

# Parents' Weekend brings big crowd to campus

The annual Parents Weekend at the College of William and Mary is expected to attract some 1,500 persons to the campus Sept. 28-30. Visitors will have a busy time, going to classes, receptions, meals, a soccer game, a lecture series, and a show in William and Mary Hall.

It's all a joint venture of the students and the Association of Parents, an organization that encompasses all parents of current students, and the weekend is an effort to show parents the many facets of the College.

The program starts Friday, Sept. 28, with classes open to parents all day. Linda Collins Reilly, associate provost, will preside at a 3 p.m. discussion with parents of freshman students. At 4 p.m., President and Mrs. Thomas A. Graves, Jr., will host a reception for parents, faculty and staff in the Wren Yard. In case of rain, this will be held inside the Sir Christopher Wren Building.

Parents are encouraged to have dinner with their students, followed at 8:45 p.m. with a concert in Trinkle Hall by the William and Mary Choir and the College-Community Orchestra.

Saturday's activities begin at 8:30 a.m. with a continental breakfast in Andrews Hall lobby. Administrators of the College will be present to chat with parents.

At 9 a.m. a lecture and panel series is available for participants. College speakers include: David L. Moore, school of business administration, and his students, on "Direct Marketing of Williamsburg: William and Mary Students Serving the Business Community;" Glenn D. Lowry, director of the Muscarelle Museum of Art, "How to Appreciate a Painting;" Ronald B. Rapoport, government department, "1984 Election: Harbinger of Change;" Han O. Tiefel, religion department, "Ethical Aspects of Nuclear Deterrence;" Randolph A. Coleman, pre-med advisor, chemistry department, "Pre-Med and Pre-Law Advising at William and Mary — A Success Story."

Also, George M. Grayson, government department, "The Crisis in Central America;" Dr. Jay L. Chambers, director of the Center for Psychological Services, and Dr. William L. Perry, staff physician, "The William and Mary Student: Caring for His Physical and Emotional Health;" and Mark G. Gulesian, school of education, "Quality in Secondary Schools — Where's the Risk?"

The general meeting of all parents will be held at 11 a.m., Saturday, in Phi Beta Kappa Memorial Hall. Presiding will be Ellen Lewis, student chairman of Parents Weekend. Participating will be President Graves and Mr. and Mrs. L. Keith Gardiner, chairmen of the Association of Parents.

Following the meetings, luncheon will be served on the lawn near Andrews Hall.

Parents may choose an afternoon soccer game between William and Mary and the United States Naval Academy on Cary Field or a plant and landscape tour, including the greenhouse and grounds. Visits to the Career Planning and Placement offices and a tour of the Wren Building, Trinkle Hall and the Campus Center and the Muscarelle Museum are also on tap. Parents of freshmen who missed the Friday discussion with Mrs. Reilly may take

advantage of another at 2:30 p.m., Saturday.

That evening at 8 p.m., actor William Windom will present his one-man show on Thurber. The William and Mary Hall event is included in the package plan for registrants, but others who wish to see the highly acclaimed entertainment may buy tickets for \$1.50 at the door.

The last event is an ecumenical worship service at 9:30 a.m., Sunday, at the Campus Center ballroom, presented by the Campus Ministries at William and Mary.

## New plantings assure beauty for autumn

The Flower Man's fine hand is on view again around the College campus. Roy Williams, assistant director of buildings and grounds, has had his crews taking up the summer geraniums and ageratum and placing fall chrysanthemums in their place in flower beds. The chrysanthemums, grown since last June from cuttings at the College, are producing flowers of white, gold, bronze and red.

After they have bloomed out, probably in November, they will be removed for the next blaze of color, the ornamental cabbages, which give hues of purple, magenta, grey and green till winter. If the winter is mild, they may survive longterm, Williams says.

Late fall is also the time to plant bulbs for a show of spring color, and this will take place in November, too. About 2,000 daffodil bulbs will go in at the Alumni House, on the Richmond Road side. Others will be set in Sorority Court, in flower beds and naturalized areas. Varieties such as Ice Follies complement the artistic appearance of Oliver and King Alfred daffodils in the area of Barrett Hall. Tulips will also appear in abundance.

