A NEWSPAPER FOR FACULTY, STUDENTS AND STAFF

FRIDAY, AUGUST 26, 1994

The Class of '98 By The Numbers

The class of 1998 is more Virginian, more diverse and features more Monroe Scholars than last year's entering class.

A total of 8,169 applications were received, an increase of about 3 percent over last year. The College sent letters of acceptance to 3,076 applicants, and a total of 1,278 undergraduates were enrolled.

Statistically, this is how the Class of 1998 shapes up:

- While the Office of Admission considers a number of factors when looking at potential students—and not all those factors can be reduced to numbers—this year's class boasts a strong academic record.

Just over 10 percent of the class—128 students—were either valedictorians or salutatorians in their secondary schools. That number is about the same as last year.

But the number of Monroe Scholars in the entering class has taken a big jump. This year, there are 142 Monroe Scholars among the freshmen, compared with 106 last year.

President Sullivan welcomes a freshman moving into Dupont Hall.

Photo By Poul E. Olson

About 5 to 10 percent of freshmen are Monroe Scholars. To qualify, a student must have a combined SAT score in the neighborhood of 1400 and rank in the very highest percentile of his high school

Restructuring Plan Wins Approval

by Ray Betzner
Director of Public Information

The College's restructuring plan won approval from the Board of Visitors Executive Committee and praise from the chair of the education subcommittee in the state House of Delegates this week.

Meeting on Monday, the visitors unanimously accepted the restructuring plan, which includes calls for reducing administrative costs; sharpening the curriculum's focus; expanding partnership opportunities in the region and state; and enhancing the quality of the College.

Rector James B. Murray Jr. praised the effort, saying it laid out a strong and tightly focused vision for the future.

The plan also won praise from Del. Alan A. Diamonstein of Newport News, chair of the House Appropriations Committee's education subcommittee.

"I think you've hit it right on the head," Diamonstein told College officials during a hearing Monday in Richmond. "It's exactly what we're looking for."

The restructuring document was requested by the state General Assembly and will be submitted by Sept. 1.

Now that the restructuring plan is complete, President Timothy J. Sullivan said a more detailed plan for the College's future is yet to come. A draft of the college-wide strategic plan will be released Sept. 23.

The strategic plan is the product of a year's work by a campus-wide committee supervised by Provost Gillian T. Cell. While the restructuring plan set out the goals for the future, the strategic plan will describe the measures to be taken to meet those goals, Sullivan said.

"On Sept. 23, all will be apparent, all the cards will be on the table," he told reporters earlier this week.

Although the restructuring and strategic plans are complex, the president said the underlying intent behind them is clear: The changes should make William and Mary the best small, public university in the nation.

15-Year-Old Freshman Is Used To The Fast Track

Freshman Pamela Kuresh broke a vow to her best friend from high school by deciding to go to college early. After promising the sixth grade together, each promised the other that they would finish high school together too. Kuresh, however, wanted to get a head start on a career in medicine and decided, once again, to skip a grade and graduate early.

While Kuresh's friend didn't make a big deal about her early graduation, Kuresh has already discovered that it may take some time for her college classmates to get used to the fact that she's only 15 years old.

"I don't want to make a big deal about my age," Kuresh said. "But I know it's something that people won't be able to forget easily."

"We were having a mixer on my hall one of the first nights of school and nobody knew that I was 15. I mentioned my age to one person and soon everyone was whispering about me."

Kuresh's decision to attend college two years earlier than most students stems from a long-standing desire to finish medical school and become a doctor as soon as possible.

Neon And Tile Highlight Marketplace Makeover

Rally's Hamburgers headlines seven new dining concepts recently introduced in the Campus Center Marketplace Food Court. Summer renovations to the retail dining outlet were designed to enhance customer service and efficiency.

To: William and Mary Faculty Members

August 1994

Dear Colleagues:

The annual college-wide faculty meeting will be held on Thursday, Sept. 8, at 3:30 p.m. in the University Center Auditorium.

Our new rector, James B. Murray, will bring words of welcome. It will also provide an opportunity for our provost, Gillian Cell, to speak to the assembled faculties. I will offer some thoughts about critical issues facing our College over the next few years. The Board of Visitors will be meeting at this time, and I expect many of them will attend as well.

After the meeting, we will adjourn to Tidewater Room A for refreshments and good conversation.

I do hope you will attend.

Most cordially,

Timothy J. Sullivan
President

P.S. Please mark your calendar for Friday, Sept. 16, at 5 p.m. when Anne and I look forward to seeing you at the Faculty Garden Party in the Wren Yard.

To: The Campus Community
From: Richard McGrew
Director, Campus Police

Two members of the College community were recently attacked by cats found to be infected with rabies; traps were set and the animals have been removed. Please be cautious in approaching stray animals on campus and report any problems to the campus police (ext. 14596.)

August 25

On Rosh Hashanah, Anne and I wish all Jewish students, faculty and staff Happy New Year.

Timothy J. Sullivan
President

Class of '97 Keeps Tradition Alive At Marshall-Wythe

The traditionally strong student body at the Marshall-Wythe School of Law has been further strengthened with the addition of the Class of 1997.

With only 20 percent of the 3,392 first year applicants offered admission, the Class of 1997 consists of 44 percent women and 56 percent men from 89 different colleges and universities. More than 10 percent of the class holds undergraduate degrees from the College.

The class has a median undergraduate grade point average of 3.43 and a median LSAT score in the 92nd percentile. Twelve students have earned post baccalaureate degrees in subject areas as diverse as engineering, economics, international rela-

NEWSMAKERS

Restructuring Report Moves On To State

CONTINUED FROM PAGE 1

Among the highlights in the restructuring plan are:

- Cutting \$2.1 million through a three-year plan to reduce administrative expenses by 10 percent. Although *U.S. News and World Report* ranked William and Mary as the fourth most efficient university in the nation, Sullivan said the restructuring plan "takes an already efficient institution and makes it leaner and meaner."
 - Considering an increase in undergraduate enrollments with concurrent reductions in some graduate programs and strengthening in others. Overall enrollment projections should stay constant.
- At the same time, the College will increase its access by guaranteeing a transfer slot to any student on the freshman waiting list who enrolls at a community college or Richard Bland College and attains a 3.0 average.
- Enhancing the contact between senior faculty and students in small groups. The Freshman Seminar program would get a boost, as would opportunities for undergraduate research.
 - Renewing the commitment to faculty instruction. Sullivan pointed out that all William and Mary faculty teach, that full professors teach more introductory courses and generate more contact hours than other faculty, and that fewer than 1 percent of course sections are taught by graduate teaching assistants.
 - Streamlining efforts such as reducing the number of credit hours to graduate from 124 to 120, and exploring the

possibility of expanding the summer school session through a "year-round" William and Mary.

