WILLIAM & MARY

A WEEKLY NEWSPAPER FOR FACULTY, STUDENTS AND STAFF

NEWS

VOLUME XXI, NUMBER 33 • WEDNESDAY, AUGUST 5, 1992

Parking Restrictions

Zable Parking Lot Renovation

The renovation project at the Zable Stadium parking lot was undertaken this summer to improve drainage conditions and increase parking spaces. Due to construction and resealing efforts, the parking lot must be closed from Aug. 6 through Aug. 9. During this period access to James Blair Dr. will only be possible from Yates Dr. or College Terrace. We expect, with the weather's cooperation, that traffic on Stadium Dr. will be able to resume on Aug. 10. While restriping will take place the week of Aug. 10, we hope to have a roadway open permitting entrance and exit.

We regret any inconvenience this may cause; however, when completed, this project will significantly improve drainage conditions and create 36 additional parking spaces. Should you have any questions or concerns, please contact Mark Gettys at Parking Services, ext. 12435.

Parking on Aug. 21

On Friday, Aug. 21 the freshman class will be moving into dormitories in the Botetourt and James Blair Dr. area. All faculty/staff members are asked not to park on Wake Dr. Also, there will be no parking on James Blair Dr. from Blow Hall out to Richmond Rd. All vehicles left in these areas can be ticketed and/or towed at owner's expense.

Also, Parking Services will begin ticketing for decal violations.

HACE Meeting Aug. 11

The Hourly and Classified Employees Association (HACE), will hold its August general meeting at 1 p.m., Tuesday, Aug. 11 in the Campus Center, room E.

The program will feature a presentation by Edward Allenby, vice president for university advancement, who will discuss the events being planned for the Tercentenary and the opportunities for employee participation.

The meeting is open to the College community. There will be a \$1 admission fee for non-members. Annual membership dues are \$5.

For membership information, call Jackie Smith, membership chair, ext. 13157 (personnel department).

The next William & Mary News will be published Wednesday, Aug. 19. Deadline for submission of material to the News office is Friday, Aug. 14.

Visitors From Japan

Thirty-nine students from Keio University in Japan are currently on campus as part of an exchange program between Keio University and the College. The students who are completing a two-week stay here, will leave for a three-day stay in Washington, D.C., before returning home Aug. 10. This is the second year of the program that is directed by Tomoko Hamada, associate professor of anthropology (second from the right in the front row). See story on page 6.

Governor Appoints Four To Board of Visitors

Governor L. Douglas Wilder has appointed four new members to the College's Board of Visitors and reappointed one member. These appointments were made July 16. All appointees will serve until June 30, 1996.

The new appointees are Shepard W. McKenney '62, '64 B.C.L. of Drayden, Md.; William B. Spong Jr. of Portsmouth, former dean of the Marshall-Wythe School of Law; James J. Vergara '69 of Hopewell; and Walter J. Zable '39 of San Diego, Calif.

In addition, James B. Murray Jr. '74 J.D. of Kenne, was reappointed to the board. He is chairman of Columbia Cellular Corporation and joined the board in 1991 to fulfill the unexpired term of Garner Anthony.

McKenney is president and CEO of

Hinkley Co., yacht builders in Southwest Harbor, Md. He is a former president of the Law School Foundation and taught real estate finance for many years as an adjunct law school professor. McKenney

is also a founder and past president of Guest Quarters Inc., a hotel chain in the South.

CONTINUED ON PAGE 5.

Health Care Update

A listing of Primary Care Physicians participating in the Key Advantage program is now available in the benefits office at Thiemes House on Richmond Rd. A listing of area physicians is printed on page 6.

PCP selection forms are due in the benefits office by Sept. 10.

The 1992 Benefits Fair for faculty and staff will be held 11 a.m. to 3 p.m., Tuesday, Aug. 18, Trinkle Hall, Campus Center.

NSF Funds Exchange Program With European Scientists

Vladimir Meleznik (center) with Robert T. Siegel (left) and David Abbott.

With a \$34,000 grant from the National Science Foundation, Robert T. Siegel, Ferguson Professor of Physics, is directing a three-year exchange program with European scientists, which is proving extremely useful to both sides.

Vladimir Meleznik, a scientist at the Institute for Nuclear Research, an international center for research in Eastern European countries in Dubna, near Moscow, was on campus this summer and left July 25 to return to Russia. He

was working in the physics department with Siegel and David Abbott, a postdoctoral fellow in physics. A Polish scientist is expected Aug. 31 under the exchange program and another Russian scientist will come in January. The exchange travel from the U.S. to Russia, says Siegel, will be in the future.

Siegel describes the program as a "bare bones" operation, but the results are far from meager. The idea came out of a conversation between Siegel and L.

Ponomarev, leader of a group of theoretical physicists in Russia. Ponomarev heads the leading group which has been working for the past 20 years on reactions involving muonic atoms and scattering problems.

As an experimenter in this field, Siegel values a close coupling between experimentalists and theorists, but this has been difficult in the past because of the isolation of the Russian theorists from the West. Both sides, says Siegel, have trouble when the two groups are not working together. "We have trouble understanding the theory if we can't communicate with the theorists and they have trouble knowing the needs of the experimentalists."

The lack of up-to-date computer equipment in Russia has also been a hindrance, but an additional \$10,000 grant from NSF is helping solve that problem and adding a little to East-West trade. Siegel says the groups have been working with IBM, which has agreed to service and maintain a state-of-the-art workstation at the research facility in Russia, the first of its kind in the country. At the same time, IBM is glad of the opportunity to enter that market.

Meleznik, a research scientist and former student of Professor Ponomarev, described his stay on campus as "very fruitful." This was his first visit to the United States and while here he visited

the University of Delaware and Washington, D.C. Meleznik said he was delighted that his work was proving useful to Siegel and was glad he was able to be here and discuss possible applications of his theoretical work to future experiments. "It is very useful to have direct contact. It enables me to make some correction in my theoretical research," said Meleznik.

Abbott noted that another plus from Meleznik's visit was the opportunity to learn from him more detailed information concerning graphs and other materials which were circulated from Russia through journals, but not in enough detail for scientists to take full advantage of the work behind them.

The political upheaval in Meleznik's homeland added to the paper work and application process. The proposal was initially sent to the USSR Academy of Science, which disappeared with the break-up of the USSR, so negotiations began again with the Russian Academy of Science. At one point the letter of approval from Russia to Washington was sent from Professor Ponomarev via Australia to Siegel who was asked to send it on to Washington.

