

Thurs. Sept 25th Left Guernsey on the Minotaur, well provided with food by the States of Guernsey, our welfare being attended to by both Guernsey & German officials in a satisfactory fashion. Accommodation rough. Uneventful journey. Arrival St. Malo early hours of morning.

Sept 26th Landed ^{and} helped slightly with luggage by German troops, boarded corridor train with second class accommodation (no sleeping berths) & provided with a German loaf & one sausage to last for two days. Provided with good soup midday & coffee in the evening by German troops on train. About midnight passed through Paris, but saw nothing of it. Noted lack of traffic & deadness everywhere. Saw considerable war damage.

Sept 27th Passed through Sedan, Belgium & on to wonderful mountain scenery in Luxembourg, & then onwards through Cologne etc. Shunted on to a siding for the night. Dusseldorf station was without a pane of glass & heaps of debris remained on platforms. Cologne also had a great deal of damage although we missed the centre of the city & passed through the outskirts.

Sept 28th Arrived at Doster, Westphalia. First thing in the morning we were shunted to Doster station where coaches & lorries transported us to a Prisoner of War Camp surrounded by barbed wire & of late occupied by Polish prisoners. It was found that husband & wife were to be separated at night. We were housed in a room apart from our husband waiting for examination & felt very desolate. Then were given a bowl of soup & exam: continued. Our jewellery & money confiscated.

Conditions of camp. Sanitary arrangements very poor. Sleeping accommodation wooden bunks upper & lower, straw beds. Our room consisted of 84 beds & here we ate, slept & lived in a room approx. 50 ft square. Were given dry rations consisting of small bread ration, marg: & jam. Were able to see our husbands for a short time.

Sept 29th Heavy luggage examined & returned to us. We had one small locker to share between two people for food, clothing etc. No privacy of any kind anywhere in camp. Ten minutes to walk around the camp.

Sept 30th Arrival of second contingent from Guernsey. We all gathered around to give them a welcome & cheer them on their arrival.

Oct 1st Rations very frugal. Breakfast, mint tea. Lunch, soup, Tea, Bread, marg: & sausage, mint tea

Oct 2nd Third contingent arrived. All homely, and the already

overcrowded camp. The bread ration is $\frac{1}{2}$ loaf for each person daily, is helped out by margarine, & varied with jam, sausage or cheese. Air-raid alarm about 10 p.m. lasting for about 1 hour. Our room was in darkness & many women were hysterical & panic stricken. We were locked in & in case of emergency there would have been a stampede. Remained quietly in bed & presently heard a voice from next bed asking if I was alright. This was Mrs Harris in the room. Afterwards became very friendly. After it was over German officers came in the room to re-assure us & afterwards the outer doors were left unlocked at night.

Oct 5th Sent 1st field-card.

Oct 6th High German foreign office official visited camp. We take on turn at potato-feeding for half-a-day per week & also at sweeping our corner of our living-room once per week.

Oct 12th Had small quantity of milk added to our rations & also butter substituted for marg. for a short time.

Oct 12th Men vaccinated against smallpox & inoculated against typhoid. This was carried out by German & local doctors.

Oct 13th Had our money returned to us in the form of camp money.

Oct 14th Funeral of first person to die in camp. Germans did all they could to help.

Oct 17th We are now having coffee in the place of mint tea.

Oct 18th Had $\frac{1}{2}$ white loaf in the place of usual German bread as a special Sunday treat.

Oct 19th Demonstration by women against dinner of turnip stalk & grit. Attended German film outside barbed wire, & study group of book-keeping.

Oct 20th Although we are in one of the industrial areas, & daily getting used to air-raid alarms there appears to be little real danger, & the majority of our people regard the noise & searchlights as a form of diversion. The displays provided are most impressive the sky being lit with flashes for miles around, & the noise of gun-fire is considerable.

Oct 21st Canteen opened for 1st time. Sale of beer only.

Oct 22nd Canteen opened for general supplies which are very

scanty in quantity + poor in quality.

Oct 24th The German Commandant came in our room + told us we were shortly to be transferred to a place called Diberach near Lake Constance + Stuttgart. Medical doctor in British Officers uniform was brought into our camp + caused great excitement.

Oct 26th Discovery of bugs in the camp hospital + orders for the camp to be fumigated. Conditions in so-called hospital wretched. Beds the same, hot + cold water supplies inadequate. Serious cases now transferred to good German hospital in town.

Oct 29th Fumigation of hospital + Bar No. began. Hospital patients transferred to canteen which is closed for the time.

Nov 1st Wet + foggy, surrounding factory chimneys belching smoke, particularly those which we believed to be green. Fumigating of the camp died a natural death owing to the protests of the internees.

Nov 2nd German authorities supplied first issue of french cigs: 84 to the men 63 to women to be paid for by ourselves.

Nov 3rd The first issue of Red X parcels arrived + were issued to the women. These were mainly milk parcels.

Nov 4th Men had their issue of Red X parcels which were food parcels. Until now the camp has been really hungry, + we have had the first good meal for 3 weeks.