- Establishing a new Center for Teaching Excellence to put additional emphasis on the continuing development of the faculty as teachers.
- Continuing the curriculum reform approved by the faculty last year by implementing a major revision of the curriculum. In addition, the plan calls for reducing course offerings by 10 percent through elimination of low demand and low enrollment courses.
- Expanding the evening program with Thomas Nelson Community College. The program invites Thomas Nelson classes to be taught in William and Mary buildings during the evening.
- Developing a 5-year technology plan to increase administrative efficiency and enhance instruction. The College is already investing in better technology by installing \$400,000 of high-speed fiber optic cable in its buildings this year.
- Continuing decentralization and privatization efforts, such as College management of the campus payroll as part of a state "pilot project."
- Increasing William and Mary partnerships with research, education and business groups in the region and the state like CEBAF, the Peninsula Advanced Technology Center and the Virginia Institute of Marine Science.

(A complete text of the plan is included with today's News. The plan is also available electronically on the William and Mary Information Network under the "News and Calendars" and "Publications" directories.)

Kirke Weaver '94 Awarded Fellowship

Kirke Dudley Weaver, a 1994 College graduate, has been awarded a prestigious Mortar Board Graduate Fellowship for the 1994-95 academic year.

Weaver, who graduated with a 3.84 grade point average and a degree in history and government, served as president of the local Mortar Board chapter. He will attend Yale University Law School.

A limited number of fellowships are annually presented to select students from a large national pool of Mortar Board members. Mortar Board is a National Senior Honor Society that recognizes outstanding juniors for scholarship, leadership and service.

Virginia Institute Of Government Holds Regional Meeting At College

The new Virginia Institute of Government (VIG), recently established by the General Assembly at the University of Virginia, will hold a regional meeting for local government meetings Wednesday, August 31.

The State established the VIG as an outreach service to expand the training and information resources available to local governments in Virginia.

Approximately 85 local leaders includ-

ing mayors, school board members, administrators, and law enforcement officers, are expected to attend the one-day meeting designed to elicit input about local government needs.

The meeting at the College is one of seven regional meetings scheduled by the VIG to be held throughout the state from August 26 to September 12.

For more information, contact the Public Policy Institute at ext. 12363.

College and CW Continue Pursuit Of Cooperative Relationship

The College and Colonial Williamsburg recently hosted six visiting officials from Bulgaria, Slovakia and Hungary as part of their orientation to the United States.

The group, composed of three mayors and three local policy officials, is visiting the United States under the auspices of the Council of Governors' Policy Advisors in Washington, D.C. After leaving Williamsburg, each official is gaining a month of "hands-on" experience in an American governor's or mayor's office.

The two-day Williamsburg "experience" included an intense exposure to the his-

tory and meaning of democracy in the United States as portrayed by Colonial Williamsburg and American approaches to public policy—provided by the Thomas Jefferson Program in Public Policy.

Participating faculty included the Thomas Jefferson Program director, David Finifter, Professors of Government John McGlennon, Jack Edwards, and Assistant Professor of Government Chris Howard. Also, David Feldman, associate professor of economics, and David Aday, professor of sociology.

Labor Day Holiday

The College and Virginia Institute of Marine Science will observe Labor Day on Monday, Sept. 5, 1994.

Most of the administrative offices and the plant department (except for those employees required to maintain essential services as determined by management), will be closed. The decision to require employees to work should be made by the dean, director or department head, as appropriate, and should be communicated to the employee(s) as soon as possible. The Campus Police Department will maintain its regular schedule.

The names of permanent classified employees who are required to work must be reported in writing to the Office of Personnel Services no later than Sept. 16, 1994 in order that these employees may be credited with compensatory leave. Hourly employees who are required to work during the holiday will be paid their regular hourly rates.

With the approval of management, compensatory leave should be taken as soon as possible after the holiday on which it was earned. Compensatory time not taken within 12 months will be lost.

On behalf of the administration of the university, I wish each member of the College community a safe and enjoyable holiday.

Gillian T. Cell
Provost

First Undergraduate Research Symposium Scheduled For Sept. 9

Members of the College community are invited to attend the First Annual Research Symposium on Friday, Sept. 9, from 3 to 5 p.m. in the University Center.

More than 45 students—biology and chemistry undergraduates at the College—will present either a poster or short talk describing their recent research efforts. The preliminary program includes 36 posters to be presented in Tidewater Room A from 3 to 5 p.m. Five research talks will follow in Millington 117 from 4 to 5 p.m. Refreshments will be available at both locations.

The Merck Company Foundation and the DuPont Company are providing support for the research symposium which focuses on undergraduate research activities linking the biological and chemical sciences.

Specific funding from the Merck/AAAS Undergraduate Science Research Program has supplemented the chemistry research program in a variety of ways. It will also enable visiting researchers to participate in the interdisciplinary 1993-94 Merck Lecture Series at the College.

College Scholars Find Medieval Documents

A cache of rare medieval documents was discovered at Minnesota's St. John's University this summer during an apprenticeship program involving College of William and Mary scholars.

Some 40 manuscripts dating from the 13th to the 18th centuries were found in the rare book vaults of St. John's Hill Monastic Manuscript Library during a program tour. The tour was attended by George Greenia, director of William and Mary's Program in Medieval and Renaissance Studies, and Jessica Wilbur '95 and Karen Ostertag '93 of William and Mary.

Greenia and his research colleague, Theresa Vann of the University of Minnesota-Duluth, realized the significance of the documents when two of them were brought out for inspection by special collections researchers Maureen Watry and Paul Watry of St. John's. Greenia and Vann recognized the manuscripts as unique historical documents of medieval Spain.

"This is a thrilling find and a unique one for an American library," Greenia said. "The discovery of a major collection of documents like this has not happened in the United States for several decades.

"It is also every medievalist's dream and nightmare: Now we have to answer all the hard questions about what these manuscripts contain and mean."

Most of the manuscripts are from Cataluña, the northeast region of Spain that includes Valencia and Barcelona. They include previously brief educational and religious treatises, as well as massive legal codes, according to Greenia. Also included are some 26 medieval Iberian notarial charters, and other manuscripts embracing documents from Peru, Mexico and Chile. The diverse languages used in the documents include Castilian, Catalan and Latin.

The oldest document appears to be a

charter dating back to 1285. The collection also includes two vellum "notary" rolls dating to 1381 and 1389 on which legal records were kept.

St. John's officials believe that the documents were brought to the university by Fr. Urban Steiner, a Benedictine monk who was microfilming manuscripts for the library in Spain more than 25 years ago.

