Permit No. 26

WILLIAM & MARY

A WEEKLY NEWSPAPER FOR FACULTY, STUDENTS AND STAFF

NEWS

VOLUME XIX, NUMBER 33 • WEDNESDAY, JULY 25, 1990

Campus Post Office Goes Full Service

Beginning Aug. 1, the Campus Post Office will open a full-service contract station in the basement of Old Dominion. Hours of operation will be Monday-Friday, 9 a.m.-4 p.m.

According to Patty Hogge, director of the College Postal Service, the opening is the culmination of two years of discussions with the U.S. Postal Service, which will finance most of the services.

As a full contract station, the Campus Post Office will sell stamps and provide all the services of the federal post office, including express mail and other special handling. Hogge says the station is expected to do approximately \$500,000 of business in the first year.

REMINDERS

Parking decals

Faculty and staff parking decals are now on sale and should be purchased before the deadline, July 31.

Notices of current rates and application forms have been mailed out. If you did not get one, please contact Parking Services, 204 S. Boundary St., ext. 14765.

Fees are as follows: Faculty/staff/student, \$50; W&M Hall lot only, \$20; Evening permit, \$25. Additional decals are \$5. Payroll deductions are available.

Seafood Fest

The annual Faculty Club party at VIMS will be held Friday evening, Sept. 21. Details will be available closer to party time but faculty members are asked to mark their calendars for this gala event.

ID Cards

The function of making student and faculty/staff ID cards has been transferred to the ID office behind the Marketplace in the atrium area of the Campus Center.

Summer hours are Monday through Friday, 9:30 a.m. to 3:30 p.m. This fall the office will be open 8:30 a.m. to 4:30 p.m., Monday through Friday. Evening and weekend hours will be announced in August.

Obbligato Boutique

The Obbligato of the Williamsburg Symphonia, an ensemble of musicians including college volunteers, now has a line of music motif gift items, which is being carried at Beethoven's Inn. For more information concerning the boutique or the Obbligato, call 229-9857.

Gore Pledges \$400,000 to Child Care Center

The College has received a major pledge from an alumna for its proposed child care center, enabling construction on the center to begin this fall.

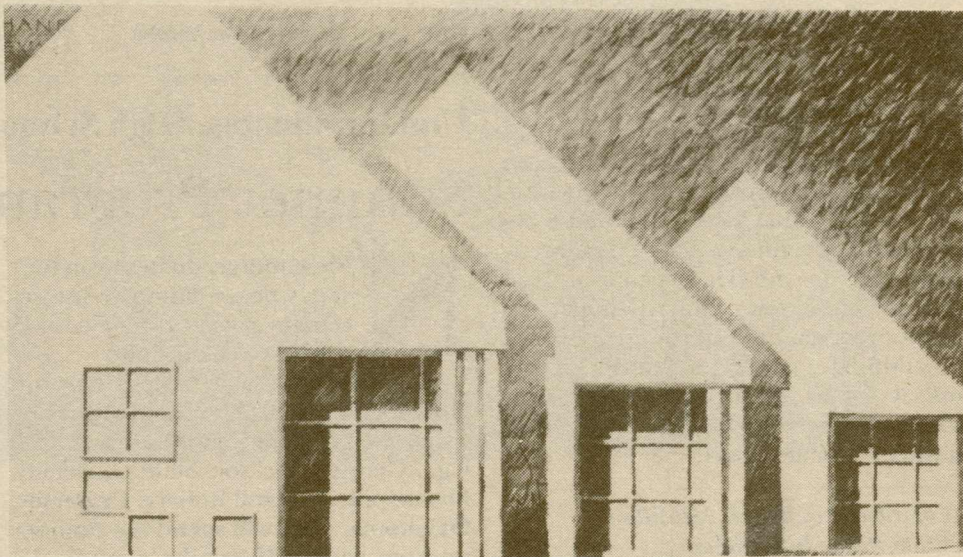

Sarah Ives Gore of Newark, Del., a member of the class of 1956, has made a \$400,000 commitment to the project. Mrs. Gore's donation is the latest of several major commitments to the child care center, which is being funded entirely through private support. A total of about \$600,000 has been raised for the project, according to Edward T. Allenby, vice president for university advancement.

