

# College Receives \$750,000 Kenan Foundation Gift

The College has been awarded the largest gift from a nationally prominent foundation in its history -- a \$750,000 grant from the William R. Kenan, Jr., Charitable Trust of New York City.

President Thomas A. Graves, Jr., announced the gift at the first meeting of the faculty and administrative staff of the 1981-82 academic year.

The grant, to the Endowment Association of the College will establish the William R. Kenan, Jr., Professorship Fund, the income from which will support the Kenan Distinguished Professorship at the College.

The professorship will be in the humanities with the primary purpose of encouraging excellence in teaching at the undergraduate level.

The Kenan Professorship will be occupied annually by "a visiting professor with a preeminent reputation," according to President Graves.

In announcing the grant, Dr. Graves described the award as "a magnificent source of inspiration" to William and Mary.

"The award will hold innumerable benefits for the academic program at William and Mary in the years to

come," President Graves said. "This is one of the outstanding grants for the support of undergraduate teaching in American education. It is with a great deal of pride that we join the family of distinguished colleges and universities favored by the Kenan Trust's splendid professorship endowments."

Since 1965, when the Kenan Trust was established, the foundation has funded 86 professorships at 54 leading colleges and universities. Included in the list of other universities which have received Kenan grants are Harvard, Cornell, Columbia, Dartmouth, Stan-

ford, Yale, Princeton, Duke, the University of North Carolina, of which Mr. Kenan was an alumnus, and the University of Virginia. Colonial Williamsburg recently received a \$500,000 grant from the Kenan Trust to strengthen its educational offerings.

Mr. Kenan was a prominent North Carolina chemist, engineer, industrialist, executive, and philanthropist who died in 1965. For some forty years he was president of the Flager Systems Company. The Kenan Charitable Trust established by his will has traditionally

Dean's Letter to Faculty P. 5

## October Deadline Set For Work In Millington, Morton

College officials called in the local press Friday to brief them on a meeting they had Thursday with members of the faculty and representatives of the Spinazzolo Systems, Inc., of Hampton on the asbestos removal work in Millington and Morton Halls.

William J. Carter, vice president for business affairs, James J. Connolly, director of facilities planning and construction, Zeddie Bowen, Dean of the Faculty of Arts and Sciences, Professors Eric L. Bradley and Ludwell Johnson, members of the faculty advisory committee on asbestos, and James S. Kelly, assistant to the president, attended the press session.

Carter announced that the anticipated date for reopening both academic buildings was October 1. He said that a consensus had been reached at the Thursday meeting on the opening which he termed "an outside date."

"All of us are committed to achieving this date but there is no virtue whatsoever in achieving the date if there is any compromise in the quality of work," said Carter. "Our aim is to get a safe building, totally free of asbestos so that the academic program can continue."

Responding to questions from the press regarding the change in completion date and extension of the recently announced September deadline, Connolly enumerated the unanticipated problems in the asbestos removal which Spinazzolo had encountered. They included delays in getting materials, including filters for the masks workers must use, and plastic sheathing to seal the work areas. He said that Spinazzolo found that asbestos in some areas was thicker than anticipated and had been applied with an adhesive binding which made it more difficult to remove. As a fireproofing agent, he explained, asbestos is usually applied with a water base.

Connolly also explained that work

areas must be left for at least 72 hours to insure that all particles of asbestos have settled out of the air.

Connolly emphasized that the rest of

the work to be done in the buildings can be done in a relatively short period now that the problem areas have been cleared. In some areas, he said,

workers had to use harsh abrasive pads to get the asbestos off.

Connolly had pointed out in earlier

### A Fall Tradition - The President's Brunch

*President Graves greets faculty members and their wives at the annual fall get-together. For the first time this year the party was moved inside to William and Mary Hall to avoid an expected thunderstorm. The brunch is usually held in the Wren Yard outside the President's House. Photo by Stuart Wagner.*

# Comedienne Mary Wickes Cast In Theatre Opener

Mary Wickes, Nurse Tully of the TV series "Doc" with Barnard Hughes and one of the beleaguered neighbors of "Dennis the Menace," is coming to Williamsburg this fall as guest artist in the opening show of the William and Mary theatre season, "The Importance of Being Earnest."

Instantly recognizable for her many comedic roles, particularly on television and in motion pictures, Miss Wickes will take the role of Lady Bracknell who tries to shed some light on the confusion of names in Oscar Wilde's satire of English status symbols at the turn of the century.

Miss Wickes comes to William and Mary at the invitation of a personal friend, Richard Palmer, artistic director for the theater and director for the play. "The Importance of Being Earnest," will be presented in Phi Beta Kappa Memorial Hall, Oct. 1, 2, 3, 8, 9, 10. Miss Wickes is scheduled to arrive September 15 to begin rehearsals.

"We are delighted," says Palmer "to have Miss Wickes as a star attraction for our opening play. Her visit will not be restricted to her role in the play. She has agreed to conduct a week-long workshop on comedic acting and directing for students while she is here. Her performance will delight our audiences and students in the cast will benefit from the experience of working with a professional actress who brings a great deal of experience to the role and has been recognized for the creative skill she brings to her performances."

Palmer is also excited about the rest of the season which will include "Henry IV" part one, Nov. 18, 19, 20, 21, 22; "Cabaret," Feb. 19, 20, 21, 25, 26, 27; and "The Elephant Man," April 14, 15, 16, 17.

"The season represents a good cross section of theatre fare," says Palmer.

Miss Mary Wickes

"The Importance of Being Earnest," is almost a college theatre tradition; "Cabaret," is a highly successful musical; "The Elephant Man," is a very current theatrical success and "Henry IV" will give students who have not had a chance to see or participate in Shakespeare through the Virginia Shakespeare Festival on campus, a chance to have this experience.

"We are trying to be responsive to the tastes and requests of the community," says Palmer. "We have a relatively long and strong commitment of support from the community. We want to continue getting that support. We want people to come and see us and come back often."

Miss Wickes has been starred or featured in over three hundred dramatic musical stock productions ranging from Elizabeth in "Elizabeth the Queen," to Madame Arcati in "Blithe Spirit," and Penny Sycamore in "You Can't Take it With You."

