A NEWSPAPER FOR FACULTY, STUDENTS AND STAFF

WEDNESDAY, FEBRUARY 8, 1995

College Celebrates 302nd Anniversary

Lady Thatcher, David Broder Headline Charter Day

Margaret The Lady Thatcher and nationally syndicated columnist David Broder, among the most noted political figures and commentators of modern times, headlined Charter Day this past weekend.

In brief remarks at the Charter Day Convocation Saturday in Phi Beta Kappa Memorial Hall, Lady Thatcher used the presence of the two honorary degree recipients to expound on one of her favorite topics—freedom.

She noted the difficult struggle by the former Soviet Union to move to democracy, and said the recipients—Judge Damon Keith and journalist David Broder—symbolized the cornerstones of a free society—the rule of law, and freedom of speech and the press.

Following in the footsteps of Winston Churchill, the last foreign dignitary to address a joint session of the Virginia General Assembly, Lady Thatcher also gave an address to a rare joint session in Richmond on Friday.

Thatcher, introduced as "The Right Honorable Baroness Thatcher of Kesteven," brought the lawmakers to a standing ovation when she said: "As chancellor of the College of William and Mary, I already feel at least an adopted daughter of the State of Virginia. But when I consider all that this place has given to democracy, I am moved to say that in spirit: I am a Virginian!" Later, Senate Majority Leader and William and Mary alumnus Hunter B. Andrews '42 quipped: "England forever!"

Broder, who delivered the keynote address during

CONTINUED ON PAGE 5.

Prior to the Charter Day ceremony, Lady Thatcher (1) chatted briefly with the President's Aides in the robing room. From left are: Sophomore Amy Beasley, graduate student Allison White and Junior Ruth Jones.

Lady Thatcher was the first visitor to a new exhibition in the Sir Christopher Wren Building, portraying the 300-year history of the structure. The College and the Colonial Williamsburg Foundation jointly organized the graphic display located off the main hallway inside the Wren Building. At right, Lady Thatcher and President Sullivan peruse the exhibition. More highlights of Charter Day on pp. 4-5.

Campus Police Seek Attacker

Campus Police on Monday issued a plea for information relating to the assault on a female student Sunday night.

A woman was assaulted in one of the laundry rooms of Dupont Hall about 6:45 p.m. Sunday. She was able to free herself and the attacker ran. The student suffered minor bruising.

Her assailant is described as a white male in his mid-20s, 6 feet to 6 feet-three-inches tall, and weighing 260 to 280 pounds. His hair was collar length, dark, greasy and wavy. He had a rough beard and was last seen wearing a blue jacket with florescent green piping, blue or black pants or sweat pants.

In addition to being in Dupont, an individual fitting this description was seen in several other campus locations, including other residence halls Sunday.

Anyone with information is encouraged to call the Campus Police at ext. 14596. Individuals should not approach anyone matching this description, but should contact the police department immediately.

Latin American Ambassadors Gather Feb. 17

A dozen Latin American ambassadors will meet to discuss issues of critical importance in the Western Hemisphere on campus Feb. 17 and 18. The meetings, which take place Friday from 2:30 to 5:30 p.m. and Saturday from 10 a.m. to noon, are free and open to the public.

Ambassadors from Argentina, Colombia, Costa Rica and several other Latin American countries are scheduled to participate in the 1995 Inter-American Ambassadorial Summit meeting in the Commonwealth Auditorium of the University Center. Also expected to participate will be U.S. Assistant Secretary of State for Inter-American Affairs Alexander Watson, and Donald Terry, manager of the Inter-American Development Bank's Multilateral Investment Fund.

House of Delegates Passes Lake Matoaka Bill

The House of Delegates overwhelmingly passed legislation yesterday afternoon that would protect the College Woods and Lake Matoaka from being sold or transferred out of the College's stewardship by the state.

Ninety-two delegates representing both Democrats and Republicans voted for the bill, while only seven lawmakers voted against it.

The legislation is expected to be assigned to a Senate committee within days. Assuming it passes the committee, the full Senate could vote on the legislation within a week and a half. Gov. Allen must also sign the bill before it becomes law.

Proposed by Del. George Grayson, the legislation, as written, prohibits the transfer or sale of the property without a two-thirds vote of all members of the College Board of Visitors. The General Assembly must also approve any Board decision to dispose of or transfer the property.

The entire Peninsula delegation in the General Assembly has supported the measure.

Reves Center, Kinesiology Benefit From \$1 Million Gift

Jack Borgenicht

Jack Borgenicht, a New Jersey resident and retired business executive, has given the College \$1 million, President Timothy Sullivan announced yesterday. Born in 1911, Borgenicht is

the youngest of 14 children. He worked in his father's New York City clothing business, and rose to become one of the largest children's clothing manufacturers in the United States.

