WILLIAM & MARY

A WEEKLY NEWSPAPER FOR FACULTY, STUDENTS AND STAFF

NEWS

VOLUME XXI, NUMBER 14 • WEDNESDAY, DECEMBER 4, 1991

REMINDERS

Retirement Reception

Members of the College community are invited to a retirement ceremony and reception to be held at 3 p.m., Friday, Dec. 6 in Watermen's Hall honoring the service of William J. Hargis.

Hargis is retiring after 36 years with the Virginia Institute of Marine Science/School of Marine Science as professor and Dean/Director.

Town & Gown Lunch

Mario Zamora will speak on "The Philippines Today: Mount Pinatubo, the Presidency and Other Issues," at the Dec. 5 lunch in the Campus Center ballroom at 12:15 p.m.

The Botetourt Singers of the William and Mary Choir will present a program of holiday music at the Dec. 12 lunch.

There is a \$6 fee. Reservations are necessary and may be made by calling ext. 12640 no later than the Monday before the lunch.

Commonwealth Seminar

Robert Farris Thompson, professor of African and Afro-American art history and Master of Timothy Dwight College, Yale University, will speak on "The Dawn of Black Design," at a seminar at 3 p.m., today in the Botetourt Theatre of Swem Library, sponsored by the Commonwealth Center for the Study of American Culture.

Smolla-Wermiel Debate

Rod Smolla, director of the Institute of Bill of Rights Law, and Stephen J. Wermiel, visiting Lee Professor of Law, currently on leave as Supreme Court reporter for *The Wall Street Journal*, will debate politically correct language at an honors program at 7:30 p.m. tonight in Washington 200.

This program is open to all members of the College community.

The next issue of the *William & Mary News* will be Wednesday, Jan. 15. Deadline for items will be 5 p.m., Friday, Jan. 10.

Photo by Tom Williams.

Holiday Greetings to the College Community

Please accept our warm and heartfelt greetings for a joyous holiday season and a successful and rewarding New Year to you and your families.

We hope to see many of you at the Yule Log Ceremony at the Wren Building on December 14 at 6 p.m. to deliver our greetings in person.

Paul and Fran Verkuil

Class Of '46 Gives Rare Books To Swem Library

The Class of 1946 recently presented the College's Swem Library with two valuable 16th-century rare books by classical authors.

Richard Mac Cracken of Acton, Mass., a member of the class, which had its 45th reunion earlier this fall, presented University Librarian Nancy Marshall with the Aldine edition of Lucretius' *De Rerum Natura* (Venice, 1515) and Cicero's *Epistolarum Familiarum* (Venice, 1519).

The Lucretius work is considered by scholars to be one of the grandest and most moving poems in the Latin language. An exposition of a philosophical system, it is the first surviving major poem

in Latin. Aldines, the term for books printed by Aldus Manutius (1450-1515), were pocket editions of classical texts for the populace. Aldus introduced italic type to the world of printing. This edition will join two other works printed by him in the Manuscripts and Rare Books Department of Swem Library.

The Cicero volume is especially rare, said Margaret C. Cook, curator of manuscripts and rare books. Cicero's letters in Latin to and from his fellow Romans are printed with a running commentary. "This folio volume is in nearly mint condition with a number of lovely woodcuts," said Cook. "The significance of

Cicero's letters lies in their reliability of information for the first century B.C. It is due to his correspondence that the Romans of his day are living figures for us."

The books were given by Mac Cracken in honor of his Class of 1946 and in memory of two William and Mary professors of ancient languages, George Ryan and Anthony Pelzer Wagener.

Although Swem Library's rare book collection is concentrated on American history, it features seven books printed prior to 1501 and a number of works printed in the 16th century, all acquired as gifts.

American Studies

Director Visits Canadian Schools, Talks Student Exchanges

Professor Robert A. Gross, director of American studies, recently traveled to universities in Ontario and Quebec, under a grant from the United States Information Agency, to study the teaching of American studies in Canada. He lectured and visited at the University of Toronto, York University, the University of Western Ontario, the University of Ottawa, Carleton University, McGill University, and the University of Montreal.

Among the topics for discussion was the development of student exchanges between several Canadian universities and William and Mary.

Gross will travel to the west coast of Canada during the spring term. Under his grant as an American studies specialist, he is expected to advise the U.S.I.A. about the state of American Studies in Canada and to recommend directions for American-sponsored programs in that country.

The current state and the future direction of American studies were also the topics of a presentation by Gross at the annual meeting of the American Studies Association in Baltimore, Md., Oct. 31-Nov. 3.

Earlier this fall Gross gave a paper on the Third Amendment in a program titled "The Bill of Rights Yesterday and Today: A Bicentennial Celebration" held at Valparaiso University School of Law, Valparaiso, Ind. His essay, "Public and Private in the Third Amendment," is forthcoming in the *Valparaiso University Law Review*.

Staff Notes

Margaretta M. Lovell, Dittman Professor of American Studies, has published an essay, "Such Furniture as Will Be Most Profitable: The Business of Cabinet-making in 18th-Century Newport," in the Spring 1991 issue of *Winterthur Portfolio*. She chaired a session on "Class and Cultural Landscape in 19th-Century New England" at the convention of the American Studies Association.

Kirk Savage, assistant professor of American studies and material culture fellow of the Commonwealth Center for the Study of American Culture, represented William and Mary as well at the American Studies Association meeting. He provided commentary for a session titled "Rethinking American Patriotism."

Student Activities

Graduate students in American stud-

ies have been equally active at scholarly conferences and in publications. In October, doctoral candidate Sharon Zuber presented her paper "Ruptured Visions: Jacob Riis's *How the Other Half Lives* and Stephen Crane's *Maggie*," at the American Studies Graduate Conference at Brandeis University. Zuber is also working with Joanne Braxton, Francis L. and Edwin L. Cummings Professor of American Studies and professor of English, to revise an essay "Silences in Harriet 'Linda Brent' Jacobs's *Incidents in the Life of a Slave Girl*," for publication in a forthcoming volume, titled *Listening to Silences: New Essays in Feminist Criticism*. This essay was written collaboratively by Braxton and students in her fall 1990 course on African-American Literature and culture. Besides Zuber, the students included Sheryl Kingery, Kimberly Lankford and Elizabeth Scott. It was originally presented as a paper at the 1990 American Studies Association meeting in New Orleans.

Doctoral candidate Sarah Bird Wright also presented work at the Brandeis-sponsored graduate student conference. Her paper, "Rolling Chairs, Parasols and Chauffeured Dogs: *Fin de Siecle* Conventions of Grandeur at Newport, Long Branch, and Atlantic City," grew out of her long-standing interest in travel and leisure in the United States. She gave talks on the subject of travel to the Alumnae College of Bryn Mawr College, over which she presided as dean last June and as part of the Writers' Series at the Potomac Library in Woodbridge, Va., in October. Wright also lectured recently on "Ferries of America: Celebrating an Enduring Maritime Legacy" to the Great Lakes Ferry Council in Put-in-Bay, Ohio.

Two American studies doctoral candidates gave papers at the meeting of the Popular Culture Association in the South, in Norfolk in October. Nancy Parrish presented "The Haunted Landscape of Lee Smith's *Oral History*," for which she was awarded the prize for best student paper on American culture. Bertram Ashe also received honorable mention in the student paper competition for his presentation, "One Nation Under a Groove: The Black Nationalist Rhetoric of Parlia-

ment/Funkadelic." Ashe, Patricia Robert Harris Fellow in American Studies, has just published an entry on "Ishmael Reed" in *Beacham's Popular Fiction 1991 Update*.

