

## Iseler Concert Added To Series

A concert by the Elmer Iseler Singers of Canada, at 8:15 p.m., Thursday, Dec. 8, in Phi Beta Kappa Memorial Hall has been added to the Concert Series scheduled at the College of William and Mary.

General admission tickets are \$5 and will be on sale the evening of performance at the Phi Beta Kappa box office. Tickets may also be purchased in advance at the Student Activities office in the Campus Center. Tickets for William and Mary students, faculty and staff are \$4.

The Elmer Iseler Singers comprise a choir of 20 highly trained singers, each with an extensive background in choral music. The choir made its debut at St. James Cathedral in Toronto in 1979. The director, Dr. Elmer Iseler, is conductor of the Toronto Mendelssohn Choir, of which the Iseler Singers form the professional core.

The Isler Singers have an active concert schedule and are also involved in many projects in association with the Canadian Broadcasting Corporation. The choir's repertory spans five centuries. Their contribution and dedication to Canadian music is well recognized.

For their concert in Williamsburg, the singers will perform music dedicated to their homeland, entitled, "A Canadian Christmas." A collection of holiday songs, this work includes works by several contemporary composers including Derek

Holman, Louis Applebaum, Healey Willan and arrangements by Robert Anderson and Elmer Iseler.

The program will open with Kyrie and Gloria from Mass in C Major K115 by Mozart; "Angus Dei," by David Fanshaver; "David's Lament for Saul and Jonathan," by Philip Hagemann; "Jesu, Erbarme Dich," by Claude Vivier; and "O be Joyful in the Lord," by Ralph Vaughan Williams.

### Student Notices

Notices have gone out from Dean Sadler's office to all undergraduates reminding them that withdrawal from individual courses and from College must be completed by Friday, Dec. 9.

Forms for course withdrawal are available at the Registrar's office. Forms for withdrawal from College may be obtained in the office of the Dean of Student Affairs.

Students are expected to take their examinations as scheduled, unless permission to alter the schedule has been granted by the Office of the Dean of Students.

# William and Mary NEWS

Tuesday, December 6, 1983  
Volume XII, Number 14

Permit No. 26  
Non-Profit Organization  
U.S. Postage PAID at Williamsburg, Va.

Tuesday, November 29, 1983

TO: The College Community

On November 28 I sent the following memorandum to the Board of Visitors.

"The Self-Study now underway and the work of the Long Range Planning Commission that is about to begin will point the direction and establish the priorities for William and Mary for the next ten to fifteen years. It is important to the College, I believe, that, starting in the 1985-86 academic year when these guidelines will be firmly in place, there will be continuity in the presidency of the College in providing leadership to that direction.

"Therefore, after personally informing the Rector and Vice Rector, I am writing to inform you of my intention to complete my tenure as President in the summer of 1985. Dr. George R. Healy, who has been my strong right arm ever since, also intends to complete his tenure as Provost in the summer of 1985, and he has asked me to write to you accordingly. Our plans are of course subject to the pleasure of the Board of Visitors.

"This notice will, I believe, allow both the Self-Study Committee and the Long-Range Planning Commission to conduct and complete their important work within the same general time frame as your search for my successor and Dr. Healy's successor, a relationship which I hope will be of benefit to the College and its future direction and leadership.

"William and Mary has highly skilled, caring and dedicated faculty members and administrators, and superior students of high promise. My commitment under your direction is, in the months ahead, to strengthen the educational and financial climate in which they may flourish."

I hope that this College Community, which includes not only faculty members, administrators, staff and students, but also thousands upon thousands of loyal and generous alumni and friends, will join together to do all that we can during the months ahead to strengthen the overall educational environment--to provide a setting for teaching and learning, for research, and for personal and professional growth, that is second to none. Together we have the ability to set a positive and confident stage for William and Mary to move forward toward its fourth century.

Thomas A. Graves, Jr.  
President

(The above statement was circulated on campus last Tuesday and because of the holiday printing schedule, could not be included in the News until this issue.)

## Board Of Visitors Assists Shakespeare Festival

The Board of Visitors approved a contribution of \$7,000 in unrestricted private funds for the Virginia Shakespeare Festival as part of a proposed Festival budget of \$159,500 for the 1984 season. The Board met in regular session Dec. 2-3.

The Board also voted \$12,114.55 from unrestricted private funds to balance the 1983 Festival budget. In approving the Festival budget for next year, the administration recommended that, should the Festival in 1984 run a deficit which would require board of Visitor private funds beyond the budgeted \$7,000, it would be reconsidered after that season as a College activity.

The Board made the following appointments to fill existing vacancies:

Warren W. Buck, part-time visiting professor of physics, effective Jan. 16 thru May 15, 1984.

John Sidney Day, full-time professor of business administration, Jan 15-May 15, 1984.

Mark H. Waymack, part-time instructor of philosophy, Jan. 16-May 15, 1984.

The Board accepted the resignation of Sandra K. Peterson, Documents Librarian in Swem Library, effective Jan. 15 and approved an extended leave of absence without pay for Robert E. Welsh, professor of Physics, from Jan. 1-April 30, 1984 to continue his research at CERN in Switzerland.

Karl T. Walli received the J.D. Carneal, Jr., Tax Scholarship.

This scholarship is given each year to a student interested in the field of taxation with a view toward earning the degree of Master of Law and Taxation at the College. The scholarship this year amounts to \$1,100.

Walli received his undergraduate degree in political science from the University of Tennessee, graduating in 1979 with highest honors, and his J.D. degree in 1982 from the University of North Carolina. He commenced studies at the Marshall-Wythe School of Law toward of Master of Law in Taxation in August.

To: The Faculty and Administration  
of the College  
From: Thomas A. Graves, Jr., President  
George R. Healy, Provost

Date: 2 December 1983

Subject: Budget Planning, 1984-85

It is hazardous to predict salary and other budget decisions before we have complete and reliable revenue figures for next year. Even so, and with only the provision that we receive about as much money from the State as we now expect to receive, we will be able to award salary increments for 1984-85 which will average 10% for continuing faculty.

The effectiveness of the faculty depends on more adequate academic operating support, as well as on a better salary structure. Subject only to the same provision about revenues, we therefore are planning substantial increases for instructional M&O and for library purchases in 1984-85.

These actions regarding salaries and M&O firmly commit us to an increase in the percentage allocation of E&G funds to instruction. To achieve this we expect to fund no additional positions in non-instructional budget categories, and to make there such further expenditure reductions as are consistent with effective and efficient operations. New instructional positions will be funded only under extraordinary circumstances, so as to allow the greatest possible allocating of instructional funds to salary increments for continuing faculty.

# Derby Day 1983 Benefits Local Red Cross Chapter

The spirit of goodwill manifests itself in many different ways during the holiday season on campus.

Members of the College staff and faculty are serving as storytellers this week for small school children who have been invited to the Wren Building for a holiday program.

Sigma Chi fraternity recently presented a check for \$1909.04 to the Williamsburg-James City County chapter of the American Red Cross from Derby Day activities.

Some 65 school children from the Williamsburg and James City County area who are served by the Social Services office, were treated Saturday to a party and gifts from Santa at a Green and Gold Christmas party on the concourse in William and Mary Hall. The party was a spontaneous outpouring of time and talent contributed by students in Old Dominion, Monroe, Bryan and Botetourt residences.

This is the first year that Derby Day funds have been given to a local charity. In the past Derby Day funds were sent to Wallace Village in Colorado, a school for minimally brain damaged children which is regularly supported by Sigma Chi, and a philanthropy designated by contributing sororities to contribute to the Derby Day program.

"It's too bad it had to be the Jefferson dorm fire that gave us a common goal," said Derby Day chairman Bill Shonk. But planners were enthusiastic about having a common goal and a local charity to which funds could be donated.

Of the 185 students evacuated from Jefferson Hall the night of the fire, 161 were served by the Red Cross which spend \$25,569 for clothing for students; \$14,496 for replacement of books; \$750 on medical items; \$264 in comfort kits; \$174 in thermal underwear and socks, replacements for the firemen at the scene; and \$352 in administration costs including thank you cards.

The total disaster expenses of \$41,605 were offset by \$22,906 and \$18,699 which was advanced by the National Red Cross. Local staff logged 740 hours on fire-related matters.

Shonk said the fraternity was grateful for the participation of students at Derby Day, members of the faculty and administrators who volunteered as judges for the various contests and the help of Dean Kenneth Smith and Mrs. Betty Kelly of the Office of Student Activities.

President Graves posed as Santa for the children who attended the Green and Gold Christmas party and he was assisted by Dean Sadler and members of his staff, including Amy Jarmon, John Thrash and Chuck Lombardo.

Shamrock and several merchants in town, including Pantry Pride, Lou Smith, Nottingham Drug Store, Wythe Candy, Woolworth's, and Toys and Gifts at the Outlet Mall, contributed to the party which was organized by a student committee composed of Kord Basnight, Liz Oldfield, Tom Johnson, Jo-Anne Schueller, Rietta Stoneman, Kirk Payne and Tim Thomas.

## Vivaldi Concert

The music of Antonio Vivaldi will be featured in a concert at 8 p.m., Dec. 15 by the Feldman Chamber Music Society at the Williamsburg Regional Library Arts Center Theatre.

The Quartet will join ten other performers to form a strong orchestra consisting of Laura Bald, Sharon Kerr, Lawrence Mednick, Sherry Mendoza, Dora Mullins, Diane Nobles, Frank Ridger, Mineko Yajima, violin; Linda Decker and Ronald Marshall, viola; James Herbison and Janet Kriner, violoncello; Dan Via, bass; James S. Darling, harpsichord.

