# WILLIAM & MARY

A WEEKLY NEWSPAPER FOR FACULTY, STUDENTS AND STAFF

## NEWS

VOLUME XXI, NUMBER 28 • WEDNESDAY, APRIL 22, 1992

Consistent with tradition, members of the senior class are invited to ring the Wren Building bell on the last day of classes, Friday, April 24, from 10 a.m. to 5 p.m.

### REMINDERS

#### Donaldson On Biography

Scott Donaldson, Louise G. T. Cooley Professor of English, will discuss the joys and problems of writing biography at 7:30 p.m., Thursday, April 23 in the Botetourt Theatre of Swem Library.

A reception will follow. A selection of Donaldson's working papers will be exhibited in the Gallery.

His talk is sponsored by the Williamsburg Bibliophiles.

#### Spring Concerts

The William and Mary Choir and Chorus, Frank T. Lendrim conducting, will present concerts at 8:15 p.m. Friday and Saturday, April 24 and 25 in Phi Beta Kappa Memorial Hall.

General admission is \$3. Tickets are on sale at the main desk of the Campus Center and at the PBK box office, which opens at 1 p.m. daily.

#### Friends of the Library

Ronald Kessler, journalist and author, will be guest speaker at the annual Friends of the Library dinner Friday, April 24 at 7 p.m. in the Campus Center Ballroom. Tickets are \$22 per person. For reservations call John Haskell at ext. 13254.

#### Writing Center Open

The Writing Resources Center, Tucker 115A, will remain open for the first week of final exams from Monday, April 27 through Friday, May 1.

The Center will close Friday, May 1 at 4 p.m. but will reopen for both summer sessions.

Call ext. 13925 or stop by to make an appointment.

#### No News Next Week

There will be no *William & Mary News* on April 29. The next regular issue will be May 6. Items for that issue should be submitted by Friday, May 1.

## Nine Receive School Of Education Awards

The importance of education, the value of intangible gifts of encouragement from faculty members and the excitement of students who have chosen education as a career were expressed in a variety of ways by winners of School of Education honors at the school's annual awards luncheon Wednesday, April 15 in the Dodge Room of Phi Beta Kappa Hall.

Tracy Eggleston Duchanin and Michelle Renee Loomis were recipients of 1991-92 Frederick L. Hill Mathematics Teaching Scholarships.

"In my endeavors, I will wish to be remembered by my students as one who truly prepared them for their life pursuits," said Duchanin.

Duchanin will receive her undergraduate degree in mathematics in December. A resident of Virginia Beach, she decided that she wanted to teach high school students while working as a volunteer sponsor of a church group. She says that her primary goal is to present the study of mathematics in an interesting, relevant way.

Loomis, a senior and a native of Madison, Conn., received the Daniel Hand Excellence in Mathematics Award for two years while in high school. She has tutored high school students in math and worked as a volunteer here on campus for the Adult Skills Program. In addition to being a math major, Michelle has a minor in economics and will be inducted into the undergraduate Economics Honor Society.

While a student at William and Mary, Loomis coached a community youth soccer team, played lacrosse and was the lacrosse team captain.

Each year since 1984, Fred Hill, a resi-

School of Education award winners. Left to right: seated, Holly Drewer, Sharon Laverdure and Tracy Duchanin; standing, Lisa Sarandos, Moira Plotnik, Nancy Ochs, Andrea McArthur, Laura Carlson and Michelle Loomis.

dent of Williamsburg, has contributed \$1,000 to fund an annual scholarship for aspiring teachers of mathematics. Thanks to a matching contribution from Hill's employer, the Anheuser-Busch Corporation, the School of Education has been able to award two \$1,000 Fred Hill Mathematics Teaching Scholarships each year. The scholarships are presented to two students who are pursuing certification to teach secondary school mathematics, possess the personal qualities desirable in a teacher and are committed to teaching mathematics after completing college and/or graduate school.

The Helen C. Hopper Memorial

Scholarship was won by Laura Johnson Carlson. Carlson is completing her master's degree in agency counseling. After earning a B.A. in social work from the University of Wisconsin at Madison in 1981, Laura worked for eight years with the Campus Crusade for Christ in San Bernadino, Calif. She has also served as a volunteer/tutor in hospital, school, campus and day-care settings. For her thesis, Carlson has developed a position paper on the importance of integrating psychology and religion within the counseling context.

CONTINUED ON PAGE 6.

## '92 Class Selects Honorary Marshals

The Senior Class has selected four members of the faculty and an administrator as Honorary Marshals to lead the Class of 1992 across campus to commencement in William and Mary Hall on May 10.

Marshals for the Class of 1992 are Joe Agee, professor of kinesiology; Carroll F. S. Hardy, associate vice president for student affairs; Julius J. Mastro, lecturer in government; and Cirila Djordjevic, Garrett-Robb-Guy Professor of Chemistry.

Marshals are chosen by members of the senior class for their contributions to students, especially those in the graduating class.

Names of the new marshals were announced by senior class president John Graham at the annual awards luncheon April 21.

April 16, 1992

To the William and Mary Community,

Anne and I have been overwhelmed by the expressions of support and congratulations we have received from so many of you.

We are truly grateful for your kindness, and we have great confidence that—working together—we can make William and Mary a community in which each of us feels welcome and important.

No university in America has more reason to be optimistic about the future.

Let us work together in a spirit of caring and mutual commitment so as to make our success certain.

## Departments/Schools

### Geology

Professor **Bruce K. Goodwin** attended the meeting of the Northeastern Section of the Geological Society of America in Harrisburg, Pa., March 25-28. At that meeting he presented a paper co-authored with professors **Stephen C. Clement**, **Matthew Beebe** and **Heather Macdonald** on "Geology in a Gravel Pit."

### Kinesiology

**Ray McCoy** and **Steve Haynie**, associate professors, attended the National American Association of Health, Physical Education and Recreation convention in Indianapolis, April 8-11.

McCoy presented a paper and slide presentation on "Three-Dimensional Kinesmatic Analysis of Elite Shotputting" in a session on Biomechanical Aspects of Sports Performance in Elite Athletes. Haynie participated in a panel of advisers in a session titled "Student—How To Get the Most Out of Your Majors' Club."

McCoy has received the following grants from the Athletics Congress of the USA: \$4,500 for a biomechanical analysis of elite shotputters, which will be conducted at the 1992 Summer Olympic Games in Barcelona, Spain; \$5,000 for biomechanical analysis of elite shotputters and discuss throwers for the 1992 season; \$4,500 for a study of the effects of varying abdominal support on the intra-abdominal pressure and the compressive and shear forces on the lumbar spine during lifting.

**John M. Charles**, associate professor, has published "Kinesiology in the Liberal Arts," in *Quest* (April 1992, Vol. 44, No. 1, pp. 122-126), the quarterly journal of the National Association for Physical Education in Higher Education.

### Music

**Katherine Preston**, assistant professor, read a paper titled "The Multifaceted Audience for Operatic Music in Antebellum America" before the national meeting of the Sonneck Society for American Music in Baton Rouge, La., Feb. 14.

The Sonneck Society has awarded a grant of \$2,500 to Preston to assist with the costs associated with the publication of her book, *Opera on the Road: Traveling Opera Troupes in the United States, 1825-1860*, to be published by the University of Illinois Press in early 1993.

### Philosophy

*The Encyclopaedia of Ethics*, edited by **Lawrence Becker**, Kenan Professor of the Humanities, has been published by Garland Publishing Company.

**Dorothy Coleman**, associate professor, has published an article titled "Partiality in Hume's Moral Theory" in *The Journal of Value Inquiry*.