His gift will be used to benefit the Wendy and Emery Reves Center for International Studies and to underwrite studies in aging and environmental physiology in the Department of Kinesiology.

"Mr. Borgenicht's gift will provide a double benefit to the College. The Reves Center will be able to expand its efforts to promote international understanding about the difficult issues facing our world today," said Sullivan.

"At the same time, the kinesiology department will be able to further its research on the ways to reduce the impact of aging on the human body. Mr. Borgenicht

is a living example of that program's value," the president said.

Borgenicht said he became impressed with William and Mary after getting to know two of its professors: James A. Bill, director of the Reves Center, and Ken

Kambis, a professor of kinesiology.

"I had always felt that I wanted to leave a good part of my estate to the promotion of peace. Jim Bill represents a very important avenue through which I feel I will be able to make the best use of this pledge, and my future pledges, to the establishment of world peace," Borgenicht said.

Much of the \$1 million will be used to endow a position for a visiting scholar at the Reves Center, and for activities related to the new position. He hopes the new Borgenicht Peace Scholar-in-Residence would be someone with a proven commitment to advancing world peace.

In addition to the scholar-in-residence, the gift will underwrite a conference/lecture series. The inaugural conference would focus on the Middle East, although future programs might focus on other areas of conflict. The gift also will be used to bring two or more students from an area of conflict to the College for several weeks.

Another portion of the gift will establish a permanent endowment for the Department of Kinesiology, formally known as the Department of Physical Education. Faculty in the department have, for several years, been involved in

studying the effects of aging on the body and the use of exercise and diet to increase strength, mobility and good health in older people.

Borgenicht became involved with the College in 1988, when he wanted to join a group of mountain climbers on a trip to scale a portion of Mount Everest. A local relative of Borgenicht's suggested he go to Ken Kambis at the College's kinesiology department before taking the trip. Kambis has developed an assessment routine for judging the physical endurance of individuals, particularly older people.

Kambis assessed Borgenicht's health and put the then 77-year-old on a fitness program that increased his strength and stamina for mountain climbing. Three months later, Kambis and Borgenicht climbed 14,431 feet to the top of Mount Elbert, the highest mountain in Colorado and the second-highest in the continental United States.

The two scaled Mount Rainier in 1992, when Borgenicht became the oldest person to reach the mountain's top. Looking back on his experience with Kambis, Borgenicht said that "Instead of me having made an institution, it was this institution that has made me."

Candidates For School Of Ed Dean Begin Campus Visits

Five candidates for the position of dean of the School of Education have been selected for on-campus interviews, beginning Feb. 9.

While making two-day visits to the campus over the next month, each candidate will take part in an individual forum with faculty from 9:30 to 11 a.m. in the Dodge Room of Phi Beta Kappa Memorial Hall.

The candidates and the dates of their open forums are: Virginia Laycock McLaughlin, Thursday, Feb. 9; Patricia Ann Alexander, Tuesday, Feb. 21; Richard L. Schwab, Thursday, Feb. 23; David G. Armstrong, Monday, Feb. 27; Donna B. Evans, Wednesday, March 1.

McLaughlin is Chancellor Professor of Education in the School of Education at the College. She received her Ed.D. in curriculum and instruction, and special education from Memphis State University in 1977. In addition to public school experience in South Carolina, McLaughlin taught at Clemson University and Old Dominion University before coming to William and Mary in 1983. At the College, she has taught in the Special Education Program, served as associate dean in the School of Education and served as chief of staff and assistant to the president.

Alexander is the interim department head and professor in educational psychology at Texas A&M University in College Station, Texas. She has progressed through the faculty ranks since 1981, after completing a Ph.D. in reading from the University of Maryland at College Park. She also has been a public school teacher in Virginia.

Schwab is dean of the School of Education and professor of educational administration at Drake University in Des Moines, Iowa. He received a Ph.D. in educational administration from the University of Connecticut in 1980. Schwab has public school teaching experience and taught at the University of New Hampshire prior to assuming a faculty position at Drake in 1990.

Armstrong is associate dean for undergraduate studies in the College of Education at Texas A&M University. He received a Ph.D. in curriculum and in-

struction, specializing in social studies, from the University of Washington in 1973. Armstrong was an assistant professor at Western Washington College before joining the faculty at Texas A&M University in 1975. He was promoted to professor in 1984 and chaired the secondary education program from 1977-1990.

Evans is dean of the College of Education and Human Services at the University of North Florida in Jacksonville. She received a Ph.D. in counselor education

and human growth and development with a minor in educational administration from Ohio State University in 1970. From 1987 until 1991 she was dean of the College of Education at Wayne State University, and department chair of education at Skidmore College from 1983 to 1987. Prior to that she was a faculty member at the University of Maine at Orono and at the University of Cincinnati.

