

Renowned Artist Gene Davis Creating Special Work For Museum

Gene Davis, regarded as "one of the finest colorists among contemporary artists as well as the dean of the Washington, D.C., art community," will merge art with technology by creating a first-of-its-kind "solar painting" to celebrate the opening October 21 of the Muscarelle Museum of Art. The project is partly funded by the Virginia Commission for

the Arts.

Davis, who is perhaps best known for his paintings featuring vertical stripes in complex, edge-to-edge arrangements, has been commissioned to do an installation along the south wall of the Muscarelle Museum, which features a 65-foot-long span of 126 plexi-glass tubes filled with

Continued on p. 2.

Dr. Graves (at podium) praises Mr. Rathert (left) for his work with the Friends of the College Committee. Rathert, who served on the committee for several years, is now on the Advisory Council to the Friends. He is joined in the presentation by J.B. Hickman, chairman of the Friends Committee, and Sheila Ellis, the 1982 Prentis Award recipient.

Doug Fairbanks Headliner For Parents Weekend

Between 1,200 and 1,500 visitors are expected in Williamsburg next weekend for the annual Parents Weekend at the College.

The three-day program includes an exciting mix of academics, sports and entertainment.

"An Evening with Douglas Fairbanks, Jr.," will be presented at 8 p.m., Saturday evening, Oct. 1 in William and Mary Hall.

The program earlier that day will include a volleyball tournament, lectures and panel discussion by faculty members, a varsity field hockey game, a tour of the Joseph and Margaret Muscarelle Museum of Art, and open houses at several residence halls.

There is no home football game scheduled but some parents will be going to Norfolk to see William and Mary battle Yale in the Oyster Bowl.

An ecumenical worship service will be held Sunday at 9:30 a.m. in the Wren Chapel by the Campus Ministries United.

Parents are invited to participate in "An Occasion for the Arts," Williamsburg outdoor fall festival of the Arts, on Merchants Square which begins at 10 a.m. and closes with a band concert on the lawn in front of the Wren Building. A varsity-alumni golf tournament and a varsity lacrosse game against the University of North Carolina is also scheduled for Sunday.

Registration begins Friday morning. President and Mrs. Graves will host parents, faculty and staff Friday afternoon in the Wren Yard and the William and Mary Choir will present its traditional Parents Weekend Concert in the Campus Center ballroom that evening followed by a performance by the College-community orchestra.

Linda Collins Reilly, Associate Provost, will meet with Freshmen parents Friday afternoon in the Campus Center Ballroom and the general meeting of all parents will be held Saturday morning. Mr. and Mrs. Tom C. Korologos, chairmen of the Asso-

ciation of Parents, will preside. Luncheon on the lawn by Andrews Fine Arts building will follow.

The series of lectures and panel discussions by faculty members on Saturday from 9:45-11 a.m. cover a variety of topics.

Morris A. McCain, department of government, will talk about the Soviet leadership and arms control. "Teaching Music at William and Mary," will be the topic of a talk by Frank T. Lendrim, chair-

Douglas Fairbanks, Jr.

man of the music department and director of the choir.

Ms. Harriet Reid, director of the Office of Career Planning, will discuss career planning opportunities at William and Mary, Jack D. Edwards, department of government and Acting Dean of the Faculty of Arts and Sciences, will take as his topic, "President and Congress: Looking Toward the 1984 Election."

"A Day in the Life of Suzy Cream Cheese," is a catchy title for a discussion of the opportunities for computer access for students at William and Mary by, W. Robert Collins, department of mathematics and computer science.

Hans C. von Baeyer, department of physics and Director of the Virginia Associated Research Campus, VARC, will discuss plans being made for the National Electronic Accelerator Laboratory

Continued on p. 7.

Friends Present Prentis Award

Robert H. Rathert, Williamsburg plant manager for Anheuser-Busch, Inc., has been awarded the 1983 Prentis Award by the Friends of the College organization in recognition of his accomplishments in the field of business and his service to the College and community.

Rathert received the award at a reception held Wednesday evening at the Wren Building. President Thomas A. Graves, Jr., cited his "exemplary business practices, community service and outstanding stewardship in strengthening a bond of mutual respect between the university and one of the great Fortune 500 companies."

Rathert moved to Williamsburg from the Midwest in 1971. He serves on the boards of the Virginia Federal Savings and Loan, the Virginia Industry for Environmental Protection, the Chamber of Commerce, the Williamsburg Community Hospital, the United Methodist Church and the Advisory Council of the Friends.

The Prentis Award honors one of the Williamsburg's earliest entrepreneurs. In the eighteenth century, the Prentis Store, a retail shop on Duke of Gloucester Street, became widely known for its fair wages, good merchandise and sound innovative business practices in the community and throughout the colonies. The Prentis family was noted for their service to the town and to "Their Majesties' Royall College." One Prentis partner, John Blair, Jr., represented the College in the House of Burgesses.

President Graves, in bringing greetings to the Friends on behalf of the College, emphasized the importance of their contributions in a time of monetary restraints. Graves said that the College has received two percent cutbacks in annual state appropriations. "Meanwhile the cost of educating our students continues to escalate. To offset inflation and this reduction in state funding, tuition has been raised and faculty salaries have been frozen.

More Budget Cuts

Following Governor Charles S. Robb's order Friday, Sept. 23 for all state agencies to cut the general fund portions of their budgets by 1.5 percent, members of the administrative staff have begun to consider various options that may be necessary for compliance. Provost George R. Healy said that the 1.5 percent figure translated into approximately \$300,000 that must be cut from the College's 1983-84 budget. While no specific decisions have yet been made, Dr. Healy said that a cut of this magnitude would require a careful appraisal of all possibilities.

"In this critical financial climate, the single most influential factor upholding William and Mary's traditional margin of excellence and maintaining the quality of life on this campus has been private support," he said.

In a special tribute to J.B. Hickman, who has been chairman of the Friends since 1976, President Graves presented him with the "key" to the College, a miniature silver key ring with the design of the W&M cipher. "Each year I marvel at his energy, creativity and dedication," said Graves. "Through his dynamic leadership the Friends of the College have invested in William and Mary at a level we'd never have dreamed of when he began his term." The Friends have a membership of 171 and this past year made gifts totalling almost \$120,000 to the College.

Immunization Clinic

The Student Health Center is urging all students to take advantage of a free immunization clinic and guard against the danger of contracting measles.

Dr. J. S. Karow, Student Health Service Director, says that anyone who has not had a measles shot since 1969, very likely is not protected against the disease. "We would like to eliminate measles from the State of Virginia, and specifically to prevent an outbreak on campus," she adds.

The immunization clinic will be set up at the Student Health Center Saturday, Oct. 15 from 10 a.m. to 2 p.m. There is no charge for this service.

Measles, explains Dr. Karow, carries with it the danger of meningitis, ear infections and encephalitis, in addition to the discomfort of the disease itself. It is a very contagious disease which spreads quickly and patients experience at least a week of great discomfort from a rash and high fever.