Greenia is now developing grant proposals that will allow him to assemble an international team of manuscript experts at the Hill Library next summer to study the documents. The library is home to the world's largest microfilm library of medieval documents, encompassing more than 22 million folios.

The program during which the manuscripts were discovered is the Summer Apprenticeship in Archival Skills for Medieval and Renaissance Studies.

Tribe Athletic Teams Hope To Repeat Last Year's Winning Season

By Jean Elliott
Director of Sports Information

Last fall, three Tribe teams advanced into the NCAA playoffs while three others won their regular season or Colonial Athletic Association (CAA) championships. Collectively, W&M teams won nearly 70 percent of the events played at the College.

If last year's winning season is any indication, Tribe teams will likely be equally as successful this fall.

For football fans, quarterback Shawn Knight, the nation's leader in passing efficiency, returns to lead the Tribe's high-scoring offense. Co-captain Mike Tomlin is sure to be one of his targets along with wideout Terry Hammons. Running backs Derek Fitzgerald, Troy Keen and Greg Parker will shore up the ground attack. Co-captain Greg Applewhite and Jason Miller will lead the defense at linebacker with a durable line made up of Melvin Griffin, Mike Bertoni, Brian Giamo and Jim Simpkins. With a 9-3 mark last fall, the gridders finished first in the conference in total defense and scoring offense. The Tribe also puts pride on the line at home with 11 straight wins, and five undefeated home stands in the last six years as testimony.

Action will heat up on Busch Field as the men's soccer and women's field hockey teams take to the turf. Last year the booters turned in a 12-5-3 record and returned to the playoffs for the second straight year. Five All-CAA performers return including goalie Paul Grafer, who started for the U.S. Olympic team over the summer. Chris

Tribe Coach Jimmy Laycock (l) and Quarterback Shawn Knight (r) led the football team to 11 straight wins at home last year.

Photo by C.J. Gleason/VISCOM

Norris, an ironman defender who earned team MVP honors last year, anchors the defense. Loaded with talent and depth at midfield, All-CAA Steve Jolley is sure to entertain with his front flip throw-in along with Chris Scrofani, also all-league. Billy Owens, a sophomore All-America last year, cranked eight goals and seven assists at forward.

The field hockey team, which finished

with a 13-9 record and made a reappearance in the national rankings, lost only one starter to graduation. The strong nucleus of Tribe players will be led by a pair of Moorestown, N.J., athletes: Cristina Limpens and Sarah Witkowski. Limpens has led the Tribe in scoring the past two years and is ranked seventh in the all-time scoring records. Witkowski, the Tribe's keeper, broke school records for saves last

year. Both earned All-South honors. The third tri-captain is Amy Umbach, an impact player who governs the midfield.

On Barksdale Field, the Tribe women's soccer team reigns. A national playoff participant nine of the last 10 years, the women booters have a pair of All-Americans returning in junior Natalie Neaton and sophomore Ann Cook. In two years, Neaton has amassed 34 goals (second in the school's all-time records) and 75 total points (third overall). Cook posted an incredible rookie campaign with six goals and a school record 13 assists. Other top players returning are seniors Jenn Baumann and Robyn Elam.

On the cross country courses at Dunbar Farms (near the Dillard Complex), both the men's and women's teams ran to CAA victories last year. Marcie Homan, a four-time All-American, will once again pace the women harriers. Homan placed 11th at the NCAA meet last year, then went on to place seventh in the indoor 5,000 meters and third in outdoor track. The men will also be led by an All-American runner in Brian Hyde. Hyde will be looking to reclaim the CAA cross country title he won in 1992. Last year he earned his certificate in the indoor 3,000 meters.

In volleyball, the Tribe lost only one starter to graduation. In addition, W&M's largest and most talented recruiting class will create a competitive lineup for 1994. Setter Kathy Bell will be a crucial cog along with fellow captains Heather Burke and Tanya Mitchell. Bell, Burke and junior Julie Amberg earned All-CAA recognition last year. Watch the action in Adair Gym and W&M Hall as the spikers look to reclaim their 10th regular season CAA title.

Zollinger Museum Exhibition Highlights Books Owned by Prominent Individuals

"From the Library of ..." is an exhibition in the Zollinger Museum on the ground floor of Swem Library which continues through Oct. 10.

Drawing upon the resources of the Library's Manuscripts and Rare Books Department, John Haskell, associate dean of university libraries, has selected 40 titles that belonged to prominent individuals who lived between 1644 and 1991.

Whether to show pride of ownership or to increase the chances of a borrowed volume being returned, these individuals marked their books with bookplates as well as rubber stamps (John Carter Brown and Hannibal Hamlin), signatures (John Hartwell Cocke and Phillis Wheatley), presentation inscriptions (Joseph Henry and Nicholas Trist) and, in the case of Robert Hoe, his interwoven initials, or cipher.

The selection represents people from all walks of life, from a physician (Caspar Wistar) and military figures (Joseph E. Johnston and Jubal A. Early), to presi-

dents (James Monroe and John Tyler), lawyers (Francis Scott Key, John Marshall and George Wythe) and a plantation mistress (Jean Skipwith).

As the curator of a provenance exhibit

at another library, which inspired this one, noted: "These are all people whose lives have not quite ended, because they owned, marked and passed on their books."

Muscarella Museum Accepting Applications For Docent Training Program

The Muscarella Museum of Art is accepting applications for this year's Docent Training Program through Sept. 1. Members of the College community are invited to become a part of this opportunity for learning about the Museum's collections and special exhibitions as well as the art of public speaking.

The Docent Training Program consists of classes on art appreciation, art history, touring techniques and lectures on spe-

cial exhibitions and Museum collections. Candidates for the Docent Program spend the first semester (three and a half months) in accelerated training meeting each Thursday from 9 to 11 a.m. During the spring semester (four months) all docents meet only on the first and third Thursday of each month.

For information or an application, contact the Museum's education department at ext. 12703.

School of Education Undergraduate Applications Due Sept. 9

Transfer students with second semester sophomore status or higher and who are planning to concentrate in an arts and sciences field are eligible to apply to elementary or secondary education certification programs in the School of Education. Applications to the secondary Social Studies teacher licensure program are only considered during the spring semester of each academic year.

Interested students may pick up applications in Jones 305A through Thursday, Sept. 8. Completed applications must be returned no later than Friday, Sept. 9. Transfer students must also provide a transcript of coursework taken at their previous institution(s) and a copy of their "evaluation of transfer credit" form.

All applicants will be required to interview with a faculty member between Sept. 12 and 26, and will be notified of decisions by the week of Oct. 3.

