NEWS

A WEEKLY NEWSPAPER PUBLISHED FOR AND ABOUT THE FACULTY, STUDENTS AND STAFF OF THE COLLEGE OF WILLIAM AND MARY

Volume XVIII, Number 33 34

Wednesday, June 7, 1989

Timely Reminders

News schedule

Summer editions of the *William and Mary News* will be published on June 28, July 19 and Aug. 9, unless conditions warrant additional issues. Materials for each issue are due in the News Office, James Blair 310A, by 5 p.m. the Friday before publication.

The weekly publication schedule will resume on Wednesday, Aug. 23. Deadline for that issue will be 5 p.m., Friday, Aug. 18.

Summer Marriott hours

The Commons dining hall will open June 18 for summer conferences.

Summer hours for The Marketplace are: Monday through Friday from 8 a.m. to 2 p.m.

Swem interim schedule

Through Aug. 11, Swem Library will be open Monday through Thursday, 8 a.m. to 8 p.m.; Friday, 8 a.m. to 5 p.m.; Saturday 10 a.m. to 5 p.m.; and Sunday 1-8 p.m.

A Farewell Reception for

G. Gary Ripple
Dean of Admission
1980-1989
will be held

at

The Alumni House
Wednesday, June 14
4-5:30 p.m.
R.S.V.P. ext. 5586

China visits cancelled because of unrest

Concern over the devastating events in China are being shared by Chinese students on campus. The College has no students currently studying in China. Craig Canning, associate professor of history and a China scholar, had planned to leave for China with a Fulbright group this month, but these plans have been cancelled. Stephen Field, assistant professor of modern languages, is currently in Taiwan and had planned to meet up with a group of William and Mary students who were to study at the Beijing Language Institute.

\$1 million Hughes Institute award funds biological sciences program

The College has been awarded a \$1 million grant from the Howard Hughes Medical Institute for undergraduate education in the biological sciences. The grant, the largest of its kind ever awarded to the College, will help underwrite a five-year science initiative.

Lawrence Wiseman, chairman of the biology department and director of the project, said that the grant was significant because of the intense competition for the money.

The program, to be known as the Howard Hughes Medical Institute Undergraduate Biological Sciences Education Initiative, will be administered by a seven-member board of faculty and administrators of the College. Members of the board will include Wiseman; David J. Lutzer, dean, faculty of arts and sciences; Clyde A. Haulman, dean of undergraduate studies; David W. Thompson, Chancellor Professor of Chemistry and chairman of the department; Carroll F. S. Hardy, associate dean of student affairs-minority affairs; Joyce Van Tassel-Baska, Jody and Layton Smith Professor of Education and director of the gifted learners program; and Ronald N. Giese, professor of science education.

"William and Mary was competing with 100 major research universities which Hughes invited to submit proposals," said Wiseman. "The invitations were based on strong programs in biological and supporting sciences, particularly on getting students into graduate and medical schools. Our proven track record in this area served us well."

The award to William and Mary was one of 51 grants totaling \$61 million given by the Hughes Foundation to enhance undergraduate science education. President Paul Verkuil said the Hughes award could not have come at a better time. "As William and Mary begins its Campaign for the Fourth Century with the sciences as a major academic priority, we are grateful to have this recognition of our efforts and our vision for the future," he said.

Wiseman, principal author of the grant proposal, said the William and Mary program has three major initiatives.

First, the College will begin developing a

strong biological chemistry program. This will include renewed cooperation between the biology and chemistry departments and the appointment of a biological chemist in chemistry and a molecular biologist in biology. Although the two new faculty members will be based in different departments, Wiseman said that they will be hired with significant cooperation and collaboration in mind.

In addition, the program will include interaction between William and Mary scientists and the School of Education faculty to develop improved science instruction methods at the pre-collegiate level. Hughes reviewers of the College's proposal said the plans to develop science courses for college students preparing to become elementary school teachers were "innovative."

A third major goal is to begin significant efforts

to recruit more minority students to the study and profession of science.

Wiseman said students who want to take advantage of the new program will likely be working toward careers in basic research, clinical research, teaching or medicine.

"The Hughes Medical Institute is primarily interested in basic biomedical research and education. They are interested in both basic research—especially in the areas of cell biology, genetics, immunology, neuroscience and structural biology—and application of new knowledge to clinical treatment," said Wiseman.

"Recently, they have also committed substantial support to undergraduate and pre-collegiate education in biology and the related sciences of chemistry and physics."

Students in the new program will generally be working toward careers in basic research, clinical research, teaching or medicine.

Wheat, First Securities commits \$100,000

Wheat, First Securities, Inc., has made a \$100,000 commitment in support of the School of Business Administration.

Of this amount, \$50,000 is designated for the business school's Finance Program Development Fund. Income generated from the fund will support curriculum development, visiting speakers and faculty, research expenses, student and faculty travel, case study development, faculty leave

for curriculum development and research, and special projects in the area of finance. The commitment makes Wheat, First Securities a charter member of the newly established fund.

The remaining \$50,000 will be used to meet the most pressing needs of the business school.

"We are honored to be the recipient of such a generous commitment," said business school

dean John C. Jamison. "The Finance Program Development Fund will enable us to keep our curriculum fresh and pertinent. We welcome Wheat, First's leadership role in this important endeavor."

Wheat, First Securities, Inc., is a financial services and investment banking firm based in Richmond.

Business school introduces M.S. in taxation degree

The School of Business Administration is offering for the first time a graduate program leading to a Master of Science in Taxation degree (M.S.T.).

The new degree program represents the first formal curricular collaboration between the School of Business Administration and the Marshall-Wythe School of Law, says program director

Henry E. Mallue Jr.

The new program will begin in August and the deadline for application has been set as June 15. Mallue anticipates an entering class of about 15 students.

William and Mary already offers a joint J.D.-M.B.A. degree program, he says, but that four-

year curriculum is more an organizational cooperation involving separate application and acceptance by each school.

"The M.S.T. program was created to provide an important graduate degree to the accounting pro-

Edward Miles Riley dies

Edward Miles Riley, lecturer of history emeritus, died June 2.

Dr. Riley taught graduate studies at the College from 1954 until his retirement in 1976. He also served as director of historical research at Colonial Williamsburg during this same period.

Dr. Riley was a graduate of Washington and Lee University and received his master's degree and doctorate from the University of Southern California. He was a member of Phi Beta Kappa. He served as historian for the Colonial National Park, covering both Jamestown and Yorktown before becoming Chief Park Historian at Independence National Historical Park in Philadelphia. He was a member of the Independence Bell Ringers Society. He published historical works on Yorktown, Jamestown and Independence Hall.

A Navy veteran of World War II, he served as historical consultant for the War Assets Administration in Richmond. He remained in the Naval Reserve and retired with the rank of captain.

Survivors include his wife, Annette Powers Riley; two daughters, Patricia Riley Dunlap of Dumfries and Kathleen Riley Dunn of Haddonfield, N. J.; two sons, Edward Miles Riley Jr. and Robert Claiborne Riley, both of Williamsburg; and nine grandchildren.

Law student killed in car accident, another still in critical condition

Two students from the Marshall-Wythe School of Law were involved in a fatal automobile accident on interstate 91 near Hatfield, Mass., on Saturday, May 27. The car in which they were traveling was hit head-on by another vehicle, which crossed the median.

Killed in the accident was Laurie J. Patarini, 26, a second-year student from Manchester, Conn. She graduated magna cum laude from Mount Holyoke in 1984. The family has asked that expressions of sympathy take the form of contribu-

tions to the Scholarship Fund at the law school.