*Logic, God, and Metaphysics*, edited by **James Harris**, Haserot Professor of Philosophy, has been published by Kluwer Academic Publishers.

### Psychology

**Warner, Megan L.**, and **Shaver, Kelly G.**, "Cognitive Consequences of Attributional Distinctions: Evaluations of Marital Conflict."

**Welch, Melissa K.**, and **Shaver, Kelly G.**, "Perceptions of Violence in Marital Relationships: The Attribution of Causality, Responsibility, and Blame."

**Weber, Molly A.**, and **Shaver, Kelly G.**, "Just World Beliefs and Attributions of Causality, Responsibility and Blameworthiness to People with AIDS."

**Megan L. Warner**, a 1991 graduate, reported on her honors thesis research in psychology. Welch and Weber are both students in the department's predoctoral M.A. program; each paper was a report of a first-year project.

Professor Shaver served recently as chair of the Social Sciences Review Panel for the Louisiana Educational Quality Support Fund, a grant program administered by the Louisiana Board of Regents. The panel is charged with providing initial research grants to enhance the national competitiveness of highly promising Louisiana scholars. Members of the panel include Claire B. Kopp, University of California, Los Angeles; and M. Stephen Weatherford, University of California, Santa Barbara.

Shaver served on a review panel in the Small Business Innovation Research (SBIR) program of the National Institutes of Health.

A paper titled "Person, Process, Choice: The Psychology of New Venture Creation," co-authored by Professor Kelly G. Shaver and former undergraduate student **Linda R. Scott**, was published in *Entrepreneurship Theory and Practice*, 16,

## Fotis Committee Seeks Feedback

A committee has been formed for the purpose of conducting a review of the administrative performance of Fred Fotis, director of residence life. A review of this sort is required at certain intervals under the College's established procedures. The committee wants to give a broad hearing to interested members of the College community about Fotis' performance of his assigned tasks.

According to the job description for this position, the duties of the director include (though they may not be limited to) "staff selection, training, supervision and evaluation; residence hall programming; participation in the development of policies applicable to the residences and enforcement of these policies; development of residence hall governing councils; planning; building management; improvement of facilities; coun-

seling with regard to the residents' concerns; and interaction with student groups, the faculty and appropriate administrators concerned with the College's residence life program."

The committee is presently preparing a random survey to be distributed, but would like to invite anyone who wishes to do so to write to them, via their chairperson, about the performance of Fotis. If anyone would like to speak to the committee directly, he or she is invited to contact the chair (ext. 12163) so that an opportunity can be provided for such a response.

Linda Collins Reilly, chair  
Joel Schwartz  
Bud Robeson  
John Marcoux '92  
Nicole Wagner '92  
Jennifer King '93  
Kiernan O'Shea '93

23-45. Shaver has recently described this psychological approach to the study of entrepreneurship in talks at the University of Houston, Claremont McKenna College, and the University of California, Irvine.

### School of Education

Professor **Kevin Geoffroy** has been presented with the Professional Advancement Award by the Association for Specialists in Group Work. The presentation was made at the 1992 National Convention of the American Association for Counseling and Development in Baltimore in March.

The award cites Geoffroy for outstanding and significant contributions to advance the field of group work, noting especially his service as founding editor of *The Journal for Specialists in Group Work*.

### School of Marine Science

**Chris Buzzelli**, a Ph.D. student in marine science, has been awarded a fellowship sponsored by the National Oceanic and Atmospheric Administration's Office of Sea Grants and its Sanctuaries and Reserves Division.

The fellowship is administered by the Virginia Sea Grant College Program and the Chesapeake Bay National Estuarine

Research Reserve System in Virginia. Virginia is the first state to offer the fellowship.

Using the Goodwin Islands National Estuarine Research Reserve as his study area, Buzzelli will measure oxygen production in beds of eelgrass, *Zostera marina*. He will compare it to oxygen production in similar areas without eelgrass and to that in eelgrass beds disturbed by boating. Submerged aquatic vegetation like eelgrass provides habitat for commercially important species, such as the blue crab.

In general, the more oxygen an eelgrass bed produces, the healthier it is. Cloudy water decreases oxygen production because it blocks some of the light the plants could use for photosynthesis. In the Chesapeake Bay system, cloudy water is a major contributor to eelgrass death.

Buzzelli's work also will contribute to the science base being developed to support restoration of submerged aquatic vegetation communities.

Buzzelli, a 1988 *cum laude* graduate of the College of Charleston, received his M.A. degree in marine science from William and Mary in December. His interests lie in the ecology of seagrass, and saltmarsh and mangrove systems.

## Associate Provost For Affirmative Action

### Candidate Forums Set Next Week

All faculty, staff and students are invited to meet in open forums with the four finalists for the position of Associate Provost for Affirmative Action. After the candidates present a brief overview of their philosophies of affirmative action, members of the College community will be encouraged to ask questions. All sessions will be held in the Campus Center, Room E. Those participating are encouraged to send their comments to Jean Scott, acting associate provost, The Brafferton Kitchen, by 5 p.m. on Monday, May 4.

The forum schedule is as follows:

Monday, April 27 at 2:45 p.m.: James Anderson, professor of psychology and director of the Benjamin E. Mays Acad-

emy of Scholars, Indiana University of Pennsylvania.

Wednesday, April 29 at 2:45 p.m.: Reginald L. Jones, Distinguished Professor of Psychology and Special Education and chair, department of psychology, Hampton University, and former faculty assistant for academic affirmative action, University of California, Berkeley.

Thursday, April 30 at 2:15 p.m.: Toni M. Eisner, director, Office of Equal Opportunity Programs, Florida International University. (Please note the time difference for this forum only.)

Friday, May 1 at 2:45 p.m.: Herminia T. Gardner, director, Affirmative Action/Equal Opportunity, Clark University.

## Child Care Center Proposes Before-School Program

The Sarah Ives Gore Child Care Center is considering a before-school program next year for children six to 10 years of age who attend Matthew Whaley School.

The program would follow the 1992-93 Williamsburg-James City County School District schedule.

Children would be supervised from 7 a.m. until the school bus picks them up. Breakfast will be served. There will be a cost for this program.

The new plan would be beneficial to parents on an 8 a.m.-to-5-p.m. schedule who have to make special arrangements for their elementary school children.

This program is still in the formative stage and is dependent on the level of interest from parents.

Those who would like to participate are asked to complete and return the form below via campus mail to Fran Dorsey at the Gore Child Care Center.

For further information, call Fran Dorsey at ext. 12121.

Name of Parent \_\_\_\_\_

Phone No. \_\_\_\_\_

Name(s) of Child/Children: \_\_\_\_\_

\_\_\_\_\_ Age \_\_\_\_\_

\_\_\_\_\_ Age \_\_\_\_\_

Please return to Fran Dorsey, Sarah Ives Gore Child Care Center by Monday, May 4.

## Odyssey of the Mind Finalists Here Saturday

State finals of the Odyssey of the Mind competition will be held on campus Saturday, April 25.

The Odyssey of the Mind Program is for gifted students, grades 4-12. Teams compete in a series of creative problem-solving activities.

It is anticipated that 250 teams from across the state (3,000 to 5,000 students),

their school representatives and their parents will be on campus for the day's event.

An award ceremony will be held in William and Mary Hall at the end of the day.

Susan Nunemaker is the state director of Virginia Odyssey of the Mind.

