Byrd Heads Program To Save Peregrine Falcons

For the first time in over 20 years, a pair of peregrine falcons has nested and successfully raised its young in the state.

This is not only great news for environmentalists but also of particular satisfaction to Mitchell A. Byrd, professor of biology and a leading ornithologist who has headed the program which is receiving much of the credit for this success.

The peregrines are returning to the state largely because of a reintroduction program which Byrd has headed since its inception in 1978. The program is funded by the U.S. Fish and Wildlife Service and the Virginia Commission for Game and Inland Fisheries.

"Peregrine falcons were once plentiful in Virginia, but the introduction and widespread use of DDT as a pesticide eliminated the peregrine population in the Eastern United States," Byrd explains. "The last breeding pair of peregrines were recorded in 1959-60."

When the program began in 1978, Byrd received five pre-fledgling falcons reared in captivity by the Peregrine Fund of Cornell University. With funding from the Virginia Commission, the Wildlife Service, and private donations, Byrd and his graduate student assistants built 30-foot towers at seven remote coastal sites in the state on which to release the young birds.

"Each of the towers has a platform and a nesting box on top," says Byrd. "The idea is that the young birds will form a mental image of the site and will return to the nest at maturity to lay eggs and rear young."

Although Byrd has had much success with the nesting towers, the natural habitats of peregrines are cliff sites and mountainous regions. Prior to 1960, most peregrines in the East were found along the Appalachian corridor. Byrd began the reintroduction program on Virginia's coastal islands in the Chesapeake Bay because the birds are less vulnerable there.

"These towers are removed from most predators, including the Great Horned Owl, which will attack and eat young peregrines. There are no trees on the islands to harbor owls, and the surrounding island environment provides a good food base for the birds."

Byrd is understandably reluctant to pinpoint the tower locations, since he would just as soon keep the birds undisturbed by crowds of curious observers. He talks like a proud father as he extolls the flying and swooping capabilities of the peregrines he has observed.

He has breathtaking color pictures of a pair of peregrines, photographed through a one-way glass on the roof of a Norfolk bank building, the only non-island site where Byrd has placed a nesting box for the rare species. They are gorgeous creatures, with blue-gray wings and dark brown eyes set into their regal heads.

In the last couple of years, the reintroduction program has been expanded. "In 1981 we released 22 birds, and this year

Mitchell Byrd

Walter Williams

Williams Selected To Give Paper in Lucerne

Walter L. Williams, Jr., professor of law at the Marshall-Wythe School of Law, has been invited to be the principal American speaker at the Ninth Annual Congress of the International Society for Military Law and the Law of War, to be held in Lucerne, Switzerland, Sept. 1-6.

The conference will include workshops and the presentation of papers which will be sent to principal governments and military agencies around the world. Williams, a specialist in international law, will present a paper entitled "The Protection of Civilian Personnel in Modern Armed Conflict."

The Society meets every three years and convened in 1979 in Turkey. Williams was invited to present a paper on "The Law of Neutrality in Modern Armed Conflict," at the meeting in San Remo, Italy in 1976.

The Society for Military Law and the Law of War has existed since 1955 and has members in over 40 countries. It is composed of civil and military officials, judges, lawyers and university professors.

The protection of civilians during a conflict situation has been a recurrent problem throughout history, says Williams and he is expected in his paper to focus on the complexities of the issues that have been compounded by the advances in the technology of weaponry and what he sees

as an erosion of commitment by nations to use United Nations and regional organizations to act on their behalf and a return to more reliance on the "institution of neutrality."

Williams is also expected to discuss the

problems of the internment of civilians during a conflict including both the economic pressures on a government to provide food, shelter and medical care and the protection for prisoners from a vengeful local populace.

College-Wide Faculty Meeting To be Held September 7

This is a reminder that the Annual College-Wide Faculty Meeting will be held on Tuesday, September 7, 1982, in Millington Auditorium, at 3:30 p.m.

