The Bellini Lecture Series, launched in 1976, is named for Carlo Bellini, a native of Florence, Italy, who was appointed by then Gov. Thomas Jefferson to the first American chair of modern languages at the College in 1779.

This year's lecture is co-sponsored by the Italian House and the department of modern languages and literatures.

Busch Gardens Birthday Party Highlights Homecoming

"This is the celebration of celebrations," announced President Timothy Sullivan at the start of the tercentenary homecoming festivities at Busch Gardens.

And, if the approval of the thousands of people who jammed the Royal Palace Theatre on a chilly Saturday night was any gauge, Sullivan was right.

But just what made it so special? Was it:

- The golden piggy bank that Mark McCormack, chair of the National Steering Committee for the Campaign for the Fourth Century, brought out and handed to Rector James Brinkley? McCormack also handed over a check, symbolizing the \$153 million raised during the campaign.
- The birthday cake large enough to fill most of the stage, topped with sparkling fireworks as candles? While only a mockup, slices of real cake were served all over the theme park, and an even larger barrage of fireworks from two sites lit the sky.
- The 8-foot tall knife that Society of the Alumni President Joe Montgomery used to cut the cake?
- The appearance, through a jet of smoke, of NASA astronaut Ken Reightler, who brought William and Mary mementos which had orbited space in the shuttle?

Perhaps it was all of the above, along with the enthusiastic response from an estimated 15,000 alumni, faculty, staff and students which made the celebration one of the most unusual in College history.

College Surpasses Combined Virginia Campaign Goal

You did it!

Contributions from the faculty and staff of the College pushed the William and Mary 1993 Combined Virginia Campaign over its \$60,000 goal, according to William N. Walker, director of University Relations and chair of this year's College campaign. As of Monday, with some contributions still coming in, the campaign had raised a total of more than \$67,000.

Not only did the College surpass its \$60,000 goal, but there were 724 donors this year, about 100 more participants than last year.

"This is a terrific end to the campaign. When we were setting the William and Mary goal, we knew there was a strong amount of support, if only we could give

Green Selected HACE Tercentenary Employee Of The Year

Julius Green Jr. receives the Tercentenary Employee of the Year award from HACE President Ruth Graff.

Julius Green Jr., director of operations in facilities management, was selected as the Tercentenary Employee of the Year by the Hourly and Classified Employees organization (HACE).

Green, who has been at William and Mary for more than 20 years, was described in his nomination for the award as being fair, forthright, able to take the long view and possessing integrity beyond question.

In bestowing the reward, Vice President for Administration and Finance William F. Merck III recalled that Green's quick-thinking has aided the College in many cases. For example, when a fuse blew in William and Mary Hall just hours before Prince Charles was to arrive for Charter Day, it was Green and his crew who helped patch together enough power to keep the ceremony going.

Green, who was selected from 40 nominees for the honor, said he has always tried to give 110 percent to the College, and that he would continue to give 110 percent for as long as he worked at William and Mary.

Rev. James Blair, Lord Botetourt Statues Dedicated

Bronze statues of the Rev. James Blair and Norborne Berkeley, Baron de Botetourt, were unveiled last week during two separate homecoming ceremonies.

The Blair statue was dedicated Thursday, Oct. 21, at 11:30 a.m. Bagpipers, evoking Blair's Scottish heritage, greeted some 200 guests on a brilliant fall morning in the plaza between Blair and Tyler halls.

"It was Blair's vision of this special place, his determination and his iron will that helped bring William and Mary to the esteemed place it occupies today," President Timothy J. Sullivan told the gathering. "As a young clergyman in 1690, this remarkable and controversial man began laying plans for the College. He then spent almost two years in England securing the royal charter that was finally granted on Feb. 8, 1693.

"Three hundred years later, we know that so fragile an undertaking could never have succeeded without his force of will — or not to put too fine a point on it, his pig-headed arrogant determination," said Sullivan. "He wasn't just pig-headed, however. His dream did not end with the granting of the royal charter. He continued to secure financial backing for William and Mary, built and re-built the tiny faculty, and oversaw the construction of buildings that housed the campus of the colonial College."

William and Mary Professor Miles Chappell, chairman of the Tercentenary Art Committee, delighted the audience with a description of how he and sculptor Lewis Cohen decided where to place the Blair statue on campus.

"One cold windy day about a year ago, Lewis made a full-size cardboard silhouette and we walked it around campus to various locations," explained Chappell. "Some of you may remember that sort of surrealistic scene. The placement that we settled on — in what we can now call Blair Square — gives an old place a new unity.

"The statue of Blair is placed so that he is framed by the porthole of Blow Hall, commands the space we stand in between Tyler and Blair, is illuminated by the light that moves from east to west," Chappell said.

