WILLIAM & MARY

A WEEKLY NEWSPAPER FOR FACULTY, STUDENTS AND STAFF

NEWS

VOLUME XX, NUMBER 34 • WEDNESDAY, JULY 17, 1991

NOTES

Energy Grant

Nancy Nash, assistant to the vice president for administration and finance, and Madelyn Miller, senior laboratory specialist in chemistry, are co-directors on a technical assistance study of Morton Hall which has been funded by a \$24,500 grant from the Commonwealth of Virginia Division of Energy.

Grant funds have paid for a professional engineer to do a study to redesign the mechanical system in Morton to achieve the highest level of energy conservation possible.

The study, said Nash, has enabled the College to submit for 50-50 funding by the state, a proposal based on the recommendations of the engineer.

Morton, she said, is the first building on campus to be studied but plans are for others to follow. Because Morton operates singly on its own power meter, the suggested energy-saving proposals were easier to estimate, she added.

The initial suggestion for the energy-saving project came from members of the physics department who looked around their own department, suggested a switch from incandescent to fluorescent lighting, which cost less and lasts longer, and other options which could save the College money.

Conservation Measures Sought

A group of administrators, staff and students has begun meeting this summer to explore ways to pursue and publicize meaningful electricity conservation measures.

William and Mary is a large consumer of energy; it costs about \$2 million each year to provide the campus with electricity. Conservation, especially during late August and early September—which is the traditional peak consumption period on campus—could result in significant savings all year long. Because Virginia Power bills customers at 90 percent of peak usage, a lowered peak demand means lower electricity bills.

For more information on how to cut energy consumption, watch this space. In the meantime, don't forget to turn off lights, personal computers or coffee machines when not in use.

Board Holds June Meeting At Richard Bland

The Executive Committee of the College's Board of Visitors held a one-day meeting Friday, June 28, on the campus of Richard Bland College in Petersburg.

In his report to board members President Paul Verkuil said the College is expecting a freshman class of about 1,200 this fall that is "one of the strongest in our history." Verkuil said he was "pleased and proud to work at an institution with people of such dedication." He noted that the faculty had to endure a 2 percent salary reduction along with increased work loads as some class sections were eliminated due to budget cuts. "I offer to the Faculty Assembly my gratitude for the work you've done to maintain the strong relationship between the faculty and the Board," said Verkuil. "Everyone has earned raises that, unfortunately, have not been forthcoming."

Among the resolutions approved by the Board was a revision of the College's Statement of Rights and Responsibilities to reflect new federal legislation to take effect in September. The new law will permit alleged victims of violent campus crimes to be informed of the outcome of any College disciplinary proceeding. Previously, release of information on the outcomes of such proceedings was prohibited under federal law.

Vice President for Student Affairs Samuel Sadler reported to the Board on changes being implemented in response to continuing concern on the subject of sexual assaults. Changes include revision of the Student Handbook, orientation workshops, new penalties, peer support, strengthening the relationship with local groups such as Avalon, and appointment of a permanent coordinator for these programs on the Student Affairs staff.

Rector Hays Watkins acknowledged that student concerns about changes in the academic calendar, which were brought to the attention of the Board in April, are being addressed by the administration.

At the recommendation of the Faculty Assembly and the Provost, board members approved a Statement on Amorous Consensual Relationships (see policy p. 2) to be included in the Faculty Handbook. Professor John McGlennon, chair of the Faculty Liaison Committee, introduced John Ruzecki of VIMS, who will chair the liaison committee during 1991-92. Other faculty liaison members include: James Yankovich, education; Mariann Jelinek, business; Morton Eckhause, physics; Alan Fuchs, philosophy; and John Donaldson, law.

Director of Athletics John Randolph reported on Tribe highlights of 1990-91. W&M won .517 of their Division I intercollegiate contests to rank second among all Virginia Division I programs.

Three W&M students were designated post-graduate scholars: Reggie White, football, by the National Football Federation; Robin Lotze, women's soccer, by NCAA; and Angie Evans, women's basketball, alternate, NCAA. Lotze also was named All-America for 1990-91 ISAA women's soccer first team, won the Honda Broderick Award, and was an NCAA Woman of the Year nominee. White was named to All-America teams in football by AP, Walter Camp, Kodak and Sports Network.