Her television appearances have also been numerous. She was nominated for an Emmy as best supporting actress in the series "Mrs. G Goes to College," with Gertrude Berg and Sir Cedric Hardwick. She has been on "Make Room for Daddy," with Danny Thomas and is very popular with the crayon set for her work in the "Dennis the Menace," series and "Sigmund and the Sea Monster." "Sesame Street" created the role of the plant lady for her and M\*A\*S\*H wrote a special script for her as the most decorated nurse in Korea. She has just completed a starring role in "Love Boat" and is regularly on The Match Game. She is currently being seen by area TV viewers in the movie "Touched by Love," which is being featured this month on Cable TV's movie channel.

## Lord Mayor Dines In Great Hall Amid Reminders Of Home

The College, founded by a British royal charter in 1693 from King William III and Queen Mary II, still maintains many ties with the United Kingdom. In May the Prince of Wales received the first Honorary Fellowship from the College during a visit to the campus. Tomorrow, Sept. 2, President and Mrs. Thomas A. Graves, Jr., will give a luncheon for the Lord Mayor of London in the Great Hall of the Wren Building.

When the Right Honorable The Lord Mayor of London, Col. Sir Ronald Gardner-Thorpe, and the Mayoress, Mrs. Ronald Gardner-Thorpe, sit down to dine there will be little need to verse them on the great English architect, Sir Christopher Wren, for whom the College building is named. Wren's work is a constant companion to the Lord Mayor as he fulfills his ceremonial duties in the one-mile square City of London, which today is the heart of a greater metropolis that is the British capital.

St. Paul's Cathedral is a Wren building. At the recent wedding of Prince Charles and Lady Diana, the Lord Mayor met the Queen at the steps to the Cathedral and escorted her inside. On state occasions, it is the job of the Lord Mayor to meet the sovereign at Temple Bar, one of the ancient gates of the city, and give the royal party safe conduct inside. Temple Bar was built by Wren in 1672. The structure no longer remains, but the statue of a griffin marks the spot.

At Wednesday's luncheon, the centerpiece on the table will be a silver candelabra, a gift to the College by the Worshipful Company of Drapers, an association of merchants of the City of

London trading in woolen cloth, that has existed as far back as the twelfth century. Through the philanthropic arm of the Drapers, there has been a student exchange with William and Mary since the 1950's. The Lord Mayor, who is also the city's Chief Magistrate, is selected by the liverymen of the city companies. The candelabra was presented by officers of the Drapers' Company on the occasion of the 275th anniversary of the College.

The imposing portrait of Queen Anne over the fireplace in the Great Hall was also a gift from the Draper's Company, given on Friday, Oct. 13, 1961 at the inauguration of the 23rd president of the College, Davis Y. Paschall.

The Lord Mayor will be presented with a copy of "Their Majesties Royall Colledge," an early history of the College of William and Mary in the seventeenth and eighteenth centuries, written by Jack Morpurgo, professor of English at the University of Leeds in England and an alumnus of the College. Other gifts for the visitors will include a William and Mary tie for the Mayor, and for the Mayoress, a necklace with the cipher of the College.

The story of the College history contained in Morpurgo's book will be given by the Lord Mayor to the public library in London. The book recounts the beginnings of William and Mary which were fashioned by its first president, the Rev. James Blair. Blair went to England to persuade the monarchs to support the college which he was issued instructions to found in 1691 by the General Assembly of Virginia.

The Lord Mayor's party, which includes the Sheriff of London and the

Drapers' Gift

## Kenan Gift

Continued from P. 1  
aided education, primarily through the establishment of Kenan endowed professorships of distinction to support excellence in teaching at the undergraduate level.

President Graves said the College hopes to receive matching funds as a result of the Kenan Trust gift, in part through the Eminent Scholars Program of the Commonwealth of Virginia, which has a formula for matching income from private endowments for faculty salaries.

The College will receive its grant by Dec. 15, 1981, in time to establish the Kenan Professorship for the 1982-83 academic year.

Chief Commoner and Swordbearer, will be guests at a round of entertainments while they tour the historic areas of Virginia. Governor and Mrs. John Dalton will host the British parties at the Governor's mansion in Richmond. A public ceremony will be held at 5:15 p.m., Wednesday, at the Colonial House of 1770 on Duke of Gloucester street.

## OSP Offering Cut in Tuition

The Office of Special Programs is offering half price tuition to faculty, staff employees and spouses for two retirement seminars which begin Sept. 29 and Oct. 3.

Regular fee for the course is \$70 per person.

The retirement seminar is an interactive, discussion oriented course, which has been developed by AIM, a division of the American Association of Retired Persons (AARP). It will cover eight topics important for active, worthwhile retirement including the challenge of retirement, health and safety, housing and location, legal affairs, attitudes and role adjustments, meaningful use of time, sources and amounts of income and financial affairs.

The two opening sessions will be held both at the Virginia Associated Research Campus (VARC) in Newport News and in Williamsburg. The Williamsburg section will be held Saturday mornings and the program at VARC will meet on Tuesday and Thursday evenings.

Additional information on the course may be obtained by calling the OSP office at 877-9231, ext. 60.

## Student Studies Deerfield Home

When Brian Gordineer was awarded a \$2,000 scholarship to participate in a two-month Fellowship Program in Decorative Arts and Preservation at Historic Deerfield, Mass., he didn't know his summer would include a tour of his hometown Williamsburg.

Gordineer, a senior with a double major in history and fine arts, was one of 10 interns selected across the country to participate in the program, which has been underway for 25 years and is financed by two donors, DeWitt Wallace of Reader's Digest and Helen Meyer.

Part of the summer program included trips to Plymouth Plantation, Old Sturbridge Village, Boston, New York, Philadelphia and Williamsburg.

Each intern selected a major research project. For Gordineer it was the architectural study of a 14-room 1738 house in Deerfield which had been recently vacated by life tenants. Gordineer had free run of the house to do his research, make paint analyses, draw plans and take photos for the study, which culminated in a 200-page report. Gordineer says he is especially pleased with the project since his findings will be used by Historic Deerfield in the

Brian Gordineer

in the Connecticut River Valley. It was originally settled in the late 17th century on land granted to Dedham, Mass., as compensation for land lost in an earlier transaction. Gordineer says

For Gordineer the summer work was another opportunity to learn more about a field in which he is deeply interested. He worked for the Colonial

Williamsburg Foundation last summer and is currently undertaking an inde-

determination of what the house will be used for in the future.

There are 12 exhibition buildings at Deerfield, which is north of Springfield

pendent study with CW researching the life and work of an 18th century American cabinetmaker, John Booker, about whom little is known.