Seriously injured in the accident was Jonathan Hudson, 40, from Alamogordo, N.M., also a second-year law student. At last report he was in critical but stable condition in the intensive care unit of Bay State Hospital in Springfield, Mass. He received his bachelor's degree from New Mexico State, a master's degree from Pepperdine University and had been a lieutenant in the Naval Medical Service Corps. He is on the *Law Review* staff at Marshall-Wythe.

University Librarian Nancy Marshall assists Provost Mel Schiavelli.

Microcomputer access to LION previewed through Gandalf

When the new telecommunications system is installed in October, LION, the online catalog of the William and Mary Libraries, will be accessible through the system of microcomputers in campus offices equipped with telecommunications software. This will make the basic record of the libraries' collections more readily available than ever before.

Meanwhile, the libraries are making LION accessible to those campus computer users who have access to Prime or IBM computers through the Gandalf switch. Dial access to LION is not yet available.

The process of using LION via the Gandalf is very simple. When asked to select a computer, a user should enter LION as the choice. LION can be searched by author, title, subject or call number,

using the commands A, T, S/ or C/.

Searchable subject terms are listed in the Library of Congress Subject Headings. This three-volume set is available in various library locations. Since subject headings also appear at the end of LION records, a user can often identify a searchable subject heading by first looking at the record for a book the user knows treats a particular subject. Later this year, it will be possible to search the LION database by keyword.

To break the connection to LION, hit the BREAK key twice while depressing the CONTROL key. On some terminals it is sufficient to do just one CONTROL-BREAK combination.

If you have questions about using LION please call the Swem Library reference staff at ext. 4407 or the Law Library reference staff at ext. 4102.

Oct. 16 switchover planned

New phone system on schedule

Work on the \$4 million telecommunications system being installed on campus is on schedule.

Bell Atlantic Systems account executive Ken Holder says that the outside digging is about complete and inside wiring will be finished by mid-August. The proposed date for switching to the new system is Oct. 16, during Fall

Break. Holder feels this is a reasonable expectation given the current pace of work.

The computer management component is up and running. This will handle student billing, records, department bills, etc.

The digging now being completed near Blow gym is the last of that work to be done. In selected areas of the campus such as the historic triangle, which includes the three historical building of the

campus, the Brafferton, the Wren Building and the President's House, Bell Atlantic used a highly sophisticated and very expensive process called "flo mole," which allows the cable to be laid with a minimum of excavation. "Flo mole" was also used to cable under Richmond Road and include the Sorority Court area on the new network.

The main switching station for the system will be in Blow gymnasium and equipment rooms will be maintained at the Marshall-Wythe School of Law, Dillard Complex, Jones Hall and Swem Library.

Holder says that training sessions will be scheduled in September for faculty and staff to acquaint them with the extensive capabilities of the new system. Informational materials for new students will be mailed out this summer, and students will be invited to sign up for information sessions after school begins. There are also plans for student forums to get feedback from system users.

The new phones will be placed in offices in late August. Plans are for the new system to be tested while the present one is still in place, so there will be no interruption of service. The present system will not be switched off until the new telecommunications system is firmly on line.

Cumbee article offers advice on handling special visitors

"In recent years the College has hosted an international economic summit (21 persons receiving primary protection), two presidential candidate debates and a conference of state supreme court justices.

"The campus has had visits from every president since Kennedy and a diversity of other dignitaries from Prince Charles to Benigno Aquino, the assassinated husband of Corazon Aquino.

"All these operations have ended without violence even though officers have confiscated weapons and masked protestors."

Richard Cumbee, director of campus policy and safety has drawn on his experiences over the past nine years for an article "Sundry Aspects of Special Visitor Events," which is included in the current issue of the *Campus Law Enforcement Journal*.

"The predominant point to remember is that although planning and preparation are two key elements to a successful event, the most critical element will be the ability to change plans and adapt with almost no notice."

Cumbee covers the hiring of temporary officers, the value of having a video tape of the event, the steps in solving building security problems, how to be sure gifts and mementoes get saved for the intended recipients and the importance of good will among all cooperating units on duty.

In listing points to be considered in managing major events, Cumbee ends on an academic note. "A final suggestion is to check with the university archivists before the event. The thing they would like to preserve after the visit is often that which most people would have thrown away."

Michael Plater (second from l.) chats with fellow panelists (l-r): Mechelle Mosley, Leslie Coleman and Aixa Martinez.

Business advisers seek to build minority MBA enrollments

Michael Plater, director of admissions and financial aid, School of Business Administration was a panelist for the pre-MBA luncheon of the Graduate Management Admission Council held June 2 at the Williamsburg Hilton and National Conference Center.

Panelists also included Aixa Martinez, associate director of MBA admissions, John M. Olin School of Business, Washington University; Mechelle Mosley, associate director of admissions, Wharton Graduate Division, University of Pennsylvania; and Leslie Coleman, placement director, University of Maryland College of Business and Management.

Registered participants representing the William and Mary Office of Admission, the Office of

Career Services and the School of Business Administration included Julia Duhaime, Richard Flood, Pamela B. Garrette, Robert P. Hunt and Roxie M. Williams.

Plater gave welcoming remarks, which outlined the goals of GMAC, and gave an evaluation and wrap up at the close of the one-day meeting.

The Graduate Management Admission Council is an organization composed of graduate business and management schools that share a common interest in professional management education. Over the last three years, the Council has been committed to developing programs that will help reverse the trend of declining minority enrollments in MBA programs.

Vending Changes

The Auxiliary Enterprises administrative staff is currently planning a comprehensive change in the campus vending program for fall.

A representative of this office will be contacting personnel around campus to assess needs and collect suggestions for inclusion in the new plan for changed services.

If for some reason you are not contacted and have suggestions, please contact the auxiliary enterprise office at ext. 7083. Your input will be appreciated.

Alumni and friends to explore Chesapeake Bay

A record number of participants have registered for "Exploring the Chesapeake Bay," the focus of this year's Alumni College sponsored by the Society of the Alumni. More than 60 alumni, friends and family members will be on campus from Thursday, June 22 until Sunday, June 25 to learn more about the history, culture and life of the Chesapeake Bay. Jefferson Hall will be home base for participants staying on campus, and classroom sessions will be held in Tyler Hall.

A full schedule of both lectures and special events is planned, including a seafood feast, "Songs of the Sea" concert and a geology field trip and boat tour of the Bay led by faculty members.

Faculty from the arts, the sciences and the Virginia Institute of Marine Science will play a prominent role in the program. Maurice P. Lynch,

associate dean and professor of marine science, will lead Friday's lectures with a program overview. He will be joined by Gene M. Silberhorn, professor of marine science, for a discussion of maritime vegetation. Victor A. Liguori, associate professor of sociology, will examine the Chesapeake's cultural and sociological history in a lecture, "The Myth of the Independent Watermen." Exploring yet a different aspect of the Bay, Gerald H. Johnson, professor of geology, will discuss the geologic forces that created the Bay thousands of years ago.

Special meals with speakers are also planned. On Thursday evening, participants will get acquainted at an informal seafood feast served picnic-style at the Alumni House. Sue Gammisch, marine education specialist at VIMS, will deliver

an informative talk on seafood with instructions for novice crab-pickers.

On Saturday evening, participants will be honored at a candlelight dinner and "graduation ceremony" in the Great Hall of the Wren Building. Special guest Melvyn D. Schiavelli, provost of the College, will provide an update on the university's programs and future plans.

On Sunday, Alumni College will conclude with lunch and a look at what's ahead for the Bay, particularly in the area of environmental issues. Joseph H. Maroon, executive director of the Chesapeake Bay Foundation based in Richmond, will speak on "The Future of the Chesapeake Bay."