Track standout Paul Vandegrift placed

second in the NCAA 1500 outdoor championship, was the first American finisher and defeated an Olympic champion in the event. Kristine Kurth, a freshman, was named Volvo Tennis Rookie of the Year, is the highest ranked freshman in the collegiate rankings at no. 16, and has assisted W&M to its highest national ranking (no. 20) in the school's history.

Vice President for Administration and Finance William Merck advised the Board that a statewide study is underway to

CONTINUED ON PAGE 2.

Taylor Named New VIMS Dean/Director

Dennis L. Taylor, director and chief executive officer of Bigelow Laboratory for Ocean Sciences in West Boothbay Harbor, Maine, has been named dean and director of the School of Marine Science/Virginia Institute of Marine Science.

Taylor's appointment was approved June 28 at a meeting of the College's Board of Visitors in Petersburg.

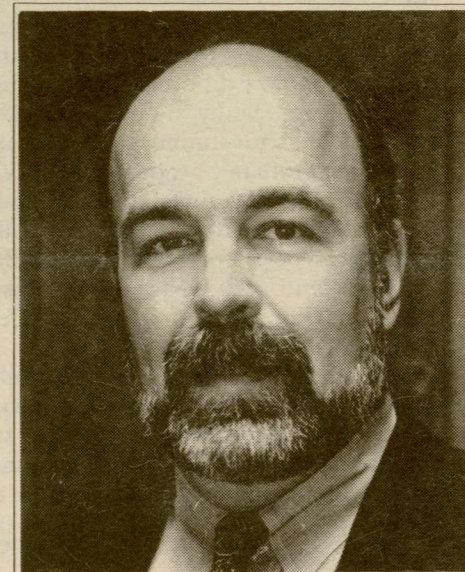

A specialist in marine microorganisms, Taylor has also been designated the A. Marshall Acuff Jr. Professor of Marine Science, the first privately supported named professorship in marine science at W&M.

Taylor has been director and CEO of Bigelow Laboratory since 1989. Prior to that he was with the University of Maryland's Center for Environmental and Estuarine Studies (CEES) in Cambridge, Md., where he served as associate director of academic affairs and head of the center's Horn Point Environmental Laboratories. From 1969 to 1979 Taylor was a faculty member at the Rosenstiel School of Marine and Atmospheric Science at the University of Miami, Coral Gables.

"Dr. Taylor is intimately familiar with the Chesapeake Bay and with the problems we face in preserving its natural bounty," said President Paul R. Verkuil. "He also brings to us the advantages of an international scholarly reputation and a keen grasp of the challenges faced worldwide in understanding our coastal and ocean regions. His leadership will ensure that VIMS and our School of Marine Science will further enhance its position as the nation's largest estuarine research facility."

Taylor, 48, received his bachelor's degree from the University of Pennsylvania in 1964 and Ph.D. in zoology from University College of Swansea, University of Wales, United Kingdom, in 1967. He also earned a DSc. degree in zoology in 1977 from the University of Wales.

Taylor's research interests deal with marine phytoplankton, the fundamental components of the marine food chain.

Dennis L. Taylor

An authority on the microbiology of coral reefs, he is widely recognized for his scholarly research on the symbiotic relationships between algae and invertebrate species.

In 1967 Taylor held a NATO post-doctoral fellowship at the Marine Biological Association of the United Kingdom in Plymouth, England, and was a research associate in 1968 at Haskins Laboratories in New York City, now Pace University.

He is the recipient of research grants from the National Science Foundation, the U.S. Navy, the Environmental Protection Agency, Sea Grant, and the U.S. Fish and Wildlife Service. He also has conducted research as part of the Navy's Naval Surface Weapons EMPRESS I and EMPRESS II bioeffects testing, which examines the effects of electromagnetic pulse radiation on aquatic organisms.

In service to educational and government institutions, Taylor has served since 1970 as a proposal reviewer for the National Science Foundation, National Institutes of Health, Environmental Protection Agency, and Energy Research and Development Administration.