## Attack On Coed Is Reported

The James City County Sheriff's Department is investigating a report that a William and Mary coed was sexually assaulted in an incident in the county on August 26. The student apparently suffered some injuries as a result of the incident but they do not appear to be too serious. A sheriff's

department spokesman reports that a suspect has been interviewed but no charges have been placed at this time.

In a letter from the dean of students, students at the College have been reminded of the need to take reasonable precautions to insure their safety.

August 27, 1981

### Sadler Memo to Students

MEMORANDUM TO ALL STUDENTS:

Yesterday, one of our students reported that she had been sexually assaulted at an off-campus location. While she apparently suffered some injuries, they do not appear to be too serious. I am writing not only to inform you that this unfortunate incident occurred but also to take the opportunity to urge each of you to take reasonable precautions to insure your safety. The campus is a deceptive environment. It appears isolated and safe. We are, however, surrounded by a community with a large number of transients and are accustomed to having visitors who are unknown to us on the campus. In recent years, there have been a number of attacks on our students, especially those who are alone in the evenings.

As the school year begins, already students seem to be jogging alone and walking unescorted through the campus at night. Rooms in residence halls have been left unlocked; the entrance doors to residences propped open; and strangers have been admitted to the residences.

**PLEASE DO NOT TAKE RISKS WITH YOUR SAFETY!** Doors should not be propped open after they have been locked for the evening; doors to private rooms should be locked when the occupants are not present; screens should be kept latched; shades should be drawn in the evening; and suspicious persons observed in the residence halls should be reported to the Campus Police. Certainly any assault or attempted assault should be reported to the Campus Police or a residence hall staff member immediately. Information received will be treated discreetly. Both men and women should avoid jogging, bicycling, and walking unescorted in the evenings. Even during daylight hours, it is safer to jog in the city with others rather than alone. The Campus Police also urges students not to accept invitations from strangers to attend parties or visit off-campus locations.

While we have a very dedicated and professional campus police force, there are limits to what they can do to provide for your safety. By following the measures above, all of us can contribute to their efforts to make this a safer campus.

W. Samuel Sadler  
Dean of Students

# Calendar

### TUESDAY, SEPTEMBER 1

MasterCard Applications, CC Lobby, 10 a.m. - 5 p.m.  
Art Sale, CC Lobby, 10 a.m. - 7 p.m.

(Autographing session at Scribners Book Store, Duke of Gloucester Street. Time to be announced)

Exhibit: Papers & Memorabilia of John Lesslie Hall, Jr., Zollinger Museum.

## Diduk Ceramics Now on Display In Andrews

Ceramics by Barbara Diduk '73 are currently on display in Andrews Hall.

The gallery show by Miss Diduk, daughter of Prof. Elsa S. Diduk of the Department of Modern Languages, is a collection of functional pieces, all intended for use in the home. They include serving dishes, a teapot, coffee pot and several containers.

Miss Diduk majored in anthropology as an undergraduate and received a diploma in art from the West Surrey College of Art and Design in Farnham, England. She continued her studies in ceramics at the University of Minnesota, where she received an M.F.A. degree. Since 1976 she has been teaching and is currently on the fine arts faculty at Dickinson College in Carlisle, Pa.

All pieces in the show are for sale.

# Newsmakers

**Vickie Babenko-Woodbury**, lecturer in modern languages and literatures, has had the article which she presented at the AATSEEL Convention in Houston, Texas on 29 December 1980, -- "Tolstoy and Trotsky on Art and the Future of Man: Utopia or Reality" -- accepted for publication in a forthcoming number of the *Russian Language Journal*, published at Michigan State University. Her review of the *Penguin Book of Russian Short Stories* will appear in the next issue of the *Modern Language Journal*, published at the Ohio State University. Professor Woodbury has also been invited to contribute a short article on Konstantin Simonov for the revised edition of Ungar's *Encyclopedia of World Literature in the 20th century*.

**Gary Kreps**, Associate Professor, has recently published the article, "The Worth of the National Academy of Sciences-National Research Council and Disaster Research Center Studies of Individual and Social Response to Disasters," in James D. Wright and Peter H. Rossi (eds), *Social Science and Natural Hazards* (Cambridge, Mass.: Abt Books, 1981, pp. 89-122).

**Frances Breeze**, lecturer in music, recently participated in a week-long course at the Upstate Medical Center of Syracuse University, N.Y. on "The Voice: Its Sounds and Sciences." Participants in the course included voice teachers from all over the country.

**H. Lester Hooker, Jr.**, C.F.E., of William and Mary Hall recently attended the 56th Annual International Association of Auditorium Managers (IAAM) Conference/Trade Show in Miami Beach.

Founded in 1924, IAAM is a professional organization comprised of 880 managers of public assembly facilities, including auditoriums, arenas, stadiums, performing arts theaters, and convention/exhibit halls throughout the world. H. Lester Hooker, Jr. has been a member of IAAM since 1966. He was selected to serve on both the Professional Development Committee and on the committee to select those members who qualify for Certified Facility Executives. Among the 400 or so members were managers of the Salem, Roanoke, Norfolk, Richmond and Hampton Coliseums.

**Carl W. Vermeulen**, professor of biology, and **Terri Stahl** ('81) published in the international journal *Biochemical and Biophysical Research Communications* a paper entitled ISOPYCNOGRAPHY OF INTACT CELLS - IV: PHAGE SHUT-DOWN VERSUS ANAEROBIC SHUT-DOWN IN E. COLI. Results of this work indicate that a newly discovered genetic control substance has such complete ability to turn off chromosomes that the degree of offness is as great as if the chromosome were completely destroyed as in virus (phage) infection.

**David Montgomery**, professor of physics, gave the following invited lectures: "Maximal Entropy in Fluid and Plasma Turbulence," given at the *Workshop on Maximum Entropy Estimation and Data Analysis*, University of Wyoming, Laramie, Wyoming (June 10); and "Electrostatic Shocks and Double Layers," given at the *Gordon Conference on Space Plasma Physics*, Wolfeboro, New Hampshire (June 22).

M. Eckhause, F. L. Gross, C. F. Perdrisat, and R. G. Winter attended the International Conference on High Energy Physics and Nuclear Structure, 6-10 July, in Versailles, France. The following papers were given: (William and Mary authors are in bold face)

**Dr. James D. Kornwolf**, Professor of fine arts, has been reappointed a member of the Advanced Placement History of Art Test Committee of the College Board for 1981-82. This committee is responsible for developing examinations that the Board offers through its Advanced Placement Program.