Tickets for the Williamsburg performance are available at the Auxiliary Services Department of the Library for \$5 or tickets may be reserved by calling 229-7326.

Mrs. Carol Latoski, secretary of the Williamsburg-James City County chapter of the American Red Cross (1) and Jean Wyer of the School of Business Administration faculty, chairman of the Chapter Board, receive a Derby Day check from Chairman Bill Shonk. On hand for the presentation were representatives of sororities that participated in Derby Day. From left to right, Tracy Brownly, Kappa Alpha Theta; Anna Kuhn, Delta Gamma; Lee Katman, Gamma Phi Beta; Anna Carew, Pi Beta Phi, Jenny Nazak, Delta Delta Delta; and Anne Blessing, Kappa Delta.

The money raised by Derby Day will be used to purchase CPR training equipment. Derby Day Champion was Kappa Alpha Theta sorority. Fundraising champion was Alpha Chi Omega sorority.

## A Green And Gold Christmas

Unwrapping gifts was as much fun for the givers as the receivers.

Santa was on hand to take requests and his helpers were ready with lots of toys.

### A Note of Thanks

On behalf of the Williamsburg-James City County Chapter of the American Red Cross, I wish to thank the Brothers of Sigma Chi for their work in support of our Cardiopulmonary Resuscitation Program. Over \$1900 raised through the fraternity's annual Derby Day has been donated to the Chapter for the purchase of equipment to be used in CPR instruction.

I also want to thank the members of the ten sororities who participated in the Derby Day activities: Alpha Chi Omega, Chi Omega, Delta Delta Delta, Delta Gamma, Gamma Phi Beta, Kappa Alpha Theta, Kappa Delta, Kappa Kappa Gamma, Phi Mu and Pi Beta Phi.

Without the support of the local business community, Derby Day would never have become a reality. I wish to thank the following commercial participants: M. Price Distributing Co., Kwik Kopy Printing, Flower Cupboard, Paul's Deli, Milton's Pizza, George's Restaurant, McDonald's, Farm Fresh, Black Forest Cafe & Bakery, Massey's Camera, Peninsula Hardware, Pantry Pride and Upstairs/Downstairs.

Special thanks are also due to Mr. Bill Shonk who persevered through confusion and adversity to create this year's Derby Day.

The Chapter and the whole community benefit from the efforts of all the participants.

Sincerely,

Dr. Jean C. Wyer  
Chairman  
Board of Directors  
Williamsburg-James City  
County Chapter  
American Red Cross

## Notebook

### President's Hours

President Graves will hold "Open House" hours for students throughout the year continuing a tradition of providing opportunities for students to chat informally with him about any topic of their choosing.

The President has set aside hours to meet with students, over and above his daily calendar, and students are invited to stop by his office in Ewell Hall during these hours. No appointment is necessary. Callers will generally be given about 10 minutes.

The next Open House date is: —  
Thursday, Dec. 8 4-5 p.m.

### Holiday Greens

Grounds crews will once again be pruning certain plant material on campus to make holiday greens available to the college community.

Holly, boxwood, cypress, pine and magnolia branches will be available on Tuesdays and Thursdays from 10:00 a.m. to 3:00 p.m. beginning December 8th. Office employees are encouraged to give students the opportunity to have their choice the first day. Trimmings will be available through December 22nd. Greens may be picked up near the campus police station.

Special Request should be made to Roy Williams, ext. 4382.

### No Evening Swims

Adair Pool will close for the Christmas holidays on Dec. 16. From Dec. 12-16, pool hours will be as follows: Monday-Friday, 7-8 a.m. and 11-12 noon; Monday-Thursday, noon to 1 p.m.

The pool will reopen on the first day of classes, Jan. 16.

### Calculating Earnings

All College employees are reminded that if check stubs are used to calculate wage earnings for 1983, the College of William and Mary/Virginia Institute of Marine Science check stub No. 3 dated December 31, 1983 should be used for this calculation. This stub includes all wages earned at the College or VIMS this calendar year. The Commonwealth of Virginia earnings statement does not have your total wages listed.

### Orientation Aides

Any student interested in participating as a freshman or transfer Orientation Aide for January should pick up an application form in James Blair 210. Applications will be available beginning Friday, Dec. 2 and must be turned in no later than 5 p.m. on Monday, Dec. 12.

### Lost and Found

The College operates a 24 hour lost and found service at the Campus Police Department. Found items are held for 30 days before being released to the finder or disposed of in accordance with state property regulations. Telephone the Campus Police, ext. 4596, to report lost articles and make inquiries. Found items may be turned in at any time.

### Physics Colloquium

Michael Posternak, Institut de Physique Appliquee, Switzerland, will be guest speaker at the physics colloquium to be held at 4 p.m., Friday, Dec. 9 in Small 109. Coffee will be served in the conference room at 3:30 p.m.

Posternak will take as his topic "Electronic Structure of Graphite and Li-Intercalated Graphite."

## Career Library Lists Internships

(For further information on program listed below, students are directed to specific notebooks in the Career Library, Morton 140.)

### The Bolles School

The Bolles School Teacher Intern Program has been established to offer training to those individuals who may be interested in a career in independent schools, but have not prepared for such a career. The intern's responsibilities include acting as a member of the residence staff as well as teaching classes. Candidates should have earned a bachelor's degree within the last five years.

See announcement in Internship Book I, Education section.

### Newsweek

Newsweek magazine's Summer Internship Program is designed primarily for college juniors who will be entering their senior year the fall of 1984, although graduating seniors and graduate students may apply. Candidates must have experience in journalistic writing and reporting. Application includes a cover letter, resume, and samples of published works. Deadline for application is Jan. 2.

For more information, see Internship Book II, journalism section.

### Richmond News Leader

The Richmond News Leader's summer intern program offers six undergraduate student internships in general reporting, copy desk, sports department and People department. Their assignments are similar to those of regular staffers and they are given opportunities to learn how beats are covered. Application deadline is January 1, 1984.

See announcement in Internship Book II, Journalism section.

### Psychiatric Intern

The VENTURE Program job bank contains a variety of different job opportunities

### Psychiatric Intern

The VENTURE Program job bank contains a variety of different jobs opportunities for undergraduates who are planning to take time off. One of the jobs entails working at a residential psychiatric treatment center for teenagers. The student intern is employed as a dormitory resident advisor. The responsibilities range from working directly with patients to collaborating on diagnostic evaluations. This position has been recommended very highly by previous VENTURE students.

To find out more about this or any other job offered through the VENTURE Program, contact Mary Przyppszny, Office of Career Planning, Morton 140, x4427. (Job No. C-239)

## Calendar

### WEDNESDAY, DECEMBER 7

Region 2, School Supts., CC, Rooms A&B, 9:30 a.m.

Faculty luncheon group, CC, Room D, noon BSO, CC, Rooms A&B, 6 p.m.

Closeup Foundation, Morton 1, 2, 30, 36, 38, 6:30 p.m.

Math III Problem session, Small 102, 6:30 p.m. Circle K, CC, Little Theatre, 6:30 p.m.

Soccer Club Award, CC, Ballroom, 7 p.m.

Honors 201, Millington Aud., 7:30 p.m.

College Republicans, CC, Sit 'n Bull, 7:30 p.m.

Psi Upsilon, CC, Room D, 8 p.m.

Theta Delta Chi dance, CC, Ballroom, 9 p.m.

### SATURDAY, DECEMBER 10

GRE, Millington Aud., 7:30 a.m.

SBA, Graduate Student House, 8 p.m.

### SUNDAY, DECEMBER 11

Cinema Classics Society, Millington Aud., 7 p.m.

Washington Concert Singers & Orchestra, CC Ballroom, 7:30 p.m. (reception follows performance)

### MONDAY, DECEMBER 12

Biology 101 Review, Millington Aud., 7:30 p.m.

### TUESDAY, DECEMBER 13

Women in Business Luncheon, CC, Ballroom, noon

### WEDNESDAY, DECEMBER 14

Faculty Luncheon group, CC, Room D, noon.

## Yule Log Tradition Continues

The Yule Log Ceremony, a tradition at the College since 1930, will be reenacted at 6 p.m., Saturday, Dec. 17 at the Wren Building, ushering in the Christmas season on campus.

Members of the College community and area residents are invited to participate in the program which begins with a round of carols led by the William and Mary Choir under the direction of Frank T. Lendrim, chairman of the music department and director of the choir.

O.T. Trumbo, a senior from Leesburg, Va., vice president of Mortar Board, an honor society, will give welcoming remarks and will introduce Sam Sadler, Dean of Students, who will read the Christmas story from the Bible.

Trumbo will also introduce President Thomas A. Graves, Jr., who will also read a seasonal story. In the past President Graves has delighted audiences with his special adaptation of "The Grinch Who Stole Christmas."

The traditions of the Yule Log Ceremony will be explained by Travis Ebel, president of Omicron Delta Kappa leadership honorary, and a senior from Reston, Va.

The highlight of the program will be the arrival of the Yule Log. Students will carry it on their shoulders into the Great Hall of the Wren Building. Spectators touch the log with a sprig of holly and then toss the holly in the fire, reviving a superstition said to bring good luck during the holiday season. Sprigs of holly will be distributed by members of Mortar Board.

Refreshments will be served by members of Mortar Board and ODK on the portico of the Wren Building at the conclusion of the program.