Nov 5th Issue of Red X cigarettes, 1104 10y tobacco to men 110 cig: 5 women. We have not seen so much food + tobacco for over two years + were thrilled to see the well known names of English firms on the tins + packets.

Nov 6th Further Red X issue of one tablet of toilet soap each, + another 11 cigs to the men. All these goods have been sent to

us from an officers camp, as we are not yet in touch with Red X people ourselves.

Nov 4th - To-day a number of Canadian parcels were split & shared, each one receiving two items.

Nov 9th - Further issue of french cigs to men 28 cigs. Great excitement in camp owing to preparations for transfer to another camp of unattached men.

Nov 10th - All unattached men left for camp at Lauffen.

Nov 11th - Issue of 21 cigs to men only. Preparations for own own departure in progress including exam. of our bags in the recreation room. Dry rations issued for to-morrow's journey $\frac{1}{3}$ loaf & sausage.

Nov 12th - Up at 5 a.m. Left camp at 9 a.m. & walked to Dorsten Station. Delightful to pass through camp gates & feel free. Left Dorsten Station about 11 a.m. in a German 2^d class train bound for Biberach.

Very slight heating which only affected the first few carriages. Most people had no lights, no food provided & no water on the train. The only drink was just after midnight, lukewarm coffee. Had it not been for our Red X parcels we should have fared very badly.

Nov 13th - Arrived at Biberach Station at 2.15 p.m. Again no food or drink was provided on train. We walked from Station to Offlag 55, where we found an entirely different atmosphere from a military standpoint to Dorsten. The camp was very high up & we waited over an hour on the square before we went inside. The cold was bitter. Children were crying, old people fainting, military were very harsh & everyone intensely miserable. We were taken into prison-like barracks where there were small rooms on either side of the corridor, & we entered one where there were several people we knew & stayed there. Although the rooms were smaller than at Dorsten, there was very little heat & we were told to fetch our soup from the kitchen in our bowls. It was getting dark & bitterly cold & some people dropped their basins. We saw our husbands for a very short time & then were locked in for the night. The evening meal which was the first for two

days consisted of fish soup, 1 fish cake + 3 boiled potatoes in their jackets, $\frac{1}{5}$ loaf + jam. Walter insisted on me having his blanket as well as my own + I put all the clothes I could on my bed + at last managed to get warm again. Mrs Harris + I are sleeping in adjoining beds with Mrs Stockwell underneath, Mrs Dawe, Mrs Thompson + Mrs Colman nearby.

Nov. 14th Chiefly concerned with getting used to new routine. Visiting hours for husbands + wives 10 to 1 + 3 to 5. Roll calls at all hours of the day.

Nov. 15th Strict discipline began to be relaxed + we all began to settle down more happily. It was reported that the Dorsten Commandant had written an apology for the poor conditions when travelling here.

Nov. 16th Men's parades now taking place in their own rooms + conditions generally improving. The officers + men gradually losing the bullying attitude they showed when we first arrived.

Nov. 17th First snowfall, just sufficient to cover the ground. Our status as internees officially recognized. The air very cold + clear, + much healthier than Dorsten. We filled in a form of personal details.

Nov. 18th We received our jewellery which had been confiscated upon arrival at Dorsten. Several falls of snow during the day. First warm shower baths for women.

Nov. 19th First warm shower baths for men.

Nov. 20th First issue of french cigarettes (40). Only one count per day now when German nurse + officer come + count us in our rooms, after a bugle call warning us to be in our rooms.

Nov. 22nd We were all very much surprised at hearing the first air-raid alarm at 9.45 p.m. No activity, till clear 11 p.m.

Nov. 23rd Heavier falls of snow. Everyone cold + hungry, no possibility of writing or receiving parcels. The only thing to do was to sleep as long as possible.

Nov. 27th Small number of Red X parcels which arrived earlier in the week were distributed among the children. A few new internees who were said to be Greek.

Nov. 28th Strong rumors of re-patriation. General conditions here much clearer than Dorsten. Tob: sigs still issued periodically.

Dec. 4th Issue of Red X cigarettes, 120 for men & 80 for women.

Dec. 6th Enjoy walking around the square at night & note that it is flood-lit in a similar way to Blackpool. Night skies here are marvellous, being so much nearer than in Guernsey.

Dec. 7th Evening soup consisted of about uncooked cabbage & potatoes in water. No counting parcels to-day & there appear to be slackening off. Strict instructions re. lighting, from 5 p.m. to 9 p.m. daily under strict penalties.

Dec 21st One Indian parcel + 1 tin mang. issued to each person + a few soap + tobacco. There was an air raid signal + large numbers of planes were heard overhead.

Dec 22^d Once each week we have a piece of hard, smelly, tasteless fish added to our two small potatoes + soup.

Dec 23^d Rations getting steadily worse presumably on the strength of the Red X. Issue of 40p choc. + 20 cigs to the men, this having been sent us from some officers camp.

Dec 24th Rec. 10 Marks per head which was drawn through the Swiss Legation at Berlin + to be repaid by ourselves if not previously done so by British Govt. People very busy making decorations out of paper wrappers + other trifles. Toys are also being made out of practically nothing + there are wonderful displays all over the camp. Extension of visiting hours to 8 p.m. to-day.

