

Washington

June, 28. 1843

Dear Sir

The President is worse to day than yesterday
I did not see him but am this moment informed by
Col Cabell who has seen him, and will be obliged
as he says to take Calomel, this he ought to have done
soon, do not speak of his illness, for fear of excitement,
but I think you probably had better come soon,
private and confidential

Yr Obedt Servant

W. Williams

Doctor J. B. Sutherland

Letter to
Grandfather
during Gen Harrison's
Illness -
