Bellini Lecture Set April 7

Robert J. Clements, professor of comparative literature at New York University, will give the second and final Bellini Lecture in Foreign Languages and Cultures.

Clements will speak on Michaelangelo's poetry as a key to his art in a slide lecture at 8 p.m., Tuesday, April 7 in the Botetourt Theatre of Swem Library.

The first lecture in the series was given March 26 by Francois Rigolot, a French scholar from Princeton University.

Clements

Clements is the author or co-author of 20 books on literature published both here and in Europe. Over 250 of his articles have been published on four continents. In addition to his earned Ph.D. from the University of Chicago, Clements holds honorary doctorates from the University of Rome and Philanthea College in Canada.

He is co-president of the International Association of Italian Language and Literature and is a Cavaliere Ufficiale of the Italian Republic and academician of the Arcadei in Rome.

The lecture series is named for Charles Bellini of Florence who was appointed to the first American Chair of Modern Languages at the College in 1779. The series is sponsored by the five language houses at William and Mary, the Department of Modern Languages, the Student Activities Council and the College Lecture Committee.

Clements will participate in two conferences in Italy this summer.

He will chair a conference on World Literature at Lake Como, August 17-21, sponsored by the Rockefeller Foundation and will give a lecture on the Renaissance at an institute on literature at Sulmona.

Competition Begins Friday

Twelve teams from around the country and 40 individual competitors will compete in the AIAW Division II National Gymnastics Championship to be held on campus April 3-4.

This is the first national championship to be hosted by the College. Team and all-around competition will be at noon on Friday, April 3 and will continue until 6 p.m. Final rounds and team awards will be made at the evening program which begins at 7:30 p.m.

Tickets may be reserved by calling ext. 4360. They will also be on sale at the door the days of competition.

Ticket prices are as follows: Friday, \$4, adults; \$3, students; \$2 educational groups. Saturday, \$3.50 adults; \$2.50 students; \$2 educational groups. Combination tickets for the entire championship are \$5, \$4 and \$3 respectively.

William and Mary students will be admitted for \$1 per day with I.D. card.

Women's gymnastics coach Sylvia

Shirley expects the upcoming National Championship meet here April 3-4 to be the best meet of the season for the William and Mary team.

During the season, she explained, the team was plagued by injuries although they were able to get "back on form" when it counted. William and Mary won the regionals and a berth in the National round. With injury problems behind them, they are looking for high marks this weekend.

Jan Roltsch, a senior who is strong in floor exercises and vaulting and has several superior tumbling passes in her floor exercise routine, is expected to score well and make it into the final rounds of competition.

Coach Shirley is also looking for high marks from Nanae Fujitz, Ellen Gianukakis and Lynn Rosenberry on the beam; Nanae and Lynn on the vault; Karen Irvin and Gloris Maritote, all around; Debbie Heim, vault, floor exercises and beam; Sandy Rexrode, bars; and Mary Sugg, floor exercises.

Parkman Prize Given by SAH To Royster

"A Revolutionary People at War: The Continental Army and American Character, 1775-1783," by Charles Royster, published by the Institute of Early American History and Culture, has been awarded the Francis Parkman Prize of the Society of American Historians.

Royster, an associate professor at the University of Texas at Arlington, was a postdoctoral fellow at the Institute from 1977-79 and an assistant professor in the history department of the College during that period. He earned a doctoral degree at the University of California at Berkeley before coming to the Institute.

The Institute of Early American History and Culture is sponsored jointly by the College and the Colonial Williamsburg Foundation. Since its founding in 1943, the Institute has published over 100 titles. An earlier publication by the Institute, Winthrop Jordan's "White Over Black," won the Parkman Prize in 1968.

The award of the Parkman Prize, which includes a bronze medal and a \$500 gift, will be made to Royster at a formal dinner in New York City in May.

The Parkman Prize is awarded each year for the best book dealing with any aspect of the American past, and is conferred specifically for literary distinction in the writing of history. "A Revolutionary People at War" had previously won the first annual John D. Rockefeller III Award, given by the Bicentennial Council of the Thirteen Original States Fund.

"A Revolutionary People at War" is a study both of popular images of the Continental army during the American Revolution and of that army's consciousness of itself. It is a book about civilian and military relations with regard to the level of ideals and expectations.

The American people during the Revolution needed a professional army but preferred not to admit that need, for such an admission implied that popular virtue and the spirit of '76 were not enough to defeat the British. The working out of this problem is the heart of Royster's study.

In a review of Royster's book in The New Republic, historian Edmund S. Morgan, who will receive an honorary degree from the College in May, wrote: "Royster's book represents a quantum leap in understanding of the Revolution. Royster not only shows us things that we did not know before, he also shows us that we have ignored the significance of things we did know."

Music of Sundrie Kindes

(See story P. 3)

Newsmakers

Robert Orth, Virginia Institute of Marine Science, presented an invited paper "Submerged Aquatic Vegetation in the Chesapeake Bay: Past, Present and Future," at the 46th North American Wildlife and Natural Resources Conference in Washington, D.C., recently. The conference dealt with the improvement of management of the Chesapeake Bay.

Walter L. Williams, Jr., professor of laws, has written the introductory commentary "Culture, Development and Diplomacy: Reflections on a Seamless Web," for publication in the forthcoming edition of "Third World Studies: Culture, Development and Diplomacy," published by the department of anthropology.

Williams has been appointed to the International Advisory Board of the Association for Anthropological Diplomacy. His recent article, "International Law and the American Hostage in Iran," has been selected for reprint in "Civil and Military Law Journal," (Winter, 1980).

An acrylic painting, "Bouquet," by **Sandy Shiflett**, a Williamsburg artist who is currently teaching for the Department of Fine Arts, will be included in an art show at the Federal Plaza in New York City, sponsored by the University Council for Art Education.

Ms. Shiflett has had her work displayed at the Twentieth Century Gallery, the Studio Gallery in Virginia Beach and the Center for Contemporary Art in Fredericksburg.

Ms. Shiflett is among those cited for innovative ideas in art education in the March issue of School Arts magazine.

Charles Hobson, editor of the John Marshall Papers, participated in a symposium on "James Madison, Polity and Pluralism, An International Perspective," held at the University of Virginia, March 16-17. He is the editor of Volume 13 of *The Papers of James Madison*, recently published by the University Press of Virginia.