Recipients of the Martin Luther King, Jr., Scholarship Fund book awards pose on the steps of the Wren Portico with Carroll F. S. Hardy, Associate Dean of Students for Minority Student Affairs. Standing, back row: left to right are Phillip Wiggins, Dwight Smith, Kevin Richardson and Frankie Clements. Second row: Virginia Groves, Carla Tademy, Monica Perry and Dayna Johnson. Front row: Janice Allen, Laron Clark, Janet Smith, Sheila Diggs, Janice Reuben and Anthony Jones. Photo by Stuart Wagner.

## New Students Get King Awards

Recipients of the Martin Luther King, Jr., Scholarship book awards to outstanding entering students include a high school valedictorian, a basketball star, cheerleaders, members of the National Honor Society, a National Achievement finalist, a member of the South Carolina All State Band, a newspaper editor, captain of a track team, an award winning play producer and a champion hurdler who has plans to go into a variety of career fields including medicine, law and finance.

A total of 14-\$100 book awards were made this year from the Martin Luther King Scholarship Fund which was established in 1968 by members of the Faculty of Arts and Sciences and maintained by individual contributions.

Carroll F. S. Hardy, Associate Dean of Students for Minority Student Affairs, said "This fund is one means by which the College community might contribute towards the same change in the hearts and minds of men for which Dr. King worked." She explained that the cash award is to be used to defray the cost of educational supplies. Contributions to the Martin Luther King Scholarship Fund, she added, would be greatly appreciated and "would help make the dream a reality."

Checks should be made out to the Martin Luther King, Jr., Scholarship Fund and sent to the Student Financial Aid Office, James Blair 2nd floor.

## Career Workshops

Each workshop consists of four consecutive weekly meetings; two hours in length, followed by a fifth session, which is a counseling appointment with the Director of Career Planning. The workshop will provide a foundation for continuing exploration and refinement of career decisions, job hunting in the hidden job market and use of Placement services. A \$2.00 registration fee for materials is required upon registration. Please register in person, in the Gold Room at the Campus Center.

## Dean Bowen Updates Asbestos Project For Faculty Members

I am writing to bring you up to date on the progress of asbestos removal from Morton and Millington Halls. Since it will be another month before they can be reoccupied, I also want to tell you how to make arrangements for temporary office space and for retrieving necessary teaching materials.

Millington Hall is nearer completion than Morton. The third floor of Millington has been cleaned and inspected. The first and second floors are in the final stages of testing and clearance. Test results should be available early this week. The ground floor is prepared for asbestos removal. Once final clearance is given for floors one and two, the special equipment and crews will move to the ground floor where asbestos removal, fireproofing, clean-up and testing will take two to three weeks. After final testing and clearance have been given, an additional four to five days will be required by College Buildings and Grounds crews (with help from faculty, staff and students) to return people and things to their proper places. That should take place by October 1, perhaps a day or two earlier if all goes well (or somewhat later if Murphy's Law holds).

The top two floors of Morton have been cleaned and tested; test results should be available this week. When final clearance has been given for those two floors, crews and special equipment will be moved to the ground and first floors of Morton where preparations have already been made for the removal process. The estimated time required for the completion of the ground and first floors is approximately three weeks from the starting date. As in the case of Millington, a four to five day period will be required to move back into Morton after it has passed the final clearance tests and has been returned to the College. Reoccupation should be possible by October 1.

In short, both Millington and Morton Halls should return to full academic use by October 1. That is not good news but it is information we can live with and work around.

The effects of alternative scheduling have already been felt by many faculty members and students whose classes have been relocated in other buildings and moved to evening hours. Since it is now clear that it will be another month before normalcy is restored, two other problems need to be addressed: access to teaching materials in Morton and Millington and office space for dislocated faculty members.

Those members of the faculty who need to retrieve notes, books, slides or other essential teaching materials before October 1, may make arrangements *through their department chairmen* to gain access to their offices or labs in Morton and Millington Halls. Anyone needing to make such arrangements should do so as soon as possible. The work is at a stage that will allow, under controlled conditions, access to nearly all offices. As new work begins, access to some areas (Millington G and Morton G and 1) will be more difficult.

Obviously, precautions must be taken to avoid hazards to individuals entering the building, to avoid recontamination of cleaned areas, to avoid disruption of the crews working in the buildings and to preserve building security. Where possible, arrangements should be made for one individual to pick up the teaching materials needed by a number of other colleagues! In some areas, no special protective clothing will be needed, but in others, individuals may be required to "suit-up" in special gear and shower off before leaving. Each person will be required to sign out for everything removed from the buildings.

No one will be allowed in either building without first having made special arrangements.

Faculty space presents a different problem. Graduate student carrels, adjacent to the faculty carrels in Swem Library already being used by the dislocated departments, will be made available to faculty members for office space in the interim. Some of the graduate student carrels have not yet been assigned to graduate students this year. Those will be used first. If demand by faculty is great, it may be necessary to displace some graduate students temporarily. This step will be taken reluctantly but in order to achieve the greatest good in an awkward situation. Contact my office (4243) to make arrangements.

There already has been much

### Officials Meet Press on Asbestos

*Continued from P. 1*

interviews with the press the high attrition rate that Spinazzolo has incurred because of the airtight suits and face masks workers have to use in the buildings which have no ventilation systems operating. The combination of the heat and the protective garb makes the extracting of asbestos an exhausting job said Connolly.

Special arrangements are being made to let faculty retrieve teaching materials vital to their courses, if those materials are in areas already cleared of asbestos or areas that have not yet been worked on. None will be allowed in areas where work is in progress.

Responding to questions about whether Spinazzolo will be made to pay the daily penalty for not completing the work within the original contract deadline, Carter said that the College was negotiating with Spinazzolo.

"We believe there are certain compromising circumstances that justify an extension of the completion date," said Carter. He said that once agreement had been reached the College would send its recommendations to Richmond to the Department of Engineering and Buildings. "They will reflect the conditions we feel justify an extension of the completion date," added Carter, "and they are substantial in a difficult project like this." Carter said that the final decision on whether Spinazzolo would be penalized would be made in Richmond.