The position of dean of the School of Education has been vacant since June 30, 1993.

College Hosts Latin American Ambassadors Summit

CONTINUED FROM PAGE 1.

The summit includes three key panel discussions: "A New Inter-American System," "Economic, Social and Cultural Integration," and "Sustainable Development." A final review at 11:30 a.m. will be led by Ambassador Eduardo MacGuillycuddy of Uruguay. MacGuillycuddy is the dean of the Latin-American diplomatic corps.

The summit is an initiative of William and Mary's student Latin American Club, and is co-sponsored by the office of the vice president for student affairs, the Reves Center and The Colonial Williamsburg Foundation.

The summit comes on the heels of the Miami Summit of the Americas last De-

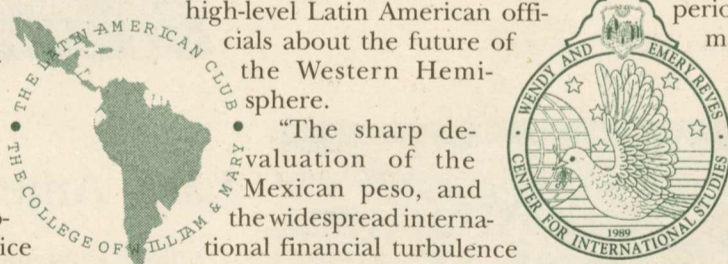

cember, which set an ambitious target of establishing a hemispheric free trade zone by the year 2005. According to Michael T. Clark, Reves Scholar-in-Residence, the summit offers a rare opportunity for private citizens and members of the news media to exchange views with high-level Latin American officials about the future of the Western Hemisphere.

"The sharp devaluation of the Mexican peso, and the widespread international financial turbulence it threatened to unleash in Latin America and beyond, underscored the degree to which deep interdependence has become a fact of life in the Western Hemisphere," Clark said. "Far less clear is whether the resources, institutions and

capacities can be found or created to manage this deepening entanglement of the American states.

"Festering political and even military crises within many countries of the region, risks of inter-state war between others, questions of social inclusiveness in a period of increasing reliance on the market, and a keen awareness of the vicious trade-offs between rapid development and the need for natural resource management and environmental protection — all present daunting challenges."

Other countries scheduled to take part in the conference are the Dominican Republic, Ecuador, El Salvador, Guatemala, Nicaragua, Panama, Paraguay, Peru, and Venezuela. Representatives from the embassies of Canada and Portugal will also participate.

Assembly Restores Budget Cuts For Higher Ed

The budget news from Richmond improved Sunday night as both houses of the state General Assembly restored major support for higher education and William and Mary.

Budget bills from the two major money committees were reported on Sunday evening. The bills contain some differences which will have to be worked out by the conference committee.

A coalition of business leaders, college presidents, students, alumni and parents have been campaigning in recent weeks to encourage legislators to reverse recent budget cuts that have trimmed \$500 million from higher edu-

cation over the last five years. The coalition's message has been that investing in colleges and universities is an investment in the state's economic future.

The budget action is an encouraging sign that the message has been heard, said College President Timothy J. Sullivan. "These budget actions represent a strong endorsement of higher education and its recent restructuring actions," said Sullivan on Tuesday.

In total, both the House of Delegates and the Senate money committees recommended more than \$50 million in additional funding for higher education.

Major actions that affect the College include addressing state support for a

2.25 percent increase in faculty and classified salaries, beginning Dec. 1. In the original proposal by Gov. George Allen, colleges and universities could give the pay raises, but the state was not going to provide the money to fund them.

Also restored in the budget plans was funding for the Institute of Bill of Rights Law and maintenance reserve funds.

The Senate also restored funding for the eminent scholars program, although the House did not.

Once the conference committee has worked out discrepancies between the two budget plans and the final document is approved by both houses, it will go to Gov. Allen for final action.

WILLIAM & MARY NEWS

The William & Mary News is issued during the school year for faculty, staff and students of the College and distributed on campus Wednesday afternoons.

News items and advertisements should be delivered to the News office in the Holmes House, 308 Jamestown Rd. (ext. 12639), or e-mailed to wmnews@mail.wm.edu, no later than 5 p.m. the Friday before publication. Notices for the calendar should be delivered to the News Office no later than 5 p.m. the Wednesday before publication. The editor reserves the right to edit submissions.

News deadline: Fridays, 5 p.m.

Board Updated On Debate Over Higher Education Funding

Although the debate over funding for higher education has recently centered on the Virginia General Assembly, President Timothy J. Sullivan told the College Board of Visitors last week that the debate can't end when the legislators go home.

"This is not a three-week fight just to get back what we lost," Sullivan said. "The real issue is this: Can we change the climate for higher education in Virginia?"

