WILLIAM & MARY

A WEEKLY NEWSPAPER FOR FACULTY, STUDENTS AND STAFF

NEWS

VOLUME XXI, NUMBER 10 • WEDNESDAY, OCTOBER 30, 1991

REMINDERS

Town & Gown Lunch

On Thursday, Oct. 31, Jim McCord and Dave Kleppinger will speak on the Historic Rivers Land Conservancy at 12:15 p.m. in the Campus Center ballroom.

Caroline Williams will present a Kuwait Art exhibit at the Nov. 7 lunch.

Reservations are necessary and may be made by calling ext. 12640 no later than the Monday before the lunch. There is a \$6 fee.

DANCEVENT

Choreography by the dance faculty will be performed by the modern dance company Orchestis at 8:15 p.m., Friday and Saturday, Nov. 1, 2, in Phi Beta Kappa Memorial Hall. No admission charge.

Covenant Players Broadway Revue

The Covenant Players will present a Broadway Revue at 8:15 p.m., Nov. 1, 2, in Ewell Recital Hall. Admission is \$3 at the door.

Ewell Concert

John Fonville, flutist and composer, will give a concert at 3 p.m., Sunday, Nov. 3 in Ewell Recital Hall as part of the Ewell Concert Series. Tickets are \$2 at the door. William and Mary students with valid ID admitted free.

Last Chance For Ice Cream Sundaes At Ben & Jerry's

Thursday, Oct. 31, is the last day of the benefit sale for Swem Library. Ben & Jerry's is donating 50¢ of every sundae sold in October.

Happy Halloween

Ten Harris Fellows Studying On Campus

Ten graduate students at the College who have received Patricia Robert Harris Fellowships for 1991-92 were honored at a luncheon at the Alumni House on Friday hosted by the Office of the Provost.

Provost Melvyn D. Schiavelli introduced the Fellows and their mentors. In his remarks Schiavelli told the Fellows, "You do us honor by attending the College. I am confident that you will be successful."

The Patricia Roberts Harris Fellowships are awarded by the United States Department of Education to provide support for individuals from underrepresented groups to enter graduate and professional schools.

The largest number of scholarships, six, was awarded in the Arts and Sciences, one continuing and one new fellowship in the Psy.D. program, and new fellowships in American studies, computer science, psychology and physics. The School of Business Administration received two new fellowships and the School of Marine Science was awarded two continuing fellowships.

Of the 587 new fellowships awarded, the College was awarded seven.

"We are delighted to have this support for exceptional graduate students," said Graduate Dean Robert Scholnick. "Our success in this competition reflects not only the high quality of our graduate departments, but also the recognition that William and Mary has put in place

strong programs to recruit and support minority students, and women in disciplines, such as physics and mathematics, where they continue to be underrepresented."

The Patricia Roberts Harris Fellows

have already shown their ability to achieve as outstanding undergraduates.

Bertram Ashe of Richmond is a doctoral candidate in American studies. Ashe

Federal Judges Thank College Hosts

More than 400 federal judges met in Williamsburg, Oct. 20-23, for the Conference for the Federal Judiciary in Honor of the Bicentennial of the Bill of Rights. Hosted by the College's Institute of Bill of Rights Law, it was the largest gathering of federal judges ever held. Judge Adrian G. Duplantier (l.) a member of the committee on the bicentennial, and Judge Damon J. Keith (r.), chairman of the judicial conference committee, offered their thanks to Rodney A. Smolla, director of the institute, and College President Paul R. Verkuil.

Appointments Announced By University Advancement

As part of an administrative reorganization, Martha Hamilton-Phillips has been appointed director of tercentenary events and Cindy Tracy-Bagley has been named director of advancement events.

The reorganization recognizes the growing demands of the tercentenary planning and the development in recent years of a number of advancement and community-related programs, said Edward T. Allenby, vice president for university advancement. Both appointments become effective Nov. 1.

The appointments follow the departure of Anne Pratt as director of advancement programs to take a position with the State Council for Higher Education for Virginia. Pratt's responsibilities at the College included those which are being split between the two new appointees.

Hamilton-Phillips will oversee the College's 300th anniversary celebration in 1993. Her appointment is a full-time position, which will end after the celebration is completed.

From 1987 to 1989, Hamilton-Phillips helped oversee an international symposium as well as concerts, lectures and

other public events to complement "The Age of William III and Mary II," an exhibition commemorating the tercentenary of the Glorious Revolution of 1688.

"William and Mary's tercentenary celebration will be a blend of academic and

cultural events that will display the university's distinctive character. Ms. Hamilton-Phillips' background makes her especially qualified to build upon

CONTINUED ON PAGE 2.

Charge To The Search Committee

The Board of Visitors of The College of William and Mary in Virginia requests that the Search Committee, appointed by the Rector of the College on Oct. 18, 1991, conduct a national search for the 25th president of the College of William and Mary. In this search we request that the Search Committee actively seek nominations from the university community and from other institutions of higher education as well as appropriate national organizations.

Following this national search, the Board directs the Search Committee to recommend to the Board of Visitors not more than three or less than two qualified candidates for the position of president.

This search is to be conducted in accordance with the laws of the Commonwealth and the affirmative action policies of this university.

(Nominations and applications should be forwarded in writing to Harriet E. Reid, secretary, Presidential Search Committee, College of William and Mary, P.O. Box 8795, Williamsburg, VA 23187-8795. Review of applications will begin Dec. 2.)

Did Wilde While Away Any Time Here?

The September 1991 issue of *Notes and Queries* includes a contribution by Professor Terry Meyers titled "Oscar Wilde and Williamsburg, Virginia."

Aging members of the College community will recognize the piece as a condensed version (elaborated with exhaustive new research) to Meyers' tome *Oscar Wilde and Williamsburg: A Study*, which appeared April 1, 1978, as the first title in the "Significant Monograph Series" published by the Society for the Preservation of Nineteenth Century Williamsburg.

The short note takes up once again a question of profound cultural and historical importance: Did Oscar Wilde give a lecture in Williamsburg when he passed through Virginia on his 1882 tour of America?

Meyers thought he had answered the questions definitely in 1978 (no, he ar-

gued, Wilde did not), only to discover that two scholars subsequently had the temerity to assert the contrary: Richard Ellmann in his biography of Oscar Wilde (1988), and a German scholar, Horst Schroeder, who published a compendium of errors in Ellmann.

Abandoning his earlier arguments that Wilde did not even pass through Williamsburg (the railways from Norfolk to Richmond being on the other side of the James); that, in any case, the College was apparently closed in 1882; and that eminent Victorian authors seem to have earnestly avoided coming to Williamsburg, Meyers this time is reduced to arguing that Ellmann and Schroeder have confused Williamsburg with Williamsburg, N.Y.

In a footnote, Meyers creates and then neatly sidesteps a controversy about whether Wilde ever spoke in Charlottesville, as Ellmann suggests.

