

Montgomery May 17. 1871

My dear Julia

We were all grieved and shocked by your most sad and unexpected telegram. At the time I was at Haverhill & received the news while attending the Episcopal Diocesan Convention as a delegate from this city. Hence I have not written to you before, having returned only last evening. What can I say to comfort you? Nothing I can. I am sure except that Julia was a sweet innocent child and the brevity of life being so and now she is at rest with God. I do sincerely pity Mr. Spencer & sympathize with him deeply in his profound affliction. I wish that I knew him in order that I might say things to him. We all feel

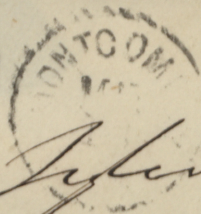

for him with most affectionate regards,
I am your Obedt.

I regret that Garrison
does not something with to me.
I understand that he is in
Virginia and Dr Fuller of
Mobile (Christ Church) writes to
me at Haverhill in very kind
& complimentary terms of him.

My family are all
well at present and considering
the tremendous struggle and journey
of the past few or few years
(from which I am now beginning
to recover) we have reason to be
grateful. My sister writes to
you several days ago but
I omitted her letter "Genoa",
within the County. God bless
you & with yours to send to
love to the boys
Yours very truly
R. Tyler