James E. Smith, School of Business Administration, presented a paper entitled "Inside Basis Versus Outside Basis: An Intriguing Relationship," at the Southwest Regional meeting of the American Accounting Association in New Orleans, March 7.

Mary Ann D. Sagaria, assistant professor of education, has had an article "Women Administrators and Mobility: The Second Struggle" published in *The Journal of the National Association of Women Deans, Administrators and Counselors* (Winter 1981). Kathryn Moore of the Pennsylvania State University is co-author. Sagaria also was a panel presenter addressing administrator and faculty search processes for a session on job search strategies for young professionals and graduate students at the American Association for Higher Education meeting in Washington, D.C., this month.

David Kranbuehl, associate professor of chemistry, was recently awarded a six-month \$10,000 award from the National Aeronautics and Space Administration to conduct studies on characterizing high-temperature polyimide polymers. The total amount awarded to date in support of this project is \$110,482.

William Bullock, Jr. and Clifton Conrad, School of Education, have recently published their book entitled *Management: Perspectives from the Social Sciences*. University Press of America is the publisher. The book is organized around key concepts in four social science disciplines - anthropology, sociology, political science, and psychology - examining each concept or field of study and its implications for managing as a process of control. The book is intended for use in graduate management courses and as supplementary reading material for practicing managers. Excerpts from the book on humor and play have formed the theme of several speeches presented to federal executive personnel and senior military officers.

Dr. Robert J. Huggett, School of Marine Science, was an invited speaker for the 1981 Pittsburgh Conference on Analytical Chemistry and Applied Spectroscopy held in Atlantic City, New Jersey, recently.

His presentation, entitled "Kepone in the James River, 1975-81," was part of the symposium on Environmental Pollution-Standards, Measurements and Problems.

Wayne Kernodle, professor of sociology, presented a paper on "Age Cohort and the Leisure Perspective" to the annual meetings of the Virginia Social Science Association held at Virginia Beach on March 20-21.

Hans C. von Baeyer, professor of physics and Director of VARC, addressed the Annual Spring Conference of the Virginia Association of Science Teachers in Virginia Beach on March 21. The title of his talk was "The State of the Atom - Subnuclear Particles."

O. Larry Yarbrough, visiting assistant professor of religion, has received notice that he is the recipient of the Dempster Graduate Fellowship for 1981-82 from Yale University for the completion of his dissertation.

Edwin Godshall, lecturer in music, was one of 15 Washington area organists who performed in the fourth annual Bach Marathon at Chevy Chase Presbyterian Church.

A ceramic platter by **Marlene Jack**, assistant professor of fine arts, has been included in a major new exhibition of contemporary art at The Renwick Gallery of the National Museum of American Art, Smithsonian Institution. The exhibition--entitled "The Animal Image: Contemporary Objects and the Beast"--includes 114 three-dimensional works by contemporary American artists. Renwick curator Michael Monroe selected the works during the course of an extensive two-year review of the use of animal imagery by artists working in ceramics, wood, fiber, glass, and metal.

Ms. Jack's work--entitled "Pair of Herons"--was completed in 1979. It is one of a number of her past works which deal with waterbirds, including many observed from the faculty studio at Lake Matoaka. The piece draws upon a variety of classical Greek and ancient Egyptian sources in an attempt to evoke a sense of the timeless within the apparently common, everyday gestures and movements of these birds. It also plays upon the simultaneous

presence of awkwardness and grace one often sees in the figures of these birds, and offers this juxtaposition of dissimilar qualities as evidence of the paradoxical relationship between the timeless and the everyday.

The Renwick Gallery is located in Washington, D.C. at 17th and Pennsylvania, diagonally across from the White House and the Executive Office Building. "The Animal Image" can be seen daily through August 30.

James M. Yankovich, dean of the School of Education, spoke to the Richmond-Petersburg Educational Supervisory Group, March 18 in Richmond on "Current Issues in Teacher Education."

Dean Yankovich spoke to the Dean of Education in Washington, D. C., on March 31 on "The Grass Roots Organizing and Coalition Building in the 80's." The meeting was held under the auspices of The American Association of Colleges of Teacher Education.

Fred Harris, assistant professor of economics, is the author of an article "Value-Maximizing Price and Advertising with Stochastic Demand" to be published in the October 1981 issue of the *Southern Economic Journal*.

Clifford F. Conrad and William Bullock, Jr., of the School of Education, have published a new book, "Management: Perspectives for the Special Sciences."

Over \$138,000 in Grant Funds Given for New, Continuing Work

Recent grants to the College totaling over \$138,000 have been received for projects in several different departments.

An award of \$34,124 from the National Science Foundation is supporting research into the systematics of red algae by Joseph L. Scott, associate professor of biology.

Charlotte Mangum, professor of biology, has received an award of \$28,895 from the National Science Foundation for work with the blue crab, specifically adaptability of hemocyanin-oxygen transport systems to physiological and environmental change.

Robert Orwoll, associate professor of chemistry, will study the relationships between the tendency of some compounds to exist in a liquid-crystalline state and their molecular structure and intermolecular interactions, with a grant of \$35,774 from the National Aeronautics and Space Administration.

The Environmental Protection Agency has awarded a grant of \$30,472 for continuing research of sediment and pore water chemistry by S. Y. Tyree, professor of chemistry.

The National Institute of Education has awarded \$7,055 for a project entitled "Education Equity Litigation in State and Federal Courts." Armand

Galfo, professor of education, will direct this project which will research why attorneys may select federal courts rather than state courts as a forum for litigation.

The final goal of the project is to develop information to suggest ways in which the state courts can be improved in administering education equity cases and other litigation of legal issues with social policy implications.

The results will be important to attorneys and litigants who are concerned with using the courts as an instrument to influence educational policymaking. Sub-contracting agency for the project is the National Center for State Courts.

The Virginia Commission for the Arts has given \$2,000 for the Ash Lawn Summer Festival, which will introduce the general public to short high-quality cultural performances and decorative and utilitarian arts in an historical setting. To be staged at Ash Lawn, home of President Monroe near Charlottesville, the festival this summer will include the seventh annual Colonial Crafts Fair, puppet shows, a series of theatrical productions and a statewide art competition for the design of the Festival poster.

Tudor Scholar to Talk Monday

G. R. Elton, professor of English constitutional history at the University of Cambridge, Cambridge, England, who is considered by many to be the foremost living authority on the history of Tudor England, will give a public lecture on "The Real Thomas More," at 8 p.m., Monday, April 6, in the Campus Center Little Theatre.