## NOTES

### Conference On European Studies

Students from upper-level seminars in the French and German sections of the modern languages department will present papers on topics ranging from the 19th-century French novel to cinema in Weimar Germany at a Student Conference on European Studies on campus Friday and Saturday, April 24 and 25.

Sessions will be held from 7 to 9 p.m., Friday, April 24 and from 2 to 6 p.m., Saturday, April 25. Both sessions will be held in Washington 201.

For details contact Jennifer Taylor at ext. 13638.

### Summer Physical Activity Classes

Members of the faculty and administration are cordially invited to attend one of the physical activity classes offered by the kinesiology department this summer.

The following classes will be offered during the first session of summer school, June 1 to July 3: swimming, levels two and three; backpacking; white-water canoeing, levels one and two; kayaking; rock climbing; and windsurfing. See the summer school catalog for details of time and instructor.

Those interested in joining one of the classes are asked to contact either the instructor or the department office at ext. 12755 for further details about courses and how to use tuition benefits.

### Book Sale

The Friends of the Williamsburg Regional Library will hold a spring book sale from 10 a.m. to 5 p.m., Saturday, May 2 and 1 to 5 p.m., Sunday, May 3 at the library.

Members of Friends of the Williamsburg Library are invited to a special advance preview of the sale from 6:30 to 8:30 p.m., Thursday, April 30. Memberships may be purchased at the door that night.

The Williamsburg Regional Library is at the corner of Boundary and Scotland streets. For more information call 220-7228.

### Williamsburg Symphonia

The Williamsburg Symphonia will feature Anders Martinson of California, an 18-year-old piano soloist who is a Presidential Scholar in the Arts, in its final concert of the 1991-92 season at 8:15 p.m., Sunday, April 26.

Guest conductor Thomas Wilkins and composer Alan Stein will hold a pre-concert discussion about the program beginning at 7:15 p.m. This "Classical Conversation" is free to patrons.

For tickets and information call 229-9857. Tickets may be purchased at Suzi's Art Supplies, Williamsburg Crossing Shopping Center.

### Chamber Ballet Presents 'Coppelia'

The Chamber Ballet of Williamsburg will present "Coppelia" at 2:30 and 8 p.m., Saturday, May 2 and 2:30 p.m., Sunday, May 3 in Phi Beta Kappa Memorial Hall.

All seating is reserved.

Tickets may be purchased at the ballet studios in the Kingsgate Greene Shopping Center on Waller Mill Rd., and two hours prior to each performance at the Phi Beta Kappa Memorial Hall box office.

For additional information, call 229-1717.

### McAlister To Give Shapley Lectures

Harold A. McAlister, professor of physics and astronomy and director of the Center for High Angular Resolution Astronomy at Georgia State University in Atlanta, will give two lectures on campus this week.

The American Astronomical Society's Harlow Shapley Visiting Lecturer, McAlister will give a public lecture on "Giant Telescopes of the Future" at 7 p.m., Thursday, April 23 in Small 109.

He will also speak at the physics colloquium at 4 p.m., Friday, April 24 in Small 109. His topic will be "High Resolution Astronomical Imaging."

McAlister and scientists at Georgia State University are currently using new technologies in electronic sensors, fiber optics and inexpensive computers to give astronomy some promising low-budget capabilities and a telescope that costs about one-fifth the price of a more conventional instrument with similar abilities.

The Shapley lectureship honors Harlow Shapley (1885-1972) who was president of the American Astronomical Society from 1943 to 1946.

## Christensen Gives Master Teacher Seminar At Business School

C. Roland Christensen, at left, and Associate Professor John Boschen at the seminar on case method teaching. Boschen organized the seminar, which was funded by a grant from Goldman Sachs and developed by the former dean of the School of Business, John Jamison.

C. Roland Christensen, a nationally recognized teaching expert and a longtime professor at Harvard University, presented a seminar on "Classroom Discussion and the Case Method" at the Col-

lege April 10-11 in Blow Memorial Hall.

According to Christensen, the primary focus of case method teaching is discussion teaching. "Discussion teaching teaches people to think independently with judgement," Christensen said. "It's a genuine, caring method. The greatest teachings can be very effectively applied in the arts and sciences liberal arts curriculum, as well as in professional graduate school settings."

The seminar, part of the Master Teaching Series sponsored by the School of Business, drew faculty from across William and Mary. "I have had a longtime interest in William and Mary through my many friends here. I wanted to see how this seminar would work in a small environment like William and Mary," said Christensen.

William and Mary professors Sam Jelinek and Larry Ring also made case method presentations at the seminar.

## 20th Century Music Plans Program April 28

The final performance of the 20th Century Music program, Joel Suben conducting, will be held at 7 p.m., Tuesday, April 28 in Ewell Recital Hall. There is no admission charge.

Two of the student musicians will be Mark Reczkiewicz, flute, and Jonathan Noble, clarinet. An ensemble, composed of Reczkiewicz, Noble and Kerry Deal, soprano, gave a recital at New York University on April 20 as part of the Washington Square Contemporary Music Society season.

This was the first time this ensemble has performed off campus. They will be performing May 18 for the Guild of Composers in Christ and St. Stephen's Church in New York City. All three plan to pursue careers in music.

### Suben Back From Poland

Suben recently returned from Poland, where he was guest conductor of the State Philharmonic Orchestras in Bialystok and Czestochowa.

The situation there is grim, he says. "Two years after the revolution, it looks more like Western Europe. Shops are full of goods but everything costs as much or more than in the West. During the two weeks that I was there the Polish currency underwent a 6 percent devaluation vis à vis the dollar. ... You can buy things you couldn't before. At one time you couldn't hope to buy a fresh orange. Now you can buy an orange, but it will take a day's wages to buy a kilo. Gasoline costs \$5 a gallon—that's what it costs in Western Europe. When people make \$100 to \$150 a month, you can be sure gasoline is not going to be used very much, but at least you can get gasoline where you want it. Gas stations are everywhere.

"The Poles have it rough, and inflation is spiraling out of control. I would say that there is an opportunity that could produce a counterrevolution and a return to a totalitarian system, because a lot of people are scared and wonder how they are going to get through. The education system seems to be in trouble, and there is a lot of unemployment. There hasn't been unemployment in Eastern Europe on that scale since 1939,

before the Germans invaded.

"The Poles are hopeful in one sense: they have their own country. But their country is an economic wasteland and people are restive. However, Poland is better off than some of the other places I've been. Rumania is unbelievable." But, Suben adds, "Eastern Europeans are old hands are surviving in a hopeless situation."

## W-JCC School Division Residents: What Do You Think?

The Williamsburg-James City County Public Schools Division is in the process of bringing parents, school staff, business and community representatives together to examine important issues facing the school division, set priorities and develop plans to meet those priorities. A Strategic Planning Team, composed of parents, educators and community members, is working to draft the school division's mission statement, identify critical issues, and develop goals and objectives. Dean John Nagle in the School of Education and Chris Gareis, a graduate assistant in the Dean's Office, have been asked to represent the College in this strategic planning effort.

The planning process is an important time for the W-JCC community to join together in making choices that will determine the direction of the school division for the next five years and beyond. If you live in Williamsburg or James City County, whether or not you have a school-age child, your voice is important in determining the future priorities for educating W-JCC's school children.

The Strategic Planning Team has developed a draft of a Mission Statement and is asking for feedback from W-JCC community members. In the future, the Team also will seek responses to statements of goals and strategies to address critical issues facing the school division.