There are many superstitions surrounding the ceremony of the holly. It was thought that touching the holly to the log warded off evil spirits and that cares of the past year went up in flames as the sprig was tossed into the fire.

The ceremony of the Yule Log is believed to have started with German tribes in northern Europe as part of their winter festival. In medieval times, a log, which was sometimes the whole trunk of a tree, was selected on Candlemas Day (The Feast of Purification, February 2) and carefully stored to dry out during the summer. On Christmas Eve it was dragged into the house and kindled with the unburnt parts of the last year's log, which had been saved for that purpose.

The Scots and English later adopted the custom and applied it to their Christmas celebration, and the tradition arrived in America with the first colonists.

According to the legend, it was considered good luck for the log to burn throughout the 12 days of Christmas. Folktales relate that servants would soak the log in water so it would burn slowly and last longer. Since it was the custom of some households to declare a holiday for servants while the Yule Log burned, every effort was made to ensure its longevity.

The Yule Log ceremony was first introduced on campus in 1930 by Dr. Grace Warren Landrum, dean of women. It was then a very elaborate affair requiring a large cast. The president of the College would dress in colonial costume as the "Lord of the Manor," and his assistant dressed as the "Lord of Misrule." A young child, usually from a faculty family, poured wine over the log and threw the first piece of holly in the fire.

Costumed log carriers were joined by hog carriers who carried a boar's head into the hall with the log. Six trumpeters were also a part of the procession that accompanied the Yule log. The ceremony was discontinued with the outbreak of World War II and was revived afterwards with a less elaborate format.

## Holiday Moods In Dec. 11 Concert

The Washington Concert Singers and Players, Francisco de Araujo, director, will present "The Many Moods of Christmas," a selection of traditional Christmas carols at 7:30 p.m., Sunday, Dec. 11 in the ballroom of the Campus Center.

Adult tickets are \$2. There is a family rate of \$5. For ticket information please call 253-0531.

The concert is being sponsored by the New Testament Student Association. A reception will follow the performance.

### End of Classes Mixer

On Thursday, Dec. 9, the End of Classes Mixer will be held in William and Mary Hall from 9 p.m. - 1 a.m. Price at the door is \$3.

Music will be provided by "The States."

# Gunn Would Change Approach To The Humanities

Cultural historian, theorist and critic, Giles B. Gunn, Professor of American Studies and Religion at the University of North Carolina at Chapel Hill, now William R. Kenan, Jr., Visiting Professor of Humanities at the College, is an articulate spokesman for the cause of the humanities.

In a forthcoming article to be published in the Alumni Gazette Magazine, Gunn states that the humanities are in "considerable trouble and are in a state of enforced retreat to the far edges of the academic curriculum."

Gunn lists the pressures of the economic marketplace, careerism, national priorities which favor science, technology and social engineering as some of the reasons for this retreat.

"However, there is an additional fact that is too rarely mentioned and too important to forget," he adds. He cites humanists in education with "intellectual timidity" and a "lack of moral imagination" for "evading so many of the hard disciplinary questions about the relations between the humanities and the other branches of learning."

Gunn also says humanists have not been willing to cooperate with each other to work against forces in society which have conspired to isolate the humanities from the rest of the academic curriculum and to relegate them to an even more exclusive corner outside it.

"The crisis in so many of the disciplines of humanities is due to the fact that we have so often encouraged the wrong kind of specialty," says Gunn. "Special knowledge is a wonderful thing so long as it is developed to deepen our understanding of particulars, but it becomes intellectual disaster when, whether by design or not, it encourages isolation of those particulars from all the things with which they might be related."

"What I think we need is more specialists who know how to work, so to speak, on the bias, not so much against the grain of the other disciplines as across it, so that we may learn how to exploit the various insights they all represent. No ordinary human being can long survive in experience, in life, by partitioning his mind into the kinds of divisions by which we conventionally define the academic curriculum. These divisions are mere conveniences of the mind, at best only heuristic divisions, and when they get in the way of further learning, of more searching comprehension, we ought to try to transcend them by designing mental and methodological frames more correspondent with the configuration of our actual subject matters and more responsive to the questions we would put."

"Insofar as we don't try to break down some of those divisions and show in what sense they are artificial, we're probably not preparing our students very well for life as it is found beyond the university walls; even more importantly, we are in danger of misrepresenting if not disfiguring many of the things we profess."

The Kenan professorship which Gunn holds, is made possible by a \$750,000 grant to the College from the William R. Kenan, Jr., Charitable Trust of New York City. The award was made to the College in 1981 for a professorship in the humanities with the primary purpose of encouraging excellence in teaching at the undergraduate level.

Since 1965 when the Kenan Trust was established, the Foundation has funded professorships at over 50 leading colleges and universities across the country. Included in the list of universities which have received Kenan grants are Harvard, Cornell, Columbia, Dartmouth, Stanford, Yale, Princeton, Duke and the University of North Carolina of which Mr. Kenan was an alumnus. In 1981 the Colonial Williamsburg Foundation received a

Giles Gunn

\$50,000 grant from the Trust to strengthen its educational offerings.

Mr. Kenan was a prominent North Carolina chemist, engineer, industrialist, executive and philanthropist who died in 1965. For more than forty years he was president of the Flager System Company.

This is Gunn's first visit to Williamsburg. He says he is pleased to hold the Kenan Professorship because it embodies the College's traditional concern for and distinction in the study of the humanities.

Gunn says he finds students here enjoyable to work with but wishes that he could elicit more disagreement from them in the classroom. Students tend to be too differential, he says, they concede too much to authority and care, or seem to care, too little about their own ideas and feelings. This is a special problem for Gunn because much of what he teaches is about ways in which traditions are questioned, challenged, subverted and revised.

Gunn is currently teaching two courses, one titled "Religion and the American Imagination," the other, "American Cultural Interpretation and Criticism."

Gunn also has two books in progress. One will be devoted to the question of cultural criticism today and will try to assess some of the more recent challenges to the criticism of culture which have been made by "structuralist" and "post-structuralist" currents of thought emanating principally from Europe. He hopes to counter these challenges by charting the critical repossession of an alternative intellectual tradition that is largely American.

His second book is a collection of readings which investigate the religious effects of the constitutional separation of church and state by asking whether this American tradition has contributed to the decline of traditional religious authority in our society either through the creation of a

civil or political religion that has grown up alongside the more orthodox faiths or through the encouragement of the process known as secularization. This book will be part of a four-volume series of publications on the bicentennial of the Constitution, funded by a grant of a quarter of a million dollars from the National Endowment for the Humanities to the Program on the Humanities for the Study of Human Values at the University of North Carolina at Chapel Hill.

A native of Illinois, Gunn received his undergraduate degree in English from Amherst College and graduate degrees from the University of Chicago's interdisciplinary program in Religion and Literature. He also studied for a year at the Episcopal Theological School.

He began his teaching career as an Amherst-Doshisha Fellow and Lecturer in English at Doshisha University, Kyoto, Japan in 1960. Upon the completion of his graduate work he returned to the University of Chicago where, from 1966-74, he taught in and eventually chaired the program in Religion and Literature and also held joint appointment in the Department of English. Since 1974 he has been a member of the faculty at the University of North Carolina at Chapel Hill, where he is Professor of American Studies and of Religion and serves as chairman of the American Studies Curriculum. He was Benedict Distinguished Visiting Professor of Religion at Carleton College in 1977, and a John Simon Guggenheim Fellow, 1977-78.

Gunn has contributed to scholarly journals in a number of fields and has authored several books, including "F.O. Matthiessen: The Critical Achievement," published by the University of Washington Press, 1975; and "The Interpretation of Otherness: Literature, Religion, and the American Imagination," published by Oxford University Press, 1979. Gunn has

also edited four books, most recently, "New World Metaphysics: Readings on the Religious Meaning of the American Experience," published by Oxford University Press, 1981; and "The Bible and American Arts and Letters," published by Fortress Press and Scholars Press, 1983.

## Lecture Series Lists Physicist

The Science Museum of Virginia and alumni chapters of the University of Pennsylvania, University of Virginia, Yale and the College of William and Mary are sponsoring a series of four lectures during the coming year on a variety of scientific topics of current interest.

Hans C. vonBaeyer, professor of physics and director of VARC will speak on "The Forces of Nature," March 15.

Physicists have distinguished several fundamental forces of nature such as gravity, electrical and magnetic forces and the nuclear force. For centuries, questions about these forces have occupied philosophers and scientists. Are the forces of nature related? Are there others which we have not yet identified? Recent developments in theoretical and experimental physics provide some partial answers which vonBaeyer will explore in the language of the layman, using analogies and word pictures instead of mathematics.

The series opened Nov. 19 with a talk by Louis A. Girifaico, professor in the Laboratory for Research on the Structure of Matter, University Professor of Materials Science and Engineering, University of Pennsylvania, on "The Fifth Wave in the Great Discontinuity." "Big Bang: New Thoughts About Some Old Problems," will be the topic of a lecture by James S. Trefil, professor of physics, University of Virginia on Feb. 23.

Final speaker in the series will be William R. Bennett, Jr., C. Baldwin Sawyer Professor of Engineering and Applied Science, Professor of Physics, Yale University, who will lecture on Teaching Science with Computers at Yale, on April 19.

Tickets for each lecture are \$4 for Museum and alumni chapter members; \$2 for students; \$5 for all others.

Inquiries concerning the series should be addressed to M. R. Spencer, Science Museum of Virginia, 2500 West Broad Street, Richmond, Va 23220.