Board Approves Naming VIMS Ecology Building For Moses D. Nunnally Jr.

CONTINUED FROM PAGE 1.

incorporate large areas of the Commonwealth's campuses into historic districts. Sam Jones, director of planning and budget, has been appointed by the State Council of Higher Education to chair a committee to review the ramifications of this action.

The Board adopted a resolution establishing the Lawrence W. I'Anson Memorial Scholarship Fund Endowment. Income from the fund will be used to provide scholarship assistance to a William and Mary undergraduate who plans to attend the Marshall-Wythe School of Law. The endowment was established through a bequest from the estate of the

late Judge I'Anson of Portsmouth, who served the Commonwealth and his profession as a Justice of the Virginia Supreme Court of Appeals for 23 years, six of those as its 22nd Chief Justice.

The newly constructed marine vertebrate ecology building at the Virginia Institute of Marine Science was officially designated the Moses D. Nunnally Jr. Hall, in honor of the Moses D. Nunnally Jr. Charitable Trust of Richmond and Mrs. Janet P. Nunnally, spouse of the late Mr. Nunnally, to recognize their commitment to the Campaign for the Fourth Century, which will be used to equip the building and to support the Institute's fish archive operations.

Also approved was a 1991-92 Board of

Visitors private funds budget, consisting of income from the \$17.5 million endowment over which the Board has control. (The remainder of the College's endowment is controlled by the Endowment Association.) The Board is charged with administering endowed and other expendable funds for restricted and unrestricted purposes. Each year the Board authorizes a private funds budget for revenues and expenditures consistent with donor constraints on restricted funds, the Board policy on the spending of endowment income, and projections of unrestricted fund balances and expendable giving. Total expenditures for 1991-92 are \$4,926,908, of which \$2,843,163 will be unrestricted expenditures.

Vice President for University Advancement Edward Allenby reported on the status of private giving to W&M. While cash flow is down over 30 percent from the previous year, the number of donors is steadily increasing, to almost 16,000 this year. Commitments to The Campaign for the Fourth Century also continue to grow, with gifts and commitments total-

ing \$105 million, which is just about on schedule, he said.

Faculty appointments to fill existing vacancies included: Richard S. Lowry, assistant professor of English; Esther Stavrou, assistant professor of education.

Appointments to the administrative and professional faculty included: Charles A. Dombek, associate director of auxiliary services; Mary F. Harris, director of development, School of Business Administration; Daina P. Henry, coordinator of enrollment reporting and analysis; Jeffrey Nygaard, assistant sports information director; Dennis L. Taylor, dean/director, School of Marine Science/Virginia Institute of Marine Science (see story p. 1); and Wanda A. Wallace, associate dean for academic affairs, School of Business Administration (see story below).

The Board also adopted a faculty compensation plan for the current fiscal year. Entry level instructional faculty compensation for 1991-92 is as follows: professor, \$42,000; associate professor, \$36,000; assistant professor, \$23,000; and instructor, \$22,000.

Policy On Consensual Amorous Relations

The following Policy Statement on Consensual Amorous Relations was approved by the Board of Visitors at its June 28 meeting after being reviewed and endorsed by the Faculty Assembly and the Personnel Policy Committee.

Policy

The appearance of a compromising conflict of interest, or of coercion, favoritism or bias in educational or academic evaluation is prejudicial to the interests of the College of William and Mary, its members, and the public interest which it serves. Amorous relations between faculty members and students with whom they also have an academic evaluative role create such an appearance, even where the relationship is genuinely consensual. Such relationships are particularly susceptible to exploitation. The respect and trust accorded a professor by a student, as well as the power exercised by the professor in an academic or evaluative role, make voluntary consent by the student suspect. Even when both parties initially have consented, the development of such a relationship renders both the faculty member and the institution vulnerable to possible later allegations of sexual harassment in light of the significant power differential that exists between faculty and students.