If you live in the W-JCC school division, please read and respond to the following draft Mission Statement:

### Draft Mission Statement for W-JCC Schools

*The mission of the Williamsburg-James City County Public Schools is to increase each student's knowledge and skills and develop appropriate attitudes and behaviors so that, throughout life, she or he can contribute productively to society at all levels—local, national, and global.*

Your thoughts about this draft Mission Statement:

### Have A Heart

Head football coach Jimmie Laycock will be "arrested" by the American Heart Association on May 4 for its annual "Jail-and-Bail" event, a major fundraiser for the AHA.

There is a donation form posted on the wall in the mail room at William and Mary Hall. Those who wish to donate may also call the sports information office at ext. 13344 to help bail out Coach Laycock.

Please send your response to Mr. Chris Gareis, Dean's Office, School of Education, College of William and Mary, P.O. Box 8795, Williamsburg, VA 23187-8795 or via campus mail. Your response will be brought to the next meeting of the Planning Team on May 1.

# College Graduates A Large Class Of Retirees: 24 Are Awarded Professor Emeritus Status

Faculty retirements this year total 24, an unusually high number, due in part to the early retirement incentive offered by the state last year.

Citations from the Board of Visitors highlight the contributions and achievements of teacher/scholars who have touched the lives of many students and enhanced the educational legacy of the institution.

Excerpts from the traditional citations appear because of space limitations and do not attempt to be an inclusive record of the accomplishments of these men and women.

## Fred L. Adair Professor of Education

Professor Adair has distinguished himself as an exemplary and popular teacher, a wonderful role model for aspiring counselors and an unwavering and highly respected advocate for the counseling profession. His areas of teaching expertise range from the fundamental theories undergirding counseling and personality development to the specific skills and techniques of working with clients to the intricate details of testing and assessment. ... His leadership of the Family Counseling Center in the School of Education has enabled the center to provide unique practicum experiences for advanced graduate students and invaluable counseling for more than a hundred children and their families each year. His reviews of psychological tests and his development of computerized interpretation and scoring manuals have contributed significantly to counselors throughout the state and nation.

Through his service to counseling organizations and licensing boards at both state and national levels, including, most recently, his service as chair of the National Board for Certified Counselors, Adair has provided consistent, significant and highly respected leadership for the counseling profession, not only here in the Commonwealth, but increasingly at a national level.

A Marine Corps pilot in World War II, Adair spent nearly 15 years building a successful retail hardware business in his hometown of Washington, N.C., before making a career switch to academe.

## Joseph S. Agee, Professor of Kinesiology

Since he joined the faculty in 1958, Agee has seen his field of interest change perhaps more than most. He has seen physical education separate from athletics, men's and women's physical education merge and, finally, the physical education concentration become kinesiology. Throughout all these changes, he has taught more classes than required, served on numerous committees and worked to create a positive atmosphere. His students remember him for his concern about them and his enthusiasm for teaching.

When he was first appointed, Agee was the assistant basketball, baseball and football coach. Since 1964 he has been head golf coach. Over the years his teams have been successful, and Agee has served the NCAA and Virginia State Golf Association in many capacities. Service and loyalty are the best descriptors of Agee's years at the College. Whenever there was a job to be done, from advising to committees, he always did more than his share.

## Robert A. Barry, Professor of Economics

Robert A. Barry is an inspiring teacher. From "Principles of Economics" through core concentration courses in economic theory to upper-level seminar courses, he has a way of quietly translating the arcana of economic theory into language that can be readily grasped—and believed—by undergraduate students. He not only prepared students to better understand the economic world around them, but he so inspired them that many followed him into a lifelong study of economics. They have thanked him in prefaces to their doctoral theses and books. His knowledge of the latest developments in macroeconomic theory has made him an invaluable teacher of his colleagues as well, to whom he has given generously of his time.

Because of his knowledge of economics and his devotion to teaching, the Educational Testing Service in 1986 asked Barry to help develop the advanced placement examination in economics. He not only helped to develop the exam, but also co-authored the *Teacher's Guide* and for the last five years has served as the chief reader for the examination. He has been an active participant in the affairs of Alpha of Virginia Chapter of Phi Beta Kappa.

## Kenneth F. Bick, Professor of Geology

Kenneth Bick joined the faculty in 1961 as chairman, sole member and founding father of the department of geology. He has been instrumental in developing an undergraduate geology program that is highly respected by the geological community for its quality and the high caliber of its graduates.

In his early years at William and Mary, Bick faced the task of building a department that would offer a full undergraduate program in geology. Since it was impossible for him to teach all the necessary courses for a major, he recruited new faculty members, bringing the total departmental strength to four. It is a testimony to his careful selection of these faculty, his strong and fair leadership and his dry sense of humor that all three faculty members are still working at William and Mary. Through the years, even after the departmental faculty had grown to five, Bick and other faculty members worked as a team, continuously focused on giving its stu-

Front row (l-r): Scott Donaldson, William Bullock, William Warren, Chonghan Kim, Garnett Brooks; second row: Mitchell Byrd, Robert Black, Edward Jones, Kenneth Bick, Cirila Djordjevic, Nathaniel Elliott, David Jenkins; back row: Rae Harcum, Gustav Hall, Maynard Nichols, Thad Tate, Robert Barry and Joseph Agee. (Missing from the photo are Fred Adair, Michael Castagna, Trevor Hill, Ludwell Johnson, Anne Tyler Netick and Douglas Prillaman.

dents the best undergraduate education possible. Bick consistently undertook heavy teaching loads and developed several new courses to meet departmental needs. He also built up the departmental library from a small collection of books to a library that is excellent for teaching and research. Dedicated to his students, he demanded excellence and set high standards. Inspired by his teaching and dedication, many of them have gone on to have highly successful careers in the field of geology.

## Robert E. L. Black, Professor of Biology

An eclectic understanding of the diverse fields of biology has allowed Robert Black to teach a wide range of courses in physiology, cell biology and developmental biology. While his early research interests were in the area of biochemistry of development of sea urchins, more recently he has been studying cellular aggregation, biosynthesis, heat shock proteins, metabolism and other aspects of jellyfish development. Many students working in Black's research laboratories, inspired by his hard work and dedication, have gone on to fruitful scientific and academic careers of their own. As the founding coordinator of the department's honors colloquium for entering students, he has continued to attract and introduce the best students to the life sciences.

A faculty member with research support from the National Science Foundation, Black was at the forefront of the College's transformation from a solely teaching to a modern teaching and research university. He was selected as chair of the department in 1987-88. In many ways his dependable example and unwavering ethical standards have come to embody the character and ethos of the department of biology at William and Mary.

## Garnett R. "Jack" Brooks, Professor of Biology

Jack Brooks joined the faculty in 1962 from the University of Florida, where he received his doctorate, with research experience on Dominica in the West Indies and a personal, energetic teaching style that proved immensely popular with students.

He initiated the vertebrate biology course, which became and remains one of the most popular courses offered in the department. He also initiated the first human biology course for non-science majors, which has also become very popular.

Students have always come first with Brooks, from camping trips with the biology club to courses taught in Australia and the Caribbean. His research on the population ecology and natural history of selected species of amphibians and reptiles has led him to the West Indies, the American Southwest and Australia, as well as earned him the regard of other herpetologists around the country.

From courses on photography to field trips to the Shenandoah Valley, Brooks has enlarged the range of experiences for hundreds of students. Simply put, he understands and respects them, and it shows in all he does.

## G. William Bullock Jr., Professor of Education

When William Bullock joined the faculty of the School of Education, he brought with him a wealth of experience from his career in public education that included 15 years of administrative posts, including superintendent for six different school systems in Virginia, Illinois and Michigan.