As part of their preparation and homework, participants have been asked to read *Beautiful*

Swimmers: Watermen, Crabs and the Chesapeake Bay, a Pulitzer prize-winning book by William W. Warner.

"We're extremely pleased with alumni response to this year's program and are looking forward to bringing alumni and faculty together for an experience that is both educational and fun," said Lee Foster, director of alumni affairs and coordinator of the program.

"With nearly double the registration over previous sessions and with participants coming from as nearby as Irvington, Va., to as far away as Bath, Me., it is obvious that the Chesapeake Bay evokes interest and pride across a wide spectrum."

Ms. Foster added that registration for the program is now full, but a waiting list is being maintained.

Capriole concert on June 23 to feature 'Songs of the Sea'

Capriole, a vocal and instrumental ensemble specializing in 17th-century vocal music, will perform "Songs of the Sea" on Friday, June 23, at 8:15 p.m. in the Ewell recital hall. Tickets are \$8 general admission and \$6 for students and senior citizens, and can be reserved by calling 229-6016.

The performance is part of this year's maritime-themed Alumni College, "Exploring the Chesapeake Bay," sponsored by the Society of the Alumni.

Presenting a different repertoire from its previous "Songs of the Sea" concerts, Capriole will perform a masque from Henry Purcell's settings for Shakespeare's "The Tempest" and a cantata composed by Jean Joseph Mouret about Perseus' rescue of Andromeda from the sea monster. Mouret is best known for having written the music now recognized as the Masterpiece Theater theme. There will also be cantatas by George Frederick

Handel and Alessandro Stradella.

In a review written for the *Virginia Gazette* in Aug. 1988, Carl Dolmetsch called Capriole's "Songs of the Sea" performance in Williamsburg "one of the most unusual and well-performed concerts of baroque music we have heard here in a long while."

The June 23 concert will mark the 10th anniversary of the founding of Capriole, which gave its

first concert in June 1979 in Seattle, Wash. Many of Capriole's appearances have been broadcast by National Public Radio in the United States and by Concertzender in Holland.

Performers include Marieke van der Meer, soprano; James Weaver, bass baritone; Margret Gries and Jenny Edenborn, baroque violins; Ulysses Kirksey, baroque cello; Tim Burris, theorbo; and Gayle Johnson, harpsichord.

Wallace Terry, C. Douglas Dillon to address historians

The Society for Historians of American Foreign Relations will hold its 15th annual conference on campus June 14-17 in conjunction with the American Military Institute and the Conference on Peace Research in History. An international roster of speakers is scheduled.

C. Douglas Dillon, former secretary of the treasury, will participate in a program June 15 titled "The Cuban Missile Crisis Revisited." Speakers will also include Raymond Garthoff, Brookings Institute on the Soviet point of view; Philip Brenner, American University, on the Cuban perspective; and Laurence Chang, National Security Archive, on American documentation and historical assessment.

Wallace Terry, author of *BLOODS: An Oral History of the Vietnam War by Black Veterans*, and

a member of the Board of Visitors of the College, will be speaker at a dinner sponsored by the Society for Historians of American Foreign Relations to be held Thursday evening in the Campus Center ballroom.

Judith Ewell, Newton Professor of History, will be moderator for a workshop on "Reagan and Central America: An Early Assessment." Discussants will include Thomas M. Leonard, University of North Florida; Randall B. Woods, University of Arkansas; and Mark T. Gilderhus, Colorado State University.

Edward P. Crapol, professor of history, will be one of five historians who will discuss issues in Indochina. He will be joined by William Brinker, Tennessee Technological University; Jonathan Goldstein, West Georgia College; Jeffrey P. Kimball, Miami University; and Sandra C. Taylor, University of Utah.

The conference will open Wednesday evening with "A Consideration of Neil Sheehan's *A Bright Shining Lie: John Paul Vann and America in Vietnam*." The moderator will be George C. Herring, University of Kentucky. Discussants will include Peter Braestrup, Woodrow Wilson Center; Lloyd C. Gardner, Rutgers University; William C. Hammond, U.S. Army Center of Military History; and Ronald H. Spector, Naval Historical Center.

Also at this session, the Norman and Laura Graebner Prize will be awarded. Norman Graebner was a visiting professor at the College in the spring of 1988 and while here participated in

a conference on "The Superpowers at the Crossroads" sponsored by the Wendy and Emery Reves Center for International Studies and the government department. Graebner is Randolph P. Compton Professor of History and Public Affairs Emeritus at the University of Virginia.

Psychological warfare as a policy instrument will be discussed at a morning session June 15. Neal H. Petersen, Arlington, Va., will discuss "Allen Dulles at Bern: Spy Master as Psych Master." John Prados, Takoma Park, Md., will talk about "The Psychological Strategy Board: An Experiment in the Cold War," and Peter Kornbluh, National Security Archive, will speak on "Public Diplomacy: Domestic and International Propaganda Operations in the Reagan Era."

"New Perspectives on the Vietnam War" will be the subject of a session June 15 chaired by Melvin Small, Wayne State University. Speakers will include Michael A. Lutzker, New York University, on "How the United States Withdrew from Vietnam in 1965: The Search for an Alternative Past," and Gregory James Pemberton, Australian War Memorial, on "The Rules of the Game: Western Political Strategies and the Vietnamese Revolutions."

Michael Cox, Queen's University, Belfast, Northern Ireland, former visiting professor of government at the College and organizer of the "Superpowers at the Crossroads" conference in 1988, will speak on "Beyond Containment: Beyond the Cold War," in a session devoted to the post-Cold War era. Sterling J. Kernek, Western

Illinois University, will speak on "Implications of the Long-Peace Paradigm: Historical Reflections on a New Era."

Other sessions will take up a variety of topics including the following:

Social Science Theory and Diplomatic History; Internationalism since 1919; The American Military Abroad; United States-Latin American Relations, 1823-1850: The Formative Generation; the "Great Triumvirate" and American Foreign Relations; Changing Attitudes and Policies: The United States and the Soviet Union; Legislative Records for Diplomatic History; Perceptions and Realities in American Foreign Policy Toward China, 1914-1950; the Korean War; Western Europe and the Early Cold War; Eisenhower and his Allies; New Approaches to American Diplomatic History; Austria, Yugoslavia, and the Early Cold War; and the United States and Decolonization.

The conference will conclude Saturday, June 17 with a morning session on teaching American foreign relations in the schools. The moderator will be F. Kevin Simon, Sayre School, Lexington, Ky. Discussants will include Dorothy Desmond, Trinity Episcopal School, Richmond; Michael Miller, Episcopal High School, Alexandria, and Kathryn Prinz, Bethesda-Chevy Chase High School, Bethesda, Md.

Arrangements are being handled by Ed Crapol and inquiries concerning the sessions should be directed to him.

Wallace Terry

Public Policy Program sponsor

International customs policies to be topic of symposium

The Public Policy Program is organizing an international symposium on "Moving Customs Toward Efficiency in World Trade," June 29 for the Policy Commission meeting of the Customs Cooperation Council being held in Williamsburg June 27-30.

The welcoming address will be given by Governor Gerald L. Baliles on June 28.

David H. Finifter, director of the Public Policy

Program, will be moderator for the international panel, which will include Swedish National Commissioner of Police Bjorn Ericksson, former director general of customs for Sweden; Salvatore R. Martoche, assistant secretary of the Treasury (enforcement); Donald A. Weadon Jr., senior partner, Weadon, Rehm, Thomsen & Scott, Washington, D.C., specialties in international law, customs, tariffs; and Yoonsae Yang, overseas opera-

tions, The Lucky-Goldstar Group, the Republic of Korea. Other members may be announced at a later date.