In 1982, 4,000 bulbs from alumnus John Tarver were contributed to the College for a trial garden to illustrate a broad range of varieties. With the cooperation of Williams, the garden was planted. In 1983, there was a further addition of 2,000 bulbs, donated for the research program of Dr. Martin Mathes, professor of biology. He was investigating the potential of small pieces of bulb scale to produce bulblets, to explore factors which influence this development, and to provide a method for the rapid propagation of rare bulbs. This gave the stimulus for the planting of additional bulbs, and about 4,000 tulips were planted last year.

Dr. Tarver, a dentist in Hampton, has donated 2,000 daffodil bulbs for planting this fall in more than 20 locations.

Dr. Mathes has produced a self-guided tour of locations, which includes the original demonstration garden established in 1976.

This significant addition to campus plantings, research efforts and educational programs has been the result of private donations and assistance from the Landscape Advisory Committee.

Permit No. 26  
Non-Profit Organization  
U.S. Postage PAID at Williamsburg, Va.

Linda Lavin

Jack Garrett

## Alumni Medallion goes to Lavin and Garrett

The 1984 Alumni Medallion will go to the star of TV's "Alice" and to a former president of the Society of the Alumni. The presentation will be made on Homecoming weekend, Nov. 2-4.

Actress Linda Lavin, a 1959 graduate, and John H. "Jack" Garrett, Jr., of Irvington, a 1940 graduate, will each receive the society's highest honor in recognition of their service to the College, the community and the nation.

Miss Lavin is having her 25th class reunion at Homecoming and will serve as grand marshal for the parade, which begins at 9:30 a.m. on Nov. 3. She will also be inducted into the College's Order of the White Jacket, an organization of alumni who helped finance their education by working in food service. One member of the fun-loving group says that in view of her long term as "Alice," the TV waitress, she is well qualified for OWJ.

Miss Lavin, a noted stage actress in musicals and drama on Broadway, found her way to Hollywood, where she starred in the CBS-TV series beginning in 1976. She is also an accomplished vocalist and pianist. In 1979 she received the Golden Globe award for her role in "Alice." She has also been nominated for an Emmy award for best actress in a comedy series and for a Tony award in "Last of the Red Hot Lovers."

She visited the campus last spring and met with various groups. Miss Lavin has been a member of the College's National Endowment for the Humanities task force

and has received awards of appreciation from the Society of the Alumni for narrating the Campaign for the College slide program and for heading a special project to support the William and Mary Theatre.

Garrett, who is vice-president for investments in the trust department of the Bank of Lancaster in Kilmarnock, was a director of the Society of the Alumni from 1976-82, vice-president from 1978-80, and president from 1980-81. A member of the President's Council and the Order of the White Jacket, he and his wife served for many years as class agents and as co-chairmen of the 1940 class reunions. He is a retired captain in the U.S. Navy.

Miss Lavin and Garrett will receive the medallions at the annual meeting of the Society of the Alumni on Friday evening, Nov. 2. The society has conferred 178 medallions since 1934.

## Ambassador to visit here

The Hon. K. S. Bajpai, ambassador from India to the United States, will be on campus Oct. 16 to deliver the fifth Mahatma Gandhi Freedom Lecture and to attend the International Dinner at Trinkle Hall at 6 p.m.

An international cuisine will be prepared by professors, administrators, students and members of the Williamsburg community. Each person will bring a dish for two from the country of their choice.

September 27, 1984

On Rosh Hashanah, Mrs. Graves and I wish all Jewish students, faculty and staff a Happy New Year.

*Thomas A. Graves, Jr.*

President

## Newsmakers

Research by **Dr. C. Richard Terman**, professor of biology, in conjunction with Dale Utt, Jr. Paul J. Bushman, T.R. O'Keefe, and L.C. Pinkston at the Population Lab was presented in three papers at the May meeting of the Virginia Academy of Sciences.