Mortar Board Gift To Avalon

Mortar Board recently raised over \$300 for service and leadership projects over the course of the academic year and made a \$156 contribution to the Avalon Shelter for Battered Women and Children.

Mortar Board members sold raffle tickets and offered several prizes including dinner for two at Sakura Japanese restaurant, a \$30 gift certificate for the Downtown Short Stop Cafe, and a \$25 gift certificate for the Trellis restaurant.

Pictured above is the presentation of the check to an Avalon representative by Mortar Board officers (l-r): Billy Baxter, treasurer; Michael Troilo, president; Sandy Owens, family services coordinator, Avalon; Thu Le, vice president; Amanda Allen, historian; Tonia Farmer, elections committee. Not pictured is Stephanie Silverman, Mortar Board secretary.

300 Expected At Mandala Conference

Over 300 educators are expected to attend a conference, "Creating Positive Futures for At-Risk Gifted Learners," which will be held at the Hospitality House on Friday, Nov. 1.

This conference is sponsored by Project Mandala in the School of Education. The program was established in 1990 with a federally-funded Jacob Javits award. Project Mandala is a research and demonstration project designed to identify and serve special populations of gifted learners. James Patton serves as director of Project Mandala; the coordinator is Joy Baytops.

The luncheon address will be given by Mary Frasier, associate professor and principal investigator at the National

Research Grant on Gifted and Talented, University of Georgia. Joyce vanTassel-Baska, Jody and Layton Smith Professor of Education, will present a session on "Designing A Curriculum That Works for At-Risk Gifted Learners." The keynote speaker will be Harry Passow, Jacob Schiff Professor of Education at Teachers College, Columbia University.

Several members of the School of Education faculty and staff will serve as presenters including Mary Landrum, Thomas Ward, Sandy Ward, George Bass, Susan Lee, Vicki Damiani and Kathy Evans.

For additional information on the conference, call the Project Mandala office at ext. 14813.

Physics Colloquia In November

The following physics colloquia have been scheduled for November.

Nov. 1 – Anders Carlsson, Washington University, St. Louis. "Electron States in Quasicrystals."

Nov. 8 – Doug Kirkpatrick, Scientific Applications International Corp., "Microstructure Material: Design, Fabrication and Application."

Nov. 15 – Robert Tycko, AT&T Bell Laboratories, "Solid State Dynamics and Electronic Properties of Pure and Doped C₆₀"

Nov. 22 – Matt Visser, Washington University, St. Louis, "Wormholes."

Colloquia are held in William Small 109, Friday afternoons at 4 p.m. Coffee is served at 3:30 p.m. in the conference room, Small 123.

Departments

VIMS/SMS

Professor **Robert Huggett** presented a seminar "Environmental Chemistry—Present and Future," to the first national conference of the Society of Environmental Journalists in Boulder, Colo., Oct. 4.

Marshall-Wythe School of Law

"Bank Liability for Fiduciary Fraud," by Professor **Peter Alces** has been published in 42 *Alabama Law Review* 551.

School of Education

Louis P. Messier, associate professor, co-presented with **Thomas Ward**, assistant professor, a paper at the first conference on the Commonwealth Institute for Child and Family Studies in Virginia Beach, Oct. 7-9. The paper concerned findings from a study of the prevalence of intellectually gifted and psychologically depressed adolescents in secure detention and learning centers and comparisons of described self and families of delinquent and non-delinquent high school-aged peers.

Also at the conference, Professor **Roger Ries** conducted a seminar on the moral development of gifted adolescents. Ries was assisted in his preparation for the seminar by **George Bass**, associate professor.

William Losito, Heritage Professor of Education, wrote an essay review titled "Seating Religious Thought at the Educational Roundtable" for the summer volume of *Educational Studies*. Losito also presented a paper titled "Education as Hospitality: A Reclamation of Cultural Metaphor and Narrative" at the South Atlantic Philosophy of Education Society convention at Furman University in Greenville, S.C., Oct. 4-5.

Professor **John F. Lavach**, co-presented two papers at the national Cognitive Rehabilitation and Community Integration program in Virginia Beach in September. The papers were titled "Attention, Reaction Time Training, and Prognosis for Functional Outcome in Head Injured Adults" and "Computerized Assessment of Visual Information Processing Dysfunction."

Recent Grants

Anthropology Archaeological Project Center

Blanton, Dennis B., co-director/research, and **Donald W. Linebaugh**, co-director/administration, "Phase II Archaeological Evaluation of Site 44AM66, Route 153, Amelia County, Va." Virginia Department of Transportation, \$13,981

Blanton, Dennis B., co-director/research, and **Donald W. Linebaugh**, co-

director/administration, "Phase III Documentation of the Route 600 Bridge Over Back Creek, Pulaski County, Va." Virginia Department of Transportation, \$4,316

Blanton, Dennis B., co-director/research, and **Donald W. Linebaugh**, co-director/administration, "Phase II Archaeological Evaluation of Site 44NB196, Route 360, Northumberland County," Virginia Department of Transportation, \$18,515.

Biology

Byrd, Mitchell A., professor, "Non-game and Endangered Species Investigations," Virginia Department of Game and Inland Fisheries, \$10,000.

Chemistry

Kranbuehl, David E., professor, "In-Situ Monitoring and Computer Modeling of Polymer Properties," National Science Foundation, \$15,315.

Psychology

Rohrbaugh, Michael Jr., professor, and **Neill P. Watson**, associate professor, "Practicum in Family Therapy," Williamsburg-James City County Public Schools, \$5,500.

School of Education

Landrum, Mary S., assistant professor, "Resource Consultation: A Model for Training Regular Education, Gifted Education, and Support Staff for the Education of At-Risk Gifted Learners," Appalachia Educational Laboratory, Inc., \$1,085.

Tracy-Bagley has been manager of special events at the College since January 1987. Hers is a permanent appointment, which includes oversight responsibility for community and special events and constituent relations.

Tracy-Bagley is a graduate of Virginia Commonwealth University.

"The College is host to a number of special activities throughout the year which enrich the lives of those on campus and in the neighboring community. Having someone with Ms. Tracy-Bagley's abilities directing these operations will significantly enhance these activities," said Allenby.

Patton, James M., associate dean, "Jacob K. Javits Gifted and Talented Students Research and Demonstration Project," U.S. Department of Education, \$326,087.

VIMS/School of Marine Science

Hale, Robert C., assistant professor, and **Michael S. Unger**, assistant research scientist, "Examination of effluents, aquatic sediments and organisms for toxic organic pollutants from industrial, municipal and governmental facilities around Virginia," Virginia Water Control Board, \$107,840.

Hale, Robert C., assistant professor, "Analysis of water and soil samples for polychlorinated terphenyls and biphenyls," National Aeronautics and Space Administration, \$8,700; EBASCO Services, Inc., \$12,900.

Chu, Fu-Lin, associate professor, and **Robert C. Hale**, assistant professor, "Relationship of pollutants to the onset of disease in the eastern oyster, *Crassostrea virginica*," Chesapeake Bay Environmental Effects Studies Toxic Research Program, \$75,255.