The keynote address will be given by Sir Angus Fraser, K.C.B., T.D., adviser to the prime minister on efficiency and effectiveness in government and former chairman of England's Board of Customs and Excise.

Fraser will identify the implementation issues

relating to Customs Services and link them to world trade issues that in large part set the environment in which the customs services operate.

The symposium, will be held from 9:30 to 11:45 a.m. in the Campus Center ballroom, is open to the public. Those interested in attending are asked to pre-register by calling ext. 7084. There is no

Continued on page 6.

Elizabeth and Brooks George pose with their friends and hosts for the evening, Bobbie and Jim Ukrop.

An early Father's Day for W. Brooks George

Although Father's Day isn't for two more weeks, enterprising alumni William B. George Jr. '62 and Henry H. George '65 found a unique way to honor their father, alumnus and former W&M Rector W. Brooks George '32.

When family and friends gathered last month in Richmond to honor George at a dinner hosted by James '60 and Bobbi '61 Ukrop, George's sons were on hand read an A to Z tribute to their father titled "Our Father's Alphabet," which recounted some of their best childhood memories and recollections from family members.

Alumni, friends and family members have contributed more than \$645,000 in gifts, commitments and testamentary provisions in George's honor, including a \$100,000 gift of life insurance from son Henry and daughter-in-law Nancy.

Presiding at the dinner, Ukrop called Brooks George "a powerful, but quiet man who gets things accomplished."

Va. Chamber honors Rector

Hays T. Watkins, Rector of the College and chairman of one of Virginia's largest corporations, has received the top service award of the Virginia Chamber of Commerce.

The chamber presented its annual Distinguished Service Award to Watkins, chairman of

CSX Corporation and the Richmond-based transportation holding company. He was cited for helping the rail company grow and for his involvement in education, arts and economic development.

The Rector is a previous winner of the state's Outstanding Industrialist of the Year Award.

Language teleconference held

"Interact '89," the second international teleconference sponsored by Tandberg Educational, Inc., and CALICO (Computer Assisted Language Instruction Consortium) was held May 10.

Approximately 25 viewers from the Hampton Roads area attended the session at the NASA/Langley Research Center, including the following members of the modern languages department, Merry Feyock, Howard Fraser, George Greenia, Martha Smith, Gary Smith, who served as local coordinator, and Franco Triolo. P. B. Welbeck, director of educational media, also attended.

This year's topic, "Using Technology in the Modern Language Classroom," included a discussion and demonstration by a panel of experts

on how video and audio technologies can be used in language instruction to enhance learning and retention. During the program, viewers could call a toll-free number to ask questions of panel members.

George Allison, education and training specialist at NASA/Langley, again provided NASA satellite broadcast receiving facilities free of charge. He has offered to do the same for any department at the College that has need of such facilities.

"Interact '89" was co-sponsored this year by IALL (International Association for Learning Laboratories) and PICS (The Project for International Communication Studies).

For further details, please contact Gary Smith, ext. 4447.

Mastromarino wins Hiatt Fellowship

Mark A. Mastromarino, a Ph.D. candidate in history, is one of 16 scholars who have been awarded fellowships to work in the field of American history and culture through 1876 at the library of the American Antiquarian Society, Worcester, Mass.

Mastromarino is working on "Elkanah Watson and Massachusetts Agricultural Fairs." His fellowship will support one to three months of research at the Society library.

The Hiatt Fellowships have been established by

Jacob Hiatt of Worcester, Mass., in memory of his wife, Frances Hiatt.

The deadline for applications for the next round of AAS fellowships is Jan. 31, 1990. Applications for appointment as research associates may be made at any time.

Inquiries and applications should be addressed to John B. Hench, Associate Director for Research and Publication, American Antiquarian Society, 185 Salisbury St., Worcester, MA 01609-1634.

Newsmakers

Anthropology

Two members of the Archaeological Project Center presented papers at the Jamestown Conference held at Mary Washington College Historical Preservation Center May 18. Archaeologist Ellen Shlasko delivered a paper titled "English Tin-Glazed Chronology: An Apparent Approach for Archaeologists."

Robert R. Hunter Jr., director of the APC, read a paper titled "The Simmons Ceramic Crate: A Time Capsule of English Earthenwares."

English

The *London Times Literary Supplement* which recently praised the *The William and Mary Quarterly*, published by the Institute of Early American History and Culture, had kind words for *Verse* which has a tie to the College. The journal, says *TLS* "is clearly developing into a valuable international forum."

Excerpted from the March 31-April 6 issue:

Like its resolutely plain format, which eschews graphics and gloss and keeps advertising to a minimum, the title of *Verse* is indicative of the serious purpose it has pursued since it was founded in 1984, by the "two Scots and one New Englander" — Robert Crawford, David Kinloch and Henry Hart (a member of the English faculty) — who continue to edit it from Glasgow and Virginia. Its policy has been defined by deed rather than by manifesto, but the eclectic mixture of new poetry that has made up the larger part of each issue, juxtaposing the distinguished and the unknown, has reflected high formal standards that accommodate a range of experimental extreme; and its transatlantic axis (supported by American academic grants, and latterly by the Scottish Arts Council) has encouraged a broad outlook that reaches well beyond both of its home bases.

In the course of its five volumes, a series of "special" numbers has included guest-edited features on Irish, Californian, Chinese, Australian and French poetry; and the regular translation section has represented the European languages thoroughly enough to include Portuguese and Serbo-Croat ...

Essayists have tended to be enthusiastic more often than whimsical, and authoritative more often than dull; and the space allowed for close analysis, of contexts as well as texts, is a welcome feature that leaves scope for enlarging on social-biographical circumstances as well as savouring the mechanics of individual poems.

Susan V. Donaldson, assistant professor, delivered papers at two interdisciplinary conferences during the spring semester. For the Southern

American Studies Association Conference in Birmingham, Ala., she read a paper titled "Recovering Otherness: Unity, Diversity, and the Uncanny in Eudora Welty's *The Golden Apples*." Her second paper, delivered at the Popular Culture Association/American Culture Association Meeting in St. Louis, was titled "Susanna, Hawthorne, and the Elders: Patriarchy and Patterns of Looking in *The Scarlet Letter*."

In addition, Donaldson was elected vice president of the Southern American Studies Association for 1989-91. She will be responsible for organizing the next biennial conference which will be held here the spring of 1991.

Fine Arts

The Andrew and Laura McCain Gallery, Florenceville, New Brunswick, Canada, is presenting, through May 31, a one-man exhibition of drawings by Henry Coleman, associate professor.

Government

Professor Roger W. Smith was one of 12 participants in an international symposium on "The Armenian Genocide: History, Politics, Ethics," held at California State University, Sacramento, April 13-14 and at UCLA on April 15, sponsored by the Angelo and Sofia Tsakopoulos Fund in Sacramento. Smith's presentation was titled "The Armenian Genocide: Memory, Politics and the Future." The papers will be published next year in a volume to be edited by Professor Richard G. Hovannisian of UCLA.

Physical Education

John Charles, associate professor, recently made a presentation titled "On Liberty and Leisure" to the American Association of Leisure and Recreation International Symposium on Leisure and Ethics in Boston.

Charles, Professor Patricia Crowe and associate professors Christina Jackson and Ken Kam-bis recently presented a paper, titled "Activity, Athletics and Aging," at the National American Alliance of Health, Physical Education and Recreation meeting in Boston.

School of Education

Dean John M. Nagle joined Ronald Wheeler, associate professor; Craig Canning, associate professor of history; and Becky Crossett, York County Public Schools, in making a panel presentation at the annual meeting of the American

Association of Colleges for Teacher Education, held in Anaheim, Calif., in early March.