Bids for the construction of the 5,000-square-foot facility are expected to be let this fall, with building to begin before the end of the year. Plans call for its opening in the fall of 1991.

Mrs. Gore said her commitment is "a wonderful opportunity to make an investment I believe in. I studied education at William and Mary, and I have been convinced ever since that education during the early childhood years is very important. We must invest in our children as the key to our future; we must give them quality care in their early years." Mrs. Gore directs human resources for W. L. Gore and Associates, headquartered in Newark and makers of Gore-Tex® fabrics, electronics and industrial products.

Hans C. vonBaeyer, the W&M physics professor who chairs the committee planning the center, said he is "thrilled with the news that this project is about to become a reality."

"Many people have worked long and hard to make this happen," he said. "The committee is very grateful to one of its most active members, Fran Verkuil, for her interest and tireless effort, to Paul Verkuil for his support and advocacy, and to the donors who have made this possible. The committee can now turn its full

Artist's rendering

attention to planning the center and its programs."

The center, to be located on a one-acre lot behind Hoke and Bridges houses off Jamestown Rd., will accommodate about 75 children of College faculty, staff and students. The program will include full care for infants, toddlers and preschoolers. A director and professionally trained staff will operate the center with assistance from W&M student interns, volunteer aides and parents.

Consideration of a child care center began after a 1985 survey revealed that 80 percent of the faculty favored the idea. In 1988, a committee working with Vice President for Administration and Finance William F. Merck II submitted a plan for an on-campus child care facility. The committee has developed its plans with significant parental input, vonBaeyer said.

A primary concern in designing the center was creating a building hospitable to children while fitting the architectural

style of the campus. A common thread of the discussions, vonBaeyer said, was to "start with a house" so that children would feel as if they were at home rather than at a school. Jane Wright of the Norfolk architectural firm of Hanbury, Evans, Newell, Vlattas designed a series of three connected houses, one house for each age group. In this way, children will be able to identify "their house" and develop a feeling of "home" at the center.

Access to the center will be from S. Boundary St. onto Grigsby Dr., behind the Campus Center and College Bookstore. A parking lot with about 15 dedicated spaces is planned.

Other significant support for the project has included major gifts from Pamela Harriman of Middleburg, Va., a former member of the College's Board of Visitors; the Morgan Foundation; and Martha Schifferli, in memory of Nancy Emery Gibson.

Third Commonwealth Seminar To Focus on Europe

Twenty-five community teams of high school students, teachers and business people from throughout the state have been selected to participate in the Commonwealth of Virginia Seminar on Europe, July 29 to Aug. 4 on campus.

This is the third annual seminar here, designed to raise the level of cultural awareness among community leaders and create a base of knowledge to make state businesses more competitive in the world market.

Previous seminars have examined East Asia in 1988 and Latin America in 1989. Ronald Wheeler, associate professor in the School of Education and director of the seminar, said Europe is a natural choice for this year's program.

"With the European Community coming together in 1992, and the dramatic changes taking place in the communist countries, we will be studying history in the making," said Wheeler. "We have an especially strong international studies component at William and Mary, and this event gives participants an opportunity to take advantage of an impressive group of faculty."

Brian Blouet, Fred J. Huby Professor of Geography and International Education, and Alan Ward, Class of 1935 Professor of Government and chair of the government department, are organizing the sessions.

A number of former ambassadors will speak at the conference, including Robert Fritts, deputy inspector general for the

U.S. State Department and former ambassador-in-residence at the College.

Specific topics on the agenda include: German reunification; the quality of education in Europe; and the dilemmas facing countries as they go through the transition from centrally planned socialism to democratic capitalism.

During the week, a trip to Washington is planned, which will include briefings from Sen. John Warner of Virginia and international relations experts from the U.S. State Department.

The seminar is sponsored by the Commonwealth of Virginia and the College, and is a collaborative project of the School of Education, the Faculty of Arts and Sciences, and the Wendy and Emery Reves Center for International Studies.

NEWSMAKERS AT VIMS

Weeks Proposes VIMS/Thai Study

During a June visit to Chulalongkorn University in Bangkok, Thailand, School of Marine Science Associate Professor Beverly Anne Weeks co-authored a proposal for a joint VIMS/Thai study on the effects of environmental pollutants on that country's fish and shrimp industries.