Virginia has recorded fewer cases of measles since a new vaccine was introduced in 1969, says Dr. Karow. Since other states have different immunization standards, she hopes that all students, out-of-staters as well as Virginians, will take advantage of the immunization offered on Oct. 15.

Students with specific questions about the program are asked to contact Dr. Karow at ext. 4386.

Thelin Checks Up On Claims

While college guides and catalogs may be indispensable to students who are selecting a school, such handbooks, with their campus profiles and statistics on enrollments, tuition, student-faculty ratios and number of library volumes, can be just as vital to those trying to improve the institution, says John R. Thelin, professor of education.

Thelin specializes in institutional research. He suggests that combining current statistics with historical data to "create an institutional picture," can be useful to administrators both in dealing with problems and meeting goals.

Thelin will present his views in October at a conference in Washington, D.C., entitled, "Communicating University Research," sponsored by the Council for the Advancement and Support of Education (CASE), a national organization of university public relations and fundraising professionals.

On a research grant this summer, Thelin went to the archives of Harvard University, Amherst and the College to find out if the images created by these institutions were back up by statistics. He studied records for the period between 1880 and 1910, a time when records were spotty and statistical analysis was nonexistent.

After analyzing the century-old figures on computers, Thelin says he hopes to gain some sense of whether these institutions were healthy and whether they got stronger or weaker during the period.

Thelin tries to assess whether a college's desired image matches what is actually happening in the life of the institution. "Sometimes you find examples in which the image and the statistics get out of sync," he says.

"For instance, a university that now admits 80 percent of its applicants might continue to call itself 'selective' because it used to admit only about half its applicants. Some institutions don't like to acknowledge that they haven't been able to keep applications up," he adds.

To conduct institutional research, Thelin suggests two "under-used and under-appreciated" sources of information--the institutional research office and the college archives. "I argue that if you put in a little time you can come up with information about what's changing your institution. I try to be a broker who brings both sources together to find out what happened in the past, what's happening now, and what might happen in the future."

For example, institutional researchers in California found that the state's community college system wasn't doing what was originally intended. Statistics showed that students weren't transferring from community colleges to four-year institutions to finish the last two years of their bachelor's degrees. Some left college without a degree; others just got two-year degrees.

"Statistics raise more interesting and dynamic questions. They indicate something more elusive," Thelin says. "I try to see the use of the data rather than just the boredom of gathering it."

Steve Haynie, assistant professor and men's tennis coach, recently attended the National Tennis Teachers Conference in New York City, Aug. 31-Sept. 2. Among the speakers were John Newcombe, Vic Braden, Dennis Van der Meer and Marty Riessen. The conference is held annually in conjunction with the early rounds of the U.S. Open Tennis Championship at Flushing Meadow.

Robert Noonan of the department of mathematics and computer science presented an invited address to the Fall

In the epilogue to his recently published book, "Higher Education and Its Useful Past," Thelin says patience is required in understanding institutions and individuals. "Consider the Duke of Devonshire, an influential figure in the late 19th-century British politics," Thelin writes. "Even his own speeches bored him, and once when speaking on the budget for India, he paused, leaned over to the colleague nearest him on the bench, and, suppressing a yawn, whispered, 'This is d---ed dull . . .'"

Thelin acknowledges that the study of colleges and universities suffers its dull moments, too. But, he maintains, "provocative use of historical materials can develop curiosity and delight as a part of serious thinking about higher education."

Faculty Conference of Emory and Henry College, August 31, entitled "The Role of the Computer in the Liberal Arts College."

Alan Fuchs, associate professor of philosophy, has just been elected to the Executive Council of the recently formed North American Society for Social Philosophy. He will also serve that society as Director of its Southern Division.

Fuchs was also recently elected to the Executive Board of the American Section of the International Society for Philosophy of Law and Social Philosophy, and was appointed to the Advisory Committee to the Virginia Assembly on Primary and Secondary Education.

Bruce Grant, professor of biology, published an article, "On the relationship between average copulation duration and insemination reaction in the genus *Drosophila*," in the July issue of *Evolution* 37: 854-856.

Carl M. Andersen, senior research associate in mathematics and computer science, worked for four weeks in July and August, at the University of California at Berkeley. During that time he was a consultant for the Division of Computer Science, and worked on the development of a new system for algebraic computation.

Joseph G. Loesch, professor of marine science, in Fisheries Science at the Virginia Institute of Marine Science, received a grant from the National Marine Fisheries Service in the amount of \$77,000. This is part of a 3-year contract for continuing research.

The grant will be used for the study of the population dynamics of anadromous *Alosa* species in Virginia. Loesch recently completed a 4-year study in the field.

John H. Oakley of the department of classical studies presented a paper on Sept. 5 at the 12th International Congress of Classical Archaeology in Athens entitled "The Phiale Painter. A Study of the Mythological Iconographical Sources of the Classical Vase Painter." The Congress occurs once every five years and participants include classical archaeologists from all over the world.

Oakley also recently published an article, "The Autonomous Wreathed Tetradrachms of Kyme, Aeolis" in the *Museum Notes of the American Numismatic Society* 27 (1982) pp. 1-37 and plates 1-14.

Charlotte Mangum professor of biology, recently served on the U.S. National Delegation to the International Congress of Physiological Sciences in Sydney, Australia.

Self Study Notes

The 1984 Self-Study will seek information and advice from a large number of members of the William and Mary community. One method of collecting this information is through questionnaires which will be distributed early next semester. In order to make these as useful and revealing as possible, the Steering Committee will seek the help of questionnaire experts on campus. In addition, to identify common concerns and questions, a preliminary survey has been sent to a very small random sample of students, faculty and administrators. The survey is much more open ended than a questionnaire and invites respondents to list issues that seem significant to them. It also asks about perceived changes in the College's mission since the time of the last Steering Committee. If you received a copy of the Preliminary Survey, please answer as fully as you care to. If you did not, rest assured that your views will also be sought and counted during the course of the 1984 Self-Study.

Next: Membership lists of the committees

Stewart Ware, professor of biology, was coauthor with Roland Monette of Ferrum College of the recent article "Early Forest Succession in the Virginia Coastal Plain" published in the *Bulletin of the Torrey Botanical Club* 110:80-86 in June.

Jack Brooks, professor of biology, recently attended the joint annual meeting of the Herpetologists' League and the Society for the Study of Amphibians and Reptiles at the University of Utah. He presented a paper entitled "Movement of

individuals within populations of *Anolis lividus*."

An article by Brooks entitled "Gymnophthalmus pleci Bocourt: an addition to the lizard fauna of Dominica; West Indies" appeared in *Herp. Review* 14 (1): 31-32, 1983.

An article by Richard Matheson and Brooks entitled "Habitat segregation between *Cottus bairdi* and *Cottus girardi*: an example of complex inter- and intraspecific resource partitioning" recently appeared in *Am. Midl. Nat.* 110 (1): 165-176, 1983.