The grant from the National Science Foundation for the exchange program continues a pattern of support for physics research on campus since 1974 which reached past the \$5 million this year.

Hardy Wins Service Award

Carroll Hardy, associate vice president for student affairs, has been awarded the Outstanding Community Service Award for 1992 by the Hampton Roads Chapter of the National Technical Association.

Carroll Hardy

One of 30 professional chapters of the NTA within the United States, the Hampton Roads chapter includes in its service program the annual SAT tutorial workshop where students are helped in both their test-taking skills and in subject matter. The chapter also assists with Workforce 2000, a program that works with young minority students to build both their social and study skills.

Hardy coordinated the regional math competition and testing this year, which was held in April and drew the largest number of students to date.

Hardy is winding up a busy summer of program coordination on campus in which 231 minority students from freshmen in high school to entering college students have been enrolled, including STEP (Summer Transition and Enrichment Program), VSTP (Virginia Student Transition Program), CHAMP (Creating Higher Aspirations and Motivation Program) EMC (Exploring Medical Careers) and WEB (The Worlds of Engineering and Business).

STEP is a four-week pre-college program. Students are on campus six weeks

for VSTP, which runs concurrently with the second session of summer school. The other programs have a two-week schedule. Planning for the summer activities is conducted in February when applications go out to prospective students. Files on the sessions will not be closed until evaluations are made as a guide to preparing sessions for 1993.

One of the strengths of the summer programs on campus, says Hardy, is the continuum it offers students through high school and into college. Another "is the cadre of students of color who can join with other students of color and help them make conscious choices to take hard courses over easy ones and not feel they have made the choice between being smart as opposed to being popular. We want to show students that intelligence is a badge of honor among their peers. Also the friendships students make in the programs often become strong bonds which continue through college and beyond."

The success of the summer programs is also reflected in minority enrollment. For the 1992-93 school year, 105 African Americans will be enrolled, the largest number to date. Among those 105, explains Hardy, are second children from a family. They are the younger brothers or sisters of graduates who enjoyed their experience at William and Mary and have encouraged their siblings to attend.

Most members of the summer staff are William and Mary students. Most faculty members come from Richmond. The staff is well trained, says Hardy, and adds that one of the top prerequisites is a fondness for children. "They have to like children and know they are going to make mistakes and be able to handle these mistakes not as deadly happenings but as learning experiences. "The staff contributes much more than I can pay them for," says Hardy.

The programs include a healthy dose of academics and field trips to such places as the Kennedy Center, the Smithsonian and the home of Frederick Douglass. Students have attended the new play about Martin Luther King Jr. at the Kennedy Center and seen "Macbeth" at the Virginia Shakespeare Festival on cam-

First Ph.D. Awarded In Applied Science

Mihaly Bakonyi has completed requirements for a doctorate in applied science. This is the first Ph.D. to be awarded in this program.

Bakonyi entered the program in Aug. 1990 as a graduate research assistant. In Sept., he joins the mathematics faculty at Georgia State University as an assistant professor. Bakonyi worked on "Completion of Partial Operator Matrices."

A native of Romania, Bakonyi graduated from Ioan Slavici High School in Arad and received a B.S. in mathematics from the University of Timisoara and an M.S. in mathematics with a concentration in operator theory from the University of Bucharest.

He taught at the high school level in Slobozia from 1985 until 1987 and then was a researcher in mathematics at INCREST, now the Mathematical Institute of the Romanian Academy, before coming to study at the College.

Pictured above (l-r) Robert Scholnick, dean of graduate studies, Charles R. Johnson, Class of 1961 Professor of Mathematics and Bakonyi's adviser; Bakonyi and Robert Orwoll, professor of chemistry and director of the applied science program.

Wang Presented NASA Public Service Medal

Liang-Gui Wang

Liang-Gui Wang, a research scientist in the department of physics, has been

awarded a NASA Public Service Medal.

He received the award "for exceptional contributions in the development and application of laser-based concepts to meet atmospheric research objectives."

Wang is a research scientist in the department of physics under a NASA grant, with the task of enabling rapid development of the LASE I (Lidar Atmospheric Sensing Experiment) and of passive gas filter correlation radiometer projects using a new optical modulation concept to replace mechanical chopper. He provides senior electronics, optics, solid state and molecular physics experience and knowledge for research and development. His specialized fields of work are the research and development of highly sensitive frequency modulation laser spectrometers; and advanced laser and passive radiometer instruments for

NOTES

'91 Grad Miss Virginia

Lora Flattum

Miss Virginia is Lora Flattum, a 1991 graduate with a double major in music and chemistry. She will represent Virginia in the Miss America contest in September. While an undergraduate, Flattum was recipient of the Gladys Clark Memorial Scholarship in music.

Jeopardy! Reruns

For those who did not see Billy Baxter '92 capture the College Bowl trophy earlier this year, it will be rerun on ABC, the weeks of Aug 17 and 24. Baxter will be on the Aug. 21, 24, 27 and 28 sessions.

Baxter will compete in the Tournament of Champions this fall. Taping is set for October with the shows to be broadcast the weeks of Nov. 9 and 16.

Yorktown Celebrates 301st Anniversary

Special activities are planned throughout Yorktown Saturday and Sunday, Aug. 15 and 16, in conjunction with the 301st anniversary of the town. A free shuttle bus service will operate from 10 a.m. to 4 p.m. both days, with stops at a number of locations in the area.

Informal tours of the Nelson House on Main St. will be offered from 10-10:30 a.m., and a historical drama, presented every half hour between 10:30 and 4:30 p.m. (except at noon and 3 p.m.) will reveal the main Revolutionary War contributions of Thomas Nelson Jr. Admission is free.

Special programs will also be offered at the Customs House, the Drum Museum, Grace Episcopal Church, On-The-Hill Cultural Arts Center, Watermen's Museum and the Yorktown Victory Center.

Maps and lists of area restaurants and shops will be available at all locations where special activities are planned.

For more information about the weekend events, call 898-3400 or 887-1776.

Alumni Society To Help Collect Sweaters Sept. 12

The Society of the Alumni has joined other area organizations in support of Virginia Power's sweater recycling project and invites alumni and friends to bring old, useable sweaters to the W&M vs VMI football game at Zable Stadium, Saturday, Sept. 12.

