THE LIVING REMEMBRANCE

You can honor or remember a friend or loved one with a "living gift" -- a new tree on one of the most beautiful and historic campuses in America.

Your contribution of \$150 or more to the John T. Baldwin, Jr. Collection of Woody Species will be used to purchase a tree that will be carefully planted and tended on the William and Mary campus.

A small engraved plaque at the tree will explain to students, faculty, alumni, and visitors that this special living remembrance was donated by you in honor or memory of your friend or relative.

Your gift will grow and prosper as part of a unique and diverse collection of over 300 woody species, and help to beautify the campus of one of our nation's most respected universities. Replacement trees are not included.