During his 25-year tenure at William and Mary, Bullock has been a central force in the College's graduate degree programs in educational administration. He has also been instrumental in the development and evolution of curriculum at each degree level.

In addition to teaching, Bullock has thoughtfully pursued his own research and

scholarship. His publications have been carefully targeted and generally undertaken to enhance his teaching. His research has focused on issues related to organizational analysis, administrative behavior and role perceptions. His commitment to the field has led him to make presentations and conduct workshops and institutes regularly for teachers, administrators and school board members in school systems throughout Virginia.

## Mitchell A. Byrd, Chancellor Professor of Biology

A nationally recognized figure in conservation biology and endangered species research, Mitchell Byrd has been the recipient of the Governor's Award as Conservationist of the Year, as well as the Wildlife Conservationist of the Year. He has served on Governor's commissions and boards, traveling the length and breadth of the Commonwealth, speaking to every Audubon, conservation and local bird club in the state. His osprey conference at the College was instrumental in bringing national attention to plight of this species. He is a leader for the Department of the Interior Bald Eagle Recovery Team.

Many of his students have themselves become leaders in conservation management and research in Virginia and beyond.

An excellent teacher with a wry sense of humor, he has even made comparative anatomy a favorite course at William and Mary.

## Michael Castagna, Professor of Marine Science

Michael Castagna's diversity and the quality of his efforts at the School of Marine Science have enabled him to achieve international recognition as a leading scientist in molluscan culture.

Castagna's significant research contributions include research into the larval life histories and formulation of culture techniques for nearly 90 mollusk species. His translation of culture procedures into commercially useful protocols has led to successful adoption on an international scale. Equally significant are his publications in the scientific literature. As a consequence of his leadership, Castagna has been called to serve as the senior officer in national and international scientific societies, and has received distinguished awards for his research and advisory activities.

## Cirila Djordjevic

### Garrett-Robb-Guy Professor of Chemistry

Cirila Djordjevic was named to the Garrett-Robb-Guy Chair of Chemistry in 1986. The first named chair in the department, it is the highest attainable chemistry faculty distinction. On a Collegewide level she has been honored with the Thomas Jefferson Award, the highest faculty award given by the College.

Djordjevic has had a distinguished career in both research and teaching. She has taught at all levels of the department's program, from a cultural approach to chemistry at the most basic level to advanced inorganic chemistry at the senior-graduate level. She has also distinguished herself as an excellent lecturer with an empathetic relationship with her students. Her work has been recognized on an international level, and she has frequently been an invited speaker at conferences both here and abroad.

She is the author of some 80 research publications and has consistent support for her work from the National Science Foundation. In all of her research efforts she has actively involved undergraduate research students and has thus served as a model, illustrating that there need be no distinction made between the teaching of undergraduates and research. Her research interest has been the coordination chemistry of early transition metals with particular emphasis on unusual ligand spheres and coordination members and geometries. She has been very successful in preparing and characterizing many new compounds. The peroxo compounds she has made are recognized as some of the most important models for the role and chemistry of dioxygen and peroxides in biochemical systems. Some of her peroxo complexes have been found to be active anti-tumor agents. Her peroxo complexes have also stirred interest among organic chemists as catalysts and stoichiometric reagents for olefin epoxidation.

## Scott Donaldson

### Louise G. T. Cooley Professor of English

Scott Donaldson is best known for his biographies of notable literary figures, including Ernest Hemingway, F. Scott Fitzgerald, John Cheever and, most recently, Archibald MacLeish. These works justify his stature as one of America's preeminent writers of literary biography.

Donaldson's teaching has been divided between his strong interests in American literature and in advanced expository writing. In the former area he has regularly taught undergraduates and graduate students in lecture courses and seminars considered to be among the most successful offered by the department. In the latter area he designed and implemented the department's most advanced non-fiction writing seminar and has helped to prepare many students for careers in writing and publications, including several who are now well established. Donaldson worked for several years as a professional journalist before pursuing an academic career.

## Nathaniel Y. Elliott, Professor of English

Elliott has specialized in 19th-century British literature generally and particularly in the works of the Romantic poets, about whom he has regularly offered seminars to advanced undergraduate and M.A. students. His own research and scholarly publications have focused especially on the poetry of John Keats.

Elliott has shared fully in the ongoing responsibilities of the English department. He has often served as faculty adviser to students writing senior honors theses and M.A. theses. He has been an active participant on departmental committees, and on several occasions he has been a member of the department's elected personnel committee, attesting to his colleagues' confidence in his judgment and sense of fairness.

## Gustav W. Hall, Professor of Biology

Instrumental in establishing the College herbarium, now second largest in Virginia, and in developing a range of field botany courses and research at the College, Hall has long been the primary adviser to the student-run biology club, leading camping and hiking trips. With a wide-ranging knowledge of all areas of biology, he has taught not only his major courses in plant biology, but biosystematics and

ornithology as well.

His research on the flora of Virginia has attracted many of the best undergraduate and graduate students at William and Mary, some of whom have gone on to distinguished national scientific careers. Hall has traveled widely within and outside the United States, investigating both plants and animals in 37 countries on five continents, including Mexico, Costa Rica, Columbia, Peru, East Africa, Borneo, Siberia and most of Europe, including Iceland, Lapland and the Caucasus. These experiences have infused his courses and his students with a breadth of understanding and nuance remarkable in its diversity and perspective.

## E. Rae Harcum, Professor of Psychology

Rae Harcum has been active in psychology not only as a scholar and teacher but also as a key member of professional societies.

A Phi Beta Kappa graduate of William and Mary (B.S., 1950), Harcum earned his graduate degrees at the Johns Hopkins University (M.A., 1952) and University of Michigan (Ph.D., 1955) before joining the faculty of his alma mater in 1958. He was a visiting scholar at the University of California, Berkeley, 1967-68.

His scholarly interests include visual perception, human engineering, human learning and education psychology. He has published on a variety of topics in numerous scholarly journals and has served as associate editor of *Perceptual and Motor Skills*; referee of journal articles for *Science*, *Canadian Journal of Psychology*, *Psychonomic Science*, *Psychological Bulletin* and *Perception and Psychophysics*. He served as chairman of the psychology department, 1976-82.

Harcum has been active with the Virginia Psychological Association and in 1991 was president of the Virginia Academy of Academic Psychologists. He was a member of the State Board of Psychologists Examiners from 1974 to 1979, serving the last year as chairman. He is also a member of the American Psychological Association and the American Association for Advancement of Science and Sigma Xi research honorary and Psi Chi psychology honorary. Outside the campus Harcum is an active volunteer in service projects in the community.

Harcum has taught the core psychology courses to most of the department's concentrators. Many of his students, inspired by his teaching and personal contributions, have gone on to careers in psychology and related fields.

## Trevor B. Hill, Professor of Chemistry

During his tenure of 28 years, Trevor Hill has seen the department grow from a faculty of four to 14. In 1963 he was the only organic chemist in the department; now there are four. His experience and ties with industry have provided his students with a perspective that few other faculty members can match.

Before coming to William and Mary, Hill was a research chemist at the E. I. DuPont Marshall Laboratory from 1957 to 1963. In the summers of 1967 and 1968, he was a senior research chemist with Mobil Chemical Company. These consulting contracts have brought nearly \$200,000 to the College and have provided employment and valuable research experience to a number of undergraduates.

## David C. Jenkins, Professor of English

David Jenkins was directly involved in the establishment of the now widely recognized *William and Mary Review* and later of the highly successful *A Gallery of Writing*.