Notice From Dean Of Students About Errata In 1994-95 Student Handbook

Pages 45 and 47 of the *Student Handbook* contain several errors. A reading period will take place on Wednesday, Dec. 14 followed by examinations on Thursday and Friday, Dec. 15-16. There will be no examinations on Saturday, Dec. 17. Residence halls close at noon on Saturday, Dec. 17 for the semester break.

In addition, on page 17, the men's Tribe Soccer Classic will take place Sept. 9-10 at 7:30 p.m. at Busch Field. On page 35, the CAA men's Soccer Tournament will take place Nov. 10-13 at Busch Field. The time will be announced. Finally, on page 39, residence halls will close at noon for the Thanksgiving break from Nov. 23-28. Thanksgiving Break for the Law School is scheduled for Nov. 23-25.

Library Changes Borrowing Privileges For Faculty Members

Last spring the Library Policy Advisory Committee (LPAC)—a committee consisting of faculty representatives from arts and sciences, business, education, the Virginia Institute of Marine Science, the Marshall-Wythe School of Law as well as undergraduate and graduate student representatives—unanimously passed a resolution recommending that Swem Library change several policies related to faculty borrowing privileges. The library administration has followed the resolution's recommendations.

LPAC was concerned about occasional abuses of library borrowing privileges by faculty, specifically the lack of sanctions against a faculty member who ignores a recall notice for a borrowed item requested by another borrower, the lack of sanctions against a faculty member who ignores overdue notices and the option of charging departmental book allocations for books borrowed and lost by faculty. To correct these situations, new policies go into effect Sept. 1. Under these new policies:

- A faculty member who ignores a recall notice will lose borrowing privileges until the recalled item is returned to the library.
- A faculty member who fails to return an item to the library and who does not respond to the library's overdue notices will lose borrowing privileges until the overdue item has been returned.
- Faculty members who lose a book will be personally responsible for the replacement cost. Faculty will no longer have the option of having lost book charges paid out of departmental library materials allocations.

Faculty members who have questions about these policy changes should call James Rettig at ext. 13058 or send an e-mail message to jrrett@mail.wm.edu.

Libraries Need Permission From Borrowers To Use Social Security Numbers

For the automated circulation system, the libraries of the College of William and Mary need to identify each borrower with a numerical code, preferably the borrower's social security number.

With the permission of members of the College community, the College can provide a tape of social security numbers which can be loaded into the database where they will be protected from unauthorized use.

In compliance with Virginia Code, Section 2.1-385, the libraries request permission to use your social security number within our database. If this is not acceptable, please notify the William and Mary libraries in writing by Sept. 30. Write to Linda Adams, Circulation Coordinator, Swem Library. If the libraries do not receive notification by Sept. 30, they will assume that permission is granted.

College Graduates Gain Valuable Experience As Governor's Fellows

by Kelley Daspit
University Relations

Six William and Mary graduates and one graduate student got a chance to see state government in action this summer working in Richmond for Governor George Allen as part of the Governor's Fellows Program.

"This was the best internship I've ever had," said Daniel Rodgers, a 1994 graduate of the College and native of Virginia Beach. "You're with the most dedicated people who are willing to be mentors to hard-working students."

The Governor's Fellows Program offers graduates of Virginia colleges and universities an opportunity to gain valuable experience by working directly with state cabinet members, agency heads and the governor's personal staff. This year the program accepted 29 applicants based on academic records, essay questions and panel interviews.

Rodgers was hired as a policy director for the Governor's Commission on Citizen Empowerment as part of the Governor's Fellows Program. He worked on policy analysis and welfare, and economic and educational reforms.

"The Allen administration is amazing," said Rodgers. "It is very encouraging to see a government in its first year trying so hard to fulfill its campaign promises and come through on its commitments."

Rodgers who received the Algernon Sydney Sullivan award for outstanding service and leadership, will continue to work for the commission on a part-time basis over the next year. He will also attend the University of Virginia this fall where he plans to study constitutional law.

Tracy Locklin, a graduate student in the Thomas Jefferson Public Policy Program at the College also had positive things to say about his summer experience in the state capital.

"The Governor's Fellows Program gave me a good bird's eye view of what goes on in state government," he said. "I was able to put the skills I learned in economics and

Governor's Fellows from the College attended a barbecue at the Governor's Mansion in July. Shown here from left to right are Gregory Crist, Calvin T. Cosio, Ashley E. Harwell, First Lady Susan Allen, Patrick T. Brandt, Daniel P. Rodgers, Tracy A. Locklin, and Gov. George Allen. Not pictured is Deborah Ann Krassy who was unavailable.

public policy to the test."

Locklin, a recipient of the Thomas Jefferson Fellowship for Graduate Study at the College, worked in the Office of Planning and Budget this summer. His two main projects involved helping an analyst draft executive orders for the governor and researching the impact NAFTA would have on Virginia's economy.

Locklin, who considers his home to be in Williamsburg, will graduate in May 1995, and plans to take a job in either state government or attend law school.

Ashley Harwell, a 1994 graduate of the College and native of Chester, Va., also worked on NAFTA issues as well as researching initiatives and referendums in the Government Policy Office.

"Being a Governor's Fellow has given me a chance to work for a governor I really support," said Harwell. "I encourage everyone interested to seek out information about the program and get involved."

A James Monroe scholar and member

of the Phi Beta Kappa Honor Society, Harwell will attend law school at the University of Virginia this fall.

Greg Crist of Lynchburg has also worked in local government through an internship he held with James City County while a student at the College. The Governor's Fellows Program put him to work in the Office of Natural Resources where he explored possible work programs for Virginia's inmates.

"It is a fascinating experience to actually formulate policy in the short time that you're here," said Crist. He explained that fellows are given a lot of responsibility and independence, as well as the access to cabinet-level people.

"I really enjoyed working closely with people in the Public Safety Department which runs the Department of Corrections," said Crist. "My experience has been terrific; I'm not ready for it to end." Crist hopes that he will be asked to stay on in the Office of Natural Resources. If that doesn't

work out however, he has two job offers in Baltimore.

While at William and Mary, Crist was president of Pi Sigma Alpha, the government honor society, and graduated Phi Beta Kappa in 1994.

Calvin Cosio, a double government and economic major, graduated from the College in 1994 and worked in the Department of Economic Development as one of the Governor's Fellows.

"The program allows you to meet with intelligent students from all over the state and gain experience doing substantive work," said Cosio, whose work involved assessing the effectiveness of comprehensive economic development centers.

A native of Richmond, Cosio won third place in the William and Mary Economic Alumni Essay Contest in 1994. He was also a member of Pi Sigma Alpha, the government honor society, while at William and Mary.

Cosio plans to get a public affairs job in state government after traveling around the country this fall.

