Acting/Dean/Director Appointed

Perkins to Head School of Marine Science/VIMS

Dr. Frank O. Perkins, professor of marine science at the College, has been named Acting Dean of the School of Marine Science and Acting Director of the Virginia Institute of Marine Science, effective July 1, President Graves announced last week.

Perkins, currently the Director of the Division of Biological Oceanography at VIMS, has been with the Institute since 1965. He received his B.A. degree in biology from the University of Virginia in 1960, and his M.S. and Ph.D. degrees from Florida State University in Tallahassee.

His research interests center on diseases of commercially significant marine organisms, identification and role of ultraplankton in the Chesapeake Bay, and cell biology of fungi and protozoa. Over the past 16 years, Perkins' extensive research interests and activities have led to the publica-

tion of numerous articles, papers and abstracts in major national and international scientific and professional journals.

Perkins has long been active in the educational and administrative affairs of the School of Marine Science and VIMS. He has served as chairman of the academic Advisory Committee and of the Curriculum Review Committee of the School of Marine Science and as a member of the William and Mary Evaluation Committee of VIMS. Most recently, Perkins has served on the Dean/Director Search Committee for VIMS.

The appointment of Perkins as Acting Dean/Director will be for an indefinite term, pending further developments, said Graves. Perkins will report directly to the President and he will also work closely, as needed, with the College's Vice President for Academic Affairs and

the Vice President for Business Affairs.

The recently appointed Associate Director for Finance and Administration of VIMS, Thomas J. Kuchinka, will report directly to Perkins, as of July 1.

Graves expressed his appreciation to Perkins for taking on this major educational and administrative responsibility. "I am especially pleased that we could persuade an individual of Dr. Perkins' excellent experience and proven leadership at Gloucester Point to accept these dual management positions at this time," he said. "I am confident that he will have the full support and confidence of his colleagues there.

"Those of us at William and Mary offer Dr. Perkins our full confidence and look forward to working closely with him. The School of Marine Science and the Virginia Institute of Marine Science are first-rate educational

and scientific institutions that deserve the high leadership and management skills which Dr. Perkins brings to these jobs."

On July 1, Perkins will succeed Dr. William J. Hargis, Jr., who has been Dean of the School of Marine Science and Director of VIMS for over 20 years. President Graves, commenting on Dr. Hargis' tenure, stated that the outgoing Dean/Director is "an achiever in marine science and marine science management," who has "risen to a level enjoyed by few of his peers."

Author of over 70 research publica-

Colgate Darden College Advocate Dies at 84

The College lost a life-long advocate and friend with the death last week of former Gov. Colgate W. Darden, Jr. In his 84 years, most of them in service to Virginians, Darden was a staunch supporter of education in general and William and Mary in particular. After serving as Governor from 1942-46, Darden became the eighteenth Chancellor of the College, serving from 1946 until he was named President of the University of Virginia in 1947.

In recent interviews conducted by Emily Williams and edited by Parke Rouse, Jr., for the Oral History Project at the College, Darden reminisced about his life, his politics and the College of William and Mary.

"I think two things are responsible for the rise of William and Mary: the industrial development of Virginia and the desire of Virginians living outside Virginia to come back here," said Darden. "Out-of-state people who come to visit Williamsburg want their children to go there to school."

Higher education remained a central concern to Darden throughout his life. A native of Southampton County, Darden's undergraduate days at the University of Virginia were interrupted by his distinguished service in World War I, for which he was cited for bravery under fire at Verdun. After recovering from wounds received in the war, Darden returned to the university and received his bachelor's degree in 1922.

After receiving a master of arts and a law degree from Columbia University, Darden opened a law office in Norfolk

Continued on P. 3

The Choir Returns

Members of the choir pose by the poster at St. Peter's Church in Staines, outside of London, just before boarding buses for Heathrow airport and the trip back to Washington, Saturday, June 13. Pictured with the choir are the bus drivers who had served as guides for the group during its stay in England. The choir left May 19 for Paris and after visits in Switzerland, Germany and The Netherlands, took a ferry from the Hook of Holland for England, May 29. Absent from the picture is David Eye who left early to attend ROTC camp.

Grant Awards Total \$78,146

Grants totaling \$78,146 for projects in education, mathematics and chemistry have recently been awarded to faculty members at the College.