Parrish has presented the results of her work on Lee Smith in other settings as well. This fall she gave an invited talk, "Rescue from Oblivion: Letter-Writing and Story-Telling in Lee Smith's *Fair and Tender Ladies*," to the 10th annual Writer's Symposium at Methodist College in Fayetteville, N.C. Her interview with Lee Smith, titled "Rescues and Reclamation," will be published in the spring/summer issue of *Appalachian Journal*.

Several other American studies doctoral candidates have recently published essays and reviews. Margaret M. Mulrooney's essay, "A Legacy of Coal: The Coal Company Towns of Southwestern Pennsylvania," appeared in *Perspectives in Vernacular Architecture, IV*, edited by Thomas Carter and Bernard L. Herman (Columbia: Univ. of Missouri Press, 1991). Hildy Coleman co-authored a piece on "The Actual and the Notional

in *The Great Gatsby: A Topographical Survey*" in the journal *ANQ (American Notes and Queries)* for July 1991. Phyllis A. Hunter has an essay review on several books about women's experiences in child-bearing and marriage; it appears in the Autumn 1991 issue of *Gender and History*. Finally, the *New England Quarterly* has just accepted for publication an essay on Edgar Allan Poe by Katherine Hemple Prown.

In other conference activities, doctoral candidate Yujin Yaguchi joined with Associate Professor of Anthropology Tomoko Hamada to give a paper on "The Hollowing of an Industrial Ideology: Japanese Corporate Familism in America" at the annual meeting of the American Anthropological Association in Chicago. Mulrooney gave the commentary at a session on "Company Influence on the Planning of Industrial Cities" at the Fourth National/Fifth International Planning History Conference, held in October in Richmond.

Arthur Warren Phelps

Arthur Warren Phelps, professor of law emeritus and former dean of the Marshall-Wythe School of Law, died Saturday, Nov. 23, at the Williamsburg Landing Healthcare Pavilion.

Phelps, 82, was a native of Westmoreland County and moved to Williamsburg in 1945 after he earned his master of law degree in 1940 from Columbia University. He earned his undergraduate degree magna cum laude in 1931 from Washington and Lee University. He received his master's degree in psychology and education in 1932 at Ohio State University and his J.D. in 1935 from the University of Cincinnati.

During World War II, he worked for the government as coordinator of price interpretation and later became chief counsel of the Petroleum Price Division in Washington, D.C. At the end of the war he joined the law faculty at the College and later became dean. He retired in 1974.

In 1948 Phelps was inducted into Phi Beta Kappa as an honorary member. He helped to establish the *Law Review* here and wrote a number of books on Virginia law, including *Handbook of Virginia Procedure in Actions at Law*, *Handbook of Virginia Rules of Equality Practice and Procedure*, *Handbook of Virginia Rules of Appellate Procedure*, and *Divorce and Alimony in Virginia and West Virginia*.

Phelps was a member of the Association for the Preservation of Virginia Antiquities, the Middle Plantation Club, Rotary International, the Virginia Bar Association and the Williamsburg Bridge Club.

He is survived by two daughters, Grace Phelps Rhinesmith of Walkertown and Margaret Phelps Vaughn of West Horsley, Surrey, England; two stepdaughters, Ann Duke Crol of Ottawa, Canada, and Susie Sells Hodgson of Wilton, Conn.; a stepson, Charles Bryan Duke of Webster, N.Y.; a sister, Margaret Nelson of Chula Vista, Calif.; a brother, David R. Phelps of Conyers, Ga.; three grandchildren; and six step-grandchildren.

A memorial service was held at Williamsburg Landing by the Rev. Dr. Cotesworth P. Lewis. Burial was in Ivy Hill Cemetery, Smithfield.

The family has requested that memorials be made to the Marshall-Wythe School of Law Scholarship Fund.

Jerome Randolph Sr.

Jerome Randolph Sr., 79, a retired employee in the maintenance department of the College, died Saturday, Nov. 30. A funeral was held Tuesday, Dec. 3 at the Oak Grove Baptist Church. The Rev. Joshua Slack Sr. and the Rev. L. W. Williams officiated. Burial was in Cedar Grove Cemetery.

Randolph retired in 1977 after 42 years of service. He was a member of New Zion Baptist Church.

He is survived by his wife, Evelyn Randolph; a daughter, Joan Wallace of Williamsburg; two sons, Jerome Randolph Jr. and Lewis E. Randolph of Williamsburg; 12 grandchildren and two great-grandchildren.

Eleanor Andrews Rohrbaugh

Eleanor Andrews Rohrbaugh, 49, wife of Michael J. Rohrbaugh, professor of psychology, died Thursday, Nov. 28.

A memorial service will be held this evening at 5:15 p.m. in the Wren Chapel. A graveside service was held Monday in Saumsville Christian Church Cemetery, Maurertown, Va.

Mrs. Rohrbaugh was employed as a nurse in the Williamsburg/James City County Schools. A native of Belfast, Northern Ireland, she earned her nursing degree from Royal Victoria School of Nursing at Queens University, Belfast, in 1963.

Survivors include a daughter, Melanie E. Kaplan of Williamsburg; a son, Michael C. Kaplan of Mill Creek; her parents, Mr. and Mrs. Sidney E. Andrews of Belfast; and a brother, D. Terrence Andrews of Hollywood, County Down, Northern Ireland.

Memorials to the Eleanor Andrews Rohrbaugh Memorial Fund should be sent c/o Williamsburg-James City County Public Schools Health Services, 3925 Midlands Road, Williamsburg, 23188.

Stevens To Work At MacDowell Colony

Claudia Stevens

Claudia Stevens of the music faculty has received a MacDowell Colony Artist Residency for January to work on the text and music of her new intermedia piece, "Felice to Franz."

Her one-woman musical/dramatic piece, "The Heart Disclosed," which she designed in collaboration with composer Vivian Fine, has been produced as a radio drama and will be broadcast on National Public Radio Playhouse next year. This work was funded through the Virginia Arts Commission and William and Mary grants in 1989-90.

Departments

Counseling Center

Director **Philip W. Meilman** is the author of "Self-Induced Vomiting in College Women: Its Relation to Eating, Alcohol Usage, and Greek Life," in vol. 40, *Journal of American College Health*.

English/Administration

Robert Scholnick, professor of English and dean of graduate studies, was elected president of the Research Society for American Periodicals at the organization's inaugural meeting in May in Washington, D.C. He also serves as a member of the editorial advisory board of *American Periodicals*, which has published his article "Scribner's *Monthly* and the 'Pictorial Representation of Life and Truth' in Post-Civil War America."

At the annual conference of the Research Society for Victorian Periodicals in Washington, Nov. 21-23, he and **Amy Napier**, a graduate student in English, presented a paper on "America in the Westminster and the Westminster in America: 1840-1860."

Scholnick also presented "Illustrated Science and Technology for the People: *Scribner's Monthly*" at the conference of the Society for Literature and Science, Montreal, Oct. 10-13.

NOTES

'Christmas Past and Present'

Emma Powers, research associate in the department of research at Colonial Williamsburg, will give a slide lecture on "Christmas Past and Present" at 7 p.m., Thursday, Dec. 5 in the Botetourt Theatre of Swem Library.

This program is part of the current speaker series sponsored by the Friends of the Library and the Williamsburg Bibliophiles.

Bookstore Discount

This is Staff Appreciation Week for the College and VIMS employees.

The bookstore is offering 10 percent off all merchandise in the bookstore (excluding textbooks).

ID or the green information flyer is required.

The bookstore is open Monday-Friday, 8 a.m. to 4:45 p.m., and Saturday from 9 a.m. to 4:15 p.m.

Deans Moving

The offices of the Dean of the Faculty of Arts and Sciences, which includes undergraduate studies, graduate studies, academic advising and student assessment, will move on Jan. 3

from James Blair Hall to Ewell Hall.