Patrick Brandt of Warren, Ohio, found the Governor's Fellows Program to be the perfect transition between graduating from the College last May and beginning graduate school at Indiana University this fall. Working for the Commission on Government Reform exposed Brandt to many aspects of state government.

"Each day was quite different," said Brandt. "One day we would meet with Public Safety, another day with Information Technology and another day with the Alcohol and Beverage Control Board to discuss possible ways for reform."

While at William and Mary, Brandt won the W. Warner Moss Prize for the most outstanding government honors thesis. His topic was minority representation in southern congressional districts. Brandt plans either to go into politics at the state or federal level or to teach political science.

Deborah Ann Krassy was unavailable for comment on her experiences as a Governor's Fellow.

Departments & Schools

Economics

The following volume edited by **Berhanu Abegaz**, associate professor of economics, has just been published: *Essays on Ethiopian Economic Development* (Aldershot, England and Brookfield, VT: Avebury Press, 1994). It contains six original essays, two of which are by the editor.

Government

Assistant Professor **Christopher Howard** published "Happy Returns: How the Working Poor Got Tax Relief" in *The American Prospect* (Spring 1994). The article explains how the Earned Income Tax Credit gained favor in Washington, and how well the program is working.

Kinesiology

Jean Elliot, director of sports information, spoke at a two-day seminar titled "Communication in Sports" in mid-July at Mary Washington College. Elliot was fea-

tured on a panel of sports communications specialists, which discussed career options available to job seekers interested in a career in sports communications.

Sociology

Professor **Gary Kreps'** paper "Disaster as Nonroutine Social Problem" was presented (by Professor Thomas Drabek) at the 13th World Congress of Sociology meetings, July 22, in Bielefeld, Germany. Kreps then discussed the paper at a meeting of the ISA Research Committee on Disasters, Aug. 8, in Los Angeles.

School of Business

Wanda A. Wallace, The John N. Dalton Professor of Business Administration, has had the following articles published: "An Exploratory Content Analysis of Terminology in Public Accounting Firms' Response to AICPA Peer Reviews" (co-authored with Karen S. Cravens), *Research*

in Accounting Regulation (Volume 8, 1994); "The National Transportation Safety Board as a Prototype for a More Effective Quality Inquiry Committee," *Comments and Commentaries, Accounting Horizons*, (Vol. 8, No. 1, March 1994); "What is the Nature of Subsequent Event Disclosures? Are Good News and Bad News Symmetrically Disclosed?" (co-authored with **C. Kermit Littlefield**, MBA student, *The Auditor's Report* (Vol. 17, No. 3, Summer 1994).

School of Business/Law

The American Management Association has published the third edition of its management handbook. **Ronald Sims**, professor of business, wrote a chapter on training. **Ahmed Zaki**, professor of business, wrote a chapter on information technology, and **Charles Koch**, professor of law, wrote a chapter on administrative law. **Herrington J. Bryce**, professor of business, is the section editor for the public management section of the handbook and wrote two articles on non-profit organizations.

Almost Half Of Freshmen From No. VA

senior class. Each student receives a \$2000 award to fund a summer research project of his choice.

- This year's freshman class has 843 Virginians in its total of 1,278. That means 66 percent are from the Commonwealth, an increase of 5 percent over last year.

Regionally, populous Northern Virginia is strongly represented in the mix of in-state students. Almost half of the in-state

freshmen—46 percent—come from Northern Virginia communities such as Alexandria, Arlington and Falls Church.

Of the remaining Virginia regions, 20 percent of the in-state students come from Tidewater; 13 percent from Richmond; 11 percent from Southwest Virginia; and 10 percent from South Central Virginia.

- The class of 1998 is also more racially diverse. Almost 19 percent of the freshman are students of color, compared with 16.5 percent last year.

Data Communications and E-Mail Upgraded

This summer, the Office of Telecommunications, the Computer Center and Technology Services collectively implemented a major upgrade to data communication services. This upgrade improves the reliability of access to on-line information services.

Faculty, staff, and students currently using Procomm Plus, PMail or Eudora off-campus with a modem will need to upgrade their software installations to work with the updated system. Upgrade materials, instructions and installation assistance

are available from Technology Services, ground floor of Swem Library, or by calling ext. 1-HELP.

During the week of Aug. 22, testing will also be completed to update the College's inbound modems to receive calls from off-campus modems that have error correction and data compression abilities. Off-campus patrons using 9600 baud modems that previously required these features to be disabled should contact the Help Desk at ext. 1-HELP for assistance to reactivate these settings on their modems.

Career Services To Administer National Testing Program

The responsibility for administration of the National Testing Program (which includes the GRE, LSAT, and MCAT) has been changed from the Counseling Center to the Office of Career Services.

Jan Pattis, former administrator, would like to thank all those who have worked those many Saturdays helping to administer the tests. For those interested in continued Saturday work, contact Mary Meade Saunders, the new administrator.

Convocation 1994

Charles McDowell warned against cynicism during his convocation address in William and Mary Hall on Tuesday.

Convocation speaker Charles McDowell on Tuesday warned William and Mary students against becoming cynical about their government and the people who run it. McDowell, a nationally-known political reporter, said that for some Americans "contempt for politicians has become almost a component of patriotism."

He said that most politicians are smart, honest, hard-working individuals who are trying to make a difference and urged students to become involved in government on campus or in the community.

After the ceremony in William and Mary Hall, students processed to the Sir Christopher Wren Building, where freshmen entered the Wren Yard while the Wren bell tolled.

First Year Law Students A Diverse Bunch

Dean Thomas G. Krattenmaker (r) greets first-year law student Samoa Watanabe (l) of Yokohama, Japan, at the law school during orientation last week at the Marshall-Wythe School of Law.

CONTINUED FROM PAGE 1

tions, urban planning and medicine.

Almost half have full-time work experience in the legal or public administration professions or in fields such as engineering, accounting, teaching, research and journalism. Musicians, debaters, and varsity athletes representing many sports are among the entering class.

First-year students arrived on campus Aug. 15 for a week-long introduction to law school and the legal profession. These activities are part of the Legal Skills Program, which teaches lawyering skills, professional responsibility and ethics by having students engage in simulated legal practice. This program was the first recipient of the annual Gambrell Award for Professionalism presented by the American Bar Association.

"The office of admission has done a superlative job in putting together an outstanding first-year class," said Thomas G. Krattenmaker, dean of the law school. "We are pleased and impressed with the rich and diverse experiences our students will bring into the classroom."

Kuresh Looks Forward To Pre-Med Classes

Freshman Pamela Kuresh (center) chats with her roommates Julie Lawrence (l) and Kim Buturla (r) on the porch behind Barrett Hall.