On that occasion we shall be introducing new members of the faculty of the College to their colleagues. Deans and Department Chairmen are urged to extend special invitations to their new colleagues to attend this meeting.

A listing of new members of the faculty will be distributed in advance of the meeting, containing brief biographical and professional information about each individual, to reduce the time of introductions. Mr. George R. Healy, as Provost of the College, will introduce all new members of the faculty.

Mr. Herbert V. Kelly, Rector of the College, and I will make brief remarks to introduce the new college year.

The meeting, which should be over by 4:30 p.m., will be followed by an informal reception in Andrews Hall Foyer, to which you are all invited.

I look forward to seeing you on Tuesday, September 7. Zoe and I also look forward to welcoming you to the President's House for an informal brunch on Sunday, September 5.

Thomas A. Graves, Jr.
President

NEWSMAKERS

David Montgomery, professor of physics and Thomas Zang, acting assistant professor of mathematics and computer science, gave papers at the Symposium on Spectral Methods for Partial Differential Equations, held August 16-18 at NASA Langley Research Center.

Zang spoke on "Spectral Multi-Grid Methods and Spectral Solutions to Compressible Flows," at a session chaired by Seymour Parter, University of Wisconsin.

Montgomery discussed "Applications of Spectral Methods to Turbulent Magnetofluids in Space and Fusion Research," at a session chaired by Steven Orszag, Massachusetts Institute of Technology.

In May, Carl Dolmetsch, professor of English, lectured on "The Paranoid Style in American Fiction" in Mainz and Gernersheim, West Germany, at the invitation of the American Studies Department of Johannes Gutenberg University in Mainz. He also lectured on "Mark Twain and the American Civil War" at the University of the Saarland, in Saarbruecken, West Germany, and at Karl Marx University in Leipzig, East Germany. In June he presented a paper on "Mark Twain as a Southern Writer: Some Reconsiderations" at the annual meeting of the German Association for American Studies at the Catholic University of Eichstaett, in Bavaria.

Margaret K. Schaefer, assistant professor of mathematics and computer science has been awarded \$20,000 by the National Aeronautics and Space Administration for continuation of research of "Methodologies for Optimizing Maintenance Models for Advanced Avionics Control Systems," in developing optimizing maintenance models for fault-tolerant flight control systems.

The emphasis of this research project is an exploration of specific spares allocation and inventory problems within the overall optimization problem attacked in the Cost and Benefits Design Optimization Model for Fault-Tolerant Flight Control Systems (CBDOM) of the Boeing Commercial Airplane Company. This award brings to \$112,622 the funding for this project.

Henry Krakauer, assistant professor of physics, has been awarded \$20,000 by the National Science Foundation for theoretical studies of the electronic structure of d-band metal systems which exhibit surface related phenomena that are both scientifically and technologically important.

Historian Parry Dies August 25

John Horace Parry, an historian of the seas and the men who sail them, James Pinckney Harrison Professor of History for the 1981-82 session, died of a heart attack August 25 at his home in Cambridge, Mass. He was 68 years old.

Funeral services will be held Friday, Sept. 3, at 4 p.m. at St. Andrew's Church in Ayer, Mass.

The sea played a major role in Parry's life for most of his professional career. A naval reserve officer in England and a Fellow of Clare College, Cambridge at the outbreak of World War II, he volunteered for service and spent six years at sea, rising to the rank of commander.

After war service Parry returned as a tutor at Clare College and a University Lecturer in History at Cambridge University. While at William and Mary he was Gardiner Professor of Oceanic History at Harvard. He authored ten books about the sea and was working on a manuscript while he was on campus here.

Parry received several honorary degrees and was honored both by the British and Spanish government for his scholarly contributions.

Carol Esler Wins Scribner Prize With First Novel

Carol Esler, intermittent classics professor at the College and wife of Anthony Esler, professor of history, has been awarded the Scribner Crime Novel Award for her first novel "The Ariadne Clue."