Laura Dillard '87 To Speak For PBK

Laura Dillard, '87, former press secretary to Governor L. Douglas Wilder, will be guest speaker at the banquet following the Dec. 5 initiation of members-elect to Alpha of Virginia Chapter of Phi Beta Kappa.

Dillard will take as her topic, "Public Service- Frustrating But Not Harmful to Your Health."

Media Workshops Scheduled For '92

The Media Workshops Foundation is offering seminars for students interested in mass media. The weeklong workshops will be held in Los Angeles, July 12 through Aug. 29. There is a choice of seven different workshops. Participants will receive an inside look at the film, television and newspaper industries.

Interested students may stop by the office of Video Services in Bridges House or call Karen Dolecki at ext. 12394 for application information.

Physics Colloquium

Andrew Brandt, CERN and the University of California, Los Angeles, will discuss "Je Measurements at the SPS Collider in Events with Leading Protons," at the physics colloquium at 4 p.m., Friday, Dec. 6, in William Small Physical Laboratory, room 109. Coffee will be served in the conference room, Small 123, at 3:20 p.m.

Last Recycling Collection This Semester

Saturday, Dec. 7, will be the last day for pick-up of dorm recyclables by the William and Mary Recycling Organization. After that date students should not put any recyclables in dorm bins.

Saturday is also the last comprehensive recycling day for the semester and will be held as usual from 9 a.m. to 1 p.m. in Crim Dell amphitheater and the W&M Hall parking lot.

Comprehensive recycling days will resume in late January and will be announced in the *William and Mary News*.

Inquiries concerning recycling should be addressed to Mary Nachtrieb at 220-9281.

'Tis The Season For ...

A Green and Gold Christmas

This year's Green and Gold Christmas program for needy children will be held from 10 a.m. to 3 p.m., Saturday, Dec. 7 in the Commons Dining Hall.

Volunteers are needed for the day of the party to assist with the holiday festivities. If you are interested, please call Ann Tipper at ext. 14182 or Loretta Early, president of the The Hourly and Classified Employees Association (HACE) at ext. 13002.

HACE is coordinating donations and gifts from employees of the College for the Green and Gold Christmas. HACE is a major supporter of this program, which serves over 200 children and was initiated by students.

Monetary Contributions

Monetary contributions may be sent to HACE Treasurer Beverly Boyer in the Computer Center, Jones 12, ext. 12995. Checks should be made out to HACE. Unwrapped, new or gently used toys for children 4 to 12 may be dropped off at the following locations:

- Computer Center, Jones 5.
- Personnel Office, at the side door (facing Tinee Giant), before 9 a.m.

The Yule Log Ceremony

The College continues the tradition of inviting members of the community to campus to help celebrate the season.

Mortar Board and Omicron Delta Kappa leadership fraternities will sponsor the Yule Log Ceremony at 6 p.m., Saturday, Dec. 14 in the Wren Courtyard.

Festivities begin with a round of carols led by the William and Mary Choir, followed by traditional holiday readings by President Paul R. Verkuil and W. Samuel Sadler, vice president for student affairs.

After the yule log is brought into the Great Hall at the Wren Building, everyone is invited to toss sprigs of holly into the fire, reviving the superstition that cares of the past year go up in flames with the holly.

On a more practical note, participants are asked to bring with them canned goods, which will be distributed by students to needy families in the area.

The ceremony of the yule log is believed to have originated in Europe and dates back to medieval times when a log was brought in to burn throughout the 12 days of Christmas. Since it was the custom in some households to declare a holiday for servants while the yule log burned, every effort was made to assure its longevity.

Grace Warren Landrum, dean of women, first introduced the yule log ceremony at William and Mary in 1930. It was an elaborate affair and required a large cast. The president of the College would dress in colonial costume as "Lord of the Manor," and his assistant dressed

- William and Mary Hall, Wightman Cup Room
- Campus Post Office

Food Contributions

This year's Green and Gold Christmas program for children is also coordinating a canned food drive. Canned green vegetables and meats are especially needed. Donations may be dropped off at the above locations. Contributions should be received by the end of the work day on Thursday, Dec. 5.

"We hope you can help make this a special holiday celebration for these young members of our community," said Early. "Your support and generosity will be greatly appreciated by everyone involved in this program."

Student Workers

Green and Gold Christmas depends on a small army of student workers to coordinate the selection and transportation of children, the collection of toys, the program of games and arts and crafts, food services, fundraising and publicity.

Jeffrey Neal and Ann Tipper served as co-chairs this year and were assisted by many students, including Karen Carter,

Nancy Lorch, Alicia Taylor, Immani Taruella, Debbie Gold, Stephanie Mowatt, Catherine Adams, Brian Camby, Heather Cameron, Christina Chappell, Jenny Cole, Eve Cooley, Tara Director, Lisa Ferrante, Marissa Gabriel, Cheryl Ganger, Jenny Gibson, Karen Greenwood, Vicki Healy, Susan Ju, Susan Lambert, Betsy Larsen, Monica McGrath, Carla Pratt, Lee Savio, Sherie Smith, Sarah Thomas, Carolyn Ugleularo and Heather White.

Also Denise Pelligrini, Jamie Macke, Margaret Glenn, Jennifer Heigel, Crystal Henderson, Jen King, Michelle Lemons, Elyse Shuk, Lori Berman, Lisa Bailey, Ashley Bolton, Susan Jackson, Charlie Jordan, Joy Kinlaw, Christy Maillet, Kirsten Opp, Kara Perissel, Carolyn Penrose, Virginia Reves, Cathy Unrine, Chrissy Watts, Julie Drewry, Jennifer Hammond, Michelle Gibson, Susan Lambert, Catherine Little, Kathy Marsh, Susan McCollough, Monica McGraff, Alyson Mihalick, Ashley Rudden, Christine Sullivan, Heather Cameron, Andrea Gubser, Betsy Larson, Jess Reiser, Sherri Smith, Jennifer Starke, Diana Vaughan, Susanna Baird, Aliya Bokhari, Elizabeth Gellineau, Debbie Ohlson and Sarah Pitkin.

as "Lord of Misrule." A young child, usually from a faculty family, poured wine over the yule log and threw the first piece of holly into the fire.

Costumed log carriers were joined by hog carriers who brought in a boar's head into the hall along with the log. Trumpeters were also part of the procession. The ceremony was discontinued with the outbreak of World War II. When

it was revived after the war, it was a less elaborate affair.

For William and Mary students today, the yule log ceremony continues a tradition of end-of-semester merriment that was touched with a hint of mischief in the 18th century. Eager for the end of classes, colonial students would lock the school masters out of the building in hopes of ending the session a few days early. Classes end Dec. 6 this year.

'Christmas in Old Virginia' At Zollinger

A new exhibit, "Christmas in Old Virginia," opened this week in the Zollinger Museum of Swem Library.

The exhibit traces the celebration of Christmas in Old Virginia from 1608 to 1900. The novels of Thomas Nelson Page, which glorify the colonial and antebellum Virginia Christmas, are used to recall the earlier period. Other books, manuscripts and decorations are used to emphasize the exhibit theme.

The holiday season in the 17th century was generally celebrated with attendance at the Anglican Church, while 18th-century planters' letters and diaries attest to the long holiday season, decorations, open houses, balls, fox hunts and the firing of Christmas guns. In an era of nostalgia after the Civil War, Virginians read novels that romanticized the colonial and antebellum Virginia Christmases.

A tree decorated in the manner of the first Christmas tree in Williamsburg is one of the focal points of the exhibit. College of William and Mary Professor Charles Minnegerode is credited with bringing the tradition of the Christmas tree to Virginia. In 1842 he brought a tree to the home of Judge Nathaniel Beverley Tucker and decorated it for the Tucker children with popcorn, gilded nuts, beeswax candles and colored tissue balls.