Mark Gulesian, associate professor in the School of Education, and Lynn Bloom, associate professor of English, have received a grant of \$20,000 from the State Department of Education for the third year of the Eastern Virginia Writing Project. Selected teachers of language arts attend a five-week summer institute at the College where they receive instruction in research evidence concerning the teaching of the writing process, and engage in extensive writing experiences of their own.

The National Aeronautics and Space Administration has awarded an

additional \$33,146 to Margaret K. Schaefer, assistant professor of mathematics and computer science, for a project entitled "Methodologies for Optimizing Maintenance Models for Advanced Avionics Control System." The allocation models developed under the grant may be useful ultimately in simulation and implementation states of the avionics control system for the next generation of commercial aircraft. To date, the project has received a total of \$92,622.

A grant of \$25,000 from the Mobil Chemical Company has been awarded to Trevor Hill, professor of chemistry, for continuation of present research activities directed toward the preparation of chemical intermediates.

Eason Wins Employee Award

Frank D. Eason, an employee of the College for the last 14 years, was recently named Employee of the Month for May. A resident of Carriage Road in James City County, Eason is part of the Department of Buildings and Grounds Project Team, which is in charge of the major heaving cleaning work in College buildings, including stripping and waxing floors, shampooing rugs and preparing rooms for various activities.

For the last two years, Eason has been in charge of the Campus Center at the College, setting up for various functions such as conferences and dances and keeping the facility in top physical condition. "He's a good worker anywhere you put him," said Charles Jimerson, project team supervisor for Buildings and Grounds.

"We picked Mr. Eason because of his outstanding record, said Ernest Boyce, executive housekeeper. "The College has had no problem at the Campus Center since Mr. Eason has been over there."

In presenting the award at a morning ceremony, recently, Vice President for Business Affairs William J. Carter congratulated Eason. "The Campus Center gets lots of exposure. There is a lot of opportunity for bad situations 24 hours a day, seven days a week," said Carter. "We know it's a tough job and we congratulate you for handling it so well."

Perhaps Mr. Eason's excellent job record is all the more remarkable because he holds another full-time job as a custodian in the restored exhibition buildings at Colonial Williamsburg.

Frank D. Eason, second from right, receives a certificate as Employee of the Month for May from (l-r) Ernest Boyce, executive housekeeper; Vice President Carter; and Charles Jimerson, project team supervisor.

Newsmakers

Michael Castagna, associate professor of marine science, and John N. Kraeuter, assistant professor of marine science, have recently completed a publication entitled, "Manual for Growing the Hard Clam *Mercenaria*," published by the Sea Grant Program at VIMS. The manual outlines some of the methods that can be used to grow the hard clam, *Mercenaria mercenaria*, to market size. The methods described are intended to allow persons of average technical ability to grow clams at a profit. The manual, available at the Sea Grant Communications Office of VIMS for \$3, is designed to aid in the development of small-scale hatcheries.

Leland E. Traywick, Chancellor Professor of Business Administration, has become the chairman of the Federal Statistics Users' Conference of Washington, D.C., an independent, non-profit research organization composed of hundreds of institutional or organization members classified into one of five categories: business firms; labor unions; state and local governments; nonprofit research organizations; and trade associations.

The organization is concerned with serving the mutual interests of its members by working toward the development of adequate and timely federal statistics of optimum usefulness at minimum cost.

The Countdown Begins — 16 Days Until July 9

Shakespeare Costumers Need Volunteers

The pace keeps quickening for the actors, directors and technicians preparing for the 1981 Virginia Shakespeare Festival set to open July 9 at Phi Beta Kappa Memorial Hall. The cast is now in its fourth week of rehearsals and is already tackling roles on the newly designed stage for this season.

Also in its fourth week of hectic activity is the Festival costume shop, where costume designers Lorraine Venberg and Martha Hally are sending out appeals for volunteer seamstresses to help construct some 150 costumes needed for this season's productions of "Julius Caesar," "The Tempest," and "The Two Gentlemen of Verona."

"At this point, anybody with any basic sewing skill is welcome to help."

says Ms. Venberg. Although some basic knowledge of tailoring would be helpful, it is not necessary, she adds.

"We'll be doing a lot of sewing straight seams and a lot of handwork. Also, we'll do craft work like decorating armor and shoes. Anyone with an interest in decorative arts or crafts is welcome to join us."