**Philip J. Funigiello**, professor of history, reviewed "TVA: Fifty Years of Grass-Roots Bureaucracy" in the *Georgia Historical Quarterly's* summer issue. The book was edited by Erwin C. Hargrove and Paul K. Conkin and published by University of Illinois Press.

The paper, "Design considerations for time-critical distributed computer systems" by E.C. Foudriat, W.J. Berman, R.W. Will, and **W.L. Bynum**, was presented by the first author at the meeting: II Encuentro Nacional Asociacion de Computadores, August 27-September 1, 1984, in Medellin, Colombia.

**Bruce B. Roberts**, assistant professor of economics, is coauthor of two articles which will appear shortly. The articles, written with Richard D. Wolff and Antonio Callari, are "A Marxian Alternative to the Traditional 'Transformation Problem,'" forthcoming in *Review of Radical Political Economics*, and "Unsnarling the Tangle: A Rejoinder," forthcoming in *History of Political Economy*. In addition, his paper "A Contribution Towards an Alternative Marxian Theory of Fixed Capital" has been issued as Discussion Paper #11 in the series published by the Association for Economic and Social Analysis.

**Donald Clay Johnson**, Swem Library, has just published a review of Shiro Saito's "Philippine-American Regional: A Guide to Manuscript Sources in the United States" in the *Journal of Asian History*.

**Cirila Djordjevic**, professor of chemistry, attended the 1984 meeting of Virginia

Academy of Science in Richmond, where her students presented the following three papers:

**C. Djordjevic**, N. Vuletic, and G. M. Jamison, "Oxoperoxo citrato complexes of molybdenum (VI);"

M. Lee and **C. Djordjevic**, "Oxoperoxo-polyoxycarboxylato vanadates (V);"

D. J. Mayonado, and **C. Djordjevic**, "Electrochemical studies on peroxo-heteroligand vanadates (V)."

**Talbot J. Taylor**, assistant professor of English, spent last year in England teaching at the University of Southampton, and in the spring term, at Oxford University. During the year he published the following articles: "Communication and Literary Style," in *Poetics Today*, "Recent Trends in Stylistics," *Journal of Literary Semantics*, "Editing Rules and Understanding: The Case Against Sentence-based Syntax," *Language and Communications*, as well as some entries on psycholinguistics and neurolinguistics in the recently published *Encyclopedic Dictionary of Psychology*. During the summer he attended the "Third International Conference on the History of Language Sciences," at Princeton University, where he read a paper on "Naturalism and Conventionalism in the Lockean Tradition." His first book, "Linguistic Theory and Structural Stylistics," has just been reprinted by Pergamon Press.

**Ned Waxman**, assistant professor of business administration, has returned to campus after a leave of absence in Israel. While there, he gave a lecture, "Effects of U.S. Bankruptcy Code on Israeli Businessmen in International Trade" for the faculty of the School of Business Administration at Hebrew University in Jerusalem. Even more importantly, he was married last month to an Israeli. Her name is Edna Waxman, and we welcome her to W&M and the U.S.A.

**G. Gary Ripple**, dean of admissions, recently conducted a workshop for teachers in the Newport News school system on "How To Write College and Job Recommendations." He also gave the keynote address to the Roanoke Valley Education Consortium titled "Correlates of Success: Articulation and Transition from High School to College" on Sept. 10.

"The Play Publisher/Leasing Agent and You" is the title of an article by **Louis E. Catron**, professor of theatre, that appears in the September issue of *Dramatics* magazine. The article is designed to help theatrical play directors understand fully the mutual obligations and responsibilities of directors and play publishers. The article is intended to be one chapter in a play direction text that Catron is writing.

**Steve Haynie**, assistant professor of the physical education department and men's tennis coach, recently attended the 1984 National Tennis Teachers Conference in New York City.

Coach Haynie participated in several workshops and seminars during the conference, including "Ethics and Philosophy of Team Coaching" and "Coaching Players to Maximize Performance in Varying Conditions of Play." The conference is held in conjunction with the U.S. Open tennis championships at Flushing Meadow, N.Y.