Published under her maiden name, Carol Clemeau, the book is about a classics professor who discovers her best student has disappeared in conjunction with a major art theft at the university.

Carol will get \$7,500, \$5,000 of which is an advance against royalties, when the book is published in October.

In a recent Daily Press interview with reporter Nancy Davis, Carol said that the biggest change the prize had brought in her life was a change in the quality of her

mail. "Now I get letters from my agent, from my publisher," she said.

More than 1,000 writers competed for the first novel prize Scribner awarded for the first time this year. Publishers Weekly calls the book "a literate delight" . . . "An

auspicious debut for Clemeau, from whom we hope to hear more."

Carol's success adds another author to the Esler household. Tony Esler is a successful novelist and the author of "Forbidden City," and six other historical novels.

Frances Bobbe Gets SID Post

Frances Bobbe, the sports information director at Oberlin College in Ohio, has been named the new women's sports information director. She will be in charge of promoting the College's thirteen intercollegiate women's sports.

Bobbe replaces Karen Smith, who was hired three years ago to establish a women's sports information office. Smith recently was named the women's sports information and promotions director at the University of Minnesota.

Bobbe has been the SID at Oberlin for the past three years, coordinating sports information for ten men's and nine women's sports. She became interested in sports journalism as an undergraduate at Oberlin, where she starred in both lacrosse and field hockey. She returned to her alma mater four years after graduation to become Oberlin's first full-time sports information director.

Byrd

continued from p.1

we released 19," says Byrd, adding that this year all 19 fledged successfully from that tower. Since 1978, 72 falcons have been released of which 64 fledged successfully a success rate of 89 percent.

Even so, the mortality rate for the young peregrines in the first year following release is 50 to 60 percent, says Byrd. "We have calculated that from our releases we should have at least 14 adult peregrines in the state. At last count, we had 11 known birds, which is approaching the maximum number we can expect, given the usual, natural mortality rates."

Of those 11, three mating pairs were spotted at towers by Byrd and his students this spring. Of those three pairs, however, only one produced eggs and subsequently fledged their young. Peregrines need two to three years before they are ready to reproduce. The successful pair was at a tower site developed in close cooperation with the Chincoteague National Wildlife Refuge.

With the increasing numbers of peregrines being released through the program, Byrd is confident about the establishment and growth of the peregrine population.

The peregrine falcon reintroduction program has been administered by the Game Division of the Commission and coordinated by biologist W. Hassel Taylor. The program was funded in 1982 by monies derived from the new non-game tax check-off bill recently implemented in the state as a result of action taken last year by the General Assembly.

Former Nurse Dies

Isabelle A. Gray, a former resident of Williamsburg, died unexpectedly August 18 at her home in Silver Spring, Md. Mrs. Gray was a member of the nursing staff of the College infirmary for 12 years before her retirement in 1973.

Glass Sculpture by Elgart

Elgart, Weinberg Work in Andrews

Two new exhibits open in Andrews Hall Galleries August 30.

In the Foyer Gallery there will be an exhibit of oil cityscapes by Ken Weinberg which will be on display through September 24.

Weinberg is exhibiting 25 paintings from a series in which he deals with the theme of the cityscape as the personification of buildings and towers into a fantasy urban setting.

In many of the works, blocks of white and black, are used as accents on a neutral gray background to build up space and at the same time push elements up into the picture plane. Distorted depictions of windows and doors take on facial associations. The subliminal images are cartoon-like and at the same time influ-

enced by past art movements such as "Abstract Expression" painterliness of the 1950's and Mondrian's "Neoplasticism" of the 1940's.

Weinberg has a BFA from the Rhode Island School of Design and a MFA from the University of Arizona. He has taught at Westfield State College in Massachusetts and is currently living in New York City.

The work of sculptor Linda Elgart will be displayed in the Andrews Gallery through Oct. 1.

Elgart's works are mostly glass sculptures combined with cast aluminum and bronze and some low-fire clay.