Those who attend the lecture are

also cordially invited to a reception for Professor Elton, immediately after his talk, in the Gallery of the Wren Building.

Elton's visit to campus is being sponsored by the Committee on Lectures, the department of history, the Institute of Early American History and

'Law Day' Here Stretches Into Week-Long Program

The annual observance of Law Day is being extended this year by a student planning committee at the Marshall-Wythe School of Law to include a week-long program of events, most of which are open to the public without charge.

This year's Law Day theme, "The Language of Liberty," is being interpreted locally by a program which opens at 1 p.m., Tuesday, March 31 at the National Center for State Courts. A short seminar on the work of the Center will be followed by a tour of the Center building.

Jeff Fairbanks of Williamsburg, Assistant Commonwealth Attorney, will talk on landlord-tenant rights and responsibilities under Virginia law at 7:30 p.m. that evening in Room 120 of the Law School. There will be a question and answer period following his presentation.

"Sports Violence: Interaction Between Public Lawmaking and Criminal Law," will be the title of a program to be presented at 8 p.m., Wednesday, April 1, in the Little

Theatre of the Campus Center. Rick Horrow, Miami attorney, will be the principal speaker. In connection with this program, the film "The Deadly Season," about violence in professional ice hockey, will be shown at 7:30 p.m., Monday, April 6 in Room 120 of the Law School.

Also on Wednesday, April 1, there will be two debates, one on public ownership of the Post Office, the other on the merits of continuing Affirmative Action, which will begin at 7 p.m., in the Moot Courtroom at the Law School as part of the Art of Advocacy class.

Attorneys from Washington, Richmond and the Tidewater area will talk to law students about different fields of law and clerking at workshop sessions April 2 and 3 in the Law School.

Alexander Beegle will provide the clothes for a style show on dressing for the profession at 12:30 p.m., Thursday, April 2 in the Law School.

Public interest law, law and the government and judicial clerking will be the topics discussed at a session beginning at 1 p.m. April 2. The pros and cons of working in small, medium

and large law firms will be discussed at workshops which begin at 1 p.m., Friday, April 3.

An invitation has been extended to several law schools and colleges in the area to a regional conference on Student Legal Services which will be held at 10 a.m., Saturday, April 4 at the Law School.

Students from Marshall-Wythe School of Law are also planning visits to area high schools as part of the Law

Day program which is being planned by student government representatives from the first year class to the Student Bar Association.

New Park Hours

The arrival of spring marks extended hours at Jamestown Island and Yorktown Battlefield, and the opening of three park picnic areas.

Beginning Wednesday, April 1, the daily hours of operation for Jamestown Island will be 8:30 a.m. to 5:00 p.m. and for the Yorktown Visitor Center, 8:30 a.m. to 5:30 p.m. The Yorktown Battlefield tour roads will remain open until dusk. From mid-June through Labor Day, these hours will be extended one-half hour later.

Ringfield picnic area, located midway between Williamsburg and Yorktown, Great Neck picnic area, two miles south of Williamsburg, and the Yorktown Beach picnic area will open on Saturday, March 28.

All three areas have picnic tables, restrooms, drinking water and ash disposal areas available to the public on a first-come, first-serve basis. Open fires are not permitted, but charcoal and gas stoves are allowed.

Ash Lawn Kite Day

Ash Lawn welcomes spring with its SECOND ANNUAL KITE DAY from noon to 4 p.m., Sunday, April 12. All are invited to come and fly kites in the fields of President James Monroe's Albemarle County home. A prize will be awarded for the best-designed kite. Admission for people without kites is \$.75; kite flyers admitted free. Picnickers are welcome. Rain date is Sunday, April 19. Visitors to Ash Lawn that day may tour the home of James Monroe from 9 a.m. to 6 p.m. Ash Lawn is located 2½ miles past Monticello on Route 795. Call (804) 293-9539 for additional information.

Official Memorandum

TO: All Students of the College March 24, 1981

FROM: William J. Carter
Vice President for Business Affairs

SUBJECT: *Correction of March 21 Memorandum Regarding Tuition and General Fee, Room, Board, and Other Fees for 1981-82*

At the top of page 3 of the March 21 memorandum, the "BOARD FEE" is stated as follows:

There is an increase of from \$38 to \$77 per semester, depending upon the particular meal plan selected. The present fee for the 20-meal plan is \$524. The increased fee will be \$584, or 11.5%. The fee for the 15-meal plan will be \$521; the fee for the 10-meal plan will be \$377.

This section *should* read:

BOARD FEE

There is an increase of from \$38 to \$77 per semester, depending upon the particular meal plan selected. The present fee for the 20-meal plan is \$524. The increased fee will be \$592, or 13%. The fee for the 15-meal plan will be \$521; the fee for the 10-meal plan will be \$377.

In the revised section above, only the increased fee for the 20-meal plan is changed, to agree with the resolution and schedule of fees adopted by the Board of Visitors. The amount (\$592) and percentage (13%) have been underlined for convenience in identifying the changes.

Sunday Concert Slated April 5

Musicke of Sundrie Kindes, an ensemble of musicians who present music of the 17th and 18th centuries, will give a concert at 3 p.m., Sunday, April 5 in the Campus Center Ballroom as part of the Sunday Series.

This concert is open free to the public.

The musicians will include in their program Quartet in D Major for violin, flute, viola da gamba and continuo by Telemann; Sonata in E Major for violin by Buxtehude; "Fly Swift Ye House," by Purcell and a Bach aria, "Lass o Welt, mich aus Verachtung."

The concert will conclude with music by Rameau, "Thetis," a cantata for bass, violin and continuo and V^e Concerto for violin and flute.

The members of Musicke of Sundrie Kindes, play copies of period instruments, adding subtlety and nuance not attainable on modern instruments. The tone is somewhat softer, more flexible and there is a

wider variety of color within the sound," says Catherine Folkers, a member of the ensemble who plays the baroque flute and instruments of her own construction.

Continued on P. 4

Bloodmobile

The Williamsburg-James City County Chapter, American Red Cross, processed 180 blood donors at the bloodmobile visit on Friday at DuPont Hall. The visit was sponsored by Delta Sigma Theta Sorority. Receiving pins were Evelyn Kilmon, 3 gallons and Rosemary L. Bowman, Patricia N. Stevens, Janice Boyd and Jeanne M. Wilson, 1 gallon each.