Dec 25th No extra rations from Germans. Enjoyed food out of our Red X. parcels. Made up parties of several couples + had meals together. Woke up this morning to greetings of "Happy Xmas" all round + found home made card from Walter. Mrs Robson gave me a handkerchief. Group of men sang Xmas carols in our corridor. The blending of their voices was very good + the whole thing very touching. Everyone filled with thoughts of home, but the day passed very happily.

2.

Dec. 26th. No extension of visiting hours during these two days, but unofficially we remained together until 9 p.m. Walter sang at a concert in the entertainment hall.

This morning a group of people gave a concert in our corridor, including well-known songs which were very touching, especially "Sarmia Cherie".

Dec. 27th Weather turned much colder after a fairly mild period.

March 20th Rec. letter from Betty. W. appeared in new suit from Red X which looks very well. About 1 a.m. we heard singing in the house outside the barbed wire & several Germans were seen going out through the barbed wire, in singing file & singing very solemnly as they went.

March 22nd We went for our 2nd walk which was the same as the first only reversed. Quite a lot of ground has been turned over & things are beginning to shoot. We saw two cats (one pure white) & several dogs including one like Hippy running down the footpath by himself. There is a delightful feeling of freedom when one passes through the gates.

March 26th The week has been very uneventful. A fresh consignment of Red X parcels has arrived, but none are being issued this week. Each woman in the camp has had two pairs of hosiery stockings from the Red X & the men have had an overcoat.

The weather brightened very nicely + we quite enjoyed it. It was from 5 to 6 miles, through woods + two little villages + back by the outskirts of Biberach. How we wish we were free to wander where we wish. We came back tired + hungry to find that Mr Stockwell had fetched our tea + we only had to sit down + eat it. Then we looked at the Guernsey newspapers + had a nice chat altogether.

April 7th We have had a Red X. parcel this morning, later in the day a parcel of tinned food from Mrs W. Le Poidevin.

April 8th The weather is very cold + wintry. During the night we had a gale which blew off part of the roofs of some of the lower huts.

April 9th We awoke to find a heavy fall of snow on the ground + snow still falling. Lorries are coming in with American Red X. parcels. Later we were informed that the American parcels were for the Greeks + that the parcels for us are ordinary ones.

Apr. 13th Camp visited by some officials, but we were not inspected. Quite enjoyed watching a football match this afternoon.

Apr. 14th Mr Fletcher dep. for Lauffen travelling by car with visiting officials

This morning also a man called ¹⁵ Skute left the camp to take up life as a German citizen. He was born in England, but his father is a German. He took with him his eldest son aged under two & left behind his wife & two babies of a few weeks old.

Apr 15th - To night we have seen a very interesting play produced by Mrs Sinclair. We thoroughly enjoyed it & had a nice walk afterwards. It is lovely moonlight these evenings & the stars are very bright & near.

Apr. 17th This is a day worth recording. We have actually warmed our tea in the fireplace in my room! The fuel is practically finished & there was no fire in Walter's room, & as there was some fire in ours I thought I would give it a trial & it was quite a success.

Apr 19th We are having a spell of fine weather & as there was no fire for heating food we made sandwiches & took our tea outside & had a picnic.

Apr 20th To day is Hitler's birthday & the swastika was flying, but the rain came down & the swastika fell to half-mast & twisted around ~~to~~ around & looked very sad & depressed. Mr Drake came out of prison after five days. This sentence was passed on him for carrying letters from Warsack to this camp. He appears to have had a nice quiet time & was due to come out at 10.30. By twelve o'clock or so he came & he rang the bell & was let out with many apologies!

Apr 22^d The view of the Alps was very clear to-day. They seemed quite close. There has been a heavy frost & we have had 5 letters.

Apr 23^d Good Friday. How much longer shall we be here? How we long to get back home & get to work again for the children.

April 25th Easter Sunday & Melba's birthday, how much longer shall we be separated? The view of the Alps was remarkably clear to-day. We stood on one of the large bins & saw them through a telescope & they were very beautiful. There is also lovely scenery all around our camp. The trees with their new green leaves & apple & pear trees full of blossom & all the land is covered with beautiful vivid shades of green.

April 26th Easter Monday. We have had a lovely walk this afternoon & have been through the grounds of a very old castle. The old lady who owned it stood outside & could speak some English. She was very pleasant & very Victorian. We went through some lovely woods with wild flowers & very tall straight trees.

Apr. 27th We have had three letters & one parcel. The parcel was very disappointing, as it seemed full of old useless things, but there has been a tremendous amount of amusement over my grandmother's old bonnet. Walter dressed up & put it on & walked over to his barracks & caused a lot of amusement. Afterwards children crowded round the window shouting "We want Grandma!" He was accompanied by Mrs Dawes & we have decided to make a proper thing of it on Thursday. Later in the evening lots of fun was had from the little top & picture books & also with jig-saw puzzles.

Apr. 29th This evening there was a boys' merrath which was won by Gurney, who were afterwards presented with a cup made in the camp. At this stage "Grandma" & "Grandpa" put in an appearance & congratulated the winners. They made a splendid pair & caused great amusement. Mrs Dawes made a fine old gentleman & Walter a perfect Grandma. The only thing which could not be disguised were the feet.