New Football League

The following statement was released simultaneously by the participating institutions.

The presidents of Bucknell, Colgate, Holy Cross, Lafayette, Lehigh and William and Mary have announced that discussions are moving forward on the possible formation of a new football league, to be called the Colonial League. It is anticipated that such a league would be associated with the Ivy League, including interleague football scheduling agreements.

The purpose of the new league would be to bring together a group of institutions of higher learning which enjoy comparable academic standards of admission and achievement, as well as historically long commitments to intercollegiate athletics.

Howard Swearer, President of Brown University and current chairman of the Ivy Group said: "The Presidents of the Ivy League welcome the prospective formation of the new league by colleges which share our philosophy of sports and

our view of the role of athletics in higher education. We believe it is a constructive step for them to create a new league in which they may adopt policies and procedures to safeguard and further their common athletic perspective and goals.

"Members of the Ivy League have scheduled football games with these colleges on a regular basis for a number of years. We now look forward to close associations in our athletic relationships with these sister institutions and to scheduling with them the majority of our non-league football games."

To date explorations have been conducted at the policy level primarily by the presidents of the colleges within the proposed new league and the Ivy League. In the weeks ahead discussions will be continuing.

It is hoped that the formation of new, competitive Division IAA football league will be approved by the relevant institutional governing boards and announced in the late fall.

Solar Painting Planned For Museum

Continued from p. 1.

water as part of the building's solar heating system.

Using sun-resistant dye, Davis will color the 90 gallons of water in each tube to create a series of vertical stripes, which will be lit from behind by fluorescent lights. The 12-foot high wall should be readily visible from a distance both night and day. Davis will be here Sept. 30 to make preliminary plans for his solar painting.

"Gene Davis' installation could be called the world's first solar painting," says Glenn Lowry, director of the Muscarelle Museum. "Three-dimensional painting is a fascinating concept and a new development for Davis, although he has done many noted large installations before."

Unique environmental installations have been an important part of Davis' work as a painter. In 1972, he created a 31,709-square-foot painting called "Franklin's Footpath" on the road in front of the Philadelphia Museum of Art.

In 1975, to celebrate the 34th Biennial Exhibition of American Painting at the Corcoran Gallery of Art in Washington, Davis executed two paintings called "Magic Circle" on a pair of 14 x 59-foot walls in the Rotunda of the Gallery. In 1979, he created a painting of 363 x 60 feet in the parking lot of Artpark, in Buffalo, N.Y.

In a career spanning three decades, Davis' work has encompassed a broad range of approaches including Abstract Expressionism, shaped canvasses, neo-Dada collages, micro-paintings, environmental works, conceptual art, and even videotapes. It is, however, his stripe paintings, which have been the hallmark of his work as a painter.

His commissions have included a sixty-foot canvas for the state of New York's Capitol building in 1969; a mural for Neiman-Marcus in Bal Harbor, Fla., in 1970; and the official poster for the List Foundation, Lincoln Center Concert Series, New York.

Notebook

President's Hours

President Graves will hold "Open House" hours for students throughout the year continuing a tradition of providing opportunities for students to chat informally with him about any topic of their choosing.

The President has set aside the following hours to meet with students, over and above his daily calendar, and students are invited to stop by his office in Ewell Hall during these hours. No appointment is necessary. Callers will generally be given about 10 minutes.

The next Open House date is: —
Tuesday, Sept. 27 5-6 p.m.

Big Brothers, Big Sisters Need Volunteers

An informational film on the Big Brothers, Big Sisters program will be shown at the Williamsburg Regional Library at 7:30 p.m., Tuesday, Oct. 4. Students interested in working with the program are invited to attend.

For further information about Big Brothers, Big Sisters, please call the Williamsburg office, 253-0676.

Reel Virginia Auditions

An evening workshop of traditional Virginia dancing followed by auditions for dancers in state-wide touring group, REEL VIRGINIA, will be held at 7:30 p.m. on Saturday, Oct. 1 at the Wesley Foundation, 526 Jamestown Rd.

Reel Virginia is a traditional dance and music ensemble affiliated with James Madison University in Harrisonburg. The group was formed in 1979 when director Jean Sandos, formerly of Williamsburg, received an invitation to take a performing group to England for Summer festivals in 1981.

For further information, call 565-0634 (evenings only).

VIMS Program

The "Oceanography for Landlubbers" series will present a program designed especially for youngsters on Wednesday, Oct. 5, from 7:30 p.m. to 8:30 p.m. at the Virginia Institute of Marine Science (VIMS), Byrd Hall Conference Room, Gloucester Point, Virginia.

Charles Hughes, director, Marine Science Center for Norfolk Public Schools, will present a potpourri of marine science activities for youngsters. Children must be accompanied by an adult.

For further information on this program, please contact Mary Sparrow, (804) 642-2111, ext. 298.

Study Skills Workshops

Sept. 28th: PREPARING FOR TEST AND TEST TAKING TECHNIQUES

If you are used to miracles, then perhaps you may believe you can pass examinations without studying for them. For most of us, however, that's not possible. If you have followed the rules for effective study, you have done most of what is necessary to be ready for examinations, and you will have no need of miracles. In this workshop we offer you a few additional ideas particular to taking examinations.

This workshop and others on various aspects of study skills will be offered throughout the semester on Wednesdays from 7:30 p.m. to 8:30 p.m. in Jones 301.

Coach Wanted

Women's volleyball team seeks individual willing to donate time and coaching skills to this dedicated group for USVBA season. Contact Cecilia Williams 253-4019 or 229-4895 after 6 p.m.

Loan Closet

The Backpacking Equipment Loan Closet will be open on Mondays and Thursdays from 4-5 p.m. Packs, tents, sleeping bags, pads, cooking gear, and stoves are available for use. A \$10 deposit is required, with an additional \$10 for each additional tent. Deposits will be returned only if equipment is returned on time and in good condition. Please bring college I.D. Checks are preferable to cash. Closet is located in Adair Gym, 2nd floor. For more information, call Sharon Young at ext. 4535.

Le Gouter

Here's the answer to that question burning in Francophile minds! C'EST LE GOUTER! Come over to La Maison Francaise Thursday, September 29, 4:30-5:30 p.m. for fun French conversations and delicious food. "It's just what you need to escape early semester blues!" says a French House spokesman.

Pardee to Speak

Visiting Professor of Painting Hearne Pardee will speak about his landscape paintings in the Foyer of Andrews Hall on Wednesday, Sept. 28, at 7 p.m.

The college community is invited to hear a contemporary artist discuss his methodology and intentions in painting landscape.

Refreshments will be provided.

Foreign Service Careers

Constance Huggins, a Foreign Service Officer working in the Bureau for Refugee Programs, will be conducting a seminar for any students who might be interested in the Foreign Service. The seminar will include application procedures as well as her personal experience as a Foreign Service Officer.