Shared Experience, a local internship program, has developed seven new fall internships with James City County. Posted outside the Office of Career Planning are job descriptions for a data systems technician, housing research assistant, economics development research assistant, management analyst assistant, transit intern, procedures analyst and EEO specialist. Shared Experience positions require 8-12 hours a week and offer a unique opportunity to gain practical job experience. The program is offered through the office of Career Planning, Morton 140, 253-4427. Deadline for applications: Oct. 2.

## Employment

The following positions at the College are open to all qualified individuals. Call 229-JOBS for further information or visit the Personnel Office, 201 James Blair Hall for information and application forms between 8 a.m. and 4 p.m., Monday-Friday. An EEO/AA employer.

**PROGRAMMER (Grade 10)** — Salary range \$18,061 to \$24,672 per year. Location: Computer Center. Deadline Sept. 28.

**CLERK D (Grade 6)** Salary range \$12,644 to \$17,273 per year. Location: University Advancement. Deadline Sept. 28.

**CRAFT SHOP SUPERVISOR**--Unclassified, \$4.65 per hour, part-time, approximately 20 hours per week. Location: Campus Center. Deadline Sept. 28.

**CLERK C (Grade 4)**--Salary range \$10,587 to \$14,454 per year. Location: Swem Library. Deadline Sept. 28.

**FISCAL TECHNICIAN SENIOR (Grade 8)** Salary range \$15,118 to \$20,646 per year. Location: VIMS (Payroll). Deadline Sept. 28.

**MARINE SCIENTIST B (Grade 12)**--Salary range \$21,594 to \$29,845 per year. Location: VIMS (Dept. of Chemical Oceanography) Deadline Sept. 28.

**EXHIBITION COORDINATOR (Laboratory Mechanic A)**--Unclassified, \$5.09 per hour, part-time, approximately 15 hours per week. Location: Fine Arts Exhibition Committee. Deadline Oct. 1.

**PROGRAMMING/SYSTEMS DEVELOPMENT SUPERVISOR (Grade 16)**--Salary range \$30,839 to \$42,116 per year. Location: Computer Center. Deadline Oct. 22.

John Massey of Williamsburg, owner of Massey's Camera Shop, center, was given the Prentiss award for outstanding leadership, Tuesday evening at a reception for Friends of the College given by President and Mrs. Graves. Above are Mrs. Graves, J. B. Hickman, perennial friend of the College, Mrs. Massey, Massey, Mrs. Hickman, and President Graves.

## Public Notices

The Faculty Club is holding its first social event of the season on the grounds of VIMS at Gloucester Point on Friday, Oct. 5, at 6 p.m. The usual assortment of seafoods will be featured, along with such complements as hush puppies, cole slaw, chips and assorted beverages. Music will be provided by FOAM. In case of rain, the new Watermen's Hall will be the scene of the party.

Membership fee is \$14, payable in advance or at the event to Roy Pearson, treasurer. Payment includes the Oct. 5 party; guests are \$4 for the first ticket, \$8 for any additional. Emeriti are free.

Three other social events are planned for this year.

The First Baptist Church of Williamsburg will observe William and Mary Sunday on Sept. 30 at the 11 a.m. worship service. Students of the College will take an active part in the order of service.

Dr. Thomas T. Shields, pastor, invites students, staff and faculty to join with the congregation for this event.

Temple Beth El of Williamsburg invites members of the community to celebrate the Jewish High Holidays, Rosh Hashanah and Yom Kippur, at the synagogue, 600 Jamestown Road. Services for Rosh Hashanah commence at 7:30 p.m. Wednesday, Sept. 26. Thursday morning services begin at 10 a.m. Shabbat Shuvah will be held Friday at 7:30 p.m. On Friday,

## 'Fade Out - Fade In' opens next week

A "theatrical jewel" that is purely escapist entertainment is the first offering of the season for the William and Mary Theatre.