May 1st We are all getting terribly bored & fed-up. There is very little post coming in & nothing to relieve the monotony, & we are getting on each other's nerves. What would we not give for a room to ourselves!

May 5th We have been for a lovely walk, all through fields & woods & have seen numbers of lovely little wild flowers. If only we could go for walks by ourselves!

May 8th We have watched a football match Barb against the whole camp. The camp won 3-1. John collided & was knocked out & has since been taken to hospital.

May 10th This evening we watched a handball match of men against women. The men were dressed as women & the women as men & the match was very amusing.

May 11th We have had clean bed-tries & pillowslips, & have washed

all the fuss & commotion. Rings have been discovered in Barb, in consequence they have had a thorough spring-cleaning.

May 12th Barb have played Bar 19 for a handball match for over 55'. It was a walking match & very amusing. Walter played so as to make up the number, although he is two months off 55'.

May 13th We have had an issue of Red X parcels after nearly a fortnight gap. There are no more left in the camp, as this month's supply is long overdue. The weather is much hotter & we are enjoying fine summer weather.

May 14th The camp is very busy preparing for some more people who are due to come here shortly. The weather glorious & nice warm breeze. We have spent the day out of doors & this evening have been to a variety concert which we found very disappointing. Newspapers are coming regularly again, but very little print.

May 15th Glorious weather again & we have spent the evening outside. Numbers of letters have been delivered & the spirits of the camp are much higher.

May 17th All the alterations going on make it seem as though we are here for ever & most of us are very fed-up.

May 18th We have had a lovely walk. It is grand to get outside the gates & the surrounding country is beautiful.

May 20th The camp is very busy preparing for more people expected to-morrow, & also with the removals of the administration who changed their quarters yesterday. Mrs Spence has resigned. About three thousand Red X parcels have arrived. We are told that the people who are coming to-morrow are from Compeigne. An issue of cigarettes has been made.

May 21st Great excitement over the arrival of the people from Compeigne. Mothers & children arrived about 2.30 p.m., Married women & old men about midnight.

May 22nd Newcomers are being settled into their new quarters. We were just in time to see them come from their baths & spoke to Bertha Blondel & Mrs La Galley. Letters coming in the camp are full of cheering news re. the war & many state the hope that it will finish this year. This evening Bertha Blondel came in & had a good long chat.

May 23rd Mrs Kidolls came in this morning & we had a chat. This afternoon we

18

saw Mrs Bartlett + Robin + took her own children's letters, thinking they would be of interest to her, since she has not yet had news of her own children. He was very pleased + is very nice to talk to. It is nice to walk around the camp + see fresh faces from Guernsey. Yesterday we had good soup with peas + to-day we have had a good dinner of meat + potatoes + salad. The new kitchen is beginning to function + the new people must think we are having marvellous meals. Actually this is the first time we have had a knife + fork dinner!

24th News continues to be good + we all feel very hopeful. We met Mrs Le Gallier + had a good chat. Everything at home is going well + the shop going strong. This evening Ruth met Bertha + went walking together + when rain came on she came in our room + we had quite an interesting talk. Mrs Hubner's silver-wedding + we made small presentations from the room.

25th Book-binding books which we applied for some months ago have arrived + we must try + do a little studying.

26th Cold + depressing. Everyone fed-up + irritable.

30th It has been a long week with poor weather + the whole camp seems to be getting on each other's nerves. There is a great scarcity of letters. The war news is good.

June 1st Quite a lot of parcels have arrived by post + we have rec. a notification that there is one for us. We keep meeting people from Compeigne + get G. news from them.

June 2nd We have had a lovely long walk again to-day + thoroughly enjoyed it. This morning we received a parcel of books from Jersey. Many next-of-kin parcels have arrived + caused great excitement all over the camp.

June 4th There has been a very heavy mail in to-day + we have been lucky enough to receive 6 letters, but all this is old stuff which has evidently been delayed on the way, + newer letters were received before this lot. Red X. next-of-kin parcels continue to come through.

June 6th This morning Walter was taken with a fit of shivering + has had to go to hospital for the night. Mrs Damer asked me to go to the concert this evening.

June 7th Walter appears to have some kind of fever, but the doctors have not yet discovered what was wrong. Sam allowed from 2-4 + from 7-8, but it is very busy without him coming in here. Everyone is very kind + enquiring for his welfare.

June 8th Walter is much better. We have had letters from Mr Houdier.

Miss Barnett & the children & Miss B. tells us that Vivian is going into hospital for nerve treatment. Unfortunately he is having his old trouble again & she took him to a children's nerve specialist. The weather is very unsettled & at times quite cold. There are large quantities of Red X. supplies arrived lately.

June 11th Walter is improving but very slowly. His temperature was up to 104 on Monday & is now normal for the first time. The weather continues cold & stormy. Talked to Bertha Way to-night. She finds the day too short for all she has to do!