Ash Lawn-Highland

Holmes, Carolyn C., executive director, and **Daniel Preston**, historian, "James Monroe and His Times: A Reassessment," Virginia Foundation for the Humanities and Public Policy, \$4,325.

NOTES

WHRO-TV To Show Film Shot at VIMS/SMS

The Virginia Institute of Marine Science/School of Marine Science at Gloucester Point was one of the locales for the filming of "Land of the Eagles," the latest in the "Nature Series," presented by National Public Television. The film will be shown Sunday, Nov. 24 through Wednesday, Nov. 27 at 8 p.m. each evening on WHRO-TV.

Over the past 10 years, "Nature" has traveled to every corner of the globe. Three years ago the series came to Hampton Roads. A film crew for the British Broadcasting Corporation shot wildlife footage at the Virginia Living Museum in Norfolk and at Gloucester Point.

VIMS was selected as a cooperating organization because of its previous work with "Nature's" natural history unit. For "Land of the Eagles," BBC technicians and photographers worked with VIMS scientists to set up a specially constructed aquarium in order to film blue crabs mating in a realistic representation of a Chesapeake Bay habitat.

Writing Center Workshop

The Writing Resources Center, located in Tucker 115A, will be offering a Research Paper workshop at 7 p.m., Tuesday, Nov. 5.

The workshop is free.

Interested students should sign up for the workshop by either calling the Center at ext. 13925 or visiting the Center during regular hours. Attendance will be limited to 12 students.

Juniors Invited To Leadership Conference

Junior students are invited to submit applications for consideration for the Prudential Future Leaders Conference Feb. 24, 25 at the Parsippany, N.J. Hilton and in the Prudential Corporation Office in Newark, N.J.

Deadline for submission of applications is 5 p.m., Thursday, Nov. 7 in Blow Hall 134.

Two juniors will be selected and their names forwarded to Prudential. All applicants will be notified of their status.

This is an all-expense-paid trip. Applications are available in the Office of Pam Garrette, Blow Hall 133.

'Career Networking' Set Up In Blow Hall

The Office of Career Services is offering "Career Networking," an on-line nationwide service linking college career services offices with employers and other colleges. It is operated by College Employment Association, Inc., a non-profit corporation based in Indianapolis, and PRODIGY Business Services, a partnership of IBM and Sears.

Career Networking supplies current information about job opportunities; registration information for college job fairs, career days and professional events; and offers current employer and job-market information to assist in preparation for off-campus job interviews for graduating seniors and alumni.

The office was selected to participate in Career Networking and the software has been installed on a computer in the Career Library.

Students and alumni are invited to make use of this job search tool. At this time no appointment is necessary to sign-on. Simply see the librarian. The library is open from 8 a.m. to 7 p.m., Monday through Friday.

Jazz Ensemble To Give Concert Thursday, Nov. 7

The music made famous by such musical giants as Duke Ellington and Count Basie will be featured in the program of the William and Mary Jazz Ensemble with Laura Rexroth conducting, at 8 p.m., Thursday, Nov. 7 in Phi Beta Kappa Memorial Hall.

Admission is \$2 at the door. Block seating may be arranged for groups of 10 or more. For information call Laura Rexroth at ext. 11086.

Cashin Will Speak Nov. 7 At Commonwealth Seminar

Joan E. Cashin, assistant professor of history, Rutgers University at Camden, will give a seminar on "Writing the History of White Southern Women: The Life of Varina Howell Davis," at 5 p.m., Thursday Nov. 7 in the Botetourt Theatre of Swem Library. *Please note the change in location.*

This seminar is sponsored by the Commonwealth Center for the Study of American Culture.

Some of the general issues currently being debated by historians about Southern women will be included in the seminar, but Dr. Cashin's presentation will focus on research she has conducted for

her forthcoming biography of Davis, wife of Jefferson Davis.

Dr. Cashin is also the author of *A Family Venture: Men and Women on the Southern Frontier* (Oxford University Press, 1991), and "Our Common Affairs: Documents in the History of Antebellum Southern Women," University Press of Virginia, 1993.

Nel Noddings To Give School Of Education Lecture

Nel Noddings, professor of educational philosophy and associate dean of the School of Education at Stanford University, will give the 1991 School of Education Alumni and Friends Distinguished Lecture.

Professor Noddings will speak on "The Challenge to Care in Schools," at 7:30 p.m., Monday, Nov. 11, in the Dodge Room of Phi Beta Kappa Memorial Hall. There will be a reception following the program.

The public is invited to both the lecture and the reception.

Noddings is an eminent scholar whose special interest is the relationships among moral education, caring and the education of children. During her first two decades in education, she worked in public schools in New Jersey.

She received her doctorate in educational philosophy and theory at Stanford University in 1973 and taught at Penn State University and the University of Chicago before joining the Stanford faculty in 1977. Noddings is president of the Philosophy of Education Society and serves on the executive board of the John Dewey Society.

Noddings has lectured extensively and is the author of *Caring: A Feminine Approach to Ethics and Moral Education*, 1983. She has written numerous related articles for scholarly journals including the *Harvard Educational Review*, the *Journal of Moral Education*, *Ethics in Education*, and *Educational Theory*.

Her most recent book, *Stories Lives Tell: Narrative and Dialogue in Education*, co-authored with Carol Witherell of Lewis & Clark College was published this year.

Soloists Rehearse For Tuesday Concert

Above, Susan Straight, at the piano, and Kerry Deal, Betsy Torresson, James Pennington and Barbara Bell will be soloists with the William and Mary Orchestra under the direction of Joel Suben in a concert at 8:15 p.m. Nov. 5 in Phi Beta Kappa Memorial Hall. The singers will participate in scenes from "The Magic Flute" by Mozart.

At right is Christopher Goodbeer who will sing the role of Monostatos.

General admission tickets are \$3 and may be reserved by calling ext. 11089. They may also be purchased at the PBK box office one-half hour before the performance. William and Mary students will be admitted free with valid ID.

Environmentalism From United Nations To Speak Nov. 19 In Andrews

Noel J. Brown, regional director of the United Nations Environment Programme, will speak on "Environmental Concerns of the Arctic: Art is the Window of a Culture," at 7:30 p.m., Tuesday, Nov. 19 in Newman Auditorium, Andrews 101.

This lecture is being sponsored by the Muscarelle Museum of Art and is open to the public. The audience is invited to

meet the speaker and the noted Inuit artist, Kananginak, at an informal reception at the Muscarelle Museum following the lecture.

As the environmental conscience of the United Nations, UNEP, Brown coordinates the environmental activities of all the UN agencies and works to win the cooperation and participation of governments, the international scientific and

professional communities, and non-governmental organizations.

A native of Jamaica, Brown received his Ph.D. in international law from Yale University and holds a diploma from The Hague Academy of International Law. He has had an extended career with various agencies of the UN before being appointed to his present position.