The next visit is scheduled for April 7 at the Williamsburg United Methodist Church, Fellowship Hall, 514 Jamestown Road from 12 noon to 6 p.m. The visit will be sponsored by Alpha Phi Omega Fraternity.

Greek Ambassador Here April 8

The Ambassador from Greece to the United States, John Tzounis, will be guest speaker at the annual Spring Dinner to be held at 7:30 p.m.,

Wednesday, April 8 in the Campus Center ballroom under sponsorship of the International Relations Club.

Tickets, which include dinner, are \$2

and may be purchased at the Campus Center desk.

Students in the language houses on campus are preparing international dishes for the dinner. The evening's program will also include Hellenic cultural dances.

Further information may be obtained by calling Zain Majidulla, 220-3824.

Eat Your Heart Out Bo

Women's basketba! team mascot "Kermit the Frog" has viewed each game from the scorer's table in various costumes designed by senior Kris Hunt'ey. Pictured here as Bo Derek (a perfect 10) Kerm has mimicked opponent tears. William and Mary Coaches Barbara Wetters and Rick Jones and seniors Nancy Scott, Lynn Norenberg, Liz Edwards and Hunt'ey. Will Kermit graduate with his make-up artist? Coach Wetters said she didn't know because "Kerm has become a tradition for the team."

Varner to Conduct Band in Annual Hibbard Concert

The program for the annual Carl Hibbard Memorial Concert, to be presented at 8:15 p.m., Friday, April 10, by the College of William and Mary concert band, will include the work of both American and European masters of music.

Tickets for the concert are \$1.50 and will be on sale at the Campus Center April 5-10 and at the Phi Beta Kappa Memorial Hall box office the evening of the concert.

Proceeds from the concert go to the Carl Hibbard Band Scholarship Fund, established in 1958 by Capt. and Mrs. R. C. Hibbard in memory of their son, a former student at the College and a former member of the College band.

The band, under the direction of Charles R. Varner, professor of music, will open its 1981 concert with "Procession of Nobles," from "Mlada" by Rimsky-Korsakov. This portion of the program will also include "Laude" by Howard Hanson, 1944 Pulitzer Prize winner and for many years director of the Eastman School of Music in Rochester, N. Y.

Brian Coughlin of the U. S. CONAR Band and assistant director of the William and Mary band, will conduct "Eternal Father, Strong to Save," variations on the Navy hymn by Claude T. Smith. Smith was commissioned by the U. S. Navy to compose work for the Bicentennial celebration. It is dedicated to the U. S. Navy Band and its director, Commander Ned E. Muffley.

The band will also play excerpts from "Porgy and Bess," an American opera in the folk manner by George Gershwin. Generally considered to be Gershwin's most ambitious work, "Porgy and Bess" was first performed in Boston September 30, 1935, and shortly thereafter in New York. In 1955 it was the first American opera company to visit Russia.

Featured soloists with the band will be two seniors, David McIntyre from Springfield, Va., and David R. Turner of Silver Spring, Md.

McIntyre will play the soprano saxophone in "Fantasia," by H. Villa-Lobos, arranged by C. R. Varner.

Turner will play the Concerto for Trumpet by Hayden.

McIntyre is majoring in government. He is president of Pi Sigma Alpha political science honorary, a columnist and reporter for the student newspaper, The Flat Hat, program director of the International Relations Club and a member of the student patrol.

He has been elected to Pi Sigma Alpha honorary for collegiate journalists and to Omicron Delta Kappa leadership fraternity. He is currently writing an honors thesis on American foreign policy in the 1970's.

Turner is majoring in music and geology. He is a member of several musical groups on campus including the William and Mary Marching Band, the Pep Band and the Brass Ensemble. He is a member of Sigma Gamma Epsilon, geology honorary and is warden of Phi Mu Alpha music honorary.

He plans to do graduate work in geology after graduation.

David Turner (L) and David McIntyre are featured soloists with the concert band for the 1981 Carl Hibbard Memorial Concert

April 1 Debate

The William and Mary Debate Council will sponsor a pro and con parliamentary debate on the resolution "Should homosexuals be eligible for employment as teachers in American public schools?" to be held at 7 p.m. in the Dodge Room in Phi Beta Kappa Hall. Juniors Colin Buckley and Scott Jenkins will defend homosexual rights against Sophomore David Price and Freshman Kevin Gough. Speeches from the floor will be welcomed. The entire campus community is invited to come and participate.

Covenant Players Open 'Joseph' Friday Night in Andrews Hall

"Joseph and the Amazing Technicolor Dreamcoat," a musical in the Webber-Rice tradition of "Jesus Christ Superstar," will be presented by the Covenant Players, at 8 p.m., April 3-5 and 10-12 in Andrews Hall.

In addition to the evening performances, two matinees are scheduled April 5 and 11 at 2 p.m.

Tickets are \$3 for orchestra seats and \$2 for the mezzanine and are on sale at Binn's Fashion Shop in Merchants Square.

The director is Paul Sagan. Choreography is by Alison Emory.

Valerie Fisher and Paul Cohill are musical directors for the show and the orchestra will be under the direction of Kim Kalman.

The setting in Andrews Hall, with its split-level staircases and balcony, provides an opportunity for some unusual staging.

The Cast

The title role of Joseph is played by Steven Correll. The narrator will be Robert Penola. Other leading roles include Adam Ivey as Jacob; William Schermerhorn as Potiphar; Kaye Davis, Potiphar's wife; John Fitzpatrick, the Pharaoh; and as Joseph's brothers, Robert Amerman, Chuck Babiera, Gary Cowling, Lance Humphries, Scott Mackling, Christopher Quartana, Steven Prial, Gregory Sadosak, John Skinner and Douglas Wingo.

The supporting cast includes Ellen Bathe, Susan Beckett, Lisa Green, Emi Marie Ishikawa, Barbar Jerome, Justina Johnson, Mary Trigg, Marsha Vayada, Tara White and Allison Wood.

For co-producer Sam Potaro, chaplain to Episcopal students on campus, the use of Andrews Hall presents a special challenge. When Andrews was designed it was envisioned as a center for all the arts, he explains. This is its first use for a major musical production and Potaro feels it is a good opportunity to show off a College facility which may not be well-known to the general public as it is to the College community. Says

director Paul Sagan, "it makes for my favorite theatrical maxim: if you can't hide it, decorate it."

The Covenant Players is a shared activity of the Catholic Student Association and the Canterbury Association which evolved from a covenant signed between Catholic and Episcopal students in 1977. The first production of the company was "Godspell" in 1979.

