Chemistry receives computer gift from AT&T

The chemistry department has received a gift of computer equipment from AT&T valued at over \$200,000.

The new equipment, says Richard L. Kiefer, chairman of the chemistry department, "gives us the capability of networking throughout the department. It enlarges our word-processing capabilities and will be particularly valuable to students for writing lab reports, applying computers in laboratory course work and using computers in research projects."

The gift from AT&T includes two 3B2/400 supermicros and 10 UNIX-PCs.

The request for computer equipment, said Kiefer, was made to enhance the department's upper-division courses, including undergraduate research. "Our objective," he explained, "is to provide an integrated computer environment for students and faculty, with easy access to common resources such as the library data base."

He said, "Our need is to provide the computer power necessary for scientific work, at both the instructional and research level. The work focuses on computational and graphics services, in addition to word processing and information management. The special scientific requirements of chemistry call for the kind of multi-tasking, high-speed, bit-mapped-oriented system offered under UNIX."

An important advantage of the UNIX system, said Kiefer, is the wide range of software applications that are available for it. The aim in enlarging the department's computer capability, he added, was to have a single system to serve both faculty and students.

The department is unusually strong in its emphasis on undergraduate research. Since 1975, more than 106 manuscripts have been published, the majority of which have had one or more undergraduates as co-authors. This also indicates the research commitment of the faculty. There are currently 17 active research grants, and contracts with external funding exceeded \$250,000 annually in 1985.

Chemistry ranks second only to physics in research awards.

A national study of external support figures, published by the Council on Undergraduate Research, supports this. It shows that William and Mary's chemistry department ranks highly when compared with other chemistry departments well known for their undergraduate research activity.

The department is also a leader at the College in terms of the number of students obtaining an honors degree, which requires writing and defending a thesis. These stu-

dents, in particular, will benefit materially from the new AT&T system. Year-round use of the equipment is assured with the active summer research program in the department that supports 12-15 undergraduates with grant funds and fellowships.

"We are especially proud of the record of our graduates," said Kiefer. "In the category of public non-Ph.D. granting schools, William and Mary produces the largest number of students who go on to obtain a Ph.D. degree. Last year alone students went to an impressive selection of graduate schools: MIT, Cornell, Berkeley, Stanford, Wisconsin, Harvard, Princeton, Illinois, North Carolina, Duke, Texas and Chicago.

Swem Library interim schedule

Dec. 18-19: 8 a.m.-5 p.m.
Dec. 20-21: Closed
Dec. 22-23: 8 a.m.-5 p.m.
Dec. 24-Jan. 4: Closed
Jan. 5-14: Monday-Friday, 8 a.m.-
5 p.m.; Saturday-Sunday,
Closed

President Verkuil (r), thanks John Laughlin, area vice president of AT&T, for the gift to the chemistry department.

New law seminar focuses on juvenile offenders

New program combines both academic/clinical

Under a \$24,421 grant from the Virginia Department of Criminal Justice Services, the Marshall-Wythe School of Law at the College of William and Mary will initiate a juvenile law seminar/clinical course for eight third-year law students in January.

The new course will provide a unique academic-clinical approach to juvenile justice. After an initial three or four weeks of lectures and classroom sessions on the philosophy and structure of the juvenile justice system, students will assist private court-appointed lawyers with two to four cases during the semester.

Instructor for the new courses will be Lelia Baum Hopper of Richmond, formerly Deputy Secretary of Human Resources for Virginia from 1982 to 1986.

A 1971 graduate of Westhampton College and a 1974 graduate of Marshall-Wythe, Hopper was named Woman of Achievement in Government in 1985. A staff attorney and later senior attorney for the Division of Legislative Services, she has worked closely with the state courts system. As part of her special interest in juveniles and the law, she co-authored "The Revision of Virginia's Juvenile Court Law" with Del. Frank M. Slayton, which appeared in the University of Richmond Law Review in 1979.