Sullivan echoed words used by former Govs. Mills E. Godwin Jr., Linwood Holton and Gerald Baliles, who wrote to legislators urging increased investment in higher education.

The governors said that Virginia had built one of the best systems of higher education in the world during the last 30 years, but that reductions of \$500 million in state support over the last five years threaten the quality of that system.

"We have spent the dividend of that generation of commitment. We all really must make the point that Virginians face

a choice on what will happen to higher education. I think Virginians will make the right choice," said Sullivan.

Also during the meeting, the board approved:

- Faculty promotions from assistant professor to associate professor for Kathleen J. Bragdon, anthropology; Rebecca A. Dickhut, marine science; Karen D. Locke, business administration; Teresa V. Longo, modern languages and literatures; Richard Lowry, English; Roy C. Mathias, mathematics; Gail McEachron-Hirsch, education; Katherine K. Preston, music; Peter A. Van Veld, marine science; Thomas J. Ward, education; and Hugo Woerdeman, mathematics, who were all also granted tenure. Tenure was also granted to Anthony A. Anemone Jr., modern languages and literatures.

Promotions from associate professor to professor were approved for Fu-Lin Chu, marine science; and James H. Stronge, education.

- Designated professorships for two faculty members: Richard Price was ap-

pointed the Duane A. and Virginia S. Dittman Professor of American Studies and Professor of Anthropology and History; Sally Price was appointed the Duane A. and Virginia S. Dittman Professor of American Studies and Professor of Anthropology.

- Replacements for two vacancies in the administrative and professional faculty. Cory C. Harris has been appointed assistant to the dean of admission and data manager; and Leo J. Charette is the

new director of career services.

- A leave of absence for George A. Grayson, from Jan. 12 to Feb. 25. Grayson, Class of 1938 Professor of Government, is also a member of the Virginia General Assembly.

- A revised statement on athletic policy. The policy was revised in preparation for the visit of a self-study team this spring and had already been approved by the Faculty Athletic Policy Advisory Committee and President Sullivan.

Deadline Nears For Student Activities Fee Funding

Funding request packets are now available for eligible student organizations to apply for funding from the Student Activities Fees for fiscal year 1995-96. Request packets are available from the Student Activities Accountant's office, Campus Center 208. Deadline for submittal of request is no later than 4:30 p.m., Tuesday, Feb. 28. Requests received after the deadline date will not be considered. Students with questions should call Ken Smith at ext. 13270 or Anita Hamlin at ext. 13271. To answer questions and assist in preparation of budgets, two pre-budget seminars will be held Feb. 15 and 16 at 3 p.m. in the Campus Center Conference Room.

In The Spirit Of Churchill, Thatcher Addresses General Assembly

When the College announced that former British Prime Minister Margaret Thatcher was going to be its chancellor, then-Chancellor Warren Burger said that, in his opinion, Thatcher rivaled Winston Churchill as one of the great statesmen of this century.

The parallels between the two prime ministers grew a little closer last week when Thatcher spoke before the Virginia General Assembly, nearly 49 years after Churchill addressed the same body.

"As chancellor of the College of William and Mary, I already feel at least an adopted daughter of the State of Virginia."

For both, the event drew them to consider the history—and future—of democracy in Virginia and in the world.

Thatcher drew a standing ovation when she recalled the colonial leaders

in the Commonwealth who worked for independence and then helped create a strong union.

"As Chancellor of the College of William and Mary, I already feel at least an adopted daughter of the Commonwealth of Virginia. But when I consider all that this place has given to democracy, I am moved to say that in spirit: I am a Virginian," she said.

During her 20-minute address, the chancellor's vision ranged from the rights of man to the challenges of dealing with Russia and China. Some excerpts from her address follow:

On the Cold War: Let me say at once that the victory of freedom and of the West in the Cold War, and the collapse of communism through most of the world was the most profound and beneficial revolution of my lifetime. I, for one, have no nostalgia for the atrophied certainties of the Cold War world. . . .

It was perhaps only natural that in our countries an exaggerated optimism

would mark the sudden, all but bloodless, victory over communism. Too many Western leaders allowed themselves to be lulled into the careless slumber of complacency while the forces of evil and tyranny remained active. It has now become brutally clear that there is no new world order; the problems of politics are, alas, permanent. Only the context changes.

On competing civilizations: Our tradition of liberal democracy, of confidence in constitutionalism and the rule of law is not simply one alternative among many. It is the way of life that has elevated mankind above any previous age—politically, economically and mor-

ally. Our obligation in the years ahead is precisely to turn our attention to strengthening our traditions, and especially our beliefs in the primacy of the individual, against those who would not simply deny the truth of our principles but who seek to destroy them.