"Fade Out - Fade In" opens Friday, Oct. 5, at 8:15 p.m. at Phi Beta Kappa Memorial Hall. Director Jerry Bledsoe, associate professor of theatre and speech, calls it "a musical that never really got a chance." It starred Carol Burnett in 1964 and ran on Broadway for 271 performances. When Burnett became ill and had to leave the production, no other actress could replace her unique personality and the show folded.

The musical is a spoof of Hollywood in the 1930s and features the stereotypes of the era — platinum blondes, casting-couch romances, and small-town girls becoming starlets. "There isn't a single serious thought in it," says Bledsoe. "This is an undiscovered jewel, and it has never been seen in this area."

It will be presented the evenings of Oct. 5, 6, 11, 12 and 13, with a matinee performance at 2 p.m., Sunday, Oct. 7. Tickets are available at the theatre box office. For information call 253-4272.

Oct. 5, at 7 p.m. Yom Kippur, the Jewish Day of Atonement, begins, followed by Saturday Minhah service at 5 p.m. A communal break fast at sundown completes the celebration.

## Career Day set October 2

Government Career Day for students will be held Tuesday, Oct. 2, in the Campus Center ballroom from 1-4 p.m. Federal, state and local agencies will be on hand to provide career information.

Among those will be: U.S. Air Force; U.S. Army; U.S. Army Medical Department; U.S. Army Reserve Officers Training Corps; Auditor of Public Accounts; Central Intelligence Agency; City of Newport News; City of Williamsburg; York County; Defense

Nuclear Agency; Department of Corrections, Division of Adult Services; Department of Health and Human Services, Social Security Administration; U.S. Department of State; Export-Import Bank of the United States; Federal Bureau of Investigation.

Also: Fish and Wildlife Service, Internal Revenue Service; James City County; Library of Congress; U.S. Marine Corps; National Oceanic and Atmospheric Administration; National Park Service; Naval Air Test Center; Naval Supply Center; U.S. Navy Office Programs; Office of Personnel Management; Peace Corps; U.S. Postal Service; State Probation and Parole; Virginia Department of General Services; Virginia Department of State Police; Virginia Employment Commission.

Since many of these agencies will be unable to return to campus during the 1984-85 school year, all interested individuals are encouraged to take advantage of this opportunity. Further details may be obtained from the Office of Placement which is sponsoring the event. Call 253-4604 or come by Morton 140.

## Official Memorandum

The Virginia Supplemental Retirement System will conduct a preretirement program for its members nearing age 55 or older who have begun planning for retirement. This program will be held Oct. 23 in the Campus Center, rooms A&B.

It is important for individuals considering retirement to attend this meeting since presentations will be made by representatives from VSRS, Blue Cross/Blue Shield and the Social Security Administration.

Interested individuals from the College and from VIMS may register by contacting Lila Roberts, Personnel Office, 253-4214, not later than Oct. 5.

For those who are unable to attend the Williamsburg seminar, a similar session will be held in Hampton on Oct. 26 in the City Council Chamber, 22 Lincoln St., City Hall.

I. H. Robitshek  
Director, Employee Relations

## Placement schedule

### Seminars

- Morgan Stanley investment banking, Sept. 27, 4 p.m.
- Arthur Andersen, Oct. 1, 5 p.m.
- Ferguson Enterprises, Oct. 2, 7 p.m.
- Auditor of Public Accounts, Oct. 4, 2 p.m.
- American Management Systems, Oct. 4, 7 p.m.
- Careers in Insurance, Oct. 9, 3:30 p.m.
- Electronic Data Systems, Oct. 11, 3:30 p.m.
- Conoco Corp., Oct. 15, 7 p.m.
- Metropolitan Insurance, Oct. 16, 4 p.m.
- Proctor & Gamble, Oct. 17, 5 p.m.
- COGME, Oct. 17, 7 p.m.
- CIA, Oct. 18, 3:30 p.m.
- Sonoco Products Co., Oct. 18, 7 p.m.