Sunday Concert Features Quartet

Continued from P. 3

The group plays music of the late Renaissance, Baroque and Classical and a typical concert includes solos, duos, trios and music for all four performers, each a distinguished soloist with considerable academic qualifications.

Enid Sutherland, viola da gamba, is a former member of the Arts Musica Baroque ensemble and the New Baroque Trio. As well as her work with the group, she currently directs the Ann Arbor Consort of Viols and gives frequent solo recitals.

Sarah Sumner, violin, is a composer as well as a performer. Recipient of a Harvard traveling fellowship and a Fulbright Scholarship, she has had her works performed in Europe and in the United States.

Penelope Crawford, harpsichord and fortepiano, has been a keyboard soloist since 1974 with the Arts Musica Baroque Orchestra. She regularly teaches at the Oberlin Baroque Performance Institute in the summer.

Appearing with the ensemble will be Larry Vote who has been active in the Pacific northwest and the midwest as an oratorio and recital singers. He has sung principal roles with the University

of Michigan Opera Theatre and has specialized in portraying the role of Jesus in the Passions of Scheutz, Bach and Handel.

Placement Issues Final Schedule

Appointments can be made today, Tuesday, March 31, for BBA and econ. majors for the schedule below. All other undergraduates may register April 1; MBA and law students, April 2.

This is the last schedule to be posted for this year. Students are advised to check with the Office of Placement for any late additions.

Wednesday, April 8

All undergraduate majors should attend these seminars before interviewing with these companies on the scheduled dates listed.

Physicists Continue to Get Support From NSF

The National Science Foundation recently announced an award of \$250,000 for continuing research to be undertaken during 1981 on a project entitled "Interactions of Muons, Kaons, Antiprotons and Sigma Hyperons," directed by Morton Eckhause, John R. Kane, Robert T. Siegel and Robert E. Welsh of the physics faculty. The first NSF grant to William and Mary experimenters for these studies was made in 1972 and the total of the grant awards for this research exceeds one million dollars.

Over the years William and Mary scientists have become expert in the field of "exotic atoms". These are atoms in which an electron is replaced by one of the many negatively-charged particles which have been discovered during the past 40 years. X-rays from exotic atoms give clues about the nature of the negative particles themselves, about the central nucleus, and about the way in which the two interact.

In collaboration with a group of scientists from Carnegie-Mellon University, Virginia Tech, the University of Wyoming and Northwestern University, William and Mary physicists announced in 1972 one of the first experiments which probed the nucleus of an atom by means of antiprotons.

An antiprotonic atom is a type of exotic atom. In the usual atom the central positive nucleus is surrounded by a cloud of negative electrons whirling around like planets orbiting the sun. If one of these electrons is replaced by one of the newly discovered negative particles, the resulting atom is called "exotic". The experiment was performed at the Argonne National Laboratory in Illinois. In 1972, William and Mary scientists also collaborated with others at the Brookhaven National Laboratory in an

experiment in which exotic atom formation was used to study both the fundamental properties of the antiproton and the interaction of antiprotons with the nucleus.

Such an approach is possible because, unlike electrons, the antiprotons interact with nuclei and disappear in a burst of radiation. This phenomenon affects the energy of the

electromagnetic radiation emitted from the atoms in the form of x-rays. By looking carefully at the x-rays emitted by nitrogen and oxygen when they are bombarded by streams of antiprotons, the experimenters are able to deduce in large part what happens when antiprotons penetrate the nucleus.

This research has important consequences for the theory of

Physicists engaged in work supported by NSF grants (clockwise from left) Kevin Giovanetti, Morton Eckhause, Robert Siegel, Rolf Winter, Robert Welsh, William Vulcan, John Kane, Richard Hart.

elementary particles and has already had application in cosmological studies of the "big bang" theory of the separation of matter and anti-matter.

The experiments approved for the coming year are designed to measure properties of the elementary particles. These particles are in some cases constituents of ordinary atomic nuclei, and in others are exotic by-products of collisions of the high-energy particle beams produced at accelerator laboratories. Particles of the latter type usually do not last very long but decay quickly into the familiar particles such as electrons, protons and neutrons. Thus, the experiments must detect effects which occur in extremely short times. The experiment on the sigma hyperon, for example, must sense the minute magnetic effects of this particle during its lifetime of one ten-billionth of a second. These magnetic effects are thought to be cause in turn by still smaller particles called quarks, which are the components of the sigma hyperon. Another experiment on the muon, which decays at a more leisurely rate of a few millionths of a second, will result in a precise determination of the lifetime of the muon, which is of great importance in determining the basic interaction that causes the muon to decay.

These experiments have been approved for running time at high energy accelerators in Los Alamos (New Mexico), Vancouver (British Columbia) and Brookhaven National Laboratory (Long Island). The research is being carried out by the faculty already mentioned as well as by Professor Rolf G. Winter, electronics engineer William F. Vulcan, research associates Richard D. Hart and William A. Orance, and graduate students Kevin Giovanetti, David Hertzog, Peter Li, and William Phillips.

Orchesis Presentation Salutes National Dance Week April 5-11

Orchesis will present its traditional "Evening of Dance," Thursday, Friday and Saturday, April 2, 3 and 4 at 8:15 p.m. nightly in Phi Beta Kappa Memorial Hall as a salute to National Dance Week, April 5-11.

This year, in addition to original choreography, the program will include original musical accompaniment, written especially for the program.

This year's Orchesis president, Debbie Williams, has another chance to show off her talent for combining choreography and whimsy. Her "Cheerios," which opened last year's show, was a lively number just bursting with energy. For this year's program she has choreographed and will dance in "Palletpeople," with dancers Lucia James, Debbie Hammond, Patricia Jue and Liz Williams as painter and paints.

Debbie will also be featured in a solo entitled "Bittersweet," which she also choreographed. The dance conveys the frustration of someone who, despite good intentions, is not able to sidestep recognized problems.

A senior and a psychology major, Debbie attended on scholarship the American Dance Festival held last summer at Duke University. Two other members of Orchesis, Alicia Wollerton and John Taylor, also attended.

The program opens with "Sea Whisperings," choreographed and danced by Lucia James who was inspired by her interest in scuba diving and the brilliant colors of the underseas world. Dancers include Nancy Bates, Renee Conwell, Fiona Harnby and Letitia Wilbur. Interpretations of music by Debussy will be played by Mary Przymyszny, pianist, as accompaniment for the dancers.