On Russia: The situation in Russia reminds us how uneven is that path from tyranny to democracy. . . . The onslaught in Chechnya also reminds us that even when we cannot intervene we must continue to speak out—and speak the truth—where a wrong is being committed. It is not a question of whether the Chechens have acted lawfully or whether Russian has been provoked. What matters is that Russia has been wrong in its response, and wrong in a way that has left thousands dead.

On Chinese possibilities: A secure and impartially administered rule of law will be required if the country's economic potential is ultimately to be fulfilled. Nor does it seem likely that the Chinese regime can in the end escape the indissoluble connection between economic and political freedom. When you open the door to trade and investment, ideas will march in with them. Demands for democracy will grow.

Former Prime Minister Winston Churchill at the General Assembly in 1946.

Lady Thatcher addressed the General Assembly last Friday.

Charter Day Weekend 1995

Syndicated columnist David Broder delivered the keynote address during the Charter Day ceremony Saturday.

At right, Lady Thatcher conferred an honorary doctor of laws degree on Judge Damon Keith.

Gov. George Allen escorted Lady Thatcher prior to her address of a joint session of the General Assembly Friday in Richmond.

Student Association President Greg Werkheiser (l) and Holly Rachel Smith, president of the Graduate and Professional Students Association, carried the ceremonial mace during the Charter Day ceremony. Here they talk with Lady Thatcher in the robing room.

Ruth Nelson, executive secretary in the office of the dean of students, helped Lady Thatcher don her ceremonial chancellor's robe.

Lutzer And Graves Receive Thomas Jefferson Awards

CONTINUED FROM PAGE 1.

the Charter Day ceremony Saturday, noted that the nation is in the midst of a revolution offering a historic opportunity to debate "the nature of our government."

An associate editor at the *Washington Post*, Broder, however, expressed worry about the potential demise of political parties and representative democracy in the United States. "On my bleaker days, I fear that representative democracy is imperiled," he said. "After a long experiment with partyless government, we now seem to be embarked on an experiment in trying to govern without politicians."

Broder cited the "term limits movement" and the possible adoption of a balanced budget amendment as particularly disturbing. The latter course, Broder said, could be an effective means for disciplining the reckless spending habits of the federal government. "But it [the balanced budget amendment] does so at the cost of the fiscal flexibility that has allowed the federal government to serve as an economic stabilizer for the country."

If lawmakers use the next two years wisely, Broder added that their decisions could set the course of the nation into the next century.

Prior to his keynote address, Broder received an honorary doctor of humane letters degree. Keith, judge for United States Court of Appeals for the Sixth District, also received an honorary doctor of laws degree.

The College conferred the annual Thomas Jefferson awards on David J. Lutzer, who is leaving as dean of the faculty of arts and sciences in July after eight years, and John Edward Graves, associate pro-

fessor of marine science at the Virginia Institute of Marine Science.

In accepting the Thomas Jefferson Award, which is given to a senior member of the faculty who exemplifies the "principles and ideals" of Thomas Jefferson, Lutzer described it "as a community award" and paid tribute to his colleagues for their support.

After receiving the Thomas Jefferson Teaching Award, which is given to a younger member of the faculty, Graves quoted Victor Hugo: "He who opens the door to a school closes the door to a prison."

After the Charter Day ceremony, Lady Thatcher helped President Sullivan and Robert Wilburn, president of Colonial Williamsburg, dedicate a new permanent

exhibition in the Sir Christopher Wren Building, detailing the history of the structure.

Both Sullivan and Wilburn lauded the exhibit as testimony to the renewed and strengthened cooperation between the College and Colonial Williamsburg.

In addition to her public appearances, Lady Thatcher spent time with students and faculty. She entertained a group of 20 students at a tea on Thursday and then attended a "scholarship" luncheon honoring students and faculty Saturday.

Above, accepting the Thomas Jefferson Award, Dean David Lutzer paid tribute to his colleagues for their support.

President Sullivan (r) congratulates John Graves (c) who received the Thomas Jefferson Teaching Award. Rector James Murray flanks Graves.

Education Is More Than Economic Progress, Sullivan Says In Address

Those of us who live here in Virginia are all too aware of the debates ongoing—in the legislature and in the me-

link higher education quite directly to economic progress—and so our advocates' emphasis upon that link is not only efficacious, but has the virtue of being true.

Yet I wonder when I hear that the "uses of the university" rest so heavily on the calculation of economic advantage; I wonder whether I am alone in finding that debate not only unsatisfying but deeply disturbing. What is the "use" of a university? What drove our founders more than 300 years ago to build here a place of "universal learning"? Certainly a part of their purpose was to promote economic

progress, as it is part of ours. But that cannot be the whole of it. We are, after all, a community of teacher-scholars responsible for the education, both intellectual and moral, of some of our nation's most promising young men and women.