Hopper's assignments in Richmond have enabled her to gain a breadth of knowledge of many issues. She has served as counsel to legislative committees studying the needs of young children, services to youthful

offenders, revisions in the Virginia Juvenile Code, and the placement of children for adoption as well as working with the Virginia Code Commission in its revision of the laws governing prisons and other methods of corrections.

Her work with the state legislature from

Lelia Hopper

1974 to 1982 also included staffing subcommittees on the needs of elderly Virginians, mental health and mental retardation, sterilization laws, hospice care and the needs of the impaired elderly.

The new course, explains Hopper, is aimed at giving law students an opportunity to understand and experience the workings of the juvenile justice system and how it differs from the adult court system

Because of the complexities of some juvenile cases and the lack of significant compensation for those representing juveniles, lawyers often do not want to become involved, she says. "There is a significant difference in representing a child versus an adult. The juvenile justice system is based on the premise that a child can be rehabilitated if the right kind of support is provided to change their lives or, in the case of abused or neglected children, take them out of their present situation."

Sometimes cases require the lawyer, who becomes an advocate for the juvenile, to return to court many times, says Hopper. "Many lawyers do not want to be social workers, which they have to be in cases."

"There is a different type of court situation between seeing an adult gets proper and just punishment or no punishment at all and, in the case of the child, hoping he will come to a decision which will allow him to rehabilitate himself. It is more of a treatment approach."

"These children often come from broken homes or they are in homes where there is no supervision, no discipline which helps them stay out of trouble. . . The court is the parent of last resort. We want new lawyers to learn legal skills which will help them represent their young clients more effectively."

"The lawyer is not responsible for seeing the child's problems all get fixed, but the responsibility is there to see that the resources are brought to bear which will help the child work through the problems."

Hopper is hesitant to call the new course "unique" in judicial education; but if not unique, it is one of the few to combine both aspects of academic and clinical education in one curriculum.

Post office holiday schedule

The campus post office will maintain the following schedule during the holiday period:
Dec. 22, 23, 8 a.m. to 5 p.m.

Dec. 24, 26, 27, 29, 30, 31, Jan. 2, 3, 8 a.m. to noon.

Since most of the buildings and offices on campus will be locked during the holiday period Dec. 24 to Jan. 4, the only scheduled mail deliveries and pick ups will be to the Swem and Law School libraries. Mail may be picked up at the post office during business hours. Regular mail service will resume on Jan. 5.

Newsmakers

C. Scott Hardaway Jr., marine scientist, has received an Honor Award from the Virginia chapter of the Soil Conservation Society of America for his efforts in vegetative research into techniques for stabilizing eroding tidal shorelines in the lower Chesapeake Bay.

The award was presented at the society's annual awards banquet held Nov. 21 in Blacksburg, Va.

This fall, John H. Sprinkle Jr., doctoral candidate in history, was elected to the three-member board of directors of the Archaeological Society of Virginia. Sprinkle has served for the past two years as librarian for the society. The library is located in the anthropology department.

Michael Faia, professor of sociology, was a guest lecturer at the University of South Carolina, Nov. 9. Faia presented a lecture to the university community titled "Machines Who Think and the Future of Sociology." The following day, Faia presented a symposium on his new book, *Dynamic Functionalism: Strategy and Tactics* (Cambridge). When skeptical members of the audience insisted that "dynamic functionalism" is an oxymoron, Faia countered by pointing out that, although the charge is an obvious truism, it is false.

Romuald N. Lipcius, assistant professor of marine science, was invited to present papers at two workshops this fall. His paper entitled "Efforts of Stress Upon Predation-Prey Dynamics" was presented at the Predator-Prey workshop at the Marine Science Institute of the University of Connecticut in Mystic, Conn., and his paper entitled "Habitat Use and Population in Biology of Bahamian Spiny Lobster," co-authored with W. Herrkind of Florida State University, was presented at the 39th Gulf and Caribbean Fisheries Institute, Spiny Lobster Workshop in Bermuda and will be published as a chapter in the proceedings of the meeting. Livingston Marshall, a VIMS graduate student, was also an invited participant.