Those willing to volunteer their skills to the costumers should either stop by the costume shop located in the rear of Phi Beta Kappa Hall, or call Lorraine Venberg at 253-4273. Costume shop hours are 9:30 a.m. to 12:30 p.m.; 1:30-5:30 p.m.; and 7:30-11 p.m. daily except Mondays. Volunteers are needed immediately through July 17.

rehearsals, the actors are keeping pace with their own grueling schedule, rehearsing all three plays each day: one in the morning, another in the afternoon, and the third at night.

While costumers work around the clock to prepare for technical and dress

Gerald Richards and Melinda McCrary rehearse their roles as Prospero and Miranda in "The Tempest," as director Tom Gruenewald looks on.

Costume Technicians cut pieces for the scores of outfits worn in the Virginia Shakespeare Festival's three productions.

Costumer Carol Rae Fisher prepares a pattern for one of the outfits in "The Two Gentlemen of Verona."

Notebook

Kealey Signs for W&M Basketball

William and Mary basketball coach Barbara Wetters recently announced that Bridget Kealey of Succasunna, N.J., has signed a letter of intent to the College of William and Mary.

Kealey, a dominating force at 5'9", averaged 19 points per game in addition to 14 rebounds her senior year at Roxbury High School. As the team's captain, she led in scoring, rebounding and free throw shooting and was named to the First Team All-Morris County.

Bingham Hired as Assistant Swim Coach/Head Mermettes Coach

Sarah Bingham has been hired to replace Marcia Milbrath as head Mermettes coach and will be the first assistant women's swimming coach, women's athletic director Mildred West announced recently.

Bingham will also serve as an instructor in the women's Physical Education Department. She will be leaving the State University of New York at Albany where she has served as Assistant Professor and Head Swimming and Diving Coach since 1979.

Stettler Named Coach, W&M Hosts Field Hockey Developmental Camp

The College of William and Mary will be the site of a United States Field Hockey Developmental Camp June 28-July 3, 1981 and Indian field hockey coach Jean Stettler will be the head coach of the week-long camp.

William and Mary will host one of 30 sites nationally at the D Camp level. D Camp is the entry program for high school and college players who have never attended a USA Camp previously. Emphasis will be on the improvement of individual skills and the introduction of current offensive and defensive systems of play.

Forum Programs

The Forum of Williamsburg, sponsored by the Women in Business Program at the College, will hold two luncheon meetings this summer at noon in the Great Hall of the Wren

Building. The first, scheduled Tuesday, July 14, will feature Jane Siegel, vice president of Counseling Associates, who will speak on managing stress. The second luncheon meeting will be held Tuesday, Aug. 11, with Janis Brelford of Legg-Mason, who will talk about new developments in investments.

Cost of the meetings is \$5. Please make checks payable to the Women in Business Program, and send to Julie Leverenz, Women in Business Program, College of William and Mary, Williamsburg, Va. 23185.

Placement Has Moved

The Office of Placement has relocated to the Review Room of the Campus Center while Morton Hall is being repaired. The office will be open from 8 a.m. to 5 p.m., Monday through Friday during the summer. Phone 253-4604.

Three Tennis Recruits To Attend William and Mary

William and Mary tennis coach Candi Cowden recently announced that Tracy Ruoff (Fairfield, Ct.) has signed a letter of intent to the College of William and Mary. At the same time she announced that Jill Longmire (Cherry Hill, N.J.) and Sarah Dobbin (Bronxville, N.Y.) have been admitted to the College.

Ruoff, a consistently strong player, has been ranked No. 3 in Connecticut the past two years and No. 17 in the New England Lawn Tennis Association (NELTA) in singles. In doubles, she played on the No. 1 team in Connecticut and the No. 2 team in the NELTA.

Longmire, a four-time MVP at Cherry Hill High School East, has been a dominating tennis force in South New Jersey. She has been named All-Conference first team the past three years and All-South Jersey Group 4 first team the past three years. Longmire is currently ranked No. 17 in New Jersey 18 and under and No. 35 in the Middle States 18 and under.

Dobbin has played at the No. 1 position at Bronxville High School the past two years and was named MVP, All-County, and All-League, as well. She is currently ranked No. 21 in the Eastern Tennis Association Girls 18 and under and No. 5 in New York's scholastic division.

