

Very recently there has been brought to light a most interesting sketch of General <sup>value</sup> "Stonewall" Jackson. It is of peculiar interest as it is said, with one exception to be the only likeness of this wonderful soldier taken from life.

The newly discovered sketch has lain all these years in the note-book of Alexander Galt, the Virginia sculptor. It was the last work of this young sculptor who contracted small-pox <sup>while visiting</sup> a General Jackson's camp and died five weeks later. The sketch which is in a perfect state of preservation has been photographed and copyrighted so that engraved copies can be made from it while the copyright protects it from ~~being used~~ <sup>being used</sup> for advertising purposes and thus made common.