Their presentation described the innovative Commonwealth of Virginia Seminar on East Asia: China, Japan and Korea, sponsored last summer by the School of Education, the Center for International Studies, and the Faculty of Arts and Sciences.

In early April, Nagle presented a research paper on the potential educational and economic impact of operating a separate 700-pupil K-12 school system in the City of Williamsburg at the annual meeting of the American Educational Research Association in San Francisco. At the same meeting Nagle also chaired and served as a discussant and critic for a five-paper session on "Leadership: Theory, Practice and Preparation."

Also in April, Nagle chaired the Board of Examiners' visiting team that conducted an accreditation review of the professional education programs at Florida Atlantic University for the National Council for Accreditation of Teacher Education.

Professor Kevin Geoffroy presented his paper "Congruence and Occupational Choice: Are the English Ready for John Holland?" at the 1989 annual convention of the Association for Counseling and Development held in Boston. The paper concluded that English college students find American measures of career selection beneficial and informative in their own career planning. It reflects the European trend to use standardized measurement instruments, rather than unstructured counseling, in the selection of careers and college majors.

Antonis Katsiyannis, doctoral candidate in special education administration, and Kathe Klare, Virginia State Department of Education, presented a study titled "Extended School Year Revisited" at the 10th National Institute on Legal Problems of Educating the Handicapped, held in San Diego, Calif., April 30-May 3.

VIMS

R. A. Blaylock, a Ph.D. candidate, received an award for the outstanding student paper in ichthyology at the annual meeting of the Association of Southeastern Biologists in Charlotte, N.C. His paper was titled "Quantification of a Massive School of Cownose Rays, *Rhinoptera bonasus*, in Lower Chesapeake Bay."

Professor William D. DuPaul, James E. Kirkley, associate professor, and Anne C. Schmitzer, a graduate student, recently attended the seventh International Pectinid Workshop in

Portland, Maine.

The workshop, held for the first time in the United States, attracted more than 130 research scientists, fishery biologists, aquaculturists and industry representatives from 17 countries. The meeting provided an opportunity for the participants to discuss problems associated with the fishery, potential prospects for aquaculture and research needs in the field of scallop biology.

DuPaul presented a paper titled "Selectivity and Performance of 3.5" Ring vs. 3.0" Ring Sea Scallop Dredge," co-authored by Kirkley and graduate student Edward Heist.

Kirkley presented "Factors Affecting the Length-Weight Relationship of *Placopecten magellanicus* (Gmelin) in the Mid-Atlantic Region," co-authored by DuPaul and Schmitzer.

Schmitzer presented a paper titled "Histological Examinations of Gonadal Development in Sea Scallops, *Placopecten magellanicus* from the Western Atlantic," co-authored by DuPaul and Kirkley. She was presented an award for her excellent presentation.

Schmitzer was also asked to participate in an upcoming Canadian sea scallop survey, a two-week cruise on the research vessel *Gadus Atlantica*, sponsored by the Department of Fisheries and Oceans, St. John's, Newfoundland.

Bruce Barber, marine scientist, chaired the sessions on scallop reproduction.

Nine scientists attended the Benthic Ecology Meeting at Solomons, Md., recently and presented the following papers:

C. Cox, R.N. Lipcius and L. S. Marshall Jr., "Density Dependent Mortality of Juvenile Queen Conch in Sand and Seagrass."

D. B. Eggleston and Lipcius, "Fractal Scaling and the Use of Artificial Shelters to Regulate Mortality Rates of Juvenile Spiny Lobsters."

Lipcius, "Indirect Effects of Siphon Nipping by Demersal Fish on Predation Rates of Blue Crabs (*Callinectes sapidus*) Feeding on Clams (*Macoma balthica*).

Lipcius, J. van Montfrans and E. J. Olmi III, "Regulation of Marine Recruitment by Developmental State: Planktonic Availability, Molt Stage and Settlement of Blue Crab Megalopae."

Mark Luckenbach and Robert Orth, "An Unpalatability Refuge for a Decapod Dispersal Stage."

Marshall, Cox and Lipcius, "Habitat Suitability for Juvenile Queen Conch: Predatory Interactions or Recruitment Limitations?"

Olmi and van Montfrans, "Planktonic Abundance and Settlement of Blue Crab, *Callinectes sapidus*, Megalopae in Turbulent Flows."

Stanfield receives Fulbright to Sierra Leone, and Social Science Research Council fellowship

John H. Stanfield II, Frances L. and Edwin L. Cummings Professor of American Studies and Sociology, has been appointed 1989-90 Senior Fulbright Lecturer at the University of Sierra Leone in Sierra Leone and has been awarded a 1990-91 Advanced Research Fellowship in Foreign Policy Studies by the Social Science Research Council.

The Fulbright appointment, says Stanfield will give him the chance to travel to other parts of West Africa and also to go to the United Kingdom for basic research. Stanfield's major areas of interest are sociological theory and political sociology. He is particularly interested in philanthropies and will be looking at the role of late-18th- and 19th-century charity organizations, sponsored by the U.S. and U.K. in the development of African dependencies. Stanfield is the author of *Philanthropy and Jim Crow in American Social Sciences* (Greenwood Press, 1985).

"In Liberia and Sierra Leone, philanthropic in-

terest groups were central actors in shaping the official and unofficial ties that developed between the respective European nation-states and their African dependencies," says Stanfield. In a comparative historical sociological framework, he will reconstruct the origins, institutionalization and transformations in the informal social networks, task organizations and communities of interest developed by philanthropic interest groups advocating the American sponsorship of the established Liberia (e.g., the American Colonization Society) and the British sponsorship of the founding of Sierra Leone (e.g., the Black Poor Committee and the Committee for the Abolition of the Slave Trade). He will also attempt to determine whether or not American and British philanthropic interests in the formation of West African dependencies were interrelated and, if so, in what ways.

"There is a fragmented literature documenting the roles of philanthropic organizations in shaping

American foreign policy postures toward Liberia," says Stanfield. "This is particularly the case about studies exploring the history and activities of the American Colonization Society; the roles of American foundations in African affairs; and the historical missionary functions of black colleges in African societies and regions."

Stanfield explains that none of those studies are explicit attempts to determine philanthropic influences in American foreign policy circles involved in Afri-

can affairs, especially Liberia. Also, there is no historical follow through.

Stanfield joined the faculty in 1988 from Yale University where he had been a professor of sociology and African and Afro-American studies. He has also served on the faculty at the University of Tennessee, Knoxville, and the University of Texas at San Antonio.

He received an undergraduate degree magna cum laude, summa cum laude in sociology, from California State University and a master's and doctorate from Northwestern University. His teaching specialties include historical sociology, the sociology of knowledge and culture, inequality ideologies and social structures, sociology of education and qualitative research methods.

Since 1984 Stanfield has received grants totalling \$227,000 from the National Science Foundation for his research on the social sciences at black and white institutions before World War II.

Stanfield

VIMS honors retiring Mary Catlett

Mary Catlett of Yorktown, custodial worker at VIMS, is shown accepting a gift from her fellow workers, presented by Dean/Director Frank O. Perkins, on the occasion of her retirement after 22 years of service. She was joined by members of her family and friends at a party given in her honor in Watermen's Hall on the VIMS campus.

Postal manager is HACE honoree

Ernestine Smith, who was appointed office manager at the Campus Post Office in October, is the latest winner of the Employee of the Month Award by HACE, the Hourly and Classified Employees Association. She has been an employee of the Post Office for the past four years.

Ernestine was nominated by Director of the College Postal Services Patty L. Hogge. "Ernestine has been instrumental in the primary objective of the Campus Post Office. Acting as office manager in my absence, she sees that all areas of the mail room are effectively and efficiently run. She has also made suggestions about the Post Office, which have helped improve the level of service to the College community. Ernestine is a very cooperative person who is eager to help others. She readily appreciates how other people feel and offers support. She is a warm, sensitive individual who gets along well with others.