You must be registered before making appointments. See the Office of Placement, Morton 140.

### Interviews

- Monday, Oct. 15, Arthur Young, accountants
- Tuesday, Oct. 16, Peat Marwick, Mitchell, accountants
- Wednesday, Oct. 17, same
- Brown Edwards and Company, accountants
- Morgan Guaranty, accountants, economists, business
- Thursday, Oct. 18, Proctor & Gamble, all undergraduates
- Price Waterhouse, accountants
- Friday, Oct. 19, Price Waterhouse, accountants
- U.S. General Accounting office, accountants

### RESEARCH GRANTS

Applications for summer faculty research grants, semester faculty research assignments and minor grants for research are available from the Office of Grants and Research Administration, James Blair 205.

Minor grants for research deadline: noon, Thursday, Oct. 4 and noon, Wednesday, Jan. 23, 1985. Three copies of the applications should be sent to the Office of Grants and Research Administration.

Summer faculty research grants deadline: noon, Thursday, Oct. 25. Sixteen copies of the application should be sent to the Office of Grants and Research Administration.

Semester faculty research assignments deadline: noon, Thursday, Nov. 15. Sixteen copies of the application should be sent to the Office of Grants and Research Administration.

### OPEN HOUSE HOURS

President Thomas A. Graves Jr. will hold an Open House for students in his office on Tuesday, Oct. 9, from 4-5 p.m. No appointment is necessary.

## George Jack Jr. in repertory

George Jack, Jr., a May graduate of the College, has been accepted into the Repertory Theatre of the University of Louisville, Ky., and is currently performing in three plays there. He is also working toward an M.F.A. in theatre at the university. George appeared in a number of W&M productions and is especially remembered for his leading role of Tevye in "Fiddler on the Roof," which broke box-office records for attendance. He received the Prentice Davis Hill dramatic scholarship in theatre at Commencement.

He also received the Howard Scammon Drama Award while studying playwriting with Louis E. Catron and was awarded a national playwriting honor last year. He ranked 11th in a field of 100 finalists in a competition sponsored by Writer's Digest, and his one-act play, "Vignette," won first place in a competition sponsored by the Country Playhouse in Houston, Texas, and will be performed by that company in October.

### ANDREWS HALL EXHIBITS

Exhibits in Andrews Hall for the next weeks include a show of sculpture and paintings by Myron Helfgott, professor of art at Virginia Commonwealth University, in the foyer through Oct. 10. Tom Secrest, professor of art at the University of Southwestern Louisiana, is showing paintings and drawings in the gallery through Oct. 19. Hours for both exhibitions are 9-5, Mondays through Fridays.

### BIOLOGY SEMINAR

Dr. Jeffrey Lucas, visiting assistant professor of biology, will speak at the Biology Seminar Oct. 3 at 4 p.m. in Millington 117. His subject is "Time Constraints and Diet Choice." Refreshments will be served by the Biology Club at 3:30 p.m. in the Biology library.

### PERSONNEL DEVELOPMENT SERVICES

These are the PDS offerings from October-December 1984. Interested employees should submit their participation request in writing through the head of their department to the College Personnel Office. All workshops will be held from 8:30 a.m. to 4:30 p.m. at the Training Center, Mezzanine, James Monroe Building, 101 North 14th Street, Richmond. Tuition is \$35 for each two-day workshop and \$25 for each one-day workshop. All costs must be borne by the employing department.

## Dr. Webb dies at 74

Dr. Lewis W. Webb, Jr., the founding father of Old Dominion University, died Sept. 9 at the age of 74 in Norfolk.

He began his career there in 1932, when the school was an offshoot of the College of William and Mary. In 1946 the Board of Visitors asked him to become director of the Norfolk division. By 1952 he had transferred the two-year division into a four-year college, and in 1962 it became a college on its own, severing ties with William and Mary. He retired as president of Old Dominion University in 1969.

In 1980 he was presented the University Medal, the school's highest award for service, and the student activities building was named in his honor.