Items for the exhibit have been loaned by University Librarian Nancy Marshall, Mrs. Carter Lowance and Merle Kimball and Susan Riggs of the library staff.

The Zollinger Museum will be open Monday through Friday through Dec. 20 from 8 a.m. to 5 p.m.; Saturdays 9 a.m. to 1 p.m.; Dec. 23, 8 a.m. to 5 p.m.; and Jan. 2, 3 and 6, 8 a.m. to 5 p.m.

CommonHealth Issues Holiday Challenge

CommonHealth has a "Maintain, Don't Gain" challenge to help people who do not want to gain weight over the holidays.

There will be a drawing for a \$50 cash award open to everyone who has not gained more than two pounds during the contest period, Nov. 25 to Jan. 6.

Weigh-ins must be reported to Margo Wright on the first and last days of the contest. All weights will be reported on the honor system.

For details call Margo Wright at the CommonHealth Office, Adair 112, ext. 12776.

W&M Shopping Night

The Colonial Williamsburg Foundation is sponsoring a William and Mary Shopping Night from 5:30 to 8:30 p.m., Monday, Dec. 9.

All students, faculty and staff with valid IDs will receive 20 percent off all merchandise in the participating stores:

- Craft House at the Inn
- Craft House at Merchants Square
- Visitor's Center Bookstore
- The Little Patriot
- The Grocer
- John Greenhow Store
- Golden Horseshoe Golf Pro Shop
- Tazewell Sports Shop

In a letter of invitation, Rita E. Joyner, director of the gift shop, emphasized that the savings would be significant. The offer is being made exclusively to members of the College community, said Joyner. The stores listed above will be open to serve only College shoppers.

Peter Colohan, president of the Choir (r), receives the first shipment of Choir recordings from W. Barry Adams, executive vice president of the Society of the Alumni.

Recording By The Choir Goes On Sale

"Beneath Thy Trees," the first recording by a William and Mary Choir in several decades, will be on sale at the holiday concert by the Choir and Women's Chorus, Thursday, Dec. 5 in Phi Beta Kappa Memorial Hall.

The Choir and Women's Chorus, under the direction of Frank T. Lendrim, will present concerts at 8:15 p.m., Thursday, Friday and Saturday and at 2 p.m. Saturday. Tickets are \$3 and are available at the PBK box office the evenings of performance.

The recording was produced entirely with digital recording and mastering technology by Colonial Williamsburg Productions to reproduce faithfully the wide dynamic range and subtle variations of choral performance.

Digital editing was completed by Masterfonics of Nashville, Tenn. Recording sessions were held at the Williamsburg Baptist Church on Richmond Road. Recording directors are Gene Galusha '63 who has over 20 years of experience in New York as a radio and television producer and announcer; and Richard McCluney '67, director of the Colonial Williamsburg Foundation's department of audio visual production.

The recording project is a joint effort of the Society of the Alumni and the Choir. Proceeds from the sale will help

finance the Choir's tours both in the United States and abroad as well as programs and publications of the Society of the Alumni.

The new recording embraces a wide range of selections from the Choir's repertoire including works by Henry Purcell, Ralph Vaughan Williams, and Benjamin Britten. Several lively folk songs and spirituals, such as "My Old Kentucky Home," "I Got Shoes" and "My Lord, What a Mornin'" are included as well as the perennial favorite of Choir audiences, "Shenandoah."

The Men of the Choir and the Boute-tour Chamber Singers are featured in several numbers. The concluding selections on both the CD and cassette are the William and Mary Hymn and the Alma Mater.

The recording may be purchased at the Alumni House Gift Shop or the College Bookstore. The cost is \$10 for the cassette and \$15 for the CD.

Mail orders are also being accepted by the Society of the Alumni at P.O. Box 2100, Williamsburg, VA, 23187-2100. Orders may also be placed by calling 804/221-1170. Each order must include \$3.50 for shipping and handling. Virginia residents must add 4.5 percent sales tax.

Wallace Named To Advisory Council For Financial Accounting Standards

Wanda A. Wallace, the John N. Dalton Professor of Business Administration and associate dean for academic affairs at the business school, has been elected to the Financial Accounting Standards Advisory Council, effective Jan. 1.

Faculty of the business school including Wallace, Cindy Rooney and Tom

White were invited to attend the Conference at the SEC on Market Value Accounting on Nov. 15 in Washington, D.C., at the invitation of the acting chief accountant and chairman of the United States Securities and Exchange Commission, the Honorable Richard C. Breeden.

Students Encouraged To Apply For Summer Institute In Japan

By Hank Humphreys
Assistant to the Director, VIMS

Applications are currently being sought for the graduate Summer Institute in Japan for graduate study in science and engineering, sponsored by the National Science Foundation, NSF and Japan's Science and Technology Agency, STA.

NSF selects the participants on a competitive basis and pays travel costs and a modest stipend to each student. STA arranges for the placement of participants in Japanese laboratories and provides accommodations and partial board at Tsukuba. STA also works with other Japanese agencies and organizations to provide logistical support for the program. The program evolved from discussions of the Task Force on Access of the U.S.-Japan Agreement on Cooperation in

Research and Development in Science and Technology.

The deadline is Jan. 15 but because there is an extensive application process, applicants are advised to apply as soon as possible. Proficiency in the Japanese language is not required.

Program sponsors cover all costs, and each participant is given a stipend for the eight weeks overseas.

A graduate student from VIMS participated in the program last year, the second summer the program was offered. E. Laurence Libelo worked in a Japanese research environment in the science city of Tsukuba. The major part of his time was directed studying the Japanese language and culture as well as establishing contacts with scientists.

Libelo, who is interested in water chemistry and is doing his dissertation research on ground water pollution, was

Provost Reports On Latest Round Of Budget Cuts

While last summer's planning may help spare the College from further effects of the budget ax this fiscal year, things could be different in 1992-93, according to Provost Melvyn Schiavelli.

Reporting to the Faculty Assembly last week, the Provost said the College and other state agencies received notification recently from the Department of Planning and Budget in Richmond to prepare for an additional budget reduction of 3 percent for the current fiscal year and an additional 5 percent reduction in the base budget for next year.

This year's cut amounts to approximately \$875,000, which is 3 percent of the College's current General Fund appropriation, said Schiavelli.

"In our budget preparations for 1991-92, we anticipated additional cuts and held them as a contingency fund. Those cuts didn't happen, but we decided not to distribute those funds in September," he said. "We held that as a contingency fund, so now we find it easier to cut without going further into current operating budgets."

Plans to cut 5 percent from next year's base budget would reduce funding to William and Mary by about \$1.5 million. "In that scenario we had \$420,000 of cuts in layoffs contemplated, so we would be forced to consider layoffs once again," Schiavelli said.

Some of the cuts could be offset by tuition surcharges or tuition increases, said the Provost, but the potential level of surcharges for colleges and universities is currently unknown. "What will apparently be required is a fairly hefty tuition increase to fund the student portion of any initiatives that are funded by the General Assembly," he said. "One-half of the money for any new programs, including salaries for personnel supporting those programs, will have to come from tuition increases."

Schiavelli also reported that the College may gain additional budget flexibility from various personnel changes, including resignations, retirements and early retirements, amounting to about \$3 million. The level of funding and the number of positions to be replaced will depend on legislative action this spring, he said.

In the area of early retirements and retirements, positions that cost the College \$3.2 million to maintain will cost only \$2.8 million to fill, for a savings of \$300,000, "largely due to early retirees being replaced at the entry level," Schiavelli said.