In creating a sculpture, the artist finds inspiration in glacial formations and the possibility of archaeological remains pre-

continued on p.4

William Windsor Invited to Campus

President Graves recently received a reply from Buckingham Palace to his message of congratulations to Prince Charles and Diana on the birth of their son Prince William:

"We are enormously touched to receive your very kind letter following the birth of our son and send you our warmest possible thanks. The reactions to the news has been overwhelming and thoroughly heart-warming and we are rapidly discovering what it is to be proud parents! Charles and Diana"

President Graves wrote to Prince Charles on June 30 expressing congratulations on behalf of the College on the occasion of the royal birth:

"All of us at the College remember with great pleasure the events of May 2, 1981 when you honored us with your presence and when we had the privilege of making you an Honorary Fellow of this ancient College which was chartered . . . therefore it is with very special delight that we congratulate you and Princess Diana on the birth of your son . . . I extend my best wishes to you and Princess Diana and young Prince William. How wonderful it would be if Prince William could spend part of his undergraduate career at the

College of William and Mary! We also hope that in some future year Prince William of Wales may visit the College and also be inducted into an Honorary Fellowship here."

Summer Meeting

This summer, the College was the host for two separate state purchasing training sessions conducted by the Division of Purchases and Supply.

The first training session was held June 17. Thirty state agencies were represented including Eastern State Hospital, Christopher Newport College, Tidewater Community College, Old Dominion University, Norfolk State, and Thomas Nelson Community College.

The meeting held on July 28 was specifically for printing purchases

The College was well represented with the Director of Public Relations and Information Office, Charles Holloway, and the Director of Publications, S. Dean Olson, both attending.

The College Purchasing Office was represented by Norma Chandler, director of purchases and stores, Patricia Morales, assistant director, and Gloria Spell, purchases & stores supervisor.

NOTEBOOK

President Sets Office Hours For Students

President Graves has set up a schedule of office hours for students to stop by his office and discuss with him informally, any topic of their choice. No appointment is necessary. Callers will be given 10 minutes, longer if there is no one waiting.

The President will be in his office in Ewell Hall on the following days to meet with students:

Wednesday, Sept. 8-4-5 p.m.

Thursday, Sept. 16-4-5 p.m.

Thursday, Sept. 23-4-5 p.m.

Wednesday, Sept. 29-4-5 p.m.

Landlubbers Series

A slide-illustrated talk on jellyfish in Chesapeake Bay waters will be presented at the Virginia Institute of Marine Science, Gloucester Point at 7:30 p.m., Wednesday, Sept. 1.

Paul Zubkoff, an associate professor of marine science will talk on the stinging nettle which appears each summer and invades local waters. He will also discuss the several types of less known jellyfish which are found the the Bay.

The program, to be held in the Institute's Byrd Hall Conference Room, is one of a series of Oceanography for Landlubbers programs, presented free to the public the first Wednesday in each month. For further information on these programs, contact Mary Sparrow, 642-2111, extension 298.

Wren Resident Moves Out

The Virginia Research Center for Archaeology, which has been housed in the Wren kitchen, has moved to new quarters at the Victory Center in Yorktown.

The move continues to fulfill the requirement when the center was established that it maintain a proximity to the

College. In Yorktown the center will be close to the Virginia Institute of Marine Science in Gloucester Point.

The move will prove a double bonus for the Victory Center. The center will pay \$48,000 in rent and artifacts recovered from the current work being done on a British warship sunk in the river off Yorktown will boost the scope of attractions for visitors.

Theatre Auditions Set This Week

Members of the College community, students, faculty and staff, are invited to audition for the William and Mary Theatre productions.

Open auditions for the first two plays of the season "A Streetcar Named Desire," by Tennessee Williams and "Tartuffe," by Moliere, will be held from 7-9 p.m., in Phi Beta Kappa Memorial Hall, Wednesday and Thursday, Sept. 1, 2.

