

My dear friend

Dr George Sample was  
an applicant for the place  
which you speak for Col. Curtis,  
and it was decided by the  
Dept. that no change should be  
had at that point.

The President (whom  
I have just consulted, thinks it  
will not do to make any  
change under the circumstances.

Tell him when I am  
that I should like to see him  
this time more. The beautiful  
of a political life, makes  
a man, his own man, does  
to him.

When do you think of  
visiting Washington. I should  
be happy to see you - even to  
all at home -

Very truly yours

Wm. Tyler
