

Phila: Nov 20.

My dear Gov:

Your letter was
my eye. You said dis-
tinctly in your letter
that Walker's Case in
Kansas had strongly shown
the parts of aberrancy
in the, but that provided
the Buchanan had
Walker to be due in
consequence, the content
of affairs would not be
lost to us. The inference
was clear that some
check should be applied
before upon the Walker-
-sketching paper. Specifying
it was necessary to put
in a word or a caveat

To the Party in the State
against the influence or
attempted lead of that
Class of Politicians who
see more deadly opposition
to you than any other
in this country. I send
the "Puff" this morning (see
column). He the effort
the party villain seeks
to break the force of your
most powerful & admirable
letter. Even the Herald
in a measure holds water
the affecting complaint. The
truth is that Mr. Buchanan
has no friends in this
city really devoted to him.
The "Puff" & its allies are
for the "Devil against you."
The Pennsylvania is for
you against Douglas, Webb,
Buchanan, Walker &c.

but the Editor would
prefer Brewster - I wish to
know could he get them.
I hope to make this paper
in the end a well organ,
& have us in to support it
may be I do.

Because of this I should
wish to see every copy of
yours. I wish you to copy
in my own. I need not
be content from the forest
to receive my views as
presented in my last letter
on the point. Your letter
will do. The hope of offering
in Kansas will help you
I think I think - the next
phase -

Why have you not
said to me before that Mr.
Brewster had failed to
visit you in Va. You know

what my hair have been
on that head.

I have just returned
from Boston to day when
I went last Monday to
lecture before the 'Columbian'
Association. My lecture
was a great hit so they
told me - about 12 or 1500
people present. After
supper a complimentary
speech was given to
me at the Parker House
- a very elegant affair.
The audience' health
& young ladies' dresses
were - no more to
be feared -

I have been entirely
excluded from the platform
never last got a fine
reputation, still - no more
accuse the President who
would in my behalf I say