Four Retirees Cited For Years Of Service To The College

The following citations by the Board of Visitors were read into the minutes of its meeting here earlier this month.

Rudolf H. Bieri

Rudolf H. Bieri has been a conscientious scientist and productive faculty member of the School of Marine Science and the Virginia Institute of Marine Science for 19 years. During that period he has been one of the principal architects of the School's and Institute's internationally recognized environmental chemistry analytical facilities.

Professor Bieri's exceptional understanding of the basic physics and chemistry supporting modern analytical techniques and his patience and meticulous attention to detail has established a standard for chemical analysis that few oceanographic and marine research institutions are able to match. His pioneering work on noble gases in the oceans, and on the distribution and fate of complex organic chemicals in coastal and estuarine waters, are a contribution in which he can take justifiable pride. He is a true scholar, conscientious teacher and helpful colleague.

William J. Hargis, Jr.

William J. Hargis, Jr., has completed 36 years of most distinguished service to the College, the Commonwealth and the

nation. After receiving his doctorate from Florida State University in 1954, he joined the staff of the College's Virginia Fisheries Laboratory. In 1959 he was appointed director of the laboratory, and in 1962 he became the first Dean of the School of Marine Science and Director of the Virginia Institute of Marine Science, a joint appointment held until 1981.

The Virginia Fisheries Laboratory, founded in 1940 through the vision of Professor Donald W. Davis, was to provide research and education in fisheries science, and to provide advisory service to resource managers and the fishing industry. Professor Hargis, during his tenure as Director and Dean, transformed those early dreams to a full functional reality. Under his leadership, the institution gained in national and international stature as a leading coastal ocean laboratory with a broad range of research programs and advisory activities addressing all segments of the state's maritime economy.

Convinced of the importance of estuarine and coastal science, Professor Hargis was instrumental in shaping the national and international agendas in these areas. Through appointments such as the chair of the National Advisory Committee on Oceans and Atmosphere, he guided the development of national programs now addressing the coastal ocean. He has truly been a pioneer in bringing focus to the issues associated

with a growing human population on the fringes of the world's oceans.

J. Ernest Warinner

J. Ernest Warinner has been a conscientious and productive scientist and faculty member of the School of Marine Science and The Virginia Institute of Marine Science for 28 years. During that period he has contributed to our understanding of a wide range of phenomena and processes at work in Virginia's coastal waters ranging from thermal effects of power plants to effects of toxic materials on the immune response of fishes.

Professor Warinner's major legacy is the many students he has introduced to the intricacies of radioactivity as a research tool. In the 20 years of his teaching radiobiology and associated laboratory techniques, he has worked personally with a large percentage of the graduates of the School of Marine Science. His meticulous attention to laboratory protocol and his insistence that students fully understand both the theory and practice before applying new analytical techniques has been an important factor in the high quality of School of Marine Science graduates.

Mildred Barrett West

Mildred Barrett West, professor of kinesiology and associate athletic director,

has completed 32 years of continuous and distinguished service in intercollegiate athletics and the department of kinesiology.

A person of remarkable drive, energy and vision, Millie West's efforts have left a legacy of important accomplishments, not only in intercollegiate athletics, but in community service and physical education as well. The first coach of the women's swimming team, she also achieved unparalleled success as a nationally known tennis coach and chair of the kinesiology department.

After becoming Director of Women's Athletics in 1969, she single-handedly built that program into one of national stature. William and Mary has served as a model and inspiration for other intercollegiate women's athletic programs across the Commonwealth and country. Along the way she has earned a national reputation as one of the primary administrators and spokespersons for women's sports in America.

Her creativity and leadership skills brought the Wightman Cup, LPGA, PRO-AM, and other nationally recognized sporting events to Williamsburg and the College. These events and other development efforts have created an endowment to guarantee excellence in women's athletics at William and Mary for years to come. Her leadership on campus has helped to improve the climate for all women at William and Mary.

Zamora Comments On 1992 Election In The Philippines After Visit To Islands

The 1992 Presidential Elections

The Filipino electorate will be electing a new president in May 1992 to succeed President Corazon C. Aquino whose term expires next year. Under the 1987 constitution she cannot run for election.

The major and minor political parties are in the process of nominating their presidential candidates. Among the prominent figures vying for nomination are General Fidel Ramos (Aquino's loyal former Defense Secretary) and Speaker of the House Ramon Mitra. Both belong to the majority part (Lapiang Demokratikong Pilipino).

William and Mary's former Gandhi Freedom Lecturer Senate President Jovito Salonga of the Liberal Party is also running. The Nacionalista Party has three strong contenders: Vice President Salvador Laurel, Senator Juan Ponce Enrile (former Marcos and Aquino defense minister), and Eduardo Cojuangco, a former Marcos crony and wealthy businessman.

Three other presidential aspirants are: Miriam Defensor-Santiago, Senator Joseph Estrada and Senator Aquilino

Pimentel. Santiago was Aquino's former Customs Graft Buster/Commissioner and Agrarian Minister. She consistently tops the polls among the candidates. Estrada is a popular movie star and former mayor of San Juan, Rizal. Pimentel was formerly Mayor of Cagayan De Oro City in Mindanao.

Most of the political parties claim to represent clean and honest government, sound social and economic politics and nationalist-internationalist outlook in foreign policies. Senators Salonga, Estrada and Pimentel are well-known nationalists. The rest are pro-U.S.

The U.S. Bases Issue

The issue of the U.S. Bases in The Philippines has been prominently featured in the U.S. media. Clark Air Force Base was destroyed by Mt. Pinatubo so that the object of negotiation was Subic Bay, a prized shipyard for U.S. forces in Asia.

The treaty of friendship, cooperation and security signed by Foreign Secretary Raul Manglapus of The Philippines and Richard Armitage, U.S. Ambassador to The Philippines, was rejected by the Phil-

ippine Senate, despite President Aquino's serious efforts to rally Filipinos to support the ratification of the treaty.

Aquino suggested a national referendum to overturn the Senate's rejection but she was later prevailed upon to compromise: a three-year withdrawal of U.S. forces from Subic, rent-free. The future of Subic, however, will depend on the new president and the Senate to be elected in 1992. The pro-bases Filipinos led by Aquino believe it is in the economic interest of the Philippines to remain in the bases. The anti-bases forces wish to end, once and for all, American colonialism in the country.

Imelda Marcos' Return

Another controversial issue is Imelda Marcos' return to the Philippines from the U.S.A. The former First Lady, and her children Imee, Irene, and Ferdinand Jr., will have to face various charges in court, including tax evasion. The New York Consul General Rodolfo Arizala issued a one-way visa to Mrs. Marcos who plans to go home on Nov. 4.

President Aquino has also allowed former President Marcos' remains to be

buried in Ilocos Norte, his home province. Imelda Marcos wants her husband to be buried in Manila, a plan turned down by President Aquino.

