9231.

Haley had been scheduled to speak on the lecture series in 1977 but had to cancel due to illness.

Alex Haley

"Roots," is the result of Haley's remarkable 12-year search for his roots. He travelled extensively, making 25 trips to Africa, conversing with hundreds of people in many countries and visiting libraries both here and abroad in search of clues that would

enable him to trace his maternal family back to the Mandingo youth named Kunta Kinte.

The phenomenal success of the TV series of "Roots," on ABC-TV led to another mini-series entitled "Roots: The Next Generation," which was aired in early 1979.

More recently, Haley collaborated with Norman Lear to create a television series about two nine-year-old boys who grew up in a small town in the South during the Depression entitled "Palmerstown, U.S.A."

A native of Ithaca, N.Y., Haley was reared in Henning, Tenn. He was the oldest of three sons of a college professor. Haley finished high school at the age of 15 and then went to college, but after two years he enlisted as a messboy in the U.S. Coast Guard. It was while he was in service that he

began to write, and after eight years small magazines began to buy his stories.

The partnership of the College of William and Mary and the National Aeronautics and Space Administration, Langley Research Center, which sponsors Haley's lecture, began in 1974 with the inauguration of the "Our Future in the Cosmos" lectures. The series is a popular public forum designed to stimulate the consciousness and thoughts of the community regarding problems and solutions facing mankind in a rapidly changing world.

The topics and speakers that have been included on the series to date represent a broad spectrum of topics and some of the most interesting people and learned minds in the world today.

Entertainment Planned for Freshmen

Along with the routine signing-in chores for entering students, there are a number of entertainments which have been planned to enliven the orientation schedule.

The Society of the Alumni is giving a watermelon feast and concert by Greg Greenway '76, for entering students, tonight from 6:30 - 8 p.m. on the side lawn of the Alumni House. In case of

rain the party will be moved to the Hoi Polloi.

Alpha Phi Alpha fraternity will sponsor a welcome dinner for all new Black students in the Campus Center Little Theatre at 5 p.m., Wednesday.

There will be a picnic at the freshman residence halls for freshman students, faculty advisors and faculty families, Thursday from 4:30 - 6:30 p.m.

First Issue Friday

The first issue of the student newspaper, *The Flat Hat*, will be off the press on Friday, August 29, beginning the paper's 69th year of publication.

Editor this year is John Bloom, a senior from Falls Church. Offices of the *Flat Hat* are in the Campus Center.

Notebook

Office Hours

President Graves' "open house" office hours will begin September 3. Throughout the year President Graves will regularly set aside an afternoon hour to welcome students on an informal basis, inviting them to come by his office in Ewell Hall and chat about any topic of their choice. No appointment is necessary. Students are given ten minutes on a first come first served basis.

In the past students have taken advantage of a visit with President Graves to discuss issues that concerned them, make suggestions and sometimes, just to stop, shake hands and say hello.

The schedule for September is as follows: September 3, 4 p.m.; September 17, 2:30 p.m.; September 23, 4 p.m.; September 30, 4 p.m.

Adult Skills

The Adult Skills Program will hold registration on September 1, Labor Day, and Tuesday, September 2, from 9 a.m. to 5 p.m. in new quarters in Bryan Hall basement.

New students may come anytime during the two registration days and are asked to call the ASP office, ext. 4644, if another time is more convenient. Returning students may register by phone.

Volunteers Welcomed

Students who wish to renew their assignments as tutors for ASP and those who would like to sign up as new volunteers, are asked to call the office at their earliest convenience to set up schedules.

Arts 'Hot Line' Is Ext. 4367

There will be a new "hot-line" on campus starting August 28--not for emergencies, but for the arts.

For those who enjoy the concerts, films, lectures and exhibits on campus, an Activities Information Line has been installed to keep both area residents and the College Community in touch with the very full College Calendar.

A list of the events of the day, including times and locations of programs and ticket information, may be obtained by calling 253-4367.

The new service has been inaugurated by Ken Smith, associate dean for student activities and organizations. He said he hopes to add upcoming events on the two-minute tape which will be prepared daily for the Activities Information Line. Over 200 events are already listed on the College Calendar and that number is expected to grow.

As an example of the escalating number of events, Smith said plans had just been finalized for three concerts by the Richmond Symphony Orchestra, co-sponsored by the Symphony and the College. On October 21, the full orchestra will give a concert under the baton of conductor Jacques Houtmann. A Pops concert, Feb. 8, will feature Mitch Miller as guest conductor. The final concert, March 1, will be given by the Richmond Symphonia. The series, added Smith, gives concert enthusiasts the choice of three different forms of orchestral music.