### Sigma Pi Sigma Honored

The College chapter of Sigma Pi Sigma, the physics honors society, has achieved a membership of over 300 since its installation in 1927. Only 42 chapters have achieved this level.

The Society has received a certificate from the national organization for maintaining a strong program.

Sigma Pi Sigma, which was founded in 1921, has 346 chapters at university and college campuses in 45 states. The Society, which is part of the Society of Physics Students of the American Institute of Physics, was founded to recognize outstanding scholarship achievement by students in physics. It currently has more than 49,000 members, including alumni.

Mark S. Conradi of the physics faculty serves as faculty advisor.

# The STRATFORD TIMES of Williamsburg

December, 1983

THE OFFICIAL NEWSLETTER OF THE VIRGINIA SHAKESPEARE FESTIVAL

VOL. 2, NO. 4

## Directors Set For '84 Season

Festival artistic director, G. Leslie Muchmore, has selected directors for the 1984 summer season.

Directing the Festival's production of *Measure for Measure* will be J.H. Crouch, a veteran Shakespearean director who has earned one of the most respected reputations in the field. Richard Palmer, the Festival's General Manager, will turn his hand to directing in the Festival for the first time with *Hamlet*. Muchmore will direct the VSF's return production of *A Midsummer Night's Dream*.

Dr. Crouch has directed highly successful productions at some of the longest established Shakespeare theatres in the country. One of the founders of the 25-year-old Colorado Festival, he has returned there often to interpret some of the most difficult plays.

Crouch's most recent production of note was *Cymbeline* at this year's Oregon Shakespeare Festival at Ashland. About this production, *Newsweek* magazine noted: "The *Cymbeline* is magical . . . a miracle."

Richard Palmer's last two productions for the William and Mary Theatre, *A Streetcar Named Desire* last season, and *The Elephant Man*, of the previous season, were among its most memorable. Palmer, also an accomplished designer, was the scenic designer for the recent production of *Sweeney Todd*. This is his third season as Artistic Director of William and Mary Theatre, as well as general manager of the Festival.

## Festival Receives Grant

It was announced last week by the Virginia Commission for the Arts that the Virginia Shakespeare Festival will receive a grant of \$2,250 for the 1984 season.

According to Leslie Muchmore, Festival Artistic Director, the award is earmarked for the furtherance of Elizabethan period music for next summer's programs. "The money will enable us to develop the Early Music Consort, a project which was inaugurated on an experimental basis last summer."

During 1983, the Consort, under the direction of Donna Della Rocca, performed during performances of *Othello*, during the intermission of *The Winter's Tale*, during four Elizabethan Feasts, and for several community activities. The Festival would like to expand the performances to include all of the Shakespearean plays, as well as special music programs.

John Girard as Autolycus in "The Winter's Tale"

## Auditions Underway - Local Tryouts March 16-17

In an effort to attract the best available talent to the Festival for next summer, Leslie Muchmore has already begun to audition actors in far-flung parts of the country. Recently, he spent a weekend in Dallas, where he conducted a day of auditions and saw two productions featuring prospective Shakespeareans.

"There are plans afoot to see young professionals in other locales, well in advance of our normal audition cycle,"

says Muchmore. "The requirements for the season, with *A Midsummer's Night's Dream*, *Measure for Measure*, and *Hamlet*, are extremely high." The plans for a fourth production in the 1984 season add to the demand for actors.

This means that opportunities will be greater than usual for local actors wishing to be considered for the professional company, as well as for those wishing to volunteer their talents. All four of the

shows will definitely employ local volunteers.

Professional auditions in Williamsburg are scheduled for March 16 and 17. Auditions for volunteers will be held in May, but Muchmore encourages anyone interested to contact him soon at the Festival. He would especially like to know of local productions in which he can see good actors.

# Richard Palmer Reviews The Season And Looks Ahead

by Richard Palmer  
General Manager

Although the summer 1983 season of the Virginia Shakespeare Festival (VSF) was an artistic and critical success, it fell short in producing revenues needed to keep pace with rising costs. A review of the financial figures for the past year raises difficult questions about the future growth of the Festival unless it can attract larger audiences and additional contributions, gifts, and grants to sustain the quality of future productions.

While the Festival benefits substantially from services and facilities provided by the College of William and Mary, its overall financial support still falls far short of matching comparable Shakespeare festivals in such states as Oregon, North Carolina and Utah. Recent figures for some of these groups show budgets ranging from \$500,000 to over \$2 million. The Virginia Shakespeare Festival projects a 1984 budget of about \$152,000.

Reflecting on last year, it is clear that while income for the VSF continued to grow, the pace was insufficient to keep up with rising costs. While income from all sources increased by over \$10,000, expenses grew by over \$12,000. Much of the increased cost was due to inflation. Higher housing costs for company members, for example, accounted for a \$6,000 rise. Important program improvements such as more elaborate scenery, live music, a larger company of actors, and the addition of a fourth production added expenses, though some of these were offset by more efficient use of money in other areas of Festival operations.

As indicated earlier, income from personal contributions, gifts, and grants continues to be a critical factor for the VSF. In 1983, \$49,000 came from such sources, including a new grant from the Newport News Arts Commission; an increase in funds from the Virginia Commission of the Arts; and several new corporate gifts. But despite this help from a loyal and dedicated core of contributors, the VSF income in this area remained small compared with some of the other groups cited. The Oregon Shakespeare Festival, for instance, received \$472,000 in 1980; North Carolina received \$282,000; and New Jersey, \$144,000.

Considering overall income from another perspective, it is interesting to note that for each dollar contributed or donated, two dollars were earned by the VSF through ticket sales, concessions, and program advertisements. The VSF record of performance in these categories (66 percent) exceeds the national average achieved by professional regional companies (61 percent).

If the Festival operated solely on its box office income, orchestra tickets would have to cost \$12.75 rather than \$8.50. This would still be a bargain by big city standards, but the increased cost would prohibit many people from attending, and experience proves that decreased attendance would more than offset any increased income.

Since the Virginia Festival operates at about half the capacity of its theatre, there is obvious room for growth in attendance. However, this growth will come only when increased funds are available for much more extensive marketing, publicity, and audience development efforts. This requires what theatre parlance calls "front money," money used to earn money. In commercial theatre, investors provide this money (over 4 million dollars for the new Broadway musical, "La Cage Aux Folles.") In non-profit theatre, this money must come from contributions.

Quality and success require talent, effort and dedication. The actors, musicians, designers, directors, technicians, and house staff give unstintingly of their time and talent, not for the subsistence

level salaries, but because they love Shakespeare and love audiences who love Shakespeare. If Virginia is to have a Shakespeare Festival which we can proudly show to the whole world, we must

ask our friends to give money so that we can afford to be great and to sustain the tradition of quality established in Williamsburg by the Virginia Shakespeare Festival.

## Bridge Required Special Skills In Stagecraft

by Leslie Muchmore  
Artistic Director

It was one of those moments of high drama than can only be found in the theatre. But the curtain was yet to rise. In fact, that was the problem.

At 8:00 p.m. the crowd being held in the lobby of Phi Beta Kappa Hall for the opening of *The Winter's Tale*, VSF's third show of the 1983 season, is growing restive. House manager Kendall Kirby puts an anxious head in the theatre. "Ready?" Many of the audience have already been waiting more than half an hour for their seats.

Richard Palmer, the general manager, strides down the aisle, approaching Leslie Muchmore, who is standing quietly near a proscenium arch, and in a tone of some definite concern, "What's the problem?"

Christopher Boll, co-founder of the Festival and the technical director for all of its six seasons, can relax. The summer is a heavy one, scenery-wise, and although Boll has scheduled the work to save time and energy for the difficult third show, he underestimated the difficulty of the incredible bridge. By perhaps a couple hours.

The list of engineering feats that Boll had to tackle is impressive. The first was the basic stage itself, a sloping into the house and actually raised a foot-and-a-half all over, in order to accommodate the second engineering feat: the machinery of the 26-foot diameter revolve. This turn-table, along with some added platforms and steps would pretty much account for the "hard" scenery for *Twelfth Night*.

For *Othello* when the revolve would stand still, the problem was to fill the stage

having engineered the equally difficult staircase of *Richard III*, in 1982. "In fact, I am working on an article on the subject, using the material of these two scenic problems."

In order to develop a safe structure that met the specifications of Weppner's design, Boll first built a one-quarter scale model of the spiral, experimenting with available materials. He feels the final concept, having been proven under fire, is original and highly useful in other potential applications.

How to avoid late curtains at future openings? With a characteristic wry smile, Boll reflects, "There were times when I didn't think we could get that show up at all. That's the value of working with a designer like Christina Weppner. You feel like you've pulled off a miracle!"

On stage, a huge, pivoting, double-sided bridge, which represents the major scenic piece of *Winter's Tale*, looms high in the work lights, its brightly-colored castle windows and oriental shubbery betraying the glisten of new paint. A carpenter works with a sabre-saw on the fiber-board nether skirts of the construct, while technical director Chris Boll climbs all over: up the broad front steps and down the hidden spiral staircase to the rear. There is an unforeseen problem: the incredible fairy bridge--21 feet high, 23 feet long, over 11 feet wide, and weighing almost a ton--is designed to pivot from the center of the big turntable, 180 degrees, from left to right and back again. But the painted sides of the bridge are dragging on the stage floor, because the weight of the piece actually causes the floor to bow as it rolls across. Some of the scenery will have to be cut away to give more clearance.