Debaters Begin Alumni Newsletter

It takes as much work as a term paper but you don't get academic credit. There's no one to cheer when you win even if you're in the top 10 in the nation. Your skill is invaluable in any career you choose. You have to be dedicated to be a debater; most are.

Although the program here at the College is highly successful and operates on a modest budget, it has not been immune to the current economic crunch. A debate alumni newsletter is currently being produced, the first step toward a debate alumni support group to help keep the program in funds. The editor is Joan Harrigan Butler, a former star debater.

Debate doesn't offer scholarships and doesn't want to. It has no wish to recruit and isn't looking to expand its membership significantly, but it would like to get out of the "french fries or a Coke" league.

Coach Pat Micken would like to see debate continue with a budget maintained at a reasonable level to allow for regular travel throughout the year.

Micken recognizes that debate may only involve 20 students in a given year.

In fact, he can't handle many more than that, but when the College's peers

in some cases claim debate as a cocurricular rather than an extracurricular activity, Micken wants to be sure it survives at William and Mary.

Debate at William and Mary operates on a budget of about \$12,000. Travel costs have risen so dramatically that the team must pick and choose its tournaments and is often hard pressed at the end of the season to get to the national tournament, which is vital to national ranking. The rental of a state vehicle at 35 cents per mile is also a costly investment. In the 1970s Micken petitioned for and received a van, but it turned out to be a pyrrhic victory. The van is no longer cost effective or in good shape. Since it vibrates when driven over 30 miles an hour, it is not a viable way of transporting the team.

Perhaps because the debate program is a small one, team members get to know each other and establish a strong camaraderie. Micken and Butler are hoping the memories of past triumphs and the residual value of debating skills will stir alumni to help the current program. Debate alumni have done well, and many attribute their success in part to

Business Students Develop Marketing Strategy For Colonial Relays

Coaches listen as students present their marketing ideas in the board room at the business school.

If you're a sports fan who likes track and field, you know the importance of the first weekend in April. If you're not, one of the biggest collegiate track and field events on the East Coast—the Colo-

nia Relays—just means there are more joggers around town and less parking space on campus.

A team of students from the School of Business Administration has under-

taken a marketing challenge to promote the Colonial Relays, to encourage greater attendance, a higher profile for the athletes and expanded corporate sponsorship.

In the role of consultants for William and Mary track coaches, the students are enthusiastic about the project, which is giving them hands-on experience as well as academic credit. James Olver and Todd Mooradian of the business faculty, who both teach marketing, are advisers to the group. Members of the marketing team include Heidi Almus, Tracy Beck, Nancy Bushy, Michael Check, Deron Fort, Tara Greco, Michael Howell, Richard Lennon, Brian Pilot, Kelly Plumley, Robert Schmollinger, Jeff Smith, Betsy Willcox and Karen Wright.

In a written proposal presented to track coaches recently, the team outlined its overall objectives and ways to achieve them.

The team is sponsoring a logo contest, open to all members of the campus community. The deadline is Jan. 31. The team is looking for a distinctive design, different from any sports logos now in use. Prize for the winner is dinner for two at The Trellis restaurant.

The new logo will be used on tickets, T-shirts and invitations this year and incorporated into stationery and awards in the future.

There are several other proposals to drum up enthusiasm on campus including a catered office party for the department that has the highest percentage of members at the meet; adopt-an-athlete campaigns; a tailgate party; a 5K run for the benefit of Housing Partnerships; and a mailing to track alumni.

To get more media coverage of the Colonial Relays, the team is preparing mailing lists, press releases for print and electronic media and invitations to area reporters to participate in a media relay during the weekend meet.

To increase awareness in the community, the marketing team suggests putting posters in area schools and promoting the meet in PTA newsletters. Children under 13 will be admitted free to broaden the spectator base and promote interest in athletics as part of the overall collegiate program at William and Mary.

Several members of the promotions team would like to see their business school training for careers in sports promotion.

Consortium Enables Students To Pursue Aerospace Studies

By Patrick S. Golden
Virginia Space Grant Consortium

Undergraduates Katherine O'Neill and Jean Stephens and graduate students Michael Glasgow and Dan Chrisman are taking advantage of the unique opportunity to couple academic study with an aerospace research program as winners of 1991/92 Virginia Space Grant Consortium awards.

Katherine O'Neill came to William and Mary intending to study history and anthropology. The liveliness of her geology professor, Bruce Goodwin, led her to rethink her choice. "His enthusiasm for geology at 9 a.m. was contagious," she said. "By the third day in that class I decided I wanted to be a geology major."

The Stafford County native coupled her geology professor's influence with an interest in environmental matters, and choose a double major in environmental science and geology. "Geology led me into science, while the interdisciplinary nature of an environmental science major lets me pursue my interest in history and economics," says O'Neill.

O'Neill's research project uses space technology to document global changes. "I have been studying satellite imagery of Africa to determine what areas have burned, she says. "With this data, we can calculate the amount of carbon dioxide released into the atmosphere." Excess amounts of carbon dioxide, caused by burning vegetation—called biomass—have been linked to global warming, or the so-called "greenhouse effect."

"There are no accurate figures outside of the U.S. and Canada to document the amount of biomass burning," she says.

"This data will have implications for public policy as well as the more obvious environmental concerns." The results of her research will form the basis for an article in the magazine *Nature* and will also be part of an article for other scholarly journals.

Working with a biomass team at NASA Langley Research Center, O'Neill has done work that undergraduates don't normally experience. "I have learned how to use their imaging equipment and computers," she says, "as well as working with scientists and policy makers you only read about in newspapers." She credits the VSGC scholarship with giving her these opportunities.

Jean Stephens didn't have to travel far to attend William and Mary. The senior

majoring in chemistry is a 1988 graduate of York High School and is a native of Yorktown. "I chose William and Mary because of its well-established reputation and its history," she says.

Stephens says her interests and abilities could have taken her academic career in several directions. She began as an economics major but switched to chemistry. "Chemistry gave me the ability to solve problems," she says. Describing the feelings she gets from such problem solving as "a rush," she continues: "I appreciate the mental challenges in chemistry and the feeling I get when the light clicks on as I'm working through a difficult problem."

The research activity that is a component of her scholarship has given Stephens the opportunity to study the properties of the element boron that may make it an effective screening material for space applications. By adding boron to a polymer film which is then irradiated at the NASA Langley Research Center, Stephens hopes to discover the quality of boron's shielding properties. "If it works effectively in slowing down the radiation, this could be an effective shield that would protect occupants of space craft," she says.

Working with her adviser, Professor Richard Kiefer, Stephens plans to record the results of her research in a paper to be delivered next spring before the Virginia Academy of Sciences. After graduation she may continue her studies in graduate school or enter the job market, but has not decided on either yet.

She is sure of the value of the VSGC scholarship. Besides the monetary value, the scholarship has helped her shape her ideas about career choices. "This scholarship has given me the opportunity to conduct meaningful research, something that many undergraduates don't do," she says. "It has taught me what I like and don't like about being a research scientist. While I enjoy the discovery aspects, sometimes I don't like to wait for results, which can be frustrating."

Michael Glasgow, like Jean Stephens, is a chemist studying the shielding qualities of certain materials that can have applications in space. The Tennessee native graduated from Virginia Tech in 1989 and is now in the Ph.D. program in Applied Science at the College.

The two-year-old Applied Science program consists of a joint faculty from William and Mary, NASA Langley and the

Department of Energy's Continuous Electron Beam Accelerator Facility (CEBAF) in Newport News.

"Its diversity is its real strength," says Glasgow, who was in the first class accepted into the program. "Eventually, Robert Orwell, the director of the program, hopes to have 40 to 50 students in the program," he says. The program now includes a diverse group of students, including three students from outside the U.S. Course work covers several disciplines including chemistry, mathematics and physics.