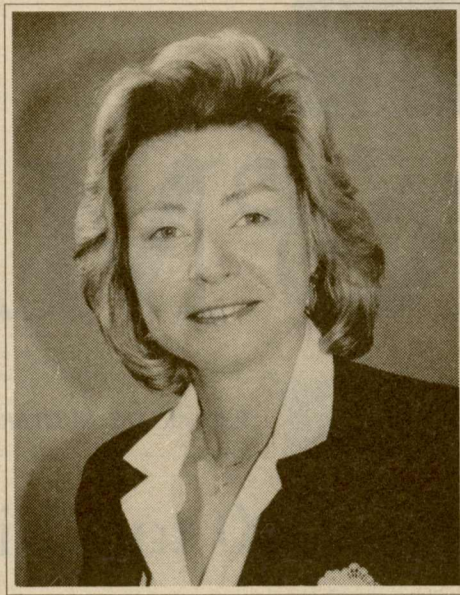

Weeks, who heads the toxicology research program in VIMS' Division of Chemistry and Toxicology, was one of two U.S. scientists invited by the National Research Council to help write the joint proposal. She also lectured on her extensive work on the effects of toxic chemicals on fish immune systems and on the use of immunological biomarkers—biological warning flags—to assess environmental contamination.

"The Thais are having a major problem with shrimp kills," Weeks says, with runoff laced with agricultural chemicals a possible culprit. Although her research focuses on the impacts of nonagricultural contaminants, Weeks says that techniques being refined at VIMS are directly applicable to the Thai scenario. Thai shrimp, a mainstay of the Asian nation's economy, are exported around the world.

VIMS Dean/Director Frank O. Perkins says, "This venture is another case of VIMS research in the Chesapeake Bay having a global impact.

VIMS Hosts ASLO Conference

Marine and freshwater researchers from around the world met in Williamsburg, June 10-15, to hear reports on organisms ranging from sea grasses to the "exotic" zebra mussel and to learn the details of dozens of research efforts dealing with freshwater and estuarine ecosystems.

The 1990 conference of the American Society of Limnology and Oceanography (ASLO), headquartered in the Wyndham Hotel, was sponsored by VIMS. President Paul R. Verkuil and VIMS/SMS Dean/Director Frank O. Perkins opened the scientific sessions, Monday, June 11, in Phi Beta Kappa Memorial Hall.

Major sessions during the six-day conference included reports on long-term ecological research in the Chesapeake Bay and other water bodies. A special symposium focused on coupling research and management in estuaries that are undergoing eutrophication as a result of gaining nutrients (such as nitrogen) from natural or human sources. Another special session considered applications of cutting-edge genetic methods, such as polymerase chain reaction studies and VIMS' plankton studies using a unique underwater camera and computerized image analysis.

More than 20 VIMS faculty and graduate students presented papers or chaired sessions at the conference. Professor Kenneth L. Webb headed the organizing committee, and Sue Gammisch of Marine Advisory Services coordinated the event.

Undergraduates, High School Students Participate

Summer Programs Offer Hands-On Experience

Nine undergraduates from four states began summer internships in marine science at VIMS the first week in June.

The interns come from Hampton University; Norfolk State University; Lynchburg College; Savannah State College, Georgia; Jackson State University, Mississippi; and Oral Roberts University, Oklahoma. They will spend the summer working with SMS faculty mentors on various VIMS research projects.

In addition to the opportunity to work closely with professional marine scientists, interns receive a \$220-per-week stipend from funds provided by the National Science Foundation and the Union Camp Corporation.

pend from funds provided by the National Science Foundation and the Union Camp Corporation.

Governor's School

For four weeks this summer, a group of academically gifted high school students with dreams of becoming marine scientists will gain first-hand experience on a research project at VIMS. As in previous years, 1990's Governor's School group at VIMS, sponsored by the Virginia Department of Education, draws from the top 2 percent of Commonwealth high school

students.

Lee Lawrence of Marine Advisory Services, who coordinates the program, explains that students will work June 25-July 27 with faculty mentors on projects that are part of or contribute to ongoing research at VIMS.

The Governor's School Program is designed to give top-flight students a chance to work with professionals in their field of interest in settings that encourage intellectual growth. Students will share William and Mary dorms with participants in a similar mentorship program at NASA/Langley.