The seminar is scheduled for Friday, Oct. 14 at 3:30 p.m. Please call ext. 4604 or come by the Office of Placement to sign up for this session. The location will be given at that time.

Busch Discount

The Old Country, Busch Gardens, has slashed admission prices for October. The Student Association is giving away free coupons for a \$5.75 discount on the single admission price to the park. The coupons may be used any weekend in October, 10 a.m. to 7 p.m. This is the perfect opportunity to take the whole family to Busch for Parents Weekend. Students, their parents, faculty and staff may pick up coupons in the SA office weekdays from 1-5 p.m.

Jackson Browne

The Student Association and Whisper Concerts have joined forces to bring Jackson Browne in concert to William and Mary Hall on Tuesday, October 18, at 8 p.m. Reserved seat tickets cost \$13.50 and \$12.50 for the public William and Mary students receive a \$1 discount on those prices for tickets purchased before October 8.

Tickets are on sale at the William and Mary box office. A valid student ID is required for discount purchases.

Fellowships for Business

John Brown, of COGME (Council for Opportunity and Graduate Management Education) will be in the Campus Center on Thursday, Sept. 29, from 1-4 p.m. He will have information on his organization which offers fellowships to minority students (Afro, Asian, Native American and Hispanic) for COGME's ten member graduate schools of business.

Calendar

WEDNESDAY, SEPTEMBER 28

Faculty Luncheon group, CC, Room D, noon
Placement Office, CC, Roomx A&B, 5 p.m.
Phi Mu, Wren Chapel, 6 p.m.
Problem Session (Math 111), Small 102, 6:30 p.m.
Kappa Delta, Wren Great Hall, 7 p.m.
Senior Class, Washington 100, 7 p.m.
Honors 201, Millington Audit., 7:30 p.m.
Study Skills, Jones 301, 7:30 p.m.
College Republicans, CC, Sit 'n Bull, 7:30 p.m.
COLONIAL ECHNO PICTURES, CC, Gold Room
DELTA SIGMA THETA CARNATIONAL SALE, CC Lobby, 4-7 p.m.

THURSDAY, SEPTEMBER 29

Women Today - Financial Planning, CC, Room C, 10:45 a.m.
CSA Mass, Wren Chapel, 12:30 a.m.
Placement Office - COGME, CC, Lobby, 1-4 p.m.
WMCF, CC, Room D, 5 p.m.
Alpha Chi Omega, Wren Great Hall, 5 p.m.
Canterbury, Wren Chapel, 5:30 p.m.
Shakespeare Meeting, PBK, Dodge Room, 5:30 p.m.
LSAT Course, Tucker 120, 5:31 p.m.
Navigators, CC, Sit 'n Bull, 6:30 p.m.
LDSSA, Morton 40, 7:30 p.m.
FCA, CC, Little Theatre, 7:30 p.m.
Placement Office, Morton 20, 7:30 p.m.
International Relations Club, Washington 200, 7:30 p.m.

Help Session, Math, Jones 105, 6 p.m.
Econ review, Morton 220, 7 p.m.
Anthropology Club, Washington 200, 7 p.m.
CSA Mass, Wren Chapel, 7:15 p.m.
Christian Science Organization, CC, Room D, 7:30 p.m.
CSA Movie, "Brother Sun, Sister Moon," CC Ballroom, 8 p.m.
English Dept. film, "The Heiress," Botetourt Theatre, Swem Library, 8 p.m.
NTSA, Wren Kitchen, 9 p.m.

WEDNESDAY, OCTOBER 5

Region II School Supts., CC, Rooms A&B, 9:30 a.m.

Faculty Luncheon, CC, Room D, noon
Math 111, Problem Session, Small 102, 6:30 p.m.
BSA, CC, Rooms A&B, 7 p.m.
Senior Class, Washington 100, 7 p.m.
College Republicans, CC, Sit 'n Bull, 7:30 p.m.
Accounting Club, PBK, Dodge Room, 7:30 p.m.
Honors 201, Millington Audit., 7:30 p.m.
Placement Office program, Morton 20, 7:30 p.m.
Study Skills, Jones 301, 7:30 p.m.

Lecture on Purcell

An illustrated lecture by Frank T. Lendrim, chairman of the music department on "Henry Purcell" will be given in Ewell 100, Oct. 5 at 7:30 p.m.

Purcell, the leading English composer of the last quarter of the 17th century, was the official court composer to Charles II, James II, and William and Mary.

Research leave was spent examining this topic.

Physics Colloquium

Paul Julienne, National Bureau of Standards, will be guest speaker at the Friday physics colloquium, Sept. 30 at 3:30 p.m. in Small 109. Coffee will be served in the conference room at 3:30 p.m.

German Movie

The movie "Blinde Spiele" will be shown at 8 p.m., Thursday, Sept. 29 at the German House. There is no admission charge.

Katz Lectures

Steven T. Katz, Visiting Walter G. Mason Professor of Religion, will give two public lectures on "The Holocaust in Historical Perspective." Katz is considered the leading scholar in the country today in the field of modern Jewish thought.

Katz will give his first lecture at 7:30 p.m., Tuesday, Oct. 4 and the second at 7:30 p.m. on Thursday, Oct. 13. Both lectures will be given in Rogers Hall 100 and are sponsored by the Department of Religion at the College.

Katz is visiting the College this fall from Dartmouth. He has also taught at Cambridge University, the University of Lancaster, and the Hebrew University of Jerusalem, among others. He has written and edited several books including "Mysticism and Philosophical Analysis and Post-Holocaust Dialogues: Studies in 20th Century Jewish Thought," published this year by the New York University PressA

Katz has three books in progress which have been accepted for publication and will be out either this year or 1984: "Cambridge History of Judaism," Cambridge University Press, for which he is a member of a three-member editorial team; "Cambridge History of 19th Century Religious Thought," for which he is one of four editors; and "Classical Jewish History; A Source Book," University of California Press. This volume contains over 300 pages of introductory essays and annotations for individual selections in addition to 700 pages of original source material.

Katz was baccalaureate speaker for the 1983 commencement at William and Mary and took as his topic, "Change and Renewal in an Uncertain World."

Katz was educated at Rutgers University (B.A., 1966); New York University (M.A., 1967) and Cambridge University (Ph.D. 1972). He was Supervisor of Divinity and Jewish Studies at Cambridge University 1969-71 and lectured in Judaism and Comparative Religion, 1971-72.

College Housing Has Variety — And Students

Formerly fraternity lodges, these buildings are now open to all student tenants.

Tonya Schirey and Bonnie Hobson have made an entire second story from a novel loft arrangement. They would like it known that come the end of the year, their loft deluxe will be on the market, available to the highest bidder.

All these people and more work for the Residence Hall Life office - second floor

Billie Hobart, Creative Arts House Director poses with members of the House who enjoy getting together around the piano for musical entertainment. The House is located in the Botetourt Complex. The House is planning an experimental drama program on the Stanislavsky method at 8 p.m., Friday, Sept. 29.