CONTINUED FROM PAGE 1

Kuresh's parents reacted to her decision to graduate early with concern that she was "growing up too fast." But having taken numerous college preparatory classes, including courses at Shenandoah University, Kuresh felt no reason to remain in high school.

"If I had stayed in high school another year, I would be taking college level classes anyway," Kuresh said. "I asked myself, why not finish early and go to college."

Kuresh, who turns 16 in November, applied to seven schools and was accepted by three, including William and Mary. At least one school, Kuresh later learned, denied her admission because of her age.

Despite such disappointments, Kuresh said William and Mary proved most ap-

pealing because of its excellent reputation, "nice, safe and balanced lifestyle," and close proximity to shops and other conveniences.

Kuresh, an active community volunteer in her hometown of Front Royal, said she plans to pursue similar extracurricular endeavors at the College. As part of her pre-med curriculum, she also plans to pursue a concentration in biology.

So far, Kuresh describes her first few days at William and Mary as "wonderful, but hectic."

"Except for the unexpected crunch to get classes, I haven't been disappointed by anything so far," Kuresh said. "It's been a lot of fun meeting new people."

College Honors Walker At Farewell Reception

William N. Walker, director of University Relations at the College, receives a gift of appreciation from Stewart Gamage, vice president of Public Affairs, during a farewell reception Wednesday in the Great Hall of the Sir Christopher Wren Building. Walker begins work Monday as executive director of university communications at Rutgers University.

Need Help With Technical Questions? Call Technology Services At 221-HELP

Members of the College community who have ever had a technical question but did not know who to call or where to start, may now call the new Technology Services help service at ext. 1-HELP (14357).

Previously known as Instructional Technology, the Audio-Visual, Video Production, and Photography/Graphic Arts staff have joined the staff of Computing Support and PC Maintenance to form Technology Services.

Located on the ground floor of Swem Library, Technology Services will provide centrally coordinated resources to support the growing number of technology applications in both the classroom and administrative offices.

Computing Support Services offers consultation and assistance for software ac-

quisitions and implementation; provides software and support for electronic mail, and on- and off-campus data communications; conducts seminars and short courses in the use of computing resources; operates a Help Desk to assist computer users, and provides installation and repair services for College-owned equipment. Staff consultants are available to advise the College community on the selection, purchase and application of computers and software. The staff also provides hot-line and on-site support to help members of the College community resolve their computing questions and problems. Computing Support Services also maintains "WAMI," the William and Mary Information gopher system.

Audio-Visual Services provides consultation, installation and maintenance re-

sources to respond to faculty's classroom technology needs. In conjunction with Video/Audio Production Services, Audio-Visual Services also manages the implementation of electronic presentation classrooms.

Photography/Graphic Arts Services prepares instructional material and can create slides from printed matter, generate computer graphics for use in prints or slides and develop black-and-white film.

Finally, Technology Services offers these services as well:

- Computer, audio-visual and video equipment check-out services for faculty and staff to support College related projects.
- Desktop publishing consultation and services to produce faculty research and

administrative material requiring integrated text and graphics.

- Document scanning and conversions to other media and formats.
- General hands-on application workshops on many of the standard, supported application software programs such as WordPerfect, Quattro Pro, Paradox and Windows.
- Customized department workshops on electronic mail, the Internet and WAMI.
- Faculty training sessions on specialized audio-visual equipment available on campus.

Please call the Help Desk at ext. 1-HELP for more information about these services.

Recent Grants

Anthropology

Moyer, Curtis, conservator, "Treatment of the Iberian Storage Jar," Fredericksburg Area Museum and Cultural Center, \$300.

Moyer, Curtis, conservator, "Kenmore Artifacts," Kenmore Association, Inc., \$280.

The Center for Archaeological Research

Blanton, Dennis B., co-director/research, and **Donald W. Linebaugh**, co-director/administration, "Phase I Archaeological Survey of the Proposed Route 602 Project, Page County," Virginia Department of Transportation, \$7,011.

Blanton, Dennis B., co-director/research, and **Donald W. Linebaugh**, co-director/administration, "Phase I Archaeological Survey of the Clover to Carson 500kV Transmission Line, Halifax, Charlotte, Lunenburg, Mecklenburg, Brunswick and Dinwiddie Counties," Virginia Power Company, \$17,994.

Blanton, Dennis B., co-director/research, and **Donald W. Linebaugh**, co-director/administration, "Phase II Architectural Evaluations of the Arnel School and Sherman-Rogers-Sargent House, Route 642, Frederick County," Virginia Department of Transportation, \$10,029.

Blanton, Dennis B., co-director/research, and **Donald W. Linebaugh**, co-director/administration, "Archaeological Survey of Marine Corps Combat Development Command, Quantico, Virginia," U.S. Army Corps of Engineers, \$51,203.

Blanton, Dennis B., co-director/research, and **Donald W. Linebaugh**, co-director/administration, "Archaeological Survey of Marine Corps Combat Development Command, Quantico, Virginia," U.S. Army Corps of Engineers, \$105,197.

Blanton, Dennis B., co-director/research, and **Donald W. Linebaugh**, co-director/administration, "Additional Assessment of Archaeological Potential for a Proposed Sand/Gravel Mining Tract, Charles City County," Mays and Valentine, \$676.

Blanton, Dennis B., co-director/research, and **Donald W. Linebaugh**, co-director/administration, "Phase II Architectural Evaluation of Bridge #1005, Wythe County," Virginia Department of Transportation, \$10,437.

Blanton, Dennis B., co-director/research, and **Donald W. Linebaugh**, co-director/administration, "Archaeological Survey and Evaluation, Part III, Marine Corps Combat and Development Command, Quantico, Virginia," Norfolk District, U.S. Army Corps of Engineers, \$115,253.

Blanton, Dennis B., co-director/research, and **Donald W. Linebaugh**, co-director/administration, "Historical and Archaeological Investigations at the Cary Forge and Amptill Mill Sites, Chesterfield County," Chesterfield County, \$13,878.

Applied Science

Manos, Dennis, director and CSX professor, "Support of the CEBAF Free Electron Laser and Hardware Development," Southeastern Universities Research Association, \$12,302.

Orwoll, Robert A., professor, with graduate student **Donald A. Sandusky**, "Automated Tow Placement Process Modeling," National Aeronautics and Space Administration, \$22,000.

Orwoll, Robert A., professor, with graduate student **Rachel L. Knudsen**, "Phenylethynyl-Terminated Resins for High Performance Materials," National

Aeronautics and Space Administration, \$22,000.

Starnes, William H., Jr., Floyd Dewey Gottwald Sr. professor of chemistry, "Microstructures of Polymers Prepared by Free-Radical Polymerization," National Science Foundation, \$8,400.