The Mt. Pinatubo Disaster

Mt. Pinatubo, a dormant volcano for some 600 years, suddenly erupted in June, causing the loss of hundreds of lives and damage in property in the provinces of Zambales, Pampanga and Tarlac in central Luzon.

On my way home to Tarlac, by way of Pampanga (the home of Clark Air Force Base), I saw destroyed buildings, roads, bridges and crops and untold misery evident on the faces of Mt. Pinatubo victims. I visited a relocation camp of displaced Negritos in one village of San Clemente, Tarlac. These Negritos previously lived in my hometown of Capas and in Bamban. I was appalled at the sight of makeshift tents for some 700 Negrito families. The government has mobilized its limited resources and personnel to assist these Negritos as well as all the other Filipino victims of Mt. Pinatubo.

list of tutors, the program doesn't recruit tutors by the number of their degrees. The program works, Cruikshank explains, because of a one-on-one buddy

system that teams someone who wants to learn with someone who is willing to help.

From President Verkuil

On Monday, Oct. 21, the College officially launched its campaign in support of the Combined Virginia Campaign. Through this annual fundraising activity, State employees have an opportunity to support a wide range of volunteer human service agencies including those of the Williamsburg United Way. The Campaign Steering Committee for the Combined Virginia Campaign at William and Mary this year has established a campus goal of \$50,000. In order to meet this goal, I urge each of you to contribute. While individual ability to give varies, it is important to show support for our community through maximum participation.

When a coordinator from the College contacts you, please give what you can. Your gifts can make the Williamsburg area a better place in which to work and live.

Association of 1775 Holds First Homecoming Program

Gift To Society Of The Alumni Caps Successful Homecoming

by Virginia Collins
Dir. Alumni Communications

New memories were created and old ones revived for thousands of alumni who returned to campus for Homecoming 1991. For the third year in a row, sunny skies prevailed, adding even more warmth and brilliance to the weekend's theme, "Solid Gold Memories."

The drenching rains of Thursday tapered off in time for the weekend's traditional beginning—the Order of the White Jacket's dinner in Trinkle Hall. In addition to other business, the group of former food service workers awarded \$1,500 scholarships to the following students: Russell Adams Anthony '92; Sean Craig Bilby '93; Aaron Seth Frank '93; Cuong Tan Huynh '93; Bonnie Sue Marie '93; Cynthia Marie Mazza '92; Maureen Leslie Peed '93; Walter Harrison Preston '94; Stephanie Anne Morse '92; William Robert Swartz '93; and John Mark Wallingford '92 M.B.A.

On Saturday, alumni, students and local residents lined Duke of Gloucester St. and Richmond Rd. to view the annual Homecoming parade, which included more than 60 student and alumni units. First place in the floats category went to Phi Mu sorority and Psi Upsilon fraternity for their entry, "We've Got the Solid Gold Touch." They will receive \$500 and an inscription on the Lambert Cup. The Class of 1946 won second place and \$350 for their "Golden Girls" float. Third place and \$250 went to Delta Gamma sorority for "Solid Gold Memories."

Winners in the bands category included Salem Junior High School of Virginia Beach, first place; Mathews High School, second place; and Berkeley Middle School of Williamsburg, third place.

Throughout the weekend, the Alumni House was a center of activity where

alumni and friends gathered. In the registration tent on the front lawn, sign-up boards attracted the attention of alumni looking for returning classmates and friends. On Saturday, more than 1,000 people gathered for the ever-popular luncheon on the lawn prior to the football game.

A standing-room-only crowd filled Zable Stadium to witness the Tribe's 24-17 victory over The Citadel Bulldogs. Despite a malfunctioning public address system, the cheers of Tribe fans chronicled the winning score and half-time festivities went on as planned. This year's homecoming representatives were: seniors, Kimberly Leann Cathey, Sterling, Va., and Earl Thomas Granger III, Richmond; juniors, Erin Elizabeth Flaherty, Catharpin, Va., and Joseph Ray Price, Norfolk; sophomores, Marisa Lee Creal and Andrew Justin Zawacki, both of Warren Pa.; freshmen, Katherine Ann Otis, Great Falls, Va., and Mark Dennis Dix, Vienna, Va.

Following the game, alumni, family members and friends celebrated the Tribe's victory at the fourth annual Post-Game Tailgater on the Alumni House lawn. A record crowd of approximately 800 people attended.

Class dinners, breakfasts and parties filled the weekend for those celebrating reunions this year. In addition, the Association of 1775, a newly formed group of alumni who have served or are currently serving in the military, as well as former ROTC cadets at the College, joined for a traditional mess hall breakfast on Saturday morning before the parade. Based on this year's successful turnout, the event is slated to become part of the annual Homecoming schedule.

The Class of 1966 began its 25th reunion celebration on Thursday evening with the opening of the weekend hospi-

John Entwisle, president of the Society of the Alumni, holds the presentation check from the Class of 1966. With him (l-r) are class agents Pat and Margaret Walsh of Pennington, N.J., and President and Mrs. Verkuil.

Pictures by Viscom/Gleason.

tality suite. Special activities on Friday included a campus bus tour, lunch on the Alumni House patio and a panel discussion with student leaders and John Randolph, director of athletics, and Ken Smith, associate vice president for student affairs.

The highlight of the weekend came on Saturday evening when 1966 class members joined for dinner and dancing in Trinkle Hall preceded by a reception in the Great Hall of the Wren Building. At this time, the class presented its 25th reunion gift—a commitment of \$250,000 to be used for strengthening the class reunion programs for the Society of the Alumni. Appropriately enough, while class members savored the "solid gold memories" of their long association with William and Mary, they took pride in contributing to the lasting memories of future reunion programs.

T.C. Clarke

Alumna Spends Eventful Year Of Service At Honduran Orphanage

An interesting story often begins with a conversation with a friend of a friend. This is how we heard that Therese Tracy '90 returned this fall from an extraordinary year in Honduras. Ed.

Like many classmates, she was not sure what career path to take after graduation, but was certain that she did not

them into prostitution, alcoholism and crime. Undernourished children and babies dying from malnutrition were a common sight. To say the least, life in El Progreso was quite different from Williamsburg.

One of Tracy's projects was to build a chicken coop so that the children could learn responsibility through caring for the animals and gain protein from the eggs. The children worked with Therese to make bookmarkers to sell at the local schools. With the profits they purchased 13 chickens and seven ducks, and the children themselves built the coop.

She also began a small library of children's books with the help of her friends at the College. Her friends on campus, who received her letters, sent down contributions which bought 45 books for the orphanage and chicken wire for the coop.

Working with the women of the area, she established a small spice cooperative. The women ground and packaged spices to be sold at the local corner stores and divided the profits among them. The spice cooperative closed when Therese left, and she admits that she wonders if the children are caring for the chickens and ducks. But she looks back on her year with a sense of accomplishment.

"In school you are in a protected environment... the only consequence of your work is a grade on a report card. For the first time I felt the responsibility of my actions—to bring an income to a mother, take a child off the street. ... I was effecting change, I wasn't just turning in a paper. When you see your ideas in action, you realize that you have become a responsible member of society, not a child to be taken care of."