Technicians and actors move the bridge once more. It's okay. Quickly, tools are cleared away, the stage lights assume their pre-show settings, and the anxious crowd files through the auditorium doors.

with a fortress that would look as solid as Gibraltar to the spectator, but which could be broken down and reset in approximately an hour.

By the opening of *Othello*, the work seemed to be on schedule. The basic framework of the incredible bridge had been finished in June, and waited in the shop for the scenic exteriors to be added. Most of the technical challenges of getting designer Christian Weppner's work from the drawing board to the stage had already been solved.

In practical terms, the bridge had to rise more than eight feet, and span more than the thirteen feet from the center to beyond the edge of the turntable. It also needed to bear the weight of seven moving actors, safely and without a wobble. (In actuality, the bridge carried about ten actors at one point in the play) "It's a good thing I tend to overbuild things," said Boll.

The *coup de grace* of the whole bridge project was the spiral staircase that ascended ten feet within the covered pedestal of the bridge. Boll has become VSF's resident expert on spiral stairways,

Chris Boll (above); (at left) a model of the bridge from "The Winter's Tale"

# Lord Chamberlain Society To Be Guided By Varlands

Capt. Mark and Virginia Varland, who make their home in Kingsmill, are new co-chairpersons of the Lord Chamberlain Society for 1983-84.

Assisting them will be Mr. and Mrs. Forrest Williamson, assistant co-chairpersons and Mrs. Edith Edwards, secretary. The new co-chairpersons will also be working very closely with Mrs. Kathy Hawkins who heads the Festival Guild.

This is the second year the Varlands have been members of the LCS. They have already set three priorities for their tenure. The first and second are very closely related, explains Mrs. Varland, fund-raising and community enrichment. We hope to help make the Festival solvent and involve as many people as possible in its activities, she adds.

The Elizabethan feasts are another area which will receive the attention of the Varland. "We didn't go into them with the idea of making them fund-raising projects but they have always been sold out," said Mrs. Varland. More feasts will be planned this year.

Mrs. Varland has always been involved with music and theatre. A music major at the University of Michigan, Ann Arbor, Mrs. Varland traces her first interest in Shakespeare to a performance of "Mid Summer Night's Dream," which she attended when she was 10.

Captain Varland, a retired Naval officer, has been stationed in many different parts of the world. Mrs. Varland added her own special touch to Americana to those overseas posts with her gift for music. She has directed choirs around the world and also has been a church soloist. She has also organized Gilbert and Sullivan Operettas overseas and has acted in several of these productions.

She obtained a master's degree in reading from Old Dominion University and before moving to Williamsburg, taught in Virginia Beach schools.

Capt. and Mrs. Varland share their home with a recent adoptee, a Yorkshire terrier mix called "Tif" - short for Tiffany.

Capt. and Mrs. Varland have three children, Scott J. Varland, a graduate of the Marshall-Wythe School of Law who practices in Newport News; another son Mark, stationed with the U.S. Army in

Germany; and a daughter, Patricia who will be married to Dr. Glenn Richard Quarles in Charleston, S.C., Dec. 10. Miss Varland is an accomplished soloist and plays all keyboard instruments.

New Co-Chairpersons

## Gift Subscriptions for the

1984

# VIRGINIA SHAKESPEARE FESTIVAL

JULY 5 AUGUST 18

For the Holiday Season only, the Entire 1984 season of FOUR plays will be available for the 1983 THREE-play price!!!

**A MIDSUMMER NIGHT'S DREAM**  
**HAMLET**  
**MEASURE FOR MEASURE**  
**A MODERN PLAY** (to be announced)

Give gifts that bring pleasure during the Holidays and the summer and support

### THE VIRGINIA SHAKESPEARE FESTIVAL

For each gift subscription, you will receive a card which you may use to announce your gift. The recipient will have an opportunity this spring to choose the best seats on specific dates.

Subscription (4 plays) are \$19.00 for orchestra

\$13.50 for main floor and balcony

Save 39% over single ticket prices!

## UPDATE ON THE VSF COMPANY

**Catherine Nix:** Currently on a tour of Europe, from which she reports she is in love with Vienna, Switzerland, Venice, Florence, etc. She'll be settling in New York when she returns.

**Nick Olcott:** Tutors German language for State Department officials in Washington by day; working in a production of *The Mouse Trap* at Petrucci's Dinner Theatre in Laurel, Maryland, by night.

**Barry Fishel:** Studying with Alan Langdon in New York, and doing a lot of auditioning. He hopes to land a job with the South Florida Theatre Company, a classical theatre doing *Twelfth Night* this season!

**Margaret Snow:** Is in Denver doing modeling, which she says gives her a lot of peace of mind.

**Caren Graham:** Back in Seattle, teaching voice and speech at the Cornish Institute. She has been to Ashland to catch the Oregon Shakespeare Festival, and she has a couple of acting jobs of her own lined up in November.

**Michael Johnson:** Appeared in *The Petrified Forest* at the Roundhouse Theatre (near Washington) and got rave reviews.

**Paul Wilson:** Is touring with the Nebraska Theatre Caravan -- 18 hours a day, three shows a day. "Knocking them

in the aisles," as Polonius in *Hamlet*, but reports the tour "is a bear!"

**Tracey Lee (Stage Manager):** Will graduate from Auburn University in December and is looking forward to a trip to Europe in the spring.

**John Girard:** Is in New York working on a remake of the Studs Terkel musical, *Working*.

**Liz Loftus:** Is going great guns in Dallas. She is now working on her second show there, a woman's piece called *Quilters* at Stage One.

We received a phone call recently from Don Reilly, a popular 1982 Festival juvenile lead, and winner of the 1983 Irene Ryan national award for college actors. Don is spending the year studying at the University of Exeter and was recently cast as Jimmy Porter, the original angry young man, in John Osborne's contemporary classic; *Look Back in Anger*.

Mark Waterman, whom audiences will remember as Valentine in *Two Gentlemen of Verona*, and Skip Hamra, a memorable character actor from the 1982 summer, are touring with the National Shakespeare Company's *Hamlet*, as Hamlet and Polonius respectively. The Company performed at Christopher Newport College on December 3, affording local Shakespeare buffs a chance to become reacquainted with VSF talent-gone-by.

# Scientists Form Work Groups After Fall Meeting

Three working groups of scientists involved in intermediate energy electron physics have been set up as the result of a Magnetic Spectrometer Workshop held on campus Oct. 10-12 and attended by over 100 scientists from major foreign and American universities and laboratories.

The workshop was organized by Charles Perdrisat and Herbert Funsten of the physics department and Ralph Minehart of the University of Virginia. The workshop was sponsored by the Southeastern Universities Research Association (SURA) and The Virginia Associated Research Campus (VARC) and endorsed by the National Science Foundation and the Department of Energy.

These groups will begin meeting in February to plan to specific physics experiments and major experimental equipment for the SURA Continuous Electron Beam Accelerator. The working groups will continue to meet separately until next summer at which time a major combined meeting of potential users of the accelerator is planned.

The SURA accelerator, to be built in Newport News, will investigate the deep interior of the atomic nucleus. It will permit experimentalists to also find within the nucleus possible effects of quarks, considered one of the ultimate constituents of matter. The accelerator was designed by a group led by James McCarthy of the University of Virginia. Construction costs of approximately \$200 million as well as annual operating costs of \$10-\$20 million, have been requested from the Department of Energy for the accelerator.

Talks and discussions at the Workshop centered on the rapidly changing field of nuclear instrumentation for large scale electron nuclear experiments. Many of the sessions related to the unique ability of the proposed accelerator to provide a continuous stream of 4 Gev. electrons. This permits the use of two or more spectrometer systems to detect particles simultaneously emitted from a target placed in the electron beam. K. Bomqvist of MIT summarized current electron beam optics design and engineering aspects of existing and proposed spectrometer systems.

Sessions were devoted to the use of superconducting magnets which are capable of a considerable saving in electrical power, the current state of high speed data acquisition made feasible by large memory, high speed semiconductor chips, and magnet procurement problems.

Critical elements in spectrometer systems are particle detection devices. G. Charpak of CERN, Switzerland, summarized the latest developments in these devices and outlined several detectors which offered distinct advantages over existing conventional detectors.

One session was devoted to possible use of gas targets placed inside an accelerator stretcher ring. These would permit polarization experiments which are capable of uncovering much additional physics information. L. Cardman of the University of Illinois discussed the possible use of a tagged photon facility which could be added to a dedicated storage ring to generate high energy gamma rays of very precise energy.

Several talks were given on the specific physics experiments using 4 Gev. electrons. F. Gross of W&M pointed out experiments that could be performed to specifically identify effects of quarks in atomic nuclei. V. Hughes of Yale described a series of precision experiments that could identify more clearly the nature of the electroweak force, a single common force which has been shown to be the origin of the electromagnetic and weak forces.

A session at the Workshop was devoted to establishing a User's Group of experi-

mentalists who intend to use the accelerator.

The three working groups set up at the workshop will be planning for physics experiments and major experimental facilities in three general areas: medium and high resolution, (energy precision),

**Robert Scholnick** of the English Department has published an essay in the recent number of *American Transcendental Quarterly*: "Toward a 'Wider Democratizing of Institutions' Whitman's *Democratic Vistas*." His review of R.E. Martin's book, *American Literature and the Universe of Force* (Duke, 1981), appeared in *Journal of American Studies*, April 1983.