Lipcius also was named to the position of acting editor for the Gulf and Caribbean Fisheries Institute Bulletin for 1986-87.

A paper entitled "Variable Functional Responses of a Marine Predator in Dissimilar Homogeneous Microhabitats," by Lipcius and A. Hines of the Smithsonian Institution, was published in *ECOLOGY*, Vol. 67 No. 5 (1986), pp. 1361-1371.

William Geary, associate professor of business administration, wrote a chapter on pension accounting for *CPA Review Manual*, vol. I, edited by Gleim and Delaney, 13th ed. (1986). He also contributed a chapter to a behavioral accounting text to be published next year.

Ron Sims, associate professor of business administration, presented a paper titled "Job Security and Employee Health" at the 25th annual Southern Management Association in Atlanta, Nov. 13.

Director of American Studies Bruce McConachie presented an invited paper, "Probability and Judgment: Validating the Insights of Historical Research into Cultural Performance," at the American Society for Theatre Research in November. His review of three books on theatre for working-class audiences, *Stage Left: Canadian Workers Theatre, 1929-1940*, *Left-Wing Dramatic Theory in the American Theatre and Theatre of the Left, 1880-1935*, appears in the Dec. issue of *Theatre Journal*.

Robert H. Barnett, director of auxiliary services, has been named the fifth recipient of the Robert F. Newton Award. The award is made to an individual showing leadership and service on behalf of the National Association of College Auxiliary Services over an extended period of years. Barnett has served the association as president, vice president, member of the board of directors and the editorial board and director of Auxiliary Management Institute and has chaired several committees.

Sandra McMinnis, of the Richard Bland College computer department, is co-author of 101 Database Exercises, published by McGraw-Hill in September.

It is a generic book that can be used with any database management software programs such as the Smart System of d-Base or Lotus 1,2,3, says McMinnis.

Now in her third semester of teaching at RBC, Mrs. McMinnis co-authored the book with Jeffrey Stewart of Virginia Tech and Nancy Mrelesco of Charlottesville/Albemarle Vo-Tech Institute.

Bruce K. Goodwin, professor of geology, has been elected to serve as vice chairman of the Virginia Board of Geology. He has also been asked to serve a three-year term as a consulting editor of the magazine *Rocks and Minerals*.

Brian Keith wins graduate award

Brian Keith, a doctoral student in counseling/school psychology, has been awarded a state graduate fellowship for 1986-87.

Keith, who was nominated to the merit-based fellowship in July by the School of Education, will receive \$6,000 which may be used for tuition and other related educational expenses. The fellowship was established as part of Virginia's plan for equal opportunity in state-supported institutions of higher education.

Keith, a native of Ohio, received a bachelor's degree in history from Eastern Kentucky University in 1981, and a master's degree in school psychology in 1983. He served two years with the Army's 101st Airborne Division.

Keith worked for three years as a school psychologist in the Pittsylvania County schools in southwestern Virginia and enrolled in the doctoral program at William and Mary this summer.

After completing his degree, Keith wants to return to a rural area of Virginia where he feels the need is greatest for psychological services. "Cities usually receive the bulk of funds and resources for these services," he says "No one equates the problems of drugs and suicide with wholesome farm communities. In rural areas, there are not that many places for people with problems to turn. Working in this environment is rewarding because people really appreciate the fact that you are willing to help them and their children. They appreciate it a great deal."

Ludwell Johnson semi-finalist in 'Professor of the year' award

Ludwell Johnson, professor of history, has been named as a semifinalist in the 1986 "Professor of the Year" competition sponsored by the Council for Advancement and Support of Education.

Johnson, nationally known for his research and teaching on the Civil War, was among 25 silver medalists nationwide. Some 350 professors were nominated for the honor, which is based on extraordinary effort as a teacher-scholar, service to the college and the profession, a balance of achievement in teaching, scholarship and service, and direct involvement with students.

