My dear Alexander

The Council to day keep
the account of the defect of the Bacon
success. Foster & Dickinson
will meet the trustees.

I learn from the same
source to day that the James
Murray Bala of the 8th was
a tyler officer, & that of
I married by the tyler
office holding. This is strange

Dallas, England, a part of the
name of Wade, & other persons
were invited, & no invitation
was tendered me. Was it this?

Do these men & women I have just
left expect to play their game
into me. All this the whole concern
yet. But you make some
saying about this. As Beattie
has removed. I shall say no more
about it, but I will pledge my
person if he is not removed, then
my will be.

I understand they are at
tide at Washington. How do they
then behave toward you. There
^{is was}
is the same course attempted here.

Yours truly