In one of her letters to her friends she wrote: "I've been reflecting over this year and there is one thought that gnaws at

my stomach. It is guilt. I think most one-to-two-year social workers must feel the same sensation. When you are working in an underdeveloped country, you come across so many people who are giving 10, 20 years, even their lives to helping these people. I'm only out here for a year, and I'm not a saint. I don't want to stay here any longer. In my head I can hear my spoiled brat voice crying, 'I want to go home.' At the same time I feel as though I've cheated the people. ... I've been taking while I have been here.

"The cultural experience, the jolt, the people, and the observations all force you to grow and you wonder what you really did for them. ... People openly (and wrongfully) give compliments to those who go abroad for a year or two but let me assure you it is quite a selfish experience. You benefit more than you benefit others."

Although she is currently working to find a job as a research assistant with a Washington "think tank" Tracy is still thinking of ways to continue helping the people in El Progreso, Honduras. She is

trying to get funding to begin another women's cooperative that would export to the United States hand-carved mahogany crafts.

She encourages alumni of any age to take some time off from the rat race and educate themselves about the status of the poor. But most important, she stresses that a year abroad or Saturdays in a soup

Gaspar, 14, rescued from the street.

kitchen shouldn't be seen as a type of "soul-cleansing" after which one returns to the grind. "The simple responsibility to care for other members of society is a day-to-day obligation, never extraordinary."

College Seeking To Raise \$50,000 For CVC

Adult Skills Program Demonstrates Local CVC Funds In Action

Want to see Combined Virginia Campaign dollars at work? Take a walk on campus.

On a university campus learning comes in many different forms. There are lectures, seminars, laboratory sessions, discussion groups and, in the basement of Bryan Residence Hall, the Rita Welsh Adult Skills Program provides one-on-one tutoring in a model program of adult education.

While initially established to enable College employees to improve their basic level of written and verbal communication, the program has developed into an "international" one.

There are currently about 300 students and tutors involved. The adult students vary in age from teenagers to senior citizens and in skill level from non-readers to foreign graduate students who are highly skilled in their disciplines but have trouble ordering an American deli

sandwich.

The College provides the program with a home, but staffing and materials must come from donations. All materials are provided without charge. Part of the value of the program, says Director Nan Cruikshank, is in not having to pay. "We could have a sliding scale, but where would we start with many unable to pay at all? About 40 students enrolled are currently working toward their GED (high school equivalency certificate), which has become almost an imperative for those without a high school diploma in today's tight economy.

"But it doesn't matter where you start," adds Cruikshank. "What's important is that people who come feel so good about expanding their minds they aren't going to stop; they'll do it forever. It's the start of lifelong learning. We're not just teaching; we want to inspire." Although many professional teachers are included in the

Harris Fellows Amassed Impressive Credits As Undergrads

CONTINUED FROM PAGE 1.

received a bachelor's degree in communication studies from San Jose State University and an M.A. in English at VCU.

He is concentrating in Afro-American literature and presented a paper on "One Nation Under a Groove: The Black Nationalist Rhetoric of Parliament/Funkadelic" at the Popular Culture Association in the South held in Norfolk, Oct. 3-5. He will give another paper, "Everyday Use: Alice Walker's Colorful Story-Quilt," at the Southern Conference on Afro-American Studies in St. Petersburg, Fla., in February.

Ashe lives in Richmond with his wife and infant daughter, Jordan. He has been a teaching assistant at Virginia Commonwealth University and is planning a career in teaching at the university level.

Adolph Brown '91 W&M, is working toward a master's degree in a pre-doctoral program in psychology. He graduated with a double major in psychology and anthropology.

A native of Virginia Beach and a graduate of Green Run High School, Brown received All Eastern Athletic honors as a member of the track team and was 1988-89 Virginia Collegiate State Pole Vault Champion. He holds the freshman record at 16'1".

Brown is currently working at Eastern State Hospital as a co-facilitator for several group therapy programs on substance abuse and social skills. He also manages a therapy group on anger management.

He plans to write his thesis on attitudinal issues toward homosexuals as these issues impact on AIDS.

Brown and his wife are the parents of an infant daughter, Leah Adolpha.

Lesajean Jennings, '91, Hampton University, received her bachelor's in psychology. A native of Houston, Texas, she plans to work in adolescent and family therapy and would like to teach at the college level and to write about psychology in layman's terms.

She is a member of the Association of Black psychologists and, as an undergraduate, was a peer counselor and Sunday school teacher.

Currently doing a practicum at Pines Treatment Center for Adolescents in Portsmouth, Ms. Jennings is researching cultural diversity issues with Dr. Joy Kinnarkat at Norfolk State.

Richard Seeley, an MBA student, is a 1987 graduate of Hampton University, with a B.S. in finance. He has worked in business for himself in a public relations company and also as a sales representative. Before he joined the MBA program, he was employed as an underwriter for Blue Cross/Blue Shield in Washington, D.C.

Kelly Doty, a graduate of Wagner College in New York City, is pursuing a doctorate in physics. With a special interest in particle theory, she plans to teach at the university level.

A jazz vocalist in high school and college, Doty laments that so far she has found little time for her music. She is also an avid reader.

Angela Smith, a 1991 graduate of Norfolk State University, began her graduate studies toward a master of arts degree in marine science in September.

In 1990, she participated in the VIMS/SMS research program as a summer intern in a Research Experience for Undergraduates (REU) minority program funded by the National Science Foundation and conducted at the Gloucester Point campus.

Smith's work involved a study of the effects of light quality on estuarine cyanobacteria, which was performed in conjunction with Professors Larry Haas and Ken Webb of the VIMS/SMS faculty.

While an undergraduate student at Norfolk State, her research led to published work on "Commercial and residential poisoning with Anticholinesterases."

She is a member of Sigma Xi and the American Society of Limnology and Oceanography.

Roderick Buck, a Hampton University graduate, was admitted to the master's degree program in marine science in 1989. He is currently in his third year as a PRH Fellow.

In 1987 he participated in the VIMS/SMS research program as a summer in-

tern in a minority program funded by the Exxon Corporation.

He has completed a major portion of the program's course requirements and is currently working on his thesis with Jon Lucy, instructor in marine science.

Lisa Rusu, who is pursuing an MBA degree, grew up in Florida and received a B.B.A. degree from Florida International University in Miami in 1985. Her first job out of college was as an analyst for a Miami company, Techton. She spent three years as a financial analyst for the City of San Diego. While there she was active as a counselor for at-risk youths through the Youth and Community Services office.

Rusu is planning a career in international business.

Michelle Boomer, who is in the master's program in computer science, is a 1991 graduate of Norfolk State University.

A native of Portsmouth, Boomer is looking forward to a career in college teaching. She got her first taste of teaching as an intern in the data processing unit of the City of Chesapeake. She first

encountered computers as a student at I. C. Norcum High School.