Collections will be made during the first quarter at both gates.

Donations of sweaters will also be received at Farm Fresh stores in Hampton Roads between 9 a.m. and 4 p.m. on that day.

Sweaters will be taken to local Salvation Army facilities for distribution to the needy in Hampton Roads through health and human services agencies including the United Way and other non-profit agencies, churches and schools.

Funds Given For Legum Professorships In Humanities

Mr. and Mrs. Leslie Legum of Baltimore have made a gift to the College of an undivided interest in real property valued at \$580,500. Together with a previously announced gift of \$100,000, the Legums' gift will be used to establish the Leslie Legum and Naomi Legum Professorship(s) in the Humanities.

The Legums' gift will fully fund at least one professorship in history, philosophy, government, religion or music. The gift is to go toward matching a \$500,000 challenge grant the College has

received from the National Endowment for the Humanities. The NEH grant, which will be matched by at least \$2 million in private funds, will be used to endow at least four new senior faculty positions in the humanities, and to support a program of freshman seminars. The Legums' gift will also be eligible for any available matching funds under the Commonwealth of Virginia's Eminent Scholars Program.

Legum, who received his bachelor's degree from William and Mary in 1933,

is general partner of the Circle Companies, president of Parkway Construction and chairman of Park Circle Motor Company in Baltimore.

The Legums have been strong supporters of William and Mary. In 1988 they endowed a series of lectures in Judaica at the College. Last fall, they hosted Baltimore and Annapolis area alumni and friends of the College at a regional campaign celebration held at the Center Club in Baltimore.

Plumeri Contributions Will Assist Student Athletes

Joseph J. Plumeri II of Scotch Plains, N.J., has made gifts and commitments of more than \$300,000 to the College. Of these funds, the largest portion is designated for the Joseph J. Plumeri Endowment Fund for baseball scholarships for student athletes at the College.

The remainder will be used for a variety of purposes, including the 25th reunion gift of the Class of 1966 and continued support of the Olympic sports program at the College through spon-

sorships of the LPGA Pro-Am tournament.

Income from the endowment will qualify for available matching funds under the Commonwealth of Virginia Graduate and Undergraduate Assistance program.

Plumeri, who received his bachelor's degree in history from W&M and a law degree from New York University, is senior vice president of Shearson Lehman

Brothers and president of Shearson's Private Client Group. He is a member of the National Steering Committee of the College's Campaign for the Fourth Century and a trustee emeritus of the Endowment Association.

An active supporter of career services here, Plumeri has given several lectures at the College's School of Business Administration and has hosted students at Shearson Lehman offices in New York.

College's Grant To AVALON Renewed

The College has renewed its grant with AVALON: A Center for Women and Children to coordinate the Sexual Assault Companion Program. Last year AVALON and the Companion Program provided services to over 40 students.

AVALON is seeking applicants for its 1992-93 Companion training. The training is 30 hours long and will be held in Sept. and Oct. After completing the training, Companions serve the College by accompanying assaulted members of the College community to the health center and hospital, to law enforcement and court appointments, and through the judicial process. Companions are also available for peer counseling either on the phone or face-to-face.

AVALON is recruiting 20 members of the W&M community who are willing to attend the training in its entirety, and to serve as Companions for the 1992-93 academic year. All faculty, staff and students are eligible to apply.

For more information or to receive an application, please contact Kathleen Radford at 258-5022.

1992 Martin Jurow Interns Named

The department of theatre and speech has named Rebecca Lenkiewicz and Chan Casey the 1992 Martin Jurow interns. Both graduated in May and performed with the Virginia Shakespeare Festival this summer.

Established in honor of 1932 theatre graduate and movie producer Martin Jurow, the endowment is awarded to students who plan to pursue a career in the theatre arts.

"The money helps bridge the gap between graduation and the beginning of a professional career in acting," said Lenkiewicz. "It enables us to put all our energy into performing rather than having to work an extra job for money."

The endowment was established in 1981 by Jurow's brother, Irving Jurow.

Guitarist To Perform At Arts Center, WRL

Herb Ellis, jazz guitarist with the Oscar Peterson Quartet, will perform in trio at the Arts Center Theatre, Williamsburg Regional Library, on Saturday, Aug. 29, at 8 p.m. Tickets are \$10 and may be picked up at the Library at the Arts Center desk or reserved by phone at 229-4198.

A BENEFIT FOR YOU

A BENEFIT FOR AVALON

A Shelter for Women and Children

Women's Self Defense Program: The R.A.D. System

Tuesdays and Thursdays, Aug. 18, 20, 25 and 27
7 to 9:30 p.m. (4 sessions)

William & Mary Recreational Sports Center
(Allen B. Miller Gymnasium)

Fee: \$50 (\$39 for Avalon, \$11 for instructional materials)

This course is designed to teach women techniques that could be used to defend themselves against a sexual assault by using easy, proven methods, should they choose the option of resistance. Also covered are awareness, avoidance and preventive measures to help women take an active role in their own self-defense and psychological well-being. Please dress in loose-fitting, comfortable clothing; this is a hands-on course.

INSTRUCTOR: Jan Barrymore is a police officer and crime prevention officer at the College. Barrymore also serves as a member of Avalon's board of directors. She is a certified instructor both with the Commonwealth of Virginia and with the R.A.D. system of self-defense.

Enrollment limited to 20 participants

Register by calling Deborah Vick, ext. 11411 (leave message on voice mail if no answer). Bring your check, made payable to AVALON, to the first night of class.

Museum Docent Training Begins Sept. 17

The Muscarelle Museum of Art is accepting applications for its 1992-93 docent training program. Museum docents are volunteers who serve as guides, lecturers, educational facilitators and hosts/hostesses for the museum. Muscarelle Museum of Art docents have the opportunity to share their love of art with visitors of all ages.

The docent training program consists of classes on art appreciation, art history, touring techniques and lectures on special exhibitions and museum collections. Candidates for the docent program spend the first year in training as

provisional docents and, upon successful completion of training, become active docents. Participating docents are expected to commit at least two years service to the museum. The docent program generally meets on the first and third Thursdays of each month, September through May, from 9 to 11 a.m.

Applications will be accepted through Sept. 7. The new training program opens on Thursday, Sept. 17 at 9 a.m. in the museum. For more information or an application, call the museum education department at ext. 12703 or make a request in person at the museum.