Jenkins has also played a major role in the successful continuation of the College's annual writers festival, which has been named the Patrick Hayes Writers Festival to recognize the generous support Hayes has given the project.

Jenkins studied as a Fulbright Scholar at the University College of Wales from 1949 to 1951. His scholarly interests are in modern British literature, Anglo-Welsh literature and early British literature. His scholarly publications are on Anglo-Welsh literature. He actively supports the College's commemoration of St. David's Day in tribute to a former faculty member, the Welsh poet Goronow Owen. One of his many interests is keeping track for alumni of the activities of the English department through *The Phoenix*, a newsletter that he writes and publishes.

## Ludwell H. Johnson III, Professor of History

Ludwell Johnson, whose special interest is the middle period of United States history—especially the Civil War—has a particular affection for the Old South and some of its heroes. His doctoral dissertation was published in 1958 as *The Red River Campaign: Politics and Cotton in the Civil War*. This highly regarded work has been cited as one of a selected list of the outstanding books on the Civil War. In 1978 he published another notable book in his area of special interest, *Division and Reunion: America 1848-1877*.

During his years at William and Mary, Johnson has made substantial contributions in many areas. As chair of the department of history for many years, he oversaw its expansion and the development of its doctoral program. He has served skillfully on, and made major contributions to, numerous elected and appointed College committees, including Faculty Affairs, Library and, most notably, Asbestos Hazard Advisory. A member of Phi Beta Kappa, he has been historian for Alpha of Virginia Chapter for almost 25 years and played a major role in the renovation of the Apollo Room. He has shared his expertise with the broader community through lectures and talks to such groups as the Civil War Round Table, the Daughters of the American Revolution and the Virginia Historical Society.

He was recognized by the Council for the Advancement and Support of Education as the silver medalist in the national "Professor of the Year" competition in 1986.

He is perhaps best known for his thought-provoking, but entertaining, lectures in what has become a legendary course on the Civil War. It may be said of Johnson's work that he truly made a difference to the College's students and to the institution as a whole.

## Edward E. Jones, Professor of Kinesiology

Edward Jones began his career at William and Mary as associate dean of admission. He became a member of the physical education department in 1965 and has been involved in the changes and merges resulting in the department of kinesiology.

In addition to his teaching duties, Jones has been director of men's intramurals and head baseball coach.

Jones' contributions to students were recognized in 1980 when he was selected by members of the senior class to serve as an honorary marshal for commencement.

## Faculty Retirees Represent Many Fields Of Study

That year, also, he was awarded the Algernon Sydney Sullivan Award, given to those who evince a spirit of love for men and women in their work. Jones has served the College in many ways. He personally raised funds for and planned the construction of three racquetball courts, a sauna and a weight room in Blow gymnasium.

Jones was instrumental in the merging of the men's and women's physical education departments, undertaking significant committee service and teaching extra classes to help meet increasing student need.

### *Chonghan Kim, Professor of Government*

Chonghan Kim came to the College in 1964 to teach international relations, international organization and international law. For many years he was the faculty adviser to William and Mary's successful delegations to the Model United Nations, and was a member of the National Board of the Model United Nations.

More recently, he pioneered an Asian Studies program, teaching a greater variety of courses than is usual in order to establish and maintain the program. He taught courses on China, Japan, Korea and international relations of East Asia. He also served on the foreign studies committee, the Asia House committee, the East Asian Studies committee and as an adviser to the growing number of Korean students at the College.

Kim has been very active in promoting Asian studies in this country. He has an international reputation as a scholar of Korean unification, having contributed book, journal and newspaper articles and conference presentations on the subject. The flourishing condition of East Asian studies in the United States and at William and Mary owes a great deal to his efforts.

### *Anne Tyler Netick, Professor of Modern Languages*

Anne Netick has played a key role in the growth and development of the Russian language program and the interdisciplinary concentration in Russian/Soviet studies for 30 years.

For many years the guiding force behind the Russian program, Netick spearheaded efforts to maintain quality and support innovations. In this regard, her efforts were responsible for creating and developing a proficiency-based language program in Russian at the elementary level, as well as designing the sequence of upper-level language courses. As senior member of her discipline, she has taught advanced courses in Russian language, and literature courses on Russian masters such as Dostoyevsky and Tolstoy, as well as specialized courses in conjunction with the comparative literature program.

With great care, foresight and the highest standards, Netick has instilled excitement for the Russian language, literature and culture in her students, which has served them well in graduate training and later life. Her numerous publications and scholarly presentations reveal a solid commitment to research in modern Russian literature and a profound dedication to extend understanding of Russian culture to specialists and general readers alike. Active in a variety of professional organizations and societies, she is frequently selected to serve in leadership capacities that require responsibility, perseverance and tact.

### *Maynard M. Nichols, Professor of Marine Science*

Maynard M. Nichols has been a conscientious scientist and productive faculty member of the School of Marine Science/Virginia Institute of Marine Science for 31 years. During that period he has gained international stature as an expert on the physical and chemical aspects relating to estuarine and coastal sediment processes.

Nichols' career spans the period during which the field of estuarine science passed from its infancy to early maturity. His research on the particularly vexing problem of estuarine sediment transport and deposition has been a significant contribution to the maturation of this field of marine science. His practical application of these results has been particularly important to the maintenance of ports and navigation channels.

### *F. Douglas Prillaman, Professor of Education*

Douglas Prillaman has dedicated his professional life as a teacher, school administrator and professor of education to helping children who have special needs and to working with the teachers and families of these children.

Prillaman joined the faculty of the School of Education in 1969 as its third professor of special education. He brought a wealth of experience and expertise and a well-established reputation as an outstanding special educator in Virginia. From 1964 to 1969 he was director of special education for the Arlington Public Schools. Earlier he served as teacher, guidance counselor, elementary school principal and director of special education in Portsmouth.

Thanks to his leadership and influence, the curriculum in special education has consistently been on the cutting edge of a rapidly evolving field with the addition over the years of new master's degree emphases in learning disabilities, gifted education and resource consulting teaching, and a new special education emphasis in the school's doctoral program in educational administration. Virtually all students who have enrolled in his courses have been touched by his deep concern for other human beings, his special sensitivity to the needs of those with exceptionalities and his commitment to providing each individual with maximum educational opportunities in a setting that is least restrictive and most appropriate to meeting his or her unique needs.

### *Thaddeus W. Tate Jr.*

### *Forest P. Murden Jr. Professor of Humanities*

As a teacher, Thad Tate is well known for his courses on colonial Virginia history, Chesapeake history and American environmental history. He has frequently served the department and the College on appointed and elected committees. Currently he is Chief Marshall and a member of the Commission on the Tercentenary Observances of the College.

In addition to his long service in the department of history, Tate served as book review editor from 1962 to 1966 and editor from 1966 to 1972 of the *William and Mary Quarterly*. In 1972 he became director of the Institute of Early American History and Culture, a post he held until 1989. In 1988 he became the founding director of the newly established Commonwealth Center for the Study of American Culture. He was appointed to the William E. Pullen Professorship of American History from 1983-1987 and to the Forest P. Murden Jr. Professorship of Humanities from 1989 to the present.

Besides a distinguished career in teaching, Tate also enjoys an enviable reputation as one of the nation's leading scholars in early American history. Over a quarter of a century ago he published a path-breaking study in African-American history, *The Negro in Eighteenth-Century Williamsburg*, that remains a standard and has recently been reprinted for the second time. He has co-edited three volumes of scholarly essays, one of which, *The Chesapeake in the Seventeenth Century: Essays on Anglo-American Society*, was seminal in the historiographical revision of early southern history during the last several decades. He has served as consultant for the Smithsonian Institution and other national organizations and for state and regional historical libraries and museums. He has been invited to lecture at numerous universities, as far away as Australia.