Boomer spent two summers as an intern at the National Institute of Standards and Technology in Gaithersburg, Md., and has also been an intern at AT&T Bell Laboratories in Naperville, Ill., and NASA-Lewis Research Center in Cleveland, Ohio.

Lisa Foster, currently working in the Psy.D. program, is a 1988 graduate of the College of Holy Cross, Worcester, Mass., where she majored in psychology/sociology.

A native of Rockland, Mass., Foster was the recipient of a Martin Luther King Jr. Scholarship in 1984.

A nationally ranked NCAA division athlete in the shotput and hammer, she was named the Outstanding Woman Athlete at Holy Cross in 1988.

Following graduation, she worked as a research assistant and later a mental health worker at Brookside Hospital in Boston. In 1990 Foster became a counselor at the Crisis Intervention Project at Charles River Hospital, an affiliate of the Boston University School of Medicine.

Harris Fellows pictured at the luncheon (l-r) Richard Seeley, Adolph Brown III, Angela Smith, Roderick Buck, Lisa Ruzu, Bertram Ashe, Michelle Boomer and Lesajean Jennings.

Recent VIMS/SMS Publications

This list represents the quarterly activity for publications of VIMS contributors from the VIMS librarian. Included are those papers accepted for publication as well as those papers received by the library in a published form.

Baldwin, Carole C., and G. David Johnson. 1991. A larva of the poorly known Serranid fish *Jeboehikia gladiifer* (Teleostei: Serranidae: Epinephelinae). *Fishery Bulletin*, U.S. 89: 534-537.

Barber, Bruce J., and Norman J. Blake. 1991. Reproductive physiology, Pp. 377-428 in Shumway, Sandra E., ed. *Scallops: Biology, Ecology and Aquaculture*.

Boon, John D., and C. R. Berquist Jr. 1991. Evaluation of sediment dynamics and the mobility of heavy minerals on a linear sand shoal. *Journal of Coastal Research* 7:989-1002.

Burreson, Eugene M., and Dennis A. Thoney. 1991. *Aestabdelia leiostomi* sp. n. (Hirudinea: Piscicolida) from the gills of spot, *Leiostomus xanthurus*, in the lower Chesapeake Bay, Virginia. *Journal of the Helminthological Society of Washington* 58:159-163.

Chu, Fu-Lin, associate professor, and **John Greaves**, assistant research scientist recently published an article titled "Metabolism of Saturated and Polyunsaturated Fatty Acids in Adult Oysters, *Crassostrea virginica*" in *Marine Biology* 110:3229-236.

From Chinese Ping Pong To Sly And The Family Stone, W&M Hall Has Seen It All

William and Mary Hall is marking its 20th anniversary. A reception is planned this fall to celebrate the occasion.

The capstone of a building program in the 1960s, promoted by the administration of Davis Y. Paschall, the building was designed as an athletic and convention center. It has served the College community for a wider variety of events than were ever imagined when the structure was designed.

Built at a cost of \$5.4 million, it was part of a \$36 million program, which included most of the buildings on the new campus.

The structure provided student athletic facilities, which had been sorely taxed in Blow gymnasium, and continues to accommodate classes for the department of kinesiology. It has often been reported that President Paschall, in his efforts to impress the state's Budget Advisory Board with the critical need for a William and Mary Hall, would make sure that the board members were made aware of the particularly worn spots in Blow when they toured the campus.

In President Paschall's "Report on the Decade," William and Mary Hall, then unnamed, was listed as a "men's physical education building and convocation center." Happily it is now home to both men's and women's teams.

Bettie Adams has been director of the hall since 1986 when Lester Hooker, the first director, retired. She remembers that the first event in the hall was a basketball game on Dec. 5, 1970, against the University of North Carolina at Chapel Hill. The building was close to completion but there were doors missing and the director's office was furnished with orange crates. The hall officially opened in 1971.

Adams has the first ticket ever sold for the UNC game. It was purchased by the

late Leif E. Scheie of Williamsburg, a member of the class of 1914. The price was \$3. It was so cold, she recalls, the spectators sat with their overcoats on. The UNC bus was brought into the hall so their team could take advantage of its heater during time outs. "We had blowers blowing hot air onto the team benches to keep the players warm," she recalls.

The first concert in the hall was in 1971. The band was Sly and the Family Stone; tickets were \$6.

As members of the International Association of Auditorium Managers, the hall's first director, Lester Hooker, former athletic director, and Adams, then his assistant, got a lot of good advice and learned a lot along the way.

The premier event of the last 20 years, says Adams, was the week-long International Economic Summit in 1983. The hall was converted into a press center, and TV and newspaper reporters from around the world came. There was a huge tent, erected on the area now occupied by the Busch Tennis Courts and the Rec Center, which served as a dining hall for participants and rest stop between assignments.

"The floors and hallways were carpeted, and every cinder-block wall was draped," said Adams. For the final session to which the European heads of state came, an elaborate podium was set up on the main floor and an extensive scaffold erected for TV cameras. President Ronald Reagan presided. A temporary post office was set up to stamp first-day covers commemorating the meeting. Students volunteered early to help TV network crews who hauled giant trailers and antennae onto the parking lot.

The hall has been the setting for circuses, a Billy Graham Crusade, the Wightman Cup tennis matches, the Lippizzan horses, Chinese ping-pong

players, Scandinavian gymnasts, a dog show, conferences and conventions, and many, many rock concerts.

There have been bookings that have been memorable for their success and others for their failure. Adams says she was sure that the university community would welcome a touring company of Shakespearean actors; they didn't. The players drew six paying patrons. There were eight ushers on duty that night. Unabashed by the small turnout, the actors placed seats on the rim of the stage and the play went on as scheduled.

The Harlem Globetrotters were another group that was expected to draw well but didn't.

The rock group The Grateful Dead is remembered because it drew too well. The performers were great, but their fans from across the country came early and wore out their welcome in town in a short time.

Headliners who have been booked at the hall include Linda Ronstadt, Billy Joel, Bruce Springsteen, Bruce Hornsby, Bette Midler, John Denver, the Beach Boys, Chicago, Jackson Brown, Neil Diamond, Kenny Loggins, Eric Clapton, Emmet Kelly, Cat Stevens, Earl Scruggs, the Allman Brothers, Eddie Murphy and Z.Z. Top.

The Mr. America contest has been held at the hall as well as "Up With People." Douglas Fairbanks Jr. came to talk about his famous father and the early days of the film industry. Ethel Merman belted out her songs from the stage. Pearl Bailey and President and Mrs. Ford came to the hall to greet well wishers after the presidential debates that were held in Phi Beta Kappa Memorial Hall.

Commencement ceremonies, baccalaureate services, welcoming programs for parents of new students and the inauguration of President Paul Verkuil

were all held in William and Mary Hall.

Lafayette High School holds its senior prom and graduation ceremony in the hall, and each year St. Bede's Catholic Church uses the hall for Easter services. The hall also accommodates visits of the American Red Cross bloodbank. Busch Gardens has held an employee party in the hall.