Glasgow's course of study as a VSGC fellow examines the degrading effects of atomic oxygen. "The shielding of humans from slow neutrons. Atomic oxygen is very plentiful in the upper atmosphere," he says. "It is very degrading to materials that must operate in these regions." It is this aspect of the project that has interested NASA in his work.

Also of interest to the aerospace community is Glasgow's work in the shielding properties of polymers containing the compound Captan. Used as secondary shielding material, Captan-doped polymers can protect humans working in space from the effects of slow neutrons. "All of us have neutrons racing through our bodies without doing any harm," he explains, "but some neutrons are moving slowly enough to cause problems to humans." He cites the release of radiation from nuclear reactors as an example of slow neutrons. Abundant in space, slow neutrons are prevented by the atmosphere from doing much harm on the earth's surface.

Dan Chrisman, a Roanoke native, has spent his entire academic career at William and Mary. The 1979 graduate in chemistry returned to obtain a master's degree in computer science a decade later. "I wanted the best and the toughest school in the state," he says, "and I found that at William and Mary."

After his undergraduate work, Chrisman worked on a project at NASA Langley that would lead to his decision to attend graduate school and provide a research topic for his Ph.D. work in computer science. The project measured the earth's radiation budget—that is, the amount of energy that is absorbed by the earth as contrasted to that given off. This project led to a current study called CERES—Clouds and Earth Radiant Energy Systems. CERES is part of NASA's "Mission to Planet Earth," which will use space platforms to study conditions on our home planet.

Using his chemistry degree as scientific background, Chrisman is coupling atmospheric science with computer technology to develop software that will study the CERES data on parallel computers. "Parallel systems take individual tasks and divide them up among smaller processors," he says. This allows massive computations to be undertaken in much less time than with more conventional systems. These so-called "supercomputers" require coordination in their software to work efficiently.

The cost of software design makes it necessary to produce software that can be useful for many years, even considering the advances in technology.

"Since data from CERES will be coming in for 20 years, we need to look down the road at computer capabilities into the next century," Chrisman says. "The key," he adds, "is developing software portability between parallel computers."

Chrisman's work with NASA has inspired him to continue work in atmospheric science after he receives his degree in 1994. "The ideal job for me would be one where I conduct research, yet get to teach some as well." As a volunteer judge for a school science fair, he has some sense of the value of teaching. "I think it's important to encourage students to pursue science," he says.

Even at the graduate level such encouragement is important, Chrisman believes. "The value of the VSGC fellowship is the encouragement it gives to students to pursue graduate work. There are lots of incentives for people to go out and work," he says, "but fellowships like this encourage research like mine."

The Virginia Space Grant Consortium is a coalition of five Virginia Colleges and universities, The College of William and Mary, the University of Virginia, Hampton University, Old Dominion University and Virginia Tech, the National Aeronautics and Space Administration, various members of private industry, state government agencies and other institutions with wide ranging aerospace interests.

Consortium members include the Center for Innovative Technology, the State Council of Higher Education for Virginia, NASA Langley Research Center, the Virginia State Department of Education, the Science Museum of Virginia, the Virginia Air and Space Center, the Virginia State Chamber of Commerce, the Mathematics and Science Center, and Virginia's Center for Public and Private Initiatives.

The Rainbow Connection Coming To Muscarelle

The Rainbow Connection, a group of elementary and middle school students, under the direction of Genrose Lashinger, a music teacher at Matthew Whaley, will present a vocal program of seasonal and secular music at 3 p.m. Sunday, Dec. 8, at the Muscarelle Museum of Art. An informal reception will follow.

HACE Holiday Celebration

Quartet, Scammon On Program Dec. 10

The Hourly and Classified Employees Association, HACE, invites all members of the College community, faculty, staff and administrators to its Annual Holiday Celebration at 1 p.m., Tuesday, Dec. 10 in the Campus Center Ballroom.

Musical entertainment will be provided by "Best of Friends" a quartet featuring Teresa Munford, director of advancement systems, Sherry Barra, Beverly Baldwin and Janet Vanderverg.

The program will also include a special guest appearance by Howard Scammon, professor of theatre and

speech emeritus.

Holiday sweets and refreshments will be provided.

Those planning to attend are asked to bring a donation of canned food to be distributed to needy families in the area during the holiday season.

The December Employee of the Month will be announced at the meeting. Employee of the Month for November was Miles Ellis of Residence Life.

HACE members at the meeting will be eligible for a door prize.

Alumni Will Host Student Receptions

Alumni in some of the Atlantic states will host receptions to give students and fellow alumni the opportunity to discuss careers as well as employment and internship opportunities in the region.

All students, regardless of academic status, are encouraged to take advantage of the hospitality of alumni.

Receptions will be held as follows: Atlanta, Jan. 6; Boston, Jan. 6; Philadelphia, Jan. 7; Richmond, Jan. 7; New York, Jan. 8; South Hampton Roads, Jan. 8; and Washington, D.C., Jan. 9.

Those who are interested in participating must register for each reception with Teresa Lemons in Blow Hall 123 by Friday, Dec. 6.

Information regarding the exact location of the receptions and other details will be mailed over Christmas break to those who register.

Students Learn Career Skills In Debate

CONTINUED FROM PAGE 4.

the skills of analysis and persuasion they learned in competition.

Five recent debaters have earned doctorates in speech and teach on the college level, Bill Harpine at Butler University, Nancy Dunbar at Brown University, John Morello at Mary Washington College, Glen Clatterbuck at Butler University and Dean Hughes at the University of Minnesota. Hughes is considered one of the country's leading authorities on small group research.

Dan Gepford and Evan Johnson paid their way through law school at Duke University as assistant debate coaches. Charles Kennedy, a successful New York patent lawyer, was an assistant debate coach during law school at the University of Virginia.

Sayoko Blodgett Ford, a 1990 honor graduate in physics, received a perfect score on her LSAT examination.

Laura Forrester, currently in law school in Chicago, says she is "making it

on debate skills."

Responses from a recent letter to debate alumni indicate that many former debaters have happy memories of their experience.

"I can attribute what measure of success that I have as county attorney for Prince William County in part to my William and Mary debate experience" writes Sharon Pandak '75.

"My oldest memory of debate tours was one rainy night at Gettysburg College. Present were three men from each team, three judges, one presiding officer and one spectator! Starting that tour was a shipboard trip to New York on which we passed through a storm and one debater become terribly seasick," recalls M. Carl Andrews '27, Roanoke, Va.

"My 1934 championship debate cup sits on my dresser reminding me of the great times I had in William and Mary debate," writes Harriet Council Mead '35 of Orlando, Fla. "I am still using my skills in talks about books. I am a writer now."

Moot Court Team Headed For Nationals

The Moot Court Team of the Marshall-Wythe School of Law has won a berth in the National competition by winning second place at the Regional Moot Court Competition in Richmond, Nov. 16.

Team members were Paige Budd, Ruth Carter, and Tom Jones.

First and second place winners in the nationwide regionals will go on to the National Moot court Tournament in New York in January.

The Marshall-Wythe team has won two of the last three annual National competitions which are sponsored by the American College of Trial Lawyers and the New York City Bar Association.

Library Fundraiser

Yvette Asbury, manager of the Williamsburg Ben & Jerry Ice Cream Parlor on Richmond Road (1), hands a check for \$750 to University Librarian Nancy Marshall, at the close of a successful fund drive during October. For the past two years, Ben & Jerry's has donated 50 cents of each ice cream sundae sold during October to the library. This year the fund total was \$100 over last year. Frank Salzman, of McLean, Va., owner of the Ben & Jerry franchises in Williamsburg and Maryland has indicated that he plans to make October in Williamsburg "William and Mary Library Month" next year. Known nationally for philanthropic projects, the Ben & Jerry company has only one library project, the one for William and Mary.