Karsh Photographs Back At Museum

The Muscarelle Museum of Art has recently concluded a nationwide tour of photographs by Yousuf Karsh. The Museum welcomes back the artist's personal archival collection with a selected showing of 11 photographs.

Karsh is one of this century's most renowned portrait photographers and has photographed many of the important statesmen, artists, and literary and scientific figures of the world.

In addition, photographs by Mexican photographer Manuel Carrillo are on display in the Museum's print study room this summer. Carrillo's photographs cap-

ture the essence of the Mexican heritage through an inside look at its people and animals.

The photographs by Karsh and Carrillo will be on view in the Museum through Aug. 16. Also on view through Aug. 16 is the exhibition "Southern Quilts: A New View."

The Muscarelle Museum is open Monday to Friday from 10 a.m. to 4:45 p.m.; Saturday and Sunday from noon to 4 p.m.

For information about exhibitions, special events, or classes call ext. 12700.

Postal Director Hogge Wins National Award

Patty Hogge, second from left, poses with members of her department (l-r) Richard Sears, Ernestine Smith, James Martin, Esterine Moyler, Pat Charity, Mary Lewis, Bobby Canaday, Terry Ackies, Sara Mann and Kirby Howard.

The University Mail Managers Association has recognized Patty Hogge, director of College Postal Services, as

the Outstanding University Mail Center Manager of the Year. She received her award at the annual meeting of the na-

tional organization July 27-31 at Purdue University in West Lafayette, Ind.

Hogge was cited for accomplishments on the job including effective mailroom management.

Hogge has a list of management suggestions taped to the wall in her office. Summed up, they echo her philosophy of management, "I'm only as good as my people make me. My success is an affirmation of their skills and abilities."

Hogge says she is looking ahead with eagerness to upcoming changes, the move to the new University Center, and the added excitement of the tercentenary year.

"With the backing of Mr. Green (Julius Green Jr., director of operations, facilities management), it is a no-fail operation," said Hogge. Hogge also pays tribute to the help she has received from George Hamilton, a veteran of 35 years at the Williamsburg Post Office who joined the College staff seven years ago and brought with him a wealth of experience and knowledge.

Ash Lawn-Highland

Summer Festival 1992

Mozart's opera "The Marriage of Figaro" will be presented in a version designed especially for children at 11 a.m., Saturday, Aug. 8 as part of the Summer Festival at Ash Lawn-Highland.

All tickets are \$3 general admission and may be purchased at the door the day of the performance. After the performance families are welcome to picnic and enjoy the scenery and the peacocks.

Evening performances of "Die Fledermaus," will be given on Aug. 8. "Oklahoma!" will be performed Aug. 7 and 9. Performances start at 7 p.m. with a 45-minute intermission for picnic suppers. Catered picnic suppers are available and may be reserved by calling Festive Fare at 296-5496 by 12:30 p.m. of the day of performance.

For ticket information and group rates for performances, call the box office at 293-4500. Office hours are Tuesday through Sunday until August 16, 10 a.m. to 5 p.m.

Conveniently located off Interstate 64 and Route 20, 2-1/2 miles beyond Monticello, on county road 795, Charlottesville, Va. Open daily 9 a.m. to 6 p.m. (March through Oct.) Call (804) 293-9539.

English

An article by **Susan V. Donaldson**, titled "Consumption and Complicity in Sheila Bosworth's *Almost Innocent*," appears in the latest issue of *The Southern Quarterly*. The article is part of a special double issue on "The Texts of Southern Food."

In January Donaldson was an invited speaker at a conference on "Creators and Stewards: The 18th Century World of Henrietta Johnston and the Charles-

ton Renaissance," held at the Gibbes Art Museum in Charleston, S. C. Donaldson presented a paper titled "Songs with a Difference: Beatrice Ravenel and the Detritus of Southern History."

Donaldson also presented two papers on William Faulkner this spring. In April she gave a talk on "Gender and the Aftermath of War in Faulkner's Early Novels" at the International Narrative Conference in Nashville, Tenn. In May she presented a paper at the American Literature Association meeting in San Diego, Calif. The title of the paper was "Reading Faulkner Reading Cowley Reading Faulkner: Gender and Authority in the Compson Appendix."

In addition, Donaldson chaired a panel on contemporary southern short fiction at the American Literature Association Meeting. She also served as chair for an American literature session at the Modern Language Association Conference in San Francisco, held in December. The title of the session was "Rethinking Naturalism: Class, Gender, Science and Religion."

How To Get Over Getting Away From It All

The following was written by William and Mary alumna, Martha Steger, director of public relations, Virginia Division of Tourism, Richmond, for the Virginia Press Women's Galley Pruf and is reprinted with permission.

One veteran of many vacations has suggested that returning home has much in common with a hangover; you wish you hadn't done quite so much. Mothers might even liken the return home to the post-natal depression that they have experienced after giving birth.

The return home, however, need not be the traumatic low point of a vacation. With a little thought and planning, the end can be the beginning of something fresh and new—not just a new sunburn or a new, warm and fuzzy monthly reflection conjured up by the vacation each time you make your credit card payments.

It Starts With Getting Your Trip Together

Potential problem areas, I was told by a psychologist who I interviewed years ago, have to be identified and dealt with before you leave home if you are to return in good shape, physically and emotionally. That means, among other things, that if you're planning to spend a week with the in-laws so the children can get to know their grandparents better, you need to remember that whatever problems have existed in these relationships before will, in all likelihood, still be there.

And the myth that "getting away from it all" will solve all the problems in a relationship and bring two people closer together is just that—a myth. Wanting togetherness is exacerbated by too much togetherness all at once—as in taking a cross-country driving trip when two people have had very little time together for months.

In addition to relationships, another area to consider is an optimum level of stress. Many counselors suggest asking yourself the question, "What is it I (or my

family) need right now, emotionally and physically?"

If your job is very routine, you might want to choose something out-of-the-ordinary; but be careful not to go off the deep end and choose something so different that you won't be able to handle it. If you're the type that can't take hotel plumbing problems in stride—or can't stand hotels that adhere rigidly to turning on heat only after Oct. 15, no matter how cold it gets—you are probably not ready for Eastern Europe, for example.