Therefore, faculty members are advised against participating in amorous relationships with students enrolled in their classes or with students who they otherwise evaluate, grade, or supervise. Similarly, faculty members should avoid situations requiring them to evaluate, grade, or supervise students with whom they currently have an amorous relationship. Whenever such a situation arises or is foreseen, the faculty member shall report the situation promptly and seek advice and counsel from an appropriate administrative superior. That superior shall take effective steps to insure unbiased supervision or evaluation of the student.

For purposes of this policy, "faculty" shall include all full- or part-time college personnel who teach or carry out research, including graduate students and administrators with faculty status. Evaluative situations may include, but are not limited to, supervising instruction; evaluating academic performance; or serving on committees for awards, prizes or thesis supervision.

Procedures

Members of the university community who believe themselves to be affected adversely by a violation of this policy may initiate a complaint with the appropriate dean. A complaint alleging that a dean or other academic administrator has violated this policy may be filed with the provost or other appropriate administrative authority. Complaints must be filed within 19 calendar days of the time at which the complainant becomes aware of the adverse effect of an alleged violation of this policy, but not more than four years after the alleged violation.

Failure to comply with the foregoing policy shall be handled in accordance with the provisions for handling allegations of misconduct described in the Faculty Handbook, including the procedural guarantees therein outlined.

June 4, 1991

Auditing Expert Joins Business School

Wanda A. Wallace, The Deborah D. Shelton Systems Professor of Accounting at Texas A&M University and one of the nation's foremost experts on auditing and financial accounting, has been named associate dean for academic affairs at the School of Business Administration.

Wallace's appointment was approved June 28 at a meeting of the College's Board of Visitors.

A member of the Texas A&M faculty since 1985, Wallace currently serves on the editorial board for seven national accounting journals. From 1982 to 1985 she was on the business faculty of Southern Methodist University, where she held The Marilyn R. and Leo F. Corrigan Jr. Trustee Professorship. She was a faculty member of the Graduate School of Management at the University of Rochester from 1978 to 1982.

The author or co-author of numerous books, articles and monographs on auditing and financial accounting, Wallace has served as a consultant and/or conducted research for firms such as Price Waterhouse; Deloitte & Touche; KPMG Peat Marwick; Arthur Andersen & Co.;

DuPont-Conoco; ARCO; and Peterson & Co. Consulting, among others.

She has been the recipient of numerous awards and honors for her work, including the gold medal for receiving the highest total score on the 1981 Certified Internal Auditor Examination, and the 1981 Wildman Gold Medal from the American Accounting Association for her publication, *The Economic Role of the Audit in Free and Regulated Markets*.

In 1988, Wallace was nominated as a representative to serve on a General Accounting Office task force to advise the Comptroller General of the United States on the formation of an Auditing Standards Advisory Council, and was elected president of the task force in 1989. She also has been nominated twice, in 1984 and 1985, for inclusion in the *Esquire Register*, intended to honor outstanding Americans under age 40 who have made significant contributions to their fields of endeavor.

Wallace is a magna cum laude graduate of Texas Christian University, where she also received a master of professional accountancy degree. She received her Ph.D. in accounting from the University of Florida.

IDs Needed For Student Recreation Center

Effective July 15, all faculty, staff and their family members are required to have new identification cards to enter the Student Recreation Center.

New ID cards may be obtained in the Campus Center Atrium (ID Office) 8

a.m. to 5 p.m., Monday through Friday.

All personnel having spouse or adult dependent privilege cards for use at the Rec Center must also have those renewed.

For further information, call ext. 13310.

Hillsdon Ryan Presents Rare Documents On Bicentennial Of U.S. Constitution

"We The People" Portfolio Created In France In 1987

D. Hillsdon Ryan of Geneva, Switzerland, has presented the College with a portfolio of rare documents commemorating the bicentennial of the U.S. Constitution. A native of Petersburg, Ryan is a 1950 graduate of the College.

The portfolio, titled "We the People," was created in France in 1987 and consists of 33 folios. In addition to facsimiles on sheepskin of the Declaration of Independence, the Constitution, and the Bill of Rights, the collection includes facsimiles of other related documents of early America, period engravings, and a color lithographed triptych by contemporary artist Paul Jenkins. Only 250 copies of the portfolio were printed.