Actors will be asked to read from the scripts which are available for perusal in the Theatre Department office in PBK.

Each play includes parts for six men and six women.

"A Streetcar Named Desire," will be presented Oct. 8, 9, 10, 14, 15, 16 and "Tartuffe," on Nov. 18, 19, 20 and 21. There will be one matinee performance of each play.

The rest of the season will include "Kiss Me Kate," with music by Cole Porter, book by Samuel and Bella Spewack, Feb. 17, 18, 19, 25, 26 and 27; and "Of Mice and Men," by John Steinbeck, April 14, 15, 16, 17.

Treasurer's Office Closed September 1, 2, 3

In order to more efficiently handle registration/validation and to better serve our students, the Treasurer's Office will participate in arena registration/validation at William and Mary Hall for the Fall 1982 semester.

Hopefully, this will eliminate a lot of confusion and frustration on the part of both new and returning students. This will mean, however, that the office will be closed September 1, 2, and 3. The office will resume regular office hours on Monday, September 6, 1982.

Help Needed for Handicapped

Immediate assistance is needed for handicapped students here at the College. Please volunteer to help in one or more of the following capacities:

- drivers to get students to and from class or to run errands
- escorts to walk with handicapped students around campus
- readers to read assignments, texts, and handouts onto tapes

Please volunteer to help your fellow students. Call Dean Jarmon's Office (ext. 4581 or 4546) for more information.

Women's Soccer

Coach John Charles is holding practice and try-outs for women's soccer this week, daily at 4 p.m. at the James Blair Terrace field.

"Everyone is welcome," says Charles. "All positions are wide open. We want anyone with soccer talent to try out. We have several excellent freshman prospects and we expect our returning players to make even more of a contribution than they did last year."

The team will play its first intercollegiate match against Old Dominion University, at 4 p.m., Wednesday, Sept. 22 at the JBT field.

Tryouts will culminate with two consecutive exhibition matches beginning at 1 p.m. Saturday, Sept. 18. Opponents will be two select under-18 teams from Northern Virginia, the Annandale Superstars and the Braddock Road Cougars.

Following the exhibition matches Charles will trim his teams to playing size for the regular season.

Drivers Please Note

Parking decals are here. Compliance is required by Sept. 15.

For Day Students

The Day Student House is open daily from 8 a.m. to 12 midnight. Located next to the Bookstore on Jamestown Road, it provides areas for study, cooking, conversation and much more. All day students are welcome. House director is Paul Markowski.

Wine and Cheese Party

Officers of the senior class and the Society of the Alumni will co-host a wine and cheese party at the Alumni House Friday, Sept. 3 from 4-6 p.m. for members of the senior class. The party will include live entertainment.

Soccer Coaches Start Practices

Head coach Al Albert opened soccer practice on Wednesday, August 25.

Albert indicates the varsity will be made up of 22 members so "there should be some real competition to make the team."

The Tribe is coming off its winningest season ever (15-4-2) and one of the 1982 goals is to return to the NCAA championships which eluded the team last year, following its 1980 Regional championship and number eight national ranking.

"I think we have a solid squad again. We will find out how good we are in a hurry," stated Albert. "Our season opener (September 12th) is at home against defending national champion Connecticut. It's a tremendous start for our players and fans."

The 1982 Indian soccer team returns 16 lettermen (lost 3) led by top scorers Dave Snyder (9G, 11A) and Mike Flood (10G, 1A) and standout goalie Juergen Kloo.

"I'm probably looking forward to this season more than any I can remember. If we can stay healthy it could be a very exciting year," concluded Albert.

Family Education Rights And Privacy Act Detailed by V.P. Healy

Under the terms of the Family Educational Rights and Privacy Act of 1974, the College is to inform enrolled students annually of their rights under the law. The act does not apply to students admitted to the College who have not officially enrolled.