A native of Hampton, Ernestine moved to Williamsburg 20 years ago when she married Peter Smith Sr., a general contractor in the city. She is a graduate of Phoenix High School and Peninsula Business College. She brings to her work in the Post Office a varied experience in business. She has worked as a cashier supervisor at Woolco and was employed by the Naval Weapons Station for four years as a payroll clerk and typist.

Ernestine is a member of the Gospel Spreading

Church of Newport News and sings in the choir. Her husband is an elder in the church.

Mr. and Mrs. Smith are the parents of four,

Ernestine Smith

Peter, 19; Christopher, 18; Timothy, 16; and Calvin, 13

Ernestine says she sees her work as a challenge to keep things going smoothly. She enjoys her contact with students and is looking forward to the anticipated expansion of postal services on campus. The handsome wall plaque that is part of the HACE award will go next to an award Ernestine won for her work with young people at her church. The HACE honor also includes two free dinners at the Marketplace in the Campus Center.

Chinese students respond to troubles in homeland

We the Chinese students at the College of William and Mary condemn with great anger the bloody massacre in Beijing. We strongly express our feelings and opinions that:

1. The Black Saturday Night Massacre was an absolute Fascist action against the Chinese people. It is the darkest time in modern Chinese history that the Chinese government uses combat troops to shoot unarmed students and civilians. We have completely lost our faith in the current government. We believe that the Deng-Li regime is utterly responsible for every bloodshed of our people. The hideous action of this government has completely deprived itself of legitimacy.

2. It is our great hope that the American people will exert their influence over their government to make every effort to press this ugly regime to stop its crimes and brutality against mankind. We also urge the people all over the world to use every means available to prevent any further bloodshed.

3. We deeply mourn for those martyrs whose blood is paving the road leading towards democracy in China. We will continue their unfinished course for a brighter China.

Our condolences to the families of our fallen comrades.

The Association of Chinese Students and Scholars
The College of William and Mary

Letter to Ambassador

The following petition has been circulated in the physics department and is addressed to the Ambassador at the Embassy of the People's Republic of China in Washington, D.C.

We, the undersigned, implore your government to stop the killing of unarmed Chinese students, workers and intellectuals.

Furthermore, we ask your government to enter into discussions with the students, workers, and intellectuals with the aim of furthering the legitimate desires of the Chinese people for a more open, modern and democratic society.

Notes

Travel forms updated

The "Authorization to Travel and Travel Advance Request" forms have changed to reflect the policy that has been in effect for some time now.

The new forms are now in use, and old forms should be destroyed. The updated form can be ordered from the warehouse.

Advances are no longer done once a week, but are processed on a daily basis to be available after noon, two days before the date of travel.

There is also an additional line on the form for the traveler's Social Security number, which is necessary to ensure the correct employee file is used.

The dates requested in the first section of the form are the departure and return dates of the traveler not the dates of a conference or meeting.

Inquiries regarding the form should be addressed to Lee W. Martin, director, General Accounting.

HACE will hear Brown

Stan Brown, director of Career Services, will conclude a two-part series on development and opportunities for hourly and classified employees on campus at the next HACE meeting at noon, Wednesday, June 13 in the Campus Center ballroom.

CommonHealth notes

Bulge Busters break tape

The CommonHealth Great Weight Race is over and the winners are: First, the Bulge Busters — Roxie Williams, Janet Rogers and Inez Burnett who attained 100 percent of weight loss goal. Their reward is a scale.

Second place was won by Bunch of Losers — Stephen Cabaniss, Roy Williams, Donna Stanford and Roy Pearson who reached 69 percent of their weight loss goal. They received a Herman's gift certificate.

Cutie Beauties — Beverly Lapetino, Juanita Dulkyns, Tammy Kennedy, Liz Vaughn and Tim Pearson — placed third with 63 percent of their weight loss goal attained. They will receive cookbooks.

Individual winners are Roxie Williams and Roy Pearson who each receive \$25 awards.

CPR classes

CPR classes are being held June 12, 14 and July

ARC tribute to W&M volunteers

The latest issue of the local ARC (Association of Retarded Citizens) includes a tribute to volunteers from the campus. "The College of William and Mary not only provides an educational foundation for its students, but provides the community with an unending wealth of volunteers. Christy Bryant and Krystal Brooks of Help Unlimited volunteered their own time and were responsible for hooking us up with people like Georgia Jones,

Julie Richardson, and Haley Comer-Betsil. Jeanina Wilson, president of Circle K, logged over 27 volunteer hours and brought with her Jeff Lashly, Lissa Redmiles and a host of others. Jill Bulls of the Baptist Student Union not only provided us with manpower for our many activities but provided the warmly remembered singing of carols at our Christmas party."

Faculty club officers

John Charles, associate professor of physical education, has been elected president of the Faculty Club for the 1989-90 academic year. Serving with him will be Jesse Tarleton, professor of business administration, vice president; Bruce Goodwin, professor of geology, treasurer; and Norman Fashing and Martin Mathes, professors of biology, co-secretaries.

Forum of Williamsburg to hear talk on AIDS

The Forum of Williamsburg will meet at noon, Tuesday, June 13 at the Cascades. Ann Soter of Changing Traditions in Norge and the Peninsula AIDS Network will speak on "AIDS in Our Families and in Our Neighbors' Families: Someone You Know May Be Dying."

Reservations are due by noon on Friday, June 9 and may be made by calling 220-1685. Fee for the luncheon is \$8.

17, 18, 19 and 20. Call Cindi Eicher at ext. 4577 to enroll.

Tennis doubles

CommonHealth begins a Tennis Classic July 17 for three weeks. This is a doubles tournament and is open to all College employees. Entry fee is \$5. Prizes will be awarded. Entries must be received by June 15. Call Cindi Eicher at ext. 4577 for details.

The William and Mary team brought home the outstanding team spirit award from the Fun and Fitness Challenge. Team members were Susie Tillie, John McCray, Jeannie McCray, Debbi Butler, Kim Wiseman, Nancy Smith, Roy Williams, Stephen Cabaniss, Gwen Rutherford, Andy Rutherford, Margo Wright, Greg Caldwell, Jess Tarleton, Lavonne Tarleton, Ellen Williams, Duerant Wallace, Roberta Brown, Cindi Eicher and captain Lucy Purse. The College bookstore donated hats for the Tribe team.

ports. The convention in Kyoto, Japan, in 1973 resulted in the simplification and harmonization of Customs rules and procedures and in 1977 meetings in Nairobi, Kenya, dealt with more effective enforcement among 24 contracting parties by facilitating mutual administrative assistance.

Regardless of the exact nature of emerging international economic linkages, says Finifter, "it is important to gauge, as effectively as possible, the impact of the new patterns on the efficient provision of customs services throughout the world:

1. There will be a larger volume of world trade.
2. New products and services will be introduced into world markets, but they are likely to have varying safety and other quality standards.
3. New trading partners will emerge, and these agreements could require new enforcement mechanisms.
4. New technologies offer additional challenges for customs offices.
5. There are differences in the importance to domestic economies of revenues from customs duties, excise taxes and import fees across nations around the world.
6. The establishment of free trade areas and economic communities have supplanted tariff revenues with other taxes.
7. There are changing patterns of political views toward protection around the world.

Kucharski prints at Andrews

"Scarecrows" and "Fragmented Images" are among the prints and paintings by New York artist Karen Kucharski, which are currently on exhibition at the Andrews Gallery through Aug. 5.