Professor Bradley said that several professors with lab courses were finding ways of working around the situation and some had initiated field labs to replace as substitutes.

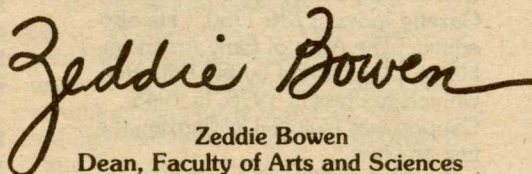

Dean Bowen said that while the situation was causing substantial inconvenience to all concerned, it was not a crisis.

### Alumni Chapter Events

The Philadelphia Chapter of the Society of the Alumni will hold a tailgate party Sept. 5 at the William and Mary - Temple football game. The Northern Virginia Chapter has planned a luncheon at the Smithsonian and a tour of the State Department on Tuesday, Sept. 22. The Chapter has also alerted members to the soccer team's game against American University Saturday, Sept. 12. The soccer team ranked eighth in the nation last year and approximately half of the players are from the Northern Virginia area.

goodwill and cooperation on the part of those of you who have been disrupted by the project. For this, we thank you. There have been delays caused by unforeseen complications in the project. The contractor regrets the delays. There has been a good deal of confusion caused by contradictory estimates of the project completion date. We regret the confusion.

We all want, first and foremost, an academic environment free of asbestos health hazard. For that we can all endure one more month of disruption. There is now general agreement among the principals that the project can be completed with appropriate thoroughness and the buildings reoccupied by October 1. We will all celebrate the occasion.

  
Zeddie Bowen  
Dean, Faculty of Arts and Sciences

### Carter Memo to President

#### Asbestos Removal Project Completion Date

I am writing to report on the meeting held yesterday with the asbestos removal project contractor, Mr. Joseph Spinazzolo and Mr. Gene Conner, President and Vice President, respectively, of Spinazzolo Systems, Inc., of Hampton, Virginia, and with the following representatives of the College administration and faculty: Dean Zeddie Bowen; Professors Eric Bradley, Ludwell Johnson, Hans C. von Baeyer; Marshall Marcus, Industrial Hygienist and Consultant; James J. Connolly, Director of Facilities Planning and Construction; James S. Kelly, Assistant to the President; Dean Olson, Acting Director of Communications, and myself.

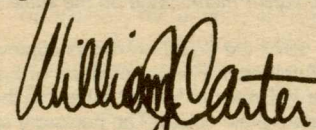

The purpose of the meeting was to review progress on the project to date and its compromising complexities and to reach a mutually agreeable and reliable date for completion of the project and reoccupation of Millington and Morton Halls.

After comprehensive discussion of the issues among all parties present, the consensus reached was that the primary concern of the College is completion of the project in an absolutely thorough manner so that a totally safe environment for this academic community will be provided. It was further concluded that priority for completion is to be assigned to Millington Hall because its laboratory facilities are not available elsewhere on campus. Finally, it was concluded that Millington and Morton will be completed and reoccupied by October 1.

The project contractor has accepted these conclusions and has resolved to do all that is necessary to accomplish and to improve on this completion date.

Dean Zeddie Bowen has determined the implications of the conclusions reached on the academic program and he is writing directly to members of the faculty who are assigned in these buildings to notify them of the impact.

I believe all who attended the meeting are agreed that the completion date of October 1 can be achieved. Certainly, all of us who are responsible for providing support services to the academic program are committed to meeting this target.

William J. Carter  
Vice President for Business Affairs

### Festival Shows Attendance Gain

The Virginia Shakespeare Festival's fourth season was a successful one.

The Festival increased its box office take in 1981 to approximately \$72,140, about \$10,000 more than last year. Attendance figures rose slightly, from 16,000 in 1980 to 16,250 in 1981. "I think we have solidified our audience this season," said Kent Thompson, artistic director. Theatregoers especially enjoyed the addition of three different sets, replacing the single unit set used in previous seasons. "I think the sets worked as well as we hoped, providing a change of pace for the productions," he added.

"Our greatest boon was the founding and excellent beginnings of the Lord Chamberlain Society, a new fundraising group for the Festival," said Thompson. The Society, composed of supporters of the arts from all over Tidewater, has raised \$13,600 in its first year of existence, enabling the Festival to meet most of its expanded artistic budget, which was raised to approximately \$120,000 to meet the costs of three new sets and the hiring of a guest artist.

"Another milestone was the discovery of a new hit, made all the more rewarding because it was 'The Two

Gentlemen of Verona,' one of Shakespeare's first and least performed plays," Thompson said. Micken confirmed that "Two Gentlemen" was the Festival's biggest box office hit since the Festival opened in 1977.

"Of course we always want to do better," said Micken of the box office and attendance figures. "But much more was accomplished this season than the figures indicate. The sense of community support engendered by the Lord Chamberlain Society, and the generous support of the Williamsburg Arts Commission, James City County, and the continued support of the Virginia Commission for the Arts, combined to show a gratifying breadth of concern for our welfare.

"The Society, particularly, has been instrumental in attracting not only support but also involvement in the Festival. Their potential is enormous."

"Although all the bills have not been tallied, we will run between two and four percent over budget," estimates Patrick Micken, general manager of the Festival. "But we experienced a substantial increase in spending this year, almost one-third more, and basically we have kept up with those expenditures."

# Recent Deaths Include Visitor, Editor, Alumnus

## Lester J. Cappon

Lester Jesse Cappon, 80, first editor of publications for the Institute of Early American History and Culture, sponsored jointly by the College and the Colonial Williamsburg Foundation, died Monday, Aug. 24, in Chicago.

Cappon became editor at the Institute in 1945, its director in 1954. He retired in 1969. He was co-editor with Stella Neiman of "The Virginia Gazette Index, 1736-1780." He also edited "The Atlas of Early American History," published by the Princeton University Press in 1976. In 1945 Cappon was Colonial Williamsburg's first archivist.

A native of Milwaukee, Cappon received a doctorate from Harvard in 1928. He taught at the University of Virginia from 1930 to 1945.

Parish Church. Burial will be in Greenwood Cemetery in Charlottesville at 11 a.m. on Monday.

A memorial service has been scheduled at 3 p.m. today in Bruton

## John C. Swanson

John C. Swanson, prominent businessman of Danville, Va., and a former member of the Board of Visitors, died Saturday in the Memorial Hospital of Danville. Swanson was 73. He had been in declining health for several months.