On the other hand, if your job is overstimulating and keeps you on the run, you'll probably relish a simple getaway without telephones and without too much moving around. The best rejuvenation can sometimes be staying at home, ordering take-out food, taking the phone off the hook and doing something you've been wanting to do for a long time.

Another question to ask: What are my expectations of this vacation? Psychologists say that a lot of status stuff often figures prominently into vacation planning. That means that some of us are more interested in the vacation-replay on the home video screen than in choosing activities purely on the basis of what we need and our family enjoys. The more mixed the motivation for the trip, the greater burden we're placing on ourselves; and this can make for a lot of very heavy baggage that won't fit into the traditional suitcase.

Still another potential problem of every vacation is the pacing of it—and very few destinations are worth completely wearing ourselves out for whatever reason, whether it's to get the greatest perceived value for our money or to see the most at an exotic destination to which we know we'll probably never return.

In short, many of us probably do vaca-

tion with the same hard-working attitude that we go about our jobs—and part of a vacation is overcoming that mindset and rediscovering a sense of play.

Decompression And Stocking the Fridge

Our tips for re-entry from vacation include the following:

- Stock the refrigerator with your favorite drinks before leaving home; that might make unpacking the car go a little easier upon your return.
- Allow a day or two for decompression before you have to return to work.
- When you're planning your vacation budget, allow a little extra for pampering yourself especially at the end of the trip so that you'll feel fresh.
- Plan on having dinner out or doing something else very positive and unstressful as a family on the day you return.
- To avoid that getting-back-to-the-same-old-grind feeling, spend time on your return trip thinking and talking about the new things you want to do when you get home. Is there some way you can bring the fresh psychological energy of your vacation to bear on your work or home life? Psychologists sometimes refer to this as a "vacation debriefing" because the purpose is to assimilate valuable aspects of the vacation into everyday life.

Perhaps the best part of taking time to get in touch with yourself and your family after a vacation is that it also means you get another day's reprieve from mowing the lawn and doing the mounds of laundry.

Va., International Commerce Leaders Named to Business Board

Four leaders from the business world have accepted positions as directors of the School of Business Sponsors, Inc., Board.

Named to three-year terms on the board were A. Bruce Boehm, retired president of Dow Corning Europe; Eric G. Friberg, managing director of McKinsey & Co. in Brussels, Belgium; Hans W. den Ouden, a member of the managing board of Royal Pakhoed NV in Rotterdam, Holland; and Troy A. Peery Jr., president and chief operating officer, Heilig-Meyers Co. in Richmond.

The new members were announced by Alfred N. Page, dean of the School of Business Administration. The 24-member support board was organized in 1970 and provides advisory and financial support to the school.

Boehm, a Williamsburg resident, served as president of Dow Corning Europe for seven years from 1984 to 1991 and as president of Dow Corning U.S.A. from 1981 to 1984. Boehm joined Dow Corning in 1956. His career with the company spanned 35 years and included posts in product engineering, sales, marketing, sales management and global business management before culminating in the United States and European presidencies.

Boehm was also a member of numerous boards of directors including the Michigan National Bank, the American Chamber of Commerce, and C.S.M.A. He also served as director of the United Fund in Belgium and was a member of the Society of Chemical Industries—Europe.

Friberg is the managing director of the Brussels office of McKinsey & Co. Since joining McKinsey, he has spent the majority of his career in Europe, primarily in Benelux and Germany. Friberg has worked with industrial companies on questions of strategy, organization and operational effectiveness. He has also directed much of McKinsey's work for

public sector clients in Belgium in steel, textiles and glass.

Friberg has been active in the American Chamber of Commerce in Belgium since being named director in 1983 and president in 1986. The European Council of American Chambers of Commerce elected him vice chairman in 1987.

Prior to joining McKinsey & Co., Friberg founded and managed a small electronics and engineering company, and worked for a major American forest products corporation. He also managed one of the basic research laboratories involved in aeronautical systems development while serving the U.S. Air Force.

den Ouden became a member of the Managing Board of Royal Pakhoed in Holland in 1989. He oversees Paktank International as well as Royal Pakhoed's departments of safety, quality, environment and information systems. Royal Pakhoed, a publicly held company with over 5,500 employees, is involved in a large number of logistic services including the storage of liquids and dry chemicals, shipping, chemical distribution and harbor trans-shipment services.

Before joining Royal Pakhoed, den Ouden served British Petroleum for 21 years, most recently as a member of the BP Oil International management team. He joined British Petroleum in 1968 in the technical services branch in Holland. In 1972, he became an area coordinator in charge of France in the supply department of the BP head office in London, England. The following year, he was named a leader in a year-long study of downstream profitability of BP Austria.

From 1974 to 1984, den Ouden served as the general manager of marketing and operations of BP Holland and in 1984, he became the marketing manager of BP France, the first non-French man in the French management team. In 1987, he became the chief executive of BP Belgium (Oil) and the manager of the consumer and Industry Business and

Development United of British Petroleum in London.

Peery is the president and chief operating officer of Heilig-Meyers Co. in Richmond. His affiliation with Heilig-Meyers began in 1972 when he was named to a controller post. In 1974, Peery became vice president and treasurer of the company. In 1980, he was promoted to senior vice president for finance and in 1984 to executive vice president. Peery

was named president in 1986.

Prior to his career with Heilig-Meyers, Peery worked for the accounting firm of Arthur Young & Co. as a staff accountant. He currently serves on a number of boards including the Board of Directors of the Southern Home Furnishings Association, the Crestar Bank—Richmond Metropolitan Board, and the ACME Markets Board of Directors.

Board Of Visitors Appointments

CONTINUED FROM PAGE 1.

Spong has a long record of public service. He was a member of the Virginia General Assembly, 1954-56, and U.S. Senator from 1967 to 1973. He is past president of the Virginia Bar Association and has served on a number of state panels, including the Commission on Virginia's Future appointed by then-Governor Charles Robb.

In 1976 Spong was appointed law school dean. He went to work to raise the school's stature and enrollment, while construction of a new building was underway on South Henry St. By the time Spong retired in 1985, the law school was appearing in the top ranks of national publications and winning praise for the quality of its programs and library. Since leaving the law school, Spong has served as interim president of Old Dominion University.

Vergara is an attorney in private practice with Vergara and Associates. He has worked with a number of community organizations and served on the Hopewell City Council from 1976 to 1984. Vergara is also a captain with the U.S. Army Reserve.