Edgar Williams of the music department will talk about protecting compositions with copyright at 8 p.m., Oct. 6. P.S. the House would not despair at parting with their ancient piano for one that is better tuned to the fine talent that uses it. donors please see Ms. Hobart.

Tutors in the Language Houses keep active the language and lifestyle of their European neighbors. From left to right, Roswitha Ursula Lastering, German House; Claire Villemin, French House; Elena Ramirez Zarco, Spanish House.

The outdoor advertiser is President Graves who is emphasizing the dedication of the Residence Hall Life Office staff to their tenants - "24 Hours a Day."

Linda D'Orso, assistant director, participates in the cooking part of WELLNESS WEEK program sponsored by the Office of Residence Hall Life.

— And Students Add Their Special Verve

... and more work for the Residence Hall Life office - second floor, James Blair.

The College this year is housing 4,005 students on campus.

Living in student residences is mandatory for freshmen but optional for all others. As the College's tenant count indicates, many students opt to live on campus beyond their first year.

College housing is relatively a good bargain when compared to outside rentals, it is conveniently located and provides a sense of community that is perhaps one of its biggest attractions.

Because students spend 60-70 percent of their college life outside the classroom - providing a residence lifestyle is more than just supply a safe and secure lodging, a bed, dresser and wardrobe says Chuck Lombardo, director of the Office of Residence Hall Life.

Lombardo manages a staff of 125, most of whom have daily contact with students in the residence halls.

The cadre of area coordinators who work with resident assistants are a professional group, most of whom have had several years of experience in the field of student affairs and masters degrees.

Students are offered a variety of housing options. There are the traditional dormitories on the old campus, flexible room arrangements on new campus in such facilities as the Randolph Residence complex, the Creative Arts House and Language Houses as well as facilities in fraternity row, sorority court and the Dillard Complex off Richmond Road.

A couple of students recently decided to add another option - an abandoned light tower at the Lake Matoaka amphitheatre. A loud stereo alerted the Campus Police to the lakeside hideout and the students were moved out to other quarters.

Like institutional food, housing has many customers, and is the target of some brickbats it doesn't deserve. There are annually students who complain about the computerized lottery system for room selection but usually all who want campus housing get it. At present there are actually two or three vacancies available.

There are about 80 rooms in the housing list which permit voluntary overcrowding. The College has designated these rooms for a level of occupancy which can be exceeded, if students wish to include another roommate. At present 12 of these are being used in this way. Everyone wishes all residence halls were air conditioned.

Students find many ways to decorate their rooms. This one belongs to a campus photographer.

Language Houses keep active the language and lifestyle of their European heritage. Roswitha Ursula Lastering, German House; Claire Villemin, French House and ... Spanish House.

Linda D'Orso, assistant director-housing, participates in the cooking contest which was part of WELLNESS WEEK, a college-wide program sponsored by the Office of Residence Hall Life.

Sorority Court is a special address on campus. On Richmond Road, on the edge of Merchants Square, the houses form a community which sorority members covet. Several years ago the College built a complex on the new campus, right next to the Com-

mons, expressly to house sororities, but members did not want to leave their old neighborhood, even for the advantages of new buildings. Botetourt Complex readily found tenants including the Creative Arts House.

'Sweeney Todd' Playwright As Well As Leading Actor

When the choir goes to England next spring, George Jack hopes to be along and visit the locale of a prize-winning script he wrote.

"Vignette" by Jack was ranked 11th in a field of 100 finalists in a Writer's Digest competition. For years the annual contest has honored poets and article and short story writers. This year it was expanded to include playwrights.

Jack's play is set in the Chelsea district of London during World War II and involves an Army officer caught between loyalties to country and family.

Scriptwriting is just one of the many talents of Jack who is currently cast in the title role of "Sweeney Todd," which will open the William and Mary Theatre season Oct. 6. Previously Jack played the leading role of Tevye in "Fiddler on the Roof," the musical which last season broke attendance records during its successful run.

Despite his success in writing, Jack says he struggles to get his ideas down on paper. It takes me a long time, he says. He previously wrote "A Heavenly Hell" as part of a playwriting course assignment and won the Howard Scammon Drama award. Both "Heavenly Hell" and "Vig-

nette" have been staged as student productions.

Acting is Jack's forte and he was already in rehearsal for his first role with the William and Mary Theatre before he started classes his freshman year. He was a member of the cast of "Company" his freshman year and has also appeared in "The Mikado" for the Sinfonicon Opera Company and several other mainstage productions including "She Stoops To Conquer," "Henry IV, Part I," "Cabaret," and "Of Mice and Men."

Last summer he was a volunteer for the Virginia Shakespeare Company and laughs about his experiences as a spear carrier in "Richard III."

He worked this summer at Busch Gardens. The summer after his sophomore year he was a member of the Colonial Williamsburg Company of Colonial Performers.

Looking ahead, Jack sees his future in the theatre. He plans to go to graduate school and if not acting, he would like to teach drama in college.

Jack worries that he worries too much about his acting roles. It is easy to lose

George Jack

perspective when deeply involved in a production, he says.

Louis E. Catron, who is directing "Sweeney Todd," says Jack is a delight to work with because he is so conscientious about his work and works well with the entire cast. Jack is a member of Phi Mu Alpha music fraternity and the F.H.C. Society.

College Acquires VIP Quarters For Visitors

Two new furnished and decorated town houses in "The Oaks on Henry" project have been made available for College use in 1984.

Dr. and Mrs. James S. Ellis of Shellis, Inc., and W. Edward Digges, partner and builder on "The Oaks on Henry," have made available to the College, one story, two-bedroom units on S. Henry Street near Route 199. They are scheduled to be available in the spring of 1984.

In thanking Dr. and Mrs. Ellis and Mr. Digges, President Graves has called the arrangement "a most generous and timely gesture" which provides the College with "splendid facilities for use by distinguished visitors and guests of the College."

"We have lacked such accommodations for some time, and these new apartments will be a most welcome addition to the College's capabilities," said President Graves.

Employee Notes

Busch Gardens Discount Coupons

Busch Gardens will be celebrating Virginia Chamber Days on Saturdays and Sundays in October. During this time, discount coupons for \$5.75 off the regular admission price will be available in the Personnel Office.

This special \$7.75 ticket (regular admission is \$13.50) includes all the park's rides, regularly scheduled shows and attractions. To receive the special discount, present your coupon at any General Admission window located at the park's front gate.

During Virginia Chamber Days, Busch Gardens is open from 10 a.m. to 7:00 p.m., Saturdays and Sundays only, from October 1 through October 30.

"Comparison of Hospital Charges"

The Personnel Office has a copy of the "Comparison of Hospital Charges" prepared by the Virginia Health Services Cost Review Commission. The list compares hospitals based on ten selected charges.