A member of the class of 1930, Swanson served on the Board of Visitors from 1968 through 1972. He was a member of the Order of the White Jacket and a former president of the William and Mary Southside Alumni Association.

After graduation Swanson taught high school and was an assistant principal in Danville 1930-33. In 1936 Swanson founded Swanson Motors, Inc., and served as president and general manager until his death. He was active in local, state and national automobile associations and was president of the Danville New Car Dealers Association in 1951, director and president of the Virginia Automobile Dealers Association, 1956-57 and a director of the National Association, 1961-68. Swanson was regional vice president of the National Automobile Dealers Association several terms and served on a number of key committees. He was a dealer representative for Cadillac and Oldsmobile cars and received the *Time Magazine* quality dealer award in 1978 and the Benjamin Franklin Quality Dealer Award in 1965.

Funeral services were held Tuesday, Aug. 24 at Mt. Hermon United Methodist Church with burial in Mountain View cemetery.

## Robert L. Rawls

Army First Lt. Robert E. Rawls, 25 of 115 Watkins Drive, Hampton, a 1978 graduate of the College, died Wednesday, August 26 in Walter Reed Army Medical Center Hospital in Washington, D.C.

Born in Eldorado, Ill., he was a Peninsula resident eight years. He was a 1974 graduate of Warwick High School. Funeral services were held Monday in Langley Air Force Base Chapel. Burial with full military honors was in Parklawn Memorial Park.

# New Prime 750 Gets College Up-To-Date With Computers

By Pat Rublein  
Office of University Communications

It is important to learn to drive an up to date automobile rather than a Model T Ford. It is equally important to train students in computer science on systems that are current in the field. That's why the new computer on campus pleases so many people.

The need for updating and improving computer science at William and Mary began with the formation of a

committee in 1978. Four years and several committees later that all-college effort is beginning to bear fruit, with the arrival of the Prime 750.

"The new computer, just installed in August, is the culmination of three years of planning and hard work by many people on campus," according to Henry Johnson, director of College Computing and Institutional Research. It represents a beginning in academic computing on campus. It is dedicated completely to the instructional program

since it is being paid for by the student academic support fee. However, it will be helpful to the administration in taking a large load off the old computer.

According to campus computer experts, there were no longer ways to expand the old system and there were cheaper ways to get more horsepower. In addition, the system was experiencing a demand for additional terminals which the old machine could not support.

Dr. Robert Noonan, professor of mathematics and computer science, is very pleased to have the new system ready for the new academic year. "We hope and expect that it will be used in classes and by faculty campus-wide where appropriate." He explained Prime 750 is ideal to use for word processing such as an English Department thesis prepared this summer. Recently a syllabus from the music department was also done on the new system. "These are the kind of constructive uses we hope to see in the future," Noonan said.

The old machine known around the computer center as "The 158," is a batch oriented system. That means data processing is done from punched cards. The new computer functions from terminals that look like TV screens. This is where the greatest instructional impact will occur.

This first step in upgrading the computer systems at William and Mary is the start of an expansion program that "should stay ahead of anticipated growth," said Noonan. He stated that getting away from punched cards makes more productive use of a person's time and eliminates the personnel required to maintain such a system. Also, the computer hardware is cheaper to run.

The practical applications of a computer in a person's daily work are endless, it seems, as Dr. Noonan verbalizes the potential value of the 750. As a teaching aid he believes it will provide students with greater access to terminals and, to his great delight, an opportunity to eventually get the introductory computer courses off key punched cards. Not only is this less costly, but it is more up to date, since terminals are widely used in industry.

Reflecting on the word processing value of the 750, Noonan describes how he prepares quarterly and annual reports for a research grant he has. He modifies the draft reports himself right on the screen and requires no secretarial help in typing or proofreading. No new errors occur as he refines the final copy. The computer then prints the

original document for submission to the funding source. There is economy in this method since people are getting more expensive to employ and computers are getting cheaper. In fact, Noonan says that the Prime 750 cost 20% of what the 158 cost as a second-hand computer from VPI. "That's 20% of 1975 dollars!"

The low cost and compact size are making the home computer a much more popular item. Thus as the world becomes more computerized and people's daily lives are more affected, knowledge of how computers work and what they can do for and to you becomes of increasingly more vital concern. Noonan thinks this new computerized condition makes it "important for 100% of the student body to be exposed to using a computer. In 10 years, every well-educated person will have used computers as a tool for computation or word processing at some point in his or her academic life."

Noonan suggests that in the not-too-distant future rather than routing thousands of identical sheets of paper through inter-office mail systems, we will send and receive electronic mail or mail by computer. Or, how about paying bills by computer through electronic transfers of money by way of the home computer? Imagine casting ballots on election day from a home computer? Is that safe? How is fraud prevented -- or theft? Therein lies added grist for Noonan's recommendation of 100% exposure.

"Stealing," he said, "is a great threat in the computerized world. Since the computer does not distinguish between large and small sums it is possible to steal millions by computer in the absence of appropriate safeguards." If only for personal protection, Noonan suggests that computer education is necessary. "If you know what potential problems can be and what types of abuses can occur, then you know what safeguards to insist on."

## Personnel Notice

### Tuition and Fee Waiver for Employees

The following is a current and inclusive revision of various earlier memoranda detailing eligibility and procedures for College employees who wish to take courses under the tuition and fee waiver privilege first announced in 1977. As such, this statement supersedes all earlier memoranda on the subject:

In October 1977 the Board of Visitors approved "The Waiver of Tuition and General Fee and the Application Fee for members of the faculty and full-time . . . employees of the College of William and Mary," subject to the approval of the Attorney General and other appropriate State offices. The necessary approvals were secured and the program was initiated with the second semester 1977-78.

Under this program, each full-time permanent employee of the College is eligible to register for one course not exceeding four credit hours each semester, and two courses totaling not more than eight credit hours during the Summer Sessions, with tuition and general fee or audit fee for these courses being waived by the College.

Application and registration for such course work are subject to the following Implementation Policies:

### ELIGIBILITY

The following individuals are eligible for a waiver of tuition and fees:

- (1) Instructional and administrative faculty on non-restrictive permanent appointments at William and Mary, VIMS, and Richard Bland College.
- (2) Full-time permanent employees, other than faculty, of William and Mary, VIMS, Richard Bland College, the Alumni Society, Athletic Association, Bookstore, Endowment Association, Institute of Early American History and Culture, and VARC.