Zable's name has become synonymous with athletics at the College. He competed in football, basketball, baseball and track while a student. In 1990 Zable made a \$10 million gift for athletic scholarship and graduate student aid, prompting the naming of Walter J. Zable Stadium at Cary Field. He is chairman and CEO of Cubic Corporation, a diversified electronics company.

No board members retired this year. A special act of the General Assembly allowed members who were to leave the board in 1992 to stay during the tercentenary year, 1993. The latest appointments will increase the number of board members from 17 to 21 for one year.

Undergraduate Catalogs Available

Undergraduate catalogs are now available in the College Post Office to be picked up by each department.

Participating Care Physicians Named

This list, taken from the statewide listing, is interim only. It is not a final listing of all PCPs that may be in the network at the end of the transition. For the duration of the transition period, agencies will receive revised directories as new physicians are added to the network.

The network includes approximately 1,640 PCPs statewide. Not listed are the names of physicians whose applications are still being processed. In addition, the Department of Personnel and Training and Blue Cross and Blue Shield of Virginia are continuing to work to gain participation by physicians who have not yet agreed to participate. In particular, DPT is aware that in some localities there continues to be an insufficient number of PCPs and the number in the directory reflects little or no change since the last directory was printed. Accordingly, DPT is focusing particular attention on expanding the network in these areas, as well as ensuring that the network statewide is sufficient.

PCP selection forms are due to the benefits office by Sept. 10. Additional selection forms are available by calling that office at ext. 13158.

Listed below are the PCP's by area. Please note the * is for new PCP's added.

Benefits Fair

Thirty-five representatives covering a wide range of benefit programs are expected at the College's annual Benefits Fair which will be held 11 a.m. to 3 p.m., Tuesday, August 18 in Trinkle Hall at the Campus Center.

The State retirement system, health insurance, tax deferred annuities, local banks, HACE, CommonHealth, College parking, the ID office, the Gore Child Care Center, Benefit America, Employee Assistant Program, the payroll office and personnel services will be represented at the fair. An orientation for new faculty will be held at 9 a.m. Faculty and staff may come at any time during the fair hours, no appointment is necessary.

Hardy Winds Up Busy Summer

CONTINUED FROM PAGE 2.

pus. Hardy also encourages an appreciation of books and gives each student several books written by or about blacks to seed their own book collections.

Hardy is particularly proud of the number of students who participate in one summer program and are eager to come back again next year. Because the programs are academically oriented, a B average as well as enthusiasm is the ticket for a return visit

Hardy will leave on vacation Aug. 7. Although she admits an eagerness for some R&R there is no hint that she has any intention of changing her challenging summer schedule. Her door is always open and whenever you visit Hardy there is always a student waiting to take your place as you leave.

"A student is a student," says Hardy "I don't care what color they are. I want to know how I can help them. I like students. They energize me. The more they grow the more I grow too."

Japanese Students Join Campus Community For Two-Week Exchange

Student visitors from Keio University are currently in the Wendy and Emery Reves Center for International Studies. Eight teaching assistants from William and Mary are staying with the students. The TAs are Ashleigh Breckett, Tom Lynch, Amy Vinroot, Virginia Long, Wendy Bridges, Benjamin Hulan, Sridevi Nanjundaram and Kent May. This is the second year of an exchange program between Keio and William and Mary.

This year's program, "One Nation, Many Faces: Pluralism and its Expression in American Society," focuses on U.S.-Japan issues, says program director Tomoka Hamada, associate professor of anthropology.

Several faculty members are teaching in the program including Chandos Brown, director of the Commonwealth Center for the Study of American Culture; Dale Cockrell, associate professor of music; Robert Gross, director of America studies; Mariann Jelinek, Richard Kraemer Professor of Business Administration and two doctoral students in American studies, Beverly Peterson and Gretchen F. Schoel.

Mary Lou Hultgren, director of the Afro-American Art Museum at Hampton University, and Christine F. Meloni, associate professor of English as a foreign language at George Washington University have also participated in the program.

"We're more prepared this year," says Hamada. "We had great success last year; students wanted to come back." But changes have been made she added. For one thing the meal planning has included lighter fare with chicken, turkey and salads and less meat. The schedule is more flexible this year with more opportunity for free time.

As an incentive to students to improve their English, the Colonial One-Hundred Club has been established for the ses-

sion. A picture of each student has been mounted on an easel in the lobby of the Campus Center. Students are on their honor to place a star by their picture for each day that they converse totally in English. They will undoubtedly be reminded that the first collegiate honor system in the country was established at William and Mary in the 18th century.

The Japanese students took a look at popular music in the United States from gospel and sacred hymns to blues and jazz in sessions taught by Dale Cockrell of the music faculty. Students appreciated the tie he wore for the first session, a bright design of CD discs.

Along with the classroom session a good sampling of social activities has been woven into the program. Students visited Yorktown and Jamestown and learned to dance country dances from The Friends of Appalachian Music, a musical group led by Stephen Clements of the geology faculty. There was also a Halloween Party and a scavenger hunt on the program. The congregation of the Church of God extended a warm welcome to students at a Sunday service and an afternoon meal.

The students will meet for dinner Thursday evening with President Timothy Sullivan. The after-dinner program will include the presentation of Group Projects and Awards.

Because students last year had only a half day in Washington, the homestay program has been moved from Williamsburg to the Springfield area so students will have more access to the Capital. Hamada says she has met with host families who are anxiously awaiting their visitors. The homestay program has been arranged by Mrs. Anne Acoca and Professor Meloni of George Washington University. During their stay in Washington, students will have a pot luck dinner with Keio alumni.

NOAA Gives Grant For Sediment Studies

Relationships between sediments and waters in estuaries are the focus of a study beginning on four National Estuarine Research Reserve sites in Virginia and North Carolina under a grant from the National Oceanic and Atmospheric Administration.

The study, titled "Sediment-Water Nutrient Exchange in Estuarine Sediments of Differing Trophic States," is being funded by a \$44,666 award to the Virginia Institute of Marine Science from the Sanctuaries and Reserves Division of NOAA. Principal investigator on the study is Richard L. Wetzel, professor of marine science. His co-investigator is Robert Christian, director of graduate studies for biology at East Carolina University.

"We will examine production by benthic (bottom-dwelling) algae in shallow areas, between the shoreline and two meters' depth," said Wetzel. "For the York River, that amounts to 38 percent of the bottom."