Cohen, an associate professor of art and art history at William and Mary, talked about the enormous responsibility of the statue commission. "In accepting this commission I did not at first realize, nor was I burdened with, the enormous sense of responsibility that this work now possesses for me. As I worked in my studio over the last two and one-half years, an awareness of the tremendous responsibility I had accepted grew and took shape," he said.

"Not only was I charged with the responsibility of evoking an image of James

Blair but it seemed staggering to me as this day approached that my private and personal vision would become a public vision in a public space—that I would in fact be leaving behind for others to see a vision of the founder and first president of the College."

Unveiling the black statue were Sullivan, former President Paul R. Verkuil, Chappell, Cohen and Anne Reynolds, chair of the Olde Guard.

Following the unveiling, Robert Wilburn, president of the Colonial Williamsburg Foundation, offered congratulations to the College and announced a new initiative between Colonial Williamsburg and William and Mary.

Plans for the "ambitious joint agenda" include: an annual James Blair Lecture series co-sponsored by the College and the Foundation, which will bring to Williamsburg a high-profile person of great accomplishment; the resumption of Colonial Williamsburg's orientation session for William and Mary freshmen; and enhanced usage of the Sir Christopher Wren Building.

As the focal point of the College and the first building restored by the Colonial Williamsburg Foundation, the Wren Building is a symbolic link between the

College and Foundation.

"These are links we should keep in good repair," Wilburn said, "and I intend to do my part."

Another connection between the College and the city—Norborne Berkeley, Baron de Botetourt, former Governor of the Colony of Virginia—was honored Saturday at 8:30 a.m. with the dedication of a bronze statue of his likeness in the Wren Yard. Botetourt was a member of the College Board of Visitors, served as College Rector in 1769, and initiated the awarding of gold medals for academic excellence at William and Mary.

The statue, with antique green patina, is a recreation of the original work by 18th-century British sculptor Ri-

chard Hayward that stood in the Wren Yard for 157 years until being moved inside for safekeeping.

"The sculpture was sorely missed," said Sullivan, "and many of us could never reconcile ourselves to its absence. Many of you here will remember bowing or curtsying to Lord Botetourt as you passed by, or tipping your Duc caps as part of a freshman ritual. Today, we have an opportunity to continue that tradition."

Sullivan expressed the College's thanks to Carroll Owens, '63, and his wife Patty Owens, '62, for their work in bringing a statue of Lord Botetourt back to the Wren Yard. "They initiated the commission, secured alumni support and provided implacable leadership to see the project through—and, in this age of bureaucracy, all in one year," Sullivan said. He then introduced the couple and presented them with a copy of the new two-volume history of the College.

Washington, D.C., sculptor Gordon Kray, '73, spoke of the complexities of recreating "this oldest free-standing monument in English-speaking America," and offered his hope that the statue would be accepted as a suitable

Variety Of Summer Study Programs, Internships Available

The Charles Center is accepting applications for summer study abroad and internships, as well as submissions for an essay contest.

Applications and additional information on the following opportunities are available from Lisa Grimes, Charles Center, ext. 12460.

Summer Study in Britain

The English Speaking Union has invited the College to nominate one member of the junior class for a scholarship to study in England during the summer, 1994. This award will provide an opportunity for Virginians attending college in the state to take courses at an English university and travel in Great Britain to gain a better understanding of the purpose of the English-Speaking Union, which is to promote understanding, good will and peaceful cooperation among all the peoples of the world who speak English.

The scholarship covers tuition and fees; the recipient is responsible for travel expenses. **The application deadline is Nov. 29.**

Summer Intern Program

The Carnegie Endowment for International Peace is an educational organization in Washington, D.C., which conducts programs of research, discussion, publication and education in international relations and U.S. foreign policy.

The student intern program at the endowment is designed to provide a substantive work experience for students with a serious interest in a career in international affairs. Up to 11 students will be hired to work on a full-time basis for six months. Monthly salary is \$1,667 plus benefits, which include medical, life and

business travel insurance. Where relevant, travel between an intern's home (in the U.S.) and Washington, D.C., will be reimbursed.

First internships begin June 1 and others start throughout the year. The College has been invited to nominate two students for these internships. Interested seniors may apply. **Deadline for submission of applications is Nov. 29.**

Luce Internships

The College has been invited to nominate two students for Henry Luce scholarships. This program, funded by the Henry Luce Foundation and administered in cooperation with The Asia Foundation, offers a select group of young Americans an experience in Asia designed to broaden their professional perspectives and sharpen their perceptions of Asia, America and themselves.

Candidates should be graduating seniors or recent graduates with records of highest academic achievement and evidence of outstanding leadership ability. More important, candidates must have a mature and clearly defined career interest in a specific field and have given evidence of potential for professional accomplishment within that field.

Applications cannot be considered from those who already have had significant exposure to Asian culture or who have a specific career interest in Asian affairs. The object of the program is to provide an intensive experience in Asia for those who would not, in the normal course of their career, expect to have such an exposure.

Application deadline is Nov. 10.