### *William H. Warren*

### *D. Hillsdon Ryan Professor of Business Administration*

When William Warren joined the faculty in 1970 he brought with him a broad experience in education and industry as a university professor, personnel manager, labor relations director, plant production manager and management consultant.

Since joining the faculty Warren has taught at both the graduate and undergraduate levels, and continued to serve as consultant to business and industry. During his 22 years at William and Mary, Warren has constantly sought new and unique methods of teaching, particularly those that would bring the real world business experience to the classroom. In the early 1970s he gained national prominence with his innovative telephone interview project, which linked students in his business policy classes with top executives around the country and world.

## New Award By Hornsby Family Among Scholarships For Future Educators

CONTINUED FROM PAGE 1.

"It has been said the unexamined life is not worth living. I believe the field of counseling offers the challenge to counselor and client alike to choose this 'road less traveled' and enhance life's value and meaning," said Carlson.

Moirá Christina Plotnik is the first recipient of the Hornsby Family Scholarship. Mr. and Mrs. Robert S. Hornsby of Williamsburg were on hand for the presentation.

Plotnik is a Phi Beta Kappa graduate student in the master's program in elementary education. She is also a magna cum laude graduate of the University of Georgia with an A.B. in art/art history.

"I often worry that my professional goals are too idealistic," said Plotnik. "Yet if there has ever been a field in which idealism, specifically the continuing belief that you can make a difference, has a place, it is in education. I believe in this kind of idealism."

Plotnik has been a frequent participant and organizer of school, church and community events for the benefit of children. This year, she interrupted her graduate studies to take a position with a pilot project funded by the South Carolina Victims Assistance Program to pro-

vide special support for abused and neglected children.

Professor Emeritus of Education Armand Galfo and Mrs. Galfo attended the luncheon to see the award they established in 1988 for educational research presented to Nancy Gaye Ochs. The award is given annually to the graduate student who has demonstrated outstanding promise in educational research and helpfulness to fellow students and/or faculty in their own research.

Ochs is a doctoral student in the agency counseling program. She received both her master's and educational specialist degrees from the School of Education. She is also a Phi Beta Kappa graduate of Rutgers University with a bachelor's degree in philosophy.

Ochs has been a resident of the Hampton Roads area for six years. She has a daughter who is completing her undergraduate studies at the University of Virginia and a son who attends York High School. For two years she has been a family counselor with the Peninsula Area Cooperative Educational Services Family Counseling Center. She was the 1991 recipient of the Helen Hopper Memorial Scholarship in recognition of her work with families.

"I wish to continue my in-depth education about the counseling process, how

and why it works—or doesn't—for both clients and counselors. I value this understanding both for its practical application in the counseling I wish to do and for the basis it lays for exploration yet to come."

In 1990 Mrs. Nancy Nelson Diggs, daughter of Frances H. and Robert O. Nelson, established a scholarship in honor of her mother and father. This award is given annually to a School of Education student who is pursuing a career in either teaching or educational administration and who embodies the qualities of professional competence, commitment to education, and love of teaching and learning that epitomized the lives of both Dr. and Mrs. Nelson. The recipient this year is Sharon S. Laverdure, who is completing her doctoral degree in educational administration.

Laverdure received her B.A. in elementary education from Alderson Broaddus College in Philippi, W.Va., and a master's degree in educational administration from East Stroudsburg University in Pennsylvania. She has been a classroom teacher for 18 years.

"Sharon is one of the most mature and competent graduate students with whom I have worked. If the Frances H. and Robert O. Nelson Award is intended

to honor a graduate student with exemplary academic ability, personal qualities and commitment, I can think of no more deserving recipient than Sharon Laverdure," said Virginia K. Laycock, associate professor of education.

Three School of Education Awards for Excellence were presented to Holly B. Drewer, Lisa K. Sarandos and Andrea D. McArthur.

Drewer is a doctoral student in counseling/school psychology and will soon begin her internship as a school psychologist. She graduated cum laude from James Madison University with a B.A. in English and received her master's degree in psychology from William and Mary. Drewer has been selected for membership in Phi Kappa Delta educational honor society and Sigma Tau Delta honor society. She is a member of the National Association for Gifted Children, the National Association of School Psychologists and the American Psychological Association.

Sarandos is completing work on a master's degree in secondary education for the teaching of English. As the 1991-92 president of the Graduate Education Association, Sarandos has been a key in revitalizing that organization through a

## Swem Library Offers Lender Card

Swem Library participates in a nationwide reciprocal borrowing program for faculty. Through this program William and Mary faculty may borrow books and other materials when visiting any one of more than 100 other university libraries.

To participate in the program, a faculty member must first obtain a privileges card from Swem Library. These are issued upon request by the Swem Interlibrary Loan Office, Monday through Friday between 8 a.m. and 5 p.m. Each faculty member is responsible for returning materials he or she bor-

rows and for any fines or other penalties incurred for failure to comply with the lending institution's policies.

Swem's Interlibrary Loan staff can furnish lists of participating libraries. The University of Chicago, UCLA, Duke University, Johns Hopkins University, the University of North Carolina at Chapel Hill, the Smithsonian Institution, VCU and VPI are among the libraries in the program.

For additional information, please call John Lawrence at ext. 13071 or Jim Rettig at ext. 13058.

## What is a Call Back?

Everyone who has a telephone has this feature. If you call someone on campus and get a busy signal or no answer, press the *CALL BK* button. This will leave the red light blinking on the telephone you called. When that person sees their light blinking and hears the "Message, Message, Message," all they have to do is hit the *CALL BK* button and it will ring your telephone.

Call Back has been confused with Voicemail because with Call Back, the voice says "Message" three times and with an actual voicemail message, the voice says "Voice Message" three times. When your light is blinking, be sure to listen carefully and make the correct response. Phones will accommodate up to 10 Call Backs at a time.

For further information contact Telecommunications at ext. 11776

## Education Awards

CONTINUED FROM PAGE 6.

number of activities that have provided valuable information and professional development for its members.

In addition to her GEA activities, Sarandos has served as a graduate assistant to the Resource Consulting Teacher Program. She received her bachelor's degree from Gettysburg College and decided to become an English teacher after working as a marketing coordinator for a financial consulting firm in Washington, D.C. Even though she was the youngest person on the job, she found herself in the position of having to teach many of her older colleagues "how to write." It was from that experience that teaching writing became a mission for her.

McArthur credited her own teachers for her success. "If it were not for the dedication and love of knowledge my elementary and middle school teachers

brought to the classroom, I would not be where I am today," said McArthur, who is completing the undergraduate teacher preparation program for teaching in kindergarten through grade eight and is a psychology major. McArthur is a member of Psi Chi honorary psychology society, has been a member of the William and Mary equestrian team and is a volunteer at the Williamsburg Community Childcare Center.

At the luncheon, Graduate Education Association officers for 1991-93 were installed: Sondra Berger, president; Kathi Moritz, vice president; Karen Vajda, treasurer; and Laura Sheridan, secretary.

Dean of the School of Education John Nagle congratulated each award winner and spoke briefly at the ceremonies. Arrangements for Wednesday's luncheon were made by Byrd Latham, director, Academic Support Services in the School of Education.

## CLASSIFIED ADVERTISEMENTS

Classified ads are included as a service to members of the College community and will be accepted from faculty, staff, students and alumni only. Ads should be no longer than 40 words and must be submitted in writing to the William and Mary News office no later than 5 p.m. on the Friday preceding the first insertion.

