

~~Dear friends all & I want you to know~~
~~where to send letters when you~~
~~don't know~~

~~the word Forest~~
Nov 3. 1857

My dear Lab:

ever good advice and warning relied on
as comfort me & - friend Mrs. Lovett
wrote shortly after reach
my home, to Hope & Co. for certain
articles of groceries which I requested
them to send to the care of Ferguson & Mil
lado Norfolk - quite a considerable
time has elapsed and we hear nothing
from them - will you put me much
out of the way to step around to
this store, which you remember is
not distant from the Frasier House
and enquire whether they received my letter
and shipped the goods - we are actually
in want of them - Your payment
of the exchange on my checks will
be remitted as soon as I can visit
the City of Richmond - where I can purchase
exchange on New York - The price there
is not half what it is with the brokers
of New York.

We are all well except Lucia who
has continued to labor under the same
excited pulse which causes her to lie

are civilized during most of the summer -
the has of late taken several doses of medi-
cine and altho weakened by them is I think
in better condition, her pulse being more
temperate and calm - I am preparing on
with any seedling of wheat as rapidly as
possible, but in consequence of the very
dry weather which until a week past,
we have had, it will be quite late in
this month before I can finish. This
is the reason for deer and fox hunting,
and the mewy horn falls almost every
morning the air with its sounds. The
deer are quite numerous and I hope
will not be hunted away before soon
pay us a visit.

With best love to all

I enclose a small copy of
hand to Newfane
sendin, this John Taylor
Col. David L. Gardner.

and send me a card to be sent to you
with regard to - What will be required
regarding the show is to take first two to
. Do I need to

do indeed these men are not
men it seems rather to be
and travel bound their conduct & leisure

see at
your
check
to me
