

June 6, 1923,

My dearest Lillian;

Enjoyed reading your letter so much and it seemed such a long time since you had written to me.

Am sorry that you have not been real well this week but guess it was too much company and keeping late hours was the cause of it.

We surely did have a nice little rain but not enough to plant tobacco, hope will have some more tonight for I am anxious to plant part of my tobacco crop at least.

Sold one of our cows yesterday and drove her to Bedford today so that means not quite so much work for me right and morning.

would like to be at Moneta tonight but  
feel just too tired for the trip, besides  
have a headache from eating a late dinner.

Don't you know I have not received the  
things that ordered from Roebuck over two  
weeks ago so think will send them a reminder.  
Went to the bank and the check has been  
returned so she must have received the  
order.

Zambert seemed to be perfectly at home  
and saved me many steps especially going  
to the mail box and driving the cows.

Am starting this before supper which is  
something unusual for me to do any way will  
be one the way after supper and that means  
earlier bedtime. These short nights.

Have just finished my job of calling  
the meeting for tomorrow night so maybe  
can finish this before am bothered any  
more.

When did you ever see as many boys  
and just two girls as there was Sunday?

I was somewhat disappointed that the  
girls did not come as had been told  
to be prepared to entertain, but I felt  
pretty good to what some did see sure  
for I had a good time and know some  
did not.

Jack had just as well let Fred alone  
for cannot do a thing with him, besides  
is going about it in the wrong way to  
my way of thinking.

Am so glad I do not have any such troubles  
to contend with, would not be jealous like  
some people for anything, know they are  
bound to be miserable all the time and  
to my way of thinking when a person is  
that way they cant have the confidence  
in others that they should.

Am hungry for a long chat about news, how  
about you? It surely has been a long time since  
we could say anything about our own affairs.

I may come up Cousin Magic's Sunday evening for  
would like to see them anyway and maybe we  
can have a few words coming back, that is if  
you will come with me.

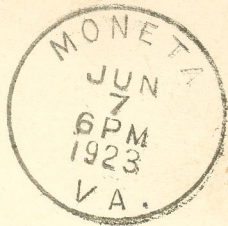

Think those new records prettier every time I  
hear them

Jack just wanted that record because Joe thought  
it pretty and said something about it.

Believe he was aiming to buy it for her so that  
was one reason I did not take him ~~rep.~~ rep. took  
pity on the weak. Ha!

We may have a ball game here Sat. evening, if so  
you must come down and help us win.

Hope this may find you much better if not entirely  
well,  
As ever,  
Yours, Rob.

Miss Lillian Nance