"The scarecrow images come from a series depicting man and his environment. The scarecrow is represented by work gloves and weathered garments, and shown with tools or lines. The lines, representative of work lines, such as power utilities, or control lines suggest man caught between the realism of today and the uncertainty of the future. The symbolic scarecrow dichotomously represents man's infiltration of the environment and his attempt to control nature," says the artist.

"Primordial River," has been described as "dreamlike, biomorphic forms that emerge and fade and reappear."

Kucharski developed her love of printmaking at the State University of New York at Binghamton where she received a B.A. degree in Studio Art. She learned papermaking and metalsmithing at Syracuse University where she received a Master of Fine Arts degree in printmaking.

She has taught art through teaching assistantships at Syracuse University, the Metropolitan School of the Arts in Syracuse, N.Y., the Board of Cooperative Educational Services in Binghamton, N.Y., and the Waterman Wildlife Center

Karen Kucharski

in Apalachin, N.Y. She has also taught in the New York State public school system.

Currently Kucharski is designing artwork for a curriculum development project in the American Indian Program at Cornell University.

From grapes to oil on prime time TV

Lisa Seidman, a graduate student in English, 1980-82, and a member of the "William and Mary West" group of writers in California, has been appointed executive story consultant for the TV show "Dallas."

Lisa has writing credits from "Hill Street Blues," "Cagney and Lacey," "The Whiz Kids" and "Scarecrow and Mrs. King" and most recently was story editor for another TV series, "Falcon Crest."

Long's costumes shine on Broadway

William Ivey Long '69 (history) received special thanks from Jerry Zaks, director of the Broadway hit "Lend Me a Tenor," at the Tony Awards Sunday evening. Zaks received a Tony for best director of the 1988-89 Broadway season and in accepting his award thanked Long, costume de-

signer, for his efforts on behalf of the show. Long enjoys a successful career as a designer in New York and won a Tony himself several years ago for his costume designs in the musical "9."

Business, law schools cooperate in master's in taxation program

Continued from page 1.

fession," says Mallue. He points out that for several years area accountants have been taking courses offered by Marshill-Wythe's Master of Laws in Taxation degree program (LL.M.), but "because they don't have law degrees, they are unable to pursue the L.L.M. degree."

The M.S.T. program is a natural outgrowth of the college's nationally recognized undergraduate program in accounting, says Mallue. The curriculum is designed to give tax practitioners an opportunity to enhance skills and knowledge in the ever-changing areas of tax law, practice and proce-

dure. Students will also benefit from exposure to experienced faculty and courses from both the business and law schools.

The program is intended to serve both full and part-time students. Full-time students can complete course requirements in a 12-month period. For part-time students, courses will be sequenced requirements under either a five-semester plan or a three-year plan.

Those interested in receiving more information on the M.S.T. degree may call the program office at ext. 4100.

admission fee.

The Customs Cooperation Council, the international customs organization of 104 countries, is meeting in the United States this year for the first time in its 36-year history. The CCC is headquartered in Brussels, Belgium. After its sessions in Williamsburg, plenary sessions will be held in Washington, D.C., July 3-6.

In announcing plans for the meetings U.S. Commissioner of Customs William von Raab said, "It is our privilege, on the eve of the U.S. Customs Service's 200th anniversary, to be hosting these annual meetings in our nation's capital and in Colonial Williamsburg. It will be a superb time to develop a worldwide customs trade facilitation strategy for the 21st century."

The CCC, based on the principles of the Geneva General Agreement on Tariffs and Trade, was chartered in 1952, primarily as a European group, but soon expanded into a major international organization. It was established to secure the highest degree of harmony and uniformity in customs systems, and to further develop and improve customs techniques. The United States joined in 1970.

The CCC produced worldwide benefits when the Council adopted the Harmonized System Convention in 1983. The product of 12 years of work by experts from 60 countries and 20 international organizations, the Harmonized System went into effect in Jan. 1988 in many countries, and one year later in the United States. It was a major step forward in expediting cargo processing at world

Lois Burke Shepard (l) chats with Carolyn Holmes and James Wootton at the awards presentation in Atlanta.

8th IMS grant in 10 years

Ash Lawn-Highland given \$64,736

Ash Lawn-Highland has been awarded a grant of \$64,736 from the Institute of Museum Services.

The award was accepted by Carolyn C. Holmes, executive director, and James E. Wootton, curator, at International Museum Day at the High Museum in Atlanta, May 19. At the ceremony, Lois Burke Shepard, director of IMS, presented over 60 awards totalling over \$2.5 million to museums throughout the southeastern United States. Nationwide, over \$17 million was awarded.

IMS awards are extremely competitive with

only 30 percent of this year's 1,355 applicants receiving funds. Awards are based on the quality of a museum's operations, particularly in its educational commitment to its community and in its effective use of available resources.

This year's grant to bolster general operating funds is the sixth IMS general operating award and the eighth IMS funded grant to Ash Lawn-Highland in 10 years, a record of awards that places it in the top 1 percent of museums throughout the country. Ash Lawn-Highland will use the latest grant to enhance its educational programs and to continue developing its long-range plans.

Ash Lawn-Highland Summer Festival

Opera (all performances at 7 p.m.)*

Così fan tutte, Mozart: June 25; July 1, 2, 26 and 29; Aug. 5, 9 and 13.
The Turk in Italy, Rossini: July 8, 9, 15, 16 and 28; Aug. 2, 6 and 12.
Ormindo, Cavalli: July 22, 23 and 30; Aug. 4 and 11.

Tickets: \$11, adults; \$10, senior citizens; \$8 students. Box office open Tuesday through Sunday, June 13-Aug. 13. For information and reservations call 804-293-8000.

Music at Twilight (all performances Wednesday at 8 p.m.)*

June 28: "Love's Old Sweet Song," an evening of Victorian music sung by mezzo-soprano Dana Kreuger

July 5: Trio Sacromonte, traditional Spanish music and dance.

July 12: Plunky and the World Class Quartet, jazz at its finest.

July 19: Mike Seeger, Appalachian folk songs.

Tickets: \$9, adults; \$8, senior citizens; \$6, students. Box office open Tuesday through Sunday, June 13-Aug. 13. For information and reservations call 804-293-8000.

*Picnic Suppers:

Box suppers from Carretta Catering available for opera intermissions and before Music at Twilight; \$6 adults; \$3 children, choice of menus available. To reserve suppers for pick up at Ash Lawn-Highland, call Carretta Catering, 296-5205 before noon the day of the performance.

Lecture Series (all lectures Saturday and Sunday at 6:15 p.m.)

June 25: Katherine Preston, assistant professor of music, College of William and Mary (Sunday only)

July 1-2: Milos Velimirovic, professor of music, University of Virginia

July 8-9: Edward Purrington, administrative director of the Washington Opera, Kennedy Center

July 15-16: Aldrich Adkins, Eminent Scholar 1988-89, Virginia State University

July 22-23: Marita McClymonds, associate professor and chair, McIntire Department of Music, University of Virginia

Children's summer classes, registration set June 24

The Muscarelle Museum of Art will offer two summer programs for youngsters in the Williamsburg area.

The Children's Art Classes, a continuing gallery/studio experience will be held on consecutive Tuesdays and Thursdays beginning Thursday, July 6 and concluding Tuesday, Aug. 1.

Classes are arranged according to 1988-89 school grade levels. Each class will meet for eight one and one-half hour sessions on the following dates: July 6, 11, 13, 18, 20, 25, 27 and Aug. 1.

Art Partners, ages 3-4, will meet 11 a.m.-12:30 p.m. Students age 4-5 will meet 9-10:30 a.m. Pre-schoolers, working with one or both parents, will create original works of art using various media. Emphasis will be placed on the five elements of design — line, shape, space, color and texture.