According to University Librarian Nancy Marshall, the portfolio represents an important addition to William and Mary's collection of rare books. "The College is fortunate to possess a strong rare books collection," said Marshall. "This is due in no small part to the generosity of friends and alumni like Don Ryan. 'We the People' enhances our collection of limited editions as well as our collection of Americana."

Ryan presented the volume to Hays T. Watkins, rector of the College, at a recent luncheon on campus.

In 1957 Ryan founded Minit International, an international service organization, which is the parent of his present corporation, Ryan Associates.

D. Hillsdon Ryan (left), a native of Petersburg now living in Geneva, Switzerland, presents a folio of rare documents to College of William and Mary Rector Hays T. Watkins. The documents will be housed in the Rare Books and Manuscripts Department of the College's Earl Gregg Swem Library.

Host Families Sought For Japanese Students

Host families are still needed Aug. 9-11 for students from Keio University in Tokyo, Japan, who are participating in an exchange program at William and Mary. The 43 Japanese students will be taking English language classes and seminars on American history, culture and business and staying in the Reves Center with William and Mary students July 26-Aug. 9.

The host family program for the Japanese visitors the weekend of Aug. 9 will serve as a culmination of their American experience, says exchange organizer Tomoko Hamada of the anthropology department. "It's important for Japanese students to see America from a family perspective," she said.

Host families will pick up their students between 4 and 6 p.m. Aug. 9 at the Reves Center, and bring them back to the center for the program's closing ceremony at 9 a.m. Monday, Aug. 12. Many families have already signed up for the program, but Hamada says a few extra students are coming, so more family volunteers are needed.

For more information about hosting a Japanese student or to volunteer, call Hamada at ext. 11060.

Alice Saunders Person

Alice Saunders Person, 90, of Williamsburg, a member of the first coed class that graduated from William and Mary, died June 20 at the Pines Convalescent Center. Miss Person was 90.

She was a charter member of Pi Beta Phi fraternity. For a short time she taught school in Norfolk, Roanoke and at Matthew Whaley School in Williamsburg. She was a lifelong member of the Williamsburg United Methodist Church.

Her father founded Person Motor Car Co. in 1906. She worked in the family business most of her life.

She is survived by a niece, Lucy P. Grandstaff of Richmond; two nephews, William L. Person Jr. of Williamsburg and Waverly G. Person of Carlsbad, Calif.

Charles H. Jimmerson Sr.

Charles H. Jimmerson Sr., 70, retired supervisor of the maintenance department, died June 20 in Williamsburg Community Hospital. He retired in 1984 and was also employed by the Colonial Williamsburg Foundation.

He was a member of Mt. Pleasant Baptist Church and its Men's Chorus. Survivors include three daughters, Harriett J. Banks of Hampton; Arlene J. Tucker of Fort Washington, Md.; and Glenora J. Finley of Radcliff, Ky.; four sons, Charles J. Jimmerson Jr., Warren Jimmerson and Kirmett Jimmerson of Newport News and Quinton Jimmerson of Williamsburg; his mother Pearl Canady Jimmerson of Williamsburg; five sisters, Clara Harris, Thelma Johnson and Mary Owens of Williamsburg, Louise Fowler of Newport News and Margaret Jennings of Hampton; four brothers, John Jimmerson, James Jimmerson, Norman Jimmerson and Raymond Jimmerson of Williamsburg; 18 grandchildren; and six great-grandchildren.

Burial was in Williamsburg Memorial Park.

Muriel M. Quinn

Muriel M. Quinn, 77, widow of John S. Quinn, died Thursday, July 11 in Chambrel.

A native of New York, Mrs. Quinn had been a resident of Williamsburg since 1930.

She is survived by one son, James Quinn of Kent, England, and a grandson, Stephen Quinn of Kent.

A mass was celebrated at St. Bede's Catholic Church by the Rev. George E. Zahn on Monday, July 15. Burial was in Williamsburg Memorial Park.