STEP Program Begins July 5

Students with high academic potential from as far away as New York and as close as Williamsburg will prepare for the rigors of college life at the third annual Summer Transition Enrichment Program (STEP) at the College scheduled July 5 through July 31.

About 35 students, some of whom are rising high school seniors and others who will enter the College as freshmen this fall, are participating in the four-week program, which is offered as a service for high school students to make a more positive transition from secondary education to college.

Students will get a preview of college life by living on campus in the new Randolph Residences, and taking English, biology, mathematics and creative writing taught by faculty members Terry Meyers and Esther Vassar of the English department, Brad Coursen of biology, and William Bynum of mathematics and computer science.

Joanne Braxton, also of the English department, will serve as guest writer-in-residence for the program and will conduct writers' workshops.

Included in the curriculum are career awareness workshops in the

fields of law, politics, medicine, education and business. Professionals from a broad range of specialties within these fields will hold panel discussions with students to give them a closer look at the preparation for and skill associated with various career fields. Esther Vassar is directing this year's program.

Golf Team Wins Division II Title

The women's golf team won the first national title in women's sports at the inaugural Association of American Universities (AAU) Division II National Golf Championship held in Cedar Falls, Iowa last weekend.

The Indians captured the four day event at Beaver Hill Country Club with a 1,341 stroke total, seventeen strokes ahead of second place finisher Longwood College. Host University of Northern Iowa was third of the eight teams with 1360.

The Tribe team was one of the smallest at the tournament. "They deserved to win," said Coach Ann T. Lambert. "They were loose but very determined and played with a lot of concentration over the four days."

Personnel Notices

Salary Regrade for Hourly Employees

On July 1, 1981, all classified employees of the College will receive a 9 percent increase in their yearly salaries. This general salary regrade is the result of changes in the competitive labor market. This year, and as it has been in past years, it is the State's policy that all hourly employees should also receive a corresponding salary increase. Therefore, this increase will be effective July 1, 1981 for hourly employees of the College.

Department heads should take the necessary action to insure that funds are available to cover this increase in salary. In some instances, department heads may have to adjust the hours of employment or make some other adjustment to compensate for this increase in hourly wages.

Lost Mail

The Campus Post Office has received from the Claims and Inquiry Section of the New York Bulk and Foreign Mail Center the address label from a piece of mail sent out from the College on May 4, 1981; the contents are not known. In order for us to respond, it would be helpful if we could inform the Claims Section as to the nature, or description, of the contents. The mail was addressed to:

Professor Andrew P. Vayda
423 W. 100th Street
New York, N. Y. 10027

There was no office designation for a return address. If any reader can supply information concerning this piece of mail, it would be greatly appreciated. Please call College Extension 4203 with any such information.

Thank you for any assistance in this matter.

Dennis K. Cogle

Timetable for Submission of Local Invoices, Journal Vouchers Involving Clearing Accounts, and Inventory Summaries, and Reminder Concerning Cash Overdrafts on Local Funds for Fiscal Year Ending June 30, 1981

The deadline for the submission of local invoices to Accounts Payable for the 1980-81 fiscal year will be Monday, June 29, at noon. Local invoices received after 12:00 noon on June 29 will be carried forward to and processed in the 1981-82 fiscal year. You may call Ms. Joyce Lampkin at Extension 4643 for assistance or further clarification.

Journal vouchers involving Clearing Accounts should be submitted to Data Control not later than July 3, 1981. You may call Mr. James McReynolds at Extension 4669 for assistance.

Copies of inventory summaries for Ash Lawn, Bookstore, Buildings and Grounds, Campus Center, and Stores should be submitted to the Controller's Office not later than July 10, 1981.

Administrators of local funds are reminded that, in general, local invoices cannot be processed for funds having negative cash balances. The processing of invoices which would result in Cash Overdrafts will be approved by Mr. Floyd E. Whitaker very sparingly and only where there is adequate justification.

Darden Received Honorary Degree

Continued from P. 1

in 1925 and campaigned for Harry F. Byrd in the race for governor. Darden himself was elected to the state House of Delegates in 1929, serving until his election to the House of Representatives in 1932.

After four terms in Congress, Darden became Governor of Virginia at the outbreak of World War II. Among his major achievements as Governor were the organization of the wartime civilian defense, eradicating the state's debt, founding the Department of Corrections and authorizing millions of dollars for massive building programs at the Virginia's colleges and universities.