Orchestra Auditions

The College-Community Orchestra is now holding auditions open to all members of the peninsula community. Interested instrumentalists--woodwinds, brass, and especially strings--should contact the orchestra's new conductor, Edgar W. Williams, at ext. 4309 (or evenings, 220-2927) for information; or, stop by the College-Community Orchestra's office in Ewell Hall 223.

The orchestra will rehearse twice weekly--Tuesdays and Thursdays from 7 to 9:30 p.m. and will give four public concerts during the course of the year.

Pub Programs

The Hoi Polloi, the campus pub, opens tomorrow night, August 27, with TRACKS from 9:30 p.m. to 1:30 a.m. There will be a \$2 cover charge. Upcoming attractions include the following:

Friday, PRIME TIME, 4 - 7 p.m.
Cover 25¢, draft, 30¢.
Wednesday, Sept. 3, THE PILOTS,
9:30 - 1:30 a.m., \$1 cover.
Friday, Sept. 5, PRIME TIME,
4 - 7 p.m., 25¢ cover, 30¢ draft.
Saturday, Sept. 6, THE CASUALS
featuring Johnny Sportcoat, 9 - 1 a.m.,
\$2 cover.

Help Wanted

The Women's Sports Information Office is seeking two work-study students for the 1980-81 year. Applicants must qualify for certified need. Job schedules are flexible as follows:

Work Study I - 15 hours per week. Typing skills required, mailing lists, mail, updating files and office responsibilities.

Work Study II - 15 hours per week. Knowledge of, or interest in sports required. Statistics computation, update files, office responsibilities, home game coverage, possibly some scores reporting.

Contact Karen Smith, Women's Sports Information Director, Adair Gym lounge, ext. 4360 or 4750. Applicants should apply immediately.

Ticket Discounts

Again this year, all faculty and staff members are eligible for discounts on football season tickets. The home schedule this year will include VMI, Wake Forest, Dartmouth and Delaware.

Sections GG and CC are regularly \$32. For faculty and staff the price will be \$24. Season tickets in the end zone are \$15.

Dates Set for Tests

Below are listed the dates for the first tests to be given this fall. For a complete list of test dates and information packet, come to the Office of Career Planning in Room 140, Morton Hall.

TEST	FIRST TEST DATE	CLOSING DATES FOR REGISTRATION	LATE REGISTRATION
GRE	Oct. 18	Sept. 18	Sept. 19-23
MCAT	Oct. 4	Sept. 5	
LSAT	Oct. 11	Sept. 11	Sept. 18
GMAT	Oct. 25	Sept. 3	Sept. 22

Register early.

An Invitation

The staff of the Office of Career Planning and Placement have issued an invitation to students to come by and see their new facilities in Morton Hall.

There will be an open house in Morton Hall 140 at 3 p.m. on three days for all four undergraduate classes. Seniors are invited to come September 9; Juniors, September 11; Sophomores, September 16; and Freshmen, October 7.

Students will have an opportunity to talk with staff members and learn about the many ways they can assist with career decisions and job searches. Students will also learn how to get on the schedule to talk with recruiters who come to campus looking for talent.

No Debate

Earlier this summer the College was being named as the possible site for one of the proposed presidential debate this fall, but was later dropped.

Phi Beta Kappa Memorial Hall was the site of a 1976 presidential debate between President Gerald Ford and former Georgia Governor Jimmy Carter.

The National League of Women Voters, the organization planning the debates, has announced that Baltimore, Cleveland, Louisville, Ky., and Portland, Ore., will be 1980 debate sites. The first is expected to take place in September.

International Circle Program Sept. 5 To Benefit Philippines Scholarship

The International Club at the College of William and Mary will spotlight the culture of the Philippines in a benefit program entitled "An Evening Across the Pacific," at 8 p.m., Friday, September 5 in the Campus Center Ballroom.

The program, which is being co-sponsored by the International Club and the Filipino Atlantic News, will include Philippine native dances, a fashion show of authentic Filipino costumes, and a sampling of Filipino cuisine. Proceeds from the program will go to the Philippine Scholarship Fund at the College.

Tickets are \$4 for the general public; \$2 for William and Mary students. Children 12 and under, will be admitted free. Tickets are on sale at the Information Desk of the Campus Center, at the Commons Dining Hall and will also be available at the door the evening of the performance.

A dance group from Washington, D.C., under the coordination of Bernie Villanueva, will present the major dances of the evening. Selected talent from the Tidewater area will also perform.