"Song of Nubia," choreographed and danced by Letitia Wilbur with

Debbie Williams and Alicia Wollerton, includes the ethnic flavor of Nubian folk music which carries over into the dance forms.

"Moments" is choreographed by John Taylor, who will be joined in the dance by Debbie Hammond, Fiona Harnby, Kim Hesterman, Beth Hill, John Taylor, Olenna Truskett and Alicia Wollerton. "Moments" is a group collage of fragments involving the interchange of fleeting experiences and influences between people.

Rodney Williams, an alumnus who was featured earlier this year in a dance program "Sojourns" with Martina Young, will dance "Polarities" with choreographer Caroline Jones. "Polarities" seeks to explain the different energy extremes rather than portray a convention duet.

Olenna Truskett and Alicia Wollerton are choreographers for "Hieroglyphs," with dancers Nancy Bates, Renee Conwell, Kim Hesterman, Carolina Jones, John Taylor and Michelle Wood. This unusual dance will give the audience a sense of watching a moving frieze with stress on body lines and head profiles.

"Dance Prayer," choreographed by Beth Hill and danced with Leslie Allsopp, Olenna Truskett and Liz Williams, has the added dimension of an original musical accompaniment by Cathy Robertson, pianist and composer, with Donna Brooks, soprano, and Karen Garland, flutist.

"Behind the Star," an interpretation of the side of a headliner's life that is not captured in the stage spotlight, will be interpreted by choreographer-dancer John Taylor.

Jenny Lewis Edenborn will play violin improvisations for Leslie Allsopp,

Beth Hill, Patricia Joe, Lois Korby, Monique Miller and Jimmy Schultz,

dancers and choreographers of "Contours."

Continued on P. 7

Debbie Williams

Notebook

Lecture on Malory

Bonnie Wheeler, associate professor of English at Southern Methodist University, will lecture on "Malory and Medieval Romance" at 8 p.m.

Medieval Romance" at 8 p.m., Monday, April 6, in Morton 220. Her lecture is sponsored by the Department of English and the Committee on Lectures.

Physics Colloquium

B. Lee Roberts of Boston University, will be speaker at the physics colloquium at 4 p.m., Friday, April 3 in Small 109. Coffee will be served in the conference room at 3:30 p.m.

Roberts will take as his topic "The (Y,n⁰) Reaction: New Light on an Old Subject."

Assessing Scholarship

The Virginia Association of Assessing Officers is sponsoring a scholarship program to help persons enter the assessment profession by attending the Virginia Department of Taxation's advanced Assessors School to be held June 7-12, at the University of Virginia.

The application deadline is April 15. For further details, see bulletin M-16-1 in the Office of Placement, Morton Hall 140.

Applying to Law School

A panel discussion on law school application procedures will be held by advisors to the Pre-Law club, Harried Reid, director of the Career Planning office, James J. Thompson, Jr., associate professor of history; John J. McGlennon, assistant professor of government; and John R. Pagan, assistant professor of law, at 8 p.m., Thursday, April 2 in the Botetourt Theatre of Swem Library.

Topics to be considered will include when and how to apply to law school, final preparations for law school and statistics on which law schools accepted previous William and Mary graduates.

Those considering law school, especially juniors, are urged to attend.

Social Services Careers

Carol Knapp, special projects coordinator for the Hampton Department of Social Services, will present a seminar on careers in social work at 4 p.m., Thursday, April 2 in Morton 220.

Ms. Knapp will discuss working in a public agency including client interviews, budgeting, research and grantsmanship.

Further information may be obtained by calling the Office of Career Planning, ext. 4427.

Pimentel Next P.P. Forum Speaker

David Pimentel, professor of insect ecology at Cornell University, will speak

David Pimentel

on "World Food and Energy: Changing Agriculture," at the next Project Plus Forum program at 7 p.m., Wednesday, April 1 in Millington auditorium.

Pimentel has been active for many years, not only in his own specialized field of entomological research, but also as a leader and consultant in the broad fields of food, energy and the environment.

He has, for example, served as chairman (1975-78) of the National Advisory Council on Environmental Education of HEW, and as chairman (1975-79) of the Board on Science and Technology for International Development, National Academy of Sciences.

The author or co-author of 200 articles and eight books, he and his wife recently published "Food Energy and Society." This book has been part of the reading of students and faculty in Project Plus this year and ties in with

Ash Lawn Lectures

Ash Lawn near Charlottesville has received a grant from the Virginia Foundation for the Humanities and Public Policy for a series of lectures on "James Monroe and the Emerging American Culture," which will be held Tuesday evenings in April and May at 7:30 p.m., in the Albermarle County Court House in Charlottesville.

All lectures are open to the public. There is no admission charge. David L. Holmes, professor of religion, will speak on "Religion and Church Workshop in Monroe's in Virginia," April 14. The first lecture in the series, "Music of the Monroe Era," will be given April 7 by Milos Velimirovic, professor of music at the University of Virginia.

A complete listing of the lecture schedule may be obtained by contacting Catherine S. Punch at Ash Lawn, (804) 293-9539.

Health Career Training

The Department of Mental Hygiene of the Johns Hopkins University School of Hygiene and Public Health, in conjunction with the States and University Mental Health Manpower Consortium, is offering a mental health manpower specialist training program. Applications are now being accepted for the academic year, 1981-1982.

Tuition, other supplies, and some travel expenses will be covered by the training program.

For additional information, see bulletin M-16-2 in the Office of Placement, Morton Hall 140.

the overall theme of Project Plus for 1980-81, "Food and Energy: Problems of Scarcity in a Hungry World."

Computer Center Telephones

Effective today, calls placed to the following persons/offices should use lines 4547, 4548, and 4075:

Computer Operations Room
ANGELETTI, Fran
BUTLER, Bob
CONDER, Robert L. (Lee)
ELLIS, Geri S.
EWART, G. Daniel
FINN, Marielena
FOSTER, Dennis J.
HOICHEIM, Terry
HOYLE, Samuel P.
JONES, Virginia A.
KITTLESON, Robert L.
LONG, Lisa
McCALLUM, Shirley A.
PEACH, John M.
RUTHERFORD, Gwen F.
THOMPSON, Mary

These changes are for all non-administrative telephone incoming calls. When calling for personnel in the Administrative Data Systems Group, callers should continue to use extensions 4477, 4478, and 4479. Please correct your current phone directories accordingly as calls placed from campus extensions to the wrong number can not be transferred and will have to be redialed.