**Dale Hoak**, department of history, has recently presented several papers at national historical conferences. On Oct. 21, Hoak attended the Western Conference on British Studies at the University of Colorado, Boulder, Colorado, where he presented a paper on "The Court and the Council: Politics, Government and Faction during the reigns of Edward VI and Mary I."

On Oct. 28, Hoak attended the 10th annual Sixteenth-Century Studies Conference at Marquette University, Milwaukee, Wisconsin, where he presented a paper on "The *Coup d'Etat* of Mary Tudor: the Formation and Organization of the Government of Mary I."

Both papers were based on the results of Hoak's research in British archives during the last two years.

On Oct. 7-8 Hoak also attended the annual fall meeting of the Mid-Atlantic Renaissance Seminar, held this year at Duke University.

Professors **John Conlee**, **Donald Ball**, and **Elsa Nettels** represented the English Department at the annual meeting of the South Atlantic Modern Language Association, Atlanta, Oct. 22-30. Nettels read a paper on the novels of Elizabeth Spencer and Professor Conlee chaired a meeting of the nominating committee of the Old English section.

Two articles by Nettels have recently appeared: "Amy Foster" and Stephen Crane's "The Monster" in *Conradiana* and "Miles Coverdale and Basil March: The 'Philosophical Observers' of Hawthorne and Howells," in the *Hawthorne Society Newsletter*.

An article by Michael North, assistant professor of English, "The Architecture of Memory: Pound and the Tempio Malatestiano," has been published in the October number of *American Literature*.

**Mario D. Zamora**, professor of anthropology, was recently invited to serve as member of two international commissions of the International Union of Anthropological and Ethnological Science (IUAES): the Commission on Development and the newly organized Commission on the Study of Peace; both commissions have world-wide membership. Zamora was also invited to serve on the international editorial board of the *International Journal of Asian Studies* and as founder-member of the International Research Center for Asian Studies of Ranchi University, Bihar, India. He was also recently designated member of the Committee on UNESCO of the IUAES.

Zamora was reelected as a member of the Executive Board of the Virginia Social Science Association and chairman of the Anthropology-Ethnohistory Symposium of the March 30-31, 1984 annual meetings at the University of Virginia. He was also reelected member of the executive board of the Exchange Club of Williamsburg. He was recently the guest speaker of the Pam-pango Language Club of Tidewater where he spoke about "Jose Rizal: The Filipino National Hero."

spectrometers with medium and low angular acceptance respectively; very large acceptance magnetic systems, approaching acceptance from all directions; and internal target - tagged photon facilities.

SURA is a consortium of twenty four academic institutions formed to manage large cooperative projects in science, technology and medicine. W&M is one of the founding members of SURA.

**Joseph Galano**, associate professor in psychology was re-elected Chairperson of the Board of Directors for the Williamsburg/James City County Community Action Agency. The agency focuses on the problems of poverty and is involved in pre-school education, transportation, job training, programs for the elderly, economic and community development as well as helping low income communities to mobilize and organize to help themselves.

Galano represented the Board at the recent state-wide conference on poverty entitled "Partnerships for Opportunity: A Hand Up, Not a Handout" aimed at bringing CAA's together with state and local governments and representatives of the private sector to form partnerships invested in alleviating poverty.

VIMS scientists and students turned out in record numbers (approximately 70) to the October meeting of the 7th Biennial International Estuarine Research Conference held at the Cavalier Hotel in Virginia Beach.

**Robert J. Orth**, associate professor of marine science of VIMS' Wetlands Department, was elected to the office of Treasurer of the Estuarine Research Federation at the conference. He directed this 7th biennial meeting, co-chaired a session and co-authored two papers presented at the seagrass session.

**William J. Hargis, Jr.**, professor of marine science of VIMS estuarine and coastal ecology department, also participated on a special panel session entitled "Politics and Coastal Science."

Twenty-eight papers were presented by VIMS' scientists at the meeting, including the following:

**R. Orth, K. Heck, J. van Montfrans.** Seagrass Faunal Communities: The Influence of Plant Structure and Prey Life Style on the Outcome of Predator-Prey Relationships.

**J. van Montfrans, R. Wetzel, R. Orth.** Microepiphyte-Grazer Relationships in Seagrass Meadows: Do they Affect Seagrass Growth and Survival?

**M.H. Roberts, Jr., W.J. Hargis, Jr., R.J. Huggett and C.S. Strobel.** Acute Effects of PNA-Contaminated Sediments to Benthic Fishes.

**W.J. Hargis, Jr., M.H. Roberts and D.E. Zwerner.** Some Effects of Environmental Stressors on Disease and Parasitism in Estuarine Fishes.

**L.C. Schaffner and R.J. Diaz.** Benthic Communities in the Elizabeth River, Virginia.

**J.G. Loesch and W.H. Kriete, Jr.** Distribution, Relevant Abundance, in the Growth of Juvenile *Alosa* in Four Chesapeake Bay Tributaries.

**S.M. Atran, J.G. Loesch and W.H. Kriete, Jr.** Status of *Alosa* Stocks in Virginia.

**R.F. Tine and R.L. Wetzel.** Seasonal Variation of Underwater Spectral Irradiance and Attenuation in Vegetated and Unvegetated Sites of the Chesapeake Bay: Reduction of Potential Benthic Photosynthetically Storable Radiation.

**M.M. Nichols.** Sedimentologic Fate of Trace Metals in a Turbidity Maximum.

**S.T. Szedlmayer.** Numerical Ecology of

Foreign scientists attending the conference came from TRIUMF (Canada), CERN (Switzerland), Saclay (France), University of Mainz (West Germany), and Shizuoka and Tohoku Universities (Japan). Virginia institutions in addition to UVA, VPI&SU, and W&M, were Hampton Institute, Virginia State University, George Mason University, and Randolph Macon College.

the Nearshore Fish Component, Transversing a Salinity Gradient in a South Florida Estuary.

**R.W. Middleton.** Utilization of a Chesapeake Bay Mesohaline Intertidal Creek by Finfishes.

**D.S. Haven and J.P. Whitcomb.** Mortality of Spat in the James River, Virginia, During Fall and Winter.

**M.M. Howard and M.M. Nichols.** Long-Term Trends of Dredging and Disposal in Hampton Roads (VA).

**H.I. Kator, P.V. Hyer and M.W. Rhodes.** A Combined Field-Numerical Modelling Approach for Prediction of Fecal Coliform Densities with Respect to a Representative Marine "Buffer Zone."

**J.N. Boyer and H.I. Kator.** Microbial Mineralization of 14 C-Labeled Blue Crab Chitin in Estuarine Sediment-Water Batch Cultures.

**B.A. Weeks, J.E. Warinner and J. Fox.** Chemotaxis and Phagocytosis of Fish Macrophages.

**B.A. Weeks, J.E. Warinner and P.L. Mason.** Percoll R Separation and *In Vitro* Culture of Fish Macrophages.

**L.W. Haas, D. Hayward, J.D. Boon III, R.L. Webb, and K.K. Friedland.** A Regression Model of Near-Spring Tidally Associated Stratification Variation in the York River Estuary, Virginia, USA.

**E.P. Ruzicki and D.A. Evans.** Neap-Spring Tide Destratification in a Coastal Plain Estuary.

**C.F. Cerco.** Characteristic Estuarine Behavior and Implication for Data Collection.

**G.F. Anderson.** Silica, Diatoms and a Freshwater Productivity Maximum in Mid-Atlantic Coastal Plain Estuaries.

**C.J. Natale, Jr., J.D. Boon III, and J.M. Zeigler.** An Investigation of Sand Transport Phenomena in the Rappahannock River Estuary, VA.

**J.D. Boon, III, A.A. Frisch and H.F. Hennigar.** Sand Transport Pathways in the Entrance to Chesapeake Bay: Evidence from Fourier Grain-Shape Analysis.

**R. Huggett.** Organic Compounds - EPA Chesapeake Bay Program: An Overview.

**M. Nichols.** Metal Contamination - EPA Chesapeake Bay Program: An Overview.

**J.J. Fredette.** Production Dynamics of a Warm Temperate Estuarine Amphipod.

**C.J. Strobel.** Adaptation-A Modifying Factor in Aquatic Toxicology.

**A.F. Holland and R.J. Diaz.** Long Term Trends in the Infauna of Chesapeake Bay and Their Relationship to Changes in Conditions.

**Maurice P. Lynch**, professor of marine science and division director of marine resources management, presented a talk on November 3 to the Marine Science Club of Hampton Institute entitled "Careers in Marine and Environmental Science."

**James R. Johnson** of Rio Blanco Oil Shale Company, Aurora, Colorado and **Joseph G. Loesch**, professor of marine science, had their paper entitled "Morphology and Development of Hatchery-Cultured American Shad, *Alosa sapidissima*" (Wilson) published in the U.S. Fishery Bulletin.

## Memorial Service For Mrs. Skelton Set Friday, Dec. 9 In Wren Chapel

Mrs. Dortha Henderson Skelton, 64, reference librarian at Swem Library, died Monday, Nov. 28 in Williamsburg Community Hospital, after a long illness.

Her library duties brought her into contact with researchers and readers both in Williamsburg and across the country who praised her for her diligence and enthusiasm.

On campus she was especially active in providing materials and ordering books and providing readers for blind students.

Mrs. Skelton came to William and Mary as reference librarian in 1971 and in 1974 was appointed head reference librarian.

A native of East Tennessee, she received her B.A. from the University of Tennessee, Knoxville, and her M.S.L.S. degree from Atlanta University. Before coming to Williamsburg, she was associated with libraries in Knoxville and Oak Ridge, Tenn., and with Agnes Scott College, Atlanta, Ga.