Faculty Notes

On June 22, **Robert J. Huggett**, professor, presented the keynote address and another lecture as part of a Toxicology and Monitoring Conference and Workshop in Melbourne sponsored by the Commonwealth of Australia. The focus of the meeting was on the fate and effects of pulp and paper mill effluents in aquatic environments. Huggett also presented a seminar on recent developments in marine science at the Marine Science Laboratories in Queenscliff.

David A. Evans, associate professor, attended the Third International Organotin Symposium in Monaco and presented a paper titled "Results from Intensive Monitoring of TBT in Two Tidal Creeks of the Chesapeake Bay." Evans also participated in a panel discussion on data adequacy.

Charles G. Barr, a master student's in fisheries, recently received one of two student scholarships awarded for the 41st

Tuna Conference, held at the University of California Conference Center in Lake Arrowhead, Calif. Barr presented a paper on his research titled "Evaluation of Food and Feeding Strategy of Northern Bluefin Tuna (*Thunnus thynnus*) and Yellowfin Tuna (*Thunnus albacores*) Off the Coast of Virginia." In addition to the scholarship, he received a certificate of recognition.

Jon A. Lucy, **Nancy J. Chartier** and **Barr** also presented a poster "Catch and Effort Assessments of Bluefin and Yellowfin Tunas in Virginia's Recreational Pelagic Fishery with Comments on Billfish Catches."

This international conference is sponsored annually by the National Marine Fisheries Service, Southwest Fisheries Service and the Inter-American Tropical Tuna Commission. The conference drew about 100 participants from 12 countries. This is the second year in a row that a student from VIMS has received one of

the scholarships for presenting a paper at this conference.

Rob Hale, assistant professor of chemistry and toxicology, recently published "Accumulation and Biotransformation of an Organophosphorus Pesticide in Fish and Bivalves" in the journal *Marine Environmental Research*.

Hale's research focuses on the biological impacts of chemicals, including the widely-used organophosphorus pesticides, on estuarine and coastal marine animals such as fish and shellfish.

Hale also reported on VIMS studies of polychlorinated terpenyls, known as PCTs, at a recent meeting of the American Society for Testing and Materials in San Francisco.

Bob Orth, associate professor, presented a paper at the National Blue Crab Industry Association meeting in Williamsburg last April; Instructor **Jacques van Montfrans** gave a paper on behalf of

Rom Lipcius, assistant professor, at the same meeting.

Blue crab research programs at VIMS are thriving—a recently published volume of the prestigious *Bulletin of Marine Science* carries 10 papers by VIMS scientists involved in blue crab studies.

William J. Hargis, professor, reported on Elizabeth River research and its implications for the Chesapeake Bay to the Rotary Club of Suffolk.

Hargis served as co-chair of an oyster industry workshop at the National Shellfisheries Association meeting in Williamsburg in April, and has co-authored two newly published papers, one on new studies of fish cancers and a second on developmental effects in bony fishes of sediment-borne contaminants.

David Evans, associate professor, traveled to Monaco earlier this spring to report on TBT (tributyl tin) monitoring in Chesapeake Bay tributaries at the Third International Organotin Symposium.

Student Awards

At the spring 1990 meeting of the Atlantic Estuarine Research Society held at the VIMS Gloucester Point campus, **Rochelle Seitz**, a master's candidate, became the most recent SMS student to gain recognition for graduate work. Seitz's paper on aspects of the ecology of a marine polychaete worm received the award for best student paper.

According to Dean/Director **Frank O. Perkins**, a tally of recent student awards and research grants turned up a long list of SMS students who are augmenting their studies with superb research.

In April, **Beth McGovern** received an award for the outstanding student paper at the 1990 meeting of the National Shellfisheries Association, held in Williamsburg.

Charles G. Barr received a scholarship at the 41st Inter-American Tropical Tuna Commission conference in Lake Arrow-

head, Calif., for his paper on blue- and yellowfin tuna feeding behavior.

Lawrence Libelo's paper on transport of nutrients and herbicides from groundwater to surface water earned him a Seaspaceship scholarship from the Houston Underwater Club. Lee Morgan, who is specializing in fisheries, recently received another Seaspaceship scholarship.

Rick Reeves began a Virginia Sea Grant Internship in January. He begins a U.S. Minerals Management Internship in September.