Recent Grants

Anthropology

Moyer, Curtis, archaeologist, "Conservation of Hornsby Artifacts," Colonial Williamsburg Foundation, \$1,140.

Archaeology Project Center

Blanton, Dennis B., co-director/research, and **Donald W. Linebaugh**, co-director/administration, "Phase I Cultural Resource Survey of the Proposed Route 622 Project, Frederick County, Va.," Virginia Department of Transportation, \$4,974.

Blanton, Dennis B., co-director/research, and **Donald W. Linebaugh**, co-director/administration, "Artifact Cataloging for the Governor's Land Project, James City County, Va.," James River Institute of Archaeology, \$15,000.

Blanton, Dennis B., co-director/research, and **Donald W. Linebaugh**, co-director/administration, "Phase II Evaluation of Architectural Structures Associ-

ated with the Route 501 Project, City of South Boston, Va.," Virginia Department of Transportation, \$9,259.

Blanton, Dennis B., co-director/research, and **Donald W. Linebaugh**, co-director/administration, "Phase I Cultural Resource Survey of the Proposed Route 629 Project in King William and King and Queen Counties, Va.," Virginia Department of Transportation, \$5,394.

Blanton, Dennis B., co-director/research, and **Donald W. Linebaugh**, co-director/administration, "Additional Phase I Archaeological Survey in Conjunction with the GWEN Project in Nelson County, Va.," SRI International, \$500.

Blanton, Dennis B., co-director/research, and **Donald W. Linebaugh**, co-director/administration, "Additional Phase I Survey - Proposed Route 17 Toll-

booth Project, Gloucester County, Va.," Virginia Department of Transportation, \$1,906.

Blanton, Dennis B., co-director/research and **Donald W. Linebaugh**, co-director/administration, "Phase II Architectural Evaluation of Structure #3, SMRT Highway Corridor, Montgomery County, VA.," Virginia Department of Transportation, \$7,620.

Blanton, Dennis B., co-director/research and **Donald W. Linebaugh**, co-director/administration, "Conservation 1991 Field Season," The Mount Vernon Ladies Association of the Union, \$460.

Chemistry

Abelt, Christopher J., associate professor, "Scholar/Fellow Program for Undergraduate Institutions," The Camille and Henry Dreyfus Foundation, Inc., \$65,000.

Kranbuehl, David E., professor, "Investigation and Tests of Molecular Composite," General Dynamics Corporation, \$4,000.

Computer Science

Park, Stephen K., professor, with **Deborah McDaniel**, graduate student, "Digital Image Fidelity Metrics," National Aeronautics and Space Administration, \$22,000.

Mathematics

Johnson, Charles R., professor, "Combinatorial Matrix Theory," Office of Naval Research, \$37,500.

Administration

Miller, Madelyn, safety analyst, and **Nancy S. Nash**, assistant to vice president for administration and finance, "Institutional Conservation Program," U.S. Department of Energy, \$79,177.

NOTES

Williamsburg Choral Guild

The Williamsburg Choral Guild will give a concert at 8 p.m. tonight at the Williamsburg Baptist Church, 227 Richmond Road. The conductor is Genevieve McGiffert.

Admission is free but a goodwill offering will be taken.

For further information call Patricia Rublein at 229-5782.

Wermiel To Speak On 'Changing Supreme Court'

Stephen J. Wermiel, visiting Lee Professor of Law at the Marshall-Wythe School of Law, will discuss "The Changing Supreme Court" at 9:45 a.m., Sunday, Dec. 8 in a public forum sponsored by the Williamsburg Unitarian Universalists, at Clara Byrd Baker School, 3131 Ironbound Road.

Wermiel's presentation will be followed at 11 a.m. by the weekly Sunday service of the Williamsburg Unitarian Universalists.

Wermiel, who holds a law degree from American University, is on leave as Supreme Court reporter for *The Wall Street Journal* during his tenure at Marshall-Wythe. He is currently writing the authorized biography of former Supreme Court Justice William Brennan.

For further information, call 220-6830.

Christmas At Ash Lawn

The museum shop at Ash Lawn-Highland, home of James Monroe in Charlottesville, will be open for a special evening of Christmas shopping from 5 to 9 p.m., Saturday, Dec. 14. A 10 percent discount will be offered on all purchases that evening, and refreshments and free gift wrapping will be available.

"Christmas By Candlelight," will be presented at 7 p.m., 7:45 p.m. and 8:30 p.m., Saturday, Dec. 7. Tickets, \$7 for adults; \$3 for children 2-11.

Also at Ash-Lawn-Highland, "Gingerbread and Lace: A Christmas Celebration," 6:30 p.m., Friday, Dec. 13. Tickets by advance reservation. Adults \$7; children 2 to 11, \$4.

"Cut Your Own Christmas Tree," Dec. 7, 8, 14, 15, 21 and 22 from 10 a.m. to 4 p.m.

For further information call (804) 293-9539.

Civil War Reenactment

"Christmas In The Field," a Civil War encampment, War Memorial Museum of Virginia, 9285 Warwick Blvd., Newport News, 8 p.m., Friday, Dec. 13. Also Saturday and Sunday, Dec. 14 and 15, 9 a.m., to 5 p.m.

For details contact Jill Hetman or Corfliss Tacosa 804/247-8523.

'A Taste Of The Past'

Colonial Williamsburg is offering "A Taste of the Past" tours Saturdays in December.

The two-hour walking excursion introduces participants to period dining customs of the season through visits to homes and a kitchen in the Historic Area. It concludes with lunch at a Colonial tavern. Tickets are \$25 at the special programs desk at the Visitor Center and must be purchased by 4 p.m. the day prior to the tour.

For reservations and information, call 220-7643.

Petersburg Holidays

"Trees of Christmas," in Petersburg, Dec. 6-20. Petersburg Christmas Parade, 3 p.m. Dec. ,

"Legendary Christmas," walking tour, Chesterfield Courthouse, 6-9 p.m. Dec. 14.

'Explorations In Space And Astronomy Days'

200 Mid-Atlantic Students Meet Here Dec. 7

About 200 students from throughout the mid-Atlantic region will attend "1991 Explorations in Space and Astronomy Days" to be held here Saturday, Dec. 7, sponsored jointly by the College, The Johns Hopkins University Center for Talented Youth (CTU) and the Virginia Space Grant Consortium.

The one-day program is designed to introduce gifted and talented eighth and ninth graders and their parents to the field of space exploration and technology and is part of The Johns Hopkins University CTU national special events programs for gifted pre-college students.

The program, consisting of a series of activity-centered workshops, will focus on how space science can address the problems of global change including ozone depletion, acid rain, the greenhouse effect and other environmental issues. The workshops are designed to provide hands-on learning experiences for students who already have a general background on these subjects. In the workshop setting, students will have an opportunity to examine the specifics of subject areas with

experts in the field.

Parents of these students will be attending a parallel schedule of workshops addressing issues such as planning aca-

demical programs for talented students, social and emotional needs of gifted students, and college placement.

Goodwin Islands To Benefit From Boy Scouts' Good Deeds

Members of Boy Scout Troop 123 in York County will earn community service hours for their troop and help the Chesapeake Bay by cleaning the Goodwin Islands National Estuarine Research Reserve on Saturday, Dec. 7.

Members of the troop, based in Seaford, will be shuttled to and from the islands aboard boats operated by the Virginia Institute of Marine Science. The cleanup is sponsored by VIMS through the Chesapeake Bay National Estuarine Research Reserve System in Virginia. Estuarine debris cleanups are held quarterly at the Goodwin Islands Research Reserve, located in York County at the mouth of the York River. The September

cleanup netted more than 750 pounds of trash. The cleanups are part of a volunteer-driven study of the types and seasonal occurrences of garbage on U.S. beaches.