We urge you to receive quality care in the lowest cost setting when obtaining hospital services. Dollars saved in using less expensive services will hold down health care rates since these rates are based on claims paid and a small administrative cost. Claims payments account for 95% of the cost.

The benefits office in the Department of Personnel and Training is currently considering proposals from companies that want to administer the State's Health Care Plan. It is hoped that requesting proposals will lower the health care costs, but the only way to substantially reduce costs is for employees to continue to use health care services wisely.

Increase in Credit Union Membership Fee

Effective September 19, 1983, the Board of Directors for the State Employees' Credit Union raised the Credit Union's membership fee from 25 cents to \$5.00. The 25 cents fee was established when the Credit Union was organized in 1928, and a \$5.00 fee is considerably more realistic in view of the costs involved in setting up new accounts.

Application and other forms concerning the Credit Union are available in the Personnel Office.

Viewpoint

Public Needs To Get Involved In Schools

by
Robert Maidment*

During the summer newswriters devoted the most space to education since the post-Sputnik public outcry for improved school programs. The reason, of course, was the publication of a 65-page federal report entitled, "A nation at risk: The imperative for educational reform." One quote from this document underscores its import and impact--"The educational foundations of our society are presently being eroded by a tide of mediocrity that threatens our very future as a nation and a people."

Perhaps a few educators might bristle at these words until reminded of David Harum's aphorism, "All dogs need fleas." Predictably, however, as the report-generated irritants cause introspection by school officials, some improvements will be noted.

Pundits predict education will become a campaign issue in 1984. Our President is now recommending educational reform generally and merit pay specifically. Since space does not permit a point-by-point review of the National Commission report, we will confine our remarks to a single issue: the writers of the report have grossly overgeneralized. Now, anyone who would say that all public schools are lousy is a liar, and anyone who would say that all public schools are excellent is naive.

A few years ago the editors of a popular magazine designated "the nation's 10 best high schools" and perhaps unintentionally stuck a "Good Housekeeping seal of approval" upon those spotlighted. The magazine accolade more accurately could have read "the nation's best known schools." The National Commission similarly ventured to name certain outstanding schools in America. The trouble is that praising a few indirectly condemns the rest and that just isn't cricket.

Press agency isn't limited to the business community. Lawrence J. Peter appropriately reminds us that "an ounce of image is worth a pound of performance." The noted schools are good. The people who support them, operate them, and attend them already know it. And now, so do we. Unfortunately, there are no absolute standards for measuring the quality of schooling anywhere.

There is a concept in image building known as the snowman phenomenon: It

takes time and energy to build a snowman, but a few degrees can melt the effort into a puddle of "once was." When something does go awry within a public school, chances are good that it will be dutifully noted. We can't blame reporters and editors. Their job is to observe public officials and to report irregularities.

Because all that's good about schools can't be printed, we remember what's not so good. However, if your school didn't appear on the Commission's "elite" list, you need not be embarrassed. Most local school officials are conscientious, resourceful, and certainly mindful of their awesome public responsibility.

While the schools are being cranked-up again and before some of us permanently condemn the efforts of local educators, let's start with a new assumption: most teachers in most classrooms in most schools are performing with distinction most of the time. We know that this isn't newsworthy, but the schools' challenge to you is to check-it-out.

Here are a few suggestions:

*If you're a parent of a school-age child, pledge anew that you will place the highest priority upon your child's success in school. You do this by believing it, by saying it, and by following, day-to-day, your child's progress. Further, you do this by talking to your child and really listening about his or her time in school, checking on homework assignments and evidences of achievement, and periodically conversing with teachers.

*If you're a parent, or not, there are teachers and school officials living near you. Talk to them and find out what's happening. Ask the person who knows something about schooling to provide information for you about current local or national educational issues.

*Within the next few months attend a school board meeting. Find out how and on what your educational dollar is invested. That's right, "invested." We really don't "spend" money on education unless it's wasted.

*The larger school divisions have public information offices. Call and ask to be on their mailing list. And call again whenever you have a question about school governance or operation.

*Finally and most importantly, visit a school. Contact a principal and actually see what's happening in places called schools. Since you own them, visit them! Most principals we know would be so delighted

they'd probably buy a school lunch for the first few to call!

After a year of steady victories, Martina Navratilova was asked by a newscaster if she wasn't now more involved with her tennis. Martina purportedly replied, "I've always been involved; now I'm committed." When prompted to explain the difference she added, "Next time you have ham and eggs for breakfast, remember that while the chicken was involved, the pig was committed."

It takes involvement by the general public to keep our public schools open, appropriately funded, and productive. It takes commitment by our school personnel to meet and to exceed the rising expectations we all have for excellence in the public schools.

There are many schools in your area that deserved to be on the National Commission's list. Do you know which ones they are?

*Robert Maidment, a professor of educational planning, has a decade of managerial experience both in the public and private sectors. He was formerly an associate with the Institutional Management Division of Booz Allen, and Hamilton, Inc., Chicago. Prior to joining BA&H, he was a member of the graduate school faculty, Northwestern University.

A member of the faculty since 1970, Maidment also spent ten years as a school administrator in Virginia and Illinois.

In addition to his regular classroom schedule, Maidment conducts classes and workshops in public relations, personnel management, organization development, consulting skills and effective communication for educational, business, military and governmental clients. He is a senior consultant in his own educational consulting firm, Educatalysts.

Maidment is the author of several books, including, "Criticism, Conflict and Change" (Harper and Row); "Simulation Games--Design and Implementation" (Charles E. Merrill); "Robert's Rules of Disorder--A Guide to Mismanagement" (Pelican); "Straight Talk--A Communication Primer" (NASSP); and "Straight Talk--A Guide to Saying More With Less" (Pelican).

Parents Weekend

FRIDAY, SEPTEMBER 30

- 8:00 a.m. - Registration, Phi Beta Kappa Lobby
- 7:00 p.m.
- 8:00 a.m. - Classes Open to Parents - See enclosed schedule
- 5:00 p.m.
- 3:00 p.m. - Discussion with Freshman Parents - Campus Center Ballroom
- 4:30 p.m. - Ms. Linda Collins Reilly, Associate Provost, Presiding
- 3:00 p.m. - Women's Varsity and JV Field Hockey vs. James Madison University, -Barksdale Field
- 4:00 p.m. - Reception for Parents, Faculty and Staff hosted by
- 3:30 p.m. - President and Mrs. Thomas A. Graves, Jr. - Wren Yard; in case of rain, Sir Christopher Wren Building
- 8:45 p.m. - Parents Weekend Concert - The William and Mary Choir and
- 10:30 p.m. - the College-Community Orchestra - Campus Center Ballroom