Biology

Beck, Ruth, assistant professor, "Colonial Bird Investigations in Tidewater, Virginia," Virginia Department of Game and Inland Fisheries, \$4,230.

Byrd, Mitchell A., research professor, "Piping Plover Project," Virginia Department of Game and Inland Fisheries, \$27,000.

Byrd, Mitchell A., research professor, "Monitoring the Peregrine Falcon," Virginia Department of Transportation, \$4,713.

Saha, Margaret, assistant professor, "RUI: Determination of the Dorsal-Ventral Neural Axis in *Xenopus*," National Science Foundation, \$254,767.

Wiseman, Lawrence L., professor, "Research Experience for Secondary Students," Williamsburg-James City County Public Schools, \$750.

Wiseman, Lawrence L., professor, "Research Experience for Secondary Students," Williamsburg-James City County Public Schools, \$500.

Chemistry

Abelt, Christopher J., associate professor, "RUI: Synthesis and Characterization of Dicyanoanthracene-Substituted-Beta-Cyclodextrins," National Science Foundation, \$45,200.

Kranbuehl, David E., professor, "Smart Materials and Process Study," Northrop Corporation, \$3,000.

Kranbuehl, David E., professor, "FDEMS Feasibility Study on Emulsion Polymerization," Glidden Research Center, \$400.

Rice, Gary W., associate professor, "Determination of Water and Sediment Composition at the BASF Dredge Spoils Pond," BASF, \$13,520.

Computer Science

Feyock, Stefan, associate professor, with graduate student **Earl S. Harris**, "Application of Machine Learning to Knowledge Discovery," National Aeronautics and Space Administration, \$22,000.

Nicol, David M., assistant professor, and **Gianfranco Ciardo**, assistant professor, "Parallel Algorithms for the Simulations and Analysis of Stochastic Petri Nets," National Aeronautics and Space Administration, \$50,000.

Nicol, David M., assistant professor, "REU: Static and Dynamic Load Balancing of Parallel Discrete-Event Simulations on Distributed Memory Architectures," National Science Foundation, \$5,000.

Park, Stephen K., professor, with graduate student **Beverly Thompson**, "Object-Oriented Algorithms and Data Structures for Image Compression," National Aeronautics and Space Administration, \$22,000.

English

Fehrenbach, Robert J., professor, "Private Libraries in Renaissance England: The Oxford Inventories," National Endowment for the Humanities, \$84,088.

Martin, Jack, visiting assistant professor, "Corpus and Dictionary of Muscogee (Creek) and Oklahoma Seminole," Na-

tional Endowment for the Humanities, \$90,000.

Government

Cheng, Tun-jen, associate professor, "Direct Local Elections and Chinese Political Culture," Chiang Ching-Kuo Foundation, \$15,000.

Rapoport, Ronald B., professor, "Collaborative Research on the 1992 Perot Movement and Party Change," National Science Foundation, \$95,814.

Physics

Delos, John B., professor, "Order and Chaos in Classical and Quantum Mechanics," National Science Foundation, \$60,000.

Delos, John B., professor, "Atoms in External Fields: Periodic Orbits and Bifurcations," Office of Naval Research, \$69,000.

Finn, J. Michael, associate professor, "SURA/CEBAF Graduate Fellowship," Southeastern University Research Association, \$12,000.

Hoatson, Gina L., assistant professor, "NMR Studies of Molecular Motion in Constrained Environments," National Science Foundation, \$130,000.

Kossler, William J., professor, with graduate student **Joe Kum**, "REU: Nondestructive Evaluation (NDE) on New Materials," National Aeronautics and Space Administration, \$3960.

Krakauer, Henry, professor, "Density Functional Studies of Solids and Surfaces," National Science Foundation, \$85,000.

Psychology

Refinetti, Roberto, assistant professor, and **Eric L. Bradley**, professor of biology, "ILI: Psychobiology Laboratory Improvement Program," National Science Foundation, \$7,915.

Shaver, Kelly, professor, with graduate students **C. Hampton** and **S. Gable**, "Assistantship in Psychology at Eastern State Hospital," Eastern State Hospital, \$11,200.

Watson, Neill, associate professor, with graduate student **Jonina Moskowitz**, "Assistantship in Psychology at Eastern State Hospital," Eastern State Hospital, \$6,000.

Theatre and Speech

Bledsoe, Jerry H., professor, "Virginia Shakespeare Festival - 1994," Williamsburg Area Arts Commission, \$4,000.

Bledsoe, Jerry H., professor, "Virginia Shakespeare Festival - 1994," York County Arts Commission, \$2,000.

School of Education

Korinek, Lori, assistant professor, and **Virginia L. McLaughlin**, assistant to the President, "Teachers of Students with Emotional Disturbance," U.S. Department of Education, \$110,798.

Cotman, Timothy W., Sr., field representative, "Virginia Department of Education/Field Office at the College of William and Mary," Virginia Department of Education, \$18,433.

Walther-Thomas, Chriss, assistant professor, "Educating Students with Disabilities in Inclusive Settings," Virginia Department of Education, \$9,720.

Center for Gifted Education

VanTassel-Baska, Joyce, director, "Additional Support for the 1994 Governor's School for Science and Technology at William and Mary," Virginia Department of Education, \$12,251.

Ash Lawn-Highland

Holmes, Carolyn C., executive director, and **Daniel Preston**, editor, "James Monroe Papers Calendar," National Endowment for the Humanities, \$115,028.

Counseling Center

Meilman, Philip W., director, "Analysis Grant: Capturing and Analyzing Data on Student Misperception of Substance Abuse," U.S. Department of Education, \$63,078.

Office of the Dean of Students

Bickley, Lisa, assistant dean of students for disabilities services, "Systems Change On Campus: Fostering Independence and Improving Programmatic Access Through Assistive Technology Services," Virginia Department of Rehabilitative Services, \$5,500.

Muscarella Museum of Art

Johnson, Mark, director, "Gallery/Studio Program for Children," Williamsburg Area Arts Commission, \$4,400.

Reves Center for International Studies

Canning, Craig N., associate director, "1994 Summer Keio Program," Keio University, \$87,200.

CORRECTION

School of Business

Smith, Kimberly J., assistant professor, and **Wanda A. Wallace**, John D. Dalton professor, "Exercising Executive Stock Options: Behavior and Determinants," University of Southern California, \$33,629.

Radio Program Features College Faculty

"With Good Reason," a weekly radio broadcast featuring faculty from various colleges and universities in Virginia, begins its fall series of programs Sept. 6 with "Net Profit: The Future of Virginia's Seafood Industry."