The Goodwin Islands, owned by the College, are one of four York River sites designated as National Estuarine Research Reserves in June 1991. They are an archipelago of marsh islands with submerged aquatic vegetation beds, oyster reefs and shallow, open estuarine waters.

For more information on the Goodwin Islands Beach Clean-Up or to learn how you or your organization can help in future projects in Virginia's Estuarine Research Reserves, call Bland Crowder at 642-7135.

CLASSIFIED ADVERTISEMENTS

Classified ads are included as a service to members of the College community and will be accepted from faculty, staff, students and alumni only. Ads should be no longer than 40 words and must be submitted in writing to the William and Mary News office no later than 5 p.m. on the Friday preceding the first insertion.

FOR SALE

Used Conn trumpet in very good condition, \$125. Call 565-1434, leave message.

ROWE furniture sleeper sofa with Serta Perfect Sleeper mattress. Rust with subtle cream pattern. Excellent condition, must see. \$300. Call 229-7715, 6 to 9 p.m.

Queens Lake: beautiful home on a beautiful lot on a quiet cul-de-sac in prestigious Queens Lake. Four BRs, 2-1/2 baths, spacious storage. Gold Medallion, all-electric home. Many extras. Price: \$208,500. Shown by appointment, call 229-0057.

1991 red Capri convertible XR2 turbo sports car. 5-speed, AC, all power equipped, stereo system, cruise control, 5,700 miles. Like new. \$14,990. Call ext. 12325.

Sears Kenmore clothes dryer. \$85. Call 220-8125.

15-ton hydraulic wood splitter, \$750. Call Lloyd Larson, 566-0769.

Small apartment size refrigerator in good working condition. \$35. No delivery, must pick up. Call 221-2320. (12/11)

Kittinger sofa in prime condition; 2 years old, green silk cover. Also selling hand-crafted Windsor chairs. Call ext. 12610 or 229-7896.

Huffy exercise bike with timer, odometer and speedometer, adjustable tension. Call Joy Larson, 566-0679.

10-speed bicycle, 26", great condition, \$80; water purifier, hardly used, \$360 new (have receipt), \$95; Lenox china, Rosemond pattern (pink with blue border), 4-piece, \$40; woman's ski outfit, size small, teal blue with white and maroon design, worn twice, \$285 new (have receipt), \$140. Call 1-340-9180.

Stereo components: tuner/receiver (KLH), turntable (Technics), stereo cassette deck (Sharp). Computer: NEC portable dual disk drive, Citizen printer, 40 Mbyte, peripheral, hard drive, assorted

software. Contact Julia at 642-0288.

Four bar stools, captain's chair style, swivel, gold ring foot rest, good condition, seat height 29" from floor. \$30 each or 4 for \$100. Call 220-0929.

BSR record changer (need receiver and speakers to use), and 30+ mood music and Christmas records, \$25. Call Cathy at ext. 12362.

Jamestown 1607, 3 BRs, 1-1/2 baths, 1,210 sq. ft., all appliances. Pool and clubhouse facilities available. Price \$64,900. Call ext. 12994 (days) or 220-3637 (evenings).

1987 Toyota LE van, 7-passenger, dual AC/heat; power locks/mirrors. Excellent condition and well maintained; 37,000 miles. \$8,250. Call ext. 13252 or 220-3698.

1984 Honda Accord, 2-door LX, 5-speed, AC, AM-FM cassette, cruise control, power steering and brakes, 102K, new tires, brakes and muffler, excellent condition. \$3,500 or best offer. Call 642-0197 (home) or 642-7219 (VIMS).

Two black velour dresses, size 4, removable collars, \$7.50 each. Also red velvet dress, size 3. Call 565-2819 after 6 p.m., Mon.-Fri.; Sat. and Sun., 9-11 a.m. and 5 to 9 p.m.

Honda scooter, good condition, runs well, maximum speed 40 mph. Great for campus because you can park anywhere. Will sell with helmet and kryptonite lock. Price negotiable. Call Jon at 221-1208 before 5 p.m.

Computer, IBM compatible XT with turbo board, 30 MB hard drive, two 5-1/4" disk drive, color graphics adapter, B&W high resolution monitor or composite monitor that can be used with VCR, Wordperfect and lots of software. \$300. Call 220-2757.

FOR RENT

Spacious furnished home on a beautiful waterfront lot. Herons, osprey, eagles, otters, crabs and marsh grass outside; tile floors, panoramic win-

dows and jacuzzi inside. Call 229-0902 or ext. 13511.

Queens Lake, 3,000 sq. ft. ranch, 4 BRs, 2-1/2 baths, living, dining and family rooms, 2-car garage (all oversize), two fireplaces. Beautifully furnished or unfurnished. Long or short lease. Attractive rent to caring family. Call 220-3408 or 813-475-9614.

Townhouse, ideal for graduate/law students or visiting faculty. Fantastic location, quiet, wooded view, private deck, 2 large BRs, 2-1/2 baths, fireplace, unfinished basement, new appliances. \$610 per month + utilities. Available mid to late Dec. Call 229-1471 and leave message.

Jamestown 1607, 3 BRs, 1-1/2 baths, all appliances. Pool and clubhouse facilities. \$575 per month + utilities. Available Jan. 1. Call 220-3637.

Roommate. Comforts of home. Executive living for mature students or single professionals. Clean, furnished house with cathedral ceilings, wooded riverfront neighborhood with beach and marina, tennis, big park, lake and more. AC, all appliances, dishes, huge deck, grill. \$295, share expenses with '85 W&M grad. Call 220-8349.

WANTED

Bookkeeper needed by local contractor, part-time, 20 hours per week, flexible schedule. Knowledge of computerized G/L, A/R, A/P, P/R, J/C, and clerical skills required. \$6 per hour. Send resume to 4777 Bristol Circle, Williamsburg, VA 23185.

Roommate. Looking for non-smoking M/F grad or mature upperclass student. Nice house, quiet neighborhood, W/D, microwave, cable TV, plenty of parking, large yard, less than 2 miles from campus. \$197 per month + 1/4 utilities. Call 229-0159. Between Dec. 20 and 28, please call 305/752-4441.

W&M '90 grad looking for housing within walking distance from campus starting Jan. or Feb. Call ext. 13388 and leave message.

LOST

Ring lost Nov. 11 at or around Jones Hall (computer, math, education building). Please call 229-3579 if you find it. Reward offered.

EMPLOYMENT

June 30. #H165. Location: VIMS (Chemistry and Toxicology).

Postal Assistant (Unclassified)—\$6.49 per hour, part time, approximately 30 hours per week. #H243. Location: Post Office.

Computer Operator (Unclassified)—\$7.76 per hour, part time, approximately 30 hours per week. Usual working hours are Monday and Friday, 9 a.m.-3:30 p.m.; Saturday, 8 a.m.-5 p.m.; Sunday, 1:30 p.m.-midnight. Hours may vary occasionally. #H199. Location: Computer Center.

Secretary (Grade 4)—Entry salary \$13,502. #N065. Location: Athletics.

Research Vessel Mate (Grade 8)—Entry salary \$19,283. Restricted appointment with funding subject to renewal June 30. #146. Location: VIMS (Vessels). Deadline Dec. 13.

Laboratory Technician (Unclassified)—\$6.49 per hour, part time, approximately 30

hours per week. Restricted appointment with funding subject to renewal March 31. #H023. Location: VIMS (Biological and Fisheries Sciences). Deadline Dec. 13.