### FEES WAIVED

#### (1) APPLICATION FEE

An individual is entitled to a waiver of the fee(s) ordinarily associated with an application for admission, provided the eligibility requirement (defined above) is met on the date of such application.

#### (2) TUITION AND GENERAL FEE (Academic Year)

An individual is entitled to a waiver of the tuition and general fee or audit fee for one course per semester, provided: that the course not exceed in value four semester hours' credit; that the individual registers for the course through the Office of the Registrar; and that the individual meets the eligibility requirement (defined above) on the day the class first meets.

#### Summer Session

The same waiver privilege is extended to individuals in the Summer Sessions of the College, with the stipulation that no more than two courses, not to exceed four semester hours' credit each, may be taken within the waiver privilege during the period between spring commencement and fall registration; that the individual registers for the course through the Office of the Registrar; and that the individual meets the eligibility requirement (defined above) on the day the class first meets.

#### (3) SPECIAL COURSE-RELATED FEES

Course-related fees or charges other than or in addition to the tuition and general fee or audit fee are not subject to waiver. Specifically excluded from the fee waiver are courses offered through the Office of Special Programs.

### President's Office Hours

President Graves will hold open house for students at his office in Ewell Hall, Thursday, September 3 and Tuesday, Sept. 8 from 4 - 5 p.m. No appointment is necessary. Students will be given 10 minutes to discuss any topic of their choice.

# Notebook

## VELA Loans

The Virginia Education Loan Authority, VELA, has advised the Student Financial Aid office that loan applications will be accepted through Sept. 10. After that date the program will be closed to make "appropriate operational changes for a new leading operation after October," according to the advisory from Eugene G. Cattie, VELA executive director.

All applications postmarked after Sept. 10 will not be considered under the 1980 higher education law. Due to many factors, explains Cattie, loans processed after this date may or may not be approved for lending in the 1981-82 academic year.

Questions concerning the VELA loan program should be addressed to E. Leon Looney, director of student financial aid, James Blair 207, ext. 4233.

## ROTC Plaque Now in Ewell

A plaque that commemorates the achievements of distinguished William and Mary ROTC graduates, unveiled by President Thomas A. Graves, Jr., and Lieutenant Colonel Lawrence M. Beyer, professor of military science, now hangs in Ewell Hall.

The ROTC program at the College of William and Mary was launched in 1947, and serves to qualify graduates for army officer commissions concurrently with their academic degree. Those who have been inducted as members of the roster of distinguished graduates are individuals who exemplify qualities of superior leadership ability, strong character and professional competence.

The induction ceremony for those honored as this year's distinguished graduates was held in April. Inducted at that time were the Governor John N. Dalton, an alumnus of the class of 1953, and Brigadier General James A. Baber III, commander, 116th infantry brigade (separate), Virginia National Guard, class of 1952.

## Traywick Reports On Va. Economy

Virginia's business this summer seemed to take its cue from a sluggish national economy, turning in a record that had its share of winners and losers, according to the August issue of the Virginia Business Report published by the Bureau of Business Research at the Business School.

On the plus side, new car registrations, which were off in June by 5.7 percent, rebounded in July, rising 8.2 percent compared to last years figures, according to editor Leland E. Traywick. Retail sales figures were also strong for both months, he said, and Alexandria, Newport News-Hampton, Norfolk and Richmond all reported July increases for nonagricultural employment.

The total dollar volume of business in the state as measured by checking account transactions declined from June to July. June's figures indicated a 26.4 percent increase over June 1980, but July posted only a 17.2 percent gain over the same period a year ago.

The big loser in July was the construction industry. Building permits, after registering a modest 4 percent gain in June, fell 16.7 percent in July compared to 1980. Because of such a decline in this leading economic indicator, construction may be a soft spot in the Virginia economy in the coming months.

## Pool Hours

Adair Pool will be open for recreational swimming during September on the following schedule:

Monday, Wednesday, Friday, 11:15 - 12:45 p.m. and Tuesday and Thursday, 8 - 9 a.m., faculty and staff only.

Monday - Thursday, 3 - 4:30 p.m.;

Monday - Thursday 9 - 11 p.m.;

Friday, 7 - 9 p.m. and Saturday and

Sunday 1 - 4 p.m., open swim for

faculty, staff and students.

The schedule for the rest of the semester will remain generally the same except that there will be no open swim from 3 - 4:30 p.m. Monday through Thursday.

Caps are required for men and women if hair is long. Children under 12 must be accompanied by an adult. All swimmers must have William and Mary I.D's.

## Football Tickets

1981 William and Mary Football Faculty-Staff season tickets are now on sale. Coach Jimmye Laycock, entering his second season at the helm of the Tribe, was most pleased with Spring practice and progress made by the squad. The season promises to be an exciting one with the passing of senior quarterback Chris Garrity being a major weapon on offense.

The Tribe will host five opponents at Cary Stadium, Harvard on November 7 for Homecoming, also Miami of Ohio, James Madison, Marshall and arch-rival Richmond.

For information on Faculty-Staff discount ticket prices and the policy on free passes for children, call ext. 4492.

## Preppy Editor Coming Tuesday

Lisa Bimbach, editor of "The Official Preppy Handbook," will speak on "The Official Preppy Program: Prep 101" at 8 p.m., Tuesday, September 8 in William and Mary Hall under the auspices of the Student Association.

The best selling book which has received an equal share of bouquets and brickbats, has been described by one reviewer as "A serious, well researched volume of descriptive sociology and self-help dedicated to the premise that "in a democracy everyone can be upper class and live in Connecticut. ("Everyone who is willing to follow a few rules, that is.)"

The SA is planning a weekend trip to Nags Head, September 18-20.

Tickets are \$3 and obtainable from the Campus Center Desk and the Student Association Office in the Campus Center.

Bimbach will hold an autographing session at Scribner's Book Store, Tuesday afternoon at 4 p.m.

## Homecoming Parade

This year's Homecoming Parade is set for Saturday, November 7, at 10 a.m. Any group interested in entering a float in the parade should send a representative to the Alumni House on Wednesday, Sept. 9, at 3:30 p.m. Among the items to be discussed will be the rules and regulations governing the construction and operation of the floats and the 1981 Parade Theme. Please make a special effort to have a representative in attendance at this meeting.

For further information, please contact John Phillips at the Alumni Office at extension 4302.