Johnson, who earned B.A. and Ph.D. degrees at Johns Hopkins University, joined the William and Mary faculty for the 1955-56 academic year as assistant professor of history. After spending the next two years at Florida State University, he returned to William and Mary in 1958, was promoted to associate professor in 1961 and professor in 1965. From 1979 through 1983 he served as the William E. Pullen Professor of History.

He is the author of two books and dozens of scholarly articles, book reviews and articles for encyclopedias on topics related to the Civil War and 19th-century America generally.

His book, *Red River Campaign: Politics and Cotton in the Civil War*, published in 1958 and reprinted this year, was chosen in 1981 by *Civil War Times Illustrated* as one of the top 120 books ever written on the Civil War.

Ludwell Johnson

A member of Phi Beta Kappa, he has received awards and fellowships from Johns Hopkins, Phi Beta Kappa, the American Council of Learned Societies, the American Philosophical Society and several other organizations. He has served on many departmental and collegewide committees and was active in the establishment of the College's doctoral program in history.

Abdalla goes back to Sudan

Ismail Abdalla recently made a three-month visit to his homeland in Kordofa in western Sudan on the edge of the Sahara desert, to do field work on the impact of the 1984-85 famine, which caused major shifts in population or the disappearance in many sectors of children and old people.

Funded by a faculty grant for curriculum development, Abdalla collected material for a course he will teach next semester.

"When you lose people at both ends of your society it is tragic. When you lose children you lose your investment in the future and when you lose older citizens you lose the reserve of wisdom and tradition in the form of people who know about the past," he said.

"This is the second year of good harvest, which will go a long way to help people recoup from the famine years. Most of them lost almost all their livestock, and all their savings. Women lost jewelry, household items, everything that could be sold for food. Now they are just beginning to collect these items. The period of readjustment is by no means over, these people are still readjusting.

"They don't like to talk about the famine. It was such a bad experience, they want to completely forget about it, especially the bad memories of seeing their relatives die or move away.

"One thing is very clear, almost everyone is very grateful to the American people for the support and food distribution, which came at a critical time.

"President Reagan's name was on everyone's lips. They knew when he was in hospital and they prayed for his recovery. They say that if he stood for election in the Sudan he would win uncontested. The European countries especially Italy, spent just as much money and sent tons and tons of food also to the Sudan but it is Reagan who has been given all the credit for the aid."

For the first time, says Abdalla, people are looking at the seriousness of their situation and are willing to face the problems of deforestation and do something about it.

Abdalla gave a series of lectures in mosques, clubs, organizational halls and schools, reaching about 15,000 people in various parts of the country. In all instances he stressed the value of ecological balance and

the need to arrest the spread of the desert, which is creeping southward at an alarming rate.

Because he was able to relate to the problems of the area, Abdalla was also able to get businessmen to help. The gum-arabic market, a government-sponsored organization, agreed to earmark \$50,000 for the expansion of the reservoir or khazan system in the western Sudan to help with the storage of water.

Abdalla's district endorsed the policy and set up a standing committee of which he is honorary chairman, to see that the program is carried out in the next five to 10 years. It is also the charge of this committee to see that seeds of the acacia tree are packed and distributed to school children so that they will take them and spread them on their farms. The acacia or gum-arabic tree is used for many things in Sudan.

The committee will also work with tribal leaders in the area to organize grazing and farming areas and rotating the areas to keep from exhausting the land and to demand that every farmer plant as many trees as he cuts down. In the past, said Abdalla, the wholesale cutting down of trees for farming, without replenishing them has been one of the major problems.

For all his efforts, Abdalla was honored with a certificate of appreciation from the leader of his district who pledged to him that he would take the suggestions he had made and make them the plan upon which the district would work to enhance the environment.

"This is very rewarding," says Abdalla "because the new trees will begin producing gum within two or three years. The added incentive of income from the gum market, says Abdalla will help people put into practice the other environmental measures which will enhance their lifestyle. Abdalla was also moved to try to do something for the people of his region, he explains, because the droughts are cyclical and unless something is done to improve conditions, similar hardship will come with the next drought. At first, he said, people didn't seem interested in planning ahead, but now he hopes he has convinced them that they cannot stop the droughts but they can lessen their impact if they work at programs that enhance the soil and grow more trees.