June 13th Vivian's birthday. Our thoughts are with him continually. How we wonder how ~~they~~ ^{he} is getting on! Walter is improving, but very slowly. Everyone is very kind & do all they can to help, both him & me.

June 14th ^{White Monday} At 10.30 a.m. on the Biberach Belle's played Barb stutiques at a Handball Match & won 3-1! The stutiques were brought down on the truck & placed in their positions! The match was very amusing.

To-night there was a fancy-dress ball. Mrs Bokayuk has died in a hospital outside after a few weeks of mental trouble.

June 15th The weather is cold & windy & tempers are getting frayed. We think with dread of another winter. This evening Walter came out for a short time on condition that he went no further than my bar. He is getting stronger & re-gaining a little of his appetite. We are longing for news of Viv.

June 16th W. has been out for the afternoon, but only came as far as my barrack owing to the cold wintery weather. We have had a hail storm to-night. Twenty German soldiers arrived first thing this morning.

June 17th W. has come out of hospital, but is not very strong. Our room is freezing this week owing to fresh air finds & very cold weather.

June 19th Weather continues cold & wintery & I have had a cold for several days. The room has been freezing & miserable.

June 20th We are both feeling down & longing for news. The news we have had from the children seems so scanty & it is difficult to keep going. Happily the weather is fine & warm again. The whole camp seems to be getting on each other's nerves.

June 22nd We have been for a beautiful long walk to-day & both feel much better & brighter for it, although we are very tired. Most of the

20

people we meet on these walks appear quite friendly & it is only a very small proportion who look on us with dislike. There is a large amount of fruit grown in this district & it makes our mouth water to see the ripe fruit on the trees. Women are doing all the work with the help of a few old men. Even old women are working on the land. There have been some visitors to the camp to-day who are supposed to be International people to inspect the camp. We have seen nothing of them in any of our barracks & wonder if we shall hear anything more about them.

June 24th Arrangements are being made for a barter mart in the camp. Major Stockwell is taking charge assisted by Mr Bradshaw. Mrs Stockwell is taking the ladies dept. & has asked me to help her.

June 27th We are still anxiously waiting for news of Vivian. There is nearly three weeks since we heard he was going to hospital for treatment.

June 30th We have spent quite an amusing hour seeing three short silent films in Bar II.

July 2nd Have seen a variety show by Mr Williams & Tony Chubb which was very enjoyable. Most of kin parcels are arriving in the camp in good numbers.

July 5th Have had another lovely long walk & have been very interested to see all the fruit on the trees especially red currants.

July 6th A very heavy English mail, but not for us. Have seen a cinema film in the Entertainment Hall.

July 11th Walter has had another cold & so have I. We both feel badly out of sorts & wonder however we shall stand the life here if we have to put up with another winter. The selfishness everywhere is colossal & the continual irritations & people rubbing you up the wrong way is almost unbearable. My room is rapidly competing for a refrigerator. What would we not give for even a shed of our own.

July 12th Walter has received 20s. Payers from the Bursary P. of War fund.

July 13th Walter's birthday. Very little to be done in the way of celebrations, but I have made him a cake & given him a pair of socks & we have had quite a nice day together in his room. Stephen Matthews has given him a 'strainer' & a 'birthday card'.

July 14th We have received a parcel of books & jig-saw puzzles from Lerby. This has been in the P.O. since yesterday waiting to be

collected, but we did not receive our notification. Its usual, one book (out of six) had been taken out
July 17th Walter received 200 cigarettes from Bunley & District P.O.W. relative to association.

July 18th This is indeed a Red Letter Day. We had a live kitten in our room this morning. Dinner comprised of minced meat, green peas & old potatoes. To-night we have had a two-minute silence for private prayer in view of the good news from all fronts & hopes of a speedy peace.

July 19th We have had a terrific thunderstorm which lasted from 4.1 on to midnight. While we were having our tea there was a strong hailstorm. Some of the hailstones were nearly as large as golf-balls & the water rushed into the trenches.

July 20th We have been for a walk & have seen much damage caused by yesterday's storm. This evening we have had another very severe thunderstorm. There was a terrific amount of lightning & our lights kept going on & off.

July 23rd There has been some more mail, but none for us again. When we came here we were consoled by the thought that we would have letters often & easily here, but it is as hard to get news as it was in Guernsey. We are terribly anxious about Britain, but we can do nothing but wait. We have had a nice thick towel from the Red X. & yesterday the men had one as well as some elastic & a pair of socks.

July 25th We have had a dinner worth recording, - green peas, carrots & new potatoes & a spot of meat. This was described as Irish Stew!

July 26th Monday morning starts with the usual arguments about the ^{washing} lines with the Bar leader joining in with the usual "St's on German Order". When asked to skew the "German Order" she disappeared! Strong rumours in the camp that Mussolini has resigned. These have afterwards proved to be correct.

July 30th - It has been a week of discord & dissatisfaction & one dreads the thought of the winter when we shall be unable to go out much. How we hope we shall be gone before then! Very little post has come in this week
Aug 1st More news coming in of dissatisfaction in Italy & men desension

in Germany. If all we hear is true, everything is going on remarkably well but what is the truth?