The College hereby affirms that its policies and procedures are in full compliance with the Family Educational Rights and Privacy Act of 1974, whereby each student's right to the privacy of his or her official College records and access to the same is assured.

Enrolled students shall have the following rights under the law:

1. The right of access to his or her official College records. Under the terms of the Act the College is not required to make available to students the following materials:
 - a. Confidential letters of recommendation placed in student's files before January 1, 1975, and those letters for which the student has signed a waiver of his or her right of access.
 - b. Parents confidential financial statements.
 - c. Medical, psychiatric, or similar records "which are created, maintained, or used only in connection with the provision of treatment to the student and are not available to anyone other than persons providing such treatment; provided, however, that such records can be personally reviewed by a physician or other appropriate professional of the student's choice."
 - d. Personal files and records of members of faculty or administrative personnel, which are in the sole possession of the maker thereof and which are not accessible or revealed to any person except a substitute."
 - e. Records of the Admissions Office concerning students admitted but not yet enrolled at the College. Letters of recommendation are removed from the Admissions files before the files are forwarded to the Registrar's Office.
2. The right to inspect and review his or her official College records.

3. The right to a response from the College to reasonable requests for explanations and interpretations of his or her official records.
4. The right to an opportunity for a hearing to challenge the accuracy or appropriateness of his or her official records.
5. The right to have disclosure of his or her official records limited to College officials or other persons authorized under the Act, for legitimate purposes, unless permission for release of such information to other parties is given in writing.

The College has designated the following information as "Directory Information" which may be released to the public:

1. Student's name, address (permanent and local), telephone number (permanent and local).
2. Student's birthdate.
3. Dates of attendance at the College, field of concentration, current classification, current enrollment status (full or part time), degrees awarded.
4. Previous schools attended and degrees awarded.
5. Honors or special recognition.
6. Height and weight of members of athletic teams.

A student who does not want the above information made public must file notice in writing of this request in the Registrar's Office, James Blair, by September 15, 1982.

A student wishing to review his or her College records must consult the directory of official student records in the Registrar's Office. The directory lists the offices where official student records are maintained and the name of the official responsible for the maintenance and release of each type of record, and to whom requests for access should be made.

George R. Healy
Vice President for Academic Affairs

CALENDAR

WEDNESDAY, SEPTEMBER 1

Print Sale, CC Lobby
MBA Math Workshop, Chancellors 201, 9-5 pm
Sinfonicron Rehearsal, 10-1 pm, 1-7 p.m. CC Ballroom
Men's and women's soccer practice, JBT fields 1 and 2.
Oceanography for Landlubbers, "Jellyfish of the Chesapeake Bay," Byrd Conference Center, VIMS, Gloucester Point, 7:30 p.m.

THURSDAY, SEPTEMBER 2

Canterbury Association - Episcopal Eucharist, Wren Chapel, 5:30 p.m.
Panhel, CC Room D, 7 p.m.
Sinfonicron Rehearsal, CC Ballroom 7-11 p.m.

Nancy Wilson Coming To W&M Hall Oct. 31

Tickets are now on sale at William and Mary Hall for the Nancy Wilson concert which will be held in William and Mary Hall at 4 p.m., Sunday, Oct. 31 under the sponsorship of the Williamsburg Alumnae chapter of Delta Sigma Theta sorority. Tickets are \$15.

EMPLOYMENT

The following positions are open to all qualified individuals; however, current faculty and classified employees will receive first consideration. Except where noted, inquiries and applications should be made at the Personnel Office, 201 James Blair Hall, and not at the department where the opening exists. Call 229-JOBS (229-5627) for an updated listing and 24-hour service. An EEO/AA employer.

CLERK TYPIST C--(Grade 4) Salary range \$9,749 to \$13,309 per year. Starting salary dependent upon experience and previous salary level of appointee. Performs secretarial duties for Director of Muscarelle Museum of Art. Qualifications--High school graduate with clerical experience preferred. Demonstrated ability to type required. Location--Muscarelle Museum of Art, Deadline August 31.