Gift of Mr. and Mrs. Shatz to aid writers in exile

Mr. and Mrs. Frank Shatz of Williamsburg and Lake Placid, N.Y., have made a bequest of their estate to establish the Frank and Jaroslava Shatz Writer-in-Residence Endowment. The purpose of their bequest and the endowment will be to support a writer or writers who are in exile from their native lands.

Frank Shatz is such a writer. A native of southern Czechoslovakia, he was forced into a Nazi slave-labor camp at age 18, from which he eventually escaped and joined activities of the underground until the end of World War II.

Shatz (as foreign correspondent, 1949)

and respect the College of William and Mary.

Part of Shatz's motivation in establishing the endowment grew out of his frustration at missing the opportunity to write about his life and views in a cohesive way.

"The information I brought with me [from Communist Czechoslovakia] contains a lot of exclusive, unique material. I should have written a book about my experiences, but instead I sold the material piecemeal all over the world in a series of articles. I decided to create a place for refugee or exiled writers to sit down and write the book that's in their heads, the book that I was not able to write."

Establishment of an endowment for an exiled or refugee writer-in-residence will result in a "cross-fertilization of ideas," says Shatz. "Writers from a distant land would get an idea of what this country is all about and they could also give students an idea of what the situation is in their own countries."

Shatz also hopes the addition of an exiled or refugee writer-in-residence will complement and give new dimensions to the College's planned Center for International Studies.

"This college has the reputation of quality; it's such a drawing card for people. That's why we decided the College would be the right place to establish this endowment," says Shatz. "We also hope people will get the idea that you can make a difference in this way."

Entrees sought for Book Award

Nominations for the Ninth Annual Book Award of the Virginia College Stores Association are being held through Dec. 20.

Nominees must be authors currently residing in Virginia who have published books of outstanding literary, social and intellectual merit during the 1986 calendar year. A cash award of \$500 and an engraved Jefferson cup will be presented to the winner at a banquet during the fall meeting of the Virginia College Stores Association. Four copies of each entry should be shipped to:

J. D. Kendall
Newcomb Hall Bookstore
University of Virginia
Charlottesville, VA 22901

The deadline for entries is Dec. 20, 1986 and the decision will be made by May 1, 1987. The publisher of the winning entry will be notified at that time.

Valerie Pugh starts own company

They started out as gifts for special friends and family but now they are the beginnings of what the creator hopes will be a thriving business.

"They" are the eye-catching greeting cards in the College Bookstore, tailored especially for Willima and Mary students and friends, created by Valerie Pugh, a senior from Washington, D.C.

So successful is the card business that Valerie plans to pursue her business interests after graduation.

For her initial group of cards Valerie was handpainting the figures but when business started picking up she went to color printing; there was no time for the personal touch on thousands. She's delighted that she has almost broken even on her initial investment after just one year in business.

Valerie hopes to expand her line to include other schools and perhaps high schools. She wants to incorporate in her cards, not only the symbols of school traditions, but also some of the insider humor.

A self-taught cartoonist and graphics editor for *The Flat Hat*, Valerie says she has learned to develop characters quickly to meet deadlines. Last year she was editorial cartoonist for *The Flat Hat*.

New officers

New officers of the William and Mary Hourly and Classified Employee Association were installed recently by Dale E. Robinson, director of employee relations. Officers (l-r), are Joyce Emerson, international studies, treasurer; Ruth Graff, president's office, secretary; and Joyce Underwood, law library, president. Other officers are David Tidwell, buildings and grounds, vice president; and Peggy Miller, fine arts, corresponding secretary. The organization will hold meetings on the second Thursday of each month at noon in the Little Theatre of the Campus Center. The Association is planning a newsletter after the first of the year.