The researchers will study two sites in the Chesapeake Bay National Estuarine Research Reserve in Virginia—Sweet Hall Marsh in King William County on the Pamunkey River and the Goodwin Islands at the mouth of the York River in York County. The North Carolina Reserve sites are Currituck Banks near Corolla and Masonboro Island near Wrightsville Beach. These four sites provide examples of many of the types of estuaries found on the East Coast, explained Wetzel.

College Mourns Recent Deaths

John Rosser Matthews

John Rosser Matthews, professor of economics emeritus, died Aug. 2 in Williamsburg Community Hospital. He was 72.

Professor Matthews began teaching at William and Mary in 1961 after completing his undergraduate and graduate studies at the University of Virginia and following three-and-a-half years of Army and Air Corps service in World War II.

Upon his retirement, the Board of Visitors drafted a resolution, which cited his many contributions to the College:

"In his years at William and Mary the department of economics has grown substantially in faculty size, in number of its concentrators and in the research and service contributions of department members. Professor Matthews was instrumental in bringing about this growth and concomitant improvement in the quality of economics education. As the department increased the breadth of its offerings, Professor Matthews consistently undertook the heaviest teaching load in the department to free others, especially new faculty, to pursue their teaching specialties and research interests. Additionally, he taught the core courses of the departmental major, both ably and well to most of the department's concentrators and to countless other students. Many of his students, inspired by his teaching and by his personal contributions, have gone on to careers in economics and business, some at the very highest levels. For many years we have had a steady flow of testimonials to the contributions by Professor Matthews that made his students' undergraduate years at William and Mary memorable and which provided the basis for professional success afterwards."

He is survived by his wife Barbara McCaskill Matthews who was secretary in the Office of Minority Affairs until she retired; a son John Rosser Matthews III '85, Durham, N.C.; a brother, Henry Maddox Matthews, Mechanicsville; two cousins, Lawrence W. Perkinson Jr. and Edith R. Smith, both of LaCrosse, who were reared with Mr. Matthews.

Graveside services were held today, Aug. 5, at 11 a.m. at LaCrosse Cemetery, LaCrosse, Va.

The family has requested that memorial contributions be directed to the Leukemia Society of America.

W. Russell Holland

W. Russell Holland 81, died July 30 at home.

A native of Berlin, Md., Mr. Holland moved to Williamsburg around 1921. He was a member of Matthew Whaley School's first graduating class.

He was employed by Colonial Williamsburg 1934-41 in the construction and maintenance department. He also worked for the family business, W. J. Holland and Son. Later he was a self-employed contractor. When he retired in 1973, he was a supervisor of maintenance at the College.

Mr. Holland started the first guest home for tourists on Richmond Road.

He is survived by his wife of 61 years, Gertrude Clowes Holland; two daughters, Eva Ruth Lewandowski of Ware Neck and Doris Holland-Bing of Atlanta; two sons, John E. Holland of Richmond and William Russell Holland Jr. of Manhattan Beach, Calif.; seven grandchildren and nine great-grandchildren.

A graveside service was held Saturday, Aug. 1 at Cedar Grove Cemetery by the Rev. Dr. Thomas E. Pugh.

Robert Lee Thornton

Robert Lee Thornton, 69, a former employee in the laundry department of the College, died Sunday, Aug. 2. Mr. Thornton was 69.

He was a member of Shiloh Baptist Church

Mr. Thornton is survived by his wife, Mary M. Thornton; four daughters, Christine D. Davis, Mary L. Anderson and Barbara Rodgers of Williamsburg and Catherine V. Wells of Savannah, Ga.; three sons, Harry O. Thornton, Samuel M. Thornton and Robert Thorton of Williamsburg; two sisters, Elizabeth Goode of Scotland Neck, N.C., and Susie Studwell of Hampton; five grandchildren and six great-grandchildren.

A funeral service will be held at 1:30 p.m., Thursday at Shiloh Baptist Church by the Rev. William Byrd. Burial will be in the church cemetery.

Departments & Schools

lege in Holland, Mich., on June 9-11, and the meeting of the Council on Undergraduate Research National Conference at the same location on June 11-12. He is one of the 24 Geology Councilors of this organization, which focuses on improving research on the undergraduate level and on obtaining sources of funding for that research.

Virginia Institute of Marine Science/School of Marine Science

Robert F. Mothershead II, graduate student, and Robert C. Hale, assistant professor of marine science, recently

published an article titled "Influence of Ecdysis on the Accumulation of Polycyclic Aromatic Hydrocarbons in Field Exposed Blue Crabs (*Callinectes sapidus*)" in *Marine Environmental Research* 33:145-156.

Swem Library

On June 28 at the annual meeting of the American Library Association held in San Francisco, Katherine McKenzie, reference librarian, received the 1992 Shirley Olofson Award. The award, which is presented by the New Members Round Table of ALA, is awarded on a competitive basis and is made to individuals to defray the cost of attending their second ALA conference. McKenzie joined the Swem Library staff in 1988.

Dr. Janet Coleman Kimbrough '21

Dr. Janet Coleman Kimbrough '21, one of the first women to graduate from William and Mary, died July 30 in a local hospital following a brief illness. She was 90.

She was a descendant of several William and Mary alumni, including St. George Tucker, who became the College's second professor of law in 1790, succeeding George Wythe.

Dr. Kimbrough assisted in the preservation of the Tucker-Coleman collection of manuscripts, which were donated to the College in 1967. The collection, which includes manuscripts from Dr. Kimbrough's grandfather and father, is one of the mainstays of the manuscript and rare book collections in the Earl Gregg Swem Library. "She was a good friend of the library and very helpful to us in acquiring Virginiaiana, particularly from her family," said University Librarian Nancy Marshall.

In 1990 Dr. Kimbrough was awarded an honorary doctor of humane letters degree from the College. She was in a wheelchair, but rose to accept her hood and the applause of the audience.

In the July 31 issue of the *Richmond Times Dispatch* Charles Longworth, chairman of Colonial Williamsburg, is quoted: "We shall miss her wise counsel and warm friendship."

A native of Winona, Minn., Dr. Kimbrough had lived in Williamsburg since 1902. While at William and Mary, she was inducted into Alpha of Virginia Chapter of Phi Beta Kappa.