A special program of the National Science Foundation has awarded grants to **Lawrence Libelo** and **Kathryn Gallagher** to support Japanese language studies. The program is designed to enhance the ability of scientists to communicate with their Japanese counterparts in the international research community.

Other award- and grant-winners include:

Shirley Baker, International Women's Fishing Association Award, June 1989.

R. A. Blaylock, Outstanding Student Paper in Ichthyology, Association of Southeastern Biologists, May 1989.

Eleanor Bochenek, Sea Grant Internship, 1988.

Deborah Bodolus, J. Frances Allen Scholarship, May 1989.

Nancy Chartier, Student Paper Scholarship, 40th IATTC Tuna Conference, June 1989.

Peter Eldridge, Graduate Student Poster Award, American Society of Limnology and Oceanography, June 1989.

Malcolm O. Greene, John M. Zeigler Student Achievement Award, March 1988 (for 1987).

Kathy Kavanaugh, grant from the Lerner-Gray Fund for Marine Research, American Museum of Natural History.

Jian Li, VIMS/SMS representative, Ocean '89 Conference (through Virginia Graduate Marine Science Consortium), Sept. 1989.

Jiangang Luo, Lerner-Gray Fund Advisory Committee Award, American Museum of Natural History, June 1989

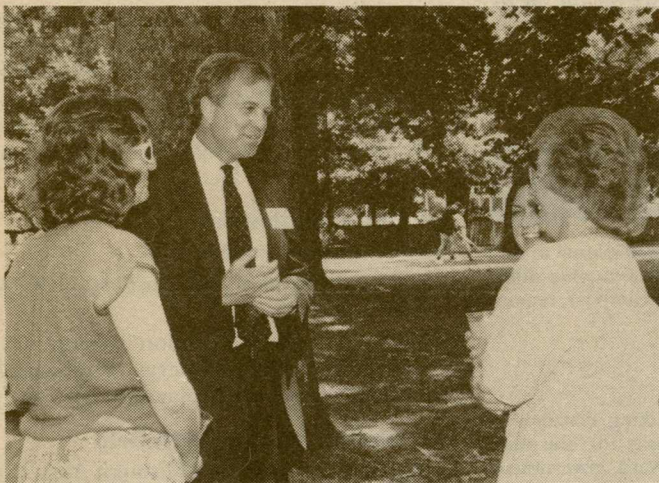

Hilary Neckles, John M. Zeigler Student Achievement Award, Feb. 1989 (for 1988); Seaspaceship, Houston Underwater Club, May 1988 and May 1989.

Eugene Olmi, Best Poster Award, AERS, April 1989; W. A. Van Engel Fellowship for Crustacean Research in the Chesapeake Bay, Sept. 1986-July 1990; Honorable Mention, Best Student Presentation, Estuarine Research Federation Conference, Oct. 1989; Co-Principal Investigator, Sea Grant project on recruitment dynamics of the blue crab, Jan. 1989-Dec. 1990.