# The News

The William and Mary News is published weekly by the Office of University Communications during the academic year, except when the College is in recess, and twice each month in June, July and August.

1972 MGC Roadster, new tires, looks and runs well. \$1995. Call Leslie at 565-3331. 9/26

Armstrong student flute. One owner, good condition. \$150 229-5782. 9/26

BMW Bavaria, 1972, 4-door, sunroof, AM/FM cassette; in excellent mechanical condition; outstanding acceleration and handling; all service records; 100,000 miles, but burns no oil; rust repair to fenders needed but not essential. Cruise campus in style. Asking \$2800. Call 565-0105 (evenings). 9/18

Honda Express motorcycle, 1979 model, and 10-speed bicycle. Call 229-0678 for details. 9/18

1974 VW Beetle, good condition, Blaupunkt radio. \$1,700-or-best-offer. Call 229-7963, evenings. 9/18

1973 Volvo 144S, 4-speed, powerbrakes, A/C. Runs well; clean, but some rust. \$1200. Call 229-4510 after 5 p.m. 9/18

'73 Pinto station wagon, runs good, \$600. Call 220-0274 between 10 a.m. and 3 p.m.

Seasons Trace townhouse, 3 BR, 2 1/2 baths, excellent condition, many extras, great location near ponds and farm. Recreation area includes pool, tennis courts. Low maintenance fee. ASSUMABLE MORTGAGE. Avail. Nov. 30. Call 565-0585 after 5 p.m. 10/3

1974 Opel Manta Luxus - 4 speed, new tires, runs great, \$750. Call Linda, 253-1068, after 5. 10/10

1973 Ford Maverick, 4-dr., AT, PS, AC, 302 V-8 engine, front bucket seats. Good reliable car. \$550. Call 229-7042 after 6 p.m. 10/10

1973 Pontiac Le Mans, 4-door, V-8, air conditioning, original owner, always garaged, engine & body in fine condition, \$1400. Please call 229-6521 after 5 p.m. 10/10

Three manual typewriters, student desk and chair. All in good condition. Please call 229-7589. 9/26

Full size mattress and box springs. Clean. Good shape. \$50. Call 220-3066 after 6. 10/10

## Muscarella slates new show

Modernism arrived in the United States as an immigrant, for American artists were culturally dependent on Europe until after World War II. "Into the Melting Pot: The Immigration of American Modernism," a major art exhibit opening at the Muscarelle Museum of Art Oct. 8, explores the role of a small group of artists who came to the United States to paint prior to 1920.

The show documents their contributions to the transformation of American painting from its tradition-bound, 19th-century academicism to a more progressive outlook on the modern technological world. The work of the assembled artists represents consistent attempts to develop a consciously advanced style among the foreign-born American painters working during the first decades of the century. They all became naturalized American citizens and derived their artistic lineage from the context of Western art, yet along with their native-born counterparts they hoped to transform what they perceived as the static and effete quality of Western tradition.

The aims of these early modernists were primarily directed toward the creation of new spatial realms indicative of contemporary psychic and social orders, while insisting on the inherent two-dimensionality of the painted surface through the use of flat areas of color. The artists simulated the illusion of recession through space by manipulation of the color values of the planes.

"Into the Melting Pot" examines the work of 12 of these artists. It will be on view in the Sheridan Gallery until Jan. 10. The public is invited.

## Rediscovered maize preserved here in greenhouse cultivation

What the world needs now are easily-grown foodstuffs that will help sustain life throughout an increasingly hungry world. A significant contribution might be a grain that was thought to be extinct for more than half a century, but has been re-discovered growing in the Mexican mountains.

It is an ancestral relic of modern corn, a perennial wild maize, and it grows in Cerro de San Miguel, Sierra de Manantlan.

The Foreign Studies program at the College of William and Mary has provided a unique connection between Mexico and Williamsburg as a result of an applied botany course completed by Dr. Martin C. Mathes, professor of biology, in the Latin American Studies in Mexico program. Dr. Mathes was able to obtain some of the seeds of this plant, teosinte, for a rare addition to the greenhouse and the campus. Assistance in obtaining the seeds came from the Jardin Botanico Francisco J. Clavijero, and its director, Dr. Graham Pattison.