### FOR SALE

Guitar, acoustic, Yamaha, with case. Excellent condition. \$200. Call 229-5268 after 5 p.m. (5/13)

Home in beautiful Queens Lake, 4 BRs, 2-1/2 baths, fireplace in living room, 2,581-sq.-ft. living space. Clean electric heat and AC. Nice lot, quiet cul-de-sac. Queens Lake club facilities nearby. Large family room with large portrait window overlooking wooded ravine. Delightful screened porch. Priced to sell at \$199,500. Please call 229-0057 for appointment. (5/13)

1987 Mazda B2000 LX pickup truck, 5-speed, power steering and brakes, AC, AM/FM radio, bedliner. New inspection, excellent condition inside and out. \$3,600. Call ext. 12394 (days) or 875-1308 (evenings). (5/13)

1991 Mitsubishi Mirage, automatic, red, AM/FM stereo, AC. Only 20K miles, excellent condition, warranty left. Available mid-June. \$7,000. Call 229-4632 after 5 p.m. (5/13)

White GE, 17 cu. ft. refrigerator, \$150. White Whirlpool dryer, \$100. Call 229-2712. (5/13)

Piano, Baldwin acrosonic spinet. Excellent condition. \$1,495. Call 898-6098 after 5 p.m. (5/13)

Wood slide for use with wooden jungle gym. Marine plywood slide with oak rails. \$15. Call ext. 13521. (5/6)

1974 Monte Carlo, runs well, some rust, otherwise body OK. \$500 or best offer. Call 229-4895. (5/6)

3-BR home in Chanco's Grant (near Jamestown), 1348 sq. ft. Family room with fireplace, 2 full baths, living room, dining room, attached garage, new back deck, 0.46 acre wooded lot. Quiet, family-oriented neighborhood. Call 220-8266. (5/6)

Ladies' 10-speed bike. Red Schwinn in good condition, front quick-release wheel, bike bag, toe clips. Great for off-campus students. Price negotiable. Must sell by May. Call Debbie, 220-0194, leave message. (5/6)

Piano: Baldwin Hamilton upright, walnut, \$1,895. Air conditioner, Carrier window unit, BTU/HR 5,400, 110 v. outlet, used one season, \$125. Call ext. 12170 (days), ask for Tom. (5/6)

Chisel Run, 5340 Gardner Court, spacious 2-BR, 1-1/2-bath, end-unit townhome with fireplace, skylights, large deck, fenced backyard, all in a beautifully wooded setting. Minutes from campus. Includes many extras. \$79,500. Call 565-4863. (5/6)

1978 Volkswagon campmobile. Under 10,000 on rebuilt engine and transaxle. Sleeps four. Great recreational vehicle. \$2,400 or best offer. Call Sandy at 642-4517 or 642-7305. (5/6)

Barclay Square: 2 BRs, 2 baths, dining room, redecorated, good appliances. End unit, delightful view. Mid \$90s. Sale by owner. Call 220-3181. (5/6)

Electric Smith-Corona typewriter, \$30; coffee table, \$30; large mirror, \$30. Call 220-1930. (5/6)

Secretary's Day or Mother's Day gifts. Give the gift of youth and attractiveness. Selections of superior personal care products starting at \$7.50. Satisfaction guaranteed. Call Sue at 642-0843. (5/6)

Jack-type floor loom, four harness. Weaving width 49 inches. Call 565-0678. (5/6)

Sleep sofa, walnut dining table and chairs, up-

holstered couch and armchair, bookcases, floor and table lamps. Also kitchen goods, collectibles and more. Prices negotiable. Call ext. 12703 (days) or 565-0264 (evenings). (5/6)

1988 Bayliner 19' cuddy cabin, 1989 E-Z load trailer, power winch, very low hours, 130 OMC inboard/outboard, excellent condition, many extra. \$6,900. Call ext. 11002 (days) or 220-0206 (evenings) (5/6)

Moving out-of-state. Sofa, loveseat, blue/burgundy stripe, \$75. Glass/brass dinette, 4 chairs, \$60. Computer desk, \$50. Tiny gas grill, \$5. Ironing board, \$3. Dyna Gym exerciser, folds up, \$45. Bar stools, \$3. Other miscellaneous. Call 565-6189 (evenings). (5/6)

Single bed frame, \$10. Brass plated day-bed frame without springs, \$10. Sony color television, \$10. Old double bed with metal frame, \$20. Call DeAnn or David, 220-1349. (5/6)

Yamaha flute, like new, only used once. \$275 cash. Call 249-5431, leave message. (5/6)

Circa 1930s legal-style bookcase, four shelves, glass doors, oak. Good condition, although minor repairs needed. \$225 or best reasonable offer. Antique rocking chair, maple, beautiful patina, has had some repairs to legs. \$300 or best reasonable offer. Call ext. 13755 or 229-3487 (evenings). (4/22)

Antiques: oak tables, carousel horse, spinning wheel, blanket chests, dish cupboard, school desk and more. Call 253-5723 after 7 p.m. (4/22)

Cluster home in Season's Trace, 3 BRs and 2-1/2 baths; large living room with cathedral ceiling and fireplace; glass-enclosed, ceramic tile Florida room with large deck; multiple skylights; hardwood floors throughout, including kitchen; one-car garage with electric door; economical gas heat. Ideal for professional couple or individual with little time for yard maintenance. Swimming/tennis privileges. Call ext. 12319 (days) or 550-1451 (evenings). (4/22)

Timeshare at Patriot Place, first week in Nov. Twin apartments, eligible for two-week vacation exchange worldwide. \$1,500 below current price at Fairfield Williamsburg. Perfect for alumni, parents, etc. Call Steve at 220-2427 or Charles at (609) 825-4703. (4/22)

AM/FM stereo and pair of stereo speakers. Great condition. Call ext. 15637. (4/22)

Used window air conditioner, excellent condition. Price negotiable. Call Paul at ext. 16233, leave message. (4/22)

Trampoline, 38-1/2" diameter, like new. Original cost \$200. \$75 or best offer. Call 229-4261. (4/22)

### FOR RENT

Free room in exchange for up to 20 hrs. child care for happy 1-year-old. Furnished 2-room suite with bath. House in woods overlooking tidal creek off Lake Powell Rd. Pleasant 3-mile bike ride to campus. Call 220-8096. (5/13)

For next fall—self-contained, furnished apartment located between College and law school. Most reasonable rent for right person. Call 229-6422. (5/13)

Cottage near Williamsburg Crossing Shopping Center, 2 miles from campus. Nice neighborhood.

Flexible lease possible. \$325 per month. Call 229-7241. (5/13)

**Sunday, May 10**

**Commencement,** W&M Hall, 1 p.m. By ticket only.

## Sailing Club Sets Sights On Next Season

William and Mary hasn't had a sailing club in many years, but earlier this month, W&M competed in the team races on the James River, beat Rutgers and had a close race against the U.S. Naval Academy. Pictured above are skipper Rob Uhlfelder and Stephanie Hamilton, crew. A provisional member of the Intercollegiate Yacht Racing Association, the William and Mary group is seeking support from faculty, alumni and students to prepare for next year's racing program. Fall races are used as qualifying rounds for spring events. The club, said Uhlfelder, was hampered this year because of lack of survival equipment, but the group hopes to compete in the fall. For more information about the club, contact Uhlfelder at ext. 15919 until the end of the school year. During the summer information may be obtained by calling the Rec Center.