Education majors win awards

Three seniors in the School of Education have won scholarships in the Congressional Teacher Scholarship Program (CTSP). Awards of \$5,000 each were made to Lisa L. Clement, Jenifer Ann Roche and Laura L. Baumhofer.

The three women are among 45 students from Virginia colleges and universities to win the awards. The CTSP was implemented to encourage outstanding high school graduates to pursue teaching careers at the pre-school, elementary or secondary school levels.

Ms. Clement, whose adviser is Stuart Flanagan, is majoring in secondary school mathematics. She plans to teach high school math and coach tennis and track. She is a member of Kappa Delta Pi education honor society and won the Fred Hill Math Teaching Scholarship last year. She has been on the women's rugby team all four years at William and Mary and is vice president for social events of the Student Association.

Ms. Roche, whose adviser is Ronald Wheeler, is majoring in early childhood education. She is interested in the merging of special education with the regular classroom and plans to pursue a career in that field. She has received several awards and scholarships for outstanding academics and leadership, including the Mary Washington College Regional Scholarship and the Langley Air Force Base Officers' Wives Club scholarship.

Ms. Baumhofer, whose adviser is Ronald Giese, is majoring in early childhood education and plans to obtain a master's degree in that field, then pursue a teaching career. She has also been nominated for membership in Kappa Delta Pi education honorary.

J&J program for minorities

Johnson & Johnson is offering a leadership fellowship to minority men and women to pursue an M.B.A. degree and gain valuable summer job experience with the Johnson & Johnson family of companies.

The fellowship provides tuition, board, room and books for two years of graduate business education at one of the following schools: Atlanta University, Columbia University, Dartmouth College, Harvard University, MIT, Northwestern University, University of Chicago and the University of Pennsylvania.

Qualified minorities (Afro Americans, Asian-Americans, American Indians, and Hispanic-Americans) interested in marketing, accounting and operations are especially encouraged to apply.

The deadline for applications is Wednesday, Jan. 31. For further information and application forms contact Natalie Mahoney, Office of Career Services, Morton 140, ext. 4604.

Calendar

WEDNESDAY, DEC. 17

Wren Chapel organ recital, 11 a.m.

THURSDAY, DEC. 18

Wren Chapel organ recital, 11 a.m.

FRIDAY, DEC. 19

Wren Chapel organ recital, 11 a.m.

SATURDAY, DEC. 20

*At Ash Lawn-Highland (Charlottesville):
Cut Your Own Christmas Tree, 10 a.m.-4 p.m. Donations requested.
Wren Chapel organ recital, 11 a.m.
*Men's basketball v. Christopher Newport, W&M Hall, 1 p.m.

SUNDAY, DEC. 22

*At Ash Lawn-Highland (Charlottesville):
Cut Your Own Christmas Tree, 10 a.m.-4 p.m. Donations requested.
Wren Chapel organ recital, 11 a.m.

MONDAY, DEC. 23

Wren Chapel organ recital, 11 a.m.
*At Ash Lawn-Highland (Charlottesville):
Afternoons of Holiday Song and Cider, 4 p.m. Admission: adults, \$5; children, \$2.

TUESDAY, DEC. 24

Administrative Christmas Vacation (Through Jan. 2)
Wren Chapel organ recital, 11 a.m.
*At Ash Lawn-Highland (Charlottesville):
Afternoons of Holiday Song and Cider, 4 p.m. Admission: adults, \$5; children, \$2.

WEDNESDAY, DEC. 26

Wren Chapel organ recital, 11 a.m.
*At Ash Lawn-Highland (Charlottesville):
Afternoons of Holiday Song and Cider, 4 p.m. Admission: adults, \$5; children, \$2.

THURSDAY, DEC. 27

Wren Chapel organ recital, 11 a.m.
*At Ash Lawn-Highland (Charlottesville):
Afternoons of Holiday Song and Cider, 4 p.m. Admission: adults, \$5; children, \$2.