SATURDAY, OCTOBER 1

- 8:00 a.m. - Registration, Phi Beta Kappa Lobby
- 2:00 p.m.
- 12 noon - Women's Volleyball Tournament - Adair Gymnasium
- to
- 8 p.m.
- 8:30 a.m. - Continental Breakfast - Andrews Lobby - Administrators of the College will be present
- 9:00 a.m. - Lecture and Panel Series:
- 9:45 a.m. - "The Soviet Leadership and Arms Control" - Mr. Morris A. McCain, Jr., Department of Government - Millington Auditorium
- "Teaching Music at William and Mary" - Mr. Frank T. Lendrim, Department of Music, assisted by the Botetourt Chamber Singers - Rogers Auditorium
- "Career Planning Opportunities at William and Mary" - Ms. Harriet Reid, Director of Career Planning - Andrews 101
- 10:00 a.m. - "President and Congress: Looking Toward the 1984
- 10:45 a.m. - Election" - Mr. Jack D. Edwards, Department of Government, Acting Dean of the Faculty of Arts and Sciences - Millington Auditorium
- "A Day in the Life of Suzy Cream Cheese" - Mr. W. Robert Collins, Department of Mathematics and Computer Science - Rogers Auditorium
- *"The National Electronic Accelerator Laboratory; A New Opportunity for Science at the College" - Mr. Hans C. von-Baeyer, Department of Physics and Director of the Virginia Associate Research Campus - Andrews 101
- "Resident Assistants: Students Helping Students" - Mr. John Fitzpatrick, '84; Mr. Jeff Fish '85; Ms. Liz Offield, '84; Ms. Zandra Thompson, '83 - Small 113
- "Rising Costs of Higher Education: Suggestions for Planning and Coping" - Ms. Amy L. Jarmon, Associate Dean of Students; Mr. E. Leon Looney, Director of Student Financial Aid - Small 109
- 11:00 a.m. - Women's Varsity Field Hockey vs. University of North Carolina - Barksdale Field
- 11:00 a.m. - Men's Varsity Cross Country vs. Duke University - Dillard Complex Course
- 11:00 a.m. - General Session - Ms. Hope Solomon, Student Chairman, Parents Weekend, Presiding; Mr. Thomas A. Graves, Jr., President of the College of William and Mary; Mr. and Mrs. Tom C. Korologos, Chairmen, Association of Parents - Phi Beta Kappa Auditorium
- 12 noon - Lunch - Andrews Lawn; in case of rain, William and Mary Hall
- 1:30 p.m. - Men's Varsity Football vs. Yale University, The Oyster Bowl - Forman Field, Norfolk, Va.
- 2:00 p.m. - Women's Varsity Soccer vs. George Mason University - Dillard Complex Field
- 2:00 p.m. - Plant and Landscape Tour including greenhouse and grounds - Millington Auditorium
- 2:00 p.m. - Tours of the Muscarelle Museum of Fine Arts
- 3:00 p.m. - Muscarelle Museum Lobby

- 2:00 p.m. - Greenhouse open for self-guided tours, Millington Hall
- 5:00 p.m.
- 2:00 p.m. - Tours of the Sir Christopher Wren Building
- 5:00 p.m. - with costumed guides - The Wren Building

The following Residence Halls and Organizations have scheduled receptions in honor of their parents:

- | | |
|----------------------------|----------------|
| Alpha Chi Omega | 2-4 p.m. |
| Barrett Hall | 2-5 p.m. |
| Bryan Complex | 3-5 p.m. |
| Dupont Hall | 3:30-5:00 p.m. |
| Fauquier/Spotswood | 4:00 p.m. |
| Kappa Alpha Theta Sorority | 1:00-3:00 p.m. |
| Phi Mu Sorority | 4:00-6:00 p.m. |
| Spanish House | 4:00-5:30 p.m. |

- 8:00 p.m. - "An Evening with Douglas Fairbanks, Jr." - William and Mary Hall

SUNDAY, OCTOBER 2

- 7:30 a.m. - Men's Varsity Golf - Alumni Tournament - Kingsmill on the James
- 9:30 a.m. - Ecumenical Worship Service - Presented by Campus Ministries United - Wren Chapel
- 10:00 a.m. - "An Occasion for the Arts" - Merchants Square
- 5:00 p.m.
- 1:00 p.m. - Men's Varsity Lacrosse vs. University of North Carolina - Intramural Field

*NEAL is a major new laboratory for nuclear science planned for construction at the Newport News campus of the College in 1984-90. Managed by a consortium of 23 universities, it will be unique in the world, cost 200 million dollars, and employ 200 scientists.

The Association of Parents appreciates the assistance of Alpha Phi Omega, Circle K, Delta Delta Delta Sorority, Kappa Kappa Gamma Sorority and Ms. Gretchen Hines, who volunteered their services to the 1983 Parents Weekend program.

HBO & Company

On September 26 at 7:30 p.m. in Morton Hall 141, the HBO & Company will present an informational seminar. They will interview the following day in the Office of Placement, 140 Morton Hall.

HBO & Company is a computer software and time-sharing firm which works only with programs for hospitals. *No computer background is necessary.* Good communication, organizational and human relations skills are necessary.

This firm is on the New York Stock Exchange. It is a young, progressive, high tech company.

The company is seeking 60 new employees this year, most of which will be customer service related.

This is a particularly good company for those students in the liberal arts area. *December 1983 graduates are especially urged to attend the seminar and make interview arrangements with the Placement Office.* Appointments to attend the seminar can be made by phone, ext. 4604.

National Security Agency

Registration forms are now available in the Office of Placement (Morton 140) for the National Security Agency's Professional Qualification Test (PQT) which will be administered on campus on November 12, 1983.

Deadline for receipt of registration forms is October 22.

The PQT is an aptitude test which provides NSA with important screening data toward selecting the best college candidates for employment.

Students must score well on this test in the Fall in order to receive an invitation to interview NSA during the Spring

semester.

Any student with at least 2.8 grade point average (on a 4.0 scale) who will receive a minimum of a bachelor's degree by Feb. 1985 is eligible to take the Professional Qualification Test. *Any computer science major, as well as any graduate-level mathematician, need not take the PQT.*

Film Crews Here

Walt Disney Productions has been filming in Williamsburg as part of their update of their America the Beautiful film shown at the two parks in Anaheim (Disneyland) and Orlando (Disneyworld). The campus filming was done Sat., Sept. 17 in the Wren Courtyard and Sunken Garden areas, and the Disney folk say it is among the best film that they have made on this trip. The crew left Williamsburg to go to Amish country and New England.

The finished product will be previewed in California as part of the celebration and publicity for the 1984 Olympics in Los Angeles in the summer of 1984.

Parents Weekend

continued from p. 1.

(NEAL) at VARC in 1984-90 and the new opportunities for science at the College it presents. NEAL will be managed by a consortium of 23 universities, including William and Mary and will be unique in the world. It will cost 200 million dollars and employ 200 scientists.

Ms. Amy Jarmon, associate dean of students and E. Leon Looney, director of Student Financial Aid, will talk about rising costs of higher education and make suggestions for planning and coping with these costs.