Aug 2nd The men from Hirschberg have arrived during the night. ^{bring Bank} To-day ^{the day} the camp is all "en fête". On the square we have "all the fun of the fair". It has been a real carnival day & the procession this evening was simply marvellous. The number of entries & the beauty of the fancy dresses was splendid. The winners were very difficult to judge. When we saw the gay crowds on the square it made us wonder what it will be like when peace comes! It certainly did not look much like an internment camp. Large sums of money are being collected for the Red X.

Aug 3rd At last a "bumper" mail has arrived. We have had eight but still none from the children. Peter's letter simply mentioned that Pirian was still in hospital, but was improving. The whole camp is full of talk & excitement passing on their various items of news. Two more barracks have discovered bugs. The men from Lauffen are definitely expected to night or to-morrow.

Aug 6th The Lauffen men arrived at 7 a.m. & there has been a continual run of hand-shaking & greetings all over the camp. There has been a remarkably heavy mail & we have had eight letters, but still nothing from the children.

Aug 9th Post & parcels are still coming in, but we have still no news of the children. We saw Mr Bartlett last night & he showed us the letters & photo. He had received from his own children.

Aug 15th Since the beginning of the month we have had a censor in the camp & letters come through much more quickly, but there are still old ones coming in which have been held up either at Frankfurt or Stuttgart. Nothing of importance has occurred during the week. Plenty of parcels have come in & also plenty letters, but we still have not had one from the children.

Aug 18th A large English mail & we have had two letters from Betty but nothing from Scotland. Lots of meat & other parcels come in nearly every day. Letters keep coming in speaking of hopes of speedy re-union. How we long to be able to help Pirian. We know now that he has been in hospital more than six weeks. We have been for our fortnightly walk

The weather was very hot along the roads. People picked up fallen apples. We went quite a long distance through woods of tall pine-trees. They are about 40 to 50 feet in height & only two to three feet apart & very straight. In the camp we are being pestered by large flies & smaller insects which bite & cause swellings. Herr Thomma is in the camp & has called a meeting of all people in authority & bar-leaders & has seemed quite affable & reasonable. In spite of his visit post has been delivered in the camp & parcels delivered & also the usual walk. He seems to realize that after all we are not wild animals, but human beings like himself.

Aug. 20th At last we have had news of the children. What a relief. Letters are coming much more quickly now that we have censors in the camp. The camp lorry (with some of our women) has gone to Stuttgart & 60 kilometres past & had not returned when we went to bed.

Aug 21st The lorry returned early this morning. The heat these days is intense & we miss the breezes of the Blannel Islands. The Germans have been stressing the need for cleanliness in the camp, but they leave the men's lavatories unemptied & the smell is terrible. One walks away from it & then we get near the kitchen & smell rotten potatoes. We are provided with no brushes or soap or disinfectant.

Aug 22nd Our turn for a walk has come sooner than we expected & we have been on the same one as last week. This evening we have received a parcel of 17 books from Tignes, a nice selection including several of our favourite authors.

Aug: 26th We have had a letter from Miss Wilson with a few lines from Mellor & it has cheered us up immensely to see her writing after nearly 3 months gap. This was an old letter & it mentions photos which have been sent & we hope these have not been lost. Although there are improvements with the mail now that we have censors in the camp there are also drawbacks. We are not allowed to send photos & we must not write between the lines. There is also much dissension in the camp on the matter of Goerlands dictatorship & whenever anyone criticises his orders they are told that this is a 'German order'.

Aug 28th The censor has returned one of my cards which offered to pass on a

photo. from Guernsey to England. The order that this could not be done came through the day after the card was written. Yesterday afternoon we saw a film in Bar II. + in the evening we saw a play in the concert hall. This week has passed more pleasantly than they have done lately. We have had our first ration of fruit since coming to Germany. Stewed for the women + one tiny raw apple for the men. 29th Roast beef + potatoes for dinner! This is the first knife + fork dinner provided by the Germans since we came to Germany, + there was only enough for the hospitals + the first four bars. The others are supposed to have a turn in due course!

30th Its notice has been posted up referring to possible re-patriation + has caused great commotion + talk in the camp. Those who do not wish to be repatriated to England have to give in their names. Also to-day the distribution of Red X. coats to those who have applied for them has started. With my unusual luck I have drawn for the last number but one to be issued on the last day. 6000 food parcels have arrived for reserve.

Sept 4th The past few days have been uneventful + one is apt to get depressed. Everyone feels irritated with the merical tiffle. To-day however things seem a little brighter. The Norwegians in this camp (there are about six of them) have been told that they will go back to Norway during the next week.

Sept 5th A few more barracks have had roast meat + potatoes. They are all taking it in turn. War news is very good + everyone very optimistic. What will it be like to feel we are really going home! To get outside the barbed wire for the last time!

Sept 7th Last night the air-raid siren was sounded + we heard the heaviest raid we have yet had. Planes passed over continually + the sounds we heard sounded as though it was raining bombs.

Sept 9th Tremendous excitement all over the camp. The news has come through that Italy capitulated 6 days ago. There are also many rumours of good news on all fronts + we feel as though the end may be in sight.