She was a member of the Soroptimist Club, the American Association of University Women, Virginia Library Association, American Library Association and the Bibliophile Society. She was the author of numerous articles and reviews for publication.

A concert violinist, Mrs. Skelton played with the Knoxville orchestras. She was a soloist with church choirs for many years. She was a member of the Presbyterian Church.

Mrs. Skelton was a gifted designer and craftswoman and with her husband, Naval Commander Marion L. Skelton, owned a crafts shop in Gatlinburg, Tenn. There are no immediate survivors.

Burial services were held in the Henderson family plot in Blount County, Tenn.

A memorial service for Mrs. Skelton will be held at noon on Friday, Dec. 9 in the Wren Chapel for members of the College community and area residents.

## Mr. Ashby Dies At 62

Leonard "Fats" Ashby Sr. of 510 Burbank St., Highland Park, died Nov. 21 at Williamsburg Community Hospital. He was 62.

Mr. Ashby was born in Williamsburg and lived all his life here. He was a landscaper with the building and grounds department until he retired last April. He was a Navy veteran of World War II and a former member of Mount Gilead Baptist Church.

He is survived by his wife, Emma Ashby; two daughters, Jennifer Ashby and Brenda Ashby, both at home; two sons, Roberts L. Ashby and Leonard L. Ashby, Jr., both of Williamsburg; two brothers, Thomas Ashby of Richmond and Columbus Ashby of Washington, D.C.; four sisters, Edna Moss and Novella Green, both of Newport News, Jeanette Banks of Washington, D.C. and Luritha Bartlett of Philadelphia; and three grandchildren.

A funeral was conducted last Friday at Mount Gilead Baptist Church by the Rev. Glenwood Morgan. Burial was in the church cemetery.

A memorial fund in her honor has been established and contributions may be sent to the Dortha Skelton Memorial Fund in care of

Harper C. Anderson, attorney at law, 1200 Old Colony Lane, Williamsburg, Va. 23185.

## Housemother Stringfellow Dies At 103 In Wakefield

Mrs. Mamie McMullan Stringfellow, 103, a former housemother at the College, died Nov. 29 at her home in Wakefield.

She was housemother for Kappa Alpha Theta dormitory at the College for 12 years until 1955. She then moved to Wakefield to live with her sister, Mrs. Frances S. Gray.

Born in Greene County at her grandparents' home, Mrs. Stringfellow earned a bachelor of letters degree at what is now Westhampton College of the University of Richmond.

Mrs. Stringfellow was a member of the Thomas Rolfe Chapter of the Association for the Preservation of Virginia Antiquities, the Daughters of the Colonists and the Episcopal Church.

Friends of Mrs. Stringfellow in Wakefield established a Mamie M. Stringfellow Fund at the College to celebrate her 100th birthday.

Survivors include another sister, Mrs. Elmer S. Gray of Waverly, six grandchildren and 20 great-grandchildren.

Funeral services were held Dec. 1 at Christ Episcopal Church in Waverly. Burial was in Waverly Cemetery.

## Mary Branch Worked For Alumni

Mary Taliaferro Branch, 75, of 700 Tanyard St. died Nov. 24 at Riverside Hospital in Newport News following a long illness.

Miss Branch was a lifelong resident of Williamsburg and belonged to Hickory Neck Episcopal church in Toano. After attending Harrisonburg State Teachers College, she was employed for many years on the staff of the Society of the Alumni.

She is survived by two nephews, Ira S. Meanley, with whom she made her home, and Edmond Meanley, and a niece, Betty M. Crenshaw, both also of Williamsburg.

A funeral was conducted last Saturday at Hickory Neck Episcopal Church by the Rev. George Joel Smith. Burial was in the church cemetery.

## Chester McNerney Professor At School of Business

Chester Thomas McNerney, a former professor in the School of Business Administration died Nov. 22 at Riverside Hospital in Newport News. He was 73 and made his home with his wife, Charlotte McNerney, at 251 Archers Mead in Kingsmill.

Mr. McNerney moved to Williamsburg in 1979, at which time he joined the William and Mary faculty. Before that, he taught in the public schools of Indianapolis, Ind., where he was born, and then at Butler University, Indiana University, Pennsylvania State University, University of Akron and was president of Edinboro State College, Edinboro, Pa.

His overseas experience in education include work programs in London, New Delhi, Madrid, Heidelberg, Taiwan, and Hong Kong. During 1942-45 he served in the Naval Reserves.

Mr. and Mrs. McNerney served as co-chairpersons of the Lord Chamberlain Society of the Virginia Shakespeare Festival last year.

In addition to his wife, he is survived by a daughter, Shirley McNerney of Boston; a son, Stephen McNerney of Houston, Texas; and a sister, Helen McNerney of Indianapolis.

A funeral was conducted last Friday at St. Stephen Lutheran Church by the Rev. H. Benton Lutz. Burial was in Cedar Grove Cemetery, Williamsburg.

The family has requested that tokens of sympathy be expressed through contributions to the Dr. Chester T. McNerney Memorial Scholarship Fund, in care of Mona Higgins, President's Office, Edinboro State College, Edinboro, Pa. 16412.

## Portraits Loaned To Art Museum

Two 18th century portraits from the College's Art Collection are currently on loan to the Virginia Museum of Fine Arts as part of the "Painting in the South: 1564-1900" exhibit which is being prepared for an extensive tour through 1984.

The exhibit, which includes 150 works, opened Sept. 14 and closed Nov. 27 in Richmond. First stop on the tour will be the Birmingham Museum of Art where the show will be on exhibit Jan. 8-March 4. Other stops on the tour include the National Academy of Design, New York city, April 12-May 27; the Mississippi Museum of Art, Jackson, June 24-August 26; the J.B. Speed Art Museum, Louisville, Ky., Sept. 16-Nov. 11 and the New Orleans Museum of Art, Dec. 9-Feb. 3, 1985.

The College has loaned the portrait of John Bolling, Jr., by Charles Bridges and the portrait of Mrs. Anthony Walke, II by John Wollaton. The Bridges' portrait was a gift to the College in 1940 from Mrs. Robert Malcolm Littlejohn. The Wollaston portrait was given to the College in 1693 by Mr. and Mrs. O.W. June.

Sponsors for "Painting in the South" include Philip Morris, Inc., the National Endowment for the Humanities and the Fellows of the Virginia Museum of Fine Arts.

## Tom Corsi Wins Zollinger Award

Thomas Corsi, sports editor for The Flat Hat, is recipient of the \$750 leadership award made by Sigma Phi Epsilon to honor the late J. Edward Zollinger '27 who was a fraternity member.

Corsi is a senior, majoring in government. He is secretary of his fraternity and is active in intramurals.

Mr. Zollinger headed the "Campaign for the College," which raised \$19 million in private support for the College. The museum adjacent to the Botetourt Gallery in Swem Library bears his name.

## Thorne Tapped For Athletics

What do Franco Harris, Carl Lewis and a senior, Karen Thorne have in common? All three Burlington County, New Jersey, natives are among the Burlington County Times list of "Big Names" in sports.

As part of the newspaper's silver anniversary, the sports department reviewed the past 25 years and selected the county's ten most outstanding athletes and coaches. Thorne was one of only two female athletes on the roster, the other being Carol Lewis, track standout and sister of Carl.

Thorne's outstanding collegiate athletic career came to an end at the recent Virginia Intercollegiate League (VIL) Division I Field Hockey Championship, which William and Mary hosted on November 4 and 5. W&M's Tribe (8-6-2) finished fifth in the state, while Thorne contributed 5 goals in three games for a fine finale. Both she and fellow senior Chris Paradis, who served as the '83 team's co-captains, were named to the VIL Coaches' All-Tournament Team.

Karen's outstanding performance in the tournament is typical of her last four years. She has earned numerous honors in field hockey, many of which have come at the national level. She was a member of the U.S. hockey squad in 1980, her freshman season. The same year, she was chosen to the State All-Tournament Team. Her sophomore season, she received a Mitchell and Ness All-American Team Honorable Mention, and, last year, was named to the Mitchell and Ness All-South Regional Team.

**Newsmakers**

**Donna Paull**

Two graduate students in the School of Education have been awarded the first Graduate Student Fellowships for their outstanding academic and professional achievement. David A. Hall, a doctoral student, and Donna L. Paull, a master's degree student, each received cash awards of \$1,100 at a recent meeting of the education school faculty, which selected the award winners.

According to John Nagle, dean of the School of Education, recipients of the Graduate Student Fellowships were chosen by a faculty committee on the basis of five criteria: class related scholarship; leadership skills; motivation, initiative and perseverance; job-related productivity; and involvement in professional organizations, including publications. He stressed that the fellowships were awarded strictly on the basis of merit, not need.

Ms. Paull, a master's degree candidate from Westport, Conn., is in her second year in the counseling program. Her areas of specialization are secondary guidance and student personnel, which covers various student services in higher education. Ms. Paull comes to the College from Marymount College in Arlington, where she was an admissions counselor for two years.

She is an honors graduate of Franklin and Marshall College in Lancaster, Pa., and she hopes to obtain a position as a high school counselor after her graduation in May.

Hall came to William and Mary from Wentworth School District in Wentworth, N.H., where he taught elementary school

**Walter L. Williams**, professor of law, is the author of "Freedom of Civilians of Enemy Nationality to Depart from Territory Controlled by a Hostile Belligerent," in the current issue of the *Military Law Review*.