Can you measure in economic terms the joy a young man from Staunton must know when for the first time he feels the full spiritual force of great literature?

Or can you quantify the sense of intellectual power and excitement a young woman from Portsmouth must know when the disciplined elegance of elementary number theory opens before her worlds she never knew?

Or what about the young man from Ohio who sees the genius of our constitutional order gradually revealed by the subtle skill of a master teacher who re-

mains his friend and mentor for life?

And what about our work as scholars? If we cannot quantify the results, if we cannot quite assign a dollar value to a new interpretation of an Anthony Trollope novel, or to imagining a trip through the nucleus of an atom, are we expected to apologize for indulging in our love of knowledge? Well, scholarship is work for which none of us need apologize, ever. The true task of a scholar, so often and so foolishly mocked, is the discovery of new knowledge or the patient reworking of what is already known so that we may sometimes discover what we didn't know after all.

Is some of our scholarship esoteric? Is some of it inaccessible? Does some of it, finally, turn out to be wrong? Of course, of course. We all know the frustrations of facing dead ends, the anguish of almost, but not quite, finding what we seek—the futile struggle with stubborn facts which puncture our once so promising hypotheses.

Yet there is compensation not monetary. And, on the other hand, not only in the joy of intellectual quest, as profound as that joy can be. There is also compensation in the knowledge that even

dead ends are not without their consolations, and then, most of all, there is that very occasional triumph when it all works, when we do—we really do—add to the sum of human knowledge. The debates that rage today, even in support of higher education, sometimes give short shrift to knowledge, inadvertently valuing it only when there is an economic payoff.

But the primary purpose of this Col-

lege is not profit. It is to transmit the scholar's love of learning to students who learn, in turn, not only facts but a profound humility in the face of all that is yet to be known. It is to imbue care about the life of the mind, reverence for the world of ideas, and the concomitant development of an intellect that will be more than a match for the changes, good and bad, that the 21st century will bring.

These are hard times for people who think. But the quiet company of scholars long dead, the sustaining power of their legacy, gives fresh hope at a dark moment. Who here today will not be moved by these marvelous last words of Sir Isaac Newton?

"I don't know what I may seem to the world," he said, "but as to myself I seem to have been only like a boy playing on the seashore and diverting myself in now and then finding a smoother pebble or prettier shell than ordinary, whilst the great ocean of truth lay all undiscovered before me."

Our future as a civilized people depends upon the survival of places like this, which are ready, always, to welcome the young scholars of the next generations, women and men who have dedicated their

lives to the discovery of truth, all the while knowing that truth is a resourceful fugitive almost certain to remain just beyond their grasp, but who are more consoled by the value of the quest for that great ocean of knowledge that is destined perpetually to lay undiscovered before them.

—President Timothy Sullivan
Charter Day, February 4, 1995

President Timothy Sullivan

dia—about higher education. The stakes in that debate are very high. We in the William and Mary community, and supporters of higher education everywhere in the Commonwealth, mark with both anxiety and hope the progress of that contest.

So far, the contestants have mostly debated about how closely the Commonwealth's economic progress is tied to the fate of its universities. In a struggle where at least short-term success will be measured in monetary terms, no one should be surprised that proponents value education because it contributes to economic growth. Plentiful, well-paying jobs simply mean more to the public, and to the officials who serve that public, than do our claims that we are just a few thousand dollars short of having the best history department in our peer group. Happily for us, experts

"Scholarship is work for which none of us need apologize, ever."

Candidates For SA President Issue Position Statements

Student Elections Slated For Tuesday

Elections will be held next Tuesday for 46 student office positions campus-wide at both the undergraduate and graduate levels.

Polling sites will be located at the University Center from 11 a.m. to 2 p.m., the School of Education from 4 to 7:30 p.m., and at the Schools of Law, Business, and Marine Science from 11 a.m. to 5 p.m. Students can also vote in their dormitories and the Campus Center from 5 to 8 p.m.

Juniors Mike Nelson and Jonas Geissler are running for president of the undergraduate Student Association. Following are their platform statements:

Nelson: "It is time for the students of this College to ask that their demands for respect be met. The students have been unfairly treated in a variety of circumstances. However, the situation can change. Areas which must be addressed include the insufficient parking, the reform of the Honor Council, the deplorable living conditions in the

Candidates for Student Association President, Mike Nelson (l) and Jonas Geissler.

residence halls, the changes in student government, and a demand for a free film series, as offered by many other schools. This is only a

beginning. We can get these things accomplished. It is time for students to reassert their place of prominence at the College."