Sept. 10th This has been a very exciting day. First a long letter from then a basket of apples from Em, then a new coat for me from the Red X. Crowds gather around the camp windows when the news is given out & we hear various versions of the news. There is a feeling of tension all over the camp & we should very much like to know the exact position.

Sept 13th Clothing from the Red X continues to come in in large quantities & to-night we have had to draw for the order in which we shall choose shoes. The men have done the same for boots.

Sept 18th This week has been very uneventful after the excitement of the days before, but we have had news from the children so are more cheerful. Last night Mr. Mrs. Bartlett brought us some photos of their children which they had just received. We have had two letters from Betsy mentioning the sending of our next-of-kin parcels & a pair of shoes for me from Mabel.

Sept 19th More Red X parcels & supplies have come in including 13 coats!
 23rd To-day excitement. People over 65 who wish to return to the C. Some give in their names. Buzz of talk all over the camp. Ellen gave me a little coat.

Sept 24th Three men arrived from Sauffen just after dark. War news good & we hope for a speedy ending. The people in the camp are growing more irritable & "touchy" & one dreads the thought of the winter.

Sept 25th Mrs. Dawe gone to hospital.

Sept 28th Weather is now cold & wintry & we have no fires. No possibility of airing our clothes. New clothes being issued & the discussions, arguments & drawing of tickets for preference, helps to pass away the time.

Oct 2nd The weather keeps cold & wintry & people generally seem to be settling down to winter conditions. Letters from England sound an optimistic note & there is much talk of the over 65's going back to G. We have had our first ration of coal.

Oct. 3rd Capt. Boon died. He was brought to our hospital here on a stretcher & has never left hospital.

Oct 7th Quite a lot of Red X clothing is being issued this week both to men & women & it is all helping to make time fly.

Oct 9th This morning there has been a... in our barracks over the coal issue
This afternoon we have gathered together... protection of this side of the barrack demanding
half the coal which comes in the barracks.

Oct 16th The controversy over coal still rages furiously. I am very unpopular with
the bar leaders! Most of the barrack is dissatisfied with their leadership but
have not the courage to demand a re-election.

Oct 18th Mrs Stockwell summoned a boom leaders meeting over the coal
question. It turned into a free-market brawl, but with nothing done.
The situation has now been taken out of my hands: nothing is done. The
bar leaders continue to enjoy their privileges.

The remainder of the Red X clothing has now been issued.

Oct 24th To-day we started cooking in my room, Walter acting
as cook-stoker with great success.

Oct 30th We have started cooking each day now. There is a
great deal of fog about & everyone is glad of a hot meal.

Nov 13th One year to-day since we arrived here. No signs of going
home. Weather very cold, very little fire. Many colds in the camp. It
seems as if a great depression has fallen over the camp. Everyone is
irritable & easily upset. It is impossible to keep warm.

Nov 23rd What a day. Loads of coal have been arriving in the
camp & W. & I have been with a wanking bucket haggling round
the coal-stove for slack. Five times we have brought the bucket
full & some cardboard boxes. We had to spend a lot of time
waiting but it was worth it & we have kept beautifully warm
this evening. Then there has been a lot of post & we have
had letters from Mrs Mackay, Mabel, Mother, Nellie & Miss W.
We hear that V. has been moved for the third time & that
Miss B. has written to tell us about it, but we have not yet
received it. Walter is kept busy cooking & cooking.

Nov: 26th Rec. Miss Barnett's letter & medical report of Vivian. It is terrible
to have to remain here wasting our time, whilst our son is in need of us.

Nov 27th Played Bridge first time in order to cheer
Walter up. I can see he is very depressed.

Dec 1st Day of calamities! Upset Mrs Brown's
dinner, broke the poker, heated argument re-children
being noisy etc. etc. etc!!! Wish we could get
more quick returns of Viv.

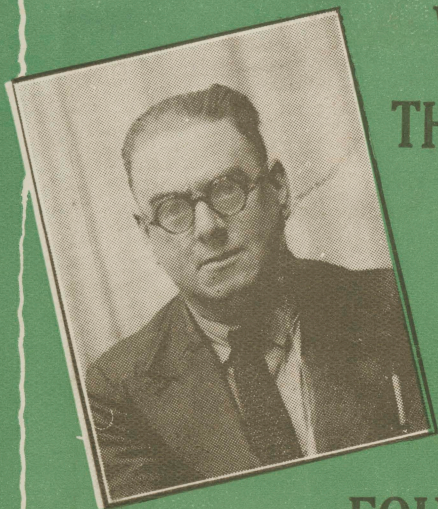

Dec 18th Life goes on the same old way. This month we've
seem more fed up than ever, but the past two days we have
all been busy preparing food parcels which we are going to
be allowed to send to Guernsey. In one half parcel we have
put 22 articles.

For Six Evenings, with Thursday Matinee

Ladies and Gentlemen!

I welcome you all to the Lyric Theatre in order to help celebrate the Second Anniversary Programme which is being supplied by the Lyric No. 1 Variety Stars whose photographs may be found in this Programme.