'Roadstock' Coming

The residence hall staff of the Jamestown Road area is planning "Roadstock," an afternoon of what they describe as "the wildest, weirdest, most bizarre games you've ever competed in," from 3-6 p.m., Friday, April 10 in the Sunken Garden.

Registration will be held April 1 and 2 in the Campus Center and the Commons. Teams of 6 to 12 can enter.

Registration will be held April 1 and 2 in the Campus Center and the Commons. Teams of 6 to 12 can enter.

Medical Assistant Wanted

A local physician is seeking an office medical assistant to assist him with patients in the office, do laboratory work, venipuncture, blood counts and urinalyses; assist with exercise treadmill testing, chart filing and organization and care for accidental injuries.

Contact William Massey, III, M.D., Massey Clinic Ltd., Professional Building, 229-0919.

For further details, contact the Office of Placement, ext. 4604.

Flight Sciences

A number of graduate research assistantships are now available in the structures and dynamics program of the Joint Institute for Advancement of Flight Sciences at NASA Langley Research Center in Hampton. Applicants should have a degree in engineering, applied mechanics, applied mathematics or physics.

Interested persons should send their academic transcripts to Dr. Ahmed K. Noor, professor of engineering and applied science, Mail Stop 246, GWU-NASA Langley Research Center, Hampton, Va., 23665. U.S. Citizenship is required.

For additional information, see bulletin M-16-3 in the Office of Placement, Morton Hall 140.

Keeping in Touch

The President's Aides, shown above with President Graves, help the president keep abreast of student concerns through regular meetings throughout the year. The President also gets an opportunity to chat informally with students through his schedule of office hours. He will be available to students on Wednesday, April 1, from 3-4 p.m., in his office in Ewell Hall and again April 6 from 4-5 p.m. No appointment is necessary.

Red Cross Announces New Courses

The Williamsburg-James City County Chapter, American Red Cross, will conduct an Advanced First Aid and Emergency Care Course April 2 through May 28, each Monday and Thursday evening from 7-10 p.m.

The course will be conducted at the Williamsburg United Methodist Church, 514 Jamestown Road. There is no charge for instruction; course materials cost will be \$10. To register, please mail check payable to American Red Cross, P. O. Box 756, Williamsburg, to reach the office by April 1.

A CPR Review Course will be conducted on April 7, 6-10 p.m. at Adair Gym. Individuals who have been previously trained in CPR and whose certificates have expired are encouraged to enroll. There is no charge for instruction; course material cost will be \$1.50. To register, please send check to the Red Cross office by April 6.

An Adapted Aquatics swim class for the hearing impaired of all ages and swim levels will be conducted from April 13 through May 7. The class will meet in the pool at Blow Gym, on Mondays, Wednesdays and Thursdays from 6-7 p.m. There is no charge for instruction. To register, please call the Red Cross office at 253-0228 by April 9.

Leakey Lecture

Free tickets are available throughout this week from the Office of Special Programs, in Newport News, 877-9231, for the lecture by Mary D. Leakey, "From Fossils to Footprints," to be presented at 8 p.m. Monday, April 13, in Hampton Coliseum.

After April 6 tickets will be available at the Coliseum.

Alumni Help Students Select Careers with A.C.A.S.

The Olympic swimmer bends over the edge of the pool and cups a hand beneath the surface of the water testing the temperature before the race.

The airline pilot revs up his engines on the runway before take-off to test the readiness of his aircraft.

Like the experts they hope to become, students are testing future career options with the help of the College's alumni.

In a program called A.C.A.S., Alumni Career Advisory Service, students interview informally alumni from a wide range of occupations, to see if what they think they want to do after graduation matches the reality of the working world.

Although recruiters representing major fields of business and industry come in a steady stream to campus throughout the year, the interviewee often gets the well prepared corporate pitch and little else. Talking with people already working in the field, some happily, some not so happily, gives students another perspective on which to base their decisions.

Established through the Office of Career Planning at William and Mary, A.C.A.S. is now being coordinated by a senior student, Stephanie Buchanan of Springfield, Va., who has first-hand knowledge of the program's effectiveness.

"As a sophomore I wanted to be a lawyer," says Miss Buchanan. She visited with alumnae already in the field, expecting to reinforce her career choice.

"After a couple of months, doubts began to creep in," she says. A subsequent meeting with an alumna in sales and marketing convinced her that this type of work style better suited her goals and personality. An economics and philosophy major, Miss Buchanan has already lined up a job in marketing for after graduation.

For senior Jamie Baylis of Falls Church, Va., who would like to go into the publishing field, informational sessions with alumni have helped her narrow her field of interest and reinforce her earlier choice.

"It has given me confidence that jobs can be found if you really put out the effort, even in a highly competitive field," says Miss Baylis, who used A.C.A.S. during her Christmas and spring breaks. An economics major, she has narrowed her choice to magazines and publishing companies with whom she can use her economics training.

The Office of Career Planning, says Miss Buchanan, has a growing file of success stories that tells the staff that when students take advantage of A.C.A.S., it does work.

At present, 231 alumni advisors from 67 cities in 21 states across the country are enrolled in the William and Mary program. Included in the list are corporation presidents and young people not long out of entry level positions. The list includes a songwriter, an actor, a tobacco exporter, and a stockbroker.

The educational field includes teachers, coaches and researchers. There are also a congressional speechwriter, a hospital administrator, attorneys, judges, editors, reporters, a film critic, a park director, an airline pilot, a foreign service officer just back from the Middle East and a geologist just back from Africa.

"These alumni career advisors have not volunteered to do job placement or job referral," says Miss Buchanan. "The intent of the program is information and education," she stresses, "not to find a student a job." The line between asking about a job and asking for a job is a narrow but clear one, she tells students.

"It is reasonable to ask alumni: 'What are the requirements?' 'How do I go about finding an entry-level job in this field?' or 'What is the process at your company?'" she says. "It is not reasonable to ask: 'Could you help me find a job here?'"

Students are also advised to prepare for meetings with alumni as they would for any job interview, write or call for

an appointment, read up on the field, go with a few prepared questions and follow up with a note of appreciation.

"There is always reluctance on the part of the student to start the process, but that is what it takes to make it work," says Miss Buchanan. She tries to encourage students to start the career search earlier, during their sophomore year instead of waiting until the spring of their senior year when the pressure is really on to make a decision.