Darden was awarded an honorary doctor of laws degree by the College in the spring of 1946. In October of that same year, he was elected the eighteenth Chancellor of William and Mary by the College's Board of Visitors. Only a few months after he was installed in February 1947, Darden had to resign the honorary post to become

President of the University of Virginia, a position he held until 1959.

When questioned during the oral history interview about his perception of the future of the College, Darden, as ever, was optimistic. "William and Mary's a great school, and it's got greater days in front of it than it has behind it." What is William and Mary's niche in higher education in Virginia? "There's only one niche, and that's to sharpen the human mind," replied Darden. "Unless they [the colleges] do that, they're wasting their time."

"It's not what you remember so much in facts and figures. . . The question is whether or not you can catch the imagination of a child to a point that will encourage him to go on and achieve a sense of discrimination.

"Life is essentially a matter of choices—the whole long journey—it's a long series of choices. Now that is only done by sharpening the mind, and if you do that the rest will take care of itself."

Employment

ACCOUNTANT A (grade 6) \$11,195 to \$15,293 per year. Starting salary dependent upon experience and previous salary range of the appointee. #582. High school graduate preferred with experience in accounting, auditing or bookkeeping. Knowledge of bookkeeping principles and practices. Ability to perform mathematical calculations. Ability to prepare and interpret basic financial statements. Typing test required. Office of General Accounting, deadline 6, 24.

RESIDENCE HALL COORDINATOR (grade 4) starting salary \$9,347.25 per year plus a furnished apartment. #62, #70. College graduate preferred. Experience in residence hall management or counseling. Effective date of employment, August 1. Residence Hall Life, deadline, 6, 29.

ACCOUNTANT C (financial reporting grade 11) \$17,484 to \$23,882 per year. Starting salary dependent upon experience and previous salary level of the appointee. #249. College degree with major in accounting preferred. Computer experience in administrative and accounting systems desired. C.P.A. or C.I.A. desired. Responsible for preparing analyses and interpreting college financial statements. Effective date of employment, July 1. Office of General Accounting, deadline 6, 25.

GROUNDSMEN (2 vacancies) unclassified, full time, \$3.77 per hour. Experience in groundskeeping or related work. VIMS, maintenance department, deadline, 6, 26.

INFORMATION OFFICER B (grade 10) \$15,991 to \$21,844 per year. Starting salary dependent upon experi-

ence and previous salary level of appointee. #408. College graduate preferred with experience in journalism or public relations work. Position duties are oriented toward the medium of radio and television. Experience in news and feature writing preferred. Knowledge of photography desirable. Office of University Communications, deadline, 6, 29.

CLERK TYPIST B (grade 2) salary range \$7,838 to \$10,715 per year. Starting salary dependent upon experience and previous salary level of the appointee. #11, #399. High school graduate preferred with clerical experience. Typing test required. Office of the Registrar, deadline, 6, 29.

GROUNDSMAN (grade 2) \$7,838 to \$10,715 per year. Starting salary dependent upon experience and previous salary level of the appointee. #365. Experience in groundskeeping or related work. Buildings and Grounds department, deadline, 6, 29.

CLERK TYPIST C (Grade 4) Salary range \$9,374 to \$12,797 per year. Starting salary dependent upon experience and previous salary level of the appointee. #197. High school graduate preferred with clerical experience. Regular work days are from Tuesday through Saturday. Typing test required. Swem Library (Circulation Services Section) Deadline, 6, 23.

ACCOMPANIST FOR MODERN DANCE CLASS - Unclassified, Part-time - \$6.25 per hour. (25½ hours per week, Monday through Thursday) (Academic year 1981-82) Ability to sight read and improvise freely

at the keyboard in a variety of styles is essential. Previous experience in modern dance accompaniment preferred. Applicants must be free to schedule audition-interview June 29 through July 2, 1981, deadline, 6, 26.

CLERK D (Grade 6) \$11,195 to \$15,293 per year. Starting salary dependent upon experience and previous salary level of the appointee. #500. High school graduate preferred with clerical experience. Working knowledge of computer based records system. Ability to organize workload and supervise staff. Development Services, deadline, 6, 30.