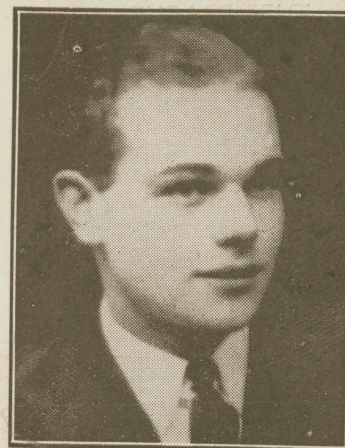

I take this opportunity of congratulating and thanking these Girls and Boys, most of whom have been working under my direction for over two years ; for their hard work and loyalty to the Lyric Theatre which has made our Variety programmes such a success.

I now take pleasure in presenting them once again in the Best Memories of 1943 in 1944 under the title of—

“HITS!”

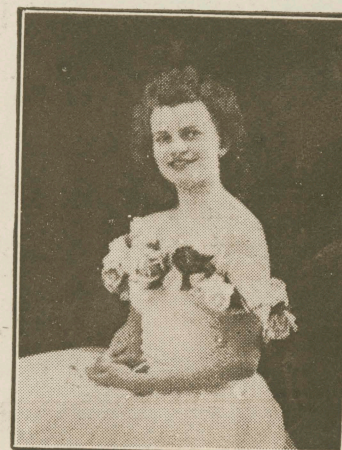

and beg to remain,
Sincerely yours,

PETER CAMPBELL,
General Manager, Lyric Theatre.

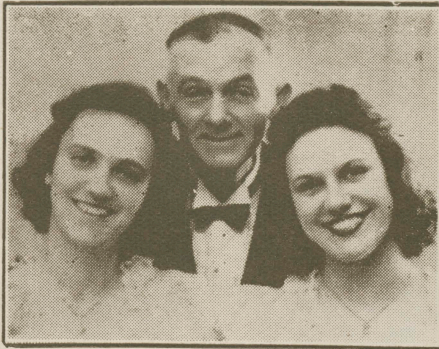

DOUGLAS LUCKIE with well over 200 Variety performances to his credit at this Theatre, will charm you once again by singing—
“The Floral Dance,” and
“Old Man River.”

JESSIE MARRIETTE whose delightful dancing has been an inspiration to us all has selected to dance—
“John Peel.”

OUR CYD, has over 300 performances to his credit. Space alone prevents me from writing all the good things I have to say about CYD GARDNER, THE LYRIC LAUGHTER MAKER who has selected to sing—
“I Lift up my Finger and I say Tweet, Tweet,” and
“Rhymes.”

THE BRACHE SISTERS AND FATHER.—The Lyric is very proud of the Brache Sisters whose charm and originality have never failed to captivate their audience, together with their Father, who is responsible for the original compositions with which they delight us, has selected to sing—
 “Me and the Moon,” and
 “Rumours.”

REX PRIAULX who has been with us now for over a year, during which time he has delighted us with his tenor solos. He has selected to sing—
 “Destiny” and “Parted.”

GERTIE DUQUEMIN also has spent a year with us, during which time her delightful voice has brought us more joy than I can say. Her duets with Rex are long to be remembered. She has selected to sing—
 “Break o’ Day” and
 “Il Bacio.”

GWEN SMITH who has been with us for over two years is perhaps one of our most versatile artistes, and besides dancing, is responsible for her own musical compositions, one of which you will hear in this Programme—
 “When the Sunshine Comes Again.”

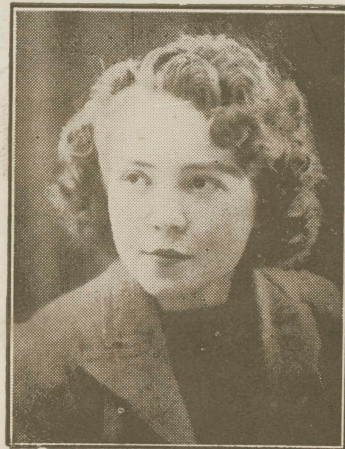

WILF SHIRVELL who perhaps has had more Stage experience than all the Girls and Boys together and still possesses a charm of manner that has made him so popular with everyone will sing—
 “Down the Road” and
 “Keep off the Grass.”

PEARL WHITE SMITH has charm and versatility, she has proved herself a grand little comedienne and as good an artiste as has been my pleasure to meet. She will dance in duet and trio and assist generally to the success of the Show.

E. G. BOIELLE known to everyone as "Ted," is very popular with all and besides playing small parts is the Lyric Scenic Artist and has acquitted himself really well. Well done Ted.

LILIAN BRACHE who has been with us for 18 months has delighted us with song. A real trouper. She will sing for you—

"Cigarette" and
"Dancing Mistress."

FRED COLLET, M.D. LYRIC VARIETY ORCHESTRA. The Lyric Artistes, Patrons and Management, owe more to Mr. Collet than it is possible to write here. It is he and his boys, C. Ferbrache, J. Hillman, H. Reeve, R. Timms, D. Tuckwell, G. Mabire, Miss L. Hillman, L. Gould, A. Mann who have steered all our Musical Shows to a successful conclusion. Well done Fred, and Thank You.