There are pictures in Adams's office to remind her of past moments in the hall. She likes to point out the picture of actor William Windom, known for his many character parts, including the kindly doctor on the TV series "Murder, She Wrote." He came to do a one-man show and a few hours before he was to go on he asked Adams if he could have a battered lacrosse stick he had spied in a hallway. He explained that Bob Hope always carried a golf club on stage and perhaps the lacrosse stick would bring him comparable success. When he got back to California, Windom sent Adams a thank you note and an autographed picture on which he made the lacrosse stick a part of his signature. There is also a picture on her wall of that first basketball game and a shot of the victorious football team celebrating with Coach Marv Levy a memorable victory over Navy.

The Hall was the biggest building on campus when it was built. It had a commanding spot on campus and some wondered if it was too big; they need not have wondered. The hall accommodates a maximum of 11,300 people using standing room on the floor. That is the limit allowed under the fire regulations. Students have been scalping commencement tickets for the last couple of years. Seniors are allotted a certain number and some are very willing to pay extra to get a seat in the hall on that day.

NOTES

Models Wanted

Student models are need for a Life Drawing class, Monday and Wednesday from 1 to 3:30 p.m. Models will be paid \$7 per hour.

Call Valerie Hardy at ext. 12521.

Swing Your Partner

Swing your partner and tap your toes Saturday night Nov. 9 at the "Friends of Appalachian Music" dance, 7:30 to 10 p.m., at the Norge Hall, 1.5 miles past the Pottery on Rt. 60.

Featured will be contra dances, New England and Southern squares, and a Virginia Reel taught and called to the live music of the FOAM band.

The entrance fee is \$3 per couple; \$2 single.

For further information call ext. 12442, 565-1110 or 229-4082.

Friends Of Williamsburg Library Book Sale

The Friends of the Williamsburg Regional Library will hold an autumn book sale from 10 a.m. to 5 p.m., Saturday, Nov. 9 and 1 to 3 p.m., Sunday, Nov. 10, at the library located at the corner of Boundary and Scotland Streets.

Hardcover and paperback books will be available. Donations of books are always welcome at the library.

Members of the Friends of the Williamsburg Regional Library are invited to a special advance preview of the sale from 6:30 to 8:30 p.m., Thursday, Nov. 7. Memberships may be purchased at the door that evening.

For further information, call 220-7273.

CLASSIFIED ADVERTISEMENTS

Classified ads are included as a service to members of the College community and will be accepted from faculty, staff, students and alumni only. Ads should be no longer than 40 words and must be submitted in writing to the William and Mary News office no later than 5 p.m. on the Friday preceding the first insertion.

FOR SALE

Sofa, green and beige, 6 ft. long, comfortable. Good condition, \$65. Call 220-2757. (11/13)

1980, F-100 Ford truck, AC, power steering, new inspection. Good running condition, good tires. \$3,000. Call 229-6438 between 9 a.m. and 2 p.m. or after 5 p.m. (11/13)

386SX/16MHz, Intel math co-processor, 4 MB RAM, NEC MultiSync 2A monitor with Paradise VGA+ 16 video card, SCSI 85 MB hard disk, 1.2 and 1.44 MB floppy drives, mouse, Star Micronics NX1000 Multi-Font printer, and much software. \$1,600 or best offer. Call 642-0197 (home) or 642-7219 (VIMS). (11/13)

Aboveground swimming pool with pump and filter; men's 27", 12-speed touring bicycle; Armstrong flute; solid cherry stereo cabinet. Call 229-7006 after 5 p.m. (11/13)

GE refrigerator—runs well, some rust spots on finish, \$175. Whirlpool clothes dryer, \$80. Old GE refrigerator, \$60 or best offer. Call 229-2712. (11/6)

Motorcycle helmet, almost new (worn one week), Shoei RF-200, black and beautiful, cost \$220, asking \$150 or best offer. Must sell. Call Brian at 229-0898 or contact at Cheese Shop. (11/6)

Sony CDP-C700, 5-disc CD changer, year old, great features, \$300. Marshall JCM 800-4010 combo guitar amplifier, 50 watts with 12" speaker, hardly used, \$350. Call Mark at 220-5455. (11/6)

1989 Hyundai Excel, in great condition, new tires, low mileage (46,000), AM-FM, cassette, etc., \$6,000. Price is negotiable. For information, call Elizabeth, ext. 12160. (11/6)

1983 Toyota Tercel wagon, 4-wheel drive, 5-speed, 104K, Michelin tires, Kenwood tape deck, new brakes, inspected, roof rack; excellent condition, well-maintained. \$3,000 or best offer. Call 693-7042 (home) or 642-7395 (VIMS). (10/30)

Color computer monitor; Tandy CM-5, 14" RGBI, 320 dots x 225 lines. Never used. \$150 (list price \$300). Call ext. 13889. (10/30)

Black velour twin dresses with removable collars, size 4, \$15 for both. Twin items, jackets, short and long coats reasonably priced. Call 565-2819 after 6 p.m., Monday through Friday; Saturday, 8-11 a.m., 6-9 p.m. (10/30)

Four bar stools, captain's chair style, swivel,

gold ring foot rest, good condition, seat height 29" from floor. \$30 each or 4 for \$100. Call 220-0929. (10/30)

Waterbed, king size, baffled, 4-drawer, bookshelf. \$250 or best offer. Also two desks: one older, big, lots of drawers, \$50; the other newer, computer type, shelves above, \$60. Call 693-7042 (home) or 642-7395 (VIMS). (10/30)

FOR RENT

Room for rent, 10 minutes from campus in 3-BR, 2-1/2 bath, Skiffe's Creek townhouse. \$225 per month plus 1/3 utilities. Seeking non-smoker, professional/grad student. Fenced back yard with sundeck, washer/dryer. Call Greg at ext. 13411 (days) or 887-2658 (evenings). (10/30)

Outer Banks family vacation home (north of Duck); 5 BRs, sleeps 12. Three tiled full baths (two whirlpools). Central AC, heat, microwave, dishwasher, washer/dryer, TV, VCR. No smoking or pets. Excellent ocean view, 150 yards to beach, tennis. Off-season rates by week or 3-day weekend. Call ext. 13889. (10/30)

Townhouse to rent to professor beginning late Dec. Three blocks from campus on N. Boundary St., opposite public library. Call 220-1930. (11/13)

Family vacation cottage, Nags Head MP6. Enjoy fall at the beach! Two BRs, sleeps 6. Central

EMPLOYMENT

The following positions at the College are open to all qualified individuals, unless otherwise noted. Visit the Office of Personnel Services, Thiemes House, 303 Richmond Road, for information, a listing of vacancies and application forms, Monday-Friday, 8 a.m. to 4 p.m. Call ext. 13150. All applicants must submit a completed Commonwealth of Virginia Application form to the Office of Personnel Services.