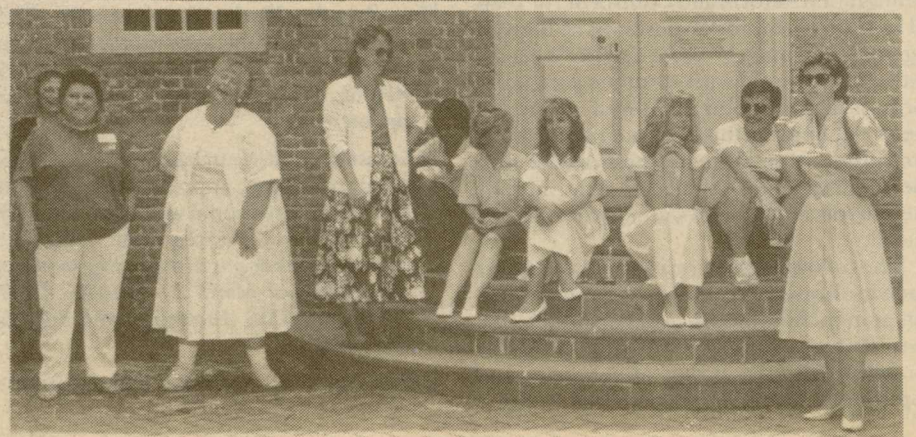

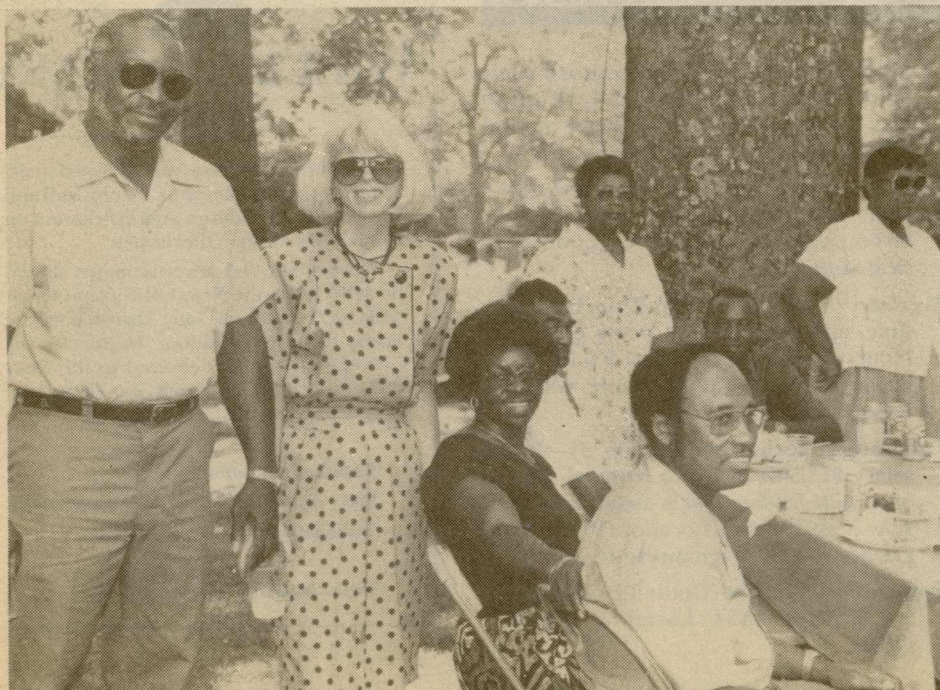

Employees Enjoy Annual Picnic by the Wren

Part of the fun of this summer's picnic was getting to dance with the boss. President Verkuil showed some fancy footwork in the electric slide and kept up with dancers from across the campus who also enjoyed the music.

An unexpectedly large number of picnickers sent the caterers scrambling early for more food. There was fried chicken, barbecue, watermelon and lots and lots of lemonade, and a good time was had by all.

Collection Highlights

Community

This column is devoted to events in Williamsburg and surrounding areas that would be of interest to members of the College community. We will accept entries, on a space available basis, of concerts, lectures, exhibits and other events open to the general public.

The Williamsburg Arts Center is the Arts Center of the Williamsburg Regional Library, located at 515 Scotland Street.

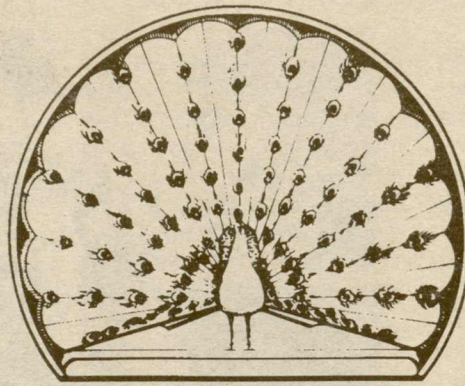

The Hennage Aud. is located in the DeWitt Wallace Decorative Arts Gallery at the corner of Francis and Henry streets. Prices listed are in addition to regular gallery admission.

On-going

Williamsburg Step-Families meets every fourth Monday at Walnut Hills Baptist Church, 7-9 p.m.

Overeaters Anonymous meets Mondays at 7:30 p.m. in the Wesley Foundation Student Center.

Bruton Parish Church by Candlelight—musical program, Tuesdays, Thursdays and Saturdays, 8 p.m.

Summer Saturdays

Programs begin at 11 a.m. in the Boxwood Gardens theatre or under the tent. General admission \$3 at door. Bring a picnic lunch to enjoy on the grounds; box lunches available.

July 28: The Fiddle Puppet Cloggers

Aug. 4: "Rumplestiltskin" by Bob Brown Puppet Productions, Inc.