Detailed information concerning the program may be obtained from Mario D. Zamora, professor of anthropology, ext. 4341. Alessandro Gasparini, president of the International Circle, ext. 4535.

Filipino dancers in costume, L-R, Merlyn Eda, Diano Marinas, choreographer Cora Leano, Eddie Leano, and Carmen San Victores pose in native costumes they will model at the benefit program for the Philippines Scholarship benefit show.

Asbestos Removal is Being Carefully Monitored

Continued from P. 1

other parts of the building while the work was underway.

Jordan said he took air samples during and after the work was completed in Millington and in both instances got readings of .01 to .02 of a fiber per one cc of air. This is well below the .1 level at which OSHA requires medical examination of employees. It is also well below the legal level of 2 fibers per cc. Up to this level no requirement for respiratory protection for employees is required. At the present time there are no exposure standards for the general public. OSHA standards apply only to employees.

Jordan said he feels the College is acting very responsibly. "Not only is the College spending its money, but it has received a lot of advice to make sure that the job is done right and it is bending over backward to see that it is done right."

He feels that the College has taken the right approach by attacking the areas of highest potential for exposure. These areas represent the highest danger of friable fibers being loosened and contaminating other areas of the College or being carried by worker on their clothing to their homes.

Although air samples show a very low asbestos fiber content in the air at Millington, Jordan agrees that where ever asbestos is found, efforts should be made to remove it ultimately.

James J. Connolly, Director of Facilities Planning and Construction, says the bill for asbestos removal this summer will exceed \$139,138 for the work undertaken by Spinazzolo Spray Systems, Inc. In addition to the equipment used in Millington and Morton, a highly efficient filter and exhaust system has been brought in for work at The Commons to insure against contamination of other areas while the work is underway.

The College is the first school in the State to tackle the problem of asbestos exposure, and it has received a commendation from Marshall Marcus, Industrial Hygienist with the Bureau of Occupational Health at the State Department of Health, who has just finished a survey of the potential asbestos exposure in State-owned buildings.

William and Mary, he said, was the first campus to take corrective action and attributed the College's quick response to campus-wide interest in removing this hazard.

Bob Jordan, industrial hygienist and consultant for the asbestos removal project at the College, uses a sampling pump to check the level of asbestos fibers in the air in the basement of Millington Hall. In the background is Danny Dobbins, foreman for Spinazzolo Spray Systems.

"The action in actively seeking out consultants to advise on the problems faced, while the State assessment program was still in progress, meant that when the State program was completed in July, the College was then informed and knew how to deal with the exposure sites."

The 1980 General Assembly appropriated two million dollars in general funds for the 1980-82 biennium to correct asbestos exposure in State-owned facilities across the State.

Marcus said he feels the State asbestos program should be reviewed from year to year, and expects two to three million dollars will be needed annually over the next four or five years to complete the job in areas already identified.

He stated further that he thinks the initial outlay of \$2 million is an indication of the State's willingness to address the asbestos problem.

Danny Dobbins, foreman for Spinazzolo Spray Systems, checks the plastic jacketing around equipment in the Millington Hall basement. In the foreground is an MSA Model-G personal sampling pump, which checks the level of asbestos fibers in the air.

SWEM LIBRARY SCHEDULE, August 28, 1980 - January 18, 1981

FALL SEMESTER

Thursday, August 28 through Thursday, October 16
Monday through Friday 8 a.m. - Midnight
Saturday 9 a.m. - 6 p.m.
Sunday 1 p.m. - Midnight

Fall Break

Friday, October 17 8 a.m. - 5 p.m.
Saturday, October 18 9 a.m. - 6 p.m.
Sunday, October 19 1 p.m. - 5 p.m.
Monday, October 20 8 a.m. - 5 p.m.
Tuesday, October 21 8 a.m. - Midnight

Wednesday, October 22 - Tuesday, November 25
Monday through Friday 8 a.m. - Midnight

INTERIM SCHEDULE

Thursday, December 18 through Sunday, January 18
Except for Christmas Closing which will be announced December 1980.
Monday through Friday 8 a.m. - 5 p.m.
Saturday 11 a.m. - 5 p.m.
Sunday 1 p.m. - 5 p.m.

Summer Brings Many Moves for Campus Personnel

Students are not the only ones unpacking and getting settled in for the new school year. There were a number of moves this summer which have transplanted many offices.

The move of the Marshall Wythe School of Law into new quarters adjacent to the National Center for State Courts was undoubtedly the biggest moving job on campus this summer, but there have been many more.