CLERK TYPIST C--Unclassified, \$4.69 per hour, 39 hours per week. Receives, processes and maintains records on requests from other libraries wishing to borrow Swem Library materials; uses the OCLC system to respond to inquiries; assists with the processing of interlibrary loan requests from Swem patrons. Qualifications--Responsible, well-organized individual with clerical experience and good oral communication skills preferred. Demonstrated ability to work with details preferred. Location--Swem Library, Deadline Sept. 1

ACCOUNTANT A (Grade 6) Salary range, \$11,643 to \$15,905 per year. Starting salary dependent upon experience or exceptional qualifications and previous salary level of the appointee. #084. Incumbent serves as the agency's cost accountant. Qualifications--knowledge of the Financial Accounting System preferred. Ability to prepare indirect cost rate proposal for submission to federal government for negotiation of the rate to be applied to federal grants, contracts and other cost centers; to calculate actual indirect cost rate, and make appropriate recommendations to management regarding variances; to calculate fringe benefit rates to be charged to contracts, grants, and other cost centers; and to analyze costs and compute service and support center rates. Knowledge of Office of Management and Budget Circular A-21, "Cost Principles for Educational Institutions" preferred. Location--VIMS (Accounting Department) Deadline Sept. 1.

ACCOUNTANT B (Grade 9)--Salary range \$15,213 to \$20,791 per year. Starting salary dependent upon experience or exceptional qualifications and previous salary level of the appointee. #099. Incumbent is responsible for the review and computation of all data required for the preparation of financial reports, and for assisting the Chief of Accounting as required and for performing her duties in her absence. Qualifications--Bachelor's degree in accounting preferred. Knowledge of accounting principles required. Knowledge of the Commonwealth and financial accounting procedures preferred. Ability to prepare financial reports, reconcile expenditure detail between Financial and Commonwealth Accounting Reporting Systems, perform economic cost analyses of resource utilization and to reconcile fixed asset financial records and inventory system detail required. Location--VIMS (Accounting Department) Deadline Sept. 1.

THEATRE COSTUMER--Unclassified, full-time, \$5.60 per hour. Responsible for design and construction of theatrical costumes and management of costume facilities for William and Mary Theatre. Antique Monthly Praises Work At Ash Lawn

The August issue of Antique Monthly magazine includes an illustrated article on the summer festival at Ash Lawn and the attraction of the house for visitors.

Once the favorite Virginia home of President James Monroe, Ash Lawn was bequeathed to the College in 1974 by Jay Winston Jones of Charlottesville. In 1975 the College began an extensive program of restoration which has been supervised by Carolyn C. Holmes, curator of Ash Lawn.

Writer Hope Ridings Miller details the events of the festival which include performances of comic operas and concerts which were popular in Monroe's lifetime, puppet shows and special story hours for children and compliments of the interior furnishings.

"For seasoned antiques devotees, however, Ash Lawn's main attraction at any time is the interior of the modest frame house, which James Monroe fondly called his 'cabin castle' and furnished with elegant Empire Directoire pieces which he acquired in France. A number of them, including handsome mahogany chairs with dolphin legs that adorned the White House during Monroe's administration, are standouts in the museum today, along with prized works of art and miscellaneous items acquired by other Monroe family members."

Andrews Exhibit

continued from p.2

served within layers of earth or ice.

The quality of slumped or heated glass suggests to her the translucency, mystery and age of glacial ice. She uses layers in her work, both as a reflection of sedimentary earth structure and as a metaphor for levels of meaning and the passing of time.

Elgart was born in Philadelphia and graduated magna cum laude with a BFA degree in ceramics/glass from the Tyler School of Art in Philadelphia. She has a MFA from Southern Illinois University at Carbondale. Elgart is currently a graphics technician at the Southern Illinois University Museum.

The Andrews Galleries are open daily from 9 a.m. to 4 p.m., Monday through Friday.