The family has requested that expressions of sympathy take the form of contributions to the John S. Quinn Faculty Endowment at the College or the York County Rescue Squad, 114 Hubbard Lane, Williamsburg.

Adams Exhibit Opens Aug. 3 At Muscarelle

An exhibit of photographs, "Ansel Adams: The American Wilderness," will open at The Muscarelle Museum of Art Aug. 3.

Organized by the Center for Creative Photography at the University of Arizona, the exhibit includes some of the artist's best-known images, along with rarely seen photographs. The exhibit includes 47 prints and will be on display through Sept. 22.

During his long and prolific career, Adams contributed many enhancements to photographic technology including, among others, the Zone System of exposure, a way of measuring light and converting it into zones to make use of the maximum tonal range of film.

In conjunction with the exhibit, the museum will show a 60-minute video, "Ansel Adams: Photographer" upon request. This absorbing and warmhearted portrait of Adams captures the spirit and artistry of the man as he talks about his life and demonstrates the techniques that have made his work legendary.

Andrea G. Stillman, editor of *Ansel Adams: The American Wilderness*, the definitive volume on Adams' work, around which this exhibit was planned, will present a gallery talk at 3 p.m., Sunday, Sept. 8. Her talk will be followed at 4 p.m. by two films about Adams' work.

Fred Miller, director of Whitehall Gallery, will demonstrate photography techniques used by Adams at 3 p.m., Sunday, Sept. 15. The film, "Photographers of the American Frontier: 1860-1880," which chronicles the work of several important 19th-century frontier photographers, will be shown at 4 p.m.

American Indian Pottery Exhibit

To coincide with the Ansel Adams exhibit, Aug. 3-Sept. 22) the museum has organized an exhibition of American Indian pottery.

The focal point of the exhibition will be 12 pots, primarily from the Southwest, donated by Mr. and Mrs. Benjamin B. Johnson. This collection of earthen ware was created by members of the Mimbres, Sikyatki, Jeddito and Caddopan tribes, among others.

Six pots of Eastern Woodland and Mississippian origins, on loan from the Virginia Department of Historic Resources, will be displayed, along with a selection of contemporary pottery from the local Indian tribes that demonstrates the revival of prehistoric methods as well as current trends in pottery making.

On Aug. 18, Lisa Williams Leek, guest curator, will give a gallery talk at 3 p.m., followed by the film, "My Hands Are the Tools of My Soul," at 4 p.m.

A closing celebration featuring demonstrations of pottery-making techniques and a performance by The River of High Bank Singers and Drummers will be held from 10:30 a.m. to 12:30 p.m., Saturday, Sept. 21.

Christopher Wren Association Ready For Fall Semester

The Christopher Wren Association at the College of William and Mary is beginning its second year and has opened registration for the fall semester. A wide variety of non-credit courses is listed as part of its program of lifelong learning.

For a \$75 membership, members are eligible to register for two six-week or four three-week courses during the semester. Members may also participate in other activities of the association, which include day trips and brown-bag lunch sessions during which state, local national and international issues of the day are discussed informally.

The Association has tapped local resources for its teaching staff, including active and retired faculty of the College

and area residents. All courses are held on campus. Morning and afternoon sessions are scheduled between 9:30 a.m. and 3:30 p.m.

Courses begin Sept. 16 and include readings in modern American poetry; the travels of Marco Polo; writing workshops; explorations in historical archaeology of the James-York peninsula; communication skills and active listening; comparative religions; Williamsburg authors; the operas of Mozart; the Americanization of English; psychology and the public interest; the Middle East; human geography of the Third World; people, places, and future of the Third World; the people and culture of Japan; and United States at the crossroads.

One course on art will include tours of special traveling exhibits by Mark M. Johnson, director of the Muscarelle Museum of Art; Ann C. Madonia, curator; and Merry Higgs, educator. Sessions will also utilize original art works from the permanent collection at the museum.

Some classes are limited in size and will enroll participants on a first-come, first-served basis. The Association will hold an opening convocation for the fall semester at 2 p.m., Sept. 11 in the Wightman Cup Room of William and Mary Hall.

For further information concerning the Association's fall schedule, call ext. 1079.