When the Law School moved out of its former home, now St. George Tucker Hall, it also vacated space in the basements of Chancellors, Dawson, Cam, and Bryan Halls, as well as the third floor of James Blair Hall.

The English department which moved into St. George Tucker Hall on the heels of the Law School, vacated space in the Wren Building, Brafferton Hall, Brafferton Kitchen, and Chancellors Hall basement.

The Philosophy Department has moved from the first floor of Rogers Hall to the third floor of the Wren Building and the Brafferton Kitchen.

The Religion Department moved from the second floor of Morton hall to the first floor of Rogers Hall.

The Classics Department in Morton Hall has moved into some of the space vacated by the religion department on the second floor of that building.

Moves from Morton enabled the School of Business Administration to expand and move some offices from Jones into Morton.

The School of Education has also relocated some offices in Morton, moving from the first floor to the basement and the second floor.

The basements of Dawson and Cam Halls now house the laboratory of the Landmark Commission, Virginia Re-

search Center for Archaeology, the laboratory of the anthropology department and a joint conservation lab operated jointly by the anthropology department and the VRCA. These labs were formerly housed on the second floor of Chancellors Hall.

Student Financial Aid has moved from the third to the second floor of James Blair Hall.

The Purchasing Office has also moved from the third to the second floor of James Blair to make space available for the Office of University Advancement which includes the

Development Office and the Office of University Communications and Information. These offices are moving to completely vacate Chancellors Hall which is already undergoing vast renovations for future use by the School of Business Administration.

The Affirmative Action Office, formerly on the third floor of James Blair is now on the first floor of Rogers

Hall. The Minority Affairs Office remains on the second floor of James Blair but has moved to different quarters.

The Internal Auditor's office has moved from the basement of Chancellors and is currently on the third floor of James Blair Hall.

The Adult Skills Office, formerly on the second floor of Chancellors Hall, has been relocated in the basement of Bryan Hall.

Institutional Research has moved from James Blair third floor to the second floor of Morton Hall.

The Archives in Swem Library are being expanded and in addition to space in the library building will also be housed in the basement and first floor of St. George Tucker Hall.

Construction Work Underway

Continued from P. 1

Phase one of work to remove structural barriers for the handicapped on campus has been completed.

A few "survivors" are still on the third floor of Chancellors Hall, now being renovated for the School of Business Administration. Staff members of the Office of University Advancement are due to move this week into

new quarters on the third floor of James Blair Hall. Workmen are tearing down walls and preparing Chancellors for a major renovation over the next 15 months.

There has also been a lot of sprucing up for the school year. At the campus center the lobby has a new look with a different decor and new furniture.

Personnel Notices

"Employees' Days"

As a token of the esteem and appreciation of the College community for our employees, the following dates have been designated as "Employees' Days" for home football games:

September 13, -- VMI
October 11, -- Dartmouth

A total of 100 complimentary tickets for each game will be issued to permanent College employees who have an annual salary that does not exceed \$8990.00 as of July 1, 1980. College employees with long service and retirees who fall within the stated salary limitation will be given preference. Eligible individuals may obtain the complimentary tickets by applying in person at the College Personnel Office.

Employees are advised that they may purchase additional tickets at reduced rates through the William and Mary box office.

Deferred Compensation Plan

On September 4, Charles P. d'Evegne, Director of the Office of Benefits Development, and Linda Frith, Benefits Administrator, will be at the College to present the Deferred Compensation Plan to all faculty and classified employees. They will be available to meet with individuals in Room 213 of James Blair Hall from 10 a.m. - 12:30 p.m. and again that afternoon from 1:30 - 3 p.m.

Information packets will be distributed to all interested employees detailing the state of Virginia's new Deferred Compensation Plan along with the application form for participation in this program. This plan allows employees to deposit a percentage of their salary into an account for them which is non-taxable until the time at which withdrawals are made, generally after an individual reaches retirement age and when his annual salary is considerably less. Anyone having questions concerning the Deferred Compensation Plan is encouraged to come by and speak with d'Evegne and Ms. Frith. No appointment is necessary.

Offerings of The Management and Development Training Service

Listed below are the OMDT offerings schedule from September through December. Interested employees should submit their request in writing through the head of their department to the College Personnel Office. All workshops begin at 8:30 a.m. and conclude at 4:30 p.m. with lunch provided. The courses listed below will be located at the Training Facility in Richmond, VA. All costs must be borne by the employing department.

Additional offerings may be scheduled as needed.

DATE	TITLE	COURSE #