## TV Course

Interested students are invited to enroll in a non-credit television production workshop to be offered by Television Services this semester. Students will receive basic instruction in multi-camera studio and location video production and direction. No prior experience is necessary. For more information contact Wayne Taylor at x4275.

## Shared Experience Offers Alternative

The Office of Extramural Programs is now accepting applications for the Shared Experience Program which provides students with an opportunity to explore career goals by working directly with professionals. The deadline is Sept. 16.

The office has an extensive listing of internship positions available with James City County government. The internships are sponsored by the offices of finance, recreation, emergency medical services, planning, social services, administrative analysis and the Virginia Tech extension service. This year James City county will provide a \$100 semester stipend to the student intern. Other internships are available with the War Memorial Museum, the Women's Center, WHRO Public Television and Radio in Norfolk.

Application information and a listing of all the programs are available in the Office of Extramural Programs, Brafferton third floor, ext. 4354.

The Office of Extramural Programs also handles the Venture Program, which offers jobs for students who want to take time out from their studies in order to gain valuable work experience. Job fields include business, research, law, journalism, education and health science.

## Swem Library Schedule

### FALL SEMESTER

Through Thursday, Oct. 8  
 Monday through Friday 8 a.m. - Midnight  
 Saturday 9 a.m. - 6 p.m.  
 Sunday 1 p.m. - Midnight

### Fall Break

Friday, Oct. 9 8 a.m. - 5 p.m.  
 Saturday, Oct. 10 9 a.m. - 6 p.m.  
 Sunday, Oct. 11 1 p.m. - 5 p.m.  
 Monday, Oct. 12 8 a.m. - 5 p.m.  
 Tuesday, Oct. 13 8 a.m. - Midnight

Wednesday, Oct. 14 - Tuesday, Nov. 24  
 Monday through Friday 8 a.m. - Midnight  
 Saturday 9 a.m. - 6 p.m.  
 Sunday 1 p.m. - Midnight

### THANKSGIVING HOLIDAYS

Wednesday, Nov. 25 8 a.m. - 5 p.m.  
 Thursday, Friday, Nov. 26, 27 CLOSED  
 Saturday, Nov. 28 11 a.m. - 5 p.m.  
 Sunday, Nov. 29 1 p.m. - Midnight

Monday, Nov. 30 through Friday, Dec. 4  
 Monday through Friday 8 a.m. - Midnight

### READING PERIOD AND EXAMS

Saturday, Dec. 5 through Wednesday, Dec. 16  
 Monday through Friday 8 a.m. - Midnight  
 Saturday, Dec. 5 9 a.m. - Midnight  
 Saturday, Dec. 12 9 a.m. - Midnight  
 Sunday 1 p.m. - Midnight

### INTERIM SCHEDULE

Thursday, December 17 through Sunday, January 17  
 Except for Christmas Closing which will be announced Dec. 1981.  
 Monday through Friday 8 a.m. - 5 p.m.  
 Saturday 11 a.m. - 5 p.m.  
 Sunday 1 p.m. - 5 p.m.

The Council for the Advancement and Support of Education, CASE, will celebrate Mindpower Week, October 3-11.

# Employment

The following positions at the College of William and Mary are or will be vacant. They are open to all qualified individuals. However, current faculty and classified employees of the College will receive first consideration. Those wishing to apply for these positions should submit their applications to reach the Personnel Office, James Blair Hall, no later than 5 p.m. on the deadline date. The College of William and Mary is an Equal Opportunity/Affirmative Action employer. Accordingly, women, minorities, and the handicapped are encouraged to apply for those positions for which they are qualified.

Inquiries about vacancies should be directed to the Personnel Office between the hours of 8 a.m. and 4 p.m. and not to the department where the openings exist.

\*\*\*Promotional Opportunity only for hourly or classified employee of the College of William and Mary/Virginia Institute of Marine Science.

**CLERK TYPIST C (Grade 4)** - Salary range \$9,374 to \$12,797 per year. Starting salary dependent upon experience and previous salary level of appointee. #314 Qualifications - high school graduate preferred with clerical experience. Accounting or bookkeeping background helpful. Demonstrated ability to type required. Office of Student Financial Aid, deadline 9/2.

**CLERK TYPIST B** - Unclassified, part-time - \$3.77 per hour (37½ hours per week) 8 a.m. to 4:30 p.m. for 50 weeks per year. Work hours are subject to change. Qualifications - high school graduate preferred with clerical experience. Knowledge of duplicating machines helpful. Must be able to deal with campus community in a courteous and tactful manner. Demonstrated ability to type required, Education Media Department, deadline 9/2.

**CLERK TYPIST C (Grade 4)** - Salary range \$9,374 to \$12,797 per year. Starting salary dependent upon experience and previous salary level of appointee. #401 Qualifications - high school graduate preferred with clerical experience. Demonstrated ability to type required - Personnel Department (VIMS/W&M) deadline 9/4.

\*\*\***MARINE INSTITUTE DIVISION DIRECTOR (Grade 16)** - Salary range \$27,305 to \$37,289 per year. VIMS (Advisory Services Department) deadline 9/24.

## Homecoming Nov. 7

The change in the date of Homecoming this year from Oct. 17 to Nov. 7 has not been reflected in all printed matter, thus this reminder that the date is later than originally announced. The shift was made to avoid conflict with the full schedule of events underway for the Bicentennial at Yorktown commemorating the victorious end of the Revolutionary War.

## Classified

The Classified Advertisement section of *The News* is a service to members of the College Community, faculty, staff and students. Copy should be submitted by the Wednesday preceding publications of the News. The fee is \$3 for three consecutive insertions of 40 words or less.

## Official Memoranda

### Staff Workshops

Beginning September 15, 1981, the Office of Equal Opportunity and Affirmative Action Programs and the College's Personnel Office will initiate a series of 1½ day workshops on employee recruitment and selection procedures. These workshops are designed for those supervisory personnel who are directly involved in the selection of individuals for employment at the College. As of November 1, 1981, persons who have attended one of these sessions will be eligible to participate in the selection of classified, unclassified, and hourly employees. The dates for the workshops are as follows:

September 15, 16  
September 22, 23  
September 29, 30  
October 6, 7  
October 13, 14

The workshops are open to all appropriate supervisors at the College, VIMS and VARC. Please contact Charla Cordle at 4214 to arrange for attendance.