After graduating from the University of Virginia Medical School in 1926, she taught biology at a private school in Norfolk and did volunteer medical work for several local charitable organizations.

From the late 1940s to 1952, she was civil service physician at Fort Lee. She transferred to Fort Eustis, where she treated dependents of military personnel at the base's outpatient clinic for more than 18 years.

An active member of the Williamsburg community, she helped establish the Williamsburg Historical Records Association. In an obituary in the July 31 issue of the *Daily Press*, Candy McCrary writes that Dr. Kimbrough was raised in the house on Nicholson Street that was built in the late 18th century. "Once Colonial Williamsburg began its restoration, her father sold it to the Foundation on the condition that his wife and children live there for life. Dr. Kimbrough, a 'history buff' according to her daughter, was the last resident.

"She loved living in the house," said her daughter, Cynthia Barlowe. "She thoroughly enjoyed it."

Dr. Kimbrough was a member of Bruton Parish Church, the Colonial Dames, the Association for the Preservation of Virginia Antiquities, the Virginia Medical Society, Kings Daughters and Kappa Alpha Theta sorority.

Survivors include a daughter, Cynthia Barlowe of Saluda; a son, Raymond D. Kimbrough Jr. of Atlanta; six grandchildren; and five great grandchildren.

A memorial service was held Saturday at 4 p.m. at Bruton Parish Church.

The family of Dr. Kimbrough has suggested that memorials be made to the Bruton Parish Church Building Fund or to Library Acquisitions at Swem. Memorials to the library, said Marshall, will be used in the special collections area.

Robert Tyler English Jr.

Robert Tyler English Jr., 86, a former Williamsburg resident, died June 24, in Sun City Center, Fla.

A Richmond native, English was treasurer of Virginia Commonwealth University as well as finance officer and vice president for business affairs at the College.

He was also a director of the Williamsburg Chamber of Commerce and the Williamsburg Community Hospital.

English was a member of Peninsula Hospital Services, Williamsburg Community Living, the Williamsburg Planning Commission, the Golden Horseshoe Golf Club and the Charismatic Prayer Group.

He was a member of Prince of Peace Catholic Church.

Davis Y. Paschall, president of William and Mary from 1960 to 1971 and a close friend and co-worker of English, said he "was outstanding in his service, both to the College and the Williamsburg community. He was highly regarded for his integrity, delightful personality and high sense of self-sacrifice for his family and others."

He is survived by his wife, Monica English; a daughter, Elizabeth E. Baird of Raleigh, N.C.; two sons, Robert T. English III of Richmond and William R. English of Hampton; a sister, Elizabeth Eanes of New Smyrna Beach, Fla.; four grandchildren and two great-grandchildren.

A memorial service was held July 18 in the Wren Chapel.

Wang Receives NASA Medal

CONTINUED FROM PAGE 2.

airborne and spaceborne remote sensing applications.

Prior to his W&M service, he served two years as a research associate in the department of physics, University of Virginia, and for five years before that served as a research assistant in the physics department, Ohio State University.

Wang is the author or co-author of 13 papers published in reference journals and 18 technical papers presented at scientific meetings. He is a member of the

American Physical Society, International Society for Optical Engineering, Optical Society of America, Photonics Society of Chinese-Americans and American Geophysical Union.

A native of China, he graduated from High School in Beijing in 1963, the recipient of the Silver Student Medal. He received a bachelor of science degree in physics and a doctorate in physics from Ohio State University in 1983 and 1986, respectively.

He and his wife, Shu-Fen Zhang, have two sons and live in Hampton.

CALENDAR

Campus

Friday, August 21

Orientation Period (through Aug. 25)

Saturday, August 22

Exhibition Reception: "Late Medieval and Early Renaissance Illuminated Manuscripts, Muscarelle Museum," 5:30-7:30 p.m.

Monday, August 24

First Day of Classes: Graduate School of Business: First Year MBA & MST Students; Graduate School of Education; School of Law

Wednesday, August 26

Community

This column is devoted to events in Williamsburg and surrounding areas that would be of interest to members of the College community.

ity. We will accept entries, on a space available basis, of concerts, lectures, exhibits and other events open to the general public.

Wren Chapel Recital: organ recital of 18th-century music, Wren Chapel, College of W&M, every Saturday, 11 a.m.

Bruton Parish Church by candlelight every Tuesday, Thursday and Saturday, 8 p.m.

Colonial Williamsburg

DeWitt Wallace Decorative Arts Gallery

Hours: 10 a.m. to 6 p.m., daily. For information, call 220-7724.

Jamestown Settlement

Open daily 9 a.m. to 5 p.m. Call 229-1607.

Exhibit: "Discovering America" (through March 15, 1993). Planned in conjunction with the 500th anniversary of Columbus' initial landfall in the New World, the exhibit acknowledges the significance of the Columbus "discovery" in introducing the "new" world to the "old." Claims of Asian,

African and European contact with the Americas before the voyages of Christopher Columbus will be examined. Admission: \$7, adults; \$3.50, children (6 through 12). For more information, call 253-4838.

On the Hill/Yorktown Arts Foundation

Hours: Monday through Saturday, 10 a.m. to 5 p.m., Sunday, 1 to 5 p.m. Call 898-3076.

20th Century Gallery

Hours: 11 a.m. to 5 p.m., Tuesday through Saturday; noon to 5 p.m., Sunday.

Yorktown Victory Center

Hours: 9 a.m. to 5 p.m., daily. Call 887-1776.

August 18, 20, 25, 27

Women's Self-Defense Program, The R.A.D. System (4 sessions), W&M Recreational Sports Center (Allen B. Miller Gymnasium), 7 to 9:30 p.m. Sponsored by AVALON Shelter for Women and Children.

CLASSIFIED ADVERTISEMENTS

Classified ads are included as a service to members of the College community and will be accepted from faculty, staff, students and alumni only. Ads should be no longer than 40 words and must be submitted in writing to the William and Mary News office no later than 5 p.m. on the Friday preceding the first insertion.

FOR SALE

Sharp 19" color TV, new, \$140; Nettle Creek quilted spread, full size, yellow, green and orange, \$80; 9'x12' Belgian oriental, gold \$150; 4'x8' Pakistani rug, rust, elephant foot, \$500; Farberware open broiler, \$15; almost new roller skates, jr. size, \$6; new, wooden croquet set, \$15.