FRIDAY, DEC. 28

*At Ash Lawn-Highland (Charlottesville):

Employment Classified Advertisements

The following positions at the College are open to all qualified individuals. Call 229-JOBS for further information, or visit the Employee Relations Office in Thiemes on Richmond Road for information and application forms, Monday-Friday, 8 a.m.-4 p.m. An EEO/AA employer.

The deadline for applying for the following positions is Dec. 19 unless otherwise noted.

WAREHOUSEMAN (unclassified) - \$5.64 per hour, approximately 40 hours per week. Location: Buildings and Grounds

SECRETARY SENIOR (unclassified) - \$6.17 per hour, part time, approximately 35 hours per week. Location: Classical Studies.

CUSTODIAL WORKER (unclassified) - \$4.32 per hour, part time, approximately 35 hours per week. Location: Buildings and Grounds.

PROGRAMMING/SYSTEMS DEVELOPMENT SUPERVISOR (Grade 16) - Entry salary \$34,183. #395. Location: Computer Center. *Deadline Jan. 9.*

Recreation hour

On Friday, Jan. 9, from 6 to 9 p.m., Blow Gym will be opened for families of students, faculty and staff of the College only.

Blow pool will be open from 7 to 9 p.m. for family swimming (inner tubes, etc., allowed). The gym itself will be set up for badminton, volleyball and use of the exercise mats.

All interested families are invited to attend. There is no charge for this session.

The Recreational Sports office has expressed a willingness to continue the practice of opening the facilities to families during academic break periods if enough interest is demonstrated.

For more information, call ext. 4498.

Bus schedule

The Campus bus service will run until 3 p.m. on Dec. 19 and begin again at noon on Sunday, Jan 11.

Faculty club

The first faculty club event for the new year will be a cocktail party Jan. 23 in the anthropology museum. More details will be forthcoming.

Pretenders Jan. 16

The Pretenders concert has been rescheduled for 8 p.m., Jan. 16. All tickets purchased for the Dec. 7 concert will be honored on Jan. 16.

The Pretenders were forced to cancel all November and December appearances because of the death of Peter Granger, their soundman. He was killed when he jumped in front of a car to save his child.

Classifieds are carried as a service to members of the College community only. There is a charge of \$3 for an advertisement of 40 words or less in three consecutive issues. Copy changes constitute a new advertisement. Copy and payment should reach the News Office (James Blair 310A) no later than 5 p.m. the Friday preceding the first insertion.

FOR SALE

1979 Chevy Malibu Classic Wagon, runs well - reliable, \$2,000 or best offer, excellent second car. Call Lenora, ext. 4477 or 877-2198 after 6 p.m.

'82 Firebird, white, immaculate condition - interior/exterior, optional V-6 engine, 50,000 miles, garage kept. Call 253-1510 evenings.

Rattan living room furniture set, eight pieces, excellent condition. Call 253-1510 evenings.

84-inch sofa and matching club chair. Brown and-beige plaid. Excellent condition. Both for \$300. Call 229-4513, after 5 p.m.; 9 a.m. to 5 p.m., ext. 4332.

B-flat trumpet, Holton Collegiate Professional, in excellent condition; dual-alloy bell for brilliant resonance; case and mouthpiece included. Contact Ted at 253-4364 and leave message. A perfect Christmas present. \$450.

Electric typewriter - Smith Corona, portable (sterling auto-12), with padded carrying case. Priced to move, \$100.

Teknika 6510, brand new in the box, CATV converter and television wireless TV remote-control tuner, \$125.

Chevette, 1982, 2-door, maroon, good tires, completely tuned up, radio, exterior in good condition, 95,000 miles. \$695 or best offer.

For all of the above items, call 229-0596 between 11 a.m. and 1 p.m.

Oak buffet attractive, w/ brass fitting, not too big, \$75. Oak dining table (needs works), \$35. Call 229-5459.

'80 Chevrolet Citation, 2-door hatchback, power steering and brakes, air conditioner, V-6 automatic. Silver; 63,000 miles; \$1,100. Call 229-2549 after 7 p.m.