Geissler: "So rarely does an opportunity arise to accomplish so much. The objectives are ambitious—air conditioned dorms, equitable representation, empowerment, improvements to Swem, Matoaka, and safety—but to aim for less would be selling you short. The new student government has yet to work out its many quirks, but it does provide the unified student voice necessary to accomplish our goals. Building on the impetus of student activism this year and my past experience as chairman of the SAC and visitor to the VSC, I know we can realize our ambition."

William and Mary News Publication Schedule

The next issue of the *William and Mary News* will be published on Feb. 15. The deadline for submission of items is Friday, Feb. 10, although submissions prior to the deadline are encouraged. Call Editor Poul Olson at ext. 12639 with any questions or concerns.

Sixth annual Winter Tea, sponsored by the Council of the Muscarelle Museum of Art, from 3 to 5 p.m. at the museum. Call 221-2707. Tickets (required) are \$5 for adults (\$6 at the door.)

PERFORMANCES

EWELL CONCERT SERIES

Stravinsky Classic Featured In Seventh ECS Performance

An ensemble of William and Mary faculty and Virginia Symphony musicians will present the complete *Histoire du Soldat (A Soldier's Tale)* by Igor Stravinsky Monday, Feb. 13 at 8 p.m. in Ewell Recital Hall.

Composed in 1918, *A Soldier's Tale* is the classic Faustian tale of a soldier who meets up with the Devil while making his way home for a short leave. The Devil wants to trade three days of wine, women and song for the soldier's fiddle. The soldier gives in, but discovers when he returns that three years have passed instead of three days.

"The entire concept of the piece was influenced by Stravinsky's discovery of American jazz," said Laura Rexroth, director of bands, who will conduct the performance. "The great thing is that everything, the instruments he chose, the rhythms and harmonies of the work, everything was influenced by his knowledge of jazz even though he'd never heard jazz."

A Soldier's Tale marks Stravinsky's final break with the Russian orchestral school, added Rexroth.

College faculty who will perform include Patti Carlson, John Bourque, Scott McElroy, Debra Fong and John Lindberg. Eric Anderson and Scott Harris, both of the Virginia Symphony and Virginia Opera, round out the ensemble.

Music department faculty who will read parts during the performance include Katherine Preston (narrator), Edgar Williams (Devil) and Timothy Olbrych (soldier).

A Soldier's Tale, the seventh presentation in the Ewell Concert Series, is free for William and Mary students with IDs, \$2 for the general public. Tickets will be sold at the door.

February 16-19

William & Mary Theatre Second Season production "Bent," at 8 p.m. (Feb. 16, 17, 18) and 2 p.m. (Feb. 19) in the studio theatre, Phi Beta Kappa Memorial Hall. Free admission.

SPEAKERS

February 8

Jeremy Cohen of Tel Aviv University and the Bronfman Visiting Professor in Judaic Studies speaks on "The Literature of Jewish-Christian Disputations" at 9 a.m. in Tucker 213. The lecture is open to the public. A reception for Professor Cohen, hosted by the history department, will be held at 5 p.m. in the Wren Gallery. For information on any of these events, call 221-2172.

February 9, 16

On Feb. 9 George Harris, associate professor of philosophy, speaks on "The Primacy of

Excellence," at the Town & Gown luncheon. The speaker on Feb. 16 will be S. Laurie Sanderson, assistant professor of biology. Her topic will be "Coral Reef Research: Living and Working in an Underwater Habitat." Luncheons are at 12:15 p.m. in the University Center, Chesapeake Room. For reservations, call 221-2640 before noon on the Tuesday preceding the luncheon. Cost is \$7 for the public, \$5 for faculty and staff, payable on the day of the luncheon.

February 10

A physics colloquium will feature Craig Dukes, from the University of Virginia, speaking on "Why We Are Here: Cosmology and the Asymmetry Between Matter and Antimatter." The talk is at 4 p.m. in Small Hall 109.

February 10, 17

Program participants for the Black History Month Cultural/Lecture Series include members of the Jazz Actors Theatre (Feb. 10) and the Rodney Williams' Dance Troupe (Feb. 17). Both programs are at 8 p.m. in the University Center auditorium. Events are free and open to the public.

February 13

Williamsburg Chapter of the Archaeological Institute of America presents Bailey Young speaking on "Childerich's Treasure: A Burial Fit for a Horse, a New Look at Barbarian Graves" at 4 p.m. in Andrews 101. Call 221-2163 or 221-2537.

February 13, 17-18

The Spring Speaker Series "Forging the 21st Century: In Search of New Solutions to Old Dilemmas," sponsored by the International Relations Club and the Reves Center for International Studies, continues on Feb. 13 with David Menashri, Tel Aviv University, speaking on "The Middle East Peace Process: Analysis and Prognosis," at 7:30 p.m. in the University Center, Tidewater A. Call 221-3590. The Ibero-American Ambassadors Summit, part of the series, will be held in the University Center, Commonwealth Auditorium, beginning at 2:30 p.m. on Feb. 17 and concluding at noon on Feb. 18. For details, call 221-3593.