DATA ENTRY OPERATOR (Grade 4) \$9,374 to \$12,797 per year. Starting salary dependent upon experience and previous salary level of the appointee. #35. High school graduate preferred with related work experience. Proficiency in typing alpha numeric material. Typing test required. Development Services, deadline, 6, 30.

CLERK TYPIST C - Unclassified, full-time - \$4.51 per hour. High school graduate preferred with clerical experience. Typing test required. Swem Library, Inter-Library Loans, deadline, 6, 30.

CLERK TYPIST C (grade 4) \$9,374 to \$12,797 per year. Starting salary dependent upon experience and previous salary level of the appointee. #274. High school graduate preferred with clerical experience. Typing test required. Effective date of employment July 16. Swem Library, cataloging department, deadline, 6, 30.

LIBRARY ASSISTANT (grade 7) \$12,241 to \$16,721 per year. Starting salary dependent upon experience and previous salary level of the appointee. #354. Familiarity with academic library. Knowledge of American history helpful. Ability to organize workload and supervise staff. Swem Library, manuscripts and rare books, deadline, 6, 30.

MARINE SCIENTIST C (grade 14), Commercial Fishing Gear Specialist. Salary range \$22,847 to \$31,207 per year. Starting salary dependent upon experience and previous salary level of the appointee. #340. Ph.D. in biology, chemistry, marine science or related field preferred with extensive commercial fishing experience. Incumbent will assist Virginia Off-shore Fishing Industry by conducting fishing gear demonstrations, workshops and by developing advisory and educational programs. VIMS, Advisory Services, deadline, 7, 01.

CAMPUS CENTER DIRECTOR (grade 9) \$14,628 to \$19,991 per year. Starting salary dependent upon experience and previous salary level of the appointee. #95. College graduate preferred with supervisory experience in an administrative position. Previous experience in student activities, programming or student union management preferred. This is an administrative position involving facilities and financial management, supervision and training, and program development and coordination. Effective date of employment August 10. Office of the Associate Dean of Students for Activities and Organizations, deadline, 7, 03.

Perkins to Succeed Hargis

Continued from P. 1

tions and editor of 16 scientific translations, Hargis' essays, letters, statements and personal appearances have set the pace of marine science development in Virginia and have influenced its course in the nation for over 20 years, said Graves.

Hargis' membership in eight professional and seven honorary societies, and his listings in seven directories of American leaders and leading scientists "are among the many signs of how he has distinguished himself, the Institute, the College of William and Mary, and, most of all, his native state," Graves continued.

During his tenure as Dean/Director, Hargis is, or has been a member of some 50 committees, commissions, advisory groups, councils and organizations, serving on many by gubernatorial or presidential appointment. Most notable was his service on the National Advisory Committee on Oceans and Atmosphere (1971-1977), and his work as its chairman (1975-77), where he reviewed all federal marine research and development and advised Congress and the President.

"But his achievements for which all Virginians will remain most indebted have been as chief executive of VIMS from 1959 to 1981, where he directed its growth from annual funding of \$300,000 to nearly \$10 million," said Graves.

Under this leadership, the traditional fisheries and biological research activities of VIMS were strengthened, and its programs were broadened to include marine chemistry and pollution, wetlands studies, marine geology, hydro-

graphy, marine affairs and technical advisory services for resource users.

"History will not overlook his important contributions to Virginians, who are the primary beneficiaries of his talents and energies," said Graves. "He has improved our knowledge of Chesapeake bay and nearby coastal waters, always urging us toward more astute stewardship over their bountiful resources and delicate marine environments."

In presenting him the prestigious Neptune Award for 1971, the American Oceanic Organization cited Hargis as "one of the nation's leading experts in Coastal Zone Management and conservation."

The organization also recognized Hargis' demonstration that federal and state governments and industry can collaborate successfully with academic institutions in environmental research; his leadership and pioneering work as the organizer and first chairman of the Organization of Coastal States; his successful efforts to communicate with and inform the public on matters relating to the Coastal Zone; his labor on behalf of the nation's marine science program, in serving on numerous government and review boards; and his many contributions to aquatic science as an outstanding scientist, superb science manager, and prolific writer.

"These words were chosen by the American Oceanic Organization to describe its esteem for Dr. Hargis," Graves said. "We echo them today, grateful that his counsel will continue, and hopeful that we can maintain the excellence of pace and vision he so ably established."