Call 293-9539 for information.

Ash Lawn-Highland

(Charlottesville)

1990 Opera Season: June-Aug.

"The Daughter of the Regiment" by Donizetti
"The Magic Flute" by Mozart
"The Maid as Mistress" by Pergolesi
"The Telephone" by Menotti
"The Face on the Barroom Floor" by Mollicone

On the Hill Cultural Arts Center, Yorktown
Hours: Monday-Saturday, 10 a.m.-5 p.m., and Sunday, 1-5 p.m. Call 898-3076.

Daily art and craft demonstrations and exhibits. **Main Gallery and Ascending Gallery:** "Computer Art" (through June 30). **Associates Gallery:** "Elizabeth Krome: Stoneware and Porcelain" (through Aug.) **Summertime Samplers for Children:** Circus Art (July 30-Aug. 3), Puppet Theatre Workshop (Aug. 6-18), Art on the Move (Aug. 20-24)

The Twentieth Century Gallery

Hours: Tuesday-Saturday, 11 a.m.-5 p.m., and Sunday, noon-5 p.m. For more information, call 229-4949.

Colonial Williamsburg

Sunset Tours at Carter's Grove, Monday-Friday, 6:45 p.m.

Yorktown Victory Center

For information, call 877-1776.

Children's programs at the Yorktown Victory Center and at the Jamestown Settlement Park starting in July. Call the education office at 253-4939 for more information. **Exhibits:** "The Town of York," "Yorktown's Sunken Fleet" and "John Steele: American Patriot," through Oct.

Jamestown Settlement

For information, call 229-1607.

Hours: Daily 9 a.m.-5 p.m. Admission \$6.50 adults, \$3 children.

Exhibits: "The Glass of Fashion" through fall. Powhatan Indian Gallery: "Powhatan's Mantle" will be on display through Oct.

Petersburg National Battlefield

Living History Program (Through Aug. 15) featuring Union siege line camp and Confederate artillery crew with six-horse team. 8 a.m.-7 p.m. Call 732-3531.

Sunday, Aug. 5

Unitarian Universalists service: "Earth Stewardship and Human Healing" by Rev. Charles Maloney, Williamsburg Pastoral Counseling Services, 11 a.m., at Temple Beth El, 600 Jamestown Rd. For information, call 220-6830.

Sunday, Aug. 19

Unitarian Universalists service: "The Creative Process in Art and Music" by David Hamilton and Dr. Frederic Tate, 11 a.m., at Wmsbg. Regional Library, 515 Scotland St. For information, call 220-6830.

CLASSIFIED ADVERTISEMENTS

Classified ads are included as a service to members of the College community and will be accepted from faculty, staff, students and alumni only. The fee for ads is \$3 for three consecutive issues. Ads should be no longer than 40 words and must be submitted, in writing and with payment, to the William and Mary News office no later than 5 p.m. on the Friday preceding the first insertion. Corrections must be made before the second insertion. Any change is considered a new ad.

FOR SALE

1983 Nissan Stanza. Good condition, \$2,000. Call 253-0362. (8/15)

Computer modem. 2400-baud Mitac MD2400 external modem (Hayes compatible with communications program. Call ext. 12597 or 565-3134. (8/15)

1986 Stingray boat, 19 ft. 170 Mercruiser I/O. Like new, garage kept. Long, galvanized trailer included. Must see to appreciate. Asking \$8,500. Call 642-7042, days; 725-4977, after 5:30 p.m. (8/15)

New two-story home with double garage in Powhatan Shores. Boat ramp access, all gas, 4 BRs, 2-1/2 baths, family room with fireplace. Bonus room, fans. Available now. \$145,000. Call 229-6011. (8/15)

FOR RENT

Escape the heat. Summer cottage on Maine coast for rent, July 29-Aug. 12. \$350 per week. 3 BRs, Heatilator fireplace, screened porch. 400 feet from Bay. Call 220-0835. (8/15)

In-town house on Tanyard St. 2 BRs, 1 bath, storage room. Stove and refrigerator furnished. \$450 per month. Deposit and references required. Available end of July. Call Mrs. Jeffrey, 229-6345. (8/15)