The teosinte (wild grass) does not have attractive foliage or a floral display, says Dr. Mathes. What it does have is a unique genetic potential that will be preserved in the small planting at the College. Seeds have been germinated and will be grown over the winter in the greenhouse and on the campus next summer.

"The recent history of our new plant began in 1978 when Rafael Guzman made a unique rediscovery of a perennial wild maize which was thought to be extinct since 1921," says Dr. Mathes. "The seeds are used locally for food, and this new teo-

sinte was growing on only a few acres with a few thousand stalks growing at mountainous elevations."

The ancestor of our corn has the same number of chromosomes as modern corn, so it can be crossed to incorporate genes, he adds. It is sometimes found on the edge of corn fields, where it may cross with maize and progressively add primitive genes to field seeds collected. The habit of growth of perennial underground stems, he notes, is in contrast to conventional corn, which is an annual. Scientists at other institutions have produced initial crosses that resulted in a perennial hybrid.

If this seed becomes widespread, it could mean that farmers might eventually grow corn without the annual planting and tilling ritual, thus saving millions of dollars each year, Dr. Mathes points out.

*Diploperennis*, since it grows in cool, moist habitats at 7,000-10,000 feet, may also add these parameters to hybrid seeds. It may be possible, he says, to extend the range of future corn plants to include the cool, moist climates that had previously excluded corn as a cash crop.

The ancient Mexican teosinte is also resistant to a number of diseases, a factor that could save billions of dollars.

"The inclusion of the perennial characteristic, its growth in higher elevations, and its disease resistance underlie the simple appearance of the newest member of the College botany program," he says. "The teosinte is a unique plant that needs to be preserved because of its potential."

## People person is on the job

Edward K. McCormick is the College's new director of student financial aid, coming to Williamsburg from Susquehanna University in Selinsgrove, Pa., where he directed financial aid for 14 years.

On the job here since Sept. 1, McCormick says he's very excited about the William and Mary position and "it's living up to my expectations."

He's a real people person, likes interpersonal relationships, and thinks the people at the College are great. He says he very much likes the students "because of their bright, articulate, open style. And I'm impressed with the sense of community in place here. I haven't seen any factionalism. I find members of the staff and faculty with whom I'm in contact very supportive and very professional. They seem to work non-stop." The student affairs staff under the leadership of Dean Sadler is a model unit, he notes.

The students here will find that he's their ally, and very caring. He feels his job is a student service and that it is his privilege to find ways to help those who must have financial support for their education.

"The effect this office can have upon the lives of many individuals is tremendous. I feel good about the influence I have at a time when a student needs support."

## Campus Spotlight

William and Mary's funds for student financial aid are presently on the low side for the size and importance of the College, he says, but because it is a state-supported school, there's a built-in discount for all students. However, he points out "if we are to remain competitive with the University of Virginia, Duke, Chapel Hill, and the Ivys we need to have a stronger financial aid program. I plan to work cooperatively with the Development Office to assure new money to aid our students." McCor-

Ed McCormick

mick will work creatively with the Admissions Office to package financial aid in a manner which maximizes its effectiveness.

McCormick's wife of 14 years, Elizabeth, is a reading specialist. They have two sons, Ryan, 9, and Kevin, 7.

Ed McCormick was awarded a B.S. degree in biology from Bloomsburg University and two master's degrees from the University of Pittsburgh, one in secondary education, the other in counseling. His first job was as assistant dean of students at Lycoming College, 1967-70, which he began when he was only 22 years old. The student newspaper interviewed him there, and headlined the story, "He Looks Like He's One of Us but He's Really One of Them." At Susquehanna University, where he assumed the job of dean of men and financial aid director, the student newspaper interviewed him and allowed as how he, at 25, was hard to tell from an ordinary student at the school.

"This time," he says a trifle ruefully, "I won't be mistaken for a student."