Bill DuPaul, professor of marine science at the Virginia Institute of Marine Science, and George Flick of Virginia Tech will examine the state of Virginia's seafood industry and what can be done to safeguard it.

The program airs on WHRV-FM 89.5, Tuesday, Sept. 6 at 11 a.m. and will also be rebroadcast on WCVE-FM 88.9, Saturday, Sept. 10 at 1 p.m.

Hans Tiefel, professor of religion, and Rodney Smolla, Arthur Hanson Professor of Law, will be featured on programs later in the fall.

NOTES

Swem Library Offers Tours, LION Training Sessions

Swem Library will conduct 30-minute tours of the library to help students learn about its services and where to obtain them. Tours will begin in the Swem lobby beginning Monday through Wednesday, Aug. 29-31, at 3 p.m. More tours will be conducted in September.

Swem Library will also hold 30-minute training sessions to teach the effective use of LION on Tuesday, Aug. 30 at 2 p.m. and Thursday, Sept. 1 at 11 a.m. The sessions will be held in the classroom on the ground floor of Swem Library. Additional training sessions will be held during September.

News To Be Published Sept. 7

The next issue of the *William and Mary News* will be published on Wednesday, Sept. 7. All submissions and classified ads are due by Friday, Sept. 2 in Holmes House or by e-mail to wmnews@mail.wm.edu.

Poetry Contest Seeks Entries

The National Library of Poetry will award \$12,000 in prizes this year to more than 250 poets in the North American Open Poetry Contest. The deadline for the contest is Sept. 30. The contest is open to everyone and entry is free.

To enter, send one original poem, any subject and any style, to The National Library of Poetry, 11419 Cronridge Dr., P.O. Box 704-1931, Owings Mills, MD 21117. The poem should be no more than 20 lines, and the poet's name and address

should appear on the top of the page. Entries must be postmarked by Sept. 30. A new contest opens Oct. 1.

Road Construction Scheduled

B&H Construction began construction last week to widen and resurface Gooch Drive. This project will last approximately two more weeks. The road will remain open for one-way traffic during most of the construction. For a short period, Yates Drive will be closed while the intersection of Yates and Gooch is improved.

The Campus Police and Facilities Management are asking the contractor to provide dates that the road will be closed in order to provide additional assistance with traffic control. Questions on closure dates should be addressed to Tom Macchi at ext. 12272 and on traffic assistance to the Campus Police at ext. 14596.

Students Encouraged To Use Writing Resources Center

The Writing Resources Center, located in Tucker 115A, offers one-on-one consultations, free of charge, to students at all stages of the writing process. The Center, which is staffed by graduate and undergraduate writing consultants, is open from 9 a.m. to 4 p.m., Monday through Friday and from 7 p.m. and 9 p.m., Tuesday through Thursday evenings. Students may call ext. 13925 to make an appointment or stop by the Center during regular hours.

CLASSIFIED ADVERTISING

Classified ads are included as a service to members of the College community and will be accepted from faculty, staff, students and alumni only. Ads should be no longer than 40 words and must be submitted in writing to the William and Mary News office no later than 5 p.m. on the Friday preceding News publication.

CALENDAR

SPECIAL EVENTS

Sept. 9. An opening reception for two new exhibits will be held at the Muscarelle Museum at 5:30 p.m.

"Leadership Arts of West Africa" was organized by the Kent State University School of Art Gallery and is composed of selections from a number of sources, including the William C. Mithoefer Collection of African Art.

"Impressions: Prints from the Permanent Collection" is an exhibition of old master through contemporary prints, highlighting some of the important acquisitions made by Museum Director Mark M. Johnson during his nine years at the Muscarelle. Included are masterworks by Albrecht Dürer, Hendrik Goltzius, Antonio Canaletto, Giovanni Battista Piranesi, J. J. Tissot, Felix Buhot, Grant Wood, Rockwell Kent, Max Weber, Henry Moore and Jasper Johns, among others.

Sept. 7. Research Symposium 1994 will feature the presentation of over 35 research posters in Tidewater A, University Center, from 3 to 3:50 p.m. Five research talks will be given in Millington 117 from 4 to 5 p.m. For additional information, call ext. 12558.

FILMS

Aug. 30-31 and Sept. 6-7, 13-14. The University Center Activities Board has announced the fall movie lineup. All films will be shown in the University Center auditorium at 8 p.m. The schedule is as follows: "Reality Bites," Aug. 30 and 31; "With Honors," Sept. 6 and 7; "Threesome," Sept. 13 and 14. Tickets are \$2 for student, \$3 for non-students. Semester passes are available for \$20. For information, call ext. 12132.

MEETINGS

Aug. 31. The new Virginia Institute of Government (VIG) will meet at the College. For information, contact the Public Policy Institute at ext. 12363.

Sept. 8. The annual Collegewide faculty meeting will be held in the University Center auditorium at 3:30 p.m.

SPEAKERS

Aug. 26. Wolfgang Schade, Institut für Experimentalphysik der Universität Kiel, will be the speaker at a physics colloquium in Small 109 at 4 p.m. His subject has not been announced. Coffee will be served in Small 123 at 3:30 p.m.

In appreciation of our many
Friends of the College

William and Mary

invites you to a

Community Concert

featuring the **William and Mary Choir;**
The William and Mary Concert Band
and the **William and Mary Jazz Ensemble**
The Wren Yard

Thursday, September 29, 5:30 to 7:30 p.m.

You are invited to bring your blanket and picnic basket. (An order blank is included below for sandwiches to be ordered from the Cheese Shop and picked up at the concert.) Shuttle service will be provided to the concert from W&M Hall. Rain Plan: The University Center.

Aug. 29. A physics colloquium will be held in Small 109 at 4 p.m. Lori Goldner from the National Institute of Standards and Technology will speak on "Atom Optics and Interferometry in the Dark State." Coffee will be served in Small 123 at 3:30 p.m.

Sept. 15. Town & Gown luncheons resume with Kathleen F. Slevin, associate professor of sociology, speaking on "Women in Retirement: Are Their Experiences Different from Those of Men?", in the Chesapeake Room of the University Center.

Doors will open at 12:15 p.m., with lunch served at 12:30 p.m. Parking is available in the W&M Hall parking lot near the bus shelter. Shuttle buses will run between the shelter and the University Center from noon to 12:30 p.m. and from 1:30 to 2 p.m.

Luncheon reservations may be made by calling ext. 12640 before noon on the Tuesday preceding the luncheon. This is an automated message line. When leaving your message, spell the first and last names of all persons wishing to make reservations. The cost of the luncheon is \$7 for the public and \$5 for faculty and staff, payable on the day of the luncheon.

SPORTS