**William F. Swindler**, John Marshall Professor of Law Emeritus, has been advised of acceptance of his article, "Minimum Standards of Constitutional Justice: Federal Floor and State Ceilings," for the forthcoming Winter issue of the *Missouri Law Review*.

**Robert Emans**, School of Education, chaired a session on the knowledge base used in teacher education programs at a hearing of the American Association of Colleges for Teacher Education concerned with the redesign of the National Council for the Accreditation of Teacher Education. The hearing was held in Greensboro, N.C. on Nov. 18.

**Office of Residence Life**

**Debbie Boykin** recently published an article entitled "Residence Hall Staff Training, Guidelines for Planners," coauthored by former director of Residence Life, **John Morgan**.

# Education Students Win Johns Awards

and was a school principal for six and a half years. He received his bachelor's degree in history from the University of Pennsylvania and his master of education degree from the University of New Hampshire at Plymouth.

In 1981, he enrolled in the College's Advanced Certificate Program, designed for holders of master's degrees who wish to prepare for positions in public school administration, higher education, or counseling. Hall has just passed the qualifying exam for the College's doctoral degree program in education, and his specialty is in counseling/school psychology.

After receiving his degree, Hall would like eventually to go into private practice as a psychologist and family counselor. Initially, he hopes to work with a school system as a staff psychologist.

**David Hall**

Hall, who is originally from Cranston, R.I., is married to Meriel Duckett Hall, a math and computer science teacher at Tabb High School. The Halls have two children.

The awards this year were funded by the Jay Johns Fellowship program of the College, and because they are fellowships, recipients may use the money in any way they see fit.

**Amy Restuccia** has submitted for publication an article entitled "Summerfest '83 - Something for Everyone."

**David Rupert, Mary Beth McDevitt, and Amy Jarman** will present a program at the Virginia State Association for Student Personnel Administrators entitled "Orientation Aids, A Support System for New Students at William and Mary." **Debbie Boykin, Amy Restuccia, and Cathy Leahy** will present at the Virginia State Association of College and University Housing Officers Conference a program entitled "Residence Assistance Training Promoting Personal Growth and Team Development." At the same conference **Chuck Lombardo** and **Linda D'Orso** will present the "Jefferson Hall Fire, Residence Hall Safety." Director of Housing **Chuck Lombardo** has been appointed to the Board of Directors of the Eastern Association of College Auxiliary Services.

**Norma R. Chandler**, Director of Purchases and Stores, and **Patsy Morales**, Assistant Director of Purchases and Stores, attended the Fall Conference of the Virginia Association of Governmental Purchasing. The meeting was held October 26-28 in Charlottesville, Virginia. The theme of the conference was "Better Management Through Better Communications."

Predictably, both award winners were surprised and delighted by the selection. "I'm still in shock," said Mrs. Paull. "This is the first time I've received this kind of honor. I think there should be more awards of this kind for graduate students."

"I'm honored, and I'm impressed that

the award was a faculty effort," said Hall. "It makes me feel good about my work here."

Hall's and Paull's sentiments are exactly the sort of feeling Dean Nagle hopes to promote through the Fellowships, saying, "We want our graduate students to know we care."

## Official Memoranda

To: Deans, Department Heads and Supervisors Date: November 28, 1983

From: Personnel Office

Subject: Recruitment for Classified Positions (Project RECRUIT)

The Department of Personnel and Training has developed a Position Vacancy Listing/Job Posting System referred to as Project RECRUIT. This automated personnel system will become operational November 28, 1983 and requires mandatory participation by all state agencies. The primary purpose of this system is to identify all classified positions under active recruitment and to produce statewide vacant position listings in a timely and accurate manner.

In order to comply with the requirements of the RECRUIT system, specific deadlines have been established for the advertisement of classified job announcements. The following weekly cycle for advertising will become effective November 28, 1983:

1. Tuesday of each week will be the deadline for receipt of approved position advertisements in the Personnel Office. Approval from the Budget Office to fill the position must be received by this date as well as the department's specific job qualifications for the relevant position. Departmental requests that do not meet these requirements will not be advertised until the foregoing requirements have been met.
2. Wednesday of each week will be the deadline for data input into the RECRUIT system by the Personnel Office. All position announcements processed by this date will have a closing date for receipt of applications no earlier than Friday of the following week. Departments will have the option of extending the deadline date if so desired.
3. On Thursday of each week, the College Employment Bulletin will be printed and distributed with all current job announcements listed.
4. Friday of each week will be the deadline for those positions listed the previous week, except in instances where departments have elected to extend the advertising period.
5. On Monday of each week, all applications will be screened for those positions which closed the previous Friday. These applications will be available for review by the appropriate departments the following day (Tuesday).

This schedule must be adhered to in order for the RECRUIT system to function properly. On Monday of each week, all state agencies will receive a listing of all current classified job announcements throughout the state. This listing of vacancies will be available in the Personnel office to interested individuals. For specific job announcements, individuals may contact the nearest Virginia Employment Commission.

These new procedures apply only to state classified position vacancies. Advertisements for hourly and non-state funded position vacancies will continue to be advertised for a minimum of 10 calendar days and will not be included in the RECRUIT system.

Questions concerning this policy should be directed to the Personnel Office.

### Motel Confirmations

The Westpark Hotel, Ramada Inn East, Hospitality House and Hilton at Kingsmill offer reduced rates to William and Mary guests. In order to receive these reduced rates we have agreed to follow certain procedures.

The guest must be coming to Williamsburg on College business.

The reservations must be made through the Department receiving the guest.

The Business Affairs office must be notified as soon as the reservations are made so that a confirmation letter can be sent to the motel. This is extremely important because the reduced rates may not apply unless confirmation is sent from this office.

Please make every effort possible to see that these procedures are followed to avoid either your department or guest having to pay the higher rates.

### Automobile Accidents Involving State-owned Vehicles

Recently an accident involving a State-owned vehicle went unreported. This office has responsibility for filing accident insurance forms. *This must be done immediately following an accident.*

It is of utmost importance that departments notify this office as soon as they are aware of an accident. The employee involved in the accident should come by this office within 24 hours, if possible, to get the Department of Motor Vehicles form (this must be completed and mailed within 5 working days) and to fill out the accident form for the insurance company.

Please call Becky Raines (ext. 4211), Office of the Vice President for Business Affairs, Bridges House, 224 Jamestown Road, to report all accidents.

The cooperation of each department head or supervisor is extremely important so that we do not become delinquent in getting our claims filed expeditiously.

David H. Charlton  
Director of University Services  
and Auxiliary Enterprises

## Employment

The following positions are open to all qualified individuals; however, current faculty and classified employees will receive first consideration. Except where noted, inquiries and applications should be made at the Personnel Office, 201 James Blair Hall, and not at the department where the opening exists. Call 229-JOBS (229-5627) for an updated listing and 24-hour service. An EEO/AA employer.

**LIBRARY ASSISTANT (Grade 7)**--Salary range \$12,731 to \$17,390 per year. Starting salary dependent upon experience or exceptional qualifications and previous salary level of appointee. No. 488. Incumbent catalogs monographs with matching or adaptable Library of Congress cataloging copy; uses OCLC to order cards and create new records; and is responsible for cataloging educational media materials. Qualifications--Knowledge of library operation and automated cataloging procedures required. Familiarity with non-print materials and national cataloging standards for non-print materials preferred. Background in music preferred. Swem Library, deadline, Dec. 9.

**REGISTERED NURSE**--Unclassified, part-time, \$6.69 per hour, for day and night relief work.

Incumbent works in College Student Health Center and is responsible for in-patients and out-patients, administering general nursing care.

Qualifications--Ability to act independently in assessing patients and making preliminary diagnosis required. Recent clinical experience required, and emergency and psychiatric nursing helpful. Valid VA nursing license must be presented upon employment. Student Health Center, deadline, Dec. 15.

**PROGRAMMER ANALYST (Grade 12)**--Salary range \$19,884 to \$27,150 per year. Starting salary dependent upon experience or exceptional qualifications and previous salary level of appointee. No. 250.

Incumbent is responsible for the development, implementation and maintenance of financial applications for the Virginia Institute of Marine Science.

Qualifications--Knowledge of COBOL language required, IBM JCL and TSO experience desirable.

Familiarity with accounting systems and demonstrated ability as a user liaison preferred. Computer Center, (VIMS), deadline Dec. 16.

**WATCHMAN B (Security Guard)**--Unclassified, \$3.92 per hour (several openings).

Incumbent serves as an unarmed security person with uniforms and equipment provided.

Qualifications--Ability to carry out written and oral instructions as well as the ability to meet and deal tactfully with the public required. Campus Police, deadline, Dec. 12.

**LABORATORY TECHNICIAN A**--Unclassified, part-time, \$4.28 per hour, up to 39 hours per week.

Incumbent is responsible for processing and identifying benthic samples; doing field work; preparing data sheets; and entering data into computer.

Qualifications--Knowledge of and demonstrated ability in processing benthic samples preferred. VIMS, Estuarine and Coastal Ecology, deadline, Dec. 7.

### Admissions Intern

The Office of Admissions is offering an internship for a second semester senior in the spring term 1984. There is a time commitment of at least ten hours per week. The student would be involved with all phases of admissions work beginning with clerical filing of official documents, research projects, arrangements for local events (workshops, counselor tours, open house, etc.), group presentations to visiting families, evaluation of credentials and selection of incoming freshman class.

Interested persons should contact Dean Gary Ripple in the Admissions Office at their earliest opportunity.