Employment

The following positions are open to all qualified individuals; however, current faculty and classified employees will receive first consideration. Except where noted, inquiries and applications should be made at the Personnel Office, 201 James Blair Hall, and not at the department where the opening exists. Call 229-JOBS (229-5627) for an updated listing and 24-hour service. An EEO/AA employer.

TELEVISION PRODUCTION SPECIALIST B (Grade 10)--Salary range \$16,631 to \$22,718 per year. Starting salary dependent upon experience or exceptional qualifications and previous salary level of appointee.

Incumbent serves as Assistant Director of Educational Media Services with responsibility for campus-wide television services.

Qualifications--Interest and experience using TV in instructional settings; ability to supervise both high-quality TV and audio production and one or more educational media functions; willingness to combine management with hands-on work; excellent communication skills; ability to apply instructional design principles; and interest in teaching TV skills in both formal and informal instructional settings. Master's degree in related field preferred. Educational Media, deadline, Oct. 3.

LABORATORY AIDE A -- unclassified, part-time, \$3.59 per hour, approximately 10 hours per week.

Qualifications -- Ability to process benthic macrofauna required. VIMS (Invertebrate Ecology), deadline, Sept. 28

CAMPUS POLICE SERGEANT (Grade 8) -- Salary range \$13,921 to \$19,011 per year. Starting salary dependent upon experience or exceptional qualifications and previous salary level of appointee. No. 297

Qualifications -- Incumbent must possess superior capability in personnel relations and supervision and pass an extensive background investigation. Must be able to meet requirements and standards for police officers in Virginia as set forth by the Criminal Justice Service Commissions. Shift work required. Campus Police Office, deadline, Sept. 29.

MOTOR VEHICLE OPERATOR A (Grade 2) -- Salary range \$8,152 to \$11,144 per year. Starting salary dependent upon experience or exceptional qualifications and previous salary level of appointee. No. 10

Incumbent is responsible for the pick up and delivery of all freight, UPS, mail, warehouse issues and other packages received at the warehouse to various departments.

Qualifications -- High school graduate or equivalent preferred. Ability to handle storekeeping procedures effectively required. A valid State of Virginia driver's license required. Must be able to lift heavy objects. Working knowledge of the operation and maintenance of light duty automotive equipment preferred. Purchasing and Stores, deadline, Sept. 29

CLERK B -- unclassified, part-time, \$3.92 per hour, approximately 35 hours per week.

Incumbent is responsible for handling mail transactions and maintaining post office files.

Qualifications -- High school graduate or equivalent with clerical skills preferred. Knowledge of mail procedures preferred. Campus Post Office, deadline, Sept. 29.

CLERK TYPIST C -- Unclassified, salary range \$9,749 to \$13,309 per year. Full benefits available.

Incumbent is responsible for all incoming calls to the School of Business, typing and other clerical duties.

Qualifications -- High school graduate or equivalent with clerical skills preferred. Typing test required. School of Business, deadline, Oct. 3.

LIBRARY ASSISTANT (Grade 7) -- Salary range \$12,731 to \$17,390 per year. Starting salary dependent upon experience or exceptional qualifications and previous salary level of appointee. No. 317.

Responsible for the bibliographic verification and acquisition of book materials for selected academic departments and the receipt of all gift materials.

Qualifications -- Knowledge of library procedures (preferably academic) required. Knowledge of bibliographic data base including use of the OCLC online bibliographic data base preferred. Ability to logically organize and coordinate work. Must be able to work well under varying periods of pressure. Swem Library, deadline, Sept. 30.

EQUIPMENT MANAGER -- Unclassified, salary range \$14,000-\$16,000 per year. Full benefits available.

Incumbent is responsible for supervision of laundry, maintaining neat, well-organized dressing rooms, storage and equipment areas. Monitors scheduling and maintenance as well as marking of practice fields and stadium. Supervises Assistant Equipment Manager.

Qualifications -- Extensive demonstrated ability in issuing, fitting, storing and making minor repairs to athletic equipment needed. Knowledge or inventory procedures required. Athletic department, deadline, Oct. 15.

PHOTOCOPY EQUIPMENT OPERATOR A -- Unclassified, part-time approximately 12-15 hours per week. \$3.92 per hour. Hours 7-10 p.m., Monday through Thursday and 7-10 p.m. on alternate Sundays.

Responsible for operation of duplicating equipment including microfilm reader/printer, 3M transparency machine, Xerox 2000 copier, IBM 3 copier and Tech 140 cash register.

Qualifications -- High school graduate or equivalent with experience using duplicating equipment preferred. Ability to work with the public required. Educational Media, deadline, Sept. 30.

Campus Housing

Continued from p. 5

The College houses freshmen together in residence halls because they feel new students have special needs. The staff-student ratio in these halls is about 20-1. In the upperclass halls the ratio is 40-55-1. Also faculty advisers are assigned to freshmen halls as academic advisers to help students feel at ease in their new environment. Programs throughout the year in the residence halls are a mix of information and entertainment, arranged by residence advisors, often in concert with residence hall tenants.

One recent addition to the campus housing is Jefferson West, a Richmond Road motel which has been leased during the academic year by the College to house students displaced by the fire that gutted Jefferson Hall last winter.

Fire safety is part of the regular routine of the residence hall life staff and Debbie Boykin works closely with Chief Bailey of the Williamsburg Fire Department but the attention of the entire campus and community became riveted upon it last year.

Debbie Boykin, assistant director of residence hall life facilities coordinator works closely with the Williamsburg Fire Department throughout the year. Policies and procedures have been sent to Chief

William and Mary

NEWS

The William and Mary News is published weekly by the Office of University Communications during the academic year, except when the College is in recess and twice each month in June, July and August.

Barbara Ball, editor
Publications Office, production

News items for the News should be in hand at James Blair 310 by 5 p.m. on the Thursday preceding the Tuesday of publication. Short items may be phoned in to the office at ext. 4331. Please turn in information about coming events as soon as possible, at least two weeks before the event is to take place.

Classified advertisements may be submitted by members of the College Community, faculty, staff and students. The rate is \$3 for three consecutive insertions of not more than 40 words each.

Bailey for his review and suggestions. Members of the Fire Department often come to campus to give programs in the residence halls and at least two fire drills are held each semester in each hall.

By Jan. 1 the campus will enjoy the state of the art protection when a project connecting all residences with an alarm system at the Police Campus Police Office is completed. This is not mandated by the state. Smoke detectors are located in all rooms, hallways and kitchen areas. Twice a year inspections are made to the Buildings and Grounds departments.

The system of zone managers for maintenance also serves as a safety factor. Members of the Buildings and Grounds department are assigned a particular area and are responsible for minor repairs and getting larger ones done by the department.

The Residence Hall Office staff credits the College's policy of Self Determination, the pride that employees such as the housekeepers and zone managers take in their areas with the low vandalism record. Last year less than \$5,000 in non-assigned damage was reported. In comparison with other schools of similar size, this is a good record says Lombardo.