February 14

Commonwealth Center Brown Bag Series "Performance in American Culture" presents Postdoctoral Fellow Sharon Helsel speaking on "Planning for the Proper Behavior During Thermonuclear War; The National Research Council's Disaster Research Group (1951-1962)." Helsel's talk begins at 12:30 p.m. in the College Apts., room 1. Call 221-1277.

February 16

Hugh Ducklow, Glucksman Professor of Marine Science, speaks on "New Production and Export in the Northwestern Sargasso Sea: Can New DOC Observations Close the Gap?" at the SMS/VIMS Biology Seminar Series at 4 p.m. in the Watermen's Hall auditorium, Virginia Institute of Marine Science. Call 642-7369.

SPORTS

February 8

Men's basketball vs. JMU, W&M Hall, 7:30 p.m.

February 9

Wrestling vs. American, W&M Hall, 8 p.m.

February 10

Women's basketball vs. American, W&M Hall, 7:30 p.m.

February 11

Men's basketball vs. UNLV, W&M Hall, 7:30 p.m.

February 12

Men's gymnastics vs. Nebraska, W&M Hall, 2 p.m.

February 13

Women's basketball vs. George Mason, W&M Hall, 7:30 p.m.

February 15

Men's basketball vs. American, W&M Hall, 7:30 p.m.

February 16

Wrestling vs. Virginia Tech, W&M Hall, 8 p.m.

For information on events, call the sports information office at 221-3368.

MEETINGS

February 14

HACE (Hourly and Classified Employees) meets at 1 p.m. in the University Center, Chesapeake A. Ed Irish, director of financial aid, and Carol Davis will speak on "College Financial Planning." Meeting is open to all hourly and classified employees of the College, VIMS and CEBAF. Employees may attend without using annual leave or lunch hours. \$1 donation requested from non-members for refreshments and ongoing projects. One-year membership is \$5. Canned goods or non-perishables are collected at every meeting to assist employees in need.

hale," for African-American women students, begins at 4:30 p.m. in the Counseling Center. Call 221-3620.

February 10

A workshop, "Introduction to Microsoft Windows 3.1," presented by Technology Services, 8:30 a.m. to 4:30 p.m., in Morton 244. Cost is \$55 per person. Registration must include name, department, phone number and account number. Call 221-HELP or e-mail lmearl@mail.wm.edu.

February 11

April Young, economics professor at George Mason University, joins economist and School of Business Professor Roy Pearson on the radio program "With Good Reason," to examine Virginia's economic prospects, look at what promises to be the boom industries and careers of the next century, and consider what Virginia is doing to attract them. The program will be aired on WNSB-91.1 (Norfolk) at 10:30 a.m.

February 13, 24; March 2, 15, 24, 29;

April 4, 10, 17, 26

President Sullivan will host a series of luncheons at the President's House to give students an opportunity to meet with him informally in groups of 10. Lunch will begin at noon and last about an hour. Sign up by contacting Gail Sears (gbsear@mail.wm.edu) or 221-1693.

February 13

A study group on WAVELETS meets from 2 to 2:50 p.m. in Jones 306. Call Hugo Woerdeman at 221-2022.

February 14

Open house to celebrate newly remodeled Writing Resources Center, sponsored by dean of undergraduate studies of Art and Sciences, 4:30 p.m. Tucker 115A.

February 14, 15

"LegalCare" presentations for College employees interested in enrolling with Legal Resources of Virginia, 10 a.m. and noon, personnel office, Thiemes House and 2 p.m., VIMS (VIMS presentation on Feb. 15 only). Call Brenda Johnson at 221-3151 or Rita Metcalfe at 221-3158.

EXHIBITS

Through February 19

The Muscarelle Museum of Art is hosting an exhibition of silkscreen prints by Andy Warhol titled "Works by Warhol." "Works by Warhol" spans the last period of Warhol's career and contains silkscreens dating from 1974 through 1987, including a complete series of prints titled "Cowboys and Indians."

Through March 7

A Black History Month exhibit in the lobby of Swem Library. In the exhibit are materials from the College archives on the African-American presence at William and Mary and examples of primary source materials on African-Americans, including Phillis Wheatley's "Poems" (1773) and a reprint of an 1861 female slave narrative, available through the Swem Library system.

DEADLINE

Feb. 17

Applications for student associates for the Keio Summer Program, an intensive English language and American culture seminar for 40 Japanese students, scheduled for July 23 to Aug. 9. Applications are available at the Reves Center and from professors in Japan/East-Asian related fields. Call Susan Glisson at 564-9107, or Gretchen Schoel at 565-1346.