"If students start early and decide the career they thought they wanted really isn't for them," she says "they have time to change direction and take courses to help them meet the new goals they have set."

Housekeeping Awards go to Williams, Armistead On Recommendation of Washington and McCoy

Two college employees, one a veteran of 25 years service, the other a comparative newcomer, shared honors Friday as Employee of the Month awards were presented to two members of the housekeeping staff by Ernest Boyce, executive housekeeper for the College.

In ceremonies in the office of William J. Carter, Vice President for Business Affairs, Mrs. Lois J. Williams and Mrs. Rose Armistead received certificates of appreciation and congratulations on a job well done.

While the length of service of the two honorees differed, the praises of their supervisors were almost identical.

Hortense Washington, supervisor of Mrs. Williams who works in the Harrison and Page buildings of the new Randolph Village; and Mrs. Lillian McCoy, supervisor of Mrs. Armistead in Morton Hall, praised the dependability, adaptability and congeniality of their nominees.

Mrs. Washington said she nominated Mrs. Williams, a college employee since May 1980, because she was someone who knew her job and did it well. "She is easy to get along with, is very cooperative, knows her assignment and goes about it without any hesitation," said Mrs. Washington.

The relationship between Mrs. Armistead and her supervisor includes a special bond of friendship.

"Whenever we are shorthanded she's understanding, even when she has to do the work by herself," said Mrs. McCoy. "The professors in the building think a lot of her—that means a lot," she added.

For both honorees, this was their first award. Both are eligible for semester and year-long awards.

Mrs. Williams is a native of Charles City and has lived there most of her life. She is a member of Parish Hill Baptist Church. She has two sons and two daughters, Claiborne, Jody, Leisha and Teresa.

To ease the cost of traveling from Charles City daily, Mrs. Williams has a car pool whose members share her \$30 gas bill each week.

She says she enjoys her work because her fellow employees are easy to get along with.

She likes to spend her leisure time listening to music, reading and dancing.

A member of a large family, Mrs. Williams has a mother, four brothers and two sisters in Charles City and one brother and two sisters in New Jersey. The Virginia members of the family get together for a family reunion every year and include the out-of-state members every three years.

Mrs. Armistead has worked in Morton Hall since it was built, with the exception of a short-time transfer to Millington. She likes her assignment

The two honorees, Mrs. Armistead (L) and Mrs. Williams pose with their certificates in the office of William J. Carter, Vice President for Business Affairs. With them are supervisors Mrs. McCoy and Mrs. Washington and Ernest Boyce, executive housekeeper.

and enjoys the variety of departments and offices that are housed in the building.

A Williamsburg resident and a widow, Mrs. Armistead has three daughters, Mrs. Eloise Jenkins and Mrs. Rose Donovan, both of New York; and Mrs. Carol Plumber of Chicago. She also has five grandchildren. She makes the rounds to see her family at least

once a year, and they come home to see her for a yearly visit also.

Mrs. Armistead is a member of First Baptist Church, its senior choir and Usher Board.

When she has spare time on her hands Mrs. Armistead likes to read novels, and now that warmer weather is coming, she is looking forward to her favorite pastime - picnicking.

Professor Elton of Cambridge To Speak on Thomas More

Orchesis Features Dance, Music

Continued from P. 5.

The finale, "Socha Rhumba," is a festive number, choreographed by Rodney Williams for the entire Orchesis company.

Shirley Roby and Carole Sherman serve as faculty advisors for Orchesis. Special lighting effects for "An Evening of Dance" were designed by Christopher Boll of the theatre and speech department.

Offical Memo

VSRS & Employee Handbooks

Two new handbooks are now available to college employees in the Personnel Office. Both the Virginia Supplemental Retirement System's *Handbook for Members* and the *College of William and Mary Employee Handbook* have recently been revised and are available for distribution. Anyone who would like to receive a copy of one or both handbooks may do so by coming into the Personnel Office between the hours of 8 a.m. - 5 p.m., Monday through Friday.

Employment

DIRECTOR OF MEN'S INTRAMURALS AND CAMPUS RECREATION - \$13,000 per year. This is an unclassified position with full benefits available. College degree with major in physical education or related field with college level experience desired in coordinating, developing and managing recreation and intramural programs. Related work experience may substitute for education on an equal time basis. Office of the Associate Dean of Students. deadline 4/2.

INTERNAL AUDITOR - \$16,040-\$21,910 per year. Starting salary dependent upon experience and previous salary level of appointee. (#528). College degree with major in accounting. Computer experience in administrative and accounting system desired. C.P.A. or C.I.A. desired. Related work experience in accounting may substitute for education on an equal time basis. Office of the Director of Internal Audit (W&M/VIMS) deadline. 4/3.

LABORATORY TECHNICIAN B - \$9,400-\$12,840 per year. Starting salary dependent upon experience and previous salary level of

appointee. This is a restricted position (#410). High school graduate with field or laboratory experience in biology, chemistry or related field. Related work experience may substitute for education on an equal time basis. College education with major in biology, chemistry or related field may substitute for experience requirement. VIMS (Wetlands Department) deadline 4/3.

ACCOUNTANT B - unclassified, full time - \$6.45 per hour. (Temporary employment for approximately one year.) College degree with major in accounting, business administration or related field and work experience within area of specialization. Related work experience may substitute for education on an equal time basis, or applicable graduate study may substitute for work experience requirement. Primary duties of incumbent will be to perform systems analyses and studies for the business manager. VIMS (Office of the Business Manager) deadline 4/6.

MARINE SCIENTIST A - \$13,420 to \$18,340 per year. * This is a

restricted position (#407). College degree in biology, chemistry or related field with experience in benthos or geochemistry. Related field or laboratory experience may substitute for education on an equal time basis. VIMS Invertebrate Ecology department. deadline. 4/1.

*Starting salary dependent upon experience and previous salary level of appointee.

LABORATORY INSTRUMENT MAKER - salary range \$14,670 to \$20,040 per year. Starting salary dependent upon experience and previous salary level of appointee (#119). High school graduate with experience in constructing, repairing and maintaining precision machinery, electrical devices and metal work. Applicable work experience may substitute for high school education on an equal time basis. Incumbent will have responsibility for preventive maintenance, repair, and fabrication of all types of audio-visual and 3/4" video equipment, including editing units and color cameras. Some design of electronic and video systems required. Educational media services. deadline 5/1.