Art Adventures for grades 1-2 will meet 11 a.m.-12:30 p.m., or 1:30-3 p.m. Exploring outside and inside the museum, students will create two- and three-dimensional art works inspired by what they have seen. A variety of media and found

objects will be used.

Stories in Art for grades 3-4 will meet 9-10:30 a.m. or 1:30-3 p.m. Narrative themes in two-dimensional art works in the museum will spark imaginative projects in drawing, painting, collage and clay, with accompanying stories written by the student artists.

Mural Magic for grades 5-6 will meet 1:30-3 p.m. Students will create a mural on the walls of the Spigel Gallery in the museum. Emphasis will be on drawing and painting techniques

Self-Portrait for grades 7-8 will meet 11:30 a.m.-12:30 p.m. Various drawing, painting, simple printmaking and photographic media will be used when students express their individuality through the exploration of personal symbolism.

In-person registration for the Children's Art Classes will be held at the Museum from 10 a.m. to noon, Saturday, June 24.

The fee is \$15 per student. Scholarships are available in cases of financial need. This program is supported, in part, by a grant from the Williamsburg Arts Commission.

Sign-up at Library, June 10

Muscarelle & Library initiate 'Museum Mania' for July

The Muscarelle Museum of Art and the Williamsburg Regional Library are launching a new cooperative venture, "Museum Mania."

The initial program in this project, titled "How We Look — What We See," will be held from 10 to 11 a.m. on Tuesday, July 18 at the library; Wednesday, July 19 at the museum; and Thursday, July 20, at the library.

Using slides and art reproductions, "ways of seeing" will be discussed during the first session.

Students will visit the museum's exhibitions on the second day, and a follow-up art project incorporating what the students have learned about "seeing" will be held on the third day. This program is free for students between the ages of eight and 12.

Registration will be held on Saturday, June 10 at the Williamsburg Regional Library.

For more information about this program, call the museum at ext. 4003 or ext. 4650.

Autochromes from Kahn Collection on loan from French Cultural Service

The Muscarelle Museum of Art will present "Paris 1910-1931: Autochromes from the Albert Kahn Collection" from July 1 through Aug. 20. This is a preview exhibition for the upcoming French Festival celebration this fall commemorating the 200th anniversary of the French Revolution and the more than 200 years of American-French friendship.

This special exhibition features 40 autochromes selected from a collection of almost 6,000 autochrome plates depicting Parisian life.

One of the wealthiest men of his day, Kahn was a patron of the arts, who also supported foundations promoting international scholarship and a mutual understanding among nations. His estate on the outskirts of Paris was a meeting place for both scholars and world leaders.

Autochromes, introduced in 1907 by Auguste and Louis Lumière, were the first commercially viable color pictures from a photographic process. The process consisted of coating one side of a glass plate with tiny, transparent grains of starch,

died red, green and blue, and the other side with a thin panchromatic emulsion. Once this light-sensitive plate was exposed, developed and projected on a white ground, a full-color image of the subject was produced. The fine-grained texture and brilliant color of the images rendered were particularly appealing to a generation familiar with the work of artists in the pointillist and Fauve movements.

On loan from the French Cultural Service Traveling Exhibitions, the photographs portray pre- and post-World War I Paris and present a colorfully nostalgic look at its people and their neighborhoods, streets, shops, museums and theaters.

Also on display in the upper-level galleries is "Collection Highlights," featuring paintings, drawings, sculpture and decorative art objects arranged chronologically as an art historical survey, encompassing works from the late medieval period to the mid-20th century. This changing exhibit will be on view throughout the summer and is drawn from the permanent collection and selected objects on loan to the Museum.

In Williamsburg

This column is devoted to events in Williamsburg and surrounding areas that would be of interest to members of the College community. We will accept entries, on a space available basis, of concerts, lectures, exhibits and other events open to the general public. Items must be submitted in writing to the William & Mary News office, James Blair 310, and must include the name and phone number of the contributor. Deadline for entries is Thursday at 5 p.m. for the following Wednesday edition.

Hennage Aud. is located in the DeWitt Wallace Decorative Arts Gallery at the corner of Francis and Henry streets. Prices listed are in addition to regular gallery admission.

On-going

Overeaters Anonymous meets Mondays at 7:30 p.m. in the Wesley Foundation Student Center; and Fridays, at noon at St. Bede's Parish Center.

A la Carte Series, DeWitt Wallace Gallery, Wednesdays at 12:30 p.m.

Interpretations of 18th-century tailoring will be

given through August at the former Boot and Shoemaker's shop on Duke of Gloucester Street near Palace Green. The Tailor Shop will be open Wednesdays, Fridays and Saturdays; admission included in any CW pass.

Sunday, June 11

*Virginia Pops, under the direction of Skitch Henderson, will perform at 7:30 p.m. in the Pavilion Convention Center, Virginia Beach. Call 380-0040. (Repeats Monday, June 23 at 8 p.m., Oden Hall, Hampton.)

Tuesday, June 13

*Forum of Williamsburg: "AIDS in Our Families and in Our Neighbors' Families: Someone You Know May Be Dying" by Ann Soter, Changing Traditions, Cascades, noon. \$8

Saturday, June 17

The Virginia Living Museum will have two special shows beginning June 17: "The Dinosaur Show" and "Death of the Dinosaurs." Call 595-1900.

Classified Advertisements

Classified ads are included as a service to members of the College community and will be accepted from faculty, staff, students and alumni only. The fee for ads is \$3 for three consecutive issues. Ads should be no longer than 40 words and must be submitted, in writing and with payment, to the William and Mary News office no later than 5 p.m. on the Friday preceding the first insertion. Corrections must be made before the second insertion. Any change is considered a new ad.

Employment

Informational interviews are held in the Office of Personnel Services each Thursday from 9 a.m. to noon on a first-come, first-served basis. This is an excellent chance to learn more about employment opportunities at the College and VIMS.

The following positions at the College are open to all qualified individuals. Call 229-JOBS for a 24-hour-a-day listing of vacancies, or visit the Office of Personnel Services, Thiemes House, 303 Richmond Road, for information and application forms, Monday-Friday, 8 a.m.-4 p.m. All applicants must submit a completed Commonwealth of Virginia Application form to the Office of Personnel Services.

Notice: In accordance with the Immigration Reform and Control Act of 1986, effective immediately, all individuals hired for positions at the College of William and Mary or the Virginia Institute of Marine Science will be required to produce the following: either (1) one document establishing both U.S. employment authorization and identity (such as Alien Registration card with photograph, U.S. passport, certificate of U.S. citizen-

ship, certificate of naturalization or unexpired foreign passport with attached employment authorization); or (2) one document establishing U.S. employment eligibility (such as original Social Security card, birth certificate or unexpired INS employment authorization) and one document establishing identity (such as driver's license or U.S. military card). If the employee cannot produce the required documents within three business days of hire, he/she will be subject to removal.

The College of William and Mary is committed to the principles of equal opportunity and affirmative action in the employment of faculty, administrators and non-academic personnel. This policy was reaffirmed by the Board of Visitors on Nov. 4, 1988. It is the policy of the College not to discriminate against any employee or applicant for employment on the basis of race, sex, color, national origin, religion, age, handicap, disability, veteran's status or political affiliation. It is also the policy of the College to implement appropriate affirmative action initiatives.

Deadline for applying for the following posi-

tions is 5 p.m., Friday, June 9, unless otherwise indicated. Postmarks will not be honored.

WAREHOUSEMAN (unclassified) — \$6.11 per hour, 40 hours per week. This is a temporary appointment, which will not exceed 90 calendar days. #H073. Location: College Bookstore.