Beautiful home in Charles City Co.; only 20 minutes to W&M campus. 5 BRs, 4 baths, LR, DR, eat-in kitchen, den and great room. Large deck and hot tub. \$990 per month. Available in Aug. Call Marge, 220-7606, 8-5 weekdays; 829-5252, after 6 p.m. (8/15)

3-BR brick rancher, Skipwith Farms. 1-1/2 baths, patio, AC, fireplace. Couple or small family. No pets. \$585 per month. Available Aug. 1. Call 229-0556. (8/15)

Seeking responsible single professional to sublet Williamsburg townhouse. Room plus other amenities, Aug. 90-May 91 (near campus), reasonable rent. Call 229-1402. (7/25)

WANTED

Small apartment within walking distance of campus wanted by visiting faculty for one year, beginning Aug. 15. Call Alan Ward, government department, ext. 13021. (8/15)

1- or 2-BR apartment for visiting professor for 1990-91 academic year. Call James Harris, philosophy, ext. 12735. (8/15)

MISCELLANEOUS

Kitchen countertop replacements—Make that old kitchen look like new again! Usually can remove old and install new in one day. Call Bob, 890-0982, after 6 p.m. (8/15)

Tired of spending your days off doing housework? Residential cleaning, references available. Call Joan McLellon, 888-0209. (8/15)

Quality daycare: Responsible 27-year-old, M.A. Ed., providing nurturing, caring daycare in home. Convenient to campus, reasonable rates. Call 253-6412. (8/15)

EMPLOYMENT

Informational interviews are held in the Office of Personnel Services each Thursday from 9 a.m. to noon on a first-come, first-served basis.

A listing of vacancies is available 24 hours a day by calling ext. 13167.

Important notice: In accordance with the Immigration Reform and Control Act of 1986, all individuals hired for positions at the College or VIMS must produce a driver's license and social security card or other acceptable form of identification and proof of employment eligibility. If this documentation is not produced within three business days of hire, the employee will be subject to removal from the payroll until the documentation is produced.

The following positions at the College are open to all qualified individuals, unless otherwise noted. Visit the Office of Personnel Services, Thiemes House, 303 Richmond Road, for information, a listing of vacancies and application forms, Monday-Friday, 8 a.m.-4

p.m. Call ext. 13150. All applicants must submit a completed Commonwealth of Virginia Application form to the Office of Personnel Services.

Deadline for applying for the following positions is 5 p.m., Friday, July 27 unless otherwise noted. Postmarks will not be honored.

Housekeeping Worker (unclassified)—\$4.97 per hour, part time, approximately 30 hours per week. Shift begins at 5 a.m. #H656, #H662, #H654. Location: Facilities Management.

Laboratory Aide (unclassified)—\$5.43 per hour, part time, approximately 30 hours per week. Occasional weekend and night-time hours will be required. These are restricted appointments with funding that is subject to renewal March 31. #H075, #H077. Location: VIMS (Biological and Fisheries Sciences)

Office Services Assistant (unclassified)—

\$6.49 per hour, part time, approximately 20 hours per week. Hours of work are 10 a.m.-2 p.m., except one week per month. #H160. Location: Swem Library.

Office Services Assistant (unclassified)—\$6.49 per hour, part time, approximately 20 hours per week. #H044. Location: Classical Studies.

Secretary (unclassified)—\$6.49 per hour, part time, approximately 20 hours per week. Hours of work are 9:30 a.m.-2 p.m., Monday-Friday. #H038. Location: Modern Languages.

Laboratory Technician (Grade 4)—Entry salary \$13,502. This is a restricted appointment with funding that is subject to renewal June 30. #020, #065. Location: VIMS (Eastern Shore Lab-Wachapreague, Va.)

Programmer/Analyst (Grade 12)—Entry salary \$27,538. #554. Location: Provost's Office.

WILLIAM & MARY
NEWS

The William & Mary News is issued weekly during the school year for faculty, staff and students of the College and distributed on campus Wednesday afternoons.

News items and advertisements should be delivered to the News Office, James Blair 310A (221-2639), no later than 5 p.m. the Friday before publication. Notices for the calendar should be delivered to the News Office no later than 5 p.m. the Wednesday before publication.

Barbara Ball, editor
Mary Ann Williamson, desktop publishing
Publications Office, production

News deadline: Fridays, 5 p.m.