Chrysler "LeBaron" '82. AM/FM stereo tape, automatic transmission, air conditioning, 4-cyl., 2-door, hardtop. White with really nice half-white vinyl top, burgundy interior. Like new. Call ext. 4547 or 229-7831, evenings.

'71 Valiant, slant six, 168,000 miles. Runs, good tires. \$150. Call 229-8843 after 6 p.m.

FOR RENT

Graduate students: Furnished one-bedroom, living room and bath, no smokers. Available Dec. 10. Call 253-5775.

Furnished house, two blocks from College and law school. Available Dec. 15. Non-smokers, no children or pets. Call 253-5775.

Two rooms in 3-BR house in Williamsburg. Furnished and has washing machine. Rent \$140 per month + utilities. Available 1/1/87-6/1/87. Please call Jane at 642-7154, 9 a.m.-4 p.m. or 229-5365 after 5 p.m.

Village Green. Rent from owner with option to buy. Deluxe townhouse in ideal location: 2-BR, 2-bath. Many extras. \$650 per month. Call 229-5557.

3-BR, 2-1/2-bath house. New kitchen and furnace, screened porch, pine paneling and fireplace. Located off Burns Ln. Available after Jan. 1. Call 229-9877.

LOST

Set of keys on ring with black plastic whistle. Please call Lynette at ext. 4215.

A solitaire diamond ring in vicinity of James Blair Hall. Please call Patsy Morales, Purchasing, ext. 4215.

Food drive

In an effort to lend a helping hand to those in need, William and Mary Hall will operate a food bank in cooperation with the Salvation Army.

Throughout December, food may be dropped off at the William and Mary Hall box office, Monday-Friday, 9 a.m.-5 p.m.

Shatz

When Shatz returned home to discover his family gone and his family home in ruins, he moved to Prague to begin a new life. He became a foreign correspondent, traveling the continent and in his words, "walking the corridors of power in the Communist world."

It was during one of Shatz's trips that he met his wife Jaroslava. Together they escaped Czechoslovakia in 1954 during the postwar Stalinist purges and spent several years in Zurich, Paris, London, Stockholm and Tel Aviv before finally settling in Cleveland, Ohio, where Shatz became editor of a Hungarian daily newspaper.

During summer vacations the Shatzes visited the Adirondacks, and decided to move to Lake Placid, N.Y., where they operated a successful leather-goods store for several years. On other vacations they visited Williamsburg, making it their second home.

Exhibits

MUSCARELLE MUSEUM: "Animation Art from the Disney Studios" (Nov. 28 through Jan. 11)

ZOLLINGER MUSEUM (Swem Library): "The U.S. Occupation of Japan" (Through Jan. 18)

WILLIAM AND MARY

NEWS

The William and Mary News is issued weekly during the school year for faculty, staff and students of the College and distributed on campus Wednesday afternoons.

News items and advertisements should be delivered to the News Office, James Blair 310A, no later than 5 p.m. the Friday before publication. Notices for the calendar should be delivered to the News Office no later than 5 p.m. the Wednesday before publication.

Barbara Ball, editor
Publications Office, production
News deadline: Fridays, 5 p.m.

COMPUTER HOLIDAY SCHEDULE SET

The William and Mary Computer Center will observe the following schedule of operation during the coming Christmas break.

Close at midnight: Dec. 23

Closed: Dec. 24-25, Jan. 1

9 a.m.-4 p.m.: Dec. 26-27, 29-31, Jan. 2-3

2-8 p.m.: Dec. 28, Jan. 4

Resume normal operating schedule at 9 a.m., Jan. 5

On the days the Center is open, the terminal labs in Chancellors 103-105 and Jones 113 and 203 will be open. The other labs will be closed Dec. 23-Jan. 4.

The LaserJet printers in Morton and Jones will be unavailable during the holiday period listed above.

Student consultants will not work on a fixed schedule between the beginning of exams and the resumption of classes in January. During this time, laser printers will be accessible only when personnel are available. During that time the on-line scheduler will not allow scheduling; individual arrangements for use of the laser printers must be made at the site of the laser printer.
